OFFICERS ELECTED

American Bankers Association Names New Officials.

EXCITEMENT IN FRENCH SENATE

Spanish King Has Trouble Creating a New Cabinet.

ROOSEVELT HUNTING IN MISSISSIPPI

New Orleans, Nov. 13.—When the American Bankers' association met today California invited the convention to meet in San Francisco and Washington invited the convention to meet in Seattle.

The nominating committee submitted the following nominations: President, Caldwell Hardy, president of the Norfolk National bank of Norfolk, Va.; first vice president, Frank G. Bigelow, president of the First National bank of Milwaukee; for executive council, John Skelton Williams, president of Richmond Trust and Safe Deposit company, Richmond, Va.; W. T. Fenton, cashier First National Bank of the Republic, Chicago; Arthur Reynolds, president Des Moines National bank, and James T. Hayden, president of the Whitney bank of New Orleans.

Vice presidents representing each state in the convention were also nominated.

Excitement in Chamber of Deputies. Paris, Nov. 13.—Intense excitement was caused in the chamber of deputies today by the firing of a pistol in the lobby. The members crowded to the scene of the shooting and found that an officer of a colonial regiment had emptied his revolver into the air while shouting "Vive la patrie." He is believed to be crazy.

SPANISH CABINET.

Hitch in the Formation of the New Cabinet of Spain.

Madrid, Nov. 13.—A hitch has occurred in the formation of the cabinet in consequence of the refusal of Senor Moret to relinquish the interior portfolio to Senor Romero Robledo. Premier Sagasta, however, wishes Senor Moret to retain the portfolio. The disagreement has caused friction. After an audience with King Alfonso today Sagasta informed the representative of the Associated Press that difficulty had arisen regarding the inclusion of Robledo in the cabinet, but another conference will be held this afternoon with Robledo and other leaders and it is hoped that they will effect a solution of the crisis.

PRESIDENT ROOSEVELT.

He Will Reach Mississippi Hunting Grounds This Evening.

Memphis, Nov. 13.—The presidential train arrived here over the Illinois Central at 9:20 this morning and left fifteen minutes later for Mississippi. For some distance this morning the train ran at a speed of over seventy miles an hour to make up lost time. The president was anxious to reach the hunting camp early enough today to get into the woods this evening and the schedule of the train was hastened to meet his desire. The train is now due to reach Smeds, Miss., at 3 o'clock. The hunting camp is ten miles distant from there and the remainder of the journey will be made on horseback.

Tunica, Miss., Nov. 13.—The special train bearing the president and party passed through Tunica at 10:26 a. m. A large crowd was at the depot. The train slowed up and the president bowed his acknowledgments.

ARE AT SANTA FE.

Senate Committee on Territories Now at the Capital City.

Santa Fe, N. M., Nov. 13.—The United States senate committee on investigation of claims of the territories for statehood, arrived at the capital of New Mexico early this morning and immediately called before it the principal judicial officers of the district, together with a large number of other witnesses. The committee took dinner with Governor Otero and took a drive through the city and surrounding territory. The senators will probably remain until tomorrow morning and then going to Albuquerque for two days.

Stockholders Will Fight.

New York, Nov. 13.—The holding of a special meeting of the stockholders of the International Silver company today at Jersey City is regarded by many stockholders as an attempt on the part of the New York brokers holding some preferred stock and a major-

ity of the common stock to get control of the company and force the present management out. The disaffected element propose to make an appeal to the courts and indications now point to a determined fight for the control.

Sale of Howard Cassard. Philadelphia, Nov. 13.—The steamship Howard Cassard, which was built several years ago by a syndicate to trade between Key West and Cuba, was put up at public sale today to satisfy a claim for wharfage. At the time she was built the Howard Cassard attracted universal attention. Thousands of dollars were spent to make her a marvel of speed, but on her first trial she proved a failure, and her owners sold her for a trifle. Since June, 1899, she has been laid up at Esington.

First Deaf and Blind Nun. New York, Nov. 13.—Madeline G. Wallace, the first blind and deaf woman ever admitted to the cloister of a Roman Catholic order, has taken her final vows as a sister of St. Dominic at the convent in Newark. Two hundred friends of the young woman and clergymen from many cities were present at the ceremony.

PRINCE OF SIAM.

With His Suite Will Arrive Here This Evening.

AND CONTINUE ON WEST.

His royal highness, Maha Vajiravudh, crown prince of Siam, and his suite, will arrive in Albuquerque at 5:30 this afternoon. The early arrival was due to the visit to Santa Fe having been declared off.

The private train carrying the royal party was scheduled to remain here fifteen minutes, but the crown prince was endowed with the power to have the time extended if he so desired.

Traveling Passenger Agent W. H. Matson, Jr., of the Santa Fe coast lines, arrived in the city yesterday for the purpose of meeting the prince and his party, accompanying them to the Grand Canyon and on their journey as far as San Francisco. Mr. Matson, who will have charge of the party, intended to bring them to the reception, which was to be given in honor of the United States senators, but was postponed today on account of the important business to be transacted at Santa Fe.

From the sudden change of the arrival of the senators and also the early arrival of the prince, the royal party will not remain as long in the city as they would have done had everything been favorable.

The crown prince was educated at Oxford and speaks English fluently. He is up to date in all his ideas, and is favorably with America and Americans, but like all Orientals, he abhors newspapers, especially the kind that are produced in America. A story comes from Colorado Springs that during prince's stay there, as he dressed to attend the performance of a comic opera, he sent word to the newspaper men to this effect:

"There will be no drinking of wine out of any woman's slipper, and there will be no woman present. Please do not even suggest such a thing."

The prince had been told of the reported Chicago escapade of Grand Duke Boris of Russia and he was much afraid that rumors of similar doings by himself might be circulated and find their way into print.

The party travel in a special train, composed of two Pullman's and a baggage car, carrying about 100 pieces of baggage.

The prince is traveling in the private car "Columbia," used by Prince Henry during his tour of this country, and by ex-President Grover Cleveland.

The entire train is elegantly furnished and is provided with every convenience. The party itself includes twenty-six persons, and among them are Col. Phya Rajavallabogh, aide de camp, his private secretary; Mon R. Arnavatra, the Siamese minister to the United States; E. H. Loftis, secretary of the Siamese legation; H. Y. Darrell, tourist agent of the Pennsylvania railroad; George Denny, of the Associated Press, and R. H. Taylor and L. C. Wheeler, secret service men who accompany the prince everywhere he goes.

A telegram was sent to the prince at Lamy this afternoon, by Manager Switzer, of the Harvey Inman curio department, inviting his royal highness to visit the Indian collection here.

The prince gladly accepted the invitation. His serene highness will be greatly pleased with the fine collection of Indian curios.

DEMING SMELTER

To Be Started by Phelps-Dodge Company.

SERIOUS REBELLION IN MOROCCO

Hypnotism Used to Get Evidence From a Negro Convict.

YOUNG WOMAN DIES WHILE DANCING

Special to The Citizen.

Silver City, N. M., Nov. 13.—The report has reached this city through reliable information from a party closely connected with the Phelps-Dodge company that that company will in the near future commence the erection of a smelter at Deming. The company have had this idea in mind, it seems, for some time past, as they recently purchased considerable mining property lying in the Santa Rita and Pinar mining districts, which would produce hundreds of tons of good smelting ore that would be handled at the Deming smelter. Then at the present time the most of the ore being shipped out of Grant county goes to the El Paso works of the smelter trust, and with a smelter at Deming the Phelps-Dodge people would be able to get the best end of these shipments on account of the much cheaper freight rates and also lower smelter charges.

The large reduction works owned by the smelter trust and located in Silver City, which was closed down a few months ago, if the Phelps-Dodge company should push their project through at Deming, would naturally be forced to start up again to protect their interests in southern New Mexico and Arizona. These works were left intact by the company when they were closed down and could be started up without any loss of time or expense.

REBELLION IN MOROCCO.

African Desert Tribes Rebel Against Their Spanish Rulers.

Madrid, Nov. 13.—A dispatch from Tetuan, Morocco, where the Kabyle tribes have rebelled, shows that the situation has grown more serious. A body of armed Tetuanites have been defeated in a fight with the rebels and compelled to retreat to town. The rebels are encamped at Samoa, a half hour distant from Tetuan, where all business is suspended. In Madrid the position of Europeans at Tetuan is considered to be not grave. Newspapers comment on Spain's continued ill fortune as again evidenced by the fact that the country is without a cabinet at the time of such an important crisis.

HYPNOTISM USED.

To Obtain the Truth From a Negro Convict.

Savannah, Ga., Nov. 13.—Hypnotism has been employed in the case of a former convict named Miller, a negro, who confessed to the murder of Gugie Bourquin, and his colored body servant, to make him reveal the facts. Miller alleged he was hired by a white man to kill Bourquin. His confession was regarded as a fabrication, and he was put under hypnotic influence in order to prove or disprove his strange story.

Miller, in his trance, said he did not fire the shots that killed Bourquin, but that he heard them and knew who fired them. He was put into a buggy with two officers and made to go through with what he alleges to have been his connection with the tragedy. Still in a trance he drove into the country and pointed out the exact locality where he asserts the shooting occurred. Miles described minutely four men, who, according to his story, murdered Bourquin.

