**FAT AND SLEEK
AND OILY****Railroad Agents Packed Constitutional Convention,
Says John B. Burg****FULL CREWS BILL DEBATED****Senate Passes Two House Memorials and Will Hold an Evening Session.**

Immediately after Speaker Baca called the House to order, this afternoon, the special order of the day, the "Full Crews Bill," House Bill No. 138, by Chaves, an act to promote the safety of employees and travelers upon railroads, was taken up. Chaves offered several amendments that were adopted. Vargas moved the passage of the amended bill, after section 2 was stricken out on motion of Nichols. Toombs in a set address, declared that the makers of the constitution empowered the corporation commission to do this very thing that this bill sought to accomplish. He argued strongly along this line pointing out that the passage of the proposed measure was utterly unnecessary and read from the constitution the provisions covering the points involved. Selfishness, if nothing else, would induce railroad managers to man fully every train. You might as well command a sheepman to employ two mayor domos and two burros whenever his sheep reached a certain number. He deplored the tendency that prompts legislators at every session of a legislature to introduce a lot of bills to harass railroad companies. A rapid-fire debate in which Skidmore, Chaves and Clancy took part, interrupted Toombs for a few minutes, but he resumed his argument, pressing home forcefully his point that the bill is merely cumulative of the higher law, that laid down by the constitution. Toombs said that he was not in any sense a railroad man but he hoped the legislature would be just to the railroads. The state owes much to the railroads; they have brought development, prosperity, civilization.

Rogers vehemently insisted on the necessity of legislation to compel railroad companies to protect the safety of the public. The railroad employees would not be asking for this legislation unless there were need for it. A similar bill is pending in the National Congress.

Clancy was called to the chair. Even though the constitution empowered the corporation commission to act, yet it does not deprive the legislature of power to pass this act. (Applause.)

Burg placed a different construction on the provisions of the constitution than did Toombs. "There are quite a number of things in that constitution of which the majority members of the constitution cannot be proud. There are jokers in that constitution which attempted to sew up the people for 99 years. For that reason by 12,000 majority, the people have made it easier to amend."

That constitutional convention was packed with railroad agents and these stood outside of the doors, as fat and sleek and oily as any railroad attorneys ever were. He referred to the Hawkins law as the most iniquitous piece of legislation ever perpetrated. Whenever he sees railroad men sprouting wings he looks around for Lucifer. The issue in this bill is: "Shall we save the railroad companies a few dollars in operating trains?" Burg then read statistics as to the number of railroad accidents in the United States. He accused the railroads, and especially the Santa Fe, of spending enormous sums for improvements but being pennywise in its railroad employees. In reply to a question of Carron, Burg said that the Santa Fe stock had been heavily watered in the past.

Skidmore offered an amendment that the act be not applicable to lines less than twenty miles in length or operating not more than four trains each way every 24 hours. Nichols, as a railroader of 10 years' experience, favored the amendment. It was passed.

Rogers moved to reconsider the striking out of section 2.

Section 2 as amended was reintroduced. The bill as amended was passed 38 to 4. Blanchard, Boulware, Goodell and Toombs voting no.

State Library Bills.

House Bill No. 20, by Sanchez, and House Bill No. 82, by Chaves, for the government of the state library was taken up under special order. The latter bill was substituted for the former. It makes the judges of the supreme court the library board, who shall appoint a librarian at \$1500 a year. Smith moved to table. The motion to table was carried 20 to 17. A motion to table both bills was carried 23 to 16.

The following new bills were introduced:

House Bill No. 279, by Carter, to repeal a portion of section 13, chapter 5, Laws 1905, chapter 85, Laws 1907, and chapter 125 of Laws of 1909, providing for the payment of fire department on August of every year, by the state treasurer of a sum of money equal to the amount received by such fire department under section 2132 of the Compiled Laws.

Senate.

A petition from 122 citizens of Quay county protested against county division.

**DIXON REQUEST
TURNED DOWN****Roosevelt Manager Asked for Seats in Republican National Convention****HE WILL PUSH HIS DEMAND****New, of Arrangements Committee, Said He Followed Predecessors' Policy**

(By Special Leased Wire to New Mexican) Chicago, Ill., May 31.—The ticket tangle continued to furnish excitement at Republican national convention headquarters today. Denial of Senator Joseph M. Dixon's statement that he had asked for tickets for Colonel Roosevelt's personal use and had been refused was made by Colonel Harry S. New, chairman of the sub-committee on arrangements for the convention. "I wish to deny Senator Dixon's public statement that he asked for 250 tickets to the convention for the personal use of Colonel Roosevelt," said Colonel New. "The telegram I received from Senator Dixon read: 'For the use of the Roosevelt national committee.'"

New Denies Dixon's Story.

"It does not want to be put in the position of having been discourteous to Colonel Roosevelt or any other distinguished citizen. In denying Senator Dixon's request, I simply followed the precedent established by my predecessors in the national committee and carrying out the rule that no tickets should be allotted to the managers of presidential candidates. If Colonel Roosevelt should make application for a reasonable number of tickets for his own use, for the use of his family, or for personal friends, he would get them."

Dixon Will Push Demand.

Chicago, Ill., May 31.—Senator Joseph Dixon, campaign manager for Colonel Roosevelt, may take his demand for 250 tickets to the Republican national convention before the national committee of the party when that body meets in Chicago, June 6.

This course was indicated today when it became known that members of the national committee had received long telegrams from Senator Dixon protesting against the action of Chairman New of the sub-committee on arrangements for the convention, in refusing the tickets.

**CUBAN REBELS
ARE IN EARNEST****Leaders Give Receipt For Property Taken in Name of Revolution****CRITICAL POINT IS REACHED****Government Has Scattered Its Forces to Protect Outlying Foreign Property**

(By Special Leased Wire to New Mexican) Havana, May 31.—The government declared today it has no news of the negro insurrection from the front and does not expect an important movement until tonight or tomorrow. No word has been received here of the landing of American marines from the gunboat Paducah at Daiquiri, where property of the Spanish American Mining Company, is reported to have been destroyed by the insurgents. The Paducah left Guantanamo last night for Daiquiri. There is now news from the United States gunboat Nashville at Nipe Bay and it is believed that all is quiet in that vicinity.

Critical Point in Revolution.

Washington, D. C., May 31.—The arrival of General Montegudo at the front as the commander in chief of the Cuban Federal forces, is being closely watched here. His success or failure is expected to forecast the ability of the federal government to cope with the situation.

Movement Is an Earnest One.

Should the rebel bands continue to attack foreign property it is possible that the United States will send a fleet of small vessels to various points bordering on the rebel zones to have marines on hand for immediate action. The fact that the rebel leaders in the present revolution are given receipts for property taken in the name of Estenoz, is believed here to indicate that the movement is an organized and an earnest one.

In army circles here the failure of the Cuban federal forces to make any headway against the rebels, is believed to be due to the fact that the government forces have been compelled to place themselves on the defensive by dividing up and attempting to furnish small detachments to many foreign properties which are demanding protection. Positive assurances have been received from the Cuban government that a force of Cuban troops has been sent to guard the property of the Spanish American Mining Company at Daiquiri on the south coast of Oriente near Guantanamo Bay.

Rebellion Needs Money.

The rebels made no effort to hold the place. Jose Cordova, secretary general of the revolution last night conferred with General Orozco in Bachimba regarding methods for raising a loan. Orozco was opposed to the use of any coercive methods.

Refugees Need Assistance.

Los Angeles, Calif., May 31.—About half of the 160 refugees from Mexico who were landed here yesterday by the transport Buford, were in need of assistance, according to reports today to the police department and the associated charities. Thirty-nine of the number who were missionaries in Mexico for the church of the Nazarene, have been taken to the settlement maintained by that church near Pasadena.

The single men among the refugees are quartered at the Y. M. C. A. home and will remain until work can be found for them. Three men and one baby who are sick are in hospitals. Mayor Alexander announced today that he would ask the city council for financial relief for the refugees.

**OROZCO MUST
ANSWER TO U. S.****Inflammatory Articles Are Subject of Diplomatic Investigation****FEDERALS NEARING CHIHUAHUA****Progress Is Slow Because Insurrectos Completely Destroyed Railroad.**

(By Special Leased Wire to New Mexican) Washington, D. C., May 31.—American Consul Letcher at Chihuahua has been instructed by the state department to take up with Orozco, the rebel leader, the inflammatory articles which have been coming from the rebel zone regarding anti-American sentiment on the part of the United States in not allowing arms and ammunition to cross the international boundary line. Consul Letcher will consult with Orozco to determine whether the articles were in any way inspired. He is directed to report immediately the result of his investigations. The American consul at Juarez reports increasing resentment on the part of the rebels there toward Americans.

Federals Near Chihuahua.

