THE ROMERO FAMILY HAS BEEN WELL CARED FOR BY OLD GUARD AT ALL TIMES

THERE HAS SCARCELY BEEN YEAR IN RECENT DECADES WHEN SOME MEMBER OF INTERESTING OUTFIT HAS NOT HAD HAND IN THE PUBLIC PORK BARREL--SAN MIGUEL COUNTY HAS BEEN LONG SUFFERING.

GOVERNMENT OF THE ROMEROS FOR THE ROMEROS AND BY THE ROMEROS

Fast Las Vegas, N. M., Aug. 21.—The confirmation of Secundino Romero by the senate yesterday to be U. S. marshal for New Mexico adds but another fat office to the long list of pork barrel jobs that the Romero family has fallen heir to at the hands of the Old Guard republican machine. San Miguel county in the main, has furnished most of the Romero jobs until it came to be almost a case of "a government of the Romeros, for the Romeros and by the Romeros," so far as this section was concerned. It is surprising when the long list of profitable jobs held by the Romero family between 1885 and the present time is compiled. In fact it becomes amazing when the estimated revenues from public office to the Romero family is computed. In all, it is conservatively stated here that the Romero family has secured something like \$375,000 in salaries, fees and emoluments of various kinds through public office since 1885, and this does not include the revenue to Cleofes Romero as warden of the state prison under Governor Mills nor does it include the term of T. Romero in congress as delegate from the territory nor the four year post-office term by Serapio Romero. It should be remembered in connection with this list that the amounts are estimated but they are what are believed to be ultra-conservative in every respect and are probably much too small.

Here are some Romero jobs: 1885-86, R. Romero, sheriff, \$40,000. 1887-88, Eugenio Romero, sheriff, \$40,000. 1889-90, Eugenio Romero, assessor, \$14,000. 1895-96, H. Romero, sheriff, \$14,000. Cleofes Romero, deputy collector, one-half of emoluments under Galbaldon, \$7,000. 1897-98, H. Romero, sheriff, \$14,000. 1899-1900, Cleofes Romero, deputy under Montano, \$3,000. Margarito Romero, collector, \$14,000. 1901-2, Eugenio Romero, collector, \$14,000. Cleofes Romero, sheriff, \$12,000. 1903-4, Eugenio Romero, collector, \$14,000. Cleofes Romero, sheriff, \$12,000. 1905-6, Eugenio Romero, collector, \$14,000. Cleofes Romero, sheriff, \$12,000. 1907-8, Eugenio Romero, collector, \$14,000. Cleofes Romero, sheriff, \$12,000. 1888-1892, T. Romero, United States marshal, \$40,000. 1893-1908, S. Romero, district clerk, 11 years, \$55,000. 1902-1908, Eugenio Romero, member of the grand board, \$2,600. 1905-6, Eugenio Romero, coal oil inspector, \$14,000. Present of 1,440 acres to the Romero heirs by grant for their fight against the community, \$14,000. Total, \$375,000.

BIG JACK ZELIG FURNISHED GUN MEN

HE DECLARES THAT HE WAS ARRESTED BY STRONG ARM SQUAD AND TOLD TO HAVE ROSENTHAL KILLED OR GO TO PRISON.

New York, Aug. 21.—A "John Doe" police graft inquiry is to be undertaken several weeks before the trials of the men charged with the murder of the gambler Herman Rosenthal, it was learned today. Preliminary proceedings before Supreme Court Justice Goff are expected to strengthen the case against Police Lieutenant Becker and the six others indicted yesterday for the Rosenthal killing by unearthing new evidence of police corruption. The John Doe inquiry will cease during the murder trials, but will be resumed after they are concluded. Becker and the others will be called to plead in court tomorrow.

The grand jury tomorrow will be asked to consider the testimony of "Big Jack" Zelig who told of his arrest by two members of Lieut. Becker's "strong arm squad." These two detectives swore they found a revolver on Zelig's person. Five witnesses testified before the grand jury that Zelig did not have a revolver when arrested. The grand jury may indict the two detectives for oppression and perjury.

"Bald Jack" Rose had previously told the grand jury that Zelig had been "framed" that Becker might get Zelig under his power. Becker, Rose says, sent word to Zelig that he would either have to furnish the men to kill Rosenthal or go to prison for a long term for carrying a revolver. Zelig says he furnished the men and that was all he had to do with the Rosenthal shooting.

While the grand jury is taking a recess, evidence against certain police inspectors and those "higher up" will be sought. The grand jury was so placed yesterday when they found that the vote to indict the seven men for the Rosenthal murder was unanimous that they applauded.

District Attorney Whitman said he was not certain whether Becker or Frank Muller, "Whitey Lewis" would be placed on trial first for the Rosenthal murder.

Sam Schepps has been promised full immunity in the Rosenthal murder case. Before testifying before the grand jury, where he furnished corroborative evidence to the confession of "Bald Jack" Rose, implicating Police Lieutenant Becker in the killing of Rosenthal, Schepps obtained a written agreement from the district attorney's office that he was not to be indicted.

Schepps can only be held a short time on the vagrancy charge but as his counsel says, Schepps feels it is safe to remain in the custody of the district attorney until he has given his testimony in the trials. Schepps, however, demands that he

be taken care of in a first class hotel, and his demand will be granted. District Attorney Whitman conferred today with Detective William J. Burns, going over plans for the grand investigation which is to be started by the grand jury. The word has gone out that Burns has supplied Whitman with startling information and this report has been verified by a man in touch with the district attorney.

DIAMOND THIEF IS CAUGHT WITH GOODS.

San Francisco, Calif., Aug. 21.—Theft of \$20,000 worth of jewelry was admitted to the police last night by Frank Masse, a butler who was arrested as he was attempting to steal a bicycle. Masse took the officers to his cache and produced a mustard can containing gems worth \$5,000. Masse confessed, according to the police, that he had been stealing from different employers for a period of six months. The greater part of his loot was obtained from Mrs. E. W. Hopkins.

TAFT MEN ENJOIN ROOSEVELT MEN A SECOND TIME

Topeka, Kans., Aug. 21.—A second injunction suit to prohibit the names of the eight Roosevelt presidential electors being put on the general election ballot in Kansas, was filed before Judge Smith McPherson of the United States court at Red Oaks, Iowa, today. A temporary restraining order was granted and Charles Sessions, secretary of state, was notified by telegraph not to make any move until the injunction had been heard.

Mr. Hite, chief of the Taft attorneys, went to Red Oaks early today and asked for an entirely new injunction directed solely against Secretary Sessions. The same allegations of fraud, misrepresentation and disfranchisement are set up in the new suit and the order of Judge McPherson simply prohibits the secretary of state from issuing any certificates of nomination to the Kansas county clerks.

The first suit was brought to stop the state canvassing board from issuing any certificates to the secretary of the state that the eight Roosevelt men had been nominated. But the certificates already had been issued and the restraining order would have had no effect although the attorney general advised the secretary of state to obey it until the hearing before Judge Sanborn at Denver September 2.

Judge Smith McPherson sent a personal telegram today advising the secretary of state not to act until the final injunction hearing.

GENERAL BOOTH DROPS SWORD

VENERABLE HEAD OF SALVATION ARMY WILL HAVE EXTENSIVE FUNERAL SERVICES--SON SUCCEEDS HIS FATHER

London, Aug. 21.—Obsequies of General Booth, commander of the Salvation Army, who died last night, probably will extend over a week and the funeral will take place probably August 29 or 30. The lying in state is to be at the Salvation Army Congress hall, Clapton, the largest building owned by the Salvation Army. On the day of the funeral 1,000 Salvationists will participate in a mass service in a larger hall. The Crystal Palace may be used.

A melodramatic notice posted in front of the Salvation Army headquarters, says: "The general has laid down his sword. God is with us."

All flags on Salvation Army headquarters throughout the country have been half-masted. Messages of condolence are being received from all parts of the globe. William Bramwell Booth, eldest son of the late William Booth, commander of the late Salvation Army, has been appointed head of the army to succeed his father, who died in London last night from septic poisoning, following an operation for cataract of the eye some time ago. The veteran Salvation Army leader was unconscious for forty-eight hours before his death. The medical bulletins had not revealed the seriousness of the general's condition which for a week, it is now admitted, was hopeless.

Twelve weeks ago General Booth underwent an operation for the removal of a cataract in his left eye. For two days after the operation indications gave hope of his recovery. Then septic poisoning set in and from that time, with the exception of occasional rallies the patient's health steadily declined. The general recognized that the end was near and often spoke of his work as being finished.

Throughout the commander-in-chief's illness his son, Bramwell Booth, chief of staff of the army, and Mrs. Bramwell Booth, gave their unremitting attention to him. The aged evangelist died at his residence, Rockstone Hadleywood, eight miles from London, where he had been confined to his bed since the operation. Present at the bedside when the end came were Mr. and Mrs. Bramwell Booth and their daughter and son, Adj. Catherine Booth and Serg. Bernard Booth; the general's youngest daughter, Commander Mrs. Booth-Helberd, and Commissioner Howard, Colonel Kitching and Dr. Wardlaw Milne.

Under the constitution of the army the general nominated his successor. That General Booth did several years ago, placing the name in a sealed envelope which was deposited with the army's law papers with instructions that it should be opened after his death.

While every English member of the Salvation Army is convinced that no man was more worthy of interment in Westminster Abbey, it is

San Diego, Calif., Aug. 21.—Private advice from Mazatlan today announced that the Mexican gunboat General Guerrero, in command of Commander Oton Blanco, and the steamer Benito Juarez, owned by the Compania Naviera del Pacifico, have been captured by the rebels. George W. Bernmaker, American agent for the Compania Naviera del Pacifico, received the report but discredited it. Leon Gomez, Mexican consul here, admitted that the Guerrero was at Mazatlan but has received no confirmation of the report. The gunboat carries a crew of 108 officers and men and is equipped with four six inch and two four inch guns, according to Gomez.

El Paso, Texas, Aug. 21.—The El Paso-Juarez port was opened today by the United States troops commanded by General E. Z. Stever. Crowds were allowed to pass to the Mexican city adjacent to El Paso without the formality of passports. Searching of men and women for arms and ammunition which has been in vogue for the last few weeks, will be continued, General Stever announced. The federalists have no more right to pass munitions of war than the rebels except by special permission from the war department. An exodus is underway of the many Mexican refugees who flocked to El Paso at the time of the occupation of Juarez by rebel troops.

the senate. Finally framed, so as to meet the approval of President Taft, a new legislative, executive and judicial appropriation bill was passed by the house late today. It eliminates the disputed provision for abolishing the commerce court, substituting for it an appropriation for that tribunal until March 4.

Washington, D. C., Aug. 21.—President Taft today again vetoed the legislative, executive, judicial appropriation bill because it still carried an amendment to abolish the commerce court, which the house and senate insist upon including in the re-framed measure. The provision to limit tenure of office of civil service employees to seven years, which was an additional reason for the president's approval had it not been included in the bill a second time.

Within one hour after President Taft had for the second time vetoed the legislative, executive and judicial appropriation bill because it carried a provision to abolish the commerce court, the house today repassed it 154

UNITED STATES PREPARING TO ENTER IN NICARAGUA WITH MANY SOLDIERS

BLUE JACKETS AND MARINES WILL BE SENT TO TINY REPUBLIC TO PROTECT LIVES AND PROPERTY OF FOREIGNERS AND KEEP RAILROADS AND SHIPPINGS FROM BEING DESTROYED BY COMBATANTS

SENATOR BACON DECLARES PLOT IS UNEARTHED TO GRAB CUSTOM RECEIPTS

Officials believe 2,000 will be a sufficient number of men to protect Americans and their property and keep the railroad open. The line, which is American owned, runs from Managua to Corinto. If the rebels took possession of the railroad all Americans in the capital would be cut off from the principal seaport on the Pacific. The military force is also expected to protect communication.

