THE TRAINMEN

Train And Yard Men Poorly Paid.

ACCIDENT AT JEWISH SYNAGOGUE.

Investigation of the Merger of Northern Securities Company.

PAPAL DELEGATE TO THIS COUNTRY.

Cleveland, Ohio, Sept. 15.—Grand Master P. H. Morrissey, of the Brotherhood of Railway Trainmen, today authorized the following official statement:

"Different stories that are arising, pertaining to a movement on the part of conductors and trainmen in the western country for a raise of wages are in the main inaccurate and misleading. They probably grew out of the fact that an association of the general committees of the Order of Railway Conductors and the Brotherhood of Railway Trainmen, for this territory was formed at Kansas City in June, at which time the question of increase of pay for men in the train and yard service was discussed. It is the general belief among the men in these capacities that on account of the vastly changed conditions now as compared with those in existence at the time the present wage standards were made, that they are entitled to some additional compensation, and they are now considering the propriety of asking for it. But if anything is done through these organizations in this direction, it will be along orderly lines and in accordance with long established policies and laws of the bodies affected."

Accident at Synagogue.
St. Paul, Sept. 15.—While 1,100 people were struggling to get into the new Sons of Zion synagogue to witness the dedicatory exercises, the temporary steps leading to the entrance gave way and 100 people fell in a heap. Only by the prompt effort of the police a panic was averted. No one was fatally injured.

RAILROAD MERGER.

Government Investigation of Northern Securities Railroad Combine.

New York, Sept. 15.—The government investigation of the acquirement of stock of the Great Northern and Northern Pacific Railroad companies by the Northern Securities company technically began in this city today, but the special commissioner appointed by the United States court of Minnesota, F. G. Ingersoll, will hold the first hearing tomorrow. The attorneys for the defense met Ingersoll and the solicitor general, J. T. Richards, in conference today and agreed to adjourn until tomorrow. The solicitor general will conduct the case for the United States.

Papal Delegate.

Rome, Sept. 15.—The vatican has definitely decided to send the Most Rev. Diomedo Falconio to Washington as papal delegate in the United States. Falconio is now the apostolic delegate for Canada.

REVOLUTION IN COLOMBIA.

One of the Petty Rebel Generals Has Surrendered His Squad.

Washington, Sept. 15.—The state department has received a cablegram from Minister Hart at Bogota, Colombia, which says that the revolutionary general, Carrazzo, who has been operating with a strong force on the great plains east of Bogota, has surrendered. This is regarded as of most importance to the government authorities, who consider that it assures the pacification of the whole eastern region. The Colombian government also announced the repulse by a government war vessel of a revolutionary attack some days ago upon the Magdalena river.

Injunction Against Prize Fight.

Frankfort, Ky., Sept. 15.—Attorney General Pratt is today preparing a petition for an injunction to be filed in the Jefferson circuit court tomorrow, restraining the Southern Athletic club of Louisville from permitting the Corbett-McGovern prize fight in that city or elsewhere in Kentucky. A half dozen leading lawyers in Louisville will be associated with the attorney for the commonwealth. The case will be heard at Louisville Wednesday.

Government by Injunction.

Omaha, Neb., Sept. 15.—Judge McPherson, in the federal court, today, on application of the Union Pacific Railway company, granted a temporary injunction restraining the striking shopmen from placing "pickets" about

the Union Pacific shops. This action was taken by the railroad because of an assault made yesterday by pickets upon two of the strike breakers, one of whom was killed.

Perished in the Sea.
London, Sept. 15.—A telegram from Calais, France, announced that nine vessels of the French cod fleet foundered in the North Sea during the recent gales, and fifty fishermen were drowned.

False Report.
London, Sept. 15.—Government officials declare that there is no truth in the dispatch from Saigon, published in Paris, saying that a British force has occupied the Malay principality of Kanton.

Cold in Cleveland.
Cleveland, Ohio, Sept. 15.—The government thermometer at the weather bureau here last night registered 42 degrees above zero, the lowest point ever reached during the first half of September since the establishment of the office thirty years ago. There was a light frost, which, it is believed, did but little damage.

Trust Company Receiver.
St. Louis, Mo., Sept. 15.—Judge Amos M. Thayer, of the circuit court, today granted the petition of the stockholders representing Arthur E. Stillwell, to discharge the receivers of the Guaranty Trust company, appointed over a year ago at the instigation of John W. Gates and his following. It is believed that Stillwell will be reinstated as president.

Steamer Stranded.
Colombo, Ceylon, Sept. 15.—The British steamer, Hithdale, news of the grounding of which on a reef south of Cardiva Island in the Indian Ocean on September 8 was received here Friday, has foundered. Part of the crew was brought to this port. The captain and thirteen men are believed to have been drowned.

COWARDLY MURDER.

Josie Tappee Fatally Shot at Winslow, Arizona.

SHE LINGERED FOR TWO DAYS.

A most cowardly shooting which terminated fatally occurred in Winslow about 1:30 o'clock last Monday morning in the section of town known as the "flats," says the Mail. Josie Tappee, one of the inmates, was called to the front door of her apartments about the time mentioned, and just as she started to open the screen door a shot was fired at her, the bullet piercing the wooden framework of the screen and striking the woman in the lower edge of the left jaw. It was then turned from its course and, passing downwards and inwards, made a small hole in the windpipe and imbedded itself in the upper part of the spine, inflicting a terrible wound. Drs. Tillett and Brown were summoned and did all that medical skill could devise, but they soon saw that the woman's condition was hopeless. About 10 o'clock in the morning they performed an operation in an endeavor to extract the bullet, but they were unable to reach it and only succeeded in removing some wooden splinters which had found lodgment in the jaw.

The woman lingered in great pain for nearly two days, never fully regaining consciousness after the operation. She died about 6 o'clock Tuesday evening, without having been able at any time to make a statement regarding the shooting. Dr. Sampson, the county physician, conducted a post mortem examination and found the bullet, which is now in the possession of the coroner. The funeral of the unfortunate woman was held Wednesday afternoon, Rev. E. G. Decker officiating, and was largely attended by her former associates.

Coroner Mahoney commenced an inquest at 10 o'clock Wednesday morning and summoned the following to serve upon the jury: Freeman Stewart, foreman; J. M. Brannen, Julius Leaser, G. A. Wolf, William Houx and R. C. Creswell. The jury held long sessions for three successive days, working faithfully with the assistance of the coroner and District Attorney Burleigh to ferret out the assassin. Their report was completed yesterday and charged Marie Little, alias "Nosey," with the crime of killing Josie Tappee. The woman was immediately arrested and placed in the charge of Sheriff Sechrist. Her preliminary examination was conducted this morning by District Attorney Burleigh, and was still in progress at the hour of going to press.

Dead.
Colorado Springs, Colo., Sept. 15.—W. S. Stratton died last night.

COURT CONVENES

Second Judicial District Court in Session.

COURT OFFICERS WERE APPOINTED.

Able Charge of Judge Baker to the Territorial Grand Jury.

JUSTICE WILL START TO GRIND.

The United States court for the Second judicial district convened at the court house this morning, with Judge B. S. Baker presiding.

The grand jury was sworn and charged, Louis Ilfeld being made foreman.

The judge then appointed the following court officers for the United States side: Juan Aamaya and Cornelius Murphy, clerk and bailiff; J. Felipe Hubbell, interpreter to the grand jury.

Territorial Side.
The territorial grand jury was sworn, and J. M. Sandoval was chosen foreman.

T. O. Mason, bailiff, and Seferino Crockett, interpreter.

The following are the instructions of the judge to the grand jury:

Gentlemen: You have been legally selected, empaneled and sworn as grand jurors for the September, 1902, term of the district court of the Second judicial district, within and for the county of Bernalillo. For more than a thousand years, throughout the civilized world, has lived in some form and under some name the embodiment of the grand jury of today, having always had for its object the presentment for trial of violators of the law, doing their work in secret, so that the influence of wealth and position could not be present to prevent the presentment of the guilty, nor to force the presentment of the innocent. It is incumbent upon the court to instruct you generally what the law is, and your duties under the law; and where the instructions are not particular and exhaustive you can apply to the district attorney or to the court at any time for further instructions, or as to what the law is upon any particular matter.