DIED DANCING.

Young Woman Drops Dead on Ballroom Floor.

New York, Nov. 13.—From a scene of joyous gaiety a dancing academy in East Fourteenth street has been suddenly changed to one of the deepest gloom.

While dancing with her partner, and apparently in the best of health and spirits, Elizabeth Syme, a young woman of Bayonne, N. J., sank suddenly to the floor and died before medical aid reached her.

The young man with whom she was dancing had no intimation of her illness until, in the middle of the room, she turned to him and said she did not feel well and fell.

A physician was summoned but he pronounced the young woman dead from an internal hemorrhage.

Accident. Denver, Nov. 13.—While trying to drive over the railroad tracks where there is no crossing three employees of the Denver Union Water company were run down by a Union Pacific train this morning. Thomas H. Stutz was fatally injured and J. E. Madegan and Ad Henderson were painfully cut and bruised. The buggy was demolished and the horses crippled. The accident occurred at Twenty-second and Wynkoop streets.

Plain Case of Hysteria.

New York, Nov. 13.—Details concerning the autopsy performed on the body of Nellie Corcoran, the 19 year old girl who died Saturday after a trance of twenty days, are interpreted as confirming the theory that her condition was due to hysteria. No sign of disease was found in any organ. The physicians believe the girl's original sleep was caused by selfhypnotism and that hysteria followed.

SOCORRO ELECTION CASE.

Judge Baker Hearing Testimony From Socorro People.

LIVELY ELECTION CONTEST.

The Socorro county election contest case, the termination of one of the most hotly contested elections ever held in the territory, is occupying the attention of Judge Baker here today.

Judge McMillan of the Fifth district, who is now holding court in Lincoln county and was at the time of the election, granted a change of venue from his district to this for several reasons.

Through an affidavit by Abram Abeyta, an injunction was granted enjoining the board of county commissioners of Socorro county from counting votes of said county. The petition alleged that the commissioners had opened the ballot boxes of some fifteen precincts, and as one of the members of the said board of commissioners was a candidate for office at the present election, the ballots might be tampered with. Another reason set forth why a change of venue should be granted was that it would be very expensive to hear the case of contest at Lincoln county seat of Lincoln.

A motion was made to the court this morning by the defendants in the case, asking that change of venue be made sending the case back to the court of the Fifth district.

The motion was overruled by virtue of statute, "if in any case the court finds good cause without expressing, injunction may be made to any other court."

The theory of the petition was that the injunction was granted before first giving notice to other parties.

The court then gave notice that case would come up for trial this afternoon at 3 o'clock, and is now in progress.

The republicans are represented by Attorneys Childers and Alexander, and the defendants, the independents, are represented by Attorneys Fitch and Dougherty.

The following prominent Socorro county citizens arrived this morning and are here as witnesses in the case: Attorney Silas Alexander, Abram Abeyta, Attorney H. M. Dougherty, Attorney J. G. Fitch, S. E. Abeyta, Manuel Pino, E. Montoya, E. Baca, Jose E. Torres, Juan Jose Baca, John Terry, M. Miera, W. H. Byerts, W. E. Eaton, M. Apodaca, Max Montoya, C. T. Brown, B. A. Pino, F. G. Bartlett, Leandro Baca, C. Miera, Capt. E. B. Fitch, John Greenwald, H. G. Baca, Capt. M. Cooney, Sheriff Blackington, Dr. J. E. Hinn, J. Gatlin, W. M. Borowdale and J. S. McTavish.

FAIR MEETING.

To Be Held Tonight Upstairs Over Zeiger's Cafe.

This evening, at 7:30 o'clock, all those interested in the proposition to make the next annual fair a tremendously big affair, are requested to meet upstairs over Zeiger's Cafe.

Every business man in the city should be present, and they should go with the intention of having something to say on the subject—offer suggestions, give ideas and advance theories as to how and what kind of a fair that would please the people and be a success next year.

New officers are to be selected and the first preliminary step taken toward the twenty-third annual territorial fair. Let everybody attend.

EASTERN CAPITAL

Getting Interested in Silver City.

HAS ADOPTED RETALIATORY TARIFF

Annual Convention of the American Federation of Labor.

RUBBER WORKERS STRIKE AT CHICAGO

Special to The Citizen.

Silver City, N. M., Nov. 13.—The business men of this city are waking up to the fact that numerous eastern investors and hundreds of health seekers have their eyes on Silver City and New Mexico in general, and are going after their portion of it. It is conceded that New Mexico will be admitted to the Union next month by many conservative men here and the attention of eastern capital will be directed to New Mexico, as it never has been before. During the past week they have been busy organizing a board of trade or an organization to be known as the "Silver City Commercial Club." Its members are composed of all the residents in this section of Grant county, with the avowed purpose of distributing advertising matter of all descriptions over the country and working in union for any enterprise that will further the interests of Silver City and the southern part of New Mexico. Each member of the club has put up an admission fee of \$5 to start the enterprise on a good financial footing and a monthly payment of \$1 will be made by each member. The club will be run on purely business lines and work and money will be expended in such a way that benefits in numerous ways will be derived in this county by influencing investments and immigration.

GERMAN TARIFF.

That Country Adopts a Retaliatory Tariff Measure.

Berlin, Nov. 13.—The reichstag today adopted by 197 to 71 votes the paragraph in the new tariff bill authorizing the government to retaliate on any country discriminating against German goods. The agrarians openly affirmed that it was necessary to arm the government with weapons for reprisal, especially against the United States customs practices. Dr. Brumer, national liberal, cited an instance in which he said that \$200,000 worth of enameled goods were ordered in Germany for New York, but the speaker asserted, the customs officials "changed classification at the instance of an American trust, whereupon the New York importer cancelled the order. It was proven to the customs officials," said Dr. Brumer, "that the invoice was in exact accord with the German seller's books, and instead of the goods being undervalued the books showed that the shipments had been made to India at still lower prices."

Dr. Brumer further asserted that the customs officials' treatment was dictated by the interests of manufacturers.

FEDERATION OF LABOR.

Twenty-Second Annual Meeting of the Association.

New Orleans, Nov. 13.—The twenty-second annual convention of the American Federation of Labor met this morning at 10:30 in Odd Fellows' hall, with about 200 delegates present. The delegates were escorted from the St. Charles mansion by members of the local trades and labor assembly, headed by Robert E. Lee, president of the local organization, and by James Leonard, federation organizer for the state of Louisiana.

When the convention had been called to order, President Lee, of the New Orleans organization, delivered an address on behalf of the laboring men of New Orleans, to which Gompers responded.

RUBBER WORKERS.

They Go on a Strike at Chicago and Work is at a Standstill.

Chicago, Nov. 13.—Two hundred and fifty employees of the Mechanical Rubber company went on a strike today, the workers asserting that the company was controlled by the "rubber trust" and is at present filling orders that under ordinary circumstances should go to the Morgan & Wright factory, which was closed by strike last

week. The walkout was ordered last night and when the employees of the company reached the plant this morning they found it guarded by over a hundred pickets from the Morgan & Wright factory. The labor men say that no work will be done until the "rubber trust" recognize their union and grant their demands.

British Cruisers.

Gibraltar, Nov. 13.—The British cruisers Furious, Pactolus and Prometheus have sailed from here for Tetuan, Morocco.

Six Months in Plaster Cast.

New York, Nov. 13.—After having been incased for six months in plaster cast, which covered his entire body, except his head and lower parts of his legs, the Rev. Horace Porter, victim of a bicycle accident, has returned to Plymouth church, where he is assistant to Dr. Newell Dwight Hillis. The accident, which occurred in 1900, caused the drawing up of Mr. Porter's limbs so that he was unable to stand. An extraordinary operation, the cutting of several ligaments, was performed and the pastor, after six long months in a plaster cast, is now able to walk with crutches. These probably will be discarded shortly.

HERE TOMORROW NIGHT.

Senatorial Committee Will Reach This City Friday Evening.

NOW AT SANTA FE.

The following telegram received from Delegate B. S. Rodey from Santa Fe this morning changes the arrangements of the reception committee:

P. F. McCanna, Secretary Commercial Club, Albuquerque.

Santa Fe, Nov. 13.—Senate committee took evidence in Las Vegas until late last night. Then took special to Santa Fe. Will be here today and tomorrow until 3 p. m., and will arrive in Albuquerque Friday night at 7:15. The committee has agreed to go to reception at Commercial club. Better arrange for late banquet at Alvarado. B. S. RODEY.

To conform with the late arrangements the reception and ball at the Commercial club will be postponed until Friday night at 9:30 o'clock. The change of the time of arrival here was due to the fact that the taking of testimony at Santa Fe required more time than was at first supposed.

The senate committee carry a full score of stenographers, a Spanish interpreter, photographer and a geologist.

Testimony and evidence are being taken from court records, which takes up considerable time.

Judge Baker, Hon. O. N. Marron and Hon. W. B. Childers returned from Las Vegas last night, leaving Delegate Rodey to accompany the national legislators to this city.

"The committee are making a thorough investigation," said Mr. Marron, when seen by a Citizen reporter this morning. "They went into session yesterday afternoon after dinner at Las Vegas, adjourning at 3 o'clock they drove through the city and then a closed door investigation was held until late last night. Photographs are being made of many of the records which will be used when the bill is presented before the senate in December."

