BAD ACCIDENT

Frightful Collision on Canadian Railway.

MANY WERE KILLED AND INJURED

Wonderful Activity of the Methodists of the United States.

MEETING OF AMERICAN HISTORIANS

London, Ontario, Dec. 27.—A frightful collision occurred last night between a passenger and freight train on the Grand Trunk railroad at Wainstead station, on the Sarnia branch of that road and according to latest reports from the scene of the accident thirty persons were killed and thirty-six were injured. The passenger train was the Pacific express, No. 5, west bound. It was running at a high rate of speed, and the freight, which was proceeding east under a slow headway, was to have taken the switch at Wainstead to allow the passenger train to pass. Apparently neither engineer saw the danger in time to avert the accident, for the two engines came together near the west switch with a frightful crash, overturning into a ditch. The baggage and express cars telescoped into the smoker with appalling results. The wreck was complete and it is thought hardly a single passenger in the smoker escaped injury. Other cars of the passenger train remained on the track.

Word was quickly sent to this city and doctors were soon on the scene. The work of removing the dead and injured was then proceeded with.

The wreck, shortly after the collision, caught fire and but for the heroic efforts of a brigade of passengers, organized and led by an old man, who was himself a passenger on the ill-fated train, the disaster might have been more disastrous to those pinned down in the wreck. By heroic efforts this brigade put out the fire by throwing snow on the flames with their hats and hands. They then turned their efforts toward getting out the wounded who had their sufferings increased by a blinding snow storm and thermometer near zero. The dead and injured are arriving in London by special train this morning and the work of identifying the dead and caring for sufferers is being hurried as fast as possible.

The accident is said to be due to the failure of the operator to give orders to the express train to meet the freight at the station.

Following is partial and official list of the identified dead:

Alex. Stewart, Petrolia, Ont.; Mrs. Alex. Stewart, Petrolia, Ont.; A. Rick- erts, Carnia Tunnel, Ireman; J. Gillies, Sarnia Tunnel, engineer; Mrs. Trotter, Petrolia, Ont.; Mr. Lawrence, Watford, Ont.; F. S. Freeman, Oil Springs, Ont.; Jeffrey, London, Ont.; Clem Podley, Port Huron, Mich.; Gay Debenier, ticketed to La Crosse, Wash.; Dr. Penwarden, ticketed to Petrolia, Ont.; woman, supposed to be Penwarden's wife; J. H. Brock, Brucefield, Ont.; O. B. Burwell, Port Huron, Mich.; Wilson Morton, Chicago.

In addition to above, fifteen bodies remain to be identified.

Miss Lottie Lynch, Port Huron, Mich., died in the hospital.

Fault of Operator.

Montreal, Dec. 27.—Superintendent McGuigan, of the Grand Trunk railway, says that his information is there are about twenty-five killed and thirty injured, but a reliable list has not reached him. He cannot understand, he says, how the operator who is charged with the mistake, made such a blunder. He is one of the oldest and most reliable of operators, the superintendent added. He went in service with the Great Western railway in 1877. He appears to have failed to give the order to the passenger train to meet the freight at the station.

ACTIVITY OF METHODISTS.

They Raise Twenty Millions for Church Work in the Year.

New York, Dec. 27.—Methodist bishops have issued an appeal to Methodists in all parts of the world to inaugurate spiritual advance, beginning tomorrow and continuing throughout the three succeeding days, ending with a watch-night service on the last day of the year. This month ends the time set apart for the twentieth century undertaking. The \$20,000,000 fund has been raised, and American Methodism was never so well anchored financially as at the present time. But the 2,000,000 converts have not been made. Indeed, Methodism has barely held its

own in numbers. Now the time of special prayers, recommended by the bishops, is to be in behalf of the side of the Twentieth century undertaking that has failed. The bishops recommend that these four days at the end of the old year be followed in the new year by revival services. The address of the board of bishops is concurred in by the bishops of the Methodist church south, and from reports received it is believed the period beginning tomorrow will be generally observed in the manner recommended.

HISTORIANS MEET.

American Historians Gather and Hold Discussion in Philadelphia.

Philadelphia, Pa., Dec. 27.—Historians and professors of history from many parts of the country filled Hoston hall this morning at the sessions of the American Historical association. American history was the general topic of discussion. Among the papers presented were the following: "A Neglected Point of View in American Colonial History," Prof. William McDonald, of Brown university; "American Business Corporation Before 1789," Judge Simeon E. Baldwin, of Connecticut; "Antecedents of the Declaration of Independence," Prof. James Sullivan, of the High School of Commerce, New York city; "American Constitutional Principles in the Constituent Assembly," Prof. Henry E. Bourne, of Western Reserve university.

Papers on "The West and Nationality," by Prof. John L. Stewart, of Lehigh university, and "Party Politics in Indiana During the Civil War," by Professor Woodburn, of Indiana university, occupied the afternoon session.

WOUND NOT DANGEROUS.

Lawrence Fielden Will Recover From His Accidental Shot.

Lawrence Fielden, the boy who was accidentally shot yesterday afternoon with a 22 rifle, and thought to have been seriously wounded, is reported much better today and the attending physicians say that unless blood poison sets in, he will recover. It was at first thought by the physicians that the ball which entered his side and ranged upward, had lodged in his lungs, but on closer examination they found that it had cut through the lung, and had lodged somewhere in the breast.

Bert Skinner, son of J. A. Skinner, the boy who did the shooting, says that his gun did not explode accidentally, but that he and Fielden and some other boys were shooting at a tin can. He was standing up and Fielden was sitting on the ground in front of him. Fielden had shot at the can and hit it, and in his excitement and boyish glee he jumped up just as Skinner fired at the tin can. Skinner did not know at first that he had shot Fielden, but on after thought decided as he was the only one besides Fielden shooting at that time, it was a ball from his rifle that did the mischief. There were three 22 rifles, Christmas presents, and a shot gun in the crowd.

It will be remembered that only a couple of weeks ago a woman was shot near the ice works, by a stray bullet from a 22 rifle. On that occasion a crowd of boys living on the Highlands were shooting in the same vicinity.

FREE RIDE TO THIS CITY.

They Took Possession of a Dead Head Chair Car at Las Vegas.

Four good natured but unfortunate (financially) railroad boys were brought before Judge Crawford this morning charged with vagrancy. But they all plead not guilty and then their stories were told.

The sensational part of their adventures began at Las Vegas, where they were stranded. Passenger train No. 1 carried a dead head chair car. Not wishing to see any of the comforts of the Santa Fe go to waste they took possession of the car. The conductor, in making his rounds, tried to unlock the door, but his key was no good for the keyholes were fixed and everything was in favor of the special party inside, who would not respond to the infuriated conductor.

When Albuquerque was reached the party within attempted to alight from the windows, forgetting that there were doors. But Officer Barton's large arms caught them like a fire net as they dropped from the windows.

