"BUFFALO BILL"

Announces That He Will Retire From Show Business.

ARE SENDING PRESENTS ABROAD

Anniversary of Death of the Prince Consort Will Pass Without Services.

CANADIAN HOCKEY LEAGUE

New York, Dec. 13.—Col. W. F. Cody (Buffalo Bill) declared today just prior to his departure for Europe that his show, the "Wild West," had appeared in this country for the last time. Col. Cody plans to spend the next two years in a European tour with his show. When he returns to this country he will devote his time exclusively to his business interests.

PRESENTS GOING ABROAD.

Americans Remembering Relatives and Friends in Foreign Countries.

New York, Dec. 13.—The outgoing steamships bound for Europe today carry the first big lot of Christmas mail sent abroad this year. The existing prosperity throughout the land is evidenced by the unusual volume of the foreign mail. Steamship officers declare that never in their experience have the foreign pouches been so numerous and so bulky thus early in the holiday season. Extra mail clerks have been put on all the big steamships carrying the mails, but the postoffice officials are much worried over the prospect for next week when it is expected the department will be literally swamped beneath its heavy burden.

The money order offices throughout the country report that in regards to the foreign business all records are going by the board this year. It is difficult to estimate the aggregate amount of money that the foreign born residents of the United States send to their friends and relatives at home during the Christmas season, but it is safe to assert that the amount this year is away and beyond the average. The most of the cash presents are destined to brighten up the old homes in Scandinavia and in Ireland, though large sums also find their way to Germany, Holland, France, Austria, Belgium and other countries of Europe.

PRINCE CONSORT.

There Will Be No Services in His Memory Tomorrow.

London, Dec. 13.—For the first time in many years December 14 will pass this year without the holding of the elaborate services in memory of the Prince Consort on the anniversary of his death. During the life time of the late Queen Victoria the anniversary of the death of her husband was always marked by impressive services held in the Frogmore mausoleum, near Windsor castle.

The queen would attend these services in person and moreover insisted that the Prince of Wales and other members of the family should be present.

It was customary on these occasions to have an elaborate musical service furnished by the choir of St. George's chapel and directed by Sir Walter Parratt.

King Edward, though the love he bears for his father is well known, has taken his customary practical view of the matter and decided that the time has come to abandon the observance. In future memorial exercises for the Prince Consort and also for Princess Alice, whose death occurred on the same date, will be held in conjunction with the anniversary service for Queen Victoria.

Canadian Hockey.

Montreal, Quebec, Dec. 13.—In amateur athletic circles much interest is manifested in the annual meeting of the Canadian Amateur Hockey league in session today at the Windsor hotel. The principal features of business for discussion are the Stanley cup challenge, and the admission of the Cornwall Hockey club into the league. The challenge of the Winnipeg Victorias' club to play the Montreal team for possession of the coveted trophy is expected to cause a prolonged argument, and the outcome is doubtful.

AMATEUR WORK.

Prizes Offered by Eastern Magazines for Views and Scenes.

Amateur photography is becoming the popular fad, and the west is get-

ting a large share of the credit derived from its source. It is becoming so popular that the leading magazines of the country find it important to give to it a goodly part of space and offer prizes to encourage it. There is no better place, nor has the amateur a larger field to work in, than in Arizona and New Mexico. The country is rough and varying, and offers excellent practice in landscapes. In a recent international prize contest, F. W. Sisson, general manager of the Arizona Lumber company, has secured the first prize. As the number competing in this contest was very large and exhibits were sent in from all over the country, the honor received by Mr. Sisson, in securing the first prize, is quite acceptable. The landscape tendered by Mr. Sisson and which secured for him the prize, was taken south of the city of Flagstaff along the line of the Arizona Central railroad, which is owned by Mr. Sisson's company.

Attention Elks.

All Elks are hereby notified that there will be a meeting of their order at their hall tonight at 8 o'clock. All are urged to be present.

BASKET BALL.

Two Interesting Games Played at Colombo Hall Last Night.

VICTORS AND LOSERS.

The lovers of good, clean sport were afforded an opportunity of witnessing basket ball in various degrees, from systematic team work to fast and vicious playing, at Colombo hall last night.

The first honors were carried off by the High school girls, who proved to be more skilled in the art than the University.

But the honors between the two institutions were held equal by the University boys defeating the Minors.

At 8:15 the girls began the evening of spirited sport, by playing the first match.

Ralph Goodwin was referee and J. W. Travis and Tom Keleher were umpires for both games.

The line up of the young ladies was as follows:

High School—Miss Harsch, l. g.; Miss Finch, r. g.; Miss Huntzinger, c.; Miss Vaughn, l. f.; Miss Bassett, r. f. University—Miss Mordy, l. f.; Miss Jones, r. f.; Miss K. Cunningham, c.; Miss Houghton, l. g.; Miss Jessie Mordy, l. g.

The University girls made a brilliant start, Miss Cunningham throwing a goal at the end of four minutes play. But the High school girls were soon the aggressors and everything was in their favor. The team work of the High school won the admiration of the audience, who appreciate skilled playing. Miss Ada Vaughn was a favorite, and she displayed a rare presence of mind in several difficult plays. Four goals from the field and one on a foul was her support in the victory. Miss Eliza Bassett threw two field goals, that showed the individual playing was good. The guarding and good throwing of Misses Harsch and Finch won the hearts of many. These two are star players and they certainly can do fast and effective work. Miss Rose Huntzinger as center did excellent work.

The University girls put up an excellent game, but the High school girls handled the ball with ease and agility, demonstrating superiority. But the University are to be commended on their good showing in their first game. Misses Jones and Houghton were ever on the alert and kept their guards busy. The playing of Miss Cunningham was very clever, and she certainly deserves praise for her excellent work. The contest ended in favor of the High school girls by a score of 13 to 3.

The University boys and Minors gave an imitation of football, played by rules that do not exist. After the carnage was over, it was discovered that in some unknown manner a score of 8 to 3 in favor of the University resulted.

The players on both teams are skilled in basket ball, but the foot ball spirit had been cultivated and was in evidence all the way through the game.

A ball fight could not have aroused the feelings of the spectators more than did this battle.

From the very beginning it was fast and furious and only once during the entire game was there any evidence of team work. The ball was thrown with cannon ball speed from one end of the room to the other. But fouls being numerous, many opportunities were given each side to score on a foul.

The spectators in general appreciate

STATEHOOD BILL

New Mexico Delegates Wire Their Conclusions.

ROOSEVELT AGAINST STATEHOOD

National Honor Will Pay Tribute to Senator Sewell in February.

ANNUAL MEETING BANKING COMPANY

Special to The Citizen.
Washington, D. C., Dec. 12.—Arrived all right. The flight is warm on statehood. Friends are hopeful.

THOS. HUGHES.

Conditions Favorable.

Special to The Citizen.
Washington, D. C., Dec. 12.—The conditions on statehood bill are very favorable. Have a good majority to pass it. The question is to get it to a vote.

FRANK A. HUBBELL.

CALLED ON PRESIDENT.

Delegate Rodey and Others See President Roosevelt.

Washington, Dec. 13.—Delegate B. S. Rodey, of New Mexico, headed a delegation of prominent men of the territory, who called upon the president today to urge him to use his influence to secure the passage through the senate of the omnibus statehood bill. Members of the delegation presented strong arguments in support of their request. The president frankly informed the delegation that he was not particularly favorable to the admission of Arizona and New Mexico to statehood at this time and is understood to have expressed some doubt whether admission could be passed at the present session of congress.

MONEY STRINGENCY.

Wall Street Must Tide Over Present Case Without Help.

Washington, Dec. 13.—Secretary Shaw declines to say anything for publication as to the attitude of the treasury department in regard to the present money stringency in New York. There is reason to believe, however, that no action whatever is contemplated now or at any time in the near future and certainly not as long as the interests involved are not extended to substantial business operations of the country outside of its present limited area. It is understood the department takes the position that the government is not involved in the present situation and that Wall street must rely upon its own resources to tide over the present stringency. At this time the treasury has no available cash on hand above a moderate working balance appropriating \$58,000,000 and it is not its present purpose to further reduce this sum by making additional deposits in national bank depositories or otherwise.

NATIONAL HOUSE.

Tribute Day Set for Sunday, Feb. 8—Appropriation Bills.

Washington, Dec. 13.—The house today adopted the resolution providing for the session on Sunday, February 8, for paying tribute to the memory of the late Senator Sewell, of New Jersey. The house then went into committee of the whole on a bill denoted upon the consideration of legislative, executive and judicial appropriation bill. Debate was limited to ten minutes. This was largely consumed by Mr. Bingham, of Pennsylvania, in charge of the measure, in a general explanation of its provisions. The number of additional salaries created by the bill, he said, was 256.

POLICE COURT.

Fighting Case Continued—Bound Over to Grand Jury—Other Cases.

A case of flying bricks was before Judge Crawford's court this morning. Francisco Chavez, and one Ward, rustlers at the freight depot, got mixed up in a bracket contest at the freight depot the other night. Ward and the brick came in contact, and consequently he was not able to appear this morning. Chavez was on hand but as his contestant is yet under the influence of the brick, the case was continued until Monday morning.

Louis Candelari, charged with assault with intent to kill, was bound over to the grand jury under a bond of \$250. Candelari is charged with drawing a knife on Mrs. J. M. Martin, who called upon him to collect a debt. All the witnesses were present this morning

ing to testify, but as the prisoner pleaded guilty, the case was not heard.

Stony Ball, a gentleman of color, was before the judge this morning, charged with abusing his wife. As this was the second time he had been arrested on the same charge he pleaded guilty and received thirty days in the county jail. It was another case of "Open dat door and let me in." Being refused admittance, the door was kicked in, and the family troubles began.

"Bring them in Joe, and we will grind," said the marshal at this stage of the performance, giving the impression that the jail was filled with policy holders of the police endowment fund. Two common drunks accompanied by H. J. Gould were run into the arena. After the roll call, followed by expressions of regret, the judge gave the drunks five days of time, as they had none of the necessary to pay for their good time.

Then came the two-act comedy drama of H. J. Gould, which is related in another column.

International Banking Company.

New York, Dec. 13.—The annual meeting of the stockholders of the International Banking corporation for the election of directors takes place today at Bridgeport, Conn. It is likely that a large number of the Equitable Life Assurance directors will retire, they having sold practically all their stock to interests identified with the Metropolitan Life Insurance company and the Travelers' Life Insurance company. However, the Equitable company will continue to be represented on the board of the International. Valentine P. Snyder, president of the Western National bank, will be among those who will sever their connection with the International Banking corporation. The authorized capital stock of the company is \$5,000,000, and it has a surplus of \$5,000,000.

