DOHERTY WON THE CHAMPIONSHIP.

His arrival was signaled by the firing of a presidential salute by the local militia and the G. A. R. performed guard duty. Acting Mayor Badger and a committee of the city government met the president and party at the station and were presented by Charles M. Allen, former governor of Porto Rico. The party drove rapidly to the street arched with bunting and lined with cheering people. Arriving at the speaker's stand, the president was presented to the people in a brief sentence by the mayor. Spanish war veteran stood on either side of the president as he rose to speak and cheers greeted him.

After paying a tribute to the soldiers of the Philippine war and of previous wars, in which this nation was involved, the president said:

"Whether we will or not, we, as a nation, front a great destiny. We can decide whether we will do our work badly or well, but we cannot help doing it. We have got to do it somehow and I ask that all men stand shoulder to shoulder as Americans to see that they do it well."

The administration of President Roosevelt is endorsed and he is especially thanked for his support of measures peculiarly beneficial to the interests of the Pacific coast, such as the reclamation of arid lands, the exclusion of

Chinese, and the Isthmian canal legislation. The convention endorses the firm but enlightened policy pursued in the Philippines which has secured peace in the islands; condemns all conspiracies and combines to restrict business, to create monopolies, to limit production, or to control prices, and favors such legislation as will effectually restrain and prevent all such abuses, protect and promote competition and secure the rights of producers, laborers and all who are engaged in industry and commerce; commends the efforts of President Roosevelt to enforce the laws against illegal combinations in restraint of trade; recommends the construction of government ships in government navy yards, and urges the adoption of the eight-hour schedule for labor on all government work; opposes "all reciprocity treaties inconsistent with protection to American labor and industry;" and favors legislation which will so regulate the process of injunction as to prevent its exercise in abridgment of the right of free speech or peaceful assemblage.

The present congress is the result of a movement begun at the Paris exposition. The discussions, which are to continue five days, are conducted under three heads of economics, stock legislation and industrial pensions. While there is nothing binding in its deliberations or conclusions the congress may bring about, at least a better, if not a complete understanding among the great commercial nations of the world that have shown signs in the last two or three years of breaking out into commercial warfare.

Now, therefore, I, Miguel A. Otero, governor of the Territory of New Mexico, do proclaim and declare Monday, the first day of September, A. D. 1902, a legal holiday and do earnestly recommend that all business, except such as the necessities of the community absolutely demand to be carried on, shall be suspended; that the schools be not opened on that day except as there may be a session in honor of its observance in such manner as will inculcate in our youth a high appreciation of the dignity of labor, the necessity for it not only for the benefit of our individual, but of the commonwealth and nation, and that all our citizens by the observance of this holiday may come to a higher realization of the fact that labor is not only necessary, but is honorable and dignified, and that for all men to labor in their respective fields of usefulness is not a curse but a blessing to themselves and to others.

Done at the Executive Office this 22d day of August, A. D. 1902.

Great Alarm for Safety of the Bridge.

ARRESTED ON TEN WARRANTS.

Santa Fe and Rock Island Trains Came Together.

COLORADO TROOPS WILL BE PRESENT.

Special to The Citizen.

San Antonio, N. M., Aug. 26.—The largest volume of water for ten years is passing under the old railroad bridge since midnight. The channel of the river is fourteen hundred feet and full from bank to bank. Great alarm is felt for the safety of the bridge.

Enough water is going to waste if stored by the government at San Acacia, where there is rock bottom and a box rock canyon, to irrigate every foot of farming land between San Acacia and Paraje. The water was highest at 12 o'clock when it was within four feet of the old railroad rails. At 1 o'clock it had fallen six inches. The water overflowed the track at the old Tiffany ranch, two miles above San Marcial, and many families on the east side of the railroad track, near new town, had to move out at midnight last night.

PRESIDENT BURT ARRESTED.

Ten Warrants Charge Him With False Imprisonment.

Omaha, Neb., Aug. 26.—President Horace G. Burt, of the Union Pacific railroad, was this afternoon placed under arrest on ten warrants charging him jointly with W. Arnett, an Indianapolis labor agent, with false imprisonment. Burt gave bond in the sum of \$1,000 for his appearance in court tomorrow.

PASSENGER AND FREIGHT

Came Together at the Junction at Wellington, Kansas.

Wellington, Kan., Aug. 26.—A passenger train, west bound, on the Panhandle division of the Santa Fe system crashed into a south bound freight on the Rock Island system at the junction here last night. The governor says he will be able to dispatch 250 of the Colorado national guard.

THE OLIVER CASE.

The Mystery of the Disappearance Remains Unchanged.

DYE AND MOORE TALK.

One more day has passed and the situation at Camp Whitcomb in regard to the disappearance of George Oliver is unchanged. Circumstances give stronger evidence that Oliver will never be found alive. Thos. Votaw, a saw mill man from the Chilili country, arrived in the city last night. Mr. Votaw was seen by a Citizen reporter this morning in regard to the story published in the morning paper.

