## GAINING GROUND!

Omnibus Statehood Bill Getting More Friends.

WILL SEND WIRELESS MESSAGE

Non-Union Miners Close Their Case Before Strike Commission.

NATIONAL BOARD OF TRADE TO MEET

Special to Citizen.  
Washington, Jan. 10.—Omnibus bill gaining ground. Looks better than ever before.

President's Wireless Message.  
Washington, D. C., Jan. 10.—President Roosevelt today consented to prepare and have transmitted over his signature the first formal message by wireless telegraph across the Atlantic ocean. The message will be directed to King Edward VII of Great Britain and it is expected the king will respond in a suitable manner by the same method of trans-Atlantic communication.

CLOSE THEIR CASE.

Non-Union Men End Their Testimony Before Strike Commission.

Philadelphia, Jan. 10.—The non-union men, having closed their case, the coal companies opened their side of the controversy today before the strike commission.

Chairman Gray is still confined to his home in Wilmington, suffering from a cold and General Wilson again presided.  
The proceedings were opened today by the Delaware & Hudson company, through its counsel, James H. Torrey, of Scranton. In presenting the case of the company he represents Mr. Torrey first delivered an address indicating what the company would try to prove.

National Board of Trade.

Washington, Jan. 10.—The National Board of Trade is an old organization and has held many conferences, but the annual meeting to be held here next week will undoubtedly be the most important and interesting in its history. America's acquirement of new possessions in the West Indies and in the Philippine islands have given birth to many new questions affecting the country's manufacturing and commercial interests and all of these, together with questions of longer standing, but none the less important, will come in for attention at the hands of the eminent representatives of the country's industries who will gather in the national capital next Tuesday.

HIDE HOUSE BURNS.

The Wool and Hide House of Finnegan & Co. at Silver City Goes Up in Smoke.

The wool and hide house of John Finnegan & Co., located in the northern part of Silver City, was totally consumed by fire about 7:30 o'clock on Thursday night. How the fire originated is a mystery, but the manager, L. Burdick, is inclined to think that it resulted from spontaneous combustion of some chemicals used in the business and which he had stored in an old cupboard in the south end of the building, where the blaze was first discovered. The loss is estimated by Mr. Burdick to be about \$1,500, partly covered by insurance.

ROCK ISLAND TO THE COAST

Will Connect With Denver by Way of Pueblo, According to Contractor George Good.

That the Rock Island intends to build to the Pacific coast and to connect with Denver by way of Colorado Springs, Pueblo and El Paso on the south, was practically confirmed this morning by George S. Good, who is now engaged in building the line from Tucumcari to Dawson in New Mexico, and who constructed over 500 miles of the El Paso & Northeastern and other roads now used or controlled by the Rock Island, says the Denver Times. Mr. Good is one of the wealthiest and largest railroad contractors in the west and is considered as being well posted on railroad situations as any man outside of the officials themselves. He stated that the Rock Island was destined for the coast and that the road would absorb the small roads which are now being built in the southwest, which will form the main line. The Albuquerque Eastern is being built from Albuquerque to Santa Rosa on the El Paso line and will form the first part of the new outlet to the Pacific. The San Diego & Eastern is to form the western end. This is now under way from San Diego, Cal., which has one of the best harbors in the west and is the destination of the Rock Island to the Arizona border. In Arizona another company has been incorporated, and also another in New Mexico. In Texas the company has had its charter changed so as to permit of the construction of the line

from Amarillo to Tucumcari, which will make the connecting link between the Choctaw route and the line to Dawson, as well as the Albuquerque Eastern. Mr. Good states that this line will be completed by the last of this month.

According to the chief engineer of the Rock Island, this road to continue on from Dawson to Pueblo, Colorado Springs and Denver, which will give the Rock Island its own tracks from Denver into Memphis. When the new auxiliary roads in New Mexico, Arizona and California are completed they will all be merged into the Rock Island system, and that road will have an outlet of its own to the coast.

The road between St. Louis and Kansas City is also being rapidly pushed, and when completed will give Denver connections over the Rock Island in conjunction with the other roads to be built and controlled by it with Kansas City, St. Louis, Chicago, Memphis, El Paso and California.

Miss Frank has returned to Algodones, after spending a couple of days in the city visiting and shopping.

## A POLITICAL FIGHT

Colorado Excited Over Election of a Senator

FORTUNES IN RARE IMPORTED GEMS

Blockade of Ports Causing Distress in Venezuelan Cities.

PLAN FOR THE BEECHER MEMORIAL

Denver, Jan. 10.—Members of the republican state central committee will hold a meeting here this afternoon. The Wolcott people claim that with proxies they will have a majority of the committee. The meeting this afternoon will issue an address to the republican legislators demanding that they join in a caucus for the purpose of electing a United States senator.

Governor's Message.

Denver, Jan. 10.—It was expected that Governor Orman's message would be read before a joint session of the house and senate this morning, but a resolution was introduced that they canvass the state vote before hearing the message. This caused a wrangle which lasted the entire morning.

Finally the resolution was defeated by unanimous vote and the house recessed to 2 o'clock this afternoon when a joint session will be held to hear the message.

Fortunes in Imported Gems.

New York, Jan. 10.—The extraordinary prosperity of the people of the United States during 1902 is reflected in the heavy importations of diamonds and other precious stones entered at New York. The calendar year of 1901 was a banner year in the importation of gems, but official figures prepared by Gen. George W. Mindil, the special jewelry and diamond examiner at the appraiser's warehouse show that \$550,208.68 more precious stones, including pearls were received during the twelve months just passed than in the preceding calendar year. It appears from General Mindil's report that in 1902 the importations of precious stones, cut and uncut, reached the high valuation of \$25,412,755.75, compared with \$24,862,567.07 in 1901.

Venezuelan Blockade.

Washington, Jan. 10.—A cablegram received from Minister Bowen today stated that he would sail from La Guayra for the United States tomorrow and would be in Washington within a week or ten days. The minister also stated in his message that considerable distress is being felt through the operation of the blockade in the cutting off of food supplies.

Plans for Beecher Memorial.