Washington, D. C., Aug. 21.—Complete arrangements to throw a force of two thousand bluejackets and marines into Nicaragua within ten days to protect foreign lives and property and keep railroad communication open from the American legation in Managua to the Pacific coast were made today by the navy department. Secretary Meyer today issued rush orders for the big armored cruiser California, at San Diego, Calif., to proceed to Panama. Meanwhile the transport, Prairie, has been ordered from the Portsmouth, N. H., navy yard to Philadelphia to take aboard 750 marines and sail on to Colon.

This force will be sent over the Panama railroad to Panama and be taken on board the cruiser California and be rushed to San Juan del Sur and Corinto. Senator Bacon, in asking a senatorial investigation of the landing of marines and bluejackets in Nicaragua, scored the state department today for its attitude toward Nicaragua during the present revolution, declaring that "the executive departments of this government are now, in my judgment, violating the law by using the army and navy of the United States in Nicaragua."

The senator read newspaper dispatches in which a deal is exposed offering to appoint an "American collector of customs in Nicaragua." "When this matter is sifted to the bottom," he said, "we will find that this is the reason for American interference there. Some time ago a treaty was negotiated by means of which the U. S. government was to furnish agents with authority to collect the customs of Nicaragua and to use the proceeds to pay certain loans to be made by American capitalists. The senate thus far has refused to ratify that treaty."

"I have not the slightest doubt in the world that—with whose authority I don't know but with some authority—there has been an effort to accomplish without law that which they failed to secure by law."

In addition to the marines and bluejackets ashore in Nicaragua from the three American naval vessels, the Annapolis and Tacoma, and the Joslin, American Minister Weitzel has asked for details at Corinto and at San Juan del Sur, both on the west coast. It is necessary to hold these ports in order that communication may be maintained between the cable stations and the American legation at Managua.

The gunboat Denver, under Rush orders should arrive at Corinto Saturday. She will land about 150 bluejackets, bringing the total American force ashore up to 700 men. This force could be increased if the conflict between the factions in Nicaragua continues by a draft of marines from Mare Island navy yard.

Senator Bacon's resolution was referred to a committee to report on the probable expense of the proposed investigation. General Mena has been notified by American Minister Weitzel that Managua is a place of refuge and that no further bombardment or hostilities would be permitted.

Philadelphia, Pa., Aug. 21.—Eight hundred marines will sail from the Philadelphia navy yard next Saturday for Nicaragua. Orders directing the move were received at the navy yard this afternoon from Washington.

New Orleans, La., Aug. 21.—General Luis Mena, leader of the revolutionists in Nicaragua was seized and is now held as a prisoner by members of the liberal party in Leon, according to wireless messages from Bluefields, received here today by Juan J. Zavella, Nicaraguan counsel at New Orleans.

Grades and Modern, state of Chihuahua, according to word received here today by railway officials. A small band of rebels attempted to enter the tunnel and was met by a party of federal Yaqui Indians on guard. Twelve of the rebels were killed by the Indians, the advices say. The destruction of the tunnel would cripple all traffic between Juarez and the city of Chihuahua.

Tucson, Ariz., Aug. 21.—After two weeks of almost constant fighting the Mexican rebel leaders, Rojas and Campos, have captured Ladara, Sonora, and destroyed the town, according to refugees from that place who arrived here today. The rebels looted the town and burned what they could not carry away.

IMPORTANT MEETING. There will be a meeting of the Chamber of Commerce at 8 p. m., at the Old Palace tomorrow evening. There are a number of matters of importance to come before the meeting and it is urged that every member come.

FEARS DIVORCED WIFE MAY KILL DAUGHTER. Boulder, Colo., Aug. 21.—Alleging that he fears his divorced wife may attempt the life of his daughter, Cassius M. Eby of Laramie, Wyo., began suit in the county court today to have Mrs. Eby declared insane. Their daughter, nineteen years old, is a student at the State University. The action is a sequel to a sensational divorce suit of two years ago when Eby, then secretary of the republican county committee, was accused by his wife of threatening her life. Up to a month ago, Mrs. Eby made her home with her son at Pittsfield, Mass.

DETECTIVE BURNS IS ILL FROM PTOMAINE. Denver, Colo., Aug. 21.—William J. Burns, the detective employed in the McNamara case, was stricken with ptomaine poisoning late last night. Today, attended by physicians and a trained nurse, he is confined to rooms at the Brown hotel.

STEAMSHIP ON AN ICEBERG IN FOG

CORSICAN STOVE IN, BUT WATER-TIGHT COMPARTMENTS SAVE THE VESSEL AND ALL ON BOARD, ALTHOUGH BOATS ARE SWUNG BY CREW

Liverpool, Aug. 21.—The Afan line steamer Corsican, which struck an iceberg east of Belle Isle, near Newfoundland on the afternoon of August 12, while on her voyage from Montreal for this port, arrived here this morning. The forepart of the vessel was protected by collision bulkheads, but otherwise she showed no signs of damage.

Captain Cook, the commander of the Corsican said: "The weather was hazy when the Corsican collided with the iceberg on August 12. She was traveling slowly when the iceberg was sighted right ahead. The engines were immediately put astern, but the Corsican touched before she could be stopped. She suffered no damage below ten feet of the water line."

The crew was at once called to the stations and the boats were swung out, but were soon taken back again. All the water tight doors were at once closed. The weather continued foggy for four days but the ship was able to proceed at moderate speed. Her bows were protected with collision bulkheads.

Most of the passengers of the Corsican say there was no panic on board at the time of the collision. Two Cambridge students named Bethell and Stevens, however, say they were almost thrown out of their bunks by the violence of the impact. They also assert that a number of the passengers were panic stricken and that one

WHY I AM A BULL MOOSE

BY ONE OF THE BULLIEST OF THEM

(Continued From Yesterday.)

In short, until Roosevelt took the presidency, what was congress doing, session after session, year in and year out? Studying the condition of the working classes? Doing away with age-old grievances? Keeping close to the common people? Letting them know what was going on in the lobbies at Washington? Making it easy for them to not only express their will but see to it that their will was carried into effect?

Don't make me laugh! The plain facts is that when Roosevelt grasped the tiller, we were a money-grubbing nation, our leading business men were rapacious and utterly without business conscience, our politicians were just business men once removed—and not very far removed at that—and congress was devoted entirely to passing measures devoted exclusively to money and money-makers and having nothing whatever to do with men and those industrial and social reforms which we American men so sorely need!

In short, again, after the Civil war, we abandoned our political and democratic leadership of the world, we ceased—or our leaders ceased—to care a fig for improving the condition of not only our own nation but that of our sister peoples, and we settled down with contented grunts to wallow in the trough of money-making.

Isn't that true? You know it is! And, in the meantime, what has the rest of the world been doing, what is the rest of the world doing today?

I am ashamed to say it, but the rest of the world, notably England, France, Germany, Australia and New Zealand—and, in respect of woman's suffrage—even China—are leading us! It seems almost incredible, but it is overwhelmingly true!

Germany has had workmen's insurance and other notable industrial reforms in effect for years! France is, in some respects, far more democratic than we are ourselves! England is putting to rout her aristocrats and her wealthy privileged classes and has actually passed and put into operation Old Age Pensions and National Insurance, not to mention other notable democratic reforms!

Think of it! England, the mother of privilege, the seat of the snobs, the paradise of the rich man, England leading the United States in democratic reforms!

It isn't a pleasant sight, is it? Well, so much for history. And now, what are we going to do about it?

I have just been reading two beautifully written essays on progress—the republican and democratic platforms! I have not been so lifted and soothed in years!

The sky is blue! The cow bells tinkle sweetly in the pasture! The old wheel drones lazily beside the mill! All is quiet, and rest, and peace!

And if there is anything about the house or the barn which needs fixing, if the colt has shed a shoe, or the wagon spring a shift, or the roof shows signs of leaking; why, everything will be made right just as soon as they get into office!

It's a lovely picture! The coloring is laid on in such dashing, free strokes! The technique is so bold, so convincing! The atmosphere is so true to life! But can I believe it!

Alas, gentlemen! I cannot!

I've heard and seen all this before and so have you. We both have. We all have. And the trouble is—the reason why there is such a fuss in our American politics just now—the trouble is that we are all beginning to realize that we have all seen these things, these large and luscious promises before, and that nothing ever came of it!

That's the trouble, my masters in the republican party, and my equally masterful gentlemen in the democratic party! The American people, the real Simonpure, backbone, horn-handed, plain, go-to-the-meeting people are getting tired of being fooled, and are going to do some of the fooling themselves. (And I am reliably informed that the new American April Fool's Day has been set down for November 5, this year.)

You can't fool all the American people all the time, as the rail-splitter once remarked. And as they have been pretty persistently fooled by the politicians for some generations now, it would seem about time for a change.

But I have referred just now to those two platforms. What do they contain?

Well, the republican platform is built around, let us say, four things, the upholding of the courts, the downing of the trusts, the protective tariff and the lowering of the cost of living.

Item No. 1—The courts are scared (that is to say, the majesty of the law is scared when it has any majesty, which, sometimes, I regret to say, it hasn't)—the courts are scared, of course, but the judges aren't scared by a good deal, for the judges are human—some more than others—and, though to forgive is undoubtedly divine, to err is equally human, and, as I have observed, judges have a good deal of clay in their composition.

Take, for instance, Judge Hanford of Seattle, a very recent ornament (somewhat roccoco, to be sure) of the federal bench. The judge attracted attention to himself when he refused to qualify for citizenship one of the Socialists (who are now conceded, after some years of doubt, to be more

or less human), and this raised such a howl that a congressional committee began to unearth Mr. Hanford, and when he realized that the delvers were about to expose the corpse, he resigned in a hurry, by telegram, in fact!

Put some fear of the people in the hearts of our judges! It won't do them any harm, and it's quite likely to do us a lot of good!

But this recalling of judicial decisions. Isn't that revolutionary? Well, anything's revolutionary which the New York Times and the New York Sun don't like, but there are revolutions and revolutions!

For example—When Roosevelt enunciated his new idea of the recall of judicial decisions before the Ohio constitutional convention, last February, the reactionary papers distorted what he really said into the most bizarre results imaginable. Roosevelt expressly stated that he favored the application of such drastic methods only under certain precise conditions and after the lapse of a certain reasonable period of time. In short, this was to be merely a short cut to what state legislatures would have to take a very much longer time to reach, but to listen to the Times and the Sun you would think the colonel had proposed to chop the constitution into mince meat.

(To Be Continued.)

ORIGINAL BUSTER BROWN AT ESTANCIA

Estancia, N. M., Aug. 21.—The original Buster Brown and his dog Tige will be at Estancia on the 28th of August and they will be pleased to see all the boys and girls at a reception which they will hold at the Hughes Mercantile Company store. Buster is a prime favorite with the kiddies everywhere.

Mr. Frank Butt has just arrived from Hopkinstown, Kentucky, where he has been located for the last thirty years and engaged in the milling business. He comes here to take charge of the McIntosh mill and the recommendations he brings show that the owners of that mill have secured a first class man. The mill started its first run for this season on Thursday and everything went like a charm.

The resumption of this mill is a bit of mighty good news to the whole valley for it assures a cash market for the large quantities of wheat that have been raised here this season. The McIntosh mill is acknowledged the most up-to-the-minute in equipment of any mill in the state and they will turn out a product that will compete with anything from Colorado or Kansas. It is such things that help our state.

Mrs. L. D. Roberts was operated upon by Doctors Wieder and Sanders Thursday and is doing very nicely.

