ROOSEVELT AT
GETTYSBURG

Delivered an Earnest Address
That Was Heard by 20,
000 Persons

IDEALISM AND COMMON SENSE

The Colonel Declared This Mix-
ture Essential to Success in
Peace and War.

(By Special Leased Wire to New Mexican)
Gettysburg, Pa., May 30.—Standing
at the spot where Abraham Lincoln
delivered his famous address, forty-
nine years ago, Colonel Theodore
Roosevelt today spoke of the encon-
ter between the North and the South
which reached its crisis here and
found in the deeds of the past themes
which applied to the present day.

Colonel in Role of Preacher.
The former president turned aside
for the day from the stress of polit-
ical campaign to the service of this
spot of memories. About him massed
on every side were thousands of
persons, among the hundreds of Civil
War veterans. Colonel Roosevelt
spoke earnestly, but as a preacher
rather than a political leader. The
throne which he heard him listened in
grave attention with occasional out-
bursts of applause.

22,000 Engineers Present.
Colonel Roosevelt came here from
Oyster Bay to fulfill a promise which
he made several months ago to the
Brotherhood of Locomotive Engineers
who have been holding a convention
at Harrisburg and who came here to
observe Memorial Day. He first spoke
briefly at a luncheon attended by
2,000 engineers.

20,000 Persons Present.
The luncheon was given in a tent.
To bring the crowds, twenty-two spe-
cial trains steamed into Gettysburg.
Railroad men said that these trains
brought in nearly 20,000 persons.

Lesson of the Day.
Colonel Roosevelt went over the
battlefield with Warren S. Stone,
grand chief of the Brotherhood of Lo-
comotive Engineers. The veterans of
the Civil War, said Colonel Roosevelt,
in his address at the national cem-
etery not only left us a United country,
united forever, and not only left us
the priceless heritage of the mem-
ories of valorous self-sacrifice shown
in the Civil War, but also by their
deeds and then whose attitude in the
war and after the war, have taught
us lessons which we should apply to
ourselves in civil life.

Idealism in Peace and in War.
During the war they showed that
mixture of intense and lofty idealism
with sound, practical common sense,
which is as essential to the Nation's
success in peace as in war.

Justice and Material Prosperity.
"So in civil life at this moment, the
prime necessities of this Nation are
that our people shall show both a lofty
idealism insisting on the rule of jus-
tice and hard-headed practical com-
mon sense in recognizing that we
must secure material prosperity and
that, so far from there being any
necessary antagonism between justice
and material prosperity, neither can
be given its full development unless
the development of both goes hand
in hand.

Inequality of Reward.
"Our protest must be against inter-
equality of reward, against reward
that comes to privilege instead of
to service and of course especially
against all reward that comes to any
man because of conduct that
amounts to wrong-doing in violation
of the eternal laws that underlie right
from wrong.

Must Face Existing Evils.
"If we refuse to face the fact that
there are great existing evils, and
that we must work with all our heart
and soul and mind to solve them,
then we shall prepare disaster to our-
selves in the future. We shall no less
prepare disaster for ourselves if we
fail to work with Lincoln's kindness
of spirit toward all our fellow citi-
zens and with malice toward none,
with charity to all striving resolutely
to accomplish our ends, but frowning
on all vindictiveness and doing every-
thing in our power to prevent the
rankling hatred, whether shown in
the form of envy or of arrogance, and
the disregard for the rights of others
which have so often in the past turned
movements for the betterment and
uplift of mankind aside from the goal
at which they were aimed, and have
inevitably marred what would
otherwise have been achievements of
the more far-reaching good for all hu-
manity.

Bridge Washed Away.—The bridge
over the Red river between Taos and
Quetta, Taos county, has been wash-
ed away by flood waters.

TAFT'S TRIBUTE
TO AVIATOR

President Called Wright the
Father of the Science of
Aeronautics

WAS FAVORITE WITH THE ARMY

Built and Sold the War Depart-
ment Its First Military Flying
Machine.

(By Special Leased Wire to New Mexican)
Washington, D. C., May 30.—In gov-
ernment circles, especially in the sig-
nal corps of the army, profound sor-
row was expressed at the news of the
death of Wilbur Wright. His connec-
tion with the government in the early
days of aeroplane development was
particularly close.

Relations With War Department.
Wilbur Wright negotiated the first
contract with the war department for
an aeroplane, in February, 1908. Prior
to the issuance of specifications for
this first heavier-than-air flying ma-
chine, he was a frequent visitor to
the army signal corps headquarters.
During these visits, Brigadier General
James Allen, chief signal officer of
the army said today there never was
a time when Wilbur Wright showed
any doubt of his ability to do exactly
what he had undertaken, or made ex-
travagant claims for his machine.

Built First Military Aeroplane.
The first military aeroplane in the
world, which the Wright brothers
built for the United States, was
brought to Fort Meyer, in 1908. In it,
Orville Wright, on September 9, 1908,
maintained a continuous flight of one
hour and the same day carried a pas-
senger on a short flight. Soon after
Wilbur Wright went to France where
he made better records in a duplicate
machine.

General Allen Pays Tribute.
General Allen today paid a high
tribute to Wilbur and Orville Wright.
"To them," he said, "is due the great
credit of first publicly demonstrating
to the world the practicability of dy-
namic flight. The success of the
Wright brothers was not due to chance
or to any accident or discovery, but
to their persistence, daring and intelli-
gence in scientifically working out the
different parts which go to make up
their machine and practically testing
the same in flight."

Was Highly Honored.
The Wright brothers received a
medal and thanks from Congress and
also a medal from the Smithsonian In-
stitution for their achievements.

Taft Expresses Regret.
Washington, D. C., May 30.—Presi-
dent Taft, who presented the gold
medals, granted by Congress to Wilbur
Wright and his brother Orville, and
who had frequently seen Mr. Wright
fly, today dictated the following state-
ment:

Wright Was a Pioneer.
"I am sorry that the father of the
great new science of aeronautics is
dead, and that he has not been per-
mitted to live to see the wonderful
development that is sure to follow
along the primary lines which he laid
down. He deserves to stand with Fal-
ton, Stephenson and Bell."

**LARGE DELEGATION OF LAS
CRUCES CITIZENS HERE.**

**Men Prominent in Business Life of the
Metropolis of the Mesilla Valley
Visit Capital.**

An influential delegation of Dona
Ana county citizens arrived this morn-
ing from Las Cruces, having been de-
toured via Deming on account of the
Santa Fe washout at El Vado. There are
24 delegates in the delegation which
called on Governor McDonald late
this afternoon and later met with
various legislative committees in the
interests of good roads legislation,
and also legislation desired by the
Elephant Butte Water Users' Asso-
ciation. Representing the Elephant
Butte Water Users' Association are:
Numa C. Frenger, James F. Sattley,
Joseph L. Taylor and William Palmer.
Representing the Las Cruces Auto
Club are: President Frank M. Haynes,
Secretary Francis E. Lester, Dr. W. E.
Garrison and Mark B. Thompson. De-
legates of the Dona Ana county mass
meeting are: Mayor J. P. Mitchell,
Sheriff F. Lucero, City Clerk M. B.
Stevens, Orrin A. Foster of the Rio
Grande Republican; H. B. Sims, W. A.
Sutherland, Morgan O. Llewellyn, E.
C. Wade, Jr., Roman de la Ossa, W. S.
Gilliam, W. M. Adair, George Frenger,
T. Rouault, Jr., M. B. Paxton. There is
no political or factional tinge to the
sending here of this delegation. Francis
E. Lester has been chosen chair-
man and N. C. Frenger, Francis E.
Lester and M. B. Thompson, spokes-
men. Add to these the presence in
the capital of State Senator H. B.
Holt, Representative Llewellyn and
Moreno of Las Cruces, and Editor Will
Lapoint of the Las Cruces Citizen,
and it is certain that the City of the
Crosses will be heard from in legisla-
tive circles during the next few days.
The visitors will remain here until
Saturday evening.

Longshoremens at Berlin Dis-
cuss Plans for Inter-
national Strike

WOULD INCLUDE UNITED STATES

Proposed Suspension in United
Kingdom Received a Severe
Set Back To-day.

(By Special Leased Wire to New Mexican)
London, May 30.—The movement
toward a declaration of a national
strike received a serious set-
back today when the executives of the
Sailors' and Firemen's Union, which
is the strongest body in the National
Transport Workers Federation, the
organization which would declare
such a strike, decided against it. No-
tices were sent out by this body that
there would be no stoppage outside of
London unless the order were signed
by the secretary of the union. This
appears to indicate that a split has
arisen in the ranks of the Transport
Workers Federation which engineered
the big strike of last year and aimed
at combining all the trades unions
of the United Kingdom.

Immediate National Strike.
The secretary of the Dockers union
stated early in the day that there
would be an immediate national
strike of transport workers and river-
side laborers to be followed by an in-
ternational strike unless a result fa-
vorable to them were reached at a
conference. To this conference the
trades union will send their dele-
gates, although the employees, includ-
ing the port of London authorities,
have refused to take any part in it.
"The continental workers have al-
ready decided to strike," said the or-
ganizing society, "and it is only a
question of now confirming their de-
cision by the international executive."
The employers do not take much
notice of this threat as previous ex-
perience has shown that the continen-
tal workers, far from supporting the
British dockers have been rather
pleased to get the additional work
coming to them as the result of British
strikes.

