## BRYAN SPEAKS

He Talks Calamity to Kansas Farmers.

PRESIDENT IS OUT OF DANGER.

Atchison Banker Commits Suicide by Cutting His Throat.

NO SIGN OF A STRIKE SETTLEMENT.

Garnett, Kan., Sept. 26.—W. J. Bryan spoke to 1,500 people here this morning from the rear end of a Santa Fe train on his way to Kansas City. His theme was the congressional election. He said the republicans desired to secure a majority in the next congress so they could pass the Fowler bill, which he declared is designed to repeal the Declaration of Independence, and give the trusts opportunity to loot the Philippine Islands.

**President Out of Danger.**  
Washington, Sept. 26.—Admiral P. M. Rixey, surgeon general of the navy, and Dr. Lung called upon the president this morning. After an examination, Dr. Rixey announced the condition of the president as satisfactory.

**Committed Suicide.**  
Atchison, Kan., Sept. 26.—Norman Barrett, formerly president of the defunct Atchison national bank, committed suicide in his room at the Byram hotel here to day, cutting his throat with a razor. Worry over failure of his bank and the financial troubles that followed probably are the causes. The Atchison national bank suspended in September, 1899.

**No Sign of Settlement.**  
Lebanon, Pa., Sept. 26.—There is no sign of settlement of the strike at the American Iron & Steel company's plant. The modified offer of the striking employees includes the discharge of the southern negroes brought here to take the strikers' places and to this President Sternberg has so far refused to accede.

**DENVER TIMES.**  
Paper Said to be Sold to Senator Thos. M. Patterson.

Denver, Colo., Sept. 26.—Announcement is made today that the Denver Evening Times has been sold to United States Senator Thomas M. Patterson and R. C. Campbell for \$100,000, the change of management to occur October 1. Senator Patterson is the principal owner of the Rocky Mountain News and Mr. Campbell, who is Mr. Patterson's son-in-law, is the business manager of the News. It is said that the Times will be issued from the News office, but will be entirely a separate publication. It will be changed from a republican to a democratic paper.

**Buckeye Elocutionists.**  
Dayton, Ohio, Sept. 26.—The state association of elocutionists is holding its annual convention here with an attendance representing the chief cities of the state. The "two days" program calls for papers, addresses and discussions covering the entire elocutionary field from kindergarten work to advanced dramatic instruction.

**Wireless System for Martinique.**  
Paris, Sept. 26.—The telegraph experts sailed from Bordeaux for Martinique today commissioned by the French Government to install a wireless telegraph system on the island of Martinique and Guadeloupe. The regular telegraph service in the islands has been frequently interrupted of late by the volcanic outbursts and it is believed that the wireless system, if it can be made to operate satisfactorily, will prove of much commercial value.

**They Were Pictured.**  
The Las Vegas base ball club, with Manager F. O. Blood, have their pictures in group, in a Deaver Republican of September 24. They call themselves the champions of the territory, and the playing members are as follows: Moran, catcher; Harris, Flaherty and Rhodes, pitchers; Cosgrove, first base; Hale, second base; Gross, third base; Nygren, short stop; Leon, right field; Taylor, center field; Flaherty, left field; Clark, substitute. There is only one thing lacking with the picture. The handsome face of Col. R. E. Twitchell, the base ball magnate of Las Vegas, is not seen.

**To Attack Butterine Law.**  
Chicago, Ill., Sept. 26.—Information is coming to light showing that leading oleomargarine manufacturers of the country are planning a big fight against the law which they have de-

cided amounts to a prohibition of their business. The output of oleomargarine in the central west, where most of the supply comes from, has decreased more than two-thirds since the butterine law became effective. Just what plans the manufacturers will follow have not been made definitely known, but it is probable the first step will be to attack with vigor the constitutionality of the law which imposes the tax on the colored article.

**Census of the Philippines.**  
Washington, Sept. 26.—President Roosevelt has signed an order providing for the taking of a census of the Philippines in accordance with the terms of the Philippine act passed at the last session of congress and upon the certificate of the Philippine commission that the insurrection has been suppressed.

**Allison House Condemned.**  
The Allison three story brick house on North First street was condemned by Marshal McMillin today. The walls on each side are cracked all the way up, and in its present condition is very dangerous. The owners were notified to have it fixed, and if it is not attended to at once trouble is liable to result.

**W. A. Bissell, general superintendent of passenger traffic of the coast lines, with headquarters at San Francisco, passed through the city this morning accompanied by a party of friends en route to Chicago. They traveled in private car No. 99 attached to passenger No. 2.**

## CYCLONE IN ITALY

Storms Damage City and Volcanoes Active.

JUSTICE BREWER BADLY BURNED.

President Announces List of Important Diplomatic Appointments.

GANG OF BURGLARS RAID OHIO TOWN.

London, Sept. 26.—A dispatch from Rome today announces that a severe cyclone has swept over Catania, a city on the east coast of Sicily. Catania is flooded and many houses, including the villa Bellani, have been damaged. The cyclone also wrought havoc to Modica, a town of Sicily, where several persons were killed. Mount Aetna shows further signs of activity and the volcano of Stromboli is still active.

**BADLY BURNED.**

Justice Brewer of the Supreme Court knows more than he did.

Burlington, Vt., Sept. 26.—Justice David J. Brewer, of the United States supreme court, was badly burned about the face and hands at his summer home at Thompson's Point, Lake Champlain, last evening.

Judge Brewer has remained longer at the point than have the other cottagers and was cleaning up some brush about his cottage, Liberty Hall. He used a small amount of gasoline to make the brush burn and was in the act of lighting the pile when the accident occurred. He hopes to be out in a few days without scars.

**DIPLOMATIC APPOINTMENTS.**

State Department Announces Long List of Lucky Ones.

Washington, Sept. 26.—The following important diplomatic appointments have been announced from the state department: Charlesmagne Tower, of Pennsylvania, now ambassador to Russia, to be ambassador to Germany.

Robert S. McCormack, of Illinois, now ambassador to Austria-Hungary, to be ambassador to Russia.

Bellamy Storer, of New York, now minister to Spain, to be ambassador to Austria-Hungary.

Arthur S. Hardy, of New Hampshire, now minister to Switzerland, to be minister to Spain.

Charles Page, of Illinois, now minister plenipotentiary to Brazil, to be minister to Switzerland.

David E. Thompson, of Nebraska, to be minister to Brazil.

These appointments take effect when Ambassador White leaves Berlin in November.

**GANG OF BURGLARS.**

They Hold Up People of an Ohio Town.

Youngstown, Ohio, Sept. 26.—A gang of burglars early today blew open the safe of the Beechwood Improvement company, of South Sharon, Pa., and secured \$400 in cash. After robbing the safe the men, four or five in number, were first seen by Policeman Newton Stamp, whom they overpowered, bound and gagged. George Haynes, another policeman, was knocked down and tied to a post and Policeman Saylor kept up a running fight with the men for some distance but they finally escaped.

**Revive Depew Enterprise.**

Buffalo, N. Y., Sept. 26.—A meeting was held today for the reorganization of the Depew Improvement company, which was formed some years ago with a capital stock of \$1,500,000 to develop the town of Depew on the line of the New York Central into a great industrial center. Up to date little or nothing has been done to carry out the plans of the company. It is proposed to form a new corporation with \$750,000 capital. It is reported that Senator Chauncey M. Depew, John Jacob Astor, Dr. Seward Webb and W. McK. Twombly will finance the new concern.

**THAT UNFINISHED OFFICE**

At the Alvarado Should be Completed as Early as Possible.

The Alvarado, the beautiful structure which is the pride of every citizen and a very attractive and pleasing sight to the tourist, is lacking in complete beauty, on account of one small ragged corner which mars that otherwise attractive entrance to the city. At the corner of the northeast part of the Alvarado stands a half completed

office, which in its raggedness spoils the harmony of the whole situation.

It is always that which does not harmonize with its surroundings that attracts the attention first, and instead of receiving comment, receives nothing but ridicule.

A day's work would change this pile of lumber into a beautiful and attractive office which would serve in usefulness as well as a great improvement to the surroundings, offsetting and harmonizing with the other buildings.