TWO BIG SUBSCRIBERS.

O. E. Cromwell Gives \$2,000 and Joseph J. Henry \$1,000.

RUSTLING COMMITTEE HAPPY.

Although it was raining this morning, Mayor Myers and a number of business men were around doing missionary work in the interest of the Albuquerque Eastern railroad proposition, and of course secured some subscriptions.

They are all happy, and the funds secured on the subscription papers, amount to almost enough for the purposes intended.

Mayor Myers is in receipt of the following self-explanatory telegrams:

Hon. C. F. Myers, Albuquerque, N. M.:
Washington, D. C., Dec. 12.—You can put me down for two thousand dollars.

OLIVER E. CROMWELL.
Hon. C. F. Myers, Mayor, Albuquerque, N. M.:
Washington, D. C., Dec. 12.—Letter received. Our directors have authorized me to subscribe one thousand dollars. We wish you every success.

JOSEPH J. HENRY.
Mr. Henry is the president of the Albuquerque Gas, Electric Light & Power company, while Mr. Cromwell is the owner of the Albuquerque street railway and valuable real estate in the city.

THE HILLSBORO ROBBERY.

Citizen's Article About Sierra County Bank Being Robbed Verified.

A telegram from Sierra county substantiates the account of the Hillsboro bank robbery given in yesterday's Citizen, and also gives a slight description of the men who did the job.

From all appearances both were cow men. One was middle aged, wore a stubby red mustache and limped a little. Whether or not the limping was artificial, is not known. The other was a younger man, medium size and of dark complexion. They have probably made their escape good, as nothing has been heard of the posse which went in pursuit.

Presidential Appointments.

Washington, Dec. 13.—The president has selected Lloyd Griscomb, Jr., now minister to Persia to be minister to Japan, succeeding Mr. Buck, deceased. He has also selected Richmond Pearson, of North Carolina, at present consul general at Teheran, Persia, to succeed Mr. Griscomb as minister to Persia. Mr. Pearson was formerly a representative in congress from Ohio.

CASTRO REFUSES

He Will Not Yield to Germany's Ultimatum.

WILL ENFORCE ANTI-TRUST LAW

Cornell Athletic Council Meet to Discuss Plans For Regatta.

BOSTON THEATRE CHANGES HANDS

Berlin, Dec. 13.—President Castro's reply to the German ultimatum is a refusal to yield on any point.

NEWS IN BERLIN.

Venezuelan Executive Refused to Yield to German Demands on All Points.

Berlin, Dec. 13.—The foreign office has not received the text of President Castro's reply but only a bulletin from the German charge d'affaires, Herr Von Pilgrim Balthozi, dated December 10, announcing that the president's answer had been placed in his hands that day and that the Venezuelan executive refused to yield to the German demands on all points. This telegram, with the text of reply, was filed at Port of Spain, Island of Trinidad. With this exception the foreign office has received no news since yesterday to indicate that the situation had grown worse. Landing in force is not considered probable under any contingency. Orders to blockade the coast stand and that is all the naval commanders for the present are authorized to do.

All in the Dark.

London, Dec. 13.—Up to 2 o'clock this afternoon, according to official statement, nothing has been received at the foreign office from the Venezuelan government asking Minister Bowen to act as arbitrator in the controversy between that country, Great Britain and Germany. The United States embassy was also without instructions or information regarding Venezuelan matter.

AFTER THE TRUSTS.

Funds Will Be Appropriated to Enforce Sherman Anti-Trust Law.

Washington, D. C., Dec. 13.—The hearings were begun today before the sub-committee on judiciary of the house consisting of Representatives Littlefield, of Maine, Overstreet, of Indiana, Powers, of Massachusetts, Dearmond, of Missouri, and Clayton, of Alabama, on the anti-trust bills.

Representative Morrill, of Pennsylvania, who has introduced a resolution appropriating \$250,000 for the use of the attorney general in enforcing the Sherman anti-trust law, stated that he had shown his resolution to the attorney-general who, he said, was favorable to it.

Mr. Morrill also said he had shown the resolution to the president, who authorized him to say he was heartily in favor of its provision. Mr. Morrill explained that the president, however, had no thought of dictating in any way to the committee.

Representative Glette, of Massachusetts explained the purpose of his bill, which provides for the seizure and condemnation of any property "owned or manufactured under any contract or by any trust or combination or pursuant to any conspiracy forbidden by the laws of a state and being in course of transportation from such state to another state." A maximum penalty of \$20,000 fine or five years imprisonment is imposed.

Theater Changes Hands.

Boston, Mass., Dec. 13.—Rich Harris and Charles Frohman have obtained control of the Park Theater, and Cora Payton, who has had the management of the theater since the opening of the present season, and his stock company will give their last performance there tonight. The theater will open under the new management a week hence with "Everyman," the quaint fifteenth century morality play, recently seen in New York, as the attraction.

Discuss Henley Plan.

Ithaca, N. Y., Dec. 13.—The Cornell Athletic council meets this evening to discuss a plan to send a Cornell eight to Henley next summer. It is probable, however, that action in the matter will be deferred until it is learned what action the Henley stewards take at their meeting in London today in regard to the proposed rule aiming to exclude from participation in the contests all crews which have been coached by professionals within a month of the

opening of the regatta. The new rule, if adopted, would have the effect of practically excluding foreign crews from the annual regattas. From private advices received from the other side it is gathered that the rowing men of England, as a rule, are opposed to the policy of excluding foreign crews at Henley and that the indications are that the new proposal will be defeated.

Foreign Crews Excluded.

London, Dec. 13.—At a meeting of the Henley regatta committee today it was decided by 13 to 2 votes to exclude foreign crews.

Misleading Association.

New York, Dec. 13.—An organization called the newspaper artists' association, at 23 East Fourteenth street, in this city, under the management of C. W. Parker, claims to have as a part of its exhibition committee certain persons connected with "The Associated Press Association." I desire to say that the Associated Press has no relation to this affair and that the use of same is distinctly misleading.

MELVILLE E. STONE, General Manager.

"HOWARD J. GOULD."

A Fellow Representing Himself as the Millionaire in Police Court.

BOUND OVER TO GRAND JURY.

Howard J. Gould, representing himself as the son of J. Gould, after a few days as distinguished guest at the Alvarado, is spending the day at the city prison, and will make an extended visit to his winter home, the county jail.

Gould arrived in the city Wednesday evening, in an imaginary private car. He immediately introduced himself as Howard Gould, son of J. Gould, of New York, and placed the prominent name on the register at the hotel. He made a swell debut into Albuquerque's street society, and impressed on everyone he met that he was a "Big Gun."

The Citizen gave him a gentle roast as being a fake, but the story didn't go with the unsuspecting public, and Mr. Gould played his cards fast.

Mr. Klooz, manager of the Alvarado, did not have absolute faith in the supposed Gould, but as he seemed to have money, Mr. Klooz did not worry but that a man of Gould's bearing would be able to settle for a few days of luxurious living.

The second day Mr. Klooz summoned Marshal McMillin to meet the distinguished guest, that he might gain the marshal's opinion as to the genuineness of Gould. The marshal said he thought he was a fake, yet Gould might take a foolish notion to go out on a lark. Gould told the marshal that he had arrived in his private car, which was scheduled to leave for the south that night. He went into the hotel and went to sleep, missing his fine equipped car. "But it doesn't matter," said Gould. "They will hold it for me at El Paso."

He lived high while here, devoting most of his time to fighting "booze." He seemed to have plenty of money at first, but yesterday his money gave out and by over-working his long established reputation and a few checks, he met a Wall street disaster.

The first operation performed was at a first street curio store. Two fine Navajo blankets amounting to \$30 were purchased for a special friend, Gould, in a smooth way, told who he was, and asked for a blank check on the Bank of Commerce, but as none were at hand he said he would settle this morning. The proprietor of the store was not certain as to the straightness of the story and refused to deliver the goods as directed. Mr. Gould returned later, and said that if they doubted his word, to telephone to Mr. Klooz, who knew all about him. The proprietor of the curio store tried to telephone, but couldn't get him. Knowing that the goods would go to the Alvarado, they were sent over. The goods were still at the Alvarado this morning and the curio company will not lose anything by the experience.

Gould's next haul was at Arthur Everitt's diamond palace, whose fine stock of goods attracted Gould's attention. He selected two diamond rings and took them out to see if they would suit the party he wished to present them to. In exchange he left a check on the Bank of Commerce for \$210. He told Mr. Everitt that he was Howard Gould and mentioned the names of several prominent men as references. He also stated he had \$10,000 in the Bank of Commerce. Mr. Everitt had learned of Gould's presence in the city and supposed everything was all right, especially the check.

SLEET STORM

Immense Damage Done to Illinois Town.

PACIFIC CABLE DID NOT LAND

Masons Will Place Flowers on Washington's Grave Tomorrow.

THE CHILIAN EXPOSITION IS OPEN

Decatur, Ill., Dec. 13.—A sleet storm last night did immense damage to trees and put both the telephone companies temporarily out of business. Fire last night in the Central Union Exchange was caused by breaking wires falling on electric light wires, cut off practically all communications.

BAD WEATHER CONDITIONS.

Prevented Landing of the Pacific Cable with the Land End.

San Francisco, Cal., Dec. 13.—The Pacific Commercial Cable company was unsuccessful yesterday in landing the Hawaiian cable and have signed a contract with the Gray Steamship company to have steamer Newboy load 100 tons of cable from Silvertown today, carry it outside the harbor and perform actual work of landing shore and paying out cable six miles from shore. The landing probably will be made on Sunday.

Will Not Attempt to Land.

San Francisco, Cal., Dec. 13.—The Postal Telegraph company, this morning, state that an attempt will be made today to connect the Trans-Pacific cable of that company with the land end. The weather is not favorable for another trial and today will be spent in preparations for a second attempt, which will probably be made tomorrow morning. The Silvertown is anchored well within the harbor at a point about midway between Fort Point and the Cliff house.

The Silvertown left her anchorage near the Fort and returned to the harbor and is now anchored in south bay. Captain Howard now expresses the opinion that the vessel will not get away until Monday, but says he will do his best to make a start tomorrow.