El Paso, Texas, May 31.—The advance guard of the Mexican federals has reached a point five miles south of Santa Rosalia and 100 miles south of Chihuahua, according to telegrams received today from General Huerta by E. C. Llorente, the Mexican consul here. Prospects of a battle for at least a week are remote, as the northward path of the federals is temporarily blocked by burned bridges. The advance from Jimenez, now the federal base, was made under trying difficulties. Twenty-five miles of track had been torn out by the retreating rebels, rails and fastenings being wrenched from the ties, which were stacked and burned. Every bridge and culvert was destroyed by dynamite or fire. General Huerta's headquarters are in Jimenez.

Federals Deny Torreon Was Captured.

From Colonel Aguilar, chief of the federal garrison at Torreon, again came denial today that the rebels had captured either Torreon or its suburbs, Gomez Palacio, and Lerdo. This is the second time within a week that rebel headquarters has announced a victory at Torreon with flat denials from federal sources. The rebel authorities in Juarez this morning again annulled the day train service to Chihuahua.

Federals Rush Repair of Bridges.

Mexico City, Mex., May 31.—Dispatches dated yesterday were received today from General Huerta's camp at Jimenez, after four days interruption of the telegraph service. They state that Huerta has organized work gangs of 1,000 men each and is pushing the repairs on the railway track and bridges to the north.

Rebels Reported Retiring.

General Rabago and General Villa have gone to Parral, where there is said to be a rebel force. Rebels from the vicinity of Pedernales are reported as retiring northward to avoid being cut off.

Families Flee With Orozco.

The dispatches state that many of the principal families have abandoned Jimenez, with General Orozco, the rebel leader, fearing that the place will be bombarded by government troops. The situation at Oaxaca is less tense. The mountain Indians are devoting their energies to robbing outlying haciendas. It is believed the city can be defended safely by the rurales and volunteers.

Germans Leave Chihuahua.

Chihuahua, Mex., May 31.—On the first train in which permission to ride is given, almost every German woman and child will leave Chihuahua for the United States, although conditions have not changed materially.

It is probable that a military train will be sent north this afternoon and that the Germans will go on it. A train will go south from Juarez tomorrow. The federals are operating north of Jimenez with cavalry, one small detachment yesterday entering Santa Rosalia.

Rebellion Needs Money.

The rebels made no effort to hold the place. Jose Cordova, secretary general of the revolution last night conferred with General Orozco in Bachimba regarding methods for raising a loan. Orozco was opposed to the use of any coercive methods.

Refugees Need Assistance.

Los Angeles, Calif., May 31.—About half of the 160 refugees from Mexico who were landed here yesterday by the transport Buford, were in need of assistance, according to reports today to the police department and the associated charities. **WOULD LET NEW
YORK GO HUNGRY****Striking Hotel and Lunch-room Waiters Quit at Noon Hour****PLACES FILLED BY NEGROES****In Sympathy With Fellow Unionists, Chambermaids Threaten to Walk Out**

(By Special Leased Wire to New Mexican) New York, N. Y., May 31.—New York faces today a possible strike of every union waiter and cook in the city. Two thousand waiters from a dozen famous hotels and restaurants are now on strike and unless they win their fight for higher wages, shorter hours and recognition of their union within twenty-four hours, their leaders have promised to order a general walkout.

Will Effect Every New York Hotel.

This order, according to Edward Blochinger, financial secretary of the union, would call from their places cooks and waiters in every hotel not already effected and extend also to employees of hundreds of restaurants and "quick lunch" establishments serving food at popular prices.

Negroes as Strike Breakers.

Approximately 1,000 negroes are in readiness to be brought into the city from Southern ports to break the strike, the principal hotel managers say. The negroes have been recruited, it is said, from hotels and employment agencies in Florida, Baltimore, Washington, Richmond, St. Louis, and other cities. At the Plaza Hotel, where the waiters quit last night, negroes have taken up their work.

Refuse Recognition of Union.

Most of the demands of the strikers have been granted by the hotel men, but recognition of the union has been refused. Waiters at the Marie Antoinette and Great Northern hotels joined the strike today.

Waiters Quit at Lunch Time.

Union waiters, cooks and kitchen help from five more leading hotels and clubs joined the strike at lunch time and swelled the strikers ranks

**INDUSTRIALS TO
CONTINUE FIGHT****Leaders Say Attempt Will be Made to Address Public Gatherings****COUNTY GRAND JURY MEETS****San Diego Paper Charges Organization With Breaking Neutrality Law.**

(By Special Leased Wire to New Mexican) San Diego, Calif., May 31.—Plans for further tests of the "move on" ordinance of San Diego were discussed today by members of the San Diego branch of the Socialist party. They said that an attempt probably would be made by Alexander Irvine, a Socialist leader of Los Angeles and other speakers to address public gatherings outside the restricted district.

San Diego the Battleground.

While no positive information as to the alleged shifting of the scene of activities of the Industrial Workers of the World from San Diego to Los Angeles could be obtained, the statement from Socialist headquarters regarding these prospective attempts indicated that San Diego still would be the battleground.

County Grand Jury Meets.

The county grand jury was expected to meet today, but whether at Attorney General U. S. Webb's request for its discharge and the impounding of a new investigating body would be granted was doubtful.

Judge W. R. Guy, in charge of the present grand jury said the penal code of California gave the grand jury the right to complete its duties before being discharged. The judge declines to discuss the situation, but it was generally believed throughout the city that the present grand jury would object to being discharged at the present time. The announcement from Washington that a federal grand jury inquiry here had been authorized by Attorney General Wickersham elicited no comment from officials.

Temporary Halt in Investigation.

San Diego, Calif., May 31.—Attorney General U. S. Webb, who was forced by official business to cease his personal investigation of the Industrial Workers of the World disturbances, temporarily, was expected to return to resume his probe either tomorrow or Monday, according to an announcement today by Raymond Benjamin, his chief deputy.

Secret Agents in San Diego.

Secret agents for both the American and Mexican governments were said today to be in San Diego. The former were supposed to be learning of the methods of the Industrial Workers in the so-called "free speech" campaign and the latter, it was stated, were in San Diego to ascertain whether any aid was being given to the revolutionists in Mexico by alleged members of the Industrial Workers.

Federal Grand Jury Probe.

Washington, D. C., May 31.—Attorney General Wickersham has authorized a federal grand jury inquiry at San Diego, California, into the activities of the Industrial Workers of the World. This action was in response to an appeal from the city authorities.

No Rest for Industrials.

The San Diego appeal charged that the Industrial Workers of the World, had offended American neutrality by statements regarding Mexico. The United States attorney at Los Angeles has been given authority to try the matter before the grand jury at San Diego. The department of justice, aside from the protest of the San Diego local authorities has been watching the situation for several weeks.

Industrial Workers Strike at Lawrence.

Three hundred operatives in the mills of the American Woolen Mills today joined the 400 operatives of the carding and combing rooms of the wool mill who went on strike Tuesday because other operatives in those rooms refused to become members of the Industrial Workers of the World.

The strike is being conducted by William Yates, national secretary of the textile branch of the Industrial Workers, and Archie Adamson, treasurer of the local branch. Both men were among the leaders in the general strike in Lawrence.

Not a Corporal's Guard.

There was not a corporal's guard of union waiters working today at the hotels Plaza, Astor, St. Regis, Waldorf Astoria, Knickerbocker, Rector, Belmont, Gotham, Imperial, Prince George, Breslin or the Holland House. In none of these hotels, the managers asserted, has the service been more than temporarily impaired. Patrons at all of them were served by non-union waiters today.

Chamber Maids Will Quit.

Many cooks joined the strikers today. At the headquarters of the union, it was said that the chambermaids in several hotels were also preparing to walk out.

Twenty cooks of the hotel Manhattan walked out today and the waiters, it is said, will strike tonight.

**LONDON STRIKE
REACHES CLIMAX****Open Versus Closed Shop In Dispute, and Outcome Is Uncertain****GOVERNMENT TAKES A HAND****Will Enforce Authority of Conciliation Board With Legislation if Necessary.**

(By Special Leased Wire to New Mexican) London, May 31.—The open or the closed shop is no sign that employers will consent to debar non-unionists from their employment or that the strike leaders will agree to permit their men to work alongside non-unionists.

Joint Conference a Fiasco.

The joint conference called by the government for today proved, as expected, a fiasco. Not a single employer put in an appearance. The government, however, submitted a fresh proposal for the consideration of the men. Whether Ben Tillett and Harry Gosling have succeeded in making the dispute a national affair will be known only after the meeting of the national executives tomorrow. Indications are that the Sailors' and Firemen's union, which probably has the deciding vote will oppose the movement on the ground that the present time is inopportune primarily because of the financial condition of the union's treasury. Should the decision be against national support, the strike appears bound to fail.

Increasing Number of Non-Unionists.

The number of non-unionists working on the docks is daily increasing and the provisioning of London goes on uninterrupted. Having failed to get the employers and men together, the men are tackling each side separately and at today's meeting at the board of trade, which only the strike leaders attended, the government suggested setting up a joint conciliation board with powers over all parties working in the port. The strike leaders promise to give the men's reply on June 1. It is believed to be the policy which the government proposed to carry out and it is understood that they are prepared to enforce the authority of the conciliation board by legislation, as in the recent case of the coal dispute, should either side refuse to submit to a general plan for awards and arbitration.

