**PUBLIC LANDS  
BILLS PASSED****Senate Tables Minority Report Favoring Senatorial Preferential Primary****BEE BILL OUT OF COMMITTEE****Petitions For Traveling Libraries For Public Roads and For Other Purposes.**

The citizens of Tularosa petitioned for the passage of Senate Bill No. 62, to provide for traveling libraries for the public schools. Petitions were also presented from Albuquerque against the passage of House Bill No. 8 to regulate the liquor traffic; from the Mesilla valley for an appropriation for a public road between Rincon and Garfield; also a petition for an amendment to the school laws to require that teachers in Spanish-American districts be required to have a knowledge of both Spanish and English; from Grant county, in favor of changing the name of Whiskey Creek to Rio de Arenas.

**Bills Introduced.**  
The following bills were introduced: Senate Bill No. 125, by Evans, to limit the hours of employment of females. To state affairs.

Senate Bill No. 126, by Walton, to amend Section 4, Chapter 37, Laws of 1907. To Judiciary. It has reference to community property of married persons.

Bill No. 27, by Walton, to change the name of Whiskey Creek, Grant county to Rio de Arenas. To Counties and County Lines.

Senate Bill No. 128, by Holt, to amend Section 2402, sub-section 18, Compiled Laws of 1897, as amended by Chapter 59, Laws of 1907, relating to the issuing of licenses for saloons. To Judiciary.

Senate Bill No. 129, by Clark, regarding the expenditure of commissions collected in excess of compensation of treasurers. To Finance. The bill provides for the distribution of the excess in the county deficiency fund which had been created to pay outstanding approved valid county debts. The measure would affect only the counties of Bernalillo, which wants to use the excess toward paying for a county survey; San Miguel county which wants to use the excess for good roads and Chavez county.

**Committee Reports.**  
The committee on Finance reported favorably House Bill No. 9, inspection of bees.

The committee on Railroads reported a Senate Substitute for House Bill No. 14.

The committee on Judiciary reported Senate Bill No. 111, to declare what shall be the effect of the repeal of a repealing statute, by itself, with the recommendation that it do pass. It reported a Substitute for Senate Bill No. 40, fixing the time for the holding of court in the Sixth Judicial District. It reported adversely on Senate Bill No. 113, defining slander of a female person and providing punishment therefor. A minority report signed by Walton, Barth and Alldredge favored Senate Bill No. 63, the senatorial preferential primary measure, while a majority report recommended that Senate Bill No. 63 do not pass. On motion of Crampton the minority report was laid on the table 16 to 7.

**Public Lands Bill.**

The Senate took up on third reading the Senate Substitute for Senate Bill No. 36, the Public Lands Bill. Holt as a preliminary offered 35 amendments correcting typographical, clerical, grammatical and substantial errors, these amendments being adopted without dissent.

On motion of Hinkle, Section 58 was amended, so as to reduce the rate of interest on deferred payments for public land purchases, from 5 to 4 per cent. The purchaser is given 30 years in which to make the deferred payments.

An amendment offered by Crampton, to change the word "price," to "value" in speaking of the appraisalment of improvements made by lessees on state lands, was adopted unanimously.

Barth offered an amendment to Section 4, reducing the number of and pay of employees in the office of the land commissioner, declaring that \$13,800 per annum is too high an expense for that office. The Barth amendment reduces the annual expense by \$6,900.

Holt declared the office of the commissioner of public lands by far the most responsible under the state government, not excepting even the chief executive. The Senate committee had after careful investigation found that the number of employees provided for in the bill is necessary and that the salaries provided for are reasonable. Alldredge also defended and explained the section in question. Alldredge objected to the appropriation of "lump" sums, such as the section provided when it set aside \$2,500 for emergencies. Walton, though "a Democrat and in favor of economy," declared the budget a most reasonable and economical one, being only \$500 in excess of what was allowed under the territorial form of government. Mabry also spoke against the

**IS LANDSLIDE  
FOR WILSON****Texas Primaries Indicated Decided Preference For Governor****WAS CLOSE REPUBLICAN VOTE****Saturday's Convention Accomplished Little More Than Organization.**

(By Special Leased Wire to New Mexican)  
Dallas, Texas, May 7.—Evidence of a number of splits in Republican county conventions of Texas appeared in the first returns received today. The first six counties heard from reported three conventions. Of the other three conventions, two instructed for Taft and one for Roosevelt. The first convention going for Roosevelt was El Paso county, where the instructions referred to him as "one who will give protection to Americans in foreign countries."

Seven Democratic conventions have been heard from and they give in the state convention Wilson 21 votes, Harmon 16; Clark 2.

**County Conventions Today.**

Dallas, Texas, May 7.—Texas Democrats and Republicans met in county conventions today to take the second step in indicating their choice among Governor Wilson, Governor Harmon and Champ Clark; and between President Taft and Colonel Roosevelt as presidential candidates. The first movement was made in Saturday's precinct conventions. Wilson apparently is an easy first choice on the Democratic side. The Taft and Roosevelt contest is still undecided. Conventions are scheduled for at least 243 out of 249 counties.

**An Apparent Landslide for Wilson.**

Chief interest centers in the question whether an attack will be made on the apparent landslide by which Wilson won in Saturday's conventions. Unofficial and incomplete returns indicate his followers would have the controlling vote in a sufficient number of county conventions today to assure him more than a majority of the 623 votes in the state convention. Campaign managers of Governor Harmon and Champ Clark do not concede defeat and promise vigorous contests today. The first county that reported today was Wilbarger. The two Democratic delegates to the state convention were instructed for Clark. The one Republican delegate was instructed for Taft.

**Republicans Have Accomplished Little.**

In the Republican ranks Saturday's convention accomplished little more than organization. The Republicans are entitled to 252 votes in their state convention, according to Republican National Committeeman Cecil Lyon. It is probable there will be no Republican conventions in many counties. Returns from Republican conventions gave Taft two unnamed counties in northwest Texas. Returns from Democratic county conventions stood: One state convention vote instructed for Wilson; one for Harmon, and two for Clark. These were the final figures for four northwest counties.

**Wilson Leads All.**

Dallas, Texas, May 7.—Returns from sixteen counties gave the following instructed votes in the forthcoming Democratic state convention: Wilson 66; Harmon 30; Clark 8.

**President Is Ahead.**

Dallas, Texas, May 7.—Returns from nine Republican counties give the following instructed votes in the state convention. Taft, 4; Roosevelt 2; Uninstructed 1; split 3.

ELECT BISHOPS****Establishment of New Episcopacies Will Mean Ten More Officers****CHURCH COURT OF APPEALS****Afternoon Session Taken Up by Work of Women's Home Missionary Society**

(By Special Leased Wire to New Mexican)  
Minneapolis, Minn., May 7.—Whether there shall be formed another body of the Methodist Episcopal Church to be known as the court of appeals is to be decided late today practically the entire early session of the general conference in session here, was given over to a discussion of the report of the commission on judicial procedure, which was appointed four years ago. The question of the establishment of such an organization has been before the general conference of the church practically for a century.

**Church Court of Appeals.**

The commission in its report to the conference read today recommended the establishment of such a body, with power to hear and determine all appeals. As planned the court is to consist of three bishops, six ministers and six laymen, chosen by the general conference. The general conference

**REBEL CHIEF  
OPPOSES GOMEZ****Sent Threatening Telegrams to Mexican Provisional President****IS AGAINST CIVIL GOVERNMENT****Big Battle Is Expected Within Twenty-Four Hours South of Chihuahua.**

(By Special Leased Wire to New Mexican)  
Escalon, Mex., May 7.—General Pascual Orozco has refused to recognize the provisional government established by Emilio Vasquez Gomez at Juarez last Saturday. Orozco today on the march southward, telegraphed Gomez threatening him and his associates unless they left Mexico.

Orozco was today 193 miles south of Chihuahua and but 40 miles behind his advance guard which is expected within the next 24 hours to encounter the big federal force and General Huerta.

**Orozco Opposes Provisional Government.**

The creation of any civil government prior to the successful termination of the war has persistently been opposed by Orozco. In his telegram to Gomez, Orozco declares that he would have been glad to have had Vasquez Gomez come into the rebel zone and work with him in the interests of the revolution but the Gomez government in Juarez was a thing he could not countenance. General Orozco continued southward today.

**Gomez Went Too Far.**

Juarez, May 7.—Emil Vasquez Gomez admitted merely that he was exchanging telegrams with Orozco today but declined to discuss the report of friction with the latter. The acceptance by Pascual Orozco, Sr., father of the rebel military chief of a position in the Gomez cabinet, had given a semblance of authority to the Gomez government. Developments today indicated that though General Orozco had invited Gomez across the line, he had not expected an immediate assumption of civil authority by Gomez.

