CHRISTMAS GIFT

Trout, a Convict From This City, Pardoned.

ACCUSED KILLING JAPANESE GIRL

A Christmas Incident Yesterday Morning on Railroad Avenue.

OTHER LOCAL HAPPENINGS

Governor Otero's Christmas pardon gave freedom to Edward W. Trout, who was sent to the penitentiary over seven years ago from Albuquerque, under a forty year sentence, but later this sentence was cut down to thirteen years.

Trout was charged with murdering a Japanese in this city. The evidence which convicted Trout was only circumstantial, and many have always had a doubt as to his guilt. But his release was not won by any doubt or influence from outside friends. He had conducted himself as a man during his confinement. He won the confidence and high respect of the officials who recommended his discharge. Trout was a model prisoner and his many acts of kindness and gentleness while he was a prisoner have had a brightening influence on the institution.

After his pardon had been read he made an address to the prisoners. In which he told them that he would henceforth lead a straight life, and that he would prove to the governor and officials that he was deserving of the great favor granted him.

F. D. Ravencraft, a fifteen year prisoner, from Dona Ana county, for murder, was released yesterday on a cut sentence.

SAD CHRISTMAS SCENE.

"Papa Told Santa Claus to Stay Away"

Said a Little Girl.

A very pathetic incident, yet sad in its details, was enacted on Railroad avenue yesterday morning.

A little girl, scarcely 6 years of age, was walking west on Railroad avenue yesterday morning crying as if her heart would break. People on the north side of the avenue noticed the little waif peering into the store windows filled with Christmas goods, and then big tears would come to her eyes, she continuing her walk along the avenue. Just as she passed May's shoe store a good hearted gentleman known to all the old timers, came down the stairs of the adjoining building, and seeing the little girl crying, approached her.

"What are you crying for; you should not cry such a happy day as this," remarked the gentleman.

Wiping away her tears and trying to suppress her sobs, the little girl remarked:

"Papa wouldn't let Santa Claus come to my house last night," and big tears again came to the eyes of the little waif.

"Didn't you get any gifts this morning?" asked the gentleman.

"I hung up my stocking," said the little girl, "but papa told Santa Claus to stay away and there was nothing in my stocking."

Tears came to the eyes of the kind-hearted gentleman, as they have come under similar conditions to other old timers in years past, and he, on pulling from his pocket a silver dollar, gave the coin to the little girl, saying:

"Take this, and go and buy yourself some Christmas gifts."

Tears in the eyes of the little girl suddenly ceased and with a happy heart the little one trotted away full of gladness.

The name of the man who made the little heart happy is known to us all, and the father—yes he is known, but the less said about him the better. He had no money for presents. He had indulged too freely the night before.

Death at Belen.

Dr. J. F. Nikolasek, a prominent Chicago physician, died at Belen early this morning. Dr. Nikolasek came to Belen about two months ago for his health, which was thought to be slowly improving. He was taken worse last night, his suffering being relieved by an untimely death.

The deceased was a man about 40 years of age, and leaves a wife and child. He was staying at the home of Dr. Gabel. O. W. Strong & Sons have gone after the body and will bring it to this city to await instructions from the family at Chicago.

Sheriff Hubbell Has Returned.

Thomas S. Hubbell, sheriff of Bernalillo county, has returned to the city after an absence of several weeks. On

leaving Washington, where he was a statehood delegate from New Mexico, he came on to Chicago and remained a few days seeing the sights in this great western metropolis. He visited La Porte, Ind., and met Judge Crumpacker, whom he reports still a very sick man, but there are hopes that he will survive his present illness. He also visited Davenport, Iowa, and mingled a few days with the immediate relatives of his father, Hon. Santiago Hubbell, deceased. He reports having had a splendid time.

Hon. J. M. Sandoval, who was also at Washington, switched off after reaching Chicago, and went to Denver, where he secured his three children attending school there, and, with them, came on to Albuquerque. The children will return to Denver after the present holidays.

A TERRITORIAL CAPITAL.

Our Indian Boys Play the Santa Feans to a Standstill.

ANOTHER TIE GAME.

A tie game was the result of the hard fought football battle between the Santa Fe Indians and Albuquerque Indians for the championship of New Mexico, on the Santa Fe gridiron Christmas day.

The championship is still retained by the Albuquerque team, who fought a stubborn battle to maintain the highly praised championship.

The teams were evenly matched and it was difficult to determine which were the aggressors.

Albuquerque won the kick-off and Santa Fe played for goal. Everything was in favor of the Santa Fe team during the first half, but they were unable to reach Albuquerque's goal, by reason of the strong interference.

Roybal, left half of the Albuquerque team, made an end play gaining thirty yards, but was injured in the scrimmage that followed and had to be taken out. Had he not met with this accident, they would have undoubtedly scored, as Roybal is one of their star players.

The Santa Fe team got within Albuquerque's seven yard line, where the contest was waging at the end of the first half.

The vim and energy of the players did not weaken in the second half. The ball was passing back and forth, each team making small gains and holding out strongly against their opponents.

Santa Fe's team made a gain of fifty yards around the end, and the Albuquerque players were again unfortunate in the scrimmage that followed. Right Guard Brown twisted his leg and was taken from the field, and Sandoval was put into the game.

The Albuquerque team were the aggressors in the second half and they were playing fast and furious. Vigil got the ball and made a gain of about twenty yards.

The ball, by a series of plays back and forth, was carried within Albuquerque's territory. The Santa Fe players now tried a kick play but did not succeed. Making a bluff that something was wrong they threw the Albuquerque Indians off their guard just long enough to kick the ball over Albuquerque's guard line, but the Albuquerque boys were not asleep and downed the kicked ball back of their own goal, thus making a safety play, which counted for neither side. The ball was taken to the twenty-five yard line and put into play.

No big gains were made, but the playing was exciting and full of interest.

At the close of the game the ball was on Albuquerque's forty yard line. The Santa Fe team made all their gains, except one, by going through the line, but the Albuquerque line was strong enough to prevent any large gains.

Albuquerque's most effective work and largest gains were made by end plays.

