## HOLLOMAN-LIEB CASE DISMISSED

State Supreme Court Refuses to Take Jurisdiction in Contest

## CORPORATION COMMISSION

It Names Clerks and Stenographers Under New Appropriation Law.

Governor McDonald was not at the Capitol today, having gone to Belen, Valencia county, to address the Teacher's Institute.

## State Funds.

State Treasurer O. N. Marron started off this week with the receipt of \$7.75 from Game Warden T. C. de Baca.

## Dental Board.

The New Mexico Board of Dental Examiners is in session today and will continue in session until Monday at the Capital City bank building.

## Federal Court.

The A. T. & S. F. Railway Company has taken an appeal in the damage case of O'Connor, etc., vs. the A. T. & S. F. in which the plaintiff had been awarded \$5,000 damages.

## Incorporation.

The Silver City Amusement Company filed incorporation papers today with the corporation commission, the capitalization being \$3,000, the number of shares 3,000 and the paid up capital \$2,000. The incorporators and directors are: William P. Thomson, Mason J. Kelly, Herndon Lehr, Emmett A. Blevins and Harry W. Lamb, each 400 shares.

## Will Have Charge of Rates.

B. F. Segerson of El Paso, who has been appointed by the corporation commission to take charge of rate matters, took his oath of office on Saturday. He has taken up his residence in Santa Fe and is already at work on the problems which confront him. He was for several years chief clerk of the freight rate department of the El Paso and Southwestern at El Paso, and general freight and passenger agent with the R. G. S. M. & P.

## The Maneuvers.

Adjutant General A. S. Brookes received final word today from Adjutant General W. A. Simpson of the Central Division, that no United States troops will be sent to New Mexico this year, as not sufficient funds are available for transportation. However, Adjutant General Brookes is still discussing with the war department the possibility of sending New Mexico militia to the encampment in California.

## Corporation Commission.

The state corporation commission has organized by appointing George W. Arriaga chief clerk at \$2,000 a year; E. F. Cord, corporation clerk at \$1,500 a year; B. F. Segerson in charge of the rate department; Juan J. Ortiz, clerk, at \$75 a month; Mrs. Brumbach, official stenographer. During the absence of Corporation Commissioners Groves and Williams this week, Commissioner O. L. Owen will be in charge.

## District Court.

In the district court for Rio Arriba county, today, Attorneys Reuben and Wright filed a suit for Luis M. Ortiz, et al. vs. The Archuleta Mercantile Company, and J. M. Archuleta, Jr., asking for an accounting on a note of \$8,000; that Archuleta pretended he had lost the note and the plaintiffs made out a new note to take its place; that they have paid this note and that now the Archuleta Mercantile Company to whom the former note seems to have been assigned by Archuleta, claims that plaintiffs are indebted to it in a large sum.

## Supreme Court.

The state supreme court this forenoon, in the important case of Reed Holloman vs. T. D. Lieb, an election contest involving the judgeship of the eighth judicial district, handed down an opinion dismissing the petition without prejudice declining jurisdiction. Only one more important case remains to be disposed of, that involving the receiver's sale of the Las Vegas Electric Power and Transit Company, which has been in the courts for a long time, before the court will be in vacation.

The supreme court merely declines jurisdiction in the Lieb-Holloman contest, maintaining that it would take jurisdiction only in emergency cases like that of the Owen-Van Stone contest and intimating that the district court is the proper tribunal before which to initiate the contest. The opinion is by Associate Justice Parker and all the judges assent to it.

## SCORE OF MEN AND WOMEN HURT IN SMASH.

Pennsylvania Train With Georgia Delegates Collides With Empty Coaches.

(By Special Leased Wire to New Mexican) Chicago, Ill., June 17.—More than a score of men and women, among whom were members of the Georgia Taft delegation to the Republican national convention, were injured today, some seriously, in a collision between a Pennsylvania passenger train and several empty coaches in the yards of the Union station here. Two locomotives were partly wrecked and windows in several of the coaches were shattered.

## TAFT VETOES ARMY MEASURE

Objects to Elimination of General Wood as Chief of Staff

## SENATE ADJOURNS THREE DAYS

House Will Consider Only Routine Matters During Convention.

(By Special Leased Wire to New Mexican) Senate. Met at noon and adjourned at 12:11 p. m., until 10 a. m., Thursday.

## House.

Met at noon and considered bills on the private calendar. Message of President Taft vetoing the army appropriation bill was read and referred to committee.

## On Account of General Wood.

Washington, D. C., June 17.—The President today vetoed the army appropriation bill. He returned the bill to Congress with a message indicating his disapproval of the legislative provision which would oust Major General Leonard Wood from the office of chief of staff on March 4 next.

## Opposed to Riders.

Washington, D. C., June 17.—In his message the President said: "The army of the United States is far too vital an institution to the people of this country, to be made the victim of hasty or imperfect theories of legislation. As was pointed out by the chairman of the Senate military committee, it is well known that the war college and the general staff have been for many months engaged upon a comprehensive plan of army reorganization. At the present time, therefore, it is especially inappropriate in my opinion to force upon the statute books legislation enacted without the usual deliberation and care. I cannot conscientiously surrender the responsibility in shaping such laws with which I am vested under the constitution."

"I therefore return to your honorable body without approval the said bill."

The flat declaration that he was opposed to the enactment of legislation as a rider on an appropriation bill was taken today as an indication that he would also veto the legislative, judicial and executive bill which carries an amendment that would abolish the commerce court.

## ROOSEVELT IT WILL BE SURE

That Is Sentiment of Forces in Charge of Rough Rider Campaign

## CRUSH TO SEE EX-PRESIDENT

Had to Be Hushed up Back Stairway to Escape His Admirers.

(By Special Leased Wire to New Mexican) Chicago, Ill., June 17.—Colonel Roosevelt's reception to the Roosevelt delegates and alternates today was the most strenuous experience he has gone through since he reached Chicago. Several times before the apparently endless string of enthusiasts had passed him, he cried out: "Not another man; not another one."

Colonel Roosevelt began the hand-shaking with vim and enthusiasm but after a half hour of it, perspiration was rolling from his face, his voice was getting tremulous and he was skipping over a half dozen hands at a time.

Finally he declared: "Hold the line as it is," and "I'll pass along it."

Police men did the best they could to hold it, and the colonel with a bodyguard of policemen, and plain clothes assistants, was hustled to the back end of the room, up a private staircase, and around through the hotel corridors to the room of the Illinois delegation.

## Roosevelt Forces Confident.

Speaking for the Roosevelt forces today, Governor Hadley of Missouri, chosen floor leader for the colonel, declared that no contested delegate seated by the act of the Republican national committee should sit in the convention.

"How can you help it?" he was asked.

"We are not unmasking our batteries today," he replied.

"No delegate with stolen credentials shall have a vote in this convention if we can help it. By tomorrow we will have our plans complete."

"What will you do?"

"Nothing that is not regular and American; nothing that will not be approved by the American people."

Senator Dixon, campaign manager

## POSSIBILITY OF DARK HORSE LOOMS UP MUCH LARGER

Republican Convention Is Likely to Reject Temporary Roll Call Prepared by National Committee—Lines Are Being Drawn Tight.

(By Special Leased Wire to New Mexican) Chicago, Ill., June 17.—Roosevelt and Taft leaders, after a practically sleepless night, today staked final hands in their bitter struggle, with less than twenty-four hours before the formal opening of the Republican national convention tomorrow.

Prominent men from many states were subjected to conference room interviews of a type known in police circles as the "third degree."

Leaders whose lives have been spent in the "game" brought into play every artifice known to modern politics in their almost frantic efforts to swing the balance to Colonel Roosevelt or to President Taft. Men who were doggedly standing their ground were told what might happen to them, not only this year or next, but four years from now, unless they agreed to the programs mapped out by the leaders.