G. H. Van Stone left Saturday for a trip east. It is not known just why he is taking this trip but the wise ones think that politics and the new progressive party may have something to do with it.

A. J. Burkhead of Dalhart was a visitor here Friday. He is with the Case Threshing people and went out to watch the Pace thresher working over some of the big wheat crop. There is wheat enough to keep the thresher busy for quite a time.

MARKETS.

WALL STREET.

New York, Aug. 21.—Smelting, Steel and Amalgamated Copper, in the order named, were strong today on the stock market with dealings largest in steel. The coalers, Harrimans and Hills reflected underlying strength with no marked change, but Canadains inclined to reaction. Tobacco stocks, such as Liggett and Myers, Lorillard and Snuff were up 1 to 3 points.

Pullman was easily the feature of the equipment group, gaining almost five points.

Bonds were strong. Further gains in Amalgamated and Anaconda were made in the noon hour, with considerable activity in Ontario and Western which rose 2-1/2 points. Otherwise the market was featureless. The market closed steady.

Practically all gains were obliterated in the last hour, when a sagging tendency overtook the general list. The reversal was not attended by any pressure but seemed to originate in a lack of further bull initiative.

Ribs, Sept. 16.87 1/2@90.

CHICAGO GRAIN.

Chicago, Ill., Aug. 21.—Expectation of increased movement of spring wheat backed by a clearing weather forecast tended today toward a bearish market. Early trading was light with prices unchanged to 3-8c lower. December opened 1-8c down at 92 1/2 and all deliveries deep within narrow limits.

The close was steady with Dec. 1-8c high at 92 3/4; September closed unchanged at 92 3/8c.

Influenced by fine crop conditions and better shipping weather, corn opened early with trading scattered. September started 1-8 down at 70 1/2 and eased off 1-8 soon afterward. December opened a shade to 1-8@1-1/4 lower at 55 5/8 to 1-2 and steadied at 55 5/8.

The close was firm at near the top with September 7-8c higher at 71 1/2 and Dec. 3-8@1-2c up at 54 1/8c, a shade beneath the high point.

Weather conditions also governed oats. September started rather easier than bid distant deliveries. September at the outset was 1-8 to 1-4c lower at 32 to 31 7/8c. December opened unchanged to a shade higher at 32 5/8 to 32 5/8@3-4c, resting at 32 5/8c. Heaviness of grain weakened provisions. Initial sales varied from 5c lower to 2 1/2c higher, with October 17.95 to 17.97 1/2, for pork; 10.85 for lard and 16.82 1/2 for ribs.

LIGHT

IN THESE DAYS OF MODERN METHODS, Electricity plays a most important part. The grandfather would be amazed at the radiance of the modern home—and why all this light? To make the home more homelike—to make the home the most pleasant spot on earth for father, mother and children. Good light that is easy on the eyes is very much to be desired.

POWER

NOTHING IS QUITE SO CONVENIENT as to touch the button and your stove is ready to cook—your iron ready to use, your toaster ready for the hurried breakfast, your vacuum cleaner ready for the fray, your washer ready to cleanse, fan ready to cool the heated rooms. Electricity will do every thing for you. We furnish it at reasonable rates, day and night. Estimates and full information cheerfully given.

NEW YORK LETTER

New York, Aug. 21.—Through the killing of Herman Rosenthal, gambler and reprobate, by hired assassins, the attention of the country has been drawn to the ease and deftness with which a man may be put out of the way by his enemies in the nation's metropolis.

In the Rosenthal case, the escape of the murderers has been held to indifference, due to an alleged alliance between members of the police department and the gambling interests. It may be thought, outside of New York, that such a bold crime as the killing of Herman Rosenthal must be exceptional in New York, and that only through some unusual reason could the perpetrators of such an assassination get away so easily.

Not at all. The Rosenthal slaying had its peculiar features, but it was only one of a constant succession of midnight assassinations which mark the contempt for human life prevalent in this city's dark underworld.

On the night Rosenthal was murdered, two men sat playing checkers in a barber shop at 261 E. 10th street. Two men entered, and one of them said to one of the checker players, "Are you Rocco?"

"Yes," he replied.

Light shots were fired into Rocco's body, and the two walked out, leaving their victim dead on the floor.

That they were hired to kill; that they did not even know personally the man they murdered, was shown by their having to ask him his name before they killed him. They have not been caught.

On the next evening, less than 24 hours after Rosenthal was killed, a man was walking along the sidewalk near Second avenue and 10th street, when several others came up to him and put 10 bullets into his body.

He was dead when the police picked him up, and none of his slayers was caught.

The Rosenthal case is getting much publicity, but the papers scarcely mentioned the other two killings. They are of a type too common to merit any extended notice.

New York, Aug. 21.—New York is to have a new fad and cult to teach the principle of sincerity as a solution of individual and collective problems. It will be put under way today in an office in the Park Avenue hotel by Charles Edwin Ellis, who says he resigned an \$8,000 position with a corporation to take up the work.

"It is the simplest matter in the world," said he, "to be sincere, although at the present time it involves many unpleasant consequences."

"We talk about the high cost of living, but are we sincere in it? Are not every year increasing numbers of us scornful agriculture? We are not sincere in our talk of the high cost of living."

"Still there is a distinct movement in business toward sincerity. Insistence is being put upon the publicity of campaign expenditures and contributions. Merchants are willing to refund money upon unsatisfactory purchases."

Mr. Ellis says he was secretary of the American Finance and Securities company, a position he could have retained, but that he believed he could be more useful calling upon the world to be sincere with him.

The complaint is general among Christian workers in New York that never before has the interest in church matters been so slight or the attendance so slim as this summer. The churches on Fifth and Madison avenues and Trinity, on Broadway, which usually have their congregations swelled in the summer by people from out of town, are suffering from the apathy as much as their smaller neighbors. Only twenty-six persons were at the church of the Heavenly Rest yesterday morning and forty at St. Thomas's.

The Marble Collegiate and the Madison Avenue Methodist are drawing from one hundred to two hundred every Sunday. Trinity, which has just as pretentious a service in summer as in winter, had a congregation of only three hundred yesterday.

A well dressed man climbed over the iron railing about the hippopotamus tank in the Central park menagerie yesterday and was approaching Miss Murphy and her son on the south platform when the keeper caught him.

"What are you doing here?" the keeper demanded.

"I want those bullfrogs. They belong to me," the stranger said.

The keeper got him outside the railing before the animals did.

The liner Caledonia brought here yesterday a cargo of 9,600,000 deep-throated and several thousand high-balls in the raw, but not enough to kill the dryness which will be caused by the greater part of the Scotch delicacies. It carried twelve thousand barrels of kippered herring, each barrel containing eight hundred herrings.

The Caledonia also had two hundred cases and as many barrels of Scotch whiskey. The American importers figure that it was a canny Scotchman's trick, sending thirst producers and the wherewithal to kill the ensuing dryness.

Residents of Nutley, N. J., a suburb of this city, have begun a war to eliminate signboards, which spoil the otherwise pretty landscape. The commission government was appealed to, but it said it was unable to remove them, as the courts have decided that an owner can use his property as he sees fit. The plan now is to ask the advertisers to have the signs removed.

If they do not act a boycott of stores using the signs will be inaugurated.

PROGRESSIVES AT DEMING

J. P. Morris and son, W. E. Morris, of Paris, Texas, are here looking for a location.

Ralph Appleby, of Houston, Texas, has located in Deming.

A. R. Warner, of Beloit, Wis., is here investigating the valley with a view to making investments.

Mrs. W. H. Evans, of Boeville, Texas, is here looking for a location.

Deming, N. M., Aug. 21.—The coroner's jury sitting Saturday afternoon found that the death of Dominguez was due to a cut in the abdomen made by one DeLuna. At the examining trial Eusebio DeLuna was bound over without bail to await the action of the grand jury.

At a large and enthusiastic meeting of progressives Saturday night, a Wilson and Marshall club for Luna county was formed. J. N. Upton was elected president, Jas. R. Waddill, vice-president, Lee O. Lester, treasurer and Samuel Lindauer, secretary. There were good roving progressive speeches by Jas. R. Waddill, Jas. S. Fielder, and Samuel Lindauer.

A set of resolutions endorsing the platform adopted at the Baltimore convention were passed.

The Luna county teachers institute opened this morning, twenty-eight teachers enrolling. Supt. J. B. Taylor is conductor and instructor. Supt. McFarland of the Silver City schools visited the institute today. Drs. David R. Boyd, C. M. Light, W. E. Garrison and F. H. H. Roberts will be here during the institute and deliver lectures.

D. L. Greenwood has purchased two lots in block CC townsite addition from Dr. J. M. Williams, and will erect a bungalow on the same in the near future.

J. H. and Troy Cantrell, recently from Arkansas, bought of H. M. Bruce a 320-acre relinquishment Saturday. These gentlemen have filed homestead entries on the same, consideration \$2400. The land is located ten miles south of town.

H. F. Baldwin of El Paso, is here for a few days looking after his business interests in this place.

T. M. Culbertson of Iago, Texas, is here prospecting.

R. E. Logan, of Moorshore, N. C., arrived today in Deming and will spend several days prospecting in the valley.

PROGRESSIVE CALL STATE CONVENTION

In accordance with the instructions of the executive committee of the progressive party of the state, on the 12th day of August, 1912, a state progressive convention is hereby called to be held in the city of Albuquerque, New Mexico, on the 10th day of September, at the hour of two o'clock p. m., to nominate one candidate for representative to congress, and three presidential electors, and the transaction of such other business as may properly come before the convention.

Until after the election in this state on the first Tuesday in November, 1912, the several counties of the state are entitled to representation in the above convention as follows:

They shall be entitled to double the number of delegates that represented said counties in the progressive convention held at the city of Albuquerque, on the 29th day of July last, and on such basis of representation, each

The county committees representing the progressive party of the several counties above named, are requested to call precinct primary and county conventions at as early a date as possible, for the election of delegates to said state convention, but no county convention should be held later than September 7th. Until after the first state election in November, 1912, said committees should fix the number of delegates that each precinct is entitled to in the county convention which this committee suggests should be one delegate for every ten votes or majority fraction thereof cast for the republican candidate for delegate to congress at the general election of 1908.

If contest should arise before the state convention, the papers in regard thereto should be delivered to the secretary of the state central committee, at least twenty-four (24) hours before said convention meets. All credentials and proxies should be delivered to the secretary in the forenoon on the day of the convention.

SPORTING NEWS

WANTED—ANOTHER MANAGER FOR THE HAPLESS CINCI REDS!

Garry Herrman is once more out with his lasso. It probably won't be long before some hapless ball tosser is branded as the manager of the Cincinnati Reds.

This news and the remembrance of the failures in the job of Cincinnati boss must be enough to send all prospective managers of the club scurrying to get under cover.

Baseball history has shown that the managerial job in Redville isn't the softest, most desirable thing in baseball, and if Herrmann succeeds in slipping the lariat over Otto Knabe, of the Phils, Bill Sweeney, of the Boston Braves, or Miller Huggins, of the St. Louis Cardinals, there may be another name added to the long list of Redland failures.

Since Garry Herrman broke into baseball more than a decade ago he has tried as hard as he knew how to produce a winner. Money has been spent lavishly by him and trades of all sorts pulled off, but the flux still sticks. Managers have fallen down on the job in Cincinnati only to go elsewhere and bob up with a winner; but win in Cincinnati—why, it's getting to be a joke of the baseball world.

Joe Kelley was the first of the failures. After several years of indifferent success, while toiling for Herrmann, he went to Toronto and produced a winner right off the reel, and he has kept that team up in the race every year, except one when he was ejected into managing the Boston Braves.