As no charge had or could be filed against them by the railroad, and the charge of vagrancy would not hold good, they were released. They had no bearing to the hobo, but were all working men and of a good appearance.

Holiday sale. The evening theme at the Baptist church is "Life's New Year's Sale."

A report comes from Belen giving the information that Dr. William Radcliffe, who has been very ill with inflammation of the bowels, is much improved.

COLD WEATHER

Southern States Visited by Freezing Blizzard.

ALEXANDRA'S CHRISTMAS GIFT

Discussion at Philadelphia on the Public Regulation of Railroads.

ARCTIC CLUB'S ANNUAL DINNER

New Orleans, La., Dec. 27.—The coldest weather of the winter is being experienced today. At 6 o'clock the thermometer at the customs house registered 28 degrees and there was plenty of ice in the streets. The freeze extended through the sugar region.

Cold in Florida.

Jacksonville, Fla., Dec. 27.—Last night was the coldest of the season, the thermometer registering 24 here and 30 at Tampa, the latter with a killing frost. It is feared the young orange trees are killed or badly hurt, as the previous warm weather had kept the sap in the upper limbs. There is considerable fruit yet in the groves in some sections and it may have been harmed.

Snow in Ohio.

Cleveland, Dec. 27.—The heavy snow storm which began here Wednesday last still continues today with no signs of abating. Nearly fourteen inches of snow has fallen on the level, while the drifts in exposed places measure three to four feet in depth. Street railroads find much difficulty in keeping cars moving. Trains on most of the steam roads are running behind schedule time.

Record Breaker.

Atlanta, Ga., Dec. 27.—Today is a record breaker for cold weather this winter. The mercury here went to fourteen degrees above this morning and at Savannah it is reported at twenty-four.

Cold in Alabama.

Birmingham, Ala., Dec. 27.—The thermometer dropped to thirteen degrees here last night, the coldest of the winter.

QUEEN'S GIFT.

English Queen Gladdens Hearts of Widows of African Soldiers.

London, Dec. 27.—Hundreds of women and children, widows and orphans of British soldiers who fell in the recent South African war, were made glad today by the thoughtful generosity of Queen Alexandra. In response to the proclamation announcing the Queen's intention, the bereaved, many in desperately poor circumstances, gathered for a free Christmas dinner and after they had eaten their fill were sent home laden with packages containing food and clothing. The dinner was given at the Alexandra Trust Restaurant, of which the queen is president, and which was founded in March, 1900, by Sir Thomas Lipton, for the benefit of the poor. During the afternoon, their Majesties, escorted by Sir Thomas Lipton, looked in upon the feast and were heartily received by the many women and children present.

Arctic Club's Annual Dinner.

New York, Dec. 27.—Great preparations have been made for the annual dinner of the Arctic club tonight. Professor William H. Brewer of Yale will preside and the notable guests will include Admiral Schley and General Greely.

Committed Suicide.

Pueblo, Dec. 27.—John W. Quick, proprietor of a livery stable on Spruce street, died at 11:45 this morning from a self inflicted shot in the head. Unrequited love for Miss Mary Williams, a pretty waitress, is the reason assigned for the suicide. Quick left a letter to Miss Williams telling of his love and bidding her good bye.

REGULATION OF RAILROADS.

Discussion on the Public Control of American Railroads.

Philadelphia, Pa., Dec. 27.—The public regulation of railroads was the general subject of discussion at this morning's session of the annual convention of the American Economic association. Papers treating of the subject from various viewpoints were presented by Interstate Commerce Commissioner Charles A. Prouty, Vice-President Walker D. Hines of the Louisville & Nashville Railroad, Professor

Emory R. Johnson of the University of Pennsylvania, and Professor B. H. Meyer of the University of Wisconsin.

At the afternoon session various economical theories were argued by Professor John B. Clark of Columbia University, John A. Hobson of London, England, Professor Thomas N. Carver of Harvard, Professor Simon N. Patton of the University of Pennsylvania and Alvin S. Johnson of Columbia University.

Election Contests.

Denver, Colo., Dec. 27.—The republican fight for control of the legislature formally opened today when contests were filed with the secretary of state by fifteen republican candidates for the house from Arapahoe county and four from district. Contests were also filed by three defeated candidates in the senate, but as the senate is democratic they will have but little weight.

WRECK IN KENTUCKY.

Two Trains Collide and Three Men Instantly Killed.

Louisville, Dec. 27.—The fast passenger train on the Illinois Central bound for Cincinnati from New Orleans, crashed into a work train at Caneyville, eighty-four miles from Louisville today. Three men were instantly killed and two injured. One of the engines was demolished and the other engine and three cars were derailed. The killed: Robert Smith, engineer work train, Elizabethtown, Ky.; Thomas Bell, fireman work train, Louisville, Ky.; W. O. Robertson, fireman, passenger train, Central City, Ky.

THE COCHITI INDIANS.

The Government Has Appropriated Funds for Their Relief.

THEY ARE IN NEED OF HELP.

J. B. Harper, of the United States irrigation department, who is superintending the work being done by the government for the Indians of the Cochiti reservation, has been spending several days in the city buying supplies, and left this morning on his return to the reservation.

Although very little has been said about the work being done by the government for the Indians of the pueblo of Cochiti, it is a great good work and the benefit received therefrom will be far reaching.

For a number of years the Rio Grande has not furnished sufficient water to nourish the crops planted by the Indians, and as a consequence they have for several winters been on the verge of starvation. The river would furnish water in the spring and the crops would start nicely. Toward midsummer the water in the river would fall and only a half crop would be harvested. The attention of the government was called to the existing state of affairs last June Mr. Harper visited the drought stricken district with a view to furnish it relief if possible. He noted the lay of the country and being a civil engineer saw that by little expense water could be brought from farther up the country to good advantage. He returned to Washington and recommended that an appropriation be made with which to do the work.

With the help of Delegate B. S. Rodey and other friends of the territory an appropriation of \$8,400 was set aside by congress for the purpose.

Mr. Harper was seen by a Citizen reporter this morning before leaving and stated that the work was already in progress, and that he had some fifty Indians at work making a rock cut, which is necessary to the success of the project. He says that not only will the Indians and settlers of the Cochiti district be benefited by the increase in the water supply, but will do all the work and get a nice sum of the money appropriated in wages.

The Cochiti district is along the Rio Grande in the northern part of Bernadillo county.

BIG STAMP APPROVED.

It Bears Jefferson's Likeness and Its Color is Lilac.

Washington, Dec. 27.—Director Meredith, of the bureau of engraving and printing, has delivered to the postoffice department the first proof of the 50 cent stamp. The stamp will be one of the handsomest of the new issue. It bears the likeness of Thomas Jefferson and its color is lilac.

Its decorations are particularly elaborate, a feature which distinguishes the new stamp from its predecessors. The 50 cent stamp will not be ready for issue for several months.

There will be a regular meeting of the Elks at their hall tonight at 8 o'clock. All members are urged to attend.

