NUMBER 235

## HEADLESS BODY

Found in New Mexico Near El Paso.

WILL GO AFTER NICARAGUA.

Day of Rest and Pleasure for President Roosevelt.

PEOPLE SUFFERING FROM LUMPY JAW.

El Paso, Texas, Aug. 29.—Two boys found a hand protruding from a sand pile, three miles from here, across the boundary of New Mexico, and an investigation revealed a headless body. The police believe the body to be that of Jay Cullings, a civil engineer who recently disappeared and supposedly was murdered.

## COLOMBIA IS MAD.

Will Formally Demand an Explanation of Nicaragua Soon.

Washington, Aug. 29.—Colombia will formally demand of Nicaragua an explanation in regard to the latter country's alleged participation in the revolution against the Colombian government and back up the demand with the most formidable land and naval force she can muster, as soon as the present rebel activity on the isthmus is crushed. Information to this effect was received from an authoritative source in Washington today.

## ROOSEVELT RESTING.

Visited the Game Preserve of Austin Corbin.

Newbury, N. H., Aug. 29.—President Roosevelt devoted the day to rest and pleasure. He passed the night at "Pell's," the summer home of Secretary of State Hay, leaving there at 10 o'clock today for Newport, N. H., twenty minutes ride by train from Newbury, to spend the rest of the day and night in the great park owned by the late Austin Corbin. The visit to this park, foremost among the game preserves of this country, was anticipated by the president with much pleasure.

## Speech was Brief.

Newport, N. H., Aug. 29.—A large assembly greeted President Roosevelt here. He addressed the crowd for about ten minutes. His speech was brief and an echo of his recent addresses dealing with the duties of manhood and citizenship.

## Burlington is Ready.

Burlington, Vt., Aug. 29.—Burlington is in readiness to extend a fitting welcome to President Roosevelt, who will arrive here tomorrow afternoon. A committee of citizens will meet the presidential party en route and escort them to the city. At the depot the visitor will be received by the municipal officials and a military company, acting as guard of honor, and escorted to the public square where addresses of welcome will be delivered, to which President Roosevelt will respond. The president will be entertained at dinner at the residence of ex-Governor Woodbury. Following this function the party will go by steam yacht to Thompson's Point, where they will spend the night and part of Sunday as the guests of Secretary Shaw. Returning to this city Monday morning the tour will be resumed through Vermont, the itinerary of the day including Proctor, Rutland, Bellows Falls, Brattleboro and one or two places of smaller size.

## Ill of "Lumpy Jaw."

Pratt, Kan., Aug. 29.—Mrs. Kimball is dead from "lumpy jaw," caught from cattle, and Mr. Cochrane of the Pratt Republican has been brought to a hospital in this city, dangerously afflicted with the disease. Another man, whose name has not been learned, has caught the disease by chewing a straw. Mr. Cochrane caught the disease by lying down in a pasture in which "lumpy jawed" cattle grazed. The doctors here say there are only six cases on record where human beings have caught "lumpy jaw" from cattle.

## STILL THEY COME.

Another Duke with a Title and Big Mortgage.

New York, Aug. 29.—Russian grand dukes, Chinese princes and the heir apparent to the throne of Siam are among Gotham's noted visitors this season, but of the lot of foreign dignitaries the visit of none is likely to attract more attention than that of the Duc de Luyne, who is scheduled to sail from France tomorrow in company with the Comte and Comtesse de Castellane.

The Duc de Luyne belongs to one of

the "great" families of France, being closely related to the Duke of Noailles, of Chaulnes, of Uzès, of Brissac and of Maille. He is regarded as the leader of the royalist party and is one of the closest friends of the Duc de Orleans, having served the latter as principle gentleman in waiting, chief of the household and as grand chamberlain. The Luyne, it may be added, were formerly immensely wealthy. But what, between the almost insane extravagance of the dowager duchesse de Luyne (who lavished enormous sums upon her friend and companion, Mme. de Waru, formerly known as the Marquise Horve de St. Denis) and the duke's own liberality in behalf of the cause of his friend, the Duc de Orleans, the Luyne fortune is terribly impaired and the estates mortgaged up to the very hilt.

## McFadden vs. Hegarty.

San Francisco, Cal., Aug. 29.—"Kid" McFadden, the California featherweight who recently returned from England, where he won one fight and was beaten by Ben Jordan in the last round of their fifteen-round encounter, goes against Tim Hegarty, the Australian champion, before the Yosemite Athletic club tonight. The articles call for a twenty-round go at 125 pounds weight in at the ringside. Both fighters appear to be in excellent condition for the contest.

## Smith was Elected.

Grand Rapids, Mich., Aug. 29.—At the final session of the convention of the American League of Municipalities J. Adger Smith, of Charleston, N. C., was elected president.

## COLLAPSE OF BUILDING.

Damage Suit of B. Ruppe Against Messrs. Weinmann and Barnett.

SUM DESIRED, \$10,000.

B. Ruppe, through his attorneys, O. N. Marron, A. B. McMillan and H. F. Reynolds, has filed suit in the district court against J. A. Weinmann and Joseph Barnett, jointly, asking for damages in the amount of \$10,000, for losses received, caused by the caving in of ground and the consequent falling of the building, located at the corner of Railroad avenue and Second street, in which said plaintiff conducted a drug business. The plaintiff, in his petition to the court, sets forth that through the unexpected collapse of the said building, he has suffered severe damage to business and to stock, and that the loss was incurred by work done at the instigation of the defendants. The circumstances which have brought on this suit, have been published in previous editions of The Citizen—the excavating on lot on the corner of Railroad avenue and Second street; the falling of the building owned by J. A. Weinmann and occupied by stock of drug sundries owned by B. Ruppe, and the moving of the drug stock from one location to another.

Mr. Ruppe was seen by a Citizen reporter at the depot this morning, when the gentleman left for a few days' trip to the northern part of the territory. "I don't like to talk much about the suit," said Mr. Ruppe, "for it might do more harm than good. I have been trying for some time to get a settlement from the defendants, Weinmann and Barnett, but have failed. I even agreed to arbitrate the matter, but that proposition was not received favorably, and I am compelled to ask the courts for what I think is due me."

Mr. Weinmann was seen but would not talk, any more than to say that he had employed W. B. Childers as his attorney, and that he wasn't losing any sleep about the suit.

Mr. Barnett says that he has twenty days in which to answer, and has not thought much about the matter. The case will probably come up some time the fore part of October.

## LOCAL PARAGRAPHS.

S. Vann, senior member of the firm of S. Vann & Son, is on the sick list. If you want to go to Santa Fe on Sunday you had better get your ticket at once.

R. W. D. Bryan, with Mrs. Bryan and baby, will return to the city about September 4. They are having a splendid time in southern California.

Miss Louise Wallace, one of Albuquerque's Indian school teachers, will leave this evening for Riverside, Cal., where she will be employed as teacher in the Indian school at that place.

Miss Katherine Graves is spending the day in the city visiting her sister, Frances, who has a position in the public schools here. Miss Katherine Graves will resume her work as teacher of Hon. Felipe Chavez' private school for girls in Belen.

## ANOTHER CLASH

Martial Law for Lansford is Possible.

BUSY PROTECTING THE WORKMEN.

Serious Trouble Threatened at the Prospect Mine.

COAL IS DAILY BEING SHIPPED.