**Indiana Photographers.**

Martinsburg, Ind., Sept. 26.—The Indiana Photographers' Art league convened in annual session here today with a good attendance of leading photographers of the state. An interesting feature of the meeting in addition to the papers and discussions pertaining to the latest developments in the art of photography is an elaborate exhibit of amateur photographs, for the best of which valuable prizes will be awarded by the committee of experts appointed for the purpose.

## DISTRICT COURT.

Jewelry Suit Decided—Criminal Cases Set for Trial.

GRAND JURY INDICTMENTS.

On yesterday the court tried the case of W. F. Maier & Co. against Alphonse Simpler, a suit in which plaintiffs claimed \$180 and interest on account of the sale of certain lot of jewelry. The defendant alleged fraud, in that the goods were not as represented and introduced several expert jewelers, who testified that under the tests given the articles they were convinced that the articles contained no gold whatever and were shoddy of the worst class. The contract, however, provided that if the goods were not satisfactory they should be returned and would be made satisfactory. This provision was not needed by the defendant, he merely holding the goods and refusing to pay for them, and the court held that since the defendant had not exhausted the warranty in the contract, the plea of fraud could not stand, and rendered judgment for \$180 and interest.

This morning the court called the Bernalillo county criminal docket.

James Elder, indicted for obtaining watches by false pretense, pleaded not guilty and Mr. Stingle was appointed to defend. Set for October 6.

Robert Burg, Joseph Koons and William Kirchey, indicted for larceny of three Eastman kodaks from a Santa Fe passenger train, were arranged and pleaded not guilty. Defendants represented by Mr. Heacock, and case set for October 4.

Joseph K. Platero, charged with defacing a brand. Defendant pleaded not guilty, and set for trial on September 29.

Frank Davis, charged under four indictments with larceny from warehouse of William Kempenich; larceny from warehouse of H. L. Washburn & Co.; larceny from shop of E. L. Washburn & Co.; larceny from shop of Mandell & Grunsfeld. Pleading not guilty on all charges. Messrs. Reynolds and Heacock appointed to defend.

The case of the Territory vs. Juan Armijo Estamado Sals and Francisco Gonzalez y Molino, charged with murder of Placido Salazar at Batales, was called, and on request of defendant's counsel, arraignment of defendants was postponed.

W. A. Anderson, charged with attempt to commit the crime of rape upon one Lucia Garcia, pleaded not guilty and cause was set for trial on September 20. The defendant is represented by Mr. Heacock.

Benjamin Frokes, charged with assault with a deadly weapon, pleaded not guilty and cause set for October 3. Mr. Heacock appears for defendant.

Adolf Gutierrez, indicted on the charge of assault with intent to kill, pleaded not guilty and case set for trial on Wednesday of next week.

Territory vs. Federico Garcia, charged with murder, on change of venue from Santa Fe county. Plea of not guilty. Defendant represented by Mr. Heacock.

Territory vs. J. Hildebrand, indicted for practicing medicine without license. Pleading not guilty and case set for trial.

Territory vs. James A. Brown, charged with assault to commit murder. Defendant pleads not guilty and cause set for trial on October 7. Defendant represented by William B. Childers.

## FAVOR IRRIGATION

Plans for Congress at Colorado Springs.

KING OF SIAM COMING VISITING.

Lady Somerset Coming to America to Talk Temperance.

A NEW RAILROAD FOR OKLAHOMA.

Colorado Springs, Colo., Sept. 26.—The committee in charge of local arrangements is in receipt of communications indicating that the approaching meeting in this city of the National Irrigation congress will be the largest gathering of its kind ever held. The wide range of topics scheduled for consideration will attract delegates not only from all parts of the west, but from the east as well. Colonization will be discussed and forestry will also be an important subject of consideration, the American Forestry association co-operating with the irrigation congress in their arrangements for the meeting.

The main topic, however, will be the new responsibilities placed upon the west by the national irrigation act, under the provisions of which the proceeds from public lands will hereafter be devoted to the reclamation of the arid lands in the sixteen states and territories affected, namely: Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington and Wyoming.

**Crown Prince Coming.**

Washington, Sept. 26.—Akharay Varadhar, the Siamese minister, and Herbert H. D. Peirce, third assistant secretary of state, are busy arranging for the reception and entertainment of the crown prince of Siam and his suite who are scheduled to sail for this country from Cherbourg today on the August Victoria. Owing to the nation's growing interests in the far east the government is particularly desirous that the future ruler of Siam shall receive a favorable impression of this country and its people. To this end arrangements are being made to show him every courtesy and facilities will be placed at his command that will enable him to view a good part of the country and to inspect its varied industries. The royal party consists of his royal highness, the crown prince, Col. Phya Rajavallabh, Capt. Luang Sarasedh, second aid; Mom R. Convatra, private secretary, and his royal highness, Prince Chakrabongse, brother of the crown prince, with an aid.

**Lady Somerset Coming.**

Boston, Mass., Sept. 26.—The local organization of the Woman's Christian Temperance Union has received word from Lady Henry Somerset that she will sail for the United States today. Lady Somerset is president of the British Women's Christian Temperance Union and one of the foremost temperance leaders in the world. Her approaching visit to this country will be her first since the death of her warm friend and co-worker, Miss Frances Willard.

Unable to remain long in this country, Lady Somerset has pledged herself to few engagements beyond the national convention of the Woman's Christian Temperance Union at Portland, Me. She will visit Montreal, Washington and this city and probably will make several public addresses.

**New Oklahoma Road.**

Texarkana, Sept. 26.—A territorial charter has been granted to the Kansas, Oklahoma Central & Southwestern railroad, with a capital of \$11,500,000. The incorporators are Oklahoma capitalists. The proposed line will run from Cedarville, Kan., southwest through Stillwater, Guthrie and El Reno, Okla., to Kirkland, Texas, and will have two branch lines, one from Stillwater southeast to Fort Smith, Ark., and the other northwest to Woodward, Okla., on the Texas border. The total distance will be 640 miles. The principal place of business will be Stillwater.

**BUSINESS CHANGE.**

Official Announcement of Incorporation of Albuquerque Foundry.

The Albuquerque Foundry and Machine Works, which have been owned and operated entirely by R. P. Hall, were incorporated under the laws of the territory by Mr. Hall, his wife and John Munn, as announced officially in today's Citizen elsewhere.

The capital stock is \$50,000, divided into 500 shares of par value of \$100

each. The term of existence is forty-nine years.

Mr. Hall will reside in California, owing to the condition of his wife's health, and consequently be unable to devote sufficient time and attention to the works. He has devoted all his time and put all of his energy into the enterprise and as a result it is in a very flourishing condition. A rest is what Mr. Hall needed and has earned after these years of hard work. For these reasons the corporation was formed.

Mr. Mann, a young man of industry, integrity and unusual business ability, will take charge of the business in the absence of Mr. Hall.

The works will continue to do a general foundry business.

## POLITICAL TALK.

Union Ticket for Socorro County—The Roswell Convention.

DEMOCRATIC DELEGATES.

The political differences in Socorro county seem to have been settled, and it is understood that at a meeting held at Socorro on the 23d instant it was agreed between leading republicans and democrats that a union ticket should be put into the field composed of six republicans and five democrats; the republicans to have the following officers: Member of the legislative council, two members of the house of the legislative assembly, sheriff, collector and treasurer. The democrats to have the two county commissioners, county clerk, assessor and superintendent of schools. There may be one or two other tickets put in the field, but it is believed that this union ticket will be carried by a large majority.

**At Roswell.**

The democratic district convention for the nomination of a candidate for the fifth legislative assembly from the counties of Lincoln, Chaves and Eddy, was held at Roswell and W. M. Ivor, of Lincoln county, was nominated. The convention to nominate a candidate for the council from the council district composed of Lincoln, Chaves, Eddy, Otero, Dona Ana, Grant and Luna counties also met at Roswell and nominated G. A. Richardson. Mr. Richardson has twice represented the district in the council.