Ned Hanlon, Kelly's teacher at Baltimore, followed his former pupil as boss of the Reds. Hanlon's success with the red hosed athletes was noticeable only for its absence. Herrmann was really grateful when Hanlon, disgusted with baseball in general and with the Cincinnati brand in particular, retired to his Baltimore domicile to enjoy the fortune he had made in his long diamond service. "Jawn" Ganzel was the next to fall

OTTO KNABE AND MILLER HUGGINS, ONE OF WHOM MAY BE CAUGHT FOR THE JOB. ABOVE, FOUR MEN WHO HAVE TRIED IT AND FAILED—HANK O'DAY, JOE KELLY, ED. HANLON AND CLARKE GRIFFITH.

down on the job. Sold to Rochester, he has done nothing but win pennants for that club, and now has a lead for the rag this year about as safe as anything can be in the uncertainty of baseball.

Although he had previously won one pennant in the American league and had lost another through a wild pitch only, Clarke Griffith couldn't produce a winner in Cincinnati. But take a slant at his success since leaving the Reds. Taking the Washington club at the start of this season, he has converted that perennial tailender into a real pennant contender which has not yet been critted out of the race by a single error the country over.

And now we come to the case of Hank O'Day. Poor old Hank labored under the delusion that umpiring in the National league was the worst fate that could come to any man. He

sees his mistake. He has worried more, has lost more sleep and spent more anxious moments since the opening of this season than ever before in his career. And his troubles aren't over, for his team is still slipping. Now he has begun to count the days until the October 6, when the Reds meet the Pirates in the final game.

With these failures in mind, is it any wonder that budding managers aren't falling over each other to land the job? Of course there is a chance that any one of the trio might produce a winner in Cincinnati. Huggins, Sweeney and Knabe are all aggressive players; all of them know the game from one end to the other. But not one of them has ever had any experience in bossing a bunch of ball tossers; not one has had an opportunity to show that he possesses a lot of executive ability.

there are five that it is hard to choose from on their present form, and they are Marquard, Rucker, O'Toole, Lavender and Suggs. But if you are asking me my opinion of the greatest pitcher or pitchers I know of, and they are not out of it by any means at present, I would say Mathewson first and Brown second; and could anyone honestly pass up those two brilliant performers after such wonderful careers as they have had. Mathewson, in my opinion, is the greatest pitcher the game ever knew, and Brown was his equal or just close behind.

Joe Jackson—Walter Johnson is the greatest pitcher in the whole world. Last year I used to swear by Ed Walsh, sometimes at him, but this year it is all Johnson. He has the greatest speed of any man I ever saw and is by all odds the hardest pitcher in the world for me to face. He has everything a pitcher could want, and when he is going full speed and starts burning them over the plate a batter might as well strike out and be done with it. The one best bet in the American league is Walter Johnson, and I don't believe he has any equal in the National.

Ty Cobb—Ed Walsh always used to be my particular trouble whenever I wanted to fatten my batting average. Walter Johnson is another terror in the box, but Ed Walsh, I believe, when he is going right, has my goat a trifle more than any twister I know of.

George Moriarty—I believe Walter Johnson is the greatest pitcher in the American league. He has always been a wonderful box man, and this year he seems to be going stronger than ever. He is a terrible man to face when he is using his full speed. There is certainly no pitcher in the game who is equal in that respect. Joe Wood is very fast, but he is rather light, and although his ball comes speedily, it has not the force behind it that Johnson puts into his speed. When Johnson shoots the ball across the plate it fairly whistles through the air and strikes heavily with the strength he puts behind it. I think he is the greatest pitcher in the game.

ARE ATHLETICS WEAK.

Philadelphia, Pa., Aug. 21.—It must prove Connie Mack every time he thinks of the way his White Elephants have comported themselves in games decided in the ninth inning this season. No less than ten times have the Philadelphia's opponents put over the winning run in Canto IX, every team except Boston having taken one or more combats from the fading champions in the last regularly scheduled round of play. Of these ten games decided in the ninth, the score was tied at the end of the eighth in six, the title holders were ahead in three and they were behind in one. The White Elephants' showing in games decided in the ninth proves one thing sure—that Mack's old pitchers are going back and that his new slabs are not coming very fast. Bender has dropped three games in the ninth, Plank two, Brown two, Penneck two and Houck one. If instead of having lost those ten games in the ninth the Mackmen had won them, they would be right on the heels of the Red Sox now instead of being a city block behind them.

FROM OFF THE DIAMOND.

The oldest resident in New York doesn't remember when Wiltse won a game, but yet he is sent out with regularity, only to be returned a loser every time. He is consistent, at any rate.

Fred Snodgrass, the hard-hitting outfielder of the New York Giants, reminds one of "Ty" Cobb. He's so different.

The Giants' outfield is a joke, about the worst in either of the two major leagues. Shades of George Gore, "Jim" O'Rourke, "Mike" Tiernan and

"Mike" Donlin! Oh, yoi! yoi!

Pitcher Grove Lodermillk of the Louisville club, has been purchased by the Chicago National league club for immediate delivery. Pitcher Fred Toney, who was sent to the Louisville team earlier in the season by the Cubs, has been recalled. Looks as if the Cub management is going to take no chances on not having an adequate pitching staff.

The current issue of Collier's Weekly contains an interesting editorial on the "base-on-balls" proposition. The editorial maintains that the base on balls should become such an important part of the game. It gives the pitchers a big advantage for which he makes no return as he can make use of the skill of the best batter by walking him. Collier's suggests that the umpire be given the power to refuse to allow the batter to go to first when, in his opinion, the pitcher deliberately walks his man.

REPUBLICAN LEAD IN WYOMING.

Cheyenne, Wyo., Aug. 21.—Results of Wyoming's first state primary election, chiefly interesting for local contests which developed and confusion over interpretation of the law on the part of the election judges, thousands of party ballots were scratched and the names of candidates on the other ballots substituted. The counting of these votes was done in various ways,

according to the idea of the precinct officers.

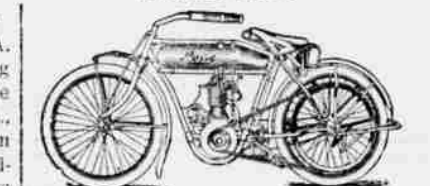

The strength of the support given Senator F. E. Warren and Congressman F. W. Mondall, candidates on the republican ballot for re-nomination is regarded as significant, the vote being greatly in excess of the vote in the democratic primary given by J. B. Kendrick for senator and Thomas P. Fahey, candidate for congress.

CUBS SHUT OUT GIANTS 4 TO 0 TODAY

BIG WEST SIDE PARK JAMMED WITH CHEERING FANS IN MOST EXCITING CONTEST OF SEASON

Chicago, Ill., West Side Park, Aug. 21.—In a sensational game here today, Chicago shut out New York 4 to 0, thereby cutting down the Giants' lead to the pennant to four and one-half games. Every seat was filled with fans while several thousand waited outside, unable to get tickets.

Chicago got to Tesreau for three hits in a row in the sixth and scored three runs. Richie, who won two games from New York in three days last week, pitched masterly ball.

Enroute from St. Louis to Pittsburgh, the New York Giants stopped off in Chicago to play a postponed game with the Cubs.

Richie, who has fallen heir to Jack Pfeister's old name, "the Giant Killer," because of his effectiveness against the New York club, was slated to pitch for Chicago. Tesreau, who won for the Giants in the second game of their last series here, was to pitch for New York.

Before the game the cubs were five and one-half games behind the Giants. At the beginning of their last series with McGraw's men they were six games behind. An injury kept Mearle out of the game and Snodgrass took his place at first, Devore going to left field for New York. Every seat in the stand and benches was taken and spectators crowded about the outfield thirty deep.

FIRST INNING.
New York: Snodgrass walked but was caught stealing second, Archer to Tinker. Doyle flew out to Saler. Becker singled to center and Murray filed to Leach.

Chicago: Sheekard grounded to Snodgrass. Schulte fanned. Devore got Tinker's fly. No runs, no hits.

SECOND INNING.
New York: Devore was safe on Zimmerman's wide throw to first. Leach was under Herzog's fly. Meyers was out, Zimmerman to Saler. Fletcher filed to Schulte. No runs, no hits, one error.

Chicago: Zimmerman filed to Doyle. Leach walked but was caught stealing. Saler was passed but Evers

fled to Murray. No runs, no hits.

THIRD INNING.

New York: Tesreau singled to left. Snodgrass filed to Leach. Doyle forced Tesreau, Evers to Tinker. Doyle caught stealing; Archer to Evers. No runs, one hit.

Chicago: Archer singled to center. Richie struck out. Sheekard also struck out. Schulte fanned. No runs, one hit.

FOURTH INNING.

New York: Becker filed to Leach; Richie and Saler retired Murray. Devore was out, Evers to Saler. No runs, no hits.

Chicago: Tinker struck out. Zimmerman walked. Leach singled to right. Saler filed to Becker. Zimmerman going to third after the catch. Evers was out, Herzog to Snodgrass. No runs, one hit.

FIFTH INNING.

New York: Evers got Herzog's fly. Zimmerman and Saler disposed of Meyers. Fletcher singled past Zimmerman. Tesreau singled to left. Snodgrass lined to Zimmerman. No runs, two hits.

Chicago: Archer was out, Doyle to Snodgrass. Richie out, Doyle to Snodgrass. Sheekard doubled into right field crowd. Murray was under Schulte's long fly. No runs, one hit.

SIXTH INNING.

Doyle out, Evers to Saler. Becker doubled to right. On Murray's hit Zimmerman caught Becker at third and nailed Murray at first. No runs, one hit.

Chicago: Tinker singled to right. Zimmerman doubled to left, sending Tinker to third. Leach singled to center, scoring Tinker and Zimmerman. Saler grounded to Herzog, who threw wild to catch Leach at second. Both runners were safe. Evers beat out a punt to Tesreau. Leach going to third and Saler to second. Archer fouled to Herzog. Richie fouled to Meyers. Leach scored on a passed ball. Saler going to third and Evers to second. Sheekard grounded to Snodgrass. Three runs, four hits, one error.

SEVENTH INNING.

New York: Devore fouled to Tinker; Herzog singled to center; Meyers filed to Schulte. Fletcher forced Herzog, Evers to Tinker. No runs, one hit.

Chicago: Schulte doubled down the first base line. In an attempt to sacrifice, Tinker popped to Tesreau. Zimmerman struck out. Leach filed to Becker. No runs, one hit.

EIGHTH INNING.

New York: McCormick batted for Tesreau and filed to Sheekard. Snodgrass popped to Tinker. Doyle singled past Evers. Becker forced Doyle, Evers to Tinker. No runs, one hit.

Chicago: Crandall replaced Tesreau for New York. Saler singled past Doyle. Crandall and Snodgrass disposed of Evers. Archer singled to left, scoring Saler. Richie popped to Doyle. Sheekard was out, Herzog to

Snodgrass. One run, two hits.

NINTH INNING.

New York: Leach was under Murray's fly. Devore was safe at first when Saler dropped Tinker's throw. Herzog's hit, forced Devore. Tinker to Evers and was doubled. No runs, no hits, one error.

BASEBALL

WHO'S THE GREATEST PITCHER.

Here are the opinions of the greatest men in the game today regarding the greatest pitchers. Read them and see if you concur in their opinions:

Hugh Jennings—There are a number of great pitchers in the American league. Ed Walsh is great and there are others, although I believe Walter Johnson is a little the best. In the National league, of course, I cannot speak with as much knowledge, but I doubt if they could put a man into the field who could take Johnson's measure.

