## HEWETT WILL GO TO ENGLAND

Scientist Delegate to International Congress of Americanites

### WILL SAIL MAY 23, NEXT

Two Cases Were Submitted on Briefs and State Supreme Court Adjourned.

Senate Bill No. 112, which carries an appropriation of \$12,500 for legislative printing and supplies, was filed yesterday afternoon in the office of Secretary of State Antonio Lucero.

Another Federal Park for New Mexico. Senator Fall of New Mexico yesterday in Congress introduced bills to create a national park from lands in New Mexico adjacent to the Engle dam and storage reservoir, and appropriating \$2,000 for a sanatorium for the treatment and care of tubercular Indians.

Dr. Hewett Goes to England as Delegate. The School of American Archaeology is in receipt of a certificate under seal of the Department of State, naming its director, Dr. Edgar L. Hewett, as delegate of the United States government to the meeting of the International Congress of Americanites to be held in London May 27 to June 1. Dr. and Mrs. Hewett will sail for England on the Mauretania, May 22d.

Mica Corporation. Articles of incorporation were filed this morning with the state corporation commission by the "Mica Corporation," a company that expects to do a general telephone, telegraph, water rights, lighting and real estate business with offices at Tres Piedras, Rio Arriba county under the charge of E. C. Osborn, statutory agent. The concern is capitalized at \$3,000, divided into 300 shares worth \$10 each at par. The company will begin business on \$2,000. The names of the incorporators, their postoffice addresses and the number of shares subscribed by each follow: E. C. Osborn, Tres Piedras, 100 shares; A. L. Osborn, Denver, 90 shares; M. A. Calhoun, Denver, 10 shares.

Treasurer's Receipts. The following sums of money were received this morning in the office of State Treasurer O. N. Marron: Nestor C. de Baca, treasurer of Union county, taxes, \$707.46; Solomon Sanchez, treasurer of Guadalupe county, taxes, \$400.98; Vicente Jaramillo, Rio Arriba county, taxes, \$236.47; M. B. Jones, treasurer of Roosevelt county, taxes, \$549.73; Celso Lopez, treasurer of Santa Fe county, taxes, \$176.91; Max H. Montoya, treasurer of Socorro county, taxes, \$121.05; John F. Taylor, treasurer of Curry county, taxes, \$575.46; Thomas P. Gable, game and fish warden, game protection fund, \$3.59; John W. March, land commissioner, salary fund, \$62.49.

Supreme Court. The state supreme court met yesterday afternoon with Judges Roberts, Hanna and Parker present, and Clerk Jose D. Sena in attendance. The following cases were submitted on briefs after which the court adjourned until 10 o'clock tomorrow morning:

Case No. 1463, Territory of New Mexico, appellee, vs. Enos R. Hart, appellant.

Case No. 1464, Territory of New Mexico, appellee, vs. Thomas M. Daventport, appellant.

Recent Decisions by State Supreme Court.

Natural Water Course Defined. Case No. 1450. The Jacques Ditch Company, et al, appellants, vs. Senor Garcia, et al, appellees. Appeal from the district court of San Juan county. This cause was reversed on the ground that the trial court erred in its definition of a natural water course, and was remanded for further proceedings in conformity with this opinion. Opinion by District Judge H. F. Reynolds, Judges Roberts and Parker concurring. Judge Hanna not participating. The syllabus for this case reads:

Where the question involved was whether a certain arroyo was or was not a natural water course, and the court below found "that the arroyo was not a permanent or natural stream or water course in which water runs during the entire year, being a dry arroyo carrying only such water as may be designated as surface or flood waters," and dismissed the cause on this ground: Held error.

Where surface water in a hilly region of high bluffs seeks an outlet through a gorge or ravine during the rainy season and by its flow assumes a definite and natural channel, and such has always been the case so far as the memory of man runs, such accustomed channel through which the water flows possesses the attributes of a natural water course. The flow of the water need not be continuous, and the size of the stream is immaterial.

Common Law in New Mexico. Case No. 1424. Jose Casimiro Montoya, appellant, vs. Territory of New Mexico, appellee. Appeal from the district court of Colfax county. In the opinion of the court the evidence was sufficient to sustain the verdict: "A number of assignments of error are dealt with in appellant's brief some apparently waived, but all have been considered and we are of the opinion

## BACA IS IN THE SADDLE

He Is Named Chairman of Joint Legislative Steering Committee

### LEADER BURG VERY BUSY

Flood of Bills Demands Consideration Next Four Weeks.

The House late this afternoon passed a bill by Manzanares creating the county of Sumner, the vote being 26 to 20.

There is no getting away from the fact that the Ways and Means Committee of the House is being overloaded with bills and that unless it unloads some of these on other committees, there will be trouble. Each important measure has within it the seed of discord, when those interested are pushing its consideration. Take the Sumner county bill which is slated to come up again this afternoon. It has been shunted from the Committee on Counties and County Lines, to the Committee on Judiciary, and from there is was thrown into the Ways and Means Committee, and it was only after a spirited fight put up by Representative Manzanares that it saw the light of day again. Last evening and today, the committee was occupied with the Corporation Commission bill that has gone through the Senate. This, of course, delayed action on other measures, and it is very likely, that from now on, only really vital measures will go to the Ways and Means Committee and other bills will go to the other committees, some of which have not worked at all as yet this session, although only four weeks remain before final adjournment.

At a conference last evening of the steering committees of five members each from each house, Speaker R. L. Baca was elected as chairman, a tribute to his parliamentary leadership, which will no doubt bring order out of the chaos which for a time threatened to engulf the Republican majority of both Houses.

Sent the Telegrams Himself. Considerable amusement was caused by an enthusiastic new county booster, who in his fervor for the cause, dictated two telegrams to himself, advocating the creation of the new county, in which he, although not a representative, is interested. He forgot to sign the telegrams, however, and the committee had the horse laugh on him when he presented them. The Ways and Means Committee is a pretty shrewd lot and it is not practicable to pull the wool over the eyes of the entire thirty at the same time.

Making Up Final Calendar. Leaders in both Houses are making up a final calendar of legislation that must go through before adjournment. Only the most essential acts are placed on this calendar, and some of them

(Continued on Page Four.)

## FLOOD ADVANCE IS UNCHECKED

Torras Crevasse Widened and Water Bears Down on New Roads

HUNDREDS MORE MAROONED

Looters in Skiffs Are Robbing Houses From Which Families Have Fled.

(By Special Leased Wire to New Mexico.) New Roads, La., May 9.—Tearing away 1,400 feet of the south end of the Torras crevasse, a wall of water from eight to ten feet deep and half a mile in width today is bearing down upon the already overflowed area of Pointe Coupee, St. Landry and several other parishes.

New Roads Inundated. New Roads, heretofore considered practically safe from the Torras flood, is rapidly becoming inundated. Boats are being built and other preparations made by the townspeople for a hurried exit. This part of the parish being thickly settled, much rescue work will be required. Motor boats and skiffs are being concentrated here by the government representatives. In some instances the officers confiscated both and are holding them in readiness. Farmers, driving their livestock in advance of the flood, arrived here early today from the country around Forche.

Hundreds Marooned. They report hundreds of persons marooned in their homes in that vicinity and are in urgent need of relief. Motor boats were unable to reach that district yesterday. Looters in skiffs are reported to be reaping a rich harvest in the inundated country. Many houses from which their occupants were hastily driven have been broken open and robbed. The size of the fam-

(Continued on Page 8.)

## COAL RIOTS IN PENNSYLVANIA

Two of Mob That Eagared in Fight in Minersville Will Die

### POLICE DISPERSE PICKETS

Troopers Charged Crowd That Set Upon Workers Near North Scranton.

(By Special Leased Wire to New Mexico.) Pottsville, Pa., May 9.—The mountains about Minersville were dotted with pickets representing idle anthracite miners, who hid behind bushes and rocks and who stopped many workers on their way to the collieries and warned them not to go to work today. No trouble was reported. Lehigh Valley Coal and Iron police dispersed pickets near Mount Carmel and Centralia and arrested, after a sharp fight, one man for throwing stones at company hands.

Mob Victims May Die. An unsuccessful attempt was made at Locust Gap during the night to wreck a Reading freight train. Special policemen and truck walkers have been distributed along the railway. The three men injured in yesterday's fight between state police and miners at Minersville still are alive, but there is little hope for two of them.

Trouble Near Wilkesbarre. Philadelphia, Pa., May 9.—The first disturbance in the Wyoming region occurred today at Lucerne Borough near Wilkesbarre, where foreigners armed with sticks and stones attacked workmen and compelled the coal washery of the Palfre Coal Company to suspend operations. One workman was cut about the head.

Police Charge Rioters. A crowd of men, women and boys attacked men engaged in the fire rooms and on repair work at a colliery near North Scranton. Two of the workmen refused the services of physicians. Here the crowd felt back only before the horses of the troopers. At another colliery in North Scranton, a fireman was seriously injured when attacked by men and boys.

## STEEL TRUST IS SUSTAINED

Government Lost Motion to Restrain Company From Destroying Books

NO EVIDENCE OF CRIME

Combination Is Not Held Responsible For Acts of Subsidiary Concern.

(By Special Leased Wire to New Mexico.) Trenton, N. J., May 9.—The appeal in the United States District Court here for an injunction to restrain the United States steel corporation and a number of its subsidiary concerns from the destruction of books and papers which might be used in evidence in the suit of the government for the dissolution of the steel corporation, was dismissed in a per curiam opinion filed this morning by Judges Gray, Buffington and McPherson, except as to the American Steel & Wire Company, one of the steel corporation's subsidiary concerns.

No Evidence of Criminal Intent. The opinion which is brief, after speaking of the application says: "No evidence is offered that such destruction is threatened, and it need hardly be said that evidence is essential before any man may be either accused or convicted of what would be in substance a criminal interference with the courts of justice."

Motion Not Supported by Evidence. "The motion is supported almost wholly by the fact that after certain prosecutions in the southern districts of New York came to an end a number of papers belonging to the American Steel and Wire Company that had been furnished by the company to the government for use in such prosecution, and had been returned to its possession, were destroyed by one of its officers."

Destruction Without Evil. "While we are satisfied that this destruction was without evil fact remains that the destruction took place and that is the reason why, so far as the steel and wire company is concerned, the restraining order previously granted should be continued."

The opinion also says that it is not shown that the other defendants were in any respect connected with its acts and that without evidence the court cannot grant the present petition. The petition is, therefore, refused except as to the steel and wire company, but the government is given permission to renew the petition if at any time counsel shall desire such a step as necessary or desirable.

Wire Pool Case. New York, May 9.—Further testi-

## PUBLIC MISLED BY WHITE STAR

Editor of Ticker Service Tells How Officials Corrupted News

### TO ABOLISH COMMERCE COURT

Cases Pending to be Transferred to Federal District Jurisdictions.

(By Special Leased Wire to New Mexico.) Senate. Washington, D. C., May 9.—Met at noon. Began consideration of rivers and harbors appropriation bill. Titanic inquiry was reopened. M. L. Farrell, news editor of a Wall Street ticker service, testifying regarding misleading reports.

House. Met at 11 a. m. Resumed consideration of the legislative, executive and judicial appropriation bill.

Chairman Pujo of so-called Money Trust Investigating committee, announced that the banks were responding fully to committee's inquiries.

Voted to Abolish Commerce Court. Washington, D. C., May 9.—The House today voted 12 to 49 to abolish the United States court of commerce, many Republicans voting with the Democrats. Cases now pending before the court, under the abolition provision contained in the legislative, executive, and judicial appropriation bill, would be transferred to the various federal district courts having competent jurisdiction.

Taft in Washington. Washington, D. C., May 9.—President Taft arrived in Washington this afternoon for a twenty-four hour stay. Tomorrow evening he will start for Princeton, New Jersey. Director McKinley of the Taft campaign headquarters boarded the President's train at Baltimore and conferred with his chief during the ride to Washington.

242 Killed in Three Months. Washington, D. C., May 9.—Two hundred and forty-two persons were killed and 4,706 were injured in train accidents in the United States during the quarter ended December 31, 1911, according to Accident Bulletin No. 12, issued by the Interstate Commerce Commission. This is a decrease of six in the number killed and an increase of 977 in the number injured, as compared with the corresponding quarter of 1910.