Of the five games played in New Mexico this season, four were ties. The only victory of the five games was carried off by the Albuquerque Indians at Las Cruces on Thanksgiving.

The Santa Fe Indians royally entertained their visitors, while they were at Santa Fe. The Christmas dinner was a grand affair.

The sport loving element of the capital turned out in large numbers. Most of the Santa Fe people who attended the game were conveyed to and from the schools by the wagons of the institution free of charge. Rooters for Santa Fe predominated, which only made the Albuquerque boys put all their energy into the game. There was plenty of excitement and interesting plays, and the football spirit of the spectators was displayed by enthusiastic cheering.

HAGUE TRIBUNAL

Venezuela Trouble to be Settled by Arbitration.

PRESIDENT DECLINED TO ACT

Rio Grande Western Will Have New General Manager.

GEN. MILES IN CHINA

Washington, Dec. 26.—The cabinet is now in session considering the Venezuelan matter and it is understood that the question of arbitration will be referred to The Hague tribunal by agreement of all concerned.

Prior to the cabinet meeting today Senator Cullom, of Illinois, chairman of the committee on foreign relations, had an interview with the president regarding the Venezuelan situation. In fact the conference related wholly to that matter.

At the conclusion of the interview Senator Cullom said to the Associated Press representative that while he could not speak with absolute definiteness on account of the nature of the exchanges on the subject among the powers, it seemed likely now that the controversy would be referred to the arbitration of The Hague tribunal.

Referred to The Hague Tribunal.

London, Dec. 26.—Confirmation was obtained here today by the Associated Press of the announcement from Washington that the arbitration of the Venezuelan question is now assured and that the failure of acceptance by President Roosevelt of the invitations to become the arbitrator of the matters will be referred to The Hague tribunal.

President Will Not Arbitrate.

Washington, Dec. 26.—President Roosevelt will not be arbitrator of the Venezuelan troubles. The subject will be referred for adjustment to The Hague tribunal.

Epitomized, this was the situation as it had resolved itself at the conclusion of the cabinet meeting today. This meeting was not so long as meetings usually are. All the members, except Secretary Root were present. The Venezuelan question was the principal and practically the only topic of general concern under consideration.

Monroe Doctrine Ignored.

Washington, Dec. 26.—Notes received from the governments interested in the Venezuelan controversy, including Venezuela, agree to submit the question at issue to The Hague tribunal. The note is now being prepared by Secretary Hay in which this government announces its hearty approval of such a course. There appears to be no question of the fact that it is the general understanding that the Monroe doctrine is not to enter into the question of arbitration.

Accept Hague Tribunal.

Berlin, Dec. 26.—A semi-official note published today says: "As in the case of the Italian note the British and German notes on the Venezuelan question presented December 23, declare that if President Roosevelt does not accept the post of arbitrator the powers would be prepared, subject to certain reservations, to submit the matter to The Hague tribunal."

NEW MANAGER

Rio Grande Western Road to Have a New Manager.

Denver, Dec. 26.—J. M. Herbert, manager of the Rio Grande, Rio Grande Western and Rio Grande Southern railroads, has resigned and will be succeeded by J. A. Edson, present general manager of the Kansas City Southern railroad. The changes take effect on January 1.

Mr. Herbert becomes general manager and vice president of the Colorado & Southern railroad and vice president of the Fort Worth & Denver. He will be in charge of the entire department with headquarters in Denver.

This announcement was authorized by Frank Trumbull, president of the Colorado & Southern and Fort Worth companies. The office of vice president has not been filled since the resignation of B. L. Winchell two years ago. The duties which Herbert will assume have always been transacted in the office of the president and general manager. The change is made to relieve the pressure of business on President Trumbull.

Gen. Miles in China.

Peking, Dec. 26.—General Miles arrived here today on a short visit. He

will be received in audience by the imperial family and will review the Chinese troops tomorrow.

FIRE EXCITEMENT.

A Blaze in a Closet at the Golden Rule Dry Goods Company.

SERIOUS CONFLAGRATION AVERTED.

A small blaze in a closet, under the main stairway of the Grant building, in the Golden Rule Dry Goods company's store, caused quite a commotion in that well regulated establishment this morning.

The fire originated in the cotton, linen and other material used in window dressing that had been stowed away in the closet. About fifteen minutes previous to the fire the gas inspectors of the Albuquerque Gas, Electric Light & Power company, were in the closet looking at the meter, but not be positively determined.

A couple of lady customers, who were near the closet door, asked Henry Gerphide where the smoke was coming from. Henry immediately began investigating, and as he opened the closet door a cloud of smoke belched forth. He grabbed a blanket and rushed in to smother the flames, but the flames were beyond the blanket stage, and Mr. Gerphide's eyebrows, mustache and hair were singed and his face slightly burned. An alarm was sent to the fire department, who were soon on the spot with a stream playing on the burning inflammable material. The chemical extinguishers were used first, but without effect.

The fire itself did very little damage, but the smoke filled the spacious rooms, and the goods, although not in the least ruined, were scented with smoke. The best line of shoes were shelved outside the closet door, and the smoke marred the boxes, but it is not thought the shoes were injured. An overcoat belonging to one of the clerks and a few other articles were destroyed by the conflagration.

Theater Manager Crawford.

L. M. Crawford, with whom the Colombo society had trouble last year, is having trouble with theater managers in Kansas.

The Wichita Beacon says: "The 'Hello, Bill!' company, which is billed to play in the Toler Christmas afternoon and night, has arrived in Wichita and will remain here during the entire week. This company, like Stuart Robson, has been given to understand that its patronage is no longer desired by the Crawford houses, because it saw fit to book with the Toler auditorium here. Like Robson, Messrs. Kellogg and Goodhue, refused to be dictated to by the controlling spirit of the Crawford circuit, and they promptly told that gentleman so in as many words."

"Hello, Bill!" was to have appeared here on December 19, but was canceled on account of change of route. If Crawford would pay some of his debts, the newspapers of the south-west would undoubtedly feel friendly toward him and his circuit. He proved a great bluffer, while he lingered in this city a few years ago, and The Citizen has no kind words for him.