For International Boycott.
Berlin, May 30.—The general coun-
cil of the International Transport
Workers Federation, whose headquar-
ters are in Berlin is preparing to act
on the appeal of the British dockers
to proclaim a world-wide boycott of
British shipping.

Vote Will Be Taken.
Herman Jochide, the president of
the council, announces that a cable
vote of the heads of the transport
workers' organizations of the nineteen
countries affiliated with the interna-
tional organization including the United
States and Canada, will be taken
on the question of the advisability of
calling a national boycott as soon as
the full report had been received here
from London.

**TAFT WILL FIGHT
FOR OHIO DELEGATES.**

**Senator Burton Left Washington to
Lead Forces in State
Convention.**

(By Special Leased Wire to New Mexican)
Washington, D. C., May 30.—With
President Taft's influence and that
of all the Taft political advisors back
of him, Senator Burton will leave
Washington Saturday to take up the
fight for control by the Taft forces
of the Ohio Republican state conven-
tion, scheduled for early next week.
Taft Will Dominate Ohio Convention.
Although Colonel Roosevelt won a
victory over the President in Ohio's
primaries, the Taft managers are con-
fident they can dominate the state
convention and add Ohio's six dele-
gates at large to the Taft column.

At a conference, in which Mr. Taft,
Vice President Sherman, several
members of the cabinet, and other
leaders were present last night, it was
decided that Mr. Burton should go to
Ohio and make the fight.
Taft Will Not Compromise.
Washington, D. C., May 30.—Presi-
dent Taft sent a telegram to Arthur
I. Vorsey, Republican national com-
mitteeman for Ohio, declaring that
while he does not need that state's
six delegates at large to secure the
presidential nomination he will not
consider a compromise in the Ohio
state convention.

Two Boys Arrested.—Ivy Ralthers
and Billy Coker were arrested at Ros-
well on the charge of buying and re-
ceiving a stolen horse belonging to a
Cloviss man.

**STRIKE CLOSES DOWN
CHINO COPPER MINES.**

The Chino Copper Company
at Santa Rita, Grant county,
has been compelled to close
down on account of a strike.
All classes of employees joined
in a request for higher wages
and being refused went out.
The men on strike include
twelve steam shovel engineers,
twelve steam shovel firemen,
twelve cranesmen, nineteen lo-
comotive engineers, nineteen
locomotive firemen, twenty
brakemen, and eighteen switch-
tenders.

Washout Ties Up El Paso Line.

revision bill. Further protests
made to Inter-Oceanic canals
committee against Panama canal
bill provision prohibiting
railroad owned steamers from
using canal.

Senator Warren appealed for
expedition of appropriation
bills.

House.
Not in session. Meets at 11
a. m. Friday.

Lorimer Case Monday.

Washington, D. C., May 30.—The
Lorimer election case will be brought
up in the Senate next Monday, im-
mediately after the routine morning
business. Senator Kern, of Indiana,
for the minority, who holds that cor-
rupt practices were used in bringing
about Mr. Lorimer's election today,
made the announcement to the Sen-
ate.

Pension Appropriation.
Washington, D. C., May 30.—The
Senate today passed the pension ap-
propriation bill, already passed by the
House. It carried \$164,500,000, an in-
crease of \$12,500,000 over the amount
appropriated by the House. The in-
crease was to meet the expenses grow-
ing out of the heavy volume of claims
under the Sherwood so-called dollar-a-
day pension law.

Reciprocity Law Repealed.
Washington, D. C., May 30.—The
House steel and iron tariff revision
bill passed the Senate today 35 to 32,
repealing the Canadian reciprocity law
putting a universal duty of \$2 a ton
on print paper and cutting the duty on
pig iron and ferro and silicon. The
bill now goes to conference with the
House.

FEDERAL FORCE AT SANTIAGO

**Commander Declares That He
Will Now Be Able to Crush
Insurgents.**

(By Special Leased Wire to New Mexican)
Santiago, Cuba, May 30.—General
Jose J. Montenegro, the commander-
in-chief of the Cuban regular army in
the field, who arrived here last even-
ing with a large detachment of rein-
forcements on board the cruiser Cuba,
intends to leave for Guantanamo bay
today.

He said he was now fully prepared
to crush the revolt, as he has suffi-
cient forces at his disposal. All ar-
rangements will be made immediately,
he said, to begin an active campaign
and it was his intention to make an
example of the rebels. All the loyal
negroes, however, would be assured
the fullest protection.

Burned 3,000 Tons of Cane.
A party of insurgents, under the
command of Vicente Anaya, today
burned 3,000 tons of sugar cane on a
French plantation near Guantanamo.
The United States gunboat Paducah
has arrived in Nipe bay where her
commander, George C. Mitchell, will
watch the situation. A body of insur-
gents is reported also to have burned
some buildings in the town of Daiquiri,
fifteen miles southeast of this city, be-
longing to the Spanish-American com-
pany.

Attacked While Burying Dead.
A detachment of twenty-five rural
guards who were aided by local vol-
unteers were attacked by rebels yes-
terday while endeavoring to bury the
bodies of several peasants hanged by
the insurgents at Manzanillo and El
Rincon, in the vicinity of Guantanamo.
Insurgents Retired.

The fighting continued until night-
fall when the insurgents retired. An-
other band of insurgents under the
command of Vicente Anaya set fire to
the Miraflores plantation near Guan-
tanamo, which was almost destroyed.
Battleships Arrive at Key West.
Key West, Fla., May 30.—Eight bat-
tleships of the Atlantic fleet arrived
here at 6 o'clock this morning and
anchored in the harbor. They form
part of the fleet dispatched here to
await eventualities in Cuba.

Washout Ties Up El Paso Line.

WILBUR WRIGHT
DIED OF FEVER

Pioneer in the Science of
Aeronautics Succumbed
to Typhoid

END EARLY THIS MORNING

Members of Family Were at His
Bedside When Sickness Took
Fatal Turn.

(By Special Leased Wire to New Mexican)
Dayton, Ohio, May 30.—Wilbur
Wright, the noted aviator, died early
this morning of typhoid fever. He
had been ill for several weeks and a
number of times had been reported
at the point of death, but each time
rallied.

Died at 3:15 Today.
Following a sinking spell that de-
veloped soon after midnight, Mr.
Wright died at 3:15 today. He had
been near death for many days and
though his condition from time to
time gave some hope to members of
his family, the attending physicians,
Dr. D. B. Conklin, and Levi Spitzer,
maintained throughout the latter
part of his sickness that he could not
recover.

Physicians Were Puzzled.
When the patient succumbed, he
was surrounded by the members of
his family, which includes his aged
father, Bishop Milton Wright; Miss
Catherine Wright; Orville, the co-in-
ventor of the aeroplane; Reuchlin
Wright and Lorin Wright. All of
the family reside in this city except
Reuchlin, who lives in Kansas. The
most alarming symptoms in Wright's
sickness developed yesterday shortly
before noon when his fever suddenly
mounted from 104 to 106 and then
quickly subsided to its former stage.
At this juncture the patient was
seized with chills and the attending
physicians were baffled by the turn
of events. Chills were unusual in a
patient suffering from fever this
high and the doctors at Wright's bed-
side were puzzled.

Died Before Doctor Arrived.
The condition of the aviator re-
mained unchanged throughout the
rest of the day and there was no im-
provement up until last midnight.
Then there seemed to be a slight im-
provement but soon there was a sud-
den turn for the worse and Dr. Con-
klin was called. He arrived at 3:25
and learned that Wright had died ten
minutes before.

Seized May 4.
Mr. Wright was seized with typhoid
May 4, while on a business trip in the
East. On that day he returned to
Dayton from Boston, and consulted
with Dr. Conklin. He went to his
bed immediately and it was several
days before his case was definitely
diagnosed as typhoid.

Attended High School.
Arrangements for the funeral were
completed early today. Wilbur
Wright was born in Henry county, In-
diana, April 21, 1867. Orville, the
sixth child, was born August 19, 1881.
Both Wilbur and Orville attended the
local high school, and stood high in
their studies. Hampered by heart
trouble, caused, it is thought by ac-
cidentally being struck by a pole
stick, Wilbur was compelled to aban-
don his purpose of attending college.
Their father, Bishop Milton Wright,
being away from home much of the
time, the two brothers helped to main-
tain their home.

Conducted Suburban Paper.
The two first started a job printing
office and for a while published a
small sheet that had a suburban cir-
culation. They then entered the bicy-
cle business, and opened a repair
shop, at the same time manufactur-
ing bicycles.

Began Study of Aeronautics.
In the meantime they began study-
ing the flying machine while carry-
ing on the bicycle business and in pur-
suit of this subject they acquired
knowledge by a working acquaintance
with different modern languages.

Comes of English Ancestry.
The ancestry of Wilbur Wright can
be traced through a number of gener-
ations in England. Samuel Wright,
through whom was transplanted the
lineage in America, came to Spring-
field, Mass., in 1736. His descendants
participated in the Revolutionary
War.

**JUAN GARCIA DIED AT
CANONCITO THIS MORNING**

Juan Garcia, 75 years old, a former
resident of Santa Fe died this morn-
ing at Canoncito. He is survived by
his widow, three sons and two daugh-
ters. One son and one daughter re-
side in Albuquerque, a son at Flag-
staff, Arizona, a son at Canoncito and
a daughter in this city.

**YOUNG MAN AT RATON
COMMITTS SUICIDE.**

Alfredo Valdez, aged 25
years, committed suicide at
Raton by shooting himself in
the left temple with a revol-
ver. He was married but a
love affair is given as a reason
for his suicide.