It was no place for the weak. Keen eyes and trained ears searched for the first signs of panic or a break at any point, and as the lines were tightened to the last notch, those who appeared to waver even in slight degree were subjected to a merciless fire.

## A Spectacular Figure.

Running through it all was the constantly recurring fact of the presence of Colonel Roosevelt, himself, leading his own fight.

It was a question for final analysis as the day wore on whether the Republican party is bigger than its controlling body, the national committee, or bigger than any individual candidate.

In brief, the situation is whether the Republican "elephant" will respond to the vigorous directions of either of two drivers, one ordering it to the left, and the other commanding it to turn to the right, or whether it will twist its trunk about each of the drivers in turns, and hurt them aside, to go on its own way. There were indications today that the last contingency is now at all impossible.

## Shrewd Politics.

In this connection it became apparent that the division of delegates between Colonel Roosevelt and President Taft on the question of the nomination does not hold on any other question to come before the convention. This was shown plainly by the attitude of the Virginia delegation. Although practically all for the nomination of President Taft, nine of the Virginia delegates declared they would vote to overrule the action of the national committee in seating Taft delegates over Roosevelt delegates from California, Texas, and Washington. This sentiment among arriving delegates was seized upon quickly by Colonel Roosevelt, and his advisers. The Roosevelt managers purpose to focus the fight the minute the convention has been called to order, by precipitating a roll call in which only those delegates whose seats are undebated by Colonel Roosevelt shall vote.

The Roosevelt men expect to achieve this end by demanding a roll call on the temporary chairmanship. Then it is planned to have Governor Johnson of California cast the twenty-six votes for that state on the question. This action by Governor Johnson, it is expected, will be objected to by the two Taft delegates from the fourth California district.

This juncture will be grasped by the Roosevelt floor leader as the one upon which to get the "expurgated" vote of delegates. The floor leader will move at once that the temporary roll as made up by the national committee be rejected, and that a substitute roll, including the seventy or eighty delegates claimed by Colonel Roosevelt, be adopted.

In thus submitting the matter of the debated seats to the convention, en bloc, none of the delegates affected by the contests could vote on the question and the Roosevelt men believe that such a roll would give them the upper hand in organization.

Victor Rosewater, of Nebraska, chairman of the national committee, became the storm center of this phase of the fight. In his capacity as chairman, Mr. Rosewater will call the convention to order and decide whether to entertain or refuse the motion of the Roosevelt men.

## Revolutionary Plan.

The Roosevelt plan is revolutionary and Mr. Rosewater may insist upon the report of the committee on credentials, which usually would not come up for consideration before Wednesday.

Mr. Rosewater conferred with members of the national committee today and it is said that the Roosevelt plan met with stubborn opposition.

## Rule or Ruin.

Unless the Roosevelt leaders get this vote on contests at once, it is said they plan to force the issue further by immediately moving the nomination of Colonel Roosevelt and attempting to hold a convention of their own within the convention hall.

## To Prevent Stampede.

Fully aware of the gravity of these developments, the Taft managers and members of the national committee favorable to the President continued counsels to evolve methods of blocking the scheme.

Fears for the order of the convention were freely expressed. Officers known to him.

In charge of the convention management extended the police arrangements and the sergeants-at-arms were given emergency instructions.

## Personal Clashes.

Excitement at the headquarters of both sides and in the hotels increased throughout the day and in some quarters city detectives and policemen were needed to prevent personal clashes.

The day was the most exciting that has preceded the opening of the Republican national convention in many years.

Caucuses of state delegations came in an avalanche as there had been but few caucuses until today.

Colonel Roosevelt arranged for a reception this afternoon at which he hoped to meet every one of the 1978 delegates to the convention. Tonight at the Auditorium theatre, he will be the principal figure at a large mass meeting of Roosevelt followers.

## Bolt Is Anticipated.

Chicago, Ill., June 17.—The Oklahoma delegation today recognized the possibility of a bolt and in caucus, by a vote of 18 to 2, defeated a resolution binding itself to support the nominee of the convention for president and vice president.

## Look Out for Tornadoes.

Chicago, Ill., June 17.—The United States weather bureau rose to the occasion today and issued as a supplement to its regular forecast an "special forecast for convention week."

"With the development of a cool, high area in the northwest," said the weather man, "the indications are favorable for generally fair and comparatively cool weather in Chicago for three or four days."

Political prophets issued a forecast of their own in the following bulletin: "Forecast: Area of great excitement centering tonight at the Auditorium and extending tomorrow to the Coliseum with low barometric pressure and indications of violent storm. Air waves general through the week over a heated substratum. Lookout for tornadoes."

## THREE HANGED BY THE REBELS

Residents of Maderia, Mexico Given Short Shrift by Soldiers

## FIGHTING STARTS ON CONCHO

It May Wind Up in Long Anticipated General Battle of Revolution.

(By Special Leased Wire to New Mexican) Maderia, Mex., June 18.—Three Mexican residents were executed today by rebel soldiers because one of the trio was accused of attacking a member of the insurrecto garrison here. Quiet prevails here but the advance of federals in this direction is anticipated.

## Fighting on the Concho.

Chihuahua, Mex., June 17.—Fighting along the Concho river near La Cruz 15 miles south of here was resumed at noon today. General Salazar has about 2,000 rebels engaged and the federal strength is estimated at about the same number. Both sides will be re-enforced and the engagement may become the long expected battle between the main bodies of both armies.

## OKLAHOMA AND MISSOURI SUFFER FROM TORNADOES.

Sixty Houses of Kaylor Smashed by Gale—One Woman Killed near Morwin.

(By Special Leased Wire to New Mexican) Guthrie, Okla., June 17.—Sixty or more houses in the village of Kaylor, Oklahoma, were smashed by a terrific gale last night but every person in the town's population of 300 escaped with no fatalities and only two were hurt, according to news received here today. The message declared that not a building in the village remained standing.

## One Death in Missouri.

Kansas City, Mo., June 17.—One more victim was added to the death list of the tornado that passed over central west Missouri late Saturday when Mrs. Henry Cameron of Morwin, Mo., died of her injuries today.

## TWO DROWNED IN SAN JUAN RIVER.

On Sunday afternoon Ted Turley, son of Mr. and Mrs. Jay Turley, with several boy friends, was playing on the banks of the San Juan river near Turley, throwing rocks into the river. Little Ted, not quite six years old, tried to throw in a large rock, and falling to let go, the force took him into the water. His playmates, seeing him washed downstream by current of the river, were too frightened to tell family for half an hour. Up to this time body has not been found.—San Juan Democrat.

A Mexican boy about the same age as that of Turley's was also drowned in the river in the northeast corner of the county but details have not yet reached us.—Farmington Times-Herald.

## BIG IRRIGATION PROPOSITION

Engineer Charles D. Miller Approves Lake Urton Carey Act Project

Will Reclaim Large Area

Its Completion Will Mean Thousands of Prosperous Farms.

Upon the receipt of plans and specifications, State Engineer C. D. Miller today approved two applications of considerable importance in the eastern section of the state. These applications cover what is known generally as the Urton Lake project on the Pecos in the vicinity of Fort Sumner.

The history connected with this project is long and interesting. Originally it was filed upon by the United States government with a view of developing a 60,000-acre proposition and utilizing a large natural reservoir site with a capacity of 200,000-acre feet. This proposed work of the government entailed a diversion canal of 38 miles extent, and the state engineer declared the construction of this project to be infeasible on this and other grounds.