"They got that story all wrong," says Mr. Votaw. "I do not run the Escobosa saw mill and I did not stop at Escobosa as I came to town. My mill is about three miles from Escobosa. I picked up considerable information about a crazy man, who was supposed to have been seen in the canyon which leads to Escobosa, but I think that the natives with whom I talked, got their information from Messrs. Cooper and Dye, who I have since learned made a trip to Escobosa to investigate a story told by Manuel Crespin.

"A native," continued Mr. Votaw, "named Felix Crespin, a relative to the Crespin that told the story the other day, rode with me down the canyon as far as Tijeras. He told a good story but I think his story is like that told by Crespin No. 1. It had no foundation. He probably heard about Oliver's disappearance to him. My opinion is that Oli-

ver's body is in half a mile of Camp Whitcomb and if it has not been made away with will be found."

Mr. Votaw left this morning on his return to his saw mill in the Manzano mountains.

A week ago Monday evening a party of citizens, of their own accord, defraying the expenses of the trip with money from their own pockets, left the city to make a search for Oliver, who disappeared early the morning previous and wanted somebody to look. The wagon carrying this party of men arrived at Whitcomb about 12 o'clock that night. On Tuesday morning another party under similar circumstances, arrived at Whitcomb and joined in the search for the missing man. The combined parties of searchers made ten men. They started out early in the morning and walked until late in the afternoon. They had practically nothing to eat. Climbing mountains for six or seven hours is quite tiresome. None of the men in the searching party were used to such hard walking, consequently they gave up the search and returned to the city for supplies.

A native came to town with a plausible story. A couple of citizens, at their own expense, made a two days' drive in the mountains to investigate. They found no clue and the thanks they got is public criticism.

Some say that Dye and Cooper got as far as Jones' place on the mesa in their search for the half crazed man, where they rested up and had a fine time. This story is being vehemently denied on the street today by Mr. Dye, who says that they got as far as Escobosa, where they thoroughly investigated the Manuel Crespin story, and after satisfying themselves that the tale he told was absolutely unreliable, they gave the country thereabouts and around Whitcomb Springs a good, faithful search, but failed to secure any trace of him.

Equally hard stories are being circulated about the others who also went out to mountains to do some searching, but these stories are also denied, and Attorney Horton Moore says the trip alone cost him \$17 of his own money. The searching he and party did was systematically carried out, and he was more than anxious to find the missing man, dead or alive, for he had befriended him on several occasions and he felt it his duty to use every exertion to clear up, if possible, the mystery surrounding Oliver's disappearance.

"I personally know that Oliver was in no condition to tramp the mountains without assistance," said Mr. Moore, "and I am confident now, since several searching parties have failed to find any trace of him, that sooner or later his dead body will be found in one of the many prospect holes that abound in the Sandia and Manzano range of mountains."

STRIKE POSSIBLE.

Street Railroad Lines in Chicago May Be Tied Up.

Chicago, Ill., Aug. 26.—Grave possibilities of a strike that may tie up all the street railway lines of the west and north sides of this city confront the officials of the Union Traction company. Today, by an overwhelming vote, the local union of the Amalgamated Association of Street Car Employees refused to accept the proposition made by President Roach several days ago.

ALL WAS EXCITEMENT.

Men Went to Work Under Military Escort in Safety.

Summit Hill, Pa., Aug. 26.—Excitement prevails throughout the Panther creek district today. At daybreak the strikers assembled to prevent non-union men from going to work. Anticipating trouble, Major Gearhardt sent two companies of soldiers to this place and their presence prevented an outbreak. Soldiers escorted the workmen through the mob that collected and placed them in safety in the cars which carried them to their work.

No Trouble Occurred.

Hezleton, Pa., Aug. 26.—Suspecting that another attempt would be made to resume operations at No. 49 colliery of Lehigh Valley Coal company, today, many strikers pickets were stationed along all approaches to the mine. Most of the non-unionists who attempted to reach the colliery were turned back but no serious trouble occurred.

Three strikers who are alleged to have participated in yesterday's riot are under arrest.

Committee Meeting.

The republican central committee, Frank A. Hubbell, chairman, is called to meet in this city on September 1, at the office of La Bandera Americana, at 10 o'clock a. m., for the purpose of calling a county convention to elect delegates to the territorial republican convention at Raton.

CATHOLIC KNIGHTS ARE IN SESSION.

St. Paul, Aug. 26.—Judge Sanborn, of the United States court of appeals, in deciding the case of Aaron Keyser vs. John W. Lowell, brought here on appeal from the circuit court of the United States for the district of Colorado, held that the Colorado statute of limitation is void and in violation of the constitution of the United States. The case dates back to 1885, when the plaintiff recovered judgment against the defendant in the Utah courts.

In 1891, action upon the judgment given in 1885 was begun and judgment rendered in favor of the plaintiff for \$9,052.

When judgment was obtained the cause of action was barred by the Colorado statute of limitations.

The gathering will conclude tomorrow evening with a banquet at the Zoo.

They propose to run cars at the rate of 100 miles an hour on the new electric railroad between Chicago, Aurora and Elgin.

