LORD ROBERTS IN ENGLAND.

He is Given a Very Enthusiastic Reception Upon His Arrival at Cowes.

AUDIENCE WITH THE QUEEN.

An Arch of Laurel Erected in Honor of Roberts Upon the Queen's Command—The Boers Still Active in Cape Colony.

Cowes, Isle of Wight, January 2.—The steamer Canada, having Field Marshal Lord Roberts on board, anchored off Osborne today. The ships-in-the-road were gaily decorated, the sea front was elaborately decorated with bunting, Venetian masts with festoons adorned the route to Osborne house, at the entrance of which was erected a unique tribute of the queen's appreciation of the field marshal's work. In the shape of an arch of laurel. This was the first time such an arch ever appeared there in honor of any subject. After Roberts' audience with the queen he will join the Canada at Southampton and remain on board until morning.

A large crowd awaited Lord Roberts' arrival. When the field marshal landed from the launch deafening shouts of welcome were given. His arm was still in a sling as the result of being thrown from his horse. The party started in the royal carriages for Osborne house. The route was lined with troops and thronged with cheering sightseers. The queen bestowed an earldom on Lord Roberts, with a special remainder for his daughters. He was also made a Knight of the Garter.

Replying to the addresses at the town hall, Roberts said he regretted that his return was not accompanied by immediate peace, but added that while he feared that hostilities would continue for some time, he had no fear regarding the outcome.

BOERS IN CAPE COLONY.
Cradock, Cape Colony, January 2.—A detachment of Boers entered Roodhooft, southward from Middleburg on January 1. It is believed that this force is going to Graaf Reinet. The telegraph lines are cut between Carnarvon and Somerset west and Steynsburg and Maraisburg. Large reinforcements reached Middleburg.

Seattle, Wash., January 2.—The public library at Seattle burned to the ground last night, and 25,000 books valued at least at \$30,000, are a total loss. The building was built about ten years ago by Henry Yesler, Seattle's most famous pioneer, and cost him nearly \$60,000.

The New York Stock Market.
New York, January 2.—The question of the continuance of the animated speculation into the new year was quickly settled at the stock exchange to-day. The volume of the dealings fully equalled, if they did not exceed, the recent high prevailing level. It was evident from a buoyant rise in various quarters that orders were to "buy at market." In St. Paul there was a difference of 1 1/2 in the simultaneous prices paid, the extreme rise reaching 3 1/2. The high opening prices induced heavy realizing. The consequence was an immediate backward course from the opening high level. The pressure to sell realized, and the speculators showed a determination to maintain their holdings for greater profits.

A Strike of Iron Workers.
Pittsburg, January 2.—A thousand structural iron workers struck to-day for an advance of 6 cents an hour in wages and a nine-hour day. Important contracts are tied up.

The balloting for United States senator will begin on January 15.

Vancouver, B. C., January 2.—The steamer Victorian arrived this morning from Skagway with forty passengers, mostly from Dawson. They left as late as December 18, making quick time over the ice. A. F. Lauder, of Seattle, came out on his bicycle. Mrs. Ballinger, wife of Dr. Ballinger, who left Dawson December 6 for Skagway, and completely disappeared, also came out by the Victorian. She heard nothing of her husband, who, it is feared, met with a fatal end.

AGREEMENT ACCEPTED.

Washington, January 2.—Minister Conger cabled the state department under date of January 1 that the ministers had been notified formally not only that the agreement had been accepted by the Chinese government, but that the government felt able to guarantee the performance of the conditions imposed.

BRIEFS FILED.

Two Porto Rico Cases Appealed to the U. S. Supreme Court.

Washington, January 2.—The first briefs filed in the cases involving the relation of the United States to their insular possessions and to be argued in the supreme court next week, were submitted to-day. There are eight cases, and the briefs were filed in the cases of Carlos Armstrong and Samuel B. Downes. In both cases the briefs represent parties opposing the contentions of the government. Armstrong is a British subject, doing business in Ponce, Porto Rico, and sues to recover the tariff duties collected on goods imported into Porto Rico from New York, Philadelphia and Baltimore. The court of claims has decided against him, and he appeals from that decision. The plea is made in brief that a collection of duties was, in circumstances, a violation of the constitution of the United States as by the terms of the Paris treaty Porto Rico became a portion of the United States.

In the Downes case exception is taken to the imposition of duties on goods imported into the United States from Porto Rico. In the brief, F. R. Couderc, Jr., quoting after the decision of the supreme court in the Cherokee Nation case, says: "The congress of the United States is not vested by the constitution and cannot therefore be invested by a treaty with power to legislate for a foreign country."

THE CHINESE SITUATION.