Tamaqua, Pa., Aug. 29.—In an encounter between troops and strikers, at Lansford, this morning, Capt. W. H. Helm, of company K, Twelfth regiment, was slightly injured. Half a dozen strikers were bayoneted by soldiers in the fracas. Major Gearhardt, in command of the troops here, states he will appeal to the military authorities to put the town of Lansford under martial law. From daybreak the troops were active in quelling disturbances and protecting non-union men while on their way to work. The troops were jeered wherever they went.

## Trouble was Threatened.

Wilkesbarre, Pa., Aug. 29.—Serious trouble was threatened at the Prospect and Dorrance mines of the Lehigh Valley Coal company this morning. Owing to a rumor that the company intended to operate the Dorrance colliery, 1,000 men patrolled the roads leading to the mines. Sheriff Jacobs went to the scene accompanied by a large number of deputies, but as no attempt was made to place additional men in the Dorrance mine, no violence resulted.

## Greater Activity.

Philadelphia, Pa., Aug. 29.—While both mine operators and officials of the United Mine Workers state the strike situation in the anthracite field remains unchanged, it is evident there is greater activity at present in the coal region than at any time since the inauguration of the strike. Coal is daily being shipped from various sections.

## Operators Don't Command.

Charleston, W. Va., Aug. 29.—When the state troops reached Thurmond to preserve order and protect property in the mines region, a request was made of Assistant Adjutant General Hutson, in command, to report to the operators at Rush Run for instructions. He refused point blank and said he was there with troops to act under instructions from the sheriff of the county to preserve order and not to take instructions from operators.

## Gen. Gobin Investigates.

Shenandoah, Pa., Aug. 29.—General Gobin returned to headquarters today and after going over the situation with Colonel Clement, went to Lansford to make a personal investigation of conditions there. It is probable the first battalion of the Twelfth regiment will be sent to that region.

## Permission to Amalgamate.

Ottawa, Ont., Aug. 29.—The shareholders of the Ottawa Northern & Western, and of the Pontiac & Pacific railway held a special meeting here today for the purpose of applying to the governor-general-in-council for permission to amalgamate the two roads.

## CADAVER HEADLESS.

Believed to be Body of Civil Engineer Employed by Railroad Force.

BODY FOUND BY BOYS.

Two startling discoveries have been made by Sheriff Lucero concerning the body of a man found by two boys, says the El Paso News.

The first was that the body was headless, indicating that the man was murdered and the head removed to prevent his body being identified.

The second is that his body is most likely that of Jay Cullings, a civil engineer of El Paso, who has been missing for some time. He was known to be prospecting in that section just before his mysterious disappearance.

Sheriff Lucero, of Dona Ana county, N. M., is at the scene of the finding of the dead body just across the river in New Mexico, near the smelter. The officer is accompanied by M. A. Pagano and they are waiting there for the arrival of several men from Chamberino, whom the sheriff sent for to compose a coroner's jury so that an inquest over the body may be held.

Upon examination of the body, as far as it could be examined without removal, the sheriff was startled to find that it had no head. The body was found by boys, Yancy and Dan Bolgiano on last Tuesday about noon. They notified undertakers in this city, who in turn notified Sheriff Lucero, of Dona Ana county.

The body is on a hillside in a draw near Orman & Crook's camp No. 3, on the El Paso & Southwestern railway. It was lying on its side and covered over with rocks to a depth of over two feet, thrown loosely over the body so that it could be viewed through them. The body was badly shriveled, decomposed and turned black.

On the body was a yellow shirt with white stripes and from what can be seen of the trousers it is believed that a man was well dressed. The shriveled neck, from which the head has been severed, appeared above the rocks, producing a ghastly sight.

The sheriff will have an inquest as soon as men from Chamberino arrive. After an examination of the body they will disinter it and probably bring to El Paso this evening.

Yancy Bolgiano, one of the boys who found the body, and who is about 11 years old, is still confined to his bed, having been protracted by excitement. The other brother, Dan, is about 18 years old, and though he was considerably excited, the shock was not so great to him. His story of the finding is as follows:

"My brother and I were prospecting around Monument mountain and after leaving the railroad camp we thought we should take a short cut home. We live at the brick factory and our mother runs the hotel there. Soon after leaving the camp we found some prospectors' holes. While we were examining them we smelled a strong odor. Looking about to see where it came from we discovered the hand of a man sticking out of a pile of rocks. We were so badly frightened that we ran and never stopped until we got home."

Dick Blacker, formerly city jailer, who knows of several mysterious disappearances recently, went out this morning to see if he could identify the body.

## STRICKEN BY DEATH.

William Flynn, While at the Park, Falls Over Dead.

SUFFERED WITH PARALYSIS.

This morning a few minutes after 9 o'clock while setting in the east end of Robinson park, William Flynn was relieved of pain and misery by grim death.

The deceased was about 54 years old and as far as is known had no family ties.

Flynn came to Albuquerque twenty-five years ago and for several years was employed by Gov. E. S. Stover, who at that time was engaged in a merchandise business in old town. Later he worked on a Santa Fe section gang.

About seven years ago the deceased received a paralytic stroke affecting one side of the body. Since that time he has been helpless and lived on the generosity of the county, and his few friends, Governor Stover, his old employer, giving him the little cash he needed.

He was of an inventive turn of mind and has a few inventions which are quite practical. The most important of his inventions is a tap lock. Another is a practical steel rail for railway tracks.

Death was caused from heart disease.

The body was moved to Border's undertaking parlors and buried in Fairview cemetery at 3 o'clock this afternoon.

## Time Too Short.

It has been decided by the Elks of this city that the time is too short to properly play a baroque of base ball with the Elks of Santa Fe on Sunday. At some future time our Elks team will wipe up the earth with the antlered herd of Santa Fe. A large number of the Quilen Sabe club will go to Santa Fe on Sunday morning, but not in uniform.

## Bar Association Officers.

Saratoga, N. Y., Aug. 29.—The American Bar association today elected the following officers: Francis Rawle, of Philadelphia, president; John Hinkley, of Baltimore, secretary; Frederick E. Waughans, of New York, treasurer.

## Body was Found.

Bay City, Mich., Aug. 29.—The body of Eugene Cambra, aged 22, was found today under the fallen walls of Wood's opera house, which was destroyed by fire last night, causing a loss of \$100,000.

## GARVIN FIRED

The Chicago Pitcher Was Dismissed Unconditionally.

NORTHERN PACIFIC HEARING ENDED.

Senator Hoar is Seventy-Six Years Old Today.

FAIR HEIRS REACH AN AGREEMENT.

Chicago, Aug. 29.—Virgil Garvin, pitcher of the Chicago American League club, was dismissed unconditionally today by President Comiskey, because of his conduct last night, when he shot and wounded a bartender and knocked a policeman unconscious.

## ABRUPTLY ENDED.

Adjournment Sine Die in the Northern Pacific Suit.

New York, Aug. 29.—The hearing before Special Examiner Mabey, in the Peter Power suit, brought to prevent turning over stock of the Northern Pacific railroad to the Northern Securities company, was brought to an abrupt conclusion today when D. W. Guthrie, counsel for the railroads interested, asked an adjournment sine die. Under the ruling of the court all the testimony taken has to be filed with the clerk of the United States circuit court in Minnesota on Monday next.

## SENATOR HOAR.

The Venerable Statesman is 76 Years Old Today.

