VOLUME 16 ALBUQUERQUE, NEW MEXICO, FRIDAY AFTERNOON, NOVEMBER 21, 1902 NUMBER 308

ANOTHER ROBBERY

S. Vann & Son, Jewelers, Extensive Victims.

SAFE CRACKED--GOODS STOLEN
It is Estimated That About \$10,000 in Watches, Jewelry, Etc. Stolen.

THE WORK OF EXPERT CRACKSMEN

Another startling job of safe cracking occurred last night in which the large safe of S. Vann & Son was broken open and contents amounting to about \$10,000 were taken.

When J. C. Castillo, the Mexican jeweler, opened up this morning he found the optical room covered with empty watch and ring trays, which he knew were from the safe. Running to the safe he found the doors closed, but the combination dial missing. Throwing open the safe doors, he was horrified to find the safe empty, and immediately notified Mr. Vann.

The loss will run into the neighborhood of \$10,000. As close as can be estimated there were 238 gold watches, over 1,000 rings of all kinds, a package of diamonds just received, valued at \$500, besides a large number of diamonds in stock, seventy in number, were taken with the valuables belonging to the firm. There was only \$125 in cash, as they bank every day.

The robbers first attempted to gain entrance through the door at the rear. The strip on which the locks fasten was broken off, but as the door was heavily barricaded with boxes they gave up their work at the door and with chisels pried open the top windows.

After gaining entrance they opened the rear door, by which way they left the building.

The manner in which the safe was cracked was the same as Solomon Benjamin & Co.'s and the Santa Fe safes were cracked. The dial was struck a tremendous blow with a sledge hammer, which was found in the rear room this morning and the lock of the inside door was knocked in with punches.

The only thing left from the entire contents of the safe was a few rings, stick pins and a few small articles that were left in several of the trays found this morning.

Everything of any particular value was placed in the safe at night, and consequently the firm lost the best part of their stock.

The universal opinion is that the cracking was the work of the same gang of clever crooks that did the startling work of a couple of weeks ago.

That Albuquerque is easy picking must have been the opinion of the robbers and they have remained in the field looking for more of the successful hauls. The chances are that the croakers have been in the city mingling with their pursuers all the while.

There is no clue whatever, only a few tracks in the rear room being the only marks left behind. But the prospects of locating the plunderers is excellent, because the largest part of the goods stolen can be identified if an attempt is made to dispose of them.

The police authorities and business men got together this morning, after the discovery of the surprising haul, and took up a subscription to send for the blood hounds at Santa Fe, which will reach here this afternoon or this evening.

The entire community have been aroused by this third successful robbery and they will not rest nor waste any time until the robbers have been run to the earth.

The sledge hammer found in the optical room this morning was marked with a diamond, which is the private mark of the Santa Fe, and came from the local shops.

The rear of the store is nearly all doors and windows without the protection of iron bars, which are absolutely necessary, especially to a jewelry store. The loss to Mr. Vann is no trifling, as he was getting on his feet again. No man in the city had worked as hard to build up a good business as Mr. Vann. The entire community sympathize with him in his untimely loss and misfortune.

This last deed will no doubt stimulate the authorities of the city and territory to use every effort possible to locate the crooks who have so far been successful in their robberies.

The Oberles Tonight.
The Oberle Stock company will produce "A Woman's Honor" tonight. A

comedy drama of unusual merit which has pleased and will never fail to please the lovers of good clean fun and amusing incidents. A family matinee will be given Saturday afternoon at 2:30 o'clock, at which all school children holding a special matinee ticket will be admitted for 15 cents. The regular prices are 25 and 50 cents.

Mayor W. H. H. Llewellyn, who will represent Dona Ana and Otero counties in the lower house of the next territorial legislature, accompanied by Prof. Luther Foster, the popular and efficient president of the Agricultural college, came in from Las Cruces this morning and continued north on the delayed No. 2 passenger train for Santa Fe. They say the senators visited the college for an hour or two yesterday and expressed themselves well pleased with that New Mexico educational institution.

The funeral services of Margaret Hogan, daughter of Mr. and Mrs. P. D. Hogan, who died suddenly last Tuesday morning, will be held at the undertaking parlors of Strong & Sons tomorrow (Saturday) afternoon at 3 o'clock. The body will be shipped east and buried in Chicago, her old home.

The Oberle Stock Co. will give a special grand family matinee for school children Saturday, Nov. 22, at 2:30 p. m. Each child holding one of the special school children's tickets will be admitted for 15 cents. Regular prices are: Adults, 50 cents; children, 15 cents.

SHOT AND KILLED.

Gus Mulholland Accidentally Kills His Cook on Dawson Road.

NO PARTICULARS RECEIVED.

News reached this city this morning that Gus Mulholland, who is drilling wells on the new Dawson coal railroad, accidentally shot and killed his cook on the 17th while starting out on a duck hunt. There is no further particulars, but it is positively certain that the terrible accident was unavoidable, for Gus Mulholland would be the last man in the world to do such a thing willfully. Mr. Mulholland's family—his wife and children—reside at Gallup, and where he also lives when not attending to his railroad well drilling contracts. He is well known in this city, and was a member of the lower house of the territorial legislature, years ago, when McKinley county and Gallup was a part of Bernalillo county.

LOCAL PARAGRAPHS.
Thomas Hughes and G. F. Albright, who were at Santa Fe the past few days, returned to the city last night.
After an official trip to Gallup, Ellsworth Ingalls, special government attorney, returned to the city last night.
Hon. B. S. Rodey, delegate to congress, was at Santa Fe yesterday on business. He returned to the city last night.
Thomas Fleming, years ago a merchant of this city, but since then in business in Arizona, is here renewing old friendships.
Ernest Randall and wife, of Portland, Maine, are in the city, en route to California. They are guests of their old friend, R. H. Greenleaf.
The central labor union will hold its meeting Sunday afternoon at 2 o'clock at the Knights of Pythias hall. Three delegates from each union in the city will be present.
Prof. C. L. Herriek, registering from Magdalena, is in the city today. Since leaving the university, the professor has devoted his time to mining and reporting on mines.
A full attendance is desired at the meeting of Albuquerque lodge 461, B. P. E., tomorrow evening. Arrangements are to be perfected for the program for the annual memorial day service.
D. A. Macpherson, manager and secretary of the Water Supply company, who was at Denver on business connected with the transfer of the Electric Light and Gas companies to A. A. Henry and party, returned to the city last night.
Dr. John Roger Haynes, formerly of this city but now of Park View, Rio Arriba county, is here to be one of the principles in a very interesting event. Friends say that on tomorrow the doctor will be united in marriage to Miss Juanita Armijo, daughter of Col. and Mrs. Perfecto Armijo. After the ceremony and congratulations, Dr. Haynes and wife will drive through the country to Park View, where they will reside in the future.

HARD AT WORK

President Roosevelt at the National Capital.

BRITISH GENEROUS TO THE BOERS

Indiana Has Good Law Relating to Duties of Sheriffs.

A STEAMER SINKS IN THE DANUBE

Washington, D. C., Nov. 21.—President Roosevelt arrived this morning at 8 o'clock over the Southern Railway. A small crowd was at the station to welcome his return. As he left the train he shook hands with the engineer and fireman and thanked them for the safe run they had made. The president and Secretary Cortelyou were driven direct to the white house.

Before 10 o'clock this morning the president reached his office in the executive building. He began at once to dispose of a mass of business, which had accumulated during his absence. Prior to the meeting of the cabinet, which was called for 11 o'clock, the president found time to hold brief interviews with Senators Burrows, of Michigan; Scott, of West Virginia, and Lodge, of Massachusetts. During the next four or five days, as opportunity may offer, the president will put the finishing touches upon his annual message to congress. It is understood that the message will be sent to congress on the second day of the approaching session, Tuesday, December 2, owing to the fact that deaths of members of both houses have occurred during the recess which will necessitate an adjournment on Monday. The document is almost completed, but some points of it are yet to be written finally and the whole revised. During the early days of next week, the president will consult on parts of his message with republican leaders in congress.

GENEROUS TO BOERS.

English Have Made Liberal Appropriations to the Defeated.

London, Nov. 21.—A parliamentary paper relating to the Boer generals' appeal to the world was published today. In a letter to General Botha, Colonial Secretary Chamberlain protests against the "exaggerations in the appeal," and the "incorrect impressions conveyed thereby," and points out that in addition to the gift of \$15,000,000 for the relief of the Boers, Great Britain had been spending \$1,000,000 monthly since the close of the war in maintaining the burgher camps and in organization to enable the people to return to their homes. General Botha, in reply, says that until Mr. Chamberlain made his speech of November 5, he understood that the \$15,000,000 was partial compensation for war losses. If he had known it was solely for the relief of destitution the appeal in such form would not have been issued.

GOOD LAW.

Indiana Compels Sheriffs to Protect Prisoners from Mobs.

Indianapolis, Ind., Nov. 21.—Governor Dubin today notified Sheriff Dudley of Sullivan county, that his office was vacant and the coroner becomes sheriff ex-officio. The Indiana law provides that a sheriff shall vacate his office when a prisoner in his charge is lynched. Last night a mob took Dillard, a negro, away from Sheriff Dudley and hanged him to a telegraph pole. The sheriff has the right under the law to ask to be reinstated, but he must show that he was powerless to protect his prisoner.

STEAMER SUNK.

Vienna, Nov. 21.—A steamer crowded with workmen sank at Orsova, a frontier town of Servia, in the Danube yesterday evening. Thirty on board were drowned. Owing to the darkness boats from the shore were able to rescue only five persons.

PRETTY WEDDING.