Consul General John Goodnow Arrives at San Francisco and Speaks About China.

A RATHER HOPEFUL VIEW.

The Celestials Who are Working for the Integrity of Their Country are Friendly to the United States—Work for Missionaries.

San Francisco, Cal., January 2.—John Goodnow, United States consul general to China, arrived in this city on the City of Peking. After a brief visit to Washington he will spend a six days' leave of absence at his old home in Minnesota. The consul general said: "I believe that a satisfactory settlement will be reached along the lines laid down by the president. Those Chinese working for the integrity of their country are friendly toward the United States, and ready to assist in a prompt and amicable settlement. The uprising was by no means a popular move with the great mass of the peaceable Chinese population. From the very first they deplored the acts of their fellow-countrymen."

In regard to the missionaries, Goodnow thinks there is still a great field for successful work. He, however, is of the opinion that it would not be best to send missionaries outside of the treaty ports until peace is proclaimed.

KILLED FIRING A SALUTE.

Tien Tsin, January 2.—Ten Germans were killed and nine wounded at Leta Hu on January 1 through firing a salute with defective cartridges.

Increase in Price of Silver.

Washington, January 2.—The quarterly estimate of the value of foreign coins made by the director of the mint shows that the value of silver increased during the last three months 24-100ths per cent. The increase is accounted for by the abnormal demand for Mexican silver in China.

Omaha, Neb., January 2.—A stranger, supposed to be Pat Crow, was overhauled in a chase near the Pine Ridge agency, at Chadron, Neb., but proved to be an innocent collector of curios named Dennis, from Boston, and was not detained.

A CHANGE IN PERSONNEL.

The Santa Fe Postoffice Is Well Conducted by Postmaster Nushbaum.

The change announced by the New Mexican in employees of the postoffice here took place yesterday. Mr. H. S. Kaune, who for the past two and a half years has been the efficient assistant postmaster, tendered his resignation, and was succeeded in that position by Mr. Frank Andrews, who for the same period has been stamp and delivery clerk. Mr. Kaune retired of his own volition in order to give more attention to the thriving business conducted under his supervision and under the firm name of H. S. Kaune & Co. The experience of the past two and a half years gained by Mr. Andrews induced the postmaster to promote him. Mr. Charles Parsons, well known in this city as a bright young man, has succeeded Mr. Andrews, and it is believed will perform the duties of the position with satisfaction to all concerned and credit to himself. His appointment was in a great degree due to the belief that some recognition was due to the colored citizens in this county who have always been, since their advent here, loyal and staunch Republicans, and voted the Republican ticket. In addition to this claim, Mr. Parsons' appointment was urged upon the grounds of competency and general good character. The records of the postoffice department and the records of the postoffice inspectors show that the Santa Fe postoffice, under the management of Postmaster Simon Nushbaum, is one of the best in the country; its accounts are always in perfect condition; its business matters in order and up to date, and the general condition and management of the office is excellent. There is no doubt that this condition of affairs will continue in the future, and, if possible, will show an improvement.

A REPORTED MURDER.

Meliton Moya Found Dead in the Arroyo Yaso, Guadalupe County.

News has been received here that Meliton Moya, a member of the well-known Moya family in this city, was found dead some days ago, on the Arroyo del Yaso, in Guadalupe county, where he was employed by Teodoro Casado as a sheep herder. It is believed that the man was murdered. No further particulars are at hand, except that a party has started from San Miguel for the place where the body was found to bring it to Santa Fe if possible, and to investigate the circumstances surrounding the case.

IRRIGATION PLANS FOR INDIANS.

John B. Harper, of Durango, Colo., superintendent of irrigation for the Indians, is in the city on official business. He has completed plans and specifications for the construction of a water supply and ditch system on the Jicarilla reservation at Dulce, N. M., bids for the construction of which are now being advertised in the New Mexican. The bids to be opened at the Indian office in Washington on January 10. Mr. Harper is a competent and experienced irrigation and civil engineer, and his plans are declared by experts to be very superior.

TRANSCRIPT FORWARDED.

Deputy Clerk Irene Chaves, of the court of private land claims, to-day forwarded to the clerk of the United States supreme court at Washington the transcript in the case of Mariano P. Sena vs. the United States. The case was appealed to the supreme court by the plaintiff, who claims the Jose de Leyla grant in this county. The transcript filled 40 typewritten pages.

AGAINST FOOT BALL.

Superintendent of Public Instruction M. C. de Baca, in his annual report, will make a recommendation for the prohibition of the playing of foot ball at the territorial institutions and the public schools. He regards the game as more brutal than prize fighting, and in his recommendation follows the example of several institutions of higher learning, which lately have prohibited the playing of foot ball. He has gathered statistics showing that last year fifteen boys were killed and 200 seriously injured in the United States while playing foot ball.