Worcester, Mass., Aug. 29.—Messages of congratulation from many parts of the country poured in today upon Senator George F. Hoar, the occasion being the seventy-sixth birthday anniversary of the venerable statesman. Senator Hoar is now serving his fifth term in the senate. During the summer he has passed his time quietly in the full enjoyment of good health. About the only business that he has given attention to was the arrangement of details connected with the present trip of President Roosevelt through New England and a few matters relating to the affairs of Clark university, in which institution he has always taken a lively interest.

## Fair Heirs Agree.

San Francisco, Cal., Aug. 29.—By the terms of an agreement between the heirs of the late Mrs. Charles Fair and Charles Fair's sisters, the latter give the former more than \$1,000,000.

## O'BRIEN WAS HELD.

Charged with Perjury Before the Senate Philippine Commission.

Washington, Aug. 29.—Richard T. O'Brien, formerly a corporal in the Twenty-sixth volunteer infantry, accused of perjury on account of his testimony before the senate Philippine commission during the last session of congress, was arraigned before Justice Angerson today. He pleaded not guilty, and was released on \$5,000 bail. His trial will probably occur in October.

## FAIR COMMITTEE.

Action Taken on Half a Dozen Very Important Matters.

"COME AND BRING THE BABIES."

Pursuant to notice the executive committee of the New Mexico Territorial Fair association, met at the office of the secretary last night, and took action on half a dozen important matters.

A letter from El Paso, received on the delayed passenger train yesterday afternoon, was read and its contents fully discussed. With the authority of the committee, a motion prevailed that the secretary and O. N. Marron be empowered to personally have charge of this matter. The letter gave the committee to understand that the El Paso base ball fans had negotiated for the champions of the National league—the Pittsburgh club—but they wanted to know fully the arrangements before signing the contract.

Thus it will be seen that Albuquerque, with her National and American league stars, will have to play ball for heaps to win even a game from El Paso's great aggregation of base ball tossers.

After disposing of this matter to the

entire satisfaction of the committee, the "Coming of Montezuma" spectacular was taken up and also fully discussed. The "old man," with his court and soldiers, coming on the back of an eagle, and representing, in these times of prosperity, the progress of wealth of the country, was carefully considered, and it was decided to make this feature one of the principal divisions of the great trades' display and parade. As the parade will be on a grander scale than ever, it is the wish of the fair officials that every merchant be represented by an appropriate float.

The next matter discussed was in regard to fixing up the track, and it is safe to say that the track will be in tip top order when the horses are called to the starting pole on the first day of the fair.

The committee then selected a small badge for the excursionists to wear to Santa Fe on Sunday. The inscription reads as follows: "Come and bring the babies" on one side, and on the reverse side: "Territorial fair, Albuquerque, October 14-19, 1902."

No further business before the committee adjournment was had, subject to call of the president.

## Increase in Capital.

Chicago, Ill., Aug. 29.—In accordance with the recommendation of the directors the stockholders of the Illinois Central Railroad company at a special meeting in Chicago today voted to increase the capital of the company from \$79,200,000 to \$95,040,000, by the issue of 158,400 shares. The proceeds of the new issue will be used in double tracking the whole line from Chicago to New Orleans.

## LUMBER KING'S DEATH.

A. W. Mitchell, While Nervous, Leaps to His Death.

WAS KNOWN IN ALBUQUERQUE.

A. W. Mitchell, a member of the Mitchell Bros., the Michigan lumber kings who were recently interested in the timber lands of western Valencia county, and who was well known in this city, is dead under peculiarly sad circumstances.

The San Francisco Examiner of recent date contains the following account of his death:

A. W. Mitchell, one of the millionaire lumber kings of Michigan, and for the last two years a resident of San Diego, Cal., committed suicide on August 12, while mentally deranged, by leaping into the sea from the deck of the Coptic, en route to Hongkong. Mitchell was surrounded by a group of passengers at the time he made his plunge, and was apparently the gayest of the party. In his fall his head struck one of the davit ropes with great force, and it is presumed that he was stunned by the impact. The vessel was immediately brought about and lifeboats lowered, but the body did not come to the surface.

The deceased was 51 years of age, a native of Cadillac, Mich. He leaves a wife and two children, a boy and a girl, aged respectively 11 and 13 years, who at present live at San Diego. His mother, 70 years of age, resides at Cadillac. She is in feeble health, and fears are entertained that the news of her son's tragic end will hasten her death.

On August 9, Mr. Mitchell accompanied by Dr. C. E. Miller, of Cadillac, and a medical attendant from this city, embarked on the Coptic for a trip around the world. Mitchell had been a sufferer from nervous prostration for three years previous.

Upon reaching Honolulu, Dr. Miller and the medical attendant left the Coptic and took passage on the steamer Conoma, which arrived in port yesterday.

The deceased, during his brief residence within California, became extremely interested in the local lumber industry. He was one of a syndicate which made large purchases of timber lands in Shasta county, and was instrumental in a movement having as its object the control of the McCloud river lumber belt.

## Kearns to Box Miller.

Baltimore, Md., Aug. 29.—The Eureka Athletic club has arranged a good card for its patrons for the opening boxing show of the season tonight. The wind up is to be a twenty-round go between Tim Kearns, the clever and hard hitting Boston lightweight, and Herman Miller of this city.

The Citizen stated that C. T. Brown, of Socorro, would visit Boise City, Idaho. It is a mistake, and should have read Butte City, Mont., as Mr. Brown is one of New Mexico's delegates to the International Mining congress, which convenes in that city.

## POLARIA HIT

Appeal Made To a German Cruiser.

NEDROW TAKES ANOTHER DIVISION.

All American Iron and Steel Employees on Strike.

MALLEABLE IRON CONCERNS UNITE.

Kingston, Jamaica, Aug. 29.—The German steamer, Polaria, which arrived today from Venezuelan ports, reports while at Carupano, Venezuela, 700 rebels attacked the place stubbornly and got inside the town, where they were met by 1,000 government troops under General Velutini. Severe fighting ended in the disorderly retreat of the rebels, several being killed. Bullets repeatedly struck the steamer, and the lives of the crew being in danger, Captain Hoff asked General Velutini for protection. The general replied that the Polaria must clear out. Her captain telegraphed the Gazette, a German cruiser at La Guaira, asking immediate protection. The Gazette arrived at Carupano Sunday morning and protected the Polaria while she took on cargo.

## DUTIES INCREASED.

Nedrow Takes Charge of the Southern Kansas Division.

Wichita, Kan., Aug. 29.—C. R. Nedrow, assistant superintendent of the Missouri Pacific, received the following telegram from D. Harding, general superintendent:

"C. R. Nedrow is appointed acting superintendent in charge of the southern Kansas division and branches in addition to his other duties."

It is presumed Nedrow has succeeded Division Superintendent A. Y. Webb.

## ALL WALKED OUT.

American Steel Company Refused to Dismiss Imported Men.

Lebanon, Pa., Aug. 29.—A committee of striking employees of the American Iron & Steel Manufacturing company, today, demanded that the colored non-union workmen from Reading and other men sent here, be removed and the old hands be taken back, but this was refused. The committee then reported the matter to their leaders and a few moments later the 1,800 men still at work walked out. Each carried a small American flag.

## Malleable Iron Trust.

Sharon, Pa., Aug. 29.—A combination of the foremost malleable iron concerns of the country, with a capitalization of \$25,000,000, is under consideration and probably will soon be effected.