Elia Gradi and Miss Anita Palladino Married Wednesday.
A pretty marriage ceremony took place Wednesday morning at the Church of the Immaculate Conception, when Miss Anita Palladino, daughter of G. Palladino, of No. 912 Myrtle avenue, became the bride of Elia Gradi, a merchant of Albuquerque. Rev. Father Roy performed the ceremony, which was attended by a large number of friends from Albuquerque and El Paso. Felix Martinez was best man, while Mrs. Martinez was the matron of honor. Bridesmaids were Miss Triolo, Miss Toti and Miss Cecelia Del Buono; the groomsmen being Lawrence Gradi, a brother of the groom, and Consul Francisco Mallen. The wedding took place at 9 o'clock, after which the party adjourned to the home of the bride's father, where a wedding breakfast was served and all drank to the health of the newly married pair. The many friends of the couple then tendered them a reception, at which there was music and dancing the entire day.
Mr. and Mrs. Gradi will leave for a trip through Mexico, visiting Chihuahua and the City of Mexico before returning to Albuquerque to make their home. Among the guests from Albuquerque were Frank Tomel and daughter, L. Gradi and Miss Toti. From El Paso were Mrs. Dr. Justice, Mrs. Martinez, Mrs. Del Buono and Consul Mallen.—El Paso News.

ORGANIZED LABOR

Proceedings of National Federation of Labor.

ATTEMPTED MURDER AND SUICIDE

Hard Life of the Coal Miner Depicted by a Doctor.

DEATH OF A COLORADO MINING MAN

New Orleans, Nov. 21.—The application of the union brotherhood of carpenters and joiners for the revocation of the charter of the amalgamated association of wood workers was the first thing called up in the labor convention today. Wednesday night this work was laid over to see if the organizations could not agree to amalgamate. President Kidd, of the wood workers, announced that until the carpenters would withdraw their men from a certain shop in Philadelphia, where the wood workers had gone on a strike and the carpenters had taken their places, the matter must be fought out on the floor of the convention. A long debate was about to open when Treasurer Lennon, who had the chair, declared that but one speaker on each side would be allowed to address the convention on the subject. Delegate Kidd of the wood workers, appealed from the decision of the chair. The appeal was successful and the debate which gave every indication of being a long one, was in full swing.

THE DOCTORS.

Administrative Officers of Health Board Met at Kansas City.

DR. W. G. HOPE RETURNS.

Dr. W. G. Hope, president of the New Mexico Territorial board of health, attended a meeting of the administrative officers of the boards of health of the states and territories at Kansas City, for the purpose of recommending to the respective legislatures reciprocity in the matter of licenses for the practice of medicine. The doctor returned last night, and says the following resolutions were unanimously adopted: Whereas, The majority of the physicians in the United States are in favor of an improved and a higher standard of medical education, and Whereas, They are also desirous of doing justice to the veterans in the profession, and Whereas, First, That for these graduating in medicine hereafter, reciprocity in license should be based on the following:

- a. Uniformity in preliminary entrance requirements.
- b. Uniformity in the length and character of the medical course.
- c. Uniformity in the character of the examination.
- d. Uniformity in legislative enactments which shall permit, or authorize reciprocity. Be it also further Resolved, That it is the sense of this meeting that the "Preliminary Entrance Requirements" should be satisfactory documentary evidence under oath of a high school education, of not less than three years' duration. Be it further Resolved, That it is the sense of this meeting that the medical course should consist of not less than four years, or courses, of at least seven months each, in four separate calendar years, and that each term should consist of not less than 800 hours of actual work. Be it further Resolved, That it is the sense of this meeting by "uniformity in character of the examination," we mean that with the exception following, all applicants should be examined in at least the following branches:

Anatomy, bacteriology, chemistry, materia medica and therapeutics, obstetrics and gynecology, pathology, physiology, practice of medicine, surgery. Be it further Resolved, That the foregoing should be considered the minimum qualifications for admission to examination for license, and, be it further Resolved, That it is the sense of this meeting that each examination and licensing board or state board of health should be empowered by legislative enactment, to accept in lieu of an examination, all of the following:

- a. A diploma from a recognized medical school.
- b. A license from a reciprocating state board of health or licensing board.
- c. A certificate from the state board of health, where the applicant last resided, showing at least ten years of reputable practice since graduation from a recognized medical school.

Copies of these resolutions are to be forwarded to the state board of health of all other states west of the Mississippi river, with a request that if approved they be sent on to the legislatures next spring. In the middle of January there is to be a national meeting of physicians held in Chicago, and it is intended to take the matter up there with a view to giving the movement a general impetus.

THE HUSBAND HERE.

William Watkins Talks of His Wife, Who Suicided Yesterday.

BURIAL THIS AFTERNOON.

RASH ACT.

Young Canadian Shoots His Sweetheart and Kills Himself.

Ann Arbor, Mich., Nov. 21.—Because Bertha Sheldon had allowed another man to escort her home last night from the store where she is employed, G. A. Darlington, a packer for an organ company and a student in the university school of music, today shot her in the arm and then fired a bullet into his own head, dying almost instantly. Darlington met the girl as she was on her way to work today and they quarreled over last night's episode. Darlington came here from Strathcona, Ontario. He served with the Canadian soldiers in the South African war and was about 24 years of age.

HARD LIFE.

The Coal Miners Subjected to Many Ills of the Flesh.

Scranton, Pa., Nov. 21.—The examination of Dr. R. H. Gibbons, of Scranton, was immediately resumed when the anthracite strike commission met today. He said the occupation of a miner subjects a man to pleurisy, gout, neuralgia, asthma, bronchitis, sciatica and other diseases. He believed the day would come when the men will be subjected to medical examination before they undertake mining. Children, he said, who have suffered from any form of disease of the respiratory passage, bronchitis or pneumonia, should never be permitted in the mines under the age of 15 years, because they should have a chance to eliminate the predisposing factor in the case of so-called miners' asthma. On further examination Dr. Gibbons said he did not mean to be understood, as saying that miners form an unhealthy class, but that they are debilitated and run down. The witness was cross examined by James H. Torrey, for the Delaware & Hudson company.

MAY SETTLE DIFFERENCES.

Scranton, Nov. 21.—It was learned this afternoon that efforts are being made or will be made to settle the differences existing between the mine workers and employers outside the commission appointed by the president and it is said that the contemplated adjournment will be taken in order to give both sides a chance to get together. Remarks made by Judge Gray just before the commission adjourned suggest this conclusion. None of the attorneys on either side will say anything regarding the matter, but it is understood here that in the interval such an effort will be made.

MAJOR DANIEL M. APPEL.

Major Daniel M. Appel, surgeon of the United States army and superintendent of the government military sanitarium for the treatment of tuberculosis at Fort Bayard, N. M., for the past three years, was a visitor in the city yesterday accompanied by his wife. Major and Mrs. Appel left last night for San Francisco, and from there will sail in a few days for the Philippines, where the major has been ordered to report.

Mrs. B. Spitz, who left for the east the other night, will be absent several

months, and will visit relatives and friends in Boston, New York and Philadelphia.

SHOOTING AFFRAY.

Washington, Nov. 21.—The state department has been informed that Godfrey Hunter, the son of the United States minister at Guatemala City, today shot and killed Wm. Fitzgerald, of Grand Rapids, Mich. Hunter has taken refuge in the legation and an interesting question has arisen as to his exemption of arrest.

DIED FROM HIS WOUNDS.

Telluride, Nov. 21.—Arthur L. Collins, who was shot on Wednesday night by an unknown assassin, died early this morning from his wounds.

Immediately after the death of Manager Collins this morning orders were issued for the Smuggler mines and mills to close down, and everything is now at a standstill. It is learned from those in authority that they intend to keep the mines and mills closed for an indefinite period.

SHIPPED TODAY.

One of the finest Chickering Bros. pianos will add to the attractiveness of the home of Dr. John Roger Haynes of Park View. He is at present in the city and in his rounds of calls on old friends and acquaintances he did not overlook the music and piano dealers, Hall & Leonard, and purchased an exceptionally fine Chickering Bros. piano, which was boxed and shipped this afternoon to Park View. The doctor will become a benedict tomorrow night, and the piano will undoubtedly reach Park View as soon as the doctor and bride.

THE HUSBAND HERE.

William Watkins Talks of His Wife, Who Suicided Yesterday.

BURIAL THIS AFTERNOON.

William Watkins, husband of the lady who committed suicide at the majestic rooming house on First street yesterday by using morphine, arrived in the city this morning to look after the remains. Two telegrams were sent him yesterday—one reached him at Deming and a more complete wire of the horrible tragedy was sent him at San Marcial.

Mr. Watkins is an engineer on the Rio Grande division and runs in here every few days. When seen by a Citizen reporter this morning he said:

"I did not know my wife was in Albuquerque until I received the second telegram, which told me of her whereabouts. The first telegram merely stated that she was dead and I supposed she was in Beloit, Wis., with her sister where I sent her two months ago. I had a letter from her on the 10th of this month and that she was feeling better. She had a paralytic stroke about three months ago, which affected her mind at times. These fits would come on very often, and I was advised by the doctors to send her to a lower altitude, which I did. I cannot account for her coming to Albuquerque when her return pass was to San Marcial, unless it was because she did not wish to return to me in the same condition in which she left. She had written me that she was much improved. The misfortune preyed upon her mind continually, which had affected it. She was a very good woman and trouble had never entered our home."

The funeral took place from the parlors of O. W. Strong & Sons this afternoon at 4 o'clock, with interment at the Santa Barbara cemetery.

LOCAL PARAGRAPHS.

Mrs. John Donahue and children, family of Conductor Donahue, are in the city from El Paso.
There will be a regular meeting of Adah Chapter No. 5, O. E. S., this evening, November 21, at 7:30. By order of worthy matron, Laura Fluke, secretary.

The stable of A. J. Maloy, the Railroad avenue groceryman, was entered last night and two sets of harness, almost new and valued at \$40, were stolen. The stable is located on the Highland.

The school of the Immaculate Conception was paid a visit by Mr. Bainbridge this morning. A very delightful half hour was spent with the school children. The adventures and thrilling experiences were told in a most interesting way, and the talk was highly appreciated.

