NEW RECORD

The Maine Made a Remarkable Run.

ENGLISH OPINION OF TRUST VIEWS.

Ohio Legislature Convened in Extraordinary Session.

THE SHAH OF PERSIA WILL SEE PARIS.

Philadelphia, Pa., Aug. 25.—The new battleship Maine returned to Cramps ship yards today from her trial trip over the Cape Ann course. The vessel is said to have made a new coast record yesterday on the run between the Boston Light ship and the Over Falls lightship off the Delaware capes, covering the distance of 410 miles in 24 hours and 17 minutes. The average speed was 16.91 knots.

WHAT ENGLAND THINKS.

Pall Mall Gazette Comments on Roosevelt's Trust Views.

London, Aug. 25.—Commenting on President Roosevelt's views on trusts the Pall Mall Gazette remarks: "President Roosevelt's pronouncement leaves no doubts he intends at least to scotch some of the leviathan enterprises which are deleterious to the general community. At the same time he is too wise to ignore the fact that the tendency of commerce is in the direction of a concentration of forces and that this force needs guidance and not blind opposition."

IN EXTRA SESSION.

Legislature of Ohio meets to Rectify Several Laws.

Columbus, Ohio, Aug. 25.—In accordance with the proclamation issued by Governor Nash, the general assembly convened today at noon in extraordinary session for the purpose of enacting a code of laws for the uniform government of Ohio municipalities and of amending or repealing the Rorer law, which robs the supreme court of jurisdiction in the majority of appealed cases.

Unless all predictions go astray the session will prove one of the most exciting ever held in Ohio. The democrats and republicans are sharply arrayed against one another on the question of the new municipal code. The contest was precipitated by a recent decision of the state supreme court, which declared every municipal government in the state illegal and unconstitutional. The anomalous situation was brought about by Mayor Tom L. Johnson's efforts to make the corporations of Cleveland pay more taxes, which provoked a test suit, and which led the supreme court to declare that every municipal government in the state is illegal, for the reason that it violated a clause in the constitution which prohibits class legislation.

The interesting feature of the situation is the sharp division of the two parties as to whether what is known as the "federal" system, now in force in Cleveland, or the "board" system, now in operation in Cincinnati, shall be embodied in the new code. The federal system, which makes the mayor the absolute ruler of a city and places all appointments in his hands, is favored by the democrats, while the board system, under which the governor of the state appoints certain boards and commissions which administer the affairs of the city, is favored by the republicans. The democrats have prepared themselves for a bitter fight and doubt is expressed as to whether the so-called Nash-Hanna code bill can be passed unless numerous amendments and modifications are made.

Gone to Paris.

London, Aug. 25.—The shah had fare-well to England, after a week's round of gaieties. He has gone to Paris, where he will spend ten days incognito.

Teachers' Institute.

The institute of the city public school teachers will open next Monday and continue through the week. The institute will be conducted by Superintendent Stroup, assisted by Messrs. Lender, Preston and Nicholson.

The schools will reopen on Monday September 8.

Dr. Albers Here.

Dr. A. K. Albers, the well known and popular druggist of El Paso, is in the city, and will leave tonight for the west. He is a member of the executive committee having in charge the matter of bringing a professional baseball team here to represent El Paso in the territorial fair tournament, and has

told some of the local fans that El Paso will win first money at the tournament. The doctor is a thorough baseball fan, and was in charge of the crack team that played for El Paso last year.

Hole in the Vault.

Aberdeen, S. D., Aug. 25.—The First National bank was robbed of \$3,800 in silver last night. The robbers cut a hole in the vault through the side steel.

Ransdell Renamed.

New Orleans, Aug. 25.—The democratic congressional primary in the Fifth district was held today and resulted in the renomination of Congressman Joseph E. Ransdell.

A Tent of Rest.

The project of again having a tent during the fair will be discussed at a meeting of the Young People's City union, which will be held at the Baptist church at 8 o'clock this evening. It has been the custom have such tent where the weary can rest and read, and where ice water is kept. Nightly song services are held and other features provided.

FUSION IN DOUBT.

Silver Party and Democrats of Nevada Will Meet.

Reno, Nev., Aug. 25.—The silver party state convention meets in this city tomorrow to nominate a United States congressman and a full state ticket.

The democratic state convention meets here also.

Fusion may or may not be affected. The democrats are fighting Sadler's renomination for governor.

John Sparks is being boomed by the democrats for the position but has not yet consented to run. Sadler says that he has enough votes to secure the renomination.

C. D. VanDuser is an avowed candidate for congress but there are several others available.

Lem Allen is another aspirant for governor.

SILVER CITY DAMAGED.

Deep Arroya Washed Out in the Main Street.

THE RAIN WAS GENERAL.

Special to The Citizen.

Silver City, N. M., Aug. 25.—A grave disaster happened the little city in the mountains yesterday afternoon. During the past two rainy seasons Main street in the old section of town, has been turned into a waterway for floods from the mountains north of town. Heavy rains for past three days and nights washed an arroya in the street thirty feet deep. Soft dirt banks crumbled in from the enormous volume of water yesterday afternoon taking building on both sides with it. The damage will reach thousands of dollars. Several business blocks of the town are in danger if more floods come, as the arroya is liable to spread both ways. No lives were lost, nor injuries. The city has a big force working to endeavor to stop further damage. It is still cloudy and more rain is coming. The falling bank in a ditch did all the damage and washed out all breakwaters along the street. There are heavy rains over the county, big floods everywhere, and roads are impassable. The property destroyed was in the flood portion of town. The town has for years moved back to higher ground.

The rain was general in Arizona and New Mexico, and extended as far west as Needles, Cal. Passenger train No. 22 arrived this morning about thirty minutes late. Passengers say that El Paso got a soaking.

Passenger train No. 2 was thirty minutes late. It being held up by a small washout near Laguna. Trains due to arrive here this evening are reported on time. This report was received at 4 o'clock this afternoon.

