## THEY PROTEST

### Operators Will Resist the United Mine Workers

### REMAINS OF JOHN W. MACKAY

### Prices of Stock Sharply Decline on the New York Market.

### A PENNSYLVANIA MINE ON FIRE

Washington, Nov. 12.—The reply of the Delaware & Lackawanna Railway company to President Mitchell's statement to the anthracite coal strike commission was made public today.

It is signed by W. H. Truesdale, president of the company, who says that the company owns twenty-five anthracite collieries and employs 12,000 workmen in this branch of its business.

Truesdale, like Baer, objects to making recognition of the union one of the issues to be considered by the commission, saying that in the proposition made by the company for arbitration one of the express conditions was "that the findings of the commission should govern the conditions of employment between it and its employees."

He adds: "This company unequivocally asserts that it will under no condition recognize or enter into any agreement with the association known as the United Mine Workers of America or any branch thereof; nor will it permit said association to say under which conditions it shall conduct its business."

Truesdale follows closely the lines of Baer's argument.

President Oliphant, of the Delaware & Hudson company, and President Fowler of the Scranton Coal company made statements of a similar nature. The statements made for the Lehigh and Pennsylvania companies cover the same ground.

### Coal Operators Resist.

Washington, Nov. 12.—That the anthracite coal owners will resist to the utmost every effort to make the recognition of the United Mine Workers of America an issue in the arbitration which is now in progress is made evident by the replies to the statement of President John Mitchell, of the miners' organization, which has been filed with the strike commission. There are five of these answers in addition to that of President Baer, which was given out yesterday and which dwells with especial emphasis and marked unanimity on this point. They also agree in resisting the demands of the miners for an increase of pay for piece work, reduction of hours for time work and for weighing rather than for measurement of coal.

Recorder Wright left for the anthracite region today, taking these replies with him.

### Remains of Mackay.

New York, Nov. 12.—Resting in a mortuary chapel, a large room between decks, having been fitted for that temporary use, the body of John W. Mackay arrived today on the White Star liner Oceanic from Liverpool. Mrs. Mackay and daughter, Princess Colonna, were passengers on the same steamer.

### STOCKS DECLINE.

Drop in Prices All Along the List of Stocks.

New York, Nov. 12.—Today's stock market opened with another movement, during which prices were lowered materially. More weak accounts were thrown overboard at the opening today and calls by the brokers to their customers for extra margins were numerous.

It was regarded as significant that much of the early selling came from houses with western connections, which suggested that the speculative contingent in that section had let go of long stock.

Amalgamated copper sold off over 100, but soon made a partial rally. Tennessee coal declined about 3 points in early dealings, and Erie common, against which it is believed pressure was directed, sold off 134. Heavy liquidation in Southern Pacific brought a maximum decline of almost two points. Texas & Pacific and Manhattan were each a point lower and recessions of less extent were common.

Supporting orders appeared in the market when the decline had gained good headway. Reading touched the lowest on the movement and St. Paul, sugar, Colorado Fuel and Amalgamated dipped sharply. On the rebound Manhattan, Norfolk & Western and

Canadian Pacific were lifted about a point over last night, but the list did not generally get back to the best.

### Horn to Hang.

Cheyenne, Nov. 12.—Judge Scott overruled the motion for a new trial for Horn, and sentenced him to be hanged January 9.

### Adverse Opinion.

Jefferson City, Mo., Nov. 12.—Judge Sherwood handed down the opinion of the supreme court sitting en banc today, which declared unconstitutional the state whisky tax law.

### Mine on Fire.

Shamokin, Pa., Nov. 12.—Burnside shaft, which employs 700 men and boys, was discovered on fire today. A large force of men are working desperately to extinguish the flames. All miners got out in safety.

Hon. L. B. Prince, of Santa Fe, is in the city.

## THE SENATORS.

### Albuquerque Delegation Met Them at Springer Today.

### HERE TOMORROW NIGHT.

The train which carried Delegate B. S. Rodey, Judge B. S. Baker, Councilman G. W. Harrison, Hon. W. B. Childers and ex-Mayor O. N. Marron to meet the senate committee left here at a late hour last night. The committee on this account were not able to reach Raton, but no doubt will meet the senators at Las Vegas.

Arrangements for the banquet at the Alvarado will be perfected some time during the stay of the senators in the city. All citizens who desire to attend this grand function will confer a favor on the committee by advising Secretary P. F. McCanna at once.

The banquet will no doubt be an affair of considerable interest. The senators will no doubt feel disposed to deliver favorable toasts on the foremost and important issue of the people—statehood.

Preceding the reception will be the brilliant reception and ball at the Commercial club, which will far surpass any social event which has ever taken place in the city. Here the ladies and gentlemen of Albuquerque's society will meet the distinguished senators.

Evidence of the energy and intelligence of the commonwealth will be taken from a social standpoint as well as from an industrial and resourceful view.

The committee in charge of the reception to the statehood senators held a meeting today and selected the following reception committee: Hon. H. B. Ferguson, chairman; T. S. Hubbell, E. V. Chaves, C. F. Myers, Summers Burkhardt, G. L. Brooks, Maynard Gussal, A. B. McMillan, P. W. Clancy and E. S. Stover. These gentlemen will make arrangements for meeting the senate committee on their arrival here and assist in the entertainment.

P. F. McCanna, secretary of the finance committee, has suggested that the leading merchants decorate their windows and store fronts with statehood signs. These decorations can be placed with very little trouble. The public spirit displayed in this manner will give good evidence of the prevailing sentiment and will make a favorable impression on the visitors. It is an almost decided fact that the party will reach here Thursday night, which will give ample time for the carrying out of this timely suggestion.

Everything seems to be favorable for an investigation as to the pre-eminence of the people of the territory of New Mexico for self government. Although the weather man somewhat shattered the theory of New Mexico's perpetual sunshine, yet our constant companion—sun—is in evidence against us and the prospects are that all traces of the unseasonable downpour will be removed, so that we may appear in our natural and sunny disposition. Even if the streets are slightly muddy, the other attractions of beauty and industry will be so much in prominence that little attention can be devoted to a street tinged with mud.

### Here Tomorrow Night.

P. F. McCanna, Secretary Commercial Club, Albuquerque, N. M.

Las Vegas, N. M., Nov. 12, 2 p. m.—Our train met senators at Springer, Beveridge, Dillingham, Burnham and Helfield only. They have full score of stenographers, partly well treated and cheered at Raton, Springer and Las Vegas. Large crowd and music. Governor Otero will be here at 3 p. m. The senators will remain here until late tonight and then leave for Santa Fe on special train. Perhaps Albuquerque tomorrow night and next day, but will let you know sure later.

## CUBAN TARIFF

### Proposed Reciprocity Treaty With That Country.

### NEW MINISTER TO GUATEMALA

### Employees of a Cereal Plant in Chicago on Strike.

### PROMOTION OF SEVERAL ARMY OFFICERS

Washington, Nov. 12.—An important conference bearing on the subject of the Cuban reciprocity treaty was held at the war department today, the participants being Secretary Hay, Secretary Root and Gen. Lasker Bliss. The latter was called into the conference at Secretary Hay's suggestion because of his expert knowledge of the existing Cuban tariff. Before the conference at the war department Secretary Hay talked on this subject with Senator Callom, chairman of the senate committee on foreign relations and also with Senator Quesada, the Cuban minister here. Quesada was not able to submit to Secretary Hay the draft of the reciprocity treaty which has been under consideration so long by the authorities at Havana, as the documents have not yet left that place.