**Union County.**

The Union county delegates to the democratic territorial convention are O. E. Smith, Jose M. Gonzales, Trinidad C. de Baca, Serafino Otero, Hugh Wilson, Gavino Garcia, John Knox and Charles Sanford.

P. L. Pinard is talked of as a republican candidate for the council from the district composed of Mora, Colfax and Union counties, and O. E. Smith is spoken of as democratic candidate for the same office from that district. He has stated that he will not accept.

The republican precinct primaries for Union county will be held on October member of the house of the Thirty-third selection of county and legislative candidates on October 18, at Clayton.

**STEEL TRUST.**

Case Decided in Favor of the Big Corporation.

Trenton, N. J., Sept. 26.—Justice Van Sickle, of the court of errors and appeals, today filed a written opinion in the United States steel corporation case that was recently decided by the court in the corporation's favor. The opinion filed today sustains the constitutionality of the act of last winter, under which the corporation undertook to convert \$200,000,000 worth of preferred stock into a like amount of bonds. The opinion also holds procedure followed by the corporation carrying out the conversion plan was fully authorized by the general corporation act. This is a complete victory for the United States steel corporation.

## CLARK'S ROAD

It May be Part of a Continental Line.

PEACE PREVAILS IN STRIKE REGION

Blackington Breaks the Political Slate at Socorro Into Pieces.

SECRETARY SHAW WILL BUY BONDS.

Chicago, Sept. 26.—It was announced on good authority today, says the Daily News, that a \$25,000,000 increase is to be made in the capital stock of the Chicago, Milwaukee & St. Paul road. This additional stock will be issued to stockholders at par. It is supposed that the increased stock capitalization is for the purpose of acquiring Senator Clark's rights in a road which is planned for construction between Salt Lake City and Los Angeles. The St. Paul lines, with the Gould roads, gives this combination a route to Salt Lake City and connection with Senator Clark's project will give the St. Paul an outlet to the Pacific coast.

**Quiet in Strike Region.**

Seranton, Pa., Sept. 26.—Quiet reigns in the Lackawanna region today. There was no repetition of yesterday's disturbance. In and about Oilphant where the Thirteenth regiment is encamped, the turbulence of the strikers seems to have exhausted itself in the rioting of yesterday, when James Winston was killed. Two or three more arrests were made in the Winston case today.

**BLACKINGTON DELEGATES.**

The Old Man Breaks Several Slates at Socorro.

Special to The Citizen.  
Socorro, Sept. 26.—The republican primaries of the city of Socorro last night elected the entire delegation for Blackington for sheriff, as against Estevan Baca. A large and enthusiastic meeting was held and republican success is assured.

**Bond Purchase.**

Washington, Sept. 26.—The secretary of the treasury has made announcement that he will buy 5 per cent bonds of 1904 at 105 flat. There are \$19,400,000 of these bonds outstanding.

**Administrators of Stratton's Estate.**

Colorado Springs, Colo., Sept. 26.—The appointment of three administrators by Judge Orr for the Stratton estate is causing some scandal. The appointees are C. C. Hamlin, son in law of Judge Gunnell, one of the counsel for young Stratton; O. P. Grimes, brother in law of Judge Orr, and H. M. Blackner, formerly law partner of Henry McAllister, Jr., attorney for the executors named in the Stratton will. The bond of the administrators has not yet been approved and it may not be.

**ARMY CANTEN.**

Gen. Funston Declares That Its Abolishment is Injurious.

Washington, Sept. 26.—Brigadier General Funston, in his annual report of the department of the Colorado, declared that the recent anti-canteen legislation of congress has lowered the discipline of the army, ruined scores of good soldiers and enriched the saloonkeepers, gamblers and dissolute women. His report announces a deplorable increase in offenses, particularly desertion, which is attributed to the abolition of the canteen and garrison life restrictions of men returning from field service.

**A Death-Daring Occupation.**

Soldiers in the battlefield, dynamite makers and handmen, revenue officers among the "moonshiners" and nurses of the plague-stricken, run no greater risks than the men whose profession it is to save human lives from shipwrecked vessels, in fierce wintry gales, on the cruel wind-swept beaches of the Atlantic coast. Many of them lose their lives every winter in this hazardous service. A crew of these heroes, on a summer furlough from the government service, is with Buffalo Bill's Wild West, showing the people how their arduous work is done. It is a thrillingly effective performance. Buffalo Bill is here on October 3.

\$150,000 has been raised, and the bal-  
ance is practically assured. The New  
York contributors to the fund number  
over 30,000.**TACKLING THE TRUSTS.**President Roosevelt's speech in Cin-  
cinnati tackled a phase of the trust  
question with which his other speeches  
thus far have dealt but little—the re-  
lation of the trusts to the tariff. This  
relation he discussed in his usual plain  
and straightforward way, and made it  
very clear that tariff tinkering, or tar-  
iff revision, would have but little ef-  
fect on the trusts, and would be no  
good remedy for any evils they may  
possess. Here are two of the presi-  
dent's paragraphs:"If in any case the tariff is found to  
foster a monopoly which works ill,  
why of course no protectionist would  
object to a modification of the tariff  
sufficient to remedy the evil. Further-  
more, the products of many trusts are  
unprotected, and would be entirely un-  
affected by any change in the tariff."or at most very slightly so. The Stand-  
ard Oil company offers a case in point,  
and the corporations which control the  
anthracite coal output offer another.  
"Without regard to the wisdom of  
any one of these three propositions, it  
remains true that the real evils con-  
nected with the trusts cannot be re-  
medied by any change in the tariff laws.  
The immediate introduction of sub-  
stantial free trade in articles manufac-  
tured by trusts would not affect some  
of the most powerful of our business  
combinations in the least, save by the  
damage done to the general business  
welfare of the country. The neces-  
sary supervision, in which I firmly be-  
lieve is the only method of eliminat-  
ing the real evil of the trusts, must  
come through wisely and cautiously  
framed legislation, which shall aim,  
in the first place, to give definite con-  
trol to some sovereign over the great  
corporations; which shall be followed,  
when once this power has been confer-  
red, by systems giving to the govern-  
ment the full knowledge which is es-  
sential for satisfactory action."**THE PROSPECTOR.**The finder of the largest gold nugget  
ever picked up died in poverty a few  
days ago—old, deserted, but indomit-  
able. He was searching for gold when  
he died.He had found riches in the new field  
of Australia a half century earlier. He  
was in the far north of Canada when  
death came to him. The life of the  
prospector had led him to all parts of  
the globe. The Kansas City Star says:  
Samuel Hawkes Napier was a  
familiar specimen of the gold hunter  
except that he once possessed immense  
wealth. The average miner is a man  
whose riches are always to come. He  
is invariably hopeful. He is contented  
with a "grub stake" because he will  
have a fortune tomorrow. With him  
hope deferred does not make the heart  
sick. The earth is his bank and it will  
honor his draft some day. Then there  
are new fields being opened up—new  
rainbows of promise in today's clouds,  
and the pot of gold is there, just over  
yonder. The clouds are only heavy  
enough to catch a rosy tinge from the  
setting sun.**HERO OF SCIENCE.**The death of Major J. W. Powell, di-  
rector of the bureau of ethnology at  
the Smithsonian institution, removes  
one of those heroes of science whose  
bravery and determination, coupled  
with splendid powers of observation  
and analysis, have done much to en-  
rich the scientific world, says the Den-  
ver Republican.Major Powell's scientific work was  
peculiarly identified with the Rocky  
mountain region. His most notable ex-  
ploit was the exploration of the Grand  
Canyon of the Colorado river. With a  
few men not less determined than  
himself, Major Powell braved the dan-  
gers of this grim cleft in the face of  
nature. The experiences of the little  
party were thrilling, and it is not likely  
that anyone could again make such a  
trip and live. No one has been success-  
ful since Powell's trip, though many  
persons have lost their lives in at-  
tempts to equal the dauntless scien-  
tist's record.The earliest geological and geograph-  
ical surveys in the Rocky mountain  
region were under Major Powell's di-  
rection, and also accomplished much  
valuable work in the middle west, in  
the form of observation and discov-  
ery.**Lingering Summer Colds.**Don't let a cold run at this season.  
Summer colds are the hardest kind to  
cure and if neglected may linger along  
for months. A long siege like this  
will pull down the strongest constitu-  
tion. One Minute Cough Cure will  
break up the attack at once. Safe,

at the Agricultural college and the  
girls hope to arrange a game in Albu-  
querque so that they may go up with

a game against the Indians on the 14th  
of next month, the first day of the fair.