**No "Official" Change in Situation.**

Washington, D. C., May 7.—The reported activity of Colonel Arthur Williams, eleventh infantry, in command at Fort D. A. Russell, Wyoming, in rounding up freight cars for the transportation of troops to the Texas border, is said at the War Department to be due to nothing more than a laudable desire to have the troops in readiness to respond to any call. It is pointed out that the troops from Fort D. A. Russell, were nearly a fortnight on the way from that point to San Antonio during the mobilization movement last summer, owing entirely to lack of railway cars and it is believed Colonel Williams does not intend to be placed in that position again. The war department's orders to this officer are similar to those given many other post commanders more than two months ago, namely to have their troops ready to meet any emergency. It is declared that there has been no change in the Mexican situation.

**Chaos Reigns in Mexico.**

San Francisco, Calif., May 7.—Comparing present conditions in Mexico to those of the Philippines under Spanish rule, passengers on the Pacific Mail liner Peru, which arrived today from ports on the west coast of Mexico, told tales of chaos and disorder in the southern republic.

Charles A. Stephens, chief boarding officer of the port of San Francisco, who returned on the Peru from a trip to Panama, said the rebels were encamped within eight miles of Acapulco and that they had been as close as four miles.

**Murder, Torture, Robbery.**

Ladrones had flocked in large numbers, he said, to the standard of the rebels, and murder, torture and robbery were crimes of daily occurrence. Women and children had fled from the villages to Acapulco for safety, he said, but even then there was much disorder from the drunken outbreaks of rebel sympathizers. Conditions were much the same, he said, in San Blas. The Peru did not touch at Mazatlan because of rumors of serious disturbances.

**Tear Up Railroad Tracks.**

R. W. Harrison, of San Francisco, who returned from his father's plantation in Chiapas, where he said the natives of the region, who had not risen during the Madero revolution, were becoming restless. In attempting to reach the west coast, Harrison said he had found that fifty miles of the Pan-American railway tracks had been torn up and he had been compelled to cross the border into Guatemala before he could reach the coast.

**Train Robbery Common Crime.**

W. C. Harris, a Seattle mining man, confirmed stories of disorder in the region of the federal capital and said that the train preceding the one which he traveled from Mexico City to Vera Cruz was held up by bandits who riddled the coaches with bullets and robbed the passengers.

**Rumored Battle.**

Marfa, Texas, May 7.—Telephone messages from Presidio, Texas, report an engagement at or near Ojinaga, Mexico, between so-called "red flaggers" and Mexican Federals. No details are available.

**Pension Bill Approved.**

Washington, D. C., May 7.—The report of the conference of the two houses of Congress on the general pension bill, was agreed to by the Senate today. The bill will necessitate an average increase of appropriations of \$22,000,000 a year for the next five years. The greatest increase will occur next year when it will reach \$35,000,000.

**U. S. Steel Prosecution.**

New York, N. Y., May 7.—Much of the testimony today in the government suit to dissolve the United States Steel corporation had to do with the events leading to the formation of the American Steel and Wire Company, one of its chief subsidiaries which the government contends is itself a combination in restraint of trade. How, in the early nineties, its original constituents, more than thirty, in number, first competed among themselves as independent companies and then were brought together in small combinations, these gathered finally as a grand combination, under the control of the American Steel and Wire Company of New Jersey, was told by F. E. Patterson, formerly connected with one of the constituent combinations. Mr. Patterson said he was secretary and eastern agent of the Consolidated Steel and Wire Company in the early nineties before it was taken into the American Steel and Wire Company.

The Consolidated was itself a combination of five companies, and was about 1898 taken over by the American Steel & Wire Company, of Illinois, which in turn was taken over by the American Steel & Wire Company of New Jersey.

"Were these five constituent companies competitors of the Consolidated?" asked Judge Dickson.

"They were in lines that were common to all of them," replied the witness, who detailed the various wire products the respective companies manufactured.

**Taft Resting Today.**

President Taft, for the first time in several weeks, today cast aside the cares of office and worries of the political stump, and enjoyed a day of recreation and rest. A diversified program has been mapped out for him, official business having no place on it. In the morning the president held an informal reception for his many friends made during his period of residence here. In the afternoon he occupied a box at the Cincinnati-Philadelphia baseball game.

**Will Attend Music Festival.**

In the evening Mr. Taft will attend the opening of the Cincinnati Music Festival and while it is the custom of both himself and Mrs. Taft to remain through the musical season, he will be able to attend only the opening night, the political campaign through Ohio necessitating the cutting short of his stay here. Mrs. Taft, however, will remain to the end of the festival.

Cincinnati, Ohio, May 7.—Among the President's visitors were Mrs. Rickets Snell and Mrs. Sarah Falconer, representing the Twentieth Century Club two of Cincinnati's most active suffragists. The question of just what type of women were interested in the Ohio suffrage campaign was put to them by the President with much interest. The club representatives told him that in Ohio the movement had practically the same sort of support that it had in California and in other states where it had won. The President said he could not properly give his views on the question at the time, but he did not wish to exploit any advantage which might accrue through seeking favor with the women who form the suffrage movement, but he assured his callers that if they wrote him after the Republican convention he would give them his views on the question.

**FOURTEEN HUNDRED BREWERY WORKERS STRIKE.****Eight Hour Day, Ten Per Cent Wage Increase and Weekly Pay Day Asked.**

(By Special Leased Wire to New Mexican)  
Kansas City, Mo., May 7.—Fourteen hundred brewery workers constituting the union employees of all the breweries and brewery agencies in the city, went on strike today following the failure of the brewery companies to grant demands for a ten per cent increase in wages, weekly pay day and eight hour day. During the morning, there was no violence at any of the breweries. Officials of the Kansas City brewery company, announced that beer valued at \$500,000 is in storage and that deliveries will be made as usual.

The chief contention is between the companies and the bottlers and drivers. Engineers, firemen, electricians, brewers and maltsters in the employ of the companies had no direct grievance. They struck in sympathy.

**House.**

Speaker Bacon presided when the House convened this afternoon. The Journal of Wednesday, Thursday and Friday of last week was read and approved.

Rogers offered an amendment under which children may be employed on the stage upon being given license by the municipality in which they are to appear, proof being offered to the licensing authority, that the performance is moral.

Burg gave credit for high, moral purpose in offering the amendment, but feared it would vitiate the entire clause and would throw the doors wide open to all sorts of abuses. Some times town councils are composed of men of high moral purpose, but frequently they consist of men not taking the highest view of their duties. Stage illusions, he declared, would serve the purpose in plays demanding children in their performance. He denounced the theatrical trust and declared that if you give it an inch it takes a mile. Llewellyn in a powerful address, took the same view. "Let us start off the new state on the highest plane," he declared.

Chrisman declined against the

(By Special Leased Wire to New Mexican)  
Cincinnati, Ohio, May 7.—Ohio, President Taft's home state, bids fair to become the bloody battle ground where the President and Colonel Theodore Roosevelt will fight to a finish one of the decisive "actions" of the present campaign for the Republican presidential nomination.

Friends of President Taft, with him on his visit to Cincinnati, declared that the result of the Maryland primaries made it certain the struggle for Ohio would be hard. The President will spend more time campaigning in Ohio than he did in Maryland, where he spoke only during one day. His secretary C. D. Hilles, announced that Mr. Taft would return to Ohio for a four or five-day stay. He will take in most of the principal towns and cities not touched on the present trip. The Ohio campaign will wind up only a few days before the state primaries on May 21, and from his home state the president probably will turn his attention to New Jersey which gives his opinion of the presidential candidates one week later. So far, no invasions by the president of other states in which primaries are to be held have been planned.

**President Is Undiscouraged.**

The president is resting today, but tomorrow he starts North on a sixteen-hour tour that ends in Columbus to take tomorrow night and on which he will make at least fourteen speeches in towns of all sizes. The president was said today not to be discouraged by the fact that Colonel Roosevelt won out in the Maryland primaries. Mr. Taft spent only one day campaigning there and was said to feel that he had done well, although other members of his party were disappointed.

**Cheering News.**

Citizens in the flood-menaced districts of New Orleans were cheered today by a bulletin issued by the weather bureau which lowered its previous estimate of the maximum flood stage that the Crescent city must fight. The army of men working to strengthen the dikes will not cease their vigilance however.

**Fight to Hold Mid-State Levees.**

The maximum stage forecast for Baton Rouge and the intervening cities was raised in the bulletin. The fight to hold the mid-state levees cannot be relaxed.

(By Special Leased Wire to New Mexican)  
Washington, D. C., May 7.—Oscar W. Underwood of Alabama, majority leader of the House today declared that his presidential candidacy was not in the interest of Governor Harmon or any candidate other than himself. This was in reply to a statement of William J. Bryan, in a speech at Chillicothe, Ohio, last night, that he had heard that the Underwood delegates chosen in Georgia and Florida were in reality Harmon men.

