ALBUQUERQUE, NEW MEXICO, TUESDAY AFTERNOON, DECEMBER 2, 1902

NUMBER 316

## COLD WAVE

**Mississippi Valley Will Catch a Blizzard.**

**AN INSURANCE FRAUD IN TEXAS**

**Millionaire Brewer of St. Louis on Trial for Bribery.**

**SENATORS FIGHTING STATEHOOD BILL**

Washington, Dec. 2.—The weather bureau has issued the following bulletin:

A cold wave will overspread districts west of the Mississippi tonight and Wednesday. In the central valleys rain, and snow in the northern districts will be followed Wednesday by a decided fall in temperature. In the lake region high northeast winds with snow will be followed on Wednesday and Wednesday night by colder, clearing weather. In the Atlantic states snow in northern and rain in middle southern districts on Wednesday will be followed by much lower temperatures Wednesday night and Thursday.

## INSURANCE FRAUD.

**Order of a Texas Judge in a Noted Case.**

Dallas, Texas, Dec. 2.—Judge Nash, of the district court, handed down an order in the case of the New York Life Insurance company vs. C. T. Richardson et al., which in effect grants permission to one of the defendants to withdraw her original motion to dissolve the injunction and gives judgment against her in favor of the insurance company as per suit filed. The original petition of the insurance company alleges the payment of two policies aggregating \$40,000, was secured by fraudulent representation of the death of the policyholder. Following the order of the court the attorney for the insurance company visited the bank and procured therefrom \$10,000 deposited in the name of Richardson. Richardson, who is on trial in connection with an alleged insurance fraud in Mexico and El Paso, was not represented here.

## CHARGED WITH BRIBERY.

**Trial of a Millionaire Brewer of St. Louis.**

St. Louis, Dec. 2.—The case of Henry Nicolaus, millionaire brewer, indicted for bribery in connection with the suburban street railway franchise legislation, was called in Judge Ryan's branch of the circuit court today. Circuit Attorney Polk expects the case to last two days. The testimony will be, in part, the same as was used in the trials of Delegates Julius Lehmann, Harry A. Faulkner and Emil Bersch, who have been convicted of perjury. The specific charge against Nicolaus is that he signed notes for \$135,000 on which the suburban's safe deposit fund was raised. The other signatures to the notes, as the state expects to show, were those of Charles H. Turner and Ellis Wainwright.

## FIGHTING STATEHOOD.

**Republican Members Senate Committee Against New Mexico and Arizona.**

Washington, Dec. 2.—The republican members of the committee on territories who are opposed to reporting the statehood bill as it passed the house of representatives were again today in conference. Senator Quay being the only absentee. They were engaged principally in going over the testimony recently taken by the senate committee in New Mexico and Arizona, with the view to making as strong a showing as possible in opposition to the admission of those two territories.

## ARMY BILL.

Washington, Dec. 2.—Representative Hull, chairman of the house committee on military affairs, has introduced a bill for a general staff of the army. The bill follows closely that which was recommended by Secretary Root.

## ROCK SLIDE.

**Train on Rio Grande Western Road Wrecked on Mountain Side.**

Grand Junction, Colo., Dec. 2.—The Rio Grande Western train No. 1, west bound, known as the Pacific Coast Limited, which left Denver at 9:45 yesterday morning, ran into a rock slide early this morning, two miles west of Water, Utah. Fireman C. W. Beedle was instantly killed. Engineer John Cummings' left leg was broken and his right foot crushed, besides being internally injured. He will recover.

Mail Clerk E. L. Benson had his shoulder broken, internal injuries; may die. The engine was demolished, and all the cars except the rear Pullman derailed, and the passengers shaken up. Traffic was blocked for fifteen hours. The injured and dead were taken to Grand Junction by a relief train.

## Case Under Consideration.

Denver, Dec. 2.—The supreme court has taken under consideration for twenty-four hours whether or not it will assume original jurisdiction and hear arguments on the constitutional-ity of the Rush law, by which the city and county of Denver came into existence yesterday.

## Senator Alger Sworn In.

Washington, Dec. 2.—Immediately after the journal was read in the senate, Russell A. Alger was sworn in as senator from Michigan. The president's message was then presented and read.

At 1:27 p. m. the senate went into executive session.

## Presidential Nominations.

Washington, Dec. 2.—Among the nominations sent to the senate by the president today were: Oliver Wendell Holmes, of Massachusetts, associate justice of the supreme court of the United States; consul of the United States, Albert Morawetz, of Arizona, at Nogales, Mexico, and a number of receivers were appointed.

## Boston Wool Market.

Boston, Dec. 2.—Due to the recent holiday the market took on a quiet tone, though very firm. The market is felt to be in a healthy condition and dealers are looking for more activity for the balance of the season. There is a good movement in territory wools at firm prices with fine staple 50¢55¢; strictly fine, 50¢55¢; fine and fine medium, 50¢53¢; medium, 45¢47¢.

## President's Wedding Anniversary.

Washington, Dec. 2.—Today was the sixteenth wedding anniversary of Mr. and Mrs. Roosevelt, but only a very few of the many callers at the white house recalled the fact and offered their congratulations. In the president's family there was no special observance of the anniversary, unless a dinner at which several close friends will be present this evening may be regarded as such.

## LODDY'S GREAT LOSS.

**Wife and Three Children, with Home, Destroyed by Fire.**

News of the burning of the wife and three children of Charles Luddy and one of the most horrible tragedies that has ever occurred in New Mexico, reaches the city.

Last Thursday evening, at their home in the Vallecito mountains, nine miles south of the Jemez Hot Springs, on the evening of the nation's day of thanksgiving, and probably after a day of pleasure and good things to eat for the little ones, Mrs. Luddy and her three children, the oldest a boy of 9 years, and the youngest a baby in arms, lay down in peaceful rest to be aroused before morning with the horror of meeting death by being burned.

The Luddy home was a sort of a dugout covered with a frame roof. It is thought by those who viewed the ruins that the fire started from a defective fuse. It ran down the rafters and around the outside, burning the roof supports, letting it fall in. The charred bodies of the victims were found in a group beneath a window, and from appearances they had discovered the fire just before the roof fell and fled to the window to get out, but at that moment the burning roof fell, closing the window and pinning them to the ground to meet death by fire and suffocation. The girl's legs were burned off.

A native, the nearest neighbor, who lived about half a mile from the Luddy home, passed the place early Friday morning and made the startling, ghastly discovery.

Charles Luddy, the husband and father, was working at a saw mill several miles distant from home and knew nothing of the affair until told Friday. He is quite well known in Albuquerque, having frequented in former years between this city and Jemez.

Coffins were made at the saw mill on Saturday and the bodies were buried at Jemez on Sunday.

## District Court.

A complaint was filed in the district court this morning by the territory of New Mexico against the three election judges of Alameda precinct by Attorney Sommers Burkhardt.

The case results from the recent election in which it is charged that the three election judges of Alameda permitted illegal voting.

Every precinct in the county, up and down the river, held elections yesterday for mayordomo and acequia commissioners. In Old Albuquerque, Leonardo Hunick was elected mayordomo and C. E. Glickler, Herman Blocher and John Mann were elected commissioners.

# ANNUAL MESSAGE OF PRESIDENT ROOSEVELT

**Read to the Congress of the United States in Both Houses Assembled Today.**

## COMPLIMENTS COUNTRY ON ITS PROSPERITY

**Treats Upon the Trusts and Asks Appropriation to Enforce Anti-Trust Law**  
**---Dwells at Length on the Relations of Capital and Labor---**  
**Heartily Approves of Arbitration.**

## NEGLECTED TO SAY A WORD ABOUT STATEHOOD FOR THE TERRITORIES

Washington, D. C., Dec. 2.—President Roosevelt's annual message was read today as follows:

To the Senate and House of Representatives:

We still continue in a period of unbounded prosperity. This prosperity is not the creature of law, but undoubtedly the laws under which we work have been instrumental in creating the conditions which made it possible, and by unwise legislation it would be easy enough to destroy it. There will undoubtedly be periods of depression. The wave will recede but the tide will advance. This nation is seated on a continent flanked by two great oceans. It is composed of men the descendants of pioneers, or, in a sense, pioneers themselves; of men winnowed out from among nations of the old world by the energy, boldness and love of adventure found in their own eager hearts. Such a nation, so placed, will surely wrest success from fortune.

## Our Place Among Nations.

As a people we have blazed a large part in the world, and we are bent upon making our future even larger than the past. In particular, the events of the last four years have definitely decided that, for woe or for weal, our place must be great among the nations. We may either fall greatly or succeed greatly; but we cannot avoid the endeavor from which either great failure or great success must come. Even if we would, we can not play a small part. If we should try, all that would follow would be that we should play a large part ignominiously and shamefully.

But our people, the sons of the men who had iron in their blood, rejoice in the present and face the future with heart and resolve of will. Ours is not the creed of the weakling and the coward; ours is the gospel of hope and of triumphant endeavor. We do not shrink from the struggle before us. There are many problems for us to face at the outset of the twentieth century—grave problems abroad and still graver at home; but we know that we can solve them and solve them well, provided only that we bring to the solution the qualities of head and heart which were shown by the men who, in the days of Washington, founded this government, and, in the days of Lincoln, preserved it.

## The Country Prosperous.

No country has ever occupied a higher plane of material well-being than ours at the present moment. This well-being is due to no sudden or accidental causes, but to the play of the economic forces in this country for over a century; to our laws, our sustained and continuous policies; above all to the high individual average of our citizenship. Great fortunes have been won by those who have taken the lead in this phenomenal industrial development, and most of these fortunes have been won not by doing evil, but as an incident to action which has benefited the community as a whole.

Never before has material well-being been so widely diffused among our people. Great fortunes have been accumulated, and yet in the aggregate these fortunes are small indeed when compared to the wealth of the people as a whole. The plain people are better off than they have ever been before. The insurance companies, which are practically mutual benefit societies—especially helpful to men of moderate means—represent accumulations of capital which are among the largest in this country. There are more deposits in the saving banks, more owners of farms, more well-paid wage-workers in this country now than ever before in our history. Of course, when the conditions have favored the growth of so much that was good, they have also favored somewhat the growth of what was evil. It is eminently necessary that we should endeavor to cut out this evil, but let us keep a due sense of proportion; let us not in fixing our gaze upon the lesser evil forget the greater good. The evils are real and some of them are menacing, but they are the outgrowth, not of misery or decadence, but of prosperity—the progress of our gigantic industrial development. This industrial development must not be checked, but side

by side with it should go such progressive regulation as will diminish the evils. We should fail in our duty if we did not try to remedy the evils, but we shall succeed only if we proceed patiently, with practical common sense as well as resolution, separating the good from the bad and holding on the former while endeavoring to get rid of the latter.

## About the Trusts.

In my message to the present congress at its first session I discussed at length the question of the regulation of those big corporations commonly doing an interstate business, often with some tendency to monopoly, which are popularly known as trusts. The experience of the past year has emphasized, in my opinion, the desirability of the steps I then proposed. A fundamental requisite of social efficiency is a high standard of individual energy and excellence; but this is in no wise inconsistent with power to act in combination for aims which can not so well be achieved by the individual acting alone. A fundamental base of civilization is the inviolability of property; but this is in no wise inconsistent with the right of society to regulate the exercise of the artificial powers which it confers upon the owners of property, under the name of corporate franchises, in such a way as to prevent the misuse of these powers. Corporations, and especially combinations of corporations, should be managed under public regulation. Experience has shown under our system of government the necessary supervision can not be obtained by state action. It must therefore be achieved by national action. Our aim is not to do away with corporations; on the contrary, these big aggregations are an inevitable development of modern industrialism, and the effort to destroy them would be futile unless accompanied in ways that would work the utmost mischief to the body politic. We can do nothing of good in the way of regulating and supervising these corporations until we fix clearly in our minds that we are not attacking the corporations, but endeavoring to do away with any evil in them. We are not hostile to them; we are merely determined that they shall be so handled as to subserve the public good. We draw the line against misconduct, not against wealth. The capitalist who, alone or in conjunction with his fellows, performs some great industrial feat by which he wins money is a well-doer, not a wrong-doer, provided only he works in proper and legitimate lines. We wish to favor such a man when he does well. We wish to supervise and control his actions only to prevent him from doing ill. Publicity can do no harm to the honest corporation; and we need not be overbearing about sparing the dishonest corporation.

In curbing and regulating the combinations of capital which are or may become injurious to the public we must be careful not to stop the great enterprises which have legitimately reduced the cost of production, not to abandon the place which our country has won in the leadership of the international industrial world, not to strike down wealth with the result of closing factories and mines, of turning the wage-worker idle in the streets and leaving the farmer without a market for what he grows. Instances upon the impossible means delay in accomplishing the possible, exactly as, on the other hand, the stubborn defense alike of what is good and what is bad in the existing system, the resolute effort to obstruct any attempt at betterment, betrays blindness to the historic truth that wise evolution is the sure safeguard against revolution.

## Regulate Interstate Business.

No more important subject can come before congress than this of the regulation of interstate business. This country can not afford to sit supine on the plea that under our peculiar system of government we are helpless in the presence of the new conditions, and unable to grapple with them or to cut out whatever of evil has arisen in connection with them. The power of congress to regulate interstate commerce is an absolute and unqualified grant, and without limitations other than those prescribed by the constitution. The congress has constitutional authority

ty to make all laws necessary and proper for executing this power, and I am satisfied that this power has not been exhausted by any legislation now on the statute books. It is evident, therefore, that evils restrictive of commercial freedom and entailing restraint upon national commerce fall within the regulative power of the congress, and that a wise and reasonable law would be a necessary and proper exercise of congressional authority to the end that such evils should be eradicated.