Will Hunt Bear.

Asheville, N. C., Aug. 25.—When President Roosevelt visits Asheville in September, he will be given a bear hunt in the mountains under the leadership of "Big Tom" Wilson, champion bear hunter of the state.

Miss Ione Albright Surprised.

Saturday evening, regardless of the inclemency of the weather, Miss Ione Albright was the victim of a very pleasant surprise. About a dozen of the young lady's school girl friends, assisted by her mother, Mrs. G. F. Albright, formulated the little affair and it was delightful indeed. Hearts were the feature of the evening. Delicious refreshments were served.

MEN ARE VIOLENT

Strikers Make Several Violent Assaults.

NO SIGNS OF A SETTLEMENT YET.

George Searer, a Strike Sympathizer, Was Shot.

ALL ROADS ARE GUARDED BY PICKETS.

Hazleton, Pa., Aug. 25.—August Sheuch, a special policeman in the service of the Lehigh Valley Coal company, was stabbed today while attempting to rescue his son, William Sheuch, a non-union workman, from a mob of about 3,000 strikers, who had gathered to frustrate the plans of the company for a partial resumption. Two hundred and fifty non-union men were taken to the workings in a special train. Sheuch walked from his home toward the colliery, when he fell into the hands of pickets, and most of the clothing was torn from his back. When his father rushed to his aid, the mob set upon the elder Sheuch, who finally was rescued by a mine foreman. His injuries are not very serious. The effort to prevent work at the mine was successful.

No Sign of Settlement.

Shenandoah, Pa., Aug. 25.—After having met a number of operators, General Gobin said today that he does not see any signs of a settlement of the strike. Individual operators are beginning to display an evidence of a willingness to end the strike if a method could be shown them how they could make concessions to the men without justifying themselves. General Gobin is using his good offices toward a settlement and he allows no opportunity to pass, when in conference with the operators, to make a conservative plea for the strikers.

Shot a Sympathizer.

Pottsville, Pa., Aug. 25.—George Wheatley, an outside foreman at the Brookside colliery of the Philadelphia & Reading Coal & Iron company, is under \$1,000 bail, charged with shooting George Searer. Wheatley says he was followed through the streets by a crowd of strikers' sympathizers, who booed him, and becoming enraged, he fired into the crowd, hitting Searer.

Pickets on Duty.

Tamaqua, Pa., Aug. 25.—Not since the inauguration of the anthracite coal miners' strike have the United Mine Workers had so many pickets patrolling the Panther Creek valley as today. Every road leading to the collieries was guarded in an effort to persuade non-union men not to go to work. No new recruits were added to the working force.

OSGOOD AND GATES.

Are Passengers for New York on the Same Train.

Chicago, Ill., Aug. 25.—President J. C. Osgood, of the Colorado Fuel & Iron company, passed through Chicago today en route to New York. He left this city on the Lake Shore Twentieth Century Limited, and by a coincidence John W. Gates was a passenger on the same train. Osgood says his trip east has no bearing on the contest between himself and the Gates party for control of Colorado Fuel & Iron company.

OLIVER STILL MISSING.

Friends Now Entertain No Hope of Finding Him Alive.

DYE THINKS IT FOUL PLAY.

All hopes of finding George Oliver alive have been given up. Oliver is the moonkeeper, who wandered away from Camp Whitcomb early last Monday morning in a delirious condition. His friends, who did the little searching that was done, have only faint hopes of finding the lost man's dead body. Messrs. Tom Dye and Harry Cooper, the searchers who followed up the supposed clue brought to the city Thursday night by Manuel Crespin, a native living in Tijeras, who said that he saw Oliver near Escobosa, have returned and say that Crespin's story was false. They made the trip to Escobosa, made inquiries all along the route through the canyon, but could

get no trace of the missing man. At Escobosa the gentlemen spent an afternoon and a night, but could find no one that saw any person at or near Escobosa answering the description of Oliver or of the man that was seen by Crespin.

Mr. Dye was seen by a Citizen reporter this afternoon and talked freely on the subject of Oliver's disappearance. Mr. Dye's opinion is that Oliver's body is in the Whitcomb springs country and that it has been disposed of, either by foul play or is being held for a reward. Suspicious circumstances surround the total disappearance of a man in Oliver's condition. He was weak physically and mentally. The natives of Tijeras take no interest in the search for Oliver. There is a dispute between Oliver's friends as to what money he had on his person. Some say that he had a large roll of bank notes before he went to the springs, and some say that he had no money at all.

When Oliver left Camp Whitcomb he was physically weak, his mind was unbalanced, in fact he reeled as he walked. Suppose he fell from some of the many bluffs and received injuries from which he died. It could be possible that the body has been found, the gold watch and chain and the money taken and the body concealed.

The Southwestern Brewery company, through their attorney, O. N. Marron, took charge of the Palace saloon, of which Oliver was proprietor. Oliver was in debt to a certain extent to the brewery and the company has made itself safe by taking charge of his property.

Tom Dye will head a party which will leave here tomorrow to make a systematic search for Oliver's body.

ALABAMA DEMOCRATS.

A Spirited Race for the Gubernatorial Nomination.

PELTUS WILL SUCCEED HIMSELF.

Birmingham, Ala., Aug. 25.—Interest in the spirited race for the gubernatorial nomination overshadows all else in today's state primary in Alabama. At the headquarters of Governor William D. Jelks, who is seeking a renomination, a feeling of entire confidence in the result appears to prevail. The managers of the Jelks campaign claim to be in receipt of trustworthy reports from every part of the state indicating that the governor will be victorious and that the figures will show in no unimpeachable way that the people of the state heartily approve of his clean administration. On the other hand, at the opposition headquarters at the Morris hotel, those in charge declare themselves satisfied with the outlook and say that all signs point to a victory for Capt. Joseph F. Johnston, twice governor of the state, and Governor Jelks' opponent in the present contest.