Mints Will Continue. Washington, D. C., May 9.—An attempt to abolish the mints at San Francisco, New Orleans and Carson, Nevada, and the assay offices at Boise, Idaho; Deadwood, South Dakota; Helena, Montana; Seattle, Washington, and Salt Lake City, was defeated in the House today 92 to 61.

Editor Tells of Misleading Telegrams. Washington, D. C., May 9.—The Titanic inquiry was opened by the Senate investigating committee today to permit testimony by Maurice L. Farrell of New York City, managing news editor of Dow, Jones & Co. Senator William Alden Smith of Michigan, chairman of the subcommittee, was alone in questioning Mr. Farrell, who was called to throw light on reports circulated Monday, April 15, before the night dispatches showed the appalling extent of the accident.

Witness Says White Star Misled Public. Mr. Farrell said the information they sent out was virtually all from the White Star offices, either from Mr. Franklin, the vice-president of the White Star Line, or his subordinate officers.

Mr. Smith read from a dispatch which stated that a "dispatch received from Halifax reports that all of the passengers of the Titanic left the steamer after 3:20 this morning."

Mr. Farrell identified a memorandum accompanying this dispatch dated 8:58 a. m. which he said was received from the Boston News Bureau, the Boston correspondent of the company.

"Did you attempt to verify this at the White Star offices?" asked Senator Smith.

"We did. Prior to that we had received from the White Star offices a statement somewhat similar to this. It was published in our ticker service at 8:35 a. m."

Sources of Misleading Dispatches. From the Laffan News Bureau, Mr. Farrell said he had obtained the basis for his item that an attempt was being made in London to have Lloyds re-insure the Titanic's cargo. The item about 10:30 a. m. announcing that the Titanic was heading for Halifax, Mr. Farrell said, was obtained by Reporter Byrne from Vice President Franklin. The item at 10:55 a. m. reporting that the Virginian was alongside the Titanic was said to have been received by the Laffan News Bureau. Another was read, quoting Mr. Franklin as insisting that the Titanic was unsinkable.

How Franklin Misled Reporters. The witness read an item published at 3:01 p. m. announcing that Vice President Franklin would send a special train to Halifax with 3 coaches to meet the Titanic passengers. The item said this would accommodate 710 persons. Mr. Farrell said Mr. Frank-

(Continued on Page Five.)

## CONFEDERATES ELECT YOUNG

Choice of Commander-in-Chief Is Made Unanimously by Veterans

### WAS WARMLY CONTESTED

Generals Walker and Van Sant Withdrew and Close Deadlock Was Broken.

(By Special Leased Wire to New Mexico.) Macon, Ga., May 9.—General Bennett H. Young, of Louisville, Kentucky, commander of the army of Tennessee, was elected commander-in-chief of the United Confederate Veterans today.

When the veterans assembled today, interest in the election of a commander-in-chief, had reached fever heat. General Irvine Walker of Charleston, who became commander at the death of General Gordon last fall, General Vanzant of Texas, and General Young were the candidates.

A detachment of militia surrounded the hall and only actual delegates were permitted to remain. The adjutant general also stationed men throughout the hall to keep the delegates in their seats when the voting began.

Commander Walker announced that he would not permit a repetition of the occurrences of yesterday and Tuesday night, when disorder of the audience made it necessary to adjourn the sessions. Sixteen thousand veterans will participate in the parade this afternoon.

Choice Made Unanimous. After the withdrawals of General Walker and Van Sant from the race for commander-in-chief, General Young's election was made unanimous. General Walker was elected honorary commander-in-chief.

Vets Dropped Out of Parade. General Walker announced that he would withdraw rather than promote a spirited contest in the ranks of the old soldiers. General Walker was elected honorary commander-in-chief.

The parade of 16,000 old soldiers which was viewed by 50,000 spectators, was too much for some veterans who dropped out and were cared for by ambulance corps.

Gomez Is On Anxious Seat. Weather or Not Orozco Will Recognize Presidency Unknown. Messenger Not Returned. Washington Is Advised That New Executive Is Prisoner Under Guard.

(By Special Leased Wire to New Mexico.) Juarez, Mex., May 9.—Emilio Vasquez Gomez probably will know within another twenty-four hours whether he is provisional president of the rebel government or a prisoner of General Pascual Orozco, the military chief. The special envoy from Gomez to Orozco was reported here today to be returning from the south with Orozco's army. No intimation of what it contained had reached here at 10 o'clock today.

Gomez and his associates declare they are yet without advice but insist that if Orozco was dissatisfied with the present procedure here he would have wired a protest. It is probable that the approaching clash with the federals in the vicinity of Torreon is absorbing the attention of the rebel military chief and political developments are likely to lag until the outcome of the battle is known. Gomez moves about freely in Juarez and no extraordinary precautions to guard him were apparent today. On the street he is constantly accompanied by Colonel Pascual Orozco, Sr., his minister of war, Moreno Cantun, secretary of foreign affairs and Francisco Padilla, military chief in Juarez.

Reported Gomez a Prisoner. Washington, D. C., May 9.—Emilio Vasquez Gomez is held a prisoner in the customs house in Juarez, according to advices to the state department today. A heavy guard has been thrown around the building. The department is further advised that Orozco probably will not confirm Gomez as president. The reports indicate the rebels have been defeated in the mountain pass El Puerto del Carmon, between Monclova and Cuatro Ciénegas, Coahuila.

Rebel Army Moving. Escalon, Mex., May 9.—General Orozco's rebel army continued southward early today without a single skirmish. The federals are yet believed to be many miles south of here though scouts had reported a gradual advance of the federals northward from Torreon. The march southward was uneventful.

Earthquakes in Mexico. Guadalupe, Mex., May 9.—More than a dozen earthquakes were felt here at intervals from 6:30 o'clock this morning up to 5:50 o'clock this evening. The last shock was the

(Continued on page eight.)

## NEW THEORY OF TITANIC'S LOSS

Opened Water Tight Doors or After Part Would Have Floated

### IS MAY'S CONDUCT EXEMPLARY

Witness Before British Wreck Commission Testifies in Official's Favor.

(By Special Leased Wire to New Mexico.) London, May 9.—Evidence that the doors of four water-tight bulkheads had been opened after having been closed from the bridge was introduced today at the British wreck commission's inquiry into the loss of the Titanic. This was done, according to Thomas Dillon, the engineer and crew might reach the pumps in boiler room No. 5. The men did not go into boiler room No. 5, because there was too much water there. In fact, the water was leaking through into boiler room No. 4. Dillon said he swam about for twenty minutes before being rescued and saw at least 1,000 other men swimming or floating on the surface buoyed up by life preservers. He saw no women in the water.

Is May's Conduct Exemplary. The conduct of J. Bruce Ismay, managing director of the International Marine after the casualty was mentioned for the first time during the British investigation and was described by James Johnson, a steward, as having been exemplary.

Johnson, who left the ship in No. 2 emergency boat, a small dingy, was asked why there was not more women in the boat. He replied that they would not get into it. Mr. Ismay, the witness said, tried to induce the women to enter the dingy but they refused, whereupon he escorted them to larger boats.

"He did everything an Englishman could do," Johnson added.

Officer Took Professional Advice. Steward Johnson was asked why his boat had not returned to the scene of the disaster when its occupants heard cries for help. He replied that the officer in charge had asked the women if they should return, but the women decided against this course and the officer took their advice. Under the existing weather conditions their boat would have held five or six more persons, Johnson testified.

A New Theory Deduced. Sir Robert Finlay, attorney for the White Star Line, explained that the doors mentioned by Dillon, could not be opened without being released from the bridge. The attorney for the Seamen's and Firemen's Union suggested that the evidence that the after part of the ship righted itself momentarily after the forward part had sunk justified his theory that if the bulkhead had not been opened the after part of the ship would have remained afloat.

Engineers All Perished. The attorney general, Sir Rufus Isaacs, explained that the only evidence obtainable regarding the engine room was that of the stokers as all the engineers went down with the ship. Only seven of the 83 firemen on duty at the time of the accident were saved.

Wyoming Favors President Taft. Indications Are That State Convention Will Instruct For Executive. Colonel Won Texas Vote. Republican Leaders of Maryland Will Support Roosevelt.

(By Special Leased Wire to New Mexico.) Cheyenne, Wyo., May 9.—Returns from eleven of thirteen counties in Wyoming indicate that Republican state convention which meets May 13, will send instructed Taft delegation to Chicago. Same counties send only three instructed Democratic delegations to the state convention. These three are for Champ Clark. Uninstructed delegations are also friendly to Clark. State convention will undoubtedly send a delegation to the national Democratic convention which will be friendly to both Clark and Wilson.

All Quit in Ohio. Columbus, Ohio, May 9.—National politics still simmered in this state today after the finish of President Taft's three day tour and prior to the invasion of candidates scheduled to begin their final campaigns here next week. The president will return Sunday according to present plans and Monday he is to be followed by Colonel Roosevelt. Campaign managers for Senator LaFollette have announced that he is to make a final tour of the state prior to the primary election May 21.

In the Democratic ranks there is as much activity and many candidates are laying out plans for speaking

(Continued on Page Four.)

## MORE CAREFUL DELIBERATION

Senate Rule That Will Prevent Railroad of Important Measures

### AID FOR FLOOD SUFFERERS

Nichol's Resolution Unconstitutional But Walton Substitutes Bill.

The Senate held a brief but important session this forenoon. It lasted less than an hour but steam pressure was up to a high notch. Most important in its effect on pending legislation was the announcement by Republican Floor Leader Holt that a rule would be reported tomorrow, similar to the House rule, providing that whenever a bill is reported with amendments, or when a substitute is reported, it shall be over twenty-four hours before it is taken up for passage. There had been much complaint, especially on part of the Spanish-Americans, that bills were railroaded through directly after report from committee, and that many members did not get wise to the fine points of the proposed legislation until after it had passed.

Banking Bill. The Senate Committee on Banks and Banking met this forenoon to consider the new banking code. There appeared before it: Major R. J. Folen, D. T. Hoskins of Las Vegas, J. W. Poe of Roswell, H. B. Jones of Tucuman, and E. R. Wright of Santa Fe. The bill has been recommended by the New Mexico Bankers' Association and places banks under much more rigid supervision than heretofore.

All Kinds of Petitions. Santa Fe was to the fore today with a petition favoring prize fighting. Similar petitions were presented from Belen and Albuquerque by Clark, while a protest against prize fighting was read from Alamogordo. The resolution of the Grant County Democracy, protesting against the high salaries provided for the Hinkle and Baca county salary bills, was also presented in the form of a petition.

Invitation to Clovis. Mabry presented an invitation from Clovis to the members of the Senate to attend the state convention of the "unalloyed, untrifled Democracy" on May 14, and had to submit to some good-natured "joshing."

For Flood Sufferers. Walton for the Committee on Revision, reported adversely House Joint Resolution No. 19, appropriating \$1,000 for the flood sufferers in the Mississippi valley, declaring it was unconstitutional to appropriate money by resolution and that it has to be done by bill. He submitted such a bill, as Senate Bill No. 134, which was passed immediately under suspension of the rules. The bill carries the emergency clause and it passed unanimously, 20 voting.

Bills on Third Reading. After committee reports, bills were taken up on third reading, but not much progress was made, as on objection to several of the measures, they went over until tomorrow. The Committee on Judiciary had reported a Senate Substitute for Senate Bill No. 29, an anti-slavery act, and the substitute was ordered printed.

The committee had reported with amendments, Senate Bill No. 30, prescribing qualifications for appointive officers, and on objection, it went over until tomorrow.

The Committee on Judiciary had reported a substitute for Senate Bill No. 117, another Pankey drinking cup bill, and on objection of Miera, it went over until tomorrow.

Senate Bill No. 124, conferring jurisdiction on Justices of the peace in cases involving not more than \$200, was passed unanimously, 20 votes being cast.

