GENERAL RESUME

A Good Year All Around in Albuquerque.

WHOLE TERRITORY IS PROSPEROUS

Conservative Facts Regarding the Industries of This City for 1902.

BRIGHT PROSPECTS FOR THE FUTURE

The dying of the old and the coming of the new year to many means only a throwing away of the old and hanging up of the new calendar; to others it merely means a day of beginning; forgetting the past and starting out with fresh resolutions. But to sensible, broad-minded persons it carries with it a world of meaning.

It is with a feeling of pleasure when one can look back and see the results of a year's work looming up before him in brilliant colors that can be universally recognized as permanent.

To one interested in the welfare of Albuquerque a sketch of the achievements, improvements and progress of the Duke city in the past year is a most interesting subject.

Occupies Prominent Position.
That Albuquerque occupies a more permanent position among the cities of the southwest than it did a year previous is not to be questioned. The reason of this advancement is accounted for by the extensive advertising the city has received from noted events and also from a commercial standpoint.

A conservative estimate of the people who visited the city during the territorial fair will reach 5,000 people, several hundred people coming from Denver and Pueblo. The success which attended the fair was one of the best advertisements which the city could obtain for the progressiveness and industry of its people.

A Trade Center.
Albuquerque is the trade center for an area extending over 100,000 square miles. It is a railway and manufacturing center, and in every essential respect is the most important point between Pueblo and El Paso, and Kansas City and Los Angeles. The last year has brought with it the development of many new mining districts near the city and cattle and sheep ranges are springing up continually.

Capitalists and promoters of industries are constant visitors to the city, whose fame as a trade center is becoming established throughout the United States, for the purpose of investigating the conditions for establishing various kinds of industries which will in every way benefit the city and its people.

It is not the idea to convey the intention that the city is undergoing a boom, but one of those gradual growths which is desired by every patriotic and interested citizen.

The Industrial Side.
The manufacturing, commercial and social side of the city is so plainly in evidence that it has never failed to call forth the admiration of every visitor. When the traffic men of the Santa Fe road visited the metropolis about a month ago, they expressed themselves freely as being favorably impressed with the general appearance and character of the city. The territorial senate committee, who were royally entertained, not only were given an opportunity to see the industrial and educational facilities of the commonwealth, but the social life, in its brilliant and charming aspects, was placed before them. But principles were regulated by prejudice and the progressive city was handed a black eye.

Educational Facilities.
It is a most favorable indication of future advancement when the educational institutions are filled with a prevalent spirit of higher learning and culture. A few of the new features and departures from the old methods of the public schools may be mentioned as: One teacher added to the High school, two teachers to the grade school force, high school enrollment increased about 30, total enrollment increased 125, special music teacher for the grades, fourth grade added to the High school, chemistry laboratory fitted up and electric lights in central building. A most commendable department of the High school are the literary societies. The work being done by the schools at present will stand on par with any of the eastern schools.

The past year has developed the field of music in a wonderful manner.

School of Music.
A department, known as the school

of music of the University of New Mexico, was organized in 1902 and at present has no equal in the southwest as to talented and accomplished musicians. A large enrollment has been built up and several recitals have been given by the faculty and pupils. The faculty is made up of the best talent that could be secured. A chorus of forty-five voices has been organized in connection with the school, one suc-

cessful recital has been given and two more are to follow soon. It is the intention to bring to the city soon artists of merit, who otherwise could not afford to come, and to cultivate the musical taste of the community by vigorous personal study. The department of elocution, oratory and physical culture has also been added to the university course in the last year. This development in the educational line

does not end with the old year, but continues to develop and progress.

Municipal Franchises.
In the way of modern municipal conveniences and necessities may be mentioned the franchise granted the Electric Light and Gas companies and the extended franchise granted the Automatic Telephone company. Although there has been no noticeable advancement or even improvement in the

street railway service in the past year, there is certain to be some most noticeable developments in the next few months. On March 15th the franchise of the new electric street railway expires, and the city council have given the old street car company their choice of rebuilding the present line to conform with the streets or put in an electric line.

The aldermen take the greatest interest in the welfare of the city, as to comfort, convenience and health.

The year of 1902 has seen over a mile and a half of cement sidewalks laid. Not a cheap, short lived affair, but cement walks as are used in the largest and most modernized cities of the world. Over thirty-two blocks of streets have been graded and made

A Prosperous New Year To All Our Patrons

THE NEW YEAR

FATHER TIME (LOQUITUR)

MY SKIE DROOPS LOW, MY SAND GLASS RUNS SLOW
I SCARCE LIFT MY SILVERED HEAD,
AS FAST DOWN THE HILL BELLS COME TO ME SHRILL
FORTHTELLING A YEAR IS DEAD;
BUT NEVER A REST OR A PAUSE HAVE I,
AND ON I MUST LIVE WHILE THE HAPPY DIE.

I WONDER AND DREAM OF THE CRYSTAL STREAM
THAT FLOWS WHERE THE ANGELS BE,
THE DYING I GUIDE TO ITS WHISPERING TIDE
WHICH LEADS TO ETERNITY;
BUT NEVER A REST OR A PAUSE HAVE I,
AND ON I MUST LIVE WHILE THE HAPPY DIE.

THE BELL CHIMES RING OUT WITH CLAMOROUS SHOUT,
THE RACE DOWN THE HILL BEGUN;
AND MELODIES RING, IN MEASURES THAT BRING
A NEW YEAR TO EVERY ONE;
BUT NEVER A REST OR A PAUSE HAVE I,
FOR ON I MUST LIVE WHILE THE OLD YEARS DIE.