Application No. 395, was filed February 21, 1910, by the Urton Lake Land & Water Company of Santa Fe, calling for the irrigation of 80,000 acres of land and the appropriation of 1,500 second feet, at an estimated cost of \$1,779,000, utilizing in a general way the project as contemplated

## LOUISIANA AND ARIZONA FLOODS

High Water in Former State May Not Abate Until Late in Fall

## MANY PEOPLE ARE DESTITUTE

Colorado River Has Abandoned Its Old Channel Almost Completely.

(By Special Leased Wire to New Mexican) New Orleans, La., June 17.—Flood conditions will continue in several southeastern Louisiana parishes until autumn, unless the present determination not to attempt to close the break in the Mississippi levee at Hymelia is changed. This will mean that a great area of fertile land will afford no crops this year and that hundreds of persons must depend on the help of their neighbors for sustenance or seek other fields.

A representative of the New Orleans relief committee returned here from the inundated country.

He said that more than 1,000 persons are in immediate need of rations. Hundreds of persons were suffering from exposure. There have been several deaths.

## Louisiana and Arizona Floods.

Needles, Calif., June 17.—Abandoning its old channel almost completely, the Colorado river, according to a report received here today, has thrown itself upon a barren stretch of sand dunes at the great bend in the stream in the northwestern part of Arizona. The change occurred Sunday.

Another break in the levee has resulted in the foundation of cotton lands in the Mojave valley from a new point.

Telephonic communication with the town of Randall, below Parker have been cut off. The last word from that place was that the flood was only a short distance away. Blythe is still under five feet of water.

## PEOPLE DYING FROM FAMINE IN NICARAGUA.

Lack of Crops Is Given as Cause and a Revolution in Republic Is Imminent.

(By Special Leased Wire to New Mexican) New Orleans, La., June 17.—Mail advices received here from Bluefields say that people are dying from famine in the interior of Nicaragua. Lack of crops is given as the cause. It is declared that a revolution in the republic is imminent.

## GARROS WINS AVIATION PRIZE

Purse of Ten Thousand Dollars Given by French Aero Club

TWO BAD ACCIDENTS OCCUR

One Aeroplane With Four Passengers Falls to the Ground at Angers.

(By Special Leased Wire to New Mexican) Angers, June 17.—Roland Garros, the French aviator, won the grand prize of aviation today. The prize was given by the French Aero Club and was worth \$10,000.

The distance covered was 683 miles. Garros was the only one of the seven aviators who started yesterday to complete the three laps set down for the first day's task, which he did in seven hours and fifty-six minutes.

## Two Bad Accidents.

Soon after the start of the Angers, Cholet-Saumur aeroplane race today, Aviator Allard's machine, carrying four passengers broke down and fell to the earth. The fall was from a low altitude and the only one injured was Allard's mechanic, who suffered a broken leg. Aviator De Bussey, while flying from Chartres to Angers, was seriously injured internally. His passenger, M. Gosiengs, broke both legs.

Sixteen aviators started in the 263 3/4 mile event.

## WALL STREET SCARED BY POLITICAL ASPECT.

Not Much Change Can Be Expected Until After Two Great National Conventions.

(By Special Leased Wire to New Mexican) New York, June 17.—Today's early stock market gave a foretaste of what may be expected until pending political complications come nearer the point of adjustment. Business in the first two hours was too perfunctory for any real meaning. A score of fairly prominent issues remained unquoted at noon. Heaviness in Canadian Pacific and a two point advance in Wabash fours were the only notable market movements.

Bonds were steady. The market closed firm on a slight increase of activity, prices hardened to the best of the day in the final hour, with especial strength in Reading and Can.

## BURSUM ALONE FOR ROOSEVELT

New Mexico Delegation Assigns Each Member to Committees

## LUNANATIONAL COMMITTEEMAN

Roosevelt Has Taken Two Southern Delegates Away From Taft.

(By Special Leased Wire to New Mexican) Chicago, Ill., June 17.—Caucus results in the New Mexico delegation gave permanent organization to E. A. Cahoon; rules and order, Gregory Page; credentials, Hugo Seaberg; platform and resolutions, H. O. Bursum; National Committeeman Solomon Luna; to notify presidential nominee, J. M. Cunningham; to notify vice presidential nominee, W. D. Murray. All but H. O. Bursum are Taft men.

## Texas.

Results in the caucus of the Texas delegation were: John E. Elgin, for permanent organization; rules and order of business, P. E. Baer; credentials, C. A. Warnken; platform and resolutions, W. M. McDonald; national committee, H. F. McGregor.

## Nebraska.

Nebraska's Roosevelt delegation chose Don L. Love for permanent organization; for rules and order of business, C. A. Luce; credentials, H. E. Hackett; platform and resolutions, E. L. King; national committee, R. B. Howell.

Arizona in caucus endorsed a plan for more liberal irrigation policy and selected Dr. F. T. Wright for permanent organization; for rules and order of business, Dr. F. T. Wright; credentials, Robert E. Morrison, platform and resolutions, James T. Williams, Jr.; national committee, Ralph E. Cameron.

## Missouri.

The Roosevelt leaders caucused with many of the state delegations today, previous to the general caucus of the full delegations. Twenty of the Missouri thirty-six delegates who are for Roosevelt conferred with Roosevelt leaders and determined to stand by the Roosevelt program through thick and thin. They named Walter S. Dickey, chairman of the delegation, Thomas K. Niedringhaus for national committeeman in place of Secretary Nagel; Governor Hadley for committee on resolutions; Jesse Tolbert, credentials committee, and Charles Rendian for permanent organization.

Ohio delegates authorized A. L. Garford of Elyria to cast 34 of Ohio's 48 votes for Roosevelt on all propositions in the program of the Roosevelt forces.

## Nebraska.

At the caucus of the Nebraska delegation, it was unanimously agreed that strong resolutions should be passed in condemnation of Victor Rosewater for his action as chairman of the national committee in the contest cases.

## Jump on Rosewater.

Chicago, Ill., June 17.—The condemnation resolutions directed against Mr. Rosewater were signed by the entire sixteen delegates.

"The Republicans of Nebraska have been humiliated," they state, "by the actions of our national committeeman, Mr. Victor Rosewater, who has been personally repudiated by the Republicans of our state, and who did not represent the wishes or the voice of the Republican party of Nebraska in the deliberations of the national committee."

"We condemn and repudiate in the strongest terms his actions and hereby demand, in the name of the Republican party of our state that he change his attitude."

There was a brisk fight in the caucus against the adoption of more bitter resolutions and the foregoing were accepted as a compromise. After they were agreed to, Mr. Rosewater's friends signed with the others.

## Connecticut and Pennsylvania.

The Connecticut delegation formally instructed for Taft and the Pennsylvania delegation passed resolutions endorsing Colonel Roosevelt.

## Two Deserters.

In response to continued claims of accessions by Roosevelt among the southern delegates, Director McKinley of the Taft forces issued today a statement asserting that the Taft lines were holding firmly and that Roosevelt had succeeded in securing only two southern delegates.

## Roosevelt Organization.

Early today, Senator Borah of Idaho, definitely was selected as the choice of the Roosevelt forces for temporary chairman. Governor Hadley of Missouri, was chosen as floor leader for the Roosevelt organization. In addition to two candidates for temporary chairmanship, the Taft and Roosevelt forces prepared two distinct platforms.

James R. Garfield, in discussion of the platform to be submitted by the Roosevelt organization, declared that it would be progressive throughout, but that the subject of the recall would be left to the individual states.

A. Platt Andrew, assistant secretary of the treasury, arrived with the financial plank for the Taft platform. Personally, he said, he was satisfied with the Rochester plank, but that others seemed to think that this should be amplified in the national platform.

## Taft Organization.

The Taft forces announced that

### ALL WRONG.

The Mistake Is Made by Many Santa  
Fe Citizens.