guard, when a vessel is huried by a  
gale upon the cruel beaches and is be-  
ing beaten to pieces by waves in which  
no boat could live, use a gun to fire a  
missile, carrying a line, to the wreck.  
By that light line a stronger one is  
hauled aboard and presently a "breach-  
ing buoy" is in action, carrying men  
and women from the wreck to safety  
on shore. The modus operandi of thatservice is effectively shown by the gov-  
ernment crew of life savers with Buf-  
falo Bill's Wild West, at each perform-  
ance, and which is here on October 2.**Raised from the Dead.**C. W. Landis, "Porter" for the

neuralgia deed I did, and I got a bottle  
of Ballard's Snow Liniment and I was  
raised from the dead. I tried to get  
some more, but before I had 'deposed'

## Gossip of Base Ball and Other Sports

### CALLAHAN'S GREAT WORK.

#### Wonderful Exhibition of Pitching—Some Other Records.

Jimmy Callahan, who will play with the Albuquerque's at the territorial fair tournament, pitched a ball game against the Detroit Tigers last Saturday that will go down in the archives of the American league and of base ball in general as one of the greatest exhibitions of pitching on record. In a nine inning game he held Captain Casey's men to no runs and no hits, a feat that is not often performed. Callahan's work in that game is like the Callahan of yore that was wont to twirl fourteen innings against the Athletics and beat them out, even on their own stamping ground, as he did last season. Since the Fourth of July, of this year, however, he has not been in prime shape, and when the crucial point came, when the White Stockings needed pitchers most to save the pennant for Chicago for the third time, he was not in form.

His work Saturday, however, shows that he has regained control of the leather and can be counted on for the few remaining games yet to play.

Games in which there have been no hits and have ended in a shut out for one team have been few in the history of the game, only 28 in the 27 years of National league history and three years for the American. Callahan's feat is the first and only one in the American league and the first of the season in either the American or National league this season, and there was only one last year, when Christie Mathewson shut out St. Louis.

A complete list of names in which one club has been unable to score a run or get a base hit follows:

June 12, 1880—Cleveland defeated by Richmond of Worcester. No Cleveland reached first base in this game. July 17, 1880—Buffalo defeated by Ward of Providence. No Buffalo player got to first base.

#### Beware of the Knife.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unequaled for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips, Paris, Ill. "DeWitt's Witch Hazel Salve cured me in a short time." Soothe and heal. B. H. Briggs & Co. and J. H. O'Reilly & Co.

#### Neil vs. Jackson.

San Francisco, Cal., Sept. 26.—Al Neil, the local welterweight, and "Young Peter Jackson," the Baltimore colored fighter, have completed their work of preparation and appear to be in fine fettle for their twenty-round which is scheduled to be pulled off here tonight. Neil is in splendid form and expresses confidence in his ability to defeat the colored man. The two will weigh in at the ringside at 150 pounds.

#### Fortune Favors a Texan.

#### Virginia's Foot Ball Outlook.

Charlottesville, Va., Sept. 26.—The University of Virginia foot ball team lined up here this afternoon for its first game of the season, the opposing eleven being that of Washington and Lee university. The Virginia squad consists of good material and a bright outlook exists for a successful season. Games are scheduled with Lehigh, North Carolina and the Carlisle Indians, and it is probable that Princeton and Pennsylvania also will be met if satisfactory dates can be arranged.

#### Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and, my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Sold by Alvarado Pharmacy.

#### THE PIRATES' RECORD.

The Pittsburg Record Only Equalled by Two Similar Feats.

The Chicago News says: By reaching the century mark in games won for the season the Pittsburg club of the National league has touched a mark that has been attained or passed in the annals of that organization only three times in the twenty-seven years of its existence. Twice the Boston club has turned the trick and once the Brooklyn team, under the leadership of Ned Hanlon, did it.

Barney Dreyfus' Pirates bid fair, however, to break all records for games won and lost in any base ball organization that laid claim to major proportions. In 1892 and again in 1898 the Boston club, winning the championship each time, won 102 games. The champion Brooklyn team, the Superbas, under Hanlon, in 1899 won 101 and lost 47. The Pirates have now won 101 games and lost only 34. They have still five games to play with Kelly's Reds. Three of these games are scheduled to be played in Pittsburg and two in Cincinnati. Two more victories for the Pirates will tie them with the two best previous records in the National league, while three victories out of five games will give them the best record in base ball lore. In the number of games lost, too, they hold the lead since the days when a 140 game schedule was adopted, and there is little likelihood that they will lose that record.

Not only will the Smoky city aggregation probably beat all previous records in games won in a season, but they will come close to the record in percentage. At present the Chicago club of the National league holds that, for in 1884 it won 84 and lost 17 games, giving it a percentage of .798. The Pi-

## Pale. Thin

Pale cheeks, white lips, and languid step tell the story of thin blood, impure blood. Doctors call it "anemia." They recommend Ayer's Sarsaparilla. Ask them and they will tell you just why it makes the blood so rich and red.

Anemic people are almost always constipated. Their lives are sluggish. They have frequent attacks of sick-headache, nausea, biliousness. Just one of Ayer's Pills each night will correct these troubles.

rates cannot quite equal this record, for if they win all of their remaining games their figures would only be .755.

Other teams in the National league which have been above the .700 mark are: In 1876, Chicago, .788; 1885, Chicago, .776; 1885, New York, .758; 1884, Providence, .750; 1886, Chicago, .725; 1878, Boston, .707; 1886, Detroit, .707; 1879, Providence, .705; 1897, Boston, .705; 1876, St. Louis, .771.

McGraw's Giants grace the foot of the percentage column of the National league and seem to have the cellar championship without a contest. The record of games lost—80—is far from the best in the league in that direction. In 1899, the Cleveland's, the old "Miffs," were defeated 134 times, which is a record not likely to be duplicated again in a hurry. Other disastrous seasons have been experienced by Pittsburg in 1890, 114 defeats; by St. Louis in 1898, 111 defeats; by St. Louis in 1897, 102 defeats; by Baltimore in 1892, 101 defeats; by Washington in 1898, 101 defeats.

#### Take Care of the Stomach.

The man or woman whose digestion is perfect and whose stomach performs its every function is never sick. Kodal cleanses, purifies and sweetens the stomach and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It is the wonderful reconstructive tonic that is making so many sick people well and weak people strong by conveying to their bodies all of the nourishment in the food they eat. Rev. J. H. Holladay, of Holladay, Miss., writes: Kodal has cured me. I consider it the best remedy I ever used for dyspepsia and stomach troubles. I was given up by physicians. Kodal saved my life. Take it after meals. B. H. Briggs & Co. and J. H. O'Reilly & Co.

## QUEEN'S CONTEST.

## Three Candidates Announced But Very Little Enthusiasm.

## INTERESTING FAIR LETTERS.

Some votes are being cast for the different candidates entered in the race for the queenship of the territorial fair, but no special enthusiasm has yet been taken in the contest. Miss Belle Yancy leads the race with 42 votes, Miss Jeannette Walton is second with 28 votes and Miss Nina Otero, of Santa Fe, is third with 15 votes.

Some few others were named the fore part of the week and received some votes, but have quietly dropped out, the names having been scratched off the list by request.

The honor of posing as queen of the Twenty-second New Mexico Territorial fair is a dignity to be cherished by any young lady, and is worth while spending a few times for.

There is some misunderstanding about the costume Tecoloco will wear. It was at first thought that she would appear in the garb of an Aztec, but as the New Mexico fair is going to be a modern, up to date affair, Tecoloco will appear in the bright and sparkling vestments of a modern queen.