Masons Remember Washington.

Fredericksburg, Va., Dec. 13.—A representative of lodge No. 4, of Masons, of this city, will go to Mount Vernon tomorrow, bearing, on behalf of the lodge, a wreath of evergreens, which will be placed on the grave of George Washington, as a memorial from his mother lodge on the one hundred and third anniversary of the death of that illustrious Mason. This interesting custom was inaugurated by the lodge three years ago. In June of each year a messenger to bear the wreath to the tomb is elected. Washington, in his early manhood, became a member of the Masonic lodge of Fredericksburg, and the records showing his initiation, passing and raising and bearing his signature to the constitution and the Bible on which he was obligated are sacredly preserved among the treasured relics of the lodge and are objects of great interest to visitors to the city.

Chilian Exposition to Open.

Santiago, Dec. 13.—The Chilian Educational Exposition, for which the government has been making preparations for more than a year, will be formally opened tomorrow. The affair is almost unique in the annals of the South American republics and in itself affords a most striking demonstration of the rapid progress Chile is making toward a state of high civilization.

VETERAN DEAD.

J. S. Campbell, an Old Soldier, Died Yesterday Afternoon.

J. S. Campbell, the old Grand Army man who formerly resided on Atlantic avenue, but who was recently moved to the St. Joseph's hospital, because of his serious illness, died at that institution late yesterday afternoon of general debility.

The deceased was about 70 years of age. He was born in Scotland, coming over when a young man. He went through the war and after it closed came to New Mexico. He has lived in Albuquerque some twelve or fifteen years, and was in the employ of the railroad until he was compelled to resign on account of old age and feebleness.

The body was moved to J. W. Edwards' undertaking parlors, from where the funeral will be held tomorrow afternoon at 2 o'clock.

G. K. Warren post No. 5, G. A. R., will attend in a body.

Senator Beveridge's report against
the admission of New Mexico and Ariz-
ona to statehood proves to be exactly
what was outlined in dispatches from
those territories during the time his
committee was making its pretended
investigation, says the Denver News,
a democratic paper, in its comments
on the report.The committee did not try to find
the facts. It sought only for argu-
ments against the two territories. Its
report seizes upon such adverse facts
as it was unable to obtain and twists
and enlarges them until New Mexico
and Arizona are portrayed to the world
as the dumping ground for the "riff-
raff" of the nation, in which a few re-
spectable persons are scarcely saved
from an ignorant or semi-criminal horde.Mr. Beveridge might have had the
grace to refrain from slandering New
Mexico and Arizona, even though he
and other republican leaders had their
minds made up to prevent the west
from getting four more senators, which
is the real reason for the report
against admission.The pretended report is a mass of
misrepresentation which could have
been born in a biased and utterly reck-
less mind. With as much reason could
a commission report adversely on NewYork or Illinois if it confined its in-
vestigations only to the slums and dives
of Chicago and New York and to those
large areas of both cities in which
a word of the English language is sel-
dom heard.The report incidentally suggests that
no new state should be admitted un-
less it has a population equal to the
average population of the present
states, which would be about 1,650,000.
Doctrine of that kind is a legitimate
outgrowth of the decision by a major-
ity of the supreme court in the Philip-
pine cases, in which it was held that
the territories are mere property of
the United States and are not under
the protection of the constitution.So long as the government is con-
trolled by men of the Beveridge stamp
the west must fight for their political
rights instead of having them granted
in the generous spirit which should
mark the relation of all parts of a
common country.

THE STATEHOOD REPORT.

The report made by Senator Bever-
idge of the senate committee on terri-
tories contains the suggestion that it
would be well, if it were possible, to
prevent the admission of any new
state unless it had a population equal
to the average population of all the ex-
isting states, says the Denver Republi-
can.This would require the new state to
have 1,650,000 inhabitants under exist-
ing conditions of population.It is, of course, impossible without
its consent to deprive any state of its
rights as such, but if Senator Bever-
idge's rule were applied to the exist-
ing states it would exclude twenty-six
and leave only nineteen in the Union.
It would cut out six of the original
thirteen—Connecticut, New Hamp-
shire, Rhode Island, Delaware, Mary-
land and South Carolina. It would
work enormous injustice to the west,
for it would leave only four states west
of the Mississippi, while there would
be fifteen east of the stream. The
whole vast region west of the Missouri
would have only one state—Texas.By the census of 1900 New Mexico
had a population of 195,000. Accord-
ing to the census nearest the date of
their admission only five of the states
that would remain under the rule
suggested by the committee had as
much population as New Mexico had
two years ago. They are New York,
Massachusetts, Pennsylvania, North
Carolina and Virginia. Not a single
new state admitted east of the Missis-
sippi in addition to the original thirteen
had as large a population by the cen-
sus nearest to the date of admission
as New Mexico had by the census of
1900. Indiana was admitted in 1816.
By the census of 1810 it had only 24,
520 inhabitants and by the census of
1820 only 147,178—nearly 50,000 less
than New Mexico had two years ago.The Beveridge rule would reduce
California, Kansas, Nebraska, Arkan-
sas, Louisiana, South Carolina, Missis-
sippi, Maryland, West Virginia and
seventeen other states to the condi-
tion of territories. It would condemn
every community of less than 1,650,
000 American citizens to live under a
provisional government and place the af-
fairs of this nation almost exclusively
in the hands of the people living east
of the Mississippi river. It would de-
stroy the theory upon which Ameri-

It gives health of body and cheerfulness
of mind, and by its aid the pains and
pangs of this critical period are pre-

woman's medicine with a wonderful
record of cures of womanly diseases.
Diseases that all other medicines had
failed to cure, have been perfectly and
permanently cured by the use of "Fa-

received so much benefit from the use of your
medicine," says Mrs. Eliza A. Boyman of New

female weakness and change of life. Before I
began taking it I could not do anything. I had
such pains in my head and in the back of my neck
that I thought I would lose my mind. Now I can

Keep the bowels healthy by the timely
use of Dr. Pierce's Pleasant Pellets.ment. Considered practically it is a
wild dream, but it is so vicious and un-
American a suggestion that it should
be condemned from one end of the
country to the other.It is probable that Senator Bever-
idge would never have consented to
place such a suggestion in his report if
Indiana had fallen under the ban, and
yet it is safe to say that when New
Mexico has been in the union as long
as Indiana has up to this date, it will
have a larger population than Indiana
has today.The report ignores the fundamental
principle upon which the claims of a
proposed state rest, and which is the
right of American citizens to govern
themselves in local affairs. The people
of New Mexico, Arizona and Oklahoma
should not be denied this right.

RECRUITED IN NEW MEXICO.

"A press dispatch from New York
the other day," said Delegate Rodey,
of New Mexico, "telling of the sale for
\$18,000 of Veretschagin's painting of
San Juan hill, entitled 'Come on, Boys,'
and showing Col. Roosevelt charging
at the head of his men, brought to my
mind that a goodly share of Roose-
velt's regiment of Rough Riders were
recruited in New Mexico.""And yet there are those who would
ask the president to veto a bill to make
citizens of the men he thus led up San
Juan hill. He never will do it. Men
who are good enough to fight this coun-
try's battles are good enough to be its
citizens, and I am greatly mistaken in
President Roosevelt if that is not the
view he will take of it. New Mexico is
entitled to be a state, and I am con-
vinced that no act of Theodore Roose-
velt will keep it outside the union."This signature is on every box of the genuine

WRECK ON THE GLORIETAS.

A Head End Collision in Apache Canyon of the Mountain.

There occurred on Glorieta mountain one of the worst kinds of wreck it is possible for a railroad company to have—a head end collision—and while the damage was not so great in this case as it might have been, it was great enough, says the Las Vegas Record.

Engineer Boyd and Fireman Nelson, having charge of the mountain helper, engine 746, received orders at Glorieta to run light to Lamy and meet an east bound, double head extra at Canoncito. When that point was reached they overlooked the fact that they were to meet a train there and passed through that station without stopping, oblivious to the fact that they were speeding on to an almost certain death. All went well until the light engine entered Apache canyon, one of the worst places on the Santa Fe system for a wreck, when, without warning, they plunged headlong into the extra, which was being laboriously hauled up the mountain by two of the large compound engines, with a helper engine pushing in the rear.

Engineer Boyd and his fireman had no warning of their danger, so were unable to jump from their engine, but fortunately sustained only a few slight bruises, while the enginesmen on the extra were not injured at all.

Owing to the fact that the 746 was running light and the extra being heavily loaded and in motion the damage was not so great as would be expected. However, there are two, if not three, engines of the latest type, out of business, and will be for some time to come.

Apache canyon is a narrow defile, half way down Glorieta mountain, just wide enough for the roadbed and a wagon road, and is a succession of curves, where it is impossible to see a train more than a few hundred feet away. On one side rises a solid rock bluff to the height of about 100 feet, while on the other side it is about fifty feet to the bed of the canyon. Owing to the dangerous character of the place trains going down always run very carefully and slow, and to this fact more than anything else is due the miraculous escape from fatalities. All those who were caught in the smash up are congratulating themselves to day that it was no worse.

BACK TO OLD MISSOURI.

Cole Younger Is to Have a Full Pardon in January.

Cole Younger, the last of the outlaw brothers, will be given a full pardon when the Minnesota state board of pardons meets in January. It is known that the members of the board have informally agreed to this as the best means of detracting from a constantly recurring sensation, and for the reason that his further detention can accomplish no good.

There has been no application yet filed for his pardon, but it is understood one has been prepared and will be filed within the ten days' limit before the board meets.

While the cases of Jim and Cole Younger are not alike, the latter being the stronger and more optimistic, there are apprehensions that continual disappointment at not being wholly freed may affect his mind, and as such a contingency may possibly be avoided by his return to Missouri, there is a general sentiment favoring his pardon.

Since the self-inflicted death of James Younger a few weeks ago, there has been a material increase of sentiment in favor of allowing Cole absolute freedom. It is generally known that the greatest desire of Cole Younger's life is that he may be permitted to spend the balance of his days in Missouri, although he says but little about it, meekly submitting to the dictates of Minnesota law.

A Bad Accident.
Supervisor William Neil, who has been sick in Kingman ever since the

election, started this morning for his home on the Big Sandy, accompanied by George C. Davis. When about six miles out of town he had occasion to get out of the wagon, and in turning over some quilts in the back part of the wagon, he accidentally knocked out a Winchester rifle, which was loaded, and on striking the ground it was discharged, the contents striking Mr. Neil's right hand, and almost tearing it to pieces. He has lost two fingers and it is feared he will lose a third. Mr. Neil is to be pitied as he has a large family depending on him for support, and it will be at least several months before he will have the use of his hand, if ever.—Kingman Miner.