New York, Jan. 10.—The project to remove the remains of Henry Ward Beecher from Greenwood cemetery to a burial place on the blocks adjoining Plymouth church, Brooklyn, and to erect a memorial building in which shall be placed all Beecher relics, has taken definite shape and there is little doubt that all the money needed will be speedily raised. About \$8,000 already has been subscribed.

The Lumber Mill Scheme.

Another day has passed and there is little change in the situation since yesterday, and whether or not Albuquerque will secure the proposed mills of the American Lumber company.

Messrs. Ira B. Bennett, Edgar F. Allen and D. W. C. Merriam, of the committee representing the lumber company, who have been at Santa Fe since yesterday, telegraphed this afternoon that they would return to Albuquerque this evening, accompanied by W. B. Childers, who is also at Santa Fe.

The citizens' committee is still at work securing data and information regarding different acceptable sites. A conference between the citizens' committee and the committee representing the lumber company, will be held at the Alvarado tonight, and it is hoped that something definite will be decided on. The prospects of Albuquerque getting the mills are really flattering.

LOCAL PARAGRAPHS.

J. A. Skinner, the grocerman, is around after a slight illness.  
Judge B. S. Baker has returned from Santa Fe, where he was in attendance at the supreme court.

Ike Graham, of the firm of Graham Bros., went to Cerrillos yesterday morning and returned last night.

W. W. Strong, the contractor, has begun the construction of a new house on First street for Robert Kriess.

Unless the charter arrives there will be no meeting Monday night of the Central Labor Union, as no business can be transacted until then.

The First Regiment band of this city leave for El Paso tomorrow evening under contract to play during the big carnival commencing January 12,

to continue throughout the week, and from indications the carnival this year will surpass all previous shows. The managers claim it will be the biggest show of the kind on earth, five bands of music, bull fights, thirty combined shows, facsimile of Mount Pelée, etc.

Mr. and Mrs. Frank Hopping wish to thank their many friends for their help during the burning of their home a few days ago. Mrs. Hopping thought her gold watch had been stolen a few days before the fire, but reports to The Citizen office today that it has been found in the ruins.

W. G. Ogle, representing the Mutual Life Insurance company, returned this morning from a business trip to Deming and other southern towns.

Emil Kleinworth, the Third avenue meat market merchant, has returned from a trip to Engle, N. M., where he has been buying cattle.

E. E. Abell, who has been for the past week or ten days on a visit to old friends, will return to Wichita, Kas., tomorrow.

"Our inventory" is the timely morning topic and "Purpose" the evening theme at the Baptist church tomorrow.

Attorney H. M. Daugherty passed through the city last night en route from Santa Fe to his home at Socorro.

Fred Huning is up from Los Lunas. Snow completely covered the ground there this morning.

W. E. Manning, a prominent stockman from near Datil, is in the city.

WOOLEN MILLS.

The Big Building Assuming Wonderful Proportions.

The Rio Grande Woolen Mills on the Mountain road, north of the city, now present a very formidable appearance. The big square building has been treated to a coat of black asphaltum and sand. C. A. McKim has been doing this work the past two weeks and will have finished in a few days. The advent of the mills in the northern part of the city, has created a little activity in building and improving of tenement property in that vicinity. Sofre Alexander, who owns property north and west of the mill site, has begun construction on some five or six little houses presumably to rent to mill employees. The new mills, it is hoped, will be in operation at an early day.

A Sad Mission.

Major Ernest Meyers, senior member of the firm of Myers-Abel Co., received the sad news of the unexpected death of his twin sister, Miss Ernestine Meyers, which occurred at San Francisco yesterday forenoon. Mr. Meyers left today on the California limited for San Francisco to attend the funeral services which will occur next Tuesday. A temporary interment will be made in San Francisco. In April next the body will be taken to the old home at Woodville, Miss., where it will find a final resting place. Mr. Meyers will be absent from the city some ten days.

## WINTER WEATHER

Thermometer Hovers at Zero in the Northern Cities.

COAL SCARCITY CLOSES FACTORY

Courts Investigating the Scarcity of Coal in Chicago.

NEW GERMAN AMBASSADOR APPOINTED

St. Paul, Jan. 10.—With only 4 below zero during the night St. Paul was one of the coldest stations in the north-west, the same figures being reported at La Crosse, Wis., and Moorhead, Minn., while at Huron, S. D., it was 12 above and other northwestern stations indicated a gradual warming up with a possibility of snow for Sunday.

Moderating at Chicago.

Chicago, Jan. 10.—The minimum temperature in Chicago was zero at 6 o'clock this morning, since which time it has been slowly moderating.

Zero Weather.

Columbus, Ohio, Jan. 10.—Zero weather prevailed in Ohio this morning. In Cleveland it was 4 and in Columbus 2. In the country districts it was zero and below. The indications are for warmer, with snow Sunday.

Cold at St. Louis.

St. Louis, Jan. 10.—There was a decided fall in temperature throughout the night and at 7 a. m. the government thermometer registered 12 degrees above. A rise in temperature with rain or snow tonight are the probabilities.

Cold Wave.

Omaha, Jan. 10.—The cold wave that struck the Ohio valley and lake regions did not extend into the upper Missouri valley and the local forecast reports a rise in temperature of from 2 degrees in Omaha to 22 at Huron, S. D., with conditions unsettled and snow flurries probable.

Factory Cannot Get Coal.

Peoria, Ill., Jan. 10.—The plant of the Peoria Glucose & Sugar Refining company has been closed for want of coal and some 800 employees thrown temporarily out of employment. It is stated by the management that every effort will be made to secure the necessary coal for resumption by Monday, but is extremely doubtful, as thirty cars are required daily.

SCARCITY OF COAL.

Said to Be Caused in Chicago by a Combine.

Chicago, Jan. 10.—The prompt action of State's Attorney Chas. Dineen, upon information furnished him by the special committee appointed by the Illinois Manufacturers' association, resulted in the convening this morning of a special grand jury to inquire into the causes for the high prices demanded for coal by Chicago dealers. Twenty deputy sheriffs worked almost the entire night to secure service of summonses upon seventy-five venturers and of subpoenas for the appearance of prominent coal dealers who are believed to be in a coal combination in defiance of the law. When court was called this morning a majority of the tallies were on hand and the work of compelling a jury at once proceeded.