"It is impossible for a man in public life," said Mr. Underwood, "to keep up with all of the misrepresentations made about him, but I wish to say that there is no warrant in fact for the statement made by Mr. Bryan. I am making the race for the presidential nomination with the honest endeavor to secure it for myself and my candidacy is not and never has been in reality Harmon county."

The chief contention is between the companies and the bottlers and drivers. Engineers, firemen, electricians, brewers and maltsters in the employ of the companies had no direct grievance. They struck in sympathy.

**HUNDREDS ARE  
FLOOD MENACED****Unless Boats Are Hurried to Remote Sections Many Will Perish****SOME SCOFFED AT WARNINGS****Family Marooned on House Top Went Days Without Sufficient Food.****Scoffed at Warnings.**

(By Special Leased Wire to New Mexican)  
New Orleans, La., May 7.—Unless boats are hurried to remote sections of the flood swept country in Pointe Coupee parish, it is feared hundreds of persons will perish. Word was received in Morganza this morning that great numbers of people still are marooned in the country south of the levee breach at Torras. The lack of boats is a distressing handicap. Stories of terrible suffering among flood refugees reached here today. Hundreds of people living in the back country of Louisiana received no warning of the flood until the torrent swept upon them. They took refuge on house tops and in trees and on rafts and now for several days they have been without adequate food and shelter from the heavy rains.

**Family Marooned on House Top.**

One family brought to Morganza last night had been for days without sufficient food. When the flood came the head of the house rushed up stairs with two small children and held them on a mantel all night to keep them above the rapidly rising water. At daylight the entire family took to the roof. They had just enough food to ward off near starvation until the boats reached them. The levee above Morganza is lined with people and their belongings waiting to be taken to concentration camps. About 500 were removed last night to New Roads, where they were fed, then transferred to Baton Rouge. Two hundred negroes near Batchelor were brought here early today on a government barge. They later were sent to New Roads.

Gas, Heartburn, Headache, Sourness and all Stomach Misery Ended With Pape's Diapiesin.

Nothing will remain undigested or sour on your stomach if you will take a little Diapiesin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.

Eat what your stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, belching, Gas on Stomach, Heartburn, Headaches from stomach, Nausea, Bad Breath, Water Brash or a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50-cent case of Pape's Diapiesin you can always go to the table with a hearty appetite, and your meals will taste good because you would know there would be no indigestion or Sleepless nights or Headache or Stomach misery all the next day; and, besides, you would not need laxative or liver pills to keep your stomach and bowels clean and fresh.

Pape's Diapiesin can be obtained from your druggist and contains more than sufficient to thoroughly cure the worst case of indigestion or Dyspepsia. There is nothing better for Gas on the Stomach or sour odors from the stomach or to cure a Stomach Headache.

You can't keep a handier or more useful article in the house.

### THE HAPPY OYSTER.

(From Judge.)

The oyster out there in the bay Lives his good life in a simple way. No cause to swear, no need to pray; No grocers' bills he has to pay. Yet gets his rations every day.

From worries gross his soul is free; His life a blissful dream must be, Down there beneath the summer sea. Oh, it is very plain to me, Things come his way quite easily.

'Tis beautiful and sounds quite good, But who'd be an oyster if he could? —Ethel Augusta Cook.

#### The Soldier Was Jagged.

Col. E. Z. Steever, commanding the border guard, is investigating the shooting of Private Baker, company C, 22nd Infantry. Baker was brought to Fort Bliss from his post six miles down the river with wounds in his right hand and right leg. He said that he was fired upon from the Mexican side of the river. The first shot, he said, missed him, but the next two

inflicted his two wounds. He declared that he returned the fire, but did not know the result. According to Colonel Steever, Baker had been drinking, for which reason he received the story with reserve. The colonel tonight was not certain whether Baker had told the truth, had been accidentally shot, or had shot himself. There were no witnesses to the affair save Baker.

### FACE DISFIGURED WITH ECZEMA

Covered with Eruption to Back of Ears So They Hardly Knew What He Looked Like. Used Cuticura Soap and Ointment. In 4 Weeks Face Fine and Clean.

"Our little boy Gilbert was troubled with eczema when but a few weeks old. His little face was covered with sores even to the back of his ears. The poor little fellow suffered very much. The sores began as pimples, his little face was disfigured very much. We hardly knew what he looked like. The face looked like raw meat. We tied little bags of cloth over his hands to prevent him from scratching. He was very restless at night, his little face itched."

"We consulted two doctors at Chicago, where we resided at that time. After trying all the medicine of the two doctors without any result, we read of the Cuticura Remedies, and at once bought the Cuticura Soap and Ointment. Following the directions carefully and promptly we saw the result, and after four weeks, the dear child's face was as fine and clean as any little baby's face. Every one who saw Gilbert after using the Cuticura Remedies was surprised. He has a head of hair which is a pride for any boy of his age, three years. We can only recommend the Cuticura Remedies to everybody." (Signed) Mrs. H. Albrecht, Box 883, West Point, Neb., Oct. 26, 1910.

Although Cuticura Soap and Ointment are sold throughout the world, a liberal sample of each, with 23-p. book on the skin will be sent free, on application to Potter Drug & Chem. Corp., Dept. 119, Boston.

### Increasing San Juan County's Assessment.

What may result in a great increase in the taxable valuation of San Juan county is expected from the move made by Assessor A. G. McCoy. Mr. McCoy in his work encountered the 49,000 acres of coal land assessed to the Santa Fe-Pacific Railroad Company. This land has heretofore been assessed at a few cents an acre, yielding little revenue to the county or state. Under the orders of state equalization board such lands should be assessed at \$12.50 per acre, which would add \$612,500 to the valuation of the county.

### Accused of Horse Stealing.

Daniel Gillan, former hired man for Ranchman Walter Peck at his place several miles south of Albuquerque, is now comfortably ensconced in the Bernalillo county jail awaiting the action of the grand jury on a charge of grand larceny sworn to by Peck. Gillan had a hearing while the horse belonging to Peck, which the latter recovered after a remarkable chase from here to the Texas line, contentedly munched hay out of Peck's wagon just outside the police station. The horse, which is a big and valuable gray, was greatly emaciated as the result of nearly 700 miles of hard travel with frequent nourishment and was the recipient of much sympathy from the little crowd which gathered around Peck and his outfit as he arrived after one of the most remarkable pursuits ever known in New Mexico.

### Experts Endorse It

"Marion Harland," Mrs. Janet M. Hill, and Mrs. Sarah Tyson Rorer are among the cooking authorities whose names are familiar to almost every housewife. Each has her own distinctive methods of work, but it is interesting to note that on the all-important question of a cooking fat, they are unanimous in recommending Cottoleene.

"Marion Harland" says of Cottoleene: "It has given complete satisfaction." Mrs. Hill says: "Very satisfactory; glad to recommend it." Mrs. Rorer says: "A much more healthful product than lard."

With such authority behind it, every housekeeper will be safe in giving Cottoleene a try. It is purer and more wholesome than lard. It is more economical, too, one-third less required.

## INSTRUCTED FOR CHAMP CLARK

After Sharp Contest Santa  
Fe County Democrats  
Indicated Preference

### RESULT OF GOOD TEAM WORK

Delegates to State Convention  
May Change Vote for Good  
Reasons.

DELEGATES TO DEMOCRATIC CONVENTION.  
The following delegates were selected late yesterday afternoon by the Democratic county convention to represent Santa Fe county at the Democratic state convention to be held at Clovis: James W. Norment, Santa Fe; Robert W. Butt, Santa Fe; Carlos Abreu, Santa Fe; Karl Greene, Santa Fe; Dr. J. H. Sloan, Santa Fe; J. S. Candelario, Santa Fe; H. S. Lutz, Santa Fe; R. L. Cooper, Santa Fe; C. F. Kanan, Santa Fe; L. H. Gibson, Santa Fe; Thomas Doran, Santa Fe; M. T. Dunlavy, Santa Fe; Carlos Creamer, Santa Fe; Cosme Herrera, Pojoaque. The delegates were instructed to vote as a unit for the nomination of Champ Clark for president as long as that gentleman's nomination seems possible.

Convention Controlled by Clark Men.  
When the Democratic county delegates assembled yesterday afternoon at the county court house it was evident that there would be a sharp contest between the Clark and Wilson supporters for control of the convention. The first show of strength developed when the matter of selecting a temporary chairman came up. The election of James W. Norment by a narrow margin of three votes indicated that it was anybody's fight as yet though it served to discourage the Wilson leaders.