Aside from the race for the governorship there are a number of elements which combine to cause widespread interest in today's primary. In the first place, it is the first primary held under the provisions of the new state constitution eliminating the negro vote. Captain Johnston led a fight against the new constitution and if elected it is believed he will bring about certain modifications in the new document. Governor Jelks represents that part of the party which favored the constitution and his re-election will mean a popular endorsement of the new instrument. Captain Johnston claims that he is not running because of the honor or salary attached to the office, but says that the state democratic convention which met after his terms were about to expire failed to endorse his administration as governor, and he desires the people of the state to do so by their votes. Governor Jelks declares that he is entitled to the renomination because it is democratic and usual for the first administration to be endorsed by the election to the second.

The successful candidate for the nomination will be elected in November, notwithstanding the republicans and populists threaten to make a fight. There was some intimation that Captain Johnston might run independently if he meets with defeat in today's primaries, but ardent friends of his deny this assertion.

Besides the head of the ticket candidates for lieutenant governor, secretary of state, auditor and other state officers are to be chosen. The primary also covers the congressional nominations, but as the renomination of incumbents in nearly every district is assured but little interest is manifested. The coming legislature is to select a United States senator to succeed Pettus. He is a candidate for renomination and so far as publicly known there is no opposition.

KILLED BY A CAR

Mrs. Hopkins Was Born a Marchioness.

ELKS WILL PLAY FOR A WEEK.

Mrs. Cornelius Vanderbilt Again Sets the Pace.

THE ATTACKING FLEET SURRENDERED.

St. Louis, Mo., Aug. 25.—Marie Antoinette Hopkins, widow of the late Edward A. Hopkins, former United States minister to the Argentine Republic, was killed instantly by stepping in front of a street car going thirty miles an hour. Mrs. Hopkins was born in France in 1839, and was a marchioness by birth. In 1860 she married Baron Von Renthel. Later she married Edward A. Hopkins, who died in 1894.

ST. JOSEPH ELKS.

A Week of Fun at Their Big Carnival Opened Today.

St. Joseph, Mo., Aug. 25.—Carnival week of the St. Joseph Elks, for which preparations have been going forward for many weeks past, opened today under favorable conditions. South Seventh street has been transformed into a street fair and midway of amusement features in which the pleasure seeker and merry-maker can find no end of attractions. Business houses and streets are festooned with purple bunting and flags of all nations and everything presents a carnival appearance. The week's program is replete with attractive special features in the way of floral parades, industrial displays, concerts and prize contests. Later in the week big delegations of Elks and other visitors are expected from Kansas City, Topeka, Leavenworth, Omaha and numerous other cities and towns.

THEATER CLOSED.

Entire Company will Perform at Mrs. Vanderbilt's Entertainment.

Newport, R. I., Aug. 25.—Newport society is on edge in anticipation of the theatricals to be given by Mr. and Mrs. Cornelius Vanderbilt at Beaulieu tonight. From all indications it will be the most notable function Newport has witnessed this season. The number of guests will be within 400. They will include married couples, who are of the dancing set, all the beaux and the older set of girls. A large part of the lawn has been converted into an open air theater with regular stage, settings and auditorium. The entertainment will be provided by the "Wild Rose" company, which came here from New York yesterday. It is the first time on record that a metropolitan theater has been closed for a night to allow the company to appear in private, and it was only by the expenditure of something like \$5,000 that this was accomplished by the ambitious young society leader.

Following the performance of the "Wild Rose," the guests will enter the ball room at Beaulieu, where the cotillion will be led by Elsie Dyer and Mrs. Vanderbilt. After the cotillion there will be a supper. The resources of the Vanderbilt establishment will be in evidence in the number of liveried flunkies standing in imposing lines. The livery is black satin knee breeches, black silk stockings and claret coats with froggings.

THE DRY PROCESS.

A New Concentrating Mill Was Completed at the Modoc Mine.

INTEREST TO MINING MEN

Saturday, August 16, marked the completion of the new mill at the Modoc mine, twelve miles east of Las Cruces, and the workings of which will be watched with interest by mining men all over the southwest. We are informed that it is the first mill of its kind in the United States handling heavy ores as this one will. The interesting feature to the mining men is that it is a dry concentrator. The ore is crushed and screened and the screenings sent back to be re-crushed again and again until it is in almost a powdered form, when it is sent to the concentrators where it is divided into three parts—the concentrates, the middlings and tailings. The concentrates

are taken out, the middlings sent back to be run through again and the tailings sent to the dump.

Some six or seven weeks ago it was decided to change the mill from the wet process to the dry. It is a new thing but the company putting it in guarantee a saving of 10 per cent over and above old method and they have installed the plant at their own expense. The men under Superintendent Rogers have been working continuously for thirty-five days. Almost every piece of machinery has been changed. The mill is complete now in every particular from top to bottom. There are seven concentrators in place, with room to double the number whenever desired. Being a new thing the capacity of the mill will not be known until it is tried. From the time that the ore leaves the dump at the mine until it comes at the bottom in concentrates it is handled automatically by machinery.

The company has an air plant and runs its drills and mining machinery by compressed air. The ore is conveyed from the mine to the mill by means of an aerial tramway. This tramway operates itself, no power being required, one bucket descending to the mill carrying the other back to the mine.

The Modoc people have one of the best mines in this district and have sufficient ore on the dump to run the mill for some time without starting the mine. The mill will in all probability be running full blast in a few days.

To celebrate the completion of the mill the Modoc company opened it for a dance on the night of the 16th. A large crowd was there, coming from Las Cruces, Van Patten's and Organ H. O. Crane, president of the Modoc company, and C. B. Rogers, superintendent, played the host to perfection and everybody thoroughly enjoyed themselves.—Las Cruces Progress.

Unconditionally Surrendered.

Rockport, Mass., Aug. 25.—The attacking squadron in the mimic naval war on the Atlantic coast unconditionally surrendered to the defending fleet Sunday.

