## MIMBRES FLOOD

Body of Water Fifteen Feet High.

SEVENTY PERSONS WERE DROWNED

Ohio Democratic Convention Controlled by Johnson.

NOMINEE FOR GOVERNOR IS DYING.

Special to The Citizen.

Silver City, N. M., Sept. 2.—Reports have reached this city from the Mimbres river section of an enormous flood which came down that river the latter part of last week. All along the river bottom in the lower lands were hundreds of acres of fine fruit orchards, the finest in the west, and the flood which is stated upon good authority, was fifteen feet high. It swept everything before it, taking houses and orchards wherever they came in its path. Along on either side of the river were farms, mostly planted in corn, and some garden truck, which was all swept out clean. One man, named Anderson, who worked on a ranch of B. F. Gooch, was drowned and the only one reported missing at present time. A petition was circulated in this city today to raise money for the unfortunate Mexican farmers on the Mimbres, who were left destitute by having their crops swept away. Quite a good sum was raised which will be used in buying provisions for them.

The heaviest rains that ever have been known in this country have fallen in the past week, and while big floods have caused destruction to property all over, the grass in the surrounding section is six inches high and fairly shooting up.

## SEVENTY DROWNED.

A Great Loss of Life at Port Elizabeth, South Africa.

Capetown, Sept. 2.—It is now estimated that seventy persons were drowned in Delagoa bay during the storm which swept over Port Elizabeth yesterday.

Among the wrecked vessels is the British ship Incheper Rock, Capt. Ferguson, which arrived at Delagoa bay August 2 from Portland, Oregon. Part of her crew was saved.

## A Thousand Killed.

Paris, Sept. 2.—A dispatch received here from Fort De France says 1,000 persons were killed at Morne Rouge and Ajoupa Bullion during the recent volcanic eruptions in Martinique.

## OHIO DEMOCRATS.

Platform Will Be Dictated by Tom Johnson, of Cleveland.

Sandusky, Ohio, Sept. 2.—The presence of politicians from all parts of the state gives an animated appearance to the democratic headquarters at the West hotel and it is estimated that by the time the state convention gets down to real work tomorrow morning there will be no fewer than 2,000 visitors in town. Every arriving train today has brought its quota and every section of the state is represented.

The Buckeye state does not choose a governor this year, but a number of other important state offices, including those of secretary of state and judge of the supreme court are to be filled. Aside from the nominations, however, there is sufficient material to be found in the construction of the platform, the differences between the prominent party leaders and other elements of the gathering, to arouse a lively interest among the politicians. There appears to be no end to the number of committee meetings and side conferences being held today in hotel corridors and parlors, and some interesting developments on the convention floor promise to result. John L. Zimmerman, from Springfield, with a party of followers, is keeping busy pursuing a buttonhole campaign in the interest of his announced candidacy for governor next year. It is a noticeable fact that the delegates and party leaders are more absorbed in the discussion of gubernatorial candidates and questions of policy than in the nominations to be made tomorrow.

The name of John E. Straug, of Sandusky, is heard in connection with the nomination for secretary of state, but his is only one of numerous names mentioned and the make up of the ticket cannot be forecasted with any degree of certainty.

A much keener interest is manifested in the platform, on which the committee of resolutions is at work today. The platform will be in full accordance with the ideas of Mayor Tom Johnson,

and will contain a taxation plank endorsing a plan for uniform taxation of all property and advising a further extension of the Nichols law. There will also be a denunciation of trusts and combinations which tend to prevent competition, and the work of the last legislature will also come in for a scoring.

The convention will be called to order at 9:30 o'clock tomorrow morning in the Cedar Point assembly hall, which has been elaborately decorated for the occasion both inside and out.

The temporary officers will be: Chairman, Tom L. Johnson, Cleveland; secretary, William H. Tomlinson, Dayton; sergeant at arms, W. H. Williams, Columbus.

## Nominee Dying.

Flint, Mich., Sept. 2.—At 7 o'clock this morning George Durand, democratic nominee for governor, who was stricken with paralysis yesterday evening due to cerebral embolism, was conscious, but unable to speak. His physicians say he might live forty-eight hours, but his recovery almost impossible.

## ADDICKS FACTION.

Will Probably Support William M. Byrne for Congress.

Dover, Del., Sept. 2.—In accordance with their decision not to support Dr. L. H. Ball, recently renominated for congress by the "regular" republicans, the "Union" republicans or Addicks faction are holding a state convention in Dover today to agree upon an opposing candidate. Sentiment among the party leaders appears to favor the nomination of William M. Byrne, now United States district attorney for Delaware. Mr. Byrne, until recently, was regarded as a "regular" republican, and was appointed United States district attorney upon the recommendation of Colonel DuPont. Recently, however, he has won the favor of the Addicks faction by advocating the election of two senators, even though Mr. Addicks should be one of them.

## National Veterinarians.

Minneapolis, Minn., Sept. 2.—The foremost veterinarians of the United States and Canada are attending the thirty-ninth annual convention of the American Veterinary Medical association, which began its sessions today at the West hotel. Two days will be spent in discussing various matters of interest to members of the profession and the convention will be brought to a close with a banquet at Lake Minnetonka.

## Physio-Medics Meet.

Columbus, Ohio, Sept. 2.—The Ohio Physio-Medical association began its annual convention at the Great Southern hotel today with a large attendance of members from the leading cities and towns of the state. The officers in charge of the convention which continues its sessions two days, are: George W. Flory, M. D., Dayton, president; T. J. Lyle, M. D., Salem, secretary, and G. B. Scott, Hamilton, treasurer.

## LOCAL PARAGRAPHS.

Miss Olive Fleming has returned from a two weeks visit with friends at Helen.

Miss Maude Hale, who has been quite ill for the past three weeks, has entirely recovered.

Miss Mabel Hall has recovered from a severe illness and is again to be found at her position at Hall & Learner's music store.

R. B. Mudge, day clerk at the Alvarado, has gone to Las Vegas for a couple of weeks vacation. A. E. Lake, substituting in that position during Mr. Mudge's absence.

H. C. Turner, general manager and auditor of the Alabama & Mississippi railroad, and manager of the Vinegar Bend Lumber company, is in the city from Vinegar Bend, Ala., and will remain a short time.

Supt. Stroup will be in his office at Central school building Friday afternoon from 2 to 5 o'clock, and Saturday all day, to talk over school matters with any pupil in doubt about his work, also to give examinations to those requiring them.

## All Sorts of Ways May Be Good.

There are various ways, practiced by different peoples, for teaching young horses the unwelcome lessons of submission, obedience and toil. The cowboy's way is probably the most quickly efficient, as it is the roughest. He simply fights the beast to a finish. The Gaucho of Uruguay, whose profession is analogous to that of the cowboy, goes at the work in very different style. He does not awaken the animal's obstinacy, but persuades him gently. It is no doubt a good way if one has time for it. Anyway, the Gauchos with Buffalo Bill's Wild West show themselves superb horsemen. If they were not they could not be there. The Wild West will be seen here on October 3.