Asked for Uninstructed Delegates.  
The routine work of organizing the convention proceeded smoothly until the report of the committee on resolutions came before the assembly. Melvin T. Dunlavy, who had been selected permanent chairman, then yielded the chair to Mr. Norment and assumed the leadership of the Wilson forces on the floor. Fighting on the defensive Mr. Dunlavy asked only for an uninstructed delegation and in this he was supported by some of the Harmon adherents. The question was argued pro and con, but it was evident that the Clark men were steadily gaining strength. The final vote was not announced, but it was evidently of the "landslide" character that makes an exact record superfluous.

Result of Organization.  
That the Clark forces were well organized was made evident when all but three of a prepared ballot carrying sixteen names was selected. Cosme Herrera of Pojoaque was the only name added to this list. After the selection of delegates, which came at a late hour, the convention made an effort to reorganize the central committee for the coming campaign, but it was found that many of the delegates had left the building and the project was abandoned.

Resolutions Adopted.  
The following are the resolutions adopted by the convention:  
We, the Democrats of Santa Fe county, New Mexico, in convention assembled, reaffirm our belief in and allegiance to the principles outlined in the platform adopted by the National convention at Denver in 1908.  
We believe the government, both state and National, should be controlled by the people, and for that reason we endorse the direct primary for the nomination of candidates for every elective office in the gift of the people, from President of the United States to constable of the precinct.

We believe in and endorse the direct election of United States senators, by the people.

We deeply deplore the "playing politics" of the present session of the legislature and its failure to respond to the will of the people and provide necessary legislation.

We endorse the able and patriotic efforts of the Democratic minority of the legislature to secure a senatorial preference primary, a corrupt practices act, and other legislation we had a right to expect, and which was promised by the Republican party.

We endorse the business-like administration of Governor McDonald and the other Democrats elected on the ticket with him.

We endorse the patriotic course of Congressman Ferguson and congratulate the new state on having one man on guard at Washington who is ever alert to the interests of our people.

We pledge our support to the nominees of the Baltimore convention and promise them a majority in Santa Fe county.

We congratulate the country on the fact that Taft and Roosevelt are, at last, telling what they know about each other. They have already told enough to make it impossible for the county to again accept either one of them.

Without any disparagement whatever of any of the other candidates of the Democratic party for president, who are all good men and worthy of the high honor they seek, we believe that the Honorable Champ Clark is the logical and strongest can-

## Healthy Mothers

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

BRADFIELD REGULATOR CO., Atlanta, Ga.

didate before the party at this time. He has been on the firing line at Washington for over twenty years and has always talked, acted and voted on the side of the people as against the interests. As plain member of congress he has always acquitted himself well, as leader of the minority he has, by his superb leadership, welded the minority into a militant and aggressive force thus impressing the views of the minority forcibly on legislation. As leader of the minority, to him, more than to any other individual, we owe the discomfiture, rout and final defeat and complete overthrow of "Cannons" and Cannon. To him should be given the credit for the return of the lower House of Congress to constitutional lines. Czarism is dead there, and Champ Clark is the David who gave it its death blow.

As Speaker of the House, he has commanded the respect and support of all Democrats and has broken the ranks of the opposition. Under his administration of this high office Congress has done more real constructive work in the past twelve months than it had done in the previous fifteen years. He is the champion of popular rights ever ready to defend his righteous cause against all the hosts of error.

Therefore, we hereby instruct our delegation to the Clovis convention to use all other influence and every effort in their power to secure a delegation from New Mexico to the Baltimore convention instructed to vote as a unit in all matters, and especially for the nomination of Honorable Champ Clark for president, on every ballot on which his name is before said convention, or until, in the opinion of a majority of said delegation, his nomination can no longer be reasonably hoped for.

J. E. McKeen, 1301 Cleveland St., Wichita, Kansas, reports: "I suffered from kidney trouble, had severe pains across my back, and was all played out. I began taking Foley Kidney Pills and soon there was a decided improvement. Finally the pain left entirely and I am fully cured of all my kidney trouble."—For sale by all druggists.

### SCORE INJURED WHEN ENGINE AXLE BROKE.

(By Special Lensed Wire to New Mexican)  
Columbia, S. C., May 7.—A score or more persons were hurt when train No. 31 on the Southern Railway, Washington to Jacksonville was derailed near here today. Two sleeping cars turned over. Most of the passengers were able to proceed. The breaking of an engine axle caused the wreck.

### CROSS OR FEVERISH, HALF-SICK CHILDREN.

If Tongue is Coated, Breath Bad, Stomach Sour it Means a Torpid Liver and Clogged Bowels.

Mother! Don't scold your cross, peevish child! Look at the tongue! See if it is white, yellow and coated! If your child is listless, drooping, isn't sleeping well, is restless, doesn't eat heartily or is cross, irritable, out of sorts with everybody, stomach sour, feverish, breath bad; has stomach-ache, diarrhoea, sore throat, or is full of cold, it means the little one's stomach, liver and bowels are clogged with waste matter and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs, and in a few hours all the clogged up waste, undigested food and sour bile will gently move on and out of its little waste clogged bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

## PARTY ORGANIZATION.

It is the same story the country over. Party organizations, Republican, Democratic and others, are languishing, no matter how brave a front and how big a showing they make on the surface of things.

Two things are essential to party organization: Men and money. Men who are willing to give time, means and effort to party in return for being denounced as gangsters, bosses, grafters. Money to maintain headquarters, keep records, pay clerks, secure publicity. One may theorize and idealize as one pleases, but it is only in rare instances that any cause or principle, no matter how righteous, triumphs in so great a country as this nation, or in so big a state as New Mexico, without organization.

The Republican party in New Mexico should have a strong, active organization, that would be busy from now on without interruption. The Democrats have at least the semblance of such an organization, they are getting in some money to maintain it, they are doing systematic work and it is beginning to tell. The Republicans must stop their bickering, their intrigues and recriminations, their faultfinding and denouncing each other, they must act together. If they do not, the party will lose the advantage ground it still possesses, and if any Republican selfishly imagines he would fare better in the Democratic ranks than he does in the Republican, he is simply not posted.

It does not matter very much to the present Republican leaders who volunteers to give his time and his money and his effort. The New Mexican feels certain that there is not one of them who would not gladly step aside in favor of any sound Republican who will volunteer to put up the funds, give his time and his talents toward maintaining an effective organization.

What is true in New Mexico, is true throughout the United States. The Republicans are wrangling in the face of the enemy and that means demoralization and defeat. Says Leslie:

"Acting Chairman Rosewater, of the Republican National Committee, has called the committee in session on June 4th, two weeks before the day set for the opening of the national convention. He estimates that it may take the committee two weeks to settle all the contests which will be before it, as compared with one week or less in the case of previous presidential gatherings.

"Here is a portent to which Republicans all over the country should give some attention. In the number of States involved in the wrangles between rival Republican delegations and in the violence of the language used by each toward the other, the situation is unprecedented. Accusations are made by each against the other which would seem to prevent many of the partisans from supporting the successful seeker of the nomination.

"A peculiarly sinister aspect is given to the contest by the personalities which have passed between Colonel Roosevelt and President Taft. The assaults and the counter assaults that have taken place between them give a turn to the canvass which imperils Republican unity. Several bolts—in 1874, 1872, 1884 and 1896—have taken place in the Republican party, that of 1884 defeating Blaine and placing Cleveland in the presidency. But neither in that split nor in any of the others was any such hatred shown by one faction toward the other as is displayed in the present feud.

"It must be borne in mind by Republicans that only through unity can they have any prospect of victory in November. They ought to remember what disaster Republican apathy brought in 1910, when the stay-at-homes of their party gave all the close districts to the Democrats and enabled them to get a majority of sixty-five in the House of Representatives and to cut the Republican lead in the Senate down to eight. Thus President Taft has one branch of Congress against him in the second half of his term and has very little support in the other branch. The Democratic victory in 1910, the first which that party gained in a national election since 1892, has given it encouragement to make a strong fight in 1912—a fight which promises to be successful unless the Republicans quit their suicidal factional quarreling instantly and get together in the national convention."

The fact that New Mexico Democrats are for Champ Clark in preference to Woodrow Wilson merely proves the repeated assertion that New Mexico is conservative to the core, and will vote for no wild-eyed progressive ideas.

## THE TOURIST BUSINESS.

Is it worth while to complete the Scenic Highway in order to attract several thousand tourists each year, to bring hither several hundred people who would summer on the upper Pecos? It surely is. It would mean more to New Mexico than the establishment of a big manufacturing industry or a gold or coal mine.