Postponing the grand reception for the distinguished statesmen will give the committee more time to prepare for the brilliant reception and ball and also the banquet. A cordial invitation is extended to all citizens of Albuquerque to attend this grand function, which will no doubt make a favorable impression on the senators, as to the social standing of the community.

The Italian and First Regiment bands will furnish the music on the night of arrival and every citizen will turn out to greet the statehood committee.

The Grand Canyon will be visited after the party leave here, and then investigations will be resumed at Phoenix, Arizona.

Race Trouble.

Vienna, Nov. 13.—Sittlings today in the lower house of the Austrian reichsrath were suspended on account of the German and Czech members coming to blows. The cause of the trouble was a debate on the advisability of the use of two languages in the names of stations on the Bohemian railroads.

Bohemian Violinist Coming.

New York, Nov. 13.—Rudolph Aronson has received word that Kocian, the young Bohemian violinist who is to tour America this winter, sails from Liverpool today on the Majestic. On his arrival here he is to have a formal welcome from the several Bohemian societies of this city.

PRINCE OF SIAM

He Will Arrive in Albuquerque This Evening.

EVERYTHING QUIET AT PANAMA

English Manufacturers Will Try to Grow Cotton in Jamaica.

END OF THE VENEZUELA REVOLUTION

Santa Fe, N. M., Nov. 13.—The crown prince of Siam and party arrived here this morning by the Santa Fe route and spent a couple of hours visiting points of interest in the oldest town in America, and left at 1 o'clock for Albuquerque and will visit en route one of the Indian villages.

PEACEFUL AT PANAMA.

United States Sailors and Marines to Be Withdrawn.

Washington, D. C., Nov. 13.—Secretary Hay informed the navy department that conditions on the isthmus of Panama have assumed so favorable a phase that he no longer has any suggestions to offer as to further disposition of the American sailors and marines who have been doing guard duty at terminals and on the railway lines for many weeks past. This does not mean that the secretary has withdrawn the sailors and marines, but simply is willing that they might be disposed of in accordance with the present needs of the navy. It is not doubted, however, that the result will soon be the withdrawal of the American forces about their warships, the Wisconsin on the Panama side, and the Panther on the Gulf coast.

Will Grow Cotton.

London, Nov. 13.—The efforts of the members of the Lancashire Cotton Growers' association to emancipate themselves from the American raw supply has been extended to Jamaica. The association has voted a large sum of money to be expended on growing cotton in that island on a large scale. It is expected that a large area of Jamaica will be planted with cotton next season.

Revolution Failed.

Caracas, Venezuela, Nov. 13.—The official Gazette yesterday published a presidential decree reestablishing Caracas as the capital of the republic and as the seat of the executive power. The disbanding of revolution forces continues.

TOWN OF OLIPHANT.

In Pennsylvania Partially Destroyed Today by Fire.

Scranton, Pa., Nov. 13.—The town of Oliphant, six miles north of Scranton, was swept by flames today and the entire block in the business portion destroyed. The blaze was caused by the explosion of the gas tank in the cellar of Atherton's department store. Building after building went down in ashes in a remarkably short time. The city hall and jail was among the buildings destroyed. People fought desperately with the flames for protection of their property and goods and furniture were strewn about promiscuously. A call for help brought fire companies from Scranton and neighboring towns. The loss is estimated at between \$175,000 and \$200,000.

MURDERER LYNCHED.

A Tennessee Mob Deals Out Justice to a Red Handed Murderer.

Lewisburg, Tenn., Nov. 13.—John Davis, a negro, was hanged in the court yard today by a mob of 500 men for the murder of Robert Adair, a farmer living near this city. Adair's body was found in a terribly mutilated condition in a field near his home here this morning. He had started out in pursuit of a tenant who was stealing corn and when the body was found the stock and barrel of a small rifle and a knife covered with blood were also found near him. The knife was identified as the property of John Davis, colored. The sheriff organized a posse and went to the house of Davis and found a pile of bloody clothes, but the murderer had fled. He was caught half a mile from the town, but not until he had been twice wounded. He was brought back, and the sheriff and Rev. John Royal Harris made an appeal to the people to allow the law to take its course. The mob, however, were deaf to all entreaties and hung the negro in the court house yard.

New Mexico demands Statehood from
the Fifty-Seventh Congress.

The desire for self government is
natural with all American citizens.

Good times are with the people of
New Mexico, and prosperity is here to
stay.

Colorado will have two republican
congressmen in the next house of rep-
resentatives.

Thirty-two of the forty-five states
gave republican majorities at the re-
cent election.

"The voice of the weakling or the
craven counts for nothing when he
clamors for peace; but the voice of the
just man armed is potent."—President
Roosevelt.

The republicans of San Miguel county
deserve anything and everything
they may desire at the hands of the
republican party of New Mexico. They
made a grand fight and won a magni-
ficent victory at the recent election.

The attention of Senator Beveridge
is called to the fact that an investiga-
tion of certain democratic precincts in
Indiana would cause a visiting states-
man to doubt the ability of the people
of that state to maintain self-govern-
ment.

The Citizen has no idea of the object
of the visit of the senatorial states-
men, beyond the fact that the commit-
tee desire to familiarize themselves
with the conditions existing in New
Mexico, preparatory to making a re-
port on the pending statehood bill.

FAVOR STATEHOOD.

The Denver Post says that general
opinion at Washington appears to be
that statehood will be conferred upon
New Mexico and Arizona, and prob-
ably Oklahoma, at the coming winter
session of congress.

There is wisdom, as well as justice,
in this determination of the powers
that be—tardy though the action is.

All three of these territories should
have been admitted long ago.

For years they have been prepared
for statehood. In every essential re-
quirement of the law. They have had
the population, the resources, the in-
telligence and the progressive spirit of
enterprise and energy which go to
make up an ideal commonwealth of the
people of these United States.

Only political considerations have
denied them the rights to which they
are and have been so clearly entitled.

A SENSIBLE MOVE.

The Colorado Springs Telegraph
commends the visit of the senate com-
mittee to the territories. The Tele-
graph says:

"Heretofore the question of the ad-
mission of these territories has been
considered largely on theoretical
grounds, partly on grounds purely po-
litical. Now, we trust, it is to be con-
sidered simply on the ground of their
fitness for the assumption of state-
hood. Those who are aware of the con-
dition of these territories know how
little force there is in the analogy
sought to be drawn between them and
Nevada, which is the favorite argu-
ment of the theorists; and we hope
there may be statesmanship enough
among the republicans in congress to
see that it is bad politics, as well as
poor morals, to refuse statehood to
any territory simply on the ground
that it may at some future time return

democrats to Washington.

"The real questions at issue are the
population, its character, and the prob-
abilities of increase in population and
wealth. As to actual numbers, there
can be no doubt that Oklahoma and
New Mexico are ready for statehood;
as to character of population, there
can be no doubt that Oklahoma and
Arizona are as well fitted as any
states ever were in the western coun-
try, and we hardly think they will find
New Mexico so very far behind.

"As to the probabilities of the fu-
ture, everything points to a continued
and rapid growth, not only in popu-
lation, but in wealth and the develop-
ment of resources. We believe the
senate committee will recommend, as
a result of its visit to the southwest,
the admission of all three of these ter-
ritories."

COMING WEST.

Again the tide has been turned to-
ward the great western country. The
Chicago Record-Herald is authority for
the statement that never before in the
history of western railroadings has
there been such a heavy movement of
colonists from east to west. It is de-
clared that in the month of October
alone more than 50,000 emigrants
passed through Chicago for parts be-
yond the Mississippi and Missouri
rivers, and that this volume has been
sustained for some time and has shown
no signs of decrease. Most of the set-
tlers are of the better class of foreign-
ers, but many of them are eastern
farmers, who have sold out their small
holdings in the old states for the larger
ones that the price will secure in
new lands.

RAILROADS OF UNITED STATES.

In twenty years the United States
has built nearly half the railway mil-
age of the world, and our railway cap-
ital today stands for \$12,000,000,000,
while the actual value of railway prop-
erties is estimated at somewhat above
that enormous sum.

The New York Commercial has com-
piled from the census report some of
the statistics which tell the wonderful
story of this development. There are
more than two hundred thousand miles
of single track railroads in the United
States. The significance of this may be
appreciated by the statement that it is
equal to a single track encircling the
entire globe eight times. Including the
second track the mileage of the rail-
roads if stretched out in a single line
would reach from here to the moon.
The capitalization of the railroads is
greater than the entire production of
gold since the discovery of America
in 1492. It is greater than the entire
deposits in all of the banks of the Unit-
ed States. It is equal to nearly one-
fifth of the total wealth of the country.
In the fiscal year 1900 the gross earn-
ings of all the railroads in the country
amounted to \$1,588,526,937. This is
equivalent to more than \$1 for each
civilized and uncivilized inhabitant of
the earth.

The number of persons in the em-
ployment of railroads of the United
States in 1901 was more than 1,000,000,
or an average of 548 employees for each
100 miles of line. If it is supposed that
each of these employees supports on an
average three other persons, it would
appear that one person in every twenty
in the United States is supported di-
rectly by the railroads. The amount
paid in salaries and wages during the
same year amounted to \$610,713,000.
In addition more than 100,000 per-

THE FIRSTBORN.