FOR STATEHOOD

Dakota Senator for the Omnibus Statehood Bill.

BUSTS OF LINCOLN IN SCHOOLS

Sister Frances of New York Fifty Years a Nun.

TRAIN WRECK IN KANSAS

Special to The Citizen.

Washington, Dec. 24.—Senators Foraker and Hausbrough have declared for the omnibus statehood bill, the latter in a speech in North Dakota.

Send a large and strong delegation to assist Rodey and success is assured.

BUSTS OF LINCOLN.

One to Be Placed in Every School in New York City.

New York, Dec. 27.—An anonymous admirer of Abraham Lincoln is going to place busts of the great war president in every public school in the boroughs of Manhattan and The Bronx. The offer was made to the board of education through Commissioner O'Brien and was accepted. Mr. O'Brien would not give the name of the person who is to make the gift. The busts are to be designed by Wilson McDonald, the sculptor, and are to be as large as the bust of Washington in the meeting room of the board of education. Before being placed in the schools they are to be submitted to three well known artists as experts.

FIFTY YEARS A NUN.

Sister Frances, Nurse in Civil War, is Soon to Have Her Golden Jubilee.

New York, Dec. 27.—A golden jubilee mass will be sung at St. Catherine's convent of the order of the Sisters of Mercy, at 1917 Madison avenue on Monday, January 5, for Sister M. Frances Murray, in honor of the fiftieth anniversary of her entry to the order.

The Rev. Henry F. Murray, rector of St. Rose of Lima's church, Rockaway beach, her nephew, will be the celebrant, and he will be assisted by the Rev. Michael F. Shine, of Port Jervis, and the Rev. T. F. McGrohen, rector of St. Ann's church, Brooklyn.

When Sister Frances took her final vows in 1853 she became connected with the Mulberry street house of the order and remained there for sixteen years, until the opening of St. Catherine's convent, thirty-four years ago with which institution she has since been associated.

In the civil war, Sister Frances was assigned to the staff of Gen. Foster, at Beaufort, S. C., and later was transferred and assigned to divisions 7, 8 and 9 at Stanley hospital, New Bern, N. C., where her devoted attention to the sick and wounded soldiers called forth the praises of the officers.

Train Wreck in Kansas.

Kansas City, Dec. 24.—A special from Paola, Kansas, says:

"Head end collision occurred between freight train on Missouri Pacific a mile south of Dodson, at 1 a. m., and one killed and five injured. T. P. Norton, a brakeman, of Sedalia, was killed."

NO MIRRORS FOR GIRLS.

Principal Threatens to Remove Glasses if They Are Not Used Less.

Syracuse, N. Y., Dec. 27.—Principal W. K. Wickes, of the Syracuse high school, announced to the school that all the mirrors will be taken out of the dressing room if the girl students do not stop spending so much of their time posing before the glass. Said he: "I saw sixteen girls around one mirror and the way was so congested that passage was impossible. Girls' why don't you comb your hair before you leave home?"

The girls say they will bring pocket mirrors if the large ones are removed.

FIGHTS FOR OLD BIBLE.

Johns Hopkins Professor Denies Right to Make New Versions.

Baltimore, Dec. 27.—Professor Paul Haupt, the noted Biblical student, who has arranged a polychrome edition of the Bible, read a paper on King Solomon's Mines before the Johns Hopkins theological society.

During the discussion that followed Prof. Henry M. Shepard took the stand that the authorized version of the Bi-

ble issued in Shakespeare's day, which was a great ornament of literature, should be accepted as completely today as in the past. He questioned the right and policy of making a modern version of the Scripture.

Dr. Haupt admitted that the authorized version of the Bible was one of the greatest monuments of English literature, but said it could not be classed as an original work, but as a translation from another language. Therefore, he argued that everyone who was capable had a right to prepare a version. Prof. Haupt said that King Solomon's mines were located in southern Spain and southwestern Africa. The silver came from Spain and ophir gold from the El Dorado north of the former South African republics.

Christmas Dinner in the Opening.

A New England Christmas dinner, with all the Yankee trimmings, served in true Maine style in the outdoors under a cheerful sun, is rather an unusual occurrence, and probably doesn't occur anywhere but in New Mexico. Such was the manner of a little party given by Mrs. Olin at her University hill residence on Christmas day.

The guests sat down to dinner about 3 o'clock in the afternoon and wore no extra wraps. The sun was bright and the air pure and crisp, but not cold, with just enough frost in it to show the steam circling from the plum pudding and to sharpen the appetite. A camera was called into usefulness and pictures taken as souvenirs and tokens of remembrance of the happy event.

The guests were: Mesdames Olin, Moore, Soltwedel, Misses Cavanaugh, George Haynes, Lulu Haynes, Olin, Soltwedel, Messrs. J. H. Christy, J. E. McKenna, Fred Moore, Glenn Olin, Harry Lavin.

POLICE COURT.

Peace Disturbers and Hoboes Up Before Justice Crawford.

There was plenty doing in police court this morning. Perhaps it was because many wanted to get rid of their evil nature before the day of good resolutions and reformations.

"Monte Jack," whose name was registered on the police records for disturbing the peace on the "row," was there. The girls could not stand for Jack's wanting to make trouble and had him placed in the cooler. This morning he was fined \$15, which he paid with resolutions to stop "dat" troublemaker.

Cecilia Denica was on the bench for getting drunk and causing trouble. He was charged with trying to get into the house of Mrs. Shoemaker. She could not "sabe" the Italian, and becoming frightened called for help. It developed that Denica had no intention of harming a woman, but wanted her to deliver a note for him. Because she refused to talk to him he began to swear and pound on the door. The only time he used English was when he swore, and then it was fast and furious. The judge gave him the full extent of the law for his offense.

The third act opened with eight unattractive specimens of humanity, who were all good comedians when it came to answering the judge's questions. Their names were either William, John or Jim, with Smith, Jones or some other names attached. Most of them were arrested last night and the judge had some difficulty in finding any resemblance between the names last night and those given this morning. A name can be easily changed in the jail, without making any noise. They were sent to the chain gang.

Two colored men who recently strayed from the deacons' flock were given ten days each.

Jim Jones, a typical mining man, was sent over for sixty days for carrying concealed weapons around the streets. Jones had been in town about three hours when he was arrested.

Temple Albert Services.

Temple Albert was well crowded last night to hear the addresses made by Messrs. Moller and Anfenger, attorneys, of Denver, Colo., and district deputies of the I. O. B. B. society. The gentlemen are able talkers and their addresses were interesting.

A short musical program rendered by a quartet composed of Mrs. Israel, Miss Nellie Taylor, Messrs. John Douglas Walker and A. L. Newton, was also enjoyed.