I believe that monopolies, unjust discriminations, which prevent or cripple competition, fraudulent over-capitalization, and other evils in trust organizations and practices which injuriously affect interstate trade can be prevented under the power of the congress to "regulate commerce with foreign nations and among the several states" through regulations and requirements operating directly upon such commerce, the instrumentalities thereof, and those engaged therein.

I earnestly recommend this subject to the consideration of the congress with a view to the passage of a law reasonable in its provisions and effective in its operation, upon which the questions can be finally adjudicated that now raise doubts as to the necessity of constitutional amendment. If it prove impossible to accomplish the purposes above set forth by such a law, then, assuredly, we should not shrink from amending the constitution so as to secure beyond peradventure the power sought.

## Enforce Anti-Trust Law.

The congress has not heretofore made any appropriation for the better enforcement of the anti-trust law as it now stands. Very much has been done by the department of justice in securing the enforcement of this law, but much more may be done if congress would make a special appropriation for this purpose, to be expended under the direction of the attorney general.

One proposition advocated has been the reduction of the tariff as a means of reaching the evils of the trusts which fall within the category I have described. Not merely would this be wholly ineffective, but the diversion of our efforts in such a direction would mean the abandonment of all intelligent attempt to do away with these evils. Many of the large corporations, where it is now nominally, but of course it is in fact, found that a given rate of duty does produce a monopoly which works ill, no protectionist would object to such reduction of the duty as would equalize competition.

In my judgment, the tariff on anthracite coal should be removed, and anthracite put actually, where it now is nominally, on the free list. This would have no effect at all save in crisis; but in crisis it might be of service to the people.

**Our Monetary System.**

Interest rates are a potent factor in business activity, and in order that these rates may be equalized to meet the varying needs of the seasons and of widely separated communities, and to prevent the recurrence of financial stringencies which injuriously affect legitimate business, it is necessary that there should be an element of elasticity in our monetary system. Banks are the natural servants of commerce, and upon them should be placed, as far as practicable, the burden of furnishing and maintaining a circulation adequate to supply the needs of our diversified industries and of our domestic and foreign commerce; and the issue of this should be so regulated that a sufficient supply should be always available for the business interests of the country.

It would be both unwise and unnecessary at this time to attempt to reconstruct our financial system, which has been the growth of a century; but some additional legislation is, I think, desirable. The mere outline of any plan sufficiently comprehensive to meet these requirements would transgress the appropriate limits of this communication. It is suggested, however, that all future legislation on the subject should be with the view of encouraging the use of such instrumentalities as will automatically supply every legitimate demand of productive industries and of commerce, not only in the amount, but in the character of money interchangeable, and, at the will of the holder, convertible into the established gold standard.

I again call your attention to the need of passing a proper immigration law, covering the points outlined in my message.

changes. It is most earnestly to be wished that we could treat the tariff from the standpoint solely of our business needs. It is, perhaps, too much to hope that partisanship may be entirely excluded from consideration of the subject, but at least it can be made secondary to the business interests of the country—that is, to the interests of our people as a whole. Unquestionably these business interests will best be served if together with faith of principle as regards the tariff we combine a system which will permit us from time to time to make the necessary reapportionment of the principle to the shifting national needs. We must take scrupulous care that the reapportionment shall be made in such a way that it will not amount to a dislocation of our system, the mere threat of which (not to speak of the performance) would produce paralysis in the business energies of the community. The first consideration in making these changes would, of course, be to preserve the principle which underlies our whole tariff system—that is, the principle of putting American business interests at least on a full equality with interests abroad, and of always allowing a sufficient rate of duty to more than cover the difference between the labor cost here and abroad. The well-being of the wage-worker, like the well-being of the farmer, should be treated as an essential in shaping our whole economic policy. There must never be any change which will jeopardize the standard of wages of the American wage-worker.

## Points Out Readjustment.

One way in which the readjustment sought can be reached is by reciprocity treaties. It is greatly to be desired that such treaties may be adopted. They can be used to widen our markets and to give a greater field for the activities of our producers on the one hand, and on the other hand to secure in practical shape the lowering of duties when they are no longer needed for protection among our own people, or when the minimum of damage done may be disregarded for the sake of the maximum of good accomplished. If it prove impossible to ratify the pending treaties, and if there seem to be no warrant for the endeavor to execute others, or to amend the pending treaties so that they can be ratified, then the same end—to secure reciprocity—should be met by direct legislation.

Wherever the tariff conditions are such that a needed change can not with advantage be made by the application of the reciprocity idea, then it can be made outright by a lowering of duties on a given product. If possible, such change should be made only after the fullest consideration by practical experts, who should approach the subject from a business standpoint, having in view both the particular interests affected and the common well-being of the people as a whole. The machinery for providing such careful investigation can readily be supplied. The executive department has already at its disposal methods of collecting facts and figures; and if the congress desires additional consideration to that which will be given the subject by its own committees, then a commission of business experts can be appointed whose duty it should be to recommend action by the congress after a deliberate and scientific examination of the various schedules as they are affected by the changed and changing conditions. The unburied and unbiased report of this commission would show what changes should be made in the various schedules, and how far these changes could go without also changing the great prosperity which this country is now enjoying, or upsetting its fixed economic policy.

The cases in which the tariff can produce a monopoly are so few as to constitute an insubstantial factor in the question; but of course if in any case it be found that a given rate of duty does produce a monopoly which works ill, no protectionist would object to such reduction of the duty as would equalize competition.

In my judgment, the tariff on anthracite coal should be removed, and anthracite put actually, where it now is nominally, on the free list. This would have no effect at all save in crisis; but in crisis it might be of service to the people.

**Our Monetary System.**

Interest rates are a potent factor in business activity, and in order that these rates may be equalized to meet the varying needs of the seasons and of widely separated communities, and to prevent the recurrence of financial stringencies which injuriously affect legitimate business, it is necessary that there should be an element of elasticity in our monetary system. Banks are the natural servants of commerce, and upon them should be placed, as far as practicable, the burden of furnishing and maintaining a circulation adequate to supply the needs of our diversified industries and of our domestic and foreign commerce; and the issue of this should be so regulated that a sufficient supply should be always available for the business interests of the country.

It would be both unwise and unnecessary at this time to attempt to reconstruct our financial system, which has been the growth of a century; but some additional legislation is, I think, desirable. The mere outline of any plan sufficiently comprehensive to meet these requirements would transgress the appropriate limits of this communication. It is suggested, however, that all future legislation on the subject should be with the view of encouraging the use of such instrumentalities as will automatically supply every legitimate demand of productive industries and of commerce, not only in the amount, but in the character of money interchangeable, and, at the will of the holder, convertible into the established gold standard.

I again call your attention to the need of passing a proper immigration law, covering the points outlined in my message.

(Continued on page three.)

## RAIDING RESORTS

**New York District Attorney Arresting Gamblers.**

**RAILWAY MEN'S WAGES INCREASED**

**Western Union Telegraph Company Right-of-Way Suit.**

**GERMANY'S VENEZUELA CLAIMS**

New York, Dec. 2.—District Attorney Jerome's sensational raids on alleged gambling resorts begun about midnight last night were continued until 4:30 o'clock this morning and numerous small places were raided. The attacks on the latter, however, were almost overlooked in the public interest, which centered in the assaults on the mansions occupied by Richard A. Canfield and William Burbridge, which were entered by means of ladders, axes and sledges. The police allege that Frank Farrell is interested in Burbridge's place. Great quantities of costly "evidence" were carted from those places by the police, but arrests were few. Up to last night the general impression prevailed that Canfield's, which is in the heart of the fashionable uptown district, only a few doors from Fifth avenue and near two celebrated restaurants, was a "Gibraltar," which could not be taken; and a similar belief prevailed in regard to Burbridge's place, which was especially protected by steel doors. This place is in a cross street uptown, only a half block from Fifth avenue and a few steps from a celebrated hotel. So great was the public interest aroused by the news of the raid on Canfield's that people flocked to the neighborhood until the intersection of Fifth avenue and Forty-fourth street, the corner nearest Canfield's, was blocked with carriages and people. After Burbridge's the raiders visited Ludlam's place, otherwise known as the "Savoy Club." They got one man there, a colored subordinate employed about the place, Jerome, Captain Piper, Inspector Brooks, several assistants to the district attorney and numerous detectives were busy in Ludlam's place until after 4 o'clock this morning. They blew open a safe in their hunt for evidence. Earlier in the night, District Attorney Jerome made many raids in the downtown Italian quarter of alleged disorderly houses. These were "preliminaries," as it were, to the two big events, Canfield's and Burbridge's. District Attorney Jerome declined absolutely to make any sort of a statement after his night's work.

## Wages Increased.

Tamamoa, Pa., Dec. 2.—Employees of the Shamokin division of the Philadelphia & Reading Railway company have been notified of an increase in wages. The advance averages 10 per cent.

## Right of Way Suit.

Philadelphia, Dec. 2.—The time limit placed by the Pennsylvania Railroad company for the removal by the Western Union Telegraph company of its poles and wires from the railroad lines expired yesterday, but they have not been removed. The dispute has been taken into the courts and an understanding has been reached between the two companies by which the poles and wires are to remain undisturbed until a settlement of the pending suit is reached.

## Germany's Demand.

Berlin, Dec. 2.—The published statement that Germany's claims against Venezuela amount to \$15,000,000, is the correspondent of the Associated Press is officially informed, incorrect. While the German government is not yet ready to publish the details of its demands, persons who have seen the papers say the total is about \$2,000,000.

## HOTEL BURNED.

Grand Central Hotel at Socorro Destroyed by Fire.

Socorro, Dec. 2.—The historic old Grand Central hotel building, the property of C. T. Brown, burned at 1 o'clock this morning. The origin of the fire is supposed to be incendiary. Only by heroic work of the local fire company was the postoffice block saved.

## Jewelry Store Robbed.

During the fire this morning the F. Abeyta jewelry store was entered by breaking the front window and \$300 or \$400 worth of jewelry was stolen.

Attend the Juvenile minstrels at the Colombo hall tonight.

# THE WORST THING in the world for a cough is to THE BEST THING in the world for a cough is a MUCH DISPUTED QUESTION

We keep all the leading remedies or would be pleased to fill your doctors prescriptions.

those of any other daily paper in the ter-  
ritory.

#### New Mexico demands Statehood from the Fifty-Seventh Congress.

This territory and Arizona will get  
even politically with Indiana in less  
than eight years.

President Roosevelt tackles the  
trusts in clear cut sentences in his  
message to congress.

The annual message of President  
Roosevelt is published in today's Cit-  
izen. It says nothing about statehood.

The republicans have systematically  
lied about statehood for the territories  
in their national platforms the past  
eight years.

If the statehood bill is defeated, the  
chances are that the Albuquerque East-  
ern and other proposed railroads in  
New Mexico will not be built.

When the time comes to elect a suc-  
cessor to Senator Beveridge in In-  
diana, New Mexico and Arizona will be  
in the lobby at Indianapolis.

The Citizen is seriously thinking of  
buying a weekly newspaper in each  
county in Indiana and beating four or  
five kinds of egotism out of Senator  
Beveridge.

It is possible that Indiana may again  
have a president come from within its  
borders, but it will never be with the  
help of the New Mexico and Arizona  
delegations.

Two inches of snow fell at El Paso  
a few days ago. None of the beautiful  
fall in this city. Beveridge probably  
got in his work on the clerk of the  
weather against us.

The United States patent office is  
demonstrated to be becoming quite a  
money maker for the government.  
Last year, says the Washington Post,  
the report says \$161,614.32 was turned  
into the treasury, and the volume of  
work transacted was greater than ever  
before. For the first time in history,  
the number of applications filed ex-  
ceeded 50,000.

At the close of the banquet in this  
city to the visiting United States sena-  
torial committee, Senator Beveridge  
quoted Robert Burns' "Highland Wel-  
come" as expressive of his sentiments  
to our people, and now he goes back to  
Washington and abuses our hospitality  
by heaping epithets upon a defenseless  
people, whose only crime is a desire  
for self-government.

"The Hardy Catalpa" is the title and  
subject of one of the latest publica-  
tions of the bureau of forestry in the  
agricultural department, being bulle-  
tin No. 37. It is a work of fifty-eight  
pages, elegantly printed and with  
many beautiful illustrations. The  
work fully describes the enterprise of  
growing catalpa trees on the western  
plains for use as posts. It is hoped  
ultimately to use it for railroad ties.

#### CARPETS AND MICROBES.

An exchange discusses the use of  
carpets on floors and finds them un-  
sanitary, owing to the immense num-  
ber of microbes that find lodgment in  
them. A case is described where in  
five minutes in a carpeted room seven-  
ty-five germs settled on a three-inch  
saucer. This without stirring the  
germs by sweeping. When the carpet  
was swept 2,700 settled on the saucer  
in five minutes. If carpets must be  
used, they ought to be taken up fre-  
quently, it is urged, and beaten so

that the wind may carry away their  
microbic contents. Surgeons allow no  
carpets in rooms occupied by their pa-  
tients or in the operating room. They  
even have the walls brushed and all  
pictures and other accumulators of  
microbic dust removed. Every par-  
ticle of dust is likely to harbor dozens  
of germs. This being the case, the  
carpet is an object of suspicion.