The United Brotherhood of Carpenters and Joiners of America, a recently organized union, will meet tonight at their hall, corner of Gold avenue and Third street, to elect delegates to the convention of local unions, which will be held next Sunday to form central labor union. Most of the unions have already named their delegates, each union being allowed three delegates.

THE CABINET

Every Member Present to Greet President Roosevelt.

WALL STREET STOCK DISCUSSION

Denver Court Principally Occupied With Contempt Proceedings.

INVESTIGATING SHOOTING OF GORE

Washington, Nov. 21.—Every member of the cabinet was present at today's session. It was comparatively brief, lasting only about an hour. At its conclusion it was stated that no business of serious consequence was transacted, although some subjects of importance were considered briefly.

Secretary Hay brought with him some documents relating to the status of the negotiations pending with Colombia with respect to the Panama canal treaty. He reported the status of the negotiations and it is reported that the president will not be able to say in his message that he is ready to submit to congress a treaty with Colombia in accordance with the Spooner act. Some portions of the president's forthcoming message to congress were considered, but as the features of the document concerning which any division of opinion might arise have been prepared definitely and will not be until the president shall have had time further to discuss them with the leaders in both branches of congress, and little respecting the message was accomplished.

Wall Street Stock Discussion.

New York, Nov. 21.—Wall street discussed with great interest today the rumor in circulation to the effect that the Interborough Rapid Transit company, which is to operate the subway lines, had obtained control of the Manhattan Elevated company. No official confirmation or denial of these rumors was made and no person in authority in either corporation was willing to be quoted in the alleged deal. Manhattan sold as high as 154 1/4 and as low as 149 1/4 on the stock exchange during the morning session. The demand for the stock was comparatively light.

Denver Contempt Case.

Denver, Nov. 21.—Attorneys for County Clerk Alchele have applied to the supreme court with a writ of prohibition to prevent Judge Johnson going on with contempt proceedings. The writ is asked for on the ground that the judge did not have jurisdiction in the case in which he issued an injunction prohibiting the county clerk certifying names on the registration list and that Johnson had refused Alchele trial by jury. There will be no further action until the supreme court gives a decision.

Investigating Shooting.

Paris, Nov. 21.—Consul General Gowdy's investigation into the shooting of Mrs. Ellen Gore on Wednesday developed the fact that Mrs. Gore was a pupil of the famous composer, Moskowski. Her maiden name was Sinclair. She was originally from California where she married Tom Gore, of British Columbia. The couple removed to Mexico City and became wealthy. They built an extensive apartment house in Mexico City which they called "Gore Court."

A Good Show.

"A Wise Member" was certainly wise in giving the theatergoers all the fun they wanted. From the time the curtain went up until it shielded the sights behind the scene there was something going to hold the attention every minute. It was fast and amusing all the while, sparkling with wit and humor. The singing, dancing, rough and tumble play delighted the audience. Deprived of their stage costumes by the lateness of the train which carried their baggage, they were rescued from their despairing position by the generous loan of costumes and make-ups. Of course the appearance of the actors would have been more pleasing had they been clothed in their sparkling costumes, but in spite of the fact that several of the women were in their traveling clothes and the men in suits that were not all their own, the play was good, so say the people.

The Oberle Stock company will, with "A Woman's Honor," a bright, sparkling comedy drama, make as much of a hit tonight, as did "A Wise Member" last night.

Capt. W. C. Reid, assistant United States attorney for New Mexico, is in the city from Las Vegas on some legal matters.

THE WORST THING in the world for a cough is to cough. THE BEST THING in the world for a cough is a MUCH DISPUTED QUESTION

We keep all the leading remedies or would be pleased to fill your doctors prescriptions.

New Mexico demands Statehood from the Fifty-Seventh Congress.

Oil has been discovered in this territory. This ought to help us slide into the union.

This city will promptly comply with the liberal conditions of the Albuquerque Eastern Railroad company.

If the foot ball players keep on making improvements for their protection they will presently have themselves hauled out on the field in iron cages.

The poor old Las Vegas Optic was badly knocked out in the recent election. It has so far recovered that it now and then has a feeble wall against statehood.

There are a few federal and territorial officials in New Mexico who are secretly opposing statehood. They fear that they will lose their jobs if the people are given self-government.

Governor Ferguson of Oklahoma finds much joy in anticipation. In his Thanksgiving proclamation he calls upon the citizens of that territory to give thanks that the boon of statehood is already in sight.

The school statistics of Pennsylvania for the school year ending June 2, 1902, show that the 29,631 schools in the state cost a total of \$52,027,679. Of this the state paid \$5,550,000, the rest being provided for by local taxation.

It is all very well for calamity howlers to be spouting about hard times, and that the country is going to the dogs, but voluntary advances in wages of from 10 to 20 per cent, affecting 200,000 men, have taken place within the past week.

It is a gratifying fact that the foreign demand for American manufactures has been increasing throughout the year. For nine months ending with September the total was \$31,302,441, against \$298,600,551 in the corresponding months of last year.

From New York accounts, it appears that Manhattan is the "greatest Irish city in the world;" the third largest German city; a mighty Italian city with 300,000 or so; and the only large Jew city in the world, but there is no boasting about its American population.

There will be no necessity for an interpreter in the thirty-fifth legislative council, as that body will not contain a member who does not understand the English language. This is the first time in the history of this territory that this is the case. New Mexico is advancing right along.

The Crumpacker proposition for reducing representation in congress is to be given early consideration. It is a proposition that ought to win. This thing of permitting the sections in which voters have been disfranchised by wholesale to continue their old basis of representation is contrary to the elements of justice and common sense.

It is probable that Vermont will abandon its half century experiment with prohibition and adopt a system of local option. The legislative joint committee on temperance has reported a measure for this purpose. The only alternative plan suggested was for the adoption of the state dispensary system. Not a single member of the committee advocated a continuance of state prohibition. It was assumed that

dense vegetable life, trees of mammoth size growing abundantly from the coast clear up the mountain sides to an elevation of 2,000 or 2,500 feet. Practically all of the valuable timber of Alaska is concentrated in this group of islands and has been but little cut.

FISH FOR NEW MEXICO.

The Streams and Ponds are Now Pretty Well Stocked.

A few weeks ago the United States fish car passed through New Mexico, stopping at certain places and leaving fish for the following people:
Max L. Kahler, Las Palomas, N. M., 600 rainbow trout, (Las Palomas river).
James W. Johnson, Rincon, N. M., 800 rainbow trout, (two ponds four miles north of Rincon).
D. H. Burrows, Roswell, N. M., 400 rainbow trout, (for North Spring river near Roswell).
George Gilmore, Roswell, N. M., 400 rainbow trout, (for North Spring river).
J. S. Morgan, Alamogordo, N. M., 100 rock bass, (for yond in Otero county).
Cornelius Hendren, Tucuman, N. M., 100 rock bass, (for Hendren's tank, Guadalupe county).
P. M. Carrington, Fort Stanton, N. M., 100 rock bass, (for sanitarium pond).
Margarito Romero, Las Vegas, 1,000 rainbow trout, (for Gallinas river).
William C. Burrows, Roswell, N. M., 100 black bass, (for South Spring river).
W. C. Kendall, Hillsboro, N. M., 100 rock bass, (for private pond).
H. B. Steward, Springer, N. M., 75 black bass, (for Calley Lake).
Eugenio Romero, Las Vegas, N. M., 75 black bass, (for reservoir near Las Vegas).
E. Andrews, Santa Fe, N. M., 100 rock bass, (for pond in Santa Fe county).
William Walsh, Paraje, N. M., 75 black bass, (for lake in Socorro county).

A Thanksgiving Dinner.
Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membranes lining the stomach, exposes the nerves of the stomach, producing a swelling after eating, heartburn, headache, sour risings and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures the catarrh. Kodol cures indigestion, dyspepsia, all stomach troubles by cleansing and sweetening the glands of the stomach. J. H. O'Reilly & Co.; B. H. Briggs & Co.

TIGHTENS HIS GRIP.
Harriman Buys \$12,000,000 of Southern Pacific Stock.
Edward H. Harriman, leading the Union Pacific syndicate, has routed the Southern Pacific pool, led by James R. Keene, and by the purchase of \$12,000,000 of the Southern Pacific stock has secured control of that system.
Harriman, in acquiring the actual majority of the stock, practically completes the greatest railroad deal in the history of the country.
In February, 1901, the original Union Pacific syndicate paid \$70,000,000 for the Southern Pacific holdings of Collis P. Huntington, the Leland Stanford estate and the Crocker holdings.
That gave them control, through being the largest minority holders of 9,604 miles of railroad owned, operated or leased by the Southern Pacific. Since then the syndicate added to its holdings until at the inauguration of the present market crisis it held \$90,000,000 and was within \$9,000,000 of owning a majority of the stock. By the purchase of the \$12,000,000 additional stock this week the syndicate now owns the road.

FORESTS OF ALASKA.
"If I were to tell you that in far-off Alaska, whose resources are just becoming known, there is an extensive forest in which are found numberless trees from six to eight feet in diameter and 200 feet in height you would question my veracity," said an official of the interior department the other day. "Nevertheless, that is the fact," he added. "President Roosevelt recently created a forest reserve, embracing most of the islands of the Alexander archipelago, lying on the southeast coast of Alaska. These islands, mountainous in character, extend along the coast for about 250 miles, and from the shore to their outer limits is about sixty miles. It is a fact that practically every foot of soil is covered with

Ignorance
Blows out the gas and furnishes the newspapers with a jest and an obituary notice. "Didn't know it was loaded" may be an honest plea, but it never brought a victim back to life. Those who let a cough run on in ignorance of the danger, find no escape from the consequences when the cough develops into lung trouble. The best time to kill a snake is in the egg. The best time to cure a cough is when it starts. Ordinarily, a few doses of Dr. Pierce's Golden Medical Discovery will cure a cough at the beginning. But even when the cough is deep-seated, the lungs bleed and the body is wasted by emaciation, Dr. Pierce's Golden Medical Discovery will in ninety-eight cases out of every hundred effect a perfect and permanent cure.