It is not determined who will be the winner in the coal strike. But it is definitely settled that the consumer will be the chief loser.

A committee of the senate is now to visit and investigate Hawaii. Senator J. A. Mitchell, of Oregon, is the chairman of the committee, and is starting for the voyage. He will sail for Honolulu on the 30th.

During the last five years there has been a wonderful increase in the amount of government money in national bank depositories. In 1897 only sixty-five banks were designated as such depositories, and the amount of

money placed with them was only \$16,000,000. Now there are 500 bank depositories, and they have an aggregate of \$128,000,000 of government money in their possession.

The Boer leaders who are coming to the United States to study farming methods are simply following the example set by the rest of the world. American farmers and their machinery are in an unequalled class of their own.

The Las Vegas Optic says that Chas. A. Spiess is a candidate for delegate to congress. Mr. Spiess is one of the best lawyers in the territory and a shrewd politician. If he concludes to be a candidate he will have strong support from a host of friends.

Silver City has met with a severe disaster from flood. The pretty little city is located in a narrow canyon and yearly has heavy loss from mountain torrents. The only remedy is to move the town farther up the canyon, where it widens into a valley and where there would be no danger from washouts.

The Roswell Record has been purchased by Prof. H. F. M. Bear, of Wellington, Kansas, and C. E. Mason, of Roswell. The new purchasers take possession on October 1, and the paper will be edited by Prof. Bear. The politics of the Record will continue to be democratic. Consideration private.

A dispatch from Indianapolis says that Senator Beveridge, chairman of the senate committee on territories, has decided in the early part of November to consider the bill granting statehood to Arizona, New Mexico and Oklahoma. By agreement this bill must be taken up in the senate soon after the opening in December, and must therefore be disposed of in committee before the regular session of the senate opens.

A JUDGE'S GOOD ADVICE.

A Daniel came to judgment at New Orleans the other day when Mr. Pen Walker, "a prominent young man about town," had J. C. Gillam arrested for threatening to kill him.

"Why," asked Judge Aucoin, of the criminal court, when the case came up for trial, "did this man threaten to kill you?"

It should be explained that Gillam has a young and pretty wife, with whom Walker had been seen often enough to cause gossip.

"He told me," said the prosecuting witness, "that he would kill me if I didn't leave his wife alone."

"Then leave his wife alone and keep from getting killed," answered the judge. "Mr. Gillam, you are discharged."

THE LATE GENERAL SIGEL.

General Franz Sigel was born at Sinsheim, Baden, Germany, on November 18, 1824. He was educated at the military school at Karlsruhe, and entered the service at Baden. He resigned in 1848, but the revolutionary government appointed him secretary of war. On the flight of the provisional government he withdrew to Switzerland, but was expelled by the government and came to New York in 1850. Here he taught mathematics and became a major in the militia. In September, 1858, he went to St. Louis, and there became superintendent of the public schools. When the civil war broke out he organized a regiment of infantry and a battery. He was promoted, commissioned a brigadier general, and later had command of the department of West Virginia. He resigned his commission May 4, 1865. He had served as collector of internal revenue, register and pension agent in New York. He had also engaged in literary work and some of his works are quite famous.

POKER PLAYING PROHIBITED.

Secretary Shaw is after the poker players in the treasury department. Just before he left Washington for Vermont, he severely disciplined several employees of the treasury for a form of misconduct which heretofore has not received attention from the head of the department. Several days ago the wives of a number of clerks called in a body upon the secretary, and requested that an order be issued that there will be withheld on every pay-day a certain part of the husband's salary for the support of themselves and children. This caused Secretary Shaw to institute a rigid investigation into the conduct of clerks against whom the complaint was made, and when he learned that some of them were habitual poker players, while others were in the habit of betting on horse races he brought them up before him with a sharp turn.

After delivering to them a severe fatherly lectures on the evils of gambling, he ordered the transfer of

every one of them from the desks they now occupy, learned what their family expenses were, and cut their salaries with a view of their domestic needs. Then he warned them if he heard of them wagering any part of their salaries again that he would promptly discharge them from the treasury.

ROCK ISLAND EXPANDING.

It looks as if in two years the Chicago, Rock Island & Pacific railroad system will have many miles of road in New Mexico. The road that will be constructed from Amarillo, Texas, to Tucuman, to connect with the Dawson railroad, will give the system an entrance and business in one of the best parts of northern New Mexico. Via the Santa Fe Central railroad to the Albuquerque Eastern Railroad it will reach the central Rio Grande valley and should the proposed cut off from Alamogordo via Las Cruces be constructed to Deming, it would tap the lower Rio Grande valley and the country tributary to it. The Santa Fe railway will have to look to its laurels and its business, if the latter should come to pass.

A MARKED CONTRAST.

The New Mexican says that the attendance at the republican territorial central committee meeting recently held at Albuquerque was very good. Sixteen counties were represented by delegates, or by citizens of these counties holding proxies for the resident members. This is a pleasing contrast to the meeting of the democratic territorial central committee in the same town a few weeks ago. On that occasion there were present two members for Bernalillo, one from Santa Fe, one from San Miguel, one from Colfax, one from Grant and one from Sierra. There were numerous proxies in the hands of the chairman, but these, of course, did not amount to anything, except that could they have been used, the chairman would have been in reality the boss he attempted to be.