DAWSON WINS
AUTO RACES

75,000 Spectators Saw Start
of the 500-Mile Sweep-
stake Event

FAMOUS DRIVERS COMPETED

Records Were Broken at Every
Lap of Indianapolis Speed-
way Run.

Indianapolis, May 30.—Daw-
son in the National Eight won
the five hundred mile automo-
bile race, when DePalma's
Mercedes, which had led
throughout, developed trouble
in the last five miles.

Speedway, Indianapolis, May 30.
Under a cloudless sky, 75,000 spec-
tators and enthusiasts from all over the
country, assembled today at the In-
dianapolis speedway, for the greatest
event of the automobile world, the sec-
ond annual running of the American
500 mile sweepstakes. They came to
see twenty-four of the most famous
drivers and cars battle for honor and
fortune in the greatest race of motor-
dom.

Determined on New Record.
The course, washed clean of its
clack and dangerous coat of grease ac-
cumulated during the weeks of prac-
tice grind, glistened in the sunlight
when the big motors pulled out along
the repair pits, swarming with mechan-
icians. Harroun and his Marmon last
year did the distance in 6:42:08, and
every pilot today was determined to
cut down this mark in his effort to
come in on the \$20,000 offered for the
winner of the race.

Off at 10 O'clock.
With an explosive roar of the enor-
mous engines, and especially built for
this ultimate test of speed and en-
durance, the cars came together at
the electric timing wire at 9:50. In a
moment of cheering, Starter Wagner
let the cars go at 10 o'clock.

De Palma Took Lead.
Teddy Tetzlaff and his Fiat made the
first round of 21.2 miles in 1:43:49.
Then he lost the lead to Ralph de Pal-
ma. De Palma held his lead at the
twenty miles, which he covered in
14:28, bettering the old record of
15:29, set by Marquis in an Isotta at
Los Angeles.

Tire Killing Pace.
Spencer Wishart in a second Mer-
cedes, kept at de Palma's rear wheels,
with Bruce H. Brown, National third,
Ormsby's Opel broke its gasoline line
and he drew out. At fifty miles, de
Palma still led and was ahead of the
record. Bruce-Brown came into sec-
ond place and Mulford (Knox) crept
into third. The terrible pace began
to tell on tires. Johnny Jenkins came
into the stretch with one tire of his
White Whipping the track like a ball.
The car swung perilously, but Jenkins
held it true. Zengel's Stutz cast a
tire high in the air, but he, too, came
safely to his pit. World's records
went down throughout the first 100
miles. De Palma, leading, set a new
mark of 1:13:01 over Tetzlaff's old
record of 1:14:29. Joe Dawson, in a
National, pounded into second place
and Wishart took third. Bruce-Brown
withdrew his National and Harry
Wright, withdrew his Lexington be-
cause of engine trouble.

Record Smashing.
De Palma continued to pull ahead
at the 250 mile mark, just half the dis-
tance. His time was 3:03:34, just
141-4 minutes better than Bruce-
Brown's time last year. De Palma
made 300 miles in 3:43:21, beating
Harroun's time last year 18:04. His
average was 80:59 miles an hour. Na-
tional No. 8 went into second and Bu-
rian's Cutting was running third at
300 miles. Fiat No. 3 was forced back
to fourth place by a stop at the pits.
De Palma was about three laps ahead
of National 8 at 350 miles, his time
being 4:19:35, 2:55 better than last
year's time. De Palma had increased
his lead to four laps when he complet-
ed his four hundredth mile in 4:56:24,
26:41 better than Harroun made it.
National No. 8 was second and Fiat 3
third, De Palma's average was 80:9.

**AMERICANS ARE IN
DANGER IN REBEL ZONE.**

**Publication of Document Criticizing
United States Was Not
Published.**

(By Special Leased Wire to New Mexican)
Juarez, Mex., May 30.—Private tele-
grams received here today indicate the
situation about Chihuahua is critical
and that apprehension for the safety
of Americans in the rebel zone is not
unfounded. With the scarcity of ar-
mament of the rebels and the resent-
ment stirred up against the United
States for its embargo on the exporta-
tion of arms, a crisis has been reach-
ed in the revolution.

Will Not Publish Criticisms of U. S.
Chihuahua, Mex., May 30.—Because
the conservative element in the rev-
olutionary headquarters believed it
would be impossible to restrain the
lawless in their attacks on foreigners
if a document criticizing the United
States were spread broadcast through-
out the country, the publication of
the paper has been held up.

CITY OBSERVES
MEMORIAL DAY

Over 1,000 Persons in Pro-
cession That Honored
Nation's Dead

GRAVES DECKED WITH FLOWERS

Closing Ceremonies at National
Cemetery Impressive and
Beautiful.

Like the ensign draped with black,
Memorial day dawned with its sun-
shine half shrouded in clouds that
floated high in the heavens. A Sab-
bath day stillness pervaded the streets
of Santa Fe whose business houses and
offices were closed in respect to the
nation's dead. The gentle breeze that
came with the daylight gently furled
and unfurled the folds of many flags
bordered in crepe and half masted in
honor of those "who gave the last
full measure."

Though Memorial day originated
with those who upheld the Union either
in the field or in the nation's forum
it has long since ceased to distinguish
between those who wore the blue and
those who wore the gray and a united
country observes the memorial sacred to
all Americans who fought on land
and sea. Today the graves of the Con-
federate dead as those of the Federal
will be strewn with flowers while the
military honors so dear to the heart
of the soldier will be paid impartially.

The Procession.
First in the procession which formed
at 3 o'clock this afternoon under the
direction of Major Fritz Muller,
marshal of the day, was the First In-
fantry regimental band, Companies F
and E, New Mexico National Guard,
Adjutant General A. S. Brooks, com-
manding. Following the guards the
members of Carleton Post, Grand
Army of the Republic, John R. Mc-
Fie, commander, a number of Confe-
derate veterans and other soldiers were
in line. The Spanish War veterans
came next and just in front of the
members of the Women's Relief Corps,
Daughters of the American Revolution
and ladies of the floral committee.
Governor W. C. McDonald and staff
rode between the floral wagon and
the command of the Santa Fe Boy
Scouts led by Captain Edward Cart-

When public endorsement is made

Fe the proof is positive. You must
believe it. Read this testimony. Every
backache sufferer, every man,
woman or child with any kidney trou-
ble will find profit in the reading.

Mrs. Bernarda R. de Escudero, 106
Griffin St., Santa Fe, N. Mex., says: "I
hold just as high an opinion of Doan's
Kidney Pills today as when I publicly
recommended them in January,
1907. For about a year I was bothered
by a dull ache and weakness across
my loins and kidneys. I tried easily,
and any exertion brought on severe
pains in my back. Hearing Doan's
Kidney Pills highly spoken of, I was
induced to try them. The results
proved beyond a doubt that this rem-
edy lives up to representations. The
cure it has brought has led me to
praise it on more than one occasion."

MEMORIAL DAY.

(Minna Irving in Leslie's.)
The years have changed the uniforms
And crimson cords to dust.
The shining buttons and the swords
Are covered now with rust.
The corn of peace and plenty waves
Where once the earth was red,
But faithfully we cherish still
The memory of our dead.

Today we lock the office door,
And stop the busy mill,
To drop a garland and a tear
In places green and still,
Where north and south together sleep
As brothers 'neath the sod,
And wait beneath one starry flag
The final call of God.

The rolling of the angry drums
When mighty armies met,
The leaden battle-bees of death,
Are things that we forget;
But lo! the glory of the blue,
The courage of the gray,
Immortal in the nation's heart,
Will never pass away.

AROUND THE STATE

Died of Pneumonia at Las Vegas.
Andrew George Henry, aged four
months, son of Mr. and Mrs. George
J. Herman, died at Las Vegas of pneu-
monia.

Married at Omaha.

Miss Clara B. Booth, formerly of this
city, was married at Omaha, Nebras-
ka, to Professor G. R. Sloan by Father
Dowd of Saint Peter's church.

Pays Son's Shortage.

J. B. Legard, an aged farmer of
Waukegan, Ill., and father of William
Legard, former town clerk of Pail-
sade, Colo., delivered a certified check
for \$700 to city officials to cover short-
age in his son's accounts during the
last year.

Saloon Cases Continued.
Thirty cases charging Trinidad sal-
oonmen with operating gambling
rooms were continued to the
September term of court on mo-
tion of the attorney for the defend-
ants. The cases are the result of a
campaign to clean up the city.

Sentenced by Judge Leahy.
Judge David J. Leahy at Las Vegas,
sentenced Severiano Dominguez to 18
months to two years in the peniten-
tiary for the theft of a horse and to
pay the costs of prosecution. Rufino
Garcia was sentenced to 15 to 18
months for assault with a deadly
weapon. J. J. Hyder accused of em-
bezzling \$200 from the Singer Sewing
Machine Company, was acquitted.

REMAINS OF MRS.

B. F. READ TRANSFERRED

Taken to Rosario From Old Ceme-
tery Near Saint Michael's Col-
lege on South Side.