But the Scenic Highway would be a thoroughfare not only for tourists. It would make available to the people of New Mexico the grandest natural park in the world, the finest forest reserve in the United States. It would also connect with the outside world beautiful farms, many rural homes, copper, zinc and coal mines, a thousand settlers, who are at present isolated from the world except by a round-about road that is washed out at every freshet. But to return to the value of the tourist business, Leslie's will say editorially on Friday:

"The United States is one of the world's greatest sources of food supply, and it is also a large producer of tobacco; and yet if one adds to the amount of money which the rest of the world paid to us in 1910 for wheat, for flour, for corn and for other breadstuffs the amount it paid to us for our tobacco, the total is less than the sum which American travelers expended in various countries abroad, over the amount expended by foreign tourists in the United States.

"The American tourist is, therefore, a factor in a large financial problem. He figures in the determination of 'the balance of trade,' which fixes the ability of one country to draw supplies of gold from other countries. He is an influence in the money market; and as the American is a great traveler and a prodigious spender, that influence is an important one.

"The sums expended by Americans traveling in foreign countries over the sums expended by foreign tourists in the United States are estimated to make the imposing total of \$170,000,000 net. If you divide that by \$7,000, which is the excess number of American tourists abroad over the foreign tourists in the United States, you have about \$2,000 as the average amount spent by each tourist; and if that is a fair average—and it seems too big—then the 244,000 Americans traveling abroad in 1910 must have spent about \$488,000,000, which is nearly equal to what the rest of the world paid for our cotton."

A census bulletin issued today shows that Connecticut has 4,251 manufacturing establishments giving employment to 233,871 persons, earning \$135,756,000 in salaries and wages and producing \$490,272,000 each year, or just seventy times as much as the manufacturing industries of New Mexico. It must be remembered that Connecticut is not as large as the county of Socorro, and is about the size of the county of Chaves. That is one reason why New Mexico cannot afford to put on the airs of some other states when it comes to passing railroad or industrial legislation that are well enough for populous, wealthy eastern states but are hardly adapted to a new state that is still undeveloped and that must secure its capital from without. Bills such as that of Representative Chaves to exempt new railroads and new industries from taxation are wise, while others, unduly restricting industry and railroad enterprise, such as a rigid maximum rate law, without regard to local circumstances, are unwise.

Federal court, State supreme court, district court and probate court were in session yesterday and what that means to Santa Fe can be gleaned from hotel registers and store sales. The federal court especially, has brought here jurors, lawyers and litigants from every part of the state, who otherwise might never have come to the capital. If they receive the proper courtesies, the right treatment, if they observe that Santa Fe businessmen and property owners are hustlers, it will make an impression that will rebound to the benefit of the capital. If they observe different conditions, it will mean otherwise, and will give the city a black eye. There isn't a merchant, for instance, who will stay home from the Chamber of Commerce meeting tonight, if he has the welfare of the old town at heart.

The school district of Taos hardly ever collected any poll tax until this year, when a woman was elected to the board of education and was made secretary. She started to collect the poll tax and garnered \$348 on the first round, or almost as much as is collected in the Capital City of Santa Fe for an entire year. It is because a woman on some of the educational and institutional boards would disturb some of the dry bones, that some of the honorable heads of those

The Pecos river is running very high on account of the melting of the heavy snow higher up on the river but there is promise that the opening of the fishing season will be pulled off with its usual big catches.

Institutions are trying every possible method to influence Governor McDonald against putting a woman on any of the boards. It would disturb the status quo, don't yer know.

## PUBLIC LANDS BILL PASSED.

(Continued from Page One.)

Barth amendment. Crampton called attention to the provision which makes it incumbent upon the commissioner of public lands to protect the state lands from fire and which would require the expenditure of sums of money out of the \$2,500 contingency and emergency fund.

Holt pointed out the absurdity of endeavoring to administer 12,000,000 acres of state lands with a clerical force of two. He cited that the Colorado land office, with a much smaller grant to administer, employs forty persons. He resented the implication that officers elected by the people would dissipate or wrongfully expend sums of money appropriated for the conduct of their office.

Barth complained that the members of the Senate had no opportunity to examine the bill and opposed giving the commissioner of public lands arbitrary, executive, judicial and legislative powers. He protested against government by committees, although he admitted that the bill had been much improved by the amendments offered, and that he himself had been partially mistaken in his assumption that the appropriation for employees was too large.

Aldredge said there are many features in the bill that are excellent, but there is one feature that would permit the lands to fall in the hands of a few and that he would like to see remedied.

Mabry explained his vote, saying that the bill as a whole is a good measure, at the same time it has some defects, especially as to the royalty to be paid from the state, which he deemed too low and also that 20 per cent is too much to go into the maintenance fund. He paid a tribute to the honesty and ability of Land Commissioner H. P. Ervén.

The bill was passed 29 to 4 votes, Aldredge, Barth, Evans and Mabry voting against it.

Adjournment was taken to 3 p. m.

## Senate—Tuesday Afternoon.

House Bill No. 9 by Mullens, providing for the inspection and protection of bees, was on motion of Crampton recommitted for a few changes.

Senate Substitute for House Substitute for House Bill No. 14, which prohibits the drinking of intoxicants on trains, at stations, and on other railroad property, except on Pullman and buffet cars or in duly licensed hotels, and giving the conductors police powers in enforcing the act, was taken up for consideration.

Hinkle explained that this bill was up several days ago. In committee the bill was made to apply to Pullman and buffet cars except in the limited trains. He accepted the amendment as a compromise, the best he could get.

A motion by Romero to recommit the bill was lost 10 to 14. It was passed by 20 yeas and 4 nays. On motion of Page, the bill was reconsidered and was amended so as to require the posting of notices in Spanish as well as in English. The bill then passed 21 yeas to 3 nays.

Senate Bill No. 111, defining the effect of the repealing clause, was passed unanimously.

Senate Substitute for Senate Bill No. 40, fixing the time for holding court in the Sixth Judicial District, took its regular order.

Senate Bill No. 113, by Evans, defining slander of a female was tabled.

Senate Bill No. 63, by Barth, a senatorial preference primary measure was tabled, 16 to 8 votes.

Senate Substitute for House Bill No. 124, fixing the time for holding court in the First Judicial District, was passed under suspension of the rules.

Senate Bill No. 130 by Holt, prescribing commissions to be charged by brokers, etc., was passed.

The Senate adjourned to 10 a. m., Wednesday.

## HOUSE PASSES CHILD LAW.

(Continued from page one.)

employment of children in theaters, especially in vaudeville and summer gardens. On motion of Chrisman and Mullens the amendment was tabled. The bill was passed 35 to 3.

A petition was presented from Taos county asking for legislation that will prohibit pugilistic encounters.

Chairman Llewellyn for the Committee on Judiciary reported a uniform emergency clause to be attached to such bills as require it.

The Ways and Means Committee reported favorably Senate Joint Memorial No. 3, by Burns, providing for the restoration of lands unnecessarily withdrawn for forest reclamation and other purposes, the prohibition of further creation of reserves by executive order, asking for the allotment of certain portions of the Navajo Reservation. The resolution was passed unanimously under suspension of the rules.

The Committee on Judiciary through Llewellyn, chairman, reported a substitute for House Bill No. 58, the probate

court code.

Rogers in a fervid speech moved that a report be made immediately on the Artesian Well bill and complained because action had been delayed at the same time speaking against the Senate bill, which he called the minority measure of the Chaves County Artesian Well convention. Chrisman also demanded a report from the Ways and Means Committee. Burg explained that the Ways and Means Committee is working day and night, that it has thirty important measures before it, that the Artesian Well bill has no emergency clause and that it is not being held up intentionally as had been implied. Blanchard said that the charge of collusion had been made of the Ways and Means Committee with some Senators, although it was disproven by Burg, but it was apparent that in due course the Ways and Means Committee would not be able to report on this bill until after the legislative adjourns. Catron declared that several committees had not yet had a single bill referred to them and as it was apparent that the Ways and Means Committee is overburdened with work, the bill should be taken from the Ways and Means Committee and referred to a committee less occupied.

Moreno explained that a public hearing had been called on this and other irrigation bills and for that reason no report had been made on the Artesian Well bill. Toombs asked that Senate Bill No. 65 be committed to the Committee on Ways and Means to have it compared with the House Artesian Well bill. Toombs was declared out of order.

The House sustained the Ways and Means Committee after a heated colloquy and refused to take the Artesian Well bill out of its hands or to order a report.

The following bills were introduced: House Bill No. 165 by Chrisman, an act to amend section 4020 of the Compiled Laws of New Mexico of 1897, etc., providing for reduction in assessment because of destruction or damage of property by fire.

House Bill No. 166, by Skidmore, providing that railroad employees may vote elsewhere than in the precinct in which they are registered and qualified voters.

The Speaker signed Senate Bill No. 112, appropriating \$12,500 for the legislative printing and supplies.

House Bill No. 116, by Burg, the Uniform Child Labor Law, the special order of the day, was taken up for passage.