Surveying for Dam Sites.

The geological survey camp is now located at Mohave lake and Sunday or Monday next will break camp and move to Mellen, where soundings of the river will be taken and the feasibility of a dam for the irrigation of the Chemehuevi valley made. The survey corps has mapped the country up the river as far as Bull's Head rapids and a part of the corps will be removed to the country in the vicinity of Cottonwood islands, where a new camp will be established. Every canyon along the river to the mouth of the Virgin will be mapped and estimates for dam sites made. This survey will be one of the most thorough ever made in the west and will be used to demonstrate to the department at Washington the feasibility of damming the Colorado river for irrigation purposes.—Mohave County Miner.

Three Firemen Killed and Three Badly Injured by Falling Walls.

New York, Dec. 26.—A fire, which shot through five factories in the river front district of Brooklyn early this morning, badly injured three firemen and more than \$400,000 damage was done.

The dead are Michael O'Toole, Thomas Jefferies and Thomas Coppinger.

The fire broke out in the cooperage plant of Arbuckle and it was falling of walls that caused the firemen to be killed and injured.

Mullah Dead.

Peshawar, Punjab, Dec. 26.—Hadda Mullah, who caused so many outbreaks on the northwest frontier or India, died December 22.

Miners Killed.

Trinidad, Dec. 26.—A coal miner from north of Trinidad, whose identity is not yet learned, who was taken from the debris of the Colorado & Southern freight wreck last night and died a short time later, stated just before dying that there were fourteen coal miners beside himself riding in the car which was smashed to splinters. The ruins of this car are still under tons of wreckage. All in it must have perished. It is now estimated that the number of dead will reach twenty-five or thirty.

A Christmas Spree.

A drunken colored man was picked up in Old Town yesterday and thrown in the county jail. He was occupying a large space of ground in the middle of the road. The load he carried was too heavy for navigation and he had to be hauled out in the patrol wagon. He was not badly dressed, had a watch and chain, \$5 in money, a check for a neat sum, a pass for Murphy, which his name is supposed to be, and two other men. The pass was signed by B. Laughty & Sons. The helpless man also carried a large horse pistol and a razor. He will probably get his hearing in Judge Crollott's court this afternoon.

That is all that Senator Quay seeks.
Ten minutes to calling the roll would
suffice. The opposition senators have
spent hours in trying to prevent a
vote.If Oklahoma and the Indian Terri-
tory are merged into one state, the
commonwealth would be one of the
most reliably democratic in the union.
It would give at least thirty thousand
democratic majority in 1904. The In-
dian Territory is almost solidly demo-
cratic, its half-breed population being
almost exclusively southern in politi-
cal sentiment.The editor of The Citizen will be
fifty-five years old on the first day of
January, and he is somewhat proud
of the fact that Senator Dillingham
referred to him in his speech in the
senate against the admission of the
territories in the following way:
"There appeared before the commit-
tee a very bright young man. He had
been selected to represent the inter-
ests of New Mexico." If Dillingham
cannot tell an old man from a young
one he is not a competent observer
and unfit to pass upon the people's
fitness for self-government. Mr. Dil-
lingham in his speech also fell into
the pernicious habit of a political
campaign editor, and used only a portion
of a paragraph of Mr. Hughes' state-
ment, which thus mutilated was made
to reflect on a portion of the people of
this territory.

THE PIN INDUSTRY.

The manufacture of pins has be-
come such an industry in the United
States that the mills of this country
practically supply the world with this
needed article, and yet the demand is
by no means a small one, says "The
American Exporter." Pins cost only a
trifle nowadays, where they were
very expensive. In 1900 the 75,000,000
people in the United States used 66-
000,000 gross of common pins, which
is equal to 9,500,000,000 pins, or an
average of about 126 pins for every
man, woman and child in the coun-
try. This is the highest average
reached anywhere in the use of pins.
Ten years ago we used only about 72
pins each.

The total number of pins manufac-

tured in the United States during
1900, the census year, was 68,889,269
gross. There are forty-three factories
in all, with 2,353 employees. The busi-
ness has grown rapidly during the
last twenty years, for although there
were forty factories in 1880 they pro-
duced only half as much, employed
only about half the capital and only
1,077 hands. There has been a con-
siderable increase in the number of
women and children employed in pin
factories of late years, which is an
indication that the machinery is be-
ing improved and simplified.

THE STATEHOOD FIGHT.

The San Francisco Call has the fol-
lowing able article favoring statehood
for the territories:

"Statehood was promised Arizona,
New Mexico and Oklahoma by the re-
publican party. The majority report
of the senate committee on territories
denies statehood to New Mexico be-
cause a majority of the people speak
Spanish, and to Arizona, because her
mining ledges may pinch out.

"The right of self-government is a
constitutional right. The constitution
does not say that only those who
speak English have it, or that the im-
mortality of mineral ledges only can
qualify a territory for admission into
the Union.

New Mexico asked statehood fifty-
two years ago. At that time Califor-
nia had as great a preponderance of
Spanish speaking people as New Mex-
ico. That language did not keep New
Mexico out, but the slavery question.
She was south of the Missouri com-
promise line of 36 degrees 20 minutes
and therefore was slave territory, ac-
cording to the compromise of 1820.
The more timid southern statesmen
and the northern leaders of public
opinion felt that the bonds of national
union could stand no further strain
arising in discussion of the slavery
question. So California was admitted
as a free state, with all her Spanish
habits, population, practices and even
jurisprudence upon her, and New Mex-
ico was left to stew in her territorial
juice.

Then came the death and birth of
parties. The whig party wrote its
obituary and the republican party is-
sued its prospectus, and the impetus
of events was so rapidly toward civil
war that nobody had time to stop and
let down the bars to new states.

"Now all these events are behind
us. New Mexico has shown self-sup-
porting capacity. She has great re-
sources, is traversed by railways, has
a university, normal schools, high
schools, and public education is in full
headway. She has towns with every
modern adjunct of cities, and her peo-
ple are as fit now for self government
as they will be fifty years from now—
as fit as California was when she was
admitted without passing a territorial
noviate at all.