FAIR IS BOOMING.

Many New Attractions Are Added to the List.

BALL PLAYERS ANXIOUS TO COME.

The proposed five mile Indian relay race, which is the suggestion of D. K. B. Sellers, of the Farmington Hustler, will be one of the biggest features of the coming fair. A prize of \$50 will be given and there are to be at least twenty-five entries. The Indians are expected to do some sensational riding and the race will be run on Saturday of fair week.

Mert Wagner, the rough rider, came in from Sulphur springs, and he and C. M. Foraker got their heads together over the rough riders contest. As the result, invitations have been sent to a large number of hard riders. Wagner was one of the stars in last year's contests.

A letter was received from W. H. Simpson, advertising agent for the Santa Fe, saying that 12,000 American fair flyers and 2,000 Spanish advertising dodgers of the same kind had been shipped, and will arrive here some time this week.

President J. H. O'Reilly, of the fair association, is in Alamogordo. He sent for some of the big posters and, being unable to find the bill poster, put them up himself. He says he put them up so tight he warped the boards.

Governor Otero has extended an invitation to Gen. Leonard Wood to attend the fair. It is an assured thing that every man of the Rough Riders would come to see the famous officer.

The El Paso & Northeastern has agreed to do everything possible to help make the fair a success and will make the same rates as the Santa Fe.

The Santa Fe will give stopovers to all through passengers during the fair. They will also distribute circulars calling attention to the fair on all incoming trains.

Letters from everywhere continue to pour into the fair association office.

John L. Lane, fancy glass blower, writes from Electric park, Kansas City, Mo., asking for particulars. Mr. Lane has a nice clean attraction and he will receive a proposition from the fair association.

Jimmie Williams, Baltimore's crack third baseman, writes from that place, saying that he is getting anxious and wishes that the time was near at hand.

John C. Bullitt, Dead.

Philadelphia, Pa., Aug. 25.—John C. Bullitt, a prominent lawyer and for many years closely identified with public affairs, died today of apoplexy. He was 78 years old. Mr. Bullitt framed the present Philadelphia city charter.

LIVELY CONTEST

California Republicans Are in Session.

OUR EXCITED SOUTHERN FRIENDS.

Plans of Roosevelt Are From a Labor Convention to Bears.

WILL ANNOUNCE THE WAR PLANS.

Sacramento, Cal., Aug. 25.—The republican state convention was called to order today with the prospect of the liveliest contest known in years. Governor Gage wants to be renominated but several other candidates who think they have a chance are putting forth vigorous efforts to obtain the prize. Thomas R. Flint, Dr. George Pardee, of Oakland; L. B. Edson and J. Q. Hays are the other aspirants. The Gage and Pardee forces have united on Congressman Metcalf for chairman of the convention, while the other candidates will throw their strength to Lieutenant Governor Neff. This will be the first battle of the convention.

ACTIVITY REPORTED.

Colombian Rebels and Venezuelan Troops are Getting Busy.

Kingston, Jamaica, Aug. 25.—The British steamer Orinoco which arrived today from Colombian ports, reported the rebels of Colombia increasing their forces continually and great activity in the vicinity of the isthmus. It is feared the government garrison at Colon cannot successfully defend the town.

No Opposition Encountered.

Willemstad, Island of Curacao, Aug. 25.—Details of the reoccupation of the port of Curapano, state of Bermudez, Venezuela, by the Venezuelan government forces has been received. General Velutina, with 6,000 men from the Island of Margarita, reoccupied the port Friday last without encountering any opposition.

PRESIDENT'S MOVEMENTS.

Accepted an Invitation, Slept Well and Will Hunt Bears.

Peoria, Ill., Aug. 25.—"President Roosevelt has honored labor," said Grand Secretary and Treasurer Frank W. Arnold of the Brotherhood of Locomotive Firemen, today. "I have just received a letter sent Acting Grand Master Hannahan by the president, in which he accepts the invitation we extended a few days ago in person. He will surely be at the biennial session of the Brotherhood at Chattanooga."

Great Crowd Expected.

Nahant, Mass., Aug. 25.—President Roosevelt enjoyed an undisturbed night of rest at the residence of Senator Lodge. This morning he arose as fresh as when his New England trip began. An immense throng of people is expected to hear the president's address here today.

Promptly at 2:30 the guns of the battery began booming and the town committee appeared at the entrance to Senator Lodge's estate to meet the president and escort him to the Nahant public library. The president was greeted with cheers upon his appearance and as he appeared upon the platform erected in front of the library another ovation burst from the crowd. When at length he could be heard, the president delivered a brief address. Resuming his place in the carriage, President Roosevelt proceeded toward Lynn.

Thousands at Lynn.

Lynn, Mass., Aug. 25.—Thousands came to Lynn today from all the surrounding country to welcome President Roosevelt. Factories, shops and stores generally closed at noon. Fully 150,000 people lined the streets and cheers resounded continually. The president's appearance on the speaker's stand caused a swelling wave of applause and cheers. The president's address was brief and at its conclusion he was escorted to the railroad station to take the train for Boston.

No Secret Now.

Washington, Aug. 25.—After a conference between the army and naval officials here, it has been decided to make public a comprehensive statement of the features of the great war game to begin next Friday, so that the public may be in a position to judge almost as well as the technical man, of the merits of the performance.

Uncle Russell Sage, in accordance
with his annual custom, has given a
pennie to 1,500 boys and girls. And the
old gentleman is not a candidate for
office either.

The statistics compiled by the
weather bureau show that during a
period of eleven years the annual aver-

age of deaths by lightning was 2.53 for
each unit of 10,000 square miles in
the United States. Thus it appears
that though deaths by lightning in the
aggregate make a goodly number, still
the danger in any particular locality is
comparatively slight.