The secretary of the treasury asks  
for the following appropriations for  
New Mexico and Arizona for the fiscal  
year ending June 30, 1904: Salaries  
for the governor and other territorial  
officers, for New Mexico, \$20,300; con-  
tingent expenses, \$1,000; legislative  
expenses, \$4,000; office of surveyor  
general, \$12,000; support of Indians in  
Arizona and New Mexico, \$225,000; in-  
cidental expenses of Indian service in  
New Mexico, \$1,500; support of Indian  
school at Santa Fe, \$76,300; fund for  
construction of irrigation works under  
the sale of public lands, \$200,000.

#### BANKING OF THE WORLD.

The banking power of the world in  
1890, that is, capital, surplus profits,  
note issues, and deposits, as stated  
by the late M. G. Mulhall, was \$3,197,  
000,000, as follows:  
United Kingdom, \$910,000,000; con-  
tinental Europe, \$1,037,000,000; Aus-  
tralia, Canada, Cape Colony, Argen-  
tina and Uruguay, \$220,000,000, and  
United States, \$1,030,000,000. In 1894  
Mr. Maurice L. Muhleman calculated  
the banking power of the world at  
\$3,915,000,000.

From statistics published by the  
London Chronicle, for June last, and  
incorporating therewith the most re-  
cent returns relating to the savings  
banks of the United Kingdom, the  
banking power of that country is  
shown to be \$1,206,000,000, an in-  
crease of thirty-two and a half per cent  
since 1890. Assuming the same rate of  
increase in continental Europe, the  
English colonies, and Argentina and  
Uruguay, their power amounts to \$1,  
674,000,000 and \$292,000,000, respec-  
tively. The banking funds of Bulgaria,  
Greece, Roumania, Servia and Turkey  
were not included in the Mulhall state-  
ment, but are given at \$50,000,000 for  
the current year.

The capital, surplus profits, and cir-  
culation of all banks in the United  
States are definitely known, and from  
reports obtained by the comptroller of  
the currency from national banks,  
state officials, and from the banks  
direct the deposits of over seventy-  
seven per cent of banks in operation.  
The deposits of twenty-three per cent  
of the banks have been carefully es-  
timated from data at command relative  
to the former and give the aggregate  
banking power of the United  
States as \$2,487,000,000, making the  
aggregate power of the world \$5,409,  
000,000, or say, \$27,049,000,000, an in-  
crease since 1890 of \$11,060,000,000, or  
69.19 per cent.

#### SENATOR BEVERIDGE.

The gentleman from Indiana has in-  
curred the lasting enmity of the peo-  
ple of New Mexico and Arizona by his  
prejudiced course in regard to state-  
hood for these territories and his re-  
markable star chamber way of making  
his flying investigation as to the fitness  
of these communities for self-govern-  
ment.

His way of investigating was some-  
what after the style of a petty mon-

Fantastic stories have been written of  
magic mirrors in which the future was  
revealed. If such a thing were  
possible many a bright-faced bride  
would shrink from the revelation of her-  
self, stripped of all her loveliness. If  
there is one thing which would make a  
woman shrink from marriage it is to see  
the rapid physical deterioration which  
comes to so many wives. The cause is  
generally due to womanly diseases.

Lost health and lost comeliness are  
restored by the use of Dr. Pierce's Fa-  
vorite Prescription. It cures irregular-  
ity and dries weakening drains. It  
heals inflammation and ulceration, and  
cures female weakness.  
"It is with the greatest pleasure that I tell  
you what Dr. Pierce's Favorite Prescription and  
Golden Medical Discovery have done for me,"  
writes Mrs. Emma L. Banks, of 192 North 7th  
Street, Harrisburg, Pa. "They have done me a  
world of good. I had female weakness for six  
years; sometimes would feel so badly I did not  
know what to do, but I found relief at last,  
thanks to Dr. Pierce for his kind advice. I have  
this medicine still in my house and will always  
keep it."  
If you are led to the purchase of  
"Favorite Prescription" because of its  
remarkable cures of other women, do  
not accept a substitute which has none  
of these cures to its credit.  
Free. Dr. Pierce's Common Sense  
Medical Adviser, paper covers, is sent  
free on receipt of 31 one-cent stamps  
to pay expense of mailing only. Or  
for cloth-bound volume send 51 stamps.  
Address Dr. R. V. Pierce, Buffalo, N. Y.

arch visiting a conquered province. He  
was prepared to turn up his nose at  
everything that he saw on the hasty  
trip.

The people were at first amused at  
his proceedings. The idea of a young  
fellow fresh from the sycamore bot-  
toms of the Wabash deciding upon the  
fitness of a half million of people for  
self-government by a hasty glance at  
the dockets of a few county justices  
of the peace, was so ridiculous that it  
was not supposed probable that the  
senate of the United States would con-  
sider it for a moment.

However, it appears from the dis-  
patches that the question of admission  
depends upon the report of Senator  
Beveridge. He is against us. We do  
not have stump fences like those in In-  
diana, and this is against us in the  
eyes of Beveridge. We have no white  
cap societies, such as flourish by night  
in Indiana; we have no dialect poets;  
no "blocks of five" politicians. To be  
reported upon adversely by a senator  
from Indiana is much like being kicked  
by a mule. The assumption of super-  
iority is so supremely assinine that it  
is considered more of an insult than  
an injury.

New Mexico and Arizona hope that  
the venerable senate will not take the  
sophomoric senator from Indiana as  
their guide on this great question.  
They have more than a schoolboy  
knowledge of the resources of these  
territories.

As to Beveridge, personally. He  
should be retired at the end of his  
senatorial term. He is entirely out of  
place in the senate. He should be as-  
sistant attorney for one of the big  
trusts.

#### CHAMBERLAIN'S STOMACH AND LIVER TABLETS.

Try them  
When you feel dull after eating.  
When you have no appetite.  
When you have a bad taste in the  
mouth.  
When your liver is torpid.  
When your bowels are constipated.  
When you have a headache.  
When you feel bilious.  
They will improve your appetite,  
cleanse and invigorate your stomach  
and regulate your liver and bowels.  
For sale by all druggists.  
H. T. McIntyre, St. Paul, Minn., who  
has been troubled with a disordered  
stomach, says: "Chamberlain's Stomach  
and Liver Tablets do me more good  
than anything I have ever taken."  
For sale by all druggists.

#### JEMEZ & SULPHUR HOT SPRINGS STAGE LINE.

Carries the U. S. mail; only line with  
a change of stock en route; good rigs,  
horses and drivers; leaves Albuquerque  
every Tuesday, Thursday and Sat-  
urday at 5 a. m. For particulars ad-  
dress W. L. Trimble & Co., agents, Al-  
buquerque, or J. B. BLOCK, proprie-  
tor, Jemez.

Any man who doesn't take advan-  
tage of our great shirt sale by laying in  
a supply for the next twelve months,  
ought not to wear any.—The Lion  
Store.

No tuberculosis, preservative or color-  
ing in Matthews' Jersey milk

Acorn base burners. The world's  
standard.—Whitney Company.

#### DEMING.

A Few Pointers About a Good Town in  
Southern New Mexico.

Keep your eye on Deming.  
Deming has just been incorporated.  
Deming, the coming city of New  
Mexico.

Deming has a magnificent school  
system.

Deming, the railroad center of New  
Mexico.

Deming, the gateway to the best  
part of Old Mexico.

Deming! Don't overlook it if you  
are looking for a sale and paying in-  
vestment.

Deming, the seat of the new county  
of Luna.

Deming is the great mining center  
of the southwest.

Deming water is chemically pure—  
equal to Polan Springs.

Deming has increased 50 per cent in  
population in four years.

Deming water and pure ozone make  
strong and healthy people.

Investments in Deming lots will  
double and treble in one year.

Deming has now a large ice plant  
and electric light system under con-  
tract.

Deming the demand for rental  
houses is five times in excess of the  
supply.

Deming has an abundance of water  
for irrigating vineyards, orchards, or  
gardens.

Buy lots and build in Deming. Your  
rental returns will be 20 per cent on  
the investment.

In Deming good safe loans can be  
had at better rates than in the old es-  
tablished towns.

In Deming you can buy lots for \$100  
which will pay you 100 per cent in less  
than twelve months.

In Deming another good hotel is  
needed to accommodate the enormous  
increase of population.

Deming is a great health resort—  
has no superior in climate for the cure  
of pulmonary troubles.

Deming will be the great smelter  
center. Two large plants will be in-  
stalled within the year.

Why buy high priced lots when you  
can get them cheap in Deming now,  
with certain advance assured?

Agricultural lands in Deming are un-  
surpassed for fertility, production of  
fruits and vegetables of all kinds.

Deming! Have you been there? If  
not, you should get there for the big  
sale of lots on the 17th of this month.

Deming offers the same opportuni-  
ties now that the most prosperous  
cities in the west offered several years  
ago.

Deming needs one hundred new  
houses to supply the demand, and  
needs them now. This demand con-  
tinues to grow.

Deming ships over 100,000 head of  
cattle annually; is the center of the  
greatest breeding region in the south-  
west and cattle men all know this.

## PRESIDENT'S MESSAGE.

(Continued from page one.)

sage to you at the first session of the present congress; substantially such a bill has already passed the house.

## Capital and Labor.

How to secure fair treatment alike for labor and capital, how to hold in check the unscrupulous man, whether employer or employee, without weakening individual initiative, without hampering and cramping the industrial development of the country, is a problem fraught with great difficulties and one which it is of the highest importance to solve on lines of sanity and far-sighted common sense as well as of devotion to right. This is an era of federation and combination. Exactly as business men find they must often work through corporations, and as it is a constant tendency of these corporations to grow larger, so it is often necessary for laboring men to work in federations, and these have become important factors of modern industrial life. Both kinds of federation, capitalistic and labor, can do much good, and as a necessary corollary they can both do evil. Opposition to each kind of organization should take the form of opposition to whatever is bad in the conduct of any given corporation or union—not of attacks upon corporations as such nor upon unions as such; for some of the most far-reaching beneficent work for our people has been accomplished through both corporations and unions. Each must refrain from arbitrary or tyrannous interference with the rights of others. Organized capital and organized labor alike should remember that in the long run the interest of each must be brought into harmony with the interest of the general public; and the conduct of each must conform to the fundamental rules of obedience to the law, of individual freedom, and of justice and fair dealing toward all. Each should remember that in addition to power it must strive after the realization of healthy, lofty, and generous ideals. Every employer, every wage-worker, must be guaranteed his liberty and his right to do as he likes with his property or his labor so long as he does not infringe upon the rights of others. It is of the highest importance that employer and employee alike should endeavor to appreciate each the viewpoint of the other and the sure disaster that will come upon both in the long run if either grows to take as his habit the attitude of sour hostility and distrust toward the other. Few people deserve better of the country than those representatives both of capital and labor—and there are many such—who work continually to bring about a good understanding of this kind, based upon wisdom and upon broad and kindly sympathy between employers and employed. Above all, we need to remember that any kind of class animosity in the political world, if possible, even more wicked, even more destructive to national welfare, than sectional, race, or religious animosity. We can get good government only upon condition that we keep true to the principles upon which this nation was founded, and judge each man not as a part of a class, but upon his individual merits. All that we have a right to ask of any man, rich or poor, whatever his creed, his occupation, his birthplace, or his residence, is that he shall act well and honorably by his neighbor and by his country. We are neither for the rich man as such nor for the poor man as such; we are for the upright man, rich or poor. So far as the constitutional powers of the national government touch these matters of general and vital moment to the nation, they should be exercised in conformity with the principles above set forth.

## Wants Secretary of Commerce.

It is earnestly hoped that a secretary of commerce may be created, with a seat in the cabinet. The rapid multiplication of questions affecting labor and capital, the growth and complexity of the organizations through which both labor and capital now find expression, the steady tendency toward the employment of capital in huge corporations, and the wonderful strides of this country toward leadership in the international business world justify an urgent demand for the creation of such a position. Substantially all the leading commercial bodies in this country have united in requesting its creation. It is desirable that some such measure as that which has already passed the senate be enacted into law. The creation of such a department would in itself be an advance toward dealing with and exercising supervision over the whole subject of the great corporations doing an interstate business; and with

this end in view, the congress should endow the department with large powers, which could be increased as experience might show the need.

## Cuban Reciprocity Treaty.

I hope soon to submit to the senate a reciprocity treaty with Cuba. On May 29 last the United States kept its promise to the island by formally vacating Cuban soil and turning Cuba over to those whom her own people had chosen as the first officials of the new republic. Cuba lies at our doors, and whatever affects her for good or for ill affects us also. So much have our people felt this that in the Plata amendment we definitely took the ground that Cuba must hereafter have closer political relations with us than with any other power. Thus in a sense Cuba has become a part of our international political system. This makes it necessary that in return she should be given some of the benefits of becoming part of our economic system. It is, from our own standpoint, a sort-sighted and mischievous policy to fail to recognize this need. Moreover, it is unworthy of a mighty and generous nation, republic in history, to refuse to stretch out a helping hand to a young and weak sister republic just entering upon its career of independence. We should always fearlessly insist upon our rights in the face of the strong, and we should with ungrudging hand do our generous duty by the weak. I urge the adoption of reciprocity with Cuba not only because it is eminently for our own interests to control the Cuban market and by every means to foster our supremacy in the tropical lands and waters south of us, but also because we, of the giant republic of the north, should make all our sister nations of the American continent feel that whenever they will permit it we desire to show ourselves disinterestedly and effectively their friend.