NEW YEAR'S PARDONS.

Governor Otero on New Year's eve issued two pardons, one of them in lieu of the Christmas pardon which he did not issue this year on account of his absence in Washington and his practice of investigating thoroughly every recommendation for pardon made to him. One of the lucky convicts pardoned is Toribio Gutierrez, who during his fifteen years in the penitentiary has been an exemplary prisoner, and about whose guilt of the crime with which he is charged, murder, there are grave doubts. He was sentenced from Taos county. The other convict pardoned is Antonio Lucero y Perea, sentenced for twenty years for murder from Bernalillo county. He, too, has been a model prisoner, and his artistic stone masonry work at the new capital some time ago moved the capitol rebuilding board to ask for his pardon out of consideration for his valuable services at the building of the capitol.

BONDS APPROVED.

Judge McFie to-day approved the bond of Sheriff Marcelino Garcia for \$7500. He also approved the bond of Tomas Gonzales, collector of Rio Arriba county, for \$10,000, and Eugenio Sanchez, collector and treasurer of Taos county, for \$8000.

INTERESTED IN AMERICA.

The London and Globe Finance Corporation Owns a Big Smelter in Washington State.

ABOUT \$5,000,000 INVESTED.

Senator George Turner of Washington Sold the Le Roy Group at Roseland, British Columbia, to the Corporation That Failed Last Week.

Washington, January 2.—The London and Globe Finance Corporation, which just failed, is interested in American and Canadian mining properties that cost about \$5,000,000. The smelter at Northport, Wash., which was secured about two years ago by Whitaker Wright for the syndicate, is the largest in the northwest outside of the Butte and Anaconda.

Just across the line, at Roseland, British Columbia, the London and Globe company is interested in a half dozen mines, including the Lerol, Lerol No. 2, Roseland, Great Western, Nickel-plate and Columbia Kootenay. The most important of these is the Lerol, which was purchased from a group of Americans headed by Senator George Turner, of Washington.

DISTRICT COURT.

A Number of Suits Filed in the District Court This Forenoon.

A suit was filed in the district court for this county this forenoon entitled A. Staab vs. Clumaco Callegos, of Belen, Valencia county. The suit is brought to recover \$56.19, alleged to be due on an open account.

Another suit, A. Staab vs. D. Callegos, of Rio Arriba county, was filed to recover \$198.47, due on a promissory note.

In the district court for San Juan county a suit was filed by Millard Green vs. Ida M. Green, for divorce and custody of the children. Abandonment and adultery are given as grounds for the application for divorce.

A writ of error was taken out of the district court for this county to the territorial supreme court in the case of A. Staab vs. J. H. Blain, and the transcript is being made for transmission to the clerk of the supreme court. This case resulted from the opening of Bridge street by the city, and is for the possession of a lot on Bridge and San Francisco streets.

The Santa Fe county tax cases, now pending in district court, which were to have been argued to-day before Judge McFie, have been continued, and argument will be made in them on the 11th inst., this by consent of all concerned, owing to the fact that the transcript of the record has only just been finished by the stenographer, and that counsel required time to examine the record carefully for points and arguments.

A suit was filed in the district court for this county by W. M. Berger vs. John B. Lamy, claiming a set-off of \$115, that the lease for office he made with Mr. Lamy is illegal because it has no revenue stamp affixed to it, and that he occupied only one room for his office, while Mr. Lamy in his claim for rent charged him for the use of two rooms. This suit was caused by Mr. Lamy having the office effects of Mr. Berger seized for rent alleged to be due.

Terrible Experience of Sailors.

St. Johns, N. F., January 2.—The British steamer Iyden, Captain Mitburn, from Hamburg, December 15, for Wilmington, N. C., went ashore during the snow storm last night at La Manche, and is likely to become a total loss. The crew is safe, but met with a frightful experience in open boats.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

WEDNESDAY, JANUARY 2.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, or until statehood is attained, Miguel A. Otero.

The ancient joke about the broken New Year's resolutions is again holding the boards.

Gen. Russell A. Alger is talking out of school, much to the chagrin of some of those who profited by his persecution in connection with the canned beef scandal.

Statisticians have calculated that one Christmas costs the people of the United States \$50,000,000 for presents. There is nothing to regret about this, for it is certainly better to spend the money in that manner than in doing in celebrating the Fourth of July, when an equally large amount is blown up into the air.

Thomas G. Shearman writes in the Forum that ten years ago all the wealth of the United States was practically owned by 250,000 persons, but that now that wealth is the property of less than 50,000 people. If that rate is continued the day is not far distant when all the wealth will be concentrated in the hands of one power, and that the state.