Don't mistake the cause of back-

ache. To be cured you must know the

cause.

It is wrong to imagine relief is

cure.

Backache is kidney ache.

You must cure the kidneys.

A Santa Fe resident tells you how.

Thomas M. Baca, Cerrillos St.,

Santa Fe, N. Mex., says: "My faith

in Doan's Kidney Pills is just as

strong today as when I publicly

recommended them in 1902. I was

caused much suffering by backache

for three years and though I never

laid off from work, my back was so

painful that it was all I could do to

get around. Doan's Kidney Pills en-

terely relieved me and I had no return

attack of the trouble for six months.

At that time my work brought on a

recurrence of the complaint. I at

once took Doan's Kidney Pills and

they gave me relief. A medicine that

lives up to the claims made for it

like Doan's Kidney Pills do, deserves

the strongest endorsement."

### SEA FEVER.

I must go down to the seas again, to

the lonely sea and the sky,

And all I ask is a tall ship and a star

to steer her by;

And the wheel's kick and the wind's

song and the white sail's shaking,

And a gray mist on the sea's face and

a gray dawn breaking.

I must go down to the seas again, for

the call of the running tide

Is a wild call and a clear call that

may not be denied;

And all I ask is a windy day with the

white clouds flying,

And the flung spray and the blown

spume and the seagulls crying.

I must go down to the seas again, to

the vagrant gypsy life,

To the gull's way and the whale's

way where the wind's like a whet-

ted knife.

And all I ask is a merry yarn from a

laughing fellow rover

And quiet sleep and a sweet dream

when the long trick's over.

### AROUND THE STATE

#### Lightning Kills Cow.

Lightning killed a fine cow belong-  
ing to John Burns near Naravisa, Quay  
county.

#### New Mexico Odd Fellow Sold.

The New Mexico Odd Fellow, the  
official organ of the grand bodies of  
New Mexico, has been sold by Grand  
Chaplain W. Arthur Jones, the editor  
and publisher at Naravisa, Quay coun-  
ty, to E. R. Vallandigham, of Deming,  
who will issue the July number of  
the magazine.

#### Arrested for Horse Stealing.

Jeff Woodward at Naravisa, Quay  
county, with the assistance of Constable  
Hooten, arrested Charles Sanders  
and Sam Terrill on the charge of  
horse stealing. The arrest was made  
near the state line and the horse and  
buggy were recovered. The outfit be-  
longed to Fred Frick of Tucumcari.

#### Good Wool Crop.

Mrs. Francisco Gallegos & Sons  
have leased the school section one  
mile west of Logan, Quay county, have  
built sheds and are now shearing  
sheep. They are expecting to have a  
force of 40 shearers at work in a  
few days, and from the 15,000 head to  
be sheared are expecting 90,000  
pounds of wool, basing their estimate  
on the yield of those already sheared.

#### Damage By Flood.

An unusual heavy down pour in the  
Pintado canon country caused a rapid  
raise of the Agua Negra and the  
breaking of the big railroad reservoir  
near Pintado station. The wall of  
water freed by the breaking of this  
dam swept over the valley and in some  
places, notably the J. W. Wood ranch,  
did considerable damage. Wood lost  
a number of fruit trees and some alfalfa.

#### Young Downey Hurt.

News has been received here of an  
accident to young Montgomery Downey,  
son of J. B. Downey of the Electric  
Light and Power Company of Silver  
City but formerly of Santa Fe. He  
was struck by a large crane used  
in operating the Chino concentrator  
at Hurley, breaking his collar bone and

#### INDIANS ARE COMING FROM ALL PUEBLOS.

Mayor Celso Lopez, Alderman Geo.  
W. Armijo, School Director James L.  
Sellman and Superintendent H. F.  
Coggeshall yesterday visited the In-  
dian pueblos of Tesuque, San Ildefonso,  
Santa Clara and San Juan, north  
of Santa Fe and received assurances  
that the Indians would participate in  
the De Vargas pageant in their war  
paint and feathers. On their return,  
the party was stalled for a while in  
the Santa Cruz river but finally extri-  
cated itself and reached Santa Fe just  
as the storm broke.

Showers and Cooler.—That is the  
prediction of the weather bureau. Yester-  
day the maximum temperature was  
72 degrees, the minimum 49 degrees;  
the precipitation .29 of an inch. The  
relative humidity was down to 27 per  
cent last night. On Saturday the max-  
imum temperature was 77 degrees,  
the minimum 51 degrees, and the rel-  
ative humidity 20 per cent.

## CHILDHOOD AND ITS PROBLEMS

Important Discussions at  
National Conference at  
Cleveland

### KEEPING THE CHILDREN BUSY

They Should Be Occupied Pro-  
fitably and Pleasantly All  
Day Long.

(By Special Licensed Wire to New Mexican)

Cleveland, Ohio, June 17.—The

school in a democracy ought to pre-

pare the child to work, not to be a

gentleman, a scholar or a savant, ac-

cording to the dictum of William

Wirt, superintendent of schools of

Gary, Ind., as outlined in an address

before the national conference of

charities and correction here this

morning. According to this school su-

perintendent, it is economical and

wise for the schools to keep the chil-

dren busy from the time they get up

until they go to bed for seven days in

the week and for twelve months in

the year, the problem being to mix

work and play, pleasure and utility in

such proportion that the plan is freed

from the errors of the system of Orth-

odox Jewish schools in Russia, as

well as the errors of our present pub-

lic school system in America. In

Gary, Ind., the schools run from eight

in the morning until nine at night.

They run from Monday morning until

Saturday night; they run every

month in the year. The children of

that town will climb a fence to get

to school, and the grown people go

to the schools in large numbers, yet

the per capita cost of education has

not been increased. Each school

house is a civic center with at least

twelve acres of ground around it uti-

lized for playgrounds, athletic fields,

school gardens, parking, and so on,

and are urged by Superintendent Wirt

as models for the rest of the country.

Be Frank.

"The legitimate curiosity of the

young in regard to the origin of life

and the processes accompanying it

cannot be gratified by vague explana-

tions based upon the mysterious and

the supernatural," said Dr. Evange-

line W. Young, of Boston, in discuss-

ing an address by Dr. Ira S. Wile be-

fore the National Conference of Char-

ities and Correction here this morn-

ing. "The first essential in the

equipment of one who would instruct

in matters of sex is a wholesome and

unembarrassed state of mind toward

it. Through an unfortunate heritage

of superstitions and false traditions

we have come to associate the very

word itself with all that is base, un-

worthy, but that which has fallen

so low must be exalted, and this

great fundamental law of nature must

be given the status of dignity and

beauty which it deserves. The second

requirement for the successful teacher

of facts is a comprehensive knowledge

of biology. No rational study of sex

can be made which neglects a consid-

eration of the manifestations of sex in

forms of life lower in the scale than

the human."

Immoral Dress.

Cleveland, Ohio, June 17.—That the

dress of our young girls has never

been less modest since the days of

Louis XVI, was the startling charge

made by Miss Beulah E. Kennard in

an address before the National Con-

ference of Charities and Correction

here this morning. "Young girls

were once sheltered and restrained

by family life," said Miss Kennard.

"They had violent emotions, but no

expression for them except in harm-

less forms of poetry or music or the

explosive form of hysteria. The pres-

ent freedom of girls from parental

control and authority makes self-con-

trol and inner-restraint necessary to

their safety. They are sophisticated

to some extent, but far less than their

confident manner would indicate, and

are too young to regulate their emo-

tions. The continuance of the race

and its welfare, which is the main

business of life, is being left in the

hands of careless children without

any preparation or guidance whatever.