The cardinal objection of President Palma to the treaty as it stands, is the insufficient rebate of 20 per cent proposed to be allowed on government imports into the United States, and Secretary Hay's purpose is to ascertain, if possible, how far this can yield in that matter and still be able to rely upon the support of congress at the next session when the treaty is submitted.

### MINISTER TO GUATEMALA.

Representative to That Volcanic Country Leads Stormy Life.

Washington, Nov. 12.—W. Godfrey Hunter has tendered his resignation as United States minister to Guatemala, and the president has accepted the resignation and has selected Leslie Combes, at present United States pension agent at Louisville, to succeed Dr. Hunter. Dr. Hunter is also minister to Honduras and Combes will likewise assume that post. Hunter has had a stormy career in Central America ever since he went there in 1897. It is assumed that he has at last become tired of the struggle, for it has been known for some time that he contemplated resigning. The place pays \$10,000 a year.

### STRIKE IN CHICAGO.

Employees of a Cereal Plant Want Increase of Wages.

Chicago, Nov. 12.—Over 300 employees of Ellsworth & Co.'s cereal plant struck today and the business is practically at a standstill. Later the strikers held a meeting and formed a cereal workers' union and it is asserted that the strike will spread to other cereal companies unless the demands are granted. A majority of the workers are girls and they have been receiving pay on the piece work plan, and under this arrangement the weekly wage ranged from \$6 to \$15. Now they demand a straight wage of \$12.50 as the minimum wage for a day's work and \$1.50 for night work.

### MAJOR GENERALS.

Three Brigadiers of the Army Will Be Promoted Next Year.

Washington, Nov. 12.—The slate for promotion to major generals to fill vacancies caused by retirements that will take place next year has been arranged. There will be three vacancies. General Hughes retiring April 11, General Davis July 26, and General Miles August 8. The latter is lieutenant general and will be succeeded by Major General Young. Brigadiers to be promoted to be major generals are James F. Wade, Samuel S. Sumner and Leonard Wood. These men are now the three ranking brigadier generals in the order named.

### STATEHOOD COMMITTEE.

Senate Investigating Committee Will Visit Santa Fe Tomorrow.

Las Vegas, N. M., Nov. 12.—A large number of citizens, headed by a brass band, turned out this morning to meet the United States senate committee on territories, which is on official trip to the territories asking admission into the union as states, entered New Mexico at 8 a. m. and made its first stop at Raton. From the territorial line to Las Vegas, where the committee took up the first official hearing immediately after their arrival, it was

greeted at each station by enthusiastic delegations of citizens, the school children and territorial officials, who were clamorous for a speech from Senator Beveridge, chairman of the committee, who, however, uniformly declined to say anything.

B. S. Rodey, territorial delegate; Judge Baker, of Albuquerque, and others boarded the train en route. After a meeting on the train the committee announced that they would have to refuse all offers of entertainment which would interfere with their work. From Las Vegas the committee will leave for Santa Fe.

### UP FROM MESILLA VALLEY.

J. A. Russell Passed Through City on His Way to Minneapolis.

J. A. Russell, formerly an employee of the Santa Fe station here, but now the owner of a valuable fruit and alfalfa farm in the valley south of Las Cruces, was in the city this morning between trains while en route to Minneapolis, Minn.

Mr. Russell says the Mesilla valley has been very dry the past few years, but the ranchmen in his vicinity now think that they have a scheme that will overcome this obstacle.

The Earlam Electric company made up of Denver capitalists, are instituting a 150 horse power pumping plant near Las Cruces that will furnish water during the dry season. The Mesilla valley is one of the richest districts along the Rio Grande and with an abundance of water will be very productive.

Mr. Russell said that the rain of yesterday and last night extended to Las Cruces if not farther.

## WILL MEET HERE.

### Freight and Passenger Representatives of the Santa Fe.

### GREAT SCARCITY OF CARS.

George Roe, the popular division freight and passenger agent of the Santa Fe road, with headquarters at El Paso, came in from the south this morning, and is putting in his time getting ideas and views from the local wholesale and retail merchants.

This afternoon, in company with J. H. Bearup, Mr. Roe visited that gentleman's big enterprise in course of erection just above the city and expressed himself well pleased with the proposition of Mr. Bearup and associates to give Albuquerque big woolen and cloth mills. H. W. Kelly, of Las Vegas, was also in the company.

In conversation with a Citizen representative, Mr. Roe stated that he was experiencing considerable trouble to secure cars to move the live stock of southern New Mexico to California. A request has been made for between 1,100 and 1,400 cars, and not half that number, at the present time, can be furnished.

"On December 8," said Mr. Roe, "the next annual meeting of the freight and passenger traffic representatives of the entire Santa Fe system, representing about a hundred all told, will be held in this city at the Alvarado hotel. The meeting will bring together traffic representatives whose headquarters are in New York and other eastern cities, besides those in the western cities and along the lines of the system. It will be a big meeting and the representatives will be in Albuquerque several days."

### Painters Union.

At a special meeting of the painters last night the following temporary officers were elected:

President—H. Beaubien.  
Vice President—A. Keavy.  
Financial Secretary—H. M. Munn.  
Recording Secretary—F. Jackels.  
Treasurer—L. Van.  
Conductor—J. Cosgrove.  
Warden—E. Lampman.  
Delegates to Trades' Council—H. M. Munn, C. Lampman, H. Beaubien.  
Business Agent—H. M. Munn.

### Love to Meet Feltz.

Baltimore, Md., Nov. 12.—Tommy Feltz, who claims the bantam weight championship of the world, will defend the title tonight against Tommy Love, the hard hitting little fighter of Philadelphia. The mill is to be for twenty rounds and is to be brought off under the auspices of the Eutaw Athletic club. The two fighters appear to be in fine fettle and an interesting bout is expected.

Representatives of eastern railroad construction contractors arrived in the city yesterday and today have been in conference with local railroad officials. Tonight they will go to Belen and from there they will go over the route of the Santa Fe short cut, with a view to bidding on the building of the road.

## LABOR CONGRESS

### Convention of American Federation of Labor.

### NAVY IS IN NEED OF OFFICERS

### Meeting of Catholic Archbishops at National Capital.

### MEETING OF VIRGINIA LEGISLATURE

New Orleans, La., Nov. 12.—More than a million and a half of workingmen and women throughout the country will watch with interest the opening of the twenty-second annual convention of the American Federation of Labor in Odd Fellows' hall tomorrow morning, and the work done there during the week will directly affect at least 800,000 persons. Delegates are arriving from all parts of the United States today. Some come from as far west as California and Oregon and some from Maine. There are delegates from Colorado, Montana, Nebraska and Minnesota and delegates from the regions bordering on the great lakes. All classes of labor, from the most skilled to the commonest and most poorly paid, are represented.

Two delegates, Messrs. Edwards and Arrandale, from the working men of Great Britain and Ireland, are here and will attend the convention to aid with advice and experience and to tell the American working classes how the old and successful trades unions of England operate.

Much important business is to come before the convention. Of the questions to be discussed, the leaders of the labor movement who are already on the field deem most important those arising from the recent action of the National Association of Manufacturers, in which they advocated organization as a counter movement to the organization of labor in the demand on congress for an eight-hour law and an anti-injunction law. "Recognition of union labor" will be the dominant note of the convention. It is quite probable that a memorial will be prepared for presentation to the labor committees of the house and senate, outlining more clearly the differences which have arisen between organized workmen and organized employers.