## A DESPERATE MAN

Fifteen Wounded Trying to Subdue Him.

BOLD ATTEMPT TO ROB A BANK.

France Sends Warships to Island of Guadalupe.

DEMOCRATIC MAJORITY.

New York, Sept. 2.—Jerry Hunter, a negro who shot a number of policemen and set fire to his house in Queen's Borough last night, in an effort to escape arrest, was captured early today and locked up in the Astoria jail. In the fight between Hunter and those who tried to arrest him, eleven policemen, three citizens and Hunter's wife were wounded. Mrs. Hunter, who helped her husband in his efforts to escape, was taken to the hospital, where she was said today to be in a serious condition. Hunter was badly beaten in the struggle when he was caught. John McKenna, a patrolman, was shot in the head and face. Both eyes were destroyed and the wounds in his head were so serious that recovery is doubtful. The citizens wounded were men who had been called upon by the police to aid in subduing Hunter.

Hunter was employed as care taker of a large tract of land near North Branch, L. I. Yesterday he saw a man digging sand worms on the property and he shot at the intruder, who ran away and told. Policeman McKenna what Hunter had done. McKenna ran to Hunter's home and was shot by the negro. The police reserves were called out then, and a siege began, which lasted until after 2 o'clock this morning. Every time a policeman moved from cover, a shot would be fired. Fortunately for the police, Hunter seemed to have only a shot gun. Shortly after 2 o'clock this morning Hunter set fire to the house and tried to escape. Hunter ran for a patch of woods near the house, was caught and subdued after a severe struggle in which he was badly wounded.

## BOLD ATTEMPT.

Two Masked Men Tried to Rob a Bank.

Kansas City, Sept. 2.—At 3:30 o'clock this morning an attempt was made by two masked men to rob the Metropolitan Street Car bank at Tenth and Osage streets, Armourdale, Kas. Watchman Minsker was ordered to hold up his hands and was taken inside the office but before the robbers secured any booty, Policeman Morris entered through the back door. Morris dealt one of the robbers a heavy blow on the head with a club and was shot through the heart and instantly killed by the other robber. Watchman Minsker was also shot and slightly injured. Both robbers made their escape.

Ike Johnson, a negro, well known to the police, is being held for investigation.

## WARSHIPS SENT.

French Government Acts on the Eruption of Pelee.

Paris, Sept. 2.—Minister of Marine M. Peletan, in view of the further eruptions of Mont Pelee, has ordered the commander of the French Antilles squadron to send warships immediately to Basse Terre, Island of Guadalupe, there to await further orders.

The minister of colonies received today a dispatch from the governor of Martinique reporting a slight earthquake shock August 25, and adding the same night and next morning violent eruptions of Mont Pelee occurred at Morne Rouge. This activity continued until August 28, when the volcano seemed to calm down. The dispatch does not mention any loss of life.

## Democrats Carry Arkansas.

Little Rock, Sept. 2.—Partial returns received up to this morning indicate the election of the democratic state ticket by a majority ranging from 35,000 to 45,000.

## ROSE A CANDIDATE.

Mayor of Milwaukee Wants to Be Governor.

Milwaukee, Wis., Sept. 2.—Delegates by the score have been arriving constantly today to attend the democratic state convention which will be called to order here tomorrow morning. The democrats are firmly convinced that they have more than a fighting chance to win this year and as a consequence extraordinary interest is manifested

in the convention. Though once divided on the silver issue, the democratic party in Wisconsin may be said to be now united and there is a determination to take advantage of the situation in the republican party, whose ranks in the state are hopelessly divided by the refusal of the state administration to endorse Senator Spooner for re-election.

Mayor David S. Rose, of Milwaukee, who is regarded as possible democratic vice presidential timber in 1904, is considered the leading candidate for the gubernatorial nomination. The fact that there are six other candidates, including such prominent party leaders as former Senator Vilas and National Committeeman Edward C. Wall, is regarded as likely to aid in the nomination of Mayor Rose. His managers today declare that he will be named on first ballot. The nature of his campaign speeches is practically decided upon, and in addition to references to the national issues it is understood that he will make the republican state administration's treatment of Senator Spooner one of the strong arguments. He will also feature the school book scandal.

## Hawkeye Firemen Gather.

Davenport, Iowa, Sept. 2.—This city has capitulated to the host of blue-coated fire ladders who are here from many cities of the state in attendance on the annual meeting and tournament of the Iowa State Firemen's association. A program continuing through Friday has been arranged, the various features including a parade and numerous racing contests.

## MALICIOUS FALSEHOOD.

Las Vegas Optic Called Down by Col. Twitchell.

## SLANDER UPON A GOOD BOY.

Special to Citizen.

Las Vegas, Sept. 2.—The statement in the Optic that Jimmie Cosgrove did not play fair ball for Vegas is a malicious, contemptible falsehood and does not express the sentiment of the people of this city nor my team. Cosgrove is a gentleman and needs no endorsement from me.

R. E. TWITCHELL,  
Manager Las Vegas Team.

The many friends of James Cosgrove throughout the territory will feel very badly to learn that he has been thus accused, and all who know the young gentleman will refuse to believe the charge. He is an Albuquerque boy, born and reared, and has never been known to do a dishonest or unmanly act in his life. As a ball player, he is the best first baseman in the southwest, and the two errors charged to him were neither costly or rank. The only tally made in the game by the Las Vegas team was driven in by him with a clean cut single to left field. His playing was not up to his standard on Sunday, but this was caused from over-anxiety to make a good showing, and happens at times to the best ball players in the business.

It would be just as fair to accuse Charley Rhodes of throwing the game as it is to accuse Cosgrove, for twice did Charley fall when a hit probably meant the game, once in the fifth inning with three men on bases and in the ninth with third occupied. Both times he struck out. This was caused from over-anxiety. And James Cosgrove is just as honest as this young man, who all of Las Vegas swears by.

Of the three tallies made by Santa Fe only one was earned, the other two being due to errors by Hale, Tipton and Rhodes.

## AUTOMATIC CATERING.

Slot Machines Have Jumped Into Great Public Favor.

London, Sept. 2.—The automatic refreshment buffet opened a week ago at Charing-cross garden has jumped into public favor at one bound, its success being so pronounced as to warrant the prediction that it may soon be the common thing for the inner man to be refreshed through the medium of the slot machines. The catering machines represent the highest state of development in the familiar penny-in-the-slot. Three pennies put into the slot instantly produce a teapot, cup, saucer, sugar bowl and cream jug, leeks, coffee, rolls and butter, sandwiches and even portions of plum pudding are served in the same way, everything appearing in its appointed place as the pennies fall and all scrupulously clean. The advocates of the new method declare in its support that it insures the quickest possible service and absolute cleanliness. Another thing in its favor, appealing more to the British than the American public, is the fact that it abolishes the tip system.