JEMEZ & SULPHUR HOT SPRINGS
Carries the U. S. mail; only line with a change of stock en route; good rigs, horses and drivers; leaves Albuquerque every Tuesday, Thursday and Saturday at 5 a. m. For particulars address W. L. Trimble & Co., agents, Albuquerque, or J. B. BLOCK, proprietor, Jemez.
Ladies' and gents' cast-a-way clothes bought; 107 North First street.
Try The Citizen want columns.
To Chicago Cheap.
A special rate of one fare plus \$2 for the round trip to Chicago has been made by the Burlington for the great International Live Stock Exposition which will open there November 29 and continue for a week. This is the greatest live stock show of the world and this year promises to be of unusual interest to the western stockmen because of the particular attention being given to the range cattle exhibit which promises to be larger than ever before. The Burlington Route is the popular route with stockmen and the usual fine service will be given to those who desire to attend this big show. Tickets will be on sale November 30 and December 1 and 2, with a final limit for leaving Chicago of December 8. See your ticket agent or write for particulars to
GEORGE VALLERY, General Agent Burlington Route, Denver, Colo.

"Let the GOLD DUST twins do your work."

MALARIA

An Invisible Enemy to Health

Means bad air, and whether it comes from the low lands and marshes of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. S. possesses not only purifying but tonic properties, and the general health improves, and the appetite increases almost from the first dose. There is no Mercury, Potash, Arsenic or other mineral in S. S. S. It is strictly and entirely a vegetable remedy. Write us about your case, and our physicians will gladly help you by their advice to regain your health. Book on blood and skin diseases sent free.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

QUICK ACTION FOR STATEHOOD.

How New Mexico May Get It by the Next Fourth of July.

Hon. W. A. Hawkins, a member of the next legislative council of New Mexico, who is in El Paso from Alamogordo, says that the omnibus statehood bill provides for an early election for a constitutional convention in each territory; limits the session of the convention to thirty days; allows a few weeks for a vote on the constitution and then upon its adoption the legislature can meet in special session and elect senators; the election for governor and state officers will occur at the same time as the vote on the constitution. Congress does not take any action after passing the statehood bill, if a constitution be adopted.

If the statehood bill passes December 10 New Mexico may have senators elected and state officers in control by next July.

The advent of statehood will bring a lively scramble for senatorships.

There are many possible candidates out in the brush. Hon. T. B. Catron has had the honor in view as long as did Hon. Thomas Patterson, of Colorado before he made the turn. Governor Otero has been building fences since he became prominent; Senator Andrews, of Hillsboro, who shrewdly secured a two-party nomination for the council, is desirous of sitting with his old comrade, Senator Quay. There may be others. Combinations may result in giving one senator to each end of the territory. A combination may elect some shrewd politician who is not a millionaire.

No man can now forecast the outcome.—El Paso News.

A Dangerous Month.

This is the month of coughs, colds and acute catarrh. Do you catch cold easily? Find yourself hoarse, with a tickling in your throat and an annoying cough at night. Then, you should always have handy, a bottle of Ballard's Horehound Syrup. J. A. Anderson, 354 West Fifth St., Salt Lake City, writes: "We use Ballard's Horehound Syrup for coughs and colds. It gives immediate relief. We know its the best remedy for these troubles. I write this to induce other people to try this pleasant and efficient remedy." 25c, 50c and \$1.00 at Cosmopolitan Pharmacy, B. Ruppe.

PRETTY HOME BURNED.

Residence of J. W. Harrison, at Glorieta, with All Its Contents, Destroyed.

The frame residence of J. W. Harrison, a merchant at Glorieta, caught fire Wednesday from the range and was, with its contents, completely destroyed. The house was the most pretentious in Glorieta and the loss was \$2,500, with \$1,000 insurance. All the furniture, including a valuable piano, was burned.

Beautiful Clear Skies.

Herbina exerts a direct influence on the bowels, liver and kidneys, purifying and strengthening these organs, and maintaining them in a normal condition of health; thus removing a common cause of yellow, mothy, greasy skin, and more or less of pimples, blotches and blackheads. 50c at Cosmopolitan Pharmacy, B. Ruppe.

ORIGINAL OIL LAND LOCATOR.

First Believer in Santa Rosa Oil Field Now En Route to Them.

J. R. DeMier, a prominent citizen of Las Cruces, N. M., is in El Paso today en route to the oil fields of Guadalupe county, where he has large holdings, says the News.

Mr. DeMier has the distinction of being the original locator of oil lands in that county and has the choicest of them. He has 320 acres adjoining the Adams well, in which the strike was made last week, and has also 960 acres in another locality not far from the Adams well and which has the same formations.

Three wells have been sunk for water on his 960-acre tract and in each

It's Just a Cough

that gets your lungs sore and weak and paves the way for pneumonia or consumption, or both. Acker's English Remedy will stop the cough in a day and heal your lungs. It will cure consumption, asthma, bronchitis and all throat and lung troubles. Positively guaranteed, and money refunded if not satisfied. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Pielly & Co., and B. H. Briggs & Co.

two or three strata of oil were encountered. He has been a firm believer in oil being obtainable in that section ever since those wells were sunk, he having had them put down to secure water for his sheep, which he was ranging on his land there.

He prophesies that the Santa Rosa country will become an oil-producing section far ahead of Beaumont, not that there will be as many wells or that any of them will be gushers, but that the oil will be a more valuable grade, having a paraffine base. He says it will be a big thing for this country and El Paso will enjoy her share of the benefits derived from the development of the Santa Rosa oil fields.

Mr. DeMier is the gentleman who started the development of the large guano and phosphate deposits near Lava, Socorro county, N. M., which he sold out about a year ago. He and Mrs. DeMier spent several months touring Europe last year.

The Best Remedy for Diarrhoea.
"Some years ago, while at Martinsburg, W. V., I was taken with cholera morbus, which was followed by diarrhoea. The doctor's medicine did me no good. I was advised to get a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I did, and it cured me sound and well. G. A. Morris, Embreeville, Pa. Sold by all druggists."

ARIZONA LEGISLATURE.
Will Be Democratic—Council, 7 Democrats, 5 Republicans—Assembly, 6 Republicans, 18 Democrats.

The next Arizona legislature, which meets in January, 1903, will be democratic. The returns have been received from all the counties and the list of those elected is as follows:

Council.
Yuma County—E. S. Ives, D.
Pima County—J. B. Corbett, R.
Graham County—H. B. Rice, D.
Navajo County—J. X. Woods, R.
Pinal County—Charles F. Lucas, R.
Cochise County—B. A. Packard, D.

Gila County—J. B. Henry, D.

One Minute Cough Cure

is the only harmless cough cure that gives quick relief. Cures coughs, colds, croup, bronchitis, whooping cough, pneumonia, asthma, la grippe, and all throat, chest and lung troubles. I got soaked by rain, says Gertrude E. Fenger, Muncie, Ind., and contracted a severe cold and cough. I failed rapidly; lost 48 lbs. My druggist recommended One Minute Cough Cure. The first bottle brought relief; several cured me. I am back to my old weight, 148 lbs. One Minute Cough Cure cuts the phlegm, relieves the cough at once, draws out inflammation, cures croup. An ideal remedy for children. J. H. O'Pielly & Co.; B. H. Briggs & Co.

ZINC AND LEAD.

Complete Plant for Separating Them Will Be Installed at the Cerillos Smelter.

Hon. L. Bradford Prince has returned to Santa Fe from Cerillos, where he was greatly interested in the operation of the smelter.

It has been running night and day now for five weeks, treating copper exclusively. The owners and managers are men of abundant capital and they have made progress slowly in order that every possible improvement in the system might be utilized and the greatest economy secured in labor and the

cost of operation. A large quantity of copper ore is on hand which is of different grades and from different localities. The richest ore is from southern Arizona, while most of the ordinary grade is from southern New Mexico. There is some ore from points nearby.

W. A. Brown, of Franklin, Pa., who is one of those financially interested in the smelter, has been on the ground giving his personal attention to its operation for two months. The new superintendent was formerly superintendent of the El Paso smelter, and they have introduced many appliances for the economy of labor in the future. One device recently added is for the purpose of saving every particle of valuable metal, much of which is frequently lost in the slag.

It is the intention of the company in the near future to install the most complete plant for separating zinc and lead that can be obtained. As soon as this is done the ores of the Cochiti district can be utilized, as they obtain almost equal parts of lead and zinc with silver. A process for this separation is in successful operation in many different fields and ore of that kind is now treated at a profit when it was formerly considered unprofitable. This plant is expected to be in operation within a few weeks and a boom in the Cerillos district is then probable.

Asleep Amid Flames.
Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Fancied security, and death near. It's that way when you neglect coughs and colds. Don't do it.

Dr. King's New Discovery for Consumption gives perfect protection against all Throat, Chest and Lung Troubles. Keep it near, and avoid suffering, death and doctor's bills. A teaspoonful stops a late cough, persistent use and most stubborn. Harmless and nice tasting, its guaranteed to satisfy by all druggists. Price 50c and \$1.00. Trial bottles free.

DEMING.

From the Headlight.

The Deming Fire company boys have missed the three last regular meetings, and Chief Chester is discouraged. They should be fired.

The many friends of Mrs. W. C. Wallis will be glad to learn that she has returned from California in much improved health.

A young man named N. O. Wright working at one of Warner's ranches, accidentally shot himself through the left hand Friday and had to come to town to have the wound dressed.

A couple of strangers on their way to Arizona brought several horses to the city the other night, and three Mexicans stole them before morning. Sheriff Baca captured two of the thieves near Lordsburg and has them in jail. The third roadrunner escaped by way of El Paso.

J. N. Upton, Esq., the big cattleman, made an excellent guess the other day. A car containing forty of his steers was loaded in the Santa Fe stock yards and he guessed their total weight to a pound. He says he had never weighed them before, either. But withal he admits it was only a lucky guess and that he couldn't do it again were he to live 500 years.