"SPECIAL PRIVILEGES TO NONE."

President Roosevelt believes in one of the principles the Farmers' Alliance used to promulgate. He made it very clear in his speech in Connecticut on Friday. He believes in fairness and justice to all, and special privileges to none.

On the occasion of his visit to Hartford, a floral horse shoe was presented to him in behalf of the workmen of the city; and he alluded to the incident in his speech, as follows:

"Gentlemen, I should be utterly unfit for the position that I occupy if I failed to do all that in me lies to act, as light is given me, to do so as to represent the best thought and purpose of the wage workers of the United States.

"Now at the outside of the twentieth century we are facing difficult and complex problems, social and economic which will expect the best energies of all of us to solve right and which we can only solve at all if we approach them in a spirit, not merely of common sense but of generous desire to act each for all and all for each; and while there are occasions when through legislation and administrative actions the government which represents the people can do special service to one set of our citizens; yet I think you will agree with me that in the long run the best way to serve any one of our citizens is to serve them all alike well; to try to act in a spirit of fairness and justice to all; to give to each man in his rights, to safeguard each man in his rights, and so far as in me lies, while I hold my present position, I will be true to that conception of my duty."

At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by all druggists.

CYANIDE PLANT.

For Rosedale Mining District—in Flourishing Condition.

The News of El Paso announces the return to that city from San Marcial of B. L. Berkey, who had been on a visit to the Rosedale mining camp.

He reported that the camp was in a very flourishing condition and showed signs of great future prosperity. It has a free milling gold ore suitable for amalgamating. Mr. Berkey states that the Baking Powder mine is so promising that the owners are considering the advisability of putting in a fifty-ton cyaniding plant. They have gone down only 100 feet and drifted off in two directions. On their ore dump they now have \$9,000 worth of good ore which they are now getting from a vein which averages four feet in width. The mine is owned by Edwards brothers and J. F. Kettler and a man named Davis, all of El Paso. The district is developing so rapidly that it will now be only a matter of a few months before a smelter will be put up there. There is plenty of water, and fuel can be easily had, so the prospects for the camp are very bright.

CAPT. E. McB. TIMONEY.

Rumor of His Death in the Philippines Confirmed.

A letter dated Manila, P. I., July 2, 1902, from Thomas H. Long to R. S. Hamilton, confirms the news of the death of Capt. E. McB. Timoney, his father-in-law, published in the Roswell Register two weeks ago. The letter says:

"Captain Timoney died on the 24th of June of Asiatic cholera. He was living in Batangas city, where he had only been about two weeks when he was taken sick. It was very sad and distressing to the family that they could not be with him, owing to the nature of disease and the strict quarantine maintained between this city and Batangas. His sickness lasted three days; the majority pass away in less than twenty-four hours. It was some consolation to the family that he was buried with military honors, and being an old army officer, it was always his desire to be buried that way. He was perfectly well the night before, having attended a reception given by General Bell, the commanding officer at Batangas. Mrs. Timoney will return to the states as soon as she settles her affairs in the islands, and the captain's remains will be taken home just as soon as quarantine regulations permit."

A Curiosity Without a Baca.

As a republican ticket in Socorro county would be a curiosity without a Baca, and the present incumbent of the probate clerk's office has been saving his wages for the past four years, would it not be a good idea to offer the position to the Hon. Estevan Baca, ex-postmaster. He has spent a good deal of time and money for the benefit of the party, and has profited very little thereby. He is honest, straightforward and the most dignified member of the republican clan.—San Marcial Bee.

VOLCANOES IN A LAKE.

Remarkable Body of Water Near the Arizona-Mexico Frontier.

"Squire Redwine, who has been in Phoenix for several days, yesterday described a smoking lake not far from the country where he lives. The lake is about forty miles from the town of Imperial, and twenty-one miles south of Mexico. It lies within the Cocopah country, at the base of the mountains, even below the foothills, but it has not been there very long. It is on the Mexican side of the line. It used to be in California, and was supplied with water by the Chino river, but the Mexicans dammed that stream and the water was turned into the Cocopah river, which feeds the new lake and does little else.

Within the boundaries of the new lake there has been for several years what the Indians believed to be a volcano. Smoke was almost constantly rising from the ground, but there had been no other sign of an eruption. The water of the lake now covers the volcano to a depth of from five to ten feet. Ever since the water has been there there has been trouble, and it is getting worse every day. The Indians have moved from that neighborhood and the whites in the settlement twenty miles north are thinking of moving. The lake is about fourteen miles long, but not of great width.