The safeguarding of our dance halls

and places of amusement against too

more obvious dangers is well, but not

enough. Training must be given in

the homes, developing moral earnest-

ness; in the schools, giving safe chan-

nels for emotion through art and mu-

sic, and special centers by vigorous

games, folk dances, and other emo-

tional safety valves."

Hiddeous Class War.

Cleveland, Ohio, June 17.—Louis F.

Post, of Chicago, editor of the Nation,

in an address on the distribution of

industry in relation to congestion,

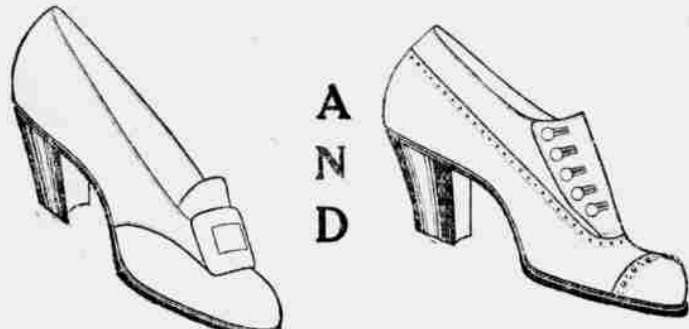

rent and taxes, before the national

conference of charities and correction

here this morning, forecast a hideous

## VERY BUSY TERM OF COURT

District Judge E. C. Abbott Makes Good Impression at Aztec.

District Judge E. C. Abbott was very much pleased with the people of San Juan county during his stay there the past four weeks during which he held court. Together with Clerk Edward L. Safford he reports splendid fruit prospects, the trees being loaded down and apples already as large as marbles. The orchardists are spraying diligently. The Denver and Rio Grande is making special preparations

manslaughter. He was sentenced by Judge Abbott to 5 to 10 years in the penitentiary. Fritz Brandt was given twelve to eighteen months for stealing a milch cow, a yearling and heifer and killing them for beef.

## Dockets Cleared.

There were frequent night sessions, sixteen jury trials in twenty days, several of them lasting several days, 31 cases settled other than by trial, 24 demurrers heard and decided, 8 cases tried without jury, the civil docket was practically cleaned up and so was the criminal docket, excepting a few appeals. In two and a half years there have been only six indictments which shows up well for the law abiding spirit of San Juan county. There were \$1,182.48 in the court fund when the term began and there is now a balance of \$1,182.48, a remarkably good financial showing, when it is considered that 122 petit jurors qualified and every one of them served, and that in the Chilling-Be-Gay murder case alone 26 Indian witnesses testified. The Indian was defended by Assistant U. S. Attorney Herbert W. Clark, who has returned to Las Vegas, and C. A. Johnson, District Attorney Alexander Read being assisted by E. P. Davies and Edward & Martin in the prosecution.

## IN THE PUBLIC EYE

## Clayton's Loss is Santa Fe's Gain.

The Citizen congratulates the capital city on being so fortunate as to obtain Mr. and Mrs. Wooters for residents. They have a host of warm friends who rejoice at their good fortune but we shall miss them very much and their place in social circles will be hard to fill for they are both very popular. Mr. Wooters is a capable business man and has always been held in the highest esteem by the men with whom he has associated in the world of business. Mr. Earnest could not possibly have made a wiser choice and he is to be congratulated upon obtaining Mr. Wooters' services. The Citizen extends best wishes for his prosperity in the new field.—Clayton Citizen.

## Oh, You, Bill Brogan.

If William F. Brogan should conclude to "shuffle off" just now his hardworked brothers need merely touch the date to all the lovely things the newspapers that know him well are saying about him and all of which we also state are true and then some. Brogan's wide charity for the failings of humanity is his open sesame to the heart of his friends and the New Mexican is in luck to have Brogan pushing a pencil there. However this is no new experience for Brogan who began in New Mexico under the friendly care of Max Frost, who gave him an introduction to all New Mexico that fixed him for all time and he has lived up to the standard then set for him by one who was himself a peer of the best newspaper men and who knew "stuff" when he saw it.—Rio Grande Republican.

## Speed the Parting.

The office of state engineer has been filled by Governor McDonald's appointee, Mr. French, of Las Cruces. The retiring engineer, Charles D. Miller, who succeeded our fellow townsman, Vernon L. Sullivan, has proved his ability in more ways than one. He was at all times courteous and attentive to the duties of his office, and Carlshad was greatly assisted by him in securing the road across the plains which has proved of vast benefit to the merchants of the plains and others who have had occasion to travel between the plains country and the county seat. Mr. Miller has the best wishes of all and in retiring expresses his appreciation of the many courtesies of the entire press of the state. New Mexico would be better off with more officers like Charles D. Miller.—Carlshad Argus.

## TERRACE ADDITION TO THE CITY OF ALBUQUERQUE.

I have placed upon the market 100 Fifty-Foot Lots out of this addition at 40 per cent. from regular selling price--10 per ct. down 5 per ct. for eighteen months, without interest or taxes. There are 480 lots left in the addition, and after 100 of them are sold the price of the lots WILL POSITIVELY BE PUT BACK TO THE REGULAR MAP PRICES.

Since I have acquired this property three years ago I have sold over \$35,000.00 worth on a basis of the regular map prices and up to this sale the best discount ever given was not to exceed 25% and that discount only in two or three instances where the purchases were large—running as high as \$5,000. That the marked prices are the original can be verified from more than fifty plats with the price marked upon each lot, which plats are in the hands of real-estate dealers and individuals who have purchased. This addition lies between the State University and the business section of the city on elevated ground, overlooking the Rio Grande valley for miles. There has been purchased by the citizens of Albuquerque 160

acres of land one mile east of the University for permanent fair grounds. This means a car line out to the University and on to the fair grounds! When this car line is built any lot in the Terrace Addition within two blocks of it will be worth from 50 to 100% more than the present map prices.

Silver Avenue is the principal street through the addition. This street is graded its entire length and fine shade trees growing on both sides of the street for ten blocks. Water is piped through a 5-inch main the full length of the street. About one third of the lots on Silver Avenue remain unsold and now come under this discount, although most of them sold brought full map prices.

There are in the addition 22 lots at \$109 each.

There are in the addition 16 lots at 450 "

4 lots at 550 "

This is no ordinary real estate offer. There probably is no other city in the United States with anywhere near the prospects of Albuquerque that close in lots can be purchased for such money, but one hundred of them must be sold in a hurry. If you are interested write for a full sized city map showing the Terrace Addition complete, and also a blue print with the price marked upon every lot. No reservations out of the 480 unsold lots, you can pick any of them.

## A UNITED PARTY.

In another two weeks, the Republican party of the nation will be united as never before, facing the political foe with all the confidence that the prospect of inevitable triumph can give.

There are millions upon millions of voters who are not yet ready to confess that the government founded by Washington, Jefferson, Madison, Hamilton, is a failure.

There are millions that have not forgotten the sacrifices on scores of battlefields and in thousands of homes, to surrender without a struggle the heritage of the fathers.

The bitterness that has preceded the national convention, the intensity of the fight with which it opened, will clarify the atmosphere and bring out in greater relief the underlying, undying principles upon which the Republican party has been founded. There never has been any doubt as to those principles.

The fight has been over questions of policies, over men and candidates, not over principles. Growth and advancement of a nation present new problems and to the solution of those problems the Republican party will set itself earnestly, accepting only those things that will stand the test of first principles and rejecting those which will not stand that test, even though clamor and glamor apparently make such false policies appear popular.

The American people have been proverbial for their common sense, for their practical view of life, and they will not at this day of general education and culture be led astray by the will-of-the-whisper of Populist doctrines.