House.

The House today passed a bill to take possession of the House this forenoon. Speaker Baca called the House to order and then asked Llewellyn to preside. The regular order was suspended and P. E. Lester, as spokesman of the Dona Ana county delegation, made a plea for good roads. He spoke earnestly, witily, eloquently and convincingly. He contrasted vividly the efficiency of the good roads in El Paso county, with the inefficiency of the poor roads of Dona Ana county. Arizona with smaller population is spending six to seven times as much for good roads as New Mexico. In Texas, in one month, nine counties alone issued \$2,500 in bonds for good roads; California has provided for a \$19,000,000 bond issue for good roads; Pennsylvania will issue \$15,000,000 worth of good roads bonds. The need of a state highway commission was presented from the viewpoint of economy as well as efficiency. Authority for counties to issue bonds for good roads was asked and a liberal state bond issue was advocated for the building of a system of state trunk roads. He pleaded for the measure providing that delinquent taxes that are being collected more completely than ever before be expended for good roads, which would indirectly benefit the schools and practically every other interest. The speaker reviewed the various good roads bills pending in the legislature, picking out those that meet with the approval of the New Mexico Good Roads' Association and of the Dona Ana county delegation. He urged strongly a permanent, systematic good roads policy. In conclusion, he insisted that good roads legislation will benefit the entire state, every portion of it, and that it is absolutely non-political in its nature. He was loudly applauded.

Mark B. Thompson spoke forcibly along the same lines, dwelling on the selfishness of Dona Ana county in asking for good roads legislation. He asked for immediate action as postponement for a year or two means heavy loss to all. The loss to Dona Ana county alone he estimated at \$100,000.

James H. Paxton emphasized one point, that the Holt good roads bills, add not one cent to present taxes nor take one penny from current funds. The schools are well provided for, but good roads make them accessible and will make revenue producing and more valuable, the great heritage of lands given the schools.

Llewellyn thanked the Speaker, the House, the delegation, and expressed the hope that the assembly would act favorably on the petition of the Dona Ana county citizens.

Speaker Baca said that the legislators are always delighted to hear the wishes of the people and to comply with them. He asked the visitors to make themselves at home in the Hall of Representatives.

Parcels Post Memorial.

Rogers offered a House Memorial, asking Congress to establish a general parcels post system.

The House took a recess to 2 p. m. The investigation committee met right after the forenoon House session.

**"BERT, THEY
ARE ON TO US"****Franklin Testified Darrow Said This Just Before Latter's Arrest****BRIBE MONEY WAS TIMID****Detective Made Requests for \$4,000, Which He Finally Obtained.**

(By Special Leased Wire to New Mexican) Los Angeles, Calif., May 31.—"Bert, they're on to us." These were the words Clarence S. Darrow uttered to Bert H. Franklin a moment before the latter's arrest on November 28, 1911, for the bribery of George N. Lockwood, according to Franklin's testimony today in the trial of Darrow. Franklin testified that Darrow had given him the \$4,000 which was to have been given to Lockwood for his "not guilty" in the trial of James B. McNamara, Job Harriman, Socialist candidate for mayor in Los Angeles last fall, and an associate of Darrow in the McNamara defense, was present in court for the first time since the trial began and heard his name mentioned in connection with the alleged bribe money.

Franklin Called for Money.

Franklin testified that when he called for the \$4,000 at Darrow's office, the latter told him, "Job will be here the latter told him, "Job will be here in about ten minutes."

Had Things All Fixed Up.

"I reported to Mr. Darrow on the morning of November 26," said Franklin, "that Mr. Lockwood would call at my office at about 4:30 that afternoon, that Lockwood and I had arrived at an understanding with regard to the security of the money to be paid him and that I was satisfied Lockwood would do what he had agreed to."

Wanted to See the Cash.

"I requested Mr. Darrow to get me the sum of \$4,000 during the forenoon and told him that I would see him at noon and at that time wished him to turn over the \$4,000 to me. I told him I believed I could conclude with Lockwood that afternoon."

"Mr. Darrow answered that he would try to get the money if he had sufficient time."

"I replied that if he wished me to continue the negotiation with Lockwood I would have to have the money at the noon hour. I met Mr. Darrow at his office sometime between 12 and 2 o'clock that day and asked him if he had brought the money. He said that he did not have the money. I have forgotten his reasons."

Asked whether he had seen Darrow

**MEMORIAL FOR
PARCELS POST****Introduced by Representative Rogers Under Suspension of Rules****DONA ANA COUNTY DELEGATION****Given Hearing by House This Forenoon on Good Roads Legislation.**

The big Dona Ana county delegation got busy immediately upon arrival yesterday afternoon. Though it was a legal holiday, it sought out the executive office and made an appointment with Governor McDonald at 4 o'clock, upon his return from the National cemetery. It appeared before the steering committee and sought out the House and Senate leaders, particularly Senator H. B. Holt, and Representatives Llewellyn and Moreno. Several members called on former Delegate W. H. Andrews, knowing that his influence goes far in the House, and also Speaker Baca and Chairman Burg of the ways and means committee. It is quite certain that these energetic visitors from the Mesilla Valley will come very near getting what they are after.

HOW ONE WOMAN WON

Her Health and Strength Back
Again by The Use of Cardui.

Tampa, Fla.—In a letter from this
city, Mrs. E. C. Corum writes: "I was
all weakened and worn out with wo-
manly troubles. My husband brought
me some Cardui as a tonic, and, from
the first day, it seemed to help."

I had almost lost my reason, but,
thanks to Cardui, I did not. Soon, I
felt and looked like a new woman. I
think the remedy is wonderful. I
recommend it to my friends, for I have
received great benefit from it."

Cardui acts specifically on the weak-
ened womanly organs, strengthening
the muscles and nerves, and building
them up to health.

It helps to refresh the worn-out ner-
vous system and relieves the effects of
overwork, both mental and physical.

Fifty years' successful use fully
prove the merit of this purely veg-
etable, tonic remedy for women.

In every community, there live some
who have been benefited by Cardui.
The beneficial effects of this time
tested woman's remedy, soon show
themselves in many different ways.

Try it.

Chicago, May 31.—Profits of own-
ers of disorderly resorts in Chicago
are \$10,000,000 a year, according to
Walter T. Sumner, dean of the cathe-
dral of St. Peter and Paul, and
chairman of the Chicago vice commis-
sion, in an address before the sixth
annual convention of the mayors of
Illinois today in Evanston.

Fourth Lock Jaw Victim.
George Albertson, 13 years old, is
the fourth lockjaw patient within
eight months at Denver county hospi-
tal. Albertson stepped on a nail four-
teen days ago. Two days ago his foot
began to pain him severely, and yester-
day he was taken to the hospital and
placed under the serum treat-
ment. His recovery is pronounced
doubtful.

"Other" Influences.
Superinduced by the heat or other
influences, E. V. Hulsey leaped from
the window of his room, on the third
floor of the Great Northern hotel, on
St. Louis street, El Paso, to the roof
of the D. R. Francis, the adjoining
building. Hulsey is occupying a cell
in the police station, where he is suf-
fering with a badly sprained right an-
kle, the only damage suffered in the
flying leap.

University Alumni Association.
Miss Erna Ferguson, president;
Miss Alice Schreiber, secretary, and
Thomas P. Ketcher, Jr., chairman of
the executive committee are the new
officers of the Alumni association of
the University of New Mexico, cho-
sen at the annual banquet of the as-
sociation at the Alvarado hotel. Kirk
Bryan, now a student at Yale, acted
as toastmaster and did the job admir-
ably. Toasts were responded to in
entertaining fashion by State Superin-
tendent of Schools Alvan N. White;
by Professor M. F. Angell of the fac-
ulty; Raymond D. Gladding for the
class of 1912; President R. W. D.
Bryan of the board of regents, and
others.

Archbishop in the Manzanos.
Mass was celebrated Monday morn-
ing at the Catholic church by Rev.
Father Hartmann. In the afternoon
the Right Rev. J. B. Pitaval, Arch-
bishop of Santa Fe, confirmed a class
of fifty-five boys and girls. Small pin-
on trees were set out on East Central
avenue from the depot to Third street
and north to the church. The child-
ren and members of the Moriarty
parish formed a line at the depot and
escorted the Archbishop to the church.
After taking supper with Mr. and Mrs.
M. T. Moriarty, Archbishop Pitaval
and Father Hartmann were taken to
Chillili. From Chillili the Archbishop
went to Manzano.—Moriarty Messen-
ger.

Preferred Honeymoon to Pen.

Instead of going to the penitentiary
to serve a sentence of from 18 months
to two years, Agustin Trujillo today
began his honeymoon, having been
married early this morning to Adeline
Nieto de Garcia, aged 17. Trujillo,
whose age is 22, was sentenced a few
days ago by Judge David J. Leahy,
after charges of seduction preferred
by Miss Garcia had been substantiated.
Yesterday afternoon Judge Leahy
ordered Trujillo summoned into court
and told the man if he would marry
the girl the sentence would be sus-
pended. Trujillo agreed, Judge Leahy
told him he must be a kind and duti-
ful husband and provide liberally for
the support of his wife. Trujillo
gave his assent.—Las Vegas Optic.