BUT IF THERE BE CARE, YET THE WORLD IS FAIR;
AND WORK IS THE CURE OF PAIN;
AND TOILING WILL BLESS WITH ITS STERN CARESS
THE TASK DONE WITH STRESS AND STRAIN;
SO ON TO MY JOURNEY IN PEACE GO I,
WHILE OTHERS MUST LIVE, AND AT LAST MAY DIE.

SECRETARY IDDINGS IS INJURED

Texas Man Killed by a Stray Bullet at Los Angeles.

DEATH OF MRS. W. A. CLARK, JR.

Delhi, India, Jan. 1.—Tens of thousands of people gathered on the great plain outside the city this morning to hear the announcement of the durbar that King Edward was emperor of India. In the center of the plain was a white amphitheater adorned with gilded cupolas. The spectacle was striking and gorgeous. With all the splendor of medieval pageantry, Lord Curzon mounted the throne and made the announcement in a speech and read a message from the king. The announcement was greeted with cheers by the vast throng.

IN A COLLISION.

American Secretary at Rome Injured by an Accident.

Rome, Jan. 1.—As the result of a collision between the carriage of Secretary Iddings of the United States embassy here and a street car last night, Mr. Iddings' shoulder was dislocated, his coachman was injured slightly and the carriage smashed. Mr. Iddings, besides having his shoulder dislocated and his legs bruised, was much shaken but succeeded in extricating himself from the wreck. He is somewhat feverish today but his condition is not serious, though his doctors say six weeks must elapse before he will fully recover from the effects of the accident.

STRAY BULLET.

Texas Man Accidentally Killed at Los Angeles.

Los Angeles, Cal., Jan. 1.—John F. Jones, of Greenville, Texas, was shot and instantly killed at the Lincoln hotel by a New Year's reveler and fell from the second story balcony to the sidewalk. He was viewing the celebration from the balcony when he was hit in the temple by a stray bullet. The body dropped into the midst of a crowd of people and put a stop to all revelry on that corner. Jones came from Texas only a few months ago and was employed in the general offices of the Santa Fe.

Death of Mrs. Clark.

Butte, Mont., Jan. 1.—Mrs. William A. Clark, Jr., died at 4:30 this morning. She was 23 years old. Her baby, for whom she gave her life, was born December 2, and since then her life has hung on a thread.

PROF. HEWITT.

Delegate Rodey Corrects a Statement of The Citizen.

Special to The Citizen.
Washington, Jan. 1.—Correct your statement about Professor Hewitt, of Las Vegas. He is here attending the great scientists' meeting and is doing as much for statehood as any other educator we have. He is all right. Happy New Year.

Statement from Hon. Frank Springer, Special to The Citizen.

East Las Vegas, Jan. 1.—Hon. Thos. Hughes, Albuquerque, N. M.: The statement in The Citizen that Professor Hewitt is in Washington to work against statehood is absolutely untrue. You have been imposed upon by some malicious gossip. Please correct it in most positive terms on my authority. He is in Washington to present papers of value to New Mexico before the American association for the advancement of science.

FRANK SPRINGER.

New Mexico demands Statehood from
the Fifty-Seventh Congress.

Another year will add 25,000 to the
population of New Mexico.

The Roswell Record has issued a
splendid holiday number, descriptive
of the Pecos valley and the growing
city of Roswell.

Albuquerque should enlarge its bor-
ders. The city limits should comprise
the entire Albuquerque land grant of
one square league.

Delegate Rodey is the busiest man
in Washington, being engaged in gather-
ing data for the statehood debate in
the senate next week.

The Roswell Record says that New
Mexico has been knocking so long at
the door of the union that she has
corns on her knuckles.

The El Paso News says: New Mex-
ico by any other name would be just
as great, but her people are all attach-
ed to the name and there is no par-
ticularly good reason for a change. If
a change of name is the price of state-
hood, then a change would be accept-
ed. Otherwise not.

The war taxes authorized as the re-
sult of the conflict with Spain pro-
duced a total of \$380,000,000 before
they were repealed. They are now a
matter of history along with the fact
that they were paid without a per-
ceptible strain upon any class or in-
dividual of the country.

Delegate Rodey is anxious that
every possible influence should be
brought to bear on senators between
now and January 5, urging their sup-
port of the statehood bill. Territorial,
county and city officials are asked to
send telegrams favorable to statehood
to the senate and to individual sena-
tors. Individuals who have senatorial
acquaintance should wire their friends.
Work just now will count.

The place where wood grows fast-
est is the place where are no coal
strikes. A man from Concordia, Kans.,
writes from Cuba in description of the
farming and stock growing methods
which prevail down there. The past-
ure fencing is of barbed wire. It is not
necessary, however, to dig holes and
set posts. A small pole of a certain
kind is driven into the ground to a
depth of ten inches. It takes root
and grows and inside of six months be-
comes a sturdy tree.

TELLER IS FRIENDLY.