Despite all of the hue and cry of insurgents in New Mexico, this state has never been seriously affected by apostasy from sound political principles. The Democratic party and its leaders still stand firm and true to the great principles of their party first outlined by men like Jefferson. There are Populists along the fringes and Socialists along the edges, but at heart, the Democratic party of New Mexico is still sound and with leaders like McDonald, Laughlin, Marron, Hinkle, Seligman, Walton, Mahoney, and a host of others, will not be swept into the Socialistic vortex.

Similarly, the bulk of Republicans is unwavering in allegiance to the principles of the party of Lincoln, Grant, Garfield and McKinley. What differences there were last fall were not differences over any great issue or principle; they were differences over the distribution of the fleshpots of office.

November 5 will find the two great parties lined up solidly giving battle to each other. The little pack of discontents on each side will have melted away, as such dissenters always melt away, when there are any real issues to be fought out at the polls.

## THE SALARY BILL.

County officials are placed in a most unjust and difficult position by the failure of the salary bill to become law. They have already given almost six months without pay to the public and will have to give at least six months more before they can expect relief. What complicates the situation is that not a single county official knows what his pay will be eventually. Many of them are men without means and must borrow money at high rate of interest and must discount the future, a difficult proposition when one cannot state definitely what the future holds in store.

This is one of the hardships that statehood brought with it. As the New Mexican pointed out during the legislature, a salary bill ought to have been formulated upon scientific, equitable principles, based upon the amount of time, the nature of the duty and the professional requirements of each particular office. The classification according to assessment, is a most arbitrary one and brought about such anomalies as the provision that gave the sheriff of Sandoval county a salary of only \$800 a year although his duties, if properly performed, require more time, energy, diplomacy and involve more danger than the duties in some

first class county where the salary provided was \$3,500 with side allowance for deputies, jailers and guards. There might have been consolidation of some county offices without working particular hardship on any one, but there certainly should have been a clearer definition of the duties of each office. If an assessor, for instance, is to visit each precinct, is to examine each piece of property, is to put in every work day of the entire year, and it were well if he were required to do so, then \$4,000 a year in a large, populous county is not too much. If each official were required to give his personal supervision and time to the duties of his office, then an average salary of \$2,400 a year entirely for his own use, is not too high, especially when it comes to county school superintendents, who should measure up to certain professional requirements, and even probate judges. If the latter have the legal attainments that should go with so responsible an office.

Still, the salary bill as finally passed was a compromise measure that suited no one particularly, and yet, had the assent of men from all parties. County officials, Republicans, Democrats, legislators and executive, admitted or charged, that it was not all that it should be or that had been hoped for it. The question is whether the next legislative session will improve on it very much. There are so many considerations, so many conflicting interests, so few data on which to base a satisfactory scale, that it were well for the finance committee of each house, and possibly the legal departments of the state, to look up the laws of other states, compare them with each other, study their specific provisions and then with that as a basis, seek to formulate a law that will measure up to modern requirements and will do justice to officeholders as well as to the taxpayers as far as the varying conditions of the different sections of the state will permit.

## TEACHING CHILDREN ECONOMY.

Who that was born much prior to the day before yesterday, or last week at farthest, cannot remember the way thrift was inculcated in the minds of the children of America, particularly in New England, and in other communities made up largely of New England people? The little home bank was in a way a national institution, and the penalties of children almost from infancy were carefully collected, accumulating slowly into dollars, until at maturity the savings might amount to \$100 or a little more. This policy of inculcating the twig so that the tree might stand straight in the matter of thrift, has gone out of general use. That it should be so was not unreasonable. A penny to a child spent on a barber-pole stick of candy created a great pleasure, sensational in the case of very poor children. The dime to a little boy often represented immense wealth and unbounded pleasure in the spending of it. Left to his own devices, the boy almost without exception (and the girl, too), would unconsciously follow Robert G. Ingersoll's philosophy and with the dime or a nickel or a copper in hand would sally forth and spend it like King Croesus.

There is a return to the philosophy of teaching children economy. The tiny home savings bank is coming back into quite common use. Financial institutions are encouraging the young people to save their pennies and accumulate little funds, no matter how slowly they come. The postal savings banks are making this policy very popular. The schools have taken it up, and are even going more than the parents of the children of the country to encourage thrift. The school bank system was begun by one John H. Thirty of Long Island City nearly thirty years ago, and it is reported to have resulted in the accumulation of \$3,000,000. There are 1168 schools covering almost all parts of the North American continent in which this thrift is being carried along. In Long Island City, where this thing was begun, in twenty-seven years pupils of twenty-one schools have deposited more than \$228,000. In Toledo the pupils of forty schools in twelve years have deposited \$250,000. In Kansas City the pupils of sixty-one schools in the same time have deposited \$194,000. In San Francisco the system is not quite a year old, and it is something less than 45,000 scholars are registered in these schools, and about 10 per cent of them have deposited \$21,146, of which there has been withdrawn \$629, leaving a net accumulation of \$20,517.

We have said above that there was a reason for the disappearance for a time of the home savings bank and of the cultivation of habits of economy in the minds of the children. There is a reason for the return to this practice. One does not need a searchlight to find it. As a people we have become dangerously extravagant, an

Valley Ranch, N. Mex., June 15, 1912. Santa Feans who visited Valley Ranch yesterday, were Mr. Owen of the Water and Light Co., and Mr. Wood, of the Wood, Davis Co. The trip was made in Mr. Owen's motor car. Roads and weather were perfect for it.

extravagance that in the case of many amounts to a crime or very near that.

The disposition of our generation, which is epidemic among possibly nine-tenths of our people, is one of discontent with the present lot of the average man and woman, or a little if not a good deal above the average. With incomes that surpass two or three fold that of those of our fathers and grandfathers, we are farther from contentment than they were. It is true that the cost of living has advanced. It is true the advance has in some respects been greater than that of the average income. It is also true that much of this advance is beyond the control of the average man. But on the contrary, James J. Hill, that profound and thoroughgoing philosopher, is right in saying that a good deal of the difficulty is not because of the "high cost of living, but the cost of high living."

Far be it from us to regret the well-being of any one among us or of all of us together, or of the general higher plane on which our people live. Would they could live much better and that the plane could be raised much higher. But would it come any nearer to making ends meet, or any nearer bringing about general contentment among our people? That is a conclusion exceedingly open to question.

The mechanic whose father earned \$1.50 or \$2 a day is now able to earn \$3.50 to \$5 a day. He lives better in every way than his father did, and his wife lives better than his mother did, and his children better than he did.

But is this mechanic of our day any nearer content than his father? Are his children any more content than he was? No. A larger proportion of the people of the country are living up to the full measure of their means than when wages were scarcely half what they are today.

## THREE VETOS TO BE REGRETTED.

There are three vetoes of Governor McDonald that the New Mexican regrets most of all. In each case, the New Mexican concedes the force of the argument advanced by the chief executive. The Crampton primary act was a step in the right direction, and Governor McDonald so acknowledged. But he did not want to deprive six southeastern counties of their right to retain such semblance of a direct primary as they had adopted, and the New Mexican believes that the Crampton bill should have made that exception within the limits of the act as to the time of primaries and conventions, so that any county that wished, or any party that desired it, could have held direct primaries on the dates prescribed not only for delegates to the precinct convention but for other conventions and all offices.

The second veto to be regretted, is that of the bill exempting new industries and new railroads from taxation for six years. Here too, Governor McDonald's veto was based on a good reason. The act was too broad. It should have specified more explicitly the industries and railroads to be exempted, and should have made such exemption conditional upon certain performance. Yet, this might have been remedied at the January session.

The third veto that is regrettable, is that appropriating \$6,500 for immigration work. Here the excuse that the commissioner of public lands is too busy and has too many other important duties to attend, is hardly convincing. While the money was to have been expended under the direction of the commissioner of public lands, the work itself would have been in such experienced hands as those of Secretary H. B. Hening of the bureau of immigration. The provision merely saved the expense of a widely scattered board that left the actual work in the hands of its secretary.

