THE LOOTING  
IN CHINA

An Inquiry Regarding It in the House of Representatives Is Tabled.

## ARMY REORGANIZATION BILL

A Vote on the Measure Will Soon Be Taken—The Pension Appropriation Bill Reported—The River and Harbor Appropriations.

## HOUSE.

Washington, January 16.—Mr. Hull, chairman of the committee on military affairs, reported back the DeArmond resolution calling upon the war department for all the information relative to the alleged action of General Chaffee in protesting against the looting in China, with the recommendation that it lie on the table. Mr. Hull submitted the letter of the secretary of war, explaining that the required information could not be procured until after the expiration of the present congress. DeArmond said he had been moved to introduce the resolution because of a paragraph in the newspapers, which was very creditable to General Chaffee. The reasons given by the secretary for not pressing the resolution were entirely satisfactory to him. The resolution was tabled. The house, in committee of the whole, resumed the consideration of the river and harbor bill. The house passed the river and harbor bill.

## SENATE.

Washington, January 16.—Senator Morgan introduced a resolution of censure of the non-effect of the Clayton-Bulwer treaty upon the right of the United States to construct the Nicaragua canal.

Mr. Carter asked that the final vote upon the army reorganization bill and the amendments pending, be taken at 4 o'clock to-morrow. Mr. Allen said that for the time being he would object, although subsequently he might withdraw the objection. This objection, it is said, is only temporary, as an understanding has been reached that such an agreement be made.

Mr. Gallinger reported the pension appropriation bill, and it went to the calendar.

## DE ARMOND RESOLUTION TABLED.

Washington, January 16.—The house military affairs committee decided to lay on the table the DeArmond resolution calling on the secretary of war for information as to what protest, criticism or suggestion General Chaffee or any other American officer in China made concerning the looting or other improper conduct, to whom it was made and the result. The committee's action was based on a letter from Secretary Root to Chairman Hull, setting forth the reasons why it will be inadvisable to open the matter to public discussion.

## KRUGER SEEMS WILLING.

He Will Come to the United States if Officially Received.

London, January 16.—Kruger is undecided whether to visit America. He will do so if assured that President McKinley will receive him officially as president of the Transvaal. He tells his friends that he has reason to hope for the czar's moral support. The operation on Kruger's eyes at Utrecht next week, although slight in itself, will necessitate his absolute quiet for some time.

**In Defense of the Patterson Murderer.**  
Paterson, N. J., January 16.—Michael Dunn to-day made the opening speech for the defense in the trial of the three men charged with the murder of Jennie Boscheiter. He claimed that there was no criminal assault, and no dragging of the girl, but she drank heavily of cocktails, absinthe and champagne.

**Patterson a Democrat.**  
Denver, Colo., January 16.—Thomas M. Patterson appeared before the legislature this afternoon by invitation. After the vote yesterday was canvassed and his election as senator formally declared, he made a speech in which he announced that he would enter the Democratic caucus when it takes place in the senate.

**Rockhill Recalled.**  
New York, January 16.—A special to the Herald from Washington says: W. W. Rockhill, commissioner of the United States to China, has been recalled as the administration desires him in Washington, where he will be able to advise the president and Secretary Hay as to the situation in Peking.

**Death of a Democratic Leader.**  
Quincy, Ill., January 16.—Scott Wike, at one time one of the foremost Democratic politicians in Illinois, is dead at his home near Barry, Pike county. He served two terms in congress, and was assistant secretary of the treasury during the second Cleveland administration.

**Alford Gets Thirteen Years.**  
New York, January 16.—Cornelius L. Alford, Jr., the defaulting note taker of the First National Bank, was to-day sentenced to thirteen years' imprisonment. The amount of the default was \$690,000.

**Free Trade in the Philippines.**  
Manila, January 16.—The Philippine commission passed acts giving, in domestic products, the Jolo archipelago free trade with all the Philippine ports.

**Clark Is Elected Senator.**  
Helena, Mont., January 16.—W. A. Clark was to-day elected United States senator to succeed Senator Carter. Clark received 57 out of the 93 votes cast.

## BURNED AT THE STAKE.

The Awful Fate of a Colored Man at Leavenworth, Kansas.