## MINING CONGRESS.

Addresses Which Will be Delivered at Butte Next Week.

Butte, Mont., Aug. 29.—The advance guard of delegates is already putting in an appearance for the international mining congress, which is to begin its sessions in Butte next Monday. Headquarters were established today by Secretary Mahon and the delegates as soon as they arrive are provided with badges and assigned to quarters. No set program will be prepared in advance of the assembling of the congress, it being thought best to leave the arrangement for each day's proceedings to the pleasure of the body.

The list of speakers and their subjects so far as arranged includes the following: "Water Resources of the West," F. H. Newell, of the United States geological survey; "Unintelligent Mining," W. H. Fraser, of Mullan, Idaho; "The Great Expositions as Factors in Promoting the Mining Interests of the Country," Prof. J. A. Holmes, of the University of North Carolina; "Notes on Montana's Ore Deposits," Walter H. Weed, of the United States geological survey; "Mines of Georgia," Prof. S. W. McCollie, of Atlanta, Ga.; "Amendments to Corporation Laws," W. R. Everetts, of Chicago; "First Aid to the Injured in Mining," Dr. George W. King, Helena, Mont.; "The Undeveloped Mineral Resources of the Southern States," Chancellor Robert B. Fulton, of the University of Mississippi.

If our fathers were mistaken in that theory, if ever the mass of the people wrong, then the republic cannot stand. I care not how good its laws."—Theodore Roosevelt.

**INSPECTION TRIP.**

In order to enjoy a period of relaxation from the performance of the exhausting duties of the office of lieutenant general of the United States army, General Miles is about to start upon a trip around the world, by way of the Philippines and with "the approval of the president." Some months ago the nominal commander of the army applied for permission to go to the Philippines on business, but his offer to end the war and straighten out insular tangles was declined without thanks. Now that he has asked to be allowed merely to look upon results that were accomplished without his advice or assistance no objection is offered by the president, and General Miles will proceed to "inspect" military conditions.

**WORK OF THE ARMY.**

In the latest issue of the Army and Navy Journal there is an editorial article giving a brief summary of the work which our army did in Cuba during the four years which elapsed between the withdrawal of the Spaniards and the turning over of the island to the Cubans. When hostilities ceased in 1898 Cuba was in a state of chaos throughout its length and breadth; there was no government and no administrative machinery, while misery, disease and starvation prevailed in the land. To remedy such a state of affairs was the task which the officers of the army of the United States were called upon to perform, and well indeed did they do it. Under their management order succeeded disorder and the reign of law was established; the sick and hungry were cared for and fed and useful public works were undertaken, to give employment to the able bodied who had no other means of obtaining a livelihood until they might be able to help themselves.

During the four years of our occupation the military authorities established sixteen new custom houses, 300 additional postoffices and hundreds of new schools, while 2,000 miles of telegraph lines were built, connecting all the principal cities and towns. Hundreds of miles also of public road were built, harbors were improved, docks and warehouses were erected, the streets of many towns were paved and the cities were provided with extensive sewerage systems. Besides this, the cities were cleaned as they had never been before and the accumulated filth

of centuries was removed. This change in the sanitary conditions brought the healthfulness of the island up to a point which it had probably never enjoyed since it was first occupied by the Spaniards, and yellow fever in Havana was entirely stamped out, to the great relief of the southern states of the Union, so often ravaged by this scourge.

**IMPERIALIZED PORTO RICO.**

Porto Rico is fast becoming Americanized. A comparison of its conditions now and when it came under the flag is an interesting commentary upon our Philippine policy. The Inter Ocean says:

"Many Americans believed in 1850 that California never could be Americanized, just as many Americans believed in 1898 that Porto Rico and Hawaii could never be Americanized. California is now one of the most thoroughly American states in the Union and Porto Rico already has made as rapid progress in American methods as California made in the three years after the Mexican war."

"According to the statement of Governor Hunt, there is no discussion now among the Porto Ricans as to American sovereignty, but the local political quarrels turn on the proper forms of policies of American government in the island. No one mentions or contemplates any party policy that is not American. American methods have been adopted in politics, in business, in education, in taxation and in legislation."

"In 1898 there were 538 schools in the island. On February 1, 1902, there were 939. On January 1, 1898, there were 22,265 pupils enrolled in the schools. On February 21, 1902, there were 41,642. Under Spanish rule pupils were obliged to pay tuition fees. Now the public schools are free, with a uniform course of study. In general, the schools are as well equipped as those in the United States."

At Panama, Columbia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician of Panama, Columbia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by all druggists.

### THAT SUNDAY GAME.

Will Draw a Big Crowd to the Territorial Capital.

An effort is being made by the Las Vegas boys to get the Santa Fe Central to play a return game there Sunday after next and take a big crowd along with them.

August Kirschner has formed a band of twelve rosters who will greatly assist in entertaining the Vegas ball players Sunday. The Santa Fe boys are determined to keep up their record for hospitality.

There will be between 500 and 600 excursionists from Las Vegas and Albuquerque in the city on Sunday next. They should receive the most cordial reception and the kindest of treatment. Hotel proprietors and restaurant men should govern themselves accordingly. The crowd will be large and it will be hungry, and what is more it will want to be well fed.

It is expected that there will be between 200 and 300 people from Las Vegas and between 200 and 300 from Albuquerque present at the base ball game between Twitchell's Las Vegas team and Martin's Santa Fe Central on Sunday next. The hotel proprietors and restaurant men should take the necessary precautions to comfortably care of between 500 and 600 people on that day.

Colonel R. E. Twitchell, manager of the Las Vegas base ball team, has been in Albuquerque and has done great work towards getting up an excursion from the Duke city to this city on Sunday next. He has succeeded and it is believed that not less than 300 persons and probably more will come up on a special train on Sunday next to enjoy the base ball game that afternoon. A

special train has been arranged for and is expected to reach here at 10:20 in the forenoon, about the same time that the special train from Las Vegas with the team and excursionists from that town will come in.—New Mexican.

### BASE BALL NOTES.

Abbreviated Pointers About the Leagues and the Players.

The Texas league is making plans for expansion next season. It is said that Ted Sullivan is engineering a deal to take in Galveston and Houston.

It is rumored that the Boston trio, Soden, Conant and Billings, are to sell out their interests to their sons, three young and popular men in the cultured district.

President Johnson is in the east for the present. He is enjoying the merry click of the turnstiles that tell him of the most successful season base ball has experienced in years.

The Boston Nationals may strengthen until the cows come home and they may gather together a better team than Jimmy Collins has, but the fact remains the crowd is with Collins.

In Frank Chance Selie has a splendid first baseman and a good batter, while he is in the game. But the difficulty is in keeping him in. He is one of the most unlucky players in the business.

Besides Jack O'Connor it looks as though Tannehill and Chesbro, of the Pittsburgh team, will be found in the American league next year. Neither of these men have agreed to give Dreyfus his services for 1903 as yet.

Denver people have run away with the funny idea that games in the Western league are fixed. Denver has a good team, but it has been up against it, dropping them here and there when it would seem as though they should win.

A story coming from Lajole at Boston is to the effect that he was offered a \$20,000 contract for two years with the New Yorks by McGraw. Larry says there isn't money enough in New York to make him break his contract with Cleveland.

Wall, released by McGraw from the New York team, has received notice from Ned Hanlon to join his Trolley Dodgers at Pittsburgh. Ned is in sore need of players, and he may be able to make something out of the McGraw castoff.