New Mexico is indebted to her Colo-
rado and Texas friends. They are
standing by her nobly in the statehood
fight. Senator Teller of Colorado, ob-
jects to having New Mexico put in a
false light before the country, says the
Carlsbad Argus, and when the matter
of laying the statehood bill over to
January 5 was being debated, he took
occasion to say to the senate that he
wanted to make a few remarks on the
bill before the holiday recess. "I do
not want to take very much time," he
said, "but I do want to say something
with reference to the character of the
people of New Mexico. I think they
have been, to speak mildly, slandered
by the committee and slandered by the
senator from Vermont, Mr. Dillingham,
and I want at least, having a pretty
thorough acquaintance with that peo-
ple, to say something about them, and
I shall insist upon saying it either to-
day or tomorrow or some other day be-

fore we adjourn. I do not think it is
fair that the senator should make a
speech and then cut the rest of us off
from dissenting from some of his state-
ments and conclusions. Of course, the
matter may go now; but I regret to say
that I have not had an opportunity to
make a proper defense of a very re-
spectable number of my constituents,
which I will do after the recess, if I
live to get back here. I shall then pay
attention to what I think is a gross
and most uncalled-for slan-der of a
large part of the population in my part
of the country."

CLIMBED INTO FAVOR.

A "national reputation" is something
people usually regard as desirable or
enviable, yet it is something anyone
can acquire if he has money enough
and enterprise enough. This is shown
by the fact that R. W. Tansill, who
died in this territory recently, had
made himself known all over the coun-
try by his advertising of "Tansill"
Punch cigar. Many other business
men have made themselves, or at least
their names, known to most of the sev-
enty millions of people of this country
by means of advertising. In many
cases even comparatively local adver-
tising gives a man a national acquaint-
ance through some novelty that strikes
the popular fancy, as for instance Mr.
Jones, the scale maker, who advertised
in New York state and vicinity that he
would pay freight to the homes of
purchasers of scales. The expression
"pay the freight" was taken up and
is now known almost as widely as the
honored name of Jones.

RAILROAD IMPROVEMENT.

According to advance statements
from the Railroad Gazette, 6,026 miles
were added to the steam railroads of
the United States during 1902. This
new mileage has not been exceeded
since 1888. The figures are exclusive
of second track, sidings and all electric
lines. Rebuilt mileage also ex-
cluded except where the work involved
such extensive changes of alignment
that a new route was established, as in
the case of the Southern Pacific be-
tween certain points in Nevada.

Railroad building was reported done
in forty-two states and territories, and
Oklahoma leads the list with track laid
on 570 miles of new line during the
year. Texas comes second with 496
miles, Arkansas is third with 371 miles
and Indian Territory is fourth with 363
miles. Georgia built 336 miles during
the year. In addition to these, Illinois,
Iowa, Missouri and New Mexico show
returns of over 200 miles built, and
Alabama, California, Florida, Louisi-
ana, Michigan, Minnesota, Mississippi,
Ohio, Pennsylvania, Washington, West
Virginia and Wisconsin built between
100 and 200 miles. No new steam
mileage was reported from Alaska,
Delaware, Idaho, Maryland, New
Hampshire, Rhode Island or Wyoming.
Second track and sidings absorbed
most of the Colorado construction.

In 1883, the panic year, the total new
mileage in the country was 3,024,
which compares with 1,760 in 1894,
1,428 in 1895, 1,692 in 1896, 2,109 in
1897, 2,265 in 1898, 4,569 in 1899, 4,894
in 1900 and 5,368 in 1901. New road
has presented in the past ten years a
fair index of general business pros-
perity.

Returns received direct from prac-
tically every locomotive and car build-
ing plant in the country show that ap-
proximately 164,547 cars have been
built, including cars for use on ele-
vated railroads, but exclusive of street
and other electric cars. This is con-
siderably the largest record which has
ever been made in the country, and ex-
ceeds by 25,542 the output for 1901.
But these figures do not include cars
built by railroads at their own shops.

Of the cars recorded approximately
162,599 are for freight service and
1,948 for passenger service; 161,747 are
for domestic use and 2,800 are for ex-
port.

Last year the total number of cars
built was 144,267, which exceeded by
20,161 the recorded output for the year
1900. The 1901 figures included also
5,262 street cars.

Almost all of the figures for both
1902 and 1901 are official, and in the
two or three cases where it was neces-
sary to make an estimate the num-
ber of cars involved was small, so that
the sum total, as here given, may be
accepted as being very nearly correct.
It may be interesting also to note that
5,561 cars were built during the year
by three firms in Canada.

During the year 4,070 locomotives
were built in the various locomotive
plants in the country, as against 3,384
last year. The number for the current
year includes 74 electric locomotives.
The real meaning of this figure is per-
haps best realized by calculating the
expenditure involved, which would be
nearly \$48,000,000, if the average cost
per locomotive is assumed to be \$12,
000.

ware company's store. It is the most

The healthy
woman need not
fear the change
which comes at the
beginning of life's
autumn. It is the
woman who is worn
out, run down and
a sufferer from
womanly diseases
who naturally
dreads the change
of life. This is the
critical period of
woman's life, and
the prevalence of
womanly diseases
makes it the duty
of every woman
who would avoid
unnecessary suffer-
ing to take especial
care of herself at this time.

The ill which vex so many women at
the change of life are entirely avoided
or cured by the use of Dr. Pierce's Fa-
vorite Prescription. It makes weak
women strong, and enables the weakest
to pass through this trying change with
the tranquility of perfect health.