DEMING.
A Few Pointers About a Good Town in Southern New Mexico.

Keep your eye on Deming.
Deming has just been incorporated.
Deming, the coming city of New Mexico.

Deming has a magnificent school system.

Deming, the railroad center of New Mexico.

Deming, the gateway to the best part of Old Mexico.

Deming! Don't overlook it if you are looking for a safe and paying investment.

Deming, the seat of the new county of Luna.

Deming is the great mining center of the southwest.

Deming water is chemically pure—equal to Polan springs.

Deming has increased 50 per cent in population in four years.

Deming water and pure ozone make strong and healthy people.

Investments in Deming lots will double and treble in one year.

Deming has now a large ice plant and electric light system under contract.

In Deming the demand for rental houses is five times in excess of the supply.

Deming has an abundance of water for irrigating vineyards, orchards, or gardens.

Buy lots and build in Deming. Your rental returns will be 20 per cent on the investment.

In Deming good safe loans can be had at better rates than in the old established towns.

At Deming you can buy lots at \$100 which will pay you 100 per cent in less than twelve months.

In Deming another good hotel is needed to accommodate the enormous increase of population.

Deming is a great health resort—has no superior in climate for the cure of pulmonary troubles.

Deming will be the great smelter center. Two large plants will be installed within the year.

Why buy high priced lots when you can get them in Deming cheap now, with certain advance assured?

Agricultural lands in Deming are unsurpassed for fertility, production of fruits and vegetables of all kinds.

Deming offers the same opportunities now that the most prosperous cities in the west offered several years ago.

Deming needs one hundred new houses to supply the demand, and needs them now. This demand continues to grow.

Deming ships over 100,000 head of cattle annually; is the center of the greatest breeding region in the southwest and catmen all know this.

RETURNING TO INCINERATION.

The Disposition of Human Dead by Cremation Becoming General in Civilized Countries.

Recent statistics show that there is a constant and growing tendency to return to the custom of cremation, that prevailed throughout the civilized world before the Christian era, excepting among the Egyptians, Chinese and Hebrews. The disposition of the human dead by incineration has been meeting with more and more favor, that has in no wise been retarded since the first cremation society was formed, in London, in 1874. That same year a crematory was erected in Milan, and two years afterwards one was built in Lodi, Italy. In two years more there was one in Gotha, Germany, and afterwards they began to appear in all lands. The first one in this country was erected in Washington, Pa., in 1883, and the one in Fresh Pond, L. I., came two years afterwards. In this latter eight bodies were cremated the first year and 76 in the second year. In 1900 the total had passed the 600 mark, and during the last year it reached 654. There are now 26 crematories in the United States. In the year that New York's first crematory was opened only 46 bodies were cremated in the entire country, while last year the number was 2,645.

A CONVICT IN PRISON.

Daily Routine of Life in a Dungeon Call Described by One Who Knows.

If I had little work to do in prison, how did I spend the time? At Auburn, where I lived the greater part of my first term, says the Autobiography of a Thief, in Leslie's Monthly, the routine of my life was as follows: After rising in the morning I would sweep out my cell, turn up my bed and blankets and clean up. Then to breakfast; then, if there was no work to do, I would go back to my cell and eat a small portion of opium. Then I would exercise with dumbbells and take a sponge bath with cold water. Next would come a nap till dinner time. After dinner I would read and think in my cell until three o'clock, when I would go to the bucket ground or exercise in the yard, in the lock-step with the others, for half an hour. Then back to the cell, taking with me bread and a cup of coffee made out of burnt bread-crust for my supper. The count was made at six o'clock to see that all was right for the night. After that I read in my cell as long as the oil lasted.

Clubs, Cabs and Gout.

A physician, talking to a reporter of a New York paper, asserted recently that gout is rapidly increasing in that city, as a disease prevalent among the wealthy classes, the increase being altogether out of proportion to the growth of population. He claims that this is largely attributable to the increase in clubs, fashionable restaurants, and cafes, and also to the general use of cabs, even when the distance from the club to the home is only a few blocks. If people would take more active exercise in the open air, they would run less risk from heavy meals. He says that rich foods are more responsible for gout than wine, although practically the two usually go together.

Museums in Siberia.

For many years Russia has been deporting to Siberia its men of the most active intellect and turning them loose in a new country to make a livelihood for themselves and for their families. It is not strange, then, to note that universities and museums are springing up in Russia's eastern possessions, nor that many of the men of science and teachers on the staff are exiles. There is scarcely a town of 10,000 inhabitants in all Siberia but has a public museum, under the care of a learned and competent curator.

BEGINNING OF OSTRICH FARMS

Domestication of the Great Birds Was First Undertaken by Cape Colony Farmers.

Fifty years ago, the domestication of the ostrich was an idea scouted by most of the zoologists who had given time and thought to the subject. The young, it was believed, could not be raised in a state of captivity. The great demand for ostrich feathers was then met by hunting and killing wild birds, and there were indications that the species would soon become extinct. But in the early sixties, a French scientist named Gosse issued a pamphlet in which he argued that the domestication of the ostrich was feasible and practicable, and not long afterwards a brood of ostriches was reared in the city of Algiers, says Success. Gosse's pamphlet and news of the experiment in Algiers became familiar to two farmers in Cape Colony, who determined to undertake the domestication of ostriches in South Africa. Beginning with two birds, which they caught and placed in an enclosure, in a twelvemonth they had a brood of 80, which marked the birth of a new industry which has played a potential part in the development and commerce of a vast region. Large tracts of land in South Africa, which could not be profitably used for any other purpose, are now devoted to this business, and feathers to the value of \$5,000,000, from nearly 400,000 domesticated birds, are now annually sent abroad from Cape Colony.

LOCAL HAPPENINGS.

A. E. Laudenslager, of this city, is up the road representing the firm of H. B. Cartwright & Bro., of Santa Fe.

The postoffice at Springer, Colfax county, will on January 1 be advanced from the fourth class to the third class.

Word comes to the city of the death of Alfredo Leyba at Galisteo. Mr. Leyba has relatives living in old Albuquerque.

Arthur Cavanaugh, representing the wholesale grocery firm of Gross, Kelly & Co., is on one of his regular visits to the towns north of the city.

W. C. Rogers, now of California, passed up the road for Cerrillos the other day, where he resided a few years and still has business interests there.

Col. E. H. Bergman, formerly superintendent of the territorial penitentiary at Santa Fe, who has been seriously ill at Cerrillos, is reported to be convalescing.

T. C. Mason, who formerly held down a chair at the Oak barber shop in the A. T. Arriaga building, now village razor king of Cerrillos, is the whole cheese up in that town. Last Friday night, at Youngs hall, Mr. Mason entertained a number of the best people of Cerrillos with a dance, and word comes from that town that the affair was one of the nicest of the season.

There will be a special meeting of G. K. Warren post No. 5, G. A. R., this evening at 7:30 o'clock at the office of Commander J. W. Edwards, to make arrangements for the funeral of Comrade J. S. Campbell. By order of J. W. Edwards, P. C.; W. W. McDonald, adjutant.

A consumer said this morning that if the new milk ordinance made any restriction on milk punches he was opposed to it.

The fancy Christmas evergreen garish the front of the Pratt grocery store. It will be just eleven days until they are adorned with colored candles and glistening with presents.

Miss Maud Summers has accepted the direction of the Presbyterian church choir. She will sing at the Sunday services.

Street Commissioner Martin Tierney is doing a good work today by placing cinders on the muddy street crossings. The crossing in front of the Alvarado Pharmacy across First street to the Santa Fe station, needs something badly. It is impassable during sloppy weather.

All members of the W. R. C. are hereby notified to meet at Mrs. Shoemaker's store on Gold avenue, at 1:30 o'clock Sunday afternoon, to attend the funeral of J. S. Campbell, of G. K. Warren post, G. A. R. Services at Edwards' undertaking parlors. By order of Mrs. Stevens, second vice president. Temperance Whitcomb, secretary.

E. R. Ferguson, of Charlotte, N. C., has accepted the position as cashier of the Mutual Life Insurance company, made vacant by H. N. Wolf, who has been transferred to Jackson, Miss. Mr. Ferguson was formerly assistant cashier for the Mutual Life at Charlotte.

The "Club" is the name of the new cafe and club house at 110-112 South Second street, opened by A. J. Robinson & Co. The formal opening will occur next week.

Miss Marie Benjamin will leave tonight for Kansas City. After spending a day at Kansas City, Miss Benjamin will go to Natchez, Miss., where she will visit friends for some months.

A recent number of the St. Louis Shoe and Leather Gazette, gives an account of a shoe factory to be established in Albuquerque by W. M. Bell. The article states that the factory will begin building about January 1, and will turn out shoes by May 1.

J. W. Mallette, proprietor of the Fair store, has presented the public with some very pretty and nicely arranged show windows displaying Christmas toys, chinaware, Indian curios and other wares, any article of which would make a desirable Christmas present.

S. Vana & Son, jewelers, on South Second street, are showing a nice assortment of Christmas toilet articles in their front windows. The store of Arthur Everitt, on Railroad avenue, and also that of T. Y. Maynard, on Second street, are pretty well filled with fine jewelry and other handsome goods for Christmas presents. The jewelers expect to do a big business these holidays.

Rev. Peter Moog, of La Joya, is in the city for the day, having arrived from the north last night and missing his train this morning.

CARELESS SHOOTING.

Stray Shot Strikes a Woman, Penetrating the Head.

As a consequence of careless shooting in the city limits with a 22-caliber rifle, Mrs. K. Fackner, a housekeeper, lies in a work train car just east of the Crystal Ice company's works, with a bullet wound in the back of her head. Who fired the shot is not known. About 3 o'clock six or seven young men appeared on the vacant lots east of the Santa Fe tracks inside the city limits and north of Tijeras road, and began shooting. It was about 3:10 o'clock when a bullet passed through the window of one of the work train cars, striking Mrs. Fackner, who was sitting in a rocking chair near the window, in the head. She screamed and help came from the neighboring cars. Dr. Wroth, the Santa Fe physician, who was called and dressed the wound, pronounced it only flesh deep and not dangerous.

"HOWARD J. GOULD."