Of equal interest will be the discussion of the anthracite coal strike and the work of the arbitration commission. The United Mine Workers will urge the adoption of resolutions calling upon the commission to embody in its findings a recognition of the mine workers' union.

The convention will express dissatisfaction with the Chinese exclusion law passed by congress at the last session, and will ask re-submission of the exclusion measure originally presented.

Agitation for the bill requiring the branding of prison-made goods that enter into interstate commerce will also be renewed. The convention will also be urged to enter heartily into the agitation against child labor in the south.

There is nothing to indicate opposition to the present administration of the federation's affairs and President Gompers and Secretary Morrison, together with nearly all the other officers and committeemen, will probably be re-elected by acclamation.

### Navy in Need of Officers.

Washington, Nov. 12.—An examination of candidates for admission to the Naval academy was held in Washington today under the supervision of the civil service commission. This is rather an unusual time of year for such examinations, but this step was taken by the navy department on account of the urgent need of officers for the navy. About ninety candidates appeared to take the examination.

### CATHOLICS AT THE CAPITAL.

Archbishops of the United States Assemble at Washington.

Washington, Nov. 12.—The Catholic archbishops of the United States and a number of the prominent clergy are assembled in the city to attend the annual meetings of the board of trustees of the Catholic university and of the archbishops this week. That of the trustees of the university commenced today and promises to be the most important in the history of the body. A rector and vice-rector of the university and a trustee to take the place of the late Archbishop Corrigan will be chosen. The present rector is Bishop Thomas J. Conaty, of Worcester, Mass. Bishop Conaty has evinced a desire to retire from his position at the head of

the university, but it is believed that he will be prevailed upon to continue in charge, at least until there is a vacant see to which he can be promoted.

The meeting of the archbishops also possesses more than usual interest this year. The question of the independence of the Roman Catholic church in this country, that is, taking it out of its present status as a missionary country, has been much discussed of late and it is expected that it will be brought prominently to the front at the present meeting. It is considered as unlikely that the rail-pine question will be introduced, the archbishops being content to let the matter rest between Governor Taft and Mr. Guidi, apostolic delegate to the Philippines.

Ed. Billings, agent of "The Silver Dagger Company," registered in the city last night, and was around in consultation with Manager Matson, of the Colombo hall, today.

## BACK FROM ACOMA.

### Visit Among Indians Out West by the Harvey's Indian Curio Manager.

### INTERESTING INTERVIEW.

Manager Herman Switzer, of the Harvey Indian curio department, returned yesterday from a business trip to the Continental divide and Acoma.

Mr. Switzer left Saturday night with the Indian blanket weaver and hair maker, who returned to the reservation to attend to their cattle and sheep and look after their property before winter.

Many interesting places were visited by Mr. Switzer in his three days' sojourn among the Indians. He made the trip especially with the intention of securing several skilled blanket weavers and a few pottery makers to add to his industrial department, which has become a most unique and interesting addition to the curio rooms.

"There are many difficulties connected with the securing of Indians," said Mr. Switzer, "that would be satisfactory to place in our Indian rooms. There were many who were eager to come here, but they were mostly of the class who have seen too much of civilization to make good, steady workers. The kind of Indians we desire are those who are primitive; that live according to the customs and life of their race and are removed from any traces of civilized life."

"Yes," responded Manager Switzer, to the question as to whether his two former Indians would return, "I expect them next Saturday. After I found that I would not be able to obtain the class of Indians we desire, I persuaded them to return. They will bring with them another blanket weaver and a silversmith, which will make four Indians in our production room."

"The material for building their home will be brought with them and another hogan will be erected on the site for our future Indian village, which is sure to materialize, but it takes time."

"I saw many things of note while at Acoma. Of course, nearly everyone knows, who is acquainted with the Indians of the southwest that Acoma furnishes visions of antiquity that prove to be the most attractive in the southwest. The home of the cliff dwellers, and the traditional enchanted mesa, were very interesting. But the one particular evidence of industry and workmanship of early days was the old mission church at Acoma. I met a young Indian, a graduate of the Carlisle Indian school. He had discarded the dress of civilization and was clad in the characteristic garb of the tribe, living the life of his race. This place was visited with the intention of securing a few pottery makers, who are considered the finest in the world. But I was not successful in getting any as they are busy with the harvesting of their crops on the farms about twelve miles from Acoma. There were only a few at the farm, who were taking care of it, while the others were obtaining supplies for winter."

Mr. Switzer has devoted many years to the collection of Indian goods, and consequently had made it a study. He brought with him several fine baskets, which were added to the rare collection in the Indian rooms.

### Virginia Legislature Meets.

Richmond, Va., Nov. 12.—The Virginia legislature assembled in regular session today. More than the ordinary amount of business awaits the action of the legislature at the present time, owing in a measure to changes resulting from the putting into effect of the new state constitution.

J. B. Martin, a well known citizen of Cuba, up in the Nacimento country, is in the city today on business.

## GOING HUNTING

### President Roosevelt Will Hunt for Big Bear.

### BANKERS' ASSOCIATION MEETING

### The Republicans Carried the Election in the Hawaiian Islands.

### ANOTHER STRIKE IN CITY OF PITTSBURG

Pittsburg, Pa., Nov. 12.—President Roosevelt passed through Pittsburg at 10:30 o'clock this morning en route to a point in Mississippi, where he has arranged for several days' black bear hunt as the guest of President Fish of the Illinois Central railroad.

Bears are reported to be plentiful and there are also said to be some panthers in the vicinity, so that the president is looking forward to the sport with much pleasure. The train will be sidetracked at the nearest point to the camp and remain there until the president's return to Memphis next Wednesday.

The president was engaged on correspondence almost all morning, and during the short stop here to change engines the president got out of the car and paced upon and down the platform. A large crowd had gathered. After greeting them with a pleasant "good morning," the president stepped off the platform and took a brisk walk down the tracks, stopping occasionally to speak to a yard switchman or engineer in a cab on the siding. The train left at 10:41 for the west and as it pulled out the crowd cheered heartily. The president came out on the back platform and waved good bye.

### BANKERS' CONVENTION.

Proceedings of the National Association at New Orleans.

New Orleans, Nov. 12.—The second day's session of the American Bankers' association was resumed at 10 o'clock today after prayer by Bishop Rauxel.

Under suspension of the rules Col. Lowry, of Georgia, moved that Kittredge, secretary of the bureau of education, be allowed to say a few words about a bank clerks' institute.

Kittredge made a short verbal report in addition to the formal report made yesterday.

John T. Hamilton, chairman of the committee on fidelity insurance, took up the report of that committee which was formally presented yesterday.

The call of states was deferred until later. Discussion of the currency question then began.

Congressman Charles N. Fowler spoke on assets, currency and branch banking. The convention discussed the features of his bill ex tempore.

### REPUBLICAN VICTORY.

The G. O. P. Gobbles the Islands of the Pacific.

Honolulu, Nov. 5, via San Francisco, Cal., Nov. 12.—Elections yesterday resulted in a victory for the republican ticket. Prince Jonah Kihio Kalanialanale, the republican nominee, is elected as a delegate to congress, and the legislature will be republican in both houses, in spite of five home rule senators holding over from the last legislature, to three republicans. The result of the election, it is thought by republicans, will be the end of the home rule party and a division of the voters along the lines of republicanism and democracy, as on the main land. It is also regarded as disposing largely of the race issue, and the issue of royalism in Hawaii.