The Medical Bill. On motion of Ifield, Senate Bill No. 44, the Medical Bill, was recalled from the Committee on State Affairs and referred to the Committee on Judiciary, which also has House Substitute for House Bill No. 17, the Medical Bill, which had passed in the House. A public hearing on both bills has been called for tomorrow afternoon at 2:30 o'clock, and there will be a royal fight over the measures, the allopaths and homeopaths, favoring Senate Bill No. 44, also known as the Medical Trust Act, and the osteopaths, Christian Scientists and those who believe in medical freedom, favoring the House bill, except that they want to have stricken out an amendment requiring that applicants for license to practice medicine in New Mexico must be adherents of the rules of ethics of the American Medical Association.

Committee Meetings. A meeting of the Committee on Judiciary was called for two o'clock, and when it adjourns, of the Committee on Roads and Highways, before which Roswell, Albuquerque and Santa Fe businessmen will appear to boost for good roads legislation.

A meeting of the Committee on Counties and County Lines was also called in the hope that the Hinkle-Gage county bill might be taken out, but the chances for this are very slim.

Hartt and Barth Pair. Hartt was excused from attendance until next Wednesday and announced a pair with Barth on every measure except Senate Bill No. 33, on which he reserves the right to record his own vote.

The Senate adjourned until 10 o'clock tomorrow forenoon.

### HOME ENDORSEMENT.

Hundreds of Santa Fe Citizens Can Tell You All About It.

Home endorsement, the public expression of Santa Fe people, should be evidence beyond dispute for every Santa Fe reader. Surely the experience of friends and neighbors, cheerfully given by them will carry more weight than the utterances of strangers residing in faraway places. Read the following:

J. T. Sandoval, 115 Ortiz St., Santa Fe, N. Mex., says: "I have used Doan's Kidney Pills off and on for two years and they have done me a world of good. A dull pain in the small of my back, sometimes extending into my bladder caused me a great deal of trouble particularly when I took cold. I was bothered mostly in the winter, and in addition to the pain in my back, there were symptoms of inflammation of the bladder. The kidney secretions were highly colored and when passed were attended with a scalding pain. I never used another remedy that acted as satisfactorily as Doan's Kidney Pills. They proved to be just the medicine my case required and the complete cure they brought has led me to recommend them on more than one occasion."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

THAT IS WHAT TAKES COURAGE. It takes great strength to bring your life up square. With your acceptance, thought, and hold it there. Resisting the inertia that drags back from new attempts to the old habit's track. It is so easy to drift back, to sink; So hard to live abreast of what you think.

It takes great strength to live where you belong. When other people think that you are wrong; People you love, and who love you, and whose Approval is a pleasure you would choose. To bear this pressure and succeed at length. In living your belief—well, it takes strength.

And courage, too. But what does courage mean? Save strength to help you bear a pain foreseen? Courage to undertake this lifelong strain. Of setting yours against your grand-sire's brain;

Dangerous risk of walking lone and free. Out of the easy paths that used to be. And the fierce pain of hurting those we love.

When love meets truth, and truth must ride above? —From "Heroism," by Charlotte Perkins Gilman.

### AROUND THE STATE

Rancher Commits Suicide.

A. N. Blessing, a prominent ranchman and fruit grower, at Montrose, Colorado, committed suicide by drinking carbolic acid.

One More Unfortunate.

Mrs. Emma Seifert at Denver, saturated two towels with chloroform and placed them over her head, and died. The body was found in her room, by Mrs. Martin Hansan, landlady of the house. She had been dead twelve hours.

Jolt for Mere Men.

Greeley, Colo., May 9.—Mere men of Greeley got a severe jolt when they learned that a club of thirty of the city's most attractive girls had organized a club and taken for their motto Psalms 8: 4, which reads, "What is man that thou art mindful of him and the son of man that thou visitest him?"

Roswell School Board Hard Up. An arrangement was made with the Causey-Foster Bond Company of Denver whereby they will furnish \$6,000 to the Roswell school board for the paying off of their current debts. This sum will be secured by warrants signed by the board and held by the bond company, the warrants to be paid off if possible from the June taxes.

More of Them Every Day.

New York, May 9.—Records of all kinds have been claimed by steamships coming into port, but none more strange than the boast of the Columbia of the Anchor line, which has just completed a trip from Glasgow without having sold a drink during the entire voyage. There was plenty to drink on board, but all the passengers were total abstainers.

Act to Free Apaches.

The United States took its first decisive step toward freeing its only hostages of war, when the house Indian affairs committee voted to report favorably a bill granting "freedom and free release" to those Apache Indians who have been held prisoners for years at Fort Sill, Okla. The Geronimo Apaches have all become devout Roman Catholics. Geronimo died several years ago.

Man May Pursue His Wife.

In the Joseph W. Bailey murder trial at Denver, District Judge George W. Allen laid down as law the proposition that a man has a right to pursue his wife even into the home of her mother and retake her to his domicile by force. Under this instruction to the jury as the law covering the case, Bailey was sentenced to the penitentiary for life for killing his brother-in-law, Eugene H. Smith, as he was forcing his way into the Bailey home.

Fort Sumner Case.

An interesting piece of litigation is being heard by Judge David J. Leahy

in chambers at Las Vegas. It is the case of Louis N. Drismay, Frank F. Hock and Charles F. Fishback against D. J. McCann, George W. Temple, the Fort Sumner Land and Development Company and the Fort Sumner Town-site Company. The plaintiffs have asked for an accounting for certain funds for a period covering the past four years. The litigation involves certain dealings of the two Fort Sumner companies.

Scarlet Fever Epidemic at Denver. Two deaths and twenty-eight cases of scarlet fever among little children of Denver are the direct result of the city hall machine's sacrifice of the city's welfare for politics. While William Kelly, chief milk inspector at the city hall, with his four deputies, have been neglecting their duties for weeks past in an effort to drum up votes for the Democratic ticket, the worst epidemic of scarlet fever in Denver for years has broken out. Health Inspector William H. Sharpley announced last night that he expected 100 cases of scarlet fever among children by tomorrow night.—Denver News.

RETAIL MERCHANTS ELECT OFFICERS AT ALBUQUERQUE.

Roswell Captures Convention Although Santa Fe and Raton Made Hard Fight.

N. Salmon presented the claims of Santa Fe very effectively at Albuquerque yesterday, for the next annual convention of the New Mexico Association of Retailers. Raton also wanted the convention but Roswell elected it. The following officers were elected for the ensuing year:

President, T. A. Muirhead of Tucumcari.

Vice-president, Clark Dilley, Roswell. Board of directors: T. Z. Winters, Santa Fe; M. W. Hervey, Clovis; J. Israel, Tucumcari; F. C. Armstrong, San Marcial; T. A. Roff, Roswell; O. A. Matson, Albuquerque; J. H. Majors, Raton; W. N. Townsend, Santa Fe; G. A. Eager, Tucumcari; W. S. Cox, Clovis; Fred Miller, Roswell; H. O. Brooks, Albuquerque; H. O. Lithgow, Albuquerque; M. R. Mendelsohn, Raton.

There was a lively fight for the permanent location of the headquarters of the association. Santa Fe and several other delegations came all primed for their selection as headquarters, but it was finally awarded to Albuquerque. As a concession to Santa Fe, however, the headquarters of the secretary are to be removed to the capital during the legislative sessions, when there will be some work done in favor of legislation approved by the merchants.

The garnishment law, as proposed to be passed by the legislature, was made the subject of a long discussion yesterday morning. N. Salmon of Santa Fe, leading off with a well considered address on the matter.

Mrs. Wm. A. Allen, Chacon, New Mexico, had so severe a cough that it nearly choked her to death. Mr. Allen says: "We tried many things without helping her when by good luck I got a bottle of Foley's Honey and Tar Compound. It helped her at once and finally cured her. It is the best medicine we ever used."—For sale by all druggists.

MARSHALL VON BIBERSTEIN TO COURT OF ST. JAMES

German Ambassador Will Initiate New Policy Toward Great Britain.

(By Special Leased Wire to New Mexican) Berlin, May 9.—Count Paul Wolff-Metternick has resigned as German ambassador to Great Britain. The retirement of Count Paul Wolff-Metternick from the post of German ambassador at London was semi-officially announced today, and the name of Baron Marschall Von Bieberstein, at present German ambassador at Constantinople and Germany's foremost diplomat, has been submitted to the government as his successor.

Political Significance.

Cologne, May 9.—The nomination as ambassador to London of a statesman of Marshall Von Bieberstein's prominence, according to an inspired dispatch from Berlin to the Cologne Gazette, shows the importance that Germany attaches to its relations with Great Britain. The dispatch intimates that the new ambassador will initiate a somewhat altered policy toward England.

DELAYED SEEDING LIFTS PRICE OF WHEAT TODAY.

(By Special Leased Wire to New Mexican) Chicago, Ill., May 9.—Delay to seeding in North Dakota, formed a source of apprehension to wheat speculators today and tended to make the market advance. Statements were circulated that if planting was postponed much longer the acreage would be materially reduced. Opening prices ranged from the same as last night to 3-4c.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY, & CO., Toledo, Ohio. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

## CRITICAL TIME OF WOMAN'S LIFE

From 40 to 50 Years of Age. How It May Be Passed in Safety.

Odd, Va.:—"I am enjoying better health than I have for 20 years, and I believe I can safely say now that I am a well woman. I was reared on a farm and had all kinds of heavy work to do which caused the troubles that came on me later. For five years during the Change of Life I was not able to lift a pail of water. I had hemorrhages which would last for weeks and I was not able to sit up in bed. I suffered a great deal with my back and was so nervous I could scarcely sleep at night, and I did not do any housework for three years."

"Now I can do as much work as any woman of my age in the county, thanks to the benefit I have received from Lydia E. Pinkham's Vegetable Compound. I recommend your remedies to all suffering women."—Mrs. MARTHA L. HOLLOWAY, Odd, Va.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for woman's ills.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

up. July started at 113.58 to 113.34, a gain of 1-8@1-4, to 1-4@3-8, and rose to 114.38@1-2.

Closing prices, however, were strong with July 1-8c net higher at 114.1-2@5-8c.

Corn went higher, in sympathy with wheat. Selling came only from scattered commission houses. July opened unchanged to 1-8c dearer at 77.7-8 to 78c, and climbed to 78.1-4@3-8.

The close was firm 1-8@5-8c up for July at 7-8@3-4@1-2.

A good general call for oats lifted that cereal from the outset. Cash houses especially reported an active inquiry. July started 1-4 to 3-8c up at 54.1-4 to 54.3-8c and ascended to 54.3-8c.

Provision trade seemed to be evenly divided on both sides of the market, some prices remaining well balanced. Initial sales varied from 2.1-2 lower to a like advance, with September delivery 19.70@19.72 1-2 for pork; 11.22 1-2 to 11.25 for lard, and 10.75 for ribs.

Jas. R. Garfield, Attorney-at-Law, 1029 Garfield Building, Cleveland, April 30, 1912. My dear Dr. Gray: I thank you for your letter and the copy of your article on the Spanish language. I most heartily agree with you. I have told my boys that I want them to study Spanish. I am studying it myself, believing that it is a most useful foreign language for an American. With best regards, Sincerely yours, (Signed) JAMES R. GARFIELD

Dr. E. D. McQueen Gray, president University of New Mexico, Albuquerque, New Mexico.

### STENZEL ECZEMA LIQUID

A clear white liquid for cleansing purifying and healing skin and scalp diseases.

Stops itching or burning instantly, cures eczema permanent.

A few days after using the Liquid the disease begins to disappear.

Price \$1. Sold in Santa Fe by Fischer Drug Co. and Zook's Pharmacy.

## MISSION SCHOOL GRADUATION

**R. W. D. Bryan Made Brilliant Commencement Address**

### TRIBUTE TO THE FRANCISCANS

**Pan-American Institute Grand Idea—Superintendent Schaub Speaks.**

The commencement exercises of the Presbyterian Mission schools of Santa Fe were held last night in the First Presbyterian church. This was the first public commencement held in the church. Heretofore, all the graduating exercises have been conducted in a simple manner in the school building. Due to the enterprise and wider outlook of the present superintendent, Rev. F. L. Schaub, the innovation was started and proved to be a great success. For in spite of the Schubert Symphony Club, which drew such a large house, the attendance at the church was quite large and the building was comfortably filled.