(Concluded from page one.)

Gould later, in the evening, tried to get a check cashed at Joe Barnett's and George Neher's, but the racket wouldn't work. He was broke flat, at 12 o'clock, with the exception that he retained the two rings.

The parties, of whom he bought the goods, became suspicious. Mr. Klooz was called upon, but he said he knew nothing of the man, only that he gave his name as Gould, and that he had never recommended the man. The amount he owed him was so small that it didn't worry him.

The marshal's suspicions were also aroused when he heard of Gould's manipulations, and he ordered his arrest. Detectives Frank Rossi and Knapp were on watch for their man from 12 o'clock, but did not apprehend him until 5 o'clock this morning. He was on passenger train No. 7, going west, deserting his private car at El Paso. The officers took him to the city prison, searched him and locked him up. The diamond rings were missing and there was nothing on his person to identify him. The rings were probably made a present to some of the damsels in the famous North Third street district, where he visited between 12 o'clock and the time of his arrest.

When he appeared before Judge Crawford this morning he tried to work the insane racket and when the judge asked him where the rings were, he replied: "When did this happen?" "Are you Howard Gould, son of J. Gould," said the judge.

"I certainly am," replied Gould, looking the judge straight in the face without flinching.

"I guess he is off," said the judge. "Take him out."

Later the marshal talked with him, and he said he was just a common mechanic on his way to El Paso. He stopped over here, and having a little money he started out to get drunk and didn't remember what happened afterward. He still holds that his name is Howard Gould, but that he is not the son of J. Gould, as first represented. He was bound over to the grand jury under a bond of \$500.

He can be charged with several serious offenses. Obtaining money and goods under false pretenses, forgery and jumping his bond bill.

There will be plenty of time on Mr. Gould's hands which certainly is not money. He certainly was of the opinion that Gould was not known in the west.

The people he obtained goods from cannot be blamed for being taken in, for he is as smooth an article as has touched the Duke City for some time. He is probably about 28 years old, has a strong face, piercing black eyes and of a prepossessing appearance. And a smooth tongue which Gould would be proud of.

FRANCE'S BURIED CITY.

Brought to Light by the Discovery of Two Ancient Tombs Near Orleans.

Interesting ruins which point to the existence of a buried city have been found in the woods of Charbonniere, near the chateau of that name, some miles distant from Orleans. Two tombs composed of monolith stones, in one of which the remains of a skeleton were reposing, have been found under ancient oaks. They were at a depth of 30 centimeters below the soil. It is estimated from the nature of the stones, their dimensions and form, that the tombs date from the sixth, seventh or eighth century.

According to a local tradition on this site, which was formerly crossed by a great Roman way, many centuries ago an important city stood, of which the ruins still exist, though crowded and crushed under the earth long ago by wood cutters and excavators.

This tradition attributes to this buried city the name of Sergy. It is probable that these tombs are not the only relics in this place, and that a well-conducted search would reveal an entire cemetery, whose extent would give an idea of the importance of the buried city.

A BLIND GIRL'S POWER.

She Detects Absence of Flowers from Dining Room the Moment She Enters.

There is a wealthy young woman living in Philadelphia, says the Times, who has the misfortune to be blind. When traveling as a young girl she contracted Roman fever in Italy and lost her sight. She is the only living member of her immediate family now, and occupies a handsome house in the residence part of the city. She has a companion who seldom leaves her, but the ability she shows for conducting her own affairs in spite of her misfortune is wonderful. Her remaining senses are marvelously acute, and it seems to people who are not well acquainted with her almost uncanny her cognizance of everything going on around her. On one occasion recently, when her companion was away at dinner time, the butler, either by intent or carelessness, failed to place flowers on the dining table, according to his custom. If he expected to evade the duty he was mistaken. The mistress of the house had hardly entered the dining-room when she discovered the omission. "James," she said, "you have forgotten the flowers to-night."

Don't let Saturday night pass without lunching at Zeiger's Cafe.

IT IS KNOWN AS SOLANINE.

That is the Name of a Deadly Poison
That is Sometimes Found
in Potatoes.

Chemical examination has revealed the fact that a poisonous alkaloid known as solanine is contained in potatoes. Little of this poison is found in new potatoes, but even fresh potatoes which have grown about the surface of the soil and have a green skin are generally known to be poisonous, says a scientific authority. When potatoes are kept a long time they contain a large amount of this poison, and many cases of serious poisoning have occurred in late summer from eating old potatoes. About ten years ago many soldiers in the German army were ill from an unknown cause. They suffered with headache, colic, diarrhea, vomiting, weakness and slight stupor, and in some cases dilation of the pupils. The matter was investigated and it was discovered that the men had been eating potatoes which had been kept for a long time in a damp place until they had begun to sprout. These potatoes, a chemical analysis showed contained as much solanine as is found in new potatoes.

HAD A CHINESE NAME.

Archibald Was Called Archie and the
Mongolian Thought It Was
"Ah Chee."

In the household of a prominent Bostonian is a Chinese servant who was brought east by the family several years ago from California, where he had ingratiated himself during a winter sojourn at Pasadena.

Recently a young man named Archibald has been visiting the family, and the Chinaman seemed to take a strange fancy to him. He is called Archie for short, and every time the name of Archie was mentioned the Mongolian would grin and beam at the guest with a pride that seemed little less than paternal. That it was at least fraternal was disclosed one day, when he said: "Why for you have name all same like Chinaman?" Archibald was rather taken back. "What do you mean?" he asked. "Why, you name," replied the Chinaman, according to the Philadelphia Record. "When they talk to you they call you Ah Chee!"

Sweet-Voiced Kansas Squealers.

Following is the unique advertising letter of a Eudora (Kan.) hog farm: "To our friends, the farmers and stockmen everywhere: You are invited to attend our free open-air concert, given every evening at five p. m., under the direction of Mr. E. W. Melville. We guarantee to you that we have 200 of the sweetest voiced squealers in the country. No such an aggregation of male and female voices was ever got together under one management, and you will be highly entertained and pleased if you will attend one of our concerts. Reserved seats free for everybody. Special programmes will be arranged if you will but notify us, come out and hear us squeal. We will take special pains to please you. Yours till dead."

"Brown's in Town."
"Brown's in Town" will be the attraction at the Colombo hall on Tuesday, December 16. It has for its story a theme that is entirely new. It is woven around eleven characters, each one of whom has a different reason for being there. Abel Preston and his son Dick are not of the same opinion concerning the subject of marriage. Abel contends that a man is infinitely better off in a state of single blessedness while his son demonstrates his position by marrying. This action on the part of Dick means inheritance and the situations and complications that arise from the older Preston are too farcical for explanation. Brown is an assumed name and there is no less than three women figuring as Mrs. Brown. These complications arise from a call of the older Preston upon the scene of his son's honeymoon. Humorous situations are brought about by his son's anxiety to hide his marriage from his

father. Its ingenious construction and witty dialogue together with the swiftness of its action bring many surprises. The music and songs incidental to the farce are all original and do not mar the action of the play. The company includes such capable people as Chas. Horn, George Welsh, Frank Millard, Perry Alexander, Emanuel Ward, Fannie Midgley, Elizabeth Lindell Whipples, Edna Hickey, Coralie Clifton and others.

Foley's Honey and Tar positively cures all throat and lung diseases. Refuse substitutes. Alvarado Pharmacy.

Switzer Has Returned.
Manager Herman Switzer, of the Harvey Indian curio, returned this morning from Guam and other western towns, which he visited in his three days business trip.

Mr. Switzer secured one of the oldest and best silversmiths to be found in Guam. The Indian silver worker will have his department in the industrial rooms of the curio building, and will form a most interesting addition to Mr. Switzer's collection. This new feature of the curio business originated by Mr. Switzer promises to be a great promoter of the Indian curio business.

Don't be imposed upon by taking substitutes offered for Foley's Honey and Tar. Alvarado Pharmacy.

H. T. Brown, deputy United States mineral surveyor, and his assistant, Thomas Roberts, have just finished surveying some mining claims in the Cerrillos district for Thos. Whalen.

A Million Voices.

Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for consumption and writes: "It completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for coughs, colds and lung troubles. Price 50c and \$1.00. Trial bottles free at all druggists.

The new teacher at San Pedro is Miss Cross, of Santa Fe. She is giving satisfaction. She is the daughter of George Cross, the well known newspaper man.

Coughs, Colds, and Constipation.
Few people realize when taking cough medicine other than Foley's Honey and Tar, that they contain opiates which are constipating besides being unsafe, particularly for children. Foley's Honey and Tar contains no opiates, is safe and sure and will not constipate. Alvarado Pharmacy.

ARIZONA TOWNS

WILLIAMS.

From the News.

E. Lamb began cutting a fine crop of ice on Tuesday.

Miss Lillie Wakefield has returned to Williams and is stopping with Mrs. J. C. Phelan.

Ed Grose is engaged in the postoffice, being pressed into service by Postmaster Simpson, who has been on the sick list and decided to rest up a bit.

D. F. Phelan received a patent for his homestead. This will be of interest to many who are anxiously awaiting their patents.

T. J. Holden, J. C. Phelan and Ben Crow spent the early part of the week southwest of the mountains on a wild turkey hunt.

Miss Hazel Comstock returned from Albuquerque, N. M., and Winslow, where she has been visiting friends. She will remain at Ash Fork a few days as the guest of Mrs. J. E. Brown and will then continue her journey to Fresno, Cal., where she will join her parents for the holidays.

Wm. J. Geisert and wife, of Cincinnati, Ohio, spent a day in the city the guest of his aunt, Mrs. James Walsh. Mr. Geisert has, for a number of years, been cashier for the Baltimore & Ohio railroad at Cincinnati, and was returning home after a pleasant trip, taking in all the principal cities of the southwest.

Boy's life saved from Membranous Croup.

C. W. Lynch, prominent citizen of Winchester, Ind., writes: "My little boy had a severe attack of membranous croup, and only got relief after taking Foley's Honey and Tar. He got relief after one dose and I feel that it saved the life of my boy." Refuse substitutes. Alvarado Pharmacy.

WINSLOW.

From the Mail.

T. J. O'Kelly left for his home in Bakersfield.

Mrs. Conrad Stumpf and daughter, Alice, at Ash Fork, were visiting in town this week.

The marriage of two well known Winslow people is said to be one of the events of the near future.

Mrs. W. D. Britten has bought the millinery stock of Mrs. Sims and has moved her millinery parlor into the Booth block.