The Denning Headlight says: Albu-
querque has received plans for a hand-
some new opera house, which will,
when completed, reflect great credit
upon its promoters—the local lodge of
Elks. There is nothing like enterprise,
and no enterprise so good as a local
one. Albuquerque evidently has all
kinds on tap, and a couple of good
newspapers to constantly tell the out-
side world "what's doin'" in the Duke
City.

HIS TRIP ABANDONED.

A dispatch to the St. Louis Globe
Democrat from Washington says Presi-
dent Roosevelt has practically decided
to abandon his proposed trip to the
southwest this fall. The reasons given
are that the dates so nearly conflict
with the national encampment of the
Grand Army and the expected arrival
of the stork at the White House. The
dispatch further says the trip through
the middle west will afford the presi-
dent ample opportunities for declaring
himself on public questions.

Vermont's three-cornered fight for
the governorship will terminate a
week from tomorrow and some of the
eastern papers really appear to have
discovered an element of doubt in the
situation. The paramount issue is
whisky and when that is the case it is
often hard to tell what will happen.
There are three strong candidates in
the field, the regular republican, the
insurgent republican and the democ-
rat. All are said to have plenty of
money and to have spent it lavishly in
the canvass.

tated too long. Deeds, not leases,
will supply the popular demand. Be-
fore long every acre of grass land in
the west will have passed into private
ownership. Uncle Sam's domain is
fast dwindling away. Soon it will con-
sist only of worthless areas of desert.
Those who have read the signs of the
times are working to secure, not
leaseholds, but the fee simple of the
property needed to carry on their busi-
ness. It is the price of survival.

IT IS A BIG JOB.

Ten weeks ago the owners of an-
thraxite coal mines gave out a "semi-
official" statement in which they said:
"This fight is not a question of
whether or not wages should be ad-
vanced, but whether or not the union
shall be permitted to exist. We are
determined to break the union, no mat-
ter how long it takes."

At that time they expected the min-
ers to be suing for peace on any terms
before July, and they intimated that
they might punish the strikers by de-
clining to reopen the mines for a few
weeks. "There is no occasion for us
to hurry in resuming work," they said.
They now realize that the miners also
have something to say about the res-
umption of work and that breaking
the union is not an easy job.

In a few weeks more the public will
be demanding coal and declining to ac-
cept in lieu of fuel the operator's ex-
cuse that the union still exists. Then
there will be trouble for somebody.

MONEY IS THEIR GOD.

Men strive mightily, in early man-
hood and in middle life, to accumulate
a competency for old age, says the
Marion Record. In this they do well.
But did it ever occur to you that one
needs a competency of knowledge, and
a competency of faith, and a compe-
tency of patience, and a competency
of true philosophy in old age, quite as
much as a competency of monetary
wealth? Pitiable indeed is he who
comes limping down the declivity of
human experience with an empty head
and an empty heart, leaning only, in
his sunset days, upon a staff of gold.
And did it ever occur to you that
wealth of head and heart must be ac-
cumulated in youth and middle life, if
they are to be yours in old age, just
as certainly as that of plethoric purse
must be possessed, if at all, as the re-
sult of this kind of forethought and
effort—aye, much more so! You can-
not ignore the flowers of character in
the spring and summer of your experi-
ence, and hope to enjoy their sweet
fragrance when life is in its "sere and
yellow leaf."

INDIANS AS SERVANTS.

Indian schools all over the south-
west have recently adjourned for the
summer, and the students are being
employed very rapidly by those who
keep servants. The Indian boys make
excellent cooks, while an Indian girl,
once trained, is a fine maid of all work,
a modish hairdresser and endowed

with an inborn taste which becomes
picturesque when combined with a few
civilized touches. The system of train-
ing now bestowed upon the red chil-
dren at school teaches them to become
servile to their superior—the pale-
face, and the present generation in
training have become so accustomed
to serving their paleface teachers that
they are more than willing to enter the
household as servants. Herein may lie
the solution of the servant girl ques-
tion—for a time, at least, says a
Western exchange.

Indian youths are strong, agile, and
if brought up by the right kind of
methods, are perfectly willing to work.
They are healthy and quick of limb.
This makes an excellent combination
for a servant. Statistics of the Indian
taken recently show that of the 45,000
workers among the various tribes 3,000
of them are employed as helpers in the
houses of palefaces. You never see
the Indian servant at his or her best
until you visit the home of an old In-
dian agent on one of the reservations.

At Panama, Columbia, by Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy.

Dr. Chas. H. Utter, a prominent
physician of Panama, Colombia, in a
recent letter states: "Last March I
had as a patient a young lady sixteen
years of age, who had a very bad at-
tack of dysentery. Everything I pre-
scribed for her proved ineffectual and
she was growing worse every hour.
Her parents were sure she would die.
She had become so weak that she
could not turn over in bed. What to
do at this critical moment was a study
for me, but I thought of Chamberlain's
Colic, Cholera and Diarrhoea Remedy
and as a last resort prescribed it. The
most wonderful result was effected.
Within eight hours she was feeling
much better; inside of three days she
was upon her feet and at the end of
one week was entirely well." For sale
by all druggists.

Base Ball at Deming.

An altercation between two of the oil tank boilermakers at the ball grounds Saturday afternoon last, resulted in W. H. Marshall, the captain of the team being slashed with a pocket knife across the left cheek and a gash on the right arm. Will Jones, the young man who wielded the cutlery, was arrested by "Cap" Oglesby, but Marshall refused to prosecute and Jones was released.—Deming Headlight.

To Play Ball.

Those who visit the territorial fair at Albuquerque, October 14 to 18, will have the privilege of witnessing the greatest base ball tourney ever pulled off in New Mexico. The champion clubs of the territory and El Paso will

cross bats and each will be reinforced with a number of artists of national reputation in this line, so that the games will be no amateur affairs, but real ball playing by men who know how. It is said that the sports of Albuquerque and El Paso are backing their respective teams with sums that speak so loud you can hear them from one town to the other. This part of the program in the arena will be one of the finest features of a week filled with attractions; it will be the most artistic exhibition on the diamond ever witnessed in New Mexico, and will be a rare treat for all those who appreciate the great American game.—Alamogordo News.