The Fly Industry.

Flushing, N. Y., May 31.—A "swat
the fly" campaign, which was inaugu-
rated by the town authorities here
a few weeks ago, has resulted in a
curious complication. As the cam-
paign waxed hotter and hotter, the
supply of flies began to diminish.
Then some of the ingenious boy
constituents devised fly breeding
establishments, which insured them a
maximum "catch" with a minimum
amount of labor. With an improved

trap of mosquito netting hung above
this breeding place, a catch of a pint
or more was insured every day. Mem-
bers of the Anti-Fly society are uncer-
tain whether to end their campaign
or to have a raid made on the breed-
ing places.

Had to Go to Jail.
Albert Hurst, arrested at Texico, on
a charge of robbery and forgery, waiv-
ed preliminary hearing at Clovis and
was bound over to the grand jury in
the sum of \$500, and failing to make
said bond he has been remanded to
the county jail. It is alleged that
Hurst robbed a companion at Texico,
Saturday night of a check and that he
forged the endorsement of the other
man to the check and drew the money.

SELLING OF ROCK

ISLAND UNSETTLED MARKET.

Weakness Was Recorded in the Clos-
ing Trading Due to Adverse
Crop Reports.

(By Special Leased Wire to New Mexican.)

New York, N. Y., May 31.—Renew-
ed selling of Rock island issues,
spreading to affiliated properties,
caused unsettlement of values in
early dealings on the stock market
today. The break caused wonder be-
cause interests prominently identified
with the securities recently put out
highly optimistic statements. De-
clines extended from one to three
points below the best, but these were
largely regained before noon, the most
conspicuous laggards being
Reading and Lehigh Valley.

Bonds

Bonds were easy. American To-
bacco moved up five and three-
fourths, but the list otherwise was at
a standstill in the early afternoon.
The dullness encountered bear selling
and the market sagged to a parity
with the low prices of the forenoon,
or below. Reading and American Can
were fully weak.

Market Closed Weak.

The market closed weak. Extreme
weakness was recorded in the last
hour on further adverse crop news
and the poor earnings of New York
Central, Reading and Lehigh Valley
were down four points and net losses
elsewhere averaged half as much.

ATLANTIC CITY COUNCILMEN

CHARGED WITH GRAFT.

Municipal Concrete Board Walk Bill
Offered Opportunity for
Rake-Off.

(By Special Leased Wire to New Mexican.)

Atlantic City, N. J., May 31.—More
disclosures are expected today in the
councilmanic investigation in connec-
tion with the passage by council of
the million dollar concrete board walk
bill. Harry F. Dougherty, a council-
man charged with having accepted a
bribe of \$500 from a man named Frank-
lin, said to represent a New York
firm will be given a further hearing
today. Four other councilmen, accord-
ing to the detective agency that has
been working on the case, have con-
fessed to taking a bribe in connection
with the passage of the bill and the
same authority stated today that four
more councilmen are ready to explain
their connection with the legislation.
Whether any more arrests will be
made rests with Attorney General Ed-
mond Wilson, who will personally in-
vestigate the entire matter.

DIAMONDS FOUND

IN NORTH CANADA.

Samples Have Been Favorably Re-
ported on and Expedition
Starts for Field.

(By Special Leased Wire to New Mexican.)

Ottawa, Ont., May 31.—Dispatches
from Ungavada, the great district
north of Old Quebec, announce the
discovery of Diamond deposits, which
may prove extensive enough for
commercial exploitation. A prospect-
ing expedition from Ottawa and Mon-
treal is now on its way north to make
a complete survey. The prospectors
are accompanied by four Indian
guides and are carrying four tons of
supplies. Samples of the find have
been sent to New York and it is said
have been favorably reported on by
the experts.

DEAD SECTION HAND

SCION OF WEALTHY FAMILY.

(By Special Leased Wire to New Mexican.)

Hawatha, Kansas, May 31.—Pedro
Gallardo, a Mexican section hand killed
at Willis a month ago, and buried
in the paupers' field at Hawatha, has
been identified as the son of a wealthy
family in Mexico.

The coroner notified Senor J. L.
Dosal, Mexican consul at Kansas City,
of the man's death, beneath an over-
turned locomotive. The coroner discov-
ered that the victim was the son of a
former Mexican secretary of agricul-
ture.

Deafness Cannot be Cured

by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deaf-
ness, and that is by constitutional re-
medies. Deafness is caused by an in-
flamed condition of the mucous lining
of the Eustachian Tube. When this
tube is inflamed you have a rumbling
sound or imperfect hearing, and when
it is entirely closed, Deafness is
the result, and unless the inflamma-
tion can be taken out and this tube
restored to its normal condition, hear-
ing will be destroyed forever; nine
cases out of ten are caused by Cat-
arrh, which is nothing but an in-
flamed condition of the mucous sur-
faces.

We will give One Hundred Dollars

catarrh) that cannot be cured by

neuralgia is to use Dr. Miles' Anti-Pain Pills. They have re-
lieved sufferers for so many
years that they have become a
household necessity.

"I have taken Dr. Miles' Anti-Pain
Pills for five years and they are the
only thing that does me any good.
They have relieved neuralgia in my
head in fifteen minutes. I have also
taken them for rheumatism, head-
ache, pains in the breast, toothache,
earache and pains in the bowels and

SOCIALIST CANDIDATE

GIVEN JAIL SENTENCE.

Katz Was Found Guilty of Interfering

With Employees of New
Jersey Mill.

(By Special Leased Wire to New Mexican.)

Paterson, N. J., May 31.—Rudolph
Katz, Socialist candidate for Congress
from the seventh New Jersey district,
and an organizer of the Industrial
Workers of the World, was arrested
and sentenced today to serve six
months in jail for interfering with
employees of a silk mill. Katz an-
nounced that he would appeal so that
he could continue his political cam-
paign.

CHILD FATALLY INJURED

BY AEROPLANE AT SEATTLE.

(By Special Leased Wire to New Mexican.)

Seattle, Wash., May 31.—Raymond
Chapman, the 10-year-old boy whose
skull was fractured when the aeo-
plane of aviator J. Clifford Turpin,
dashed into the grand stand at the
Meadows yesterday, is still alive, but
physicians at the county hospital say
he cannot recover.

Turpin is under menial arrest, as
his testimony at the coroners inquest
is desired. The havoc wrought by
the aeroplane was due to the fact
that the propeller was situated at
the front of the machine. The name
of the amateur photographer who ran
out on the field, and to save whose
life the aviator turned his machine
toward the grand stand, has not been
learned.

FRECKLES

Don't Hide Them With a Veil; Remove

Them With the New Drug.

An eminent skin specialist recently
discovered a new drug, othine—double
strength, which is so uniformly suc-
cessful in removing freckles and giv-
ing a clear, beautiful complexion that
it is sold by any first class druggist
under an absolute guarantee to refund
the money if it fails.

Don't hide your freckles under a
veil; get an ounce of othine and re-
move them. Even the first night's use
will show a wonderful improvement,
some of the lighter freckles vanishing
entirely. It is absolutely harmless,
and cannot injure the most tender
skin.

Be sure to ask for the double
strength othine; it is this that is sold
on the money back guarantee.

SAN DIEGO IS WELL PLEASED

Praise for Governor's Appointment of Noted Men on Commission

THEY WILL BE WELCOME

"Harbor of the Sun" Now Awaits Visit of Men From "Sunshine State."

(By Brian Boru Dunne.)

Special to the New Mexican.
San Diego, Calif., May 28.—The news of Governor William C. McDonald's appointment of the New Mexico commission to the San Diego and the San Francisco expositions was received here with enthusiasm. The selection of men of such prominence is especially gratifying.

The San Diego Union, the leading daily of Southern California, devotes a column article on a front page to the appointment of the commission and thus comments on the personnel of its membership:

"Governor McDonald would have had difficulty to find more noted or more suitable men for this commission.

"Former Governor Hagerman is a westerner, deeply interested in irrigation and owns extensive orchards which he manages himself. He was formerly in the diplomatic service, and was stationed at St. Petersburg, Russia. He was appointed governor of New Mexico by Mr. Roosevelt. He figured prominently in the first state campaign of New Mexico, stamping the state as a Progressive Republican.

"Former Gov. William T. Thornton ranks as one of New Mexico's most distinguished Democratic governors, and he has a legion of friends in the Southwest. He resides part of the year at Los Angeles, but also has a winter home in Old Mexico. He is a scholar and traveler.

"Colonel Ralph E. Twitchell is a historian, and his recent history of New Mexico has been highly praised by the greatest authorities of the world. Colonel Twitchell is an attorney for the Santa Fe railway and is deeply interested in the future growth of the Southwest as well as in its history.