In the main, it is the duty of you, as a body, to inquire into all violations of the law that have been committed within this county, or that may be prosecuted within this county, irrespective of persons. Your foreman is empowered with authority to administer oaths to the several witnesses that will appear before you. It is expected of the grand jury, that you will be controlled by evidence only that is produced before your body. The general rules of evidence will govern you in determining whether or not an indictment should be presented. You will consider none but legal evidence, and the best evidence in degree, when you are deliberating upon whether or not a presentment shall be made. You may consider hearsay, or secondary evidence, for the purpose only of assisting you in ascertaining or running down proper persons where legal evidence may be thus ascertained or found; but in all your deliberations you will allow no secondary or hearsay evidence to weigh with you one particle. You are not bound to hear evidence for the defendant, but it is your duty to weigh all the evidence submitted to you, and when you have reason to believe that other evidence within your reach will explain away the charge, you should order such evidence to be produced, and for that purpose may require the district attorney to issue process for such necessary witnesses.

It is the duty of the grand jury to present indictments against any and all persons when all the evidence taken together is such, as in the judgment of the several members of the grand jury, would warrant a conviction before a trial jury beyond a reasonable doubt. If any of your number know of any violations of law, or have a reason to believe there has been any offense of the law, it is your duty to bring the matter to the attention of the grand jury. In other words, it is the duty of the grand jury to investigate and carefully consider any charges of violation of the law from whatever source they may come.

You must be very careful not to allow your desires or inclinations to swerve you from returning an indictment where the evidence warrants. You should be equally as cautious not to allow your personal hatred or prejudices to prevent any person not fully warranted by the evidence.

You will allow no one to remain in your room during your considerations and deliberations upon any subject calling for an official act of your body; nor will you advise with any one as to

what you should do except amongst yourselves. After a thorough and full consideration of all legal evidence before you as to whether or not a true bill should be found against any person or persons, it is your duty then to vote upon the question, and if twelve or more of your number are of the conscientious opinion that a bill of indictment should be presented, you will then request the district attorney to prepare an indictment in accordance with your desires, upon the back of which indictment will be the words "A true bill," which must be signed by your foreman, and by you presented in open court.

The first matters for your consideration will be to investigate the parties now in custody, having been bound by magistrates or justices of the peace to this court, to await the action of your body. If twelve or more of your number find a bill against these persons, then a true bill should be presented; if less than twelve of your number only think a bill should be presented, then the parties should be discharged; and you will so report your finding in these matters.

You will next consider any and all charges against persons who have been bound over to the district court and are now upon bond, awaiting the action of your body.

It will be your duty to inquire of any wilful and corrupt misconduct in office of any of the public officers of this county. For purposes of use of the grand jury, or of any member, you will have free access to all public records of the county. Among other things, it will be your duty to inquire into whether or not the jail of the county is properly kept.

The law requires, as well as the good service of the grand jury, that all your doings be kept absolutely secret; all matters should be kept inviolate by every member of the grand jury; and, in fact, the law provides that if any grand juror shall disclose the doings of the grand jury while sitting, or even thereafter that they may be punished, in any sum not exceeding the sum of \$50, unless such disclosure is made under due process of law.

The law makes it a part of my duty to charge you, and call your special attention to section 405 of the compiled statutes of 1897, which law provides in substance, that it shall be unlawful for any county commissioner, sheriff, treasurer, assessor, probate judge or probate clerk, or any other person who as principal, or deputy, holds any county office in any county of this territory to either directly or indirectly buy, sell, deal in or speculate in or with any certificate, warrant or other evidence of indebtedness issued by such county or by the territory of New Mexico, except such warrant or certificate that might be issued to such person. The law also provides in section 406, that it is unlawful for any mayor, councilman, collector, marshal, clerk or other person holding any office of appointment in any incorporated city or town in the territory, to either directly or indirectly buy, sell, barter, deal in or speculate in or with any such certificate or warrant of such incorporated city or town, except such as are legally issued to them; and a like provision is in the statutes for the clerk of the district court or his deputy of this meddling or intermeddling with orders or certificates issued by such officer.

It is my duty to call your attention particularly to section 1377 of the compiled statutes of 1897, wherein the law provides in effect, that if any person shall carry a deadly weapon either concealed or otherwise on or about the settlements of the territory, except upon his own premises or in the lawful defense of his person, property or family, it is a crime indictable under the laws of the territory. The law also provides that if any person shall draw a deadly weapon upon another, or if any person shall handle a deadly weapon in a threatening manner at or towards another, except in the lawful defense of himself, his family or his property, it is an indictable offense. The law upon this subject will be more particularly explained to you by the district attorney in case any such matter shall come before your body.

You are further instructed that if any person shall be found on the first day of the week, commonly called Sunday, engaged in any sport, or in horse racing, cock fighting, or in any other manner disturbing any worshiping assembly or private family, or attending any public meeting or public exhibition, excepting for religious worship or instruction, or engaged in any labor, except works of necessity, charity or mercy, it is an indictable offense; and should any violation of this statute come to your knowledge or information, it is the duty of the grand jury to indict any and all such persons.

In case an interpreter is needed in the examination of witnesses or in your discussion of evidence, you will have one at your command, but in no event must the interpreter or any other person be in your room or within

JUSTICE GRAY DEAD.

Venerable Ex-Chief Justice of Supreme Court Dies This Morning.

Lynn, Mass., Sept. 15.—Justice Gray, who retired from the United States supreme court bench last spring, died this morning. He had been in poor health for some time. Since his retirement he had been staying at his summer home. Gray was born in Boston, March 24, 1828, was graduated from Harvard in class of 1843, and from a law school in 1849. He was admitted to the bar in 1851, and was reporter of the supreme judicial court of Massachusetts from 1854 until 1861. President Arthur commissioned him as associate justice of the supreme court of the United States, December 19, 1881.

Diaz is Seventy-one.

City of Mexico, Sept. 15.—President Diaz was 71 years old today and the anniversary was made the occasion for a general holiday which will continue through tomorrow, which is Mexico's independence day. Business is generally suspended and the public and private buildings are elaborately decorated with the national colors. During the day President Diaz received messages of congratulation from the generals of the army, the clergy, and the diplomatic corps, the members of the latter calling at the palace and presenting congratulations on behalf of their respective rulers.

THE BIG STRIKE.

It will be Fought to a Finish by the Miners.

Indianapolis, Sept. 15.—"I cannot predict when the anthracite strike will be settled. If anything is being done by the other side, I don't know of it." John Mitchell, president of the Mine Workers, who is at strike headquarters in Wilkesbarre, Pa., made this statement today in a long distance telephone interview with the News.

The big defense fund that is being collected at the national headquarters in Indianapolis, Mitchell said, is proving sufficient to relieve the distress.

FOREST FIRES.

Many Lives Lost in States of Oregon and Washington.

Portland, Ore., Sept. 15.—The smoke was thicker in Portland this morning than at any previous time. In the harbor steamboats did not dare to stir. In Multnomah and Clackamas counties the fires have practically burned out, and the settlers are returning to their homes. Along both sides of the Columbia river fires are still burning though the worst is over. In Oregon, as far as reported only two lives were lost. The situation in Cowlitz county, Wash., is deplorable. Twelve lives

were lost along the Lewis river on Saturday, and many homes burned and miles of valuable timber laid waste. Communication is cut off with the section of country around Mt. St. Helena.

Lives Lost.
Kalama, Wash., Sept. 15.—News from the fire on Lewis river adds to the losses. Twelve men with saws and teams left Woodland yesterday to clear out the road. A party of ten persons with a team was known to be camping in the timber. The charred remains of the team and wagon were found, but no trace of the people. It is feared there has been considerable loss of life.

Striker Shot.
Wilkesbarre, Pa., Sept. 15.—Two Italians employed at the Old Forge mine were held up fifty Italian strikers when returning from work this morning. Both were badly clubbed and stoned. Several shots were fired, and one striker is reported shot in the leg.

Republican Nominee.
Colorado Springs, Colo., Sept. 15.—The second district republican convention nominated H. M. Hogg, of Telluride, for congress.

Gas Explosion.
Bluefields, W. Va., Sept. 15.—Heavy explosion of gas occurred in the Algoma coal mines this morning, and fifteen men are reported missing.

The Citizen is in receipt of a letter from J. R. Abner, electrical engineer at the government Indian school at Chillicothe, Indian Territory, stating that he had been transferred to the Albuquerque government school and would arrive here in a few days.

J. F. Weigle, a well known machinist of the Santa Fe road shops at San Bernardino, Cal., after a pleasant visit of a couple of days with Conductor Frank Murphy, left for the west last night. Mr. Weigle had been back east enjoying a month's vacation with relatives and friends.

SHOT AND KILLED.

Roswell Jailer Shoots Randolph Spencer While Attempting to Escape.

A DESPERATE PRISONER.

Thomas H. Helfrin, deputy sheriff and jailer, was attacked Wednesday about 1 o'clock, by Randolph Spencer and Sam Hall, two prisoners in the jail, in an effort to escape, and the jailer was compelled to shoot and kill Spencer, says the Roswell Register. Helfrin took the dinner for the prisoners to the jail and on going up to the door of the corridor on the second floor, looked through the grating and saw the cell doors closed and locked them with the lever used for that purpose. Spencer and Hall had hung some clothing up at the far end of the corridor in some way, and hid behind it. As soon as Helfrin opened the door, and turned round to pick up the big basket containing the dinner, they rushed at him. He knocked Spencer down and when Hall caught him from behind, pinning his arms, he threw himself to the floor to keep Hall from getting hold of his pistol, which he had in a scabbard inside his trousers behind his right hip. Helfrin managed to get his pistol out in time to shoot Spencer as the latter was recovering from the blow he had given him and was about to spring on him and help Hall overpower him. The ball—a 45 Colt's—entered Spencer's breast about three inches to the left of the center and came out under the right arm. Just as Helfrin fired, Hall seized the barrel of the pistol. Helfrin threw his legs around on the small platform and slid part way down the stairway, Hall holding onto him. The jailer managed to bring the pistol to bear on Hall over his shoulder, and the latter loosed his hold and retreated to the door calling out to Helfrin, "Don't shoot! I'll give up." He then dragged his comrade into the corridor and threw water into his face to see if he could relieve him but found he was dead. A number of the county officials about the court house, hearing the shot, had rushed into the front corridor by this time, and soon had Sheriff Higgins there. Judge F. H. Lea was sent for and impaneled a coroner's jury, consisting of himself, E. L. Wildy, I. N. Seargeant, Harry Morrison, S. P. Johnson, F. P. Lea and C. W. Johnson, who viewed the body and afterward met at Judge Lea's office and found a verdict in accordance with the above facts.

Suffocated by Gas.

Ann Arbor, Mich., Sept. 15.—L. W. Brunkle and Joseph Kierzek, of Posen, Mich., were found dead in a room in the Newman house here today. It is supposed that they turned on the gas, thinking this would produce light.

FESTIVE DAY

President Roosevelt Gives Big Reception.

COLORADO STATE FAIR AT PUEBLO.

Big Exhibit of Thoroughbred Cattle at Kansas State Fair.

PEACE PREVAILS IN CAPE COLONY.

Oyster Bay, L. I., Sept. 15.—Clouds of bunting and flags adorn the buildings and thousands of strangers are on the streets and every foot moment the loud report of an anvil loaded with powder breaks the stillness. The occasion for this celebration is the reception which President Roosevelt is to tender to the people of Nassau county this afternoon at his home on Sagamore hill. Committees estimate that 18,000 persons will be there. The president will receive his neighbors on the porch of his house and as they shake hands with him they will pass to the rear of the house where each will be tendered a glass of lemonade. The glasses will be retained by the visitors as souvenirs. Mrs. Roosevelt will assist in the reception. Extra precautions have been taken to guard against trouble.

COLORADO FAIR.

Big Crowds Will Attend the Exhibition at Pueblo This Week.

Pueblo, Colo., Sept. 15.—Judging from the large number of visitors already in the city the attendance at the Colorado state fair, which opened today, will establish a new record for the exhibitions in this state. The management has advertised the fair well and great crops from all quarters of the state are expected to put in an appearance during the week. The fair itself is one of the best ever seen in this part of the country, containing elaborate displays of fruit, grains and live stock, together with interesting mineral and manufactured displays.

KANSAS STATE FAIR.

Big Exhibit of Fine Cattle at Hutchinson State Exposition.

Hutchinson, Kas., Sept. 15.—The big feature of the Kansas state fair, which opened here today is the cattle exhibit. The buildings regularly set aside for the display of blooded cattle were filled to their capacity and the erection of temporary structures has been necessary to accommodate the overflow exhibits of choice cattle, swine and horses. The unusually attractive display is due in a measure to the numerous and valuable prizes offered by the National Shorthorn association, the National Hereford association and other national breeders' associations. The judging of exhibits began today and will continue until the close of the exhibition at the end of the week.

PEACE PREVAILS.

Martial Law to Be Repealed in Cape Colony, South Africa.

Cape Colony, Sept. 15.—In an interview today, Attorney General S. L. Graham said:

"The general indemnity act will become a law in a day or two, when martial law will be repealed throughout the colony. Simultaneously the government will proclaim the peace preservation act, enabling it to control the possession, importation and registration of all arms and ammunition. Profound peace reigns throughout the colony."

TRYING TO SETTLE.

Episcopal Bishop Will Talk to Striking Miners.

Pittsburg, Pa., Sept. 15.—The Chronicle-Telegraph says this afternoon: "An important conference is scheduled to be held in Pittsburg before the close of the day that may tend to a speedy termination of the coal miners' strike in the anthracite region. President Mitchell, of the United Mine Workers, and Right Rev. Samuel Fallows, of Chicago, bishop of the diocese of the west and northwest, and rector of St. Paul's Episcopal church, have arranged to meet here today."

"Bishop Fallows is well known among the miners and operators and he is given the credit of settling a serious dispute in Illinois several years ago.

"Coal operators in the Pittsburg district are greatly interested in proposed meeting and while giving no particular positive grounds for their opinion, say they are confident the strike will be settled in a short time."

For Delegate to Congress

B. S. RODEY.

Las Vegas will have a winning team in the base ball tournament at the territorial fair.

Colonel Bryan lost out in Iowa, but his platform was kindly remembered by the democrats of Idaho.

The professional jurymen in the territories are in luck. The pay has been raised from \$2 to \$3 per day.

Germany and Great Britain, while otherwise friendly, do not relish the intense American spirit of President Roosevelt's speeches.

The Las Vegas newspaper men had a strenuous time yesterday chasing the hundreds of elusive items connected with the big excursions to that city.

The full moon which occurs the 17th of September will be that wonderful thing, the harvest moon. For several successive evenings the moon will rise at dark, shedding across the earth during the whole night its mild beams.

Most generally there is an hour's difference in the rising of the moon, but for a few days after the September full moon this will not be so.

In eight months of the present year the losses from fires in the United States have been \$5,000,000 less than in 1901 and \$22,000,000 less than in 1900.

Arrangements have been made by the managers of the St. Louis exposition for a three-day ceremony at the fair grounds on September 30, October 1 and 2.

The preachers go away all summer on pleasant vacations and have no right to object to a busy man taking his family upon an excursion whenever he has the opportunity.

John D. Rockefeller owns a park of 90,000 acres in the Adirondack mountains. He keeps adding to it right along, and expects in time to use the rest of York state as his back yard.

Minority representation is necessary in republics. Self government cannot be preserved where the rights of the minority is ignored. The republicans of New Mexico are in favor of a free ballot and a fair count.

Popular election of senators is coming into fashion without any constitutional amendments; the primaries in many states are signifying their choice for United States senator and that of course is practically binding on legislatures.

The republican county convention of Valencia county will be held in Los Lunas on Monday, October 6. The convention will consist of sixty-four delegates and will elect twelve delegates from that county to the republican territorial convention, which will meet at Raton, October 10.

Complete returns from Vermont's election show that the total vote of 69,633 was the largest ever polled in that state. Of this number 31,778 were cast for the regular republican ticket, 28,117 for the license republican ticket, 7,280 were democratic votes and 2,458 were cast by prohibitionists.

PLEASANT CITY.

Las Vegas pleasantly entertained about 1,500 visitors yesterday. Excursion trains from Santa Fe, Raton and Albuquerque met at the Meadow City with hundreds of cheerful people, who were met at the railroad station by the Las Vegas with music and cheers of welcome. Nothing occurred during the entire day to mar the festive occasion. The Elks met each train and marched the visitors to one of the most elaborate lunches ever spread in any city in this territory. It was more of a banquet than a lunch and the liberality and enterprise of the Las Vegas Elks was highly appreciated by the visitors. In the afternoon several hundred of the excursionists visited the famous hot springs, located in a scenic canyon six miles from the city, while other hundreds visited the pretty parks of the place and then gathered at the base ball grounds, where Colonel Twitchell's trained veterans at the bat fell upon Colonel Martin's Santa Fe tigers and won a victory after a closely contested game.

The visitors from Albuquerque are pleased with their trip. They were so generously received and pleasantly entertained that they will be glad to have the opportunity of reciprocating, and hereafter whenever excursion rates can be secured Las Vegas can expect a crowd of friends from this city.

The gathering yesterday will do much to eradicate the ill feeling that has recently grown up between Las Vegas and Albuquerque. The two cities are mutually dependent upon each other in many ways, and their interests do not conflict in any way. Let's pull together in the future for the upbuilding of the future state, and the prosperity of its cities.

DEAD SEA WATERS.

Scientific observation justifies the estimate that a daily average of 6,500,000 tons of water is received into the Dead Sea from the Jordan and other sources during the year, writes W. E. Curtis in the Chicago Record-Herald. During the rainy season the amount is very much greater; during the dry season it is, of course, very much less, but this average will be maintained year after year. There is no outlet and the level is kept down by evaporation only, which is very rapid because of the intense heat, the dry atmosphere and the dry winds which are constantly blowing down from the gorges between the mountains. This evaporation causes a haze or mist to hang over the lake at all times, and when it is more rapid than usual, heavy clouds form and thunder storms sometimes rage with great violence in the pocket between the cliffs, even in the dry season. A flood of rain often falls upon the surface of the sea when the sun is shining and the atmosphere is as dry as a bone half a mile from the shore. The mountains around the Dead Sea

are rarely seen with distinctness because of this haze. The waters of the Jordan, when they reach the sea, are as brown as the earth through which they flow—a thick solution of mud—but the instant they mingle with the salt water of the lake the particles of soil are precipitated, and they become as clear as crystal, with an intensely green tint. Carrying so much soil and having so swift a current, one would suppose that the sea would be discolored for a considerable distance, but it is not so. The discoloration is remarkably slight. The Jordan has quite a delta at its mouth, breaking into a number of streams and frequently changing its course because of the obstructions brought down by its own current.

NOT A CANDIDATE.

At Las Vegas yesterday a representative of The Citizen had an interview with Hon. Charles A. Spiess, who has been favorably mentioned for delegate to congress by many friends in various parts of the territory. Mr. Spiess stated that he was not a candidate for delegate, and that his name would not be presented for nomination before the republican convention at Raton on October 10. This action on the part of Mr. Spiess is destined to bring about harmonious action in the republican ranks in this territory, and will greatly strengthen him with his party. Mr. Rodey's friends think that his faithful service in congress deserves reward, and that he is entitled to a re-nomination, and the refusal of Mr. Spiess to be a candidate makes the selection of Mr. Rodey as the republican standard bearer a certainty.

WHEN YOU CANNOT SLEEP.

When sleep shuns your pillow, do not resort to drugs. Find out the cause of the insomnia. It may be you have anxieties. If so, try to remove them. If they belong to your circumstances, retrench, economize, do without superfluities. If they are connected with illness, your own or another's, seek the best medical aid and trust in God. But avoid all powders and potions, all narcotics that induce an artificial sleep. Their tendency is cumulative and enslaving. The small dose of today will be inoperative unless you increase it by a larger dose tomorrow.

Take all the outdoor exercise you can, or, if unable to exercise, get the freshest air in the house that you can, and have your sleeping room well ventilated. Retire about 10 o'clock, and take a tepid bath before retiring. A very vigorous person may induce sleep by a cold plunge, a thorough rub, and a quick going to bed; but this treatment would kill a delicate invalid, who could not react from the shock.

A glass of hot milk or broth and a biscuit taken before retiring often bring peaceful sleep.

Beware of the Knife.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. De Witt's Witch Hazel Salve cures quickly and permanently. Unequaled for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much mood and strength," says J. C. Phillips, Paris, Ill. "De Witt's Witch Hazel Salve cured me in a short time." Soothe and heal. B. H. Nothing Like Oil.

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they may abhor it, it is their best medicine for disorders of the bowels. In the more severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates, and a quick cure is sure to follow. For sale by all druggists.

A Parson's Noble Act.

"I want all the world to know," writes Rev. C. J. Budlong, of Ashaway, R. I., "what a thoroughly good and reliable medicine I found in Electric Bitters. They cured me of jaundice and liver troubles that had caused me great suffering for many years. For a genuine, all-around cure they excel anything I ever saw." Electric Bitters are the surprise of all for their wonderful work in liver, kidney and stomach troubles. Don't fail to try them. Only 50 cents. Satisfaction is guaranteed by all druggists.

AN INDUSTRIOUS LOVER.

That San Marcial Masher Causing More Trouble.

Our readers will remember that about a year ago a fellow named Isabel Baldonado, a thorough-going masher, had a row with one Francisco Chaves on the roof of the latter's house and how he knocked Chaves out and eloped with his wife, says the Bee. They were captured and brought back. Isabel was not prosecuted. Then Isabel objected to the attention Section Foreman Wilson was paying the woman. They exchanged shots without any serious results, but Wilson was clinched in the district court to the tune of several hundred dollars, while Isabel was fortified by smiles from all quarters. For some time the husband of the woman has been working at Cerillos, and she has been in charge of their corn crop, stock and other interests. One day last week Isabel decided that the scenery around Cuchillo was peculiarly adapted for love with Mrs. Chaves, so they sold the corn crop, packed the woman's three kids in the wagon with other portable stuff, and slowly and happily made their way to the classical Cuchillo. Friends of the husband secured a warrant and the elopers were brought back the second time, but no criminal action has been taken against them. The woman is attractive and a good worker; Baldonado works occasionally and in appearance is not unlike General Miles. His specialty is love making with some other fellow's wife, and his countenance beams with delight when any reference is made to the Edmunds act. The abused husband is an industrious Indian, and he is due to make a grand stand play at any time in defense of his honor and home.

Tapped 14 Times

Edwin W. Joy's Test Case of Bright's Disease.

WHEN THE SAN FRANCISCO BUSINESS men who incorporated the Jno. J. Fulton Co. were putting the Fulton Compound to practical tests in cases of Bright's Disease and Diabetes, Edwin W. Joy, the Kearny street druggist, stopped one of the investigators and said he had a friend who had an advanced case of Bright's Disease and was beyond human aid. Joy explained that he had been in one of the large hospitals, had been tapped nearly a dozen times and was so weak that his case was looked upon as so hopeless that his recovery would create a sensation and that it would be a fine test for the compound. We told Joy to send the patient's brother down. He came and we gave him the treatment. Joy started for a trip around the world, fully expecting on his return to find that his friend had joined the silent majority.

We now skip ten months. Joy has returned. His friend is not only still living, but instead of the tapplings being a month apart, as formerly, he has not been tapped for over six months, and instead of being confined in a hospital he is living at home and is now down on the street daily and growing stronger all the time. There is no wider known druggist on the Pacific Coast than Edwin W. Joy. Interested parties will find him at his stores at Kearny and California streets, where he will confirm these important facts and give the details. The editor of the Overland Monthly investigated the above case and certified to its entire correctness.

Medical works agree that Bright's Disease and Diabetes are incurable, but 97 per cent are positively recovering under the Fulton Compound. (Dropsy, Kidney Trouble, Rheumatism from uric acid, and the minor kidney diseases are soon relieved.) Price, \$1 for Bright's Disease and \$1.50 for Diabetic Compound. Free tests made for patients. Descriptive pamphlet mailed free. Call or address John J. Fulton Co., 1115 Building, Montgomery street, San Francisco.

LAS VEGAS

Bright Outlook for Mining Operations on the Upper Pecos.

MORA COUNTY COMMISSIONERS ENJOINED

Special Correspondence.

Las Vegas, N. M., Sept. 13.—Your correspondent called on Prof. Frank C. Smith to get his opinion regarding the general outlook in the territory, and especially in the vicinity of Las Vegas. Professor Smith is one of the leading mining experts in the United States, and came out here to look at some properties. In answer to inquiry as to what he thought of the outlook in this vicinity, he said:

"Well, there has been practically no development, but the outlook is very satisfactory. The formation of ore is due, of course, to natural action and the effects of igneous rocks, and where the rock is seen cutting into the ancient formations, or sediment rocks, one is apt to find ores and precious metals, and that I note here. As to the district at Tecolote, which I examined, I am inclined to think it is hardly of a satisfactory nature, but no doubt some of the prospects will pay, but the average is low. One's idea is, of course, to treat the whole dump when mining, and I am inclined to believe to do that would be risky. Still, there is no question that some of the ore could be treated profitably, no question whatever. It seems very strange to me that there has not been more prospecting done in the territory. One can go for miles and find nothing, while in most mining communities there are prospectors' cabins everywhere.

"I have been on the Pecos river part of the time, and there is no question about what could be opened there. That country is a paradise for prospectors, and I cannot understand why more development has not been done, as all the conveniences are at hand. Speaking of the region near Glorieta and the famous Hamilton mine, everything looks most encouraging. There are fine streams, timber, coal and everything a man could want. The coal in that district would certainly pay to mine; it seems everywhere and I think the outlook over the territory, as well as in Las Vegas' immediate surroundings, is good, and that there is a future for the mining interests of New Mexico."

Asked how, judging from the ores he had seen, would be the best way to treat the ores, he said:

"The oxidized ores in the sandstone formations, which predominate, should be leached. The other ores should be matted, as sulphated ores are easier handled this way."

Professor Smith did not leave until today for his home in New York, where he represents some large capitalists in an expert way. This was his second visit to Las Vegas recently.

C. L. Duran, the postoffice inspector, came in Saturday on No. 2, after a swing around the territory.

Fathers Gilberton, Pouget and Le Guillon returned Friday afternoon from their trip to Watrous.

Rev. A. M. Lumpkin returned from his vacation trip Friday afternoon. He came direct from Roswell, but has been as far away from the fold as Hot Springs, Ark.

R. B. Rice, the city surveyor, and William Bloomfield went down to Rowe Saturday to do some surveying on one of the big mining claims near there, held by a local party.

Manuel Padilla escaped from the insane asylum Friday afternoon and no trace of him has yet been found. The fellow was a "trusty" and had been employed in the kitchen. He was from Valencia county and had been in the asylum several years.

Hon. Eugenio Romero left Friday evening for his tie camps in the Galinas mountains, to pay off his gang. He goes to Albuquerque, then overland sixty miles to Torreon, the home of his son, Serapio, then on forty miles more overland to the tie camps in the mountains.

There was a large attendance at the reception tendered the new rabbi, Dr. M. Lefkowitz, late of Nashville, Tenn., at the synagogue Friday night. The doctor arrived on No. 7, which did not get in until 7 o'clock, and was taken to the church to get acquainted with his new congregation. Dr. Lefkowitz made a very favorable impression. He is a young man of great ability, and we predict much success for him in his new field of labor. There was a special musical program, out no preaching.

Judge E. V. Long and George P. Money applied for a writ of mandamus before Judge Mills Saturday morning, in behalf of the democratic central committee, against the board of county commissioners of Mora county, asking that the board change the precincts in Mora county as they were originally. They allege that four precincts have been abolished and divided among others, and they want the old order restored. The judge granted the writ temporarily, and it is up to the commissioners to show cause why the writ should not be made permanent. The hearing will take place in Raton in about ten days. The gentlemen also presented a list of democrats, asking that the minority have representation in each precinct on the registration board.

Gray Creek, Colo., ball team will be here Saturday and Sunday week. This team has a big reputation, and just recently defeated Pueblo.

GOOD MAN DEAD.

Father of Hon. W. H. Jack Dies in Pennsylvania.

Mrs. W. H. Jack, of Silver City, received a telegram the first of the week from her husband, who is at Hollysburg, Pa., saying that his father had died at 3 o'clock Sunday afternoon. Mr. Jack, Sr., was 92 years old and was one of the most highly respected and influential men in the community in which he was a resident. Mr. Jack is survived by an aged wife and two sons, Hartley J., of Pittsburgh, Pa., and William H., of Silver City. The many friends of the Hon. W. H. Jack throughout the territory will sympathize with him in his loss.

TRIP TO VEGAS.

The Meadow Town Filled With Excursionists Yesterday.

SANTA FE CENTRALS DEFEATED.

Sunday morning at 6:30 o'clock the excursion train pulled out of the local station for Las Vegas with the Italian band playing ragtime music and with banners flying. More than 300 people were on board and it was the beginning of a most delightful day spent in the Meadow city. Six passenger coaches and a baggage car furnished ample accommodations and the ride was made pleasant by the comfort of the excursionists enjoyed.

The first stop was made at Cerrillos, where quite a number of people were taken on. At Lamy it was learned that the train from Santa Fe had not passed that place yet and the train went on to Las Vegas, where the Albuquerque train, with Agent F. L. Meyers, arrived at 10:45 a. m. A train from the north with passengers from Raton and other points north arrived at the same time 150 strong.

All Las Vegas and a band met the visitors most cordially. Both the Las Vegas and Albuquerque bands made music.

About 12 o'clock the Santa Fe train, with banners bearing cheerful phrases flying and a regimental band playing "A Hot Time in the Old Town" arrived with 400 people on board.

The streets were crowded and music filled the air. Even the atmosphere was cheerful, and everybody seemed to enjoy themselves.

The hotels and restaurants were prepared and nobody went hungry.

The Elks entertained most royally. A delegation of Las Vegas lodge No. 408 met each train and headed by a brass band escorted the visitors to their hall, where an elegant banquet, with cooling beverages and Havanas awaited them in abundance.

The fire companies of both old and new towns kept open house and gave an exhibition drill. The Old Las Vegas team made two connections in seventy-five seconds. The new town team made one connection in thirty-five seconds.

Several hundred people took advantage of the free ride to the hot springs and spent the day at the beautiful, comfortable Montezuma.

The Ball Game.

The Santa Fe Centrals and the Las Vegas Blues crossed bats at promptly 3 o'clock and it is needless to say that the game that followed was a hot one.

Nearly two thousand people witnessed the game and the grand stand was filled to overflowing. Col. Twitchell's babies beat Billy Martin's pets by the close score of 9 to 8.

Fritz Harker, of Denver, went in the box for the Centrals and Charlie Rhodes did the twirling for the Blues. The Blues found Harker regularly and gave way in the fifth inning to Carl Fettus, Rhodes pitched a brilliant game.

The line up of the two teams were as follows:

Santa Fe Centrals—Shirk, third base; McGillivray, right field; Vorhes, second base; McDonald, catcher; Geo. Parsons, first base; Catron, center field; W. Parsons, left field; H. Alarid, short stop; Harker and Fettus, pitchers.

Las Vegas—Hale, left field; Moran, catcher; Harris, second base; Gross,

third base; Cosgrove, first base; Nygren, short stop; Taylor, center field; Flaherty, right field; Rhodes, pitcher. The game by innings was as follows:

First Inning—Hale hit safe to first base and took second on a balk, Moran made a line hit past second base and Hale scored. Harris hit to pitcher and was thrown out at first, Gross flew out to left field, Cosgrove made clean hit and Moran scored on an error, Nygren forced Cosgrove at second.

Shirk called out for jumping across home plate after having three balls and no strikes, which was done in order to rattle the pitcher. The pitcher failed to deliver the ball and Umpire York decided the batter out. A dispute ensued and the game was delayed for twenty minutes. Santa Fe refusing to play if such decision stood. Finally, the difficulty was settled and the game went on. Shirk resumed his place at the bat and took first on a hit and stole second, McGillivray struck out, Vorhes made two base hit and went to third on an error, Shirk scored, Vorhes scored on McDonald's sacrifice. Geo. Parsons made safe hit, stole second and was caught at third.

Second Inning—Taylor struck out, Flaherty made base hit and went to second on an error, Rhodes made base hit and went to third, Rhodes went to second and he and Flaherty scored on bad throw by McDonald past second, Hale flew out to center field and Moran was thrown out at first.

Catron took four balls, Parsons struck out, Alarid hit ball for three bases and Catron scored, Alarid caught at home, Harker fouled out.

Third Inning—Harris out at first, Gross made base hit but was caught stealing second, Cosgrove hit safe to first and went to third on passed ball, Nygren hit safe and Cosgrove scored, Taylor forced Nygren at second.

Shirk struck out, McGillivray flew out to third, Vorhes hit long fly to left field which was caught by Hale.

Fourth Inning—Flaherty went to first on bunt, Rhodes hit to pitcher and forced Flaherty out at second, Hale hit safe to first and was caught at second, Harris out at first.

McDonald out at first, G. Parsons flew out to third, Catron fanned.

Fifth Inning—Harker was succeeded in box by Fettus. Gross out at first, Cosgrove fanned, Nygren hit by pitched ball, Taylor also, Nygren forced at third.

W. Parsons, Alarid and Fettus each fanned out.

Sixth Inning—Rhodes struck out, Hale base on balls, Moran flew out to right field, Hale caught napping at first.

Shirk fouled out, McGillivray fanned out, Vorhes fouled out.

Seventh Inning—Harris bunted safely, Gross passed on balls, Cosgrove struck out, Nygren flew out to right field, Harris and Gross scored on McDonald's wide throw to second base to catch Gross stealing, Taylor base on balls, Flaherty out to second, Vorhes made a phenomenal catch on this play.

In the last half of this inning Santa Fe took a brace at bat, when McDonald led off with a two base hit; G. Parsons hit safe to pitcher and stole second, Catron went to first on error and McDonald scored, Alarid made base hit, Parsons caught at home, Catron scored, Fettus hit fast past first and Alarid scored, Fettus scored, Shirk out at second, McGillivray struck out.

The Las Vegas team were apparently in the air and the Santa Fe rooters stampeded. The scene on the grounds was indescribable.

Eighth Inning—Rhodes hit high fly to right field, Hale hit pop up to first base, Moran fanned.

Vorhes hit safe to center and stole second, McDonald and G. Parsons hit to pitcher and were out at first, Catron struck out.

Ninth Inning—Levi substituted for Harris and was passed on four bad ones, Gross hit safe, Nygren hit safe, Levi and Gross scored, Taylor out at first.

W. Parsons out at first, Alarid and

Spot Moore, in his make up as a farmer, made the biggest hit of the game when he walked out into the diamond early in the game to argue with the umpire. A stalwart policeman compelled him to "go way back," etc.

The members of the Italian band are loud in their praises of the Elks, the E. Romero Hose company and the National guard for their kind treatment. These organizations, as well as the Las Vegas band, were tireless in looking after the welfare and comfort of the Albuquerque musicians.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil. Monarch over pain.

Drummer Evangelist.

Mr. Williams preached three times yesterday at the Highland Methodist church and also conducted evangelistic services in the Sunday school. Large audiences greeted him at each service and it was a day of great helpfulness to all concerned. The doors of the church were opened and fourteen new members were received and there are others who desire to unite, and they will be received Wednesday night at the close of the farewell sermon. The meetings continue each night until Thursday night inclusive, and much is expected from these closing nights. The subject tonight is "Conscience," and is said to be one of Mr. Williams' strongest discourses. Everybody welcome. Bring your friends with you.

Program for the Handicap Preliminaries Arranged to Begin September 22.

The tournament will be conducted under American lawn tennis rules.

The first three names drawn were: McGaffey, scratch; Roy Stamm, scratch; Reynolds, owe 15. These are byes and go over to the second preliminary.

The players in the preliminaries were then drawn as follows: Merritt, scratch; plays Lester, owe ½ 15. Brooks, owe 30, plays Connell, owe ½ 15. Fish, receive 30, plays Flournoy, owe ½ 15. Sabin, receive 15, plays Moore, scratch. Vorhes, owe 30, plays Bailey, scratch. Newman, owe 15, plays Wilkerson, scratch. Ward, owe 15, plays Bell, receive 15. Travis, owe ½ 15, plays Stamm, owe 30. Summers, scratch, plays Metcalf, owe 15. The last four drawn, Frost, Jack, Newhall and Putney, are, according to the rules, byes.

In the drawing for ladies, the results were as follows: Mrs. Himoe, scratch, plays Miss Winston, owe 30; Mrs. Fish, scratch, plays Miss Willey, owe 30; Mrs. Medler, owe 30, plays Mrs. Jack, scratch; Miss Bettie Willey, bye. Those not familiar with the method of handicapping will observe that the best players are rated as owing, while to those receiving, a decided advantage is given.

Headache...

The following is quoted from a late work on the diagnosis and treatment of the diseases of the eye, by Edward Jackson, A. M., M. D.:

"It ought to be ever ally recognized that eye-strain is the common cause of headache. Aside from headache produced from fever, toxemia and organic disease of the brain and its membranes, eye-strain is almost invariably a factor in the production of headache. The headache of eye-strain is not of any special character—it may be constant or intermittent, slight or severe, felt only on the use of the eyes, or felt after their use, continuous or recurring irregularly or at certain intervals. It is aggravated by many other causes, such as hunger, exhaustion, exposure to heat or cold, or indigestion, or it may seem entirely independent of other influences. In the majority of cases eye-strain is not the only factor in the production of headache, but it may be the only factor of practical importance because it alone can be removed, and its removal will give relief. Such headaches are generally felt in the frontal, temporal or occipital regions."

Read the above again, and remember that eye-strain is relieved by glasses properly fitted. We are in every way equipped for scientifically testing the eyes and determining the right glasses. In every case absolute satisfaction is guaranteed. Prices are as reasonable as good work will justify.

Save the Children

All stomach and bowel troubles in child or adult are due to a single cause—Indigestion. Flux, colic, cholera morbus, diarrhoea, dysentery and all complaints of like nature, are the result of undigested foods fermenting in the stomach. The only way to prevent fever and to cure such troubles without injury to the membranes lining the stomach is to restore perfect digestion.

KODOL Digests What You Eat

Kodol is the new discovery which cures all stomach and bowel troubles by removing the cause. This famous remedy checks fermentation, cleanses, purifies and all of the nourishment, health and strength it contains.

Cures Indigestion, Dyspepsia and all Stomach Troubles. "Kodol Dyspepsia Cure is just the thing for dyspepsia and stomach troubles. It has helped me more than anything else in a long standing case of catarrh of the stomach."

Prepared only by E. C. DeWitt & Co., Chicago. Sold by all dealers. The favorite household remedy for coughs, colds, croup, bronchitis, grippe, throat and lung troubles. It cures J. H. O'RIELLY & CO., AND B. H. BRIGGS & CO.

NEW MEXICO TOWNS

SAN MARCIAL.

From the Bee. The baby girl of Mr. and Mrs. C. L. Haffey is quite ill.

Mrs. L. U. Morris is visiting friends at Rossville.

Mrs. Nellie Parrish and children are now residents of East Las Vegas.

Harry Addington, of Peoria, Ill., is visiting Mr. and Mrs. N. A. Kennedy.

Mr. and Mrs. John A. Barton are occupying the residence of Mrs. Parrish at the foothills.

Mrs. T. F. Clay, of Las Vegas, arrived here last week to spend a month with her twin sister, Mrs. Caleb Anderson. The lady is not strong and a lower altitude is necessary at times.

One day last week a drummer struck town and H. Bonem, of the firm of H. Bonem & Co., volunteered to look at his samples. Fred Richards, the transfer man, offered to move the heavy sample cases over town at the regular charge of 25 cents per trunk. The drummer preferred to have the Harvey house porter lug them over at a cut rate. When Mr. Bonem learned this he refused to have anything to do with the drummer or his samples, and the cheap guy paid the drayage both ways and cussed the union spirit of our popular merchant.

Came Near Being a Cripple.

Josh Westhafer, of Logansport, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost five dollars a bottle, for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by all druggists.

CERRILLOS.

From the Register. W. H. Coleman and wife were Santa Fe visitors.

Miss May Harney, who has been spending her vacation at home, returned to her school work at the New Mexico College of Agriculture and Mechanical Arts, Sunday evening. Her father, C. E. Harney, accompanied her as far as Albuquerque, returning Monday morning.

The school at San Pedro opened last week with Miss Fannie McNulty as teacher.

Mrs. Abe Reid and children visited at Santa Fe, the guests of Mrs. Charles Closson.

J. L. Wells has been making a business trip through Arizona the past two weeks.

Miss Virginia Gutierrez left for Santa Fe, where she will attend school this winter.

Charles Gutterman and Edwin Swope of Santa Fe, were in town Wednesday repairing the Postal Telegraph line. They returned the same evening.

D. J. Bridge, of Franklin, Pa., president of the Pennsylvania Mining company, is transacting business in town this week.

Lloyd T. Buell left for Boston, where he will enter the Massachusetts school of technology as a student of mining engineering.

Prof. B. F. Giltner had the misfortune to lose two fine mares Tuesday. They were running out on the range east of town and wandered onto the railroad track and were killed by a train.

HILLSBORO.

From the Advocate. Lee Nations and Miss Ada Pague were married at Hermosa one day this week.

Guy Gliven and Henry Ogenorth left for Mesilla Park, where they will take another term at the Agricultural college.

A new school house is in the course of erection in the Faulkner district (Andrews.) It is expected the structure will be ready for occupancy on or before the first of November.

Senator Warner Miller, the well known capitalist and mining man of Herkimer, N. Y., accompanied by his son, Max, arrived here. Mr. Miller is here on business connected with mining in this district.

Major J. E. Robertson, principal of our last term of public school, is teaching at Lynchburg, Va., and his daughter, Miss Annabel, is teaching at Norman, Okla. Major Robertson and his daughter are well known here, both having taught most successful terms of school in this district.

Dr. A. G. Brewer, of Utica, N. Y., will receive \$5,000 for three months of service. He expects to return home in December.

C. B. Allaire, president of the board of directors of school district No. 7, San Antonio, was in town accompanied by Miss Daisy Wentworth, who has accepted a position as teacher in the schools of San Antonio. Miss Wentworth possesses excellent qualifications as a teacher and will doubtless give the patrons of the San Antonio schools good satisfaction.

A Sad Disappointment. Ineffective liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever. B. H. Briggs & Co. and J. H. O'RIELLY & Co.

Greatest of All. C. F. Myers, who is the guiding spirit of the Post Hardware company and mayor of Albuquerque, was in town yesterday talking hardware and telling our people of the scope, grandeur and desirable features of the coming fair. Most of our citizens read the Albuquerque daily papers, and are well posted concerning the great attractions secured, and the negotiations under way for still greater things in the amusement line. Still the aggregation of wonders and the variety of the sporting events are better understood when illustrated by the city's clever mayor. Every picture he draws means a bigger crowd and larger gate receipts, and a whole week of merry making for the thousands of people who are determined to be a small part of the great whole from start to finish. In a few weeks from now the great show will be due.—San Marcial Bee.

Lingering Summer Colds. Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A long siege like this will pull down the strongest constitution. One Minute Cough Cure will break up the attack at once. Safe, sure, acts at once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it. B. H. Briggs & Co. and J. H. O'RIELLY & Co.

Railroad Topics

Some important changes in the local shops are anticipated.

Quite a large number of local railroad men took their families on the excursion to Las Vegas.

Mrs. F. H. Sutton, wife of Dr. Sutton, acting chief surgeon of the local Santa Fe Pacific hospital, has returned to her home at Los Angeles.

Paul Morton, second vice president, has returned to Chicago after a tour of inspection over the lines of the Pecos Valley & Northwestern road.

Avelino Romero has entered into a contract with the Santa Fe company to do some track raising near the Tiffany ranch and south of San Marcial.

H. M. Foster, of New York, has been sent to Flagstaff, Arizona, where he will act as lumber inspector for the Santa Fe under General Storekeeper N. M. Rice.

P. Walsh, general baggage master for the Santa Fe, has been in Denver for several days attending the meeting of the American Association of General Baggage Agents.

Santa Fe locomotives are being equipped with electric headlights at a lively rate of speed. Nos. 1018, 1020 and 1036 are in the Raton shops receiving new lamps.

There is some talk in railroad circles of the erection of two stalls on the site of the Williams round house, for the accommodation of the seven or eight engines usually in the yards there.

It is estimated that the Santa Fe will have its second track between Raton, N. M., and Morley, Colo., completed, a distance of about fourteen miles and covering one of the most dangerous parts of the mountains.

Con Jackson, a Rock Island brakeman out of Santa Rosa, N. M., has entered the bronco riding contest which is to be held in Denver tomorrow. He has won prizes in Kansas City, Oklahoma City and Wichita.

Wm. Hunt, an employee of the Santa Fe store house at Topeka, and a brother of Mrs. Geo. Rose, attended the funeral of Engineer Rose at San Marcial on Tuesday, and accompanied Mrs. Rose to Flerro the next day.

A. E. Stillwell, president of the Kansas, Mexico & Orient, has sailed from London in company with a number of the finance committee of that road. The members will be taken over the proposed route of the line.

The work of improving the local Santa Fe Pacific hospital continues persistently. The new wing which is added on the north is finished and a large force of men are busily engaged in repairing and repainting the old part of the building.

Orders have been placed by the Pennsylvania for the construction of 1,500 new freight cars to be delivered within the next six months. The majority of them will be of the 100,000 pounds capacity, the remainder of 80,000 and 90,000 pounds capacity.

An agent was at San Marcial last Saturday gathering up laborers for a rock quarry near aWtrous. He stated that they had 200 men at work and wanted 200 more. The scale paid is \$1.50, \$1.75 and \$2. The product of the quarry is being used as ballast for the Santa Fe tracks.

In accordance with the agreement recently reached by the traffic managers of the western railroads a general advance in freight rates on grain became effective today between Missouri river points and Chicago. The advance is from 7 to 12 cents a hundred-weight on wheat and to 11 cents on other grains.

The Las Vegas Record says: Hon. Eugenio Romero left yesterday evening for his camps in the Gallinas mountains, to pay off his gang. He goes to Albuquerque, then overland sixty miles to Torreon, the home of his son, Serapio, then on forty miles more overland to the tie camps in the mountains.

The Williams News says: Conductor Billy Bromley came near having no place to lay his weary head last Monday night, all because a spark from a passing engine set fire to his bed in the caboose, which was side tracked in the local yards. The way he threw the mattress and other things outside the car and began shaking them might have given some the impression that he had gone wrong, but for the column of smoke ascending.

The Winslow Mail says: Fred Hughes is the latest unfortunate among the railroad men. While endeavoring to couple cars at Denison he slipped and threw out his hand to save himself from falling under the cars. His right hand was caught between the coupling attachments and frightfully crushed. He was brought to Winslow immediately, suffering great pain, and his injuries were dressed by Dr. Brown at the Santa Fe hospital, after which he rested more easily. This accident will unite him for work for some time to come.

"I had kidney trouble so bad," says J. J. Cox of Valley View, Ky., "that I could not work. My feet were swollen to immense size and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure which made a well man of me. Sold by Alvarado Pharmacy."

It Is Now Trainmaster Morris—Last Monday the cheerful news was circulated that Conductor Lot Morris had been promoted to trainmaster, and he assumed the duties of his new office on Wednesday, says the San Marcial Bee. The business of the Rio Grande division has assumed such proportions that it was found necessary to relieve Superintendent J. F. McNally of a portion of his duties, hence the creation of the new office. Mr. Morris is exceptionally well qualified for his experience in the train service and as a dispatcher to perform the duties of a trainmaster, and his large number of friends were not slow in offering their congratulations. For a young man Mr. Morris is moving forward very nicely and we are all glad of it.

Group.
Usually begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment externally to the throat. 50 cents at Cosmopolitan Pharmacy—B. They Were at Silver City.
J. H. O'Reilly and Will Ments, of the Washington Life Insurance company, arrived in the city Saturday. Mr. O'Reilly is agent for New Mexico and Arizona for the Washington Life, while Mr. Ments is special agent for the same company. Mr. O'Reilly was loaded to the hilt with enthusiasm over the coming territorial fair at Albuquerque and succeeded in convincing a great many Silver City people that they couldn't afford to stay away.
Hon. Charles F. Myers, mayor of Albuquerque, was in the city yesterday talking up the big territorial fair, which will be held in Albuquerque October 15 to 19. Mr. Myers is a good talker at most, and given such a subject he was perfectly at home and succeeded in enlisting those whom he met with the wonderful attractions Albuquerque will hold forth to visitors this fall. Mr. Myers says that Scott Knight and the advertising car will arrive in Silver City in a few days.—Enterprise.

Take Care of the Stomach.
The man or woman whose digestion is perfect and whose stomach performs its every function is never sick. Kodal cleanses, purifies and sweetens the stomach and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It is the wonderful reconstructive tonic that is making so many sick people well and weak people strong by conveying to their bodies all of the nourishment in the food they eat. Rev. J. H. Holladay, of Holladay, Miss., writes: Kodal has cured me. I consider it the best remedy I ever used for dyspepsia and stomach troubles. I was given up by physicians. Kodal saved my life. Take it after meals. B. H. Briggs & Co. and J. H. O'Reilly & Co.

MINING HIS HOBBY.
On Other Subjects He Seems Perfectly Sane.

P. J. O'Halloran, who was taken to the asylum at Phoenix last week, has for some years been a familiar figure on the streets of Williams, says the News. His one weak spot seems to be on the subject of mines and he was continually broaching some scheme to our citizens. Recently he has been distributing advertising matter for the Thunder Mountain Mining company, in which he claimed to have 25,000 shares. O'Halloran some time since filed on a piece of what he claimed to be rich mineral land about a half mile west of town that was supposed to be reeking with aluminum. It was later used as a dumping ground by the Saginaw & Manistee Lumber company, to which O'Halloran objected. In a conversation at the asylum with Attorney Steeves he said that the company finally agreed to pay him for the use of the ground and then failed to keep the agreement. The impression he has been trying to give out at the asylum that he was railroaded there by parties who are interested in getting him out of Coconino county is all

Contagious Blood Poison

using the same toilet articles, or otherwise coming in contact with persons who have contracted it.

It begins usually with a little blisters or sores, then swelling in the groins, a red eruption breaks out on the body, sores and ulcers appear in the mouth, the throat becomes ulcerated, the hair, eye brows and lashes fall out; the blood becoming more contaminated, copper colored spots and pustular eruptions and sores appear upon different parts of the body, and the poison even destroys the bones.

S. S. S. is a specific for this loathsome disease, and cures it even in the worst forms. It is a perfect antidote for the powerful virus that pollutes the blood and penetrates to all parts of the system. Unless you get this poison out of your blood it will ruin you, and bring disgrace and disease upon your children, for it can be transmitted from parent to child. S. S. S. contains no mercury or potash, but is guaranteed a strictly vegetable compound. Write for our free home treatment book and learn all about Contagious Blood Poison. If you want medical advice give us a history of your case, and our physicians will furnish all the information you wish without any charge whatever.

boah. There may be some aluminum there, but where is the piece of land in which it does not exist. As for its worth as a mining claim—it has none.

Avoid serious results of kidney or bladder disorder by taking Foley's Kidney Cure. Sold by Alvarado Pharmacy.

BARTON McCOACH.

John A. Barton and Miss Minnie McCoach Married.

The Methodist church of San Marcial was crowded last Sunday evening, says the Bee.

In addition to the regular members and attendants quite a large number of people entered the church portals to witness the incidents and ceremony connected with the marriage of John A. Barton and Miss Minnie McCoach. The principals appeared self possessed and conscious of the happiness in store for them by the sanction of their love in the sacred edifice with the impressive ceremony of the Methodist church. The costume of the bride was pure white, as was also that of her bridesmaids, Misses Bessie Hitchcock, Inez Aldrich, Lina Hockett and May Watkins. A number of little girls similarly arrayed acted as maids of honor. The Rev. Ed. Le Breton performed the ceremony. His pronunciation was distinct and the interesting points so well rounded that the congregation spoke their approval in kindly glances. The wedding march was beautifully rendered by Miss Conroy. The bride and groom are among our most popular and interesting young people and they have the best wishes of the entire community for their happiness and success in life.

21 Years a Dyspeptic.
R. H. Foster, 318 S. 2nd, Salt Lake City, writes: "I have been bothered with dyspepsia or indigestion for 21 years; tried many doctors without relief; recently I got a bottle of Herbine. One bottle cured me, I am now tapering off on the second. I have recommended it to my friends; it is curing them too." 50 cents at Cosmopolitan Pharmacy—B. Ruppe.

FOR CUTTING TIMBER.

Cooney Mining Men to Be Arraigned Before Commissioner Newcomb.

Wm. Weatherby, Jas. Shannon, Ira Gregory, Frank Kramis, Harry Rhinehart, Wm. Spurgeon, John Clark and Albert Emerson arrived in the city, having been summoned before United States Commissioner Newcomb upon a charge of having unlawfully cut timber for mining purposes in the Cooney mining district, says the Silver City Enterprise. Some interesting facts are likely to be brought out in the trial. The timber was being cut for the Cooney shaft and for the large new concentrator and the proceedings will delay this enterprise, which means so much to Silver City.

A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully, and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy, and this time one dose cured me." For sale by all druggists.

MAN MISSING.

Rev. Arthur Teal, of New York, Sought for in New Mexico.

Gus Reiling, of Silver City, has received the following notice from James C. Horton, of the firm of Foxon, Horton & Gallagher, large wholesale druggists, of Kansas City. The missing man is a close personal friend of Mr. Horton. The notice reads:

Rev. Arthur R. Teal, a Presbyterian minister, left his home at Katonah, New York, August 12, 1902, and has not since been seen. It is thought that from overwork and study his mind has become unbalanced, and he is a gentleman of high character and devoted to his family, who are in the deepest distress.

Ten years ago I contracted a bad case of Blood Poison. I was under treatment of a physician until I found that he could do me no good. Then began taking S. S. S. I commenced to improve at once and in a very short time all evidence of the disease disappeared. I took six bottles and today am sound and well.

"FRUIT OF THE LOOM."

Men and women of taste and judgment go into ecstasies over the wonderful patterns, textures and colors which are "the fruit of the loom." But there is one

they rarely consider, and that is the frail old woman, old before her time, because necessity compels her to work under conditions, which send her more favored sister to bed and the doctor's care.

The diseases which weaken and torment women, may in almost all cases be cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"I had female trouble for eight years," writes Mrs. L. J. Dennis, of 888 East College Street, Jacksonville, Fla. "Words cannot express what I suffered. I sought relief among the medical profession and found none. Friends urged me to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed sixty-five pounds. Now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, breaking down pain, and such distress every month, but now I never have a pain—do all my own work and am a strong and healthy woman."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

tress on account of his disappearance. He may have gone to New Mexico or Arizona, as he had been talking of missionary work there.

His height is about 5 feet 10 1/4 inches, dark brown eyes and hair, (though quite bald for a young man), quite full under lip. Wore a Scotch tweed suit—and straw hat with dark blue band.

Any information concerning his whereabouts will be thankfully received by Mrs. Arthur R. Teal, Katonah, New York.

A Communication.

Mr. Editor—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. Brockman, Bagwell, Mo. This remedy is for sale by all druggists.

ANNOUNCEMENT.

To the Ladies of Albuquerque:

Finding it impossible to dispose of my business, except at a great pecuniary loss, I have concluded to remain in business for awhile longer and will immediately go east to make personal selections, desirable and suitable for New Mexico, and Albuquerque in particular. I hope to show the ladies some exquisite fall and winter styles by Thursday, September 25, and, owing to certain circumstances, I ask the indulgence of the ladies until that date, feeling absolutely certain that they will be justified in waiting.

For health reasons, I will have no public opening day this fall.