## The House Calendar.

(Special Order.)

House Bill No. 116, introduced by Mr. Burg, April 22nd, an Act to regulate the employment of children and to prescribe penalties for the violation thereof; referred to Committee on Ways and Means. April 27th, reported with recommendation that it be passed with amendments. April 30th, considered by Committee of the Whole; reported with recommendation that it be passed with amendments. Ordered "to lay over two legislative days and to be re-written, as amended."

## Bills on Third Reading.

Senate Bill No. 42, introduced by H. P. Manzanara, April 15th, an Act to provide an appropriation for gauging the streams of the State of New Mexico, etc.; referred to Committee on Irrigation. May 2nd, reported with recommendation that it be passed.

House Bill No. 151, introduced by the Judiciary Committee April 30th, an Act prohibiting acts of sexual perversion; laid on Speaker's table for further consideration when printed.

House Bill No. 152, introduced by Judiciary Committee, April 30th, an Act to define and punish the crime of embezzlement by executors, administrators and guardians; laid on Speaker's table for further consideration when printed.

## MAY CROP REPORT OF DEPARTMENT OF AGRICULTURE.

(By Special Lensed Wire to New Mexican.) Washington, D. C., May 7.—The May crop report of the Department of Agriculture follows:

Winter wheat conditions, 73.7, area remaining 25,744,000 acres or 3,418,000 acres less than in 1911 and, 6,469,000 acres less than sown last fall. Indicated yield 14.4 bushels per acre. Estimated crop, 370,714,000 bushels. Rye condition, 87.5. Meadow lands condition, 85.7. Hay on farms, 3,885,000 tons. Pasture condition, 81.7. Spring plowing 62.8 per cent completed. Spring planting 48.9 per cent completed.

House Substitute for House Bill No. 153, original introduced by Burg, April 30th, an Act to repeal Chapter 136 of the Acts of the Thirty-eighth Legislative Assembly of the Territory of New Mexico; referred to Committee on Ways and Means. May 1st, reported with recommendation that it be passed.

House Joint Memorial No. 5, introduced by Speaker Baca, April 25th, favoring the creation of an additional United States Circuit Court District; referred to Committee on Judiciary. May 1st, reported with recommendation

## PERSONAL MENTION

If you must drink to obtain business, forego the business. You will be solicited by all sorts and conditions of men to join them in drinking, and they will feel offended if you refuse—but refuse. Don't think they will respect you more for not drinking. Not they. The psychology of the drinker's mind is this: He wants to see all men share his weakness, and hates the silent disapproval implied in a refusal to join him. If it is a choice between the enmity of drink and the enmity of the man whose hospitality you refuse take the lesser and eschew the insidious, far-reaching destructiveness of drink.—The Docket.

"Georgia, Florida, and Alabama declared for me in a presidential primary election and this was the expression of the desire of thousands of honest voters at the polls for me and none for any other man."

Republicans Split in Arkansas.

Little Rock, Ark., May 7.—Roosevelt leaders in caucuses early today planned a state convention of their own following fruitless efforts to obtain from the Taft supporters what the Colonel's forces declare would be reasonable recognition of the delegates pledged to their candidate. The Taft supporters planned to proceed with their state convention this afternoon. Two sets of delegates will be sent from Arkansas, to the Chicago convention where the contest must be threshed out.

Clark-Wilson Forces Clash.

Walla Walla, Wash., May 7.—The presentation of majority and minority reports by the credentials committee on the seating of contesting delegations from King county, precipitated this morning the first real clash between the Clark and Wilson forces of the state Democratic convention. After a session lasting nearly all night, the credentials committee voted 20 to 14, to seat the delegation from King county selected at the primaries. This delegation contains a heavy majority of Wilson delegates, while the other contesting delegation known as the "hand picked" delegation, is controlled by the Clark forces.

Democratic Truce in Pennsylvania.

Harrisburg, Pa., May 7.—After much preliminary skirmishing the factions for which two years have been fighting for control of the state Democratic organization were scheduled to come together today for a fight to a finish, a battle in which each hopes to exterminate the other. Calls were sent out weeks ago by the state committees representing the rival factions, but later it was agreed to hold one convention, the losing side to abide by the action of the majority of delegates. Both factions having endorsed Governor Wilson, for the presidential nomination, the convention today will name Wilson delegates and probably will instruct them.

Episcopal Residences.

That Helena, Montana, Los Angeles, California, Pittsburg, Pennsylvania, Detroit, Michigan, and Kansas City, probably are the places where Episcopal residences will be established at this session of the general conference of the Methodist Episcopal Church, is the belief of a number of delegates high in the counsel of the church. The report of the committee on Episcopal residences is to be made to the conference tomorrow.

Will Elect Ten More Bishops.

Other cities which are making a close race for resident bishops are Cleveland, and Bismark, N. D. The dropping of New Orleans as a resident city is being discussed by the delegations. With the establishment of four or five new Episcopalies, it is said the conference at the present session will be forced to elect at least ten bishops. One hundred and fifty names it is estimated will be voted on at the first vote, of which number probably one hundred probably will be dropped from the second ballot. The afternoon session of the conference today was given over to work of the Women's Foreign Missionary Society.

Why He Couldn't Be President.

Teacher, to a roomful of pupils:

"And just think! One of you may be president some day. All of you who would like to be president, please rise."

All rose except little Willie.

"Well, Willie, what is the matter? Wouldn't you like to be president?"

"Y-yes'm," stammered Willie, "but I can't."

"Why not?" asked teacher, astonished.

"Because—because I'm a D-d-democrat," said Willie, bursting into tears.

Compound.

Elgin, Ill.--"After fourteen years of  
suffering everything from female com-  
plaints, I am at last  
restored to health.  
"I employed the  
best doctors and  
even went to the  
hospital for treat-  
ment and was told  
there was no help for  
me. But while tak-  
ing Lydia E. Pink-  
ham's Vegetable  
Compound I began  
to improve and I  
continued its use until I was made well."  
--Mrs. HENRY LEBERGER, 743 Adams St.,  
Kearneysville, W. Va.--"I feel it my  
duty to write and say what Lydia E.  
Pinkham's Vegetable Compound has  
done for me. I suffered from female  
weakness and at times felt so miser-  
able I could hardly endure being on my feet.  
"After taking Lydia E. Pinkham's  
Vegetable Compound and following your  
special directions, my trouble is gone.  
Words fail to express my thankfulness.  
I recommend your medicine to all my  
friends."--Mrs. G. B. WHITTINGTON.

The above are only two of the thou-  
sands of grateful letters which are con-  
stantly being received by the Pinkham

### DOMESTIC WOOL MARKET

CONTINUES DULL AND NARROW.

(By Special Letter to New Mexican)  
Boston, Mass., May 7.--Transactions  
in domestic wool continue along nar-  
row lines and in small lots. Interest  
centers almost wholly in the new clip  
and in the marked advance in prices  
in the west, where early clips sold at  
18 cents. Growers now are reported to  
be asking 19 cents for territory  
stock. Some of last year's fine terri-  
tory staple is selling in small lots at  
63 to 65c; medium territory fleeces  
are firm, 26 to 27 cents being quoted  
for one quarter blood. Pulled wool is  
dull.

### Accused of Poisoning Sheep.

The trial of Al Hill came up before  
Justice Current at Aztec, San Juan  
county, Hill was arrested upon com-  
plaint of Charles Hancock and James  
Taylor of Cedar Hill, charged with at-  
tempting to poison sheep. It is al-  
leged that Hill placed salt-petre where  
the sheep of the complaining wit-  
nesses grazed, with intent to kill  
same. After hearing the testimony,  
Judge Current dismissed Hill, evident-  
ly not believing the evidence suffi-  
cient to convict in district court.

Jas. C. Dahmann, serving his third  
term as mayor, Omaha, Neb., again  
was successful in receiving the over-  
whelming support of the voters in the  
primary election. He also success-  
fully rid himself of a bad case of kidney  
trouble by the aid of Foley Kidney  
Pills, and writes: "I have taken Foley  
Kidney Pills and they have given me  
a great deal of relief so I cheerfully  
recommend them." What Foley Kid-  
ney Pills have done for Mayor Dahl-  
mann they will do for any other per-  
son bothered with backache, rheu-

## THE FORUM

**Taft or Roosevelt?**  
Santa Fe, N. M., May 6, 1912.  
Daily New Mexican:

The campaign for the Republican Presidential nomination has now proceeded far enough to give a convincing demonstration of the unpopularity in the Republican States of the north of Mr. Taft's candidacy for re-nomination. Twenty-one different Republican states have acted in whole or in part in the selection of their delegates to the Republican National convention. Upon any sort of consideration of the results in these states which has the smallest basis of justification, it becomes clear at once that the states which must be relied upon to furnish the electoral votes, if the Republican party is to win at the November election, favor the nomination of Colonel Roosevelt instead of the re-nomination of Mr. Taft, by more than two to one.