Clark Griffith—Walter Johnson is the greatest pitcher I have ever seen. You may say that I think so because I am managing Washington just now, but that isn't the reason by a good deal. I said Johnson was the greatest pitcher in the game last year when I was with Cincinnati and before I had any idea whatsoever of ever joining the Washington or any other club in the American league.

Robert Becher—Marty O'Toole is my particular hoodoo. He strikes me out easier than any pitcher I ever faced. I won't say he is the greatest pitcher in the National league; at least not yet, for he is still young; but he is undoubtedly the hardest one for me to face. As for the American league, of course, I don't know so much about its players, but what I have heard from a good many sources leads me to believe that Walter Johnson is about the best in the business.

Jake Daubert—The hardest pitcher in the world for me to face is Rube Marquard, at least, that has been my experience this year. I think that the pace Marquard is traveling now is about the best in the league. As for the American league, I have never faced Walter Johnson, though I have heard a great deal about him, and the majority of opinions I hear expressed seem to agree that he is about the best in the business.

Hal Chase—I consider Walter Johnson the greatest pitcher in the American league. I think he is all to that organization that Mathewson used to be to the National. Yes, Johnson is the true Mathewson of the American league, and since Matty has begun to decline I will go a step farther and say that Johnson is the greatest pitcher in either league, for it is conceded that Matty isn't what he used to be.

Johnny Evers—I have never seen Walter Johnson, but from talks with American league players he must be a wonder, and if I had seen him I would, no doubt, pick him. As for the ones I have seen in our league

BARTOLFI GAVE MUSICAL TREAT

It is three years since Prof. Bistoff appeared here prior to last night, but it is clearly apparent that he has not been forgotten, and should he, in his round of travels head this way again in the future, it is certain that the city won't dodge.

The Elks opera house was packed from gallery to pit and listened to a charming entertainment. The musical numbers were selected to please all tastes and included classic gems from the great operas, strains culled from the lighter operas, a few stirring marches and some of the old standard pieces that always have an appealing interest. Each number was given with much expression and with a fine discrimination as to light and shade.

The solo by the violinist was rendered most skillfully and responding to a spontaneous demand, he gave as an encore Ruff's beautiful "Cavatina."

Prof. Bistoff, as leader, was inspired with the music which he called from his harp and guitar and he added much to the pleasure of the evening by the remarks with which he introduced each number on the program. They were witty and to the point. The banjoist, constituting the third member of this delightful little orchestra, was a master of his instrument, and altogether the entertainment was charming to the last degree.

Professor Bistoff laughingly apologized for interrupting the Grizzly bear, but announced that the orchestra would thereafter redeem itself by giving Traumerel, one of the gems of music and indeed the orchestra did more than redeem itself in the artistic rendering of this number.

The concert closed with a medley of national airs and the three leading parties of today were represented by "Marching Through Georgia," for the republicans, "Dixie" for the democrats and "A Hot Time in the Old Town" for the progressives. "The Star Spangled Banner," played in a most spirited manner, concluded this musical treat.

This morning the orchestra went out to the penitentiary to play for the inmates there and this afternoon rendered a few pieces at St. Vincent's Orphanage at both of which places the music was greatly enjoyed.

Prof. Bistoff's orchestra will give another concert at the Elks' tonight and a large attendance is assured.
The next point in the itinerary of the orchestra is Las Vegas.

BOOZE OR NOT IS THE QUESTION IN EDDY COUNTY

Carlsbad, N. M., Aug. 21.—It has rained nearly every day for a week and every one is happy except the alfalfa farmer with a lot of hay down. The rain has been general through the county and is making splendid grass on the range and corn and cotton on the farms in the valley. It has been dry for six weeks and the stock men began to worry about winter grass, but the rains are coming in time to make winter feed.

The heaviest part of the peach crop has gone to market, one or two cars remaining to go out. But there will be peaches to ship by express for at least a month yet.

The third week of the Eddy county teachers' institute opened this morning with a much increased attendance. It is likely that the attendance will reach a hundred the closing weeks of the institute. The institute was visited last week by State Superintendent Alvan N. White, Dr. Boyd of the State University, Dr. Light of the Normal at Silver City, and Dr. Roberts of the Normal at Las Vegas.

The saloon situation is still acute in Eddy county. Upon the request of District Attorney K. K. Scott the county commissioners appointed L. A. Swigart to take a census of Knowles, Malaga, Loving, and San Jose to see if these places had the required population of one hundred people. Mr. Swigart is now at work. The people of San Jose, however, are not waiting for relief from the outside, but have taken the matter in their own hands and petitioned the city of Carlsbad to be taken into town. The council accepted the petition and will call an election to annex San Jose. This will close up the saloon in San Jose.

GENERAL BOOTH DROPS SWORD.
(Continued from page one.)

not expected this honor will be awarded to General Booth by the abbeys authorities.

It is the general belief that the general's last resting place will be alongside that of his wife, who, 21 years ago, was buried in Abbey Park Stock, Newington.

Almost the last words of General Booth, were uttered just before he lost consciousness. He was referring to God's promises and speaking with great difficulty, said:
"They are sure—they are sure—if you will only believe."

LAWRENCE RAID RECALLED TODAY BY ONE WHO SAW IT

Today, August 21st is the forty-ninth anniversary of Quantrell's raid at Lawrence, Kansas, and the memory of all the frightful incidents which took place on that memorable day are still vivid in the minds of the survivors. Mrs. Anna Mugler, mother of Mrs. Wentee and Miss Mugler of this city, who resided in Lawrence at that time recalls perfectly the terrible massacre of innocents, the burning and pillaging of homes and the almost inhuman barbarity displayed by the raiders. Mrs. Mugler had the good fortune of escaping unharmed, but was nevertheless a witness of the whole affair.

She talked most interestingly today concerning her experience at that time. For almost two years before the raid took place, she said, the inhabitants had been warned that sooner or later the city would be attacked, until finally the people relaxed all vigilance so often had their fears been unrealized. About two months prior to the attack, however, another warning came to the city and the mayor becoming alarmed, appealed for soldiers and cannon from the state. These were sent, but as everything appeared quiet, were soon recalled. On the morning of August 21st, while the inhabitants were still in their beds, their worst fears were fully realized when from seemingly nowhere there sprung up men who perpetrated one of the worst slaughters in the history of Kansas. The scenes which followed their entry into the city will always be a memorial of the horrors of war, said Mrs. Mugler.

McNAMARA FAMILY IS REUNITED AGAIN AFTER A LONG CHASE.

Husband Who Caused Arrest of Chauffeur and Housekeeper Says Woman Will Never Darken Doors of His Home Again.

San Francisco, Calif., Aug. 21.—"We are all together again and are all happy," is the way Nicholas J. McNamara, the San Mateo banker, sums up the result of his chase across the continent and back for his wife, their two small sons, and his automobile. After a series of domestic disagreements, Mrs. McNamara left her home with her two youngest children, in the company of Mrs. Cora D. Perkins, her housekeeper, and Fred Patterson, the chauffeur.

The husband's only clue to their path was a stream of returning checks on Mrs. McNamara's bank account. With the aid of the police he caught them in New York, just as they were to sail for Europe.

The San Francisco grand jury found an indictment against Mrs. Perkins and Patterson, charging larceny of the automobile, and they were brought back to San Francisco. In the meantime, McNamara had hurried to New York, missed his wife there and followed her to their home.

Today they are reunited.
"There is not going to be any trouble," says McNamara, "Mrs. Perkins will never darken the door of our home again."

ROOSEVELT ORDERS FIGHT ON LONGWORTH.
Cincinnati, Ohio, Aug. 21.—Opposition by a progressive candidate to the reelection of Congressman Nicholas Longworth, son-in-law of Colonel Roosevelt, was ordered indirectly by the colonel himself, according to Dr. A. O. Zwick, a delegate to the recent progressive convention in Chicago who formally announced today he would run against Longworth, republican.
"The colonel desires a complete ticket in the field from this county," said Dr. Zwick.

"All of Today's News Today"

A NEW ERA HAS DAWNED.

Political history, we use the word political in its broadest sense, has been made faster in this country in the past two months than in the entire 50 years that preceded them.

It is not an extravagant statement to say that the new era in the political, economic and social life of this country, so ardently hoped for and striven for and prayed for by the millions of American men and women who love humanity better than they love dollars, has dawned.

The birth of the progressive party at Chicago; its nomination of Roosevelt and Johnson on a platform dealing in unequivocal language with such vital social problems as minimum wage scales, equal suffrage, hours of labor for men and women, the protection of defenseless children from the greed of the wolves of industrialism was, if possible, a more remarkable demonstration of the determination of the common people to take back their government into their own hands than was the victory at Baltimore, where the common people, under the leadership of Wilson and Bryan drove the money changers from the temple of democracy.

Ten weeks ago the national convention of the most powerful and proudest political party this country has ever had, a party that has been in almost continuous control of the government for 50 years, was held at Chicago with all the pomp and circumstance that attends such gatherings.

Today that party is dead beyond any possible chance of resurrection; its platform a by-word; its candidate for president of the United States, discredited as have been few if any of its predecessors.

The presidential contest upon which the people of this country are now entering is not a three-sided contest—it is a two-sided contest.

Taft and the gray wolves of privilege that surround him are already defeated.

One of the other parties will have the reins of government in the coming years. Theirs will be the duty of carrying out a new policy which will bring the people in control of their own affairs.

It is our belief that the new progressive party, free from old entanglements, unfettered by former alliances, uninfluenced by sectional feeling, is the party to lead us into these new fields of endeavor, under the dawning light of a new national era. To this party every believer in a change of method and in a people's government should lend a cordial and consistent support.

MORE THAN THAT.

The standpat candidate for attorney general in Michigan declares that the real issue in this campaign is the tariff—whether we want to continue it or relinquish it; that we have had experience under both the tariff and free trade systems.

The Michigan candidate continues: "The fact remains, and it is more important than all things else to the people at large, that we have a condition of general prosperity. The workman has plenty of work, the farmer good prices, and the business man is doing well. Our farmers are protected against competition from Canada and elsewhere and with republicans in power they will continue to be protected. Reciprocity is dead for 50 years."

Mr. Kuhn overlooks the fact that the platform of the progressives declares: "We believe in a protective tariff which shall equalize conditions of competition between the United States and foreign countries, both for the farmer and manufacturer, and which shall maintain for labor an adequate standard of living."

Thus, as far as the tariff is concerned, the argument in favor of the old organization does not hold good. The tariff is an issue of course, but on this the progressive party stands square. While it is an issue it is overshadowed by the greater, more potent and pressing one, that of the re-establishment of the people in their governmental rights; the recognition of their interests as at least equal to those of the great corporations, and the giving to them a voice in the management of their own affairs. That is the fundamental issue, and in fighting for that the party has not lost sight of those other principles which we believe to be necessary to our progress and prosperity.

It is the progressive party from whom help must come in the present great emergency in our government life.

FOR ADVANCEMENT.

"A great party has pledged itself to the protection of children, to the care of the aged, to the relief of overworked girls, to the safe-guarding of burdened men. Committed to these humane undertakings, it is inevitable that such a party should appeal to women, should seek to draw upon the great reservoir of their moral energy, so long undesired and untapped in practical politics—one is the corollary of the other, a program of human welfare, the necessity for woman's participation."

That is a plea for humanity. It is not demagogic, nor dangerous, nor jeopardizing to our institutions. It is a quotation from the speech of Jane Adams, delivered at the progressive convention at Chicago.

General William Booth, commander of the Salvation Army is dead. He was really one of the big figures of this generation and accomplished, through the agency of the religious army which he organized and commanded a tremendous amount of good. The Salvation Army touched where the church could not, try as it might, and it has pulled from the slough of despair many a man and woman who were slowly sinking in it. The Christian soldier who died yesterday has left a touching and a beautiful record behind him, and an army of devoted followers will mourn over the final call which summoned him away.