Twenty-three jurors were quickly selected and the oath administered. Judge McEwen's charge was brief and confined largely to defining the duties of the jurors. The jury then retired to enter upon its investigation.

GERMAN AMBASSADOR.

Baron Von Sternberg Will Be Stationed at Washington.

Berlin, Jan. 10.—Baron Speck Von Sternberg, the newly appointed charge d'affaires of Germany at Washington, conferred with Chancellor Von Buelow for two hours today. He was in conference with the chancellor for an hour yesterday evening. The baron will be received in audience by the emperor Tuesday or Wednesday, and will sail from Hamburg January 20 for New York. The Cologne Gazette today, in an apparently inspired statement, denies that Ambassador Von Holleben's retirement from Washington is connected with President Roosevelt's refusal to arbitrate the Venezuelan dispute or to the alleged ill feeling in the United States toward Germany.

REPUBLICAN CANDIDATES.

For Precinct Officers Nominated at Meetings Last Night.

Precinct 12.  
The republicans of precinct 12 assembled in large numbers at the city building last night, for the purpose of nominating candidates for justice of the peace and constable. W. H. Burke officiated as chairman of the meeting. Two names were proposed for justice—A. J. Crawford and H. A. E. Pickard. The result of the ballots showed Crawford

ford the choice of the republicans by a vote of 114 to 24. Francisco Garcia was nominated for constable.

In this precinct, it is understood today, the democrats and independents will nominate W. W. McClellan for justice, and L. T. Gum for constable. Meeting to be held tonight.

Precinct 26.

The primary in this precinct, held last night at the office of Justice Borchert, was not largely attended, only eleven of the faithful putting in appearance. David Denham presided, and made two of the nominating speeches. His candidate for justice of the peace, Col. R. H. Greenleaf, was pitted against the present incumbent, William Borchert, and the latter was declared the nominee. James H. Smith was nominated for constable, and in the count of ballots, gave a Waterloo defeat to Mr. Denham's candidate, John Collins, for the same office. The tellers of the primary were Messrs. Ed. Harsch and DeLong.

It is understood today that Colonel Greenleaf's name was used without his authority, and had he received the nomination would not have accepted. The democrats will hold their primary for this ward tonight and Richard J. Sweeney will no doubt be the choice of the meeting for justice of the peace. Mike Martinez will receive the nomination for constable.

ANOTHER CAPTURE.

The Third of the Jail Birds Who Escaped Rearrested at Kingman.

OFFICER COOPER GOES AFTER HIM.

Officer Harry Cooper left last night for Kingman, Ariz., for the purpose of bringing back Mason, the third recaptured prisoner who left the county jail early New Year's morning.

Mason is the young fellow sent up several weeks ago for stealing an overcoat, revolver and other articles from the home of Santa Fe Storekeeper N. M. Rice.

Sheriff Hubbell, his deputies and the police authorities here are untiring in their efforts to capture the escaped jail birds, and with the assistance of the officers in every town in the southwest they will in a short time have them all back in their old lodging house.

Elks' Meeting Tonight.

The Elks are requested to meet at their hall tonight at the usual hour. There will be initiation and refreshments. All members urged to attend.

Delegate Rodey's Work.

The Washington correspondent of the Oswego, N. Y., Palladium, in writing to his paper, says:  
I heard a republican member of the house "cussin' out" Delegate Rodey the other day, and yet it was quite a compliment to Rodey. It happened this way: The member was first expressing his disgust because the house passed the omnibus statehood bill at the last session and was blaming the committee on rules, and Chairman Knox particularly, for reporting the bill.

"Why didn't you fellows get together and defeat the bill in the house?" was asked.

"It couldn't be done," said the irate republican. "That man Rodey had been at work. He sneaked around and got pledges from everybody he could. He promised that New Mexico would be a republican state, and he was such an insinuating fellow that the first we knew he had enough of our fellows pledged to carry the bill through."

WILL LEAVE PINOS ALTOS.

Rev. H. Van Valkenburgh Resigns to Go to Alamogordo.

Rev. H. Van Valkenburgh, for the last five years pastor of the Gold Avenue Methodist Episcopal church in Pinos Altos and in charge of the Hanover-Santa Rita circuit, down in Grant county, has resigned his position to accept the pastorate of the First Methodist Episcopal church in Alamogordo. He will leave for the scene of his new labors about January 15. It was largely through Rev. Van Valkenburgh's efforts that the edifice of the Gold Avenue Methodist Episcopal church at Pinos Altos was constructed. He has also built up congregations at Central, Santa Rita, Hanover and Piorro, Grant county, and worked unceasingly for the cause of religion. His removal will be deeply felt by the communicants of the church in those places.

John A. Deemer Dead.

John A. Deemer died in Deming the other day from a complication of diseases, after a sickness of some weeks. He leaves a wife, two sons and a daughter to mourn his death. Mr. Deemer was well known in southern New Mexico, having been engaged in the mercantile business at Duncan, Cook's Peak, and Deming. He was of a genial disposition and made many friends.

New Colombo Officers.

The C. Colombo Benevolent society, at a meeting held the other day, elected the following new officers for the ensuing year:

President—Charles Grande; vice president—E. Gradi; treasurer—L. Gradi; secretary—C. Tartaglia.

## FATAL ACCIDENTS

Dynamite Explosion in Philadelphia House of Correction.

WRECK ON THE BIG FOUR RAILROAD

Negotiations for the Payment of the Chinese War Indemnity.

MARCONI WIRELESS TELEGRAPH COMPANY

Philadelphia, Jan. 10.—One man killed, half dozen injured and the woman's wing of the house of correction partially wrecked by the explosion of several sticks of dynamite in the No. 3 shaft of the new filtration plant at Holmsburg, a suburb of this city. The dead man was blown to pieces.  
The woman's wing of the house of correction adjoins the shaft house. The women were at breakfast when the explosion occurred and when the building began to shake there was wild rush to get out, resulting in a panic. The women were gotten out in safety and escorted to another part of the building. Eight hundred panes of glass in the north wing of the house were broken and the force of explosion was felt for many miles.

BIG FOUR WRECK.

Head End Collision of Two Passenger Trains in Illinois.

St. Louis, Mo., Jan. 10.—Assistant General Passenger Agent Hilary, of the Big Four, stated this morning to the Associated Press that nobody was injured and only one man, a new fireman, name unknown, was killed in the wreck on that road between Moro and Bethel, Ill., last night.