### Strike at Pittsburg.

Pittsburg, Nov. 12.—Fourteen crane men in the Schoenburger plant of the American Steel and Wire company, went out on a strike yesterday and as a result 250 men in the open hearth department were laid off today. The men assert that if the strike continues twenty-four hours the plate mill will have to shut down, throwing 150 workers out in that department.

### Confederate Daughters.

New Orleans, La., Nov. 12.—The business sessions of the ninth annual convention of the United Daughters of the Confederacy were got under way today under auspicious conditions. The attendance is unusually large, the delegates coming from Texas, Arkansas, Mississippi, Georgia and neighboring states, while California this year has also sent a large delegation. The visitors are being royally entertained by the local Daughters and affiliated societies.

dent since the civil war that has con-

chance.

## THE SIZE OF THE ARMY.

The final step in bringing the army  
to a peace footing was taken recently  
when Secretary Root completed an or-  
der for reducing the military forces of  
the United States by some 7,000 men.  
The first step was taken on May 31  
last, when an order was issued reduc-  
ing the army by about 11,000 men; the  
new order puts it again on a peace  
footing after four years and six months  
of war strength.The army was increased at the out-  
break of the Spanish war, and its  
strength was further enlarged by the  
act of February, 1901, which fixed the  
permanent force at not more than 88,  
000, exclusive of Philippine native  
troops.The army was never raised to its  
full strength, however; and the new  
order calls for its gradual reduction  
from 66,497, its strength since June 1,  
to 59,866 men. No discharges are to  
be made to bring about this diminu-  
tion, but recruiting will be relaxed and  
vacancies in the ranks occurring natu-  
rally will not be filled.

## SHOULD VISIT EL PASO.

The El Paso News says: "Senator  
Beveridge and his territorial commit-  
tee should journey to El Paso from  
New Mexico to see the real metropolis  
of the territory, outside the border it  
is true, but the next of kin. One mem-  
ber of the committee is Senator Blair,  
of Tennessee, an old time friend, visit-  
or and property owner of El Paso, who

## HOW ARIZONA GROWS.

A splendid showing of Arizona's pro-  
gress, says the Los Angeles Herald, is  
made in the annual report of Governor  
Brodie to the federal secretary of the  
interior. The population of the terri-  
tory has increased, since the census of  
1900, from 122,000 to 140,000. During  
the ten years prior to that census the  
population more than doubled; increas-  
ing from 59,620, as enumerated in 1890.  
The substantial wealth of Arizona is  
indicated in the statement that "the  
total official assessment of the terri-  
tory amounts to \$39,083,177."In respect to the future of Arizona  
the governor shows, relative to the ag-  
ricultural prospect, that the territory  
has 10,000,000 acres of land suitable  
for cultivation by means of irrigation.  
Only 10 per cent of that great area is  
now utilized. Governor Brodie makes  
a plausible appeal for the first prac-  
tical application of the federal irriga-  
tion act. He argues that "nowhere in  
the United States can be found a more  
productive soil or so large areas that  
can be made ready for irrigation with  
so small an expenditure, and a climate  
so mild as to allow the successful cul-  
tivation of all semi-tropical plants,  
which, in conjunction with the fertility  
of the soil, produces so large an an-  
nual return per acre."

**IT SCARES PEOPLE**

Who come of a consumptive fam-  
ily when they begin to cough and  
the lungs are painful. But it is a  
fact beyond disproof that con-  
sumption is not and cannot be in-  
herited. The microbe which breeds  
disease must absolutely be received  
by the individual before consump-  
tion can be developed.

Men and women who have been af-  
flicted with obstinate coughs, bron-  
chitis, bleeding of the lungs, emacia-  
tion and weakness, have been perfectly  
and permanently cured by the use of  
Dr. Pierce's Golden Medical Discovery.  
It cures the cough, heals the lungs,  
builds up the body with solid flesh.

"When I commenced taking your medicine,  
eighteen months ago my health was com-  
pletely broken down," writes Mrs. Cora L. Sunderland,  
of Chauceryville, Calvert Co., Md. "At times I  
could not even walk across the room without  
pains in my chest. The doctor who attended me  
said I had lung trouble, and that I would never be  
well again. I last concluded to try Doctor  
Pierce's medicine. I bought a bottle of 'Golden  
Medical Discovery,' took it, and soon com-  
menced to feel a little better. Then you directed  
me to take both the 'Golden Medical Discovery'  
and the 'Favorite Prescription,' which I did.  
I am now almost entirely well, and do all  
my work without any pain whatever, and can  
run with more ease than I could formerly walk."

Dr. Pierce's Common Sense Medical  
Adviser, in paper covers, is sent free on  
receipt of 21 one-cent stamps to cover  
expense of mailing only. Address Dr.  
R. V. Pierce, Buffalo, N. Y.

## CRUSHED TO DEATH.

Fatal Accident at a Turquoise Mine in  
the Burro Mountains.The turquoise camp of the Azure  
Mining company, in the Burro moun-  
tains, about fifteen miles from Silver  
City, was the scene of a fatal accident  
Saturday afternoon, Pedro Perea, a  
miner in the employ of the company,  
being crushed to death by falling rock.The accident occurred in the large  
open cut out of which the turquoise is  
taken. Perea and some companions  
were at work in the bottom, when,  
without an instant's warning, a large  
mass of rock and dirt caved in from  
the top, burying Perea beneath it, and  
narrowly escaped catching two other  
men, Ricardo Barela and Teodoro So-  
lis.The alarm was at once given and  
willing hands started to extricate the  
unfortunate man. When found half an  
hour later, life was extinct, having  
been crushed out when the landslide  
took place. The body was badly cut  
and bruised, but death had undoubt-  
edly been caused by suffocation. Barela  
was bruised about the left leg and  
shoulder, but his injuries are not seri-  
ous. Those sustained by Soles are of  
even less consequence.Perea came to Grant county from  
Dona Ana county and has been here  
about a year, his family, consisting of  
a wife and four children, living at Sil-  
ver City. He was a hard working and  
industrious fellow and is well spoken  
of by those who knew him.—Silver  
City Independent.

## CHANGE OF LIFE.

Some sensible advice to women passing through this trying period.

The painful and annoying symptoms experienced by most women at this period of life are easily overcome by Lydia E. Pinkham's Vegetable Compound. It is especially designed to meet the needs of woman's system at the trying time of change of life.

It is no exaggeration to state that Mrs. Pinkham has over 6000 letters like the following proving the great value of her medicine for such times.

"I wish to thank Mrs. Pinkham for what her medicine has done for me. My trouble was change of life. Four years ago my health began to fail, my head began to grow dizzy, my eyes pained me, and at times it seemed as if my back would fall me, had terrible pains across the kidneys. Hot flashes were very frequent and trying. A friend advised me to try Lydia E. Pinkham's Vegetable Compound. I have taken six bottles of it and am to-day free from those troubles. I cannot speak in high enough terms of the medicine. I recommend it to all and wish every suffering woman would give it a trial."—Bella Ross, 88 Montclair Ave., Roslindale, Mass.—\$5000 for full original of above letter proving genuineness cannot be produced.

## NEARING THE SANDSTONE.

Drilling for Oil at Raton is Being Pushed by Day and Night.