## Reciprocal Trade Relations.

A convention with Great Britain has been concluded, which will be at once laid before the senate for ratification, providing for reciprocal trade arrangements between the United States and Newfoundland and substantially the lines of the convention formerly negotiated by the secretary of state, Mr. Blaine. I believe reciprocal trade relations will be greatly to the advantage of both countries.

## The Hague Conference.

As civilization grows warfare becomes less and less the normal condition of foreign relations. The last century has seen a marked diminution of wars between civilized powers; wars with uncivilized powers are largely mere matters of international police duty, essential for the welfare of the world. Wherever possible, arbitration or some similar method should be employed in lieu of war to settle difficulties between civilized nations, although the world has not progressed sufficiently to render it possible, or necessarily desirable, to invoke arbitration in every case. The formation of the international tribunal which sits at The Hague is an event of good omen from which consequences for the welfare of all mankind may flow. It is far better, where possible, to invoke such a permanent tribunal than to create special arbitrators for a given purpose.

It is a matter of sincere congratulation to our country that the United States and Mexico should have been the first to use the good offices of The Hague court. This was done last summer with most satisfactory results in the case of a claim at issue between us and our sister republic. It is earnestly to be hoped that this first case will serve as a precedent for others, in which not only the United States but foreign nations may take advantage of the machinery already in existence at The Hague.

I commend to the favorable consideration of the congress the Hawaiian fire claims, which were the subject of careful investigation during the last session.

## Isthmian Canal Subject.

The congress has wisely provided that we shall build at once an isthmian canal, if possible at Panama. The attorney general reports that we can undoubtedly acquire good title from the French Panama Canal company. Negotiations are now pending with Colombia to secure her assent to our building the canal. The canal will be one of the greatest engineering feats of the twentieth century; a greater engineering feat than has yet been accomplished during the history of mankind. The work should be carried out as a continuing policy without regard to change of administration; and it should be done under circumstances which will make it a matter of pride for all administrations to continue the policy.

The canal will be of great benefit to America, and of importance to all the world. It will be an advantage to us in

dustry and also as improving our military position. It will be of advantage to the countries of tropical America. It is earnestly to be hoped that all of these countries will do as some of them have already done with signal success, and will invite to their shores commerce and improve their material conditions by recognizing that stability and order are the prerequisites of successful development. No independent nation in America need have the slightest fear of aggression from the United States. It behooves each one to maintain order within its own borders and to discharge its just obligations to foreigners. When this is done, they can rest assured that, be they strong or weak, they have nothing to dread from outside interference. More and more the increasing interdependence and complexity of international political and economic relations render it incumbent on all civilized and orderly powers to insist on the proper policing of the world.

During the fall of 1901 a communication was addressed to the secretary of state, asking whether permission would be granted by the president to a corporation to lay a cable from a point on the California coast to the Philippine Islands by way of Hawaii. A statement of conditions or terms upon which such corporation would undertake to lay and operate a cable was volunteered.

Inasmuch as the congress was shortly to convene, and Pacific cable legislation had been the subject of consideration by the congress for several years, it seemed to me wise to deter action upon the application until the congress had first an opportunity to act. The congress adjourned without taking any action, leaving the matter in exactly the same condition in which it stood when the congress convened.

Meanwhile it appears that the Commercial Pacific Cable company had promptly proceeded with preparations for laying its cable. It also made application to the president for access to and use of soundings taken by the U. S. S. Nero for the purpose of discovering a practical route for a trans-Pacific cable, the company urging that with access to those soundings it could complete its cable much sooner than if it were required to take soundings upon its own account. Pending consideration of this subject, it appeared important and desirable to attach certain conditions to the permission to examine and use the soundings, if it should be granted.

In consequence of this solicitation of the cable company, certain conditions were formulated, upon which the president was willing to allow access to these soundings and to consent to the landing and laying of the cable, subject to any alterations or additions thereto imposed by the congress. As it was deemed proper, especially as it was clear that a cable connection of some kind with China, a foreign country, was in part of the company's plan. This course was, moreover, in accordance with a line of precedents, including President Grant's action in the case of the first French cable, explained to the congress in his annual message of December, 1875, and the instance occurring in 1879 of the second French cable from Brest to St. Pierre, with a branch to Cape Cod.

These conditions prescribed, among other things, a maximum rate for commercial messages and that the company should construct a line from the Philippine Islands to China, there being at present, as is well known, a British line from Manila to Hong Kong.

The representatives of the cable company kept these conditions long under consideration, continuing, in the meantime, to prepare for laying the cable. They have, however, at length acceded to them, and an all-American line between our Pacific coast and the Chinese empire, by way of Honolulu and the Philippine Islands, is thus provided for, and is expected within a few months to be ready for business.

Among the conditions is one reserving the power of congress to modify or repeal any or all of them. A copy of the conditions is herewith transmitted.

## Porto Rico Prosperous.

Of Porto Rico it is only necessary to say that the prosperity of the island and the wisdom with which it has been governed have been such as to make it serve as an example of all that is best in insular administration.

## Peace in the Philippines.

On July 4 last, on the one hundred and twenty-sixth anniversary of the declaration of our independence, peace and amnesty were promulgated in the Philippine Islands. Some trouble has since from time to time threatened with the Mohammedan Moros, but with the late insurrectionary Filipinos the war has entirely ceased. Civil government has now been introduced. Not only does each Filipino enjoy such rights of life, liberty, and the pursuit of happiness as he has never known during the recorded history of the islands, but the people taken as a whole now enjoy a measure of self-government greater than that granted to any other Orientals by any foreign power and greater than that enjoyed by any other Orientals under their own governments, save the Japanese alone. We have not gone too far in granting these rights of liberty and self-government; but we have certainly gone to the limit that in the interests of the Philippine people themselves it was wise or just to go. To hurry matters, to go faster than we are now going, would entail calamity on the people of the islands. No policy ever entered into by the American people has vindicated itself in more signal manner than the policy of holding the Philippines. The triumph of our arms, above all the triumph of our laws and principles, has come rather than we had any right to expect. Too much praise cannot be given to the army for what it has done in the Philippines, both in warfare and from an administrative standpoint, in preparing the way for civil government; and similar credit belongs to the civil authorities for the way in which they have planted the seeds of self-government in the ground thus made ready for them. The courage, the unflinching endurance, the high soldierly efficiency, and the general kind-heartedness and humanity of our troops have been strikingly manifested. There now remain only some fifteen thousand troops in the islands. All told, over one hundred thousand have been sent there. Of course, there have been individual instances of wrong doing among them. They warred under fearful difficulties of climate and surroundings; and under the strain of the terrible provocations which they continually received from their foes, occasional instances of cruel retaliation occurred. Every effort has been made to prevent such cruelties, and finally these efforts have been com-

pleted. The courage, the unflinching endurance, the high soldierly efficiency, and the general kind-heartedness and humanity of our troops have been strikingly manifested. ## INDIGESTION

is the cause of more discomfort than any other ailment. If you eat the things that you want and that are good for you, you are distressed. Acker's Dyspepsia Tablets will make your digestion perfect and prevent dyspepsia and its attendant disagreeable symptoms. You can safely eat anything at any time, if you take one of these tablets afterward. Sold by all druggists under a positive guarantee. 25 cents. Money refunded if you are not satisfied. Send to us for a free sample. W. H. O'Leary & Co., Buffalo, N. Y. J. H. O'Leary & Co. and B. H. Briggs & Co.

J. H. O'Leary, district manager for the Washington Life Insurance company, was a passenger north yesterday morning.

## Kodol Dyspepsia Cure.

Digests all classes of food, tones and strengthens the stomach and digestive organs. Cures dyspepsia, indigestion, stomach troubles and makes rich red blood, health and strength. Kodol rebuilds worn-out tissues, purifies, strengthens and sweetens the stomach. Gov. G. W. Atkinson, of W. Va., says: I have used a number of bottles of Kodol and have found it to be a very effective and, indeed, a powerful remedy for stomach ailments. I recommend it to my friends. J. H. O'Leary & Co.—B. H. Briggs & Co.

## STOVE WORK.

Go to E. J. Post & Co. to have your stove work done and get a good job by competent mechanics.

## W. L. Brackett &amp; Co.,

the new blacksmiths on Copper avenue, between Second and Third streets, have received a new rubber tiring machine and guarantee their work. They do horseshoeing as a specialty.

## Casa de Oro.

Rooms with board; electric lights and gas; hot and cold water in each room. Special rates to permanent boarders; no invalids; No. 613 West 10th avenue.

Whether you buy soap by the box or by the cake you want what you pay for. Ask for a cake of Lenox Soap, compare the size and see if you don't get more good soap for your money when you buy Lenox.

Before buying your boy a new winter overcoat, you should see our line. We have just received all the latest styles. The long military, double breasted coat is very popular for boys from 4 to 8; \$5.50 up—Simon Stern, Railroad Avenue Clothier.

## Home Made Mince Meat.

The Farr meat market is the place to purchase first class home made mince meat. Will sell from one pound to a ton. It is first class—try some.

F. A. Jones, E. M. C. E. Consulting Mining Engineer Field assistant U. S. Geological Survey Albuquerque, N. M. Correspondence solicited.

## Notice.

To whom it may concern: I have this day sold all of my interest in the Whitson Music company to Emma C. Whitson, who will collect accounts and debts due and owing by the said Whitson Music company, and settle all liabilities thereof.

A. D. WHITSON.

Albuquerque, Nov. 11, 1902.

## Excellent Dinners.

The Columbus hotel, 204 South Second street, upstairs, has an established reputation for first class dinners, family style. Mrs. G. E. Hopkins, proprietress.

It costs you less per month, on money borrowed from the Mutual Building association, of Albuquerque, for the same time of loan, than from any other loan association. It is a good association to borrow from. Officers and directors: H. Brockmeier, J. F. Pearce, F. McKee, A. E. Walker, E. L. Medler, J. S. Beaven, B. A. Sleyter, W. G. Hope and W. E. Rogers.

Gents' suits cleaned and pressed \$1 up. S. Knopf, 107 North First street.

## Plumbing.

We have added a plumbing department and tin shop to our business. When you have anything in this line to be done see us about it before placing your order.—Albuquerque Hardware company.

Bring in your tinware and have it repaired.—Albuquerque Hardware company.

You must not fail to see the two little Switzer children, aged 3 and 6 respectively, in the prize cake walk.

Mrs. Bambini, at her parlors, No. 295 South First street, over the Hyde Exploring Expedition store, is prepared to give thorough scalp treatment, do hair dressing, treat corns, bunions and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparations of complexion cream builds up the skin and improves the complexion, and are guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Give her a trial. She also has a very fine tooth powder, which she guarantees to be free from all metallic substances. It perfumes the breath, hardens the gums and makes the teeth clean and white. It is highly recommended by all first class dentists. Also a face powder, a freckle cure, and a pimple cure, and pile cure. All of these preparations are purely vegetable compounds. Give her a trial. Automatic telephone 490.

**Cascarets**  
CANDY CATHARTIC  
THEY WORK WHILE YOU SLEEP

**ANNUAL SALE**  
**10,000,000**  
**BOXES**  
**Greatest in the World**

A MILLION GOOD FELLOWS have learned that "a CASCARET at night makes you feel all right—in the morning!" They have told other good fellows, until the sale of CASCARETS Candy Cathartic is nearly A MILLION BOXES A MONTH. Nature punishes every excess, and over-eating, over-drinking, under-sleeping result in stomach, liver, kidney and bowel troubles that are liable to become very serious. It is very unwise to wait until digestion is stopped, the bowels constipated, the tongue coated, the breath offensive, and the nerves tortured with a racking sick headache. Take a CASCARET just before going to bed, and wake up in the morning feeling fine and dandy. All druggists, 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C.C.C. Sample and booklet free. Address Sterling Remedy Co., Chicago or New York.

### A SLICK PRISONER.

Such is Harry Munroe Captured by Marshal McMillin.

#### HIS ATTEMPT TO ESCAPE.

A telegram was received by Marshal McMillin this morning from the state prison at Walla Walla, Wash., stating that Harry Munroe, the man held here in the county jail as a suspect of robbing the safe of S. Vann & Son, had escaped from that prison on November 1 and was wanted there.

Through photographs and descriptions, Munroe was landed by McMillin last Wednesday, and it is said to be the most important catch made in the southwest for some time.

Munroe is not alone wanted at Walla Walla, where he escaped when serving a six years' sentence, but escaped from the jail at Canon City, and other Colorado towns and is supposed to have been connected with several noted robberies. He is a notorious safe cracker and his reputation is substantiated by many bold deeds. Immediately after the arrest of Munroe, The Citizen was requested by the authorities to keep the matter quiet, as they thought Munroe had several accomplices who were still in the field, and by keeping the arrest quiet they would be able to land the other men. The request was granted and silence maintained until the untimely news was made public. "The story is yet immature," said the marshal this morning. "If the accomplices of Munroe know anything of his capture then considerable damage has been done, and there is little hope of locating them."