Why is it that the firstborn child is so
often the healthiest of a family of chil-
dren? The reason seems to suggest it-
self. As child follows child the mother
has less and less vitality; often not
enough for herself and none, therefore,
for her child.

Expectant mothers who use Doctor
Pierce's Favorite Prescription find that it
keeps them in vigorous health. They eat
well, sleep well and are not nervous.
When baby comes its advent is practically
painless, and the mother is made hap-
py by the birth of a healthy child. If you
would be a healthy mother of healthy
children use "Favorite Prescription."

"I will be very glad to
say a few words for Dr.
Pierce's Favorite Prescrip-
tion," writes Mrs. P. S.
Douglas, of Mansouville,
Brome Co., Quebec. "Dur-
ing the first five months
when I looked forward to
becoming a mother, I suf-
fered very much from nau-
sea and vomiting, and I
felt so terribly sick I could
scarcely eat or drink any-
thing. I tried all kinds
of food. At this time I
wrote to Dr. Pierce, and he told me to get his
"Golden Medical Discovery." I got a bottle of each, and
when I had taken them a few days, I felt much
better, and when I had taken hardly three parts
of one bottle I felt well and could eat as well as
any one, and could do my work without any
trouble (I could not do anything before). I feel
very thankful to Dr. Pierce for his medicine,
and I tell all who tell me they are sick, to get
these medicines, or write to Dr. Pierce."

Those who suffer from chronic dis-
eases are invited to consult Dr. Pierce,
by letter, free. All correspondence
strictly private. Address Dr. R. V.
Pierce, Buffalo, N. Y.

sons are constantly employed in the
mines to furnish the railroads with
fuel and ore. An equal number are em-
ployed in constructing locomotives,
freight and passenger cars. More
than 50,000 men are engaged in fur-
nishing the railroads with ties. In ad-
dition, there are thousands of other
employees, such as those who are di-
rectly dependent upon the railroad in-
dustry for their livelihood.

LANDS OF THE WEST.

To the people of the west the most
interesting item in the annual report
of Commissioner Hermann, of the gen-
eral land office, is the statement that
by the end of the current fiscal year
there will be not less than \$15,000,000
available for the construction of res-
ervoirs and irrigation systems under
the provisions of the irrigation law.

Aside from the item mentioned
there are, however, other interesting
facts in Mr. Hermann's report. From
the digest prepared by the Philadel-
phia Record it appears that during the
last fiscal year there were aggregate
carries on behalf of states, railroads
and homesteaders of 17,614,792 acres—
an area larger than the entire state of
West Virginia—while 1,757,593 acres
were sold outright for cash to intend-
ing settlers. The steady drift of popu-
lation westward is shown in the selec-
tion by land grant railroads of over 5,
000,000 acres, or more than double the
area thus selected during the previous
fiscal year. More than 100,000 farms
have been added to the agricultural re-
sources of the nation during a twelve-
month through the operations of the
public land office.

There now remains available for set-
tlement about 300,000,000 acres of sur-
veyed public lands. Much of this area
is semi-arid, and probably 70,000,000
acres would require irrigation in order
to render the land productive. There
are over 600,000,000 acres of unsurveyed
lands; but more than one-half of
this vast area is in Alaska, and much
of the remainder in the mountains and
uncultivable fastnesses of the Rockies.
At the current rate of absorption, ac-
cordingly, but ten or fifteen years' time
will be required to dispose of Uncle
Sam's entire acreage of arable lands
in the west.

A Policeman's Testimony.

J. N. Patterson, night policeman of
Nashua, Ia., writes, "Last winter I had
a bad cold on my lungs and tried at
least half a dozen advertised cough
medicines and had treatment from
two physicians without getting any
benefit. A friend recommended Foley's
Honey and Tar and two thirds of a bot-
tle cured me. I consider it the greatest
cough and lung medicine in the world."
Alvarado Pharmacy.

Forty Prisoners Escape.

Forty prisoners confined in the jail
at Cananea, Mexico, overpowered the
jailers and escaped in daylight. The
men were charged with different of-
fenses, ranging from petty larceny to
murder. This is the second jail deliv-
ery in a month and a new prison is
being cut out of the side of the moun-
tain, where escape will be well nigh an
impossibility.

"BLEST BE THE TIE"

"That Binds Our Hearts in Christian Love."

There was an unparalleled juxtaposition and union of the "Blue" and the "Gray" at the Sisters' hospital, in Albuquerque, recently. A young man from Eastland, Texas, had left a comfortable home and gone off up north hobnobbing. He was beating his way back on a freight train when his foot slipped and he fell off. Both legs had to be amputated near the knee joint. The boy's father came on and attended to him carefully. He is a Mason and was in the Confederate service during the war of the rebellion.

Prone on another bed in the same ward of the hospital lay a young man sick of typhoid fever. He was being attended by his father, a badly crippled old man who had been in the Union service and was wounded at the battle of Shiloh. He wears the G. A. R. badge. (The ex-Confederate displays only the Masonic emblem.)

When the time came to remove the young man with both legs off, at 10 o'clock at night, to a Pullman, to take him to his home in Texas, there was no one about to lift the stretcher. So those two old soldiers, who years before had met in deadly conflict, did the work, the one at the head and the other at the foot; an unparalleled scene, since when, some times, after great battles, in the south, details from the opposing forces went out under flag of truce to assist each other in burying the dead.—San Marcial Bee.

Jumped on a Ten Penny Nail.

The little daughter of J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all druggists.

OFFICIAL MATTERS.

Land Office Business—Bureau of Immigration.

Homestead Entries—Bolesio Romero, of Los Lunas, 160 acres of land in Valencia county; Cornelio Montoya, of Golden, 160 acres of land in Santa Fe county.

Many Questions Answered.

The Bureau of Immigration yesterday answered inquiries from the following places:
Chicago, Ill.; Cleveland, Ohio; El Paso, Texas; Joplin, Mo.; Oklahoma City, Okla.; Benton, Iowa; New York City; Des Moines, Iowa; Knoxville, Tenn.; Watrous, N. M.; Kansas City, Mo.; Springfield, Tenn.; Boston; Santa Rosa, N. M.; Dover, Okla.; Albuquerque, N. M.; Sioux Falls, S. D. The questions answered were many and at times quite difficult. In each case bulletins on the several counties of the territory were furnished the inquirers and in several cases copies of the report of Governor Otero for the year 1901 were sent. It is found that the business of the bureau and its correspondence is constantly on the increase and that literature concerning New Mexico is greatly in demand, more so than ever before in the history of the territory.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50c at all drug stores.

A. R. Manby, of Taos, assignee of the Juan Santistevan bank and business, who was in Santa Fe yesterday, arrived here last night on business connected with his duties as assignee. Up to date he has paid 50 per cent of the indebtedness of the Juan Santistevan bank and business and has among the assets still left 11,000 sheep, which are being managed by him for the benefit of the estate with success. If no unforeseen complications arise, Mr. Manby thinks he will be able to declare a dividend of 25 per cent within the next sixty days.

Proceedings for the purpose of compelling the commissioners of Socorro county to throw out certain illegal votes cast by the independents will come up for hearing in district court today. Attorney Silas Alexander, who was in the city Tuesday, had a strenuous trip in securing injunction papers against the candidates in Socorro county, elected on the face of the returns. Mr. Alexander secured the papers through Judge McMillan, of Lincoln, which mission caused a constant move for eight days and nights, only to be able to get about four hours sleep, during his trip. He rode and drove over 200 miles. It was his misfortune to miss the train at Capitan and was compelled to travel overland to the main line at Carrizozo.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I can recommend it with the utmost confidence. It has done good work for me and will do the same for others. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. BUSINESS MEN ORGANIZE.

Las Vegas Merchants Want Protection From People Who Don't Pay Their Bills.

THE SENATORS AT LAS VEGAS.

Special Correspondence.

Las Vegas, N. M., Nov. 12.—A large number of the business men of the city met last night in Judge Wooster's office and perfected the organization of the Business Men's Protective Association of Las Vegas. The constitution and by laws were adopted and the organization perfected. A board of directors of nine members were elected as follows, they to elect the officers of the association: J. A. Dick, T. O'Byrne, J. H. Stearns, T. Y. Hayward, C. D. Boucher, Ike Davis, O. G. Schaefer, J. D. Osborne and Charles Spieder. The object of the association is to protect the members in various ways, principally by keeping each other posted as to the people of the city who are bad pay. The association is intended to be not only local, but territorial, the association to be formed all over the territory and the list of dead beats are to be exchanged so as to make it impossible for swindling customers to get their victims in this territory.

W. B. Twitchell has made a rich strike down in one of his Chicago mining claims near the Hamilton mines. At a depth of thirty feet some fine ore has already been taken out and the prospects are very flattering. Mr. Twitchell is interested with some eastern parties in his nine claims there and they have a force of eight men at work on the mines and plenty of capital to back the development work. If the mines turn out as it is believed they will, a mill will be erected there and a regular mining camp inaugurated.

There are six new brakemen in town waiting for runs, and there is plenty of business on the Santa Fe to give them work.

Darby A. Day, the Albuquerque insurance man, left yesterday for St. Louis.