I have been a very healthy woman, and this
time has been very hard with me," writes Mrs.
Maggie Morris, of Munson Station, Clearfield
Co., Pa., Box 15. "I am come to the time of
change of life, and I have been sick a great deal
of late. When Mrs. Morris moved beside
me I was sick in bed, and when she came to see
me and we were talking over our sickness, Mrs.
Morris told me to try Dr. Pierce's Favorite
Prescription and 'Golden Medical Discovery,'
also 'Pierce's Kidney and Bladder Cure.' I never
saw such a wonderful cure. Before I com-
menced your remedies I was good for nothing;
I was in such misery I hardly knew when to
with myself, now I can do all my work myself
and feel well."

and pleasant to take.

GENERAL RESUME.

(Concluded from page one.)

comfortable for the travel of vehicles. All the bridges and culverts have been recovered and several new bridges built. A better sewerage system is hard to find, in fact the sanitary conditions of the city are looked after carefully and no room is left for the development of diseases. The street commissioner uses to a good advantage all the "bobos" and drunks, who find their way into the police court in keeping the streets clean and in good condition.

The council's interest in the public health has reached the point where they have provided for the inspection of milk and foods. Albuquerque has been and is adopting municipal methods and customs daily that her people may enjoy the privileges as other citizens do.

Buildings Substantial.

Real estate dealers have had a prosperous and successful year. There has not been a street, but on which property has been sold or residences erected.

The contractors say that the buildings in the past year have, without exception, built modern equipped houses. Many beautiful homes, with every comfort and convenience, have been erected in the past year. Not only have they had a prosperous year, but there are better prospects for business blocks and residences to go up in the near future than ever before. Several large business blocks are under erection now, and many buildings have been remodeled. There is no doubt but that another year will bring with it a new theater, postoffice and other desirable buildings.

From an architectural standpoint Albuquerque has as fine experts as are to be found in the southwest; their ideas are all modern and strictly up to date, which is a favorable qualification with the progressive citizen.

A Curio Center.

Albuquerque has gained a wide reputation and received much attention as a curio center. Branch curio stores are to be found in New York, Pittsburgh and Chicago, which are supplied from Albuquerque. Advertising literature is distributed from these stores inducing the people to visit the place where such wonders are natural.

Transcontinental travelers cannot fail to be impressed from the city's entrance and form good opinions from the depot and hotel built, as they are, after the old Spanish missions.

Visitors Favorably Impressed.

Southwest contains as many interesting and wonderful places as does the old world; from a historical view, more, and the pleasure and sightseeing world have come to realize it. Every year brings more and more people into the land of sunshine, and in many cases they are so favorably impressed that they are soon won them as residents.

Police Protection.

While it cannot be stated that the city is better morally, it can be said that the police authorities have done effective work in suppressing and preventing crime. One new policeman has been added to the force in the past year.

Continual Sunshine.

As a municipality there is lacking the general clamor connected with a lively city. We miss the clang and rumble of the electric car, the jarring noise of the heavy trucks over the rough cobbles, the characteristic cry of the "newsie" and the jostling and pushing of the world of the streets, but we have a prevalent feature, which surpasses all those everyday indications of city life, and that is an ideal climate with a continual blessing of sunshine.

A Bright Future.

Architects, contractors, builders and all public interested men assert that Albuquerque has a better future before her than any city in the southwest. And this assertion is confined and made favorable by the fact that a generous public spirit predominates.

If the progressive spirit of 1902 is equal to that of 1901 there is no doubt about a successful and happy new year.

BACK FROM EL PASO.

W. H. Foster, of Foster Millinery Company, Surprised at the Fire.

W. H. Foster, of the Foster Millinery company, returned this morning from El Paso and other southern towns. Mr. Foster, who had been in El Paso on account of his health, left that city the day previous to the fire of Monday night, and was making a visit to the small towns between El Paso and this city. After many telegrams he was finally notified of the disastrous fire. The fire and loss connected with it was quite a shock to Mr. Foster. However, he states that he will equip another store in the same building where he was burned out.

F. H. Rhoads, fire adjuster for the Continental company, of Denver, will be in Albuquerque Saturday to investigate the origin of the fire. It is probable that Mr. Rhoads will do the adjusting for all the companies, with which the firm was insured.

MORE CHANGES.

E. G. Witteberg Quits The Alvarado and Goes to Chicago.

Yesterday, The Citizen mentioned the fact that J. Fred. Klooz had resigned as manager of "The Alvarado," and W. H. Cheatham had succeeded him.

Last night, the well known and popular steward of the big hotel, E. G. Witteberg, left for Chicago, where he will become the steward of the Sherman house. He is a thoroughly capable man, and one of the best that has ever come to the southwest in the capacity of hotel steward.

Today, the handsome Sherman house, Chicago, changed managers, A. Frank, for many years the superintendent of Fred Harvey's railway dining cars, assuming the management. Byron Harvey takes the position made vacant by Mr. Frank's resignation.

John Stein, one of the superintendents of the system, is in the city, and yesterday turned over the management of "The Alvarado" to Mr. Cheatham.

WOODMEN OF THE WORLD.

They Danced the Old Year Out and the New in Last Night.

The fourth annual ball of the Woodmen of the World was a function which was hugely enjoyed by the crowd of dancers, who gathered at Colombo hall last night to celebrate the great event. The spacious floor was filled with gay and mirthful dancers, who did not mind the occasional bumps, which were difficult to avoid on the crowded floor. The gay throng danced the old year out and the new year in, not leaving the hall until after 2 o'clock. The Berry orchestra furnished the pleasing music, and several numbers were rendered by the Italian band. Seventeen dances and six extras constituted the program with several extras thrown in. There was nothing lacking in the management to make the ball a success.