## TOO REALISTIC

One Person Killed in the War Game.

FATAL WRECK ON THE ROCK ISLAND

President Roosevelt Answered His Critics on Trusts.

POSTMEN APPOINTED COMMITTEES.

Fort Wright, Fisher's Island, N. Y., Sept. 2.—During the engagement with the fleet off here this morning a 12-inch breech-loading rifle in the fort went off prematurely, instantly killing one private and seriously injuring two others. The one who was killed was literally blown to pieces and one of his arms hit another private in the chest with such force as to inflict severe injuries.

After the midnight engagement the fleet anchored back of Fort Terry, passing to the eastward. About 6 o'clock this morning the guns at Fort Wright again fired upon them, the accident by which the men were injured occurring at this time.

## Firing Again.

New London, Sept. 2.—Heavy firing was again heard this morning from the guns of Fort Michie on Gull Island and Fort Terry. From the light-house here several war vessels could be seen attempting to pass forth to the westward.

## MANY CATTLE KILLED.

Four Trainmen Killed in a Rock Island Wreck.

Kansas City, Mo., Sept. 2.—An east bound Rock Island cattle train and engine and caboose collided near Birmingham Mo., last night, killing four trainmen and injuring three others. The dead are James Speyer, engineer; Thomas Griffith, trainman; Clarence Manhart, fireman and C. W. Ballinger, fireman. The trains were running at full speed. Both engines were demolished and the entire train of thirty cars was overturned. Nearly 300 head of live stock were killed.

## ANSWERS HIS CRITICS.

President Roosevelt Devoted One Speech Exclusively to Trusts.

Fitchburg, Mass., Sept. 2.—The first important stop by President Roosevelt after he had resumed his travels through Massachusetts today was at this city, where he found the people keeping a general holiday. A stop of one hour was made and the president delivered an address. The president had a restful night at Northfield, and took the train at 8:20. The first speech of the day was at Miller's Falls, where a crowd had gathered. The president expressed pleasure at meeting three members of the Second Massachusetts regiment which served with him in Cuba.

At Athol and Gardner speeches were made. At Taylor fully 10,000 people greeted him. Hundreds of flags were everywhere in evidence and as the president ascended the platform a number of college boys gave the college yell.

At all of the places where stops were made, the president spoke upon the necessity for good citizenship in order to be successful in life. President Roosevelt in his address at Fitchburg, devoted himself almost exclusively to trusts, which he intended as an answer to his critics.

## Dalton Is Ready.

Dalton, Ind., Sept. 2.—Dalton has donned her best bib and tucker in anticipation of the coming of President Roosevelt, who is scheduled to arrive here this evening. The visitor will be driven immediately to the home of Governor Crane, where he will remain over night. Tomorrow morning he will drive through the main streets to Pine Grove Park, where he will make a public address. The day will be practically a holiday in Dalton. Stores and factories will be closed and all their employees given an opportunity to see the president. In the afternoon the party will proceed to Lenox and from there to Stockbridge, where the presidential train will await them. The day's ride will be through the most picturesque section of the Berkshire hills.

## Glass Works Resumes.

Elwood, Ind., Sept. 2.—The plant of the Central Bottle and Supply company in this city went into blast today under the management of new owners, all of them local men. The season

promises to be an unusually prosperous one as nearly all of the product of the fire has already been ordered. During the shut down a new six ring tank was installed and other improvements made which increases the number of employees to more than 200.

## Committees Appointed.

Denver, Colo., Sept. 2.—The National Association of Letter Carriers met in Coliseum hall this morning. The usual committees of organization were appointed and a recess taken till afternoon.

## Will Work a Double Shift.

Vincennes, Ind., Sept. 2.—The Vincennes Independent Window Glass works resumed operations today after a three months' shut down. The announcement is made that the company has enough orders on hand to compel night and day work for many months to come.

## FEVER DECREASING.

Where the Authorities are Fighting the Peaky Mosquito.

London, Sept. 2.—The official report on the British Central African protectorate, which has just been published by the foreign office, provides some suggestive evidence as to the degree in which the so-called malarial fever may be expected to disappear as the result of the most careful preventive measures based on recent knowledge. Systematic experimenting conducted in certain sections of British Central Africa lead to the conclusion that the fevers have been rendered much less prevalent where the mosquitoes have been exterminated by pouring small quantities of petroleum on the stagnant waters of the locality.

## Socialists State Ticket.

Davenport, Iowa, Sept. 2.—About fifty delegates representing various parts of the state are attending the socialists convention in session here. An entire state ticket is to be placed in nomination.

## ROYAL QUARTERS.

Antelope Springs Property Has Been Handsomely Fitted Up.

W. T. McLaughlin has returned from a business trip along the line of the Santa Fe Central. Mr. McLaughlin says that the Antelope springs property, which was recently purchased by the Pennsylvania Development company, has been fixed up in great style. Large broad verandas have been built on three sides of the old house and two new bath rooms have been added on the south. The buildings have been thoroughly renovated, repapered and painted. The house has been elegantly furnished and will be used as a plains headquarters for the officials of the new road.

The Antelope springs homestead is one of the oldest on that side of the mountains and some good stories can be told about the happenings that have occurred there.

## Prof. Walker's Solo.

The singing of Prof. John Deeblass Walker at the Congregational church last Sunday morning was much appreciated by those present. Prof. Walker is the possessor of a well trained tenor voice which he controls with much skill. His manner is altogether pleasing, and his singing has that charm and grace characteristic of one who sings from the soul. Mrs. Walker played a delightful accompaniment. The school of music is fortunate in securing Prof. Walker as its director.

## Goes to Jail Again.

Ex-Dog Catcher George is in hard luck. About a month ago he stole some chickens, for which offense he lost his official job and got thirty days in the county jail. Last Friday morning he finished doing the thirty and gained his liberty. But it seems that George is stuck on the county jail diet if he doesn't get chicken every day. George went home Friday morning to see his better five-eights, Bettie. Bettie wasn't at home and George got so mad that his eyes grew as big as saucers, so Bettie told Judge Borchert this morning. George's temper broke loose on Bettie's appearance and he proceeded to carve the good old soul who when times were good, had cooked his many chicken dinners. The ex-dog catcher had a knife and a hatchet, but did no more damage than to get himself in jail again to await the sitting of the grand jury. His bond was fixed at \$200 and he couldn't give it.

## Prof. Walker to Assist.

Music lovers will not only have the pleasure of hearing Miss Albright in her concert next Tuesday night at Colombo hall but Prof. John Douglas Walker as well. Prof. Walker is the new head of the school of music of the University and is the possessor of an exquisite tenor voice. This will be his first appearance in concert work here.

## BURNED THE MINE

Strikers Applied the Torch in Virginia.

NON-UNIONIST SHOT IN THE EYE.

Two Workmen Were Assaulted and Beaten.

TROOPS WERE NOT INTERFERED WITH.