At first the disturbance was confined to that part of the water in the vicinity of the volcano, but now the water is boiling over a considerable part of its area and explosions are growing more and more frequent. People living in the neighborhood of Texico are often awakened by them in the night time. Eruptions are going on all the time, but they are generally of sufficient force to throw up the water to the height of a few feet. That makes no noise that can be heard at any great distance. But occasionally the eruption breaks through the water and shoots mud into the air at height of forty feet. Whenever this happens the noise can be heard and a flame can be seen for miles. It was such demonstrations as these that frightened the Indians away. There are boats on the lake and parties have started out to the volcano, but they have always turned back without completing the investigation. One party which came back reported seeing an area of mud forty feet square thrown fifty feet into the air. The level of this lake is several feet below sea level.

The whole Cocopah country has been a volcanic region. The side of the mountains and the country for a considerable distance around are covered with sulphur. Within the memory of some of the older residents of Arizona one of the volcanoes in the mountain range was active.—Arizona Republican.

SUNSTROKE INSURANCE

When the summer's heat gets about 100 degrees, you are liable to be sunstruck any time you are out in the sun, unless you take the proper precautions. Several years ago, the writer of this, who has spent much of his life in the tropics thought he was safe from sunstroke. One day he collapsed, remained unconscious for five hours, and at times his life was in danger. As a matter of fact, any person whose stomach and bowels are in bad shape in the summer time, is liable to be sunstruck in temperature that would be harmless under normal conditions. That's all there is to it. Stomach and bowels full of fermenting, fermenting refuse that forms acids and gases, fills the heat of the body and blood many degrees. Scientists have found that natives of the South Sea Islands, living on laxative fruit, bananas, coconuts, bread-fruit, have a temperature 20 degrees lower than that of white men who are careless about their food or their bowels. It has been found in years of experience, that a CASCARET Candy Cathartic taken at bed-time every night will keep the body clean and cool inside all day, and forms a safe and thoroughly reliable form of sunstroke insurance.

BOER FIGHTERS.

Two Stop Over in Las Vegas—Prof. Hewitt and Party Returned.

DEAF AND DUMB RACKET.

Special Correspondence.

Las Vegas, N. M., Aug. 25.—General Samuel Pierson and William Harper, a couple of Boer fighters, arrived in this city this morning on belated No. 8 from San Francisco. The men have been in this country for some time and are now on their way to New York to take passage for South Africa on the 15th. General Pierson came to America along with several other refugees in November 1900, and is an acquaintance of Verne E. Joy, they having been fellow ship mates. General Pierson and Mr. Harper, being residents of Barberton were counted as rebels, and as such, if captured, were subject to death, so after fighting with the Boers a year or so, they left the country. General Pierson has for the past two years been trying to suppress the traffic in horses in this country for England, and has gained considerable notoriety on account of his work. They will be in Las Vegas several days. Wesley Merritt, industrial agent for the Santa Fe railroad, is with the gentlemen.

The many friends of Rev. and Mrs. J. H. Bourne will regret to learn of their intended removal from this city. Rev. Bourne has not as yet given out his resignation of the pastorate of the Baptist church, but will do so soon. He is packing his household goods now and will remove to Detroit.

Dr. W. B. Barker, who has been practicing at Mora until he became so ill he could no longer continue his profession, died at 8:20 Saturday night of tuberculosis. He has been in Las Vegas only about a week, and his remains will be shipped to Chicago tonight on No. 8.

Mrs. H. Selt and daughter are packing their trunks preparatory to leaving for an extended stay in Oklahoma.

Max Nordhaus entertained a number of friends yesterday at trout springs in honor of the birthday of Mrs. J. J. Jaddell. Mr. and Mrs. Louis H. Jaddell, of Albuquerque, were present, and a number of friends from Las Vegas.

Prof. R. H. Powell, formerly a teacher in the normal here, with wife and daughter, arrived this morning from Chicago to see old friends here.

Henry Levy returned this morning from his trip to New York, where he was on a buying expedition. He came in on the flyer.

The exploration party under the chaperonage of Prof. E. C. Hewitt and wife returned Saturday evening. They were gone two months and report a most interesting trip. The party, which consisted of Prof. Hewitt and wife, Miss Ruth Reynolds, Miss Margaretta McNary, Prof. I. N. Chapman, Prof. James McNary and brother, W. C. McNary, of Pittsburgh, all look well and report a decidedly interesting trip.

Miss Margaretta McNary departed today for Tarkio, Missouri, where she will make her future home. Miss McNary has many friends in Las Vegas who will regret to see her leave. She was accompanied part of the way by her brother, W. O. McNary, who has been out with the Hewitt party for the past ten days, and who is an interesting young attorney from Pittsburgh. He is also on his return home.

E. L. Browne returned Sunday afternoon from his trip to San Francisco to attend the meeting of the Knights of Pythias supreme grand lodge. He also enjoyed a trip to other parts of California.

Mrs. J. K. Williamson departed yesterday for Salida, Colo., and Denver, where she will make quite a visit.

Walter Davis and family are expected here today from California. Mr. Davis is an ex-Las Vegas, and like others, comes back in time. He will

IMMENSE LAND ENTRY.

J. J. Hagerman Files on 165,000 Acres East of the Pecos River.

WILL STOCK THE LAND.

It has been known for some time that a large land deal was contemplated which will interest many people in this vicinity, but we have refrained from saying anything about it until we knew that the affair was consummated and until we could state definite facts, says the Roswell Register.