The drill of the Raton Oil and Gas company is now being kept at work day and night and the well is down about 2,620 feet. From 15 to 20 feet a day is being made. After examining the drillings taken at 2,600 feet, Professor Arthur Lokes, a Colorado geologist, says the drill is passing through the shale just above the Dakota sandstone. The layer is estimated to be between 50 and 60 feet thick. The Dakota sandstone is the proven oil reservoir of Wyoming and of Trinchera, Colo., 16 miles from Raton.

There is a strike among the miners of the Raton Coal and Coke company. ## Best Liniment on Earth.

I. M. McManey, Greenville, Texas, writes, Nov. 2, 1900: "I had rheumatism last winter, was down in bed six weeks; tried everything, but got no relief, till a friend gave me a part of a bottle of Ballard's Snow Liniment. I used it and got two more bottles. It cured me and I haven't felt any rheumatism since. I can recommend Snow Liniment to be the best liniment on earth for rheumatism." For rheumatic, sciatic or neuralgic pains, rub in Ballard's Snow Liniment, you will not suffer long, but will be gratified with a speedy and effective cure. 25c, 50c and \$1.00 at Cosmopolitan Pharmacy, B. Peculiar Minerals for St. Louis Fair.

Dr. W. S. Ward, field commissioner of the St. Louis World's fair mineral exhibit, has produced some beautiful specimens that will be placed in the display. Among these are some slabs of onyx from the San Luis Obispo quarries, which offer fine samples of natural photography in their figure work. One of these represents a mountain cascade tumbling among the boulders the background being the face of a crag. Another brings out the face of Pope Leo XIII. hidden in a cowl, and still another seems to be the picture of two babies rolling about in the clouds.

## A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50c at all drug stores.

## NOT A PIPE DREAM.

Was Warnack's Story of His Love Affair and Subsequent Marriage.

In the parlors of the Windsor hotel, late yesterday afternoon, Henry C. Warnack and Mrs. Marguerite O'Connor-Elliott were married. The Rev. Henry A. Wood performed the ceremony. The marriage is one in which there are one or two unusual features. Mr. Warnack is employed on the editorial staff of the Rocky Mountain News and in Sunday morning's issue of that paper appeared the pictures of the couple and the story, written by Mr. Warnack, of their love affairs. In it Mr. Warnack intimated that his bride-to-be was then on her way to Denver from her home in Phoenix, Arizona, and that she was closely pursued by an irate father, who was strenuously opposed to the match.

Mrs. Elliott, who was divorced in Phoenix some time within the year, according to the marriage license issued yesterday, reached here in the morning and the ceremony proceeded without interruption. The father evidently decided to remain in Phoenix.—Denver Republican, Nov. 11.

Warnack a few months ago was city editor and poetry writer on the Las Vegas Optic. He passed through here three weeks ago from Phoenix for Denver, to accept a position as special writer on the Rocky Mountain News. Just before election, he was detailed to accompany Bryan in his tour of Colorado as the News representative.

## Jumped on a Ten Penny Nail.

The little daughter of J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Portland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all druggists.

## Hagerman's Big Apple Orchard.

A resume of the facts and figures of the big Hagerman apple orchard is as follows: There are 40,000 trees on 450 acres. The trees are about seven years old. Last year's crop was the first, and 15,000 bushels were harvested. This year the output of fine shipping apples was 69,800 bushels, while about 45,000 bushels of seconds and damaged fruit were evaporated and made into cider and vinegar. About \$25,000 was paid the railroad for marketing the fruit. There is a total of 60,000 trees on the place, but 20,000 are too young to bear. Besides this big orchard there are numerous small ones about Roswell, the Barnett in particular, yielding 6,200 bushels of prime apples from a 25-acre tract.

Many additional acres are being planted to apples, this year, both about Roswell and Carlsbad, and in a few years this Pecos valley will be the biggest apple country in the world.—Carlsbad Argus.

## To the Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I can recommend it with the utmost confidence. It has done good work for me and will do the same for others. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, Ralph S. Meyers, 64 Thirty-seventh St., Wheeling, W. Va. For sale by all druggists.

# Sleeping Volcanoes

A thin, vapory smoke, lazily ascending from its crater may be the only visible sign of life in the sleeping volcano, but within is a raging sea of fire, molten rock and sulphurous gases. Those who make their homes in the peaceful valleys below know the danger and, though frequently warned by the rumblings and quakings, these signs of impending eruption go unheeded. They are living in fancied security when the giant awakes with deafening roars and they are lost beneath a downpour of heated rock and scalding ashes.

Thousands of blood poison sufferers are living upon a sleeping volcano and are taking desperate chances, for under the Mercury and Potash treatment the external symptoms of the disease disappear, and the deluded victim is happy in the belief of a complete cure, but the fires of contagion have only been smothered in the system, and as soon as these minerals are left off will blaze up again. Occasional sores break out in the mouth, are red raw appears on the body, and these warning symptoms, if not heeded, are soon followed by fearful eruptions, sores, copper colored spots, swollen glands, loss of hair and other sickening symptoms.

Mercury and Potash not only fail to cure blood poison, but cause Mercurial Rheumatism, necrosis of the bones, offensive ulcers and inflammation of the Stomach and Bowels.

The use of S. S. S. is never followed by any bad results. It cures without the slightest injury to the system. We offer \$1,000.00 for proof that it contains a mineral of any description. S. S. S. is an antidote for contagious blood poison, and the only radical and permanent cure known. It destroys every atom of the virus and purifies and strengthens the blood and builds up the general health.

We will mail free our special book on Contagious Blood Poison, which gives all the symptoms of the disease with full directions for home treatment. Medical advice is furnished by our physicians without charge.

## FORT SUMNER ROBBERS.

They Are at Las Vegas, Where Their Trial is in Progress.

## CARNEGIE LIBRARY PROPOSITION.

### Special Correspondence.

Las Vegas, N. M., Nov. 11.—United States court convened this morning at 10 o'clock and the panels of the grand and petit juries were completed.

The following persons complete the panel for the grand jury: N. P. Sund, Leonardo Montoya, C. F. Mueller, David M. Salazar, Francisco A. Lopez and Esquivel Baca, and T. W. Hayward was made the foreman of the jury.

The court addressed the grand jury and they retired and adjourned until 9 o'clock this afternoon, when they will begin their regular session. Ben Romero was also made interpreter for the grand jury.

For the petit jury the following completed the panel which was sworn in this morning: Eugenio Martinez, Albino Baca, Juan Casados, Agapito Herrera, Federico D. Baca, Higinio Lucero and Juan Gonzales.

The Fort Sumner postoffice robbers were next brought into court securely handcuffed. They were all smiling and seemed to feel quite at home. Smith and Cook had their hair parted in the middle and all looked neat. Massague and Cook had been previously arraigned and had plead guilty. Smith, or Haas, and Neil were arraigned and Smith plead guilty, which, with Massague's confession, practically assures the guilt of the lot. Neil, who is a wicked looking, stubborn individual, spoke up and said he plead not guilty and had a lawyer engaged in the person of Attorney Heacock, of Albuquerque. The others had no lawyer so the court appointed W. B. Bunker to defend Massague and Cook and the trial was set for tomorrow morning at 10 o'clock. The prisoners were again handcuffed, joking with Deputy United States Marshal Fornoff as the bracelets were snapped on their wrists, locking Massague and Cook together and Neil and Smith together. They were then marched from the room and after a few cases were set as to placing them on the calendar, United States court adjourned until tomorrow morning and territorial court adjourned until Friday morning at 10 o'clock.