"As for Arizona, she has not only
mines, but timber, manufactures, agri-
culture, horticulture, stockraising and
a full catalogue of resources upon
which to nurture an increasing popu-
lation. Given self-government she and
New Mexico will do just what all
American communities have done
when enfranchised with statehood.
They will fill up with an American
population and go forward in develop-
ment and enlightenment.

ican spirit. Every immigrant who

ACCIDENTAL?

The jury returned a verdict of ac-
cident on the man who fell from the
window ledge on which he had fallen
asleep. But the death was really due to
carelessness which made the accident
possible. There are a great many
lives suddenly terminated as a
result of carelessness, although the
medical certificate may read "heart
failure." When a man takes
chances with his stomach and neglects
the warning symptoms of disease, he is
carelessly inviting calamity.

Dr. Pierce's Golden Medical Discovery
cures diseases of the stomach and other
organs of digestion and nutrition. It
enables the perfect digestion and assim-
ilation of food, which makes strength.
It stimulates the liver, cures biliousness,
and removes bilious impurities from the
blood.

"I had been troubled with a pain in lower
part of my stomach for three years, so severe I
thought it would kill me in time." writes
Aaron Van Dams, of (Kensington) 2549 15th St.
Chicago, Ill. "I could hardly work; I felt like
a big weight hanging on me and got so bad that
I had to take medicine. I used stomach bitters
for a time, but it did no good so I wrote to Dr.
R. V. Pierce for advice, which he gave me im-
mediately. I followed his directions; used two
bottles of his medicine and was cured. I had a
torpid liver which was troubling me instead of
cramps (as I thought), so Dr. Pierce told me
I had pleasure in living now, have gained in
weight 15 pounds since then."

stipation. They do not beget the pill
habit.

statehood and because of that aspira-
tion. With one exception the history
of new states proves the vivifying ef-
fect of self-government. When Idaho
and the Dakotas were admitted they
were backward, and that was pleaded
against them as a reason for prolong-
ing their novitiate. But there were
enlightened men, like S. S. Cox, to
deal with the matter then, who insisted
that self-government was a cure
for their backwardness, and it was.
Neither of those states has any ad-
vantages in natural resources over
New Mexico and Arizona, and yet un-
der the impulse of self-government
they have gone forward until their
surplus products are sought as a prize
in tonnage by the transportation com-
panies, and a steady stream of immi-
gration has flowed into them until
they have the stable aspect of the old-
est states.

"Let this prolonged wrangle over
Arizona and New Mexico cease. Give
them self-government with all its hon-
ors and muniments and leave them to
work out their American destiny. Ariz-
ona is the hinterland of southern Cal-
ifornia. Through that part of our state
she has access to deep water. Her de-
velopment intimately concerns us.
The good offices will be mutual. This
state wants another state on her
southeastern border. We want that
state developed up to all its possibili-
ties and its resources. Therefore Califor-
nia stands for the application of
the remaining territories of that terri-
torial principle of self-government
in which our own progress had its ra-
dix."

BENDER GROUP OF CLAIMS.

Final Entry Made by M. A. Shumard,
of New Orleans.

Tuesday, at Santa Fe, M. A. Sau-
mard, of New Orleans, La., through
Charles F. Easley, attorney in fact,
made final mineral entry No. 102 at
the local land office for the Bender
group of mining claims, consisting of
the Bates, Pallam, Cuchilla, Gold-
smith and Baby Shoe claims, in the
new placer mining district in Santa
Fe county.

These claims are located in the
San Pedro mountains and are consid-
ered valuable property.

Mr. Shumard will put in machin-
ery and do considerable development
work on the claims during the coming
year.

Feeding Many Lambs.

George H. Webster, Jr., the Carlsbad
lamb feeder, was in Roswell Tuesday
engaging shearers to shear his 6,000
lambs he is feeding at Greenfield. Mr.
Webster has 3,000 lambs and 200 hogs
which he is feeding on his model farm
below Carlsbad, making 9,000 lambs
altogether which he is fattening for
early market. He is the largest lamb
feeder in New Mexico, and is meeting
with gratifying success. He finds it
necessary to shear his lambs, as they
do not fatten well otherwise.

A Thousand Dollars' Worth of Good.
A. H. Thurnes, a well known coal
operator of Buffalo, O., writes: "I have
been afflicted with kidney and blad-
der trouble for years passing gravel or
stones with excruciating pain. I got
no relief from medicines until I began
taking Foley's Kidney Cure, then the
result was surprising. A few doses
started the brick dust like fine stones
and now I have no pain across my kid-
neys and feel like a new man. It has
done me a \$1000 worth of good." Alvarado

Two of the fat citizens of Winslow recently agreed to race 100 yards, the loser to set up a keg of that popular beverage—beer. At the appointed time a number of friends gathered to witness the event and also to celebrate at the expense of the second-best man. The hour passed by, but neither contestant appeared. Each had been seized by a panic, and one went off on a duck hunt while the other enjoyed a little celebration by himself. The friends who had gathered quietly and sadly dispersed.

QUEEN VICTORIA'S HAIR.

Its Profusion, at Her Age, Has Always Been a Wonder.

Over 80 years old, Queen Victoria yet has luxuriant hair, which has for years been a marvel. The court physician, following Prof. Unna's discovery, has treated her majesty's scalp with a germ destroying preparation, which he has always kept secret. It is now known, however, that the remedy for dandruff, the germ destroying element, is embodied in Newbro's Herpicide, the only hair preparation on the market that does destroy the dandruff germ. Without dandruff, hair will grow profusely, and falling hair will be stopped. "Destroy the cause, you remove the effect." Send 10 cents in stamps for sample to The Herpicide Co., Dept. That evening they went out to cut off some nice steak, but the deer had flown. Mrs. Harrell doesn't like to think about it and Art has just braced up his courage enough to tell how he was floored. He says it is a mean man that will steal a deer when all you have to do is to go to the outskirts of town and shoot one.