STANTON-GALLEGOS.

A Former Albuquerque Young Man Married at Las Vegas.

A. B. Stanton, Jr., and Miss Elmira Gallegos, both of this city, were married by Rev. Father Pouget at the east side Catholic church Monday morning, in the presence of a large company of relatives and friends.

The bride wore a handsome gown of white silk, decorated with orange blossoms, and carried a beautiful bouquet of roses and carnations.

Charles A. Stanton, a brother of the groom, and Miss Othello Gallegos were the attendants of the happy couple.

After the ceremony the happy couple and wedding guests repaired to the home of the bride's parents, on Railroad avenue, where they enjoyed a most delicious wedding breakfast, the pretty home being most beautifully decorated for the occasion. The presents were not only numerous but costly, showing the esteem in which the young couple is held.

Mr. and Mrs. Stanton are well known and highly esteemed in this city, and they have the best wishes of their many friends for a life of happiness. They will make their home in this city. —Record.

CHAMBERLAIN'S STOMACH AND LIVER TABLETS.

Try them

When you feel dull after eating.

When you have no appetite.

When you have a bad taste in the mouth.

When your liver is torpid.

When your bowels are constipated.

When you have a headache.

When you feel bilious.

They will improve your appetite,

cleanse and invigorate your stomach

and regulate your liver and bowels.

For sale by all druggists.

H. T. McIntyre, St. Paul, Minn., who has been troubled with a disordered stomach, says: "Chamberlain's Stomach and Liver Tablets do me more good than anything I have ever taken." For sale by all druggists.

A Working Legislator.

Hon. J. S. Duncan, of Las Vegas, is not a novice in the legislative halls of the territory. As a member of the Thirty-second assembly he procured far-reaching and judicious legislation in behalf of our educational interests, and we feel sure Mr. Duncan, while especially watchful for his own district, has the welfare of the whole territory at heart. Mr. Duncan is primarily a careful business man, and it takes just such training to legislate for a great commonwealth.—Las Cruces Republican.

To Get Rid of a Troublesome Corn.

First soak it in warm water to soften it, then pare it down as closely as possible without drawing the blood and apply Chamberlain's Pain Balm twice daily; rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by all druggists.

Christmas Accident.

What might have proved a very serious accident occurred Christmas eve at the house of Henry Stoes. Little folks of the neighborhood were gathered about a little Christmas tree, when cotton upon the coat of Mr. Stoes, who was impersonating Santa Claus, suddenly caught fire. Both Mr. and Mrs. Stoes were painfully burned before the flames were extinguished and the little ones present were pretty badly scalded. Fortunately it was no worse, though victims of the accident are still suffering from their burns.—Las Cruces Republican.

Had a Good Time.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says: "I was telling my troubles to a lady friend, who said: 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by all druggists.

A Sad Procession.

It was a sad procession that wended its way over the railroad past Winslow Tuesday morning, the remains of three engines, which participated in the Yavapai wreck, being conveyed to the Albuquerque hospital for disabled engines. Hopes are entertained that they will recover from the injuries and have as strong a pull on the railroad as ever.—Winslow Mail.

Foley's Honey and Tar positively cures all throat and lung diseases. Refuse substitutes. Alvarado Pharmacy.

Smallpox at Truxton School.

It is reported on the best of authority that there are twenty-two cases of smallpox at the Truxton Canyon Indian school, in Arizona, the patients being Indian children.

No deaths up to this time have occurred and the cases are said to be of a mild type, although the disease is

very pronounced. Dr. Perkins, the superintendent, is doing everything possible to prevent the spread of the disease to the tribe, but it is possible that isolated cases among the older Indians may result from the contagion prior to the discovery of the nature of the outbreak. The school has been closed and the school room is used for the patients.—Kingman Miner.

COUGHS AND COLDS IN CHILDREN

Recommendation of a Well Known Chicago Physician.

I use and prescribe Chamberlain's Cough Remedy for almost all obstinate constricted coughs, with direct results. I prescribe it to children of all ages. Am glad to recommend it to all in need and seeking relief from colds and coughs and bronchial affections. It is non-narcotic and safe in the hands of the most unprofessional. A universal panacea for all mankind.—Mrs. Mary R. Melendy, M. D., Ph. D., Chicago, Ill. This remedy is for sale by all druggists.

Not a Quitter.

The enemies of Senator Quay are spreading a report that he is not serious in his fight for statehood and that he will "lay down" after making a bluff. No one who knows Quay will believe this. That is not his method. He never "lays down"; he is not a quitter, and he never goes into a contest but with the expectation of winning. With those who are spreading this report the wish is evidently father to the thought.—Tucson Citizen.

A Good Cough Medicine.

(From the Gazette, Toowoomba, Australia.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockner. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

Beautiful Crystal.

A very fine stalactite was found in a cave on the Gila last week by Frank Fleming. It measures several feet in length and is covered with beautifully colored prisms which shine like diamonds in the sunlight. The stalactite will probably be included in New Mexico's mining exhibit at the St. Louis fair.—Silver City Enterprise.

A Thousand Dollar's Worth of Good.

A. H. Thurnes, a well known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years passing gravel or stones with excruciating pain. I got no relief from medicines until I began taking Foley's Kidney Cure, then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and feel like a new man. It has done me a \$1000 worth of good." Alvarado Pharmacy.