Bramwell, W. Va., Sept. 2.—The great mines of the Pocahontas colliery company are on fire. This morning strikers applied the torch to various portions of the mine near the west entrance, which is on the Virginia side and the mine is now said to be burning furiously.

The guards and strikers fired volley after volley at each other, but at this hour it is not known whether anyone was killed. The governor of Virginia will be appealed to, to send troops to Pocahontas at once.

## Shot in the Eye.

Hazleton, Pa., Sept. 2.—John Harvilla, aged 34 years a non-unionist employed as coal hauler at Beaver Meadow colliery of Cox Bros. & Co., was shot in the right eye this morning while attempting to drive away unknown parties who bombarded his house with stones. Harvilla leaned out of the window to see what direction the attack came from. As he did so some one fired and one of the shots lodged in his eye which was later removed at the miners' hospital.

## Last Shipment.

Pottsville, Pa., Sept. 2.—Another train of cars loaded with anthracite coal left today from Silver Creek shaft near New Philadelphia, owned and operated by the Philadelphia & Reading Coal & Iron company. Strike leaders claim to have information this is the last coal to be shipped from this point until the strike is called off.

## Two Were Assaulted.

Wilkesbarre, Pa., Sept. 2.—Richard Roberts, a mine driller and John Devitt, a machinist, employed by the Lehigh Valley Coal company at No. 41 colliery, were attacked by four men while on their way to work today. Roberts was struck on the back by an iron bar and Devitt had a miner's needle run through the fleshy part of the leg. The injured men called for assistance when the assailants fled.

The C. D. Bliss mine of the Delaware, Lackawanna & Western company at Nanticoke was put in operation today. A large quantity of coal is said to have been run through the breaker. The company officials say a large number of miners are cutting coal, but the strikers deny this.

## Not Interfered With.

Tamqua, Pa., Sept. 2.—This morning company C, Twelfth regiment, escorted the non-union men in Panther Creek valley to work without being interfered with. The Lehigh Coal & Navigation shops, which have been idle for two months, resumed work.

## Boston Wool.

Boston, Mass., Sept. 2.—Business in the wool market is practically along the same lines as last week. Large consumers are amply supplied and call has been almost exclusively confined to small lots. Prices are very strong and few advances are being obtained though very slowly. There has been a fair trade in territory wool. Fine staples are quoted at 50¢@50¢; strictly fine, 53¢@55¢; fine and fine medium, 50¢@52¢; medium, 43¢@46¢. Fine fleeces continue especially strong.

## Base Ball at the Fair.

The Teritorial fair to be held in Albuquerque October 14 to 18 inclusive, at this date promises to eclipse by long odds any of their previous efforts. The base ball games will be particularly interesting, and Las Vegas should make an effort to send a team this year. Albuquerque will have some of the fastest base ball men in the business. Frank Chance will do the catching, Jimmy Callahan, Jack Taylor and Rubie Waddell will officiate in the box. Dick Cooley, Larry LaJole and Jimmy Williams on the bases, with George Davis at short, and Hartsell, Green and Bay in the outfield. This makes up an aggregation that will be hard to beat. El Paso, not to be outdone, is at present negotiating for the famous Pittsburgh team intact, to represent them, so that the class of base ball at this year's fair will be quoted in all of the leading newspapers of the country. This will be a decided feature, and will be worth going many miles to see.—Optic.

For Delegate to Congress  
B. S. RODEY.

Republican precinct primaries will be held in this county next Saturday.

The Winslow Mail has been greatly improved, and shows decided signs of prosperity.

San Juan county will have one hundred wagon loads of exhibits at the territorial fair.

The public schools of New Mexico begin this month and will show largely increased attendance.

San Juan county will hold a successful county fair at Farmington on September 17, 18, 19 and 20.

Col. J. F. Wilson, of Prescott, will be the democratic nominee for delegate to congress from Arizona.

There are thirty-eight forest reserves in the United States, embracing forty-six millions acres of land.

The first thing Las Vegas must do to become a political center is to quit sending divided delegations to territorial conventions.

The democrats are not short of good congressional timber. This city has several democrats deserving of the honor of a nomination.

Within a few years the Rock Island will have branch roads from the main line in this territory to Las Vegas, Albuquerque, Socorro and Las Cruces.

The Citizen again wishes to remark that Delegate Rodey will be nominated by acclamation at Raton. He deserves that much at the hands of the republicans of New Mexico.

Las Vegas deserves to have a National league base ball team at the territorial fair. That city has the most enthusiastic crowd of base ball rooters to be found anywhere.

Bernalillo and Valencia counties give nearly all the republican majority in New Mexico. This is why these two counties should have something to say about republican politics and candidates.

"I notice," says the Alfalfa Sage, "that the little countries are the ones that are constantly assuming the most threatening and warlike attitude. It is the same way with small dogs, and diminutive men."

"Col." Wm. Berger, not satisfied with his record as a crude and chronic fall-sifter in New Mexico, has gone to Denver, where he prevailed upon Walter Davis to elaborate his political pipe dreams in the Post.

Granite is the lowest rock in the earth's crust—it is the bed rock of the world, and shows no evidence of animal or vegetable life; it is the parent rock from which all rocks have been either directly or indirectly derived.

The republicans of Arizona are somewhat in the position of the democrats of New Mexico. All the prominent republicans in that territory mentioned for delegate to congress are anxious that the other fellow should run.

Col. Sellers, of San Juan county, is a much more practical man than his namesake, Col. Mulberry Sellers. Our Colonel Sellers expects to make millions by the development of San Juan county, and he will do it when the Albuquerque-Durango railroad is built.

Judge A. A. Freeman, of Carlsbad, is a reliable republican. He is somewhat of a chronic kicker because he smokes an old black cob pipe, which keeps his

liver in bad condition. The Citizen happens to know that the judge is a much better man than appears on the surface.

The taxable property of Luna county for this year is \$1,396,673.65, an increase of \$112,265 over last year.

Canada has a practically untouched forest three or four thousand miles long and seven hundred miles wide.

Preparations are being made for the coming of \$250,000 per month in subsidiary silver for the Philippines at the San Francisco mint.

Sixteen thousand, four hundred laborers on an average find employment daily at the docks and principal wharves in London.

They are already beginning to heap abuse upon Charley Spies, one of the territorial papers asserting that he is Catron's candidate for congress.

The postoffice department uses a considerable quantity of string in the course of a year. With rigid economy it can get along with 20,000 pounds.

If the democrats want to nominate a candidate who will stir up things they should combine on W. S. Hopewell. He would make Rodey stay up nights during the campaign.

The manner in which the president and the conventions of his party are handling the trust question will render it difficult for the democracy to find an issue in that subject.

There will be 135 delegates in the Bernalillo county convention, which is called to meet in this city September 13. The two precincts in this city will have forty-two delegates in that convention.