#### Two Graduates.

The school children marched into the church, singing "The Son of God Goes Forth to War," and took their seats in the front of the building. In the pulpit recess were seated Rev. F. L. Schaub, the superintendent, Hon. R. W. Bryan, the speaker, Miss Benaranda Otero and Miss Lydia Archuleta the graduates, and Rev. B. Z. McCullough, the minister in charge of the local church and pastor of the schools. After the pronouncing of the invocation by the pastor, the school choruses under the direction of Mrs. A. E. P. Robinson sang "The Dance of the Fairies." Rev. F. L. Schaub introduced the graduates in turn and they delivered their orations in a very clear and pleasing manner. Miss Otero speaking on "Napoleon" and Miss Archuleta on "A Second Chance." Both showed careful study of the subject and perfect familiarity with the same. Both were dressed in white and wore a bouquet of white carnations.

#### Pan-American Institute.

Following the delivery of the orations, the chorus rendered: "The Voice of the Woods," in a very acceptable manner. The speaker of the evening, Hon. R. W. D. Bryan of Albuquerque, was then introduced and spoke for about 45 minutes on education in general and education in particular in our own state. Being president of the Board of Regents of the New Mexico University, it was expected that he should say something about that institution. And this he did. He paid a high compliment to the former presidents of that institution and particularly to President E. McQueen Gray, referring to the development from his fertile brain of the idea of the Pan-American Institute. Mr. Bryan also spoke of the success of the graduates from the university and referred to several in particular who were holding places of prominence in their chosen fields. This was an introduction to the injunction to the graduates to continue their course in education with the advice that they could not find better facilities for the same than those facilities which were near at hand.

#### A Scholarly Address.

Mr. Bryan was for several years, superintendent of the mission work of the Presbyterian church among the Indians of the Territory of New Mexico and so spoke of the needs and value of education from the standpoint of his own experiences. His address throughout was a most thoughtful and scholarly production. In fact, it would have been highly suitable in almost every way for a college commencement. His tribute to the early Franciscan fathers and other teachers of education in this territory was a fitting one indeed. His plea for the public school, for its betterment and

## Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is usually a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

BRADFIELD REGULATOR CO., Atlanta, Ga.

protection, was very earnest and forceful.

If present legislature will follow the advice offered last night and the requests for better educational facilities and advantages as they are coming from various parts of the state, it is safe to say that New Mexico will go into the front ranks of those who not only revere the sacrifices made in the past for the spread and development of education but also who today are anxious that every advantage shall be offered for the present development of the children of the different races in accord with their individual taste and natural bent.

#### Benefactors of Spanish American.

After the brilliant address of Mr. Bryan, superintendent Schaub presented the graduates with their diplomas, tokens of their having finished the work of the tenth grade. He bade them to remember that not only were their teachers and friends here and at home watching them and hoping and praying for their continued success, but that there were many all over the United States, who by their gifts, had made this school a possibility for them and that these benefactors of the Spanish American people, were also looking to them to make good in the battle of life.

After another chorus by the school entitled, "Awake, Arise," the benediction was pronounced by the pastor and another school year was ended. Today the school children are leaving for their various homes. Some of the teachers will also leave for their two months' vacation, the allotted time for each teacher to be away from Santa Fe. The schools will not open until September.

#### ARBITRATORS WILL SETTLE ENGINEERS' STRIKE.

(By Special Leased Wire to New Mexican) New York, N. Y., May 9.—Daniel Willard, president of the Baltimore and Ohio railroad, the arbitrator chosen by the eastern railroads, and P. H. Morrissey, former president of the Brotherhood of Railway Trainmen, chosen as arbitrator by the locomotive engineers, except to meet today to appoint five other arbitrators to form with them a board of seven to consider the demands of the engineers. Mr. Morrissey could not say whether the hearings of the board when it is formed, will be here or in Washington.

J. E. McKeen, 1301 Cleveland St., Wichita, Kansas, reports: "I suffered from kidney trouble, had severe pains across my back, and was all played out. I began taking Foley Kidney Pills and soon there was a decided improvement. Finally the pain left entirely and I am fully cured of all my kidney trouble."—For sale by all druggists.

## NOBLESSE OBLIGE.

A recent definition of a gentleman or lady is that of a person whose conduct in every relation of life is free from offense to others.

People are more finicky as civilization advances, and conduct that was not offensive a decade ago, may today stamp one as a boor. To swear, to drink to excess, to be filthy, to lack refined manners, is a much more heinous offense against gentility in 1912 than it was in 1812.

There was a time when no one objected to keeping pigs under the front stoop, even in larger towns. It is different today. The maxim that one may use his own as he pleases except not to the damage or detriment of another, finds wider and more refined application with every term of court. It even threatens to put church bells and pianolas out of commission where these offend ears or disturb the sick.

Last evening, at a concert in a local theater, in one of the front seats, sat a man whose age is indicated by the fringe of gray in his hair, a man who is more or less prominent and, who every ten minutes or so cleared his throat by hawking and expectorating on the theater floor or on an adjoining seat that was empty. He had a handkerchief, for he drew it once or twice when some musical climax demanded absolute silence, and blew his bugle with a noise that attested to his marvelous lung power. Occasionally, he would swallow with a guttural noise what he had hawked up. The dollar that man paid for his seat did not give him license to violate the city ordinance against promiscuous expectoration, nor to offend the sensibilities of those around him. Yet, poor, old man, he is probably living in another age of less refinement, amidst surroundings in which he was brought up, and his action hardly justified a man sitting near him to exclaim in disgust: "To think I voted for that man last November. Thank God, he wasn't elected!"

But some people are more finicky even than that. Said a lady: "This performer surely is a genius but he spoiled all by wearing a diamond size or two too large, on his fingers. Every time I was ready to melt at the heavenly cadences he evoked from his instrument, I was rudely disturbed by the flash of that diamond. One forgives such things in a race track but in an artist and especially a musician, never."

Another lady, an aged lady, complained because a young man, an official at that, occupying the seat beside her and her daughter, had a breath heavy with alcohol. He finally fell asleep and snored during the most enchanting strains of music, his head drooping on her shoulder, and even after the performance, he could not be aroused from his drunken stupor. Some people are so finicky, are they not?

And then there was a family that had with it a baby, a child apparently in the first stages of pneumonia. It coughed distressingly and cried piteously. The poor mother and father, undoubtedly, were entitled to the joy of listening to beautiful music, perhaps, they have had no other enjoyment for weeks and months and had no one with whom to leave the baby, and yet, one wonders, whether they could enjoy the most divine music under those circumstances. The audience surely did not. The world is too finicky nowadays, too finicky to really enjoy things as our forbears, the monkeys, did in the primeval woods. A grouch? No. Finicky? Perhaps. The golden rule? Sure.

## A PEACE ARGUMENT.

A pretty vigorous "peace" argument comes from Rome, in the form of dispatches relating how the Italian forces have won a victory over the Turks by the use of dirigible balloons. Two balloons, it is said, were sent over a Turkish camp, and a score of bombs were dropped with the result that the camp was destroyed and a heavy loss of life ensued. The Turks made an effort to fire on the balloons, it is said; but they were unable to get the proper elevation, or to make their guns carry a sufficient distance.

This is the first time on record, according to the report, when a dirigible balloon has been found of practical value in warfare, beyond its previous uses in reconnoitering.

Thus another step is taken toward the abolition of war. When it becomes possible to send a floating craft, loaded with high explosives, through the clouds and over an enemy's territory, there to let fall enough nitroglycerine to destroy a city and all the people in it, the diplomats will find a new potency in words, and the grievances between one nation and another will not seem so serious after all.

Perhaps it is not the temples of peace which will eventually put an end to war, but the unspeakable methods by which warfare will be made objectionable to all civilized people.

## THE LEGISLATIVE DUTY.

It was the martyred president, James R. Garfield, who said that "the great want of industry is a stable policy; and it is a significant comment on the character of our legislation that Congress has become a terror to the businessmen of the country."

That was thirty and more years ago and is still true today, for there is no doubt that industry and business in the United States are languishing because of the uncertain actions of the Democratic House and the possibility of Democratic excess in November. The agitation and fanaticism against business and businessmen has reached such dimensions that nothing but the inevitable industrial depression and panic, with soup-kitchens and starving men, women and children, will bring the American people to their senses again as they were brought to their senses during the Grover Cleveland administration.

What is true of the nation at large is true of New Mexico, except that this state has earned a good reputation for conservatism that has stood it in good stead and that will help it even during the present time of general depression, if the legislature justifies the reputation and passes sane and wise laws, if its Republican majority in both houses gets together on a legislative program that will do justice to the people and to enterprise. Let the words of another president, U. S. Grant, be taken to heart: "No personal consideration should stand in the way of performing a duty."

There is no personal consideration big enough to keep the two legislative houses from doing their duty toward the people and for which they were elected.

Is the New Mexico state legislature to be a terror to railroads, industry, business and enterprise in the new state?

## THE EASIEST MAN TO DEFEAT.

The New Mexican had feared right along that the Democrats would nominate Woodrow Wilson for the Presidency. With him as the nominee, there would have been thousands of Republicans who would have conceded defeat from the start. But the Republican sky is clearing unexpectedly; the Democracy will do what it is proverbial for doing, the wrong thing at a critical moment when victory is within its grasp. It will nominate Champ Clark, some poor punster was almost right when he wrote it "Champ" Clark. Says the New York World, a Democratic newspaper:

"Would the country intrust the leadership in the complex work of tariff revision to a man who once proposed to burn down all the custom houses? Would it intrust the financial credit and honor of the nation to a man who in another great financial crisis compared President Cleveland to Benedict Arnold and Judas Iscariot?"

"Would it intrust the delicate business of foreign relations to the irresponsible individual who as speaker of the house of Representatives helped to inflame Canadian sentiment against reciprocity by suggesting the annexation of Canada?"

"The World is not seeking to force a candidate of its own upon the Democratic party. It is merely dealing with the political situation at it exists. We had hoped that it would be unnecessary to treat Mr. Clark's candidacy seriously. That was a compliment we had paid to the intelligence of western and southern Democrats, but it was a compliment which we now find was undeserved. The sooner, then, that the plain, blunt truth is stated in the frankest possible fashion the better."

## WHAT'S WRONG?

The Denver News yesterday stated that the employment agencies in that city have three thousand applications from girls who want to have positions in offices and stores paying from \$4 to \$12 a week, requiring good dress and a certain amount of salesmanship and ability to please.

At the same time those same agencies had a thousand applications from refined homes in Denver for girls to do housework, positions that paid from \$6.00 to \$8.00 a week with board and room thrown in.

The New Mexico legislature when it convened had hundreds of applications from young men who wanted a legislative job at any price. At the same time there are thousands of acres of untilled, fertile soil right here in the Santa Fe valley, for which there is water this spring, on which several years of energetic and intelligent agriculture would result in the establishment of a comfortable home and reliable insurance against hard times and adversity.

Fewer producers, more consumers, mean higher cost of living. Aversion to toil, irresistible desire to hold a white shirt sleeve job as near to the footlights as possible, bring unrest, for

## The Switzerland of America.

## VALLEY RANCH ACTIVITIES.

Valley Ranch, May 8, 1912.—One week to the opening of the fishing season and the river promises to be in fine condition.

some one has to work harder for every additional white shirt sleeve employee who can hang on to his place. It isn't so much the tariff, not so much political policies, not theories but actual conditions that can readily be pointed out that await a solution and a remedy.

"This is what Reformer LaFollette thinks of Progressive Roosevelt, for Reformer LaFollette says so in his own newspaper, the Madison State Journal: "Governor Aldrich of Nebraska, one of the seven governors who 'called enthusiastically,' praises the many sided character of Roosevelt. Some like him for being on all sides and some for being on no side. Remember that time when he swapped from anti-recall to recall right in the middle of the Columbia river? Most many sided man this country ever produced."

## TOO MANY POLITICAL BRANDS.

The Democratic Roswell Morning News has lucid moments quite frequently and editorially presents the chaotic, hopelessly divided condition of the Democratic party very convincingly as follows:

"The whole Democratic situation is a puzzle just at this time. Within the rank of what is termed the Democratic party are to be found more different brands of political faith, more self-constituted doctors with specific guarantees (by each) to cure all our political ills, than was ever known in the history of the party in all the former ages."