The engines and mail and baggage cars of passenger trains Nos. 36 and 11 were wrecked, but as far as known the other cars received no damage that was material.

The responsibility for the collision, which occurred head on on a curve while the trains were going at full speed, has not yet been definitely settled, but Mr. Hilary thinks it resulted from a misunderstanding of orders, or that the dispatcher forgot that No. 11 was running in two sections.

CHINESE INDEMNITY.

European Powers Want Payment of Indemnity in Gold.

London, Jan. 10.—The negotiations between the powers regarding the method of paying the Chinese indemnity are proceeding.

Washington's acceptance of the Chinese proposal to pay in silver does not meet with the cordial approval of Europe.

A foreign office official said today to a representative of the Associated Press today:

"America and England have both been peculiarly generous to China, but this last step meets with considerable opposition in various quarters. We are willing to do everything in our power but the situation is very complicated. The Chinese say that if they have to pay it in gold, it will mean their country's ruin. On the other hand if the payment is made in silver at the present value of the metal, the indemnity which was made as low as it consistently could be made will be enormously reduced. Possibly we may be able to reach some conclusion which will be satisfactory not only to the United States, but to the other powers who do not feel so generously inclined."

Marconi Telegraph Company.

Ottawa, Ontario, Jan. 10.—The Marconi Wireless Telegraph company of Canada has given notice of an application to parliament for an act of incorporation to transact and do business all over British North America, British Isles, Europe and on the Atlantic and Pacific oceans and on islands and places near the same. Powers also are asked for leasing or purchasing existing telegraph, telephone or cable companies.

Money Market.

New York, Jan. 10.—Money on call steady at 4 per cent; prime mercantile paper 5½@5¾ per cent. Silver, 48½.

land for less than fifty thousand dol-  
lars for the site of a public enter-  
prise, it would be only fair to assess  
the property at his figure for taxable  
purposes.

The United States derives an im-  
mense revenue from New Mexico and  
Arizona, and should either give these  
territories statehood, or provide a  
fund for the education of the children  
of these localities. If a knowledge of  
the English language is necessary for  
American citizenship a few govern-  
ment schools should be established in  
every state in the union, and espe-  
cially in Minnesota and Wisconsin.

## FIGHTING FOR STATEHOOD.

The Washington Star says: "Governor Otero, of New Mexico, has arrived in Washington with a noble band of statehood fighters from that territory. Included in the number are Major W. H. H. Llewellyn, district attorney for New Mexico. Major Llewellyn was an officer in the Rough Riders. Solomon Luna, republican national committeeman, is likewise here. The strong men of the territory will now make their final stand for statehood, and will remain in Washington until the fight in congress is settled. Governor Otero and Major Llewellyn called on the president today, but did not discuss statehood with him. The president is thought to be somewhat cold to the proposition, but the territorial adherents do not believe he would veto the omnibus bill now before the senate."

## THE BEVERIDGE REPORT.

The Las Vegas Optic terms the report of the senate committee on territories, "the Beveridge report," because the senator is evidently its author, and its inspiration.

The course of Senator Beveridge in New Mexico was such while here, on his hunt after evidence to justify his position, that almost every citizen of experience in public affairs, felt conscious of the fact that the senator was not seeking out actual facts, on both sides of the statehood question, to ascertain the real truth, and actual conditions, upon which to base a fair impartial judgment.

His course was that of a paid lawyer in charge of a case, looking after every scrap of evidence that would help his side of the question, while studiously avoiding all facts which would make against him.

It was this spirit, and to this end,

the hunt after evidence against statehood was conducted. It is not fair to dignify the conduct of Senator Beveridge, with the term investigation, for that takes in both sides and seeks for the whole truth, whereas the hunt for evidence sought only to bolster up a preconceived conviction, and to support before the country an opinion already formed.

The coming of the senator to New Mexico on his mission, is like the act of a judge in taking the bench to decide a case, about which he had already learned, and in regard to which he had already both formed and expressed an opinion.

## AUDITOR'S REPORT.

Territorial Auditor W. G. Sargent makes several excellent suggestions in his annual report to the governor. Mr. Sargent says the financial condition of the territory has never been better and all appropriations have been met and all accounts against the territory paid, with a few minor exceptions. It is shown by the report that the levy of 1 mill for the year 1900 produced the sum of \$26,744, for the year 1901, the same levy produced \$27,367, an increase of \$623. The levy of 6 mills made by the Thirty-fourth legislative assembly was sufficient to meet all appropriations, and it is recommended the same be continued. Warrants drawn during the fifty-second fiscal year amount to \$333,056; the amount drawn during the fifty-third fiscal year is \$302,305, making the total drawn by the auditor during the term of this report, \$635,361.

## CARNEGIE LIBRARY.

The Kansas City Star says: "If there is any city on the globe that, with propriety, accept a free library from Andrew Carnegie it is Washington, which dedicates such a monument to the memory of the great steel monopolist. Washington is the seat of a government which authorizes such men as Carnegie to throttle competition and to amass excessive and unwieldy fortunes at the expense of the great body of American consumers. It would be more creditable to the spirit of American independence if not a municipality in the land would accept any of Carnegie's tainted money, but there is no city which can do so with more propriety than Washington, the seat of power where monopoly and class favoritism are enthroned."

## Why Ads Are Read.

An observant person remarks that "the public likes as well to read interesting matter in advertising columns as in the news columns." There is nothing surprising about this, since the facts which are advertised have a direct personal interest to the public. The advertiser offers to the public only such things as the people need and about which the character and prices of which they want information. A persistent advertiser is bound to win the attention of all newspaper readers, especially if he or she uses the columns of a newspaper with a well known local and outside circulation. Therefore, consult the columns of The Citizen—it reaches all points.

## A Scientific Discovery.

Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. J. H. O'Reilly & Co. and B. H. Briggs & Co.