A few applications were taken for membership to the I. O. B. B. society. Attorneys Moller and Anfenger went to Las Vegas this morning, where they expect to establish a society of the I. O. B. B. at that place. They will be joined tonight by the following Albuquerque gentlemen, who will assist in the installation of the new lodge: Messrs. B. Spitz, Simon Stern, N. A. Hield, M. Mandell, Sol. Weiller, Susan Lewinson, A. Rosenwald, I. Offner, B. Jaffa, A. Faber, Rabbi Kaplan.

The I. O. B. B. society is for the support of the non-sectarian hospital for consumptives located at Denver, Colorado.

WHY HE DECLINED

Reasons Why President Roosevelt Will Not Arbitrate.

PENNSYLVANIA MEN WERE FROZEN

Notable Gathering of Scientists at the National Capital.

MISSOURI BANK ROBBERY FRUSTRATED

Rome, Dec. 27.—Ambassador Meyer today presented to the foreign office President Roosevelt's note on the subject of Venezuelan arbitration. The president says although he is very gratified at the confidence the powers have shown in him by choosing him as arbitrator, which position he would have accepted if there were no other means of solving the question, he thinks it better to submit the case to The Hague tribunal, especially as all powers concerned are willing. The president adds that as there is no question of national honor or cessation of territory involved, after thorough consideration and in accord with all the powers concerned who have shown an honorable spirit of mutual consideration and moderation, he is glad to be informed that they all have agreed to submit the question to The Hague tribunal.

Blockade to Continue.

London, Dec. 27.—Foreign office officials say the note from Secretary Hay similar to that presented at Rome, has been received here and at Berlin. Nothing has yet been decided regarding the cessation of the blockade or the terms of the arbitration protocol.

FROZEN TO DEATH.

Seven Men in Pennsylvania Die From Severe Cold.

New York, Dec. 27.—Seven men frozen to death in Pennsylvania's record for two hours. The victims were: Matthew Seimet at Sharpsburg, James H. Coates at Pittsburg, Phillip Sohn at Harnersville, Richard McCann at Sygan station, Lucius Fallar at Allentown, James H. Hannigan at York, and Thomas Monaghan at Lancaster.

MEETING OF SCIENTISTS.

Noted Scientists of the United States Gather at Washington.

Washington, Dec. 27.—Scientists from all parts of America—representing chemical, geological, mathematical, engineering, botanical, microscopical, astronomical, psychological, and kindred societies—are gathering in Washington to attend the annual convention of the American Association for the Advancement of Science. The convention will hold daily sessions through the whole of next week. Today being the opening day was given up mainly to the reception of the visitors. No business of the convention will be transacted until Monday.

The program for the week is an extensive one, and includes a number of matters of importance. Monday there will be addresses by the vice presidents of the sections of mathematics and astronomy, chemistry, geology, anthropology, physiology, physics, mechanics, zoology, botany and economics. On the same day will be heard an address by Prof. Simon Newcomb, the president of the Astronomical and Physical Society of America, and the annual message of Charles Sedgwick Minot, of Boston, the retiring president of the association.

On succeeding days the various sections are to hold daily sessions for the reading and discussion of papers of scientific interest. Addresses and lectures, smoking receptions and a number of dinners have been arranged throughout the convention week. Among the papers will be one on "Volcanoes of the West Indian Islands," by Prof. Angelo Heilprin, who made a tour in St. Pierre and Martinique shortly after the recent volcanic eruptions in those islands.

BANK ROBBERY.

Robbers Discovered by Citizens and Driven From Missouri Town.

Union, Mo., Dec. 27.—Four masked men broke into the bank at this place this morning and were engaged in robbing it when discovered by citizens. Sheriff Bush was immediately notified and with several deputies attempted to arrest them before they escaped. When they saw the sheriff approaching the robbers fled. It could not be learned whether they secured any money.

The cashier estimates that the robbers secured \$15,000. The wreck of the safe was complete as was the whole interior of the bank building.

New Mexico demands Statehood from
 the Fifty-Seventh Congress.

Write to the senators urging state-
 hood.

This city is enjoying an immense
 holiday trade.

The driver of the government camel
 train brought to Arizona in 1856, died
 a few days ago at Phoenix. His name
 was Hi Jolly.

The highest ambition of every terri-
 tory is to become a full fledged mem-
 ber of the sisterhood of states. It is
 part of the craving for independence
 and political entity which is implanted
 in every American breast.

The great west now produces 90 per
 cent of the gold, silver and copper out-
 put of the United States, 75 per cent of
 the iron and cereals, 65 per cent of the
 swine, 50 per cent of the milk cows and
 60 per cent of all other cattle in the
 land.

President Roosevelt, it is reported,
 will come west in the spring and visit
 New Mexico and Arizona, with a view
 as to their fitness for existence. The
 president ought to know enough about
 these territories to be friendly toward
 them. He has weakened very much
 in four years, and it is now claimed
 that he is controlled by New Eng-
 land influences.

It is reported that Prof. Hewett, of
 the Las Vegas normal university, is
 opposed to statehood for the territory,
 and has gone to Washington to oppose
 the omnibus bill. The people of New
 Mexico pay Mr. Hewett a comfortable
 salary, and if he goes to Washington
 to slander the people who support him,
 he should be promptly removed.

The verses on statehood in yester-
 day's Citizen are from the pen of one
 of the gifted young poets of the west,
 Mr. G. Cathcart Bronson, of Chicago.
 Mr. Bronson is a native of California,
 and has won an enviable place in Amer-
 ican literature. His poem, "The
 Soul's Immortality," is destined to find
 a place in every well selected library.
 Mr. Bronson is now at Phoenix, Ari-
 zona, where his invalid young wife
 will spend the winter. Mr. Bronson's
 brother is the author of the popular
 play, "California," which will be pro-
 duced in this city this winter.

EQUALITY OF THE STATES.

The Denver Republican contains the
 following able article on the equality
 of the states:

"In their eagerness to find some
 objection to the admission of New
 Mexico and Arizona members of the
 senate committee on territories who
 signed the majority report against the
 admission of those territories made a
 declaration which was certainly
 strange, coming as it did from men oc-
 cupying the high station of senators
 from American states. We refer to the
 following concerning the equality of the
 states:

"Despite the fact that the differ-
 ent sizes of the thirteen colonies and
 the insistence of ambitious
 men from the smaller states for an
 equal representation in the senate
 with the larger ones compelled
 the anomalous compromise by
 which small states secured as
 large a vote in the senate as the
 large ones; nevertheless the gen-
 eral theory, of course, was that
 there should be a government by
 population and not by area."
 "No man who understands the con-

stitutional history of this country can
 be blind to the fact that the insistence
 upon equality of representation in the
 senate was not the work of 'ambitious
 men from smaller states,' but the de-
 mand of those states themselves. It
 was recognized from the beginning
 that to deny equality of representation
 was to deny the equality of the states
 as sovereign and independent common-
 wealths. The union is based upon the
 theory that the states are equal with
 one another, as the nations of Europe
 stand, in respect to sovereignty, inde-
 pendence and the rights of distinct
 communities, upon equal ground.