"Each of these schools of political pathology agree that the country is suffering from some unnatural governmental distemper, but they have each made an independent diagnosis, prescribed a remedy and are not disposed to listen to any other theory than their own."

The Democratic legislature of Arizona has finally passed the bill prohibiting the employment in the mines of that state of men who cannot speak English. It is legislation directly aimed against the Spanish-Americans and will drive many of them into New Mexico where they will swell the Republican vote on election day. It is hard on the Spanish-Americans but it is good for New Mexico.

## BACA IS IN THE SADDLE.

(Continued from page one.)

may not be passed until the last session. Other legislation, not thus considered, must take its chances of finding favor in the eyes of the majority in both Houses.

**Irrigation and Drainage.**  
This forenoon a well-attended public meeting of the Committee on Ways and Means and on Irrigation and Drainage, was held. After considerable discussion a draft of a bill by M. C. de Baca, covering community irrigation, found favor and was ordered translated and printed and will be finally considered at another joint meeting to be called by Chairman Burg of the Ways and Means Committee and Chairman M. E. Baca of the Irrigation Committee. The Artesian well bill was not taken up. Burg presided at the session this forenoon and various outsiders were heard on ditch matters.

**A Committee Reports.**  
Speaker Baca presided. The reading of the Journal was dispensed with. Petitions from Quay county protested against the establishment of Baca county. The following bills were reported from the Committee on Judiciary by Chairman Llewellyn:  
House Bill No. 119, favorably. It is the Llewellyn bill to disregard immaterial technicalities on appeal in the state supreme court.  
House Bill No. 18, by Burg, a code of civil procedure, was reported favorably.  
House Bill No. 72, was reported favorably with amendments. It is a code of civil procedure.  
House Bill No. 164, relating to district attorneys, was reported favorably.  
House Substitute for House Bill No. 1, favorably, an act appropriating \$25,000 for a bridge across the San Juan, by Chrisman.

House Bill No. 87, was reported with amendments. It fixes the filing fee for chattel mortgages.  
House Bill No. 137 was favorably reported with amendments, an act requiring members of city and town councils to be tax payers and property owners.

House Bill No. 147, the county survey bill, was reported unfavorably.  
A minority report, signed by five members of the thirty of the Committee on Ways and Means, opposed the Sumner County Bill, because it fixes the county seat permanently, because it impairs materially the assessed valuation of Guadalupe county and because the alleged assessed valuation of the county is based on the 1912 assessment, not yet legally approved.

**New Bills.**  
The following bills were introduced:  
House Bill No. 182 by M. C. de Baca, an act to authorize and require boards of county commissioners to employ police officers, not less than ten in number, at salaries not to exceed \$75 per month for each one, in incorporated towns which are county seats, where the population of such towns is

not less than 1500.  
House Bill No. 183, by Gage, an act to amend section 1, chapter 109, Laws 1909, relating to irrigation.  
House Bill No. 184, by Speaker Baca, Cooney and Hilton, appropriating \$35,000 for the construction of a wagon bridge across the Rio Grande to the north of San Acasio, Socorro county.

House Bill No. 185, by Speaker Baca, for the protection of community acquias.  
House Bill No. 186, by Speaker Baca to provide for the punishment of unlawfully practicing law.  
House Bill No. 187, by Speaker Baca, an act in relation to paupers and for the establishment of poor houses in counties.

House Bill No. 188, by Speaker Baca, providing for the appointment of boards of regents for state educational institutions, etc.  
House Bill No. 189, by Llewellyn and Moreno, an act relating to the crime of bigamy, incest, adultery, guardian carnally knowing ward, solemnizing illegal marriage, and prescribing punishment therefor. Statehood left New Mexico outside of the provisions of the Edmunds act, and this bill will fill the void thus created. The emergency clause is added.

House Bill No. 190, by Llewellyn, an act requiring all officials to make a proper accounting for expenditures.  
House Bill No. 191, by Mullens, an act to provide an additional judge for the Fifth (Roswell) District. Mullens explained the need for an extra judge and said the Pecos Valley Bar Association endorsed the bill. The second judge is to receive not more than \$4,500 a year.

House Bill No. 192, by M. E. Baca, to amend section 29, School Laws of 1907.  
House Bill No. 193, by M. E. Baca, to repeal section 11, chapter 42, Laws of 1907 and to amend section 5 of the same statute.  
House Bill No. 194, by Moreno, an act to amend sections 3, 7 and 8, chapter 142, Laws of 1909 and sections 2717, 3919 and 3726, Compiled Laws of 1897.

House Bill No. 195, by Speaker Baca, an act to place the Museum of New Mexico under the absolute control of the state according to constitutional requirements.  
House Bill No. 196 by Speaker Baca, for the administration of the Old Palace, Historical Society, New Mexico Museum, etc.

## Sumner County Bill.

House Bill No. 45, the Sumner County measure was read in full. A motion of Manzanares to table the minority report, opposed to the new county, was carried by the close vote of 25 to 21. Burg who asked to be excused from voting, was compelled to vote and voted in favor of tabling the minority report.  
Toombs made a vigorous attack on the proposed new county, taking the position that he is opposed to the creation of all new counties unless it is conclusively shown that the new county is well able to sustain itself financially and that the counties from which it is cut, retain sufficient assessment to meet expenses. He showed that the county of Sumner, with \$552,276 present assessment, would begin life with a debt of \$29,000 and a suit by San Miguel county, for a pro rata of the debt owed by Guadalupe county to San Miguel county. Even with the 1912 assessment the valuation will be less than \$800,000. Toombs said it is a mistake to presume that the state assumes the debts of the counties; each county, under the constitution, is responsible for the county debt the state assumes.

Llewellyn replied by quoting from a boyhood memory, the hymn that always struck terror into his heart: "Hark from the Toombs a doleful voice!" He said the same doleful voice was heard at the creation of every new county, Chaves, Eddy, Luna, Quay, Otero, and even Union county, and yet those counties have prospered beyond the fondest predictions of those who advocated their creation. He praised the hardy pioneers of the lower Pecos Valley who founded the magnificent empire from which several splendid new counties were cut. He said that Otero and Luna county had less assessment when created, than will Sumner county. Both are now splendid counties.

Tully: Does not Luna county still owe Dona Ana county \$86,000?  
Llewellyn: Yes, but Luna county could easily pay it today. Otero county now collects \$100,000 a year in taxes.

Clancy opposed the new county and had read a telegram from the Republican county central committee of Guadalupe county, favoring county division, but two years hence. He explained that he had a similar petition from northern Guadalupe county. He read a statement of the traveling auditor, showing the small assessments of Guadalupe and Sumner counties, and the heavy debt resting on both. If Guadalupe county cannot pay its officers and maintain itself on a cash basis on an assessment of a million dollars, how could Sumner county do so on an assessment of half a million dollars.

**The House Calendar.**  
House Bill No. 126, introduced by Roman L. Baca April 23rd, an Act to amend Section 2328 of Title XXVI, Chapter One of the Compiled Laws of 1897, etc.; referred to Committee on

Judiciary. April 30th, reported with recommendation that it be returned to introducer for correction. May 1, reported by Judiciary Committee with recommendation that it be passed.

House Bill No. 45, introduced by M. P. Manzanares April 9th, an Act creating the county of Sumner; referred to Committee on Counties and County Lines. April 22nd, reported with recommendation that it be passed with amendments, and recommended to the Committee on Judiciary. April 24th, reported legal majority of Judiciary Committee and recommended to Committee on Ways and Means. May 8th reported with recommendation that it be passed.

House Bill No. 109, introduced by W. W. Nichols, April 19th, an Act for the creation and establishment of a Normal Institute at Clovis, etc.; referred to Committee on Ways and Means. May 8th, reported with recommendation that it be passed.

## STEEL TRUST IS SUSTAINED.

(Continued from page one.)

mony regarding the burning of important papers in the so-called Jackson wire pool cases was expected today at the continuation of the hearing before Commissioner Henry P. Brown, of evidence in the government's dissolution suit against the United States Steel Corporation.

## WYOMING FAVORS PRESIDENT TAFT.

(Continued from page one.)

tours. William J. Bryan today is finishing a three days' invasion of the state in which he has been attacking the candidacy of Governor Harmon. At Governor Harmon's headquarters, it was said the governor was working out his itinerary which would cover all the points at which Bryan has spoken and also would include the larger cities of the state.

## RED CROSS WAS CREATED TO HELP GOVERNMENT.

Proposal to Force Contributions Was Tabled at Conference of Body.

(By Special Leased Wire to New Mexican)

Washington, D. C., May 9.—Vigorous opposition arose at today's session of the International Red Cross conference to a resolution presented by Dr. De Fuenes in behalf of the Cuban Red Cross which would require each nation to contribute at least 100,000 francs annually to its Red Cross organization or be excluded in time of war from the international benefits granted to all Red Cross workers. Those who spoke against the proposal argued that as the Red Cross work was charitable and voluntary in its nature and as the "Red Cross" was created to help the government, not the government to help the Red Cross" no efforts should be made to coerce any government. The resolution was tabled.

## JIM FLYNN IN MOTION PICTURES TONIGHT.

New State Theater Will Show Films of Pueblo Fireman in Training.

Fight fans will be interested in pictures that Jack Curley has gotten together. To see Jim Flynn in action will convince any fair minded person that the invincibility of Jack Johnson is a thing of the past and that a white hope has indeed arisen that will do the "stunt."

Santa Feans will get to see these pictures before Kansas City, Denver, Omaha, Salt Lake and other cities in the west, and just five days after Chicago.

Wrestling, boxing, road and gymnasium work, medicine ball playing, shadow boxing and the various other stunts indulged in training will be seen upon the screen. Photographically, the pictures are said to be marvels of clearness.

## HUNDREDS OF DEAD FLOAT ON CHINESE RIVER.

Former Governor of Canton Leads War of Extermination Against Pirates.

(By Special Leased Wire to New Mexican)

Hong Kong, May 9.—Thousands of Chinese soldiers who have been stationed to the north of Swatow in the province of Kwang Tung are returning to Canton. It is feared that labor troubles will follow the disbanding of these troops.

guest at the Montezuma.

John W. Poe, the banker of Roswell, and a member of the penitentiary board, arrived in the city last evening and registered at the Palace.

Register of the Land Office M. R. Otero has gone to Faywood Hot Springs, Grant county, instead of Long Beach, California, as he had planned.

D. T. Hoskins, banker and member of the penitentiary board, arrived in Santa Fe from his home in Las Vegas last evening and is a guest at the Palace.

Francis M. Hartman, traffic manager for the Southern Pacific Railroad, arrived in the city from his home in Tucson, Arizona, and registered at the Palace.

H. L. Waldo, solicitor for the A. T. and S. F. R. R., with offices at Las Vegas, is in the city in the interest of the road he represents. He is at the Palace.

S. S. Stacher, Indian agent on the Navajo reservation at Pueblo Bonito, and E. E. Lewis, an employee, are visitors in the city and guests at the Montezuma.

E. Fox, traffic agent for the El Paso and Southwestern, arrived in Santa Fe from his home in El Paso yesterday afternoon and is a guest at the Palace.

Edward Ladd, official interpreter of the Jicarilla Apache Indians, arrived in the city from his home in Dulce, Rio Arriba county, last evening and is at the Coronado.

A. D. Hawley, auditor for the El Paso and Southwestern railroad, arrived in the city from his home in El Paso yesterday afternoon and is stopping at the Palace.

W. A. Hawkins, attorney for the El Paso and Southwestern Railroad, arrived in Santa Fe from his home in Three Rivers yesterday afternoon and registered at the Palace.

G. F. Hawks, general superintendent of the El Paso and Southwestern Railroad with offices in El Paso, arrived in the Capital yesterday afternoon and is at the Palace.

T. F. Peter, of Raton, a representative of the Brotherhood of Locomotive Firemen and Engineers, is in the city in the interest of legislation to compel the carrying of full crews.

Captain Fred Fornoff, of the state mounted police, left the city last evening for points in the southern part of the state and to attend the present session of the district court of Carrizozo.