J. B. Jones showed us this week what is claimed to be one of the original copies of the Ulster County Gazette, published at Kingston, N. Y., January 4, 1800. It was originally the property of George Irwin, now of Iberia, Mo., and had been handed down for generations. Mr. Jones intends to have it framed and displayed in a conspicuous place at the Cabinet.

AT THE PENITENTIARY.

How Christmas Was Spent in the Territory's Penal Institution.

TREATED TO GOOD THINGS TO EAT.

Christmas day within the grey walls of the New Mexico penitentiary was not one of cheerfulness and coldness, as one would suppose, viewing it only from the outside. The boys in stripes received more enjoyment and pleasure on the day of cheerfulness and good will than did many a poor wanderer. Christmas is a day always looked forward to by the unfortunate men as it brightens up their dull existence and breaks the monotony of prison life.

The prisoners at the New Mexico penitentiary at Santa Fe are no exception, and the manner in which Christmas was celebrated at that institution, as seen by a Citizen reporter, is related below.

The holiday brings with it suspension of work. The breakfast, which opened the pleasant program of the day, consisted of pork chops, chili sauce, French fried potatoes, oatmeal and coffee. After breakfast, they spent the morning in their cells, resting up and preparing for the feast at noon. Seated at two long tables in the cell room, over 200 men, appearing the same, yet all different, were served their Christmas dinner. Baked turkey with dressing was the first dish served, then followed mashed potatoes, brown gravy, stewed tomatoes, cranberry sauce and mince and cherry pie. A change from the ordinary daily fare to one that even a good many in fortunate circumstances would enjoy, could only be appreciated by a man in stripes. Cigars and candy were distributed lavishly and to say that these gifts were enjoyed is to put it mildly.

The greatest event of the day, not alone to the inmates but to many outsiders, was the Christmas entertainment which began at 2 o'clock and occupied the remainder of the afternoon. Superintendent H. O. Bursum, Assistant Superintendent W. E. Martin and Chief Clerk W. D. Newton were busy receiving visitors and putting forth their best efforts that the prisoners might enjoy themselves.

The entertaining talent of the boys in stripes was indeed a surprise to one who does not often have an opportunity of associating with the men shut off from the world. The most touching feature of the program was the closing number, which was a full pardon granted to one of the deserving prisoners. Every holiday gives one of these striped boys his freedom. This day brought freedom to Edward W. Trout sent up from Bernalillo county for forty years on the charge of murder. The scene which followed Trout's pardon was full of pathos. The man was overcome by emotion, but when he did speak, it was a heart to heart talk with his associates. Reminding them what good conduct and being a man would do for a man, even if his case seemed hopeless, he was profuse in his thanks to the superintendent, his assistants and Governor Otero. Trout had served seven and a half years of his sentence and was pardoned for excellent reputation, mainly conduct, which had received the praise of all the officials. Trout took a prominent part in the program. He is a fine musician, and rendered appreciative music on the banjo and guitar made by himself since his confinement. His medley on bottles was another number of special mention. Vocal and instrumental music that would be difficult to be beaten by men, who devote their time to entertaining, was greatly in evidence. Several Christmas orations and addresses were delivered by bright and apparently educated prisoners.

INDIGESTION

Is the cause of more discomfort than any other ailment. If you eat the things that you want and that are good for you, you are distressed. Acker's Dyspepsia Tablets will make your digestion perfect and prevent dyspepsia and its attendant disagreeable symptoms. You can safely eat anything at any time, if you take one of these tablets afterward. Sold by all druggists under a positive guarantee. 25 cents. Money refunded if you are not satisfied. Send to us for a free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Reilly & Co. and B. H. Briggs & Co.

were the coon songs by Roy Davis, a young negro. The negro quartet also held a prominent place. "Absence Makes the Heart Grow Fonder," the closing song, made a decided impression on the audience, and a more noticeable impression on the inmates. It was an interesting study to watch the expression on the faces of the old men, some marked by disfigurement, others bearing marks of trouble which a life of wrong doing brings. The middle aged and young men plainly displayed the effect this song had upon them.

The program contained many comic songs and humorous incidents which seemed to lift the fallen men out of their disheartening environments and placed them in a new world. Great interest is displayed by the prisoners in these entertainments and its brightening effect is very noticeable.

The gallery above the chapel, in which the prisoners convened, was filled with interested spectators, many of whom were relatives or friends of the prisoners. Governor Otero, Solomon Luna and many other prominent men were present at the Christmas demonstrations.

A Million Voices.

Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for consumption and writes: "It completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for coughs, colds and lung troubles. Price 50c and \$1.00. Trial bottles free at all druggists.

WHAT THEY NEED:

An Old Mine Operator Writes a Few Lines About Southern New Mexico. Special Correspondence.

Lordsburg, N. M., Dec. 24.—Silver City needs a new smelter very badly. There is plenty of good ore near Silver City. It is a great sanitarium—one of the best health resorts in New Mexico. Deming has not gained by the completion of El Paso & Southwestern railroad, but that road boomed Deming the past year.

Lordsburg is about the same as usual.

Five strong companies are working the mines at Shakespeare in the Virginia district, five miles south of Lordsburg.

The concentrator is to be sold on January 15, 1903, by B. M. Berkeley, of El Paso, and is a desirable property.

Stein's Pass, twenty miles west, is showing up well.

William Morris sold the old Beck mine, receiving \$5,000 cash, December 20, for it.

Stein's Pass is a good point for a smelter, as good if not better, than Deming. So is Lordsburg.

The Chiricahuas are full of prospectors, next to Douglas and Tombstone. All these ranges, the Mogollons, Burros, Gold Hills, Stein's Peak range, Leftendorf Hills in New Mexico, and Chiricahuas, Pinalenos, Galinas, Dragons and Dos Cabezas in southeastern Arizona are full of the precious metals and copper, lead and iron destined to be the "treasure house of the southwest."

"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, December 1, 1901." Ballard's Horehound Syrup would have saved him. 25c, 50c and \$1.00 at Cosmopolitan Pharmacy B. Ruppe.

POLICE COURT.