In the past the lady elected as queen of the carnival has furnished her own gowns. In some cases the garments have cost several hundred dollars and the honor proved to be an expensive luxury for a person of moderate means. This year the fair association will foot all the bills, and all that will be required of the queen is to wear the crown and royal robes and look pleasant.

The contest will close October 6, thus giving the consumer, who will come from Kansas City, time to order the royal robes, which will be made to order.

## Bureau of Information.

Attorney Charles E. Burg has again been appointed superintendent of the bureau of information. Mr. Burg filled that position last year in an entirely satisfactory manner, the crowd being cared for admirably, and it is hoped that under the management of his efficient supervision the visitors will be amply provided accommodations this year.

## President O'Reilly Heard From.

President J. H. O'Reilly, of the New Mexico Fair association, who is down in the southern section of the territory talking fair and life insurance, writes from Deming as follows:

Mr. P. F. McCanna, Albuquerque, New Mexico.

Dear Sir—While driving through Grant and Luna counties I have come in contact with many of the best riders and riders in New Mexico, among them Edward R. (better and more familiarly known as Pat) Nunn, Butch Smith, Alex Wilson and W. C. Johnson, most of whom are in the employ of the Victoria Land and Cattle company which is so successfully managed by Mr. W. H. Greer. Having met all of these men I extended a personal invitation to each to participate in our fall festivities. I also gave them detailed particulars of the events and prizes which they all agreed were more interesting and liberal than any ever offered before in the territory. The four mentioned have all said that they will be with us. With this bunch alone we will have a wild west exhibition that will make Buffalo Bill's bronco busting act look like Gentry's trained pony show. I have driven sixty miles south of Deming during the past week and the country looks like one continuous alfalfa field and the many little lakes distributed over the prairie caused by the recent rains reminds one of duck ponds on an English game reserve. Very truly,

J. H. O'REILLY.

## Wants Goat Exhibit.

The tall and handsome window decorator, B. Frank Fillmore, is at present sojourning at the Paywood hotel, Luna county, where he is getting the rheumatism boiled out of his joints so he will be in good trim for fair visitors during fair week. In a letter he says: P. F. McCanna, secretary fair association, Albuquerque, N. M.

Dear Sir—Can you inform me if there is a prize offered for the exhibit of goats. The reason I ask is, D. M. Taylor here is a breeder of fine goats and he is going to exhibit some few head in the Kansas City Live Stock show to be held there on the 23rd, and he told me yesterday to find out for him as he would like to stop off in Albuquerque. Let me know by return mail. I saw the advertising car go down to Silver City yesterday to go on with the good work. From all indications this part of the country will be pretty well represented at the fair.

Yours truly,  
B. FRANK FILLMORE.

## MRS. ZIRHUT INJURED.

Thrown From Carriage While Attending the Russell Funeral.

Mrs. M. C. Zirhut, of 309 North Second street, was painfully injured this morning by being thrown from her carriage while attending the funeral of Mrs. Russell.

Mrs. Munger, who was in the seat with Mrs. Zirhut, was bruised very badly but not seriously.

While driving up a small embankment Mrs. Zirhut and also Mrs. Munger were thrown very forcibly against the side of the seat, which gave way and both were thrown between the wheels of the carriage. The horse being very excited went about ten rods before it could be stopped.

Mrs. Zirhut was thought to be very seriously injured when taken from under the wheels, and it was found upon examination that she was bruised very badly about the head and shoulders, and on account of her age is suffering considerably.

Mrs. Munger was also bruised about the head, and her limbs becoming tangled up in the wheels were bruised very badly.

Medical aid was summoned and it is thought nothing serious will result. They were very fortunate in escaping as they did. Had the horse become frightened it would have resulted very seriously.

## LOCAL PARAGRAPHS.

Mrs. George K. Neher and little son left last night for Denver, in response to a message that the mother of Mrs. Neher was ill.

It has leaked out that P. F. McCanna, secretary of the fair, was sick for thirty-six hours while in Denver the other day. These strenuous times, just before a big fair, is hard on the constitution.

## Here to Stay.

Organized labor has come to stay. It has as much right to organize as capital has, and has as much right to take measures to protect itself. This does not necessarily mean a conflict, but an adjustment of matters, so that the laborer who is worthy of his hire will get it.

## Slander on the Irish.

It is related of an Irish coachman that his medical adviser prescribed animal food as the best means of restoring health and activity. "Patrick," said he, "you're run down a bit, that's all. What you need is animal food." Remembering his case a few days afterward he called upon Pat at the stable. "Well, Pat," said he, "how are you getting on with the treatment?" "Oh, shore, sir," Pat replied. "O! manage all right with the grala and oats, but it's mighty hard with the chopped hay."

## A Comedy Creation.

The next and perhaps the best attraction which the patrons of the theater will have the opportunity of witnessing will be that everlasting and laughable comedy, "A Chicago Tramp." As a dramatic performance both press and public are high in praise of it. It is filled with startling situations, laughable comedy, scenes, and most pleasing specialties. It will be seen at the Colombo hall on Thursday, October 2.

## ARRIVED HOME.

Engineer Guilfoif Came in But Left the Shell Game in Denver.

Last evening John Guilfoif and his wife arrived home from Denver, where they have been visiting friends, attending to Masonic business and on the side, John attended the Masonic gathering. When the C. & S. train pulled in last evening John left his wife at the east end of the platform while he came "overhead" to see that their "household and kitchen furniture" had been dumped off the baggage car.

John was busy and had his head up in the air like a turkey headed for camp, and did not see the gang lined up on the platform.

One fellow spotted Guilfoif coming and says: "Now, boys, all of you point up to the corner of the roof of the depot and I will do the rest."

Just then Mr. Guilfoif came along and the rubber in his neck was stretching out like a populist speech, when one of the fellows, whose hand was pointed upwards, says: "There it goes! That is the red balloon Guilfoif bought in Denver and he is looking for it."

"Hurrah! I am in Trinidad," said Guilfoif, as he recognized the crowd and the josh, and then everybody laughed.—Trinidad Advertiser.

## STRUCK BY LIGHTNING.

George Loftin, of Cooks, Was Killed While Driving a Hay Wagon.

George L. Loftin, who was driving to Hadley from a hay ranch near Florida station, was struck by lightning last Friday afternoon. He was not found for several hours and his team had stopped and he was lying prostrate in the wagon. He was living when found and was taken to Hadley and physicians called but he never regained consciousness. The lightning struck him on the head and ran down his right arm and leg, highly magnetizing his pocket knife. He was a single man, and had resided near Cooks for the past eight years.

## A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully, and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy, and this time one dose cured me." For sale by all druggists.

## LOSING WEIGHT?

Then your food is not being properly digested and perfect digestion and assimilation are essential to the putting on of solid flesh. To bring about this change you should take Hostetter's Stomach Bitters. It will put the stomach in good condition and make digestion perfect. It also cures Headache, Insomnia, Dyspepsia and Liver and Kidney Complaints. We urge you to try it. It never fails.

## HOSTETTER'S STOMACH BITTERS.

## POLICE COURT.

Pedro Covillas was before Judge Crawford this morning charged with being drunk. He pleaded guilty and drew a prize of five days.

Frank Kelly, a ranchman living south of the city, was arrested, charged with stealing ties from the railroad company. He pleaded guilty and was fined \$6 and costs.

Another case of stealing ties was brought before police court this morning. E. A. Cantrell, a ranchman south of the city was arrested on the charge. When arrested he had quite a number of ties in his possession. He pleaded not guilty, claiming the ties were washed on his property by floods. The evidence, however, proved that the ties had been removed recently, as they were all marked by the section men. The ties in Cantrell's possession were identified by the section men as being those recently removed from the track. The evidence being strong against Cantrell he was fined \$7 and costs.

## A Parson's Noble Act.

"I want all the world to know," writes Rev. C. J. Badlong, of Ashaway, R. I., "what a thoroughly good and reliable medicine I found in Electric Bitters. They cured me of jaundice and liver troubles that had caused me great suffering for many years. For a genuine, all-around cure they excel anything I ever saw." Electric Bitters are the surprise of all for their wonderful work in liver, kidney and stomach troubles. Don't fail to try them. Only 50 cents. Satisfaction is guaranteed by all druggists.