At least the provision was better than none, especially at this time, when the most effective work possible for immigration could be done, opportunities presenting themselves at present that may never come again to the state.

Be that as it may, the New Mexican is fairer than its contemporaries were, when they accused the Republican leaders of not desiring immigration; it gives credit to Governor McDonald for conscientiousness, even though mistaken motives, in vetoing these three measures.

## NATIONAL PACKING COMPANY WILL BE DISSOLVED.

Beef Trust Barons Decide to Take That Step and Thus Avoid Civil Suit.

(By Special Lensed Wire to New Mexican) Washington, D. C., June 17.—Attorney General Wickersham was advised today that the National Packing Company would be voluntarily dissolved by the beef packers by August 1. In view of this action, Mr. Wickersham announced that the government would hold in abeyance the civil suit which it proposed to bring against the company to compel its disintegration.

## BURSUM ALONE FOR ROOSEVELT.

Continued from Page One.

Senator Clarence Clark, of Wyoming had been agreed upon for chairman of the committee on rules, and that Congressman Olmstead of Pennsylvania, had been selected as parliamentarian. There were no changes announced in regard to the other committee places.

Third candidate talk continued in many quarters today. The name of Justice Hughes was prominent in this discussion. Champions of Senator La Follette and Senator Cummins said they saw much to favor their candidate in the extremely tense Taft-Roosevelt fight.

## Hawaii Stands Firm.

A statement by Governor Frear of Hawaii, denying rumors that the Hawaiian delegation would not be for President Taft was given out at the Taft headquarters.

## National Committee Denounced.

Members and members-elect of the Republican national committee and four state committee chairmen, thirteen in all, in a public statement today denounced the action of the national committee.

## Discredited Majority.

Among the protestants were Walter F. Brown, chairman Ohio state committee, William Allen White, national committee-elect of Kansas; Meyer Lissner, chairman California Republican state committee, and national committeeman-elect. Their statement follows:

"We denounce the fraud which the discredited majority of the Republican national committee has made up a temporary roll of the national convention; and we deny the right of the committee to make a roll that might result in a nomination that is effected by dishonesty and trickery. We desire to serve notice on the committee and on the convention, that the rank and file of our party never has permitted dishonesty in the party machinery to be a test of party regularity."

## BIG BRIGATION PROPOSITION.

(Continued from Page one)

by the government. The state engineer, however, required in their plans a provision for an equalizing reservoir to be built immediately upon the Pecos and in which the floods could be partially controlled and diverted into the reservoir.

Application No. 426 was filed by D. J. McCann of Fort Sumner calling for 1,225 sq. ft. storage of 293,700 acre ft. in what is known as the Lima and Alamo reservoirs, all located on the Pecos about six miles above Fort Sumner, to cost \$2,000,000. A knowledge of the flooding character of the Pecos would make the latter plan of direct storage on the river decidedly more feasible, and it would irrigate 120,000 acres. Both of these applications, together with many others on the Pecos river, were rejected by Territorial Engineer Sullivan and on appeal to the board of water commissioners such decision was reversed. The plans and specifications attached to this project have been approved by the engineer's office, requiring state supervision in the construction work and any change from the plans so adopted to be approved by the state.

These applications were combined into one project to be finally selected by the state Carey act land board, with a view of minimum cost per acre for water right, and general desirability and location of the lands to be irrigated. About 195,000 acres have been segregated temporarily by the Carey act board with the general land office and as soon as the combined projects formulate the Carey act filings for a permanent segregation the exact acreage according to the water supply will be then held permanently and the balance thrown open for settlement.

The project represented by these two applications being exceptionally large and of great interest to the state, one year was given in which to commence construction work, two years to complete one-fifth, and four years to complete the total construction, and three years additional to apply to beneficial use. This is one of the largest projects in the state and is attractive by its Carey act character, where the land can be purchased by settlers having contracts with the construction company for water right at 50 cents an acre. The project is located admirably to railroad facilities.

As stated above, the water was appropriated by the government, but a release was filed by the acting secretary of the interior to the effect that the government had abandoned the intention of the construction of the Urten Lake project, which makes it possible for the combined applications to receive this water and to carry on a project in this locality. Ex-Governor M. A. Otero of Santa Fe, is actively interested in the proposition.

## ROOSEVELT IT WILL BE SURE.

(Continued From Page One.)

for Theodore Roosevelt, emphatically declared today that the temporary roll call of the convention at this hour showed that Roosevelt will be nominated by a majority of at least 42 and that Senator Borah would be chosen temporary chairman over Senator Root by a larger majority.

"Will you start the fight as soon as the convention opens?"

"We are going to fight from the jump and will elect the temporary chairman by a majority larger than 42," said Senator Dixon.

## Taft Forces Prepared.

At the Taft headquarters, Representative Marlin E. Olmstead of Pennsylvania, announced that he would be at the right hand of Chairman Roosevelt from the moment the convention opens to keep him straight on parliamentary procedure and the Taft leaders said they would be as well fortified with Roosevelt in the chair as they would be with Senator Root, the Taft choice for the temporary chairmanship. It was said the Taft men did not care how early the Roosevelt forces started the inevitable conflict.

"The temporary roll of delegates as arranged by the national committee will organize the convention," said Director McKinley.

## Precedents Favor Taft.

Representative Olmstead spent the forenoon in consultation with a number of expert parliamentarians, who, after going over the precedents reached the conclusion that the temporary roll as prepared by the national committee must be regarded as inviolable until superseded by a new roll prepared by the convention itself after action by the committee on credentials and he will also advise the chair.

Among those present at the conference, were Senators Root and Penrose and Dr. Nicholas Murray Butler. Senator Penrose estimates that Mr. Root will have at least 600 votes for temporary chairman.

## Other State Caucuses.

Chicago, Ill., June 17.—The New Hampshire delegates, in caucus, named Fred W. Estabrook as the state's member of the national committee. W. S. Edwards was named by the West Virginia delegation.

Henry S. Chubb was chosen by Florida; P. D. Darter by Alabama; Chas. F. Brooker, by Connecticut; Alvan H. Martin by Virginia; J. L. Lewis, by Vermont; Walter F. Brown, by Ohio; William Flinn by Pennsylvania; Charles D. Warner by Michigan.

## HEAVY RAINS IN SOUTHWEST AND NORTHWEST.

Wheat, However, Keeps Well Above Dollar Mark, but Corn and Oats Suffered.

(By Special Lensed Wire to New Mexican)

Chicago, Ill., June 17.—Wheat showed firmness today. Heavy rains both southwest and northwest caused the market, however, to weaken a little at outset. Opening prices ranged from 1-8 to 1-4c up. September started at 102 1-2 to 103 3-4, to 1-4c down, and then advanced to 104 1-4. The close was strong with futures 5-8 @ 3-4c higher at 104 3-8 @ 1-2c.

Corn suffered from free selling by speculators. September opened unchanged to 1-8c lower at 71 1-2 to 71 5-8c, touched 71 3-4 and sagged to 71 1-4c.

The fact that eastern demand was poor led to further weakness but the market rallied with wheat. The close was firm at 71 5-8c for September, exactly the same as 48 hours before.

Perfect weather conditions made oats easy. September started same as Saturday night to 1-8c off at 49 3-8 to 49 1-2c, rallied to 49 1-2 @ 5-8c and reached to 49 @ 3-8c. Provisions dropped in sympathy with heaviness in the hog market. Initial sales were 5 to 7 1-2 @ 25c lower, with September delivery 18 70 to 18 75 for pork; 10 90 for lard, and 10 47 1-2 for ribs.