The remains of Mrs. Benjamin
Franklin Read, Dona Ignacio Cano,
mother of District Attorney Alexan-
der Read, Benjamin M. Read,
author of the Illustrated His-
tory of New Mexico, and Larkin
B. Read, cashier of the Santa Fe
First National Bank, were day before
yesterday transferred from the old
Catholic cemetery in Precinct 3,
Ward 1, of this city, to Rosario
graveyard, where B. M. Read owns a
private plot for the burial of mem-
bers of the family. Mrs. Read died
May 5, 1878. Besides the above
named survivors, there are four
more, three sons and one daughter,
from Mrs. Read's second marriage to
Mateo Ortiz, now dead. These are
Modesto C. Ortiz, attorney at Old Al-
buquerque; Luis G. and Juan R. Or-
tiz and Mrs. Transito Martinez, Teo-
dora Ortiz of Park View. B. M. Read
and J. B. Read looked after the trans-
fer and re-burial of the remains. Dis-
trict Attorney Read being absent in
San Juan county attending court.

ANTONIO A. SALLAS KILLED NEAR WATROUS

of Watrous, Mora county, was killed
by falling backward from his wagon,
his head striking a rock, fracturing his
skull and breaking his neck. He was
aged 66 years and leaves a wife and
six children.

Mrs. Wm. A. Allen, Chacon, New
Mexico, had so severe a cough that it
nearly choked her to death. Mr. Al-
len says: "We tried many things
without helping her when by good
luck I got a bottle of Foley's Honey
and Tar Compound. It helped her at
once and finally cured her. It is the
best medicine we ever used."—For

GOVERNMENT AGENTS INVESTIGATE SAN DIEGO.

Rumors Are Persistent That Indus-
trial Workers Will Renew Activity at
Los Angeles.

(By Special Leased Wire to New Mexico)
San Diego, Calif., May 29.—That the
United States government is interest-
ed in the Industrial Workers of the
World situation in San Diego was
again evinced today by the presence
of secret agents of the department of
justice. While they declined to state
why they were here, they were sup-
posed to be investigating the general
conditions.

Industrials for Once Are Reticent.
So far as the alleged shifting of the
scene of activity of the Industrial
Workers representatives from San
Diego to Los Angeles was concerned,
no statement could be obtained from
those directly connected with the so-
called "free speech" campaign in this
city. Attorneys for the Industrial
Workers were busy today with the
general situation. They refused to
forecast their future acts.

BLEW OPEN EVERY SAFE IN OKLAHOMA BUILDING.

Sympathy for Clarence Darrow
Prompted Blank to Wreck Fed-
eral Structure.

(By Special Leased Wire to New Mexico)
Oklahoma City, Okla., May 29.—Sym-
pathy for Clarence Darrow, now being
tried for alleged complicity in bribe
attempts during the McNamara
trial in Los Angeles, the police charge,
prompted George J. Blank to blow
open every safe in the federal building
here last night. Blank was arrested
today and placed in jail.

Denies Charge.
The second floor of the new build-
ing was practically wrecked. Work
on the structure was nearing com-
pletion. Blank, a structural iron worker,
came here from St. Louis a week ago.
He was employed in the finishing work
on the building. He asserts innocence
of knowledge of the acts charged
against him. The authorities said
Blank had accomplices and that these
are being sought today.

Deafness Cannot be Cured
by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deaf-
ness, and that is by constitutional re-
medies. Deafness is caused by an in-
flamed condition of the mucous lin-
ing of the Eustachian Tube. When
this tube is inflamed you have a rum-
bling sound or imperfect hearing, and
when it is entirely closed, Deafness
is the result, and unless the inflama-
tion can be taken out and this tube
restored to its normal condition, hear-
ing will be destroyed forever; nine
cases out of ten are caused by Cat-
arrh, which is nothing but an in-
flamed condition of the mucous sur-
faces.

We will give One Hundred Dollars

catarrh) that cannot be cured by

Healthy Mothers

Women who bear children and re-
main healthy are those who prepare
their systems in advance of baby's
coming. Unless the mother aids
nature in its pre-natal work the crisis
finds her system unequal to the de-
mands made upon it, and she is often
left with weakened health or chronic
ailments. No remedy is so truly a
help to nature as Mother's Friend,
and no expectant mother should fail
to use it. It relieves the pain and
discomfort caused by the strain on
the ligaments, makes pliant and elas-
tic those fibres and muscles which
nature is expanding, prevents num-
bness of limbs, and soothes the inflam-
mation of breast glands. The system
being thus prepared by Mother's
Friend dispels the fear that the crisis
may not be safely met. Mother's
Friend assures a speedy and complete
recovery for the mother, and she is
left a healthy woman to enjoy the
rearing of her child.

RELICS OF CORONADO'S
MARCH AT POST CITY.
Silver Trappings for Brides, Saddles
and Clothing Found in a Cache
at Cap Rock.

Silent reminders of the days when
Coronado crossed the Rio Grande
from Old Mexico and wandered north-
ward with his Spanish army in an at-
tempt to find the source of wealth
of the Aztecs were found at Post
City, Texas.

They were in the form of silver
trappings for bridles, saddles and
clothing and were cached in an al-
most inaccessible place near the
Texas town, where the Cap Rock, a
precipitous decline, marks the end
of the Llano Estacado and the begin-
ning of the lower plains.

In the cache of rocks were found
numerous silver discs, known as
"conchos," some as large as three
inches in diameter, presumably the
trappings from the saddle and trous-
ers of some Spanish don. Other and
smaller ornaments were found which
evidently came from the bridle of the
horse, the clothing and even the
sombreiro of the rider.

It will be remembered that Coro-

nado in 1580 put off north from Mex-
ico with a small army to discover the
mines of the Aztecs from which was
supposed to come all of the wealth.
In gold and silver, of that ancient peo-
ple. The march of these adventurers
was continued across the Rio Grande
river, up across the plains of Texas
and finally through what is now Ok-
lahoma and into Kansas before the
search for the mythical mines was
finally abandoned.

It is presumed that marauding In-
dians following in the wake of
this expedition found in one of their
deserted camps, the saddles, bridles
and clothing from which the orna-
ments were taken and that the find-
ers cached them and never returned
for the baubles. They were found
three years ago when the water
works system of Post City was being
installed. These mementoes of the
romantic age in Mexico are now in
possession of C. W. Post at Battle
Creek, Michigan.

Mrs. M. Bishop, Columbus, Kan-
sas, suffered from a weak back a
good many years, as a result of kid-
ney trouble. I began taking Foley
Kidney Pills and soon after the pain
left my back and today I am fully
cured. For sale by all druggists.

CHAMBER OF COMMERCE MET LAST EVENING.

Members of Santa Fe's Body Consid-
ered Attractive Factory
Proposals.

The Chamber of Commerce met
last evening at the Palace of the Gov-
ernors to take up a mass of routine
business that has been neglected owing
to the many open meetings that
have been held in the past few weeks.
Among other matters, communica-
tions were read proposing the estab-
lishment of two factories in the city
that should mean a large source of
revenue. Santa Fe must, however,
offer the inducements necessary to
secure their location here.

Reports were made by the commit-
tee on good roads concerning the El
Rio de Los Frijoles road, which has
been published; the Roswell-Santa
Fe road, which has been noted in a
previous issue, and the road to Taos.
In regard to the latter, a letter was
read signed by the county commis-
sioners of Taos stating that they
would furnish \$2,000 toward the plac-
ing of the thoroughfare in Taos coun-
ty in good repair. Santa Fe county
commissioners have already signified
their willingness to furnish funds and
when Rio Arriba county is heard
from, the state will be asked to take
up the work of construction. The
Shackelford bill now pending before
the lower house of Congress was en-
dorsed by a resolution adopted by the
chamber.

Another resolution endorsing the
work of the "See America First As-
sociation" an organization proposing
to change the American habit of go-
ing to Europe, was endorsed by the
body. Secretary Harris was instruct-
ed to subscribe for The Municipal Re-
view, a publication devoted to civic
matters. C. W. Fairfield and Mayor
Celso Lopez were admitted to mem-
bership.

TWO MORE BILLS ARE SIGNED

Senate Passed Quite a Large
Number of Acts on
Wednesday

DONA ANA COUNTY CITIZENS

Send Delegation of Twenty Two
to Push Good Roads
Legislation.

A mass meeting of Dona Ana coun-
ty citizens in the court house at Las
Cruces night before last arranged for
a big delegation to leave yesterday af-
ternoon for Santa Fe, but going first
to Deming. The delegation is abso-
lutely non-partisan and non-factional
and is representative of the best citi-
zenship of the county. It is antago-
nistic to no particular legislator and
will occupy itself in urging the pass-
age of good roads legislation such as
was recommended in its resolutions
by the Good Roads Association at
its recent convention at Santa Fe, and
such other legislation as is deemed
necessary. There are twenty-two citi-
zens in the delegation and they will act
as a unit in this non-partisan move-
ment.

Signed by the Governor.

In addition to the three bills signed
by the governor mentioned in the
House proceedings yesterday, Govern-
or McDonald sent another message
late in the afternoon which was read
in the Senate, the House having al-
ready adjourned. It informed the
legislature that he had signed Senate
Bill No. 2, fixing the time for holding
district court in the fifth judicial dis-
trict; and House Bill No. 15, to give
employees two hours time on election
day to cast their vote.

Effort to Get Out Prizefight Bill.

An effort of Senator Evans to get
his anti-prize fight bill out of com-
mittee failed, both Republicans and Dem-
ocrats voting against his motion that
the committee on judiciary report Sen-
ate Bill No. 61, an anti-prize fight mea-
sure and be discharged from its further
consideration. Evans declared that
the bill had been in committee for
two months and it looks as if the com-
mittee intended to chloroform it.
Crampton moved to table the Evans
motion and this carried 17 to 7, Mc-
Coy, Republican, voting against the
motion to table and one Democrat and
one Progressive voting to table the
motion.