Leavenworth, Kan., January 16.—The officials responsible for the life of Fred Alexander, the negro burned at the stake last evening, began preparation for their defense. The negro's guilt of the assault and murder last November of Pearl Forbes, which he denied with his last breath, was, they say, proven conclusively by the man's own statements while being held in the Lansing penitentiary. In addition, Sheriff Everhardy said to-day that the report that Alexander assaulted a third girl at Stillings, near here, was true, and that this young woman visited the penitentiary and positively identified the negro as her assailant. Sheriff Everhardy said: "I did my duty as far as lay within my power, but I was overwhelmed by superior numbers. I am glad that the troops did not arrive, for if they had the two companies would have been powerless to suppress the mob, and I have not the least doubt but that every national guardman would have been killed."

**THE LYNCHING CONDEMNED.**  
Topeka, Kan., January 16.—The joint resolution passed the Kansas legislature to-day condemning the burning at the stake of Fred Alexander by a mob at Leavenworth yesterday. The resolution favors a most rigid investigation of all the acts and circumstances attending the lynching, and demands that the perpetrators be punished to the full extent of the law.

## THE LIVE STOCK ASSOCIATION.

Provision Made for a Larger Membership of the Organization.

Salt Lake, Utah, January 16.—At the Live Stock Association convention this morning the report of the executive committee was read and adopted. It provides for an increased membership of the association, and for the raising of \$10,000 by private subscription as an emergency fund. L. G. Powers, of Washington, D. C., addressed the convention on "Our National Wealth in Live Stock." On motion of General Castlesman, of Kentucky, a vote of thanks was extended to Powers. O. P. Updegraff, of Kansas, then addressed the convention on the "Benefits of Horse Shows to the Horse Industry."

George Q. Cannon spoke on the early history of Utah. Mr. Baker, of Illinois, moved that the by-laws of the association be waived, and that the convention pay a tribute to the memory of the late Philip D. Armour and extend to his family the profound sympathy of the convention. It was unanimously adopted. The convention adjourned until 2 o'clock. The afternoon session will be devoted to the discussion of the Grout oleomargarine bill.

## A SNUB FOR C. P. BRYAN.

An Unpleasant Experience of an American Diplomat at Rio de Janeiro.

New York, January 16.—A dispatch to the Herald from Rio de Janeiro says: Charles Page Bryan, the American minister to Brazil, offered a banquet to the recently chosen governor of Rio Janeiro, and in the invitations said that all the foreign ministers would assist at the affair. The banquet was held, but none of the other ministers were present. It was explained unofficially that they remained away because they had not authorized Bryan to announce that they would assist.

## POOR NEW YORK.

One Out of Every Six of Its Inhabitants Has the Grip.

New York, January 16.—Dr. Cyrus Edison said last night: "Fully one-sixth of New York's population have the grip, and I believe that the epidemic is now at its height. It has been more severe, and the cases more numerous than any previous epidemic. There are many cases of grip-pneumonia. This is very dangerous. The death rate so far has been enormously high. Seventy-five deaths in one week is unprecedented for grip."

## A VESSEL STRANDED.

A Bare Chance That the Crew Has Escaped Death.

Port Townsend, Wash., January 16.—The German ship Flottbek, reported ashore south of Cape Flattery, is probably a complete wreck, and there is a bare chance of the crew having escaped death, according to reports brought here this morning by the tug Hokyo. A southwest gale and tremendous seas off Cape Flattery prevented the tug's dispatching to the assistance of the stranded vessel from reaching the scene of disaster.

## A CABINET MEETING.

President McKinley Is Rapidly Recovering from His Illness.

Washington, January 16.—President McKinley sent out notices to the members of the cabinet this morning that he would meet them at 11 o'clock to-day for the regular cabinet meeting. President McKinley's convalescence is progressing as rapidly as could be expected, and everything points to his speedy and complete recovery.

## A BRIEF MEETING.

Washington, January 16.—The cabinet meeting to-day lasted about thirty minutes. No business questions were brought before the meeting.

## THE NEBRASKA SENATORIAL BATTLE.

Lincoln, Neb., January 16.—The two houses of the legislature, in joint convention, to-day balloted for United States senator with the following result: Allen (fusion), 56; W. H. Thompson (fusion), 53; Crounse, 10; Currie, 20; Halner, 5; Hineshaw, 18; Melklejohn, 26; Rosewater, 14; D. E. Thompson, 32; balance scattering.

SIGNAL RECEIVED  
FROM MARS

A Shaft of Light Projected from That Planet Early in Last December.

## WAS OBSERVED IN ARIZONA

The Signal Was Given from a Well Known Geographical Point on the Star-Professor Pickering of Harvard Says It Is Inexplicable.