### COMPLICATED CASE.

The saloons at Santa Fe are kept closed on Sundays—that being a holy and judge fearing town. Last Sunday a crowd of thirsty excursionists from Albuquerque and Las Vegas broke into one of the saloons and put barkeepers in charge and bought the whole stock of liquor on hand. So there you are, and who is to be indicted?

### STOPPED THE ROW.

It took a big washout at Silver City to stop the row between the two newspapers. It is probably true that the press is somewhat like women, who in their hours of ease are coy, uncertain and hard to please, and variable as the shade, but let a great trouble come to the community and all bickering on the part of the newspapers at once ceases and they stand shoulder to shoulder for the common good. The Citizen has regretted the newspaper controversy at Silver City, and hopes that the good feeling now prevailing between the papers of that place will be kept up.

### HOW TO ADVERTISE.

John Wamaker, who is both an advertiser and a newspaper publisher and therefore competent to speak from either standpoint is credited with the following: "There is only one way to advertise, and that is to hammer your name, your location, your business, as constantly, so persistently, so thoroughly into the people's head that if they walked in their sleep they would constantly turn their faces toward your store. The newspaper is your best friend in spite of your criticism. It helps to build up the community that supports you. When the day comes that the newspapers are dead, the people are near the edge of the grave with no one to write their epitaph."

### THE AMERICAN FARMER.

The American farmer is the greatest man in the world. A "combine" with a capital of one billion dollars is a great thing because it is a combine, but one billion dollars relatively to the capital of money, brain and brawn in this country is not at all a great thing. Figures simply stagger and fall down when the attempt is made to represent the real foundation wealth of America which is agriculture.

We are all, when we attempt to contemplate that wealth, very much in the position of the fishman who had to look several times in order to see the tall building—taking it little by little. One section of the view is the information, entirely accurate, that the farmers of Minnesota and the Dakotas have received \$300,000,000 for their products this year. Another is that the corn crop of the state of Kansas this year will be 260,000,000 bushels. Still another, that \$1,000,000 is the lowest estimate, fell in one soaking rain in the single territory of Oklahoma the other day—the rain having checked the growing menace of a fortnight's dry spell. In a single year the milk cows of the United States yield a product equal in value to one-half of the capital of the steel trust—and there are more cows at the beginning of the new year than there were before.

#### A Communication.

Mr. Editor—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. Brockman, Bagwell, Mo. This remedy is for sale by all druggists.

#### Cheap Colonist Rates.

St. Paul, Minn., Sept. 2.—Colonist rates identical with those that brought 102,000 settlers to the northwest during the spring went into effect again yesterday. Under an agreement among the Northern Pacific, the Great Northern, the Soo and the lines through the Omaha gateway special fares are to be offered every day during this month and next to Spokane, the Kootenai district and other points in the Pacific northwest.

### PROSPECTOR MURDERED.

Tortured to Death in Order That He Might Reveal His Money.

A report has been brought to this city to the effect that George W. Wilkins, who is somewhat known in El Paso and about Tularosa, N. M., had been found dead in the foothills of the Sierra Madre in Sinaloa, about thirty miles from the Chihuahua line, says the El Paso Herald.

The report states that the dead man's feet and hands had been terribly burned and his face showed that he had endured great agony before death relieved him. Around the neck was a dark mark indicating that he had been choked.

It seems Wilkins had left Urique on a prospecting trip and with considerable money with him, and his Mexican guide cannot be found.

#### Fortune Favors a Texan.

#### Shocks Alarm Carrizozans.

A special to the Denver News from Captain, N. M., says that the train crew running between that place and Carrizozo, who put the night in at the latter place on coming in told a harrowing experience Sunday night. According to their story, Carrizozo was visited by a series of seismic shocks Sunday night, which greatly alarmed the residents of that place. Three distinct shocks were felt, which lasted for from fifteen to thirty seconds. Fortunately they were very light, no damage whatever resulting.

Early in the night loud rumbling sounds were heard, resembling distant thunder. These at first created no apprehension, but as the night advanced the detonation increased in volume and great fear began to seize the inhabitants of the place.

#### Beware of the Knife.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unequaled for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips, Paris, Ill. "DeWitt's Witch Hazel Salve cured me in a short time." Soothes and heals. B. H. ### CONGRESSMAN DROPS DEAD.

While Talking With Friends He Suddenly Pitched Forward and Passed Away.

Representative D. C. De Graffenreid, of Texas, dropped dead at 10:30 o'clock Friday night in the lobby of the Riggs house, Washington, D. C. He had been slightly indisposed for a few days but his condition was not thought to be serious. While talking with friends he suddenly pitched forward to the floor. He was removed to his apartments, but death ensued before reaching his room. The physicians said he had ruptured a blood vessel. De Graffenreid would have left Washington that day for a stump speaking tour of West Virginia. He had recently announced himself a candidate for member of the isthmian canal commission. He leaves a wife, who is now in Washington.

Cured Hemorrhages of the Lungs. "Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Sold by Alvarado Pharmacy.

#### DEATH OF ROUAULT.

Son of Theodore Rouault, of Las Cruces, is Dead.

After fighting for four long weeks against typhoid fever, Ernest, second son of Theodore Rouault, succumbed to one of the rare complications of the disease, namely perforation of the small bowel, which immediately caused peritonitis to ensue.

Operative measures were instituted, one of the best surgeons of the southwest, as well as two local physicians doing their utmost to tide the patient over the crisis, but the dread disease was of too virulent a type to be conquered.

On Wednesday evening fortified with the last holy rites of the church Ernest peacefully gave up his soul to his Maker.

The subject of this notice was deservedly popular with his teachers and fellow students and gave promise of an unusually bright future, and while it is most regrettable that he should have been cut off in the days of his youth, yet it may be said of him that "being made perfect in a short space he fulfilled a long time; for his soul pleased God."

The funeral took place Thursday morning to the Parish church, where a

That means rich hair, heavy hair, no gray hair. Is yours thin, short, gray? Just remember, Ayer's Hair Vigor always restores color to gray hair, all the dark, rich color it had years ago. It stops falling of the hair, also. Has been tested for 50 years.

solemn requiem high mass was celebrated by the curate for the repose of his soul. Rev. Father Lussigne sang the Libera and pronounced the absolution. The interment took place in the Catholic cemetery, a long cortege wending its way to the last sad rites. Requiescat in Pace.

#### A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully, and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy, and this time one dose cured me." For sale by all druggists.

## PRICE'S BAKING POWDER

### Is the Most Economical

Greater in leavening strength, a spoonful raises more dough, or goes further.

Working uniformly and perfectly, it makes the bread and cake always light and beautiful, and there is never a waste of good flour, sugar, butter and eggs.

While it actually costs less to make a batch of biscuit with the Price Baking Powder than with the so-called cheap powders, there is the additional advantage of better and more healthful food.

PRICE BAKING POWDER CO., CHICAGO.

NOTE.—Alum powders should not be used, no matter how cheap they are. They induce dyspepsia, liver complaint and kidney trouble.