Bills on Third Reading.

The Sulzer bill to permit the sale of
native wines, brandies and beer to be
sold without license on premises where
manufactured, was recommitted to
the committee on revision so as to
cut out brandies and beer from the
desired immunity. Sulzer was huffy
about this and declared that the
measure was for the benefit of native
wine growers and merely changed the
present law so that they could sell
in less quantities than five gallons
down to one gallon at a time. He in-
sisted that the measure was in the
interest of temperance.

Senate Bill No. 165, regarding serv-
ice of writs of venire by others than
the sheriff, was amended so as to add
the emergency clause, and passed 22
to 1.

Presidential Electors.

Senate Bill No. 167, relates to presi-
dential electors, making the custom-
ary provisions governing the selection
and organization of presidential elec-
tors who are to meet in the Senate
chamber at Santa Fe, and who are em-
powered to fill vacancies. They are to
receive \$5.00 a day while in session at
Santa Fe. It was passed 23 to 1.

House Bill No. 168, giving the fed-
eral government exclusive jurisdiction
over federal building sites, was passed
after adding the emergency clause.

Senate Bill No. 175, an act provid-
ing for the commitment of insane per-
sons, for the apprehension of persons
who have escaped from the insane asy-
lum, for the release of insane persons,
and for the recommitment of insane
convicts who have regained their reason
to the penitentiary, was passed
23 to 0.

Senate Bill No. 168, to repeal section
101, chapter 1, of title 2, Compiled
Laws of 1897, relating to keeping herds
at a distance of three leagues from
settlements, was passed, after Cramp-
ton had commented that the act is one
to permit Democratic voters to be
brought to the polls. McCoy said he
favored prohibition and as the act had
the word "prohibit" in it, he favored
the bill. The vote was 19 to 5.

Senate Bill No. 80, regarding escheat-
ed estates, was amended and passed
24 to 0. The bill places the proceeds
from escheated estates into the
school fund.

Senate Bill No. 114, a garnishment
act, was recommitted to the commit-
tee on revision on motion of Miera.

Senate Bill No. 105, relating to com-
pulsory education was on motion of
McCoy recommitted to the committee
on education.

Senate Bill No. 169, providing that
civics and history of New Mexico, be
taught in the public schools, was
amended so as to provide for the
preparation of a New Mexico civics by
a New Mexico historian, the book to
sell at a price fixed by the state board
of education but at not more than a
dollar a volume. The bill passed 23
to 0.

Senate Bill No. 176, to regulate en-
vassing by business colleges and cor-
respondence schools and extending over
them the jurisdiction of the state
board of education, was passed with
a slight amendment, by 21 to 3.

Senate Bill No. 155, an act provid-
ing for the distribution of delinquent
taxes prior to 1911, into the state and
county road funds, was passed 20 to 4.

House Bill No. 211, identical with
Senate Bill No. 144, passed by the
Senate some time ago, validating cer-
tain acts of incorporated municipali-
ties, incidentally relieving the town of

Las Cruces, was passed 24 to 0.

Senate Joint Memorial No. 7, re-
questing the passage of an act by con-
gress creating a second federal district
in New Mexico, was introduced by
Miera under suspension of the rules
and was passed 23 to 1.

Senate Joint Resolution No. 23, was
introduced by Evans and provides for
the ratification of a federal amendment
to the constitution that United States
Senators be elected by the direct vote
of the people. Evans moved to sus-
pend the rules for the passage of the
resolution. Holt moved a substitute
motion referring the resolution to the
committee on executive communica-
tions. The substitute motion carried.

Various committee meetings were
announced and then adjournment was
taken to Friday afternoon at two
o'clock, Thursday being Memorial day.

THERE WILL BE NO BOLT.

The talk of bolting is always a most just prior to the national conventions. But there will be no bolt this year. The Democrats are too confident of success to bolt. No matter how distasteful the nomination of any particular candidate would be to a large number, yet they could not be driven out of the party at this juncture.

On the Republican side, the Roosevelt campaign has served to make a bolt of the progressives out of the question, has eliminated the insurgents of Kansas, of Wisconsin, and of a few other states. While the Roosevelt campaign has been an inexcusable injustice to President Taft, yet, it has saved the Republican party from a split and possibly from a defeat.

Says Leslie's Weekly today: "For a short time after Sumner, Greeley, Trumbull, Palmer, Julian, Curtin, Schurz and other Republican leaders turned against Grant in 1872 and entered into a league with the Democrats, there was a fear among the Republicans that Greeley, the candidate of the bolters, would carry the country. Long before election day came, however, the Greeley canvass collapsed and Grant was re-elected by a much broader margin even than that which he had gained over Seymour in 1868.

"The Mugwump revolt of 1881 against Blaine aided in defeating him and in electing Cleveland, but Blaine himself played the role of an insurgent two years earlier. He virtually advised his friends in the state of New York to bolt Folger, the Republican candidate for governor, and so many of them did this that Folger was beaten and Cleveland was elected. In retaliation many New York Republicans bolted Blaine in 1884, thus assisting the man whom he placed in the governorship to defeat him for the presidency. But even with the defection of the Republicans of Conkling's section of the state in 1884, Blaine would probably have carried it and the presidency had it not been for Burchard's 'Idiot's Run, Romanism and Rebellion' outburst a few days before the election.

"Messrs. Teller, Dubois and their silver associates, who rejected McKinley and his gold-standard platform in 1896 and went over to Bryan's support, injured themselves and not the Republican party by that act. Some of the rank and file of the deserters came back to the Republicans afterward, but their leaders were compelled to retain their new affiliations and thus lost their influence on the politics of the day.

"As a student of history, Colonel Roosevelt knows the suicidal futility of bolts among the Republicans."

A CRIME AGAINST THE PEOPLE.

It might as well be understood now that any Republicans who will stand out against the enactment of a sensible Republican legislative program, should be counted with the Democrats henceforth. Such Republicans were elected under false pretenses on their part, for the voters certainly would not have sent them to the legislature had they known that treachery was contemplated.

Only seven legislative days remain for the Republicans to justify their having been elected to legislate for the new state. It is by the record made between now and Saturday, June 8, that the Republican members of the legislature must stand or fall. Not one of them, unless he voted and fought for the passage of a consistent legislative program carrying out Republican platform pledges, will be in position to excuse himself by saying that political exigencies, or the senatorial situation, or personal ambition, or anything else, prevented him from acting with his party at a critical moment.

The Republicans in each House have two-thirds majority. The New Mexican still believes that the four members who choose to call themselves Progressive Republicans, are Republicans at heart, and recognize clearly that neither they nor their party nor their constituents, nor their commonwealth can gain by defeating the Republican legislative program. This is the time to get together, not to get together would be a crime against party and people.

WILBUR WRIGHT.

Time is generally needed for a proper perspective in estimating the greatness of men, but the judgment of history can be anticipated as to Wilbur Wright who died this forenoon, a martyr to science. He solved satisfactorily the problem of flight that had engaged mankind from time immemorial, and which philosopher after philosopher had declared was unattainable to man. Though only 44 years of age, he had already won immortal fame ten years ago, through his successful flights with a heavier than air machine and since that time, has devoted himself with his brother unceasingly in improving the aeroplane.

until it has become as certain a means of locomotion as the automobile. Wright was not married, was a native of Millville, Indiana, a high school graduate at Dayton, Ohio, and did not receive a college degree until 1909 when his achievements had given him imperishable fame. He was awarded the gold medal of the French Academy of Sciences and though he reached the pinnacle of fame remained quiet, unassuming, industrious and still striving for higher attainments. It can be truthfully said of him that his death is a national loss.

LEST WE FORGET!

Fifty years ago, when were transpiring some of the events tenderly remembered on Memorial Day, when this nation was passing through its darkest crisis, when Europe had about made up its mind that the United States of America had split, had demonstrated the failure of a government by the people for the people, it was the Republican party that had entrusted to it the responsibility of preserving the nation, and it proved equal to the task. There had been no such crisis before, and there is no such crisis now, but the Republican party still stands as the bulwark against the onslaughts of those who would wreck insidiously the republic founded by the fathers.

The Republican party was in its infancy when called to power in that great crisis of fifty years ago but it proved that its principles were to endure, no matter under what party name. Since then, the nation has been confronted with many problems but the Republican party has met them squarely, has solved them intelligently, has deserved the confidence of the voters. Each decade has brought new conditions under which to work out these problems, but the principles of the party have remained the same, for they are elementary, eternal principles and are not mere vagaries of the hour and the moment.

Again the Republican party is called upon to meet great problems under entirely new developments. The majority of the people have confidence that the Republican party, and that party alone, can cope with these questions that are pressing for solution. There is no danger that the people will entrust the ship of state to the Democratic party. They tried it twice the past fifty years and they have not forgotten the lessons thus learned.

Those who imagine that the United States will elect a Democratic president this fall have not studied history, have lost faith in the common sense and patriotism of the people. Here and there, and now and then, the voters have elected Democratic governors in Republican states, have elected a Democratic House or turned the Senate over to the Democracy, but it was only by a fluke in New York, that Grover Cleveland was elected president the first time, and it was only once since 1860, that the entire national government was really turned over to the Democracy. There are enough voters still living who then said: "Never again!" to prevent any such calamity in November of this year.

HOMELY COUNSEL.