Cambridge, Mass., January 16.—Professor Pickering, of the Harvard observatory, says: "Early in December we received from the Lowell observatory in Arizona a telegram that a shaft of light had been seen to project from Mars, lasting seventy minutes. I wired these facts to Europe, and sent out postoffice copies through this country. The observer there is a careful and reliable man, and there is no reason to doubt the light to have existed. It was given as from a well-known geographical point of Mars. That was all. Now the story has gone the world over. In Europe it is stated that I have been in communication with Mars, and all sorts of exaggerations have sprung up. Whatever light it was, we have no means of knowing. Whether it had intelligence or not, no one can say. It is absolutely inexplicable."

## ANOTHER SHOOTING AT SILVER CITY.

A Constable Kills Hilario Garcia and Wounds Jose M. Montez, Jr.

Silver City, N. M., January 16.—Another killing at Silver City, the second since the first of the year and the fourth in Grant county in less than a month, occurred Monday, when Hilario Garcia was shot and almost instantly killed by constable Jose M. Montez, Jr. The coroner's jury returned a verdict exonerating Montez from blame in the evidence going to show that Garcia attacked him with an open knife. However, a warrant was issued charging Montez with murder, and he is now confined in the county jail awaiting a preliminary examination. A bystander named Nestor Morales was struck on the left knee by the bullet after passing through the body of the deceased, and so badly wounded that amputation of his leg will be necessary. Montez was the candidate for re-election for constable at Monday's election but the affair caused such a strong feeling that he was overwhelmingly defeated.

## EMBEZZLED \$250,000.

Sigmund Hertz Is Crossing the Atlantic With His Plunder.

London, January 16.—The alleged forger, for whose extradition the United States authorities are asking, is said to be Sigmund Hertz, alias Emden, of New York City. He is supposed to be on board the steamer Corinthian, which left Halifax on Sunday, January 7, for Queenstown and Liverpool.

## WILL BE ARRESTED.

New York, January 16.—Acting on instructions from Chief of Detectives George F. Titus, Scotland Yard (London) officials were called yesterday to arrest at Queenstown or Liverpool, as he steps off the incoming steamer, the alleged defaulting confidential clerk of a large wholesale house in New York City, who is said to have embezzled \$250,000 of the firm's funds at the time of his flight, and to have embezzled \$200,000 before he was even suspected.

## THE DELAWARE SENATORSHIP.

Dover, Del., January 16.—The general assembly met in joint session at noon to-day and voted for two United States senators, one for the full term beginning March 4, and the other for the unexpired term of four years. There was no choice.

## COMMITTED SUICIDE.

St. Louis, Mo., January 16.—An unidentified young man committed suicide to-day by jumping from the middle span of the Eads bridge into the main channel of the Mississippi river.

## THE WOOL MARKET.

St. Louis, Mo., January 16.—Wool is unchanged.

## OFFICIAL MATTERS.

**BOARD OF EQUALIZATION.**  
The board of equalization is still in session in the office of the territorial treasurer. To-day J. Correy, tax commissioner of the Denver & Rio Grande Railroad Company, spoke to the board on behalf of his company.

## ALBUQUERQUE NOTES.

**A Number of Deaths at the Duke City—Lodge Installations.**

There are thirty fraternal societies at Albuquerque. Jesus Armijo y Jaramillo died at his home at Atrisco on Monday. He served a term as probate judge of Bernalillo county.

Ferdinand Lowenthal, the senior partner of the firm of Lowenthal & Meyers, sold his interest in the firm to D. J. Abel.

Henry S. Knight, of Albuquerque, and Miss Annie E. Price, of Oswego, N. Y., formerly of Albuquerque, were married at Oswego.

James Lacey died at the city building of pneumonia, brought on by dissipation. He came to Albuquerque from Holbrook, Arizona.

The Elks on Saturday initiated Hon. B. S. Rodey, Hon. H. B. Ferguson, E. L. Medler, F. W. Voorhees, Virgil Sappinfield, H. S. Pickard and David Weinman.

A. J. Crawford was elected justice in precinct No. 12, and Pasqual Cutimoli constable in precinct No. 26. H. H. Ribble was elected justice and James H. Smith constable.

Arthur O'Neill, retired from troop K, 6th United States cavalry, died at the Golden Rule boarding house. He had been a resident of Albuquerque for the past two years. He fought gallantly in the civil war, and in several battles with the Indians.