The sporting bloods around the Midway on North Third street celebrated Christmas day by loading up on oil of joy and punching up "a stranger in a strange land." Their celebrations did not stop on the Midway, but Justice Crawford had another celebration this morning of an entirely different nature. Their generous spirit was taken advantage of and \$15 was placed in the police vaults.

A vagrant, with bad feet, a bad face and in fact a bad looking man, was sent over for ten days.

NEW MEXICO.

[G. Cathcart Bronson.]

We're going to be a state, I say! And trust not one will vote us nay. We ask a place among the stars That glow amid the blue and bars Of our dear flag, beneath whose wave Our sons have battled, true and brave; And from whose graves doth reverberate, "New Mexico shall be a state!"

Our mountain peaks all proudly lift Their hoary heads from snowy rift, And ask in their majestic pride, That "statehood may not be denied."

Our ruby plain bespeaks the breeze— An anthem soundeth from the trees— Our emerald rivers scintillate, "New Mexico shall be a state!"

Strong in our numbers, true and tried,

In wealth and enterprise beside; And health, the greatest gift of God, Exhaleth freely from our soil. Yes, we have earned the right to be A part of your community! We must not, shall not, be denied, The consummation of our pride.

Not after while, but now, we ask, (And we are equal to the task) To stand with our fair sisters, all, And with them rise or nobly fall! Our star of statehood gilds the east; Prepare, my people, for the feast; Let every hut and villa glow With peace and plenty's generous flow.

Come, rally round our worthy cause, New Mexico rings her applause! Come, Roosevelt brave, and add your seal; Nor lend your veto to repeal. E'er senate's session terminate, "New Mexico shall be a state!"

A Good Cough Medicine. (From the Gazette, Toowoomba, Australia.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockner. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

WILLIAMS' POSTMASTER.

He is in a Bad Fix Physically—Suffering With Paralysis.

E. H. Simpson, whose health for some time has been failing, left last Thursday for Phoenix. He had scarcely arrived when he was attacked with paralysis. Fortunately Sheriff Johnson happened to be in Phoenix at the time and he immediately started north with Mr. Simpson in his charge, arriving Sunday evening. It was found necessary to carry the sick man from the train to his home and grave fears were entertained that he would not survive the night. By careful attendance he is slowly rallying and his friends hope to see him around again.

Mr. Simpson has been postmaster for several years and as it will be necessary as soon as he is able to travel to go south, his bondsmen have had J. E. De Doser appointed to act in his stead in the office.—Williams News.

For three years I suffered untold agony from the forms of indigestion, waterbrash, stomach and bowel dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 pounds." For indigestion, loss of appetite, stomach, liver and kidney troubles Electric Bitters are a positive, guaranteed cure. ADVERTISE IN THE DAILY CITIZEN

GALLUP.

From the Republican.

C. L. Kuchenbecker left for California on a business trip.

A water service man by the name of Kelly was taken with an epileptic fit Thursday night.

Will Beddow, who has been in Los Angeles for the past four months, has returned home to spend the holidays.

Hon. Gus Muleolland and his son, Bernard, left for the Dawson country, where they are engaged in sinking wells for the Rock Island.

Navajo Tom, who works for the Calcedonian store, lost his hogan Tuesday night by fire and had to come into town through the snow in his pajamas. No insurance.

The Buchanan brothers and L. L. Henry made a trip to Ramah in the early part of the week on law business. They found plenty of snow in the mountains.

Mr. Woodgate, who was formerly in business two miles west of here, will open a trading store at the new Indian mission to be established on the J. B. Smith ranch.

A string of empty box cars got away from the switchmen at the Otero mine on Tuesday and tore down the chute and one bent of the tipples. The damage was repaired and the mine is working.

Colonel Pringle and C. V. Imeson returned from Zuni on Thursday. They spent a week in surveying a location for the new school building and the reservoir for which an appropriation of \$65,000 has been made.

A San Juan freighter's team became frightened by a locomotive last Thursday and knocked down a signpost in front of Hodgson Brothers' store. One end of the sign board struck the show window, making several dollars damage for the freighter to pay.

COUGHS AND COLDS IN CHILDREN

Recommendation of a Well Known Chicago Physician.

I use and prescribe Chamberlain's Cough Remedy for almost all obstinate constricted coughs, with direct results. I prescribe it to children of all ages. Am glad to recommend it to all in need and seeking relief from colds and coughs and bronchial affections. It is non-narcotic and safe in the hands of the most unprofessional. A universal panacea for all mankind.—Mrs. Mary R. Melendy, M. D. Ph. D., Chicago, Ill. This remedy is for sale by all druggists.

ROSWELL.

From the Register.

Mrs. E. H. Skipwith and little daughter, Rebecca, and son, John, have been quite sick with grip and bronchitis.

Percy Hagerman left for his home at Colorado Springs, Colo., after spending two or three days with his parents, Mr. and Mrs. J. J. Hagerman, at South Spring.

The case of the Territory vs. J. E. Miller, charged with passing a bogus check on George O'Conner for \$200, was called before Judge Lea. Miller waived examination and was bound over to the grand jury under \$350 bond.

Last week there was much complaint among the parents of the children attending the public schools that the rooms were kept too warm, and when the children left the building, they took severe colds. The matter was brought to the attention of the janitor and it is now believed the temperature in the rooms will hereafter be regulated properly.

W. T. Jones, the carpenter who went to Denver last week to see about manufacturing and marketing his patented carpenter's apron, returned Friday. While at Denver Mr. Jones made a contract with the Underhill Manufacturing company to place his patent upon the market. They are to manufacture and sell the apron and pay Mr. Jones a nice little royalty upon each one made. From the high praise of the apron by those who have examined it the prospects are that Mr. Jones will receive a handsome income from his royalties.

Carpenters have been at work for more than a week past making the alterations and improvements at the postoffice preparatory to putting in the new fixtures which should arrive very soon. A new floor has been put down, three windows and a door put in the south side of the building, the room enlarged at the rear by cutting off a portion of the Masonic temple hallway, and the rear door closed up. The new fixtures, including the combination lock boxes, will be a great addition to the postoffice and make it one of the most modern in the territory.