H. D. Hallet was down from Watrous yesterday.

W. F. Degner, who has been visiting his daughter and son here, yesterday returned to his home at Raton.

W. B. Childers, United States attorney, came up last night from Albuquerque to be present at the trial of the Fort Sumner postoffice robbers.

Frank J. Buck, the engineer for the Tecolote Mill company, arrived last night from Denver and will go out to the mines tomorrow to look over the ground and get things ready for the erection of the mill.

Mrs. A. J. Gilbert and daughter, Miss Grace, left yesterday for Deming.

Robert Hayward left today for Santa Rosa on a sheep deal.

Mrs. William Hunter and family came up last evening from Santa Rosa for a visit here with friends.

H. C. Williams left this afternoon for Santa Rosa to buy some sheep.

Alfred Sena came down from Trinidad yesterday to visit with friends.

Rev. Jacob Kaplan will occupy the pulpit at the synagogue on Friday night. Rev. Kaplan is from Albuquerque and promises the congregation a good discourse.

The remains of Charles Jacobson, who died in the Ladies' home, were this afternoon shipped to Chicago to his wife. Mr. Jacobson carried \$1,000 insurance, which paid his funeral expenses.

United States court convened this morning at 10:15, with Judge Mills on the bench. The matter of the petition for bankruptcy in the case of A. A. Senecal was brought up and the court issued an order denying the petition and the case was dismissed. Mr. Senecal had skipped the country, he being in Canada.

The Fort Sumner robbers were next brought in and W. B. Bunker, as attorney for Massague, made a request for a separate trial, which was allowed by the court.

ed by the court.

As Attorney Heacock, of Albuquerque, had failed to put in an appearance for the defense of Witt Neil, G. P. Money took charge of his case, and the attorneys took Cook and Nell to a side room, with the deputies on guard at the door, to confer with their clients. Extraordinary precautions are taken to prevent the escape of the prisoners, as it is realized the fellows are a desperate lot, Cook especially being cunning and a good planner for escape. The deputies will not breathe easy until they see the whole lot in the penitentiary.

As the attorneys were not ready to proceed with the defense, and there were no other cases ready for trial until the grand jury reported, court adjourned until tomorrow morning at 10 o'clock.

The first quarterly conference will be held tomorrow at the Methodist church. Superintendent Morrison will arrive this week to conduct the services.

Mrs. H. L. Monroe left this afternoon for Albuquerque.

W. A. Althoff, the machinery agent, did not get off to Santa Fe until this afternoon.

Judge H. L. Waldo returned this afternoon from his trip to Santa Fe.

B. F. Knight left this afternoon for Santa Fe.

Hon. Eugenio Romero left this afternoon for Santa Fe on a business trip.

A. J. Loomis is over from Santa Fe.

M. G. Vincent, sheriff of one of Kansas' good counties, left today with his wife for home, she having spent several months at the Mortezuma.

D. S. Cook and his two sons, D. S. Jr. and H. S., left this afternoon for Albuquerque. The young men have been staying at Pond's ranch.

Mrs. Williams, of New York, reported to be one of the richest women in the country, arrived here this morning in her private car "Colonia" on No. 8 and went to the springs. She went east on No. 2.

The sub-committee on territories of the United States senate arrived here this afternoon and were met at the depot by the Las Vegas military band and a large assemblage of Las Vegas citizens. Delegate Roday and J. Leahy, of Raton, accompanied the senators down from Raton, Mr. Roday having gone through last night to meet the senators.

In the party are Senators A. J. Beveridge, of Indiana; H. E. Burnham, of New Hampshire; Henry Heitfeld, of Idaho, and N. P. Dillingham, of Vermont. The rest of the party will join the committee later, they being unable to join the committee on the start.

With the senators are L. G. Rothschild, a friend of Senator Beveridge, and lieutenant to the commission; Thomas P. Ship, private secretary to Senator Beveridge and secretary of the commission; State Senator Osborn, of Indiana, official reporter; S. A. Henshaw, messenger, and J. Simon, of Washington, interpreter.

The senators and party took dinner at the Castaneda and then went up stairs to a room where they held a consultation and got down to business for a short time.

At this session the United States court officials were examined on various matters and this afternoon a large number of the court dockets were brought over for inspection.

After this short session, the senators, accompanied by several citizens, were driven over the city, and tonight at 7 o'clock there will be another session of the committee, at which a number of prominent citizens have been asked to be present to give testimony. Just what the testimony is not given out, the commission making that

part of their business secret. The senators are going at their work in a systematic manner and have a well formulated plan of operation.

The party will leave here tonight in their private car Chilli for Santa Fe, running as a special, and will take in that town tomorrow. Albuquerque is billed for about Friday, and possibly Socorro will get the next day. The senators are not traveling on any schedule, but will have to be back by the time congress convenes.

DEATH FROM PNEUMONIA.

James Hill Succumbs at His Home in Gila Hot Springs.

Word was received in Silver City Saturday evening that James Hill, one of the best known citizens of this section, had died that morning at his home at the Gila hot springs, says the Independent. He had returned a few days before from a prospecting trip, during which he contracted a severe cold, which developed into pneumonia. When his serious condition became apparent, a physician was summoned from Silver City, but death ensued before medical aid reached him.

Deceased was aged about 40 years, and is an old timer in this country, having spent the last twenty years in mining and stock raising. He is also an owner with his brother of the celebrated Gila hot springs. His brother, Spence, is at present in the east. Mr. Hill was unmarried, his relatives living in Kansas.

Mr. Hill was a quiet, unassuming man, who attended strictly to his own affairs, and who was scrupulously honest in all his dealings. He was highly respected and esteemed, and the news of his sudden death will be sad tidings to his many friends throughout southwestern New Mexico.

"THE KING OF TRAMPS."

Oliver Bainbridge Will be Here on Saturday of This Week.

Editors Citizen.

Holbrook, Ariz., Nov. 12.—Oliver Bainbridge, who has won for himself the title "King of Tramps," spent today at Holbrook visiting the school, talking and sketching to the children, meeting and talking with everybody in town, picking up many interesting facts. This evening he spoke in the school room by special request to a large audience who were charmed with the excellent entertainment he provided. Mr. Bainbridge has spent the last six years and four months wandering round the world and during that time has walked some 40,000 miles. His experiences are marvelous—shot and arrested as a spy in Turkey, lost in India, shot in New Zealand, imprisoned in Russia, shipwrecked, etc., etc. He carries documents from the greatest people of the day and the mayors of each city he has visited, proving his genuineness. He has been received by the heads of each country and had many honors conferred upon him. He is compiling an extensive work which is endorsed by press, pulpit and educational bodies. He is a

first class artist, newspaper man, poet, author, musician and various other things, is an excellent raconteur and companionable in the extreme. The Los Angeles Herald says: "He is worth meeting again and worth hearing always."

Rev. W. L. Lashley Hall, B. C., says: "His English good breeding will speak for itself."

The people of Albuquerque can look forward to an evening of the most unique and enjoyable nature.

Pretty Child Dead.

Word comes from Santa Fe that the only child of Col. and Mrs. Max Frost—a bright little cherub of a boy—is dead, and in consequence that happy home, which the little fellow made so bright and cheerful, is now desolate and cheerless. The Citizen has no particulars of his death, but offers its condolence to the bereaved parents.

Pleasure and good time are on the program at the dance given by Mrs. Rose Berry at Odd Fellows' hall tonight.

Mr. Blair and Mr. Thomas, assisted by Mrs. Himoe will add greatly to the attractiveness of Miss Menaul's concert.

Free show Saturday begins at 3 p. m.; bring the children. Newcomer's big window.

South Broadway this afternoon.

The delegates who have arrived to
attend the first meeting of the three
days' convention are:

Rev. R. B. Wright and wife, mis-
sionaries to the Navajos at Two Grey
Hills, N. M.; N. B. Ralston, D. D., su-
perintendent of mission in Omaha;
Rev. E. Burch, of Raton; Rev. C. C.
Young, pastor of Roswell; Frank Div-
ers, of Roswell; A. A. Eeman, of
Carlsbad, and visitors C. V. Brockway,
of Prescott, Ariz., and Mr. Freeman,
of El Paso.

Among those expected to arrive to-
night are: Rev. Warren H. Rishel, of
the Echo mission at Velarde, N. M.;

R. J. Turnbull came in from Gallup
yesterday and will leave tonight for
Denver, where he will secure the ser-
vice of a first class well driller. Mr.
Turnbull is a member of the Manu-
oil company and is convinced that oil
exists in unknown quantities in that
vicinity. In any event, he will at once
inaugurate active work on his com-
pany's well and hopes to "strike it rich"
in a big flow of oil very soon.

There will be a regular convocation
of Rio Grande Chapter No. 4, Royal
Arch Masons this evening at 7:30, at

Jose G. Chaves, the well known live
stock adjuster for the Rio Grande di-
vision of the Santa Fe road, is in the
city, settling up several stock claims
against the company.

Street Commissioner Martin Tierney
is doing good work putting gravel on
the street crossing.

W. J. Templeton, machinist in the lo-
cal shops, is enjoying a few days' lay
off.

Another Handsome Building.