"The union would never have been
 formed if this equality had not been
 recognized. As it was, Rhode Island
 remained out of the union until after
 the first presidential election. The
 compromise which the members of the
 majority of the senate committee on
 territories have passed to refer to as
 'anomalous' saved the attempt to
 form a 'more perfect union' from de-
 feat. It recognized the equality of
 states by insuring them equality of
 representation in the senate, but it
 also recognized the differences in popu-
 lation by basing representation in the
 house of representatives upon the
 number of inhabitants in a state.

"Commenting upon this, Justice
 Story uses the following language in
 his work on the constitution of the
 United States:

"Whatever may be thought of the
 reasoning of the contending parties,
 no person who possesses a sincere
 love of country, and wishes
 for the permanent union of the
 states, can doubt that the compro-
 mise actually made was well found-
 ed in policy, and now may be fully
 vindicated upon the highest prin-
 ciples of political wisdom and the
 true nature of the government
 which was intended to be estab-
 lished."

"It is strange that Senator Dilling-
 ham, of Vermont, and Senator Burn-
 ham, of New Hampshire, give their
 approval to so un-American a decla-
 ration as that which we have quoted
 from the report in question. Although
 Vermont was not one of the original
 thirteen states, it belongs to the group
 of extremely small states. No senator
 from New Hampshire should have put
 his signature to a document declaring
 that the representation in the senate
 was the result of an 'anomalous com-
 promise' secured through the insis-
 tence of 'ambitious men.'"

"By the attitude of the majority of
 the committee we are brought face to
 face with a condition parallel with the
 one to which Mr. Madison directed at-
 tention in the convention which framed
 the national constitution. In the de-
 bate on the question of representa-
 tion in the senate, he said that what
 the country had to fear was not the
 conflicting interests of the large and
 small states, but the conflict growing
 out of the difference in interest be-
 tween the north and the south. So we
 are today confronted with the fact that
 the east does not want to concede to
 the west its full share in the adminis-
 tration and government of the coun-
 try."

RAILWAY SAFETY APPLIANCES.

The sixteenth annual report of the

 which was transmitted to congress on

THE FIRST STEP

Of the child is an event in the mother's
 life. How proud she feels when the
 attempt to walk is begun so early as to
 evidence childish courage and sturdy
 strength. Such pride should be enjoyed
 by every mother. But it often happens
 that the child is timid,
 weak and deficient in
 vitality, and clings to the
 mother's arms with no
 desire to walk or play.

Mothers should learn
 that to have strong chil-
 dren they must them-
 selves be strong, for the
 child's strength is the
 gift of the mother.

The use of Dr.
 Pierce's Favorite
 Prescription by expectant mothers
 gives them health
 and strength to
 give their chil-
 dren. It nour-
 ishes the nerves,
 strengthens the body and gives great
 muscular strength and elasticity, so that
 the baby's advent is practically painless.

"I have been using Dr. Pierce's Favorite
 Prescription, and can say it is just what you ad-
 vise me to be, and can cheerfully recommend it."
 writes Mrs. Victor J. Hadin, of Leavenworth,
 Riley Co., Kansas. "I began taking it two
 months before baby came and was greatly ben-
 efit by its use. The doctor who attended me
 said I did about as well as any one he had seen
 (as I was sick only about three hours), and also
 that your 'Favorite Prescription' was 'the one
 best medicine' which he did have faith in."

"We now have a darling baby boy, strong and
 healthy, who weighed nine pounds when born
 three and one-half months ago."
 "Favorite Prescription" makes weak
 women strong, sick women well. Accept
 no substitutes for the medicine which
 works wonders for weak women.

law of 1893, providing for the use of
 safety appliances in the handling of
 railway trains. The benefits of the law
 have been increasingly evident during
 the present year. It appears from
 the report that the number of per-
 sons who were killed or injured in
 the work of coupling and uncoupling
 cars during the fiscal year ended June
 30, 1902, (that being the first entire
 year reported since the law went into
 effect) showed a remarkable diminu-
 tion as compared with the year 1893
 (the year when the law was enacted.)
 The number of casualties from this
 cause in 1893 was 11,710, of which
 number 433 were killed and 11,277
 were injured. In 1902 the total num-
 ber of casualties, was 2,256, of which
 number 143 were killed and 2,113 in-
 jured. This shows a diminution of
 2,454 in the number of casualties, or
 of 68 per cent in the number of per-
 sons killed, and of 81 per cent in the
 number of persons injured. It is fur-
 ther to be borne in mind, in this
 comparison, that the total number of
 men engaged in railway work in 1902
 is much greater than the total number
 at work in 1893.

The Origin of New Year's Calls.

New Year's calling in New York was purely an outgrowth of an early Dutch custom, yet strangely enough many of the descendants of the early Dutch settlers fought against the continuance of a practice which they declared had long since passed beyond the bounds to which the fathers limited it and had been made the excuse for great excesses on a day which ought to be given over to the forming of good resolutions.

In the early days of Manhattan island and the male Dutch settlers every New Year day started out as a matter of duty to visit the houses of all their friends. The good wives who received them were arrayed in their Sunday finest and had bowls of steaming hot punch upon the best room table. The latter day Dutch descendants denied the punch and said it was coffee. The irreverent latter day champions of New Year's calling denied that their forefathers would not know a punch if

WOMAN'S RELIEF CORPS.

Their Masquerade Ball Last Night a Grand Success.

Seldom is it that people enjoy themselves more than those who attended the masquerade ball given at Colombo hall last night by the ladies of the Woman's Relief Corps.

Colombo hall was crowded comfortably for dancing and it lasted from early evening until morning. The young folks who attended circled the glossy floor continually, with the exception of an intermission of three-quarters of an hour, from 11:15 to 12 o'clock, when the dancers went out for lunch.

It was a great success. The costumes were many, some of them unique, gorgeous and some very pretty. There were funny little fellows with high hats and big fat men with canes; there were girls tall, rare, fair and square in dresses trimmed, and others in dresses plain.

The receipts were more than \$100 and the ladies did quite well.

The Berry-Devine orchestra furnished the music and it is needless to say that it was excellent.

Fire at Rev. Brewer's Residence.

A lamp exploded at the home of Rev. Brewer on East Railroad avenue last night, which caused considerable commotion for a few minutes. The furniture and fixtures in the room were burned and searched before the fire was extinguished. As soon as the lamp exploded, they began to throw water on the burning room. They were so busy throwing water that there was no time to send for the fire department. The loss sustained, however, will not be very large.

Arrest of a Sleek Forger Who Operated in Las Vegas.

A TRAIN ROBBER ITTO.

Marshal Curtwright and Deputy Marshal Al Lane made an arrest at noon today that may prove to be one of the most important captures of recent years, says the Las Vegas Record.

The prisoner claims that his name is Woods, but from good evidence it is believed to be merely one of his numerous aliases. His right name is believed to be Guy G. Gates, alias Guy Lecroix, Guy Williams, Guy Edgincourt and various others, and he is wanted here on no less than three charges of forgery.