Sele's Cubs are drawing about as heavily as Shettlaine's Quakers were during the latter recent home series. The Cubs have dropped every one of the home series and are rapidly heading for the second division in that National league walkover.

It is said that when Jones was suspended by New York for attacking Umpire Emslie and later joined the Toronto Eastern league team, it was with the consent of the New York team, which still has a line on him and will use him next season.

Big Ed Greninger, the man of whom so many pretty things were said at the beginning of the season, is receiving some pretty severe pumps from the Boston papers. Ed isn't making so many home runs and three-cornered drives as he was earlier in the game.

The race in the American is a contest between teams and sections, with Boston and Philadelphia in the east and Chicago and St. Louis in the west, all first place possibilities, although it must be admitted that the Athletics have the inside track at the present.

Gene De Montreville is liable to receive a large and juicy increase in salary next season. The Boston Nationals are at him night and day to sign with them, but Gene isn't in any hurry. He has played splendid ball this season, and his services will be in great demand before the opening of another season.

It is said that Comiskey is after Leach and Wagner, of the Pirates. These two players would be great strengtheners to the outfit that Comiskey has already signed for next season, as both are leading players in their positions and can lace the ball with a great degree of consistency.

Foley's Kidney Cure is a medicine free from poisons and will cure any case of kidney disease that is not beyond the reach of medicine.

### OLD ARIZONA CAMPS.

New Companies and Better Facilities Reviving the Several Good Districts. A correspondent, writing to the Denver News from Phoenix, A. T., under date of August 26, says:

The rehabilitation of the Tombstone mines is in full swing. Since the organization of the Tombstone Consolidated Mines company, Limited, development has progressed rapidly and thousands of dollars have been expended and hundreds of men are now employed. The machinery has been made to order and includes the largest pumps and boilers ever used in Arizona mining.

The six-compartment shaft is now down to water level, one compartment being equipped with extra heavy steel gallow frame made especially for operating the big pumps.

In the old days of prosperity the camp did not have railroad connections, but now an extension of the El Paso & Southeastern railway is being built and the camp will soon be connected by rail with the outside world.

The status of affairs at the great United Verde mine remains the same. The fire has not been definitely located so far as outside people are aware. Senator Clark arrived at Jerome a few days ago, and it is reported that plans have been made to systematically fight the fire which has been raging so fiercely and destructively. Work at the mines, however, in the way of improvements, still goes on. The big smelter is being put in the best working order possible, and when operations are again taken up the mines will be conducted on a larger scale than heretofore.

Word has reached here that George E. Sanders, superintendent of the Angel mines in the Wickenburg district, has purchased the interest of Hathaway & company, of New York, in those properties. He was interested in the mines and was active in conducting their development before Hathaway & company obtained an interest. Mr. Sanders is now in the east and the terms of the transfer have not been learned.

The Berger Johnson gold strike in the San Domingo district, east of Wickenburg, is without parallel in that country. It is the subject of mining talk throughout central Arizona.

The strike was made in a small prospect hole, and so astonished the discoverer when he first entered the ledge that he thought he was the victim of an optical illusion. He has already taken out several thousand dollars in gold by means of a hand mortar, and works the claim alone. W. B. Gray and H. William Stevens, of New York, offered a \$12,000 bond for an interest in the claim, but were refused. These two mining men are conducting work on the Exposition company's holdings in the White Picacho district, which adjoins the place of the rich strike, and are familiar with the formations and character of ore in that country, and did not make the offer with their eyes shut.

### All Were Saved.

"For years I suffered such untold misery from bronchitis," writes J. H. Johnston, of Broughton, Ga., "that often I was unable to work. Then, when everything else failed, I was wholly cured by Dr. King's New Discovery for consumption. My wife suffered intensely from asthma, till it cured her, and all our experience goes to show it is the best cough medicine in the world." A trial will convince you it's unrivaled for throat and lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at all druggists.

### Drowned in a Tank.

A telegram from Prescott, Arizona, says: Hugh Matheson was drowned at Walker. He was taken with cramps while bathing in a small tank which feeds the mill at the Victor company's mine.

Matheson was a cyanide expert and formerly ran assay offices at Silverton and Cripple Creek, Colo. It is believed Matheson was related to Superintendent Matheson, formerly with the Philadelphia smelter, Pueblo, now at Perth Amboy.

### A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne Co., Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c. at Cosmopolitan Pharmacy—B. Ruppe.

### For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

## SERIOUSLY INJURED.

**A. J. Wertz, the Victim—Base-Ball—Miss Williams Married.**

## NUMBER PERSONAL PARAGRAPHS.

## Special Correspondence.

Las Vegas, N. M., Aug. 28.—While working at the turntable at the round house last night about 6:30, A. J. Wertz had the misfortune to receive quite a serious injury. He was standing by the turntable as an engine was moving on to the table, and the joint caused by the heavy engine striking the table, threw up the large iron pole, which is used to move the table, striking Mr. Wertz on the left side of the head, knocking him off into the table pit and rendering him unconscious. A carriage was called and Mr. Wertz removed to his home at the corner of Eleventh street and Lincoln avenue and a physician called. It was thought at first the injury was decidedly serious, but reports today are very encouraging and he is much better. Mr. Wertz is quite elderly, and such a terrible blow on the head, makes it remarkable he was not killed instantly.

A telegram from R. E. Twitchell, at Albuquerque, announces the fact that he has signed Cosgrove, Albuquerque's crack first baseman, for the game at Santa Fe Sunday. He also says Manager Martin, of the Santa Fe Centrals, is trying to get Sonier, of Albuquerque, and Ewing, of Denver, to do the twirling for the Centrals. An excursion of 400 is being arranged from Albuquerque to Santa Fe to join the Vegas crowd, which will be near 350, it is now calculated. Five coaches and a baggage car will take the Vegas crowd down.

Ishmael Delgado, who has been quite sick here, is reported better today.

The school children are getting ready for the opening of school Monday. The buildings are being cleaned, and all made fresh for the youngsters.

A letter from Serapio Romero at Torreon, says they have had five days of rain there, and it was still raining when he wrote. Torreon is in Valencia county. The Manzano mountains, nearby, have also received a good drenching and everybody in the neighborhood is happy.

C. W. Browne is moving his family into one of the Joke flats today. Mr. Browne, who was the manager of the Browne, Manzaneros company, at El Paso, will now become a resident of Las Vegas, as the branch house there has been discontinued.

Mrs. Jule Daniels will give a party tonight in honor of Miss Della Wray, of Los Angeles.

F. A. Manzaneros will leave tomorrow with his son, Manuel, for Notre Dame college, at Notre Dame, Ind.

Guy Gatchel continues to improve, and is almost able to sit up.

Mrs. Arthur Hindman and baby left this afternoon for her parents' home in Marceline, Mo. Nothing has been heard of the whereabouts of the husband, who deserted her. The railroad boys, ever generous, made up a purse of \$35, got her a pass and sent her home as happy as she could be under the circumstances.

Miss Rodey, the popular school teacher, returned this afternoon from her vacation trip to Denver.

Mrs. Dawson and daughter came down this afternoon from Dawson for a visit here.

Mrs. Annie Hesselden and brother came in this afternoon from Trinidad and stopped off for a couple of days before returning to their home in Albuquerque.