Some time ago the congress of the United States authorized the establishment of a forest reserve in Arizona covering over two million acres of land. Some of the land belonged to the Santa Fe Pacific railroad company and other parties and some to the government. The private parties were asked to surrender the land owned by them in exchange, acre for acre, of land owned by the United States. After nearly two years of negotiation and hard work all parties came to an agreement, the president issued the necessary proclamation and an exchange of lands is now taking place.

More than a year ago J. J. Hagerman opened negotiations with the railroad company for the purchase of a large tract of this land which it would get from the government. He also made an arrangement with other Arizona parties for a smaller amount and has recently made an entry in the Roswell land office of about 165,000 acres.

The land located is in the Long Arroyo country, east of Roswell, is about forty miles long north and south and from seven to ten miles in width from east to west, the northerly boundary being in the neighborhood of Elkins station on the Pecos Valley railroad. It follows the general course of the Long arroyo where stock water is easy to get and where the range grasses are excellent. Undoubtedly, this is the largest body of excellent pasture land, well watered, in New Mexico. It has long been known and used by our stockmen. Mr. Hagerman informs us that he will fence this land and divide it into several pastures as soon as the work can be done, the materials having already been ordered. Gates will be left wherever the fence crosses the travelled roads so it will be no inconvenience to the public nor to the few settlers who have homesteads or other small claims within the tract.

It is his purpose to stock the land with a good class of cows and thoroughbred bulls, his object being to raise a very high grade of beef cattle. The calves will be taken from the cows at weaning time in the fall to the Felix and South Springs ranches, where they will be fed on alfalfa during the winter. By this means a much higher grade of cattle can be produced than is possible on the open range. Many of the dangers and uncertainties of the open range business will be eliminated.

League of Municipalities.
Grand Rapids, Mich., Aug. 26.—The sixth annual convention of the League of American Municipalities will open in the Furniture Exposition building in this city tomorrow. Mayor Palmer will welcome the members and Mayor Charles S. Ashley, of New Bedford, president of the league, will respond. The discussions will continue through the remainder of the week. About 200 mayors and other city officials are here.

Campaign in Tennessee.
Nashville, Tenn., Aug. 26.—In accordance with the call of Chairman Frank M. Thompson, the democratic state executive committee met in Nashville today and outlined plans for the campaign. J. B. Frazier, candidate for governor, will stump the state, while Senators Carmack and Bate, Governor McMillin, Congressman Richardson, Hon. E. E. Eslick and a number of other well known orators will be among those to assist Mr. Frazier in his campaign.

Journey for Senators.
San Francisco, Cal., Aug. 26.—Senator Mitchell, of Oregon, and his fellow members of the senate Hawaii commission, left today on the City of Peking for Honolulu. The commission purposes to spend a month or more in the islands in order to make a thorough investigation of the industrial and other conditions with a view to ascertaining the island's needs in the way of future legislation.

Mrs. J. H. Smith, of 115 Huning avenue, (J. H. When suffering from backache I went to the Albuquerque Pharmacy for Doan's Kidney Pills and took a course of the treatment. It stopped the annoyance. EDWARD COOPER DEAD.

His Lifeless Body Found at His Room This Afternoon.

DEATH FROM HEART DISEASE.

Shortly after 12 o'clock today Edward Cooper was found dead in his room in the Dodd adobe rooming house between Third and Fourth streets on Tijeras avenue.

Policeman Harry Cooper, a brother of the deceased, made the startling discovery. The body was lying crossways on the bed and was partly dressed, the vest and one shoe having been removed. It was badly decomposed and must have been lifeless for at least two days.

Cooper was last seen about 11 o'clock Saturday night around town with some friends.

Edward Cooper, the deceased, was 54 years old and came to Albuquerque from Missouri about 1891. For the past six or eight years he has been employed as brick mason by the firm of Dodd & Lemke, contractors. About six weeks ago, while working on a brick building on Railroad avenue Cooper fell from a step ladder and sprained an ankle and bruised a foot. It was from this foot the shoe had been removed.

It is believed that death was caused by heart disease and that it occurred some time Saturday night.

The deceased rented a room in the Dodd house and bachel and took his meals out. He was missed but nothing serious was thought of his absence.

This morning people living in the rooms next to Cooper noticed a bad odor coming from his room. Police- man Cooper was notified and went to the house to investigate. The door was found latched and an entrance was gained by kicking the door in.

The body was moved to O. W. Strong & Sons' undertaking parlors, where the funeral services were held at 5 o'clock this afternoon. Rev. Renison of the Episcopal church, officiated. Interment was made in Fairview cemetery.

"I had diabetes in its worst form," writes Marion Lee, of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man."

PHILADELPHIA CAPITALISTS.

Those Interested in the New Road are Coming.