Millionaire Stevenson, the steel king, who the other day impressed the investigating committee of Congress by his straightforward answers and rugged wit and humor, in an interview yesterday explained in a few words what he regards as the foundation of his success, of his advancement from a poor boy to affluence and wealth. His advice is applicable as much to young men in Santa Fe as in New York. He insists that the boys of today have the same opportunities as the boys of his generation to rise from hard manual labor to positions of prominence and influence. "For my part, I was brought up on work, oatmeal and the short catechism of the Presbyterian church," and even today hard work, sensible diet and religious and moral conduct, are fine foundations on which to build character and success. Stevenson insists on regularity of habits, temperance, virtue, studiousness, going to bed early and rising early, cutting out the high places, marrying early and then being faithful to wife and home. His greatest and only recreation lies in his books and his library and he plies the young people who insist that they cannot find in books and work all the satisfaction, amusement and recreation they crave. These are homely thoughts and yet, if adherence to these principles does not necessarily bring affluence and power, they bring what is even better, health and happiness.

Nor must it be forgotten that Theodore Roosevelt is not only gathering but he is making material for an autobiography that will be as thrilling as the "Story of the Cowboy Detective" and that will bring him a dollar a word besides royalties sufficient to pay back the enormous expense of his present campaign.

The Switzerland of America.

Valley Ranch, N.M., May 29, 1912. Mr. and Mrs. R. L. Trevett returned today from Albuquerque where they have been spending the last few days. A horseback party left this morning for an all day's camping trip to the Rincon. Among the riders were Dr.

and Mrs. Colton of Philadelphia, J. D. Verplanck of Fishkill-on-the-Hudson, Miss Weber of Chicago, Mrs. Hays and her daughter of Kalamazoo, Mich., and Mrs. J. F. Miller. Don't forget there will be fishing Sunday. Will you be there?

A MATTER OF TEMPERAMENT.

The cost of living is a matter which each person must settle for himself. What some can do is illustrated by the case of Mrs. Hannah Krueger, of Chicago, who came from Germany, where, no doubt, she learned lessons in thrift. Her husband is a laborer. On an income of ten dollars a week she has reared three children and given them a common-school education, while for nearly seven years she has deposited two dollars a week with a building and loan association, with \$837 to her credit. Raising a few chickens helped out her income. Her children are now earning money, and the mother says, "We are contented." This is a case of careful habit deliberately pursued, says Leslie's Weekly today. Other persons in like circumstances spend all their incomes. It is a matter that rests with those most concerned. Here in Santa Fe there are a thousand families that live on less than six dollars a week, while a score of families cannot pay their bills on \$3,000 a year, and have fewer happy hours than many who spend only one-tenth as much. The cost of living, after all, is a matter of temperament.

New organizations for boys we have by the score, but none has yet been discovered that equals the Sunday school, according to Leslie's Weekly. No man who wants to do something worth while for the rising generation need ask for a better opportunity than would come to him as the teacher of a class of live boys. In sentencing a nineteen-year-old burglar to the reformatory, County Judge Fawcett, of Brooklyn, gave strong commendation to the Sunday school. "In the five years I have been sitting on this bench," said Judge Fawcett, "I have had twenty-seven hundred boys before me for sentence, and not one of them was an attendant of a Sunday school. Had you gone there, I am sure you would not be before me today."

Free wool and free sugar are in themselves sufficient to keep New Mexico in the Republican column this fall. No one is foolhardy enough to claim that New Mexico was not in the Republican column last November. Eastern New Mexico would never get its best sugar factories if Democracy triumphs in November, and the sheep-grower of western New Mexico would have to go out of business.

JOHNSON AND FLYNN MAY VISIT SANTA FE.

Expect to Be in Party of Eight Automobiles Coming From Meadow City on Sunday.

(By H. W. Lanigan.)

East Las Vegas, N. M., May 30.—Jack Johnson's unexpectedly prompt arrival on the battleground is a big boost for this city's mammoth fight entertainment on the Fourth of July. It proves that where even the champion himself was prone to pooh-pooh the Flynn date when it was first made, he is keen on Flynn and has him doped as a gent who may cross his path and run him out of the spotlight.

Both Johnson and Flynn expect to be in a party of eight automobiles that will make the trip from Las Vegas to Santa Fe on Sunday, and expect to be in the capital from 11 a. m. to noon.

Johnson's arrival is just the boost the big pugdog performance needed. Contracting to be on the battleground no later than June 4 Lil' Artha assured Jack Curley when allowing that clause to be inserted in the articles that he doubted if he would abide by it. "That's all foolishness," said the dusky one. "All I will need will be about two weeks work. You know I want to be on hand when I open my cafe in Chicago May 15 and I wouldn't miss them big auto races in Indianapolis for nothing."

Curley called the turn. He told Johnson that he would chirp a different tune along in early May. Sure enough, Curley's chatter came true. Reading about all the work Flynn was doing, right on the ground; the weight fighting fireman was putting on; the way the paleface's camp was being organized and the way the experts were warming up to the show, made Johnson sit up and take notice. As early as May 1 Lil' Artha gave up leading the burrah, simple life and started doing both roadwork and gymnasium work, boxing included, in Chicago. Even when at Jack Johnson announced that he would not hit out for Las Vegas before the first week in June. So when he hove into view May 26, accompanied by a full staff of trainers, it showed conclusively that Lil' Artha had become thoroughly imbued with the idea that the Flynn match was going to be a most exciting one, after all.

Johnson was happily fixed in his training camp within twelve hours after his arrival. Incidentally, he started his work going at once. He took a ten-mile drill on the road his first day in town. Jack got down to work in earnest his second day in Las Vegas. His daily programme embraces a two hours run in the fore-

WINTER DESERTS.

The steamed puddings are the favorites when the days grow cold and outdoor exercise helps us to digest more hearty food. Here is one that is not expensive but is wholly delicious:

Indian Pudding.—Scald a quart of milk, then add a cup of corn meal; stir until scalded, then add another quart of milk, a cup of sugar, a cup of raisins, two beaten eggs and a cup and a fourth of brown sugar. Bake, stirring constantly at first. Bake three hours.

French Fruit Pudding.—Add a cup of molasses to a cupful each of suet and sour milk. Sift two cups of flour with one and a half teaspoonfuls of soda, a half teaspoonful of cloves, half a teaspoonful of salt and a teaspoon of cinnamon. Mix well; then add three-fourths of a cup of flour mixed with a cup and a fourth of raisins, three-fourths of a cup of currants. Turn into a buttered mold and steam four hours. Serve with Sterling sauce.

Sterling Sauce.—Cream a half cup of butter, add a cup of brown sugar gradually, a teaspoon of vanilla and four tablespoonfuls of cream. Add the milk and flavoring very slowly to prevent the sauce from separating.

Fig Pudding.—To a third of a pound of chopped suet add a half pound of finely-chopped figs, two and a third cups of stale bread crumbs are soaked in a half cup of milk and added; then add two well-beaten eggs, a cup of sugar, and three-fourths of a teaspoonful of salt. Mix well and steam three hours. Serve with Yellow sauce.

Yellow Sauce.—Beat two eggs until very light, add a cup of sugar gradually and continue beating; then flavor with a teaspoon of vanilla. A half cup of orange juice and a little grated rind instead of the vanilla makes a delightful sauce.

Orange Puffs.—Cream a third of a cup of butter, add a cup of sugar, two beaten eggs, a half cup of milk, one and a half cups of flour and two teaspoonfuls of baking powder. Flavor with orange and use the yellow sauce with the orange flavor.

WHEN you get in a tight place and everything goes against you, till it seems as if you could not hold on a minute longer, never give up then, for that's just the place and time that the tide'll turn.

—Harriet Beecher Stowe.

HINTS ON TABLE SETTING.

The old lines, "Order is heaven's first law," are never more appropriate than when used in reference to table arrangement. Exact military precision is the first requirement after neatness.

Place the silence cloth, if you possess one, with the nap up, and draw it straight and even. A very good silence cloth may be made from a smoothly woven bed spread that has outlived its usefulness.

Lay the ironed tablecloth with the middle fold in the center of the table. See that the ends and corners are even.

Place every dish and piece of silver in soldier-like order. Turn no dishes upside down. Care in setting a table contributes much to the comfort of the family.

In serving anything that is passed by the waiter, it should be set down at the right of the person served. When removing plates or brushing crumbs it should be done from the left.

When passing food to each person it should be passed on his left, so that the right hand may be free to accept the food.

When removing dishes of a course dinner, all dishes from each place should be taken first, then the meat and vegetable dishes.

Food and dishes are removed from the left.

A waitress should never pile her tray with dishes; one service is sufficient to remove at one time.

CITY OBSERVES MEMORIAL DAY.