Women who have been invalids for years, scarcely able to be up half the time, and the other half of their time spent in bed, have been made healthy, hearty women by the use of Doctor Pierce's Favorite Prescription. It cures the womanly diseases which undermine the strength. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"With pleasure I send a few lines to let you know that I feel much better than for eight years before taking your 'Favorite Prescription.' I write Mrs. Pierce Geise, of West Philadelphia street, York, Penna. 'Will recommend Dr. Pierce's medicine to every person who may inquire as to what it has done for me. I was troubled with female weakness and began to think I would never be well. If I had continued the treatment prescribed by my doctor I don't know what would have become of me. When your treatment was commenced my weight was 105 lbs.; at present it is 130. Have healthy color and my friends say I look well. Still I thank you and my best wishes too, for what you have done for me.'"

Great improvements are anticipated in the way of raising the yards from two to four feet near the Raton electric light plant, a more accessible switch to the wheel house and additional siding.

It was reported the other day that the Santa Fe was short on freight. This is not true. It was given out the other day on good authority that the Santa Fe now has something like 5,000 cars of freight on the "sting" between Hutchinson, Kas., and Raton, N. M., which is tied up on account of the rush. This does not look much like there is any great lack of freight.

The boiler-makers employed by the Rock Island at Herrington, Kansas, are out on a strike for higher wages. They have been getting 31 cents an hour, but this did not satisfy them, so they struck for 34 cents an hour. The Rock Island has offered them 32 cents to return, but although some of them are satisfied with this the majority of them are holding out for more. The strike involves about thirteen men.

At the last meeting of the stockholders of the Coal Valley Mining company, at Rock Island, Ill., whose mines are owned by the Chicago, Rock Island & Pacific railway, Carl Scholz was elected president of the company, vice R. Libby and J. A. Masters, of El Reno, directors. The promoter of the enterprise is Manager Henderson of the Mills States Construction company, of St. Louis. ### SANTA FE MEN WIN.

Engineers and Firemen on Coast Lines Given an Increase in Pay.

A dispatch from Chicago dated January 8, says:

The demand for an increase of pay of the engineers and firemen of the Atchison, Topeka & Santa Fe railroad has been favorably acted upon and they will receive from 19 to 12½ per cent increase.

Manager C. E. Cramer, of the railroad men's conference, who presented the petition to the company, left last night for his home in Albuquerque.

"It was not a large amount that was involved and it was granted," said J. W. Kendrick, of the railroad company.

"In all it amounted to about \$30,000 increase in the pay roll annually. It did not affect the trainmen, only the engineers and firemen on the west end of the system."

### MILEAGE DOUBLED.

Baltimore & Ohio System Now Nearly Nine Thousand Miles.

President Loree, of the Baltimore & Ohio railroad has officially confirmed the published report of the purchase for his company of stock in the Philadelphia & Reading railroad and a subsequent sale of that stock through the Pennsylvania company to the Vanderbilt interests. He said that the control of the Reading was acquired by the Pennsylvania road on behalf of the Baltimore & Ohio road through Kuhn, Loeb & Co.

Of a total of 2,800,000 shares this firm secured between 1,200,000 and 1,600,000 shares in the interest of the Pennsylvania. This was largely preferred stock. Then the Vanderbilts and the Baltimore & Ohio were invited

to take these purchases between them. This was to bring the Reading into the community of ownership scheme originated by the Pennsylvania railroad and the New York Central, without conflicting with the laws of Pennsylvania, which prohibit the Pennsylvania railroad from owning control of a competing line. The Vanderbilts nominated the Lake Shore & Michigan Southern railroad to take up their share of the purchase and the transaction involved the issuing of about \$25,000,000 in bonds.

The Pennsylvania selected the Baltimore & Ohio and this company financed the requirements by part of the money derived from the recent sale of \$42,500,000 of stock.

President Loree said that the deal made a substantial addition to the mileage operated under the Baltimore & Ohio influence, doubling the same, as follows:

Present Baltimore & Ohio system, 4,400 miles; mileage affected by deal, 4,400 miles; total, 8,800.

Mr. Loree said that the management of the Reading would continue as at present.

### Unconscious From Croup.

During a sudden and terrible attack of croup our little girl was unconscious from strangulation, says A. L. Spafford, postmaster, Chester, Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and shortly this child was resting easy and speedily recovered. It cures coughs, colds, croup, and all throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. J. H. O'Reilly & Co., and B. H. Briggs & Co.

### SANTA FE DIRECTORS.

They Were All Re-Elected—E. P. Ripley Made President Again.

The meeting of the directors of the Santa Fe railway, which was to have been held in Topeka on December 15 at the time of the stockholders' meeting, but which was postponed owing to the small attendance of directors, was held Wednesday afternoon in New York City. The principal business was the annual election of officers, which resulted as follows:

Edward P. Ripley, president, Chicago.

E. D. Keana, first vice president, Chicago.

Paul Morton, second vice president, Chicago.

J. W. Kendrick, third vice president, Chicago.

E. Wilder, secretary and treasurer, Topeka.

L. C. Deming, assistant secretary, New York.

H. W. Gardner, assistant treasurer, New York.

Victor Morawetz, general counsel, New York.

E. D. Keana, general solicitor, Chicago.

D. L. Gallup, comptroller, New York.

D. J. Sheehan, deputy comptroller, New York.

H. C. Whitehead, general auditor, Chicago.

W. H. Diehl, transfer agent, New York.

The directors also elected an executive committee of five members, with Victor Morawetz as chairman. This committee, of which President Ripley also is a member ex-officio, as follows:

Victor Morawetz, Benjamin P. Berwind, Thos. P. Fowler, Benjamin P. Cheney, R. Somers Hayes and Charles Steele. All of these men are Santa Fe directors, and heavy stockholders of Santa Fe stock.

The re-election of all the present Santa Fe officials shows that no radical changes in the policy of the road need be expected for another year at least.

The same people apparently are in control of the situation that have been since the reorganization of the company, and no dissatisfaction is manifest with the present methods of management.

Aside from the election of officers, the only business of importance was the discussion of the expenditures and estimates for the ensuing year, and the consideration of matters of general importance to the company. It was

### FED THE PROFESSOR.

This One Had "Dreams More Terrible Than Visions of 'The Comet'."

You must feed the professors and teachers right or they can't do justice to pupils. They should, of all people, possess a healthy nervous and mental organization. The teacher with weak nervous cannot obtain as good results as the one who has a perfect mental poise.