Seven of these states have chosen their delegates by presidential preference primaries. They are, in the order in which they voted, North Dakota, Wisconsin, Illinois, Pennsylvania, Nebraska, Oregon and Massachusetts. They aggregate 232 delegates. The majority of these states have voted solidly against Mr. Taft. In only one of them does he make any showing at all in the delegate column. That one is Massachusetts, one of the most conservative states in the Union.

From the beginning of this campaign, the Taft managers have claimed New England as a special stronghold. At the start, they boasted that Taft would get every delegate from the six New England States. It was not until after they had lost Maine solidly to Colonel Roosevelt and had been unable to instruct a single delegate in Vermont that they awoke to the extent of the revolt against Mr. Taft in New England. By the exertion of every ounce of influence and force which the Federal and State machines, backed by the strenuous support of all the corporate special interests, the Taft managers were able to secure a sufficient lead in New Hampshire to carry that state. In Rhode Island, for years the pocket borough of former Senator Nelson W. Aldrich, one of the chief Taft supporters in the country, they were counting upon a repetition of their success in Massachusetts and no doubt would have had it but for the fact that the Roosevelt leaders in the Old Bay state had succeeded in arousing public sentiment to the point where it forced the enactment of the presidential preference primary law that had its first test yesterday.

At once upon the enactment of this law, the Taft managers realized that they were in grave danger in Massachusetts. The most vigorous campaign that has been waged in years resulted. Mr. Taft himself took active part, by delivering a vile assault upon Col. Roosevelt; he injected an element of personal bitterness into the fight the like of which has not been known in American politics for half a century or more. For ten days before the primaries, every Republican congressman from Massachusetts was campaigning in his district against Colonel Roosevelt. The entire Federal machine in Massachusetts was employed to the limit of its activity. The state machine, headed by Senator Crane, the field marshal of the Taft campaign, was equally active. Every railroad and other big corporation, all the large employers of labor, all the special privilege beneficiaries and all the representatives of the special interests were equally exerting themselves to the utmost. They made a campaign misrepresentation, vilification and abuse unparalleled in its reckless disregard of the truth.

Before the primaries, the Taft managers in Washington openly staked whole fortunes on the result. They

were confident of carrying practically the solid delegation of thirty six from Massachusetts. Their leaders in Boston passed the word that the election of any Roosevelt delegates would be regarded as a defeat. In view of all the circumstances, the Roosevelt managers in Massachusetts were willing to concede that such was the situation. They considered that the election of any Roosevelt delegates in Massachusetts would be a decided Roosevelt victory.

The count of the vote showed that the contest was astonishingly close and produced some serious results. The complete count has not yet been received but it is apparent that of the fourteen congressional districts, there was an even division.

The eight delegates-at-large on the Roosevelt ticket were elected by a plurality of about nine thousand but the same voters who elected these eight delegates, all specifically pledged on the ballot to vote for Colonel Roosevelt's nomination, also expressed their preference for re-nomination of Mr. Taft by a plurality of 3800. Under the Massachusetts law this expression of preference is not binding upon the delegates-at-large as an instruction. It is merely advisory. But immediately upon being informed of this state of affairs, Colonel Roosevelt announced that, in accordance with the principles upon which he has made his campaign, he expected these eight Roosevelt delegates-at-large to go to the Chicago convention and support Mr. Taft. Mr. Roosevelt issued a statement in which he said:

"In this fight I am standing for certain great principles, which I regard as vital to the present and future welfare of the nation. My success is of value only as an incident to securing these principles. Foremost among these principles is the right of the people to rule and the duty of the representatives really to represent in the nominating convention no less than in executive or legislative offices.

"If the majority of the rank and file of the Republican party do not want me mentioned, then most certainly I don't wish to be nominated. My aim has been to get a genuine expression of their genuine desire precisely as, if nominated, I should desire to get at the polls the genuine expression of the majority of the whole, because my only purpose in being elected President would be to put into effect certain principles and policies in which I ardently believe, and which I could not forcibly put into effect unless I have behind me the hearty support of the majority of our citizens."

This action of Colonel Roosevelt is in striking contrast to the action of Taft managers in Illinois. In that state the voters expressed their preference for Colonel Roosevelt by a majority more than 140,000 over Mr. Taft. But at the same time they elected in several districts machine precinct committeemen who had it in their power to select delegates to the Chicago convention friendly to Mr. Taft. The day after the Illinois primaries the Taft men in that state were saying:

"Roosevelt has the preference but Taft has the delegates."

Mr. Fred Upham, one of the foremost Taft supporters in Illinois, came to Washington and gave an interview in which he openly declared the purpose of the Taft managers in Illinois to disregard the overwhelming instruction of the voters of the state. Not a word was said by Mr. Taft then or since in rebuke of this brazen proposition.

Several of the New York uninstructed delegates are now proceeding upon their own initiative to sound the sentiment of the Republican voters of their districts with the purpose of acting in accordance with that sentiment. One of them, Jacob Holzman, of the tenth congressional district in Brooklyn, having already discovered that the sentiment of his constituents is overwhelmingly in favor of Mr. Roosevelt, has announced that he will vote for Mr. Roosevelt at Chicago convention. Other similar announcements are to be expected in the near future.

### MURDER AND SUICIDE INTERRUPTED LEGISLATURE

Arizona Law Makers Heard Shots in Rotunda of Capitol Building.

(By Special Leased Wire to New Mexican)

Phoenix, Ariz., May 7.—Today's session of the state legislature was interrupted by a murder and suicide. The lawmakers heard two shots in the rotunda of the capitol building, and running from the legislative chambers, found a man, who was identified as Finley Coffman, bending over the body of Malcolm Gillette, whom he had just shot and killed. Before they could reach the slayer he shot himself in the head, and died instantly. No motive for the crime could be learned. Gillette, who is 32 years old, was for many years chief clerk in the office of the surveyor general of Arizona, and was well known locally in Republican politics.

A search of the man's pocket disclosed the fact that he was Finley Coffman, who came to Arizona for his health. He was interested in a real estate transaction, which involved some dispute over titles and surveys. It is believed he was insane.

The man's name was signed to a brief note giving directions for the disposal of his body. Other letters found in his pocket were addressed to Ben Coffman, Bremen, Kentucky. Nannie Coffman, Sacramento, and John Armstrong, Sacramento.

Mrs. Wm. A. Allen, Chacon, New Mexico, had so severe a cough that it nearly choked her to death. Mr. Allen says: "We tried many things without helping her when by good luck I got a bottle of Foley's Honey and Tar Compound. It helped her at once and finally cured her. It is the best medicine we ever used."—For sale by all druggists.

### WOMEN LEAD ATTACK ON STRIKE BREAKERS.

Pennsylvania Industrial Riots Are Stopped By the State Police.

(By Special Leased Wire to New Mexican)

Scranton, Pa., May 7.—Four hundred men, women and children, made a demonstration today against men engaged in repair work at the Dickson colliery here of the Delaware and Hudson Company. Women led the attacking party. Three men were badly beaten before the police could rescue them.

### State Police Stop Riot.

Mt. Carmel, Pa., May 7.—Five hundred idle miners attended by a sprinkling of women, stopped a Reading railroad train near Alaska shaft and prevented carpenters, firemen and other company hands from going to work at the mines. William Watkins, a stable boss at the Richard's colliery, was badly hurt in the melee. The office of Superintendent Morgan Bevan at Alaska shaft was partly wrecked. On the arrival of Captain Robinson, with twenty state police, the crowd dispersed.

### No Trouble at Shenandoah.

Pottsville, Pa., May 7.—The trouble which it was feared might develop today in Shenandoah and other towns near here failed to materialize and there was comparative quiet in all sections, with the state police in full control of the Shenandoah situation.

### THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble."

My husband asked me to try Cardul. I felt better after the first bottle, and now I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardul. Cardul is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment of Women," sent in plain wrapper, on request.

### A Permanent Cure For Chronic Constipation

Although those may dispute it who have not tried it, yet thousands of others, who speak from personal experience, assert that there is a permanent cure for chronic constipation. Some testify they were cured for as little as fifty cents, years ago, and that the trouble never came back on them, while others admit they took several bottles before a steady cure was brought about.