Director Edgar L. Hewett accompanied by Secretary Jefferson Davis left on this morning's California Limited to attend a meeting of the Board of Directors of the Panama-California Exposition at San Diego.

Leo Hersch, the local business man, returned this afternoon from an extended trip to Excelsior Springs, Mo., and other eastern points. Mrs. Hersch met him at Espanola and they came home together over the Denver and Rio Grande railroad.

J. S. Harris, secretary of the Chamber of Commerce and twenty Santa Fe business boosters returned late last night or rather early this morning, from Albuquerque where they attended the New Mexico Retailers' Association. They declared the meeting was a success in every respect.

Mr. and Mrs. Charles Peterson and son arrived last night on train No. 4 from Santa Fe and will be in Las Vegas two weeks visiting friends. Mr. and Mrs. Peterson were formerly residents of Las Vegas. Mr. Peterson having had charge of the circulation of the Optic—Las Vegas Optic.

The Montezuma hotel has made reservations for thirty-five Roswell citizens who are due this afternoon from Albuquerque. Nine motor cars will bring the Roswellites to Santa Fe. They have been spending the past few days attending the Retailers' Association convention and will return to Albuquerque in time for the banquet tonight.

Assessor Fred Heyn of Albuquerque is a visitor in Santa Fe.

Captain Fred Fornoff, of the mounted police, passed through the city last night from Santa Fe, on his way south on business.—Albuquerque Journal.

**HEWETT WILL GO TO ENGLAND.**  
(Continued From Page One.)

that no reversible error has been found, therefore the judgment of the lower court is affirmed.

Opinion by Judge R. H. Hanna, Judges Parker and Abbott concurring. The syllabus in this case reads:

First. The common law of crimes is in force in New Mexico, except where it may have been repealed or modified by statute, and common-law procedure is in force except where special provision is made by statute to the exclusion of common law procedure.

Two. Where the statutes have adopted the common law definition of murder an indictment may, very properly, omit a direct charge of a purpose or intent to kill, as part of the overt act alleged as a crime.

Three. The statutes of New Mexico do not attempt to change the common law definition of murder, and does not limit murder in the first degree to those homicides committed purposely, or without intent to kill.

Four. Defendant cannot take advantage of an obvious clerical error, corrected by necessary intent from other parts of the indictment.

Five. An indictment that fails to allege in conclusion that the defendant killed and murdered the deceased, is sufficient to charge manslaughter, where the defendant was convicted of manslaughter he cannot take advantage of the defect, as he was not injured thereby.

Six. The jury, in a homicide case, are the sole judges of the fact of the existence of a motive on the part of the accused and the jury may infer a motive from the commission of the crime.

Seven. Evidence examined, and held sufficient to sustain the verdict. Appointed Mounted Police.

J. H. Hughes, former city marshal

of Santa Fe, has been appointed a mounted policeman with headquarters at Cerrillos, Santa Fe county.

J. A. Mahoney a Good Roads Philanthropist.

One hundred sign-posts donated by J. A. Mahoney are being put up on the various roads leading into Deming.

Several have been sent to Manager McDermott at Faywood, he agreeing to set the same up on roads in that vicinity.

Local automobilists are putting them up on all roads around Deming. The new road north of Deming to Carne has already been posted. S. B. Rhea, road supervisor, reports that he has constructed the connecting link in the north road to Carne.

**PUBLIC MISLED BY WHITE STAR.**  
(Continued from page one.)

lin gave the information to Reporter Byrne.

Mr. Farrell told of going to the White Star Line offices Tuesday. He tried to see Mr. Franklin but was met by an assistant.

"I asked him if he had received the news of the sinking yesterday," began Mr. Farrell. "He said not until about 6 o'clock Monday evening."

"I replied, our reporters had been getting news from the White Star Line offices all day Monday to the opposite effect."

**Conflicting Messages.**  
James A. Hoxey, a telegraph operator at Taunton, Mass., sent an affidavit saying that between 8 and 11 o'clock on Monday morning he received "a flash" message stating "Titanic sunk."

"Probably five or ten minutes later," he added, "I received a 'kill' on this flash which read, 'Kill flash Titanic sunk.' Montreal says the wireless operator at Cape Race made a mistake in reading wireless signals."

**How Ismy Got Out.**  
Mrs. Mahala Douglas, a Titanic passenger, in a sworn statement quotes Mrs. Ryerson of Philadelphia, as saying Ismay showed her a Marconigram and announced that they were "in the iceberg."

"Of course you will slow down?" asked Mrs. Ryerson.

"Oh, no," he replied, "we will put on more boilers and get out of it."

**HOME RULE AS CURE FOR IRISH DISAFFECTION.**

Redmond Says Nationalists Will Accept Measure as Final Settlement of Quarrel.

(By Special Leased Wire to New Mexican) London, May 9.—The biggest guns of the attack and defense have been reserved for the conclusion of the second reading stage of the home rule bill in the House of Commons.

Before the vote is taken tonight, John E. Redmond, the leader of the Nationalist party; Andrew Bonarlaw, the leader of the opposition and Premier Asquith will have delivered broadsides for and against the measure.

Mr. Redmond entered the fray today with an assertion of the justice of the claim of the Irishmen to manage their own affairs which was now generally conceded. The moment home rule was granted, continued Mr. Redmond, it would become the highest interest of the Irish nation to safeguard the constitution, to utilize it in moderation, to cultivate the most friendly relations with Great Britain and for the first time in her history to do all in her power to promote the unity, the prosperity and the welfare of the empire.

A very Irish leader believed that in a very short time all the old party divisions in Ireland would disappear. Nationalists, he said, accepted the bill as a final settlement of the international quarrel between England and Ireland and when saying this he spoke not only for Irishmen in Ireland but for those in the United States, Canada, New Zealand and Australia.

May 11th to 14th.

Return Limit, May 10th, 1912.

"SANTA FE ALL THE WAY."

## UGH! NOT CALOMEL, OIL OR SALTS, BUT DELICIOUS "SYRUP OF FIGS."

Give your stomach, liver and 30 feet of bowels a thorough cleansing without gripe or nausea. Ends headache, biliousness, indigestion and constipation.

This wonderful fruit laxative acts as a liver and bowel cleanser--not as an irritant. Its action is natural and gentle--no gripping. It is delicious--no dreading. It is positive and prompt--no waiting.

If your stomach is sour and filled with vile gases, your head aches, or you are bilious, nervous, dizzy, half sick, your tongue coated, your thirty feet of bowels clogged with waste not properly carried off--don't wait. Surely take a teaspoonful of delicious Syrup of Figs tonight, and in the morning all constipated waste, sour bile, gases and poisons will move on and out of the system, gently but thoroughly--no gripping--no nausea--no weakness. In

the old days people let these matters run until they needed a large dose of physic, then they took something severe, like castor oil, salts or cathartics, that meant abuse to the bowels. These are the days of the gentle and natural--the days of Syrup of Figs. This way you are not drugging yourself. Syrup of Figs being composed entirely of luscious figs, senna and aromatics can not cause injury.

Ask your druggist for "Syrup of Figs and Elixir of Senna," and look for the name, California Fig Syrup Company on the label. This is the genuine--old reliable. Any other so-called Fig Syrup is an imitation often meant to deceive you. Refuse such with contempt.

## Quarter of a Century Ago.

(From the New Mexican of Monday evening of May 3, 1887.)

W. B. Slaughter was killed in the American valley, Socorro county, by two cattlemen who had been indicted for cattle stealing.

Santa Fe is full of strangers. Captain Welton has returned from Rio Arriba county where he picked out a camp for the moving Jicarillas. The tribe will reach Fort Sumner tomorrow and will pass through Santa Fe on May 25.

The territorial bureau of immigration met today in Santa Fe with F. A. Manzanares, L. P. Brown, Colonel Haren and Colonel Fletcher present.

Hon. Frank Springer, one of the prominent attorneys of the territory, and who recently gained the famous Maxwell land grant case before the

supreme court of the United States, is in the city from Las Vegas on business.

Hon. Sol Spiegelberg, F. H. Brigham and Dr. J. H. Sloan are out in the Bonanza valley today inspecting the artesian well machinery preparatory to receiving and paying for it. The work is being pushed along with all possible speed and in another year the Santa Fe valley will be dotted with artesian wells, the local businessmen having raised \$5,000 to drill the first well.

During a drunken street duel at Kingston, Sierra county, David Burke was killed by Conrad Ryan, a miner. The men faced each other at fifty feet and three shots were fired by each in rapid succession. Burke fell dead with a bullet in his brain. Ryan has been held in \$4,000 bond for the grand jury.

## THE FORUM

Republican States Are for Roosevelt, Dakota and Wisconsin are solidly against the Taft candidacy.

These nine states send an aggregate of 260 delegates to the Republican national convention. The most Mr. Taft can hope for from them is 10 delegates. His candidacy has been repudiated by these Republican states 25 to 1.

From the states which have thus voted so overwhelmingly against Mr. Taft's candidacy, Colonel Roosevelt has 224 delegates. The Republican votes from these states who must be relied upon to carry the party to victory at the November election have declared more than 22 to 1 in favor of Colonel Roosevelt. These 9 states cast 130 votes in the electoral college. There will be 531 votes in the next electoral college making 266 necessary to a choice. States representing practically half of the electoral votes necessary to a Republican victory have declared almost unanimously against the Taft candidacy and in favor of Colonel Roosevelt's nomination.

"REPUBLICAN."

Winning Baseball Team for Santa Fe.

Now that we are having nice weather, and everybody is baseball crazy, the Santa Fe Business Men should get together and help the local management in securing for Santa Fe a baseball team that will win honors, and help advertise the town. Santa Fe is making every day modern improvements, but nothing would be a better advertisement for the city to have than the champion baseball team of New Mexico. All the towns in New Mexico even smaller than Santa Fe are organizing baseball teams, and all are after the championship, and the businessmen and fans are all doing their duty and putting up money to help run the teams. Raton which is smaller than Santa Fe has secured a franchise in the Rocky Mountain League, which is a Class D organization, and last year they had one of the fastest teams in the entire Southwest, but the reason that they succeeded is that the businessmen knew that it is for their own interest, and

they are always willing to help when the manager comes around with a subscription list. San Marcial, which is a small village compared with Santa Fe, had a strong team last year, and this year it has been reorganized and are after the championship honors.

So, why can't Santa Fe with more success and prosperous business men, have a team that will be an honor to the Capital of the new state? Manager O. W. Dignee is an energetic and hustling manager, and is leaving no stone unturned to give the local baseball "fanatics" the best that there is in the baseball line in this part of the country. Secretary-Treasurer James Baca also deserves credit for helping so much in organizing the team, and has been kept very busy looking after the interests of the team. Manager Dignee and Secretary Baca are corresponding with some fast professional ball players, whom they expect to bring down here in the very near future.

Pitcher R. L. Beam will very probably be retained here for the season. Beam pitched the last four innings in Sunday's game and prevented any more scoring, gave only three hits, and struck out seven. The Santa Fe team will play in Albuquerque next Sunday, and Sunday, May 19, Las Vegas will be brought here.

It all depends upon the local businessmen and fans to decide if we will have a good ball team this year or not.

SANTA FE FAN.

## EDITORIAL FLASHES

Romantic Rubbish.

The average editor is often tempted to quote a striking or interesting item without due regard to the correctness of the information given or the weight of authority sustaining it. The more striking an item is, however, the greater the chance that, having gone through a great many hands, it may be correspondingly full of errors. An example in point is an inventory of the constituents of an average man of 150 pounds alleged to be based on chemical analysis. There is said to be enough hydrogen in combination in such an average man to fill a balloon and carry him above the clouds; enough lime to whitewash a chicken-coop; enough sulphur to rid a dog of fleas. These and other points mentioned made the paragraph seem of enough value to be printed not only in newspapers, but also in several medical journals. But these are the only items that are uniform in all versions. In one paper a man is said to contain enough iron for one penny-sized nail; in another, four 10-penny nails. In one his fat is alleged to be sufficient to make a cake of soap; in another, seven bars. The phosphorus constituent is said in one paper to be sufficient to make 2,200 matches, and in another, 8,064 boxes of matches--some difference. The average editor, to be sure, may argue that the items are interesting no matter which amounts are the correct ones. The heading used in one paper is "Unromantic but Scientific." The Journal of the American Medical Association says that a better one would be "Romantic but Unscientific Rot."