THE MAN WITH THE BIG HEAD—Go 'way! Git out! I'm sick! I want to die! THE MAN WITH THE LEVEL HEAD—Ah, you old sinner! No rest for the wicked! You will go on a bat while your wife is in the country, will you? You ought to suffer! But why didn't you do as I told you when I left you last night, and as I did myself: take a CASCARAT Candy Cathartic before going to bed? You'd feel good like I do. They work while you sleep, fix up your stomach and bowels, cool your feverish liver, and make you feel fine and dandy the morning after.

## DEATH FROM HERNIA.

Griffith M. Roberts Dead at Las Vegas—Politicians on the Go.

### NEWSY PERSONAL PARAGRAPHS.

#### Special Correspondence.

Las Vegas, N. M., Sept. 1.—It was with infinite sadness that the friends of Griffith M. Roberts, and they were legion, learned yesterday of his succumbing to the grim hand of death at his home on Railroad avenue. Mr. Roberts died at 9:25 yesterday morning, after passing a night of suffering. He was unconscious when he passed away, but sometime before was conscious and made the plans for his funeral, told his wife how to arrange his business matters and bid some of his friends good bye.

Mr. Roberts had been sick about a week, he giving up work a week ago tonight, and went home and to bed. He had been a sufferer with hernia for some time, and the rupture became acute, necessitating an operation last Wednesday. He rallied after the operation, but could not gain strength. Another operation was performed Friday for an obstruction of the bowels, but little benefit was derived. His suffering at times was intense, but he bore it bravely and made a brave fight for life.

Mr. Roberts was born in New Cambria, Mo., but had for many years been a resident of Las Vegas. He was at one time on the police force of Las Vegas, but had for the last three years been a faithful employee of Essinger & Judel. He was at one time chief of the fire department here, and at the time of his death held the important office of esquire in the Benevolent Protective Order of Elks. There are few men in the city who had as many friends as "Griff." He was familiarly known and as well liked as he was well known. His death takes away a friend from many. Mr. Roberts was particularly kind to newspaper men, he aiding them nearly every day in their work of gathering the news. Mr. Roberts was of Welsh descent and was 43 years old. The funeral services were held this afternoon at 2 o'clock at the family residence, Rev. George Selby conducting the services. The Elks lodge turned out nearly their full membership, who were in the city, to do honor, a last sad one, to their comrade. The Las Vegas military band accompanied them on their march to lay at rest, in the Masonic cemetery, their old friend and companion. The funeral was a very large one, and the floral emblems beautiful.

JOY OVER RAIN.

Farmington District Welcomes a Deluge that Breaks the Long Drought.

The past few days this section has been visited with the heaviest rains for several years, says a Farmington dispatch to the Denver News. All summer a terrible drought has held this section in its territory, but when the rains came it was with such rapidity that considerable damage was done, although gladly welcomed by all.

At Flora Vista the public school building was completely demolished by the waters from an arroyo that left its old bed and placed the school house in the center of its newly-selected course.

As the daily stage to Durango was going north Saturday with Henry Newton as driver they came to an arroyo

that usually is dry, but on this occasion was running a considerable volume of water, but apparently not too much to ford. He drove in and found that where the road had formerly been a hole fifty six feet deep had been washed out. When the stage struck this it went over and the driver and two passengers found themselves in the water. The mail sack and much fruit aboard was carried away, as was also a satchel containing \$250 belonging to Mr. Harris, one of the passengers. A search party returned the next morning and found the mail sack and a part of the fruit, but the satchel is still missing.

All the rivers are full, but most of the irrigating ditches of the county have been badly damaged by the floods and are not carrying water, but no crops are suffering, as the ground was well soaked up by the rain.

A Boy's Wild Ride for Life. With family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for consumption, cough and colds, W. H. Brown, of Leesville, Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night. Like marvelous cures of consumption, pneumonia, bronchitis, coughs, colds and grip prove its matchless merit for all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at all drug stores."

A GOOD SUGGESTION. The People of Deming and the County Should Act at Once. In an interview with J. H. O'Reilly, president of the twenty-second territorial fair, to be held at Albuquerque on October 14 to 18, he said that the fair association wishes it distinctly understood that the fair is exactly what the name indicates—a territorial fair, and of territorial interest and benefit. While most of the members of the association reside in Albuquerque, they invite and solicit the cooperation of all citizens interested in the welfare and progress of New Mexico. He referred particularly to Luna county, and of the showing it could make in minerals and fruits, and of the results it would bring by placing this, the youngest county in the territory, before the people of the United States.

We suggest that the county commissioners make an appropriation and select one man to collect an outfit that will be representative of our products. If this cannot be done, it would be an easy manner to raise \$200 by subscription among the business men of Deming.

Why not this matter be taken up by the Business Men's association? There is certainly no better way to advertise our county and town than in the manner above suggested.—Head Light.

IT'S IMPOSSIBLE. To Disprove Facts—it is Decidedly Easy to Verify Albuquerque Opinion. Nothing by way of an introduction could be added to the experiences and opinions given below, which could increase their value. Albuquerque people can safely be left to draw their own conclusions based on such convincing proof as this citizen offers. What is there lacking in evidence like this to satisfy a dyed-in-the-wool doubting Thomas?

Mrs. M. J. Butler, (M. J. Butler, night watchman in the Santa Fe shops), residence, 717 East street, says: "When I went to the Albuquerque Pharmacy for Doan's Kidney Pills I had an attack of backache. It was only one of many which had annoyed me for two or three years. At first they were mild and I expected they would leave just as mysteriously as they came, but with the passing of time the attacks were more frequent and of longer duration. I used three boxes of Doan's Kidney Pills and was rewarded with an entire cessation of the aching. Up to date, and it is considerably over six months since I stopped the treatment, there has not been a sign of any recurrence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

## THE LUMBER MILLS.

B. F. Cobb, a Chicago Expert, Visits the Mitchell Tract.

B. F. Cobb, editor of the Chicago Lumber Review and one of the leading timber experts in the country, was here yesterday on his way to the Mitchell tract owned by the American Lumber company. Mr. Cobb says the big mills will be built without doubt and he favors building them here if conditions warrant. If the mills are built on company ground, there will be no expense for the site and Mr. Cobb believes Albuquerque should furnish the site. He believes in the future of Albuquerque and personally favors the building of the mills here.

## FAKE HAIR PREPARATIONS.

Do Hair No Good, But Often Cause It to Fall Out.

Many hair preparations are "fake" because they are merely scalp irritants. They often cause a dryness, making the hair brittle, and, finally, lifeless. Dandruff is the cause of all trouble with hair. It is a germ disease. The germ makes the scalp scales as it digs to the root of the hair, where it destroys the hair's vitality, causing the hair to fall out. To cure dandruff, the germ must be killed. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills the dandruff germ, thereby leaving the hair to grow luxuriantly.