The remedy referred to is Dr. Caldwell's Syrup Pepsin. It has been on the market for over a quarter of a century and has been popularized on its merits, by one person telling another. The fact that its strongest supporters are women an elderly people—the ones most persistently constipated—makes it certain that the claims regarding it as a permanent cure for constipation have not been exaggerated. It is not violent like cathartic pills,

salts or waters, but operates gently, without griping and without shock to the system. It contains tonic properties that strengthen the stomach and bowel muscles so that in time medicines of all kinds can be dispensed with and nature is again solely relied on. Among the legions who testify to these facts are Mr. Jas. A. Lushman, Logan, Utah; and Josephine Bailey, Sheridan, Wyo.; and they always have a bottle of it in the house, for it is a reliable laxative for all the family from infancy to old age.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

### WHEAT PRICES SUFFERED SERIOUS SET BACK TODAY.

Heavy Rains in Kansas, Missouri and Nebraska Caused Market to Sag.

(By Special Leased Wire to New Mexican)

Chicago, Ill., May 7.—Wheat prices suffered a set-back today in consequence of heavy rains in Kansas, Missouri, Nebraska, and because of weakness in foreign markets. The opening ranged from 3-8c lower to a shade advance. July started at 114 1-8 to 114 1-4, a decline to 1-8@1-4, to 1-4@2-8 and sank to 113 7-8.

The close was firm with July at 114 5-8@3-4 an advance of 1-4c net. A moderate amount of buying on the part of leading houses proved sufficient to rally corn. July opened 1-8 off to a like amount up at 76 3-4, to 76 7-8, touched 76 5-8@3-4, and then rose to 77 1-8@1-4.

Closing prices were steady 3-8@1-2c net higher for July at 77 1-4@2-8c. Shorts in the oats crowd took cover when signs indicated that the market would receive substantial support. Previously the market sagged owing to fine weather. July started 1-4 to 3-8c down at 52 1-2 to 52 5-8c and reacted to 52 7-8.

Selling by houses with foreign concern made provision prices sag and business as a whole turned dull. First transactions varied from 5@7 1-2 lower to a shade up with September options 19.47-2 to 19.50 for pork 11.22 1-2 to 11.25 for lard, and 10.60 for ribs.

Mrs. M. Bishop, Columbus, Kansas, suffered from a weak back a good many years, as a result of kidney trouble. I began taking Foley's Kidney Pills and soon after the pain left my back and today I am fully cured." For sale by all druggists.

### BEAR OPERATORS RAIDED UNITED STATES STEEL.

Forced That Issue Down, But Had Little Effect on General Trading.

(By Special Leased Wire to New Mexican)

New York, May 7.—After heaviness in the first hour today, the stock market inclined toward general improvement. Bear operators raided U. S. Steel, and forced it down to 64 1-8 in the noon hour. American Can had a rise of 2-8 points. St. Paul, in the noon hour, sold as low as in the morning. Wabash fours with an advance of 1-4 points, was the feature of another very steady bond market.

Stocks were purchased with more confidence in the afternoon and the general market began to show a disposition to ignore the spasmodic weakness of U. S. Steel. Accumulation of Reading was on a large scale and it touched 174 3-8; Union Pacific sold a point above yesterday's closing.

The market closed strong. Selling of Amalgamated Copper threatened to send prices lower in the last hour but the publication of the government crop report, which was fair in most particulars, gave the list some stimulus. A majority of the grain carrying roads moved upwards with especial strength in Union Pacific. Reading scored a further advance of two points and the average level was the highest of the day. U. S. Steel recovered the greater part of its decline.

### JOHNNY COULON MATCHED WITH EDDIE LENNON.

(By Special Leased Wire to New Mexican) Springfield, Mo., May 7.—Johnny Coulon, bantam weight champion, today was matched for a ten round bout here May 17 with Eddie Lennon of San Francisco.

## Plays AND Players

Lovie Zenti Purcell the famous contralto of the Schubert Lady Quartette, has one of the deepest voices ever given to a woman, and is the only lady vocalist able to sing an octave below middle C in concert. Her voice is very powerful and yet so melodious that her strongest tones lose none of its sweetness. Hear her May 8th at the Elks' theater.

### High Praise For Famous Author.

"The Bookman" says of Rex Beach, author of "The Barrier": Born in Michigan, Rex Beach went to college in Florida, then published his first book in New York. He was nineteen when he went to Alaska about twenty-five when he came back. In those six years he saw practically everything there was to be seen in the mining countries and not only with his size and strength held his own, and with humorous good temper has won extensive popularity.

Mr. Beach's energy is as versatile as it is effective. Though still in his twenties he is vice-president of a big Chicago construction and manufacturing company, secretary of the Chicago Athletic Association, winner of the one mile handicap swimming race at last year's game in St. Louis, and a holder of other athletic records.

His "Barrier" is considered his masterpiece, and the stage version of the book as the most accurate exponent of the life in Alaska ever presented upon

the American stage. This excellent play, direct from the conquests of the cities of the east will appear in this city at the Elks' theater on Thursday, May 9th.

The advance sale of seats which have been universally large all over the country will open promptly at 12 noon at Fischer's drug store on the corner of Tuesday, May 7th.

### Stubborn Colds May Lead to Consumption

Did you ever have a cold that would not let go; a cough that persisted, that prevented sleep, and made waking hours miserable? Eckman's Alternative is the proper remedy in such cases. Perhaps some simple medicine may be effective where it is only a tickling in the throat; but when your chest is sore and simple remedies don't answer then take Eckman's Alternative. Neglect often leads to more serious trouble; a case in point follows: 718 Cherry St., Philadelphia, Pa. "Gentlemen: In July, 1905, I first noticed the conditions that showed I had Consumption. I lost weight rapidly; had a hollow cough, hemorrhages and very severe night sweats. My brother recommended Eckman's Alternative. In the Fall of 1905 I began to take it. At this time I am perfectly well and robust. My appetite is good and my weight has increased from 110 to 140 pounds. Not a trace of my old trouble remains. I will gladly express the merits of this medicine to anyone."

(Signed) M. L. GERHARDT. Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet of cured cases and write to Eckman Laboratories, Philadelphia, Pa., for more evidence. For sale by all leading druggists and by Zook's Pharmacy, Santa Fe.

### MAY CROP REPORT IS VERY UNFAVORABLE.

Estimated 60,000,000 Bushels Less of Winter Wheat Than Last Year.

(By Special Leased Wire to New Mexican)

Washington, D. C., May 7.—The May crop report of the Department of Agriculture issued at 2:15 p. m. today disclosed a decidedly unfavorable condition. Winter wheat, owing to the rigorous winter, will produce an estimated crop of about 60,000,000 bushels less than that of last year. More than one-fifth of the area planted last fall was abandoned owing to the severe winter, leaving an average at almost 12 per cent less than that harvested last year. The average condition of winter wheat was 5.5 per cent below the 10-year average condition.

Spring planting was less than half done, or 48.9 per cent compared with a six-year average of 55.2 average. Spring plowing was only 52.8 per cent completed May 1, compared with 67.6 per cent for the previous ten years. Pastures and meadow lands also were below the 10-year average, but slightly above last year's May 1 condition.

### Report By States.

#### WHEN HER BACK ACHES.

A Woman Finds All Her Energy and Ambition Slipping Away.

Santa Fe women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of dropsy or Bright's disease. Doan's Kidney Pills are for the kidneys only. They attack kidney diseases by striking at the cause. Here's proof of it in a Santa Fe woman's words:

Mrs. Desideria J. de Quintana, Colerize St., Santa Fe, N. Mex., says: "Several years ago I used Doan's Kidney Pills and I was cured of a bad attack of kidney complaint. At that time a statement appeared in the local papers, telling of my experience and I now take pleasure in confirming all that was then said in their praise. I had pains in my back that made it difficult for me to stoop and there were other troubles which plainly showed that my kidneys were at fault. Soon after I began taking Doan's Kidney Pills, improvement was noticeable and the contents of two boxes, not only restored my kidneys to their normal condition but also removed the pain from my back. I am glad to say that during the time that has since passed, my cure has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

ROOSEVELT AND CLARK WINNERS.

(Continued from page one.)

returns from Howard county received from separate sources by the three Baltimore afternoon newspapers give Roosevelt a majority varying from eighty to eighty-nine. Figures collected independently by the Roosevelt committee give Colonel Roosevelt a

majority of eighty-nine. The Taft committee has announced no figures. Taft May Receive 4 of 16 Delegates.

Washington, D. C., May 7.—Director McKinley of President Taft's campaign in a statement today on the Maryland primary results said: "Under the rules and regulations of the Republican party, as announced by the Republican National Committee, President Taft is entitled to and will receive four of the sixteen votes from Maryland in the National convention."

Mr. McKinley explained that the call of the Republican National Committee issued here last December, provided rules under which delegates should be chosen, containing a clause that "in no state shall an election be so held as to prevent the delegates from any congressional district and their alternates being selected by the Republican electors of that district."

On the strength of this rule and in view of returns from the first and fifth Maryland districts, Mr. McKinley says four of Maryland's delegates will give 90 to Taft.