"J. J. Shuler is a prominent business man of Raton, New Mexico, and will ably represent northern New Mexico. He was a rough rider in the Spanish-American war.

"H. A. Jastro, like Governor Thornton, resides a good deal of the time in California, for his home is in Bakersfield. He represents vast real estate interests of Will Tevis, both in this state and in New Mexico. He was prominently mentioned as a candi-

date for appointment of governor of New Mexico before it became a state. He will be one of the most influential members of the commission and with his knowledge of California will doubtless do much to assist New Mexico make a creditable exhibit."

That Other Commission.

The "Union" points out that even when New Mexico was a territory, its distinguished governor, William J. Mills selected a former governor and also an artist to represent New Mexico at the exposition, in case statehood should be indefinitely delayed. Says the "Union":

"With the appointment of this com-

"Governor McDonald's appointment of the commission to visit San Diego is regarded as timely in view of the fact that Arizona's commission has been named and is about ready to start for California.

"Moreover, New Mexico is already participating in the exposition by ancient pottery and other treasures shipped to San Diego some time ago by Dr. Edgar L. Hewett, head of the School of American Archaeology in Santa Fe."

That is the question being asked to-day on exposition grounds and all

mission, the previous one appointed by William J. Mills, while governor of the territory of New Mexico, will, of course, not hold over. This commission consisted of two Santa Feans, Miguel A. Otero, for nine years governor of New Mexico and a descendant of a famous Spanish family; and Carl Lotave, a successful portrait and landscape artist, pupil of the famous Zorn. Mr. Lotave's pictures of the cliff dwellers line the walls of the old "Palace of the Governors" here and are sought out by all tourists who visit the city.

over the city. It is safe to say that when the men from the Sunshine State do arrive here, the people of San Diego will bid them welcome with a warmth of hospitality befitting "the harbor of the Sun."

New Mexico and Southern California have much in common; both enjoy the life giving energy of the sun's rays most of the days of the year; both know the life-giving oxygenized air and both are proud of their history filled with romance.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the State, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

A BROAD VIEW OF JOURNALISM.

At the University of Missouri they held Journalism week this month at which speeches were made by newspaper makers to the students of the School of Journalism of which Walter Williams, well-known in Santa Fe, is the dean. A symposium of those addresses appears in a bulletin just issued and it necessarily is helpful to newspapermen of all degrees and every variety. There are eight subdivisions of the bulletin: A Broad View of Journalism, The County Newspaper, The News in the City Field, Drawing Newspaper Pictures, Humor in the Newspaper, Agricultural Journalism, The Field of Advertising, and Short Takes.

Journalism is assuming the dignity of a profession. The day is past when any young man without previous training can make a success of journalism in the wider sense. Journalism presupposes broad culture, much reading, powers of concentration and reflection, quick mental grasp. Newspaper life is drawing into the profession of journalism men of broad vision and high ideals.

H. J. Haskell of the Kansas City Star in speaking of the broader view of journalism, speaks of the editorial column as follows:

"We may not agree with the editorial. But it formulates the arguments and perhaps helps us see more clearly where we disagree with its position. The writer of the editorial may not be an expert or a genius. At least he is in the habit of thinking about public questions. He is presumed to have some natural interests and gifts along that line or he would not be holding the job. He has more time and more sources of information than the average busy person.

"Experience has shown that the news as ordinarily reported gives only the high lights of the picture. The world that it shows is a world of intense lights and black shadows—a Rembrandt painting, to borrow the phrase of Dr. E. E. Slosson of the Independent. The news reports the stirring events of the day. It cannot give these events in perspective. The introduction of the Old Age Pension Bill into the British Parliament was a much more significant event than the San Francisco earthquake. But the news could not attempt to show their relative importance in the way it handled them. The editorial, however, can and does give the news in something like its proportion. In fact the editorial writer really should be the editorial reporter, on the watch constantly to report new ideas of importance to the public that may not come to it in any other way.

"While the personality of the newspaper manifests itself in the handling of the news, it comes to the surface most explicitly, perhaps, in the editorial page, and in the various features which in the course of years have come to be connected with that page.

"Speaking of the high idealism of the right kind of an editor, who often advocates reforms long before the general public understands them, and at times with the public against him, Dr. Talcott Williams said:

"It was the newspapers that brought about child labor reform. Newspapers have dealt with one great evil after another. Slowly the individual responds to the newspaper's information and reforms come about. Newspapers have established the fact that it is in the existence of evil and not the publication thereof that the wrong exists. We cannot exclude the foul air of the sewer from our house unless we clean the sewer."

The independence of the press was defended by Louis T. Golding, publisher of the St. Joseph News-Press, who said:

"The trifling number of venal and controlled newspapers is really negligible in contrast to the vast number which are honestly and independently conducted. Nevertheless, it is known to all that this criticism is constantly made and that millions of people believe it true. How important, then, it is, that newspapers should not only be independent but should look independent. In dealing with the public it is not enough merely to be virtuous, but one must wear the form of virtue as well. By this I do not mean to suggest a display of sniveling hypocrisy such as would befit a journalistic Pecksniff, but a common sense appreciation of the need for a newspaper, as well as a man, to have a decent regard for appearances."

George S. Johns of the St. Louis Post-Dispatch, said: "A good newspaper should have a few judiciously selected enemies and those who should be hit, and hit hard."

In conclusion are given three bon mots as they dropped from the lips of well known and successful editors, that indicate the light in which newspapermen themselves regard newspapers: "The newspapers of the country are getting better and better. I believe it is due to the better brains, better character and better training of the

men who are making them."
"I have no patience with the false pride which restrains a newspaper from making prompt, complete and conspicuous correction of its mistakes concerning persons or facts. It is worse than false pride; it is a sin of deception and sometimes of cruel injustice."

"The journalist who would do public service needs the inquiring mind of the grand jury to penetrate the secret places for evidence, he needs the zeal of the prosecuting attorney, who calls down the wrath of the law upon evil doers, and he needs also more than these qualities—the poise of the just judge who knows the fallibility of human testimony and the peril of imperfect circumstances."

STRICT CORRUPT PRACTICES ACT.

The corrupt practices act introduced in the Senate by Senator E. C. Crampin is comprehensive in its provisions and covers not only direct and indirect bargaining for votes but also provides for complete campaign publicity, both before and after election, by candidates and political treasurers. It is a measure that carries out a platform pledge of the Republican party and should become law.

Persons deemed guilty of bribery shall be disfranchised, shall be barred from jury service, shall be ineligible to public office, shall be subject to a fine of \$50 or \$500 and imprisonment of from two to six months. The direct or indirect offering, giving, lending, promising or accepting money or other valuable consideration, office, place or employment to influence any election to vote or refrain from voting for any candidate or proposition shall be deemed bribery. Employers coercing or unlawfully inducing employees to vote or refrain from voting shall be fined \$100 to \$1,000, or imprisoned for not more than six months. Similarly, violence at the polls is to be punished by a fine not exceeding \$500 and imprisonment from two to twelve months. Illegal voting, repeating, etc., are made a felony punishable by imprisonment of one to three years.

It shall be unlawful for any candidate to expend for his nomination and election more than ten per cent of one year's salary or compensation of the office sought, exclusive however, of his own hotel bills and traveling expenses. Not less than five nor more than ten days before election, every candidate must file a detailed account of campaign expenses for his nomination and election, and within thirty days after election, another sworn statement. No certificate of election shall be issued unless such statement is filed. Failure to comply, is to be punished by fine not exceeding \$500. Every political committee of two or more persons associated for the purpose of furthering the election or defeat of any candidate or cause, must designate a treasurer to have sole charge of the financial transactions who must keep a permanent record in detail of all receipts and expenditures and must file a statement within thirty days after the election.

To assure the greatest publicity, the New Mexican would add a clause, directing the proper officials with whom campaign expense accounts are filed, to publish a complete statement in a county seat newspaper. Publicity, as much almost as punishment, is a great deterrent of improper expenditures at the polls.

The passage of this act in both houses will demonstrate clearly to the people of New Mexico, that the Republican leaders are sincerely in favor of fair and honest elections.

VICE AND TUBERCULOSIS.

The National Association for the Prevention of Tuberculosis, is in session at Washington. New Mexico has a certain amount of interest in the deliberations, for whether we want it or not, this state, especially in its higher altitudes, is more and more regarded as the safest haven for those afflicted with tuberculosis in its incipency. The speakers yesterday and today dwell on the great loss to the nation and to each community from the ravages of consumption. Of late years, New Mexico settlements, deemed immune from the dread scourge, have been attacked, and one reads more and more frequently in the newspapers of deaths among the Spanish-American people from pulmonary tuberculosis. Colonel J. L. Ludlow last evening, in a masterly address, dwelt on the fact that immorality and vice no longer dare be overlooked as a frequent primary cause of consumption; that in many, many cases, consumption has its start in youthful indiscretions, in visits to the red light, or in syphilis.

"The degree of prevalence of tuberculosis in a community," said the speaker, "is a correct and infallible index of the private and public hygienic hab-

its and conditions of the community. It is the disease barometer of wrong living."