Best Liniment on Earth.

I. M. McManey, Greenville, Texas, writes, Nov. 2, 1900: "I had rheumatism last winter, was down in bed six weeks; tried everything, but got no relief, till a friend gave me a part of a bottle of Ballard's Snow Liniment. I used it and got two more bottles. It cured me and I haven't felt any rheumatism since. I can recommend Snow Liniment to be the best liniment on earth for rheumatism." For rheumatic, sciatic or neuralgic pains, rub in Ballard's Snow Liniment, you will not suffer long, but will be gratified with a speedy and effective cure. 25c, 50c and \$1.00 at Cosmopolitan Pharmacy, B. Ruppe.

For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

It costs you less per month, on money borrowed from the Mutual Building association, of Albuquerque, for the same time of loan, than from any other loan association. It is a good association to borrow from. Officers and directors: H. Brockmeier, J. F. Pearce, F. McKee, A. E. Walker, E. L. Medler, J. S. Beaven, B. A. Sleyster, W. G. Hope and W. E. Rogers.

If you want a soap that will lather freely in hard water get some Lenox Soap from your grocer. There is no better hard water soap made.

Let us figure on your plumbing.—Albuquerque Hardware company.

No tuberculosis preservative or coloring in Matthews' Jersey milk.

Lenox Soap leaves the clothes soft, sweet and clean. Try it.

Fresh Cut Flowers. Ives, The Florist.

Notes from Correspondents

LAS VEGAS LACONICS.

Batch of interesting topics from a Northern Town.

Special Correspondence.

Las Vegas, N. M., Nov. 20.—Mrs. K. J. Hiesler left yesterday afternoon for Perry, Okla., her former home, to spend the holidays with home folks.

Mrs. H. Rensing and babies left yesterday afternoon for Kansas, where she will make a visit with her parents. J. V. Hansen left yesterday evening for Topeka to attend the big dance there, given in honor of the opening of the shops.

Judge H. S. Biggs and wife, old time friends of J. H. Reid back in Indiana, are expected to arrive here today and stop off for a short visit to renew old acquaintanceships. Judge Biggs and his wife are en route home from a trip to California.

T. W. Iden, father of Clarence Iden, has arrived in the city from Iowa for a visit with his son.

J. J. May, the Trinidad cigar man, left this afternoon for Santa Fe.

The election contest papers of J. Santos Esquivel and Pablo Jaramillo were served this morning on Frank Chavez and Apolonio Sena at their homes in the country. W. H. Coleman will file his contest soon against Antonio Lucero. Enrique Sena went out to serve the papers.

G. A. Rothgeb is feeling good this morning over the arrival of a telegram yesterday evening from G. L. Kilmer, in Chicago, his son-in-law, advising him of the fact that he had become a grandfather. The youngster is a lusty boy and weighed nine pounds.

Mrs. H. W. Kelly is quite sick at her home.

Felipe Trujillo and Santiago Tapolla have located the San Juan and Fortuna mining claims in the San Ignacio mining district.

J. M. Allen returned last night from a trip out to the Tecolote mines, where the ground was broken on the new 200 ton leaching mill to be erected there.

Mrs. Schmidt has taken the lens of a number of the contractors on the Jobe flats at the lower end of Douglas avenue. She has taken the lens of W. G. Rupp for \$458, F. J. Gehring for \$1,627.95 and the Las Vegas Light and Fuel company for \$200.

Robert Dunlap, F. C. Smith and W. E. Twitchell have recorded the Chicago mining claims Nos. 11 and 12 in the Cooper mining district.

John Cisco has made proof of his \$100 assessment work on the Cisco lode in the Pecos district.

The big engines for the street railway power plant have arrived and will be placed in condition as soon as possible.

Pedro Maestas, the fellow who escaped from the insane asylum Tuesday night, yesterday returned of his own accord and was glad to get back. The attempt to capture him proved unsuccessful, and had he not returned of his own accord, it is probable he never would have been caught.

The Elks will have a meeting to-night and let down the bars of the corral for a couple of frisky young ducks.

E. W. Rich returned this morning from his trip to Rociada with John Brunton. Mr. Rich has turned miner and laid out a fine claim in that district.

Taking effect November 24 pouch mail will be received on No. 3, the flyer, from points east of La Junta, and the night mail going east will go on No. 4, instead of No. 8, as it does now.

It is feared an operation will have to be performed on Arthur Mills, son of Mrs. S. E. Mills for some liver trouble.

Mrs. Claude Strauss, who has been quite sick with la grippe, is now able to sit up.

Mrs. H. J. Ryan is again able to be about after an illness of several days. Miss Dove Wilson most pleasantly entertained the Young Ladies' Whist club yesterday.

On account of the turntable being out of order at Raton, some of the north end work is being done at the local shops. Most of the work is a little heavy for the boys to handle here but they are doing their best.

A large train load of large rock was sent up to Watrous today from the south for rip rap work along the river there.

The Santa Fe is ballasting the track from Ojita at the top of Romeroville hill to Thornton. A train load of

crushed rock went through today for work there.

The Santa Fe has asked for bids for 3,990 new box cars.

J. W. Harrison, manager for Gross, Kelly & Co., at Glorieta, was here today looking after his insurance on his house, which burned there yesterday morning. Mr. Harrison's house, a two story frame, caught fire yesterday morning about 11 o'clock while dinner was being prepared and was totally destroyed. Most of the furniture was saved, but the loss was considerable.

A. H. Whitmore, the insurance agent, will go down in the morning to adjust the loss.

Henry Essenger, the wet goods traveler, left yesterday afternoon for Colorado to look after business.

Mrs. T. A. Ferris, wife of the operator, returned this afternoon from her trip to El Paso.

Rev. C. Seaborn arrived this afternoon from Gallup and will occupy the Episcopal pulpit here until a regular minister can be secured. Rev. Seaborn is an able man, and the congregation is fortunate in securing him to fill in the vacancy here.

Physicians Prescribe It. Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for throat and lung troubles as this great medicine. Alvarado Pharmacy.

FROM ALGODONES.

Coal Fields Being Developed—Will Drill for Oil.

Special Correspondence.

Algodones, N. M., Nov. 20.—The coal fields near here are being developed by a large force of men under the able supervision of Thos. Ramsey. They are down now about 300 feet and have a large body of very fine coal and 200 tons on the dump.

The oil drilling outfit is now about ready to commence drilling and they will run day and night until they strike a gusher. William Riley, an experienced driller, will have charge.

Hon. W. S. Hopewell, T. M. Ramsey and Mr. Merrill are here today, making a contract for hauling railroad rails and lumber from this place to the coal fields; also ore. They are purchasing large quantities of alfalfa and corn from the farmers here.

Mrs. Frank, Miss Edna and Miss Dorothy arrived here yesterday to make this their home.

Thomas Utley, the secretary of the smelter company, is here and Mr. Frank keeps him jumping.

J. S. Tucker is now on the road for this place and will build a large two story store and lodging house on State street. Mr. Harris has also selected his lots and will build a two story building.

Mr. Frank just received a telegram from ex-Governor W. H. Lockwood, of Kansas City, Mo., saying he will be here tonight. He will take a hand in some of the business enterprises with Mr. Frank and Mr. Balcomb.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. Alvarado Pharmacy.

CHEAP CANDIES HIGHER.

Prices to Retailers Go Up \$1 and \$1.50 a Barrel.

Chicago, Nov. 21.—Within the past few months the wholesale price of candy—the varieties generally used during the Christmas holidays—has been advanced from one-quarter to one-half cent a pound. The advance, however, has been too slight to be reflected materially in retail prices.

Cheap French candies, gum drops and other lines of candy used to fill childrens stockings at Christmas are affected by this advance, but the finer grades of chocolate creams and other high priced candies remain unchanged.

What Is the Use

of suffering from indigestion if you eat what you want, or of starving yourself to avoid such distress? Acker's Dyspepsia Tablets taken after eating will digest your food perfectly and free you from all the disagreeable symptoms of indigestion and dyspepsia. Eat what you want at any time and take an Acker tablet afterward. Positively guaranteed. Your money will always be refunded if you are not satisfied. Write to us for a free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Reilly & Co., and B. H. Briggs & Co.

THE SENATORS.

They Visited the Agricultural College at Mesilla Park.

OTHER ITEMS OF INTEREST.

Special Correspondence.

Mesilla, Park, Nov. 20.—The senatorial committee arrived this morning in Las Cruces about 10 o'clock and left almost immediately for the college at Mesilla Park, arriving here about 11. The senators were accompanied by many of the prominent citizens of Las Cruces. The visitors went through all the buildings, inspecting the equipment, etc. The main building was first visited, then the engineering building, the science hall, woman's hall and the experiment station. As the party were returning from the engineering building the students were being dismissed for noon hour, and as Senators Beveridge and Dillingham and President Foster, who were in the lead, neared the main building, nearly fifty strong voices burst forth in the strong and resonant college yell:

What's the matter with the senators? They're all right!

A. C. of N. M. Hurrah! Hurrah! A. C. of N. M. Hurrah! Hurrah!

Hoo-rah! Hoo-rah!

New Mexico, Mexico, rah, rah, rah!

The senators acknowledged the greeting with waving of hands and tipping of their hats.

The party were not expected before Saturday and they arrived on rather short notice, but they found us equal to the emergency. As there was no time to arrange anything with reference to class room work or bringing together the students, regular work went on as usual.

The visitors returned to Las Cruces where they were given a dinner and shown around by the committee representing the chamber of commerce.

Word was received today that the Indian school foot ball team will be here on Thanksgiving day to play off the tie of 0 to 0, the score of the game played during the Albuquerque fair week.

The local team will still be weak as it was in last Saturday's game with the Santa Fe Indians on account of the absence of the college star half back, Isaacks. Isaacks is sick in bed and will not be able to play. He was just able to come out in a carriage and see the game last Saturday.