A letter has been received by George W. Stubbs from the Philadelphia capitalists who are interested in the proposed Albuquerque, Cochiti & North-eastern railroad, saying they will be here in a few days. It is planned to build the road from here into the Cochiti district and connect with the Denver & Rio Grande at Butman's. When the Philadelphia men arrive here it will be decided whether to build the road from here or some other point on the Santa Fe. Some time ago they appeared before the Commercial club and proposed to locate the shops here if a certain amount of stock be subscribed here. It was not to be paid for until the road was completed. The proposition was referred back by the club with certain alterations and definite results are expected to follow this visit.

BRIGHT PROSPECTS.

Both Nebraska Senators are in Favor of Statehood.

Judge B. S. Baker and wife have returned from their visit to Omaha and Yellowstone Park. During his stay in Nebraska Judge Baker talked with Senators Millard and Dietrich about statehood. Both are strongly in favor of it and Senator Millard believes the bill will be passed this fall, although if there is a great press of business, it may be held up until next year, but this he regards as unlikely. Senator Millard is a close personal friend to Senator Beveridge and used his influence to secure a favorable report on the bill last summer. Senator Dietrich also expressed himself as in favor of the bill. On his way home, Judge Baker met Congressman Lacey, of Iowa, who was on his way to investigate the proposed national park of cliff dwellers houses. Mr. Lacey considers the prospects for the passage of the statehood bill as very bright.

A Cure for Cholera Infantum.
"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. Railroad Topics

Dr. J. P. Kaster, chief surgeon of the Santa Fe main line, arrived from Topeka last night. He has several private patients in this city.

G. R. Joughins, mechanical superintendent of the Santa Fe coast lines with headquarters at San Bernardino passed through the city this morning.

John DeHart, engineer at the local shops, is enjoying a pleasant visit from Elbert Finch, Thomas Finch and William Crabtree, old friends from Springfield, Ohio.

Hugh O. Morrison, at one time a resident of Albuquerque, but now employed in the Santa Fe offices at Los Angeles, was around shaking hands with old friends yesterday.

The Santa Fe Central railway has 650 men and 350 teams in its employ on the grade, with the pile drivers and hauling ties, bridge timber and supplies. One hundred more teams would be put on immediately were they to be had.

William F. Cribbs, who is employed by the Santa Fe at Flagstaff, Ariz., has gone to Los Angeles, where he will be placed in the Sister's hospital. He came in contact with the fender of an engine at Flagstaff last Wednesday, resulting in a broken leg and several bad bruises.

The grading camps of the Santa Fe Central railway are approaching the capital city rapidly and the grade will reach that town about the first of September. The big grading force will then be transferred to the line south of Kennedy station and the grade towards Torrance will be pushed energetically and steadily.

New plans have been issued by the Santa Fe company for the construction of the standard ballasted, wooden trestle bridges for use on the system. The old structures, now in use, have been found too weak for the Baldwin engines, and as soon as the frail structures need repairs, they will be replaced by the new style bridge. The timbers which are to go into the new bridges are creosoted, and are supposed to last for forty years.

A Physician Healed.
Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success."

New Depot for Pueblo.—The Santa Fe railroad will begin the construction of their new freight and passenger depot in Pueblo, Colo., in a few days. The new structure will be erected just north of the present Santa Fe depot, known as the stone depot. It is one of the oldest stations in the west, having been built at the time when the Santa Fe was first extended to Pueblo. The new structure will cost \$55,000, and will be modern in every respect. It will be one of the most commodious depots west of the Missouri river. When completed the local offices of the road and those of all the traffic and operating departments will be located on the second floor. C. A. Fellows has secured the contract, and will put on a large force of men and push it rapidly to completion.

His Sight Threatened.
"While picnicking last month my 11 year old boy was poisoned by some weed or plant," says W. H. Dibble, of Sioux City, Iowa. "He rubbed the poison off his hands into his eyes and for a while we were afraid he would lose his sight. Finally a neighbor recommended De Witt's Witch Hazel Salve. The first application helped him and in a few days he was as well as ever." For skin disease, cuts, burns, scalds, wounds, insect bites, De Witt's Witch Hazel Salve is sure cure. Relieves piles at once. Beware of counterfeits. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Had Twenty Servants.—The Wichita Beacon says: General Superintendent Hurley of the Santa Fe railroad, arrived in the city at noon today from the east by special train. He is making a trip of inspection over all Santa Fe lines. Accompanying him was nearly a score of servants, besides his private secretary. Mr. Hurley's private car is a veritable traveling palace fitted out with everything for the comfort of its occupants.

After spending several hours in the city looking over the depot and the track facilities, Mr. Hurley left for the south without communication of any kind to the local officials or any one else. It has been known for some time that the Santa Fe has been contemplating some improvements at this point, among them the enlargement of the depot and while the order for the improvements would not come directly from Mr. Hurley, he always inspects points in need of improvements and hands his decision down to inferior officials who execute his orders.

When Other Medicines Have Failed.
Take Foley's Kidney Cure. It has cured when everything else has disappointed. Alvarado Pharmacy.