Mrs. E. L. Hamblin returned this afternoon from her trip to Raton, where she visited Mrs. Van Houten.

M. R. Derig, the superintendent of Indian schools at Thornton, and wife, who have been enjoying a few weeks' stay in Las Vegas, this afternoon returned home.

Edward L. Doheny, a Los Angeles oil magnate, and party went through on No. 1 today en route home from a trip east.

At the party given yesterday afternoon by Mrs. M. L. Cooley and daughter in honor of Mrs. Winchester Cooley, of El Paso, there were over thirty present. Six-handed euchre was the amusement of the afternoon, and Mrs. J. A. LaRue took the prize for games and Mrs. Charles A. Spies the prize for the lone hands. Dainty refreshments were served, and a very enjoyable afternoon spent. The house was decorated with sweet peas and dahlias, and the party was one which reflected great credit upon the entertaining hostesses.

That freeman and his wife are serenely making up at their home today, and the "other woman" is tasting the first drops of retribution. She is left out in the cold, at least for the present, and the old and first love has conquered. Amen.

Judge William J. Mills and Hon.

## A CLEANLY AGE.

Twentieth Century Ideas Incline Toward Sanitation and Preventatives.

Nowadays scientists believe that in cleanliness lies the secret of prevention of diseases.

To prevent a disease, remove the cause.

Just as unclean habits breed many diseases, so careless habits will breed dandruff. Improper use of another's brushes, combs, etc., will surely cause dandruff, and, in time, will just as surely cause baldness.

It's microbial infection, nothing more nor less.

Newbro's Herpicide kills the dandruff germ, and causes hair to grow luxuriantly. Herpicide is absolutely free from grease or other injurious substances.

I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by all druggists.

Alvin is known as a remarkable gentleman to argue points, so when he met the marshal this afternoon he renewed arguments in his case and the justice done him, saying that he proposed to get even with Timmons, if it took all summer. The marshal told the gifted window cleaner that he did not care to listen to his arguments but wanted the remainder of the fine, whereupon Alvin said he would pay when he got good and ready, or something to that effect. It was then that the marshal, taking hold of the man, piloted him gently to the city calaboose, where he will linger until he agrees to meet the balance of his fine in full.

## SWEDES ARE COMING

Hard Times and Conscription Laws Sending Them Here.

Stockholm, Aug. 29.—Driven from their homes by the unprecedented hard times and the stringent conscription laws in Sweden, an unusually large number of Scandinavians are making their way to America this summer. Every steamer leaving for America is crowded, and the transport lines are coping with the greatest rush since the early 80s. Many are unable to obtain passage at Scandinavian ports and are obliged to go to Liverpool and Southampton.

It is estimated that 15,000 passengers for America have left Copenhagen alone during the past six months. The emigrants are mostly of an excellent class. They are bound chiefly to the northwestern states, where they intend settling on agricultural land.

### FROM SILVER CITY.

Trying to Figure Out the Damages  
Caused by Recent Floods.

#### A DELAYED LETTER.

Silver City, N. M., Aug. 28.—The damage which was caused in the city last Sunday afternoon by the large flood that came down from the mountains north of town gave this little city quite a shock. For several years Main street has been turned into a water way for the flood water in the rainy season and it had been gradually cutting the street deeper until this year it was down in some places about fifteen feet. The city council seeing that something had to be done built heavy breakwaters along the weak places to keep the floods from washing back under the buildings, but the large flood of last Sunday took them all out in no time. The formation seems to be only soft filled in ground and had been made very crumbly by the heavy rains of the past few days, which were very hard and long. The flood water kept washing back under the bank undermining large pieces which crumbled and fell into the arroyo until it reached the sidewalks and finally the Enterprise building, which was considered wholly out of danger, and the ground under the front foundation was cut out and down came half of it in the arroyo, which had cut to thirty feet deep. W. H. Newcomb, who lived up stairs was out of the city and while considerable of his household goods were pulled back his piano and numerous other things went down. O. C. Hinman's furniture warehouse just across the street was soon undermined and went with a crash into the flood. He had moved his furniture the previous day back to a place of safety and his loss was very small.

Several other buildings along the street, while not of much value, fell into the flood; the only one of any great value being the east end of the Rosenberg block.

The portion of town damaged, while it has been practically condemned for years on account of the floods, was of no great value, but the condition the street is left in makes the business blocks west, in the center of the business portion of town, in great danger if any more big floods should come down, by washing the bank back and undermining them.

A meeting of the citizens and taxpayers was held last evening in Morrill hall and means were raised to make some necessary temporary brush dams on the bottom of the arroyo if possible with sand brought down. Five hundred dollars were raised in a few minutes, the amount required to do the work.

If it is possible to pull through this rainy season without any further damage it is the intention of the city to erect a substantial dam just below the town with an apron so as to permanently check the force of the floods and fill up the deep arroyo cut in the street.

Many Fine Teams Have Gathered at Sea Girt.

Sea Girt, N. J., Aug. 29.—Riflemen of ability and world wide reputation were on hand in force today at the opening of the great international and interstate rifle shooting tournament of the National Rifle Shooting Association of America. Prominent spectators were numerous and the shooting of the members of the crack teams was watched with the keenest interest. The competitions begun today are to continue through next week. Besides representatives of the various branches of the regular service the competitors include teams representing the state militia of Massachusetts, Michigan, New York, New Jersey, Pennsylvania, Illinois and a number of other states. The chief matches of interest to national guardsmen are the Hilton trophy, Wimbledon Cup and interstate military matches.

The Hilton trophy match is open to the world. The conditions are seven shots each at 200 yards standing and 500 yards and 600 yards prone, with head to the target. The prize is a trophy valued at \$3,000, presented by the late Henry Hilton, of New York, to be shot for annually, and a medal to each member of the winning team. The conditions of the interstate military match are ten shots each at 200 and 500 yards and it is open to the army, navy and marine corps of the United States and the state militia of the several states. The prize is the bronze "Soldier of Marathon," valued at \$600. The Wimbledon Cup match is open to all citizens and residents of the United States, the conditions being thirty shots at 1,000 yards, any position without artificial rest. The prize is the Wimbledon Cup, presented by the National Rifle Association of Great Britain to the National Rifle Association of America; value \$500, to be shot for annually, and a medal to the winner.

#### STAGE HELD UP.

Lone Robber Lines Up Passengers and Makes Them Give Up Valuables.

A dispatch from Tucson, Arizona, dated August 31:

The Washington camp stage was held up Tuesday and the passengers relieved of all their money and valuables. The deed was committed by a lone highwayman. Two stages a day run between Patagonia on the Southern Pacific and Washington Camp. One carries mail and express exclusively and the other passengers. The robber evidently intended to hold up the former, but was mistaken in the time of its arrival.

The passengers were lined up on the outside of the coach and forced to give up all money and valuables.

Sheriff Turner, of Santa Cruz county, was immediately informed and organized a posse and started in pursuit. Early Wednesday morning the sheriff of Cochise county arrested a man named Whipple. Officers believe he is the man who held up the stage.