Unrivalled for diseases of the stomach, liver and kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by all druggists.

Harry Anderson brought in thirty head of cattle for Emil Kleinwort, the Albuquerque butcher, and they were shipped Tuesday. Mr. Kleinwort has the meat contract for the penitentiary and Indian school, and at the price he has to pay at present for beef on the hoof, his contracts are said to be a losing proposition.

Sister Mary Sebastian and Sister Mary Jerome, of Albuquerque, were in San Marcial this week in the good and worthy cause of raising money to remove the debt against the St. Joseph Sanitarium and Hospital in that city. We hope the pious sisters can say of San Marcial that her people responded liberally to the needed call for financial assistance.

The territorial fair is not a focal institution, but one in which the whole territory is interested. Each succeeding year it has been more representative in its character and it has become a recognized factor in the growth and progress of the territory. The management in the past has been broad and liberal and the city of Albuquerque has responded liberally with funds and hospitality. The coming fair promises to surpass any of its predecessors, and each section of the territory should endeavor to have a complete exhibit of its resources that will show to the world what can be done in New Mexico in mine, forest and field.—San Marcial Bee.

Base Ball at Deming.

An altercation between two of the oil tank boilermakers at the ball grounds Saturday afternoon last, resulted in W. H. Marshall, the captain of the team being slashed with a pocket knife across the left cheek and a gash on the right arm. Will Jones, the young man who wielded the cutlery, was arrested by "Cap" Oglesby, but Marshall refused to prosecute and Jones was released.—Deming Headlight.

To Play Ball.

Those who visit the territorial fair at Albuquerque, October 14 to 18, will have the privilege of witnessing the greatest base ball tourney ever pulled off in New Mexico. The champion clubs of the territory and El Paso will

cross bats and each will be reinforced with a number of artists of national reputation in this line, so that the games will be no amateur affairs, but real ball playing by men who know how. It is said that the sports of Albuquerque and El Paso are backing their respective teams with sums that speak so loud you can hear them from one town to the other. This part of the program in the arena will be one of the finest features of a week filled with attractions; it will be the most artistic exhibition on the diamond ever witnessed in New Mexico, and will be a rare treat for all those who appreciate the great American game.—Alamogordo News.

Look Pleasant, Please.

Photographer C. C. Harlan, of Eaton, Ohio, can do so now, though for years he couldn't, because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivalled for diseases of the stomach, liver and kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by all druggists.

OF LOCAL INTEREST.

The Territorial Fair—Cattle for Kleinwort—St. Joseph Hospital.

Harry Anderson brought in thirty head of cattle for Emil Kleinwort, the Albuquerque butcher, and they were shipped Tuesday. Mr. Kleinwort has the meat contract for the penitentiary and Indian school, and at the price he has to pay at present for beef on the hoof, his contracts are said to be a losing proposition.

Sister Mary Sebastian and Sister Mary Jerome, of Albuquerque, were in San Marcial this week in the good and worthy cause of raising money to remove the debt against the St. Joseph Sanitarium and Hospital in that city. We hope the pious sisters can say of San Marcial that her people responded liberally to the needed call for financial assistance.

The territorial fair is not a focal institution, but one in which the whole territory is interested. Each succeeding year it has been more representative in its character and it has become a recognized factor in the growth and progress of the territory. The management in the past has been broad and liberal and the city of Albuquerque has responded liberally with funds and hospitality. The coming fair promises to surpass any of its predecessors, and each section of the territory should endeavor to have a complete exhibit of its resources that will show to the world what can be done in New Mexico in mine, forest and field.—San Marcial Bee.

Consumption Threatened.

"I was troubled with a hacking cough for a year and I thought I had consumption," says C. Unger, 211 Maple St., Champaign, Ill. "I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me, and I have not been troubled since."

LOCAL PARAGRAPHS.

Misses Josie, Louise, Lucy and Lola Harris, who have been spending several weeks visiting at San Bernardino, Cal., returned home this morning.

Another good rain last night and this morning. The river is full of running water, while the ditches throughout the valley are overflowing themselves.

Although it rained Saturday night, a pretty fair crowd attended the Berry Devine concert and dance at Orchestra hall. Those who were in attendance report having had a fine time, and the music and dance was kept up until early Sunday morning.

James McCriston was in a good humor this morning, and kept a small party of friends laughing for several hours at Zeller's Cafe. He was well stocked with new jokes, but the richest of all was his story of a Juarez trip made several years ago, in which a piece of sugar cane cut a most important figure.

Charles Poirrey, who is the owner of some fine real estate in this city, is here, shaking hands with his old time friends. Although his home is in Trinidad, Colo., Mr. Poirrey is well known throughout central New Mexico, and has flocks of sheep and herds of cattle grazing on good ranges within a day's ride of this city.

A. J. Maloy, the railroad avenue grocery merchant, has just installed in his place of business a 3-horse power electric motor, which is used for grinding coffee and spices. It does the work in fine style, at any speed required, and with no exertion or noise. The motor is made by the General Electric company, and was purchased through the Enterprise Manufacturing company of Philadelphia.

Hubb Leeds, who was brought to the city last Saturday by Dr. Shields from the Jemez hot springs, was removed to the St. Joseph hospital yesterday. This morning, assisted by Dr. Shields, Dr. Tascher performed an operation on the sick man, who is suffering with dropsy. Word was received at The Citizen office this afternoon to the effect that the operation was successful and that Mr. Leeds is considered much better.

Thomas Votaw, the saw miller in the Manzano mountains near Chilli, is in the city to visit his wife and daughter, Mrs. W. C. Mason, for a few days. He says he did not know of the disappearance of George Oliver until he reached the city, but now recalls to his memory the fact that natives, residing near his saw mill, were talking one day of seeing a strange man in their neighborhood; that the fellow was short in stature, light complexion, blue eyes and constantly talked to himself. The natives told Mr. Votaw that the stranger was on the road coming in the direction of Albuquerque.