Bachechi & Gloml, the first street
wholesale liquor merchants, will, in
the next few months, have a fine three
story building of their own to occupy.
As previously stated they purchased
two fine business lots at the corner of
First street and Silver avenue. Today
they let the contract to B. Berardinelli
to do the excavation and the stone
foundation work, and the contractor
hopes to be able to start at his work
in a few days. The building will be
three stories high, with cellar, and
will cost in the neighborhood of \$30,-
000.

MINING MEN.

Capt. A. B. Fitch and C. T. Brown in
the City.

Capt. A. B. Fitch, lessee of the Gra-
phic mine in the Magdalena mountains
and general manager of the Graphic
smelter at Magdalena, and C. T.
Brown, the big Socorro county mining
man, are in the city on matters con-
nected with the Socorro county elec-
tion contest case, which is being tried
in the district court here today.

Tonight the gentlemen will go to Denver,
where they will have some zinc-lead
sulphate ores assayed, and if the as-
says prove satisfactory they will im-
mediately buy machinery for a plant
to reduce them.

The Graphic and other Socorro county
mining properties owned by these
gentlemen and their associates are
rich in these ores and if a process to
reduce them can be found the good
times for the Gem city and Magdalena
are not yet over.

Capt. Fitch is accompanied by his
son, Max, who is acting superintendent
of the Graphic. Max Fitch will not
go to Denver tonight but will return
to his home at Magdalena.

OBERLE STOCK COMPANY.

Opens at Colombo Hall Monday in

"The Lost Paradise."

The Oberle Stock company is said to
do very effective work in "The Lost
Paradise," the play in which it makes
its initial bow before an Albuquerque
audience next Monday night.

The work is by the late Prof. Henry
C. De Mille, an eminent writer on
economic questions. The story of the
piece deals with the struggle between
capital and labor. The scenes and in-
cidents of the drama center around a
large iron factory, and valuable pa-
tents and their history form the chief
events upon which the interest in the
story depends. A romance creeps into
the play to enliven the prosaic facts of
business life. A big strike causes
trouble and this intensifies the acts
with the real incidents of current
times.

Mr. Oberle appeared in the original
production of "The Lost Paradise" in
New York, ten years ago, and two
years later staged it for Charles Froh-
man in London.

NEWS OF THE CHURCHES

Something new in religious benevolence, soon to be announced, is a trust. It is not a combine, but a financial institution, to have most of the functions of the trust company. It will be a middle corporation, in that it will act with equal interest for the giver and the receiver. People decline, it is said, to deal directly with the mission and other benevolent organizations of the churches because such organizations represent themselves only. The proposed benevolent trust will be one step removed from these missionary societies. It will give expert and accurate information concerning all benevolent causes, and perhaps advice concerning them, but will not be committed to any of them, and the inquirer will be shielded by it from coming into contact with them unless the giver finally decides to disclose his or her identity. The project is to empower the benevolent trust to receive and administer funds for all benevolent purposes, educational and charitable as well as missionary, but to have it administer them through existing missionary and other benevolent agencies, and not create new distributive machinery. Some men of large money interest are connected with the plan, which is wholly new in benevolent administration.

Baptist Evangelists.

Baptists are to take pattern after Presbyterians in organized evangelism. They go a step farther than Presbyterians, however, in endeavoring to provide a distinct place in Baptist economy for the professional evangelist. At Winona, where many Baptist leaders assembled this season, a committee was named to set the matter before the churches. That committee has issued a statement, in which it sets forth three things. One of these asks each state convention to provide in the program of its next meeting for a discussion of the scriptural sphere and present need of trained evangelists. The second asks these conventions to appoint delegates to represent them in the denominational meeting already provided for in connection with the anniversaries in Buffalo next May. And the third recommendation is that state conventions appoint evangelistic committees, which shall promote conferences and revival services this winter. It is not expected that a national evangelistic committee can be named until the meeting at Buffalo next May. Some objection has been already heard among Baptists. One objection is the number of committees now at work. Another is the multiplication of agencies in the same fields. And a third is to evangelists themselves. In spite of these objections, however, Baptist leaders receive the recommendations as a whole, and show an inclination to comply with them.

General Booth's Work.

Gen. William Booth has been having large meetings in Canada and has held conferences with field officers. He began his tour in the United States on the 9th inst., to terminate the same in Boston early next February. He has suffered some during the trip in Canada from over-fatigue, due to advanced age, but for the most part is said to have shown his old time fire and enthusiasm. He expects to visit Columbus, Ohio, next Thursday, and begins in Chicago on November 15 a series of meetings that will cover six days. He goes to Minneapolis for Sunday, November 23, and spends the following week in the northwest. After that his tour takes him to Kansas City and to Denver, to Los Angeles and to San Francisco, where he concludes the calendar year. Early in January he expects to reach St. Joseph, Mo., and St. Louis, and winds up the month in Cincinnati, Cleveland, Pittsburgh and Washington, going to Boston by the way of Baltimore and Philadelphia. He is said to have declared often since his arrival a month ago that the Salvation Army in the United States and Canada is in better shape than he had expected to find it.

Work Among Cannibals.

The proposed sale of the Micronesian mission of the American board is not receiving unqualified approval of Congregationalists. At the recent meeting of the board the prudential committee was empowered to sell it if thought fit. The Caroline and Gilbert Islands in the Pacific, near the equator, belong to German and English flags respectively, and the proposition is to transfer the Caroline work to a German Lutheran society and the Gilbert Island work to the London Missionary society. One reason for the proposed sale is the difficulty of communication with the islands. At present the board is obliged to charter a vessel to reach them. Congregational pride is making itself felt, but this pride is pardonable, for work begun almost exactly fifty years ago in a region where cannibalism was common has resulted in forty-nine churches with above 5,000 members, and the occupation of more than thirty islands. The savage people have been tamed. On many islands heathenism cannot be found. Christian books are sold in large numbers and native ministers are in charge of more than 100 congregations. Even hospitals and orphan asylums are beginning to be common.

More Money for Episcopal Missions. The Episcopal board of missions has just closed its financial year. During nine months of that year the apportionment plan has been under experi-

ment, and has resulted in an increase of offerings of about \$140,000, and of the number of parishes and missions contributing about 1,000. This church resolved officially to undertake the raising of \$1,000,000 for missions, home and foreign, or about double the amount it had been raising. In carrying out of the instructions the managers of missions decided to make the stint, for the first year, \$750,000, or an increase of \$250,000. There are 6,500 parishes and missions, but until this year never more than 2,000 have ever sent any money to the board in any one twelve-months. Children in Episcopal Sunday schools contribute during Lent a little more than \$100,000, and women of the church another \$100,000. The result of the experiment during the first year is an increase of \$78,000 on the general fund, \$22,000 from the children and the women, and \$40,000 from general sources, making a total of \$650,000, or about \$100,000 short of the goal. This does not mean that debt has been incurred, merely that not all has been raised that was hoped for. Some criticism has been heard, but not much, and some dioceses, especially western ones, have given all and more than asked for. Inequalities are to be adjusted and another attempt made next year.

Brotherhood of St. Andrew.

The Brotherhood of St. Andrew, which has long been burdened with debt, succeeded last year in squaring up everything and at its session just held in Boston it raised \$10,000 with which to map out work for the year beginning in November. It is supposed to add to the present force of one traveling secretary, four district secretaries and one secretary who shall give his entire time to the junior department, which department is developing rapidly. One of the two secretaries already selected is to work on the Pacific coast, coming as far east as Denver, and the other will look after New England. Efforts are to be made greatly to increase the number of chapters, only about one in four Episcopal parishes in the country now having chapters. The slight change will, it is said, retain in membership the middle-aged men already in the ranks, and may result in bringing in elderly men who have heretofore declined to undertake the specific task of getting one young man to attend religious service with them on a given Sunday. The brotherhood will meet next year in Denver.

Easy Money for Missions.

Rev. C. H. Daniels, one of the secretaries of the American board, gives as one reason among others why religious conditions are improving, and why there is larger interest in missions than formerly, the fact that during the past year, when appeals have had to be made to secure contributions large enough to keep the board's income at its old level, in spite of the paying off of \$100,000 indebtedness, grumbling has been heard less than ever before. The experience of those who mail out 25,000 letters, or even 50,000, to as many people known to be able to give something for the missionary cause, say anything from \$1 to \$1,000, is usually to receive in reply as soon as the mail will bring them, letters of a more or less abusive character. Hardly any such letters have been received by the American board this year, either in response to appeals or to notices of debt subscriptions due. Rev. Daniels says he counts it remarkable that he cannot recall a single rebuff. The debt subscriptions were not only all paid, but the amount subscribed was exceeded in actual cash by \$1,000.

Immense Charity Funds.

The benevolent crop is growing as rapidly as is the wheat or the corn crop. That is, the total of all gifts to benevolence increases in this country by leaps and bounds. America has not yet reached the level of England, because not yet the financial center, but it is in fact overtaking it. No records of benevolence that are at all adequate are kept. Those that are kept are of gifts above \$5,000, and they are recorded by private persons. Some place the total annual benevolence at \$60,000,000, others at \$80,000,000, for last returns. That most figures are mere guesses is shown by their variance. It is to be one of the tasks of the new benevolent trust to keep an accurate record of all gifts, made through it or

POWERFUL FOOD

That Can Lift You Out of Bed.