Munroe had been about the city for some time, working as a laborer. The name of Daily, and it was while the police were working on the Vann case that the marshal landed Munroe. Knowing his reputation, the opinion was that the right man had been captured, but there was nothing on his person that could in any way connect him with this sensational robbery. He has been placed in the sweat box several times, but he positively denies any knowledge of the robbery. Usually so conservative, he has changed his mood and talks freely of robberies and methods employed. His knowledge of the crooked work is complete. He said he was not after loot but was getting ready to work on the banks in the southwest, which are overflowing with money. He almost succeeded in widening his fame as a jail breaker at the county jail Sunday. Without tools or means to effect an escape, the daring breaker was not without resources. Tearing a strip from the window casing of his cell, he secured the iron window weight and using it as a chisel he had a large opening almost through the heavy masonry, when another prisoner blabbed and the petty work stopped suddenly. When caught in the act Munroe laughed and said he was doing it for exercise.

Chief McMillin feels confident that this man knows something about the Vann robbery, but he refuses to impart any important information, relating to the sessions in the sweat box.

From Munroe's past reputation, his skill with touching safes, and his presence in the southwest, it is believed that he was on a business trip, which had been successful, would have resulted in an enormous loss for some one. He is well educated, a smooth talker and his workmanship is clever. A reward of \$100 covers his capture from Walla Walla, which goes down into the marshal's pocket, and his escape from two other prisons was followed by rewards. He will be held here until more satisfactory developments are reached.

#### The Pride of Heroes.

Many soldiers in the last war wrote to say that for scratches, bruises, cuts, wounds, corns, sore feet and stiff joints, Bucklen's Arnica Salve is the best in the world. Same for burns, scalds, boils, ulcers, skin eruptions and piles. It cures or no pay. Only 25c at all druggists.

### RALPH HILL DEAD.

Injuries Received the Other Day Resulted in His Death.

Ralph Hill, who was crushed between two cars Saturday about noon, died this morning about 1 o'clock from the result of his injuries.

Mr. Hill had been connected with the Santa Fe here for a number of years and recently was foreman of the day yard crew.

He suffered intensely up to the time of his death. The vital organs were crushed, causing his death. A young wife, formerly Miss Anna Wilds, and two small children, is left without a husband and father's tender care. The bereaved family have the deepest sympathy of the whole community.

The funeral will take place from the residence, 311 West Atlantic avenue, tomorrow afternoon at 2:30 o'clock. Rev. Marsh will officiate. Interment at Fairview cemetery.

#### COUGHS AND COLDS IN CHILDREN

Recommendation of a Well Known Chicago Physician.

I use and prescribe Chamberlain's Cough Remedy for almost all obstinate coughs, with direct results. I prescribe it to children of all ages. Am glad to recommend it to all in need and seeking relief from colds and coughs and bronchial affections. It is non-narcotic and safe in the hands of the most unprofessional. A universal panacea for all mankind.—Mrs. Mary R. Melendy, M. D. Ph. D., Chicago, Ill. This remedy is for sale by all druggists.

J. W. Akers, who was here Sunday, has returned to Santa Fe.

#### A Good Cough Medicine.

(From the Gazette, Toowoomba, Australia.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockner. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

Juan N. Sanchez, a prominent citizen of Coahuila, is in the city visiting local merchants.

#### Saved at Grave's Brink.

"I know I would long ago have been in my grave," writes Mrs. S. H. Newsum, of Decatur, Ala. "If it had not been for Electric Bitters. For three years I suffered untold agony from the forms of indigestion, waterbrash, stomach and bowel dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 pounds." For indigestion, loss of appetite, stomach, liver and kidney troubles Electric Bitters are a positive, guaranteed cure. Only 50 cents at all druggists.

Emil Mann, secretary of the New Mexico Territorial Fair association, has sent out postal cards notifying subscribers and citizens generally that a meeting will be held Wednesday evening, December 3, for the purpose of electing a president of the fair. The card does not designate the place of meeting or the time, but it is presumed that the meeting will be held at the usual place, upstairs over Zeigler's Cafe, and will be called to order at 8 o'clock.

#### Had a Good Time.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says: "I was telling my troubles to a lady friend, who said: 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by all druggists.

**PATENT Case Oysters.** perfect in flavor; large selects 30c pint solid oyster meats; Blue Points 35c pint; nice fresh fish Wednesday; dressed chickens.—San Jose Market.

The Peninsular is a heater and ventilator.—Whitney Company.

### PENA'S DEAD BODY.

Will Reach Albuquerque From Kennedy on Tonight's Train.

#### PARTICULARS ABOUT KILLING.

The dead body of Mateo Pena, who was shot and killed at Kennedy, on the Santa Fe Central, did not reach the city last night, a telegram being received here to the effect that a coroner's jury, to investigate into the killing, would be held, after which the body would be sent to Albuquerque.

The remains will undoubtedly reach here on the first passenger train from the north tonight.

The Citizen was informed this morning that Pena and another native, named Jose Telles, were drinking Sunday night and got into a quarrel.

Telles pulled his pistol and fired, the bullet entering Pena below the left nipple and passed entirely through the body, coming out near the spine.

The murderer immediately left Kennedy, but was captured a few hours later and turned over to Cerrillos officers.

The prisoner is now in the county jail at Santa Fe.

The murdered man is a native of this county and lived at Pajarito. He was married to a young lady of that town about a year ago. His parents are well known and they reside at Pajarito, where the father, Manuel Antonio Pena, conducts a small general store and carries the United States mails between that town and Albuquerque. The bereaved father is in the city today, and states the funeral will take place at Pajarito tomorrow morning at 10 o'clock.

XXXXXXXXXXXXXXXXXXXX

#### A Cold Wave.

The forecast of sudden changes in the weather serves notice that a hoarse voice and a heavy cough may invade the sanctity of health in your home. Cautious people have a bottle of One Minute Cough Cure always at hand. E. H. Wise, Madison, Ga., writes: "I am indebted to One Minute Cough Cure for my present good health, and probably my life." It cures coughs, colds, LaGrippe, bronchitis, pneumonia and all throat and lung troubles. One Minute Cough Cure cuts the phlegm, draws out the inflammation, heals and soothes the mucous membranes and strengthens the lungs. J. H. O'Reilly & Co.—B. H. Briggs & Co.

#### Fresh Cut Flowers. IVES, THE FLORIST.

12 varieties nice fresh cheese. Use Sedgwick Creamery butter.—San Jose Market.

#### STOVE WORK.

Go to E. J. Post & Co. to have your stove work done and get a good job by competent mechanics.

### SCHOOL BOARD.

Met and Paid All Bills—Will Economize in the Future.

#### SEVERAL INTERESTING REPORTS.

The school board met last night in regular session with President Hopkins, Trustees Isherwood, Newman, Pratt, Ward, Superintendent Stroup and Clerk Hunt present.

Bills to the amount of \$600 were allowed and ordered paid. The allowing of bills brought up the subject of finances, and they were discussed at length. The present outlook is that the board will be short of funds before the expiration of the spring term of school unless the utmost economy is used. Bills have been presented the board from different sources for different expenses that were not thought advisable and considered unnecessary. For this reason the board last night decided and wishes it clearly understood that in the future every bill presented and expected paid must be accompanied by a requisition, either from the person by which the goods were ordered or for whom and what the expense was incurred.

The superintendent's report showed the combined attendance of the different schools to be 1,298 pupils. It also showed a number of pupils in attendance who were unable to pay tuition, but as time was precious and it was very late the matter was deferred to some previous meeting for discussion. The clerk's bond was produced, approved and filed.

The clerk reported the incoming payments of poll tax very satisfactory. The library committee reported receipts of the month to be \$2.45, and that 125 books had been let during the month.

#### To Get Rid of a Troublesome Corn.

First soak it in warm water to soften it, then pare it down as closely as possible without drawing the blood and apply Chamberlain's Pain Balm twice daily; rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by all druggists.

Miss Jennie D. Cull, one of the popular and efficient school teachers of Santa Fe county, has resigned her position as the teacher of the Golden school to accept a similar position at Tierra Amarillo, Rio Arriba county. The Golden school has been accepted by Miss Elizabeth Cross.

#### A Timely Topic.

At this season of coughs and colds it is well to know that Foley's Honey and Tar is the greatest throat and lung remedy. It cures quickly and prevents serious results from a cold. Alvarado Pharmacy.

The Citizen has received an invitation to attend the Elks' memorial service, to be held at the court house in Santa Fe on Sunday evening, December 2, at 7:30 o'clock. The committee in charge of the services are O. C. Watson, A. L. Morrison Jr., and J. A. Masile.

#### Coughs, Colds, and Constipation.

Few people realize when taking cough medicine other than Foley's Honey and Tar, that they contain opiates which are constipating besides being unsafe, particularly for children. Foley's Honey and Tar contains no opiates, is safe and sure and will not constipate. Alvarado Pharmacy.

C. T. Brown, the well known mine operator of Socorro, was in Santa Fe yesterday on business with A. A. Gibson, who is president of the big mining company operating near Lordsburg. Mr. Brown came in from the north last night and continued south to Socorro.

George Walsh, aged 31 years, died at his room in the Highlands this morning of tuberculosis. He came here about two months ago from San Francisco and was employed at the Alvarado as pantry man. The remains were taken charge of by O. W. Strong & Sons, and his mother in San Francisco was telegraphed for directions.

**Report From the Reform School.** J. G. Gluck, superintendent, Pruntytown, W. Va., writes: "After trying all of the advertised cough medicines we have decided to use Foley's Honey and Tar exclusively in the West Virginia Reform school. I find it the most effective and absolutely harmless." Alvarado Pharmacy.

Lenox Soap leaves the clothes soft, sweet and clean. Try it.

Try Mrs. Acker's potato cakes and home made mince meat.

### LOSING FLESH.

Are you losing flesh? If so, better consult your doctor at once. He will tell you the cause. We can provide the remedy, which is Scott's Emulsion of cod-liver oil.

A young woman in Batavia writes us she had lost twenty-five pounds in three months, and her lungs were seriously affected. She took three bottles of Scott's Emulsion and gained fifteen pounds, and was able to resume her work.

Send for Free Sample.

SCOTT & BOWNE, Chemists, 9 East 1st St., N. Y.

#### MUST GET OUT.

Railroad Rustling Committee Urged to Get Out and Work.

The railroad rustling committee are meeting with good subscriptions, but are finding great difficulty in getting business men who will devote any of their time to helping to collect.

In order to accomplish favorable results there must be five of six each day on the rustling committee. One or two are devoting practically all their time to this work, but state they could not get enough men yesterday to join in this thankless work until nearly 3 p. m., and today more than twenty of the committee of sixty were seen and only one would consent to go, therefore nothing was accomplished today up to the press time.

Headache absolutely and permanently cured by using Moki Tea. A pleasant herb drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25c and 50c. Write to W. H. Hooker & Co., Buffalo, N. Y., for free sample. J. H. O'Reilly & Co. and B. H. Briggs & Co.

The store room in the N. T. Armijo building, formerly occupied by Muensterman's shoe store and soon to be occupied by B. Ruppe, the druggist, is undergoing a siege of repairing.

#### DRUGGISTS MUST BE CHARY.

They Sell all Kinds of Hair Preparations, and Fear to Discriminate.

Druggists sell all kinds of hair preparations and as a rule they are wisely chary of giving preference to any particular one, but many of them have come out plainly for Newbro's Herpicide, the new treatment that absolutely kills the dandruff germ. H. Swannell & Son, Champaign, Ill., says: "One customer of ours who did not have a hair on the top of his head when he began to use Herpicide, now has a fair start towards a good head of hair. We believe Herpicide to be by far the best preparation of its kind on the market." Hundreds of similar testimonials from everywhere. Send ten cents in stamps for sample to The Herpicide Co., Dept. "F," Detroit, Michigan.

#### FRISCO SHOE SHOP.

Get your shoes repaired at the Frisco shoe shop. Best material and workmanship guaranteed at reasonable prices; 401 West Railroad avenue, corner Fourth street.

Stuffed dates, 20c box.—San Jose Market.

**LONG'S** Pure California berry preserves in bulk, whole strawberries, Logan berry, raspberry, pineapple, sliced orange, best you ever tasted, price 30c lb., can be obtained only from the San Jose Market.

\$1,000.00 borrowed from the Mutual Building association of Albuquerque costs you only \$13.35 per month. A. E. Walker, secretary.

#### (Homestead Entry No. 3942.)

**Notice for Publication.** Department of the Interior, Land Office at Santa Fe, N. M., Nov. 7, 1907. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before U. S. Commissioner at East View, N. M., on December 22, 1907, viz: Augustina Sienros de Vallejos, widow of Carlos Vallejos, deceased, for the NE 1/4 sec. 31, T. 3 N., R. 6 E.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Martin Sanchez, Jesus Maria Chavez y Garcia, Juan Luna, Canuto Contreras, all of Manzano, N. M.

## Still a Growing

Our fancy coffee business for 1901 reached the snug amount of 10,000 pounds. We wish to double that in 1902, and in order to do so we are offering the very best grades of coffee on the market at 40 cents per pound. We are sole agents for CHASE & SANBORN'S celebrated Seal Brand and Club House. We also have a full line of blended coffees at prices to suit from 20 cents up. Our 35 cent blend we consider equal to the most of the 40 and 45 cent grades offered by the trades. As to teas. Everyone knows that we keep the very best to be had in the territory.