(Continued from page One.)

the city of Boston to the village of
Lexington; a ride which culminated
the following day (19th of April) in
the first battle of the Revolution, and
which brought about the Independ-
ence of the Thirteen Colonies that
then and there formed the nucleus of
the American nation.The flame of patriotism lighted up
by this group of Lexington patriots
burned brightly again in the hearts of
the colonists when Patrick Henry
made his immortal speech in the Con-
tinental Congress, in which he uttered
these unforgettable words: "Give
Me Liberty or Give Me Death." Those
sublime sentiments the other mem-
bers of the Congress joined their
voices and brought forth on the fourth
day of July, 1776, the solemn Declara-
tion of American Independence.Eleven years after (1787) the Mag-
na Charta, (the Constitution) under
which the government was organized,
democratic in principle and republic-
an in form, adopted.Twenty-five years later, (1812) our
country passed through its second
war of independence, and the free-
dom acquired by these sacrifices tri-
umphed again, and the nation went
on developing its resources and indus-
tries and progressing in a marvelous
way for a period of forty-nine years,
but not without taking note of inter-
national convulsions which threatened her
ruin. The question of slavery oc-
casioned disunion between the states
of the south and those of the north,
whose outcome was the war with
Mexico (1846) and after that the Civil
War (1861-5), which latter conflict
had the effect of consolidating fore-
ver the principles of liberty enunciat-
ed on the Fourth of July, 1776.In order to commemorate that event
we have met today in this mournful
place wherein repose the ashes of a
large number of heroes who in the
evil days of that sanguinary and frat-
ricidal war sacrificed their lives in
order to preserve for us the precious
heritage left to them by their fore-
fathers.If patriotism is one of the greatest
gifts which ought to dwell in the
heart of the son who loves his coun-
try, its sublimity is greater in the
present instance. The love of coun-
try displayed by the sons of New
Mexico in that war, and in the Span-
ish-American war has no parallel in
the history of the world. In the present
instance only thirteen years have
elapsed between the date of the execu-
tion of the Treaty of Guadalupe Hi-
dalgo and the beginning of hostilities
between the South and the North,
when the first opportunity came to

MRS. W. LINDHARDT,
125 Palace Ave.New Mexico to prove its loyalty to
the government under whose stand-
ard and fate had placed them. I was very
young in those stormy days, but I had
occasion to notice in this Capital
(Santa Fe) the effect of the proclama-
tion of the immortal Lincoln, in
which the great President sought the
co-operation of all good citizens, call-
ing them to the battlefields to defend
the government whose existence was in
jeopardy, and the danger was not
from being at war with another pow-
erful nation, but from the treason of
her sons.The men of New Mexico responded
to that call of Lincoln's with demon-
strations of joy, going forth to battle
with such willingness and patriotism
as the descendants of those who on
the fourth of July, 1776, raised in Phi-
adelphia the patriotic cry of independ-
ence. What other nation in the
world can present a proof of more dis-
interested loyalty? Not one.Therefore, we came today to this
burial ground to honor the ashes of
our brothers and those of their com-
rades. We came here to send to heav-
en a prayer for the eternal repose of
their souls. We came to show our
gratitude to them for their co-opera-
tion and the shedding of their blood
in the battlefield for the maintenance
of this government, securing to us
by their triumph the enjoyment of
true liberty.May our children and our children's
children preserve fresh, and forever,
in their hearts the example that we
give them through this manifestation;
may they from year to year, as we
have done, come here to decorate the
graves of these heroes with fragrant
flowers symbolizing the gratitude
which they feel in their heart, in or-
der that this patriotic custom may
endure as long as the great American
Nation.These are the heart felt wishes of
him who has the honor, gentlemen
of the Grand Army, of having com-
plied with the undeserved invitation
to join my humble voice with yours
in praising the memory of our late de-
fenders whose noble actions are
worthy of our most grateful remem-
brance.

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE CARDUI The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

ELKS' CARNIVAL OPENED LAST EVENING AT ARMORY.

Scenes of Great Excitement Witnessed Around the Roulette and Keno Tables.

Amid the flow of pink lemonade and the vivid oratory of concession barkers the Elks' carnival opened last night at the armory. So many and so varied were the attractions on every hand and so insistent were the invitations of the barkers that it was hard indeed to escape without enriching the exchequer of the clever promoters of the big show.

Santa Fe in its palmy days could scarcely have seen more alluring games of chance. Candy formed the prizes at the roulette and keno tables while the gypsy fortune teller extracted the timid dimes with the bait of future prosperity held temptingly within the mellow light.

As for the museum, nothing of its kind had been seen before west of the Mississippi, it is said, and the supposition is that nothing similar has been seen anywhere else in the world. The museum exhibits are kept secret, however, and so impressed were those who saw them last evening that they refused to divulge even a hint of the mysteries.

The country store agrees to accept produce for their wares and much may be purchased there for a pound of butter, a head of fresh cheese or a half dozen unaged eggs, or, of course, the convenient change. The telegraph and postoffice officials agree to transmit messages to anyone for a nominal charge and a specialty of "please remit" communications are advertised.

The fair opened with a street parade headed by the band. Dancing concludes the program every evening.

MRS. HARMON GIVEN OVATION AT BREAKFAST.

Mrs. Champ Clark Did Not Like it a Bit According to a Washington Dispatch.

Washington, D. C., May 30.—Echoes of the "Dolly Madison" breakfast which brought together at a harmony feast the wives and daughters of the country's leading Democrats indicate that a bit of mild "strife" crept into the proceeding. According to the after-dinner gossip, it was occasioned by the reception given Mrs. Judson Harmon, wife of the distinguished Ohio executive, when she rose to respond to the toast "Women of the Cabinet."

The ovation given her and the preference shown her by the wives of most of the influential men in the Democratic councils was a distinct tribute to Mrs. Harmon. Not only did the women applaud loudly but many adopted the masculine method of giving vent to enthusiasm by cheering loudly.

The Harmon ovation was not enjoyed keenly by Mrs. Champ Clark, according to those who attended the banquet. It was said that Mrs. Clark, who was toastmistress, showed discomfort when the cheers rang out for the wife of her husband's distinguished rival in the presidential race. Her color heightened to such a degree that many noticed it.

Senator's Wife as Equal Suffragist. Mrs. Atlos Pomeroy, wife of the Senator from Ohio, is regarded today as one of the most active and ardent suffragists in Washington, and capital social leaders invariably turn to her when seeking suffrage information.

Possessed of a keen wit, she is a formidable opponent to anti-suffragists in debate. She has a record of never having been beaten in an argument over votes for women. Opposed to Mrs. Pomeroy in view point is Mrs. Emmett O'Neal, wife of the militant governor of Alabama, who has recently been here on a visit. She opposes women suffrage because she feels that with its advent chivalry will be a thing of the past. She also declares that women suffrage in America is inevitable because "the American men will give the women anything they cry for."

"But I can imagine the falling away of little courtesies that women love when once the vote is obtained,"

EDUCATION AND THE NEW STATE

Class Oration at the Agricultural College by a Santa Fe Graduate

DELIVERED BY OLAF WINDSOR

Future of New Mexico Depends Upon the Conservation of Its Water Supply.

K. Olaf Windsor, son of Contractor and Mrs. A. Windsor of Santa Fe, as the class orator at the commencement at the New Mexico School of Agriculture and Mechanic Arts, last week delivered the following oration:

Our College and the New State.

Since the commencement of a year ago a great change has come over New Mexico; we have passed from a territorial form of government to that of state. We are now on a basis of equality with the sisterhood of states. We are no longer the "land of poco tiempo."

The laws enacted by our legislators no longer need be ratified by the President and by the Congress of the United States. Our actions may be criticized, but only criticized; no one but ourselves has the power to make law any apparently unwise measure. At the beginning of such an era there must necessarily be harmony in all departments of the new state. Not only do the legislature and the Chief Executive of the state need to work hand in hand, but there should be a perfect accord between the state government and its public institutions, especially those of higher learning. It would seem as though this were a fitting occasion to reflect upon the purposes for which this College was founded and upon what the new state has a right to expect it to contribute to the upbuilding of this new Southwestern commonwealth.

This institution is, and should be, the most important and valuable institution of higher learning. It is an institution offering a "liberal and practical education" to the youth of New Mexico.

We do not wish to be charged with undue prejudice in favor of our own institution, nor do we wish to underrate the value of the other state institutions of higher learning, but when we think of the field which is covered by the work done at this College, we feel that we are justified in holding that it may play a highly important part in the development of the future New Mexico.

Let us consider this more closely. The progress and development of any country or upon a portion thereof depends largely upon an accurate knowledge of the resources of that country, upon the solution of the problems presented by the development of those resources, and upon the well-trained, intelligent men who have this work in hand, and who understand thoroughly the conditions obtaining in the part of the country in which they work.

Upon what, then, does the future of New Mexico depend? I suppose that we may lay it down as a fundamental fact that the prosperity of any country depends primarily upon its water supply, and upon its conservation, judicious application, and use. We live in what is known as the arid Southwest; and one of the great problems with which our nation is grappling is that of reclamation; of wresting from the Giant Desert waste tracts of land and making them blossom as the rose. Let me draw a picture, for example, of this valley when the pro-

Are You Blue and Worried?

Nervous? Some of the time really ill? Catch cold easily and frequently suffer from biliousness or headache? The reason is that your system does not rid itself of the poisons in the blood, just as impossible as it is for the grate of a stove to rid itself of cinders. The waste does us exactly what the cinders do to the stove; make the fires burn low until enough cinders have accumulated and then prevent its burning at all. Your liver is sluggish—you are dull and heavy—sleep does not rest, nor is food appetizing. In this condition illness develops. Doctor Pierce's Golden Medical Discovery eradicates the poisons from the body—a glyceric alternative extract made from bloodroot, golden seal and mandarin root, stone and queen's root, without the use of alcohol. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood.

MRS. BLAKE.