Another text in our creed:

The conscience of the people, in a time of grave national problems, has called into being a new party, born of the nation's awakened sense of justice. In accordance with the needs of each generation the people must use their sovereign powers to establish and maintain equal opportunity and industrial justice, to secure which this government was founded, and without which no republic can endure."

It is reported that 2,900 more marriages have taken place in California since women secured the right of suffrage than in any corresponding period. This proves conclusively that women have time to devote to other things than voting, in spite of the claims of those who opposed them in their rights. So, there!

Governor Marshall was told yesterday that he had been nominated for vice president and Sunny Jim Sherman was notified, today, so now they all know they're running, and the real race can begin.

The confirmation of Secundino Romero by the senate is the consummation of the last act of the New Mexico boss cabal. Their race is run in the politics of this state and the end is most fitting.

Those Detroit aldermen must feel, looking at it from this standpoint, that they are but kindergartners. The real students in bribery and grafting are to be found in the New York political college.

In Switzerland they have forbidden kissing in railway stations. If the stations there are as bad as some American stations we should not think that anybody would want to kiss in them.

A Kansas City conductor found a pocketbook on his car with \$3,500 in it. He is trying to think how he can spend to the best advantage, the dollar he received as a reward.

Congressman Stanley says the progressive party is a Punch and Judy show. We can recall many an instance where Punch and Judy have taken the crowd with them.

THE SWITZERLAND OF AMERICA.

VALLEY RANCH ACTIVITIES.

Valley Ranch, N. M., Aug. 21.—Mr. W. C. Hatley and family, who have been occupying the Childer's cottage on the Upper Pecos, left yesterday for Chicago, expecting to spend a day or so at Santa Fe and stopping on the way through at Colorado Springs. The people of the Upper Pecos regret very much to have Mr. Hatley leave, however, we trust his summer has been sufficiently pleasant in spite of the rains to induce him to return next year.

Judge L. C. Collins and Mr. F. T. Blandy, of Santa Fe, are spending a week fishing at the Valley Ranch and are making some very fine catches.

The Misses Fordel and Jahn returned yesterday from Santa Fe, having spent three delightful days with Judge and Mrs. R. H. Hanna. They found words inadequate to express their pleasure and appreciation. Among the recent arrivals at Valley Ranch are Mr. and Mrs. A. K. Burrow, of Memphis Tenn., and Miss Emily Thrisk, of Chicago.

are few men that are housekeepers, but if ever there comes a time when they wish they were it is when they get sudden news that the housewife is coming home after a few weeks absence, and the house has been in charge of the houseman.

ANOTHER ONE.

I mean another kick—a good legitimate one, which the Bylander is requested to note and call attention to. It is the running of waste water from the buildings facing on San Francisco street, down Water street, so that the Beaver's home and the Montezuma hotel are getting the results which consist of a stream of dirty water running down the road with ill smelling pools and unsightly conditions.

Just why this water is not directed into the sewer system I do not know, but it certainly ought to be, and the residents on Water and Don Gaspar streets are licensed to register a kick. Just this kind of thing is what injures a city and if any buildings in town that should have a waste water system perfected, it is those very business houses in the heart of the city, along San Francisco street facing the plaza. The complaining citizens say that complaints have been registered but that they seem unavailing and it is desirable that some action be taken to abate the nuisance.

So much has been done in the past few weeks to beautify Santa Fe and to better conditions that it is only fair and right that others should join hands with those who have endeavored to make better conditions and do their part too. There is not anything much worse in a town, as far as appearance goes, than a stream of dirty waste water running down the street and as always happens the ones who let the water flow out in this careless manner are not the ones who get the results. In the present case as in most cases of this kind the unpleasant features are borne by those where the waste water stands in pools and grows stale and odiferous.

THE ROUGH RIDER.

(Mae Peregrine.)
 Now, on his roughest ride,
 Fares the rough-rider,
 Mountains impassable,
 Chasms grown wider,
 Seek to entangle him,
 Threaten to slay him;
 But, with our loyalty,
 Nothing can stay him.

All eyes are watching him;
 Some—how they fear him!
 Some—with what confidence!
 Those who revere him,
 We, who most honor him,
 Honor, for brain and brawn,
 And for his love of men—
 Boldly we cheer him on!

He was our pilot
 Thru the uncertain years;
 He was the friend of men;
 He could allay their fears.
 Evils he boldly met;
 Ever the foe of vice;
 He, for the people's sake,
 Gloried in sacrifice.

In the swift-moving years,
 Years most precious,
 Who best can calm our fears;
 Still the unrest in us?
 Who knows the rifts that yawn,
 Deeper and wider?
 One—let us cheer him on!
 Our brave rough-rider.

EVERY STREET IN SANTA FE

Has its Share of the Proof That Kidney Sufferers Seek.

Backache? Kidneys weak? Distressed with urinary ills? Want a reliable kidney remedy? Don't have to look far. Use what Santa Fe people recommend. Every street in Santa Fe has its cases. Here's one Santa Fe man's experience.

Let Jose Ortiz y Baca, of Alto St., tell us: "In 1907 I used Doan's Kidney Pills for pains in my back that had troubled me for three years. They brought prompt relief and proved so satisfactory that I gave a public statement in their praise. Now after two and a half years have passed, I gladly confirm every word of that testimonial. I can add that I have since used Doan's Kidney Pills, giving them a more thorough trial and have received great benefit. I know that this remedy is a cure for backache and kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name —Doan's—and take no other.

Give me a simple little place
 With rooms, we'll say, for twenty;
 With swimming baths and ample space
 For touring cars in plenty;
 With half a dozen tennis courts
 And roomy riding stables,
 A links for golf and other sports,
 And first class billiard tables.

There let me live in frugal peace
 Far from the city's riot,
 Where all formality can cease
 And life is plain and quiet;

No stately forms to be observed,
 But, casual as a sutler,
 My chef's plain dinners shall be served
 By my own special butler.

I would not mock with luxury
 Dame Nature's simple beauties;
 A valet and two maids, or three,
 Could do the menial duties.
 I'd want, of course, a stock of wines
 (All things in moderation)
 And thus I'd rough it, mid the pines,
 Three miles from civilization!

REMARKS FROM THE SIDE LINE

Congratulations, Sec old boy! Ain't it bully!

The nominating power is not as trivial as they think, is it Sec?

We knew when Uncle Tom said you were all right that Ferguson couldn't make it stick, Sec.

The new pure food law is very drastic concerning labels. However, its contents, that count.

Governor Marshall has accepted the nomination. We hope Mr. Sherman accepts when he is notified.

That thirsty elephant that ran amuck in Chicago yesterday couldn't have been the G. O. P. emblem bolted too!

This town would lose much perfectly good real estate every year if our fire department didn't nearly always save the lot.

Now Sec, the thing to do is to settle down and forget the Trivial days, old kid. U. S. marshals ain't supposed to slug anyone, not even a democrat.

The spectacle of Judge Alton B. Parker informing Governor Marshall of his nomination, makes us smile behind our hand. Great shades of Escalus, N. Y.

The national assembly of China insists upon being informed as to why three of its prominent generals were put to death. What's the use; all of 'em are dead.

Uncle Tom has got two cannon from the war department for Santa Fe. We don't urge any special location for them but we positively insist that neither of them be so placed as to point towards our editorial office.

NOAH, THE DEMAGOGUE.

The last copy of the Ararat Journal, published three days before the flood, has recently been excavated from the top drawer of an Oriental magnate's desk.

It says editorially: "The radical utterances of old man Noah are to be strongly deprecated by all conservative citizens. Especially do we deplore his unwarranted attacks on the Sin Trust and its worthy board of directors."

"Aside from the fact that these gentlemen stand very high in the community, such wild denunciation and predictions as our people listened to last evening are likely to produce an unsettled condition of affairs and damage business."

"It is generally believed that his motives are not above suspicion. In fact, those who are well informed hint that the old man has some watered and indigested stock of his own which he expects to float as soon as the Sin Trust is swamped."

SCANDALOUS!

My goodness! I hope this thing doesn't go any further.

AS THE BYSTANDER SEES IT

A WREATH OF FLOWERS.
 To hold in memory a person in history who has accomplished something for his country, no matter in what field of endeavor, is commendable, always, and to recognize that accomplishment by some expression or ceremonial in the after years is fitting and right.

The Bylander was impressed last Sunday afternoon by a brief ceremony that was marked by both simplicity and beauty. It was held in the Old Palace toward the close of day, and amid historic surroundings. Everything connected with it seemed appealing and reminiscent. The members of the D. A. R. sat in the quaint historic chamber, while their state regent delivered a brief but touching tribute to the memory of the soldier hero whose name is so inseparably connected with Santa Fe, and whose entrance into the city marked so important an era in our history.

The hour was sunset when Kearney entered the old palace sixty-six years ago, and thus at sunset the patriotic women of another generation placed about the portrait of the soldier a wreath of flowers in token of their admiration, gratefulness and devotion. It is a ceremony that is to be repeated once each anniversary day, and the example is one to follow.

Santa Fe has so much of tremendous historic interest that we cannot afford to lose sight of the events which made it what we are and which are so interwoven with the past. We owe these days of recognition to ourselves and we owe them to our country. We should and we want to show to the rest of the nation a spirit of patriotism, and appreciation of the great figures who were participants, actively in the wonderful days of long ago, which were so full of portent to the American people.

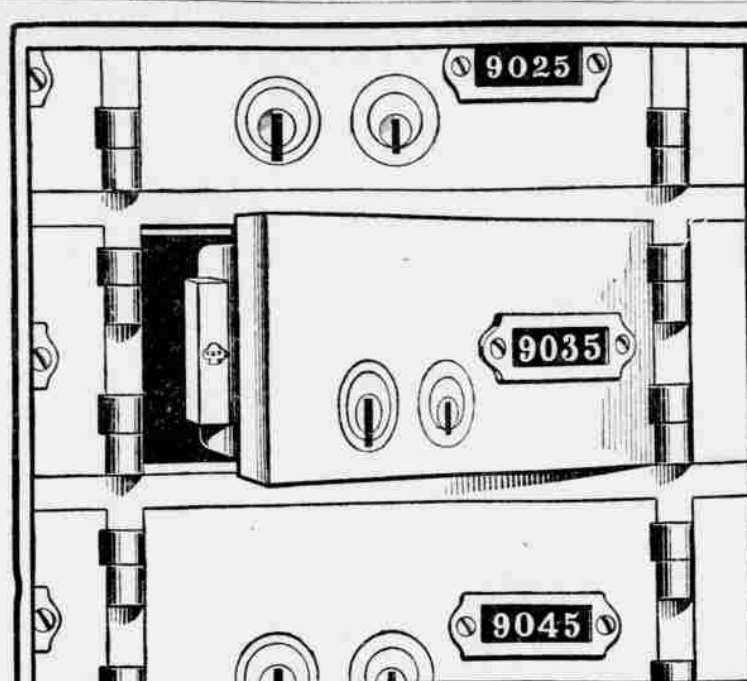

The simple little ceremony of the members of the D. A. R. last Sabbath is a lesson, pointing the way in the right direction.

IN TROUBLE.

There is not a man in any position in life who is enjoying any more distress than the man whose wife has been away for the summer, and who has been baching for the past few weeks in his own home. Those flowers which he was told to water carefully look like alfalfa on a dry farm and there is no time now to get the green back into the plants even if they are drenched and puddled for the next few days with unrelenting persistency. The front room curtains are almost yellow with tobacco smoke and the room is so saturated with the odor that the confused master of the house is debating whether it would not help some to burn a big onion on a shovel of coals to aid somewhat in the deodorization.