The Fraternal Union elected the following officers: Fraternal master, Edward B. McClintock; justice, Mrs. Anna B. Gray; truth, Mrs. Frankie A. Cochran; mercy, Mrs. Kate Elwood; protector, P. A. Lillie; guide, I. F. Elwood; guard, A. Digne; sentinel, M. P. Palladino; steward, C. A. McKim; secretary, A. F. Lamb; treasurer, W. Haylen.

The Albuquerque Chapter, R. A. M., installed the following officers: High priest, E. L. Medler; king, Dr. J. W. Elder; scribe, E. B. Harsch; treasurer, A. J. Maloy; secretary, L. H. Chamberlain; captain of the host, F. McKee; principal journeyman, A. Everett; P. A. C., Robert Fitzpatrick; M. T. V., W. P. Fox; M. S. V., C. Werdner; M. F. V., F. Sturgess.

The Shriners of Ballut Ahyad Temple installed the following officers: Illustrious potentate, Charles Mauseard; chief rabban, H. H. Tilton; assistant rabban, C. K. Newhall; high priest and prophet, E. L. Medler; oriental guide, W. H. Hahn; treasurer, A. J. Maloy; recorder, L. H. Chamberlain; first ceremonial master, J. Borradale; second ceremonial master, E. B. Harsch; director, F. McKee; marshal, Alexander Stevens; captain of the guard, F. E. Sturgess; representative to the imperial council, J. H. Wroth. A banquet, to which 200 sat down, was served after the installation.

**The Catron-Easley Contest.**  
So far in the contest of Mr. Catron for Mr. Easley's seat in the council of the thirty-fourth legislative assembly, no evidence has been adduced that sustains any of Mr. Catron's allegations and charges. Several witnesses examined this week as to the charges made that Republican tickets had been abstracted in Cerrillos precinct and Democratic tickets substituted. The witnesses testified that nothing of the kind occurred. The only irregularity, if it could be considered an irregularity, was that during the dinner hour the judges of election went to dinner, sealing up the ballot box, leaving it in charge of one of the judges, while another judge kept the key to the box. There could have been no tampering with the ballot box by the judges of election, and there was none. There was some other testimony, but in no wise did it sustain Mr. Catron's allegations that the several boards of election and of registration at the last election in the county did not act in accordance with law, and further, the testimony shows that no tampering of the ballots or ballot boxes was done by the election board. On behalf of Mr. Easley, Bernardino Baca, who it was said some days ago made an affidavit charging the judges of election in precinct 3 with having performed illegal and dishonest acts, in his testimony on yesterday denied that any such acts had occurred, and gave some spurious evidence against the Catron side of the case. To-morrow the board of county commissioners will canvass the ballots in precincts 3, 9, 11 and 18, upon request of the contestant.

A BIG OIL WELL  
IN TEXAS

Great Excitement Created at Beaumont Over the Discovery of a Flow of Petroleum.

## PROPERTY VALUES INCREASE

The Standard Oil Company Has Sent Scores of Representatives to the Place—A Well Flowing 5,000 Barrels a Day.

Beaumont, Tex., January 16.—The excitement here over the big oil well increases each hour. Captain Lucas, upon whose land the well is located, is making preparations for an attempt to stop the immense flow. The town continues to fill up. The lumber industry is forgotten in the wild rush for oil lands. The Standard Oil Company has scores of representatives. City property without oil prospects has increased fivefold in value. George T. Craig, of the Craig Oil Company, estimates the well's output at from 3,000 to 5,000 barrels a day. The council has granted a franchise of the streets for a gas and oil pipe company for the purpose of transferring oil and gas.

## CERRILLOS NOTES.

**A Good Word for the Work of the Bureau of Immigration.**

Cerrillos, January 15.—The latest book published by the bureau of immigration, "Mines and Minerals in New Mexico," which has been received by several of our citizens, reads like a romance, but nevertheless it is full of truths about the marvelous mineral wealth of the territory. No one who reads it can fail to be impressed by the golden opportunities which are held out to all who wish to take advantage of them. It should be widely circulated, as it cannot fail to create an interest in the territory wherever it is read. There was some talk of a strike in the Colorado Fuel and Iron Company's mines at Madrid last week, but the men concluded the wiser plan was to stick to their work for the present, as nothing would be gained by a strike at this time.

Michael O'Neill, an old timer here, had the good luck to strike a rich pocket of high-grade lead ore, while doing his assessment work in the Ingersoll mine last month, and is now taking out pay ore in gratifying quantities.