## PRESIDENT'S MESSAGE.

(Continued from page three.)

pletely successful. Every effort has also been made to detect and punish the wrongdoers. After making all allowances for these misdeeds, it remains true that few indeed have been the instances in which war has been waged by a civilized power against semi-civilized or barbarous forces where there has been so little wrongdoing by the victors as in the Philippine Islands. On the other hand, the amount of difficult, important and beneficent work which has been done is well nigh incalculable.

Thinking of the work of the army and the civilian authorities together, it may be questioned whether anywhere else in modern times the world has seen a better example of real constructive statesmanship than our people have given in the Philippine Islands. High praise should also be given those Filipinos, in the aggregate very numerous, who have accepted the new conditions and joined with our representatives to work with hearty good will for the welfare of the islands.

## Our Army Reduced.

The army has been reduced to the minimum allowed by law. It is very small for the size of the nation, and most certainly should be kept at the highest point of efficiency. The senior officers are given scant chance under ordinary conditions to exercise commands commensurate with their rank, under circumstances which would fit them to do their duty in time of actual war. A system of maneuvering our army in bodies of some little size has been begun and should be steadily continued. Without such maneuvering it is folly to expect that in the event of hostilities with any serious foe even a small army corps could be handled to advantage. Both our officers and enlisted men are such that we can take hearty pride in them. No better material can be found, soldierly, well-disciplined, and full of spirit. But they must be thoroughly trained, both as individuals and in the mass. The marksmanship of the men must receive special attention. In the circumstances of modern warfare the man must act far more on his own individual efficiency than ever before, and the high individual efficiency of the unit is of the utmost importance. Formerly this unit was the regiment; it is now not the regiment, not even the troop or company; it is the individual soldier. Every effort must be made to develop every workmanlike and soldierly quality in both the officer and the enlisted man.

I urgently call your attention to the need of passing a bill providing for a general staff and for the reorganization of the supply departments on the lines of the bill proposed by the secretary of war last year. When the young officers enter the army from West Point they probably stand above their comrades in any other military service. Every effort should be made, by training, by reward of merit, by scrutiny into their careers and capacity, to keep them of the same high relative excellence throughout their careers.

The measure providing for the reorganization of the militia system and for securing the highest efficiency in the national guard, which has already passed the house, should receive prompt attention and action. It is of great importance that the relation of the national guard to the militia and volunteer forces of the United States should be defined, and that in place of our present obsolete laws practical and efficient system should be adopted.

Provision should be made to enable the secretary of war to keep cavalry and artillery horses, worn out in long performance of duty. Such horses fetch but a trifle when sold; and rather than turn them out to the misery awaiting them when thus disposed of, it would be better to employ them at light work around the posts, and when necessary to put them painlessly to death.

## Our Navy.

For the first time in our history naval maneuvers on a large scale are being held under the immediate command of the admiral of the navy. Constantly increasing attention is being paid to the gunnery of the navy, but it is yet far from what it should be. I earnestly urge that the increase asked for by the secretary of the navy in the appropriation for improving the marksmanship be granted. In battle the only shots that count are the shots that hit. It is necessary to provide ample funds for practice with the great guns in time of peace. These funds must provide not only for the purchase of projectiles,

but for allowances for prizes to encourage the gun crews, and especially the gun pointers, and for perfecting an intelligent system under which alone it is possible to get good practice.

There should be no halt in the building up of the navy, providing every year additional fighting craft. We are a very rich country, vast in extent of territory and great in population; a country, moreover, which has not yet diminished indeed, when compared with that of any other first class power. We have deliberately made our own certain foreign policies which demand the possession of a first class navy. The isthmian canal will greatly increase the efficiency of our navy if the navy is of sufficient size; but if we have an inadequate navy, then the building of the canal would be merely giving a hostage to any power of superior strength. The Monroe doctrine should be treated as the cardinal feature of American foreign policy; but it would be worse than idle to assert it unless we are tended to back it up, and it can be backed up only by a thoroughly good navy. A good navy is not a provocative of war. It is the surest guaranty of peace.

## The Bravery of Our Sailors.

Each individual unit of our navy should be the most efficient of its kind in the world. I call your special attention to the need of providing for the manning of the ships. Serious trouble threatens us if we cannot do better than we are now doing as regards securing the services of a sufficient number of the highest type of sailormen, of sea mechanics. The veteran seamen of our war ships are of as high a type as can be found in any navy which rides the waters of the world; they are unsurpassed in daring, in resolution, in readiness, in thorough knowledge of their profession. They deserve every consideration that can be shown them. But there are not enough of them. It is no more possible to improvise a crew than it is possible to improvise a war ship. To build the finest ship, with the deadliest battery, and to send it aloft with a raw crew, no matter how brave they were individually, would be to insure disaster if a foe of average capacity were encountered. Neither ship nor men can be improvised when war has begun.

We need a thousand additional officers in order to properly man the ships now provided for and under construction. The classes at the naval school at Annapolis should be greatly enlarged. At the same time that we thus add the officers where we need them, we should facilitate the retirement of those at the head of the list whose usefulness has become impaired. Promotion must be fostered if the service is to be kept efficient.

## We Need More Recruits.

The lamentable scarcity of officers, and the large number of recruits and of unskilled men necessarily put aboard the new vessels as they have been commissioned, has thrown upon our officers, and especially on the lieutenants and junior grades, unusual labor and fatigue and has greatly strained their powers of endurance. Nor is there sign of any immediate let up in this strain. It must continue for some time longer, until more officers are graduated from Annapolis, and until the recruits become trained and skillful in their duties. In these difficult incidents upon the development of our war fleet the conduct of all our officers has been creditable to the service, and the lieutenants and junior grades in particular have displayed an ability and a steadfast cheerfulness which entitles them to the ungrudging thanks of all who realize the disheartening trials and fatigues to which they are of necessity subjected.

There is not a cloud on the horizon at present. There seems not the slightest chance of trouble with a foreign power. We most earnestly hope that this state of things may continue; and the way to insure its continuance is to provide for a thoroughly efficient navy. The refusal to maintain such a navy would invite trouble, and if trouble came would insure disaster. Fatuous self-complacency or vanity, or short-sightedness in refusing to prepare for danger, is both foolish and wicked in such a nation as ours; our past experience has shown that such fatuity in refusing to recognize or prepare for any crisis in advance is usually succeeded by a mad panic of hysterical fear once the crisis has actually arrived.

## Postoffice Department.

The striking increase in the revenues of the postoffice department shows clearly the prosperity of our people and the increasing activity of the business of the country.

A prominent Southern lady, Mrs. Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by Lydia E. Pinkham's Vegetable Compound.

"Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me. Six bottles of Lydia E. Pinkham's Vegetable Compound brought me health and happiness in a few short months, and was worth more than months under the doctor's care, which really did not benefit me at all. I feel like another person now. My aches and pains have left me. I am satisfied there is no medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."—Mrs. B. A. BLANCHARD, 423 Broad St., Nashville, Tenn.—\$5000 for full original of above letter proving genuineness cannot be produced.

When women are troubled with menstrual irregularities, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound.

## PRESIDENT'S MESSAGE.

(Concluded from page five.)

The receipts of the postoffice department for the fiscal year ending June 30 last amounted to \$121,848,047.26, an increase of \$10,216,833.87 over the preceding year, the largest increase known in the history of the postal service. The magnitude of this increase will best appear from the fact that the entire postal receipts for the year amounted to \$2,518,067.

Rural free delivery service is no longer in the experimental stage; it has become a fixed policy. The results following its introduction have fully justified the confidence in the large appropriations made for its establishment and extension. The average yearly increase in postoffice receipts in the rural districts of the country is about two per cent. We are now able, by actual results, to show that where rural free delivery service has been established to such an extent as to enable us to make comparisons the yearly increase has been upward of ten per cent.

### Rural Free Delivery Routes.

On November 1, 1902, 11,650 rural free delivery routes had been established and were in operation, covering about one-third of the territory of the United States available for rural free delivery service. There are now awaiting the action of the department petitions and applications for the establishment of 10,748 additional routes. This shows conclusively the want which the establishment of the service has met and the need of further extending it as rapidly as possible. It is justified both by the financial results and by the practical benefits to our rural population; it brings the men who live on the soil into close relations with the active business world; it keeps the farmer in daily touch with the markets; it is a potential educational force; it enhances the value of farm property, makes farm life far pleasanter and less isolated, and will do much to check the undesirable current from country to city.

It is to be hoped that the congress will make liberal appropriations for the continuance of the service already established and for its further extension.

### Irrigation for Arid Regions.

Few subjects of more importance have been taken up by the congress in recent years than the inauguration of the system of nationally aided irrigation for the arid regions of the far west. A good beginning therein has been made. Now that this policy of national irrigation has been adopted, the need of thorough and scientific forest protection will grow more rapidly than ever throughout the public land states.

Legislation should be provided for the protection of the game, and the wild creatures generally, on the forest reserves. The senseless slaughter of game, which can be by judicious protection be permanently preserved on our national reserves for the people as a whole, should be stopped at once. It is, for instance, a serious count against our national good name to permit the present practice of butchering off such a stately and beautiful creature as the elk for its antlers or tines.

### Public Lands for Home Builders.

So far as they are available as agriculture, and to whatever extent they may be reclaimed under the national irrigation law, the remaining public lands should be held rigidly for the home builder, the settler who lives on his land, and for no one else. In their actual use the desert land law, the timber and stone law, and the commutation clause of the homestead law have been so perverted from the intention with which they were enacted as to permit the acquisition of large areas of the public domain for other than actual settlers and the consequent prevention of settlement. Moreover, the approaching exhaustion of public ranges has of late led to much discussion as to the best manner of using these public lands in the west which are suitable chiefly or only for grazing. The sound and steady development of the west depends upon the building up of homes therein. Much of our prosperity has been due to the operation of the homestead law. On the other hand, we should recognize the fact that in the grazing region the man who corresponds to the homesteader may be unable

## Character in the Gait

Yes, Phillips Brooks said he could tell an insured man by his step, and when a man is insured *amply* in The Mutual Life Insurance Co. of New York, he says by his bearing: "I am insured in the strongest company, and I do not worry about the future of my family or my business if I should die."

The Assets of The Mutual Life Insurance Company of New York exceed those of any other life insurance company in existence. They are over

\$352,000,000

It has paid Policy-holders over

\$569,000,000

which is more than any other life insurance company in the world has disbursed.

Write today for "Where Shall I Insure?"

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK

RICHARD A. McCORDY, President.

Darby A. Day, Mgr., Albuquerque, N. M.

of colloquial English, and should ordinarily be prepared for a vigorous struggle with the conditions under which their people live, rather than for immediate absorption into some more highly developed community.

The officials who represent the government in dealing with the Indians work under hard conditions, and also under conditions which render it easy to do wrong and very difficult to detect wrong. Consequently they should be amply paid on the one hand, and on the other hand a particularly high standard of conduct should be demanded from them, and where misconduct can be proved the punishment should be exemplary.

### Aid to Farming Population.

In no department of governmental work in recent years has there been greater success than in that of giving scientific aid to the farming population, thereby showing them how most efficiently to help themselves. There is no need of insisting upon its importance, for the welfare of the farmer is fundamentally necessary to the welfare of the republic as a whole. In addition to such work as quarantine against animal and vegetable plagues, and warning against them when here introduced, much efficient help has been rendered to the farmer by the introduction of new plants specially fitted for cultivation under the peculiar conditions existing in different portions of the country. New cereals have been established in the semi-arid west. For instance, the practicability of producing the best types of macaroni wheats in regions of an annual rainfall of only ten inches or thereabouts has been conclusively demonstrated. Through the introduction of new rice in Louisiana and Texas the production of rice in this country has been made to about equal the home demand. In the southwest the possibility of regressing overstocked range lands has been demonstrated; in the north many new forage crops have been introduced, while in the east it has been shown that some of our choicest fruits can be stored and shipped in such a way as to find a profitable market abroad.

### Smithsonian Museum.

I again recommend to the favorable consideration of the congress the plans of the Smithsonian institution for making the museum under its charge worthy of the nation, and for preserving at the national capital not only records of the vanishing races of men but of the animals of this continent which, like the buffalo, will soon become extinct unless specimens from which their representatives may be renewed are sought in their native regions and maintained there in safety.

### The District of Columbia.

The District of Columbia is the only part of our territory in which the national government exercises local or municipal functions, and where in consequence the government has a free hand in reference to certain types of social and economic legislation which must be essentially local or municipal in their character. The government should see to it, for instance, that the hygienic and sanitary legislation affecting Washington is of the highest character. The evils of slum dwellings, whether in the shape of crowded or congested tenement house districts or of the back alley type, should never be permitted to grow up in Washington. The city should be model in every respect for all the cities of the country. The charitable and correctional systems of the district should receive consideration at the hands of the congress to the end that they may embody the results of the most advanced thought in these fields. Moreover, while Washington is not a great industrial city, there is some industrialism here, and our labor legislation, while it would not be important in itself, might be made a model for the rest of the nation. We should pass, for instance, a wise employer's liability act for the District of Columbia, and we need such an act in our navy yards. Railroad companies in the district ought to be required by law to block their frogs.