## Good Words for Rodey.

There is no question so vital to New Mexico at the present time as statehood. The man that can do more to advance that cause, in the position of delegate, is one Bernard S. Rodey. Rodey should be continued in his present place. Petty jars and jealousies within the territory should not be allowed to affect the question. They can be attended to later.—Las Cruces Progress.

## A Sad Disappointment.

## MINING NOTES.

This week a large force of men was put to work on the Boston Boy mine, White Oaks, N. M.

The report of the sale of the Bolonitos mines in Guanajuato, Mexico, for \$250,000, has been confirmed.

Next week the new company of Los Angeles parties that recently acquired control of the guano beds at Lava, N. M., expects to begin operations.

Recent statistics show that there are now 838 large mining properties in active operation in the states and territories of Mexico.

The Southwestern Miners' association is planning for a big convention representing the mining interests of the southwest, to be held next year at Los Angeles.

The Calumet & Arizona Copper company at Douglas have decided to double the capacity of their copper smelter. They have let the contract for a second 250-ton smelter to the Allis-Chalmers company, to be ready in February. This will give the company 500 tons capacity daily. The first stack will be in operation in October.

With family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for consumption, cough and colds, W. H. Brown, of Leesville, Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of consumption, pneumonia, bronchitis, coughs, colds and grip prove its matchless merit for all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at all drug stores.

## THE ALBUQUERQUE EAGLES.

Held a Meeting Last Night and Took in a Few New Members.

The Eagles, those birds that, on account of their superior qualities are the pride of everyone, yes, even themselves, dropped down from their lofty heights and made the Knights of Pythias hall a place of activity last evening.

At first they caused some excitement, but when it was learned that it was "The Eagles" everyone was satisfied that as long as they remained on the outside all would be well with them.

All the excitement was caused by ten Eagles getting trimmed and placed in readiness for high soaring, and the old weathered birds were doing all the trimming.

With Eagles like Dr. Wolvin administering large sized doses of all kinds of bitter medicine, weighted down by Al Coleman and the rest of them on top, Judge Loughery and Attorney Ackerman dishing out law and order, supported by Frank Kirster, Ben Bothe, Frank Volo, Ed Meyers and Charley Melini, with J. B. McManus as "the leading man," of course the show was a grand success.

The new members after acting and being acted upon were none the worse after a banquet, which all did justice to.

Among the important business brought up for consideration was a boat for the fair. There is no doubt that the Eagles will have something worth seeing. They have promised to do some very high flying in the parade.

## A RICH STRIKE.

Pocket Containing \$20,000 in Gold Was Taken Out of the Helen Rae Mine.

A rich strike was made in the Helen Rae mine Saturday at Nogal, owned by the American Mining company. A pocket was taken out containing \$20,000 in gold.

The mine is located about three miles from Nogal and is one of the properties which was recently bought by eastern capitalists together with a number of others. The company only recently started to work after the mine had lain idle for several years under the former owners.

The Helen Rae mine has a record of having produced a \$600 or \$700 nugget about 15 years ago and has produced some good ore. The Nogal mining district is rapidly coming to the front, owing to the fact that the American and Eagle Mining companies are putting in machinery and working their properties.

At present the county is full of prospectors.

## Needles Fire Boys.

Great interest is being manifested by the boys of the Santa Fe fire company, says the Needles Eye. Tuesday night, at the regular meeting, four new members were elected, making the membership up to the full limit of twenty. Wednesday night the boys practiced various drills and made good records, especially in the 130 yard dash. The run was: H. D. Moore, 26 seconds; Ford, 20 seconds; Gaffney, 24 seconds; Shaw, 19 seconds; L. Moore, 22 seconds; Gilbert, 25 seconds; C. Fitzgerald, 21 seconds; E. Fitzgerald, 23 seconds; Cumbach, 21 seconds.

It is understood that the boys of the Albuquerque fire company have challenged the team, and as the challenge has been accepted, the boys hope to go to Albuquerque soon.

## Peculiar Construction.

The department of the interior is placing a peculiar construction on the new irrigation law; it is contending that the law is intended to cover only cases "where conditions or engineering difficulties are such, as that ordinary commercial enterprises will not take hold of the projects." Delegate Roddy, as many others who took part in the passage of the law, are vigorously protesting against this construction, and are contending that every line and sentence of the law itself as well as the intention of its framers, negatives such a construction.

## Only One Vote Needed.

One more senator is all New Mexico needs of the members of the committee on territories to insure the passage of the omnibus statehood bill with out dotting an I or crossing a T. Then it will not have to be sent back to the house of representatives for concurrence, but can be sent direct to the president for his signature.

## Don't Treat Symptoms

Go after the cause. Stimulants and cathartics will never cure indigestion. They may temporarily relieve the system but the next meal clogs it again. The food should be digested. The nourishment—health—strength it contains should be appropriated—absorbed by the system.

## Children Thrive on Kodol

**KODOL** purifies, cleanses, strengthens and sweetens the stomach. This new discovery digests all classes of food and assists the stomach and digestive organs in assimilating and transforming it into the kind of nourishment that is taken up by the blood and fed to the tissues throughout the various organs of the body. Kodol cures indigestion and dyspepsia, thus removing the cause of all stomach troubles. Kodol gives such strength to the body that it is invaluable in all wasting diseases.

"I wish to thank you for what Kodol has done for me," writes Clifton Gorton, Collet, Ind. "It cured me of dyspepsia after everything else had failed. When I tried Kodol it helped me right away. I cheerfully recommend it."

Prepared by E. C. DeWitt & Co., Chicago. The bottle contains 24 times as much (by actual measurement) as the trial size which sells for 50c.

**Kodol Digests What You Eat.** The famous little liver pills for biliousness or constipation. Safe, thorough. They never gripe.

Hon. Eugenio Romero returned last night from his trip to La Grulla. He says there was an enthusiastic republican meeting there Tuesday night, and at which there was a delegate appointed to the convention here, though his name he did not get.

The committee of the board of trade to look after subscriptions for the shoe factory held a meeting last night at Spierder's store with Mr. Bell and gave the architect an order to make estimates on the building required, so that the committee will know just what to ask for when they go out among the citizens. The committee will not get around until the first of next week.

There was another enthusiastic republican meeting on the west side last night. It was held at Maes hall in precinct No. 5 to select delegates to the county convention. Hon. Eugenio Romero was made chairman of the meeting and Juan Cavanaugh secretary. Rousing speeches were made by Eugenio Romero, Pablo Ullbarri, Ignacio Esquivel and Judge Jose Baca. The speeches were of a patriotic order, enthusiastic and harmonious with the expressed intention to abide by the wishes of the majority in the convention. Rafael Gallegos, a puny politician, tried to make a speech against the re-election of those people who give him the crumbs off of which he subsists, but was hooted down.

The delegates to the county convention chosen were Eugenio Romero, Juan Maes, Zacarias Valdez and Juan Cavanaugh, all good men.

Leandro Lucero returned to his home at Villanueva today after having a few political conferences in town. Mr. Lucero is rather on the fence politically but will line up with the regular republican organization in the end.

Marriage has not been one grand, sweet song with Eugene and Lizzie Hixson, of Guadalupe county. She is now suing for a divorce with the custody of Homer and Pearl, two young children, 4 and 5 years of age. Mrs. Lizzie says a lot of hard things about Eugene, the husband she took for bad or worse in Texas in March, 1896. She says that her hubby has treated her in a cruel and barbarous manner and subjected her to many indignities, rendering life with him intolerable. She also says he cursed and abused her most shamefully, and last May after calling her vile names, accused her of infidelity, struck her and drove her from the house. She says she has been good and has been a loving and faithful wife, and as he has been so mean to her, and has not contributed to her support, she wants to have the marriage tie hacked off, and let her free.

### WOOLEN MILLS.

Extensive Factory to be Established in This City.