Just before last Thanksgiving a young man presented himself to F. P. Herzog at his rooming house and requested a room. After being shown to his room he presented an order to Mr. Herzog for \$24. The order was drawn on C. M. Moore, of the Moore Lumber company, and was signed by Bert Adams. Mr. Herzog failed to give him any money on the order, and so only lost the price of a night's lodging, as the order was a forgery. The same young man appeared at the Central hotel Thanksgiving day and presented a San Miguel bank check in favor of George Walters and signed by Daily & Adams, for the sum of \$24, which was cashed by David Flint, and subsequently found to be a forgery. He was next heard from as passing a check on Mr. Herman. This check was made payable to Jim McLain by S. Rogers and was for \$32.50. The young man kindly took \$6 trade and the rest in cash. His next appearance was Monday evening, when he bought \$15 worth of clothing of the Lewis Shoe & Clothing company, and presented a check for \$25 made out to a fictitious party, as before, and signed by Daily & Adams, which was cashed and the change given to him.

Marshal Curtwright was then put on his trail. He found the young man at the tie preserving works and placed him behind the bars.

This afternoon he was identified by Mr. Lewis, Mr. Flint and Mr. Herman as the man who had passed the bogus checks upon them.

But it appears from later developments that he is wanted on a more serious charge than forgery, as he answers the description of the one train robber who remained at liberty, of the gang who held up the Colorado & Southern train, near Trinidad, on November 18, last, and for whom there is a reward of \$600 by the Wells-Fargo company and the railroad. Colorado officers have been wired and one of them is expected down to identify the prisoner.

THE HAIR BRUSH.

Breeds Dandruff, Which Causes Falling Hair and Finally Baldness.

Prof. Unna, Hamburg, Germany, European authority on skin diseases, says that dandruff is as contagious as any other malevolent disease, and that one common source of the spread of dandruff is the use of the same hair brush by different persons. The way to avoid catching dandruff or any other disease from another's brush, is to insist on the use of Newbro's Herpicide. It not only kills the dandruff germ, but it is also an antiseptic that will prevent the catching of any disease whatever through contagion of another's brush. Send 10 cents in stamps for sample to The Herpicide Co., Dept. "F," Detroit, Mich.

Death at Las Cruces.

A telegram was received announcing the death at Las Cruces Thursday morning of Beatrice Otero Armijo, wife of Charles Armijo. The cause of her death is unknown. She was a cousin of Governor Otero and sister-in-law to Mrs. A. M. Bergere and a niece of Mrs. J. B. Lamy. Her husband and four children survive her. Two of her daughters are married and the third is attending school in Kentucky. She had one son. The funeral was held at Las Cruces yesterday afternoon.

Professor Hewett Gone to Washington.

President E. L. Hewett, of the New Mexico Normal university of Las Vegas, accompanied by his wife, has gone to Washington where he will read three papers today before the American Association for the Advancement of Science. His papers will be "The Extinction of the Pecos Indians," "The Ancient Civilization of the Chaco Canyon" and "The Symbolism of the Pow-hog Indian Pottery Ornaments." It is learned in this city that Professor Hewett is against statehood for New Mexico, and while at Washington will do all he can to knock out the omnibus statehood bill.

Mrs. Carr has been with her mother for several days and her son, Major Clark M. Carr, arrived at Santa Fe yesterday morning from Guam, N. M. This "Paris of Latin America" is situated over six thousand feet above the level of the sea, and the heat of the lower altitudes is never experienced. Although not generally known summer is the very best of seasons to visit the Land of Mañana.

The daily afternoon rain, which lasts about thirty minutes, cools the atmosphere as to make the evenings and nights lovely.

IN NEW YORK.

How Things Appear in Gotham During These Holiday Times.

MANY INTERESTING BREVITIES.

New York, Dec. 27.—Everyone seems full of the Christmas spirit this year despite the fact that there are certain conditions which make this season's holiday contrast gloomily with that of last year. One of these conditions affects everyone, the other only a particular class. That everyone feels the effect of the scarcity of coal is only too evident. Society alone suffers by the illness and recent death of some of its most prominent members, which takes several families away from the fashionable Christmas festivities.

All of the activity this week is of a social nature. After the immense crush of holiday shopping there is always a lull in business. This year the receipts of the stores are said to have been the largest in history and millions of dollars have been spent upon Christmas gifts. Little Miss Margaret's Carnegie is probably the recipient of the most expensive present, which is in the form of a palatial Fifth Avenue mansion costing \$2,500,000.

It is gratifying to note that in the midst of so much yuletide joyousness the poor are not forgotten. Between the different newspapers and charitable organizations, it is safe to say that no family has been neglected to share the joys of the season if they could possibly be reached. Although there were over a hundred thousand poor that applied for Christmas help everyone was supplied. Private individuals and the churches too have done a great deal toward this splendid movement, so New York is not so self-

ish as it appears to many outsiders after all.

The one topic which is of sufficient interest to crop out even at Christmas time is politics. Each week brings out some new rumor regarding the mayoralty contest which is yet a year off. There is just now not a little talk of the nomination of Comptroller Grout for mayor as an independent-democratic candidate. This would probably mean a three-cornered fight as the republicans and Tammany would have tickets in the field. Tammany has already adopted its policy and practically settled upon its candidate in the person of Colonel George B. McClellan, one of the favorites of Richard Crocker. Mr. Grout would no doubt make an excellent run, but the result would be the same as in the three-cornered fight of 1897, namely the triumph of Tammany. The only way to beat Tammany is to combine all opposing elements against him, and even then it is no easy undertaking.

The republicans seem interested more in the gubernatorial candidate for president in 1904. Just now Governor Odell's friends have a plan in mind to run him for a third term, then probably for president in 1908. This is a far flight, to be sure, but the Governor's friends are taking it. It re-elected he would be the first governor in fifteen years to be so honored and the first republican governor to be re-elected in thirty-four years, while the governor of no party has attained the distinction of a third term in this state for seventy-five years.

There seems little doubt now that John B. Stanchfield will receive the democratic votes for United States senator in the legislature which opens at the beginning of the New Year. He is on the Hill-McLaurin late and not likely to be opposed. The nomination will come in the nature of a reward to Mr. Stanchfield for leading the forlorn hope in 1900 and may prove valuable to him in case senatorial election is ever held in which the democrats have a majority.

For two years New York has existed under discomfort and hardship of the subway trench throughout the length of Manhattan Island. Now that the work is approaching completion another year will finish it, work is beginning on the Brooklyn extension, and this will mean more tearing up of streets in the most congested parts of the city. Ambassador Porter upon his recent visit to this country from France expressed the situation exactly when he said that New York reminded him more of a western mining town than any city he knew of.