Charles Jacobson, who with his wife a few months ago had charge of the Atkins' house, died last night at the Ladies' home of tuberculosis. His wife left about two months ago for Chicago, and it is not known yet what disposition will be made of the remains.

Mr. Jacobson's death settles the question of Christian Science in the Ladies' home, as Mr. Jacobson was the man whom all the rumpus was about between the city physician and the home managers and his death removes the cause of the friction.

Mrs. P. B. Toombs is packing her household goods preparatory to removing to El Paso.

Joe Williams, of Rosinda; R. J. Ewing, of Glorieta; T. R. Stewart, of Cleveland, are here as witnesses in several sheep trespassing cases which are now before the grand jury.

Hons J. S. Clark and Charles A. Spies left this afternoon for Santa Fe. E. Boyle and family left this afternoon for Albuquerque, where they will spend the winter.

Governor M. A. Otero and Secretary J. W. Reynolds came over from Santa

Gentlemen: For over four years I suffered greatly from a severe case of contagious blood poison. I went to Hot Springs, staying there four months at a big expense. I then consulted physicians, who prescribed Mercury. Nothing did me any good, in fact, the treatment proved more harmful than beneficial. I mentioned my case to a friend, who told me that S. S. S. had certainly cured him. I at once commenced its use, and in six months could find no trace of the disease whatever. This was about two years ago. I continued S. S. S. for some time to make sure of a permanent cure, and I can truthfully say I am entirely well.

D. M. SANDERS.

Fe this afternoon and will return this evening on No. 7.

Miss Grace Brown left this afternoon for Deming, where she will remain during the winter. Mrs. E. J. Gubert accompanied her.

H. A. Buckley went up to Raton this afternoon for a couple of days.

Mrs. S. M. Kennedy, who has been visiting her son here, this afternoon returned to her home at New Orleans.

Miss Edna Chaffin, who has been visiting her father here, M. N. Chaffin, this afternoon returned to her home at Salt Lake City.

It looks as if the Carnegie library proposition will now come to a focus. A special committee consisting of Aldermen Elwood, Martin and Robbin were appointed from the council and the committee had a meeting last night with the library trustees and a plan of operation was agreed upon as to the site, and figures made on plans for raising the yearly maintenance money. The plan, which will probably be recommended to the council at their meeting tomorrow, is the acceptance of the twenty-four lot back of the city hall donated by George Ward, and they to add enough to that from the city lots back of the city hall to make the total frontage seventy feet and there erect the Carnegie building. This is not as good a location as it might be, and will hardly show a fine building off to advantage, but it seems it is the best that can be done, as some residents of the west side have threatened to bring an injunction suit against the library trustees if they locate the library in the city park where it should be, and the board desires to engage in no controversies.

A Thanksgiving Dinner.

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membranes lining the stomach, exposes the nerves of the stomach, producing a swelling after eating, heartburn, headache, sour rings and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures the catarrh. Kodol cures indigestion, dyspepsia, all stomach troubles by cleansing and sweetening the glands of the stomach. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Miss Menaul's Concert.

The comic newspapers might lead one to suppose that the only reason ladies crowded piano rehearsals was because the pianist wore long and erect hair. The fact is, however, that lady pianists, who are by no means freakish in appearance, are equally popular. The conclusion is inevitable that the masterful handling of the piano appeals not only to musicians but to the general public. There is a charm about musical compositions when rendered artistically on the piano wholly irresistible. Albuquerque has its full quota of music lovers and piano admirers and they will welcome the privilege of hearing Miss Mary Menaul at Colombo hall next Friday evening, for she comes to our city after years of study and practice under the careful direction of accomplished teachers.

## BELEN BREVITIES.

Interesting Local Items From a Pretty Valley Town.

### Special Correspondence.

Belen, N. M., Nov. 12.—After the election the thriving young village of Belen dons its every day clothes and resumes its normal conditions, but your correspondent could not help but be impressed at this visit to the embryo metropolis with its activity, both commercially and socially, truly the changes are coming rapidly. The writer remembers the little village of Belen fifteen years ago, and today to see business houses and residences equaling those of the large city of the territory one can safely say the great boom for so long prevailing in the east has finally overflowed towards the west.

John Becker's great flouring mill is now undergoing extensive overhauling in every way, from foundation to ceiling. The building is to be enlarged by the addition of another story, machinery is to be renovated and otherwise improved. Thousands of dollars are to be spent toward making these mills second to none in the territory.

The Hey Day club tendered a general reception Sunday afternoon to all friends of the members in celebration of the admittance of new members, three being initiated at one meeting. The club is very prosperous, both in finances and membership. Presents of articles as additional to the paraphernalia are continuously being received. The last was a door sent by an honorary member, of polished California redwood, with the wording in old English style gilt letters, "Hey Day Club."

At the reception Sunday afternoon there were an unusually large number of visitors from other towns and eastern cities.

The writer had the pleasure of meeting Carl Huning, who has returned from his trip to Germany, accompanied by an estimable lady who is to share his fortune for better or for worse. Mr. Huning has taken up his former position in the great house of John Becker, and also occupies one of the new cottages recently erected in Belen by Mr. Becker.

Mrs. W. Hoyerford has returned from her three months' visit to her parents in Wisconsin. Her sister, Mrs. H. Gleason, is expected to arrive this week from the same place to her residence in the Duke City.

Among the old familiar faces the writer has met on the street is that of our newly elected member of the territorial legislature, Carl Dalles. He exhibits a rather smiling countenance, and no wonder, it is enough to make one feel proud. It is a hard proposition in the first place to secure a nomination for a public office, but after that to run ahead of your ticket with only one exception would surely indicate that quite a fight was already achieved in ascending the stairway of public service.

A most enjoyable public dinner was given by Mr. Didier Saturday evening at his dancing tent on Main street. Mr. Didier, not to be outdone in courteous attention to outside visitors, fitted up special quarters for the entertainment of his visiting friends, when refreshments were served and the general political results were fully discussed and commented upon.

He Could Hardly Get Up.

P. H. Duffy of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Alvarado Pharmacy.

"A Wise Member," now in its second successful season, is guaranteed to give you many good, hearty laughs, to cure influenza, relieve gout and prove highly beneficial in cases of la grippe. It is one of those plays that are harmless, irresponsible, chock full of good human fun and bright with young people and young faces. It is wholesome fun, because it makes you laugh without a tendency to hide your face behind your program or your fan. The people of the play are good, jolly folks that you will find around you every day in the week, if you are lucky in the selection of your neighbors and associates; they get into troubles of their own and the way they lie out of them makes you envy them their facility of invention. Don't fail to see it at Colombo hall, Thursday, November 20.

## OBERLE STOCK COMPANY.

Will Be Here Five Nights of Next Week.

Next Monday night will be signaled at Colombo hall by the initial appearance in Albuquerque of the Oberle Stock company, organized in San Francisco two months ago, and which has since been exploited in southern California and Arizona with signal success.

The personnel of the organization includes Thomas Oberle, for years with Nat Goodwin, the Frohman and Augustin Daly; Walter Belasco, eminent as a character comedian, and a brother of the famous David Belasco, playwright, theater owner and manager of Mrs. Leslie Carter, and Ezra Norris, a noted comedian who achieved fame in the title role of "The Private Secretary."