Navajo Irrigation Ditch.

The Farmington Hustler says that the government survey for the new Navajo ditch was completed Monday. Mr. Butler departing for Fort Lewis, where he will remain a few days and then return to the San Juan river to make two more surveys for the Indians. The new canal will extend from Farmington to about twenty-five miles south of the hogback.

A kidney or bladder trouble can always be cured by using Foley's Kidney Cure in time. Alvarado Pharmacy.

Waived Examination.

J. E. McDonald, charged with the murder of William Turk, at Hope, was remanded to the grand jury without bond. The preliminary examination had been commenced and some of the testimony heard when his attorneys suddenly announced that he would waive examination. The testimony showed that Turk did not draw his revolver.

A Timely Topic.

At this season of coughs and colds it is well to know that Foley's Honey and Tar is the greatest throat and lung remedy. It cures quickly and prevents serious results from a cold. Alvarado Pharmacy.

FARMINGTON FACTORIES.

Two More Industries to Be Added to the Town.

From the Hustler. Another feather in Farmington's cap, more employment for our mechanics, further assurance that Farmington will always be the commercial center of the county, a town that a railroad is bound to seek, are the present conditions that now exist.

Immediately upon the announcement that Mr. Pitrat had arrived to begin construction work on the big flour mill, comes the news of a new organization with capital subscribed, to build and operate a fruit cannery and cold storage plant. The incorporators are J. C. Bowman, Charles Bowman, Alex Bowman, M. M. Engleman and others. A 45-horse power engine and boiler are already on the ground, together with a large portion of the lumber to be used in the building. The site will be the half block of land constituting the southwest corner of Oliver and Animas streets, directly south of the flour mill site. It is the intention of the company to have the plant ready for the coming season.

Don't be imposed upon by taking substitutes offered for Foley's Honey and Tar. Alvarado Pharmacy.

Impossible to get freights over the Rock Island is heard from every quarter. The matter seems to be a multiplicity of things. Bad water, which disables engines on the line between Alamogordo and Santa Rosa; snow fall on the divide between Carrizozo and Santa Rosa, and the California orange crop is also taking precedence of all other freights, and the railroad company, it is said, is under contract to move it within a certain time, as is the custom with perishable freights.

THEY ALL SAY SO.

Not Only in Albuquerque but in Every City and Town in the Union.

If the reader took the time and trouble to ask his fellow residents of Albuquerque the simple question given below, he would obtain the one answer. If he would read the statements now being published in Albuquerque which refer to this answer, it would surprise him to note that they number so many. As many more could be, and may be, published, but in the meantime ask the first person you meet what cures backache? The answer will be Doan's Kidney Pills. Here is a citizen who endorses our claim.

Mrs. J. Hall, of 519 South First street, says: "One of my daughters suffered from backache for about eight months or a year. Sometime it was so bad that she was completely prostrated for a day or so at a time. I read about Doan's Kidney Pills in our Albuquerque newspaper and thought if they only performed half what they promised they might help my daughter and we went to the Alvarado Pharmacy for a box. In a remarkably short time the medicine took effect and a continuation of the treatment a little longer stopped the backache. We are pleased to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

PORTALES.

From the Herald.

H. S. Bennett, of Crowell, Texas, will take charge of the new Pinkston hotel building on or about January tenth. The new hotel will be called the Portales House. Mr. Bennett is an experienced hotel man and is deserving of a share of the public patronage.

Sheriff Higgins came up from Roswell and rearrested L. C. Freeman, the man who killed Wm. Farris several weeks ago. Freeman had his examination trial shortly after the killing occurred and his bond was fixed at \$1,000. It seems that the officers have dug up some new evidence against Freeman and caused his rearrest. His bond was fixed this time at \$1,500, which he was not able to give, and Sheriff Higgins took him to the county jail at Roswell. Attorney W. W. Gatewood from Roswell, appeared for the prosecution.

The question of county division is at present the most interesting topic for discussion among the citizens of eastern Chaves county. Of course it is known that a division of some kind is going to be made in the near future and Portales is going to make a fight for the county seat of the new county. Portales is the largest town in the eastern part of the county, is splendidly located and is enjoying a good steady growth, and is populated by an intelligent and enterprising class of people who are interested in her development and growth. We must all work together for that which we know will make Portales a larger and better town. Let some one take the lead in this matter—call a meeting of our citizens so that plans may be formulated upon which to make this fight. Let us do something and that at once.

One Hundred Dollars a Box.

Is the value H. A. Tisdale, Summerton, S. C., places on De Witt's Witch Hazel Salve. He says: "I had the piles for 20 years. It is a combination of the healing properties of Witch Hazel with antiseptics and emollients: relieves and permanently cures blind, bleeding itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases. W. N. Hager returned from the New man oil well the first of the week. He reports the outlook better than ever before. They have enough oil that it will rise to the top of the water and can take off. The oil has been tested and is of a high grade. The well is now down 1000 feet and will be put down 200 further if necessary.

Mr. Shears of Highrolls, was in town this week with a big load of his fine vegetables. He prides himself upon the celery which he can raise, and this office is indebted to him for some of the finest celery we have ever tasted either from the California or Michigan gardens. Mr. Shears is an old and experienced gardener and every winter makes trips to El Paso and this vicinity to sell his vegetables.

A Plucky Young Lady.