## SCHOOL BOARD.

Large Amount of Business was Transacted Last Evening.

The school board last night transacted much business. The superintendent reported all teachers in the city and that all buildings have been cleaned and are in excellent condition.

The salary of Miss Fitch, who this year will be in the high school, was a bone of contention. A motion to make it \$75 a month was lost on a tie vote and then \$70 was agreed upon unanimously. The engagement of Miss Levitt as teacher of English in the high school and Miss Nichol to fill the place made vacant by the resignation of Miss Kemp was ratified. It was also decided to pay Mrs. Roberts \$25 a month for her services as librarian during the summer months. Progress was reported on the savings bank matter and it is expected everything will be in readiness by October 1. It was decided to equip one of the rooms of the Central building with water, gas and chemicals needed for the chemistry class. The clerk reported the school census completed. It shows 1,037 boys and 1,035 girls or a total of 2,072.

## SOLD WHISKEY.

Andrew Casna was Held to the Grand Jury.

The alphabet was worked overtime in United States Commissioner Whiting's court this morning in the hearing of Andrew Casna, charged with selling whisky to Navajo Indians. There were four cases and the whisky was purchased about July 21 or 22. Hooten Helen Blitsegar Chitain Begay bought one bottle, Pete four bottles, Billie five bottles and Hooten Bekinnie Begay five bottles. Casna was held to the grand jury under \$500 bond. Horton Moore defended.

The hearing developed the fact that Casna's house is known among the Indians as the "White House" and Casna is known as "One Eyed Whiskey." Major Haylett, the well known agent, is known as "Agent White Whiskers."

## REVIVAL SERVICES.

The Drummer Evangelist will be Here on September 4.

Rev. W. H. Williams, the drummer evangelist, who will begin meetings at the Highland Methodist church in this city on Thursday evening, the 4th inst., is now holding successful meetings at Gallup, N. M. He recently held special services at Hanford, Cal., and this is what one of the papers of that city says of his first service there: "The gospel temperance meetings of Mr. Williams, the drummer evangelist, are in full blast. He scored as a winner the very first night, upwards of eighty pledges being signed. Mr. Williams' eloquence has more fire in it than even the summer weather, and the union meetings seem likely to come out ahead in drawing public thought. It will pay all denizens of Hanford to hear this live speaker nightly at the Cumberland Presbyterian church."

At Gallup the other night the audience was so delighted with his discourse on "The Young Man and His Company" that they requested him to repeat it the next night.

Be sure and hear him Thursday night at 8 o'clock at Highland Methodist church.

A New Jersey Editor's Testimonial.  
M. T. Lynch, Editor of the Philadelphia N. J. Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it. Sold by Alvarado Pharmacy."

## CATTLE TRANSFER.

Ascarate Brothers Will Turn 25,000 Head to Canadian Cattle Syndicate.

Guadalupe Ascarate, of Las Cruces who recently sold the Ascarate herd to a Canadian cattle company, is in El Paso preparing to go to Mexico to transfer the cattle.

They will be tallied out to A. N. Booker, who is the agent of the Canadian concern, and it is stated the ultimate destination of the herd is British Columbia.

Cattlemen estimate that the Ascarate herd will tally out as many as 25,000 head, not including calves. A lump sum was paid for the cattle, but the figures could not be learned.

## Nothing Like Oil.

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they may abhor it, it is their best medicine for disorders of the bowels. In the more severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates, and a quick cure is sure to follow. The unhappy victim of disease and suffering who has just dragged through the summer, and who is now racked with suffering and almost a physical wreck, must make immediate choice of two paths. One leads to increased miseries and certain death, the other to new life, health, and happiness.

The use of Paine's Celery Compound is a necessity for all who seek the path of health and long years. Victims of rheumatism, neuralgia, kidney disease, liver trouble, dyspepsia, nervousness, and blood diseases quickly and surely find new life, vigor, and strength in Dr. Phelps' medical prescription—Paine's Celery Compound. It builds up the system, purifies the blood, braces the nerves, and regulates digestion as no other medicine can do. John C. Rowan, 137 E. Winifred street, St. Paul, Minn., says:

"Some six years ago I suffered with rheumatism in my knees so painful I could get no relief, and I had to rub them for a moment's ease. Paine's Celery Compound cured me and eradicated the disease from my system. I had also been afflicted with kidney disease as most railroad men are, and I had catarrh so bad that my head ached and my eyes were inflamed with continual pain, and I could retain nothing but liquid food on my stomach. Today, thanks to Paine's Celery Compound, I think I am as healthy as any man that stands on the globe."

## Headache...

The following is quoted from a late work on the diagnosis and treatment of the diseases of the eye, by Edward Jackson, A. M., M. D.:

"It ought to be universally recognized that eye-strain is the common cause of headache. Aside from headache produced from fever, toxemia and organic disease of the brain and its membranes, eye-strain is almost invariably a factor in the production of headache. The headache of eye-strain is not of any special character—it may be constant or intermittent, slight or severe, felt only on the use of the eyes, or felt after their use, continuous or recurring irregularly or at certain intervals. It is aggravated by many other causes, such as hunger, exhaustion, exposure to heat or cold, or indigestion, or it may seem entirely independent of other influences. In the majority of cases eye-strain is not the only factor in the production of headache, but it may be the only factor of practical importance because it alone can be removed, and its removal will give relief. Such headaches are generally felt in the frontal, temporal or occipital regions."

Read the above again, and remember that eye-strain is relieved by glasses properly fitted. We are in every way equipped for scientifically testing the eyes and determining the right glasses. In every case absolute satisfaction is guaranteed. Prices are as reasonable as good work will justify.

## PREACHER'S CHILDREN

Same as Others.

The wife of a prominent divine tried the food cure with her little daughter. She says: "I feel sure that our experience with Grape-Nuts food would be useful to many mothers. Our little daughter, 8 years old, was subject to bowel trouble which we did not then understand and which the doctor's prescriptions failed to cure."

"We had been using different cereals for breakfast and finally becoming discouraged I said, 'I will try an experiment, I will discard all other cereals and use only Grape-Nuts for breakfast.' The three children all like it better than anything else and are so fond of it that I hardly let them have all they want. In a short time I could see an improvement in the bowel trouble."

"We began using Grape-Nuts five months ago and now not only has the bowel trouble disappeared but the child has grown so plump and well—in fact has never so fleshy before—that all our friends notice and remark about it. We think we have an ideal breakfast which consists of whole wheat bread with butter, Postum Cereal Coffee and Grape-Nuts. This is all we care for and I think it would be hard to find many families so invariably healthy as is ours." Name given by the Postum Co., Battle Creek, Mich.

## CULLINGS MYSTERY.

"Did He Commit Suicide or Was He Murdered?" is the Question.

## CONTINUED INVESTIGATIONS.

No further details of the tragic death of Jay Cullings were obtained today, although the sheriff of Dona Ana county, New Mexico, Jose Lucero, is continuing investigations, says the El Paso News.