Mrs. Chester Smith and Miss Jennie Vandivort left to spend the Christmas holidays with relatives in Emporia, Kansas.

Last Saturday night Stewart Christal stepped into a pit in the round house and wrenched his hip slightly, causing him to take an enforced vacation this week.

Cold weather has set in much earlier than usual this winter and with the great amount of snow in the mountains at present there is little prospect of warmer weather before spring. The iceman is out of a job, but the wood and coal dealers are happy.

Richard Roe, a miner, was caught in the act of robbing a room occupied by Messrs. Goldworthy and Lee. The man had been drinking heavily for several days and was drunk at the time of the attempted burglary. The case was tried before Justice Matta and the man was sentenced to fifteen days' imprisonment.

Report From the Reform School.

J. G. Gluck, superintendent, Pruntytown, W. Va., writes: "After trying all of the advertised cough medicines we have decided to use Foley's Honey and Tar exclusively in the West Virginia Reform school. I find it the most effective and absolutely harmless." Alvarado Pharmacy.

HOLBROOK.

From the Argus.

George Ames is in town this week. W. H. Mann is clerking at Wetzel Bros.' store.

Taxes should be paid before December 15, as on that day the penalties will be added.

Mrs. Cheney and sons, Hyrum and Charlie, came down to visit with J. L. Fish's family.

W. H. Clark and Wm. Armbruster were the jurors who represented Holbrook at Prescott this week.

Mrs. S. H. Fine spent a day with her parents, Mr. and Mrs. F. M. Zuck, and then returned to Winslow.

Mrs. J. F. Woods has left for Sturgis, South Dakota, to attend the golden wedding of her father and mother, Mr. and Mrs. Harris.

Sheriff-elect C. I. Honck has announced that he will appoint Jud Lathrop as his deputy for Holbrook. This appointment, as far as we have heard, will give universal satisfaction, and we believe that Jud will fill the position with credit to himself as well as the county.

W. C. Ten Eyck departed for his home at Santa Ana, California, where he expects to remain with his family. He closed a deal just before he left in which the Apache house was sold to Mrs. Hathorn, who will take charge of the hotel about February 1.

The Indians who, it is supposed, stole the bunch of horses from H. H. Scorse, were called before Justice Watron on Thursday for a hearing. The Indian witnesses who had previously admitted knowledge of the theft would not squeal when placed on the stand. So there you are. In another roundup Mr. Scorse may be able to find his horses, if they haven't been killed for beef.

FLAGSTAFF.

From the Gem.

Flagstaff is much in need of a good jeweler.

T. J. Ross now has charge of the Milton commissary.

Robert Mayfield is numbered among those on the sick list this week.

George Black is having a picket fence built around his residence property.

Mrs. Lon Hill of Bellemont was in the city on business in the probate court.

R. C. and Edgar Jones left for the Agua Caliente Springs, where they will spend the next four or five months.

John Marshall, superintendent of the city waterworks, left for the Grand Canyon to look after his mining interests in that section.

C. A. Keller and C. H. Vary, who have been hunting several days seven-five miles south of Flagstaff, returned. They report that they killed five deer and two wild cats.

Frank Murphy, of the cattle firm of Murphy & Johnson, shipped 500 head of cattle through here from New Mexico. He sold them to John Munds and the Pitts brothers at Ash Fork.

Hon. H. F. Ashurst, of Williams, was here settling up his father's estate. Mr. Ashurst is desirous of knowing the wishes of his constituents in the way of legislation. Any suggestion of the humblest citizen will receive his attention. He will be one of the most influential members in the next council, and will be in position to get what he wants.

A Cold Wave.

The forecast of sudden changes in the weather serves notice that a hoarse voice and a heavy cough may invade the sanctity of health in your home. Cautious people have a bottle of One Minute Cough Cure always at hand. E. H. Wise, Madison, Ga., writes: "I am indebted to One Minute Cough Cure for my present good health, and probably my life." It cures coughs, colds, LaGrippe, bronchitis, pneumonia and all throat and lung troubles. One Minute Cough Cure cuts the phlegm, draws out the inflammation, heals and soothes the mucous membranes and strengthens the lungs. J. H. O'Reilly & Co.—B. H. Briggs & Co.

KINGMAN.

From the Miner.

Miss Maud Selby has accepted a position with Tarr & McComb.

The Sunday school is preparing for an entertainment and big tree Christmas.

Mrs. J. S. Withers is down from Seligman visiting her many Kingman friends.

Ed. Haskins and Frank Selsor are down from Hackberry with a lot of horses for sale.

Judge Murphy has been out to his mines at Cerbat this week, overseeing the assessment work.

George Selsor has purchased two big teams and will freight between Kingman and the Gold Road country.

Gus Goodwin has been confined to his home this week with pneumonia, but is now on the road to recovery.

Miss Kittie Wilson has accepted a position at the Truxton Indian school, and left for that place Sunday last.

Mrs. John Musser left for Los Angeles recently where she will enter one of the hospitals for a course of treatment.

R. H. Blakely, who has been taking in the sights of Los Angeles for the past two weeks, returned home recently. It was his first trip to the big city and he reports having had a fine time.

Harry Knight has gone out to take charge of Gaddis and Perry's store at Snowball during the absence of Mr. Hilly, who goes to Needles to look after his brother who was injured at that place last week.

R. B. Burns, chief engineer of the Santa Fe Pacific, was in the San Francisco.

THINK HARD.

It Pays to Think About Food.

The unthinking life some people lead often causes trouble and sickness, as illustrated in the experience of a lady who resides in Fond du Lac, Wis.

"About four years ago I suffered dreadfully from indigestion, always having eaten whatever I liked, not thinking of the digestible qualities. This indigestion caused palpitation of the heart so badly I could not walk up a flight of stairs without sitting down once or twice to regain breath and strength.

"I became alarmed and tried dieting, wore my clothes very loose, and many other remedies, but found no relief.

"Hearing of the virtues of Grape-Nuts and Postum Food Coffee, I commenced using them in place of my usual breakfast of coffee, cakes, or hot biscuit, and in one week's time I was relieved of sour stomach and other ills attending indigestion. In a month's time my heart was performing its functions naturally and I could climb stairs and hills and walk long distances.

"I gained ten pounds in this short time and my skin became clear and I completely regained my health and strength. I continue to use Grape-Nuts and Postum for I feel that I owe my good health entirely to their use. I like the delicious flavor of Grape-Nuts and by making Postum according to directions, it cannot be distinguished from the highest grade of coffee." Name given by Postum Co., Battle Creek, Mich.

cisco district recently looking over the route for a branch road to the Gold Road, Leland and German-American camps. Mr. Burns succeeded in locating a route that he considers perfectly feasible. While in the district he visited the different mines that are under operation and expressed himself as surprised at the vast amount of ore in sight, the size and richness of the veins, and the amount of development work that has already been done. The Leland company alone guarantees the railroad company 150 tons of ore per day from their mines to their mill at Mellen for the first year, and 200 tons daily for the second year. Competent men, who have estimated the ore already blocked out in the Leland alone, believe this estimate is a very conservative one.

The Pride of Heroes.

Many soldiers in the last war wrote o say that for scratches, bruises, cuts, wounds, corns, sore feet and stiff joints, Bucklen's Arnica Salve is the best in the world. Same for burns, scalds, boils, ulcers, skin eruptions and piles. It cures or no pay. Only 25c at all druggists.

ST. JOHNS.

From the Snips.

A very enjoyable baile was given Tuesday night by the popular young Epimenio Armijo, to commemorate his twenty-third birthday anniversary.

The merchants of St. Johns are receiving holiday goods and all the young folks are showing signs of having partaken of loco.

Misses Maud and Pearl Noble and Miss Margaret Evans attended teachers' examination this week. Miss Evans is booked to teach the Navajo school, Miss Maud Noble the San Antonio school and Miss Pearl Noble the Amity school.

A Timely Topic.

At this season of coughs and colds it is well to know that Foley's Honey and Tar is the greatest throat and lung remedy. It cures quickly and prevents serious results from a cold. Alvarado Pharmacy.

UNIVERSITY NOTES.

Dr. Edgar L. Hewitt, president of the Normal university, at Las Vegas, paid us a visit last Tuesday. He arrived just in time to make a neat little speech at assembly. The opinion and idea of education of men of such note as Dr. Hewitt are always of weight and influence, and it was with great pleasure that we listened to his emphatic statements about the relation of this university to the other public educational institutions of New Mexico.

He said in part: "This university is the head of the system of public instruction of New Mexico. Such was the intention when it was founded and no one will ever dispute with you that position. All the other public educational institutions will naturally become feeders for this university, for it is here that advanced work must be done.

"The normal schools were symbolized as the heart of the educational system since they send out every year a number of teachers filled with zeal and enthusiasm to labor in the public schools. Still the university will always be the head, the place of training the intellect to its highest development."

A gasoline gas plant was installed last week. The plant is now in working order and as soon as the necessary fixtures are put in the students in the chemical and physical laboratory will discard the alcohol lamps for the more convenient gas burners.

Five new students registered Monday.

Mr. Schaub has joined the dormitory fraternity.

Every available room is now full. Prof. Weinzirl occupied assembly hour on Thursday with a lecture on chemistry.

He emphasized the importance of a general course in chemistry for all students desiring a liberal education, as that term is now understood; also the necessity of a thorough knowledge of chemistry as a foundation for numerous lines of technical work. He also pointed out the impossibility of studying this or any other science to advantage from a text book only, but that laboratory work by the student is essential.

SORE NECK

Take Scott's Emulsion for scrofula. Children often have sores on the neck that won't heal up. The sores may come and go. Parents may not know what's the matter nor what to do. Scrofula is the trouble and Scott's Emulsion is the medicine.

Scott's Emulsion heals the sores. But that is not all. Scrofula leads to consumption. This is the real danger.

Scott's Emulsion is the "ounce of prevention" that keeps off consumption.

We'll send you a little to try, if you like.

CHRISTIAN ENDEAVOR.

The Twelfth Annual Convention Will Meet at Las Vegas on Dec. 26.

ARRAY OF SPEAKERS.

When the twelfth convention of the Christian Endeavor opens in Las Vegas on December 26, it will present an array of speakers and workers such as have never been in New Mexico before.

Rev. Clarence E. Eberman, field secretary of the United Society of Christian Endeavor, a man with a national reputation, will be the principal orator of the occasion. In connection with Mr. Eberman, Mrs. Eberman will have charge of the junior work, she having large experience in that line.