It is possible that "Ten Yard" Miller, the college terror on offense, may have to play the side lines, as he has not fully recovered from the fall an Indian gave him. Miller was obliged to take the side line early in the first half, thereby weakening the team considerably. Metcalfe, at full, in the place of Isaacks, and Randall, at left end, played their first games and will no doubt be much better as a result of the experience they received.

An exciting game with the Indians next week is expected, although the college is not nearly so strong as it was when the two teams met last.

Next Thursday will be a lively day here, as both games, basket ball with the Albuquerque High school and foot ball with the Indians, will be decided before the day is over.

Interest is also taken in the probable outcome of the game between the Santa Fe Indian team and the Las Vegas normal. The result of the game will settle between what two teams will have to battle for the intercollegiate championship. Should Vegas win from the Indians, the championship game would be between the agricultural college and the normal university, providing the Indians have not beaten the college team in the meantime. The Albuquerque Indian school is not being counted in the intercollegiate race, as they have not been playing a strictly school team so far this year.

Jumped on a Ten Penny Nail.

The little daughter of J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all druggists.

Sales by Agent Moore.

J. M. Moore, the well known Second street real estate agent, reports the following real estate sales this week: House and lot on East Railroad avenue, almost opposite the handsome home of Mr. and Mrs. M. W. Flournoy, to J. B. Mayo, of Golden, N. M. The new purchaser will soon improve the place, with the view of either occupying it himself with his family, or for renting purposes; also a valuable residential lot on West Copper avenue to D. S. Patterson, and a lot on the Highlands to the Baptist church for a parsonage.

Worm Destroyer.

White's Cream Vermifuge, not only kills worms, but removes the mucus and slime, in which they build their nests; it brings, and quickly, a healthy condition of the body, where worms cannot exist; 25c at Cosmopolitan Pharmacy, B. Ruppe.

Horribly Scalded.

The little 3-year-old son of Mr. and Mrs. Peter Schreck, who was horribly scalded Wednesday morning, is still confined to his bed at the home, corner of Roma avenue and Fifth street, but his condition, which was first thought dangerous, is slightly improved.

The little fellow met with the terrible accident by falling into a tub of boiling water while visiting a neighbor with his mother. The boy was entering the door, dragging his wagon, and had his back toward the tub, striking the tub he fell backward into the water. In an instant the fond mother snatched him from the tub, but not until the boiling water had covered the entire body, scalding the tender skin. Medical attention was obtained for the suffering boy immediately and there is hopes of his recovery.

TURKEYS

Now is the time to order your Thanksgiving turkey. Really good turkeys are scarce this year, but by ordering from three different points in Kansas we are sure of receiving an adequate supply of fresh dressed, country fed turkeys. By ordering now you get the pick of our pick. That means a good deal in quality. Our turkeys will all be dry picked and heads and feet off. We will also have fat geese, ducks and chickens. We guarantee satisfaction. Order now. San Jose Market.

If you want to avoid the penalty, pay your taxes before December 1.

Good Fresh Milk.

You get 16 quarts of good fresh milk for \$1.00 from Albers Bros' dairy. Try us once.

\$1,000.00 borrowed from the Mutual Building association of Albuquerque costs you only \$13.35 per month. A. E. Walker, secretary.

Caramel Cereal, the best substitute for coffee in the known world, two packages 35 cents at the Woman's Exchange, 323 South Second street.

The Mutual Building association of Albuquerque is managed at a very small expense. The stockholders and borrowers thereby deriving the special benefits that most loan associations pay to their officers and solicitors. Buy some stock in the series begun in October, take out a loan and own your home by making small monthly payments, instead of paying rent. A. E. Walker, secretary.

Toasted Wheat Flakes, a delicious breakfast food, two packages 35 cents at the Woman's Exchange, 323 South Second street.

OFFICIAL MATTERS.

Notary Public Appointed—Land Office
Business—Gov. Otero's Report.

NO OFFICIAL VOTE.

Governor Otero appointed Isabel Henry, of Las Vegas, San Miguel county, a notary public.

Land Office Business.

Homestead Entry—Isaac B. Pierce, Moriarty, 100 acres in Santa Fe county.

Application for Patent of Mineral Land—Daisy B. Ashton, of New York, by her attorney, Joseph P. Rinker, of Tres Piedras, for the Oro Fino lode claim in the bromide mining district, Rio Arriba county.

Governor Otero's Report.

Gov. Otero yesterday received printed sheets of his annual report for the purpose of compiling an index. The report is all printed except the index. As soon as that is in type, corrected and printed, the reports will be ready for binding. The report is more comprehensive and more valuable as a complete epitome of New Mexico resources than any previous report.

Incorporation.

The Hachita Cattle company was incorporated by Carl Stanley, Mahlon T. Everhart and A. S. Booth, of Colorado Springs. The capital stock is \$100,000 shares divided into 1,000 shares. The headquarters are at Pueblo, Colo., and the business to be carried on in Grant county, New Mexico, and Pueblo county, Colorado. The incorporators are the directors.

The Official Vote.

Territorial Secretary J. W. Reynolds has received the official vote of every county excepting Taos and Guadalupe counties. Delegate Rodey's official majority in those counties being known, his official majority in the territory is placed at 9,637. With those counties still missing, Delegate B. S. Rodey received 22,274 votes and H. B. Ferguson 13,197, a falling off in the total vote of \$51. Only four counties gave a majority to Ferguson, namely Chaves, Eddy, San Juan and Grant.

Bids for Printing Opened.

Bids for the United States printing for the Thirty-fifth legislative assembly were opened yesterday in the office of the territorial secretary at 2 o'clock in the presence of the bidders. Secretary Reynolds found that bids were put in as follows: The Journal-Democrat Publishing company, of Albuquerque, by George F. Albright, its manager; The Albuquerque Citizen, by Thomas Hughes, editor; John Steward, of Albuquerque; The New Mexican Printing company, by J. D. Hughes, business manager. It took considerable time to figure up and compare the bids.

The contract was awarded to the New Mexican Printing company.

To the Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I can recommend it with the utmost confidence. It has done good work for me and will do the same for others. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, Ralph S. Meyers, 64 Thirty-seventh St., Wheeling, W. Va. For sale by all druggists.

COMING EVENTS.

Nov. 25—"The Wrong Mr. Wright" at Colombo hall.

November 26—A. O. U. W. Thanksgiving ball.

Nov. 26—Grand Thanksgiving ball by the Christopher Colombo society at Colombo hall.

Nov. 27—Miss Katherine Heimbeck concert at Colombo hall.

He Could Hardly Get Up.

P. H. Duffy of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Alvarado Pharmacy.

A NEW FLUME.

Will Be of Concrete and Across the Pecos, Six Miles Above Carlsbad.

F. G. Tracy, president and general manager of the Pecos Irrigation company, has returned to Carlsbad from Chicago and Milwaukee, where he completed arrangements to replace the old wooden flume across the Pecos, six miles above Carlsbad, by a permanent and concrete structure. The entire bond issue for this purpose, amounting to \$50,000 was placed at par. The flume when completed will cost \$45,000 and a contract has been made with a Kansas firm for 6,000 barrels of Portland cement, the delivery of which will be commenced December 1 and completed February 1. Thomas J. Johnson, of Chicago, will be engineer in charge and the superintendents who will have charge of the actual building are Barney Campbell and Edward Allen, both of Joliet, Ill. About three months will be required to finish the work and fifty men will be employed. The new flume will be 600 feet long, 25 feet wide and 20 feet deep, the height being 45 feet

from the river bed to the top of the flume. The arches will have 100 foot spans with 25 feet in the clear from the river to the bottom of the arch. Every four feet the bed and sides of the flume will be strengthened and stiffened with 50 pound steel rails, to resist the lateral pressure and weight of the water, being tied overhead at the same intervals by other steel rails. It will require 20,000 linear feet of steel rails which have been contracted for.

A Policeman's Testimony.

J. N. Patterson, night policeman of Nashua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Alvarado Pharmacy.

"TO TOSPY."

(By Dr. F. C. Blackwelder, a Visitor.)
For several weeks, on dark-blue days
We'd cheer us up and laugh,
And say, "Things will be better
When Topsy has a calf."

When on the scales we've weighed ourselves
And found we'd gained but half,
We've smiled and said "We'll gain ten pounds
When Topsy has a calf."

And when our friends have anxiously inquired in our behalf,
We've said, "Watch us a month from now,
When Topsy has a calf."

When "extra pale" has tempted us
From the straight and narrow path,
We've said "Of another pill we'll drink
When Topsy has a calf."

And now, kind friends give us your ear
For as a fitting aftermath,
While we've been writing this conglom,
Why, Topsy's had her calf!"

So now fill up your glasses friends
It really seems we'd ought'er;
Just sing a song and drink a health
To Topsy and her—daughter
Albuquerque, N. M., Nov. 19, 1902.

Noted—"Topsy" is a fine Jersey cow owned by Mr. and Mrs. William Gibbs, while the poet is a young doctor here from the east for his health.

A Liberal Offer.

The undersigned will give a free sample of Chamberlain's Stomach and Liver Tablets to any one wanting a reliable remedy for disorders of the stomach, biliousness or constipation. This is a new remedy and a good one. All druggists.

Startling, But True.
"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempsytown, Pa., "you'd sell all you have in a day. 'Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles. 25c at all drug stores.

IS BURIED ALIVE.

Experience a Topeka Woman is Undergoing at Emporia.
Emporia, Kas., Nov. 21.—Signor Vanora hypnotized and buried Madam Vanora in a six foot grave. The exhibition was free because the city refused to give the hypnotist a license. Nearly 1,000 persons were crowded about the grave. This makes the fifty-second time the woman has been buried. She will be left in the grave a week and then disinterred. Signor Vanora has been fighting the city for a week. The mayor made every effort to prevent the exhibition, but the district court upheld the hypnotist. Madam Vanora was a Topeka girl and the hypnotist is an ex-lawyer from Wichita.

CLASSIFIED ADS.