Miss Cora Allen, a young lady who lives at White Signal ranch, a distance of some twenty miles from this place, is undoubtedly a nifty girl.

Being extremely frail and delicate, she spends most of her time riding and driving in the open air for the sole benefit of her health. On these trips she always carries a little 22-caliber rifle, and has proven on many occasions that she is not afraid to use it.

A few days ago, while driving near Oak Grove ranch she suddenly came upon a large wildcat and lost no time in firing at it. At the report of the gun the animal fell, rolling some distance down an embankment, but regained its footing and ran off over a hill, which was entirely too steep and rough for any one to follow in a buggy.

Miss Allen seems very sorry to have missed getting the animal, but is now spending much time in search of a band of lofer wolves, which are said to be ranging in the vicinity of Cactus Flat.—Silver City Independent.

The Bells of Fate.

Before the sweet sound of the wedding bells had hardly died away the very sad news of the death of the mother of Fred D. Bush was received at Silver City by the young gentleman on the 29th day of December. The news was a severe shock to the young man, as he had only returned from her bedside but a few weeks previous and left her improving with chances favorable for ultimate recovery. About two weeks ago he was married to one of Silver City's leading young ladies. His many Albuquerque friends will be sorry to learn of the sad news, and with The Citizen extend heartfelt sympathy.

A Scientific Discovery.

Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-lord. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. J. H. O'Reilly & Co. and B. H. Briggs & Co.

ST. JOHN'S DAY.

The Anniversary is Celebrated by Masonic Fraternity.

The twenty-seventh of December was the anniversary on which the feast of St. John is celebrated by the Masonic fraternity. Masonic lodges in ancient times were dedicated to King Solomon. Tradition informs us that they were thus dedicated from the builder of the first temple at Jerusalem to the Babylonish captivity. From that time to the coming of the Messiah they were dedicated to Zerubabel, the builder of the second temple and from that to the final destruction of the temple by Vespasian, they were dedicated to St. John the Baptist.

Owing to the many massacres and disorders which attended that memorable event, Freemasonry fell very much into decay. Many of the lodges were broken up, and but few could meet with sufficient numbers to constitute their legality. Under these circumstances, a general meeting of the craft was held in the city of Benjamin, when it was observed that the principal reason for the decline of Masonry was the want of a Grand Master to direct its affairs. They thereupon deputed seven of the most eminent of their members to wait upon St. John the Evangelist, who was at that time Bishop of Ephesus, to request him to take the office of Grand Master. He returned for answer that, though well stricken in years, (being upwards of ninety), yet having been in the early part of his life initiated into Masonry he would take upon himself the office.

He did so and completed by his learning what St. John had accomplished by his zeal. After his decease the Christian lodges were dedicated to him and St. John the Baptist, both of them regarded as eminent Christian patrons of Masonry. Since then Masons have ever celebrated the 24th of June in commemoration of St. John the Baptist, and the 27th of December in commemoration of St. John the Evangelist.

McGINN-HOWARD.

A Pretty Christmas Wedding of Two Popular Young People.

A very pretty wedding was celebrated on Christmas day at the Catholic church, Gallup, by Rev. George J. Julliard. The contracting parties were Miss Margaret Howard and Hugh S. McGinn, of Gibson. The groomsmen were Thomas McGinn; the bridesmaid, Miss Gabrielle Zaczynski. The maid of honor was Miss Katie McGinn. The church was crowded with friends of the young people who have grown up here in our midst.

The bride was gowned in a beautiful dress of green silk with orange blossoms, the maid of honor wore a handsome green silk with roses and carnations, and the bridesmaid was tastefully dressed in tan colored silk with roses. Four bright little girls dressed in white were the flower girls and veil bearers.

After the ceremony the party and guests proceeded to the McGinn home at Gibson, where a bountiful dinner was served to all and refreshments of all kinds were in abundance. The young people enjoyed themselves in dancing, and merrymaking was kept up until a late hour.

The newly married couple were recipients of a number of beautiful and useful presents. The entertainment of the large number of guests was perfect and the occasion will be a pleasant remembrance for years to come.—Gallup Republican.

AT THE CHURCHES.

Interesting New Year Entertainments Held Last Night.

THEY WERE WATCH MEETINGS.

The coming of the new year was celebrated and heralded in last night by gatherings of people in most every church in the city. The services in various instances were elaborate and appropriate to the occasion.

St. John's Church.
The services of St. John's church began by Christmas exercises given at Grant hall by the Sunday school. The hall was well crowded and the entertainment was highly enjoyable. A handsome Christmas tree loaded with presents was the center of attraction. After the rendering of the following program the presents were distributed among the children:

Carol—Sunday school.
After the conclusion of the exercises at Grant hall, those in attendance went to the church at the corner of Silver avenue and Fourth street, where the advent of the new year was solemnized by the partaking of holy communion.

Lead Avenue M. E. Church.
The going of the old year and the coming of the new, was solemnized at Lead Avenue Methodist Episcopal church last night with a befitting program consisting of addresses and song services. The congregation knelt in prayer during the last fleeting moments of the passing year. On the coming of the new year the pastor, Rev. Smith, proclaimed words beseeching the occasion.

Baptist Church.
The services at the Baptist church were opened by the singing of the doxology by the congregation, followed by invocation by Rev. N. W. Alger. Deacon W. H. Wroth read a Scripture lesson followed by singing. The Rev. G. H. Brewer led a short prayer service. Music by the choir and the general reports of the different officers of the church were heard.
Rev. H. J. Powell, pastor of the church made a short address from "God's Call Forward."
The new officers were installed in their respective positions and the services closed with a roll call of the members of the church.
The glad New Year was ushered in by singing.