Uncle Sam does not need the Danish West Indies, but he does not like to see them fall into the hands of Germany or some other European power. Denmark, despite the Monroe doctrine, has the right to sell the islands to whomever it pleases, and to avoid any unpleasantness it is better for the United States to pay the \$4,000,000 demanded for them.

Says the Taos Cresset: "The taxes for Taos county for 1900 are being collected faster this year than ever before. A large per cent of them will be in by the 1st of January." This is a sign of prosperity, and an indication that the Duncan tax law works well in its application. Taos county had previously been somewhat slow in the matter of paying taxes, but it is evidently making up now for any past neglect.

Hon. Jose Amado Lucero, who on yesterday retired from the office of probate judge of the county, made a very good record while in that office. His decisions were universally fair and impartial, and his appointments of administrators of estates and the like were satisfactory in every respect. Mr. Lucero retires from office with a good clean record.

The El Paso Democratic papers, natural and vindictive enemies of Republican New Mexico, do not like the course of the New Mexican in fighting for the interests of this territory as against the dishonest, thieving and corrupt schemes of the El Paso land stealing and smugglers' ring. But then the New Mexican will keep up the even tenor of its ways nevertheless.

The census committee of the house of representatives has done the proper thing in reporting in favor of leaving the membership of the house the same as it now is. It is to be hoped that the members will not be coaxed or bullied into enlarging the number of representatives. Even now experienced members of the house admit that it is too large for the expeditious and orderly transaction of business.

When it comes to speaking of the vast amount of new legislation which is being introduced in congress, it should be borne in mind that what is most needed is not so much new legislation, but better enforcement of the old laws. Of course, there are some instances where old laws have proved inadequate or progress demands new laws, but the craze for new legislation is apt to overstep the bounds of reason in congress as well as in state and territorial legislatures.

The retiring board of county commissioners, Messrs. C. W. Dudrow, as chairman; J. T. McLaughlin and Agustín Maestas, as members, did its duty well and faithfully by the people of the county. Financial affairs were honestly and economically managed by the board, and the county enjoyed a good and clean administration during the past two years. Mr. Dudrow has served as chairman for two terms, and Mr. McLaughlin has served as a member of the board for the same length of time. They have proven themselves good and faithful public servants, and retire from office with the respect and good will of the people.

The beer drinker is threatened with another danger in addition to the natural train of evils that follows in the too liberal indulgence in the product of hop and malt. The American Chemical Society was told at its recent meeting in Chicago that brewers willfully introduce into beer an arsenical antiseptic to prevent the fermentation of the beverage from progressing too far. In Great Britain only a few weeks ago hundreds of persons were poisoned by drinking beer, and Dr. Edward Guddeman, a chemist, who spoke on this subject to the society, asserts that the same kind of an accident may occur in America at any time.

The trade in poultry and eggs in Colorado during the past year amounted to \$5,500,000. Quite a neat sum for so humble a bird.

The Seranton street car employees gained an increase in wages by their strike, and the new year therefore should be a happy one for them. It is very seldom nowadays that a strike of workmen is successful.

The foreign press is blaming President McKinley for the jumble that the senate made of the Hay-Pauncefote treaty, showing that the average foreign newspaper knows mighty little of the constitutional relation of the president to congress.

Nicola Tesla, who has been doing a great deal of self-advertising but very little of anything of practical value to the world, announces that he will talk with the people of Mars from Pike's Peak. It is unsafe to ridicule any prophecies about scientific advancement these latter days, but it can be put down safely that when Tesla predicts that he will talk with the people of Mars he is drawing extensively on his vivid imagination.

The Denver newspapers, in their annual resume for Colorado during the past year, dwell with special emphasis upon the glorious climate of Denver. Compared with the east, Denver does possess a splendid climate, but what might be said of Santa Fe climate if Denver climate is spoken of in such superlative terms? Santa Fe climate is as far ahead of Denver climate as Denver climate is ahead of the Boston brand. It was 19 degrees below zero at Denver, Colorado Springs and 28 below zero in Wyoming towns on the day before New Year, while in Santa Fe the thermometer went down to 8 degrees above zero. That is a difference of 27 degrees in favor of Santa Fe, when compared with Colorado and some New Mexican points.

The past century saw about thirty great inventions and discoveries, every one of which might be called epoch-making in its particular sphere. These inventions are railroads, steamships, the telegraph, the telephone, lucifer matches, gas illumination, electric lighting, photography, anaesthetics, antiseptic surgery, conservation of force, germ theory of disease, organic evolution, the antiquity of man, the glacial epoch, the Roentgen rays, the spectroscopic, the Bessemer process, the periodic law in chemistry, cell theory and embryology, the modern printing press, vortex theory of matter, the nebular theory, the uses of dust, the molecular theory of gases, the cyanide process, the cotton gin, the sewing machine, petroleum, electric power, modern mining methods.