"It had been for me a most difficult problem," said a professor connected with a prominent college of the south, "how to keep the nerves in proper condition and the brain in good working order. Lack of proper opportunity to exercise, an irregular diet and improper food brought on a general breakdown in health. I became irritable and restless and at night would dream of more terrible things than any of Dr. Holmes' vision of 'The Comet'."

Upon the suggestion of a friend, who is a busy business man, I commenced to eat Grape-Nuts every day, and found in a short time a great improvement in my health; the food contained just the nourishment for my body and brain that was lacking. The restlessness disappeared, my stomach ceased to trouble me, mental vigor returned and I am now able to do more and better work than ever before.

When friends express surprise to find me so well, it is necessary only to mention the merits of Grape-Nuts. Name given by Postum Co., Battle Creek, Michigan.

thought possible that something might be announced after this meeting of the directors concerning the rumored acquisition of a line from Kansas City to Cincinnati. There is one rumor that the proposed Kansas City-Cincinnati line is backed not by the Santa Fe, but by the Pennsylvania.

### UNIVERSITY NOTES.

Prof. Hodgins is still on the sick list, but we all hope to see him as cheerful as ever in his lecture room next Monday morning.

During the holidays the chemical laboratory and the blowpipe analysis room were fitted for gas, so now the students are enjoying the luxury of Bunsen burners instead of the troublesome alcohol lamps.

How glad we all are that vacation is over and regular work is again the order of the day.

Three new students entered the university last Monday.

On Thursday we were honored by a visit of Senators Thomas Hughes and George F. Albright and Hon. Nestor Montoya. They inspected the buildings from attic to basement, recitation rooms, laboratories and all. Even the dining hall was given their attention.

Dr. Magnusson occupied the assembly hour last Thursday by a talk on "Pitfalls in Geometry."

### Heads Shoud Never Ache.

Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winale, Va., she writes: "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from two years." Cure headache, constipation, biliousness, 25c at all druggists.

### Santa Fe Needs Water.

There is no truth in the report that the Water and Light company intends to shut off the city water supply. There is a sufficient amount of water in the river to supply the daily needs of the city, but the flow is not great enough to allow the waste of water. The company has informed a few consumers to cease the wasting of water. It is true that the main reservoir is empty. This is preparatory to the annual spring cleansing and flushing of it. This takes place about March, and thereafter it will be refilled to its full capacity. —New Mexico.

## MONTES Y VIGIL GRANT.]

Eight Thousand Acres of Timber Land Purchased by Brady & Bookhimer—Saw Mill Moved to the Tract.

Geo. B. Brady and Benjamin Bookhimer, for many years connected with the Biggs-Burns Lumber company, operating and sawing lumber on the Tierra Amarilla land grant in this territory and in Archuleta county, Colorado, have purchased the timbered portion of the Francisco Montes y Vigil land grant, comprising 8,000 acres and located on the Truchas river in Rio Arriba county, about thirty-five miles north of Santa Fe and twelve miles east of the Denver & Rio Grande railroad. The purchase price, it is understood, is \$150 per acre, and this will be paid in six months' installments.

General Edward L. Bartlett, who represented all the claimants of the grant, made the sale under an order from the district court of the First judicial district.

The first payment has been made and Brady & Bookhimer have taken possession of the property. They have purchased the saw mill and machinery formerly owned by H. S. Buckman on the Ramon Vigil land grant, and have moved it to the tract, but will not be ready to commence active work in cutting timber and sawing lumber for six weeks.

The mill has a capacity of 45,000 feet in twenty-four hours.

There is reported to be a large quantity of good lumber, tie and telegraph timber on the property and the transaction seems to be satisfactory to buyers and sellers alike.

## A WONDERFUL MAN.

John George Secured Deeds to Twenty-Four Lots in San Francisco Without Money.

John George, the man 79 years old, who was brought back to Portales from San Francisco on the charge of defrauding a bank there, is now in the county jail, being unable to give the necessary bond for \$1500.

He is destitute and his only income is a pension of \$12 per month which he draws as a veteran of the Mexican war.

He represented that he had \$3,974.30 in a bank at Sherman, Texas, and deposited with the Portales bank a draft for that amount for collection from Sherman. While waiting for returns he drew \$250 from the Portales bank and went to San Francisco.

When arrested he had just negotiated a loan of \$2,000 from a young man, who had agreed to pay the money the day after George was arrested. The loan was negotiated on the strength of deposit slips and a bank book on the Texas bank and the draft for the usual amount of \$3,974.30.

George had secured passage and a berth on a steamer bound for the Philippines and expected to leave at once. While in San Francisco he negotiated the purchase of twenty-four suburban lots and in some way secured the deeds to the property without paying a dollar. He is a mystery.

## THIS IS PUBLISHED.

Cornell Graduate Now Employed in Santa Fe Machine Shops.

Claude Schrott, an apprentice in the Albuquerque, N. M., machine shops of the Santa Fe, is among the contributors to a recent number of the Railway Gazette.

The article in question is made up of somewhat lengthy extracts from a thesis written by Mr. Schrott while a student in the mechanical department of Cornell university.

Mr. Schrott, who is now a graduate of the department, wrote his final thesis on "Effect of Temperature on Steel Castings." The thesis is strictly technical, but goes so thoroughly and clearly into the questions involved that it was considered worth the attention of the railroad men of the country, and so found its way into the Gazette.

Finishing his work in Cornell, Mr. Schrott took up the practical side of the business of railroad machinery and mechanical problems, starting with other apprentices at the bottom of the Santa Fe ladder.

## SI RYAN HAS PASSED AWAY.

Another Pioneer Citizen of El Paso Dead—Well Known in This City.

Si Ryan is dead. The end came shortly before 1 o'clock Wednesday afternoon, says the El Paso News.

His brother, P. E. Ryan, and a Mr. Tulley, who came from Rhode Island to attend the bedside after the pioneer El Pasoan had become so seriously ill, will accompany the remains back to Rhode Island, leaving on the Golden State Limited.

Si Ryan was known to every citizen of the southwest and to many people of the entire west. He was a native of Rhode Island, but left that state for the west about thirty years ago. For several years he was in Nevada, then California, and later went into business in Tucson, Ariz. He came to El Paso from Tucson in 1884.