New Giant Sun in Gemini.

A cablegram sent beneath the sea from Kiel, Germany, to the Harvard college observatory, Cambridge, Mass., announced the discovery of a new star in Gemini. This is the zodiacal constellation the Twins. But every star is a huge sun like our own star--the sun. But think well of these facts. The new sun was discovered by Astronomer Enebo in Europe on March 12. On March 10 two photographs of the same space were taken at the Harvard college observatory, and on March 11 two more plates were secured. When the telegram arrived these four negatives were at once examined, but no trace of a star was visible there, although eleven magnitude stars are plainly visible all around. These stars are very faint; but on the next night--that of the 12th--the new star of the fifth magnitude was distinctly seen by Enebo. And the discovery made by Observer Enebo was confirmed by new photographs at Harvard. Fifth magnitude stars on clear, dark nights can be seen without optical aid, the sixth magnitude being the limit of visibility without lenses. Every star is a colossal sun, no matter what its intensity of light as seen from the earth may be; even distant to the limit of power of celestial photography--the eighteenth magnitude. Magnitude here does not mean the sizes of the stars, of which very little is known. The dimensions of our star, the sun, are known with great accuracy, being 109 1/2 times the diameter and 1,310,000 the volume of our home--the earth. The new star in Gemini is the second to be discovered in that constellation. The new sun may have exploded and liberated huge volumes of pent-up gases, two seventh or eighth or tenth magnitude suns may have collided; or a large, dark body may have made sudden impact on a hot sun, or two dark bodies may have been in head-on collision--we do not know which. The new sun in Perseus was watched in powerful telescopes until it vanished in thin gas, expanded over a wide area in space. All of the instruments available will be turned on the new sun in Gemini. If the new sun was surrounded by worlds like the earth--all inhabited--they, the people, soon expired.

Local Showers--Local showers and cooler weather such as came yesterday afternoon, are predicted for tonight by the Weather Bureau, and fair weather tomorrow. The maximum shade temperature was 68 yesterday and the minimum 43 degrees.

## Danderine

**Stops Falling Hair and Destroys Dandruff**

Makes the Hair Grow Long, Heavy and Luxuriant and We Can Quickly Prove It

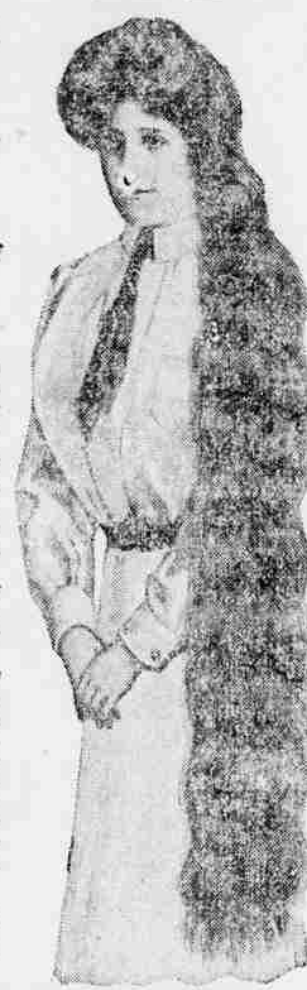

If You Wish to Double the Beauty of Your Hair at Once, Just Get a 25 Cent Bottle and Try This

Surely try a Danderine Hair Cleanse if you wish to immediately double the beauty of your hair with little trouble and at a cost not worth mentioning--just moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil--In a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Danderine from any drug store or toilet counter and try it as directed.

KING OF ENGLAND GOES DOWN IN SUBMARINE. (By Special Licensed Wire to New Mexican) Weymouth, England, May 9.--King George, who is here seeking for himself the progress toward the reorganization of the home fleet as outlined by Winston Churchill, first lord of the admiralty in introducing the navy estimates in parliament, has again taken up the life of a naval officer with remarkable gusto.

His majesty already has added one item to his experience in naval work, as, suffered from a weak back by going down in a submarine. He good many years, as a result of kidnaped ten minutes below the surface ney trouble. I began taking Foley of the water in one of the latest "D" Kidney Pills and soon after the pain type of boats, which carries a disap- left my back and today I am fully peering gun, and expressed himself as cured." For sale by all druggists.

## DAVIS RETURNS FROM GUATEMALA

Visited Ancient Temple City  
in Interest of San Diego  
Exposition

## EGYPT CANNOT OFFER MORE

People Are Missing it by Going  
Abroad, Says Publicity  
Representative.

W. Jefferson Davis, publicity representative of the Panama California Exposition at San Diego, and confidential secretary to President Collier, left for the coast this morning on the California Limited. He is returning from a trip to Central America, where he accompanied Mr. Edgar L. Hewett, Director of Exhibits, for the purpose of collecting archaeological data for use by the exposition.

Mr. Davis expressed himself as being highly pleased with the progress made in Guatemala in the excavation of the ruins of the ancient city of Quirigua.

"We spent about a week in the Izabal District of Guatemala," he said, "in the valley of the Motagua River, where Quirigua is located, and I was delighted to see what had been done towards unearthing the Maya Temple City. Two buildings are completely uncovered, and stand out prominently above the rectangular court, which has been cleared of undergrowth and tropical vegetation. Perhaps few travellers who delight in visiting the ruins in Egypt or

## Every Woman

is interested and should know about the wonderful **MARVEL Whiting Spray**. The new Vaginal Spray. It is most convenient, it cleanses thoroughly.

Ask your druggist for it. If he cannot supply it, send stamp for illustrated book—mailed. It gives full particulars and directions. Valuable to ladies. **MARVEL CO.**, 44 East 23rd Street, New York.

Mesopotamia realize that within a sea trip of three or four days they can have all the advantages of an ocean voyage, free from the dangers of the North Atlantic waters, and see ruins of ancient cities which equal anything the East has to offer.

"The jungle has been conquered at last, and the humus and debris which for fifteen centuries has covered all traces of the ancient Maya civilization, removed.

"The ruins now being unearthed stand as a mute witness to the indomitable energy and skill of prehistoric people, and the research work which the Archaeological Institute of America is conducting in conjunction with the Panama-California Exposition, must necessarily be productive of much data of scientific value, for prior to the present investigations and excavations, comparatively nothing has been done, other than to photograph the monuments and mounds, which one sees on every side in the park enclosing the ruins."

After leaving Quirigua, Mr. Davis spent several days in Guatemala City, and on the way to California stopped off at Santa Fe with Dr. Hewett. Mr. Davis is an attorney, but is also a former newspaper man, and it is probable that he will devote a portion of his time during the coming summer to research work along archaeological lines, with particular reference to research work in the Southwest.

## ROME DENIED REPORTED CAPTURE OF 1,000 MEN.

Turkish Governor of Rhodes is Prisoner of Italians, is Official Assertion.

(By Special Lensed Wire to New Mexico.) Casa Blanca, Morocco, May 9.—The tribesmen in the suburbs of Marakesh, one of the three capitals of Morocco, have broken out in revolt. The Calif was assassinated and the tribesmen then pillaged the residences of the officials. Agitation against the sultan of Morocco, Mulad Hafid, is gaining ground inside the city of Marakesh.

## Turkish Victory Denied.

Rome, May 9.—An official note issued today declares false the Turkish dispatch received from the governor of Rhodes to the effect that the Turkish troops had won a great victory there and captured 1,000 Italians. On the contrary, it is said, the Turkish governor of Rhodes and his secretary, are prisoners of the Italians and will be sent to Italy.

## BANK OF ENGLAND LOWERS DISCOUNT RATE.

(By Special Lensed Wire to New Mexico.)

London, May 9.—The rate of discount of the Bank of England, was reduced from 3-1/2 to 3 per cent today. The reduction was a natural consequence of the bank's stronger reserve brought about through the inflow of gold arrivals and the return of cash from the country. The discount houses lowered the market rates to 2-7/8 per cent and consequently the bank would have found it difficult to make a 3-1/2 per cent rate effective.

Rio Grande Rises—Reports this afternoon from the Reclamation service that 8,000 second feet of water is now passing the dam and that quite a rise is expected as the Colorado flow has not yet reached San Marcial.

## Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

## TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

Write to: Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free. 131

## Plays AND Players

Big Advance Sale for the "Barrier." The special sale of seats opened for "The Barrier" yesterday at Fischer's for its much looked for appearance here for one performance and within a few hours a large reservation of seats was marked off.

The sale continues to be open from now until the performance and as this attraction is playing to overflowing audiences everywhere, it is wise to make a choice of any priced seats at once and be sure of an enjoyable evening.

The general admittance seats will not be on sale until 7:30 p. m. tonight, but every arrangement has been made to accommodate a large crowd.

"The Barrier" is the most successful mining story ever written and the most realistic of Alaska, and appeals to the readers of the latest literature, and gallery boys alike. As a play it is leaving a splendid reputation behind it. Tonight at the Elks' theater.

## The Schuberts.

The audience that crowded the Elks' theater last evening for the Schubert Symphony Club and Lady Quartet concert, certainly was pleased. From the first number, the Mendelssohn Wedding March, to the last a well known Strauss Waltz with interpolations and specially arranged, the program rendered was one of high artistic merit, and yet, at the same time, appealed

to all, as was manifested by the applause freely bestowed and the many encores given, in some instances thrice. Anna Pearl Weathering as an impersonator evoked shouts of laughter with her monologues and recitations. Her delicious dialect, her gestures and manner together with her elocutionary powers, set her apart and above the many other gifted declaimers that have of late years appeared before local audiences.

Miss Leeta Corder won her way straight to the hearts of the audience and was given a most enthusiastic reception. She has a voice of marvelous clearness, great range and sympathy. The Air from Traviata and the Last Rose of Summer, which she sang, were superbly rendered. Lovie Zandt Purcell, with a contralto voice such as Santa Fe has not heard since the visit of Scatchi, and an interpretation that stamps her as an artist of rare merit, brought forth rapturous applause with her rendition of DeKoven's fine "Nita Gitana." Thomas Valentine Purcell, with his playing proved himself a virtuoso whose fame is well deserved and who moved the audience strangely with his soulful interpretations of modern classic selections. The chorus work was above criticism and the symphony club, in a lighter vein, with its guitars and mandolins, gave the program a touch of gaiety that proved most popular.

## THIRTY THOUSAND GOLD NUGGETS PICKED UP.

Mail Carrier Reports Rich Find at Hammond Creek Near Koyukuk, Alaska.

(By Special Lensed Wire to New Mexico.) Fairbanks, Alaska, May 9.—The mail carrier from Koyukuk reported yesterday that a rich gold strike had been made on Hammond creek, a tributary of the Koyukuk river. Thirty thousand nuggets have been picked up. The ground is thawed to a depth of three feet. Other big finds have been made in the same vicinity.

## TODAY'S STOCK MARKET PRICES WERE FLUCTUATING.

Prices Dropped in Closing Organization From One to One and a Half Points.

(By Special Lensed Wire to New Mexico.) New York, May 9.—Trading on the stock market became dull in the second hour today with a very slight yielding of prices from their best. St. Paul, however, not only recovered an early loss, but sold above yesterday's high price. Reading and Lehigh Valley retained their advantage, although gossip reported an increased short interest in both. United States Steel's strength seemed to imply a favorable unfilled tonnage statement tomorrow. The lower British Bank rate accepted was proof of general monetary ease at all important financial centers.

Bonds were steady. A sudden spurt in American Can was the feature of the early afternoon, the preferred advancing 3 points to 120. Other strong issues included Anaconda, American Beet Sugar, distillers securities, and

## National Biscuit. Illinois Central betrayed renewed weakness, falling 2 1/2 to 122 1/2.

The market closed steady. Another severe slump in Illinois Central, which sold down to 121 1/8, its lowest price in almost four years, was mainly ascribed to the severe damage incurred by the road as a result of the Mississippi valley floods. Prices relaxed generally in the last hour, reaction running from one to one and a half points, in the more important issues.