Among the bills to be introduced in the coming legislative session will be one to create a new county to be named Roosevelt. The new county is to be created out of parts of San Miguel and Mora counties, being the southeastern part of Mora county, including Watrous, and the western part of San Miguel county. The line is to run between the two towns of East Las Vegas and Las Vegas, and East Las Vegas is to be the county seat of the new county. It is understood that there will be considerable pressure in this direction. It is claimed for the scheme that the new county will be self-supporting from the very commencement, and that its creation is desired by many people of the sections named. The report of this comes to the New Mexican from what is considered a reliable source at Las Vegas. How much shape the matter will take it is not possible at this time to say.

For Governor Otero.

There is no skulking on the part of the Roosevelt Register, for it comes out fair and square for Governor Otero's reappointment. It says in its last issue: "The portrait of Governor Otero appears in this issue of the Register. It is apparent from reading some of the newspapers of New Mexico and one or two of the El Paso (Tex.) Journals that there are a few personal enemies of the governor who are doing all they can to discredit him and his official acts. They are wasting their time, and should turn their attention to something that will bring them success as their reward. The voters of the territory who at the last election gave the Republican candidate for delegate to congress the largest majority ever given to a candidate on that ticket for that office and elected three-fourths of the council and five-sixths of the house as Republicans, endorsed Governor Otero and his administration in a manner that is emphatic and conclusive. The real fight in the late election was made on the governor, and in many portions of the territory it was a bitter one. The result showed very plainly that the taxpayers of the territory had not been deceived, and that they knew exactly what they wanted, and what would be best for the territory. These facts will have due weight with President McKinley, and the Register expects to see Governor Otero reappointed because he is entitled to it for the able, conscientious manner in which he has discharged the duties of the office, and because the people want him reappointed."

An American's Right.

The comments of disappointment on ex-President Benjamin Harrison's speech at Ann Arbor, Mich., in which he took the position that the constitution follows the flag, continue. But ex-President Harrison had a perfect right to express his views upon this important question, one that should be carefully studied by every American. But as ex-President Harrison is free to state his position so are the men who differ from him. He cannot resent it, therefore, that Senator Foraker, whose name the Porto Rican legislation bears, should take strong but courteous issue with the views expressed by him. Senator Foraker does not discuss the legal aspects of the Porto Rican question. He does not assume to say whether the constitution follows the flag or waits for the specific action of congress. He leaves this question for the august decision of the United States supreme court. But Senator Foraker does say, and very sensibly and truthfully, that the Porto Rican legislation in its animating purpose was "creditable to the

generosity, the patriotism and the industrial spirit of the American people." As Senator Foraker says: "We found Porto Rico as poor as poverty could make her. She had no money, no credit, no system of taxation of a kind. She wanted a civil government and a revenue to support it. We gave her a far more liberal civil government than was ever given to any territory prior to the civil war, so far as participation in it by her people is concerned and we dealt by her more generously. In providing support for that government, than we have ever yet dealt with any territory."

Perhaps congress had no right to do this. Perhaps it had no right for what seemed to be the best interests of the Porto Rican people to impose a temporary tariff of 15 per cent of the Dingley rates on the commerce between the island and this country—every cent of the duties collected at either end to be turned into the island treasury. Perhaps congress was mistaken; perhaps when the flag went up over Porto Rico the Dingley tariff went up with it to its full extent against the goods of other nations, but not against our own. But at any rate congress meant well. Ex-President Harrison has no justification for arguing that it sought to treat Porto Rico as a vassal, tributary state or to deny her people any rights that lawfully belonged to them. That is not the American purpose, in either Porto Rico or the Philippines.

THE LAND GRANT COURT.

It Has Done Good Work in Settling Title to Lands.

(Denver Republican.)
The land grant court, organized by act of congress to determine the validity of Spanish and Mexican land grants, in the possessions acquired from Mexico, when it completes its labors, now approaching the end, will have accomplished a work of vital importance to the material development of Arizona, New Mexico and part of Colorado.

Those two territories, but especially the former, were checked in their development by the existence of grants of more or less doubtful validity covering vast tracts of what otherwise would have formed part of the public domain. The mining and land laws of the United States were not applicable within the area of such grants, and neither mining nor homestead claims could be acquired. The boundaries of some of the grants were as poorly defined as their validity was uncertain, and this still further retarded the settlement of the country, since prospectors and homesteaders were unwilling to incur the risk of losing their investments through failure of their titles.