Pine street is undergoing the same architectural metamorphosis that has changed the appearance of Wall, Broad and Nassau streets. Several notable buildings are being erected there and the Hanover Fire Insurance Company will add an elegant structure to the list advancing the price of real estate. Wall street within the last twenty years, with the exception of the three government buildings the Assay Office, Sub-Treasury and Custom House. Broad street between Wall and Beaver is undergoing quite as complete a change. Nassau street from Wall to Park Row has also changed greatly in the past two decades, while Lower Broadway by reason of its new and towering office buildings, has been fittingly described as the "Grand Canyon of Broadway."

Among the most unique novelties which this city will boast in the near future will be a bodega. The bodega flourishes today in every European capital, although it has its origin in Spain. The name is applied to a sort of bar-room in which all the liquors are supplied from the wood. Americans

who have tested the bodega abroad have usually decided that its most attractive feature is the spectacle presented by the casks piled about the walls and other incidents of the decorations copied from the Spanish wine houses of which the bodega has become the international type, but as it will no doubt be a novelty, the bodega will probably be a success here.

One can not help noticing the great popularity of white in New York this year. The well-dressed woman wears a white cloth costume to the matinee, a white lace gown to the evening performance and a white gauze or satin to the opera. There are no more white costumes in the debutante's outfit than in her mamma's and the prevailing tint in every ball-room is ivory.

The men agree that evening dress is more expensive this winter than it has been. For this fact the soft coal is responsible. White gloves succumb after half the amount of wear they stood formerly and from white muffer to tie there is the same sad change. Men who dress every evening notice the difference in cost as well as in convenience and their eagerness for the return of the anthracite days is the keener.

Two savings banks of New York are taking steps to reduce the rate of interest paid to depositors from 4 per cent to 3½, beginning with the new year. This is due to the fact that the supply of money is not at all equal to the demand at this time.

BOYS, HELL IS FULL.

How an Actor Playing "Faust" Repaired a Mishap.

"So Faust is to be produced here next week," remarked an old-time performer the other day. "I hope the accident that marred a performance we gave many years ago out west won't happen here."

"Our company was a small one and there were no understudies. Therefore when our leading man was taken ill we had to fill his place as best we could. As luck would have it, one of our performers had taken the role in his younger days. Since then he had grown extremely bulky, however, and his appearance was hardly suited for the part that he now had to assume."

"The audience was not very critical however, and we got fairly well through the performance until the last act. You remember that in the final tableau Marguerite ascends to heaven and Faust is taken home by Mephistopheles. "The scene always made a hit with the audience in the country towns where we played. Great was our surprise, therefore, when we who were behind the scenes heard boisterous laughter when the scene was enacted. It continued for so long that we rushed to the scenes to see what was the matter."

"Then we ceased to wonder. The trap door through which Faust had to pass was small and when it was sprung the actor who was playing the role stuck in the opening. His legs were through the trap, but his head and body were above the stage level. His predicament was amusing to all but himself. Finally, however, he recovered his presence of mind."

"Boys," he cried to the audience, "Hell is full and you are safe." This impromptu pleased the audience, and when the curtain fell a minute later they left fully satisfied with the performance."—Chicago Chronicle.

A SIMPLE QUESTION.

Albuquerque People are Requested to Honestly Answer This.

Is not the word of a representative citizen of Albuquerque more convincing than the doubtful utterances of people living everywhere else in the union? Read this:

Mrs. W. C. Wood, (W. C. Wood, employed in the Santa Fe railroad shops) residence, 720 South Broadway, says: "When on a visit to Fall River, Mass., I learned that Doan's Kidney Pills had been a household necessity in that city for years. Naturally when a person has backache themselves and friends, acquaintances and relatives continually insist that a particular remedy shall be tried, you at least consent to take a course of the treatment. I used Doan's Kidney Pills and they stopped an aggravated attack of backache, only one of many which had occurred in the past. When I came west I brought with me a dozen boxes of Doan's Kidney Pills long before they were so extensively known in California, as at present. I have not the slightest hesitation in publicly stating that I know from experience as well as observation that this remedy can be absolutely depended upon in all cases of kidney complaint causing backache, lumbago or other symptoms which follow in the wake of that far too prevalent annoyance."

Just such emphatic endorsement is plentiful in Albuquerque. Call at the Alvarado Pharmacy and ask what their customers report.

brake beam and in some manner his foot slipped and he was dragged some distance over the ties. When found, an examination disclosed that his leg bone had been shattered and the fragments were protruding through the flesh. He was taken to the county hospital where Superintendent Huff has been trying to save the injured limb, but lately the injuries gave evidence that an operation would be necessary. Dr. W. D. Aldridge was called in to assist in the amputation, which was successful, though the shock has left the unfortunate boy in a critical condition and he may die any moment.

LARGE SUM OF MONEY.

A Roswell Man Saw \$6,500,000 in One Wagon.

They were talking about large sums of money around the stove at the Grand Central bar when L. D. Danenburgh said:

"About seven or eight years ago I was down in the Cherokee strip. It was at the time that the government was paying the Indians for their lands, and the money, \$6,500,000, in clean 'dinero,' was sent to Fort Gibson to pay them. The money was in sacks of silver and a number of small sacks in larger denominations and in new crisp United States bills fresh from the mint, that had never been cut apart, but were in the original sheets, about two feet square. The whole bulk of it was just about as big as one of these big mess wagons with bows and wagon sheet on. It was unloaded there like so much bacon. The silver was mostly in dollars, the bills in different denominations, none larger than \$100. The entire sum was loaded into three wagons, and accompanied by 200 brave men, was hauled over to Tallahatchie, the capital of the Cherokee nation and there paid out. But did you ever think how much money that was? Why, it was more than one man could count, a dollar at a time, in his whole life time, and almost any man would go crazy trying to count it. But almost any fellow would be willing to risk his reason, if he was to get it all, if he did count it."—Register.

dining car service of the Santa Fe
road, has opened at the Auditorium
Annex an interesting exhibit of south-
western Indian and Mexican curiosi-
ties and goods. The exhibit is the most
notable of its character ever seen in

SHOPS ARE COMPLETED.

Lantry Finish San Bernardino Job
Eleven Days Ahead of Time.

A San Bernardino dispatch, dated
December 25, says:

The contract for the construction of
the new Santa Fe shops and accesso-
ries, in this city, has been fulfilled. All
is complete as well as satisfactory,
and the representatives of Lantry &
Sons, contractors, who have had super-
vision of the work here, have turned
the entire plant over to the company
and disbanded forces.

The contract required that the work
be completed by January 1, 1903. Ele-
ven days before the allotted time found
not only all finishing touches complet-
ed, but work being done in all the ad-
ditional departments by company em-
ployees.

On the last day the contractors had
seventy-five men at work. Many of
these were local men, who will, of
course, remain here. Others have al-
ready left for Los Angeles, some will
go to China Basin, in the northern part
of the state, where Lantry & Sons are
doing contract work for the company.

while others will scatter over the coun-
try.