## MARKET REPORT

### Closing Quotations.

New York, N. Y., May 9.—Call money, 2 3/4 @ 3; prime paper, 4 to 4 1/2; silver 60 3/8; Mexican dollars, 48; copper, 15.50 @ 15.75; tin, 46.10 @ 46.40; lead, 4.10 @ 4.20; amalgamated, \$2; sugar, 130 1/4; Atchison, 106 1/4; Great Northern, 132; New York Central, 118 1/4; Northern Pacific, 119 3/4; Reading, 174 1/2; South Pacific, 110 3/4; Union Pacific, 169 3/8; steel, 65 7/8; Pfd., 109 3/4.

### Lead and Spelter.

## NOTICE.

Department of State Engineer.

Number of Application 641.

Santa Fe, N. M., April 4th, 1912. Notice is hereby given that on the 8th day of March 1912, in accordance with Section 26, Irrigation Law of 1907, Dominick Garbagni of San Pedro, County of Santa Fe, State of New Mexico, made an application to the State Engineer of New Mexico for a permit to appropriate from the public waters of the State of New Mexico.

Such appropriation is to be made from La Madera Arroyo at a point S. 69° 49' W. 5582' distant from the 6 mile corner of the grant by means of diversion works and 1 3/4 cu. ft. per sec. is to be conveyed to Section 2 T. 11 N., R. 5 E. and section 25 T. 12 N., R. 5 E. by means of throwing in earth and canals and there used for irrigation of 100 acres.

The State Engineer will take this application up for consideration on the 2nd of July, 1912, and all persons who may oppose the granting of the above application must file their objections substantiated with affidavits with the State Engineer and copy with applicant on or before that date.

CHARLES D. MILLER, State Engineer.

FOR SALE—A lot of second hand belting, hangers, pulleys, and shafting; one 12 horse power and one 20 horse power Leffel Engine, first class condition; one 40 horse power locomotive type boiler capable of carrying 75 pounds of steam, pass 3" up by Boiler Inspector; radiators, steam piping and valves; a 50 gallon gasoline tank, with other sundry items. Any of these items will be sold cheap if taken at once. If interested address the New Mexican Printing Company, Santa Fe, New Mexico.

Jas. C. Dahmann, serving his third term as mayor, Omaha, Neb., again was successful in receiving the overwhelming support of the voters in the primary election. He also successfully rid himself of a bad case of kidney trouble by the aid of Foley Kidney Pills, and writes: "I have taken Foley Kidney Pills and they have given me a great deal of relief, so I cheerfully recommend them." What Foley Kidney Pills have done for Mayor Dahmann they will do for any other person bothered with backache, rheumatism, or any other form of kidney or bladder trouble. Just try them for quick and permanent results.—For sale by all druggists.

OFFICE C. Q. M. Chronicle Bldg., San Francisco, Cal., April 10, 1912. Sealed proposals will be received here until 11 a. m., May 10, 1912, for furnishing wood, coke, charcoal, fuel and mineral oil, and gasoline, required at points in Western Division during fiscal year commencing July 1, 1912. Information furnished on application here or to Post Quartermasters and Quartermasters at Seattle, Wash., Portland, Ore., Honolulu, H. T., and bids may be received by Post Quartermasters and Quartermasters, Honolulu, H. T., until 11 a. m., Pacific time, May 10, 1912. F. Von SCHRAEDER, C. Q. M.

# Making Dollars From Jingles

We want a lot of Jingles for a book.

\$1,000.00 will be paid for suitable

ones received in May, 1912.

Plenty of fun for Girls, Boys, Women and Men.

## A COMPLETE JINGLE

(As an example only.)

Little Jack Horner, so the story goes,  
Sitting in the corner, what do you suppose,  
Didn't have plum pudding, didn't cry for pies,  
Had a bowl of Toasties of enormous size.

Cut out this coupon and mail to

Jingle Dept. 669, POSTUM CEREAL CO., LTD., BATTLE CREEK, MICH.

## FINISH THIS JINGLE

If a body greet a body coming thru the corn,  
If a body meet a body on a sunny morn,  
Could a body tell a body nice and soft and sweet,

(Fill in this line, mentioning Toasties, and write plainly.)

We will buy 50 Post Toasties Jingles, acceptable for use in a Jingle Book, received during May, 1912, at \$20.00 each.

Only the Jingles we pay for will be used.

There will be 50 Jingles purchased and the names and addresses of the writers will be printed and mailed to each inquirer who sends us a 1c stamped and addressed envelope for return.

The Jingles will be judged honestly upon merit, so if you are a sensitive person and not a good sportsman don't try, for we have no time to "pet up" those whose Jingles are not accepted.

Fill in the missing line of the incomplete Jingle printed above, making the last line include the name, "Toasties," with correct rhyme and metre.

Or write an original Post Toasties Jingle of not less than 4 lines, any line of which must contain "Post Toasties" or "Toasties."

As many Jingles may be resubmitted as desired. It's a pleasant recreation and we all get some good from it, besides it may result in your joining the army of users of

# Post Toasties

—the delicious food made of crisp, delicately browned bits of corn.

With milk or cream is not easily forgotten.

SANTA FE HARDWARE AND SUPPLY COMPANY.

## THE DAILY ROUND UP.

### WEATHER FORECAST.

Denver, Colo., May 9.—New  
Mexico: Local showers this af-  
ternoon or tonight, cooler in  
southeast portion; Friday gen-  
erally fair.

Don't put off your spring houseclean-  
ing.

Have it over before the warm, bright  
days are here to lure the housewife  
away from tiresome household duties  
to the pleasures of "The good old  
summertime."

SEND YOUR CURTAINS, RUGS,  
NAVAJO BLANKETS, AND EVERY-  
THING in that line that you wish  
cleaned or renovated to the SANTA  
FE ELECTRIC LAUNDRY AND LET  
US RELIEVE YOU OF THE HEAVI-  
EST WORK OF HOUSECLEANING.  
WE GUARANTEE to return them to  
you as good as new and can furnish  
TESTIMONIALS from patrons who  
have tried our work and are delig-  
hted.

OUR PRICES ARE RIGHT, from five  
to ten cents a pound for NAVAJO  
BLANKETS.

Latest Styles in made to measure  
garments for women. Inspect them at  
the W. H. Goebel Co.  
Get your order in early for cream  
at Kaunes on Saturday.

Fifteen Club Meets.—The Fifteen  
Club will meet tomorrow afternoon at  
the residence of Mrs. Palen on Palace  
avenue. Mrs. Boyle will preside.  
Have an Egg Drink at our fountain

a healthful, refreshing, cooling food  
drink. Zook's Pharmacy.

Don't forget Sunday, May 12, is  
Mothers' Day. Carnations for sale at  
Butts Bros. and the Clarendon Gar-  
den.

Knock Out Drops for your danc-  
ings, to be had at GOEBELS.  
Elks Will Initiate.—The local lodge  
of Elks will initiate R. V. Boyle and  
W. H. Wetzel into the mysteries of  
Elksdom Saturday evening. There will  
be good "eats" afterward.

It pleases mother to receive a bunch  
of flowers on Mothers' Day. Phone  
your order to the Clarendon Garden.  
(Black 12.)

All Boxes of the Santa Fe Electric  
Laundry brought into the office will  
be redeemed at 10c doz.

It is such a pretty custom that it  
has become almost universal to wear  
a carnation on Mothers' Day and to  
remember her with a present of a few  
bright flowers. Get them at the Claren-  
don Garden, phone black 12.

Call No. 9 for auto livery.  
Be With the Crowd at the Ten Cent  
Store, 219 West San Francisco St.

Capital Tailors.—The Capital Tail-  
ors will make you a "capital" suit.  
They are the only tailors in the city  
and will make the "only" suit for you.  
Take a look at their add on page three.

Warm Weather is coming. Cooking  
by electricity is cheaper than coal.  
Sparks can prove it. See him.

With Our Model sanitary fountain  
we are prepared to serve you with frigid  
soda drinks that are pure and deli-  
cious. Zook's.

Second Cavalry for Fort Bliss.—The  
second cavalry, due in this country  
about June 15 from the Philippines,  
will go to El Paso and the Eighth cav-  
alry, which follows in a few weeks, is  
to be stationed at Fort Huachuca.

Elegantly Furnished Rooms for Rent  
—Rooms elegantly furnished and hav-  
ing all modern conveniences, includ-  
ing electric light, steam heat and  
baths, in the First National Bank  
building. Apply to F. M. Jones.

We Want you to try a coffee ice  
cream soda or a coffee Sundae, most  
delicious drink at our fountain. Zook's.  
Ride in E. M. F. car and be sure to  
get back.

Alleged Physician Arrested.—E.  
Otero, who claims to be a physician  
was last night arrested at Albuquer-  
que on complaint of Health Officer B.  
Ruppe, on a charge of practicing medi-  
cine without having secured the proper  
license from the state medical board.

Concert Was Great Success.—Every  
seat taken in the Elks' Theatre last  
evening, enthusiastic applause, a de-  
lightful musical treat, such in brief  
tells the story of the Schubert Con-  
cert at the Elks Theatre last evening.  
Seldom have Santa Fe music lovers  
and theater goers had so rare and ar-  
tistic a treat as this concert afforded.

GOMEZ IS ON ANXIOUS SEAT.

(Continued from page One.)

most severe and some adobe houses  
were damaged. No injuries to persons  
here have been reported, though many  
were greatly alarmed and thousands  
passed the night outdoors.

There is an unconfirmed rumor that  
there were some fatalities at Teple.

## THE SECRET OF LONG LIFE.

Do not sap the springs of life by neglect of the human mechanism, by allowing  
the accumulation of poisons in the system. An imitation of Nature's method of  
restoring waste of tissue and impoverishment of the blood and nervous strength is  
to take an alternative glyceric extract (without alcohol) of Golden Seal and Oregon  
grape root, Bloodroot, Stone and Mandrake root with Cherrybark. Over 40 years  
ago Dr. Pierce gave to the public this remedy, which he called Dr. Pierce's Golden  
Medical Discovery. He found it would help the blood in taking up the proper ele-  
ments from food, help the liver into activity, thereby throwing out the poisons from  
the blood and vitalizing the whole system as well as allaying and soothing a cough.

No one ever takes cold unless constipated, or exhausted, and having what we  
call mal-nutrition, which is attended with impoverished blood  
and exhaustion of nerve force. The "Discovery" is an all-  
round tonic which restores tone to the blood, nerves and  
heart by imitating Nature's methods of restoring waste  
of tissue, and feeding the nerves, heart and lungs on rich  
red blood.

"I suffered from pain under my right shoulder blade also a very  
severe cough," writes Mrs. W. Jones, of New Brookland, S. C., to Dr.  
R. V. Pierce, Buffalo, N. Y. "Had four different doctors and none did  
me any good. Some said I had consumption, others said I would have  
to have an operation. I was laid up, unable to sit up for six months  
—and was nothing but a live skeleton. You advised me to take Dr.  
Pierce's Golden Medical Discovery, and Dr. Pierce's Pleasant Pellets.  
When I had taken one bottle of the 'Discovery' I could sit up for an  
hour at a time, and when I had taken three bottles I could do my  
cooking and tend to the children. I took fourteen bottles in all and was  
then in good health. My weight is now 157 pounds."

An agent of the General Railway at  
Tlaloma in the state of Jalisco, ten  
miles west of here, reports that a  
shock opened a cleft in the mountain.

Federal Victory Reported.  
Mexico City, May 9.—Nueva Era,  
the administration organ, in a special  
dispatch received from Torreón, Co-  
ahuila, says it is insistently reported  
that the advance force of the federal  
army attacked and routed 400 of Gen-  
eral Orozco's followers at Escalon,  
State of Chihuahua, yesterday. The  
rebel force retreated to Corralitos,  
leaving behind many dead and wound-  
ed and a rapid fire gun.

FLOOD ADVANCE  
IS UNCHECKED.  
(Continued from Page One.)  
The task of providing for the flood  
refugees continues. A freight train  
load of clothing, shoes, medicine and  
supplies left New Orleans today for  
camps at Opelousas, Rayne, and other towns.