The court was not able to wipe out all the alleged grants, but it showed the worthlessness of some of them and removed the elements of uncertainty in both titles and boundaries. Where grants were declared to be invalid, the area covered was restored to the public domain. In the case of valid grants the title to the surface is confirmed in the claimants, but with hardly an exception right to extract minerals is reserved to the United States.

Thus the way has been opened for the settlement of New Mexico and Arizona through the application of the land and mining laws or through purchase from the grantees. There remains, however, the need of an enactment by congress under which the right to extract minerals from beneath the surface of confirmed grants may be transferred to American citizens.

The transactions of the land grant court will mark an era in the material development of the southwest, and the act of congress under which the court was established will stand as one of the most important enactments especially applicable to this part of the national domain.

A Clean Administration.

(Albuquerque American.)
Gov. M. A. Otero is our choice for governor of New Mexico. His wise, judicious, businesslike and clean administration during the last four years entitles him to reappointment.

ACCUSED OF MURDER.

Three Grant County Men Bound Over to Court Without Bail.

The preliminary hearing of the three natives, Demetrio Torres, Jose Villajos and Andreas Calles, charged with shooting and killing John McMillan, a wealthy ranchman and general merchant of Grant county, resulted in placing the alleged murderers in jail without bail. McMillan was murdered a few nights ago, and robbed of considerable money. His ranch friends took charge of the case, and a short time afterward the three accused men were arrested. It is thought that Calles, who is a lad of 16 years, will make a full confession. McMillan was a Canadian by birth, and came to this territory with his brother, Daniel McMillan, in 1871, from Colorado.

A STABBING AFFRAY.

Benjamin Pond Out Badly by Roy Lockhart on La Plata.

A cutting scrape on the La Plata resulted in Ben Pond being severely wounded and his brother Frank receiving a slight wound, both from a knife in the hands of Roy Lockhart. The boys were present at a dance at the Center school house, and were presumably more or less under the influence of liquor, and Lockhart struck Ben Pond with a knife, the blade entering the back with sufficient force to drive through the shoulder blade and between the ribs, and barely grazing the right lung. In trying to stay the knife Frank Pond received a slight cut on the hand. Dr. Condit was summoned, and reports that aside from great loss of blood the patient is resting easy, and unless complications arise will recover. Roy Lockhart was arrested on a warrant sworn out in Justice Berry's court, and gave bonds to appear at the preliminary trial, which took place at Aztec, San Juan county.

WINE OF CARDUI

WOMEN WHO WORK.
St. Louis, Mo., Aug. 12.
Though only 19 years of age, I suffer from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui, and that made me feel better. Have now used several bottles and am well. My mother used the Wine for Change of Life and was greatly relieved.
MISS MARGARET WALSH.

Wine of Cardui
Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tiresome tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent or foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.

ENGLAND'S ARMY AND NAVY.

It was recently stated that England would be unable to cope with a swift enemy, and that both the army and navy is inadequate to meet a sudden invasion. England is, in this instance, like the individual who allows disease to slowly creep into his system through a stomach too weak to properly digest the food taken into it. To strengthen the stomach, there is nothing better than Hostetter's Stomach Bitters. It cures dyspepsia, constipation, indigestion, liver and kidney troubles, and as a tonic, it is incomparable. The Bitters strengthens the nerves, produces refreshing sleep and gives renewed strength and vigor to the system. It is undoubtedly the best medicine in the world for debilitated systems. Try it. Captain Sewall, on the McGinnity property at Red River, is pushing development work as rapidly as he can. This property promises to be an early producer, and it is hoped by all that the early spring will find it ready to ship.

The Black Copper machinery is being hauled to that property. Quite a large amount of the machinery is on the ground.

The Esther property at Red River is a very promising prospect in the district, and Jared Moad and his co-partners expect to make it one of the early producers. The ore is lead, copper and gold. The vein in this property is very large, well defined, and runs from \$15 to \$35 per ton. This location is only 50 yards from the Red River public school building.

Philip Pritchett and Mr. Moad are doing assessment work on the West Side property for the owners of that claim. This work is being done on a prospect which shows splendid indications of being able to produce ore in paying quantities. Red River is surely destined to become a producing camp. The prospects are very bright for her future.

The June Bug people have lately put in a large mill, and are preparing to treat their ore in a systematic, business-like manner in the spring. Edward Hutton, the manager, is pushing work for the company in a very business-like manner, and will make this company's properties speak for themselves in due season.

The Bitter Creek district contains many good prospects, and in this canon many men are busily engaged in doing assessment and development work.

Thomas Nelson is busy doing assessment and development work on his claim on the Big Hill. He has two or three properties in this district that are considered valuable propositions by men who understand the mining business.