The proper food to build up the system after an attack of illness, or any other time, is important to know about. "Last year, I had typhoid malarial fever," says a lady in Manila, I. A., "and it left me so weak I could scarcely turn in bed. I was very nervous, the least noise annoyed me, and I could hardly eat anything. "A friend recommended Grape-Nuts food, thinking me I would like that and I did. I commenced gaining strength, and am now able to walk around out of doors, having gained over twenty pounds, and Grape-Nuts did it. "My little brother used to be thin and pale. Although he seemed to eat enough food, what he did eat did him no good. He was put on Grape-Nuts regularly and is now strong and well and gaining fast in flesh. I recommend Grape-Nuts to all who are weak and run down." Names given by Postum Co., Battle Creek, Mich.

otherwise, and to publish the same. Missionary benevolence is rapidly increasing, and is likely, so experts say, to supplant for a time the wave of educational benevolence that has, for the last ten years, been sweeping over the country. The tendency is now toward missionary causes rather than educational ones. Faith is larger in missionary causes than it was ten years ago.

Round the World Trip.

It has been settled that the North German Lloyd S. S. Grosser Kurfurst will take the round-the-world Sunday school commission, and the date of departure from New York is definitely fixed at March 9, 1904. The party will number, it is estimated, about 800 persons, and the trip will cover seventy-one days. Seventeen days will be spent in Palestine, part of them in attendance upon the world's Sunday school convention in Jerusalem. Constantinople, Athens, Rome, Algiers and Smyrna are in the route. Plans are now making to merge at Gibraltar the European section coming from Scotland and England, and which is expected will number as many as the American party. A part of the trip, and that the essential part, will be afforded, it is said, for about \$300.

Adopt Advanced Courses.

Presbyterians take the initiative in an effort to provide their Sunday schools with courses of study for advanced scholars. The recent Sunday school convention in Denver undertook to provide in the international series advanced courses, but at the last moment were prevented by a conservative element, which some have gone so far as to pronounce reactionary. Some friction has developed, and in part because of it one old member of the Sunday school committee failed of re-election. Now the Presbyterians, in their recent alliance, direct the selection of an advanced course. In doing so they are quick to say that they have no particular opposition to the international series, but feel that the series having failed to meet a clear demand, they are compelled to act on their own account.

BANDITS AT WORK.

They Hold Up Mining Men and Compel Them to Give Up.

Reports of a daring hold up perpetrated Saturday near Cananea have just reached this place, says a dispatch from Tucson, Arizona.

Three masked men broke into the offices of the Sierra de Cobre Mining company and at the point of rifles compelled M. E. Cassidy, store manager and F. A. Privo, general mine superintendent, to hand over all the money in the safe, which amounted to a little over \$2,000 in silver. About 9 o'clock at night the robbers rode into camp and knocking on the door of the general offices of the company demanded admittance. When this was refused they began to shoot up the building forcing those within to open up, as they were too poorly armed to make any defense. Once inside the robbers compelled the store manager to hand over the money and then commanded Messrs. Privo and Cassidy and two clerks to turn their faces to the wall and hold up their hands. When this command was obeyed the robbers went out, mounted their horses and rode away. A general alarm was given, and a posse organized in pursuit, but the night was so dark and the country so broken that the chase had to be abandoned. A large reward has been offered.

Sierra de Cobre officials have a complete description of the outlaws and it is believed that they are not novices but bandits who had taken refuge in the mountains back of the camp and were perfectly familiar with the situation.

Railroad Topics

THE CUT OFF.

What a Topeka Paper Has to Say on the Subject.

The Topeka State Journal of November 11 gives a cut view of the route surveyed for the proposed Santa Fe cut off, and in connection with the illustration says:

"The Santa Fe is preparing to build nearly 400 miles of new railroad in New Mexico. The work will be commenced at once, the company which builds the road being called the Eastern Railway of New Mexico company. The main line will extend from Topeka, on the Pecos Valley line of the Santa Fe, to Rio Puerco, thirty-four miles from Albuquerque, crossing the Rio Grande at Belen.

"A branch line is proposed from Rio Puerco to La Joya, and from La Joya to a point on the main line near Abo Pass. This is to shorten the distance to El Paso, both from the east and west.

"Another branch line is proposed to start at Brazil Springs and run south-west to the New Mexico border, crossing the Pecos lines at Portales. It is no doubt the intention that this line shall at some future time be extended across the Texas border, and form a direct line to the Gulf."

A Violent Attack of Croup Cured.
"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists.

FAULKNER IS CHAIRMAN.

Looking After Building of the El Paso Union Depot.

E. O. Faulkner, of Topeka, assistant general manager of the Santa Fe, is chairman of a committee appointed by the general managers to build a union depot at El Paso. To a reporter for the El Paso Times, Mr. Faulkner said that the design of the union depot would be modern in every respect and imposing. It will be, in certain parts, a two-story structure and will cost about \$100,000, which, with the additional cost of real estate and terminal facilities, will entail a total cost of \$250,000.

If the deal now in negotiation for the two and one-half acre strip of ground goes through, the railroad committee will immediately report the fact to the general managers of the roads, who in all likelihood will meet again within thirty days and take final action as to the immediate building of the depot. At that meeting a union depot company will be organized and officers, including a superintendent of construction, elected. The work will be in the hands of this officer when elected.

In the meantime all of the engineers

of the various roads will be asked to submit plans suggesting a design for the structure and grounds, and the best or a composite of all of them will be selected. Immediately following this meeting the work will be commenced and within six months El Paso will have a union depot.

Mr. Faulkner also said that if everything turns out satisfactorily today, the committee would go before the El Paso council next Thursday night and ask for the passage of an ordinance vacating the streets desired to be vacated and opening the proposed new street.

A Thanksgiving Dinner.

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membranes lining the stomach, exposes the nerves of the stomach, producing a swelling after eating, heartburn, headache, sour risings and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures the catarrh. Kodol cures indigestion, dyspepsia, all stomach troubles by cleansing and sweetening the glands of the stomach. J. H. O'Reilly & Co.; B. H. Briggs & Co.

ORIENT PEOPLE BUSY.

New Line Is Rapidly Buying Its Equipment.

The Orient railroad is buying its equipment now, and in every case the manufacturers are urged to make as early a delivery as possible. For the purpose of preventing any delay which might arise from a rush of orders the road is getting a portion of its rails and engines in England. Ira C. Hubbard, general purchasing agent for the Kansas City, Mexico & Orient railway, in speaking about the matter yesterday, said:

"The Orient railway is buying rails and locomotives in both Europe and America. There have been few delays in shipping during the last few months. We are buying some rails in England, but there is very little difference in cost between American and foreign made rails."

He Could Hardly Get Up.

P. H. Duffy of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Alvarado Pharmacy.

Additional men have been put to work all along the Rock Island right of way between Dallas and Fort Worth. The work of grading is being rapidly pushed, and it is the opinion of the chief engineer here that the road will run its trains into Dallas by February 1.

Try our lemon and mint pies.—Mrs. Albers, 501 Keleher avenue.

New Freight Depot.

Next Monday morning the officers and clerks of the local freight and telegraphic departments of the Santa Fe will begin business in their comfortable and handsome quarters in the new freight house. After many days waiting the building has been finished and next Sunday the moving from the old house will be done. The new offices are elegant at every appointment. The exterior is of the Spanish stucco architecture followed in the building of the Alvarado and the interior is finished and furnished with oiled oak. The offices of Agent F. L. Myers, his chief clerk, cashier and all the officers that will be seen by the public, will be located on the second floor. The telegraph offices and the desks of clerks are not to be seen by the public.

An attractive feature about the exterior of the building that has not been mentioned by the press, is "Santa Fe" in bold faced gilded letters. The freight sheds and platforms are ample to accommodate comfortably all the business the Santa Fe will do in Albuquerque for many years to come.

A Liberal Offer.

The undersigned will give a free sample of Chamberlain's Stomach and Liver Tablets to any one wanting a reliable remedy for disorders of the stomach, biliousness or constipation. This is a new remedy and a good one. All druggists.

It was announced that J. T. Odell, formerly assistant general manager of the Northern Pacific, had been elected a member of the board of directors of the Kansas City, Mexican & Orient. It is said that Mr. Odell, who is an expert in railroad construction, will go with the Orient in an executive capacity.

One Minute Cough Cure

Is the only harmless cough cure that gives quick relief. Cures coughs, colds, croup, bronchitis, whooping cough, pneumonia, asthma, la grippe, and all throat, chest and lung troubles. I got soaked by rain, says Gertrude E. Penner, Muncie, Ind., and contracted a severe cold and cough. I failed rapidly; lost 48 lbs. My druggist recommended One Minute Cough Cure. The first bottle brought relief; several cured me. I am back to my old weight, 148 lbs. One Minute Cough Cure cuts the phlegm, relieves the cough at once, draws out inflammation, cures croup. An ideal remedy for children. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Seldom has the Northwestern railroad world been so stirred as it is now by the unknown fate of Superintendent Benjamin F. Egan of the Great Northern, who is either lying dead in some unfrequented spot or wandering lost among the mountains of Montana. A tribute to the man is the offer of a reward of \$500 by the employees of the Breckenridge division of the Great Northern for finding Mr. Egan. Mr. Egan's standing with his employers is shown by the offer of a similar reward by the Great Northern.