Thomas Frazier, who was genera,
foreman, left yesterday for Los Ange-
les and will, on Wednesday, leave for
Point Richmond. T. E. Dilg, the time-
keeper, has also gone to Los Angeles.

Kodol Dyspepsia Cure.

strengthens the stomach and digestive
organs. Cures dyspepsia, indigestion,
stomach troubles and makes rich red
blood, health and strength. Kodol re-
builds wornout tissues, purifies, stren-
gthens and sweetens the stomach. Gov.
G. W. Atkinson, of W. Va., says: I
have used a number of bottles of Kodol
and have found it to be a very effective
and, indeed, a powerful remedy for
stomach ailments. I recommend it to
my friends. J. H. O'Reilly & Co.—B.

Freight Handlers' Strike Failed.

A special from New Orleans says:
The strike of the Illinois Central rail-
road freight handlers has been declar-
ed off, and the men will go back to
work on the old conditions, but with-
out discrimination. They were receiv-
ing 16 cents an hour for a ten hour day
and 25 cents for all overtime. They
struck for 20 cents an hour for a ten
hour day, 30 cents overtime and 40
cents an hour for Sundays and holi-
days. In the contract signed the strik-
ers agree not to bring up the question
of wages for at least one year.

Had a Good Time.

A. J. Snell wanted to attend a party,
but was afraid to do so on account of
pains in his stomach, which he feared
would grow worse. He says: "I was
telling my troubles to a lady friend,
who said: 'Chamberlain's Colic, Chol-
era and Diarrhoea Remedy will put
you in condition for the party.' I
bought a bottle and take pleasure in
stating that two doses cured me and
enabled me to have a good time at the
party." Mr. Snell is a resident of Sum-
mer Hill, N. Y. This remedy is for
sale by all druggists.

BUILD NO HOTEL.

Superintendent Cain Denies Colorado
Springs Rumor.

General Superintendent D. E. Cain,
of the western division of the Santa Fe
road, states that the report to the ef-
fect that this company would erect a
\$100,000 tourist hotel in Colorado
Springs was without the least founda-
tion.

Mr. Cain was much amused when
shown a publication that the hotel
would be open early in the spring.
Other officials of the road were pos-

sitive that the Santa Fe would never
erect a hotel in that city of all cities.

"The Santa Fe has never made any
money off its hotels, what few it has,"
said one of the party. "The new hotel
at Albuquerque was built more for an
advertisement than anything else. It is
built in the Spanish mission style and
is not very extensive. The hotel at
Las Vegas has not been a very paying
proposition and a depot hotel at Colo-
rado Springs, where there are already
many hotels, is not likely to ever be
thought of by the Santa Fe road."

C. W. Lynch, prominent citizen of
Winchester, Ind., writes: "My little
boy had a severe attack of membra-
nous croup, and only got relief after
taking Foley's Honey and Tar. He got
relief after one dose and I feel that it
saved the life of my boy." Refuse sub-

apply Chamberlain's Pain Balm twice
daily; rubbing vigorously for five min-

protect it from the shoe. As a general

Coughs, Colds, and Constipation.

Few people realize when taking
cough medicine other than Foley's
Honey and Tar, that they contain
opiates which are constipating besides
being unsafe, particularly for children.
Foley's Honey and Tar contains no
opiates, is safe and sure and will not
constipate. Alvarado Pharmacy.

The Indiana railway employees will
ask the coming legislature to create a
new office, that of state train inspector.
They say that this is in line with the
inspection given to employees of fac-
tories and that the railroad men need
the protection. The duties of the of-
fice as proposed by the organizations
will be to look after cars, tracks and

...ing preparations simply as

the same period of last year.

A Million Voices.

Could hardly express the thanks of
Homer Hall, of West Point, Ia. Liten
why: A severe cold had settled
on his lungs, causing a most obstinate
cough. Several physicians said he had
consumption, but could not help him.
When all thought he was doomed he
began to use Dr. King's New Discovery
for consumption and writes: "It com-
pletely cured me and saved my life. I
now weigh 227 lbs." It's positively
guaranteed for coughs, colds and lung
troubles. Price 50c and \$1.00. Trial
bottles free at all druggists.

Superintendent F. J. Easley, of the
middle division of the Santa Fe, and
family, who have been visiting with
friends at San Marcial over Christmas,
passed through the city this morning
en route home to Newton, Kansas.

The value of time in railroad
these days was never more emphasize
d than by the announced determina-
tion of the Santa Fe to expend \$10,
000,000 to save five miles in going over
Raton Pass.

A Good Cough Medicine.

(From the Gazette, Toowoomba,
Australia.)

I find Chamberlain's Cough Remedy
is an excellent medicine. I have been
suffering from a severe cough for the
last two months, and it has effected a
cure. I have great pleasure in re-
commending it.—W. C. Wockner. This
is the opinion of one of our oldest and
most respected residents, and has been
voluntarily given in good faith that
others may try the remedy and be
benefited, as was Mr. Wockner. This
remedy is sold by all druggists.

Employees of the Buffalo, Rochester
& Pittsburgh railroad have been grant-
ed a 7 per cent increase in wages, ef-
fective December 1. The company em-
ploys about 12,000 men, almost all of
whom will benefit by the raise.

The survey of the New Mexico &
Pacific railroad from Raton to Eliza-
bethtown was completed Saturday.
The survey has been in progress for
several weeks and sixteen men were
engaged in it. Chief Engineer Turner
says the road will enter Raton from
the south.

A Cold Wave.

The forecast of sudden changes in
the weather serves notice that a hoarse
voice and a heavy cough may invade
the sanctity of health in your home.
Cautious people have a bottle of One
Minute Cough Cure always at hand.
E. H. Wise, Madison, Ga., writes: "I
am indebted to One Minute Cough
Cure for my present good health, and
probably my life." It cures coughs,
colds, LaGrippe, bronchitis, pneumonia
and all throat and lung troubles. One
Minute Cough Cure cuts the phlegm,
draws out the inflammation, heals and
soothes the mucous membranes and
strengthens the lungs. J. H. O'Reilly

The 4,700 engineers and firemen on
the Chicago, Milwaukee & St. Paul

pay of about 10 per cent. The joint
committee of locomotive engineers and

been increased since December 1, ad-
justing the wage scale, reached an
agreement with the management of the
entire system on Christmas day.

Riney. Rev. R. Richter, pastor of the
German Lutheran church, of this
city, performed the ceremony.

A Thousand Dollars' Worth of Good.
A. H. Thurnes, a well known coal
operator of Buffalo, O., writes: "I have
been afflicted with kidney and blad-
der trouble for years passing gravel or
stones with excruciating pain. I got
no relief from medicines until I began
taking Foley's Kidney Cure, then the
result was surprising. A few doses
started the brick dust like fine stones
and now I have no pain across my kid-
neys and feel like a new man. It has
done me a \$1000 worth of good." Alvar-