Deceased was noted for his charity to the poor, having helped people in distress on many occasions.

When any movement for the public good was started, Si Ryan could be counted upon for aid and in such affairs as the carnival he was to the front in making it a success.

It is said that about twenty years ago Mr. Ryan was prominent in politics in San Francisco, being a dictator of considerable power, but in El Paso he led a very quiet life, attending strictly to his own business and only appearing in public when by so doing he could advance the welfare of any good cause.

Death came to Mr. Ryan in his 58th year, but he possessed a wonderful vitality, and hung to life with surprising tenacity.

## W. C. T. U. Resolutions of Respect.

Whereas, Divine wisdom and love has transplanted our beloved leader and co-worker, Margaret Munson, to a higher sphere of influence and usefulness;

Whereas, She has entered into the fullest fruition of her labors;

Whereas, Her life so complete and rounded out in service and love cannot be destroyed by death, but only divinely sun kissed in full perfection in the eternal harvest beyond;

Whereas, The most potent voice to her was ever the voice of struggling humanity, it pleases us, her sisters in heart and work, to believe that even divine peans cannot wholly drown this insistent voice and that she still works for and with us, only on a wider scale; therefore be it

Resolved, That in memory of her life which touched humanity at so many points, we, her sisters and co-workers, consecrate ourselves anew to the uplifting of humanity; be it

Resolved, That whilst we feel with and for her loved ones in their loss and deeply deplore the breaking of ties so sweet, so all absorbing; yet we rejoice with them in their undying heritage she has left to us—in her memory.

Resolved, That a copy of these resolutions be sent to her beloved family and that they be inserted in the minutes of the local W. C. T. U.

## WORMS

"I write to let you know how I appreciate your  
Cascarets. I commenced taking them last Novem-  
ber and took two ten-cent boxes and passed another  
worm in 10 days. Then I commenced taking them  
again and Wednesday, April 23, I passed another  
tape worm 2 ft. long and over a thousand small  
worms. Previous to my taking Cascarets, I didn't  
know I had a tape-worm. I always had a small  
wasp-like worm in my stomach."

## AMUSEMENTS.

The engagement of the Krause-Taylor  
Big company at Colombo hall all  
next week, commencing Monday night,  
is arousing a great deal of interest  
among the theater goers of the city  
and a great many inquiries have been  
made regarding the plays to be pre-  
sented. The company's repertoire in-  
cludes some well known successes and  
is as follows: The play Monday night  
will be the beautiful picture play, "A  
True Kentuckian," the fantastical  
comedy, "A Gay Deceiver," Dumas'  
masterpiece, "Monte Cristo," the  
charming American comedy, "Jona-  
than Judd, Jr.," Robert Lewis Stev-  
enson's weird and fascinating story,  
"Dr. Jekyll and Mr. Hyde," Washing-  
ton Irving's beautiful legend, "Rip  
Van Winkle," Bartley Campbell's  
grand play, "The Virginian," and the  
sensational of the past season, the  
greatest of all sensational dramas,  
"Jesse James," a story of the life of  
the noted bandit, not as dime novels  
depict him, but as he really was. Spe-  
cial attention is paid to the mounting  
of all the plays, special scenery, ef-  
fects, electric and calcium light effects  
and everything essential for first class  
performances is carried by the com-  
pany. Jack C. Taylor, the star of the  
company, is an actor of ability and  
has received the highest praise from  
eminent critics for his masterful por-  
trayal of such characters as "Edmund  
Dante" in "Monte Cristo," and the  
dual role of "Dr. Jekyll and Mr.  
Hyde." His support includes some  
very clever people, and a week of good  
performance is assured. Monday night  
a lady and gentleman, or two ladies  
will be admitted for one paid 35 cent  
ticket, if purchased before 6 p. m.  
Monday. Seats are now on sale at  
Watson's book store. Popular prices,  
15, 25 and 35 cents.

Drying preparations simply devel-  
op dry catarrhs; they dry up the secretions  
which adhere to the membrane and decom-  
pose, causing a far more serious trouble than  
the ordinary form of catarrh. Avoid all dry-  
ing preparations, those which soothe and  
cool, and use that which cleanses, soothes and  
heals. Ely's Cream Balm is such a remedy,  
and will cure catarrh or cold in the head  
easily and pleasantly. A trial size will be  
mailed for 10 cents. All druggists sell the  
full size. Ely Brothers, 55 Warren St., N. Y.  
The Balm cures without pain, does not  
irritate or cause sneezing. It spreads itself  
over an irritated and angry surface, relieving  
immediately the painful inflammation.  
With Ely's Cream Balm you are armed  
against Nasal Catarrh and Hay Fever.

## ANACONDA MINE CASE.

Judge McFie's Decision in the Lower Court Stands Vesting Title in Carruthers and Others.

The territorial supreme court adjourned yesterday until Monday at 10 a. m.

The case of Lizzie F. O'Brien et al., appellants, vs. James Carruthers et al., appellees, which was to have been heard from the First judicial district court of Santa Fe county, has been dismissed by T. B. Catron, appellants' attorney. The case was appealed from a decision of Judge McFie, holding that the right and title of the well known Anaconda group of mines in the southern part of Santa Fe county, was vested in Carruthers et al. The appeal was taken from this decision and the decision of the lower court stands. T. B. Catron claimed to be one of the principal owners of claims conflicting with the Anaconda group, and also in the Anaconda group proper. This disposition of the case, however, leaves the title complete in Carruthers and his assigns among whom it is understood Nellie B. Field, of Albuquerque, is the largest owner.

This disposition of litigation which has been pending in Santa Fe county for ten years, during which time numerous suits involving the property have been brought and disposed of. The property was at one time known as Lincoln Lucky and Lee mine. Much gold ore has been extracted from the Anaconda and it is considered a very valuable mine.

D. 1902, addressed to the Sheriff of Bernalillo County, in Case No. 6208, wherein Grunsfeld Brothers are plaintiffs and Rafael Sanchez is defendant, I have levied upon the following described real estate, land and premises, to-wit:

A piece or parcel of land 80 varas wide and 100 varas long, bounded on the north by land of C. Turletta, on the south by land of A. J. Chavez, on the east by the acequia and on the west by land of J. L. Chavez.