Railroad Topics

Reports from Santa Fe give the information that T. J. Helm, ex-general agent of the Denver & Rio Grande, is quite ill with typhoid fever.

Conductors Thomas Ramage and T. J. McGinty, of Winslow, with their families enjoyed a four days' visit at the Grand Canyon last week.

Harry Alexander, assistant general manager of the Santa Fe Central, is in the city. Rumor has it that he will soon remove his headquarters to this city.

Some time since a set of plans for the erection of a brick three stall round house at Flagstaff were completed in the office of Chief Engineer R. B. Burnes.

No. 7 passenger train from the east did not arrive until 3 o'clock this morning, while the No. 1 got in at 10:15 p. m. These constant delays are caused by heavy passenger traffic.

After November 24 mail will be carried on the California limited, but this will be of no advantage to Santa Fe for the mail will have to lie over at Lamy until the branch train makes connection with the other trains.

Freight traffic over the Santa Fe railway at the present time is the heaviest for many years. The men are being worked to their limit and the forces of the shops at Albuquerque and Las Vegas have been increased.

Itchiness of the skin, horrible plague. Most everybody afflicted in one way or another. Only one safe, never failing cure. Doan's Ointment. At any drug store, 50 cents.

The increase in wages of yardmen on the Santa Fe railway, as agreed upon by the committee from the Brotherhood of Railway Trainmen and the managers, went into effect over the entire system Tuesday. Foremen receive an increase of 4 cents an hour and helpers 3 cents. Five cents increase was asked for the foremen.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless. Positive cure for coughs, colds, bronchitis, asthma.

The Southern and Southwestern Railroad club held its annual meeting at the Kimball hotel in Atlanta, Ga., yesterday with a good attendance of representatives of the leading railroads of the territory covered by the association. Among the matters discussed were the following: Nozzle vs. Stack Diameter, Steam Heat vs. Stove, and the Vanderbilt Fire Box and Tender.

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. F. B. B. has made me a perfectly well woman." Mrs. Chas. Hutton, Berville, Mich.

President Yoakum, of the Frisco, authorized the statement that his system would build into Dallas from a point on the Red river division near Carrollton during the coming year.

A household necessity. Dr. Thomas' Electric Oil. Heals burns, cuts, wounds of any sort; cures sore throat, croup, catarrh, asthma; never fails.

About the first of December the El Paso & Southwestern railway expects to put on through trains from El Paso to points on that line, to handle both freight and passenger business. By that time the new freight and passenger depot at El Paso will be far enough along to enable the company to use it to handle the traffic of the line. F. B. King has been appointed agent of the company in that city, to take effect when the line is opened for traffic. Mr. King comes from Clifton, where he

been heretofore stated the old car shop is to be used as a boiler shop as soon as the new quarters can be provided for the car repairers and builders.

Meantime work has become so extensive that the iron workers have found it necessary to work out of doors. This owing to the fact that winter has already set in, is not to be compared with working under cover, and to get the boys "out of the rain" the order has gone out for three of the pits to be vacated and dead engines run into the vacant spots.

The stalls in the old shop will now be appropriated as fast as the building work is completed in the new car department, allowing the carpenters to exchange quarters.

Thus are the hopes of the Santa Fe officials and of the people of San Bernardino regarding the additional shop facilities to be realized over a month ahead of time. It was stipulated when the contract was let to Lantry & Sons that the shops be ready for occupancy by January 1, 1903. But circumstances have been such that active operations will commence in the magnificent additions before the end of the time limit.

From this time on it may be expected that the company will add to its shop force here until the number of employees will go past the 1,200 mark. —San Bernardino Sun.

A Violent Attack of Croup Cured.
"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists.

Passing of News Butcher.
The curio and blanket business of the southwest has reached such promising prospects that instead of the news "butcher" a salaried salesman will be placed on many of the trains.

The experiment is being tried on the limited, and if the new feature of the news service proves successful, the salesmen will be installed on all trains of the Santa Fe. The train salesmen will run in here and during their layover will be occupied in the Harvey Indian curio rooms, which experience a rush of curio buyers during the heavy traffic of the transcontinental travelers.

His position will be the same as any salesman whose duty it is to show the line of goods they will carry and it is necessary, considering the class of travelers on the limited, that an intelligent and well appearing man be employed.

The Harvey system has been considering this step for some time, and it is believed to be a most satisfactory improvement.

Cured of Piles After 40 Years.
Mr. C. Hancey, of Geneva, Ohio, had the piles for forty years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. J. H. O'Reilly & Co.; B. H. Briggs & Co.

ANOTHER BRANCH.
Latest Report Says Rock Island Road Will Reach Out From Dawson to Pueblo by Way of Trinidad.

According to advices which have just been made public, the Rock Island is branching out in another direction and building more road. The latest report is that the Rock Island is figuring on building a line of road from Dawson, New Mexico, to Pueblo, Colorado. It will not be long before the company will have its Dawson branch, which runs from Tucumcari northward to the Dawson coal fields and thence to Springer on the Santa Fe, completed.

It is understood on pretty good authority that as soon as the work on the Dawson branch is finished, the company will instruct its engineers to extend the line on to Pueblo and possibly by way of Trinidad. If this line is extended to Pueblo it will be more than likely that it will be also built to Colorado Springs, to connect with the line out through Kansas and from the system into an immense belt that would tap some of the richest country in the west.

Several engineers of the Rock Island are expected to shortly make a reconnaissance of the new line and to make preparations for its building. The distance from Dawson to Pueblo is only about 125 miles and the work to be encountered is reported as being easily done.

Since the absorption of the Denver & Rio Grande system by the Gulf interests, who also control the Missouri Pacific, the Rock Island has been somewhat hampered in getting its

supply of coal from southern Colorado and it is understood this is the prime factor in causing that line to extend the Dawson branch to Pueblo and possibly on to Colorado Springs.

In addition to having a way of controlling its own coal supply, the road will find itself in a field which is now going to three other roads and competition between them promises to be very keen when the line is completed.

If you are bilious and seeking advisers, Take DeWitt's Little Early Risers. Just before going to bed. You will find on the morrow. You are rid of your sorrow. That's all; just enough said.

These famous pills do not gripe, but move the bowels gently and easily, cleansing the liver. Their tonic effect gives strength to the glands, preventing a return of the disorder. J. H. O'Reilly & Co.; B. H. Briggs & Co.

WEAK NERVES

Are generally caused by the blood becoming impure, thereby depriving the body of the proper strengthening nourishment. To cure weak nerves you must therefore first purify and cleanse the blood. Then you need Hostetter's Stomach Bitters. It will perfect the digestion, make an abundance of healthy blood, strengthen the nerves and cure Dyspepsia, Constipation, Biliousness and Malaria. Try it and be convinced.

HOSTETTER'S STOMACH BITTERS

supply of coal from southern Colorado and it is understood this is the prime factor in causing that line to extend the Dawson branch to Pueblo and possibly on to Colorado Springs.

In addition to having a way of controlling its own coal supply, the road will find itself in a field which is now going to three other roads and competition between them promises to be very keen when the line is completed.

If you are bilious and seeking advisers, Take DeWitt's Little Early Risers. Just before going to bed. You will find on the morrow. You are rid of your sorrow. That's all; just enough said.

Only 50c at all drug stores.

GRADING WORK PROGRESSING.

It is Going Ahead at a Lively Clip on the Santa Fe Central and Will Soon Be Completed.

"I notice," said a prominent railroad man to an El Paso Herald reporter, "that the grading work on the Santa Fe Central is progressing at a very rapid rate. The grading has been done to a point about twenty miles south of Kennedy, making a total of about ten miles of grading that has been done. The company is now figuring on having all the grading done by the middle of December. It is also figuring on having every thing in readiness to commence track laying by the first of January. It is expected to have this work completed by some time in March at the latest."

"It would not surprise me to learn that the Denver & Rio Grande people were back of this scheme, as that line has wanted a southern outlet ever since it was built into Santa Fe, but has been unable to get it on account of an agreement which it is understood is in force between the Denver & Rio Grande and the Santa Fe lines, one condition of which is that the Denver & Rio Grande will not build beyond Santa Fe, N. M., in consideration of which the Santa Fe system was granted certain concessions. The Santa Fe Central in connection with the El Paso & Northeastern system, would give the Denver & Rio Grande an outlet to El Paso and Mexico for traffic originating in its territory.

"To confirm this supposition, I noticed in the press an item to the effect that the Rio Grande division of the Denver & Rio Grande, which runs from Antonito to Santa Fe is to be widened into a broad gauge. This will enable the Denver & Rio Grande to handle through cars from the southwest to Colorado."

Anxious Moments.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons it can be safely given. Alvarado Pharmacy.

START FOR THE EAST.

Ripley and Morton Complete Their Work in California.

Paul Morton, second vice president of the Santa Fe, has started for Chicago in his private car after several days spent in San Francisco. He was joined in that city by his daughter and son-in-law, Mr. and Mrs. W. C. Potter, who have been spending their honeymoon in the Hawaiian islands. They accompanied him east.

President Ripley left for the east the next day. During his sojourn in that city he has inspected all the property of the Santa Fe.

Luck in Thirteen.

By sending 13 miles Wm. Spirey, of Walton Furnace, Vt., got a box of Bucklen's Arnica Salve, that wholly cured a horrible Fever Sore on his leg. Nothing else could. Positively cures Bruises, Felons, Ulcers, Eruptions, Boils, Burns, Corns and Piles. Only 25c. Guaranteed by all druggists.

Try Mrs. Acker's potato cakes and home made mince meat.

ANOTHER LINE FOR NEW MEXICO

It Will Open Up a Good Country and Would Doubtless Pay.

Another line of railroad is projected for New Mexico, which, it is said, will open up a very rich mineral and timber country.