Another speaker, Dr. Charles O. Probst, declared that the eradication of tuberculosis is a governmental problem and that means the eradication of the red light, one of the causes, by state, county and municipal authorities.

A PUBLIC DUTY.

The New Mexican hopes that the Republican legislators yesterday carefully read and pondered the immortal address made at Gettysburg by Abraham Lincoln. The thought forces the history of the United States, that the men who gave their lives at Gettysburg, did so for a greater cause than mere lofty principle than mere personal prestige of any politician, for a more permanent good than the mere triumph of clique or faction.

As Lincoln put it: "It is for us, the living, rather to be dedicated here to the unfinished work that they have thus far nobly carried on. It is rather for us to be here dedicated to the great task remaining before us, that from these honored dead we take increased devotion to that cause for which they here gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth."

The Republican majority of the legislature too, is dedicated to a task, a task to give the new state sound and just laws. The people elected an overwhelmingly Republican legislature because they had learned from experience and from history that it is the Republican party that is generally true to its trust, that legislates for the welfare of the entire people, that protects the workingman, the common people, that even sacrificed treasure and life that the despised negro might burst his shackles. Shall the Republican legislators of New Mexico betray that trust? The men of Gettysburg gave their lives, sacrificed everything—is it asking the Republican legislators of the New Mexico Assembly too much to sacrifice a little personal pique or political ambition, in order that the Republican party might be true to its platform pledges and place on the statute books the laws demanded by the people? The people will not be fooled next November by any explanation that seeks to evade the issue: "Was the Republican majority of the legislature true to its trust?"

A CLOSED INCIDENT.

Colonel Roosevelt has seen on faint light, and is walking therein. He has ceased to be the center of the solar system. He has discovered the first personal pronoun plural, "we." In other words, he has discovered that there are others.

In his speech at Elizabeth, N. J., he referred to "our opponents," and declared that "we have thrashed the bosses in Illinois and Pennsylvania." Nothing is more certain than that the third-term candidate, speaking only a few days ago, would have referred to "my opponents," and would have said "I have thrashed the bosses," etc. This is encouraging; though it may mean simply that Colonel Roosevelt has unconsciously carried to the public rostrum the habit he has acquired as contributing editor to the Outlook.

Possibly "we" are doing things now simply in an editorial sense. The campaign has not been as edifying as it should have been. There is no doubt that President Taft might have delivered many a sound and helpful lecture during the time that he has devoted to bitter rejoinders to the skillfully aggravating misrepresentations of Colonel Roosevelt; and Colonel Roosevelt might have been expounding the A B C of certain conventional moral doctrines, if he had not been out trying to grab a thing to which he has no earthly right.

A great deal of time and energy have been all but wasted, and the public mind has been depressed by the spectacle of two widely known men calling each other bad names.

One looks in vain to some legislators for a single suggestion in matters of public policy that will lead to a permanently constructive enterprise. There are legislators who have spent their entire term practically in hunting alleged defects and overlooking acknowledged virtues in both measures. They are always ready to see the "harm," to pick the flaws, but never the good a measure might accomplish. They have pooped new ideas and decried new proposals as chimerical, simply because they are pessimists by nature. Their voice has ever been raised urging the legislature NOT to do this or that; always rather to prevent, rather than assist. That kind of negative virtue never built up a great commonwealth or made a name for itself in history. It may cut down an appropriation here or there; prevent now and then an unconstitutional law from going on the statute books, but growth, pros-

perity and advancement never follows that sort of political and legislative activity.

Editor, publisher and owner, William B. Walton of the Silver City Independent, in his editorial columns this week, dwells with tearful regret on the news that the only woman school director in Grant county has resigned. He says that it was due to her efforts that a new school house was built so that school needed no longer be kept in the same building with a saloon, and ascribes to her other progressive achievements that the male school board before her advent as a member of it, never thought of, because as a rule, men take school directorships as merely a side issue worthy of no serious thought or undivided attention, while a woman on such a board will concentrate her thought and effort on the trust which she has assumed.

Yet, Senator Walton is opposed to the House bill now pending in the Senate, which would give women representation on boards of state institutions in which there are women pupils or women inmates.

The Las Cruces delegation in Santa Fe gives a demonstration of civic spirit that should make an impression in Santa Fe. Here are twenty-four leading business and professional men giving a week of their time, paying their own carfare and hotel bills, in order that legislation in which Las Cruces is interested might find favorable consideration. Santa Fe will have to stir itself in like manner, and that right away, in order to save to the state the New Mexico Museum and the School of American Archaeology. "Manana," and certainly, ten days from now, it will be too late.

ASK RECEIVER FOR DENVER, LARAMIE AND NORTHWESTERN.

(By Special Lensed Wire to New Mexican)

Denver, Colo., May 31.—Application for a receiver for the Denver, Laramie and Northwestern Railroad today was made by attorneys representing the faction of stockholders and directors who gained control by the election of William E. Green, of Denver, president, and W. D. Moore, of Bennington, Nebraska, and Isaac Shoenberger of Abilene, Kansas, directors. The new directors succeed F. N. Briggs, and T. C. Henry of Denver, H. B. Patton of Golden, Colorado, and D. M. Rothwinder of Bison, Kansas. The petition is a friendly suit.

TURKISH CABINET OFFICERS FIGHT IN COUNCIL.

(By Special Lensed Wire to New Mexican)

London, May 30.—A news dispatch from Constantinople says that the minister of marine and the minister of the interior had a stand-up fight at yesterday's cabinet meeting as a consequence of the severe strictures appearing in the newspapers which charge the Turkish fleet with cowardice for remaining in the Golden Horn instead of putting out to offer battle to the Italian fleet.

WOULD INDUCE EASTERNERS TO SETTLE IN WEST.

Reclamation Officers and Railroad Officials Meet to Devise Methods.

(By Special Lensed Wire to New Mexican)

Chicago, Ill., May 31.—A conference between officials of the United States reclamation service and railroad men was held here today to devise plans to induce residents of eastern cities to settle on farms in the West. It was suggested that a national bureau of information for the dissemination of facts regarding western lands open for settlement be established under government direction.

Fraudulent Land Schemes.

Speakers declared that one of the chief factors in the recent decrease in movements to western lands was the promotion of numerous fraudulent land schemes.

Would Exchange Western Immigration.

"We want to do everything possible to revive the old spirit which years ago caused eastern people to go west to settle in large numbers and which in recent years has been on the wane," said Mr. Newell of the reclamation service.

Others at the conference were C. J. Blanchard, statistician and chief settlement agent of the government's reclamation service; W. E. Candland, president of the Utah state land board, and C. B. Seagrave, colonization agent for the Santa Fe railroad.

IMPOSSIBLE TO ELECT SENATORS TO PRESIDENCY.

Chafin, Prohibition Candidate, Declares LaFollette is Doomed to Failure.

(By Special Lensed Wire to New Mexican)

Madison, Wis., May 31.—"If Senator LaFollette wants to be president of the United States he ought to resign his seat in the Senate, come back to Wisconsin and in 1914, become a candidate for governor. He should keep on the chautauqua platform, for that will keep him close to the people. If he had been governor of Wisconsin in the last two years, he would be nominated for President this year."

This is the statement of Eugene W. Chafin, of Tucson, Arizona, mentioned as probable prohibition candidate for President.

"While Senator LaFollette is in the U. S. Senate, he cannot be elected President," continued Chafin. "Since 1868, when Rufus King, a United States Senator, was a candidate for the presidency, every Senator who has tried to get the nomination or if nominated, sought to be elected, has been defeated. In all forty or fifty United States Senators have since 1868 either tried to be nominated or elected. In every case they have failed."

OFFICIAL NOTES

Company Changes Address.

The United States Investment and Bond Company this morning filed a certificate of change of place of business from Roswell to Albuquerque with the state corporation commission.

Authority Revoked.

The state corporation commission this morning notified the Lillian Mining Company, a company chartered in the state of Maine, that its authority to conduct its business in New Mexico had been revoked. Failure to appoint a new agent after the death of a former agent was given as the reason.

Gage Made a Flag Station.

The Southern Pacific Railway this morning notified the state corporation commission that on the latter's recommendation Gage, Luna county, had been made a flag station, to become effective immediately. Residents of Gage and adjacent territory had requested the corporation commission to ask the railroad for a flag station.

Judge Medler Sentenced Seventeen.

The seventeen prisoners sentenced by Judge E. L. Medler at the term of the district court just closed at Carrizozo, Lincoln county, were received at the state penitentiary last evening. The recruits were in charge of Sheriff Porfirio Chavez and a number of deputies. Judge Medler is credited by the law abiding citizens of Lincoln county with having created an unparalleled public sentiment in the county in favor of law and order. The term of court was held on a total cash outlay of \$2,100 which is a record for economy.

Names of Prisoners.