The amount of annual assessment work done in the district this year shows up the camp in a very favorable manner. Thousands of dollars' worth of assessment work has been done here this fall and winter. The scarcity of forfeited notices is very noticeable this year.

The Golden Treasury is working its usual force of men with good results. This property is being worked under bond and lease. The operators are very much pleased with the property.

The Copper King mine has shut down for thirty days. This property has a difficult work in handling a large volume of water in the drift, and a few days ago, while working hard to beat the water, the pump gave out, which necessitates shutting down until the repairs can be made. It is possible that another new pump will be added. This company proposes to test this property thoroughly, and will spare no means to carry out its purpose.

"Nasal Catarrh" quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 13 cents. Test it and you are sure to continue the treatment.

To accommodate those who are partial to the use of atomizers in applying liquids to the nasal passages for catarrh of the nose, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 50 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

EARLHAM STATION ROBBED.

Many Tramps Make Southern New Mexico Their Winter Headquarters. Ben Williams, special officer of the Santa Fe railway, has returned to Albuquerque from the southern counties after the Earlham station robbery. He states that the station was entered and robbed of all valuable packages, some belonging to both the railway and express companies, amounting, all told, to several hundred dollars. He suspected tramps, and with other officers, rounded up a big gang, searching them, but found nothing on their persons to indicate that they were the robbers. It is known, however, that all the southern towns are infested with tramps, and if the Earlham station was not robbed by them they have entered and robbed half a dozen stores in that vicinity.

An Acetylene Explosion. The large acetylene gas plant of the Floerheim Mercantile Company blew up on Monday evening about 5 o'clock, and somewhat injured Richard Dillon, who was getting it in readiness to light up the establishment. The roof of the building in which it was contained was blown up several inches, and Dillon narrowly escaped death, being burned about the face and hands. This is the second time a similar occurrence has happened with this establishment.

BEAT OUT OF AN INCREASE OF HIS PENSION. A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48, I contracted Mexican diarrhoea, and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequalled as a quick cure for diarrhoea, and is pleasant and safe to take. For sale by Ireland.

Foley's Honey and Tar heals lungs and stops the cough. Foley's Kidney Cure makes kidneys and bladder right.

Her Sad Predicament.

"She's in a terrible predicament." "In what way?" "Why, that rich old man that she promised to marry has offered to have his life insured in her favor." "I should say that was both considerate and thoughtful of him." "But you don't understand. If his physical condition is such that any insurance company would accept him as a risk she doesn't want to marry him."—Chicago Post.

It Would Make a Change. Of course she knew he was a mean man, but she did not think he was as mean as he proved to be. "I can see," he said, "where woman in politics would make a very great change." "Where?" she asked, unsuspiciously. "Why, if she were given the franchise," he explained, "the proportion of what is known as the silent vote would be considerably lessened."—Chicago Post.

Is a genuine specific for diseases of the stomach and organs of digestion and nutrition. No other medicine has had so remarkable a success in curing diseases affecting the heart, liver and lungs, whenever these diseases, as is commonly the case, were caused by "weak stomach" and impure blood. Food imperfectly digested cannot be perfectly assimilated. "Golden Medical Discovery" restores the organs of digestion to perfect working order. Food must result in a foul body. The "Discovery" purifies the blood and increases the activity of the blood-making glands, so increasing the quantity and quality of the blood supply. It has been tried by over half a million people. It has cured ninety-eight out of every hundred who have tried it.

WHY NOT LET IT CURE YOU?

A Mild Insinuation. Father—What does that young popinjay hang around here for when he knows I don't want him to? Daughter—Because, papa, he likes to be with the person who does want him to.—Detroit Free Press.

A PROMINENT CHICAGO WOMAN SPEAKS. Prof. Ross Tyler, of Chicago, Vice President Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies, but I seemed to grow worse, and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy, and I found it was pleasant to take, and it relieved me at once. I am now entirely recovered, saved a doctor's bill, and suffering, and I will never be without this splendid medicine again." For sale by Ireland.

CHRISTMAS AT FORT BAYARD.

A Joyful Celebration for the Invalids at Sanitarium. If at any time in the year the soldier, and especially the disabled or sick soldier, longs for home and kindred, it is about Christmas. But the loss of this long cherished privilege was in a large measure compensated by the way he got his Christmas served up to him by the representatives of Uncle Sam at the soldiers' home and general hospital at Fort Bayard.

Upon the orders of the commanding officer, Major Appel, the valley farms in the vicinity forth their fat turkeys, their fine celery and their sweet cider, while the sea yielded up its live oysters on the half shell by the barrel, and the post baker, Mr. Millett, and the chief cook, Mr. Grannan, piled their latest and fullest arts serving fine cakes, roast fowls, fish, jellies, tropical and local fruits, cider, ice cream, etc., the joys from which will never be forgotten by the country's defenders.