#### Headache...

The following is quoted from a late work on the diagnosis and treatment of the diseases of the eye, by Edward Jackson, A. M., M. D.:

"It ought to be universally recognized that eye-strain is the common cause of headache. Aside from headache produced from fever, toxemia and organic disease of the brain and its membranes, eye-strain is almost invariably a factor in the production of headache. The headache of eye-strain is not of any special character—it may be constant or intermittent, slight or severe, felt only on the use of the eyes, or felt after their use, continuous or recurring irregularly or at certain intervals. It is aggravated by many other causes, such as hunger, exhaustion, exposure to heat or cold, or indigestion, or it may seem entirely independent of either influences. In the majority of cases eye-strain is not the only factor in the production of headache, but it may be the only factor of practical importance because it alone can be removed, and its removal will give relief. Such headaches are generally felt in the frontal, temporal or occipital regions."

Read the above again, and remember that eye-strain is relieved by glasses properly fitted. We are in every way equipped for scientifically testing the eyes and determining the right glasses. In every case absolute satisfaction is guaranteed. Prices are as reasonable as good work will justify.

Go after the cause. Stimulants and cathartics will never cure indigestion. They may temporarily relieve the system but the next meal clogs it again. The food should be digested. The nourishment—health—strength it contains should be appropriated—absorbed by the system.

## KODOL

purifies, cleanses, strengthens and sweetens the stomach. This new discovery digests all classes of food and assists the stomach and digestive organs in assimilating and transforming it into the kind of nourishment that is taken up by the blood and fed to the tissues throughout the various organs of the body. Kodol cures indigestion and dyspepsia, thus removing the cause of all stomach troubles. Kodol gives such strength to the body that it is invaluable in all wasting diseases.

"I wish to thank you for what Kodol has done for me," writes Clifton Gorton, Collett, Ind. "It cured me of dyspepsia after everything else had failed. When I tried Kodol it helped me right away. I cheerfully recommend it."

### WILLIAMS.

From the News.

Forest Supervisor Breen has returned from Chicago, where he has been visiting for some weeks.

The territorial tax levy this year has been reduced nearly 5 cents on each \$100.

Miss Maude Hill departed for the Grand Canyon, where she joined her sister, Mrs. Ainsworth, who has been a guest of Mrs. Buggell.

Miss Rose Carnes, the charming little sister of Mrs. H. D. Pyle, returned to her home in California last week after a lengthy visit on the mountain. Rose made many friends here who will miss her.

Prof. Clapp left for Cataract canyon, where he will superintend the erection of a snug cottage at Hilltop. Ed Levensong, who is doing the teaming, took out a wagon load of provisions and a large order of lumber.

Miss Susie B. Johnson and Miss Maude Hill arrived home from their outing over in Spring valley, where they had been the guests of Mrs. Grose and family. The girls say they had a delightful time.

Mrs. E. H. Simpson had a fainting spell similar to those with which she was troubled some time since. Her condition was at first considered dangerous, but at this writing she is greatly improved, much to the gratification of her many friends.

Dave Raudebaugh returned from Flagstaff, bringing with him a dog known as "Cuba," the mascot of A troop of the Rough Riders. Cuba accompanied the regiment through the Cuban campaign and was brought to Flagstaff by C. C. Jackson, who was recently killed at Clifton. Before leaving for Clifton, Jackson placed the dog with Mrs. Sam Black, an aunt of Mr. Raudebaugh, who brought him up here in order to secure several pictures of the regiment's mascot.

### Cured Paralysis.

W. S. Bally, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites, and skin eruptions. It does the work." 20c, 50c and \$1.00 bottles at Cosmopolitan Pharmacy—B. Ruppe.

### ST. JOHNS.

From the Snips.

The artisan water company is organized now. The articles of incorporation will be published and the company put in operation as soon as

Moqui and Navajo Indians have been very plentiful in town this week laying in supplies for the reservations. Although affected by the drought, their condition is not so bad as pictured by the sensational stories published within the last month.

The best physic—Chamberlain's Stomach and Liver Tablets. Easy to take. Pleasant in effect. For sale by all druggists.

### KINGMAN.

From the Miner.

Rain has been falling around the hills this week and a good shower fell in Kingman Thursday morning. It looks mightily like the old time summer and fall rains were coming back again after years of absence.

John C. Potts this week took Fred M. Miller, Charles Hunsaker and J. P. Gideon to make an examination of his mining claims in the Thumb Butte country, below Union Pass. They brought back with them a large lot of samples which they are having tested.

George A. Bonelli and J. T. Knight this week brought in a large bunch of horses and shipped them to California. This constitutes a clean up of the Mud Springs range, the cattle having been shipped to California some time ago. Mr. Bonelli has purchased the ranch and the cattle and horses left on the range.

H. P. Ewing returned to Kingman from an extended trip in the Grand and Diamond canyons. On the trip he was accompanied by the Rev. John W. Calfee and sister, Miss Fannie. He states that the scenery of this part of the gorge is inexpressibly grand.

L. A. Snyder, of the Val Verde smelter, was in Kingman a few days ago and went over to Mineral Park, where he has been negotiating the purchase of several valuable mining properties. Mr. Snyder is an old time ore buyer and has been in every mining district in the west, but he thinks this is one of the richest mineralized sections he has ever been in.

Charles E. Sherman returned from Los Angeles and went out home the following day. We understand that he has negotiated the sale of his Distaff mine at Chloride for the sum of \$75,000. The Distaff mine is one of the oldest producers of high grade silver ore in the Wallapai district and for many years was the standby of the early settlers of that section. It was extensively worked a few years ago by leasers and big money taken out. The purchasers are getting a good property.

Henry L. Shattuck of Shellburg, Iowa, was cured of a stomach trouble with which he had been afflicted for years, by four boxes of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedies and a number of physicians without relief. For sale by all druggists.

## Railroad Topics

The Bisbee tracks between El Paso and the bridge are rapidly being pushed to completion.

F. H. Mudge and W. C. Manger, of the Santa Fe engineering corps, are in the city from Las Vegas.

A. R. Frost, of Topeka, is in the city. Mr. Frost is employed in the electrical department of the Santa Fe.

M. R. Williams, superintendent of bridges and buildings on the New Mexico division, was an Albuquerque visitor yesterday.

Cade Selvey, who is the Santa Fe Pacific special officer, is still in the city. He has been operating in this vicinity for the past week or ten days.

J. J. Loftus, a Santa Fe employe at Lamy, was married to Miss Mary C. Johnston of that place by Rev. A. Rabeyrolle, in Santa Fe.

Mr. Musselman, formerly with the Burlington route in Iowa, has been employed in the machine department at the local Santa Fe shops.

Mr. and Mrs. C. A. Booth have returned from a month's visit at their old home in Chicago. Mr. Booth is a machinist at the local shops.

The walls of the new Winslow freight depot are now completed. The material for the roof has been delayed and work will not begin on that for several days.

A conference was held between General Manager Nixon, of the Gulf, Colorado & Santa Fe railroad and the strikers at Cleburne, Texas, and as a result the strike was called off.

William Mumford, who was run over by a passenger train up the road, the other day, died from his injuries at the Las Vegas railroad hospital at midnight, Wednesday night.

The bridge gang of the Santa Fe has been at work putting in several bridges in the canyon below Kingman. No iron bridges will be put in for some time to come and the company is compelled to strengthen the old structures.

Another party of surveyors have been looking over the route from the Santa Fe near old Powell to the mesa country below the Boundary Cone mines, near Kingman. There is a strong probability that the line will be built.

Mrs. J. E. Hurley and party are now in Salt Lake City and will visit points of interest in Colorado till September 15, when they will go to Topeka, where Mrs. Hurley and children will join Superintendent Hurley.