Messrs. Oberle, Belasco and Norris are ably reinforced by a cast that includes, among other prominent people, Misses Lucy Lovell, Virginia Cranna, Della Buckley, Alice Groff, Mr. and Mrs. Louis Belmont and Messrs. George Bosworth, H. D. McAuliffe, Edward Hamilton, Warren Sawyer and R. H. Davenport.

The engagement here is for five nights—November 17, 18, 19, 21 and 22. The following plays will be given in the order named: "The Lost Paradise," "The Big Casino," "The Octoroon," "A Woman's Honor," and "I'm a Liar."

The company is playing in El Paso this week, and the newspapers of that city speak in very complimentary terms of their performances.

## HAIR SOFT AS SILK.

New Scientific Treatment Kills Dandruff Germs, and Makes Hair Soft. Take no substitute. Ask for "Herpicide." Send 10 cents in stamps for sample to The Herpicide Co., Dept. "F," Detroit, Mich.

## Merely a Reminder.

Bear in mind that Perry Davis' Painkiller is just as good for internal as for external troubles. It will stop the agonizing cramps in the bowels which follow exposure to cold and wet when taken internally, and will cure strains, sprains and bruises when applied externally. It should be administered in warm water, slightly sweetened. There is but one Painkiller, Perry Davis'.

John Anderson, an old soldier, has charge of the R. C. Vose small ranch, near the city, and is fixing up the place in good order. The veteran was at the California soldiers' home for two years. He has been back here the past few weeks, and reports his health good.

While Wise Doctors are studying the facilius of consumption, thoughtful laymen realize that a bad cold accompanied by coughing, sore throat and tightness across the chest is too serious a matter for delay or experiment. They also realize that Allen's Lung Balm cures a common cold in a day or two. Obsolete causes take more time, of course.

A BULL DOG

Is Easier to Snake Off Than the Coffee Grip.

A lady of St. Paul, Minn., never drank anything but cold water until she was married and then commenced to drink coffee.

She says: "About one year after our marriage, my husband began to complain of a distress in his stomach and I had such dizzy spells after each meal, that we had to see a doctor. We drank coffee three times a day, but did not imagine that coffee was causing all this distress. The doctor said both our livers were out of order, gave us some medicine, and told us that we ought to break off drinking coffee. We stopped it for a while, but missed the hot drink so much we went back to coffee. In five years' time I lost a complexion that was faultless and gained a very bad stomach, and my husband's stomach was ruined. He thought he had cancer of the stomach, or something worse, but we had formed the habit of coffee drinking, and like drunkards found it no easy matter to break off, although we knew it was killing both of us.

"We kept a grocery store at the time and a lady called one day and asked for Postum Food Coffee, saying, 'My children like it; will not drink anything else, and I know it is good for them because they never have trouble with their stomachs.' This interested me, and I told her about my bad stomach. She told me how to make Postum and we began its use ourselves.

"After drinking it three times a day for a week, I felt much better and my husband declared that he felt like a new man. We have drank Postum for four years and have never had one particle of stomach trouble since, and I have lost that sallow, yellow color I so much disliked, and the whites of my eyes are as clear as ever again. I know it is because we left off drinking coffee and drank Postum. I can eat anything and everything, and never know I have a stomach. My husband used to say I would ruin our coffee trade because I told all my friends what Postum had done for us." Name given by Postum Co., Battle Creek, Mich.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons it can be safely given. Alvarado Pharmacy.

## Railroad Topics

It is rumored at Las Vegas that a new spur of the Santa Fe from Azul to Taos, is contemplated, and that the surveyors expect orders to run the line at any time.

A line of sheds over the depot platform, with extensive enlargements of the Castaneda, are among the improvements contemplated by the Santa Fe at Las Vegas.

A construction train of fourteen cars and 225 men arrived at Phoenix Monday morning to begin tracklaying on the Phoenix & Eastern railroad. The grade is now finished for several miles and the graders will be able to keep ahead of track gangs at least as far as Tempe.

Several of the officials of the Central railroad arrived at Santiago, Cuba, having come all the way by rail from Santa Clara. The track, which has just been completed, connects Santiago and Havana by rail. Superintendent Ward says the roadbed is naturally in bad condition, but thousands of men are at work ballasting the track. The completion of this railroad is the greatest Cuban achievement of American enterprise, and makes future revolutions practically impossible.

The acute situation over the lack of cars and locomotives by the various railroads of the country will likely tend to hasten the plans for building a mammoth locomotive works in Denver, which has been in the minds of the heads of several roads for some time. There is little doubt in the minds of the Denver railroad men who are in touch with the financial in-

terest of the east, but that Colorado will be called upon to assist in relieving the scarcity of locomotives, which has become a serious problem with railroads.

Engineers Carroll and Fenner are laying off.

The fire department of the local shops met at their quarters last night in regular session.

Charles Bigam left Winslow last Saturday for Ash Fork where he has secured employment as boilermaker on the Santa Fe.

H. Farrell, of Ottumwa, Iowa, is the able successor of H. J. Selig, former electrician at the local shops. Mr. Selig has gone east.

Frank M. Miller has been appointed traveling passenger agent of the Rock Island railroad for western Colorado and Utah, in place of W. B. Townsend, who resigned. Mr. Miller will have his office in Salt Lake City.

Headache absolutely and permanently cured by using Moki Tea. A pleasant herb drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25c and 50c. Write to W. H. Hooker & Co., Buffalo, N. Y., for free sample. J. H. O'Reilly & Co. and B. H. Briggs & Co.

**Santa Fe Wants Specimens.**

The industrial department of the Santa Fe is now preparing some manuscript for a book devoted to the mineral resources of the territory tributary to its lines, and desires to secure some nice specimens from the

various mining districts, to be placed on exhibition in the general offices in Chicago.

They desire to maintain a display at the ticket office in Chicago, thereby securing for them a large measure of publicity.

The desire is to secure nice crystallized specimens, something which by their beauty will attract general attention and serve the purpose of bringing the attention of investors and others to the mineral resources of the territory.

Persons having desirable specimens which they are willing to contribute for this purpose, may leave them with Agent Meyers, at the local depot, who will forward them to Chicago.

Specimens should be carefully marked with the name of the mine from which they came, mining district, etc.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. Alvarado Pharmacy.

J. J. Bambrook is again at work in the pattern department, after having been layed up for a couple of months at the Santa Fe hospital at San Francisco.

Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. Alvarado Pharmacy.

A car load of finished car repair material was shipped to Point Richmond yesterday from the local shops. It is to be used while the shops at that place are being built.

W. A. Herren of Pined, Ark., writes, "I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors had given up." Alvarado Pharmacy.

General Storekeeper N. M. Rice is enjoying a visit from L. D. Smith, of Galveston. Mr. Smith is a division superintendent of bridges and building on the Gulf, Colorado & Santa Fe.

**Cured of Piles After 40 Years.**

Mr. C. Haney, of Geneva, Ohio, had the piles for forty years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. J. H. O'Reilly & Co.; B. H. Briggs & Co.

George E. Roe, division passenger and freight agent for the Santa Fe at El Paso, came up from that place this morning and is spending the day in the city. He will go to Santa Fe tonight.

### WILL GET THEIR DEMANDS.

**Southern Pacific Likely to Raise Wages of Its Employees.**

The Southern Pacific Officials have taken both horns of the dilemma relative to increased wages and are in daily conference with the order regarding proposed increases.