Congregational Church.
The congregation of the Congregational church assembled in their edifice last night and solemnized the coming of the new year with a praise service, conducted by the pastor, Rev. Geo. W. Marsh. Songs were sung and a social time followed the opening hour of the year 1903.

Home Socials.
Miss Irma Schuster entertained a number of her intimate friends with games, dancing and music at her home last night. A most pleasant evening was enjoyed by all present.
The last of the old year at the home of Mrs. M. K. Gatlin was spent in a delightful evening of card playing. Choice refreshments were served.

A New Year's party at the home of Mr. and Mrs. A. Rosenwald was one of the pleasant social events of last evening. Games and music and an enjoyable time saw the approach of the New Year.

A charming card party was held at the home of Miss Julia Lee last evening. Refreshments of a pleasing nature were served at a seasonable hour.
The C. J. C. of the Methodist church gathered at the residence of Thomas Hughes last evening, and watched the old year die. This class of young people are a cheerful set, and spent the evening in a pleasant way.

It was a Stray Shot.
During the booming in of the new year last night some careless person shot a hole in the large plate glass front of H. E. Fox's jewelry store. The ball had evidently come some distance, as its force was spent when it struck the window, and had only enough momentum to break through the glass. The ball was apparently from a 32-caliber revolver. It dropped just inside the window and was picked up this morning by Mr. Fox.
The accident occurred about 12 o'clock and was immediately discovered. Whoever made the discovery telephoned Mr. Fox, and he came down town and removed the jewelry from the window. The building is the property of Hon. H. B. Fergusson, and it is not known whether or not he carried plate glass insurance. The glass was a large one and of extra heavy plate. It can not be replaced for less than \$100.

Williams' Postmaster Dead.
Hon. James Walsh, who is a well known cattle and sheep raiser of Williams and Seligman, Ariz., is in the city, the guest of W. L. Harris. Mr. Walsh brings the sad intelligence of the death of E. H. Simpson, former postmaster of Williams. Mr. Simpson was short in his accounts, and this fact worried him until he was declared insane. He was taken to Phoenix for treatment, where he died day before yesterday. His burial took place at Williams today.

LOCAL PARAGRAPHS.
Leon B. Stern, the rustling proprietor of the Lion store, is confined to his home with a slight attack of the grip.
Hon. Nestor Montoya was a passenger for Santa Fe this morning. He will be absent from the city a couple of days.
Mrs. J. R. Malette is enjoying a visit from her sister, Mrs. E. J. Willey, of Birmingham, N. Y., who arrived the other evening.
T. V. Money and bride, nee Miss Bertha Alexander, arrived in the city last night from Sedalia, Mo., and they will reside here in the future.
E. E. Abell, formerly of this city, now managing a big stock farm near Wichita, Kas., is here on a visit to old friends.
P. W. Morrow, southwestern representative for the Simmons Hardware company, went to Algodones yesterday. A hardware store has been established at the thriving new town.
Last night, the B. W. B. club was entertained by Mrs. Chas. A. Dudley at 719 West Tijeras avenue. Mrs. Mary Carter and Mrs. M. Lewis officiated as champagne punch server and toastmistress.
Dr. C. T. Blackington, sheriff of Socorro county, passed through the city last night en route from Williams, Arizona, to his home at Socorro. He had with him a prisoner much wanted in the Gem city.

J. A. Weinman, manager of the Golden Rule Dry Goods company store, has presented Assistant Fire Chief Hamlin with a check for \$10 as a reward for services rendered in extinguishing the recent fire which occurred in the Golden Rule Dry Goods company store. The money is to be distributed among the firemen of the department.

A letter is received at the office of the United States Marshal C. M. Foraker, announcing that a little girl had made her appearance in the family of former chief deputy marshal, F. B. McKeehan. Mrs. McKeehan is visiting with her mother at Hillsboro, Ohio. The letter states that the little girl arrived on Christmas eve, and that mother and baby are well. Fred McKeehan was recently appointed Chinese inspector at Nogales, Ariz.

Don't forget Mrs. Rosa Berry's class and social dance at the Grant hall on Saturday afternoon.

We wish our customers and friends a happy New Year.

AT THE CLUB.
Delightful New Year's Dance at Commercial Club.
Among the prominent social functions of last night, the New Year's dance at the Commercial club was a delightful affair. The gathering was of the right proportion to make the dancing most enjoyable. Before the old year had departed refreshments were served and then appropriate ceremonies welcomed the new year.

"The Papoose."
That is the name of a magazine just issued in New York by the great Hyde Exploring Expedition. It treats of the Navajo Indians throughout New Mexico and Arizona, and tells some interesting legends regarding these wonderful western hemisphere red men.

Among its editorial notes, the following compliment is paid The Albuquerque Citizen:

The Papoose must compliment The Albuquerque (New Mexico) Daily Citizen on the enterprise displayed in their recent fair number, October 13. The edition was handsomely illustrated and contained an exhaustive report of the resources of the Territory of New Mexico. Water, brains and western energy have indeed worked wonders for the section The Citizen so ably represents, and with government handling of big irrigation enterprises, not alone will the settler be benefited but to the Indian will be given the means of self support.