The names of the prisoners received at the penitentiary, their sentences and offenses are: Francisco Torres, 1 to 2 years for larceny of cattle; Mariano Torres, 1 to 2 years for larceny of cattle; Clemente Torres, 1 to 2 years for larceny of cattle; Frank Williams,

When Franklin resumed his testimony he was asked by Assistant District Attorney Ford the name called to his attention by Mr. Darrow with that of Lockwood during their meeting at a cafe on November 25. Franklin testified Wednesday that Darrow had shown him the list of names of the ninth McNamara venire with the remark: "That looks better." The other name was that of A. Kruger, said the witness. Lockwood and Kruger, he said, had been discussed by Darrow and himself. Others on the list who were considered unfriendly to the McNamara defense were marked "N. G." said the witness.

Story of Negotiations.

Franklin then resumed his story of the negotiations between himself and George N. Lockwood, the prospective juror alleged to have been bribed by Darrow in the indictment upon which he is being tried. In the indictment Lockwood is referred to as a "regularly drawn and qualified juror" in the McNamara case.

Drove to Lockwood's Home.

Los Angeles, Calif., May 31.—After leaving White, Franklin said he drove to Lockwood's home. The matter of a custodian for the remainder of the bribe money was then discussed, said Franklin, and Lockwood agreed to White and promised to meet White at the corner of Third and Los Angeles streets the next morning to receive the first payment of the money.

Reported to Darrow.

"I reported to Mr. Darrow the next morning at his office," continued the witness, "and asked him for the money. Mr. Darrow said that he did not have it, but would ring Job up and see what time he would be at the office with it."

In a few minutes Mr. Harriman came and walked with Darrow in the next room. Mr. Darrow then came out, handed me a small roll of bills and said nothing.

Harriman Produced the Currency.

"I left the office, went to the elevator and counted the money. There was \$4,000 in currency, one \$1,000 bill, and six \$500 bills."

Franklin said he met White, handed him the money as they stood in a saloon, and instructed him to pay Lockwood \$500 and hold the balance. He said he saw Campbell of the district attorney's office and Holm, a detective, watching as White left him. White and Lockwood then came up, Franklin said.

Porfirio Chavez, sheriff of Lincoln county, Captain Fred Fornoff, of the mounted police, J. A. Street, of the mounted police and Deputies J. H. Haley and W. E. Winfield, arrived over the New Mexico Central last evening from Carrazo with seventeen prisoners for the state penitentiary.

"BERT, THEY ARE ONTO US."

(Continued from page One.)

again before going out to Lockwood's house, Franklin replied that he had called at the lawyer's office in the Higgins building about 5 o'clock. He told Darrow he said that Lockwood had called him up, and asked him out to the farm as he could not come to town.

Money Hard to Get.

"I asked him then if he had gotten the money," continued the witness.

"He informed me that he had not, but if the safe deposit department of a certain bank was open, the money could be procured. Then he telephoned some place. After a moment, he set down the telephone and said the safe deposit department was closed and he would be unable to get the money that night. I then requested him to have the money in the morning some time before 9 o'clock, and he said he would."

White Selected Stakeholder.

The witness then told of his first meeting with C. E. White, whom he said he had selected as "stakeholder" for the Lockwood bribe money. After he had told White what he wanted him to do, he said White declared: "My God, Bert, I wouldn't trust George Lockwood as far as I could throw a bull by the tail."

"I assured Captain White that Lockwood was all right," testified Franklin.

White Was "The Big Fellow."

Franklin said that he had discussed with Darrow his conversation with White and had assured Darrow that White was absolutely trustworthy. Later he said he called up White and told him of his telephone conversation with Lockwood and that he was going out to see Lockwood that night. White, he said, declined an invitation to accompany him. Franklin said he meant White when he telephoned Lockwood asking him if he should bring the "big fellow" out.

To Evade Service.

Los Angeles, Calif., May 30.—Persons drawn as jurors in the McNamara trial who were not considered friendly to the defense were given notice in time to evade service, said Bert H. Franklin, on the stand today in the trial of Clarence Darrow, accused of bribing George N. Lockwood.

Notified Prospective Jurors.

"I sent my operatives to the neighborhoods of those drawn," testified Franklin. "They were instructed to call up the men by telephone and notify them that they had been drawn as jurors in the McNamara case and to tell them that, if they did not wish to serve, they could leave town as personal service was required."

"That Looks Better."

When Franklin resumed his testimony he was asked by Assistant District Attorney Ford the name called to his attention by Mr. Darrow with that of Lockwood during their meeting at a cafe on November 25. Franklin testified Wednesday that Darrow had shown him the list of names of the ninth McNamara venire with the remark: "That looks better." The other name was that of A. Kruger, said the witness. "Yes, I saw Mr. Darrow crossing the street towards us," was the reply. "Did you speak to the defendant?"

bill, a repeal of which was placed on the House metal tariff revision bill by the Senate, was the work of President Taft and a "former president. Representatives Prince of Illinois Republican, retorted that the Democratic speaker of the House was a bed-fellow of President Taft on the reciprocity question. Mr. Prince insisted the people would hold the Democrats responsible. Representative Lloyd, backed Mr. Shackelford in reiterating that President Taft "fathered the measure upon the advice of an ex-President."

Eulogized Roosevelt.

Mr. Prince then spoke eulogistically of Colonel Roosevelt and Representative Hardwick of Georgia, chided him for coming out at such a late date for the colonel.

Colonel a Wild Man.

"He is the only wild man in the country who has advocated the recall of judicial decisions," asserted Mr. Hardwick.

"To whom is the gentleman referring—the governor of New Jersey?" asked Representative Goode of Iowa.

"No, to Colonel Roosevelt, who denounced Bryan as a Socialist because he criticized the income tax decision and who now wants to recall all decisions," replied Hardwick.

Predicted Roosevelt's Defeat.

The Georgia congressman added a prediction that Colonel Roosevelt would be nominated and defeated at the polls.

"Missouri will cast her vote for him," interjected Representative Dyer of Missouri.

Importing "Niggers" in Missouri.

"Not unless the Republicans import more 'niggers' than they did two years ago," shouted Representative Boher, of the same state.

Representative Stevenson, of Minnesota, presented a petition signed by 21,079 "farmers who farm" asking for the repeal of the reciprocity bill, lest Canada at some time accept its terms. Representative of Iowa suggested it be passed over to the Democratic members to sign.

Petition to President Taft.

"Better send it to President Taft," suggested Representative Lobeck of Nebraska. Representative Gudgeon, of North Carolina wanted to know if the petition was signed "before or after Colonel Roosevelt changed his mind."

Mr. Stevenson said he was proud Colonel Roosevelt had changed his mind and only wished the Democrats would do likewise.

Land Bill By Fall.

Washington, D. C., May 31.—Senator Fall introduced in the Senate a bill to amend section 11 of the enabling act of New Mexico so as to authorize the state to locate its lands on the unsurveyed public lands within the state. They are now confined to the surveyed lands in addition to enabling the state to lease these lands at profit. Senator Fall estimates his amendment will result in a reduction of the registrar and received fees from \$100,000 to \$20,000.

FREE LECTURE AT
MUSEUM TONIGHT.Mrs. Cassidy to Talk Experiences
Among Primitive Navajo.

Mrs. Gerald Cassidy will give a free lecture illustrated by stereoscopic views taken by herself at the Museum of New Mexico, Old Palace building at 8 o'clock this evening. The subject is "My Experiences Among the Primitive Navajo" and promises to be a rare treat to those interested in the Indians and the history of the southwest. Mrs. Cassidy's father fought with Kit Carson against the Navajo and Jicarilla Apache and was one of the men stationed in guard of the tribe when confined at Ft. Sumner, N. M., in 1862. Mrs. Cassidy has been much among the Navajo in their present reservation. She has seen many of their strange religious ceremonies. She has also studied carefully the scientific books on the Navajo, including those of Dr. Washington Matthews and of the Franciscan fathers of St. Michaels, Arizona. The public is cordially invited to attend.

OHIO COMPROMISE
DENOUNCED BY ROOSEVELT.Unnecessary in View of the Fact That
the State Was Carried By
30,000.

(By Special Lensed Wire to New Mexican)
New York, May 31.—The suggestion of a compromise between the Taft and the Roosevelt forces at the Ohio convention, which is to elect six delegates at large to Chicago, was denounced today by Colonel Roosevelt. The Colonel said in a telegram to Walter F. Brown, his Ohio manager at Columbus: "I have just seen the telegram sent by Mr. Taft to Mr. Vories about a compromise in Ohio. Until I saw this telegram I had never heard a suggestion that there should be any compromise and I, of course, assumed that any such suggestion came from the Taft forces. In the first place I would not consent to a compromise anywhere and in the next place, we carried Ohio by over 30,000 on the popular primary."

WOMAN IMPRISONED FOR
HUSBAND BEATING.New York Judge Thought "Sauce for
the Gander Was Sauce for
the Goose."