A miner by the name of Harris died of pneumonia at San Pedro last Thursday. The Colorado Fuel and Iron Company has had a number of boiler makers at work for some time past doing repair work on the boilers at the old White Ash mine. One of the boilers has been placed at the pumping station, and the others in the new mine.

## A Murder in Valencia County.

Veneslado Martinez was paying a visit to Mrs. Francisca Griego, mother of the girl he intended marrying, near Pinos Wells, Valencia county, and found at the house an old Pueblo Indian. Martinez asked the woman why the Indian was there, and received reply "It was none of his business." Just then the Indian stabbed Martinez in the left side, breast and abdomen. The Indian has the reputation of being a stock thief. He was arrested and lodged in the county jail at Los Lunas.

## Annual Meetings Postponed.

The annual meetings of the New Mexico Horticultural Society and of the Santa Fe Fruit Company, which were to have been held Monday evening, were both adjourned on account of the insufficiency of notice, the former until the first Monday in February and the latter subject to the call of the president, Dr. W. S. Harroun.

## The San Pedro Smelter.

The San Pedro smelter, after a trial of ten days, has shut down for a week's overhauling. The plant at present employs eighty men. In the mill there are an immense crusher, water jacket furnaces, air compressors, a gigantic fan, all run by a 125 horse-power engine. The mines and mill are illuminated with electric light.

## New Mexico Mining Stock.

At the Boston stock exchange last week, 8,935 shares of Cochiti stock were sold, falling from \$13 a share on Monday to \$10 a share on Saturday. Of Santa Fe Gold and Copper Company stock, 712 shares were sold at \$8.88 to \$7.25 a share.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

WEDNESDAY, JANUARY 16.

**For Governor of New Mexico from June 7, 1901, to June 7, 1905, or until statehood is attained, Miguel A. Otero.**

Germany intends to spend several hundred million dollars for digging canals, which is better than spending it for the purpose of digging graves for soldiers.

The justice of the peace elections throughout the territory are of no political significance. Each candidate being confined to one precinct, where every man knows the other, personality counts more than political affiliation, and it would be ridiculous to make any political claims upon the result of a justice of the peace or constable election in this or that precinct.

The Las Vegas Record, under the editorial management of F. O. Blood, is doing good work for the people of Las Vegas, of San Miguel county and of the territory. The paper, although not two months old, is already exerting considerable influence, and its circulation is constantly increasing. It deserves this, and Mr. Blood deserves commendation. Credit where credit is due.

There are certain reasons why the Pueblo Indians should be compelled to pay taxes on their property the same as any other property owners in New Mexico. Again, there are important reasons why they should be exempt. The decision of the territorial supreme court on this question is awaited with interest. The lower court had decided that the Indians are exempt from taxation, but that is no indication of what the decision of the higher courts will be.

It is to be hoped that congress will dispose favorably of some of the bills which will make Indian reservations more accessible to white prospectors, and will allow white men to develop and use the lands which are never used by the Indians, and remain unprofitable as long as they are under the restrictions which govern land on Indian reservations. There is no reason in the world why thousands of acres of land should be made the exclusive property of a hundred or two hundred Indians, who will never use it nor ever intend to make use of it.

Chief Clerk E. C. Leech, of the Denver mint, is the first man to make an effort to get an accurate idea of the precious mineral output of New Mexico. This territory is very thankful for his effort, and hopes that he will succeed in getting a correct statement of the production of the mines and mills in the territory, many of which ship their gold and silver by personal messenger as far as St. Louis, or even farther, without giving any account or record of it that would enable the director of the mint to tell how much gold and silver New Mexico really produces.

The demand for American coal in Europe has somewhat slackened owing to the industrial depression which prevails in Germany, Great Britain, Austria and other countries. The decreased demand for coal has resulted in lower prices, against which American coal, on account of the cost of shipment, cannot well compete. But the European coal operators are working to establish higher prices, and when they succeed America's coal exporters will again have an opportunity to create for themselves a market in Europe, for Europe needs our coal, only it does not yet want to pay our price.

The owners of the North German Lloyd, of the Hamburg American Steamship Company, of the White Star line, and other foreign lines, have made arrangements for their representatives to appear before congress to point out the iniquity and futility of giving subsidies to American built ships. Nevertheless, the German Lloyd, for instance, draws \$1,300,000 annually from the German government as a subsidy for carrying the Asiatic mail. Most of the other foreign lines enjoy such subsidies, which enable them to crowd American ships from the seas. No wonder they are opposed to the American ship subsidy bill, for that would mean American supremacy in the only line of activity in which European nations still maintain their lead.