We beg to say Dr. G. B. Snigley takes pleasure in recommending Herbine." 50c bottle at Cosmopolitan Pharmacy—B. Ruppe.

Situation at Hospital.

From the New Mexican.

Miss Julia B. Freeman, of Washington, D. C., who has been a guest of Governor and Mrs. Otero for the past two months, has gone to Ohio to meet her mother and thence the two ladies will return to their home in Washington. Miss Freeman is a cousin of Mrs. Otero and her visit here was thoroughly enjoyed by her.

Mr. and Mrs. Frank Diebert have gone to Albuquerque, where they will remain for the next two or three weeks. Mr. Diebert is the very efficient bookkeeper of the Pennsylvania Development company and the Santa Fe Central railway. Bergere, have left for Colorado Springs, where they will remain for a few days, thence returning to their New York home. The hall given by the Pennsylvania club at the Palace hotel Thursday night was replete in splendor and elegance. It speaks well for the club. And it might not be out of place to say that the Pennsylvania club is a comparatively new organization, composed of the following gentlemen, nearly all of whom are natives of the state of Pennsylvania and now connected with the Santa Fe Central railway: Messrs. W. S. Hopewell, R. L. McCance, W. H. Bayer, E. B. Field, A. G. Kennedy, Joseph E. Saint, E. L. Critchlow and Fred Orady.

Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James E. Hill, of 709 Ninth street, N. E., Washington, D. C., writes as follows: "A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having filled twelve times without receiving the slightest benefit, I decided to give up his treatment. Having heard of S. S. S. I decided to try it. I had taken a few bottles of S. S. S. and after I had taken a few bottles I was able to hobble around on crutches, and very soon thereafter had no use for them at all. S. S. S. has cured me sound and well. All the distressing pains have left me, my appetite has returned and I am happy to be again restored to perfect health."

the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits. We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by all druggists.

His horse threw him and then jumped on him breaking two of his ribs and otherwise bruising him up considerably. Last reports state that he is resting well as could be reasonably expected.

However slight at this time of year and in this climate, it is the forerunner of malaria. A dispositive, to yawn, and an all tired out feeling even comes before the chill. Herbine, by its prompt stimulative action on the liver drives the malarial germs out of the system, purifies the blood, tones up the system and restores health. 50c at Cosmopolitan Pharmacy—B. Railroad Topics

Conductor Harry Boas and wife have returned to San Marcial from a pleasant visit with relatives and friends in Arkansas.

Orders have been given by the Santa Fe for 200 flat cars of 80,000 capacity and 200 oil tank cars of 9,500 gallons capacity.

Mrs. E. C. Comstock, wife of a well known railroad, arrived at San Marcial last week, greatly benefited by her outing at Rosedale.

S. S. Mendenhall, a contractor on the Dawson branch, is gradually recovering from a dangerous attack of erysipelas. He is at Alamogordo.

Mrs. J. F. McNally and children, family of the division superintendent, have returned to San Marcial from a lengthy visit with friends in numerous localities.

A large well-boring outfit was unloaded at Springer last week. It is to be used in drilling for water on the Dawson railway between Springer and Tucumcari.

A. H. Lentz, roadmaster of the El Paso-Rock Island road, has been granted a thirty-day leave of absence and Henry Riggles will fill the position of roadmaster during such absence.

When the waters of the turbulent Canadian receded it was found that the driver and engine belonging to Good & Co., contractors on the Dawson railway, was buried beneath four feet of sand.

The Optic says: There is in Superintendent Fox's office a ticket rack, or case, having 207 pockets. It was made at Las Vegas and reflects much credit upon the maker, whose modesty will not permit the reporter to mention his name.

Chief Dispatcher Evans, of the El Paso-Rock Island at Alamogordo, was called suddenly to his home in Pennsylvania by the illness of a member of his family. He will return as soon as conditions admit and probably bring his family with him.

F. W. Thompson has been appointed general western agent in charge of the Pacific coast territory for the Rock Island, with headquarters at San Francisco. Mr. Thompson was lately the coast agent of the Denver & Rio Grande lines, and for many years he was in charge of the Rock Island business in California, with headquarters at Los Angeles.

The Deming Headlight says: Division Superintendent McNally, of the Santa Fe, spent Wednesday last in Deming looking over the yards and into the business interests of his company. Mr. McNally stated to our reporter that never in the history of the road had the Santa Fe done as much business as is being transacted at present.

The Topeka State Journal says: With twenty years' service behind him, Edward Doyle has quit the blacksmithing department here and left today for San Bernardino, Cal., where in the shops he will be given a fire. He is only one of a large number to leave Topeka shops for the coast, partially owing to the reduction in the force here, and as well as in the belief that he is to better his condition.

D. G. Thomas, who has been operator and assistant agent at Cloudford this summer, will be married to Miss Cora Martin, of Carlsbad, until several months ago stenographer for the Alamogordo Lumber company. Mr. and Mrs. Thomas will reside in Alamogordo, where the groom will take up his former position as operator and assistant to H. H. Major of the mechanical department of the Rock Island.

A new and powerful rail-cutting machine was placed in position at San Marcial last week, and is now ready to cut twelve inches from either end of the second-hand heavy steel rails that are to take the place of the rails now in use on the Rio Grande division. The machine requires quite a large number of men to serve it and is capable of one cutting every seven seconds, when the rail is drilled and passed up ready for use.

The Alamogordo News says: Last Sunday afternoon about 2 o'clock, Albert Jones, the boss coppersmith and tinner at the El Paso & Northeastern round house, happened to a very serious accident. It seems that he was standing near a planer while in operation, with his left hand on a bar, and not seeing the planer in motion, or not paying any attention to it, the planer caught his hand and mashed it nearly off. Dr. Bryan amputated the hand at the wrist, and last accounts state that Mr. Jones was getting along as well as could be expected.