The line is projected from San Antonio, on the Santa Fe, to Coyote station, on the El Paso & Northeastern, via the Carthage coal fields and the James Iron group of mines. The mines in the Oscura range of mountains will be directly tributary to the new line and it is thought that from the ore, timber, stock and other industries to be opened up and tapped by the new line, that a very extensive traffic will be realized from the start.

The preliminary survey for this line has already been made, and it is reported that the eastern capitalists who are backing the scheme will authorize the construction of the line without further delay.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the Kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50c at all drug stores.

No premiums are given to make Lenox Soap sell. When you buy soap for the premiums the soap manufacturer makes you pay for them—you get either a smaller cake or poorer quality. Compare the size of the Lenox Soap cake.

Any man who doesn't take advantage of our great shirt sale by laying in a supply for the next twelve months, ought not to wear any.—The Lion Store.

DEMING.

A Few Pointers About a Good Town in Southern New Mexico.

Keep your eyes on Deming. Deming has just been incorporated. Deming, the coming city of New Mexico.

Deming has a magnificent school system.

Deming, the railroad center of New Mexico.

Deming, the gateway to the best part of Old Mexico.

Deming! Don't overlook it if you are looking for a sale and paying investment.

Deming, the seat of the N. W. county of Luna.

Deming is the great mining center of the southwest.

Deming water is chemically pure—equal to Polar Springs.

Deming has increased 50 per cent. in population in four years.

Deming water and pure ozone make strong and healthy people.

Investments in Deming lots will double and treble in one year.

Deming has now a large ice plant and electric light system under contract.

In Deming the demand for rental houses is five times in excess of the supply.

Deming has an abundance of water for irrigating vineyards, orchards, or gardens.

Buy lots and build in Deming. Your rental returns will be 20 per cent. on the investment.

In Deming good safe loans can be had at better rates than in the old established towns.

In Deming you can buy lots for \$100 which will pay you 100 per cent. in less than twelve months.

In Deming another good hotel is needed to accommodate the enormous increase of population.

Deming is a great health resort—has no superior in climate for the cure of pulmonary troubles.

Deming will be the great smelter center. Two large plants will be installed within the year.

Why buy high priced lots when you can get them cheap in Deming now, with certain advance assured?

Agricultural lands in Deming are unsurpassed for fertility, production of fruits and vegetables of all kinds.

Deming! Have you been there? If not, you should get there for the big sale of lots on the 17th of this month.

Deming offers the same opportunities now that the most prosperous cities in the west offered several years ago.

Deming needs one hundred new houses to supply the demand, and needs them now. This demand continues to grow.

Deming ships over 100,000 head of cattle annually; is the center of the greatest breeding region in the southwest and cattle men all know this.

Mrs. Bambini, at her parlors, No. 205 South First street, over the Hyde Exploring Expedition store, is prepared to give thorough scalp treatment, do hair dressing, treat corns, bunions

and ingrowing nails. She gives massage treatment and manicuring. Mrs. Bambini's own preparations of complexion cream builds up the skin and improves the complexion, and are guaranteed not to be injurious. She also prepares a hair tonic that cures and prevents dandruff and hair falling out; restores life to dead hair; removes moles, warts and superfluous hair. Give her a trial. She also has a very fine tooth powder, which she guarantees to be free from all metallic substances. It perfumes the breath, hardens the gums and makes the teeth clean and white. It is highly recommended by all first class dentists. Also a face powder, a freckle cure, and pimple cure, and pile cure. All of these preparations are purely vegetable compounds. Give her a trial. Automatic telephone 490.

COMMITTEES TO MEET.

The Gentlemen Appointed by Mayor Myers Will Gather Tonight.

A FEW MORE POINTERS.

Yesterday afternoon The Citizen published the names appointed by Mayor Myers on the several committees to secure funds to purchase right-of-way and terminal grounds for the Albuquerque Eastern Railroad.

A reporter of The Citizen called on the different chairmen this morning, and they, in compliance with the request of Mayor Myers, will hold meetings tonight at 8 o'clock as follows:

W. P. Stamm is the chairman of the merchants' committee and this committee will meet at the city hall. The list is as follows: M. P. Stamm, chairman; Jacob Korber, P. E. Sturges, M. W. Flournoy, M. Mandell, Charles Mansard, Noa Hild, Ernest Meyers, R. E. Putney, L. Gradi, Jacob Weinmann, George Annot, J. C. Baldrige, John A. Lee, Alfred Grunsfeld, T. S. Hubbell, W. L. Trimble, David Weiler, F. H. Strong and G. F. Albright.

The chairman of the property owners' committee is O. N. Marron, and they will meet at the Commercial club building. The following gentlemen constitute this committee: O. N. Marron, chairman; F. H. Kent, A. J. Maloy, J. F. Luthy, Otto Dieckmann, J. F. Pearce, Jacob Loebs, Simon Stern, G. K. Neher, J. H. Bearup, H. Brockmeyer, Wm. Farr, F. A. Hubbell, W. W. Strong, David Weinmann, W. H. Hahn, E. H. Dunbar, M. S. Otero, W. T. McCright, Arthur Everitt.

E. S. Stover, the chairman of the non-resident property owners' committee and they will meet upstairs over Zeigler's Cafe. The list of members is as follows: E. S. Stover, chairman; J. M. Moore, H. B. Ferguson, P. P. McCanna, J. H. Wroth, Maynard Gunsul, Ed B. Quickel, J. H. O'Reilly, C. C. Hall, W. R. Whitney, G. W. Harrison, G. W. Stubbs, Frank McKee, Jay A. Hubbs, W. S. Burke, D. A. Macpherson, R. Spitz, O. Bachechi, W. B. Metcalf, Chas. Melini.

These committees are requested, as stated above, to meet this evening at the appointed places at the hour of 8 o'clock, and organize by the election of proper officers and to formulate some mode of procedure.

The Citizen briefly stated yesterday afternoon, on the authority of Mayor Myers, that the railroad company, provided everything is satisfactory, will locate its shops in this city, and that they intend to commence work, as stated in the letter of President Andrews, inside of sixty days.

"This means," says Mayor Myers, "that the Albuquerque Eastern will be in operation between Albuquerque and the Torrance junction of the Rock Island in about twelve months or sooner."

Since The Citizen promulgated this interesting and important news, land owners in the suburbs are putting up their prices a notch or two, but several gentlemen, who are known to be quite handy with the figures, estimate that all the ground the Albuquerque Eastern want can be purchased for considerably less than \$15,000, while others, who are equally smooth with the figures, say that before right-of-way and ground terminals are secured that it will entail the expenditure of twice that amount.

No one knows at present, with any degree of certainty, where ground will be secured, but it is a fact that President Andrews, with Messrs. Myers, Brooks and Strickler, a few months ago looked over certain sections of the city for depot site and ground for terminals.

Acting on the suggestion of the city press, Mayor Myers appointed W. S. Strickler and G. L. Brooks as members of the executive committee, with himself as a member and chairman of that committee.

Mayor Myers was seen this afternoon and stated the line of action determined upon relative to the selection of terminal sites was that any coterie of persons having a location that they believe to be suitable shall present the same in the form of a written proposal, the same to be presented to the executive committee named above, who will immediately place it in the hands of the railway company for full consideration. The main point to be considered is the securing of the best site for the least money. Following this plan there will be no terminal site committees appointed.

Harry Alexander, the assistant general manager of the Albuquerque Eastern and Santa Fe Central railways, who is in the city today, is here, it is understood, for the express purpose of arranging for a new survey of the Albuquerque Eastern down over the mesa from Tijeras canyon to the southern limits of the city, with the view of lessening the grade into the city. It is also understood that Mr. Alexander was recently called back to Pittsburgh, Pa., on matters pertaining directly to early work on the Albuquerque Eastern.

OLIVER BAINBRIDGE.

The King of Tramps at the University—Monday Night at Colombo Hall.

The university students with faces wearing the apparel of seriousness and then beaming with smiles running into a gentle ripple of laughter, were entertained by the march king, Oliver Bainbridge, who with his pleasing personality related his many thrilling experiences intermingled with humorous stories collected in his adventures, and bits of wit, which were received with

enthusiastic appreciation. Mr. Bainbridge is in every sense a march king, but he differs from the famous march king, Sousa, who visited the city some time ago, in that he marches as he marched to the university this morning, through the sand and strong wind. Bits of his entertaining talk was illustrated by decidedly clever sketches on the blackboard. Taking a figure six and two he would draw a face of a peculiar type of people we meet in our every day walks, and would tell of their characteristics and peculiarities in a most amusing way.

His jokes were the more amusing and interesting by the reason of being original and the scene of the funny occurrence being in some remote country under peculiar circumstances.

The short talk before the university students covered a variety of subjects. Mr. Bainbridge is remarkable in his ability to converse on any subject, covering it in an intelligent and thorough manner in an unusually short time.

The globe trotter made a very favorable impression on the bright university students, who greeted their visitors with a hearty applause. He extended an invitation to all the students to join in the composition contest. The composition to be written on Mr. Bainbridge's lecture before them this morning, interwoven with impressions made by the talk and opinions formed of his tramp around the globe. The prizes for the compositions are to be awarded at the recital given by the King of Knights of the Road at Colombo hall Monday night.

Fresh halibut steaks, fresh salmon tomorrow.—San Jose Market.

Subscribe for the Daily Citizen.

Home made bread, cakes and pies at Mrs. Ackers, 501 Keleher avenue.

OYSTERS

Fresh by express Saturday morning: Blue Points, Maryland Standards, Large Houma Selects, all received in patent shipping cases, so constructed that it is impossible for ice or water to come in direct contact with the oysters. "Patent Case" oysters are absolutely pure, strictly fresh, perfectly clean. We give full measure solid oyster meat. After you have once tested their perfect flavor you will understand why 90 per cent of the oysters sold in Albuquerque are patent case oysters. Remember that the tasteless, water soaked, oysters shipped in pails are always embalmed with formaldehyde, and are not fit to eat. Patent case oysters can be obtained only from the San Jose Market. Try our fresh halibut and salmon steaks, fresh by express Saturday morning.