After the inquest was held over the remains and they had been returned to this city, Sheriff Lucero went again to the scene of the tragedy to make another attempt to unravel the mystery of Cullings' death. He tried to find the Bisbee engineer, John Barlow, who stated that Cullings met death by a premature explosion of a dynamite blast, but was not successful in finding him.

Sheriff Lucero says that there are several things about the case which trouble him, which he cannot explain. He states that between the time when he first saw the body and the time when he had it disinterred, some one went to the spot and changed the position of a hand, but the body was not otherwise disturbed.

The sheriff is unchanged as to his opinion of the cause of Cullings' death. He is positive that the man was murdered, but to satisfy every one, will continue investigations further to see if there was any possibility by which Cullings might have met death by accident.

The theory generally advanced is that Cullings was knocked on the head by Mexicans, Dick Blatter, who made a trip to the place before the man's body was disinterred, says that he is satisfied that the murder was so committed. He says it recalls to his mind the murder of John Graham in a similar manner and whose body was found just on the opposite side of the mountain from where Cullings' remains were disinterred yesterday.

A theory, however, which is growing upon Deputy Sheriff Will Rynerson, is that of suicide. Several pieces of the skull have been recovered and the broken edges are clean and clear of the skull have been recovered and by an interior explosion and not crushed with some heavy instrument as at first thought. In other words, there is somewhat of a belief that Cullings placed a dynamite cap in his mouth, attached a fuse to it, lighted the fuse and his head was blown to pieces. There are many circumstances to substantiate this theory.

Frank Carr received a telegram this morning from Norman R. Cullings, a brother of the murdered man, stating that he would arrive in this city tomorrow morning over the Santa Fe from Pueblo, Colo., to take charge of the remains. It is not yet certain whether they will be buried here or be carried to Pueblo to be buried beside those of his father.

Special Correspondence. Algodones, N. M., Aug. 31.—Good, soaking rains have fallen here the past week and everybody is correspondingly happy as it insures plenty of grass for stock.

The third cutting of alfalfa is nearly all harvested and the prospects are good for the fourth crop.

Several wagon loads of fruit has been shipped to Santa Fe, Cerrillos, Bland and San Pedro the past few days and sold at good figures.

Ignacio M. Perea, one of our merchants here, is having his store fixed up in good shape. The carpenters and masons are busy putting the building in shape for the accommodation of the increasing business. The store is to be enlarged and all windows, doors, etc., are to be new and the entire build-

ding replastered and remodeled. Mr. Perea came here less than four years ago and by strict attention to business and by his unswerving honesty and fair dealing he has built up a trade he can well be proud of. Such men are what are needed to make a community prosperous. Mr. Perea is secretary of the school board here and also road supervisor.

People are now commencing to talk politics and the fun will soon commence.

Good reports are coming in from the mining camps near here.

## THE CLIFF DWELLERS.

Congressman Lacey and Delegate Rodey Visit Proposed Park.

## WHAT THE DELEGATE SAYS

Delegate Rodey and Congressman Lacey last week spent several days examining the ruins in the proposed Pajarito Cliff Dwellers' national park near Espanola, about fifty miles northwest of Santa Fe. The delegate says that he has never seen the ancient ruins at Uxmal or Palenque in Central America, but he is sure they cannot surpass the ruins he has just examined in New Mexico. He is enthusiastic in his statement that the new national park will be one of the greatest wonders in the world. He says to drive up one of the valleys and see the tens of thousands of doorways cut in the soft volcanic tufa cliffs reminds you of sailing up the Hudson river and looking at the square windows in the skyscrapers, only that the cliff dwellers have but two or three rows of windows or doors, while the skyscrapers are dotted clear to the top. He states that an American who goes to see Hawaii or Herculaneum, or any other of the old castles or ruins of Europe before he has seen these tremendous monuments of a former civilization or semi-civilization of the stone age in his own country is guilty of an impropriety. He states that a syndicate that would in some manner build a road into these ruins, or construct trolley lines to them, and then advertise them fully, would make a fortune. He thinks there cannot be anything on earth half as extensive as these ruins are; that there are thousands upon thousands of rooms cut into the rock, covered with picturegraphs, and smutted with the smoke of years inside; that there are dozens of communal buildings, now in ruins, which, in their prime, consisted of from seven to fifteen hundred rooms each. That the pathways on the tops of the mesas leading to the several stairways have been worn in several instances as much as two feet deep in the rock by the moccasined feet of the people who lived there; that they were certainly a people of the stone age, as there is not anything but fragments of stone tools, pottery, flint and corn grinding stones left.

DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. INCREASE EFFECTIVE. Chicago, Burlington & Quincy Trainmen Receive an Increase.

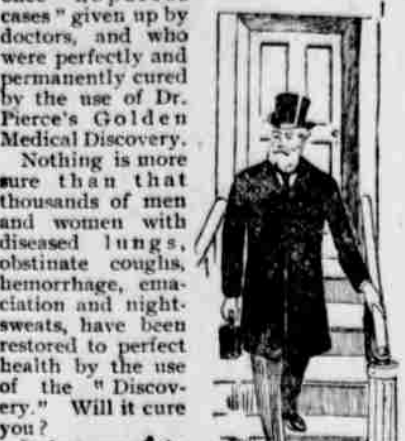

Chicago, Sept. 2.—Nearly every one of the 7,000 conductors, brakemen and train baggagemen of the entire Chicago, Burlington & Quincy railroad system is benefitted by the wage increase which became effective yesterday. Under the general readjustment the "45 per month brakeman" is a thing of the past, as the minimum now is \$50. Passenger conductors are brought up to a standard of \$125 and the wages of the brakemen increased in proportion. The advance in wages means about \$25,000 addition to the company's pay roll.

The piece, though new to this country, has had a success-

## HOPELESS CASES.

When the doctor leaves and says the case is hopeless, what remains to be done? Nothing, if the doctor's word is final. Much, if you will listen to the statements of men and women who were once "hopeless cases" given up by doctors, and who were perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery.

Nothing is more sure than that thousands of men and women with diseased lungs, obstinate coughs, hemorrhage, emaciation and night sweats, have been restored to perfect health by the use of the "Discovery." Will it cure you?

It has cured in ninety-eight cases out of every hundred where it was given a fair and faithful trial. By that record you have only two chances in a hundred of failure and ninety-eight chances of being restored to perfect health. It is worth trying.

Abram Freer, Esq., of Rockbridge, Greene Co., Ill., writes: "My wife had a severe attack of pleurisy and lung trouble, the doctors gave her up to die. She commenced taking Dr. Pierce's Golden Medical Discovery and she began to improve from the first dose. By the time she had taken eight or ten bottles she was cured, and it was the cause of a large amount being sold here. I think the 'Golden Medical Discovery' is the best medicine in the world for lung trouble."

FREE. Dr. Pierce's Common Sense Medical Adviser containing over a thousand large pages is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