(By Special Lensed Wire to New Mexican)
Binghamton, N. Y., May 31.—Mrs. Mary Dubal of this city is believed to be the first suffragist in the United States to be given penitentiary sentence for husband beating. She was arrested on a warrant obtained by Mr. Dubal who complained that in a fit of rage she gave him a sound beating. City Judge Albert Hotchkiss found her guilty, and declared that if women desired men's prerogatives they should also have men's punishments when found guilty of violation of law. He always dealt severely with wife beaters, he said, and accordingly he sentenced her to three months in the penitentiary.

LEGISLATIVE POINTERS

Morgan Llewellyn Buffaloes Lapoint.
Editor Will P. Lapoint, at present stenographer in the Senate, has at last parted company with that hirsute appendix. It all came about in this manner. At the meeting of the Dona Ana county good roads legislation last night at the Palace hotel, giant Morgan O. Llewellyn the best football player New Mexico ever produced, told Bill that unless he shaved the mustache he would introduce a resolution at their meeting today, compelling him to remove it and failure to comply therewith would mean that it would be done for him. The other members said that Morgan voiced their sentiments. Bill stated emphatically that no threats could make him part with it; however, he thought the matter over night and the result is that he is now minus a mustache. (We might say in parenthesis, that it improves his looks.)

HARMON 100,000; WILSON
89,116; BRYAN 2,400.

(By Special Lensed Wire to New Mexican)
Columbus, Ohio, May 31.—According to the official tabulation of the vote in the Democratic presidential preference primary vote, Governor Harmon received 100,000 votes against 89,116 for Governor Wilson of New Jersey. Colonel William J. Bryan received 2,490 votes, just one more than was cast for Champ Clark.

FORMER GOVERNOR ST.
JOHN SERIOUSLY ILL.

(By Special Lensed Wire to New Mexican)
Olahe, Kans., May 31.—Physicians attending John P. St. John, former governor of Kansas, who is ill at his home, of uraemic poisoning, said today his condition was extremely grave. He is 79 years old.

Consumption

Anyone interested in the cure of Consumption should get one of the booklets telling of recoveries by the use of Eckman's Alternative.
Consumption, Stomach Colds and Pneumonia may be the beginning of more serious troubles—Eckman's Alternative is the effective remedy. Read Mr. Kandy's statement.
"Gentlemen: For five or six years I was troubled with cough and expectoration. I also had a high fever. My eyes were declared Consumption by my physician. I was given Cod Liver Oil, Croscott and other medicines, all without benefit. At Christmas time, 1906, I was not expected to live. Calling Dr. R. H. McCarthy, he advised the use of Eckman's Alternative, which I took with excellent results and was entirely cured.
"During the past year I have gained 15 lbs. I go out in all weathers and have had no cough or cold whatever. I give these facts to encourage others to use Eckman's Alternative."
(Signed Affidavit) JAS. W. KANDY.
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain mercury, opium or habit-forming drugs. Ask for booklets of cured cases and write to Eckman Laboratory, Philadelphia, Pa. for more evidence. For sale by all leading druggists and by Zook's Pharmacy, Santa Fe.

GUARANTEE OF GOOD FAITH

Average Merchant Too Shrewd to
Make Misstatements in Cold Type
of Advertising Columns.

Advertising is a guarantee of good faith.
Retail trade attracts a substantial class of men who prefer to tell the truth for its own sake, and would not cheat their neighbors if they could.
Of course motives of self interest also warn them to take pains to make advertising accurate.
Misstatements produce disgruntled customers who can make a lot of trouble for a store which depends for success very largely on its own townspeople.

If men of less responsible character sometimes go into retail trade, usually they are too shrewd to make misstatements in the cold publicity of advertising type.

The public thus learns from experience that local store advertising is trustworthy.

As it deals with such subjects of surpassing interest as cost of living and the fashions of the day, every line of it is read with the most discriminating attention.

People like to read and think about shopping before visiting a store.

A great many purchases are practically made from the newspaper before the buyer leaves home.

Furthermore, liberal advertising tells the public that a merchant is making good.

Lack of it is interpreted as lack of confidence in one's business.

The firm that does not advertise is classed with the firm that seeks an obscure location in some remote side street, as too small to serve the public efficiently.

When a firm advertises freely, it gives the idea that it has a large trade to pay the expenses of its publicity.

A big breezy impression of achievement is conveyed.

Nothing succeeds like success.

Human nature is such, that to succeed, one must often give the impression that he already has succeeded.

The public is slow to deal with propositions that do not suggest successful efficiency.

The man who has faith enough to discount the future a little, to put his earnings into his business, and by liberal advertising give the impression of having a big trade already, is sure to get it if only his goods are right.—Springfield (Ill.) Register.

KEEP UP THE ADVERTISING

Wise Merchant Will Do Much Thinking
Before He Cuts Down on
Publicity Campaign.

If any business man, in New Year resolutions, has declared for less advertising, or perhaps entire discontinuation of the same, the greatest mistake of his life has been entered upon. Existing conditions sometimes render imperative a reduction of expenses, but the wise individual will do much thinking and investigation before deciding upon making a cut in the advertising expense. The average business man expects to have more trade in 1912 than came to him the preceding year, but if he reckons on this without aid of the advertising columns of the newspaper, disappointment and regret is surely in store for him. In order to increase business, there must be a reaching out, not by hand bills, to be lost or destroyed by atmospheric conditions, not by show windows through which comparatively few look, but by constant, steady advertising in the local paper, which is the surest, safest and best medium for acquiring trade and retaining it.

A cloudburst may deluge things but a steady rain is the thing that does the work. IT SOAKS IN.

Quality in Advertising.
"Advertising," says an expert who has made a life-long study of this ever-broadening field, "has lessened labor by showing us ways to do our work more easily. It has lessened housework by giving us prepared foods which are clean, nourishing and economical; the attractive ready-to-wear clothing; the low-priced heating, lighting and water systems.
"Advertising has standardized quality, so when you buy advertised goods you know you are getting all your money's worth."

The Success of Postal Savings Banks.

The establishment of postal savings banks has proved a boon to the people of small incomes. To the laboring man who has little to spare at the end of the week after he has paid his store bills; to the small shop-keeper whose profits, above living expenses, are not great; to the farmer who has only an occasional dollar to lay aside and to the child who is just learning the value of money, the postal savings banks give a chance to save even a dollar a week, if he cannot lay aside a larger sum.

Postal savings banks, which are in operation in practically all civilized countries, were advocated by President Taft from the beginning of his administration. There are now more than 7,500 banks in operation, with an aggregate deposit of nearly \$20,000,000, which is being added to every month. The establishment of these banks marks another prominent milestone in the achievements of the Taft administration and one which will endure for all time to come.

Santa Fe Business College OPENED for busy business men and women. DAY and NIGHT INSTRUCTION. Every pupil a separate desk. Weekly payments. Life Scholarships. CLASSES. NO EMBARRASSMENT. The new A. B. C. shorthand—one month is equal to 6 months at the old system. Used in courts and congress. It is the ONLY system that the 10th and 8th grades can grasp; to the teachers talk, and when they 10th school, can more easily secure a position. It helps scholars in their education. See Prof. J. A. Wood as to the matter. Prof. Charles, the new superintendent of two years ago was present at the Lake when the system was demonstrated before all the state school students assembled. Over 5,000 students teach the system. The shorthand institution has opened 600 business colleges the world over, which teach exclusively their system. Owned by "Seven" Pitman writers, all pupils of Sir Isaac Pitman. Business guaranteed, or money back. For terms and list of subject taught them are: Shorthand, blind and typewriting, bookkeeping, English, Spanish and good, sound, common sense business habits. Walter N. Wood, P. R. C. S. President, and a staff of certified teachers.

S.S.S. NATURE'S PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the stomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body.

One "Little Mother," this forenoon, even brought "baby" to work with her and while working on her plot also kept an eye on the youngster.

Cease Your Search for delightful candies. Go straight to Zook's and you'll be glad. Fresh today.

Sudden Sandstorm—A sandstorm of ten minutes duration followed by a shower, yesterday afternoon, interrupted the Memorial day exercises at the National cemetery, so that the addresses of Governor McDonald and Attorney B. M. Read could not be delivered. An eddy of the wind lifted part of the roof from an adobe building on Johnson street.

If You Don't Care for meat, how about some very nice vegetables? We have everything in season. The Plaza Market Co.

The Elks will appreciate your help to make the carnival a success. Come this evening and have some fun.

What Do You Think of That?—The Weather Bureau predicts frost in the higher altitudes of northern New Mex-

ic. That's a nice start for June, isn't it? Yesterday, the maximum temperature was 79 degrees. Last night the minimum was 50 degrees. There was .02 of a precipitation yesterday afternoon preceded by a gust of wind that stirred up the dust in merry fashion.

Proposals will be received by the board of county commissioners of Santa Fe county, New Mexico, for the construction of a bridge over the Santa Fe river on Agua Fria road within the city limits of the city of Santa Fe. Plans and specifications are now on file in the office of the county clerk. Bidders will be permitted to submit plans and specifications of their own (subject to the approval of the board) together with their bid. All bids will be opened on the first day of July, A. D., 1912, at 2 o'clock p. m. The board reserves the right to reject any and all bids.