The engineers on the El Paso-Rock Island line have a few kicks coming. According to one of their number, they have been coming for quite a while. Some are over important, others are over minor matters in which the men and the company fail to agree. There are thirty-five engineers with headquarters at Alamogordo, and it is from that place that the greatest complaint comes. The engineers want an increase of pay and various changes in the regulations of the train service. W. T. Knapton, assistant grand chief of the Brotherhood of Locomotive Engineers, was expected in Alamogordo to meet the men and if possible bring about an adjustment.

Oiling Kansas Division.—The Union

Pacific will soon have finished the work of spreading oil on the Kansas Pacific division. The oil comes from California and is spread to prevent dust.

"We are very well satisfied with our experience with the oil," said Superintendent Duval. "We are spreading it from a tank and it is working perfectly. Over the districts thus far covered there is absolutely no dust. We will have to spread the oil once a year. This is because sufficient oil will have to soak into the ground to go below the depth necessary to put in ties. It takes the oil, and considerable of it, to have this effect."

"By preventing dust the oil saves our machinery and cars, and I believe is of an immense amount of benefit to every railroad. We have found the California oil preferable to any other because it contains more asphaltum."

A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success."

Saves Much Bother.—The interchangeable mileage system, as established by the new scrip books recently adopted in the territory west of the Missouri river, gives promise of becoming a remarkable success. It is one of the most popular methods both with the traveling men and the railroads ever introduced in the west.

The use of these scrip books by commercial men is becoming general throughout the western territory with satisfactory results. In all the territory covered by these books the net rate is as low as paid for ordinary mileage, and in some cases it is half a cent lower. The scrip is also accepted in payment of charges for excess baggage (on which a refund of 20 per cent is made), and does away with the cumbersome lot of mileage and baggage tickets, one book enabling the holder to ride on twenty-five roads in a large territory.

A Necessary Precaution.

Don't neglect a cold. It is worse than unpleasant. It is dangerous. By using One Minute Cough Cure you can cure it at once. Allays inflammation, clears the head, soothes and strengthens the mucous membrane. Cures coughs, croup, throat and lung troubles. Absolutely safe. Acts immediately. Children like it. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Skinned the Western Roads.—There is every indication that the fight of the railroad companies against the ticket scalpers will be bitter during the next few weeks. Charges of manipulation of tickets have been made recently and the New England Trunk line and Central Passenger associations are said to have organized a bureau for joint action against the brokers. At the next regular meeting of the Central Passenger association some of the details of the plan of campaign may be decided upon.

In connection with the move against the scalpers it is charged that there has been a manipulation of tickets issued from Chicago to the Pacific coast for the purpose of large gatherings, by which the scalpers have defeated the best plans of the ticket agents. The charge is that the brokers provided themselves with a good supply of tickets when first issued and kept them until after the expiration of the low rate period. Then the portion of the ticket providing for transportation to the Missouri river was removed and the buyer given a straight ticket that far. From then to the end of his trip he was expected to make use of the remaining portion of the special rate ticket, and it is said several of these have been passed on western roads.

His Sight Threatened.

"While picnicking last month my 11 year old boy was poisoned by some weed or plant," says W. H. Dibble, of Sioux City, Iowa. "He rubbed the poison off his hands into his eyes and for a while we were afraid he would lose his sight. Finally a neighbor recommended De Witt's Witch Hazel Salve. The first application helped him and in a few days he was as well as ever." For skin disease, cuts, burns, scalds, wounds, insect bites, De Witt's Witch Hazel Salve is sure cure. Relieves piles at once. Beware of counterfeits. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Want Western Men.—As stated in the San Bernardino Sun a week ago, C. B. McMullen, formerly chief dispatcher with the Santa Fe in that city, resigned his position to accept a more lucrative one in the east, and unless the western roads raise their salaries in the near future, it is very likely that they will lose more of their operators.

At the present time the eastern corporations are filling places on their systems with men taken from the western lines. The installation of the block system has caused the increase in this particular force. The Great Northern recently took on 490 operators and the Walash road is asking for 200 at the present writing. of the Baltimore & Ohio are also invading the west for telegraphers. The Milwaukee is said to be short twenty key men per day, while in fact, all of the roads in the east, which have installed the block system, have need of first class men to handle their tickers, could they be found. It is stated that the Baltimore & Ohio is paying their men as high as \$75 per month, with four days relief on full pay.

To My Friends.

It is with joy I tell you what Kodol did for me. I was troubled with my stomach for several months. Upon being advised to use Kodol I did so, and words cannot tell the good that it did for me. HURLEY'S ADVANCEMENT.

Wichita Eagle Tells About Career of Santa Fe Superintendent.

Speaking of the visit of Superintendent J. E. Hurley, of the Santa Fe, to Wichita, the Wichita Eagle says: "Mr. Hurley has had a wonderful career of advancement with the Santa Fe. When he received his most recent promotion to the general superintendency of the eastern grand division, embracing the line from Chicago to Purcell, with all its branches, people began to ask what influence was behind him. They didn't know the man. The influence which brought him all his promotions, is not behind him; it is within him. Like General Manager Mudge, he has a big brain for railroad-ing and, besides, his capacity, he has had a wide experience. Like Mudge, he began at the bottom—driving spikes on the grade—and has worked himself up by a combination of talents and indefatigable energy in the application of his mind to the duties of the various positions he has filled. He has built his own ladder to high place and every pound of it represents hard work and loyalty to Santa Fe interests."

After beginning in track work and working some time at it, his ambition

led him to seek office work and he became a depot agent. From that he went to express agent and worked at El Dorado, Augusta, Wellington and Arkansas City.

Mr. Hurley is not yet 43 years of age.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne Co., Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge; the first two doses brought four doses, twelve inches, of them measuring twelve inches; the other child was most relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c. at Cosmopolitan Pharmacy—B.