This "Paris of Latin America" is situated over six thousand feet above the level of the sea, and the heat of the lower altitudes is never experienced. Although not generally known summer is the very best of seasons to visit the Land of Mañana.

The daily afternoon rain, which lasts about thirty minutes, cools the atmosphere as to make the evenings and nights lovely.

Between the music, the flowers and the pretty customs of our Mexican neighbors; between the beautiful nights, and balmy mornings, and the cooling sea breezes of day, one becomes so entranced with the beauty of this country as to never forget his trip under "The White Umbrella."

LOCOMOTIVE BOILER EXPLOSION

Graphic Account of Accident in Which
Engineer and Fireman Were
Killed.

At the time of the locomotive boiler explosion, on the Santa Fe Pacific, a short time ago, The Citizen only published a brief account. The following graphic account of the fatal explosion, in which two lives were lost and a borrowed engine completely wrecked, is clipped from the Mohave County Miner:

The explosion of the locomotive boiler at Nelson siding, last Saturday a week, was one of the most horrible affairs that has occurred on the Santa Fe Pacific railroad since the Franconia wreck. The train left Needles as second No. 8, having a consignment of Chinese silks for the New York Christmas market. The train was being run on passenger time and was going into Nelson at about twenty-five miles per hour. The engineer had just whistled for the station when the explosion came. The train men were thrown from their seats by the sudden stoppage of the train after the explosion, but as soon as possible they made a search for the engineer and fireman.

The body of the engineer, Thomas Martin, was found hanging over the frame of the engine, the heavy steel cap pressing down on the arms where the terrible heat of the furnace made it almost impossible to extricate it. With heavy bars they went to work and pried the cap up and removed the body. Sometime after the body of Fireman Geo. Van Atta was found on top of the oil tank in the tender. It was terribly broken up and appeared to have received the full force of the explosion. The boiler itself had been torn out by the force of the explosion and the engine and two cars had run onto the ground. The crown sheet of the boiler was found wrapped around the trucks of one of the cars. The locomotive was one of the new Salt Lake engines, which the Santa Fe had borrowed, and no reason has yet been assigned for the bursting of the boiler.

Van Atta's parents reside in Michigan, while Martin leaves a wife and three children in Needles.

Foley's Honey and Tar positively cures all throat and lung diseases. Refuse substitutes. Alvarado Pharmacy.

MORE ROUTES SUGGESTED.

Several Alleged Santa Fe Plans for a Texas Short Line.

A Fort Worth dispatch contains a new crop of alleged Santa Fe plans for Texas. A denial of the plans will likely come next. The Fort Worth report is that there is more in the projected building of the Gulf, Colorado & Santa Fe extension from Lampasas to Santa Saba, a distance of forty miles. It is said on what appears to be good

authority, continues the dispatch, that the Santa Fe contemplates the further extension of that branch from San Saba to El Paso, passing through Fort McKavett, in Menard county, from which point it is to pass the Pecos valley from a northwesterly direction. At Pecos the road is to intercept the Texas & Pacific, and from that place practically parallel the Texas & Pacific to El Paso, or make a traffic arrangement with the latter road for a joint service from Pecos to El Paso, such as is now used by the Southern Pacific and the Texas & Pacific from Sierra Blanca to El Paso.

Such a connection at El Paso would give the Santa Fe a shorter line by several hundred miles to San Francisco than it now enjoys, it being necessary now to route traffic that is bound from Galveston to the Orient via San Francisco over that route entirely via Newton, Kas.; Trinidad, Colo., and Albuquerque, N. M., a distance of 2,668 miles.

The new route to Galveston to San Francisco would be about 2,200 miles, thus enabling it to better compete with the Southern Pacific, which has a mileage of 2,184.

If this rumor materializes there is scarcely a doubt but that the Santa Fe will buy the Texas Central, which now runs from Waco to Stamford, and build on to Albuquerque, where it will connect with the main line of the Santa Fe system.

The report of the extension will occasion much surprise, stating as it does, that the Santa Fe is contemplating building southwest from Lampasas; thence northwest to El Paso, half circling San Angelo, which is now the terminus of the San Angelo branch. It has always been believed in Texas railroad circles that if the Santa Fe built to El Paso it would be from San Angelo. This latter route has been surveyed but the grade was found to be entirely too heavy, while the route via San Saba would be much more uniform and would require less gradings.

The route up the Pecos valley would be more level than would be found along the mountainous country near San Angelo and between that point and there is also to be taken into account the proposed construction of the Frisco from Brownwood south and the invasion of the Houston & Texas Central of a territory which has heretofore paid tribute to the Santa Fe. It is learned this is having considerable weight with the Santa Fe officials in the selection of a route.

Don't be imposed upon by taking substitutes offered for Foley's Honey and Tar. Alvarado Pharmacy.

Clemente Rivera, a laborer in the extra gang at Siam, fell off the hand car while it was in motion and had his left arm cut off. He was taken to the

Needles hospital and received treatment from the surgeon, Dr. W. F. Freeman, after which he was sent to the hospital at Los Angeles.

What's in a Name?
Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. J. H. O'Reilly & Co.—B. H. Briggs & Co.

The Santa Fe is certainly running against hard luck with its passenger trains lately. With storms or wrecks almost daily occurrences it is a very strange thing to see a train come in on time.

Q.—Did it get severe?
A.—Very. The first notice I had was when I was rejected by an insurance company. Later I became very weak and suffered greatly.

Q.—Who told you of the Fulton Compound?
A.—Editor Englebert of the German paper. It had cured him of Bright's Disease.
Q.—How soon did you begin to improve?
A.—A few weeks. I knew I'd get well.
Q.—Did you again apply for insurance?
A.—I did, soon as I was well.
Q.—In the same company?
A.—Yes; the Northwestern of Minneapolis.
Q.—Did they accept you?
A.—They did. The policy is No. 35,655, and is for \$10,000.
Q.—Have you any test made since?
A.—Yes. Leipsitz made an analysis, reporting normal, neither albumin or sugar. The cure is permanent.
Q.—Know of any other cures?
A.—Yes. My sister-in-law was cured of Bright's Disease after being given up by three physicians. (He gave us her address.)