## TOMMY RYAN QUILTS CAMP OF FLYNN.

He Has a Fall Out With Curley and Goes to El Paso to Stage Hugh Morrow.

(By Special Lensed Wire to New Mexican) Las Vegas, N. M., June 17.—Tommy Ryan, retired middle weight champion, today resigned as trainer-in-chief in the camp of Jim Flynn, who is to meet Jack Johnson here for the heavyweight championship of the world on July 4. There has not been harmony between Flynn and Ryan since the arrival of the trainer, it is said, and a disagreement arose between Ryan and Curley. Ryan will take his pupil, Howard Morrow, a mid-dleweight, to El Paso, where he will fight on June 30 with Jack Herrick.

The cause of the disagreement between Ryan and Curley is not known. New Mexican want ads always brings results.

mocrat.HOW TENNESSEE IRON  
DEAL WAS MADE.Moore and Schley, the New York  
Bankers, Owned Not a Single  
Share of Stock.

(By Special Leased Wire to New Mexican)

New York, June 17.—The govern-  
ment attorneys prosecuting the disso-  
lution suit against the United States  
Steel Corporation, turned their atten-  
tion today to the circumstances immedi-  
ately preceding the so-called steel  
trust's acquisition of the Tennessee  
Coal and Iron Company.John F. Tierney, former cashier of  
Moore and Schley, from whom the  
corporation purchased the stock which  
gave control of the T. C. B. I. Com-  
pany, testified that on November 1,  
1907, Moore and Schley held or con-  
trolled 24,777 shares of Tennessee  
Coal and Iron stock, 71,700 shares  
were out on bank loans, 10,000 were  
held for safe keeping and 15,000 were  
exchanged with the First National  
bank for other collateral. On cross-  
examination, Mr. Tierney, said that  
Moore and Schley were not actual  
owners of a single share of the stock  
but held it as collateral for loans  
made to clients.BATTLESHIP NEBRASKA SAILS

## MOTHER PLEASE CONSIDER FACTS.

YOUR BOY OR GIRL at school? Learning what? Anything that will make money? Just think what you are feeding and clothing the child for, and not bringing in a cent, and HOW LONG IS IT GOING TO LAST? before he is fit for money making?

WHAT? LEARNING THE PIANO, or some other instrument? Oh, says you, it is so nice to hear a tune. Have you ever to drive your youngster to practice? If the child loved music, driving would not be necessary. Has your child the right brain for music; are you sure? You may rest very sure that it is costing you a lot of money, just thrown down the gutter in thousands of cases. Does the milk turn sour at discordant noises? NOW COMES A DIFFERENT METHOD!

MONEY MAKING, that is what your child is attending school for, or to learn HOW, now, isn't it? Very Well then, let them learn SHORTHAND and blindfolded typewriting, as this makes their other lessons easier. They take down the teachers' talk and they think everything connected with their lessons in shorthand. Let them do this while in the 7th and 8th grades. With daily practice, writing their lessons in shorthand, they are becoming rapid writers, and so save a Parent over \$1,000, when you reckon a two years' separate course, clothing, food and not a cent income. They are ready to EARN money right away on leaving school if they are taught shorthand and typewriting while in the grades and high school.

Shorthand costs \$50 for a full course with guaranteed proficiency, in fact, to completion and to pupils and parents satisfaction. \$5 a week for 10 weeks.

Typewriting (blindfolded) is also \$50 easy payments in the same way, but we loan each pupil a \$100 machine at own home for practice, and without extra charge, when at least half of the tuition is paid.

You perhaps say: "My child has quite enough study at the school, without taking anything fresh."

NOW PLEASE DO LISTEN to reason.

Your child has plenty to do at school, and with home lessons, but shorthand will make the studies easier, as the child will think all the studies in shorthand, and so fasten every thought in the brain. At the present time your child takes the longest way, with shorthand the shortest way is adopted.

Your child can learn shorthand with 15 minutes a day. Let him or her remain at the school 15 minutes after school hours, and in three to four weeks quick notes in shorthand of TEACHERS' TALK can be taken down; then comes the happy child. It will be sunshine all his "er" life with the knowledge, without shorthand, all his "er" life is sorrow, at not being able to do the work equal to the other who has learned shorthand.

When your child is through the High School, think of the opportunities for a situation. A hundred offers and chances in life to half a chance when shorthand is not known. For the child's sake, let he "er" learn shorthand and typewriting NOW.

The new A. B. C. shorthand is not the kind our grandfathers wrote. It is based on the every-day A. B. C. and can be easily read, written, and learned, and never forgotten.

Come in and talk it over. Say what you can afford to pay weekly. We want the pupil, and we want the money, but we want to train hundreds in shorthand and make use of them as our assistants in teaching in the Public Schools, and at our own Colleges, and as traveling demonstrators and salesmen and women. Plenty of indoor or outdoor work and always a good income. There is no better opening throughout the world than is offered to competent shorthand writers and typists. Uncle Sam wants them in every service, and for proof see any postoffice and read the notices posted up. Every department, Postoffice, Weather Bureau, Forestry, Inland Revenue, Customs, Washington, D. C. offices, abroad and almost every town throughout the United States and its dependencies are clamoring for stenographers. The same the world over. The opportunities are unlimited.

## S.S.S. CURES OLD SORES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S.S.S., the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. and shoved it from the track, thus  
preventing a serious accident. The in-  
cident occurred just below the water  
tank at Lamy. Two detectives are  
working on the case and the supposi-  
tion is that discharged employees  
threw the rail across the track.

INSURGENT LEADER WANTS  
NO HINT OF SURRENDER.

Whoever Suggests Such a Thing Will  
Be Strung Higher Than Haman,  
Says Julio.

(By Special Leased Wire to New Mexican)

Santiago, Cuba, June 17.—The insur-  
gent leader, Julio Antomarchi, who  
on Saturday ordered all the whites to  
leave the vicinity of El Cobre, issued  
a proclamation today stating that he  
will hang any person approaching him  
with a suggestion that he should sur-  
render.

CHANGE IN PALACE  
HOTEL MANAGEMENT.

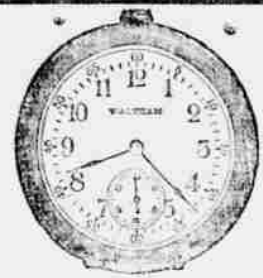

S. A. Atkins, a hotel manager  
of experience from Kansas  
City, has acquired the famous  
old Palace hotel, Santa Fe's  
foremost hostelry for many  
years, and will make many im-  
provements that will give the  
hotel a thoroughly modern and  
satisfactory service.

Sundays special dinner will  
be served for local business-  
men and their families at 50  
cents, thus supplying a need  
that Santa Fe has frequently  
voiced of late. Other an-  
nouncements will be made  
later.

HAVE YOUR WATCH  
CLEANED OCCASIONALLY

A WATCH will run without  
oil or cleaning longer than  
any other piece of machin-  
ery—but it needs both occasion-  
ally.

If you will consider that the rim of  
the balance wheel travels over fifteen  
miles a day, you will not grudge your  
watch a speck of oil and a cleaning  
once a year. It will increase the  
life and accuracy of your watch.  
Leave your watch with us to-day.

## SECURE THE BENEFITS OF GOOD PLUMBING NOW

Think what it means to you to have a dainty bathroom, a  
convenient cleanly laundry and a bright, glossy white kitchen  
sink. It means satisfaction, a constant pleasure to know that  
your home is properly equipped with well designed plumbing  
fixtures.

This will be the case when  
we install "Standard" guaranteed  
plumbing fixtures in your home.  
In addition to the excellence  
of the fixtures, we install plumbing  
in a careful and correct manner,  
thus insuring a perfect equipment  
throughout, and will gladly go into  
details if you will call or write.