The few children at the post were fairly surfeited with presents and good things from the hands of parents, from the commanding officer, Major Appel, and from friends. Christmas trees were decorated at the homes of Major Appel and Dr. Bullock, and also at the quarters of Sergeant Benninghoven.

The most soothing, healing and antiseptic application ever devised is DeWitt's Witch Hazel Salve. It relieves at once and cures piles, sores, eczema and skin diseases. Beware of imitations. Ireland's Pharmacy.

books and records to his successor, J. V.

emergency superintendent, and there can
be no doubt that his successor will en-
deavor to do equally as well.

This was the coldest morning this
winter, the thermometer indicating 1
degree above zero. The cold was felt so
much the more because the humidity of
the atmosphere the past few days has
been unusually high for this climate. A
Las Vegas thermometer on Monday
indicated 19 degrees below zero.

RAPHAEL LOPEZ.

Death Summons an Old and Respected Ci-
zen of Santa Fe.

Raphael Lopez, an old and respected
citizen of this city, died yesterday at 9
a. m. of a complication of diseases. De-
ceased was born in Agua Fria, five
miles from this city, on March 17, 1826,
and was consequently 74 years of age.
Early in life he engaged in mercantile
pursuits, and became wealthy and in-
fluential. A few years ago health failed
him, and his business establishment in
this city was destroyed by fire, proving
a total loss of about \$30,000, as he car-
ried no insurance. For many years he

litical circles in this territory. He was
the father of twelve children, the ma-
jority of whom are still alive, and are
among the good and respected citizens
of the city and county. Mr. Lopez was
in every respect a good man and citi-
zen, and in addition to his children and
many relatives the entire community
deplores his death, although he had
reached the allotted threescore and ten.
The funeral took place from the cath-
edral this morning at 9 o'clock, and was
attended by a large concourse of rela-
tives, friends and acquaintances of the
deceased, and of the large and influen-
tial Lopez family. Charles Wagner was
the funeral director.

"I Followed Mrs. Pinkham's Advice and Now I am Well."

A woman is sick—some disease peculiar to her sex is fast
developing in her system. She goes to her family physician
and tells him a story, but not the whole story.

She holds back something, loses her head, becomes agi-
tated, forgets what she wants to say, and finally conceals
what she ought to have told, and this completely mystifies
the doctor.

Is it a wonder, therefore, that the doctor fails to cure the
disease? Still we cannot blame the woman, for it is very em-
barrassing to detail some of the symptoms of her suffering,
even to her family physician. This is the reason why
hundreds of thousands of women are now in corre-
spondence with Mrs. Pinkham, at Lynn, Mass. To
her they can give every symptom, so that when she is ready
to advise them she is in possession of more facts from her
correspondence with the patient than the physician can
possibly obtain through a personal interview.

Following we publish a letter from a woman showing the
result of a correspondence with Mrs. Pinkham. All such
letters are considered absolutely confidential by
Mrs. Pinkham, and are never published in any way or
manner without the consent in writing of the patient; but
hundreds of women are so grateful for the health which Mrs.
Pinkham and her medicine have been able to restore to them
that they not only consent to publishing their letters, but
write asking that this be done in order that other women
who suffer may be benefited by their experience.

Mrs. Ella Rice, Chelsea, Wis., writes:

"DEAR MRS. PINKHAM:—For two years I was troubled with falling
and inflammation of the womb. I suffered very much with bearing-down
pains, headache, backache, and was not able to do anything. What I
endured no one knows but those who have suffered as I did. I could
hardly drag myself across the floor. I doctored with the physicians of this
town for three months and grew worse instead of better. My husband
and friends wished me to write to you, but I had no faith in patent medi-
cines. At last I became so bad that I concluded to ask your advice. I
received an answer at once advising me to take your Vegetable Compound,
and I did so. Before I had taken two bottles I felt better, and after I had
taken five bottles there was no happier woman on earth, for I was well
again. I know that your Vegetable Compound cured me, and I wish and
advise every woman who suffers as I did to try Lydia E. Pinkham's Vege-
table Compound. Believe me always grateful for the recovery of my
health."—MRS. ELLA RICE, Chelsea, Wis.

\$5000 REWARD
Owing to the fact that some skeptical
people have from time to time questioned
the genuineness of the testimonial letters
we are constantly publishing, we have
deposited with the National City Bank of
Lynn, Mass., \$5,000, which will be paid to
any person who will show that the above
testimonial is not genuine, or was published
before obtaining the writer's special permis-
sion.—LYDIA E. PINKHAM MEDICINE CO.