Among the other notables from a distance will be C. E. B. Ward, field secretary of the Colorado Christian Endeavor; H. R. Chapman, president of the Colorado union, and Rev. W. V. Patchell, of Pueblo, who is said to be a convention in himself.

Among the territorial workers will be Judge McFie, of Santa Fe; A. M. Forrest and D. M. Richards, of Las Cruces; Rev. W. J. Marsh, W. K. Preston and W. H. Decker, of Albuquerque, and Rev. D. McGill, of Raton.

Among the able women speakers from abroad will be Mrs. J. C. Palmer, "Junior Work," of Albuquerque; Mrs. F. B. Blakesley and Miss Lottie Sweet, Las Cruces; Miss E. M. Berger, of Santa Fe, and Miss Sarah Ellis, of Silver City.

The following Las Vegas speakers will participate in the convention: Rev. Norman Skinner, Rev. A. C. Geyer, D. J. Osborne, E. C. Herlow, Mrs. J. A. Carruth and Miss L. Coffee.

The musical program will be under the direction of J. G. McNary and wife, assisted by Miss Edith Rodkey, Miss Blanche Rothgeb and L. R. Allen.

The two societies at Las Vegas are leaving nothing undone toward making this meeting the best that has ever been held in the territory, and they expect a large attendance of delegates from all parts of the territory.

Saved at Grave's Brink.
"I know I would long ago have been in my grave," writes Mrs. S. H. Newsum, of Decatur, Ala., "if it had not been for Electric Bitters. For three years I suffered untold agony from the forms of indigestion, waterbrash, stomach and bowel dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 pounds." For indigestion, loss of appetite, stomach, liver and kidney troubles Electric Bitters are a positive, guaranteed cure. Only 50 cents at all druggists.

Monuments Are All in Place.
General J. W. Barlow, U. S. A., retired, and General Jacobo Blanco, of the Mexican boundary commission, arrived in El Paso from Columbus, New Mexico.

They have been inspecting the monuments marking the boundary line between the United States and Mexico.

In talking to an El Paso Herald man of the trip General Barlow said:

"We have been out about a month, visiting the line. During that time we possibly visited about twenty-five per cent of the monuments. These monuments we find to be in good condition except that the iron ones need painting."

Before we started I noticed a report that some monuments had been moved by private parties, in the vicinity south of Tombstone. This section of the line we investigated very thoroughly and while we did not run the instruments over the line, from our personal knowledge of it, we were satisfied that no monuments had been moved.

We will remain here several days making up a report of the trip in which we will make a recommendation that the iron monuments along the line be painted."

Some time ago there was a report that the iron monuments were to be removed and cement monuments put in their places. When asked regarding this General Barlow said: "Should the iron monuments rust out in time it will then be soon enough to think about putting others in their places."

Kodol Dyspepsia Cure.

Digests all classes of food, tones and strengthens the stomach and digestive organs. Cures dyspepsia, indigestion, stomach troubles and makes rich red blood, health and strength. Kodol rebuilds worn-out tissues, purifies, strengthens and sweetens the stomach. Gov. G. W. Atkinson, of W. Va., says: "I have used a number of bottles of Kodol and have found it to be a very effective and, indeed, a powerful remedy for stomach ailments. I recommend it to my friends. J. H. O'Reilly & Co.—B. H. Briggs & Co."

Mrs. Jennie Leys was awarded the heaviest damages ever inflicted against a railroad for the killing of a member of a family. For her husband's death in the Park avenue tunnel disaster the jury awarded her \$100,000. Her husband was manager of a big New York dry goods house.

What's in a Name?

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. J. H. O'Reilly & Co.—B. H. Briggs & Co.

GOVERNMENT'S BIG RENT.

Fifty-four Private Buildings Leased for \$210,000 a Year.

The national government pays property holders in the District of Columbia \$210,000 each year for the rental of fifty-four private buildings, which it occupies. After February this amount will be increased by about \$50,000 annually, which, it is understood, is about the amount the government will pay for the use of the new Mills building, designed especially for the navy and war departments.

It has been estimated that the amount the government will pay in rentals to private owners of buildings, namely, \$260,000, represents, at four per cent, a principal of \$6,500,000. This sum is only \$500,000 less than the total cost of the library of congress.

A Good Cough Medicine.

(From the Gazette, Toowoomba, Australia.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockner. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

Mrs. F. Wright, of Oelwein, Iowa, is another one of the million women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

A Young New York Lady Tells of a Wonderful Cure.

"My trouble was with the ovaries; I am tall, and the doctor said I grew too fast for my strength. I suffered dreadfully from inflammation and doctored continually, but got no help. I suffered from terrible dragging sensations with the most awful pains low down in the side and pains in the back, and the most agonizing headaches. No one knows what I endured. Often I was sick to the stomach, and every little while I would be too sick to go to work, for three or four days; I work in a large store, and I suppose standing on my feet all day made me worse. At the suggestion of a friend of my mother's I began to take Lydia E. Pinkham's Vegetable Compound, and it is simply wonderful. I felt better after the first two or three doses; it seemed as though a weight was taken off my shoulders; I continued its use until now I can truthfully say I am entirely cured. Young girls who are always paying doctor's bills without getting any help as I did, ought to take your medicine. It costs so much less, and it is sure to cure them.—Yours truly, ADELAIDE PHARM, 174 St. Ann's Ave., New York City.—\$5000 forfeit if original of above letter proving genuineness cannot be produced."

DEMING.

From the Herald.

Mrs. Judge Merrill is recovering from the rheumatism. Mrs. T. F. Fendall has leased the rooms in the new Clark block and will have them ready for occupancy about January 1st.

John McCabe, of the XT ranch, received a carload of Hereford bulls during the week. Sim Holstein received two carloads of Hereford bulls for his ranch about the same time.

James S. Fleider, Esq., the Silver City attorney, has removed here with his family to reside. As soon as suitable quarters can be secured Mr. Fleider will open his law office.

A. L. Sanger, a prominent citizen of Rincon, New Mexico, has been in the city all week looking for a suitable residence for himself and wife. Mr. Sanger likes Deming and contemplates establishing a general repair shop here.

Henry Setzger, B. Setzger, Thos. P. Taylor and E. B. Peak, four prominent mining men of Bridgeport, Conn., were visitors to The Herald office. They think that the Deming mining district offers some excellent chances for investment.

A PESTIFEROUS GERM.

Burrows up the Scalp into Dandruff and Saps the Hair's Vitality.

People who complain of falling hair as a rule do not know that it is the result of dandruff, which is caused by a pestiferous parasite burrowing up the scalp as it digs down to the sheath in which the hair is fed in the scalp. Before long the hair root is shriveled up and the hair drops out. If the work of the germ is not destroyed hair keeps thinning till baldness comes. The only way to cure dandruff is to kill the germ, and until now there has been no hair preparation that would do it; but today dandruff is easily eradicated by Newbro's Herpicide, which makes hair glossy and soft as silk. Send ten cents in stamps for sample to The Herpicide Co., Dept. "F," Detroit, Mich.

It is said that the Santa Fe is figuring on replacing all the engines of the 1100 class that are on the passenger train service on the New Mexico and Rio Grande divisions, with those of the 1000 class. The reason given for this change is that, while they are practically the same engine, the 1000 class have the best cylinder material and are not given the cracking cylinder heads as much as the former class.

Railroad Topics

A. N. Turner, the accommodating day clerk at the local railway station, is on the sick list.

J. Emerson, formerly employed on the New Mexico division, is assisting as switchman in the local yards.

A meeting of the stockholders of the Grand Canyon Railway company will be held at Williams on January 5.

Crawford Norman recently resigned his position at Salzman's to become freight and baggage man at the Williams depot.

There has been a considerable increase in the force at the railroad shops lately in the endeavor to keep up with the rush of work.

Clergymen's blanks for application for reduced rates, for 1903, have been received at the depot, and the clergy are requested to call and fill them out.

Charlie Rawlins returned to Williams from the east last Saturday. The first of the week he joined one of the Santa Fe engineer crews and departed for Needles.

M. Joyce, of the Colorado Midland, spent last night in Albuquerque, and left for El Paso this morning. Mr. Joyce is traffic agent for that road at San Francisco.

The shutting of the electric plant of the Santa Fe at Needles has arrived and it is expected that by Christmas time the current will be turned on at the Needles enterprise.

John Williams, engineer on the Santa Fe Pacific that was injured in a wreck out at Flagstaff some two months ago, and for some time cared for at the local hospital, has gone east on a visit.

A bunch of the Santa Fe traffic managers who attended the recent meeting held in Albuquerque, and who went to El Paso last Wednesday to meet agents of other roads at that place and to look over the new union depot site, passed through the city this morning en route east.

W. H. Cone, a carpenter in the employ of the Santa Fe, is in the Needles hospital with quite a cut on his head. E. A. Wyatt, another carpenter, is there with a cut foot and T. Riley with a sprained ankle. The Needles hospital has been full for some time, every bed being occupied.

The New Mexican says: The construction of the proposed railroad from Albuquerque to Durango will open a splendid country to development. A great part of it is practically unknown to the outside world, but includes some of the best timber and mineral lands in the southwest and holds vast agricultural possibilities. Such a line would mean very much to the future growth and prosperity not only of Albuquerque, but to the whole territory.

The capitalists in back of the proposition will make no mistake in building it.

Passenger trains from the east continue late, but those from the west are arriving about on time. No. 7 of last night did not get in until this morning. No. 27, the El Paso train, due to leave here at 11 o'clock last night, did not leave until late this morning.

C. B. Watts, of Arkansas City, Kan., is now installed as stenographer in the master mechanic's office at Winslow, relieving L. C. Studer, who has gone to San Francisco. Mr. Watts was formerly the clerk in Mr. Drury's office when that gentleman was master mechanic in Arkansas City.

The Winslow Mail says: A couple of railroad men engaged in a scuffle in front of Babbitt Bros. store, and in a clinch both fell through one of the big show windows. In addition to breaking the window, a number of costly lamps displayed inside were smashed to pieces. Altogether, the little altercation will cost the two men about \$100.

A helper engine on the Glorieta mountains, in charge of Engineer Boyd, collided with a double-header below Canoncito Wednesday night, with the result that Fireman Brawner and Nelson were injured, the latter seriously, and two engines were badly damaged. Boyd was dug out of a coal pile after the collision, but it was found that he had escaped with a few scratches and bruises.