The fact that Grant county has five men accused of murder in its county jail and about as many more running around loose who should be behind the bars is no reflection upon the respectable people of the county. The mining camps and the cattle ranges, where rough and ready men are the majority, have always been the scenes of violent deeds in every part of the world. It is the nature of the life on the plains and among the hills that is not conducive to tender considerations of the value of a human life. The officers of Grant county, however, have a duty to perform, and that is to use all diligence in letting no guilty scoundrel escape, and the courts should punish crime with the severity that is necessary to induce respect and awe for the majesty of the law.

A Massachusetts newspaper suggests ostracism as a remedy for getting rid of political bosses. In ancient Athens, when a man became so popular that he was dangerous as a political leader, he was exiled from the country for ten years. In that way the Boston papers think the country could be rid of Boss Crocker, of Senator Hanna, and a few other politicians who are stumbling blocks to the leaders of the other side. But the bosses, it is feared, are needed in this country, at least as long as literacy and the franchise go hand in hand. Men are needed like "Peter Sterling," who, though college bred, went to the lower strata of the people of New York City without forfeiting his social standing. He accomplished all of his reforms by first winning the confidence of the lower half of life in the great metropolis. If reformers were willing to do the same kind of political work they could deprive evil political bosses of their power without resorting to ostracism.

### A Skin Game.

As the New Mexican has stated before, the so-called El Paso carnival is merely a money-making scheme to fleece the unwary visitor. The El Paso newspapers themselves have begun to acknowledge this. Just see what the El Paso Herald says:

"Some days ago a representative of an El Paso daily called on certain members of the executive committee and told them that his paper wanted a page advertisement at a cost of \$36, and unless given a contract for the same would attack the carnival.

"The committee were so amazed that they caused a meeting of the board to be called and invited the newspaper representative to submit his proposition. The same proposition was repeated. One member said: 'Let's get this thing on a business basis. Now if we pay you \$36 for a worthless ad, you will not attack the carnival; if we do not pay you that amount you will attack it?'

"Yes, sir; that's it," said the man from the paper.

"The point of the alleged 'attack' on the carnival association, it is alleged, was to have been the games of chance to be run in the midway.

"A privilege has been let for certain kinds of games to be operated in the open. These games, it is contended, are not the kind that usually come under the head of skin games, or genuine gambling as known in gambling houses, but consists of wheels of fortune and the like."

"The foolish man who goes to that fake display will come home a poorer man, and as far as knowledge of El Paso's ways and means to make money are concerned, a much wiser man."

### A Department of Mining.

The friends of the United States geological survey attack the idea of establishing a department of mining, who is to be a member of the cabinet. They fear that such a department would be antagonistic to the geological survey. But that is certainly far from the minds of the advocates of a department of mining. The valuable services of the United States geological survey are not at all questioned. The two things are entirely distinct and separate, and those who have given the matter any serious thought understand this perfectly.

The idea of those who want a cabinet department of mines and mining created is not of antagonism or of superseding anything of merit, but to create an opportunity not now existing for further development of the mining industry and for intelligent and final adjudication of matters constantly arising that are not susceptible of proper solution, either by the legislative or judicial functions of the government, but which naturally belong to the executive management thereof. It is not uncommon to have contradictory rulings follow each other from subordinate offices in the office of the secretary of the interior on precisely the same question, and it tends to mix the ordinary mining man up considerably to be told that "he can and he can't; he will and he won't; he'll be damned if he does, and he'll be damned if he don't."

There are increasing difficulties every year that can only be removed by the creation of the department advocated. The idea in general is to introduce the same progressive system in all matters relating to the mining industry of the United States that has been introduced concerning other branches of the public weal not more important than the great basic industry of the nation. Where rightly understood this manifest necessity and justice makes friends and advocates everywhere, but it would appear that there are times and occasions when it has more to fear from its friends than from its foes—when the former mistakenly attempt to advance its progress by attacking such an institution as the United States geological survey, that only deserves unanimous praise for efficient public service.

### Quay's Secret of Political Power.

The senatorial elections in the different states are followed with great interest by the general public. In Colorado, Thomas M. Patterson vanquished Governor Thomas in the fight for the senatorship. Senator Patterson will make an aggressive fighter in the senate, though on the wrong side politically. But he will not be as vicious as was Pettigrew, nor as profane as is Tillman.