W. E. Armor, chief engineer at the local shops, has resigned. J. P. De Heart, his assistant, will succeed Mr. Armor in that position. This promotion of Mr. De Heart will be gratifying to that gentleman's many friends.

A territorial charter was granted at Guthrie, Okla., to the Guthrie, Shawnee & Coal Gate Railroad company, with \$1,000,000 capital, to build a line from Guthrie westward to Beaver, a distance of 150 miles. Among the incorporators are ex-Governor Barnes and half a dozen other Oklahomans.

The county commissioners at Cottonwood Falls, Kan., have decided to submit a bond proposition to aid the "Orient" railroad. John Eaton, of Kansas City, was present. It was decided to hold a special election October 14 to decide the bond question for Bazar, Matfield and Toledo townships.

The announcement is made that the Santa Fe will be operating the Eastern Oklahoma extension from Ralston to Shawnee, Okla., fifteen miles, within the next ninety days. The grading is nearly completed and in many places the steel is being laid. This will be the Santa Fe's shortest line to the Gulf when completed.

The Santa Fe this winter will run a through Pullman car between Denver and Los Angeles, attaching it to its California limited at La Junta. Herebefore the passengers for Los Angeles out of Denver have been compelled to change cars at La Junta. The sleeper will be a new one and of the same style as the coaches of the ten special trains which the Santa Fe is having built for its California service.

Watrous is becoming one of the liveliest towns in the territory on account of the blasting gang of the Santa Fe railway making its headquarters there. Four men came down from Mora and each opened up a saloon and the 200 odd laborers make the nights weary for the residents. A Mexican circus was also there a few nights ago and between the saloon and the circus there was life all night. The Santa Fe quarry, one and a half miles on the other side of Watrous, is turning the rock out for the blasting two train loads a day and the Santa Fe will have one of the finest roadbeds on its line when the work is completed. The crew is working near Onava now.

Some years ago "Down by the Silvery Rio Grande" was a popular song in the east. It is safe to say that the author never saw that river. Now comes the story of how one of the railroad companies of Colorado has bitten at the poetic dream of the author of "Where the Ragging Colorado Winds Its Way." This song is the work of a Denver man and has made a hit in the east. He thought the Colorado river was in Colorado till a Boston publishing house sent an artist out to that state to take a series of photographs of the river with which to illustrate the song for minstrel troupes and other traveling organizations that are

desirous of presenting the attraction. To the surprise of this artist he was compelled to continue his journey to Arizona to secure the pictures he desired. The railroad company in question subscribed liberally to the song under the impression that Colorado was the field to be advertised when the scene of interest is 500 miles away.

W. F. Crebs, a brakeman on the Santa Fe, had his leg broken while coupling cars at Bellemont the other morning. He was brought to Flagstaff, where Dr. Brannen set the broken limb.

Charles Bigam, who is employed at the Winslow railroad shops, is again on duty, after a two months' vacation spent with his parents in Fort Scott, Kan. He says that the Kansas farmers are all happy over the record breaking crops.

The foreclosure sale of the New Orleans & Northwestern will take place at Rayville, La., September 20, at the instance of the Central Trust company. The road starts at Natchez, Miss., transferring across the Mississippi to Vidalia, La., and thence runs to the Arkansas state line.

When Other Medicines Have Failed Take Foley's Kidney Cure. It has cured when everything else has disappointed. Alvarado Pharmacy.

**Gates' Big Railroad Deal.**—The Gates-Osgood fight over Colorado Fuel & Iron, has recalled the following story: "Several years ago Gates started to build the Davenport, Rock Island & Northwestern railroad, connecting Davenport, Rock Island and Moline. The Northwestern was backing him. It was understood that when the road was finished, it should be turned over by Gates to the Northwestern for \$2,000,000. The Northwestern loaned its engineers and operated the road up to the time when Gates was to turn it over. Then Gates informed the Northwestern that the road would cost \$4,000,000. The Northwestern refused to pay, and Gates coolly turned over the line to the Burlington and the Milwaukee, which roads operate the line."

**A World Wide Reputation.** Chamberlain's Colic, Cholera and Diarrhoea Remedy has a world wide reputation for its cures. It never fails and is pleasant and safe to take. For sale by all druggists.

**Rock Island Reorganization Plan.**—It can be stated with almost official certainty that there will be no important change in the charter of the Rock Island company of New Jersey, the company organized to take over the present Rock Island securities in accordance with the plan originated by the owners of the property. It is claimed that the criticism which has been directed against the plan is without justification. Regarding two important provisions of the charter which have been subjected to the severest fire, a Rock Island official said:

"There is nothing new or novel in the provision giving the company the power to deal in its own stocks and securities. A similar provision is in the charters of the United States Steel corporation, the stocks of which are being boomed almost daily by the press; the Corn Products company, the American Sheet Steel company, and nearly every other New Jersey corporation recently organized. The stocks of these companies are listed on the New York stock exchange and traded in daily."

"The provision of the charter giving the preferred stockholders the right to elect a majority of the board of directors is expressly authorized by the statutes of New Jersey, and is a provision which a number of companies have utilized. A notable instance is the Railroad Securities company, which holds a large portion of the stock of the Illinois Central Railroad company."

**A Physician Healed.** Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success."

**Fugitive Willing to Return.** Leslie Webb, who arrived six months ago at Parral, Mexico, and is wanted by Postoffice Inspector Fredericks, of Denver as a fugitive stage robber from Montana, has expressed a willingness to friends at El Paso to return and stand trial. Webb was released by the Mexican authorities two months ago, after the governor's application for an extradition warrant had been refused. The stage robbery was committed nineteen years ago.

**A Blessing alike to young and old;** Dr. Fowler's Extract of Wild Strawberry. Nature's specific for dysentery, diarrhoea and summer complaint.

**Eagles Are Ready.** The Eagles held a special meeting last night to consider what part the order will take in the territorial fair. Invitations will be issued at once to the lodges in El Paso, Raton and Prescott to attend the fair in a body and join in an informal reunion of the Eagles of the southwest. The order

## Thirty-six years of continuous success

Just think what that means. Thirty-six years in business, each year more successful than the previous one, with never a backward movement, constantly growing larger, ever increasing in popular favor. How many concerns in this country have such a proud record? How many that were doing business thirty-six years ago are even in existence to-day? Very few. But thirty-six years of continuous success and still growing larger. Think of it! How has it been accomplished? In this way. By selling absolutely pure whiskey, direct from our own distillery to the consumer, with all its original richness and flavor, saving him the enormous profits of the dealers, and by carrying out to the letter every statement or offer that we make, thereby creating a confidence with our over a quarter of a million satisfied customers that cannot be broken.

**CHAUTAUQUA WORK.**

Miss Marguerite Zearing Will Continue Work at Santa Fe, N. M.

Miss Marguerite Zearing is a Denver woman who is meeting with success in Chautauqua work. Miss Zearing gave a number of lectures and conducted classes at Boulder. Her methods there attracted attention and she was asked to continue work along the same line at Santa Fe, New Mexico. In New Mexico there is only the nucleus of a Chautauqua this year, but next summer there will be a regular Chautauqua, which Miss Zearing will help to start.

Music, primary methods and literary criticisms are her subjects. Her musical course is entirely original and has met with marked approval. As Miss Zearing has written several little books herself she is able to criticize the writings of others and her book review course is well attended.—Denver Republican.