J. H. Bearup is at the head of the new woolen factory to be established in this city, and will go east tonight to purchase the machinery for the plant. The company has purchased five acres of ground north of the city on the mountain road, just east of the Santa Fe tracks, where the factory will be located. Work on the building for the factory will begin at once, and the machinery will arrive in a few weeks. The factory may be in operation by January 1. The factory will make a specialty of the manufacture of blankets and pantaloons wools. The mill will be known as a two-set complete modern mill. This factory will combine the wool putting business of Bearup Bros., with a complete glove factory, and wool scouring plant, the capacity 50 per cent larger than any plant of its kind now in New Mexico. This factory will employ about 100 people and will be operated by

### HARD ON CHILDREN.

When Teacher has Coffee Habit. "Best is best, and best will ever live." When a person feels this way about Postum Food Coffee, they are glad to give testimony for the benefit to others.

Miss Evelyn Purvis, of Free Run, Miss., says: "I have been a drinker since my childhood, and the last few years it has injured me seriously. One cup of coffee taken at breakfast would cause me to become so nervous that I could scarcely go through with the day's duties, and this nervousness was often accompanied by deep depression of spirits and heart palpitation."

"I am a teacher by profession, and when under the influence of coffee, have to struggle against crossness when in the school room. When talking this over with my physician, Doctor Johnson, of Eden, Miss., he suggested that I try Postum Food Coffee, so I purchased a package and made it carefully according to directions, found it excellent for flavor, and nourishing. I was not irritated by my pupils, life seemed full of sunshine, and my heart troubled me no longer. I attributed my change in health and spirits to Postum alone."

This will be one of the very best enterprises in the city and Mr. Bearup deserves success.

### SEEKING A GUSHER.

S. H. Newman Arranging to Sink a Well on Oil Properties.

S. H. Newman left yesterday for Santa Rosa, N. M., to look after his oil properties. Some work has already been done, but Mr. Newman now has a proposition from parties at Las Cruces to put down a well 1,000 feet so as to determine definitely whether or not oil can be found in paying quantities.

While absent Mr. Newman expects to close a deal for the well to be put down at once. He is confident he has oil in large quantities and is investing considerable money in the venture.—El Paso Times.

### Parasites Cause All Hair Troubles.

Nine-tenths of the diseases of the scalp and hair are caused by parasitic germs. The importance of this discovery by Professor Unna, of the Charity Hospital, Hamburg, Germany, cannot be overestimated. It explains why ordinary hair preparations, even of the most expensive character fail to cure dandruff; because they do not, and they cannot, kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into scales called scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ Herpicide is also a delightful hair dressing, making the hair glossy and soft as silk. Send 10 cents in stamps for sample. The Herpicide Co., Dept. "F," Detroit, Mich.

### WHITE OAKS MINES.

The New Owners of Old Abe Mine at El Paso.

The party of capitalists, who arrived in the city Tuesday from Carrizozo, N. M., were shown about the city yesterday by Alderman Baum and other gentlemen of the city who are acquainted with the different members. Mr. Baum is personally acquainted with a number of the party, and did everything in his power to insure them a pleasant time while here.

There were twelve in the party, all of whom are interested in mining deals in New Mexico in the vicinity of Carrizozo. They compose what is known as the Eagle Mining company, and recently purchased the Old Abe mine at White Oaks, the deepest dry works in the world. The price paid has not been officially announced, but it is said that it was an enormous sum. This is the first visit the owners have made to their new property, and two weeks was spent in going over it and the surrounding claims.—Times.

### 21 Years a Dyspeptic.

R. H. Foster, 318 S. 2nd, Salt Lake City, writes: "I have been bothered with dyspepsia or indigestion for 21 years; tried many doctors without relief; recently I got a bottle of Herbine. One bottle cured me, I am now tapering off on the second. I have recommended it to my friends; it is curing them too." 50 cents at Cosmopolitan Pharmacy—B. Ruppe.

### SANTA FE.

Hovey Suffering with Bright's Disease —Rev. Carrigan's Accident.

From the New Mexican.  
James Hovey, a resident of this city, but for several years a school teacher in Bernalillo county, was taken to St. Vincent's hospital. He is a sufferer from Bright's disease.

Jose L. Delgado died at his home on the Canyon road, of blood poisoning. He cut his finger with a broken bottle while at work a few days ago, which resulted in his death. He leaves a wife and several children.

Col. J. Frank Chaves, who has just returned from his ranch about 100 miles south of here, says that more rain is needed in that section. In the immediate vicinity of his ranch is the only part where the rain has been fair and unless there is a good fall of snow this winter, feeding will be a serious proposition.

It is reported that several persons have built dams and other obstructions in the Santa Fe river between the reservoir and the west line of the city. Such is wholly unauthorized and is illegal in addition to being very dangerous and detrimental. The county and city authorities should take immediate steps to have such unauthorized dams, breakwaters and other obstructions in the bed of the Santa Fe river removed forthwith.

Rev. J. P. Carrigan leaves for his home in Denver, where he is pastor of St. Patrick's church. He will be accompanied by Rev. F. A. O'Neill, also of Denver. The Reverend Carrigan came to Santa Fe to be present at the confirmation of Bishop Pitaval, and while visiting the convent of the Sisters of Loretto one evening, fell into an alley-way and broke his hip. He has since been at the Sanitarium under the care of the good Sisters and has so far recovered as to be able to walk with the aid of crutches. However, it is thought that it will only be a short time until he will be entirely well.

## WICHITA'S AIR CASTLE.

Stillwell Says Town will Have 100,000 People in Eight Years.

President A. E. Stillwell, of the Orient road, gave Wichita, Kan., a great "jolly" when he visited that town a few days ago. In conversation with a reporter for the Wichita Beacon he said:

"This is the coming city of the state. I lost some money here at one time, but I have great confidence in Wichita. It has got out of the kinks and it will be but a few years before it will be the largest city in the state. We propose to have our general shops here as well as the division for the train crews. We will bring more than 5,000 people to the city when the shops are erected and in operation, and that will not be in the far distant future. We will do everything for the city that we have promised. Where the shops are to be built there will soon be a small city which will be inhabited by the men who are employed in the shops."

"I know this will be so, for the building of the Port Arthur route made Pittsburg a city and doubled the population of Shreveport in a few years. Wichita has every advantage a city could ask for, and when the Orient road is built through here the impetus it will give to the city will surprise everyone. The best thing this city ever did for itself was to vote the bonds it did for the Orient road. We had another and it may be better scheme on hand at the time, but when the bonds were voted by Wichita we let it drop, for we all believe that this is the coming city of the southwest."

"It has been some time since I have visited Wichita, but I notice a decided improvement in every respect; new houses are going up and the city has a prosperous appearance. My prediction is that Wichita will be the packing center of the southwest in a very few years. It is the natural tendency and can not be stopped. My opinion is that within eight years this will be a city of 100,000 inhabitants."

Regarding the building of the Orient road Mr. Stillwell said that regular trains would be running south out of Anthony in a few days, as there was but five miles of track to be laid to get into Byron, Okla. He said that work on the grading from Harper to Wichita was in progress and that it would be but a few months before all the grading would be done between here and the point mentioned. "In two years and a half," he said, "the Orient will be running trains from Kansas City to Port Stillwell." He said that he could not say when the line would be built between here and Kansas City, and added that he did not believe it would be a very long time, but would not say when he expected it to be in operation.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am cured. I cannot say too much for Foley's Kidney Cure." Sold by Alvarado Pharmacy.

**Freight Wreck Near Rincon.**  
There was a freight wreck on the Santa Fe a short distance this side of Rincon this morning, but the facts concerning it are hard to obtain. Local Santa Fe men claim to know but little about it. They say that no one was hurt.

It is without doubt a large wreck, as the passenger train, which should have arrived this morning at 7:55, is being delayed by the wreck so that it has not yet arrived. It is expected to get in about 5 o'clock this afternoon.—El Paso News.

Dr. J. C. Bishop, of Agnew, Mich., says, "I have used Foley's Honey and in three very severe cases of pneumonia with good results in every case." Refuse substitutes. Sold by Alvarado Pharmacy.