The kitchen sink and table look as if they had been used for a garbage can, and there isn't a clean dish in the house from the stone china set to the cut glassware, while the floors are in such a condition that every step leaves a footprint in the dust, and as for disorder and confusion, the houseman did not know he had so many clothes nor so many shoes when his wife was home. The laundry bag has been spilling clothes for a month back and the whole house has an air of desolation and almost destruction, while there stands the petrified figure of a man in the center of it all looking at a yellow slip of paper on which he has just read the words, "Will be home tomorrow on noon train."

Talk about rattles and brain storms, if a man don't have it at a time like that he is made of cement, and has no feelings worth mentioning. There

NEWS OF THE STATE

GOOD RAINS.

The Logan country has received good rains during the week and the cloudy weather that has prevailed, following the showers, tends to preserve the moisture in the ground. All the dry farmers are rejoicing over the prospects of a bumper crop.—Logan Leader.

IT WAS A PEACH.

W. D. Close this week favored the Courier with one of the nicest looking and finest flavored peaches we have ever seen grown in the Minabres valley, the circumference measurement of which was eight inches. "Circle Bill" has a fine young orchard on his place north of town and is showing the people of that section how stuff will grow.—Columbus Courier.

STILL POPULAR.

The shipping of cantaloupes and tomatoes goes bravely on, increasing every day as the fruit ripens and gets ready for the market. As an evidence of the popularity of the Lakewood kind, the railroad men, trainmen and many citizens of other towns in the valley are constantly buying crates of cantaloupes and tomatoes from our people here.—Lakewood Progress.

SAME THING.

About a week ago a report was out here that Bill Barbee had turned his toes up to the daisies and his friends were feeling somewhat blue. Through careful inquiry made by Chas. Rouse it was learned that Bill was not dead, but in Texas, where he is at present sojourning at Mineral Wells, all of which is good news to his many old time friends. Mrs. Barbee is stopping at Cutter.—Hillsboro Advocate.

PLENTY OF GREEN STUFF.

Fruit and vegetables are plenty in Las Cruces and cheap, too. Everybody is vegetating and enjoying the fine crop of green stuff and putting up fruit for winter. There is no enforced idleness in Las Cruces though there are idle men who should be at work, for there is a scarcity of laborers in nearly all lines. With garden "sassy" plenty and work plenty what's the use of worrying.—Las Cruces Republican.

SHE GOT THE COYOTE.

Mrs. P. J. Pickering's flock of chickens was visited by a large coyote Wednesday morning, who was successful in catching a nice large frier and started off with it, but Mrs. Pickering seized her sixshooter and took a few shots at him, knocking him down the second shot at a distance of 100 yards when he dropped the chicken and made his getaway, but she got the chicken.—Roy Spanish American.

HORSE KICKED HIM.

A boy named Denton Smith, was brought down from Artesia, Saturday night of last week for treatment at the Eddy county hospital. He was kicked in the abdomen by a horse, some ten days previous, and was brought to the physicians here for an operation. An operation was performed the same night, and the lad was thought to be in a serious condition, but was reported to be getting along nicely, Monday, with chances in favor of his recovery. His parents, R. L. Smith and wife, accompanied him to Carlsbad.—Carlsbad Argus.

CHAPTER OF ACCIDENTS.

Samuel Holstein, who had been a patient at the Socorro hospital for some ten days suffering from blood poisoning in his right arm, left that institution on Wednesday of last week, going to the Jack Bruhn ranch in the western part of Socorro county. Mr. Holstein had no more than reached his destination when he met with an accident in which his left arm was broken, and he was again brought to the hospital, where he is under the care of Dr. Parvis, who has successfully performed no less than four operations on the young man within the last two weeks.—Socorro Chieftain.

STRUCK BY LIGHTNING.

Doroteo Sismenos, living across the river from the postoffice in Costilla, but who has been sheep herding in Wyoming, was struck by a bolt of lightning 10 days ago. The ranchman, for whom he was working, telegraphed to his people in Costilla and two men went to Wyoming and brought him home on Tuesday. He was entirely speechless and could not move hand or foot, but after being visited by two hundred of his friends, much to the inconvenience of the physician attending he has recovered sufficiently to be able to talk and to move hand and leg upon one side.—Taos Recorder.

WILL TRY DAIRYING.

Numbers of Quay county farmers are going to take up dairying. They think they can make more money by

embarking in that industry than by giving their entire attention to farming. Merely raising sufficient for the farm and confining themselves to cattle, they feel that the profits will be more secure and regular. There is always a good demand for butter. With a cream separator at a central point to handle the product of the cow, should encourage them. This movement is not general by any means. There would be no need of curtailing the agricultural part. Just adding the dairy industry to that which this season promises so well.—Rock Island Tribune.

THE KNOCKER'S CROP.

The next time you hear someone hammering on the country, stop around and take a squint at his crop—of weeds—and then consider the source. We have long since ceased looking for the snags of this country, for there is no such thing as a snag, and we find that it takes some work at least to make a living where you are. New Mexico is positively no place for the faint and weak hearted. We have heard, and innumerable others have heard the same delusion, that all one need have in this country to raise a crop is a "pocket full of seed and a hole in the pocket, a pair of walking legs and your crop was planted" but this is as the fairy tale, but, judging from the appearances of some crops, we still have a good number who are living under that delusion.—Grady Record.

A DELICATE SUBJECT.

Frank N. Page, U. S. commissioner at Buchanan, was a visitor here for a couple of days this week, and while here told us some long, tall fish stories. Mr. Page says that he stocked a lake near Puerto de Luna, with black bass about five years ago, and that while he and Tom Fitzgibbons were on a fishing trip up there about a month ago, they caught fish weighing two and half pounds, and six inches long. With a copy of the game and fish laws before us, and in view of the fact that Frank is also a deputy game and fish warden, we hesitate to chronicle the full account of that trip, as he might have arrested himself, not mentioning poor Tommy, whom we think was dragged in against his will.—Fort Snanner Review.

GOT THERE IN TIME.

"It's a long lane that has no turn," is an old adage that ever proves true, and it is a truth that after a drought, comes the rain. After a lapse of several weeks and seemly, crops to be annihilated by the drought, rain comes to their relief, and has put new life into everything and everybody, and crops that promised to be a failure, will now make a fair yield.

The rainfall has been estimated at from two to six inches and the soil is fairly soaked. The indications are good for plenty more and with sufficient moisture, the plains farmers will put thousands of their rich acres to wheat, as there is now an abundance of good seed in the country. Quay county is destined to be the grainary of the southwest, and will contribute much to the prosperity of our new state.—Pioneer News.

CIMARRON PROSPEROUS.

Cement sidewalk builders are very busy in this city at the present time. The first of the week cement walks were started to be made at the corner of the Brooks residence on Seventh street, running east for two blocks, to join Washington avenue from the west.

The contractors and their assistants are busily engaged and it will be several days before the walks are completed. The walks are being built by property owners who take much pride in keeping their premises clean and having a good appearance. The residents from that part of the city can henceforth enjoy the walks very much during the inclement weather when it is prevalent in these parts.

It is stated that a good many property owners will have walks built before the fall of the year.—Cimarron News.

DAYTON OIL FIELDS.

The work of developing the Dayton oil field is certainly a case of making haste slowly. We are reliably informed, however, that the preliminary work is making fair progress and with a little hard work in securing leases the companies will soon be ready to start actual operations.

There are men now in the field who can show sufficient credentials to convince anyone that they mean business and all they ask is to be given a chance. The question of securing leases sufficient to interest these companies is the problem that now must be solved and all who have any interest in this vicinity should lend every

Why Women Are Not RICH.

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal man has five million—the woman only four and a half million to a cubic millimeter of blood.

A decrease in number of red blood corpuscles and a person "looks pale"—in fact, is anemic, the blood does not get the right food and probably the stomach is disordered. Dr. R. V. Pierce found years ago that a glyceric extract of golden seal and Oregon grape roots, queen's root and bloodroot correct liver ills and in Nature's own assimilation of the food in the stomach, correct liver ills and in Nature's own way increase the red blood corpuscles. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten the system is nourished and the blood takes on a rich red color. Nervousness is only "the cry of the starved nerves for food," and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and is refreshed in the morning.

"I was attacked with a severe nervous disease, which was caused by a disordered stomach and liver," writes Mr. JAS. D. LIVERY, of Washburn, Tenn., Route 2, Box 23. "All my friends thought I would die and the best physicians gave me up. I was advised to try Dr. Pierce's Golden Medical Discovery, and derived much benefit from same. My case had run so long, it had become so chronic that nothing would effect a permanent cure, but Dr. Pierce's medicine has done much for me and I heartily recommend it. I heartily advise its use as a spring tonic and further advice willing people to take Dr. Pierce's medicine before their disease have run so long that there is no chance to be cured."

A Cure From The Forest

Nature in her wisdom and beneficence has provided, in her great vegetable laboratory, the forest, a cure for most of the ills and ailments of humanity. Work and study have perfected the compounding of these botanical medicines and placed them at our disposal. We rely upon them first because of their ability in curing disease, and next because we can use them with the confidence that such remedies do not injure the system.

Among the best of these remedies from the forest is S. S. S., a medicine made entirely of roots, herbs and barks in such combination as to make it the greatest of all blood purifiers and the safest of all tonics. It does not contain the least particle of harmful mineral. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Malaria, Skin Diseases, Contagious Blood Poison and all other diseases dependent on impure blood. As a tonic S. S. S. builds up the system by supplying a sufficient amount of vigor and nourishment to the body.

S. S. S. always cures without leaving any unpleasant or injurious effects. It is perfectly safe for young or old. Book on the blood and any medical advice free.

effort to the work. We are informed that some private individuals are hampering the work by taking leases merely for speculation. Land owners should be careful as to whom they make leases, for to lease to a person who has not the money to put down a test well is merely taking that much land out of the hands of those who would do something. The men who have the money and are willing to spend it in making a test of the field are the ones who should have the leases.

CLOUDBURST NEAR HODGES.

A cloudburst on the Rio Grande in the neighborhood of Hodges, New Mexico, played havoc with the Santa Barbara Pole and Tie Company's works, carrying away all of the ties and thereby throwing out of employment the men who had been working the camp.

Foreman Mike Smith and Clinton Crandall formerly of this city, together with quite a number of lumberjacks arrived in Santa Fe last night bringing news of the disaster which had "laid off" so many men. The damages caused by the cloudburst are considerable. Mr. Crandall said, and it will be some time before everything is in shape once more. In the meantime all operations of the camp have been suspended indefinitely.

STEAMSHIP ON AN ICEBERG IN FOG

woman called on everybody to kneel and pray.

The students assert that a hundred tons of ice fell on the ship's decks and that there was 19 feet of water in the hold last Sunday.

The crew, they said, were unable to sleep in the forecabin after the collision. Several of the passengers had narrow escapes.

Stevens continued: "Several Italians on board were seized with panic, grabbed their bags and jumped into the boats. If we had taken to the boats there would have been no chance of being picked up as the fog-bank was said to be 100 miles wide. As a matter of fact, we did not sight a boat for two days."

The captain asserts that the Corsican did not ship any water. The passengers held a meeting today, shortly before their arrival and presented Captain Cook with a gold watch and a purse of gold.

A judge's decision.
A receipt for anything.

Act of lodging.

To persuade, a controversy.

We declare there is not one teacher in Santa Fe that can spell the five words correctly unless pupils of the Santa Fe Business College and these are barred from the contest—nor is there a pupil or a graduate of the high school that can do so.

REVOLUTION WILL BE CRUSHED SOON

JOSE CASTELLOT, MEXICAN SENATOR AND HIGH MASON, DECLARES SOUTHERN REPUBLIC WILL AGAIN BE ON FOOTING.