### For Protection of Lives.

The safety-appliance law, for the better protection of the lives and limbs of railway employees, which was passed in 1892, went into full effect on August 1, 1901. It has resulted in averting thousands of casualties. Experience shows, however, the necessity of additional legislation to perfect this law. A bill to provide for this passed the senate at the last session. It is to be hoped that some such measure may now be enacted into law.

### The Printing Expenses.

There is a growing tendency to provide for the publication of masses of documents for which there is no public demand and for the printing of which there is no real necessity. Large numbers of volumes are turned out by the government printing presses for which there is no justification. Nothing should be printed by any of the departments unless it contains something of permanent value, and the congress could with advantage cut down very materially on all the printing which it has now become customary to provide. The excessive cost of government printing is a strong argument against the position of those who are inclined on abstract grounds to advocate the government's doing any work which can with propriety be left in private hands.

### The Merit System.

Gratifying progress has been made during the year in the extension of the merit

system of making appointments in the government service. It should be extended by law to the District of Columbia. It is much to be desired that our consular system be established by law on a basis providing for appointment and promotion only in consequence of proved fitness.

### White House Remodeled.

Through a wise provision of the congress at its last session the White House, which had become disfigured by incongruous additions and changes, has now been restored by what it was planned to be by Washington. In making the restoration the utmost care has been exercised to come as near as possible to the early plans and to supplement these plans by a careful study of such buildings as that of the University of Virginia, which was built by Jefferson. The White House is the property of the nation, and so far as is compatible with living therein it should be kept as it originally was, for the same reason that we keep Mount Vernon as it originally was. The stately simplicity of its architecture is an expression of the character of the period in which it was built, and is in accord with the purposes it was designed to serve. It is a good thing to preserve such buildings as historic monuments which keep alive our sense of continuity with the nation's past. The reports of the several executive departments are submitted to the congress with this communication.

THEODORE ROOSEVELT.

## PRESIDENT RIPLEY.

He Discusses Probable Cost of the  
Santa Fe Cut Off.

President Ripley, in an interview  
published in a Chicago newspaper,  
states that the probable cost of building  
the New Mexico cutoff will be \$4,000,  
000. In addition to this will be the re-  
building of a portion of the Pecos  
Valley and Panhandle lines of the  
Santa Fe, which are not suited at pre-  
sent for the heavy service of a main  
line.

As regards financing the line Santa  
Fe officials state that it is entirely too  
early to discuss the matter, as financial  
conditions are likely to materially  
change before the construction is com-  
pleted. It is probable, however, that  
the necessary funds will be provided  
from the sale of a portion of the de-  
benture bonds which have been author-  
ized by the directors for new con-  
struction and acquisition of branch  
lines.

In speaking of this cutoff E. P. Rip-  
ley, present, at least, to build another  
"The cutoff that we are getting  
ready to build will shorten the line,  
but at the expense of many of the  
picturesque features of the Santa Fe.  
Still, of course, the old line will be  
in operation, and those who have  
plenty of money may take the long  
to and from the Pacific coast, enjoying  
the scenery of Raton and Glorieta  
passes, while passengers, who are in  
a hurry may go by the cutoff, saving  
time, and we will have a direct line  
from Kansas City to Los Angeles.

"The Santa Fe does not purpose for  
the present, at least, to build another  
line through southern Arizona to San  
Diego. Promoters and speculators from  
time to time give out that the Santa  
Fe will take up the Frank Murphy,  
Phoenix and Eastern road that is  
under construction and may be the  
Pecos-Dodge road, so often talked  
about, then will build the projected  
San Diego and Eastern, thus complet-  
ing another line of road to the coast.  
In fact, no construction is planned in  
this territory, except to complete the  
China Basin work at San Francisco.

"It will take another year to com-  
plete this work. Then we will be in  
San Francisco with both feet, so to  
speak. Of course, we are even now  
fairly well established there, using  
part of the terminals, as far as the  
work completed will permit."

If you fell ill and need a pill

Why not purchase the best?

DeWitt's Early Risers

Are little surprises.

Take one—they do the rest.

W. H. Howell, Houston, Tex., writes:  
I have used Little Early Risers Pills  
in my family for constipation, sick  
headache, etc. To their use I am in-  
debted for the health of my family. J.  
H. O'Reilly & Co.—B. H. Briggs & Co.

## EXTEND TO STATE LINE.

Rock Island Secures New Charter for  
the Choctaw.

The Texas attorney general has ap-  
proved and the secretary of state  
filed an amended charter of the Choctaw,  
Oklahoma & Texas railroad com-  
pany, which provides for an extension

of the Choctaw route from Amarillo  
to the state line between Texas and  
New Mexico, which will be part of the  
connection between the Choctaw line  
and the Rock Island, thus forming a  
direct through line from El Paso to  
Memphis and other points on the  
Choctaw route.

The Choctaw line is now finished  
into Amarillo, but the new corporation  
is to extend the line over into New  
Mexico to a connection with the Rock  
Island. When done this line will  
strike the Rock Island at a point in the  
vicinity of Tucumcari.

At present the Rock Island company  
is handling traffic over its line to Dal-  
hart, thence via the Fort Worth &  
Denver City railroad to Amarillo, and  
thence via the Choctaw route, but  
when the new route is completed the  
Rock Island will have a much shorter  
line to Memphis and adjoining terri-  
tory.

## What's in a Name?

Everything is in the name when it  
comes to Witch Hazel Salve. E. C.  
DeWitt & Co. of Chicago, discovered,  
some years ago, how to make a salve  
from Witch Hazel that is a specific for  
piles. For blind, bleeding, itching and  
protruding piles, eczema, cuts, burns,  
bruises and all skin diseases DeWitt's  
Salve has no equal. This has given  
rise to numerous worthless counter-  
feits. Ask for DeWitt's—the genuine.  
J. H. O'Reilly & Co.—B. H. Briggs & Co.

## UNION PACIFIC PENSIONS.

Old Employees to Be Retired After  
January 1, 1903.

Rules and regulations for a pension  
system which will go into effect Janu-  
ary 1, 1903, have been completed by  
officials of the Union Pacific railroad  
by which its old employees will be re-  
tired on pensions. The details of the  
system will not be made public until  
later, but it is officially stated that  
the details for perfecting the system  
have been worked out and regulations  
prepared. It is also stated that it  
will involve the annual distribution of  
over \$300,000, and is intended to cul-  
tivate a closer relation between the rail-  
road and employees.

## A Million Voices.

Could hardly express the thanks of  
Homer Hall, of West Point, Ia. Listen  
why: A severe cold had settled  
on his lungs, causing a most obstinate  
cough. Several physicians said he had  
consumption, but could not help him.  
When all thought he was doomed he  
began to use Dr. King's New Discovery  
for consumption and writes: "It com-  
pletely cured me and saved my life. I  
now weigh 227 lbs." It's positively  
guaranteed for coughs, colds and lung  
troubles. Price 50c and \$1.00. Trial  
bottles free at all druggists.

## RAILROAD PENSIONS.

President Harriman Decides Upon a  
Scheme to Be Put in Operation  
on Southern Pacific Lines.

President Harriman of the Southern  
Pacific has decided upon a plan for  
pensioning aged employees of his lines  
and has directed Manager Markham to

put it into effect on the Southern Pa-  
cific lines in Texas. The plan is prac-  
tically the same as that established or  
now in operation on the Pennsylvania  
railroad, the Illinois Central and the  
Chicago & Northwestern railways.

Employees who have attained the age  
of 70 years are to be retired and will  
receive pensions on the basis of 1 per  
cent per annum of the average salary  
received for ten years prior to retire-  
ment. An employee whose pay aver-  
aged \$1,000 per year for ten years  
prior to retirement, and who had been  
in the service of the company thirty  
years, would receive a pension equal  
to 30 per cent of \$1,000, or \$300 per  
annum.

The order will include employees of  
the Galveston, Harrisburg & San An-  
tonio; Texas & New Orleans; Galveston,  
Houston & Northern; New York,  
Texas & Mexican; Gulf, West Texas  
& Pacific; Houston & Texas Central;  
Houston, East & West Texas; and  
Houston & Shreveport roads.

If you are troubled with impure  
blood, indicated by sores, pimples,  
headache, etc., we would recommend  
Acker's Blood Elixer, which we sell un-  
der a positive guarantee. It will al-  
ways cure scrofulous or syphilitic dis-  
eases and all blood diseases. 50 cents  
and \$1. J. H. O'Reilly & Co. and B. H.  
Briggs & Co.

The Santa Fe Central railway has  
completed the grading of its line as  
far as the deaf and dumb asylum, Santa  
Fe. The line of the road and the  
telegraph pole line, south of the  
Santa Fe Indian school for a distance  
of about two miles is perfectly  
straight. The line passes east of the  
United States Indian school but west  
of Fairview cemetery and the deaf and  
dumb asylum.

## A Thousand Dollar's Worth of Good.

A. H. Thurnes, a well known coal  
operator of Buffalo, O., writes: "I have  
been afflicted with kidney and blad-  
der trouble for years passing gravel or  
stones with excruciating pain. I got  
no relief from medicines until I began  
taking Foley's Kidney Cure, then the  
result was surprising. A few doses  
started the brick dust like fine stones  
and now I have no pain across my kid-  
neys and feel like a new man. It has  
done me a \$1000 worth of good." Alva-  
rado Pharmacy.

There will be a scramble for the  
privilege of running the dining room  
at the union station in El Paso when  
it is completed. If the Santa Fe road  
has the most influence with the union  
depot company it will be a Harvey  
eating house. If it is the Southern  
Pacific road that has the strongest pull  
the Crescent News and Hotel company  
will be in charge.

## Foley's Deadly Attack.

"My wife was so ill that good phys-  
icians were unable to help her," writes  
M. M. Austin, of Winchester, Ind., "but  
was completely cured by Dr. King's  
New Life Pills." They work wonders  
in stomach and liver troubles. Cure  
constipation, sick headache. 25c at all  
druggists.

## MILLION A MONTH.

Mr. Moffat Will Now Spend Money on  
His New Road.

The announcement of the route for  
the first thirty-six miles of the Den-  
ver, Northwestern & Pacific railroad,  
together with a request for bids for its

## A Wife Says:

"We have four children. With the first  
three I suffered almost unbearable pains from  
12 to 14 hours, and had to be placed under  
the influence of chloroform. I used three  
bottles of Mother's Friend before our last  
child came, which  
is a strong, fat and  
healthy boy, doing  
my housework up  
to within two hours  
of birth, and suf-  
fered but a few hard  
pains. This lin-  
iment is the grand-  
est remedy ever  
made."

Mother's  
Friend

will do for every woman what it did for the  
Minnesota mother who writes the above let-  
ter. Not to use it during pregnancy is a  
mistake to be paid for in pain and suffering.  
Mother's Friend equips the patient with a  
strong body and clear intellect, which in  
turn are imparted to the child. It relaxes  
the muscles and allows them to expand. It  
relieves morning sickness and nervousness.  
It puts all the organs concerned in perfect  
condition for the final hour, so that the actual  
labor is short and practically painless. Dan-  
ger of rising or hard breaths is altogether  
avoided, and recovery is merely a matter of  
a few days.

Druggists sell Mother's Friend for \$1 a bottle.  
The Bradford Regulator Co., Atlanta, Ga.  
Send for our free illustrated book.

construction, was made at Denver last  
Saturday by General Manager A. C.  
Ridgway and Chief Engineer H. A.  
Summer of the Colorado-Utah Con-  
struction company. The work on the  
first section is to be begun at the end  
of the construction grade of the Den-  
ver & Northwestern road, eight miles  
west of Arvada, and will carry the  
road to a point within ten miles of the  
main range tunnel, a total distance  
from Denver of fifty-one miles. The  
maximum grade for the entire dis-  
tance will be two per cent.

"We have invited the leading con-  
tractors of the west to bid on the  
work," said General Manager Ridg-  
way. "We will commence figuring on  
the bids as soon as the limit for fil-  
ing expires, and expect to be able to  
award the contract about Christmas,  
if not before. We will ask for bids on  
the other part of the road as quickly  
as we can get our estimates and fig-  
ures in shape. The work will be pro-  
secuted as rapidly as possible, and I  
have notified Mr. Moffat that after the  
first of April of next year we will draw  
on him for \$1,000,000 a month for the  
construction of the road. I think our  
road will be a marvel in railroad con-  
struction. Parts of it will be the most  
difficult construction ever attempted,  
particularly that part through South  
Boulder canon. When work on the  
road begins Denver people will think  
they are being bombarded from the  
amount of blasting which will have to  
be done."

Foley's Honey and Tar positively  
cures all throat and lung diseases. Re-  
fuse substitutes. Alvarado Pharmacy.

## RAILROAD NOTES.

Fireman McKee is among those lay-  
ing off.  
Charles Rail, formerly of Gallup,  
has succeeded H. H. Ward as chief  
night clerk at the local station.

Robert Mudge, the accommodating  
day clerk at the Alvarado, is indis-  
posed on account of a slight cold.

D. A. Shope, superintendent of  
bridges and buildings on the Winslow  
division, was an Albuquerque visitor  
yesterday.

H. H. Ward, formerly night chief  
clerk at the local station, has joined  
Agent Myers' staff of clerks and is  
enjoying the luxurious surroundings of  
the new freight depot offices.

T. F. Moran, at one time telegraph  
operator at Williams, was recently  
elected district attorney of Navajo  
county, Ariz. This is his reward for  
the burning of much midnight oil.