The postoffice cat, which had been missing for four days, was discovered this morning on the roof of the Crockett building, in a rather hungry condition. It is presumed that pussy climbed a telephone pole and got on the roof, but when it wanted to come down it could not solve the problem.

The dance at Rosenthal hall furnished its usual scrap. Two gay swains being enamored of the same fair damsel, resorted to flattery to settle their differences on the ball room floor. The police were called in and used their clubs pretty fiercely before they were successful in quelling the exuberant spirits of the gay lotharios. As usual John Barleycorn played a prominent role in the riot.

H. E. Blake will go out to the country as soon as winter is past to take charge of hustling along the delivery of the lumber for the mill of the Las Vegas Copper company at Tecolote. The company is anxious to push the work of erection as fast as possible, and it is imperative that the heavy material for engine bases, etc., be on the ground the first week of January.

INDIAN SCHOOL NOTES.

Christmas passed off very nicely at our little colony. The entertainment and Christmas tree were a decided success. The cantata given by the pupils of Miss Young's and Mrs. Cook's rooms deserves special mention. Some of the Indians fresh from the reservation were wild with delight when they saw the tree all loaded with presents and decorations.

In the afternoon our second team of foot ball played a game with the boys from the city and the school team won by 2 to 0. Then followed a game of basket ball, by the girls, which was very interesting and was witnessed by a number of spectators from the city.

Our first team of foot ball played the Santa Fe Indian school team at Santa Fe and after a very hard fought game and our boys making safety the game was decided to be a tie. So our boys are champions of the territory, as they have one game to their credit this season and the Santa Fe team has not won one game, but has had three tie games.

The superintendent and seven of our teachers went to Isleta today to attend a noted Indian dance which is in progress at that pueblo.

LOCAL HAPPENINGS.

Mrs. G. W. Parks and family have returned from Ocean Park, Cal., where they have been visiting the past few months.

Twenty hungry newsboys partook of a sumptuous Christmas dinner at Graham Bros. cafe yesterday. The dinner was duly appreciated.

Col. R. H. Greenleaf and several other wild turkey hunters of the city are arranging to leave in a few days for the mountains. The colonel says he knows where about seventy-five wild turkeys make their nightly roost, and he proposes to have a few of the best gobblers in the next few days.

The Sunday school of the German Lutheran church held Christmas exercises at the church last night. An appropriate and interesting program, composed of recitations and songs, was rendered. The tree was stripped of its fruits and gladness and the children were made happy by receiving presents. The church was well crowded.

Charles H. Cramer, of the engineers' grievance committee on the coast lines of the Santa Fe, passed through the city this morning on his way to Topeka and Chicago, where he goes for the purpose of holding conferences with the higher officials of the road. A rumor was in circulation here a short time ago that the health of Mr. Cramer had been somewhat impaired. He stated this morning that he never felt better in his life.

Wallace Bowie, son of Hon. Alex Bowie of Gallup, passed through the city last night en route home from Terre Haute, Ind., where he is attending college. He is just home for the holidays and will return to school after New Years. He is taking a mechanical engineering course and will finish this year. Wallace has a large number of friends in Albuquerque that would be glad to see the young man before he returns east.

The Non-Sectarian Benevolent society desire to thank the school children for donations secured from them, also for the toys and children's books. These have all been given to children not so favored as you are. We also thank the different ones for donations of money and clothes, flour, poultry and one ton of coal from Mr. Beaven; also the daily papers. We thank one and all, and wish you a happy New Year. Mrs. J. W. Edwards, president; Mrs. D. H. Carns, secretary.

The many Albuquerque friends of Mr. and Mrs. W. A. Parr, who resided here a few months of last year, but now of Winslow, will be sorry to learn of the lady's death. Mrs. Parr had been in poor health for a number of years, but it has only been a few weeks since she was taken seriously ill. Mr. Parr is a well known contractor and quite popular in political circles of Arizona. He was elected a member of the lower house of the Arizona legislature at the November general election.

A large and appreciative crowd of spectators turned out to see the picture play given by the C. J. C. class of the Lead Avenue Methodist church Sunday school at the Armijo building on West Lead Avenue last night. The program consisted of a fine collection of stereopticon views and some choice selections from the records of a gramophone. Probably the most noteworthy entertaining feature of the evening was the reproduction of the eruption of Mount Pelee. A neat sum was taken in by the boys. The same program is being repeated at the same hall this afternoon.

PLAGUE CHECKED.

Dreaded Bubonic Disease Put Under Control by Authorities of Guaymas.

A special dispatch to the Denver News from Nogales, Arizona, dated December 23, says:

Reports of bubonic plague at points down the west coast of Mexico having reached the United States and causing much alarm in places exposed to contagion by their commercial connections.

From Gov. Rafael Isabel, chief executive of the state of Sonora, and Dr. Favala, special medical officer of the republic detailed to study the disease, your correspondent has received the following information:

"There is without doubt a contagion at Mazatlan which has some of the symptoms of bubonic fever. Up to this time there have been nine deaths on Monday, seven Sunday and one Saturday. At that point every effort is being made by the authorities to stamp out the contagion. The town is being cleaned and renovated thoroughly. All cases of illness of whatever nature are immediately isolated. At this point (Guaymas) every possible precaution is being taken to prevent the disease reaching here. All communication with the port down the coast has been suspended and boats coming up have been turned back. One steamer, which arrived Sunday, has been put into quarantine, and no communication with the passengers or crew permitted. A force of 300 men and 100 carts has been employed cleaning up the town. A rigid house-to-house medical inspection has been inaugurated and preparations made to immediately isolate any case of contagion."

Governor Isabel requests the statement that the state and federal officials are taking exaggerated precautions to prevent contagion here and that should any case occur he will immediately give official notice to the authorities and public of the United States. The people and authorities at Guaymas are not at all alarmed, and have no fear of the contagion.