From all indications the men will be granted the majority of their demands. After the California officials have concluded their deliberations the results will be forwarded to President Harri-man and passed upon by a specially appointed commission and lastly by the board of directors. The fact that the machinists of the Union Pacific and other railroad men in different parts of the country have been granted increases is taken as a sure indication that the present demands will be favorably acted upon.

**Physicians Prescribe It.**

Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for throat and lung troubles as this great medicine. Alvarado Pharmacy.

### CONNECT WITH SANTA FE.

**\$3,000,000 Electric Line to Be Built in Illinois.**

Contracts were signed at Quincy, Ill., between a syndicate of Quincy capitalists and the firm of Bracey Howard & Co., of Chicago, for the building of an interurban electric line from Quincy to Beardstown and from Quincy to Niot. The road will be standard gauge and at Beardstown is to be running by June next. The enterprise will require \$3,000,000 for construction and equipment. The Rushville and Beardstown line is seventy miles long and the Niot is sixty miles. A line south through Pike and Calhoun counties to St. Louis will be built, it is said, immediately upon the completion of these lines.

### Worm Destroyer.

White's Cream Vermifuge, not only kills worms, but removes the mucus and slime, in which they build their nests; it brings, and quickly, a healthy condition of the body, where worms cannot exist; 25c at Cosmopolitan Pharmacy, B. Rappe.

### RAILS AROUND THE HORN.

**Material for Orient Railroad Is Coming in Boats.**

The San Francisco Examiner says: Port Stilwell, formerly the port of Topolobampo, on the Gulf of California, is the destination of large consignments of cross ties from this city and steel rails from the east, via Cape Horn, for the Kansas City, Mexico & Orient road. Three steamers with steel rails are now on their way up from Cape Horn to Port Stilwell. Over 500 miles of the road are already graded.

It is proposed to run a steamship line to the Orient in connection with the railroad.

Cut this out and take it to any druggist and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They cleanse and invigorate the stomach, improve the appetite and regulate the bowels. Regular size, 25c per box.

### FIGHT FOR A PRINCIPLE.

**Passenger Obligated to Pay More Going East Than Going West.**

A \$2 case, which was brought before the commission by W. H. H. Macloon, of Janesville, Wis., bids fair to bring the entire differential principle up for adjudication, says a Chicago dispatch. Mr. Macloon went to Boston from Chicago for \$19 and when he came back he had to pay \$21. This, he claims, was unfair and unjust, and while he did not care a rap for the \$2, he desired to do a service to the traveling public by wiping out an injustice. Accordingly he hired a lawyer, came to Chicago from Janesville and spent a half day in telling the commission about it. The Boston & Maine road is the defendant, and it had to send an attorney and General Flanders to Chicago to defend the case. There was no dispute over the facts in the case and the railroad offered no reason nor excuse for the increased charge west bound.

### A Dangerous Month.

This is the month of coughs, colds and acute catarrh. Do you catch cold easily? Find yourself hoarse, with a tickling in your throat and an annoying cough at night. Then, you should always have handy, a bottle of Ballard's Horehound Syrup. J. A. Anderson, 354 West Fifth St., Salt Lake City, writes: "We use Ballard's Horehound Syrup for coughs and colds. It gives immediate relief. We know its the best remedy for these troubles. I write this to induce other people to try this pleasant and efficient remedy." 25c, 50c and \$1.00 at Cosmopolitan Pharmacy, B. Rappe.

# ..A Lurking Danger..

**DANGER** lurks in every ache of the back. Don't be deceived by backache. Don't mistake it's meaning. Don't fail to realize the serious side of the "bad back."

The pains and aches of a "bad back" are many and varied—sharp stitches—severe twitches—acute twinges of pain—slow exhaustive aches. The back is tired, is lame and weak.

The "danger in it" comes from the kidneys, for most backache pains are but kidney ills. Backache tells of a kidney blockage. The delicate little kidney filters are clogged and warn you through the back. Go to the assistance of the kidneys when they "cry for help." Doan's Kidney Pills relieve the ache and cure the cause.

## DOAN'S KIDNEY PILLS

COAL AVENUE.

J. W. Gertig, bookkeeper, residence 408 West Coal Avenue, says: "When I lived in Mansfield, Ohio, several years ago I had an attack of lumbago. Doan's Kidney Pills were highly recommended by residents of Mansfield in the papers of that city and I went to the drug store kept by a friend of mine, named W. Barton, for a box and commenced the treatment. A continuation of it for some time stopped the attack and for several years there was no recurrence. Some six months ago I noticed pain in my back and knowing what Doan's Kidney Pills had performed when they first came to my notice, I went to the Alvarado drug store for a box. The treatment was just as effective as it was when I first used it in Ohio. This to me positively proves that Doan's Kidney Pills can be depended upon."

SOUTH BROADWAY.

W. R. Tripp, engineer at the Hotel Alvarado, residence 511 South Broadway, says: "If backache had been my only symptom of kidney trouble my case would probably have been very simple, but when there was added to it trouble with the kidney secretions the complications did not respond to medicine as readily as I expected. About once every year I had these attacks and the use of Doan's Kidney Pills procured at the Alvarado Pharmacy tided me over one which was only a successor of similar predecessors. For six months I have had immunity from the annoyance and if Doan's Kidney Pills can be depended upon to act as they did when they first came to my notice, I know what to use should an attack recur in the future."

Get what you ask for. Get DOAN'S. Don't accept something "just as good." Most druggists sell Doan's Kidney Pills and will give you what you call for. Some may endeavor to substitute an article they make more profit on. Insist on having the genuine. Price 50c. Manufactured by Foster-Milburn Co., Buffalo, N. Y.

**DANGER** is near at hand when the kidneys are sick. The urinary discharges tell the kidneys' condition "A brickdust" like deposit in the urine, or when too highly colored too frequent in passage, in any way; neglect is serious.

Disorders of the kidneys and bladder call for prompt attention. The early symptoms are but forerunners of dangerous diabetes, hard to shake off—dropsy, which makes an invalid of the most vigorous constitution—Bright's disease, dread destroyer, incurable in advanced stages.

Doan's Kidney Pills act quickly—cure quickly. Don't wait until too late.

HUNING AVENUE.

Mrs. J. H. Smith, of 115 Huning Avenue, (J. H. Smith, deputy sheriff,) says: "Every woman who has had backache for a month so severe that every movement she made hurt and she never knew the moment but the slightest strain on the muscles of the back brought a twinge which could only be described as excruciating, is more than pleased when she finds a means to at first check such attacks and then radically dispose of them. When suffering from backache I went to the Alvarado Pharmacy for Doan's Kidney Pills and took a course of the treatment. It stopped the annoyance. Since then I have had no necessity to use Doan's Kidney Pills nor any other medicine for aching across the small of the back."

EAST STREET.

Mrs. M. J. Butler, (M. J. Butler, night watchman in the Santa Fe shops), residence, 717 East street, says: "When I went to the Alvarado Pharmacy for Doan's Kidney Pills I had an attack of backache. It was only one of many which had annoyed me for two or three years. At first they were mild and I expected they would leave just as mysteriously as they came, but with the passing of time the attacks were more frequent and of longer duration. I used three boxes of Doan's Kidney Pills and was rewarded with an entire cessation of the aching. Up to date, and it is considerably over six months since I stopped the treatment, there has not been a sign of any recurrence."

Mr. Howard was on the straight republican ticket for the lower house of the territorial legislature to represent Socorro and Sierra counties, and says the official count will show that he has been elected, although the unofficial count now gives Borland, his opponent, a small majority.