Anxious Moments.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons it can be safely given. Alvarado Pharmacy.

Alexander Patterson, who formerly worked for the Santa Fe in this city, is now working in the blacksmith shop at Topeka.

Startling, But True.

"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempstons, Pa., "you'd sell all you have in a day. Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles. 25c at all drug stores.

Louis Ullivari, of Santa Fe, yesterday quietly celebrated the twentieth anniversary of his entrance into the employ of the Santa Fe Railway company. He first went to work for the railroad at Las Vegas and now runs between Santa Fe and Lamy.

Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. Alvarado Pharmacy.

The annual report of the Union Pacific Railway company was made public. The total income was \$26,521,655, against \$20,919,279 last year, the surplus over fixed charges was \$14,532,175 as compared with \$12,568,090 last year and the surplus after the payment of all dividends was \$6,315,961, as against \$4,554,081 last year. The report says that a failure of the corn crop in one locality tapped by the Union Pacific lines was nearly offset by an extra yield of the crops on other parts of the system and an enormous increase in shipments of industrial products made a gross increase in all shipments.

BOUND AS A DOLLAR

That is the result of a course of treatment with Scott's Emulsion. We have special reference to persons with weak lungs and sensitive throats.

Scott's Emulsion does some things better than others. This is one of them. It has a peculiar action on the throat and lungs which gives them strength and makes them tough.

That's how Scott's Emulsion drives out coughs, colds and bronchitis. It keeps them out, too.

We'll send you a little to try, if you like. Write to J. C. DOWNE, 409 Pearl street.

There was appropriated from the year's income \$2,000,000 for betterments, improvements and equipment, an increase of \$500,000. The capital stock was increased \$2,016,257 and the funded debt decreased \$894,600.

W. A. Herren of Finch, Ark., writes, "I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors had given up." Alvarado Pharmacy.

N. A. Kinsworthy, working in the Santa Fe yards at Deming, had two ribs broken from the breast bone, by getting caught under two wheels that he was routing off to repair. He is resting easily at his home and will be out in a few weeks.

Cut this out and take it to any druggist and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They cleanse and invigorate the stomach, improve the appetite and regulate the bowels. Regular size 25c per box.

Harry King has left the employ of the Bixbee railroad company at Deming and accepted a position with the Southern Pacific railway, as night clerk.

If you are bilious and seeking advisers,

Take Dr. Wm.'s Little Early Risers, Just before going to bed. You will find on the morrow. You are rid of your sorrow—That's all; just enough said.

These famous pills do not gripe, but move the bowels gently and easily, cleansing the liver. Their tonic effect gives strength to the glands, preventing a return of the disorder. J. H. O'Reilly & Co.; B. H. Briggs & Co.

The Bixbee railroad will run its first train into El Paso next Sunday.

C. G. Gorman, Santa Fe operator at Lamy Junction, has resigned and gone east.

Asleep Amid Flames.

Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Fancied security, and death near. It's that way when you neglect coughs and colds. Don't do it. Dr. King's New Discovery for Consumption gives perfect protection against all Throat, Chest and Lung Troubles. Keep it near, and avoid suffering, death and doctor's bills. A tea-spoonful stops a late cough, persistent use and most stubborn. Harmless and nice tasting, its guaranteed to satisfy by all druggists. Price 50c and \$1.00. Trial bottles free.

The guard bars at the railway crossings on Railroad avenue are being painted white. More than one absent-minded pedestrian has had his hat doffed or his head bumped by the old dingy red ones formerly used.

CAUSE OF FALLING HAIR

Dandruff, Which Is a Germ Disease—Kill the Germ.

Falling hair is caused by dandruff, which is a germ disease. The germ in burrowing into the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out, digs up the cuticle in little scales, called dandruff or scurf. You can't stop the falling hair without curing the dandruff, and you can't cure the dandruff without killing the dandruff germ. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills the dandruff germ. Herpicide is also a delightful hair dressing. Send 10 cents in stamps for sample to The Herpicide Co., Dept. "F," Detroit, Mich.

Elks' Carnival, El Paso, Texas. Santa Fe will sell tickets from Albuquerque to El Paso and return at rate of \$12. Tickets on sale November 9 to 14 inclusive, good to return November 17. F. L. Myers, agent.

BAPTIZED IN BLOOD.

Golden State Limited Killed a Bull on First Trip.

The first east bound Golden State Limited, the Rock Island's new transcontinental train, came to grief near Lordsburg, N. M., last week, while speeding away to El Paso. There was a big red bull that hadn't heard of the new rolling palace. So the big beast planted himself in the center of the track and when the engineer sounded a loud warning, the bull didn't seem to hear at all. It was over in an instant with the bull; but his fragments got badly tangled up in the running gear and it was necessary for the engine crew to perform a few surgical operations to get the spinal column untangled from the driving rods.

Luck in Thirteen.

By sending 13 miles Wm. Spirey, of Walton Furnace, Vt., got a box of Bucklen's Arnica Salve, that wholly cured a horrible Fever Sore on his leg. Nothing else could. Positively cures Bruises, Felons, Ulcers, Eruptions, Boils, Burns, Corns and Piles. Only 25c. Guaranteed by all druggists.

Penitentiary Bird Returns to Roost—Death of an Attorney.

Bolesio Romero, of Los Lunas, county clerk of Valencia county, is here on business.

Mr. and Mrs. Frank Diebert and children returned to town from a month's visit to their old home at Enreka, Kansas.

District Court Clerk A. M. Bergere returned to town from a visit to his sheep ranches near Estancia, Valencia county, and Las Vegas.

The remains of the late Eugene A. Davis, of New York, were taken back to his home for burial by his mother. Mr. Davis was attorney for the American Security company of New York for eleven years, and was 33 years old. Since May last he had suffered from heart trouble and remittent fever and came here about two weeks ago. He was a relative of Mrs. R. L. Baca, at whose home he died Monday.

John Gray, who for several years was a resident of the city and who left here in 1892 for the state of Washington, has been a resident of the city of Spokane in that state since that time. A marked copy of the Spokane Spokesman-Review received at this office, brings the news that at the recent election he was elected a member of the house of representatives of the legislature from Spokane county on the democratic ticket.

Crescencio Carillo, one of the two prisoners who escaped from the stone quarry north of town from the penitentiary guards on October 8 last, knocked at the gates of the penitentiary last night and gave himself up. It seems the poor fellow was better off in the penitentiary than outside of it. His term of imprisonment would have expired in April next, but owing to his escape he has forfeited the good time allowed him for previous good behavior and will have to remain in the prison several months longer.

The Best Remedy for Diarrhoea.

"Some years ago, while at Martinsburg, W. V., I was taken with cholera morbus, which was followed by diarrhoea. The doctor's medicine did me no good. I was advised to get a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I did, and it cured me sound and well. G. A. Morris, Embreeville, Pa. Sold by all druggists.

MARCHED AT PISTOL POINT.

How a Roswell Woman Treated Her Tormentor.

Mrs. Kate Vanstan, who runs a rooming house and clothes-repairing establishment on Second street, had an exciting time with an intruder in the early hours of Monday morning, says the Roswell Register. Mrs. Vanstan was at work on some clothing when a rap at the door startled her, for it was in the neighborhood of 2 o'clock. She found a man at the door when she opened it in answer to the summons, and he informed the lady that he wanted a room for the night. As the office for the rooming house is in the next room Mrs. Vanstan told the man to go to that door and she would show him to a room.

She went into the office and opened the door but the man was then nowhere to be seen. She had just returned to her task, when her door was again rapped. Again she told the man to go to the other door and again she failed to find him when she went to that door and she would show him to a room.

This aroused Mrs. Vanstan's ire and she rushed up the stairs to a porch on the floor above. Armed with a five-

shooter she meant to wing her tormentor if she could get a bead on him. But he was invisible. She returned to the room and then to the street, where she found him. Pointing the gun at him she ordered him to march, her intention being to take him to some officer, if she could find one; if not, to turn him over to some one else for safe keeping. When the Pecos Valley drug store was reached, the man backed a little and tripped his guard, who fell against the building. He then fell into a lively trot and, although Mrs. Vanstan emptied the contents of the revolver in his direction, he escaped. She thinks she could recognize him on sight and intends to keep a weather eye open.

Physicians Prescribe It.

Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for throat and lung troubles as this great medicine. Alvarado Pharmacy.

COMMERCIAL CLUB.

Organized at Silver City—Elected Officers—Rules Adopted.

The Silver City commercial club was made an assured fact at the meeting of the business men of that city, held the other evening at the San Vicente hotel. A prior meeting had been held at the same place a few evenings before, at which time the preliminaries were arranged and an adjournment taken until Monday evening in order to allow the committee appointed to draft the constitution and by laws time to report. Both gatherings were large and were composed of the most prominent representative business men and citizens.

After the reading and adoption of the constitution and by laws, the following officers were elected: President, Dr. E. L. Woods; vice president, C. C. Shoemaker; secretary, H. H. Betts; treasurer, W. F. Lorenz; committee on membership, one year, Sam Lindauer and C. W. Bayne; two years, H. G. Burgess and W. B. Walton; three years, M. W. Porterfield and T. L. Lowe. The membership of the new organization numbers nearly 150.