S. E. Busser, superintendent of the Santa Fe reading rooms, announces a lecture in the Albuquerque reading rooms, Monday night, December 15. The speaker is Judge E. H. Madison, of the Kansas supreme bench, one of the prominent orators of the west. His subject is, "The Law and Lawyers."

The address will be by no means technical, but adapted to meet the mind of the laymen. Incidentally Judge Madison will tell the railroad men how to keep out of jail. He will be introduced by Mr. Busser, who will outline briefly the aims and ends of the reading room system. A musical program will introduce the speakers.

IT'S A DRESS PARADE.

President Loree Says Passenger Traffic Is an Idle Show.

President Loree, of the Baltimore & Ohio, does not value passenger traffic very highly. In speaking of a project to build a new passenger station at the national capital, he said he would do all he could to promote the erection of the proposed new passenger station, although it involves great expense to the road without a cent of corresponding gain.

Mr. Loree says: "I am a believer in freight. In my opinion the passenger business is the dress parade part of the railroad business. We build fine coaches and throw them away for finer coaches in a friendly competition with each other. We erect mammoth stations and tear them down to erect larger stations. Every business has its display features, and this is ours. I do not believe the passenger department of any railroad is self-supporting. More money is spent in these luxuries than is ever received in fares. The passenger business does not pay, and never did. Every substantial enterprise has its frills and decorations, and the passenger business forms ours. Yes, I will do all I can to promote the erection of the station, for these things are necessary after all to show what a great railroad is and how great it is."

We serve a nice lunch every Saturday night, to please you. Zeiger's Cafe tonight.

PRESENTED MILLIONS.

Northwestern Mail Route Agent Has a Rare Streak of Luck.

C. A. Anderson, of Kenosha, Wis., mail route agent on the Northwestern railroad, has had a stroke of rare good fortune by being presented with property claimed to be worth over \$2,000,000. The property is located near Hannibal, Mo., and is said to contain a quarry of lithographer's stone, the richest in this country.

The value of the property was known years ago and the owner willed it to a former governor of New York, who died on the way to visit the bequest. His widow offered half to Anderson, who is a relative of the family, if he would look after its development. Anderson went to Hannibal and secured experts who reported finding the rich vein of stone.

Anderson has declined an offer of \$700,000 for his share and will move to Hannibal to develop the quarries.

It is fine. That lunch at Zeiger's Cafe tonight. A lunch that pleases you.

RAILWAY UNDERGROUND.

Thirty-three Miles of Tunnels to Be Constructed in Colorado.

Deeds conveying the right of way to the Cripple Creek & Pueblo Railroad company were filed with the county clerk at Cripple Creek, and simultaneously articles of incorporation were also placed on file. The purpose of the company is to construct a railroad connecting the gold camp with Pueblo. The length of the railroad will be thirty-three miles.

The road will be constructed in the district through a system of underground tunnels, and the motive power

used in the tunnels will be either electricity or compressed air. Thomas B. Casey, of Boston, is the president of the company; J. R. McKay, of Chicago, treasurer, and the other directors are F. N. Hutton, C. C. Chapin and E. N. Chapin, of Boston; J. G. McAnley, of Chicago; C. B. Hibbard, of New York, and W. H. Spurgeon, of Colorado Springs.

Best free lunch. That is all. At Zeiger's Cafe tonight.

The "Handsome Man."

One thing is certain, the Santa Fe company has a handsome lot of traffic managers, says the Albuquerque Citizen. Well, handsome is as handsome does and the Santa Fe traffic men usually do the handsome with the southwest. And the handsomest one of them all lives in El Paso. This is George E. Roe, known for years as the "Handsome Man of the Santa Fe."—El Paso News.

One of those fine appetizing lunches will be served at the White Elephant tonight.

VIA NEW ORLEANS.

New Competitor in the Field Against Santa Fe and Rock Island.

The Chicago Tribune says: The Illinois Central and Southern Pacific railroads have formed a close traffic alliance on business from Chicago via New Orleans to the Pacific coast. The arrangement for close connection between the Louisville & Nashville and Southern Pacific has been surrendered. The Southern Pacific has joined with the Illinois Central in the building of a new union depot at New Orleans. The new deal will become effective January 1.

The Queen & Crescent is expected to join the new combination. A serious fight between the Louisville & Nashville and the combination is anticipated. The former threatens to join hands with the Texas & Pacific and throw its influence to the Gould interest. The two fast trains between New Orleans and California points lately put on by the Southern Pacific makes close connections with the Illinois Central, and it is said that the Central will run through sleepers via New Orleans to the Pacific coast and compete with the Santa Fe and Rock Island lines.

THE LAST CASE.

The Court of Private Land Claims will Pass Out of Existence Next Year. Matthew G. Reynolds, United States attorney of the court of private land claims is at Washington to argue before the United States supreme court the Jose de Leyla grant case, he representing the government and Hon. Frank W. Clancy the claimant. The claim is for about 18,000 acres in southern Santa Fe county and includes the famous mines of the American Tur-

quoise company at Turquesa. Mr. Reynolds, in an interview at Washington, says:

"The court has passed upon about 35,000,000 acres in Colorado, New Mexico and Arizona, and about 2,600,000 acres have been confirmed to claimants, none of which land is in Colorado. This present case is the last before the United States supreme court and the court of private land claims expires on June 30, 1903. It will then have finished all business which it was created to transact. It has been in existence since 1892."

FRESH OR CANNED.
You can't tell the difference when cooked between our brands of canned vegetables and fruits and the fresh articles. Canning is such a science with the best packers that in canned and bottled goods you get practically what you could from garden or tree. Our regular customers know this; we would like you to find out for yourselves.

SHORT LINE AND CLERKS.

The Former Will Not Be Built Yet, While the Latter Want Increases in Wages.

An Associated Press dispatch from Topeka, Kansas, under date of December 12, says:

President E. P. Ripley, of the Santa Fe, denies that his road has purchased the Texas Central. Mr. Ripley says that all reports to the effect that such a purchase was about to be made were erroneous as the Santa Fe does not want the Texas road.

The short line from Albuquerque to Galveston will not be built just yet, according to Mr. Ripley, and for this reason no Texas acquisitions can be used just yet. The contract for the construction of the Santa Fe short line across New Mexico to connect the Pecos Valley line with the coast lines is to be let within a few days.

Clerks Want More Wages.

The Topeka State Journal says: It is said that a movement is on foot among the thousands of clerks employed by the Santa Fe railway to secure a general increase in the wages paid to this class of railway employees.

The requests for more pay will come before the freight and passenger officials of the road, and the head of this department is Second Vice President Paul Morton. As yet the plans have not taken definite form, and it is very difficult to ascertain just how far the movement has spread or how strong the organization of railway clerks is.

Railway clerks are in a peculiar position with relation to the railway which employs them. It is from the ranks of the clerks that most of the officials of the road are recruited, and as there is no definite line between the \$30 a month clerks, the \$200 a month clerks and the officials themselves, it is very difficult for a concerted movement for a wage increase to be made. It is this peculiar condition which has made it difficult for the clerks to work together in any "brotherhood" such as exists among the trainmen, shopmen and general laborers.

Third Vice President J. W. Kendrick, General Manager A. G. Wells and General Superintendent Shepard, of the Santa Fe, are in conference at Los Angeles with committees representing the brotherhoods of engineers and firemen that have made a demand for increased compensation. The conference will be in session several days, and if new schedules are agreed on they will become effective January 1.

OFFICIAL MATTERS.

Supreme Court Meeting.

The territorial supreme court will meet in Santa Fe on Wednesday, January 7. The Bar association of New Mexico is called to meet in regular session on the same day.

Treasury Receipts.

Territorial Treasurer J. H. Vaughn received from Solomon Luna, treasurer and collector of Valencia county, \$53.36 of 1900 taxes, and \$1,189.92 of 1901 taxes.

Incorporation.

A certified copy of the articles of incorporation of the Southsprings Ranch and Cattle company was filed in the office of the territorial secretary. The company was incorporated under the laws of Wyoming, at Cheyenne, on December 1, by Percy Hagerman, Eugene A. Sunderlin and Harry C. Hall. The papers were acknowledged in Colorado Springs, Colo. The company is incorporated to carry on a ranch, cattle and land business and has the authority to purchase and improve lands, plat townships, store water and establish irrigating plants for private and municipal use, purchase factories and mills and issue stock therefor, establish telephones, tramways and other means of communication and mortgage and sell lands. The capital stock is \$1,000,000, divided into 10,000 shares of the par value of \$100 each, and the term of existence is fifty years. The trustees who will serve during the first year are James J. Hagerman, Percy Hagerman, Herbert J. Hagerman, Wm. F. Greenwood and Henry C. Hall. The principal office is at Cheyenne, Wyo., and in New Mexico the principal office is at Southsprings ranch, Chaves county. Branch offices may be established at such places as the trustees may decide. The company is authorized to accept the laws of such states and territories as it may desire to operate in and the trustees may meet at such place as may be designated in the call for the meeting.

BASKET BALL.

(Concluded from page one.)

A clean game of basket ball, but did not enjoy the attempted assaults upon each other. There existed a feeling of hatred toward each other, and they used this as a means of getting even. The high school boys played in tough luck.

The University once showed a sign of team work, but it could not exist under the awful rush.

The high school scored three from goals on fouls.

Carl Holman made a fine field throw, but the whistle sounded before the ball reached the basket. Strumquist made a throw of the same nature, but the umpires were in favor of the University and tooted their whistles just in time to prevent a score. Cannon, a star University player, threw two field goals, Tasher two and Bowle one on fouls.

There is fine material in both teams, and with a little systematic practice at the same time observing the rules governing this universally popular and inspiring game, they would be able to play the game in a manner that would win the admiration of every basket ball enthusiast.

The real game of basket ball requires alertness and presence of mind, but not the football spirit, which was plainly to be seen last night.

The popularity of the game was caused by the clever passing and throwing of the ball.

Miss Rosa Berry furnished music for the splendid dance which followed the contest.

There is no Mistake About It.

Thomas Hall, of the music firm of Hall & Leonard, telegraphed from Chicago that a carefully selected car load of Chickering Bros.' and other makes of pianos are on the road for Albuquerque. From present indications Mr. Leonard states that this car load of pianos will be sold within the next thirty days and hereafter the firm hopes to supply their increasing trade.