Senator Jose Castellot, president of the Mexican senate and sovereign grand commander of the Scottish Rite Masons in that republic, was the guest of honor at a banquet given at the Palace hotel last night by the Santa Fe lodge of Scottish Rite Masons. The Honorable J. G. Fitch, 23 degree Mason, of Socorro, presided as toastmaster at the table where covers were laid for seventy. Those present included, besides a long list of Santa Fe's most prominent Masons, Hon. A. A. Keen, grand secretary of the state lodge; Dr. J. H. Roth, past grand master, and Hon. Paul Teutsch, also high in Masonic circles, all of Albuquerque and the Hon. J. G. Fitch, 33 degree Mason, from Socorro.

During the dinner, Hon. Antonio Lucero, secretary of state, ex-Governor Prince, Judge Hanna, A. B. Renahan, Judge Wright, Dr. Wroth, Attorney Francis Wilson and Dr. Wheelan made short speeches.

Senator Castellot spoke at length concerning conditions in his country and the relation of the people of the United States to the sister republic. He declared that the revolution would be crushed within ninety days and that then President Madero could give his attention to the cause of good government in Mexico. Public sentiment, he said, was every day growing more bitter against war and the insurgents. The senator thanked the people of the United States in general and the people of New Mexico in particular for the moral support they were giving the administration in their efforts to stamp out rebellion and place Mexico on a firm foundation.

"A MANDATE I MUST OBEY," HE SAYS.

(Continued From Page One.)

of principles of the republican party and a tribute of Mr. Sherman, was composed of caustic references to the progressive party and its recent convention which nominated Colonel Roosevelt and Governor Hiram Johnson for president and vice-president. "We shall have arrayed against us in the coming campaign our ancient and hereditary enemy, the democratic party," said he. "In addition we shall be called upon to contend with some former associates who have concluded to abandon their amiable custom of firing upon the flag they have been following in order that they may engage in the more honorable, but no more effectual, occupation of assaulting it from the front."

"For the next few months our ears are to be filled with the voice of the malcontent, strident and manyvoiced, calling upon the people to forsake the tried and beaten paths of constitutional government, along which they have walked with sure feet for more than a century, and enter upon a personally conducted pilgrimage through the political wilderness to a promised land as shadowy and unsubstantial as a desert mirage."

"The advance agents of this delirious excursion tarried a few days ago at Chicago, long enough to pool their individual grievances, visions and vagaries in a bewildering farrago of impractical political nostrums such as never before has been collected at one time outside the violent wards of a madhouse. And thus the so-called progressive party was born, its sole excuse for existence being the unfounded claim that its nominee for the presidency was defeated for a like nomination by stolen votes at the republican convention."

Senator Sutherland briefly reviewed the question of contested delegates at the republican convention with the contention that President Taft's nomination was gotten fairly and honestly. He referred to the published statement that some of the Roosevelt contests had been set afoot for a psychological effect.

"It would be a strange rule of evidence which would require us to accept the testimony of a buccaneering psychologist who confesses to an attempt to purloin the larger portion of an honest man's property, as conclusive evidence of the psychologist's title to the remainder of the honest man's possessions," he continued.

"There never has been in all history a more unique convention than that of the progressive party at Chicago. Heretofore, when a party has

been organized, its organizers have in advance entertained at least a suspicion respecting their principles; but the delegates to this convention, wholly ignorant of the things for which they stood, waited, with patiently folded hands, the appearance of Mr. Roosevelt in the convention to tell them what they believed.

"Upon his appearance he was received with reverent adoration. With a spirit of self abnegation never witnessed since the charge of the Light Brigade at Balaclava—a 'There's not to reason why, their's but to do and die' sort of exaltation—led by the grand young man from Indiana, devout but tuncful, the assembled vassals proclaimed their joyous intellectual surrender to the feudal lord in the following hymn of driving irresponsibility:

"Follow, follow,
We will follow Roosevelt,
Anywhere, everywhere
We will follow him.

"Follow, follow,
We will follow Roosevelt,
Anywhere he leads us,
We will follow on.

"All of which being chanted to the ravishing air of that stirring ditty, entitled 'We don't know where we're going, but we're on the way,' wrought the multitude into such a state of blind and benighted idiocy that authentic information to the effect that the colonel had just laid a perfectly respectable minister of the gospel and robbed him of his last month's donations would have brought forth enthusiastic cheers for the colonel and a vote of stern condemnation for the man of God as the representative of a dangerous and iniquitous plutocracy.

"In form two thousand delegates, more or less, gathered in the Coliseum; in reality Mr. Roosevelt met in convention at Chicago, made a confession of faith, gave his hand to the colored brother from the North and his foot to the colored brother from the South, adopted a platform, nominated himself and Brother Johnson, and adjourned with the ease of a thoroughly trained thimbleplayer plying his vocation among the rural visitors to the midway plaisance.

"The campaign upon which we are about to enter presents issues of more serious moment to the American people than any they have confronted since the grave questions which immediately preceded and accompanied the Civil war. The overshadowing question then was whether the union, under the constitution could be perpetuated; that which confronts us today is whether the constitution itself, and the government which the constitution established, shall be preserved—a question of equal, if not greater gravity, since it would be of little avail to have preserved the union from the chaos of disintegration if the government of the union is to be given over to the chaos of disorganization."

"The party to which we belong, Mr. Vice-President, stands in this supreme contest for the independence and integrity of the judicial tribunals of the land, without which the guaranty of life, liberty and property would be a meaningless platitudes. It stands for the settled rule of impartial government, as opposed to the shifting opportunism of personal manipulation; for the liberty and order of general law, as against the tyranny of special edicts of changing men. It plants itself upon the impregnable ramparts of the constitution, and, so eminently protesting against any subversion of the terms of that great compact by the arrogant and revolutionary process of amendment by mis-construction, appeals from the mid-summer madness of that portion of the people which can be fooled all the time to the sober second thought of the great body of the American electorate who will render judgment in November."

SHERMAN ASSURES THEM HE APPRECIATES HONOR.

Vice-President James S. Sherman, in accepting the vice-presidential nomination of the republican party, said in part:

"Gentlemen, of the committee—You represent the 48 states of the Union and eight million republican voters in our wide domain. You bear the commission of the convention which, representing them, met in Chicago in June. The annals of American parties do not record the proceedings of a more openness, fairness, deliberation, sobriety and worthy purpose than that for which you speak."

"Not deceived by the clamor of those who attempted to bolster up claims without basis, by hundreds of contests resting on a foundation so flimsy that in the light of investigation, most of them melted away like snow in a furnace heat, and were rejected by quite or nearly an unanimous vote, the convention adopted a platform that rings true for patriotism and constitutional government and worthily bestowed a re-nomination upon our present chief executive."

"Our party never before has conferred a second nomination for the office of vice-president upon any man. This distinction was not sought by me, but unsolicited, it is the more appreciated. As a loyal republican, I stand squarely upon the party platform."

"I approve of the admirable statement of republican principles and achievements made in the address accepting the nomination for president by William Howard Taft. Upon that platform and associated with President Taft I gratefully accept the re-nomination."

SANDOVAL COUNTY WONDERFULLY RICH

STATE SENATOR PANKEY RETURNS FROM VISIT WITH STATE SENATOR MIERA AT CUBA—HOST HAS A BEAUTIFUL HOME

"Sandoval county is wonderfully rich," said State Senator B. F. Pankey, rich cowman and rancher who arrived in Santa Fe today after a visit with State Senator Epimelio A. Miera, at Mr. Miera's palatial home in Cuba, N. M.

"I had never been in Sandoval county before," said Mr. Pankey, "but I am going again. It is one of the least known and most wonderfully rich counties in the state in undeveloped natural resources. The top has only been scratched. I never realized what there was in this state until I made this trip. Senafor Miera treated me like a prince. He has a beautiful home, modern in every way, furnished with costly carpets, curtains and although so far from a railroad, he has every comfort of a city, except electric lights."

"I also went to the Jemez country. I never saw such wonderful resources as are up there. There is an immense timber country that one day will produce a hundred fortunes in lumber. There are minerals of all kinds from gold to sulphur. Great mountains of sulphur are found where hot springs gush up. You can get wagon loads of pure sulphur right now with a pick and shovel and I saw an entire mountain of pure soda with soda and brine springs bubbling out of it. The agriculture in Sandoval county has only begun to be developed. Sandoval county can support thousands of farmers when a railroad is run through there which eventually will be done. The livestock industry there is without limit. I saw some of the best range land in the country there, and some of the fattest range stock in the state. I went there on the invitation of Mr. Miera, but I did not realize what I was going to see. New Mexico is certainly a state of plenty—a regular garden of Eden and all we need is the people."

"Range conditions on my ranch were never better. The grass is deep and heavy and there is an abundance of water. Cattle are sleek and fat and I predict a big year for cattle-men in New Mexico."

The nation has many times defeated its republican rival in August; but twice has it done so in November."

The speaker commented upon the platforms of the democratic and progressive parties and read excerpts from a volume written by Governor Wilson whom he declared a pedagogy, not a statesman.

He upheld the protective tariff and said the thoughtful could see no promise of betterment "in the frantic cry for a change." He commended the recent vetoes of tariff bill by President Taft and said the vetoes called for the support of every citizen. Continuing, he said:

"The crime of this new age is frenzied speech and action; lack of thought, a spurning of deliberation and of the weighing of consequences. Fads with projects to 'get rich' crowd gaudy crowds. Mad haste is the pastime of the multitude. Automobile races to carry their passengers to death at a mile a minute. The British board of trade attributes the awful sinking of the Titanic with its cruel sacrifice of life of crew and of passengers to excessive speed. The third term party and candidate will soon urge the country to like disaster and ruin."

"We ask that the republican party and its candidate be tried upon the record of service and accomplishments. We near the end of President Taft's term of service with our government at unity with all foreign powers amid domestic tranquility and with our people blessed by prosperity and abundance, our navy among the foremost of the world, our army in a high degree of excellence, our postal service for the first time in its history self-sustaining; the colossal dream of the centuries and isthmian canal, almost a completed reality; our foreign and domestic commerce in a condition of activity, vigor and health, meeting the desires of the most optimistic and every department of the government rendering proper and efficient aid to law abiding citizens in every calling. Confident that the American people are not yet willing to destroy the constitution which has stood the test of more than a century; that they have not yet forgotten the direful result of the mistake of 1892, we calmly await the tides of November."

TAFT SENDS HIS REGRETS TO JAMES.

Washington, D. C., Aug. 21.—President Taft sent a telegram to Vice-President Sherman congratulating him and the republican party on his re-nomination. The president wired: "I am very sorry that the public business prevents my presence at the ceremonies. I congratulate you and the party on your nomination. The republican party continues to be the party of the constitution, the defender of our guarantees of civil liberty, private property and pursuit of happiness, and other civil rights; the upholder of law and order, the opponent of socialism, the sturdy supporter of high compensation for wage earners and our industrial success through a protective tariff. I am proud again to be a joint standard bearer with you for that party, of conservatism, sanity and progress."

A Progressive Modern Business must be Progressive about Carbon Paper.

YOU have approved filing systems, good typewriters, good paper and careful stenographers, but many are unaware of the need for good carbon paper—of the troubles poor copies may later bring.

Be fortified against any possible disadvantage occurring from the use of wrong material. Take advantage of the example set by thousands of progressive business houses and look into

MULTIKOPY CARBON PAPER

The copies made are clean, neat-appearing and distinct. The inks (black, blue, purple, green and red) do not rub or blur. MULTIKOPY is clean to handle and wonderfully long-lived. Made in six varieties: The following list names the varieties and gives manufacturing power of each:
