Meeting
A meeting of the Executive Committee of the University of New Mexico was held May 10, 1916, at the office of Dr. Reidy, there being present Dr. Reidy and Mr. Brooks. The latter stated such arrangements had been made as to moving what is known as "the hump" on Central Ave., that there was practical assurance that this would be done at once; that Mr. Roslington had called and had made it evident that in order to build the line to the University, it would have to be done at once and in view of this it was decided to mail the following letter to the City Electric Company:
