TAFT RUSHES REGIMENT OF SOLDIERS TO NICARAGUA TO PROTECT LIVES OF CITIZENS

BANANA REPUBLIC CONFESSES THAT IT IS UNABLE TO TAKE CARE OF ITSELF AND UNITED STATES WILL INTERVENE AND RESTORE ORDER—WOMEN FORCED TO CARRY AMMUNITION UNDER RIFLE FIRE.

WOUNDED AMERICANS ARE SHOT DOWN BY INFURIATED REBELS DURING BATTLE

Washington, D. C., Aug. 28.—The war department today issued orders to the Tenth United States Infantry at Panama to proceed immediately to Nicaragua. The orders came direct from President Taft himself at Beverly. The men will embark tomorrow on merchant steamers and will arrive at Corinto within 48 hours.

American soldiers will be landed in Nicaragua within the next 48 hours. On reports of conditions said to be so serious as to justify their being kept secret in Washington, President Taft at Beverly today personally directed the immediate movement of the Tenth United States Infantry, now on the Panama canal zone to Nicaragua, to guard American lives and property. Dispatches of last night and early today pictured the situation as being so acute that an immediate movement of a large force of troops was necessary.

Allegations of conditions bordering on barbarism and not ever worse than those which took the troops of the United States into China to quell the Boxer rebellion have been received at the state department within the last 24 hours. The deliberate murder of two Americans, Dodd and Phillips, after they had been wounded and were helpless following the massacre at Leon on August 19, focused attention on the previous reports of burning of soldiers, starvation of political prisoners held in dungeons and other alleged acts of cruelty.

The latest reports made plain that immediate protection for Americans was necessary and that it probably would not be safe to wait for the arrival of the marines now en route.

General Francisco Altschul, of the revolutionists in Washington, denies the charge of barbarity brought against the troops fighting the Nicaraguan government. He alleged that the burning of bodies of soldiers was necessary to proper sanitation and that it applied alike to dead of both sides. He contended also that American interests would not have suffered if no attempt had been made by American forces to prevent capture and operation by the revolutionists of the railway between Managua and Corinto.

The Junta asserts that the railroad is a national institution and should not be classed as an American property, except as it being administered to secure a loan by New York bankers.

Reports that women were shot are condemned emphatically by General Altschul who says that the barbarous methods were employed by the government forces when women were sent to the lines as ammunition carriers. Rebels firing upon flags of truce borne by loyal Nicaraguan troops as well as American marines is said, however, to have been frequent within the last few days. New attacks upon women and children and other non-combatants are reported. In the rebel shelling of Managua during the first days of the revolution, American Minister Weitzel reported that the firing had been indiscriminate upon the section of the city occupied by the non-combatants and that an American collector of customs named Ham and several other Americans, narrowly escaped injury from bursting shells. The United States is assured that the landing of troops has the approval of the Diaz government. Following a further demand by Minister Weitzel that Americans and their property must be protected by the Nicaraguan government is understood to have confessed its inability to meet the situation and to have consented frankly to permit the landing of American troops to protect United States citizens.

The state department has proceeded upon the conviction that its action involves no infringement of the war making powers of congress or the president. Officials point to the fact that there is even now a whole regiment of United States Infantry engaged in policing the Chinese railroad from Chin Wang Pao to Peking.

And, of course, American troops have been freely employed in China. It is true that each of these cases there warrant by treaty for the employment of American soldiers, but the state department officials felt that a like obligation has been imposed upon the United States by the Dawson agreement, which terminated the Zelaya rebellion.

Aside from any question of treaty organization, the administration is said to be satisfied of its rights under the principles of international law to employ any part of the army and

navy of the United States for the protection of American interests, life and property in a foreign country where the defacto government is either unable or unwilling to extend protection. Officials contend that such landing of American armed forces does not constitute war in any sense; there being no purpose of territorial aggression, punitive purpose of permanent occupation.

It is declared that while there are few precedents for employing regular troops in landing expeditions that fact is accounted for by the far greater mobility and availability of marines and bluejackets. Although the course of the United States in landing military forces on foreign soil without express approval of congress is now under investigation by a special senate committee named at the instigation of Senator Bacon, who has vigorously opposed sending troops outside the United States, the state department takes the position that it is supported not only by precedent in China and Central America, but is also bound by the so-called Washington convention to protect rights and property of foreigners and to further see that the administration in Nicaragua is changed only by a fair and free expression by a ballot. The same attitude was recently assumed in Panama when this government supervised the elections.

Furthermore it is said, that there are fully 100 Americans owning plantations in Nicaragua who must be protected from attack and looting of their properties. Many demands that this government protect American interests there have been registered at the state department.

A large number of New Orleans merchants, having Central American interests, only a few days ago, went so far as to protest to the department against the attitude of Senator Bacon. They declared American prestige in Central America would suffer immeasurably if this government failed to protect its citizens and property. They even predicted the spread of the unrest throughout other Central American states if the situation was not promptly taken in hand. Senator Bacon virtually charged on the floor of the senate that this government's interference in Nicaragua had a connection with the failure of the loan convention by which Nicaragua was to have borrowed several millions from American bankers and under which treaty the Nicaraguan railroads, steamships, customs house and national monopolies were to be administered by representatives of the American financiers.

The Diaz government, against which the political revolution is being directed, is said to have approved the attitude of the state department in regard to the loan convention. It has been reported that Zelaya, the dictator, deposed and exiled to Europe in 1909 after the murder of the two Americans, Cannon and Grace, was behind General Mena, leader of the revolutionists. This, however, is denied by the prominent liberal's who support the revolution.

ENGLAND WANTS FREE TOLLS IN CANAL FOR ALL

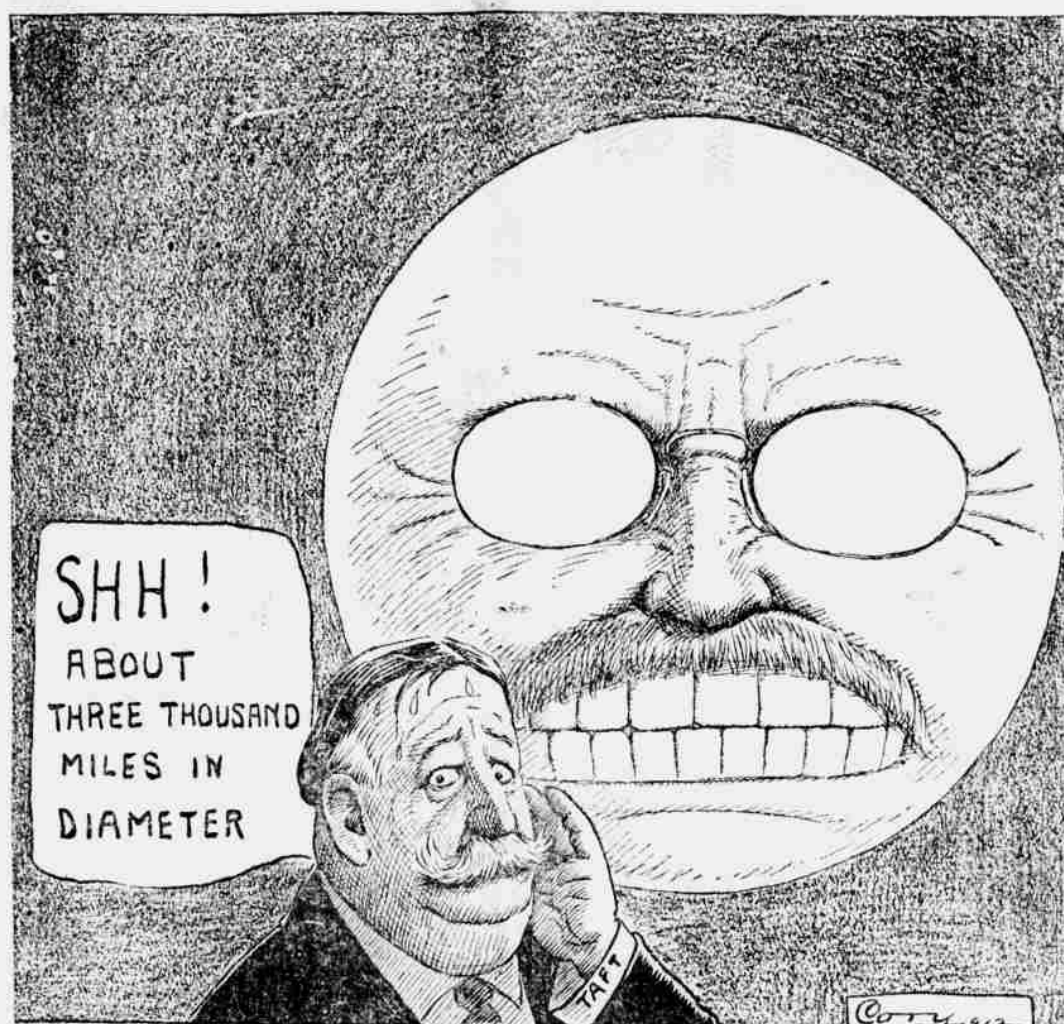

Washington, D. C., Aug. 28.—Great Britain has reaffirmed its protest against the Panama Canal Bill. In a note filed today with the state department by A. Mitchell Innes, charge of the British embassy here, it was stated that if a satisfactory agreement could not be reached Great Britain would appeal to the Hague tribunal for arbitration. The note submitted today says Great Britain will give careful consideration to both the bill and the message President Taft sent to congress relating to discrimination in favor of American coastwise shipping in the canal. If, after due consideration, it is found that no satisfactory agreement can be reached in the matter Great Britain declares that it will be necessary to appeal to arbitration.

KAISER IS WELL.

Cassel Hesse-Nassau, Germany, Aug. 28.—Emperor William felt so well that he rose early this morning and before breakfast enjoyed a long walk in the park surrounding Wilhelmshof castle. The rheumatic pains in the neck from which his majesty had suffered have practically ceased while the swelling of the glands has almost entirely disappeared.

"HOW BIG DOES THE MOON LOOK TO YOU?"

Here's the way it looks to Willyum.

LITTLE GIRLS IN DEMAND IN DIVES OF NEW YORK

New York, Aug. 28.—Searching a long trail of police blackmail that led up to the murder of the gambler, Herman Rosenthal, the state's attorney now reports a form of social evil from which colossal graft is included. This blackmail, he says, was obtained from about a dozen houses in this city, each of which paid from \$1,500 to \$2,000 a month for police protection. These houses were expensively furnished. Only the proprietor and a few servants lived in them. Callers were shown a list of names of girls who it is believed were called upon to come to the house when wanted. Opposite the names of these girls were their ages, which ranged anywhere from 15 to 18 years.

The results of the investigation probably will produce a sensation. Assistant District Attorney Rubin received a message today from Postmaster Frederick E. Johnson of Hot Springs, Ark., who took Sam Schepps into custody, stating that he had under arrest there two men whose description generally fits that sent out for "Gyp the Blood" and "Lefty Louie" wanted by the New York police.

Lieutenant Becker created a bit of excitement in the corridors of the "Tomb" while taking his exercise, by heaping vituperation on the head of James D. Hallen, a convicted lawyer, who told the district attorney yesterday that he had overheard a conversation in the prison between Becker and Policeman White. "You are a liar," shouted Becker, when accosted by the lawyer.

Hallen turned away and said nothing.

AMERICAN CARDINAL WILL LIVE IN PARIS.

Paris, Aug. 28.—The pope is about to create a new American cardinal who is to reside in Rome, according to a special dispatch received here.

The American cardinal will occupy a similar position to that of the prelates relating to France and Spain in Rome. It is also stated that the pope will later create a cardinal in Central America, probably in Mexico.

MORE CHRISTIANS ARE MASSACRED.

Cettinje, Montenegro, Aug. 28.—Further massacres of Christians by Turkish troops on the Albanian frontier continue to be reported, but the Montenegrin government is striving its utmost to give effect to the peaceful consults of the representatives of the European powers.

NEW MEXICO SITE IS SELECTED TODAY.

San Diego, Cal., Aug. 28.—R. E. Twitchell and Colonel Jastro, of New Mexico, today selected a site for the New Mexico building at the Panama-California exposition. They picked the most prominent location on the grounds, directly in front of the main building of the exposition and adjoining the site selected by Arizona. As the New Mexico flag was planted on the site selected, three cheers went up for New Mexico.

The building will be of the Pecos Mission style and the exposition commission will offer every facility to make the New Mexico exhibit a success. New Mexico will have much publicity not only after the exposition opens, but during the three years of preparation. After they fulfilled their mission, President D. C. Collier and the members of the board of directors entertained Mr. Twitchell and Mr. Jastro at the Cuyamaca club.

TELLEZ VISITS STEEVER IN TEXAS

MEXICAN GENERAL WHO DROVE OROZCO OUT OF JUAREZ IS RECEIVED WITH FULL HONORS BY U. S. SOLDIERS.

MORE TROOPS TO BORDER IS ORDER

El Paso, Texas, Aug. 28.—General Juarez Tellez, commander of the Mexican federal troops at Juarez, crossed the border today and personally paid his respects to General E. Z. Steever, at Fort Bliss, Texas.

The meeting, it is said, was purely social. It was necessary for the Mexican general to procure special permission from the department of war to leave Mexico for only a few hours. General Steever will return the call tomorrow.

As General Tellez, in an automobile with the Mexican consul at El Paso, entered the Fort Bliss reservation, he was met by a squadron of the Second cavalry. A salute of eleven guns was given. As the automobile was escorted to General Steever's quarters, a military band played the national anthem of Mexico and during the visit continued to play Mexican airs.

General Tellez was greeted by General Steever, and Colonel Frank West, second cavalry, Colonel A. D. Fredericks, twenty-second infantry, and other army officers.

Washington, D. C., Aug. 28.—General Walter Schuyler, commanding the department of California, was directed today by General Wood to proceed immediately to the southern boundary of his department and take personal charge of the disposition of the troops there.

Increased activity of rebel bands on the border as the result of the breaking up of the main army of Orozco, is creating a grave situation on the American side of the line, it is said.

General Wood, chief of staff, today wired General Steever at Fort Bliss, asking whether he wished further reinforcements for the border patrol.

The war department, to be ready for further calls for troops, has taken steps to send troops from the Pacific division within a few hours after receipt of a request from General Steever.

Toluca, Mexico, Aug. 28.—News has reached here that Zaculpen, a mining town, had been attacked on Sunday by a band of rebels which was repulsed after a few hours fighting. Today a larger band returned and renewed the attack. As the telephone and telegraph wires are out of commission, the outcome of the assault cannot be learned. Many mills owned by American and other foreign companies are located in Zaculpen.

Mexico City, Mex., Aug. 28.—Jose Maria Mayeren, governor of the state of Sonora, is authorized by the central government to use all means at his disposal to crush the revolution in his state.

In yesterday's cabinet meeting no attempt was made to disguise the disappointment of the government that the revolutionary forces had been

PREMIER BORDEN TELLS SUFFRAGETS BLUFF WILL NOT GO

London, Aug. 28.—The Canadian premier, Robert L. Borden, when he faced the suffragettes for the first time today, told them emphatically, he had no power to introduce a general measure of suffrage for women in the Dominion of Canada and that no threats of the employment of militant methods would have any influence on him.

The delegation of the women's social and political union was introduced by Miss Barratt. She stated that their chief object was to ask the Canadian premier if he intended on his return to the Dominion to introduce a government measure for the enfranchisement of women. She declared that the women's social and political union was considering a campaign to advise intending emigrants to go to Australia and New Zealand rather than to Canada.

On Mr. Borden's reply, she said, would depend the advice the women's social and political union gave its Canadian members and also the possibility of a militant agitation in Canada.

Mr. Borden was very explicit in stating that he had no power and no intention of introducing into the Dominion parliament a measure for the enfranchisement of women. The question of the franchise, he said, devolved entirely on the nine provincial legislatures and the Dominion parliament had no warrant to pass such legislation.

Mr. Borden concluded: "I should like to say with all respect I think the Canadian women are capable of judging for themselves in this matter. No suggestion of the employment of methods of any kind will have the slightest influence."

Mr. Borden later in the day received a deputation of members of the anti-suffrage league, which congratulated him on holding his ground against the women's social and political union.

FARMERS MUST BE GIVEN PROTECTION SAYS CONGRESS

Salt Lake City, Aug. 28.—There was material argument in some of the resolutions submitted at the opening of the second day's session of the trans-Mississippi commercial congress. These, with others upon which there is likely to be no differences of opinion, were delivered to the committee on resolutions.

A demand that products of farm and ranch be given the same measure of protection as is given other products of the United States was contained in a resolution by Colonel Oryor of Texas, who declared that the farmers and ranchers had been blamed unjustly for the high cost of living.

The first rap at the forestry policy of the interior department came in a resolution by Henry Welsh, Utah, who said that the mining development of the west was being retarded by the department regulations.

There were other resolutions for a trans-continental highway, thanking the president and congress for the appropriation for waterway improvements on the Missouri river, urging a bill for the creation of a division of information in the immigration bureau to direct immigrants to suitable locations in the west, in favor of a department of mines and mining and in recommendation of further harbor improvements along the gulf coast in Texas.

The wisdom and propriety of "seeing America first" is being impressed on the delegates to the congress at a great Salt Lake resort this afternoon by F. W. Graham of Seattle, who read an address prepared by Louis W. Hill, of the Great Northern railroad. J. W. Kelley, of the Denver & Rio Grande railroad and others.

MORRIS CHAIR FOR SWEET AMONG ITEMS PAID WITH WARRANTS IN SOCORRO

THE DAY BEFORE CHRISTMAS SEVENTY DOLLARS WORTH OF FURNITURE FROM A. FABER'S STORE IN ALBUQUERQUE WAS DELIVERED AT RESIDENCE OF THEN COUNTY CLERK SAYS REPORT.

MONEY FOR CONSTABLES WHO KNEW NOTHING ABOUT IT SAYS GUILFOIL

CHAPTER THREE.

That a morris chair, one arm chair and a rocker, purchased by the Hon. E. Howard Sweet, then clerk of Socorro county, from A. Faber, a furniture dealer of Albuquerque, N. M., was delivered at the Sweet mansion in Socorro on Christmas eve, 1911, and paid for by county warrant to the amount of \$70 is a small but quite interesting little item in the report on county affairs submitted to Governor McDonald by T. J. Guilfoil, an expert of the traveling auditor's office.

The item is scarcely worth commenting upon in comparison with other items in which Mr. Sweet appears as chief figure, except for the fact that it demonstrates more forcibly than anything else, the way in which the affairs of Socorro county were run under the old regime.

In the same connection, the auditor reports to the governor that he found five warrants varying in amounts from \$25 to \$85 which purported to have been issued to certain residents of Socorro county as pay for their services as "Constables" or "Emissaries."

All of these "Emissaries" were formerly or at present are employed by the Santa Fe Railway company, as acts Mr. Guilfoil in his report.

Such of these parties as Mr. Guilfoil was able to find, he reports, denied ever having received any money from Socorro county or of having acted as constables, etc. Mr. Guilfoil was unsuccessful in finding just who got the money.

The portion of Mr. Guilfoil's report with which the New Mexican is dealing today, needs no elucidation. It is so plain that it is published in full for the information of the public.

First comes the accounts of G. E. Sanchez, sheriff. Then Mr. Sweet's financial gratings with a brief resume of the accounts of M. Baca. The report says:

ACCOUNTS OF G. E. SANCHEZ, SHERIFF.

Warrant No. 127, drawn on general fund, \$38.35.

Payment covered in subsequent warrant.

Warrant No. 95, drawn on general fund, \$133.00.

Represents 50 per cent fees of last quarter, 1909. Total fees for this quarter, \$266.00, were assigned by Sanchez to J. A. Torres and paid to him.

Warrant No. 87, drawn on general fund, \$111.72.

This amount covered in No. 88, issued G. E. Sanchez. Error in extending amount rendered, and for which warrant given to cover, \$60.00.

Total, \$243.67.

These items were taken up with Mr. Sanchez and fully explained and he agrees to an over-payment of this amount. Mr. Sanchez is in no way responsible for these errors as he kept no complete set of records and had no accurate method of rendering accounts, simply accepting what warrants were tendered him.

Liquor license of Adolpho Torres, No. 821, check dated June 11, 1909, shows endorsement of G. E. Sanchez. No record of payment of this item is found in treasurer's records, \$201.

Liquor license of Mogollon Mercantile Co., No. 46, check dated September 15th, 1910, shows endorsement of G. E. Sanchez. No record of payment of this item is found in treasurer's records, \$101.00.

ACCOUNTS OF M. BACA.

Total, \$302.00.

Warrant No. 91 over-payment, \$75. Issued to apply on salary when full amount of salary due, was assigned and paid J. A. Torres.

Warrants covering over-payments are primarily the result of carelessness on the part of Clerk E. H. Sweet and are properly his liability.

E. H. SWEET—ADJUSTMENT ACCOUNT.

Item No. 1—Warrant No. 150, Wm. Barrowdale, \$12.10.

Warrant No. 151, Wm. Barrowdale, \$12.10.

Above warrants issued June 22, 1910, noted "In lieu of Warrant No. 60." Warrants carry an endorsement which is evidently not the bonafide endorsement of payee. The warrants themselves clearly show the responsibility for the endorsement. No approval or authority is found for the issuance of these duplicate warrants.

Item No. 2—Warrant No. 526, C. L. Lindsey, agent A. T. & S. F. railway, \$90.30.

This warrant given as payment to the A. T. & S. F. railway for material and labor by them in connection with the installation of a public crossing at Lemitar, which work was duly authorized by the board of county commissioners. Attached hereto A. T. & S. F. railway bill No. 8262 for \$15.30, being their amount in full for labor and material used in the installation of a public crossing at Lemitar. Upon investigation it was found that the A. T.

& S. F. railway received only \$15.30, (the amount of the bill rendered by them) which fact is supported by agent's records at Socorro, which show \$15.30 received from the county of Socorro, Oct. 11, 1911, being in full payment of company's account. It will be noted that the same form of endorsement obtains in this as in Item No. 1.

Item No. 3—Warrant No. 191, A. Faber, \$70.00.

Investigation shows this to be in payment for one Morris chair, one arm chair and one rocker bought by E. H. Sweet and delivered at his residence Dec. 24th, 1911. Freight charges on this shipment covered under Pro. No. 400 and was paid by E. H. Sweet.

Item No. 4—Warrant No. 223, L. F. Guilford, \$85.00.

Warrant No. 239, C. Lamb, \$85.00. Warrant No. 247, W. Taylor, \$25.00. Warrant No. 248, E. Hunter, \$25.00. Warrant No. 255, J. M. Harrison, \$25.00.

Warrants issued purport to cover services rendered by the above as "Constable" or "Emissary." Investigation fails to show authority for the employing or delegating any special "Constables" or "Emissaries" for service in Socorro county. All of the above parties are at present or were formerly in the employ of the A. T. & S. F. railway. It is represented that these parties were employed at San Marcel during the November election, but as previously stated, no authority is found. None of the above warrants, except No. 255, are recorded as "approved" or "allowed" in the form prescribed by law. Such of the above parties as were located deny ever receiving any funds from Socorro county as is represented; and further deny that they were employed at the time represented as "Constable" or in any capacity by the county of Socorro. At least three of the above parties were not residents of Socorro county at the date the services were represented as being performed. The same form of endorsement as is noted in "Item 1" applies in this item (No. 4) also.

Item No. 5—Warrant No. 328, P. P. Kealer, \$50.00.

Warrant No. 354, P. P. Kealer, \$50.00.

Warrant No. 355, P. P. Kealer, \$106.40.

Warrant No. 497, P. P. Kealer, \$50.00.

Warrant No. 356, D. L. Harris, \$70.00.

Warrant No. 498, D. L. Harris, \$86.00.

The above parties were employed as Clerical assistants by E. H. Sweet, and these warrants were given in payment of salary of such assistants. These parties when interviewed advise that at all times prior to the receiving of these above warrants they received the personal check of E. H. Sweet in payment of their salary. The attorney general in substance advises that if the clerical assistance is for the purpose of enabling the probate clerk to perform his ordinary duties as clerk for which he received salary or fees, that expense for such assistants must be borne by the clerk himself. There can be no question as to the fact that the services rendered by these parties were "regular" and "ordinary" services necessarily incumbent upon the office and should be paid for by the clerk as was the practice at all times before issuance of these warrants.

Item No. 6—Warrant No. 50, E. H. Sweet, \$107.45.

Being for stamps, telephone and other expenses quarter ending September 30, 1909.

Warrant No. 93, E. H. Sweet, \$205. Being for stamps, telephone and other expenses and 50 per cent of last quarter's salary (for quarter ending 12-31-1909).

The claim of E. H. Sweet for salary for quarter ended September 30, 1909, would be \$150, for expenses same quarter \$107.45; total \$257.45. For quarter ended December 31, 1909, salary \$150, expenses \$130; total \$280.

Claims covering salary and expenses for the above period were "approved" and "allowed" but ordered not paid for lack of funds, (folio 79 and 84, Record of Commissioners' Proceedings. Subsequent to the approval referred to, warrants Nos. 90 and 93 were issued Mr. Sweet applying on the above accounts. In this connection it is noted that warrant No. 213 payable J. A. Torres, assignee, amount \$1,334.80, which purports to be an assignment of item as follows:

G. E. Sanchez \$266.35
G. E. Sanchez 361.00
E. H. Sweet (salary only) 150.00
E. H. Sweet 257.45
M. Baca 150.00
M. Baca 150.00

Total \$1,334.80
It will be noted that the above covers

LIVE NEWS FROM COWLES

Cowles, N. M., Aug. 28.—A prophet is not without honor save in his own country. For that reason, maybe the writer's words, taken with a grain of salt may be acceptable to the good people of New Mexico, seeing that he comes from Texas.

We have been visiting New Mexico and the Pecos national region for three summers, and we beg to call the attention of the authorities, to the rain problem. We thought here to find an overabundance of sunshine and for three years we have lived half the time in rubber coats. Send your surplus to Texas, as for three years we have suffered unusual droughts. This ozone laden air, coming first hand unbreathed through other lungs, is the greatest tonic in the world. While the altitude is over 8,000 feet and the air dry, there is sufficient moisture due to the many streams, the near by snows and the damp spongy mat of the forests, to give an exhilarating wine flavor to this wonderful air. This is no doubt the "Happy Valley" that Rasselas sought. It is strange that the people of Santa Fe do not complete the "Scenic Road", part way finished, into this valley. We have had poor fishing this summer, as the Pecos and other streams have been muddy frequently. Everyone here fishes, and they even say that the bears are expert at catching big trout. Your state game and fish department had several thousand dollars in the treasury. This was a sacred fund paid in by the sportsmen and the money should have been used for the protection and propagation of fish, birds and animals. Your last legislature "swiped" all the funds belonging to this account, placing same in the general fund. Now our Texas legislature has done some queer things but nothing as unjust as this. It is like robbing the baby's bank. New Mexico should learn to throw the alluring fly that catches the tourist with the thick wad. California and Florida have learned this and their tourist trade bring in almost as much money as the crops. Every city in Texas is now bidding for this winter travel. Of all the tourists, none are so liberal at spending money as the hunter and fisherman. Any man begot of Adam, and whose ancestors lived by fishing and hunting over his "kitchen middies" has the fishing instinct in him. Statesmen, bankers, lawyers and business men are never so busy that they cannot go fishing. Your hunter will spend 75 cents for a box of smokeless cartridges, just to bring in two or three little doves or a quail or two.

Your fisherman will spend \$200 or more to visit a region where he can spend a week or two striving to catch a basket full of trout that might cost the state a dollar a plant. Next year he brings his entire family and friends, and later he buys some property in New Mexico. He goes home and brags about these few trout and does the state more advertising than a high salaried officer could do. Now this is no joke. We could cite fishing lore from many states in the Union, also tell of the fishing in Canada and the well stocked streams in Europe that pay the government handsomely. In the first place New Mexico should have a state hatchery, also breeding farms or reservations for game and game birds. Next every native should pay a fishing license. Charge the outsider double this fee if necessary. Put these funds in trust, hands off, except for the restocking of the streams and the woods. New Mexico's forests and rivers are her greatest asset. In the future they will bring many thousands of visitors within her gates. These forests also give you the most wonderful climate in the United States. There is ozone in the air, and a Maritan buoyancy to one's feet. You good people of New Mexico, stand up for the forest service and the game and fish department. Every tree has a diamond at its root, and every stream of clear cold sparkling water runs over pearls.

Texas, God bless her 276,000 square miles, would be a desert without the New Mexico forest water sheds that send their life-giving waters a thousand miles from west to east down the rumbling gulf. For one thousand miles from the Rio Grande on the south to the Red River on the north we raise our hands and wave you welcome for this increasing water. From Ft. Worth down through central Texas, Waco, Temple, Austin, San Antonio and further south, we have a great artesian belt. In several places such as San Angelo, San Marcos, New Braunfels, Austin, San Antonio and elsewhere, there burst from the ground springs that are full grown rivers, like Minerva sprung from the head of Jupiter. This great underground sea has its origin in the forests of New Mexico.

The Persians worshipped the sun. The Egyptians would not kill a cat. In Siam there were the sacred monkeys, and on the Nile the sacred crocodiles. The peacocks personified deity, as also the sacred bulls of India, Assyria, Babylonia, China and fair Arabia, all held in veneration some bird or beast. Even Jonah knelt in prayer inside of a whale. We of Texas make our te deums to water, running sparkling, life-giving water. Talk not of beer. Mention not honey in the honeycomb. Forget the sweet theme on high Olympus. What makes the world go round? "Wein, Wein, und gesang" as the Germans say? No. Love say some and money say others. None of these. 'Tis water—clear, sparkling, diamond, glinting water. Water cold from the snows, water gleaming with the rainbow flash of trout; water that carries life, happiness, health and fertility to us millions of dependents. "Awanyu," the ancient Pueblos, or Tewas, called this emblem of a mythic power. "Awanyu" the preserver of water, the guardian of springs and streams. Like the ancient Hindu—"Shiva", Awanyu was the preserver of

SUMMER SKIN DISEASES

During the summer most persons are annoyed with pimples, boils, rashes, or eruptions, while others suffer more severely with Eczema, Acne, Tetter, Salt Rheum, or some kindred skin disease. A perfect condition of the skin exists as long as the blood is normal, but when it becomes contaminated with humors and acids its supply of nutritive properties is greatly lessened and it becomes a sharp, acrid fluid which diseases instead of preserving the natural health and texture of the skin. The eruptions may be glossed over and inflammation reduced by the application of washes, cosmetics, salves, etc., but no skin affection can ever be permanently cured in this way; only pure blood can make healthy skin. S. S. S. cures Skin Diseases of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. builds the circulation up to its normal strength, increases its nutritive powers and adds to its purity in every way. Then the skin instead of being irritated with acid humors and impurities, is nourished and healed by a plentiful supply of rich, pure blood. Book on Skin Diseases and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

life. Without water—crops, feed, birds, fish, animals, trees and life itself must fail.

Some people are continually disparaging the forest service. This is only natural as there is not a line of government work that has not its detractors. The Panama canal was fought most bitterly.

The pure food law lay on the shelves of congress for 20 years until Roosevelt jacked it out with his big stick. Every good law and great enterprise and forward step in human progress in the world has had to fight inch by inch its way upward and onward. This is not only right but proper. Mistakes, inexperience and costly errors are gradually eliminated through opposition. Here in this Pecos valley from one end to the other we recognize the value of the New Mexican forests and streams. Following is a petition which is now being circulated and signed as rapidly as the people can be seen. No one so far has refused to sign same, over 100 names already appear.

We, the undersigned citizens of Cowles, New Mexico, and visitors from abroad to the Pecos national forest, hereby wish to testify to the efficiency, capability and gentlemanly accommodation as shown by Thomas A. Stuart, chief of this forest division, both in the management of this Pecos forest, and as shown to the many visitors in this section. This unsolicited testimonial we tender Mr. Stuart in appreciation for what he has done and is doing under discouraging and adverse circumstances, for this section of New Mexico, and for this division of our great American national forest area. We believe the holding sacred and inviolate, of our national forests, to be of incalculable benefit, to the future growth, extension, happiness and wealth producing ability of our American nation, and we urge upon congress a more liberal appropriation for the forest service, as we see its great need in this division. We believe this department to be hampered by lack of sufficient funds to bring this wonderful and unfailing water shed of our western and southern territory, and this immeasurably rich mine of our fast disappearing timber supply, to their best and fullest development.

PROGRESSIVE CALL STATE CONVENTION

In accordance with the instructions of the executive committee of the progressive party of the state, on the 12th day of August, 1912, a state progressive convention is hereby called to be held in the city of Albuquerque, New Mexico, on the 10th day of September, at the hour of two o'clock p. m., to nominate one candidate for representative to congress, and three presidential electors, and the transaction of such other business as may properly come before the convention.

Until after the election in this state on the first Tuesday in November, 1912, the several counties of the state are entitled to representation in the above convention as follows:

- They shall be entitled to double the number of delegates that represented said counties in the progressive convention held at the city of Albuquerque, on the 29th day of July last, and on such basis of representation, each county shall be entitled to the following number of delegates:
- Bernalillo.....24
- Chaves.....9
- Colfax.....9
- Curry.....16
- Dona.....12
- Eddy.....12
- Grant.....3
- Gundalup.....9
- Lincoln.....10
- Luna.....8
- Mora.....2
- McKinley.....4
- Otero.....14
- Quay.....6
- Rio Arriba.....10
- Roosevelt.....15
- Sandoval.....9
- San Juan.....5
- San Miguel.....28
- Santa Fe.....16
- Sierra.....4
- Socorro.....16
- Taos.....12
- Torrance.....12
- Union.....7
- Valencia.....15

The county committeemen representing the progressive party of the several counties above named, are requested to call precinct primary and county conventions at as early a date as possible, for the election of delegates to said state convention, but no county convention should be held later than September 7th. Until after the first state election in November, 1912, said committeemen should fix the number of delegates that each precinct is entitled to in the county convention which this committee suggests should be one delegate for every ten votes or majority fraction thereof cast for the republican candidate for delegate to congress at the general election of 1908.

If contest should arise before the state convention, the papers in regard

thereto should be delivered to the secretary of the state central committee, at least twenty-four (24) hours before said convention meets. All credentials and proxies should be delivered to the secretary in the forenoon on the day of the convention.

GOT WORMS.

An examination of the town "Cabbage Patch" Wednesday morning disclosed the fact that the army worms have created a lot of havoc there. They are not much in evidence, but several large cabbage heads weighing six to eight pounds each have been found to be absolutely riddled by them. They have burrowed into the head, and when it is cut to pieces handfuls of worms are found.—Estancia News.

COUNTY COMMITTEE MEETING.

August 26, 1912.
The county central committee of the republican party of Santa Fe county is hereby called to meet in Santa Fe in the office of Senator Cartron on Thursday, August 29, 1912, at 7 p. m., for the purpose of issuing a call for a county convention to nominate 18 delegates to represent the county of Santa Fe in the republican state convention to be held in Albuquerque, N. M., on the 12th day of September, 1912, for the purpose of nominating three electors and one congressman.

LIGHT

IN THESE DAYS OF MODERN METHODS, Electricity plays a most important part. The grandfather would be amazed at the radiance of the modern home—and why all this light? To make the home more homelike—to make the home the most pleasant spot on earth for father, mother and children. Good light that is easy on the eyes is very much to be desired.

POWER

NOTHING IS QUITE SO CONVENIENT as to touch the button and your stove is ready to cook—your iron ready to use, your toaster ready for the hurried breakfast, your vacuum cleaner ready for the fray, your washer ready to cleanse, fan ready to cool the heated rooms. Electricity will do every thing for you. We furnish it at reasonable rates, day and night. Estimates and full information cheerfully given.

NEW YORK LETTER

New York, Aug. 28.—Because the city of New York does not pay living wages, 160 employees of the tenement house department, which is one-third of the entire force, has quit the service.

In a letter requesting salary increases to keep his force, John J. Murphy, commissioner of the department, admitted that the department efficiency had been impaired by this exodus.

"The increase asked for is in order that the department may make advances of salary necessary to retain employees, who have been in the department for a number of years, and who have had slight if any increase in salary during their term of service."

New York Bible society reports for July show 100 per cent increase in distribution. The total exceeded fifty thousand volumes. This is more than twice the number of volumes ever given out before.

Pauline Hall, the actress, obtained an order yesterday from Supreme Court Justice McCall for the arrest of her ex-husband, George B. McLellan, manager of "The Pink Lady" company. Mrs. McLellan obtained a divorce in 1904 and her husband was directed to pay her \$10 a week for the support of their daughter, Pauline. Mrs. McLellan alleges he has failed to make the payments. She wants him to furnish a bond for the support of her daughter.

The plan for appraising the estate of Col. John Jacob Astor was decided on yesterday afternoon in the office of Transfer Tax Appraiser John V. Cogey, when John Quinn, special counsel for State Comptroller Schomer, and Lewis Cass Ledyard, Jr., in behalf of the Astor executors, came to an agreement under which there will be only one appraisal of the vast realty holdings and personal estate.

Ethel Barrymore who, off the stage, is Mrs. Russell G. Colt, is to have a town house. Mrs. Colt, with her husband, has leased a 4-story dwelling at 29 West Sixty-first street.

Asked by visitors to Wilson headquarters if society women had rallied to the appeals on her campaign committee working for Governor Wilson, Mrs. J. Borden Harriman said: "As a segregated class there is no such thing in this country as a society class."

Mrs. Mary Freil sat on Joseph Labarola in a downtown crowded street. Then she yelled "police" and said her victim had robbed her house.

Dr. Otto H. Schultze today obtained District Attorney Whitman's promise to investigate the mysterious death in a Broadway Rames hotel of Miss Julia M. Curran. The physician says she was murdered. He said Miss Curran was beaten to death. Schultze charged that the police physician deliberately falsified his report. The physician also said that the hotel stables told the police that the young woman's man companion left

the hotel some time before her body was discovered.

Not finding anyone at the pier to arrest him when he arrived from Cuba to answer a charge of embezzlement, Dr. J. Nelson Elliot pursued two detectives to place himself in custody. The steamer Monterey did not dock at the place the detectives were waiting. Learning the officers were to report that he had escaped, he followed and overtook them.

In some ways Mrs. Antonio Lascera finds New York livelier than the town she hails from. In other respects it is much less exciting.

For instance, in New York there are subways and elevated railroads, and taxicabs, and murders at all hours, and restaurants with bands in them, and chorus girls, and Fifth avenue. All these attractions are wholly lacking in Mozambique.

On the other hand, when Mrs. Lascera sits down to her luncheon in a New York restaurant, she feels perfectly certain nothing will eat up the waiter while he is serving her. In Mozambique, on the other hand, one never can tell. The waiter may come back with one's piece of pie, when he has started after it, or they may have to send another waiter.

Mozambique is in Portuguese East Africa. Not many people from Mozambique visit New York. Probably Mrs. Lascera is the only woman who ever wrote that name on an American hotel register. There are only 13 white women in Mozambique, all told.

Mrs. Lascera tells a number of interesting things about Mozambique, of which perhaps the most remarkable is the disconcerting proximity of various carnivora, and the nasty habit they have of helping themselves to the population.

"Why," she said, "the wild beasts walk right into town in broad daylight. Shortly before I left, a lion came into the back door of the hospital. He went into the kitchen, broke all the dishes, grabbed the coos by the shoulder and carried him off to the jungles. No, the cook didn't come back."

"There is a station on the Portuguese East Africa railway called Bombo Creek. It is in the jungle. One day while a train was stopping there a lion suddenly appeared at the window of a compartment in which were a white man and woman. The woman was nearest the window. The lion put his paw over the window sill, dragged her out, and all they ever found of her was her bones."

"I was the first white woman who ever visited an up-country station called Bartolomida. It took me 15 days, part of the way on horseback and the rest in a litter. One day a lion ran past me, seized one of our negroes and made off with him."

"As for snakes—we have some really large ones in the neighborhood. They will swallow a sheep whole, without breaking its bones, and I have known many a negro to go the same way."

CLOUDCROFT CULLINGS

Cloudcroft, N. M., Aug. 28.—Alamogordo is never behind. When there is anything doing you can count on Alamogordo being well represented. This season larger crowds than ever before have been coming up from Alamogordo to Cloudcroft to enjoy the cool air and Saturday night dance at the Lodge there were more people from Alamogordo than any other place.

Thos. A. Hunt, of the U. S. army at Ft. Bliss, is a Cloudcroft visitor.

QUESTA BOOMS.

That Questa is the central figure in a large movement of people becomes more apparent each day. This week Cripple Creek people took the fever and filled up our town and hills with miners and enquirers seeking investment. Automobile parties arrive almost hourly and not a few with wagons and pack animals.

Later Peak, the Hines property, near Cerro, and the Red River district, are the points of principal inquiry. Questa is the supply point. Our paper is too small to give the names of all parties.—Questa Gazette.

SPORTING NEWS

BANKER WOULD LIKE TO BUY BOSTON OUTFIELD. BUT IT WOULD JUST ABOUT BUST HIS BANK TO DO IT.

When a couple of bankers get their heads together and begin to talk about a deal involving say \$50,000 or more, you can gamble that they are talking about something worth while. For despite any opinions you may have to the contrary, bankers know the value of "iron men."

Two bankers were talking the other day. Up to a certain point they agreed. One admitted that to swing the deal would be worth \$50,000 to him. The other insisted that to put it through he would have to be sighted to a whole lot more than \$50,000.

These two bankers are better known in another profession. One of them, the vice-president of the Washington Park bank in Chicago, is J. Garland Stahl, manager of the Boston Red Sox. The other is a director in a Scranton, Pa., bank, and is commonly known as Hugh Jennings, manager of the Detroit Tigers, and the only man to win three American league pennants in a row.

Their talk was on the Boston outfield, Speaker, Lewis and Hooper, the

greatest aggregation of pasture patrolmen to be found on any team in the country.

THE BANKERS. Jake Stahl (above) and Hugh Jennings (below). **THE OUTFIELDERS** in action left to right: Speaker, Lewis and Hooper, rangers.

Jennings opined that he would willingly give \$50,000 for the trio. Stahl just laughed. He realizes that this outfield is the real backbone of his ball club and that it would be suicidal to part with them for twice \$50,000.

Here is Jennings' line of reasoning. With an even break of luck, the three ought to improve for the next seven years. Speaker, the oldest, is only 23 and Jennings figures that Speaker, the biggest star of the lot, is easily worth \$25,000, that Lewis ought to bring

about \$15,000 in any auction and Hooper about \$10,000.

Stahl's dope is different. He believes that his outfield won't give him any trouble for at least ten more years. As for the cash value of the players, he is really afraid to commit himself. He has his own private opinion, but that opinion carries figures of such startling proportions that he doesn't care to let the public in on his secret.

At any rate, they are three wonderful players. All of them fast on their feet, equipped with superb arms. All of them good hitters. They have caused other American league clubs a lot of trouble this year, and if they get into the world's series they are sure to worry the Giants or Cubs as well.

As for selling them, that is out of the question. Of course Stahl might be willing to talk trade, provided that he secured in return, say Ty Cobb, Joe Jackson and Clyde Miller, with Walter Johnson and Ed Walsh thrown in for good measure.

Now you can figure just how much of a chance there is for a swap.

BASEBALL

WILL IT BE A SUB.

With each succeeding day the world's series grows nearer. It's only seven weeks and then the biggest thing that happens each year in baseball will be contested. Which teams will play for this high honor has not been decided definitely, but it looks very much as if this would fall upon the Giants in the Nationals and the Red Sox in the American league.

With the big series so near at hand, fans are beginning to wonder whether some player, one who has appeared in the roll of substitute all season, will turn up and be the star performer. Whether one who has been a star all season will fall down and lose the series for his team.

Will it be a repetition of the world's series in 1906 between the White Sox and Cubs when the latter team was badly beaten by the hitless wonders under Fielder Jones? With the White Sox regular third sacker on the injured list, Manager Jones was forced to use George Rohe, a sub, at the far corner.

Fans remember what happened. George Rohe, a man who was not good enough to work regularly during the playing season, came through and was the star of the series. His great batting had much to do with bringing the victory to the Sox, while his fielding was sensational. Then he fell down, was sent south and this year was released outright by Mobile.

Will it be the same way this season? Will one of the lesser lights bob up and perform in startling fashion and be hailed all over the country as the "man of the hour"? Should the Giants and Red Sox win, this may come to pass. Each team has a good bunch of subs, and no one can tell but one of them may be pushed into the breach and win the series for his team.

Or will it be like the series that the Detroit Tigers took part in? Ty Cobb, the greatest player of the day, fell down badly in two world's series. His sensational base running, his great batting and all else he does during the regular season was missing in the series with the Cubs and Pirates for the highest baseball honors. Will a star of the two teams that contest fall in the same way?

DIAMOND DUST.

The Brooklyn club has ordered Shortstop Tooley to join the Newark club at Buffalo. Upon Tooley's arrival there tomorrow infielder Kirkpatrick of the Newark club will leave for St. Louis to join the Brooklyn Nationals. The Brooklyn club has purchased Outfielder Callahan and infielder Getz of the Elmira, N. Y., State league club.

Doe Johnson, first baseman of the New Orleans team, recently purchased by the Cleveland club, has joined the Naps. Johnson made quite a record with New Orleans this year, and is expected to become the Naps' regular at the initial sack. The youngster had a trial with Cincinnati a couple of years ago, but was too inexperienced at that time to hold his own.

The New York club of the National league announces the purchase of another pitcher for fall delivery. He is a right-hander named Perryman, who has made a good record this year with the Richmond club of the Virginia league.

The Cleveland Naps have purchased Ward McDowell, second baseman, of the Portland team of the Northwestern league, to report next spring. McDowell is leading his league in hitting, with a mark of .357.

The Boston Red Sox have exercised options on Harold Janviri, the third baseman of the Jersey City Skeeters, and on "Dutch" Leonard, a pitcher, now with Denver of the Western league. The Houston (Tex.) club, has been purchased. These players will report in the fall.

The development of Carl Cashion gives the Nationals prospects of the greatest pitching staff that any team has ever been able to boast of. On what Cashion has shown of late, he gives promise of being a competent running mate for Walter Johnson by next season, and two such pitchers can carry a team along even though surrounded by mediocre helpmates. But Griffith has other pitchers of ability. Groom and Hughes are a valuable pair, and it is the opinion of the Old Fox, who knows more about pitching than any one else, that the time is not far off when Joe Engel will be one of the leading twirlers. In addition he has Musser, a youth of ability, and who knows but what in time he may be able to teach Jim Vaughn enough to make him a winner. In addition he will have a lot of green hands to try out in the spring, so that the prospects for a great pitching staff are particularly bright at this time.

Hugh Bedient of the Boston Americans is "some" pitcher. A couple of years ago at Corey, Pa., he hung up a record of forty-two strikeouts in twenty-four innings. That feat attracted world wide attention, and a Boston scout grabbed him. He was "farmed" with the Providence team. He won eight and lost eleven games while with them. The Red Sox then gave the Providence club five players in exchange for Bedient—Purtell, McHale, Kiliany, Louigan and Janviri. Boston thinks Bedient worth more than the five men traded. He has defeated the Athletics five times.

George Van Haltren, who, besides being an umpire in the Northwestern league, is a scout for the Pittsburgh National club, has, it is said, offered

Judge W. M. McCredie \$2,000 for Eddie Mensor, the great little outfielder of the Portland Colts. Judge McCredie has taken the case under advisement.

However, it is hardly likely that Mensor will go to the Pirates until the Cleveland club, with which McCredie is doing business, has passed on him.

the Mexico Northwestern railway on
which they burned bridges yesterday.
A force of unknown strength has held
up a railway work train moving
south. Another work train which left

repair baffles authorities here as it
is not believed that any rebels in-
vest the country southwest of Juarez.
The Northwestern, a Canadian and
American owned road, has suffered
great losses during the various re-
volutions. It was opened early this
week over its entire length from the

TO BE EXPELLED
SAYS ROOSEVELTOyster Bay, Aug. 28.—Colonel
Roosevelt declared today that Senator
Penrose, on his own testimony, should
be expelled from the senate.Colonel Roosevelt had taken this po-
sition, he said, in the letter to Sena-
tor Clapp, chairman of the senate
committee, investigating campaign
contributions which he is preparing.
The Colonel made this statement this
afternoon after he had read from what
purported to be an extract from Mr.
Penrose's testimony before the senate
committee to the effect that he advised
John D. Archbald of the Standard Oil
company, to make a second contribu-
tion to the 1904 campaign, lest the
company encounter difficulties in cer-
tain quarters. Colonel Roosevelt said
that in his opinion this was an offer
of protection from the government in
return for a contribution and that it
did not differ essentially from the sale
of police protection in New York.AD PENROSE
The real fight in the coming cam-
paign, Colonel Roosevelt, declared
would be between himself and Gov-
ernor Wilson. He expressed the be-
lief that President Taft's supporters
did not expect to elect him. The
Colonel made this statement in dis-
cussing the situation in Pennsylvania.
"We will beat Mr. Taft in Pennsyl-
vania a good deal worse than we beat
him in the primary," said Colonel
Roosevelt, "and personally I am con-
vinced that we will carry Pennsylvania
without difficulty for the progress-
ive ticket. There, as everywhere
else, the fight is between Mr. Wilson
and myself. The Taft supporters, as
shown by the action of Messrs. Pen-
rose and Archbald have not the slight-
est idea of electing Mr. Taft. More-
over, they care little about it."Colonel Roosevelt said his contro-
versy with Senator Penrose was lar-
gely a campaign matter for the
spring campaign.
"Lorimer is done for now," he said,
"and I am indebted to Senator Pen-
rose for filling the war chest with
ammunition again."In reply to the inquiries as to why
William Loeb, Jr., of New York, had
been silent so long regarding cam-
paign contributions, Mr. Roosevelt
answered by saying that he had been
reluctant to summon his private sec-
retary into a controversy, but that
when Mr. Loeb offered his aid, he felt
the time had come for Loeb to tell ev-
erything he knew about the matter.Colonel Roosevelt said that his
files of letters bearing on the whole
matter had been removed to "a safe
place," and that there was no danger
of their being stolen or being mislaid.MIGUEL ORTIZ IS

intensified today over the fate of the
French officers held as hostages by the
Moors under El Hiba at Marakech,
Morocco. Emissaries have been dis-
patched to Marakech by the French
commander, but have obtained no in-
formation.General Lyautey, the French resi-
dent governor, reported to the foreign
office today that volunteers who had
undertaken the dangerous duty had re-
turned from El Hiba's headquarters
where they had in vain tried to effect
a ransom and could not ascertain the
lot of the prisoners.The French column commanded by
Colonel Mangin has been given full
liberty of action to proceed to the suc-
cor of the hostages if such a step
should be thought advisable.The French troops, however, are too
fully occupied to do anything in
that way, having their hands full in
blocking the progress of the Moorish
pretenders forces towards Fez and
Mogadin.Profound indignation has been
aroused throughout France by the
report that the Spaniards had given
assistance to El Hiba, whom it was al-
leged they had supplied with arms.FRENCH OFFICER IS

the investigation of an alleged con-

namite in Lawrence, Mass., during the
general strike last winter, centered to-
day in the report of the Suffolk County
grand jury which is expected within
a short time.District Attorney Folliott ques-

recently by Mr. Folliott regarding
any knowledge he might have had of

of Italian warships comprising six

morning. Their object is unknown.
The city is well patrolled by the
Turkish garrison and all is quiet.The war vessels had previously re-
connoitered the port of Jaffa, in Pal-

however, show signs of nervous ten-

the Italian fire.At that time a number of old Turk-

"All of Today's News Today"

THE GREATEST THING.

"What is the greatest thing in the world?"
It was asked the scholar, and he gravely answered that learning is, for it comprehends all and promotes all.
It was asked the artist, and he cried: "Art, for it combines matter and spirit, both at their best."
The preacher solemnly declared: "Religion, because it is a light from heaven."
The lawyer argued: "Justice, for it is the soul of peace and progress."
"Money," said the banker. "It is the spring of all action."
The young man, full of hope and spirit, cried: "Ambition."
Out of his garnered wisdom the weary old toiler answered: "Content."
The pair of lovers, hand in hand, hissed together: "Love."
The mother with her baby at her breast smiled: "Sacrifice."
The wild roysterer cried: "Pleasure."
The wan invalid whispered: "Health."
To a shambling, grinning fool was put the question. He simpered and said: "I don't know."
And which, after all, is really the wiser of them all—from the scholar to the fool?

A NEW IMPETUS.

Locally, no impetus given to the progressive movement, since the opening of the campaign is of so great importance as the decision of George W. Armijo to ally himself with the new party. He has long been recognized as not only an active figure in the political field but his influence is widespread and his popularity universal. The growth of progressivism is as astounding to the old liners and they are simply bewildered at it, realizing that it cannot be stopped by the old star chamber and steam roller methods, which are the only methods they know how to use. But they might as well attempt to protect themselves from a cloudburst by standing under a sieve as to attempt to stay the storm of protest against boss rule and political intrigue for personal gain, which has broken, and which is sweeping aside the armaments erected by the old organizations. Day by day new recruits are added to the ranks of the progressives, which means an assured and substantial growth for progressive principles in the near future.

THE STRAW VOTE.

The straw vote season is on and the harvest is being gathered. It is not discouraging to the Roosevelt party. Perhaps no class of men can more correctly gauge public opinion than the knights of the grip, and their judgment of the situation is usually considered of value. The traveling man who writes from Iowa, therefore, telling of conditions there brings cheer to the progressive headquarters in various states. He declares that out of a poll of six hundred farmers four hundred were for Roosevelt and at a Daventry hotel the other evening, out of forty-eight traveling men twenty-eight were for the Colonel, eleven for Wilson and one for Taft. Were there no straws there would not be any wheat and the straws furnish an indication of what the grain may be. "Iowa will be for Roosevelt," is the traveling man's verdict, and indeed the expressed sentiment would seem to carry this opinion out. Young Mr. Hillis will have to revise his count.

The further exposures brought out in the Socorro investigation add only stronger evidence of the loose and criminal methods of conducting the public business in this state. The juggling of accounts, the illegal transfer of funds, the taking of money for government rental and making no account of it, together with other astounding irregularities call for a quick and radical change. It will not be done by the old parties. To accomplish the necessary reformation and to establish honest methods, a new deal is essential. The avenue is open now for this change through the progressive party, pledged to the people's interest, to square dealing, to official probity. This opportunity is being forced upon the attention of New Mexico citizenship by the recurring evidence of results under the manipulation of the old guard. It is up to the people themselves if they want a change.

"The conditions, the times, the great changes going on in this country demand a new party. Knowing, as I do, that the democratic party is no freer from the yoke of privilege than the republican party, I count it my duty as an American citizen to enlist under the banner of the new party of progress, and to follow the leadership of the greatest champion of popular rights since Abraham Lincoln."

The above is not revolutionary nor demagogic, but a call for a needful change. The words are from the lips of one of America's strong men who has done things and who has become recognized as a believer in justice and in the upbuilding of characters. The quotation is from the speech of Judge Ben B. Lindsey, delivered at Chicago.

Even the Boston Journal, one of the substantial papers of the east, has come to admit the progress of the Roosevelt movement, and its remarkable growth. It has astounded the old conservative element and they do not know how to meet it.

It declares:
"The uprising that swept Roosevelt into control of every primary was not the incident of a moment. It was the first rolling wave in a great demonstration of the people."

"The second enormous breaker has begun to rise to a crest. It has the tremendous dynamic power of a contest for living principles. This is why, like the movement of the spring, it constantly gathers new and greater force."

"In accordance with our understanding, I am enclosing \$25,000," has not been explained by Senator Penrose, to the satisfaction of the American people. The discredited Pennsylvania leader scoffs at the documentary evidence of the order of the return of Standard Oil money for Roosevelt, but the documentary evidence, "in accordance with our understanding," involves Mr. Penrose in such a manner that it will be difficult to laugh it out of the court of the American people.

A California man lived two months without a stomach and didn't know it. Well, he was saved a lot of aches that come with the summer season, and it was not so bad as being without a heart, as is the case of thousands of men who live right along.

Some druggists are demanding that the prescriptions of physicians be written legibly. That would take a lot of the mystery out of medicine, and the worst of it all is that we would occasionally know what they were giving us.

Another text in our creed:
Protective tariff to equalize conditions of competition here and abroad; no protection for industries unfair to labor; present tariff unjust; "non-partisan, scientific tariff commission."

A scientist says that twenty-five per cent of deaths in aviation are due to poor construction. We thought they were caused by falling from the machine.

It has not been revealed whether any of the money that was illegally diverted in Socorro county, changed hands in a hotel bath room.

The Standard Oil company tried to get Theodore Roosevelt. They admit they did not get him. Whom are they supporting now?

VALLEY RANCH ACTIVITIES.

Valley Ranch, N. M., Aug. 27.—A motor party, consisting of H. C. and R. H. Wingo, Walter Hoke, of the First National bank and Mr. Tipton,

drove over from Las Vegas in the Wingo's new Everett Sunday, returning last evening. They had a most successful day fishing and Mr. Wingo states he has never known fish to

bite better or the stream in better condition for fishing.
Miss J. Werdel and Miss S. Jahn, both of Chicago, left today for their home after a six weeks' stay at the Valley Ranch.

'AH, WELL, SUCH IS LIFE.

REMARKS FROM THE SIDE LINE

Now that congress has actually adjourned, we feel almost safe and sane again.

They have a record breaking broom corn crop in the dry farming sections which sorter indicates a clean sweep this fall.

A Philadelphia man was a crook but reformed and was elected a city alderman. Generally it is just the opposite in Philadelphia.

Excuse us, governor, but we insist on knowing whether we can fight ten and a sixteenth round or not. It's one of the issues in this campaign and we insist, sir, we insist.

Transferring a county fund to another county fund is just like putting money from one pocket into another and we can't see where that is anything out of the way—so long as there isn't a hole in the other pocket.

"They kin say what they're amind to about them two ol' cannon, says the old codger, but I hev knowed Uncle Tom fer nigh onto thirty years and ef I do say it myself, Uncle Tom is the champeen cannon gitter ov the U. S. senate, by heck."

Mr. Speaker, your committee on old cannon, to which was referred the question of selecting a suitable site, has considered the matter and begs leave to inform you that it recommends La Tierra land grant. I move you sir, that the report be received and the committee discharged. Are you ready for the question?

I have the pleasure this evening, ladies and gentlemen, of introducing to you, Hon. George W. Armijo, who will address you on the subject of land grants, past and present. Mr. Armijo will speak especially to the Spanish-American people. If Uncle Tom is in the audience, he will confer a great favor upon the committee by escorting himself to a seat of honor on the platform.

And in passing, Mr. Speaker, I desire to remind this honorable body that we are "as far from our rails" as ever and the session is drawing to a close. I therefore move you, Mr. Speaker, that a committee of three be appointed to draft a suitable resolution and report to this honorable body at tomorrow's session. It will not be necessary to suspend the rules, Mr. Speaker, so I suggest that the matter be put to a viva voce vote. All those in favor will please say "aye." The next business on the calendar is the wild animal bounty bill. The clerk will read.

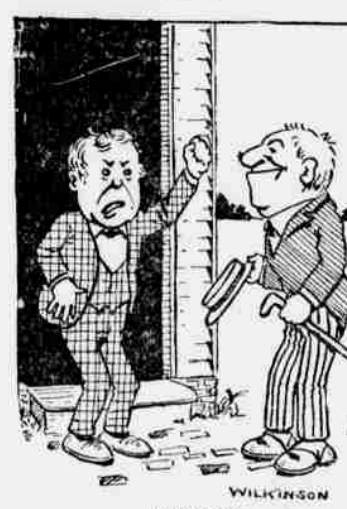

HERE TO STAY.

Tuesday night brought the best and most general rain of the season. We have had reports from various places and in no instance has there been a lack of rainfall.

This rain insures fine grass and good crops to most of the people who have tried and who have not been over cropped. This crop means new barns to store the feed and more stock to eat it. But this is not all. It is a great encouragement to the dry-farmer and will cause him to plant next year on a larger scale. Yes, sir, dry-farming and stock raising in eastern New Mexico are here to stay.—Bard City News.

AS THE BYSTANDER SEES IT

HONEY.

If everybody, without any apparent effort, can raise, or develop, or grow, or manufacture, (or however it is brought into existence) such honey as Adolf Fischer can, the wonder is that the whole state is not sweetened with it, and all the animosities and hard feelings and bitter expressions are not harmonized by the culture and use of this delicious product.

The way I know about Adolf Fischer's honey is that the staff had some of it, through the thoughtful courtesy of Mr. Fischer, and the reason I am making mention of it is because it is so eminently delicious and self satisfying, and altogether lovely. Tastes differ, of course, but to me there is absolutely nothing that hits the palate quite as convincingly and with such complete satisfaction, as the real, unadulterated article denominated honey, when spread all over hotcakes on a winter morning.

They can talk of Lo Cabin maple syrup, Karo, molasses, melted sugar or sugar unmelting, but they all have to take a far back seat, when brought into competition with the genuine article with the delicate flavor and matchless taste, known as honey market. I do not know about the honey market in this state nor how much the busy bees produce under our glorious sunshine, but I would think that it would be one of our recognized and leading products, and that not only could our own home market be supplied from our own apiaries, but that we could have a wholesale honey production here and supply the outside markets of the east.

SAVE IT.

Out by the depot ground stands a three-story building, once used as a school, but now deserted and closed, standing as a sort of lonesome monument to what has been.

It is likely to be valueless to anybody for any purpose if not soon repaired, as the walls will fall, on one side, at least, if not cared for and reinforced. I do not know whether or not the building is valueless and not worth repairing. If it is worth it something should be done at once to keep it from destruction; if it cannot be satisfactorily repaired, it should be sold for what it would bring, and the material utilized elsewhere. To let this building fall, if it is going to fall, and then lie in an unsightly heap, for months or maybe years, would be a grave error.

It is in the neighborhood of the depots, where every visitor from abroad would be compelled to pass it and see it. The very first impression gained of this beautiful city of ours would be an unpleasant one, and first impressions are oftentimes lasting. Now, that an effort is being made to beautify our city and one of our city organizations is at work to this end, every citizen should join hands with them and do all in his power to boost the movement along. I have tried, in this column to make such suggestions as seemed helpful to put Santa Fe at least abreast of any city in the United States. The destruction of the building mentioned should not be allowed to go on to the extent of becoming but a crumbling ruin and an eyesore to our visitors. If it is value-

less as a building let the material be utilized for some other building and the present structure.

ON HER SHAPE.

Reba Dale, a member of a musical comedy company is getting a reputation on her shape. It is not remarked in the advertisements concerning her that she can act or sing, but that she has a great shape. This fact was blazoned forth in a double page article in one of New York's best known newspapers and the announcement has made Miss Dale a star in the dramatic sky. The human form divine has grown to be a prominent feature in all our dramas and musical comedies and our comic operas and has now entered also into our wax figures in fashion stores.

Now those smiling wax figure faces are put on the shoulders of all kinds of figures. These models are top sided, thin chested, unhipped, round shouldered, sloped shouldered, in fact they are made to hit any malformation that may occur in the feminine form, and when the dress is fitted it makes a figure as perfect as any former by the sculptor's chisel or brought out by the artist's brush. When it comes to the reputation of an open singer resting on her shape, the securing of such reputation ought to be easy with all the opportunities offered of being made beautiful by getting dressed through the medium of a wax figure fashioned for any form.

Of course, we all admire beauty of figure in womankind. It is impossible to men, this beauty business, but there is something beside mere beauty of form, and that is beauty of character and of nature. In these days, however, it seems to be the physical only that attracts. It may be that the pendulum will swing back some day.

THEM TWO OLD CANNON.

Two old cannon that in war days, Bid defiance to the foe,
And hurled their shell and shrapnel,
Till the dead lay row on row,
But whose muzzles now are silent,
And whose yawards out of whack,
Are among the senate conquests,
Uncle Tom is bringing back.

Let us live the old days over,
When grim war swept o'er our land,
And these two old fashioned cannon,
Could shoot to beat the band.
Though their barrels long since are rusty,
And they couldn't shoot 'em now,
Still 'twas Uncle Tom who got 'em,
'Twas Uncle Tom knew how.

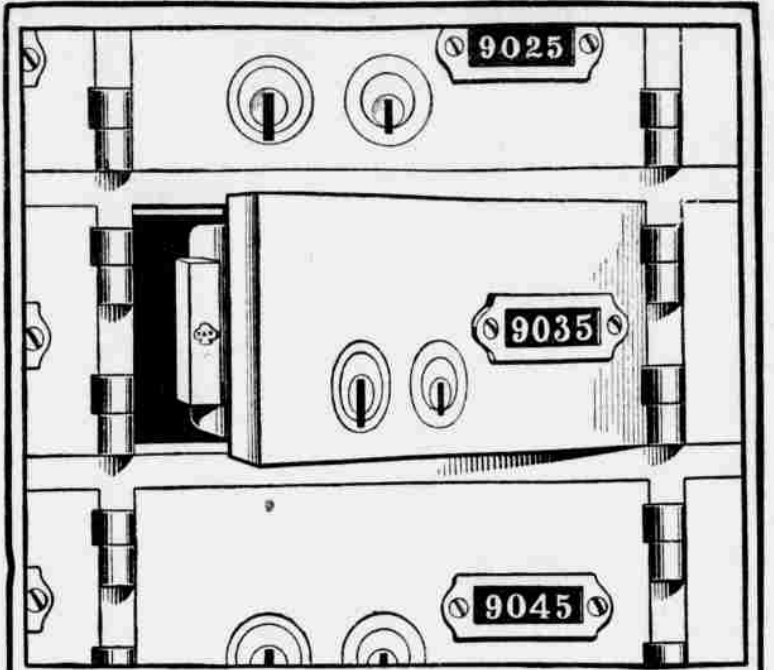

Through the torrid days of summer,
'Twas he who labored hard,
To get us those old cannon,
And they're quite a drawing card.
The department didn't need 'em,
They were sort of in the way,
Still you can't get two old cannon,
From the White House every day.

We've had delegates in congress,
We've had congressmen there too,
But did they get us two old cannon?
Not a cannon, it is true.
So we'll take 'em while we've got 'em,
With lots of frills and fuss,
And remember boys, forever,
Uncle Tom did that for US.

THOROUGH WORK.

How a Santa Fe Citizen Found Freedom From Kidney Troubles.

If you suffer from backache—From urinary disorders—Any curable disease of the kidneys. Use a tested kidney remedy. Doan's Kidney Pills have been tested by thousands.

Santa Fe people can testify.

Can you ask more convincing proof of merit?

Pasquale Yanni, shoemaker, College St., Santa Fe, N. Mex., says: "In 1902 I gave a public testimonial in praise of Doan's Kidney Pills to the effect that they had cured me of pain in my back, caused by disordered kidneys. Work obliged me to sit down a good deal and this weakened my kidneys, causing backache. While at work I suffered more intensely than at any other time and I was very anxious to find a remedy that would relieve me. Learning of Doan's Kidney Pills, I procured a box and to my delight, they soon fixed me up in good shape. During the past seven years I have had no need of kidney medicine."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

MORRIS CHAIR FOR SWEET AMONG ITEMS PAID WITH WARRANTS IN SOCORRO.

(Continued from Page one)

ets the assignment of the full claims of E. H. Sweet for quarters ended 5-30-09, \$257.45, and salary quarter ended 12-31-09, \$150.00. Warrant No. 90 is an overpayment in its entirety and warrant No. 93 an overpayment of \$75.00, (being 50 per cent of one quarter's salary.) The full claim of E. H. Sweet for quarter ended Sept. 30, 1909, \$257.45 being assigned when Warrant No. 90, \$107.45 had been issued to apply on this claim. The full claim of E. H. Sweet for quarter ended Dec. 31, 1909, \$280.00 (of which \$150.00 was for salary), which latter total amount was assigned, when Warrant No. 93, \$75.00 covered 50 per cent of salary this quarter. The full salary being assigned, Warrant No. 93 should not have been issued for but \$120.00, the amount of claim filed for expenses.

Item No. 7—Warrant No. 349, E. H. Sweet, \$173.00.

Approved and allowed. Record of commissioners' proceedings, folio 139 for \$473.00.

Overpayment, \$100.00.

Item No. 8—Oct. 1909, E. H. Sweet, \$231.45.

Account rendered \$231.45

Amount paid 257.45

Overpayment \$ 26.00

Item No. 9—Oct. 1908, E. H. Sweet, \$273.80.

Account rendered \$273.80

Amount paid 289.80

Overpayment \$ 10.00

Items 8 and 9 as per vouchers, payable E. H. Sweet and as per approval of vouchers on record of commissioners' proceedings.

Item No. 10—Amount paid, Socorro Telephone Co., January, 1912, includes items as follows that were for the personal account of E. H. Sweet:

Magdalena call 25

Las Vegas call 25

Las Vegas call 25

Las Vegas call 25

Total \$9.00

The toll tickets fully explain that the above were personal calls of E. H. Sweet. The toll tickets covering this month phone charges are the only ones found in the files.

Item 11—In verifying licenses issued for which funds for same have not been reported to the treasurer (see Schedule "A") the following checks were obtained, said checks are made payable to E. H. Sweet and endorsed by him:

6-28-10, Becker Mactovich \$50.50

4-7-09, Carthage Merc. Co. 10.50

2-28-10, Coates & Moore 10.50

4-7-11, Coates & Moore 10.50

5-25-09, Mogollon Merc. Co. 10.50

5-2-11, E. M. Parham 5.50

6-8-10, E. M. Parham 5.50

4-29-11, E. D. McIntosh 10.50

11-30-09, Reserve Grocery Co. 10.50

2-18-08, Reserve Grocery Co. 10.50

3-13-09, Reserve Grocery Co. 10.50

4-28-11, Reserve Grocery Co. 10.50

Clerk's fees 6.00

Balance due county \$150.50

The treasurer's records do not show the receipt of any of the above amounts, nor do they show the receipt of any of the items listed "Schedule A" this report. All checks listed under Item 11 bear endorsement of E. H. Sweet as payee and so far as the county is concerned are unaccounted for in their entirety.

Item No. 12—W. A. Warrant No. 109, Henry Stein, \$243.00.

Reference is made on this warrant showing that it covers wild animal bounty application No. 64 which application is hereto attached. No authority is shown on said application transferring of assigning same from P. H. Goehling (in whose favor appli-

cation made) to Henry Stein; nor does the warrant bear the bonafide signature of Henry Stein. Another small item in connection with this warrant is the fact that it carries Jan. 3d, 1911, as a date of issue and a treasurer's cancellation date of Dec. 2d, 1910.

Item No. 13—W. A. Warrant No. 199, J. Robertson, assignee, \$160.00.

No application is found in support of the issuance of this warrant—the endorsement is clearly not the bonafide endorsement of the payee.

Same comment as applies to endorsements Item No. 1 and others contains in Nos. 12 and 13.

IN RE: E. H. SWEET.

Warrant No. 241, issued January 4th, 1912, to E. H. Sweet, amounting to \$888.65. With reference to this warrant and the account for this warrant was given, your auditor submits for your consideration the following:

Salary for quarter shown in this account, \$250.00.

All previous accounts filed, \$150.00.

Jury list in this account, \$65.00.

Jury list in all accounts previously filed, \$35.00.

Item, delivering ballot boxes, in this account, \$230.00.

With reference to this item, additional warrants were drawn payable to:

J. F. Fullerton \$122.00

Z. F. Gibbons 145.00

275.00

which are represented to cover charges of these parties for delivering ballot boxes.

Your auditor, with the records at hand, cannot agree that the charges for delivering ballot boxes in this account should have reached the total of \$505.00; and would recommend that Mr. Sweet be called upon to render a proper accounting of the item of \$230.00 that is claimed by him.

With further reference to the account as filed and paid, item-trip to Albuquerque, territorial road commission, (5 days) \$125.00.

Freight and express on ballot boxes and supplies, \$165.00.

These amounts are considered excessive, and with the information at hand, your auditor is unable to pass without comment.

Your auditor is not advised of any statute that would allow the probate clerk, \$125.00 or at the rate of \$25.00 per day for attendance with the territorial road commission. As indicated, however, he is not fully advised as to this particular, but knows of no statute that allows this kind of a charge.

The item of \$165.00 which purports to be freight and express on ballot boxes and supplies is also considered excessive, and with the information at hand, your auditor is unable to pass this item without comment. As indicated above, it is recommended that these items be given to Mr. Sweet for a full and complete accounting of same.

SOME OF THE MOST ESSENTIAL FEATURES OF EFFECTIVE ADVERTISING AND ITS EFFECT ON BOOSTING A CITY.

The above topic will be discussed by J. H. Toulouse at the next business men's lunch which will be held at the Palace hotel, Monday, September 2, from 12:15 to 1:30 p. m. You are asked to attend.

Advertising will be the subject for general discussion.

Advertising is a vital factor in every business. Proper advertising has built up great business from small beginnings, improper use of advertising has put many a business on the toboggan.

Mr. Toulouse is an advertising man. He knows his business and if you are in business you cannot afford to miss this luncheon, nor can you if you are a property holder or interested in town boosting.

TAFT MEN SEEK DEAL WITH FLINN IN PENNSYLVANIA

New York, Aug. 28.—Charles D. Hillis, chairman of the republican national committee, issued a statement today covering the alleged agreement between Taft representatives and William Flinn, representing Colonel Roosevelt in Pennsylvania. Mr. Hillis said: "We have received a proposition from Mr. Flinn in which he has offered to withdraw the Roosevelt electors from the republican ticket and substitute Taft electors in their places. The offer was made by Mr. Flinn in Philadelphia last Wednesday to Henry G. Wasson, republican state chairman and William T. Tilden, president of the Union League club of Philadelphia."

Mr. Hillis said that, according to Mr. Wasson, "Mr. Flinn said that Col. Roosevelt at Chicago had placed him in charge of matters in Pennsylvania and that he was willing to erase the Roosevelt electors names and replace them with representative republicans who would vote for President Taft. He said that before he could do this he must obtain signatures of a petition naming Roosevelt electors on a Washington ticket. As the state law requires three per cent of the total vote, Mr. Flinn estimated that it would take nearly the whole month of September to prepare the petitions."

"I assume that Mr. Flinn is able to do this and that he will do it in good faith," said Mr. Hillis. "Our only objection to Flinn's republican state ticket now is that it has names of Roosevelt men on it as electors. With those removed, we would not oppose any of the rest of the ticket."

HITCHCOCK APPROVES NEW STAMP SHOWING PANAMA CANAL LOCKS.

It Will Be Issued to Commemorate San Francisco Exposition and Will Be Something New in Postage Line.

Washington, D. C., Aug. 28.—A new two-cent stamp in commemoration of the Panama-Pacific exposition in San Francisco in 1915, was approved today by Postmaster General Hitchcock. It is about an inch wide and an inch and a quarter long. It bears engraving representing the gatun locks of the Panama canal, showing a steamship emerging from the northern lock and another vessel being raised in the southern lock. In the middle distance is a group of tall palm trees and in the background rise the hills of the isthmus. Across the top are the words, "U. S. Postage" and directly below these, the line "San Francisco 1915."

In each lower corner is a branch, symbolizing peace; and balancing it on the right is a palm branch, indicative of victory and the tropics.

No color has been selected for the stamp. The first issue will be on sale in a few weeks.

IMPOSING ARRAY OF BULL MOOSES WILL GO ON THE STUMP.

Prominent Senators and Editors Among the List of Speakers Designated by Senator Dixon to Orate.

Chicago, Ill., Aug. 28.—Senator Dixon, of Montana, today made public a partial list of speakers who will carry the progressive party's propaganda through the country on extended stumping tours. It was said that the progressive campaign will be one of the most extensive undertaken in American political annals.

The names of progressive speakers announced today were:

Former Senator Beveridge, of Indiana; Senator Clapp, of Minnesota; Senator Poindexter, of Washington; Senator Crawford, of South Dakota; Senator Bristow, of Kansas; Congressman Norris, of Nebraska; Hamlin Garland, the writer, and William Allen White, Kansas editor.

Among former Democrats who will take the stump for the progressive cause are Bourke Cockran, of New York and former Governor Garvin, of Rhode Island.

Americans have one terrible failing, they want the instruction and they tell you so, and want to enrol and yet day by day slips by and still they say, "Yes, I'm coming." And it is these self same people that never rise above the mediocre. They put it off until the time comes they again delay. A fig for such dreamers, such shilly shally humbugs. They are of no earthly use to themselves, or any one else. Pity the husband tied to such a wife, or shame on the woman, who when reverses come, cannot do something respectable for a good living. Shame on Parents for bringing up boys or girls without a knowledge of how to earn a living. Husbands break down in health, meet with accidents, reverses, and then the good wife can say: "My poor darling husband." I can keep the debts out of the house, I can provide, and I will do so, for I am an expert at shorthand and Typewriting. Again, a Parent has losses, becomes bankrupt through no fault of his own. The boy or girl has luckily been educated for a business, can spell and write well, and is clever at shorthand and Typewriting—Isn't this a comfort, a blessing, and does not the parent exult at his forethought, and does not the grown up boy or girl sing forth a halallelujah. Oh! you dunderheads that neglect the future—those who like the grasshopper think the "sun will always shine." It might do so in Santa Fe, but not in other parts of the globe. Come now—enrol today—and start your happy career. Be on the safe side and Learn to Earn. The man who buckles down, seldom has to knuckle down.

CADDIES ARE BARRED UNDER CHILD LABOR LAW OF ATTORNEYS.

Able Barristers are Amazed to Find That They Have Cut Boys Out of Lucrative and Healthful Business.

Milwaukee, Wis., Aug. 28.—Having approved a model uniform law, intended for adoption by all the states to prohibit the employment of children under certain ages, the American Bar association discovered today that it had gone on record against the use in any part of the country of "caddies" under 14 years old.

The proposed law as offered by Walter George Smith, of Pennsylvania, provides that no child less than 14 years of age shall be permitted to work in or about, among other places, "any boarding house, barber shop, laundry, garage, place of amusement or club."

William R. Morris, of Minneapolis, one of the three negro lawyers who had been uneaten by the executive committee, but which action was reversed by the association, sent a telegram announcing his resignation. The resignation was accepted.

The recall of judges was formally denunciated by the association as a "fallacy" and as "tending to deprive the public of judges of ability and high character."

MASONIC TEMPLE ON FIRE.

The Masonic temple, now building, was on fire for a few minutes this afternoon, the flames probably resulting from a cigar stub in the scaffolding. Little damage was done. The workmen extinguished the fire and returned to work. Ten minutes later the fire department, followed by all the boys in town, arrived on the scene.

CRETE MUST BE GOOD.

Crete, Aug. 28.—The foreign consuls have informed the Cretan government that the powers intend to prevent any armed expedition to the island of Samos, and that British and French cruisers have been dispatched there for that purpose. It has been discovered that arms and money had been distributed by the committee of national defense for the formation of a corps of Cretan volunteers who were to seize the island of Samos and hoist the Greek flag.

Lisbon, Aug. 28.—Dispatches received here from the Portuguese town of Aldeia Obispo tell of the putting to death of a priest by an infuriated mob.

The parish priest, it is alleged, attempted to conduct a funeral without the traditional burial rights and the authorities and people of the town objected.

THEY BROKE JAIL.

Denver, Colo., Aug. 28.—Jesus de La Torre and Ignacio Nunez, two Mexican smugglers committed here June 6th and under three thousand dollar bond, broke jail last night. Officers are after them. Estula Herrera, alias Geo. Valencia, was arrested with these two men, he giving cash bond at the time. It is thought they are making for Mexican border, 40 miles south.

Watches and Clocks.

"Time Pieces That Are Reliable."

Have your watch cleaned occasionally. A watch will run without oil or cleaning longer than any other piece of machinery—but it needs both occasionally.

If you will consider that the rim of the balance wheel travels over fifteen miles a day, you will not grudge your watch a speck of oil and a cleaning once a year. It will increase the life and accuracy of your watch. Leave your watch with us to-day.

A Progressive Modern Business must be Progressive about Carbon Paper.

YOU have approved filing systems, good typewriters, good paper and careful stenographers, but many are unaware of the need for good carbon paper—of the troubles poor copies may later bring.

Be fortified against any possible disadvantage occurring from the use of wrong material. Take advantage of the example set by thousands of progressive business houses and look into