In Pennsylvania, Matthew Stanley Quay won easily over an opposition that has been boasting for months that it had the "old fox" cornered. Some reasons for Colonel Quay's popularity and strength despite the bitter attacks made upon him by good men are that he has always been the friend of the new and untired men. He has always been loyal to his partisans, and he has been free from the narrowness and enmity which many other political leaders of the country. Quay has watched the birth and growth of young politicians in all parts of his state. He has studied counties and villages, and has informed himself in respect to the men who have stood for the principles of his party and who have helped to carry elections. These men do not need to hunt Quay and sit around his hall or on his doorstep waiting to have brief interviews with him. He looks for them. Very often he sends for them, and when they come into his presence he treats them well. Frequently he

and far beyond the reach of mere local remedies. Those who rely upon them for a cure lose valuable time, meet with disappointment and allow the disease to take firmer hold. Only a real blood remedy can reach this troublesome and dangerous disease.

S. S. S. cures Catarrh because it first cleanses and builds up the blood, purifies it, makes it rich and healthy, stimulates and puts new life into the sluggish worn-out organs, and thus relieves the system of all poisonous accumulations.

Mrs. Josephine Polhill, of Due West, S. C., writes: "I had Catarrh, which became so deep-seated that I was entirely deaf in one ear and all inside of my nose, including part of the one, sloughed off. When the disease had gone this far the physician gave me up as incurable. I determined to try S. S. S. as a last resort, and began to improve at once. It seemed to get at the cause of the disease, and after a few weeks' treatment I was entirely cured, and for more than seven years have had no sign of the disease."

S. S. S. is made of roots, herbs and barks of wonderful tonic and purifying properties. It is the only vegetable blood purifier known, and a certain and safe cure for all blood troubles. Send for our book on Blood and Skin Diseases, and at the same time write our physicians about your case. They will cheerfully give you any information or advice wanted. We make no charge for this.

ticket forging without the aid of any anti-scalping legislation.

If the idea is carried into practical effect without delay and proves successful, it is not likely that much further attention will be given to the subject of legislation just now, as the prosecution, conviction and severe punishment of offenders will, it is believed, have a more rapid, salutary effect than can be obtained in any other way.

At the same time, the railroads will have to do their part by stopping their occasional deals with brokers, and it has been suggested that a law prohibiting such transactions would not fail of beneficial result, because, deprived of a source of supply, the broker would soon drop out of sight.

The plan talked of is to maintain a central bureau, in Chicago probably, and have a corps of detectives in the territory of every passenger association in the country. Whether these men will be in the employ of the railroads or the work performed by some of the reliable private detective agencies like the Pinkerton has not been determined.

In the event of a forgery or some other crooked transaction being detected, every railroad in the country would at once be notified by wire.

Even though manipulation were not absolutely stopped, it would be reduced to such a low minimum that the railroads would have less cause for worry and annoyance as well as loss of revenue.

Something ought to be done by the coming legislative assembly for the betterment of county finances. A. H. is now, Grant county, in which a larger percentage of taxes are collected than in any other county in the territory, is only able to pay about 60 per cent of the entire indebtedness incurred during the year. There are two ways in which a remedy can be secured. One is to permit a larger levy for current expenses, and another is to reduce the expenses, both in the way of salaries and otherwise. It will probably require both means to accomplish the desired result.

## Education in Porto Rico.

The expense of maintaining schools in Porto Rico is very high, if we consider the amount spent for the small number of pupils enrolled; but as that country is gradually brought in closer touch with our own, their system will eventually be changed, until it reaches our present state of perfection. In this country the people are being educated to the fact that there is a sure cure for dyspepsia, indigestion, constipation, liver and kidney troubles, and that medicine is Hostetter's Stomach Bitters. It should be taken at the very first symptom, if you would avoid unnecessary suffering. It will give prompt relief and eventually cure, as hundreds of people, including many prominent physicians, have testified during the past fifty years.

## SHEEP DIPPING.

As It Is Practiced at the Big Slaughtering Houses.

(Chicago Times-Herald.) Contrary to public opinion, all the cattle, sheep and swine arriving at the Chicago stock yards are not slaughtered for packing purposes. An immense trade is now being done in handling live stock for feeding and breeding. This is particularly true of the sheep trade. Within the past few years there has been a great increase in the shipping of live sheep and lambs to all parts of the Union from Chicago.