Motive power is very short on the  
local divisions of the Santa Fe and  
freight is moving very slow. Western  
merchants say that shipments are sev-  
eral weeks later than they usually  
are.

Don't be imposed upon by taking  
substitutes offered for Foley's Honey  
and Tar. Alvarado Pharmacy.

## Snow in El Paso.

A telegram from El Paso, dated No-  
vember 30, says: Snow fell steadily  
here for several hours early this morn-  
ing, and all hills in the vicinity are  
white. The weather is the coldest of  
the year. Reports from New Mexico  
and Old Mexico indicate that the storm  
covered a wide stretch of country.  
North of here in the White mountains  
of New Mexico snow is four feet deep  
and wolves and other wild animals  
have been driven to the valleys of  
the White Oaks country in search of  
food.

A kidney or bladder trouble can al-  
ways be cured by using Foley's Kidney  
Cure in time. Alvarado Pharmacy.

## Campaign of Education.

"You have no idea what a campaign  
of education is now being carried on  
in the advertising that is being given  
the Pecos valley," said Frank Morgan,  
of the firm of Morgan, Bobb & Co.,  
at the Grand Central recently. "At  
least \$5,000 a month is being spent to  
advertise this valley in the United  
States and in foreign countries, and I  
am satisfied that there will be a heavy  
immigration to this valley this winter.  
Excursion trains will be run twice a  
month until next May and the low  
rate of one fare plus \$2 for the round  
trip from all points, will bring many  
people here."—Roswell Register.

## A LONG-FELT WANT.

It is Supplied at Last in Albuquerque.  
Good-natured people are often irrita-  
ble.

If you knew the reason, you would  
not be surprised.

Ever have itching piles?

Not sick enough to go to bed; not  
well enough to be content.

The constant itching sensation  
Hard to bear; harder to get relief;

Spells your temper, nearly drives  
you crazy.

Isn't relief and cure a long-felt  
want?

You can have relief and cure if you  
will follow the advice of a local citizen.

J. Johnston, machinist in the Santa  
Fe R. R. shops, residence 705 South  
First street, says: "When a man has  
itching hemorrhoids commonly called  
piles and he has to work every day the  
annoyance becomes positively a plague  
and he is more than anxious to get rid  
of it. When Doan's Ointment first  
came to my notice I wrote to the man-  
ufacturers for a box and used it as di-  
rected. It stopped the attacks. I  
have not the slightest hesitation in ad-  
vising all residents of Albuquerque if  
annoyed in any way with hemorrhoids  
or piles to go to the Alvarado Phar-  
macy, buy Doan's Ointment, take a  
course of the treatment and the annoy-  
ance will cease."

For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo, N.  
Y., sole agents for the United States.

Remember the name Doan's and take  
no other. \*24

A Nervous Affliction  
That Frequently Ends in Death

The Victim After Failures

With Other Medicines

Is Cured by

PAINE'S  
Celery Compound

Paine's Celery Compound has ac-  
quired its famous reputation by its  
wonderful and decisive victories over  
disease and suffering. Paine's Celery  
Compound supplies strength and  
energy to those who are low from  
nervousness and physical exhaustion.  
It builds up the weakened nervous  
system, makes the blood pure and rich,  
establishes a perfect action of the  
heart, gives natural sleep and diges-  
tive vigor.

Lucy Regaladez, 43 Alasolo, St.,  
Monterey, Mexico, who was in a criti-  
cal condition of health owing to ner-  
vous suffocation, was providentially  
saved by Paine's Celery Compound  
after vain attempts to procure a cure  
with other medicines; she writes as  
follows:—

"I feel very grateful for the good  
which Paine's Celery Compound has  
afforded me. Before using it I had  
been suffering for some time from  
nervous suffocation which prevented  
me from sleeping, speaking, or eating.  
If I attempted to take a meal, I was  
obliged to stand in order to breathe.  
After the use of various remedies  
which brought no relief, my uncle, Mr.  
Dias, advised me to try Paine's Celery  
Compound, which I did, and found  
immediate relief. I took six bottles of  
it and now I am completely cured,  
thanks to the Compound."

PROPOSALS FOR BIDS, NEW MEX-  
ICO PENITENTIARY.

Santa Fe, N. M., Nov. 22, 1902.

Sealed proposals will be received by  
the board of New Mexico penitentiary  
commissioners, at the office of the su-  
perintendent until 10 o'clock a. m., Mon-  
day the 8th day of December, 1902, for  
the furnishing and delivery at the New  
Mexico penitentiary, of supplies here-  
inafter mentioned, or so much thereof  
as said board may deem sufficient.

Payment for said supplies will be  
made in cash. Delivery of all supplies  
except perishable articles must be made  
within sixty days after date of award;  
to commence at such time as the su-  
perintendent designates. The delivery  
of beef to begin on January 1, 1903.

Samples will be required of all arti-  
cles marked with an asterisk, and  
these should be labeled showing name  
of bidder, price, etc., and must be de-  
livered to the superintendent not later  
than 9 o'clock on said day. All bids  
must be made strictly in accordance  
with conditions on blank proposals,  
which will be furnished by the su-  
perintendent on application; bids other-  
wise made will not be entertained.

A bond will be required from all suc-  
cessful bidders, within ten days after  
date of award, for the faithful fulfill-  
ment of contracts.

60,000 pounds fresh beef, prime qual-  
ity, necks and shanks excluded.

\*5,000 pounds bran.

\*50 cases laundry soap.

\*3,000 pounds hominy.

\*10,000 pounds beans.

30 cases roasted coffee.

10 cases tomatoes, standard qual-  
ity.

\*6,000 pounds granulated sugar.

\*1,000 pounds rice.

100 pounds K. C. baking powder.

\*100 pounds black pepper, whole.

1 dozen standard pints vanilla ex-  
tract.

\*10 cases canned corn.

\*150 pounds laundry starch.

\*300 pounds salsaoda.

\*150 pounds macaroni.

\*50,000 pounds flour.

\*50 pounds tea.

1,000 pounds D. S. Bacon.

The board of penitentiary commis-  
sioners reserves the right to reject any  
and all bids. In submitting bids for  
above supplies bidders should write  
plainly on envelope the following:  
"Bids for supplies for New Mexico  
Penitentiary," with name or names of  
bidders, to avoid the opening of same  
by mistake. Samples may be sent sepa-  
rately, duly marked and numbered,  
to the superintendent.

By order of the board of penitentiary  
commissioners.

H. O. BURSUM,

Superintendent.

Wash day is a hard day at best. Don't make it harder by using poor soap. Lenox is a good honest soap. Your grocer has it.

### CITY COUNCIL.

#### Some Contentment With Dairymen Over New Inspection Ordinance.

#### OTHER MATTERS OF INTEREST.

At a meeting of the city council last night it developed that the proprietors of the larger dairies in Albuquerque are at arms with the city council, resulting from the refusal of the city council to pass an amendment changing the tax clause of the recently adopted milk inspection ordinance.

They claim that under the existing tax of \$1.50 per cow per annum, the business will not pay and they will not stand for it.

The dairymen were represented by Attorney Summers Burkhardt and he introduced an amendment to the tax clause of the ordinance, by which the tax was to be \$1.25 per month for each cow from which milk is sold, where from one to five cows are kept; and 50 cents per month for every additional ten cows kept; this to replace the straight tax of \$1.50 per year for each cow from which milk is sold.

Mr. Burkhardt stated that there are 115 places in town from which milk is sold and where from one to five cows are kept, and that it was an much trouble to inspect premises where five cows are kept as it is to inspect the premises where 100 cows are kept, and that in case of the former, it was possibly more trouble since it might be more difficult to obtain samples of milk.

The straight tax of \$1.50 per annum per cow was claimed to be unjust and later in the discussion which followed the introduction of the amendment, Mr. Burkhardt stated that if it were not passed the dairymen would go out of business and would not deliver any milk in the morning. It was pointed out that the amendment would force the men owning from one to five cows out of business since the profits could not meet the tax.

Alderman Hubbs to meet this difficulty, proposed to make the amendment read 50 cents per month for from one to five cows and 10 cents a month for every additional ten cows kept.

The milkmen accepted this change, and on motion the rules were suspended and the amendment put on its final passage. Councilmen Rogers, Hubbs, Grunsfeld and McKee in the affirmative, and Councilmen Harrison and McMillen in the negative; Beaven and Harsch absent. The amendment was declared lost by the majority vote of the whole council to amend an ordinance.

The dairymen do not favor the action of the council and state positively that they will not stand for it.

#### Street Car Line.

The council were requested by Hon. H. B. Ferguson, attorney for O. E. Cromwell, to reconsider its resolution requiring the company to move its line to the middle of the street and bring the track to the street grade within sixty days. Mr. Ferguson called attention to the fact that he had introduced a bill granting a franchise to Mr. Cromwell for an electric road; that it had been turned down owing to the outstanding franchise held by Gleason & Co.; that Mr. Cromwell still proposed to ask for the franchise when the Gleason franchise expired on March 16, and that considering these conditions it would be an injustice to seek to force the horse car line to lay new track when it proposed to build an electric line in a short time.

Mr. Ferguson did not say, but intimated that an effort to enforce the car line to do as requested would be met with a legal fight.

A hot discussion followed. Mr. Metcalf addressing the council made reference to the dangerous condition of Railroad avenue and the long time which had already been spent in waiting for the street car company to do something. Something definite was wanted by the council and some of the councilmen were not disposed to reconsider.

A motion was passed that the street car company be given thirty days' additional time in which to secure some definite statement of their purpose from Mr. Cromwell in regard to the building of an electric line or the rebuilding of the present line.

The grievance committee were presented with a communication from Ed S. Houghton, who stepped off the end of the Coal avenue viaduct and received a sprained ankle, for consideration. He wanted \$10 for doctor's bill and \$22 for eleven days' wages lost.

#### LOCAL PARAGRAPHS.

Juvenile minstrels tonight at the Colombo hall.

Louis Trauer, who buys and sells sheep, came in from the south this morning.

George Clifford will impersonate "Happy Hooligan" and "Spot" Moore will be the policeman at Colombo hall tonight.

Guards Attention! In pursuance with special order No. 13, A. G. O., dated November 28, there will be a meeting this evening at the usual place, for the election of captain to fill the vacancy caused

by the promotion of Captain James Elder.

Charles Whiting, first lieutenant, E. L. Medler, attorney, was at Santa Fe yesterday on some legal matters. He returned last night.

P. D. Carpenter, the sheep man, is in from his ranch near Torreon, east of the Manzano mountains.

Governor Otero, who was at Denver, St. Louis and Chicago on business, is expected to return to Santa Fe tonight.

Albert Wies, late chef at the Boston cypher house, Chicago, and The Park hotel, Hot Springs, Arkansas, is the new chef at the Alvarado.

There will be a meeting of the ladies of St. John's Guild Wednesday afternoon at 3 o'clock at the rectory. All members are urged to be present.

Osman Skinner, assistant to J. W. Edwards, funeral director, was taken to the hospital this morning. The doctor pronounced typhoid fever.

W. H. Jack, of Crest county, passed up the road yesterday for Santa Fe, where he attended a meeting of the United States land commission.

The Woman's Circle of the Baptist church will hold its regular meeting at the home of Mrs. W. H. Wolvin Thursday afternoon at 3 o'clock.

The Ladies' Aid society of the German Lutheran church will meet at the home of Mrs. Grundman, 223 Hazledine avenue, tomorrow afternoon at 2 o'clock.

Hon. J. W. Reynolds, the territorial secretary, has gone to Omaha, Neb., on business and pleasure. He will be absent from Santa Fe for several weeks.

Regular meeting of Harmony lodge No. 17, I. O. O. F., this evening at 7:30 o'clock. Work in first degree. All members of the order invited. H. O. Strong, noble grand.

Mrs. D. A. Shope, of Winslow, wife of the superintendent of bridges and buildings of the Winslow division of the Santa Fe Pacific, is in the city visiting and shopping.

D. W. Lane, who has been a sub-city mail carrier for the past three years, has been appointed to a regular route, taking the route of M. C. Turner. The latter takes the route vacated by Jack O'Brien, who will remain in the east.

The first choral society concert will be given Wednesday night. This chorus is the medium for much entertainment to music lovers and the hearty support of the people is asked for this new institution. Good voices are always in demand.

D. E. Phillips, a well known member of the local Woodmen of the World lodge, informs The Citizen that the lodge will give its fourth annual ball at Colombo hall on New Year's eve, December 31. Tickets, \$1, admitting gentleman and ladies.

Hon. Alex. Bowie, who will represent Bernalillo and McKinley counties in the lower house of the next territorial legislature, came in from El Paso this morning, and was a pleasant caller at The Citizen office. He left for Gallup on the delayed passenger this afternoon.

The second term of the school of music of the University of New Mexico begins December 8. Piano, violin and elocution and physical culture are open to students. Pupils should begin promptly with the term. The courses of instruction are very attractive and an opportunity is offered which should not be missed.

A meeting of Albuquerque lodge No. 336, I. O. B. B., will be held this (Tuesday) evening at their hall on Gold avenue at 7:45. All members are requested to be present. By order of the president, Samuel Neustadt, secretary.

W. V. Wolvin, D. D. S., Dental Surgeon Santa Fe Pacific Railroad, Grant block. Both 'phones.