Also a certain piece or parcel of land 100 varas wide and 100 varas long, bounded on the north by land of S. Sanchez, on the south by land of P. Turletta, on the east by the river and on the west by an arroyo.

All of said pieces and parcels of land being situated in Precinct No. 6 (Los Padillas) in the County of Bernalillo and Territory of New Mexico.

Now, therefore, I, Thomas S. Hubbell, Sheriff of Bernalillo County, New Mexico, do hereby give notice, that in obedience to said writ, I will, on Saturday, January 31, A. D. 1903, at the hour of 10 o'clock in the forenoon of said day, at the front door of the Court House in the town of Albuquerque, County of Bernalillo, New Mexico, offer for sale at public auction all the

The real heroines of every day are in our homes. Frequently, however, it is a mistaken and useless heroism.

Women seem to listen to every call of duty except the supreme one that tells them to guard their health. How much harder the daily tasks become when some derangement of the female organs makes every movement painful and keeps the nervous system unstrung? Irritability takes the place of happiness and amiability; and weakness and suffering takes the place of health and strength. As long as they can drag themselves around, women continue to work and perform their household duties. They have been led to believe that suffering is necessary because they are women. What a mistake!

The use of Lydia E. Pinkham's Vegetable Compound will banish pain and restore happiness. Don't resort to strong stimulants or narcotics when this great strengthening, healing remedy for women is always within reach.

## FREE MEDICAL ADVICE TO WOMEN.

If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

For proof read the symptoms, suffering and cure recited in the following letters:

"DEAR MRS. PINKHAM:—I wish to express to you the great benefit I have derived from your advice and the use of Lydia E. Pinkham's Vegetable Compound. My trouble was female weakness in its worst form and I was in a very bad condition. I could not perform my household duties, my back ached, I was extremely nervous, and I could not eat or sleep, and the bearing-down pains were terrible. My husband spent hundreds of dollars to get me well, and all the medicine that the doctors prescribed failed to do me any good; I resorted to an operation which the physician said was necessary to restore me to health, but I suffered more after it than I did before; I had hemorrhages of the womb that nothing could seem to stop.

"I noticed one of your advertisements and wrote you for advice. I received your reply and carefully followed all instructions. I immediately began to get stronger, and in two weeks was about the house. I took eight bottles of Lydia E. Pinkham's Vegetable Compound and continued following your advice, and to-day I am a well woman. Your remedies and help are a Godsend to suffering women, and I cannot find words to thank you for what you have done for me."—MRS. LOTTIE A. NAYLOR, 1328 N. J. Ave., N.W., Washington, D. C.

"DEAR MRS. PINKHAM:—I write to tell you what Lydia E. Pinkham's Vegetable Compound has done for me.

"I was suffering with falling of the womb and could hardly drag about, but after taking five bottles of Lydia E. Pinkham's Vegetable Compound I was completely cured. I am now a well woman and able to do all my work.

"I think your medicine one of the best remedies in the world."—MRS. J. M. LEE, 141 Lyndal St., Newcastle, Pa.

"DEAR MRS. PINKHAM:—Lydia E. Pinkham's Vegetable Compound has done a great deal for me. I suffered so much from falling of the womb and all the troubles connected with it. I doctored for years with doctors and other remedies but received only temporary relief.

"I began taking your medicine, and had not taken it long before I was feeling better. My husband said that I should keep right on taking it as long as it gave me relief from my suffering, as I could not expect to be cured by one or two bottles. I did so and am now able to be on my feet and work hard all day, and go to bed and rest at night. Thanks to your Vegetable Compound I am certainly grateful for the relief it gave me. It is the mother's great friend. I would not be without it in my house, for when I feel tired or out of sorts I take a few doses and feel all right.

"I would recommend your medicine to all tired mothers, and especially to those suffering as I was."—MRS. E. F. CHAMBERS, Bennett, Neb.

hallucination is that the sun is not  
doing its work properly and he wants  
to go up and oil the axle. He is from  
the Gold Roads and if he is fortunate  
enough to get back about July he will  
find the sun working twelve-hour  
shifts over there. Gold Roads seems  
to be afflicted that way as another un-  
fortunate is said to be on his way in.

From the Miner.  
Walter Castile has given a bond on  
his Stockton Hill mining property to  
California people and a force of men  
are now at work on them. One of the  
veins is a large, well defined ledge of  
silver and gold bearing ore in the  
main canyon running from Cupel  
Wash to the summit of the Cerbat  
range. Considerable work has been  
done on the mine and a good showing  
of ore is in sight.

W. F. Schee, of Schee Brothers, ar-  
rived in Kingman a few days ago from  
Santa Monica, and has gone to the

Pinkham and other mines in this dis-  
trict in which he is interested. Mr.  
Schee and his brother have done a  
great deal of work on these properties  
and we expect that they will work  
along the same systematic lines dur-  
ing the year 1903.

William Freeborn had a narrow es-  
cape from serious injury at his home  
on Stockton Hill, early last week. He  
was building a fire and used a crum-  
pled piece of paper to start it with.  
The paper contained giant caps and  
almost on the instant there was an ex-  
plosion. Pieces of the caps struck Mr.  
Freeborn in the face, cutting it up bad-  
ly. Fortunately his eyes were unin-  
jured, although being colored very  
black.

Doan's Ointment has soothed hun-  
dreds

Here's what one Albuquerque citizen  
says:

A. M. Whitcomb, nursery, corner of  
Eighth and Tijeras streets, says: "In  
my estimation there is no ointment for  
the purposes it is used that can equal  
Doan's. There was a spot just below  
my knee which annoyed me for ten  
years. Unlike eczema it did not spread  
but at times it itched so exasperatingly  
particularly after I went to bed or sat  
by the stove, that I scratched it until  
it smarted before relief came. I tried  
every salve and ointment I came  
across, when one did not help I bought  
another and slapped it on. Reading  
about Doan's Ointment induced me to  
go to the Albuquerque Pharmacy and  
pay four bits for a box. In a few days  
the itchiness ceased and the life of the  
part affected was killed for up to date,  
and it is now over six months since I  
stopped the use of the salve there has  
not been a symptom of its reappearance."

For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo, N.  
Y., sole agents for the United States.  
Remember the name Doan's and take  
no substitute.