The Choctaw has decided to build the Guthrie line to Sparks. The new line runs twelve miles southwest of Chandler, where it meets or crosses the Fort Smith & Western railway. At one time it was believed that the Choctaw (Rock Island) and the Santa Fe would jointly use the track between Chandler and Shawnee, but that has

been denied by both lines. The belief is growing stronger daily that the Fort Smith & Western has fallen into the hands of the Rock Island, and that the western end of the line will be built as the Choctaw and the eastern end as the Fort Smith & Western.

**A Communication.**  
Mr. Editor—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. Brockman, Bagwell, Mo. This remedy is for sale by all druggists.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from infestation, their food is not assimilated, but devoured by worms. Mirth is an almost infallible sign of good health. A sick woman may force a smile or at times be moved to laughter. But when a woman is bubbling over with mirth and merriment she is surely a well woman.

Dr. Pierce's Favorite Prescription has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength. It establishes regularity and so does away with monthly misery. It dries debilitating drains and so cures the cause of much womanly weakness. It heals inflammation and ulceration, and cures the bearing-down pains, which are such a source of suffering to sick women.

"I take great pleasure in recommending Dr. Pierce's Favorite Prescription for female weakness," writes Mrs. Susanah Ferster, of Pauls Store, Shelby Co., Texas. "I was troubled with bearing-down pains in my back and hips for six years, and I wrote to Doctor Pierce for advice. I tried his 'Favorite Prescription' and six bottles cured me. I feel like a new person and I thank Dr. Pierce for my health. Life is a burden to any one without health. I have told a great many of my friends about the great medicine I took."

"Accept no substitute for 'Favorite Prescription.' There is nothing 'just as good.'"

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamp to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

known as "Old Mother Wheaton." She does not limit her work to the time she is visiting the prisons, but is active when on trains and always improves every opportunity to make an address. She gives particular attention to cigar smokers on trains and is constantly at work.

Mrs. Wheaton is on her way to the coast with Mrs. Mary Smelser, who is en route to Japan to take up missionary work. On the way down, Mrs. Wheaton was in the midst of a meeting and address when the train passed through Raton tunnel, but she did not permit that to interfere with her. Her meeting at the prison was full of enthusiasm and one of the colored convicts, on leaving said: "That woman is sure full of the colored convicts, on leaving Holy Ghost."

**INVITED TO OHIO.**  
An Earnest Request for Governor Otero to Take the Stump This Fall.

Governor Otero has received a most cordial invitation to make a number of speeches in Ohio during the present campaign. The letter of invitation was sent by General Charles Dick, who has for ten years been chairman of the republican executive committee of Ohio. General Dick is also a member of congress from that state and is secretary of the national republican executive committee. The letter was an urgent one and earnestly desired the governor's acceptance, but on account of his official duties in New Mexico and his interest in the success of the party in the territory, Governor Otero has decided that it will be best for him to decline and has sent a letter to that effect. The democracy of Ohio is making a hard fight this fall on account of the effect of the campaign on the presidential ambitions of Tom Johnson, who is the leading spirit. The republicans will make a short and sharp campaign.

**Nothing Like Oil.**

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they may abhor it, it is their best medicine for disorders of the bowels. In the more severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates, and a quick cure is sure to follow. For sale by all druggists.

**EXPENSIVE MULE.**

Goode & Co. are Asked to Pay \$20,000 for the Death of a Boy.

An alleged dangerous mule is the cause of a suit for \$20,000 damages brought against Goode & Co., contractors, by Roque and Royo Villa in an El Paso court. Goode & Co. had one of the railroad contracts on the Dawson branch of the Rock Island near Tucumcari, and Francisco Villa was in their employ. It is alleged that the firm gave him a vicious mule to ride to and from his work and on July 30 last it threw him and injured him so seriously that he died. He was a minor and his parents ask the damages.

**Newbro's Herpicide**

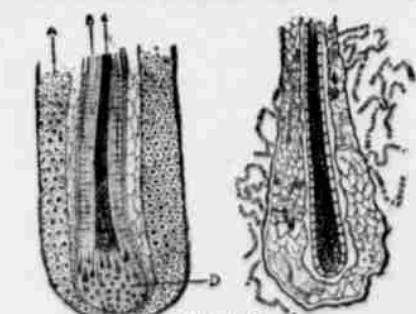

**Do You Know?** Many physicians contend that our school children should be taught the symptoms of contagious diseases, and also the theory and practice of hygiene and sanitation. Sanitary science "includes the consideration of all that can be done for the prevention of disease and the promotion of health." The above description by an eminent medical authority fully explains itself. All that can be done, it says. This, in individual cases, means all that the person knows to do. Now, if the person does not know, he must pay the penalty of his ignorance. Baldness is a contagious disease, caused by a microbe, Prof. Unna, of Hamburg, Germany, recently discovered that dandruff, itching scalp, falling hair, and final baldness are produced by a germ or microbe that passes from one head to another, where it burrows into the scalp, and by multiplying and extending deeper and deeper into the hair follicles, saps the life of the hair root and produces baldness. It takes years to produce complete baldness, for the action of the dandruff microbe is not constant in every case. It is governed by predisposition, by the state of health, by environment, but particularly by the endeavor made to combat its growth and multiplication, at the time dandruff makes its first appearance; for, until dandruff appears there is no means of knowing whether the dandruff microbe has planted itself in the scalp or not.

The new antiseptic scalp germicide, Newbro's Herpicide, is past the experimental stage. It was made to destroy the germ that causes dandruff and falling hair, and by coaxing energy back into the impoverished bulbs, it enables the hair to grow naturally and luxuriantly. Thousands of letters from physicians, clergymen, and laymen tell the same story of its wonderful success. Stephen Fisher, of Dickinson, N. D., recently wrote as follows: "About a year ago my hair began to fall out in great quantities. My scalp was covered with dandruff so that every time I combed my hair the dandruff came down like snow. I tried all kinds of so-called hair vigors and hair tonics, but without deriving any benefit until I began using your Herpicide. I had scarcely used one bottle of your preparation when the dandruff disappeared and the hair stopped falling out, and later a bran new growth of hair made its appearance. I am well pleased with Newbro's Herpicide, and the praise that I have for it cannot be over-estimated."

## AN IDEAL HAIR DRESSING

It is fortunate for those who understand the new rules for scalp cleanliness that the antiseptic qualities of Newbro's Herpicide make it the most delightful and refreshing hair dressing imaginable. Before our remedy was so widely known we received the following letter from G. S. Long, No. 622 Sala avenue, Rochester, N. Y.: "I made the acquaintance of Herpicide in Yokohama, Japan, bought a bottle in San Francisco, was made comfortable and happy with its use, and I recommend it to all my friends, but now my local druggist seems to know nothing about it. What am I to do?" Chronic baldness is incurable, but as long as there is hair there is hope, and a course with Newbro's Herpicide may bring results that will surprise you. It has cured many cases of primary baldness.

**WARNING!**

The extraordinary success of Newbro's Herpicide has caused the market to be flooded with so-called dandruff germ destroyers. Don't be deceived for there is one genuine, and that is Newbro's Herpicide.

# CRUTCH-BOUND

The crutch is a poor substitute for legs, and affords a very inconvenient and tiresome mode of locomotion—there is no more pathetic sight than a person slowly and painfully moving along the street supported by these artificial limbs.

When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch-bound. The corrosive, irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and the muscles drawn and stiff, and crutches a necessity.

The acid poisons that produce rheumatic pains form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back and feet, or other parts of the body—resulting often in total disability. A permanent cure of Rheumatism can be effected only by a complete cleansing of the blood, and no other remedy so surely accomplishes this as S. S. S. It neutralizes the acid effects, purifies and invigorates the stagnant blood, and the gritty particles are washed out or dislodged by the new rich blood, and relief comes to the pain-racked sufferer. S. S. S. leaves no morbid, irritating matter in the blood to reunite and produce another attack, but expels every atom of it from the system. S. S. S. is a purely vegetable remedy, and does not impair the digestion or general health like alkali or potash remedies.

Write for our special free book on Rheumatism, and if any medical advice or other information is wanted, our physicians will gladly furnish it without charge.