A Fugitive Captured.
A few days ago there dropped into the vicinity of Hagerman, footsore and tired, a strange Mexican. D. L. Lang

noticed him and at once recognized him as Lucio Rodriguez, a fugitive from justice from the state of Texas. Mr. Lang, who was formerly a deputy sheriff of Wilson county, Texas, says that in the year 1897 Rodriguez killed two men in his county and was indicted for the crime of murder by the grand jury but that the murderer escaped and until now his whereabouts were unknown. The officers here were at once communicated with and Rodriguez held. Deputy Pilant went down to Hagerman Tuesday night and returned Wednesday morning with the prisoner and lodged him in jail here pending requisition papers. It is said that Rodriguez has confessed the crime.—Roswell Register.

A Necessary Precaution.
Don't neglect a cold. It is worse than unpleasant. It is dangerous. By using One Minute Cough Cure you can cure it at once. Allays inflammation, clears the head, soothes and strengthens the mucous membrane. Cures coughs, croup, throat and lung troubles. Absolutely safe. Acts immediately. Children like it. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Forgot About His Stomach.
"Every Sunday I preach three times, attend two Sunday schools and one Epworth League" wrote the pastor of one of the leading churches of Centerburg, Ohio, recently.
"When I come in Sunday evenings, too exhausted to digest an ordinary meal and yet needing something to give strength for the remaining duties of the day, I make my supper largely of 'Force,' the new wheat and malt cereal. It digests without reminding me that I have a stomach and yet it strengthens me that I close my last service no more weary than at supper time."
"It is the food for the brain worker with a weak stomach."

If you are troubled with impure blood, indicated by sores, pimples, headache, etc., we would recommend Acker's Blood Elixir, which we sell under a positive guarantee. It will always cure scrofulous or syphilitic poisons and all blood diseases. 50 cents and \$1. J. H. O'Reilly & Co. and B. H. Briggs & Co.

Walapai Indian Quarrel.
In a drunken melee near the Indian school at Truxton this week, in which some fifteen or twenty Walapais took part, an Indian known as Kate Crozier struck another Indian named Johnny Haneta in the head with a rock and thinking he had killed him dragged him to the railroad and placed the body on the track. Johnny revived just before the first train came along and crawled away. Johnny is the Indian who was shot in the hand some time ago while helping Deputy Sheriff John Harris arrest an old Indian for assault to murder. Kate Crozier has disposed of one Indian and one white man in the same manner he tried on Johnny Haneta, and was tried for murder on one of the counts.—Kingman Miner.

To My Friends.
It is with joy I tell you what Kodol did for me. I was troubled with my stomach for several months. Upon being advised to use Kodol I did so, and words cannot tell the good that it did for me. A neighbor had dyspepsia so that he had tried most everything. I told him to use Kodol. Words of gratitude have come to me from him because I recommended it.—Geo. W. Fry, Viola, Iowa. Health and strength of mind and body, depend on the stomach, and normal activity of the digestive organs. Kodol, the great reconstructive tonic, cures all stomach and bowel troubles, indigestion, dyspepsia. Kodol digests any good food you eat. Take a dose after meals. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Over in Pecos Country.
Solomon Luna, president of the territorial sheep sanitary board, and Harry F. Lee, secretary of the board, and also clerk of the city of Albuquerque, were in Carlsbad, Sunday night, en route from Roswell to the northern part of the territory. Mr. Luna recently purchased about 17,000 head of sheep from Jaffa & Prager, and was in Roswell to receive them. This was the first visit of these gentlemen to the Pecos valley, and their expressions concerning it were very flattering. While Mr. Luna's presence here was purely on personal business, in discussing matters pertaining to the territory, he announced that conditions were very bright for republican success in November, both as regards the delegate to congress and a good majority in the territorial legislature. Mr. Luna is the republican national committee man for New Mexico.—Carlsbad Argus.

The best at one-half price

It takes five of the ordinary "quarts" to make a gallon, but a HAYNER QUART is a full quart, an honest quart of 32 ounces, four to the gallon. Now, you pay your dealer at least \$1.50 a bottle for whiskey that cannot possibly be any better than HAYNER, if as good, or \$7.50 a gallon. If you buy HAYNER WHISKY you save at least \$3.00 on every gallon. We sell two gallons for about the same as you pay for one gallon of probably poorer whiskey. Just think that over and over again that HAYNER WHISKY goes direct from our distillery to you, carries a UNITED STATES REGISTERED DISTILLER'S GUARANTEE OF PURITY AND AGE and saves you the dealers' enormous profits. That's why it's so good and so cheap. That's why we have over a quarter of a million satisfied customers. That's why YOU should try it. Your money back if you're not satisfied.

The Thermometer is Seldom Higher Than 80° in Mexico City

This "Paris of Latin America" is situated over six thousand feet above the level of the sea, and the heat of the lower altitudes is never experienced. Although not generally known summer is the very best of seasons to visit the Land of Mañana.

The daily afternoon rain, which lasts about thirty minutes, so cools the atmosphere as to make the evenings and nights lovely.

Between the music, the flowers and the pretty customs of our Mexican neighbors; between the beautiful nights, and balmy mornings, and the cooling sea breezes of day, one becomes so entranced with the beauty of this country as to never forget his trip under "The White Umbrella."