Mrs. BENJ. BLAKE, of Port Dover, Ont., Dec. 26, writes: "I have been a great sufferer for years from throat trouble, catarrh, indigestion, female troubles, headache, constipation and nervousness—at times I would be in bed, then able to be up again. Was under many different doctors' care, and would get better for a little while, then I would go down with poison in my blood. After trying nearly everything I got worse. I read in The People's Common Sense Medical Adviser of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I have taken the bottles of Dr. Sage's Catarrh Remedy and 'Pleasant Pellets,' and have used five bottles of Dr. Sage's Catarrh Remedy. I am now able to do my work and walk with pleasure. I feel like a new woman. I enjoy everything around me and thank God for letting me live long enough to find something that made me well again."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

ject so well known to all of us as the Elephant Butte is complete. Thousands of acres of what is now sand and sage brush will be verdant with the crops of the field, the orchard and the garden. Thousands of head of the finest stock fed on these crops will yield their increase and their produce, and enrich the state. Thousands of attractive homes inhabited by virtuous men and fair women, and tens of picturesque villages will dot what are now pebbly wastes and gusty leagues of mesa. Schools, churches, public institutions will raise their stately heads among great groves of trees made possible by the vivifying power of moisture. Power generated from the vast force of stored water will light this tract, will solve the problem of transportation for man and what he has produced, and will turn the wheels of countless factories. From one end to the other of the Rio Grande valley it will be another kingdom of Penamah, an earthly Paradise. This is no fanciful picture. What has been can be again; and in doing this we shall be repeating an old story. And the story will be repeated, not only in this valley, but in many other valleys in the fair State of New Mexico.

But my hearers may ask what has all this to do with our College? I assert that our College has much to do with all this. Who is it that is to solve the great problem of water supply and its distribution? Who but the irrigation engineer, trained in our own halls? Who knows better than the graduate of our College in Irrigation Engineering the conditions of the land in which he has grown up? The civil engineer will lay out the tracts to be occupied by the future homes, and the railroad engineer will survey the lines along which the rapid modes of transit will run; and build these roads, and others for man, motor and beast. The agriculturist and horticulturist will use the water when brought upon the land. The experiments carried on at our institution will tell them how to get the best results, how to prevent the pests which may beset their crops. The soil physicists will lend their quota of information regarding the qualities of mother earth. The animal husbandman will tell of the stock, horses, cattle, sheep, goats, swine and poultry in which there is most profit; and will indicate how best to care for the produce, direct or indirect of these. Forestry will plant shade trees where formerly the sun's scorching rays baked and parched; and will beautify the happy valley. The cultural courses given in our institution will enable its graduates to live refined lives, rejoicing in the higher aesthetic pleasures. Our college students will make good and intelligent students who know what they want for their country, and how to get it.

Finally, but far from least in importance, the domestic science department will train homemakers, com-

petent, capable, intelligent and cultured women whose aim shall be to raise the standards of living and of society, and whose husbands and children shall rise up and call them blessed.

This, then, is the mission of our College, the purpose for which a wise Federal Government Act called us into existence, that we may offer to the young people of New Mexico virtually a free practical as well as liberal education—an education liberal in the truest and highest sense of the word. Well nigh a quarter of a century has passed since the nucleus was formed out of which this institution has grown. The little adobe school house with its two class rooms and three instructors has developed into the institution that you see today with eight large buildings scattered around an ever improving campus and with its faculty of fifteen persons. From the four winds of heaven have gathered here men and women bearing with them much learning and vast experience. Would that every member of this faculty might have a vision of the latent possibilities of New Mexico and its rising generation! Would that this vision might greet the mental eye of every graduate of the College, and of every student in it. The story is told of a great sculptor how in visiting the yard of a dealer in marble his eye lit upon a most unsightly and rugged mass which had been set in a remote corner as being unfit for use. Pointing to it, the artist bade his attendants convey it home to his studio. A friend expressed astonishment at the sculptor's choice and asked what he saw in it. "I see the perfect figure of an angel," he replied. The weeks passed and with the aid of chisel and hammer there grew to the eyes of the onlooker the angel feature and form.

Is not this story in some degree symbolic of New Mexico? But it takes the vision. It must be seen by the inner eye, else the stimulus to action will be lacking. From prehistoric times the battle has been waged against the hostile forces of Nature. In our own land the pioneer wrested the soil from the wilderness, from the savage Indian. The true American is the fighter—the captain of industry, the great financier, the great philanthropist, the great sociologist. Always his efforts have been directed to doing great deeds and doing them nobly. Have we not here in New Mexico a task as noble as any? Is it not one that should appeal to every drop of American blood in us, and to every drop of the best blood in the ancestry which went to make up America?

Surely we need no more inspiration, and surely in this College we should find the center of the fight. From her should come forth the officers of the great army, the leaders and the captains who are to direct the battle and win for New Mexico's sons a true and worthy heritage.

INDIAN SCHOOL CLOSING EXERCISES TOMORROW.

Oratorical Contest and Exhibition of Work by Pupils Will Be Features.

The oratorical contest Friday evening at the U. S. Indian Industrial School promises to be a very creditable entertainment. There will be a fine exhibit of the pupils' work, including school room work, shop work, sewing, laundering, as well as some fine specimens of cooking which may be seen in two of the school rooms either before or after the entertainment. The exhibit will give the public some idea of the work that is being done at the Indian School. There will be conveyances from the Indian school at the plaza at 7:30 o'clock for the transportation of people who wish to avail themselves of the opportunity to visit the Indian school on this occasion. A copy of the program to be rendered was published in Wednesday evening's New Mexican.

ROBBER KNOCKED GIRL DOWN AND SECURED \$35.

Miss Grace Casey in Charge of Station Lunch at Trinidad Was Victim.

(By Special Leased Wire to New Mexican) Trinidad, Colo., May 29.—Refusing the demand of a masked bandit, who entered the lunch room of the Santa Fe station early today, that she deliver to him the contents of the cash register, Miss Grace Casey, the young woman in charge of the place, was struck insensible by the robber who then carried the unconscious girl to an adjoining room, extracted the keys of the register from her pocket, secured the cash contents and escaped. Recovering consciousness a few minutes later, the girl gave the alarm. No arrests have been made. The robber secured \$35.

It is almost as hard for an old tea or coffee toper to quit as it is for a whiskey or tobacco fiend to break off, except that the tea or coffee user can quit and take up Postum without any feeling of a loss of the morning beverage.

When Postum is well made and served with cream, it is really better in point of flavor than most of the coffee served nowadays. To the taste of the connoisseur it is very like the flavor of fine, mild Java.

A great transformation takes place in the body within ten days or two weeks after coffee or tea is left off and Postum used. The reason is that the poison to the nerves—caffeine—has been discontinued and in its place is taken a liquid food that contains the most powerful elements of nourishment.

It is easy to make this test and prove these statements by changing to Postum. Read "The Road to Wellville," in pkgs.

HAVE YOUR WATCH
CLEANED OCCASIONALLY

A WATCH will run without
oil or cleaning longer than
any other piece of machin-
ery—but it needs both occasion-
ally.

If you will consider that the rim of
the balance wheel travels over fifteen
miles a day, you will not grudge your
watch a speck of oil and a cleaning

JOHNSON AND FLYNN
MAY VISIT SANTA FE.

(Continued From Page Four)

noon and a like hike in the afternoon.

The big black was also quick to start
his training work going. Jack has
a platform, 36x30, located in the back-
yard of his dwelling in "Old Town,"
the monicker saddled on Las Vegas
proper. Every afternoon Johnson has
it out hammer and tongs style with
Howard Morrow and George DeBray,
his two massive white sparring part-
ners. Cutler was over the jumps with
Johnson in Reno. DeBray is a new-
comer in the champion's camp. Both
lads are built on the same lines as
Flynn, which probably forms a very
good reason why they are filling their
positions.

Cutler and DeBray declare they
stand no chance of as much as tap-
ping Lil' Arthur oftener than once a
week and openly state that they feel
sorry for Flynn on the Fourth.

"I cannot for the life of me figure
how Jim can win the big trout," re-
marked Cutler the other afternoon.
"Now to win he must hit Johnson and
I cannot see him doing it."

Confidence certainly reigns in the
Johnson camp. Jack's collaborators are
plainly happy over the way their star
is hustling. They figure Johnson will
be as good July 4 as he ever was in
his life.

As for Flynn, the longshot, he is
hard at it at his training camp at Mon-
tezuma, under the watchful eye of
Tommy Ryan, the man who helped
make Jeffries. Flynn is rounding in
to wonderful condition and continues
to claim what he has always claimed,
to wit: that he "will knock the big
dinge stiff on the Fourth." There is
nothing to it but that the Fighting
Fireman is cock sure he is Lil' Ar-
thur's master.

Fight Promoters Pleased With Gov-
ernor.

It is little to be wondered that
Promoter Jack Curley, who with his
bride left California as soon as the
governor's legislative message assured
him there would be a fight, the Las

Vegas backers of the battle, Represen-
tative George W. Tripp, father of the
Tripp boxing bill and others interest-
ed, are gratified at the presentation of
the governor's message to the lawmak-
ers. It removes the last doubt as to
the possibility of Governor McDonald
stepping in at the eleventh hour and
stopping the contest, after the arena
had been built, the fans assembled
and the appearance for the contest of
the principals in the world's cham-
pionship contest. The message of
the governor will help the match as it
will insure the attendance of hundreds
not to say thousands, of those fans
who might have remained at home,
fearing the governor would call out
the mounted police or militia and a
trip to Las Vegas would be for naught
—the spending of money to see a fight
that might be stopped when the first
blow was struck.

Las Vegas, almost to a man, wants
the fight. It believes it will advertise
the town and city to advantage, will
bring thousands of dollars there
which will be left in the two munic-
ipalities and attract many desirable
people who will remain over for a
week or several weeks, visiting the
nearby mountain resorts and fishing
places.