The development of the trade has led to government restrictions to prevent the wholesale transferring of sheep from spreading any disease that may exist in the flocks. To this end the "dipping" process has become a regular feature of the industry, and one of the queerest and most interesting sights of packingtown is the daily immersion of thousands of sheep in a solution of water, sulphur and nicotine.

Seventeen men are required to give the sheep their necessary bath. Long before the first animal is thrown into the tank work has been in progress heating the water for their reception and adding the proper quantities of sulphur and nicotine. The sheep swim through a tank 90 feet long, 5 feet deep, 2 feet wide at the top and 6 inches in width at the bottom. The tank contains 2,100 gallons of water heated to 110 degrees. The boss of the working gang adds 15 pounds of sulphur and one quart of nicotine to every 100 gallons of water in the tank. Then as assistant takes a stand at the end of the runway leading from the pens, and as the first sheep comes within reach he sends it sliding and slipping into the water, a couple of feet below the runway. Wondering where its leader had gone, the second in line cocks its ears and runs forward to satisfy its curiosity, only to find itself foundering in the narrow channel. In a minute or two from seventy to ninety sheep are struggling in the tank.

The number is limited to the size of the bathers. The sheep, as a rule, swim quickly, and in a short time No. 1 rises dripping on the receiving platform at the end of the tank. Each sheep carries one gallon of liquid in its coat as it leaves the tank, and bathing at the rate of 1,000 an hour, it is necessary to refill the tank after about one and one-half hours' work.

Government officials inspect the "dipping" of the flocks at frequent intervals to see that all provisions of the law are respected. Each sheep is dipped at a cost to the owner of 3 cents. The tank is filled at a cost of about \$30.

There has been an enormous increase in the consumption of mutton, and the installing of the dipping tank resulted mainly from this fact. It is estimated that the sales of mutton have quadrupled since 1885. The increase has been made largely within the last five years, and the present year shows the largest gain on record. In 1903, 7,003,598 sheep and lambs were received here, as compared with 3,662,832 in 1895. About 400,000 were sent east and west last year for feeding and breeding purposes, and every one of them passed through the sanitary tank. The shipments usually begin early in the year, reach their height in August and September, and decline during the winter months. At present about 2,500 sheep are dipped daily.

For the present year to October 1 there was a gain of 40,000 in the live sheep shipments. The high prices obtained for mutton during the winter and spring, and for wool, coupled with the abundance of feed now on the farms, has caused feeders to place enormous orders in Chicago for sheep and lambs. So great has the trade become that changes are being made to increase the capacity of the tank. It is proposed to make the dipping facilities capable of handling 10,000 sheep in a working day of eight hours.

The merited reputation for curing piles, sores and skin diseases acquired by DeWitt's Witch Hazel Salve has led to the making of worthless counterfeits. Be sure to get only DeWitt's Salve. Ireland's Pharmacy.

## Anticipated.

Something about the Frenchman moved me to distrust him cordially. Accordingly when he remarked: "You climb ze Matterhorn? Zat was a great foot!" I did not say: "Feet, you mean, Monsieur." Which would enable him to exclaim: "Ah! Zen you climb him more as once."

Indeed, I looked him squarely in the eye, until he quailed and slunk away.—Detroit Journal.

The most soothing, healing and anti-septic application ever devised is DeWitt's Witch Hazel Salve. It relieves at once and cures piles, sores, eczema and skin diseases. Beware of imitations. Ireland's Pharmacy.

## Two Incompatibles.

Miss Budd Oh, at first we shall live quietly in a little house in the Bronx. Mrs. Urban You can't do it, my dear. You may live in a little house; or you may live quietly; but you can't do both at once.—Brooklyn Life.

## Progress.

First Convict Did the new arrival explain how he looted the Steepth National. Second Convict Oh, yes! It is plain that the art of eliminating a bank surplus has made great strides since we were in the business.—Puck.

## Foley's Honey and Tar for children, safe, sure. No opiates.

Waggs doesn't seem to be popular. No; he's the kind of man who always wants to talk to you on the street car at night when you're going home too tired to talk.—Chicago Record.

## Your Face

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, Pimples and Skin Eruptions. If you are feeling weak and worn out and do not have a healthy appearance, you should try Acker's Blood Balm. It cures all blood diseases where cheap Sarsaparillas and so-called purifiers fail; knowing this, we sell every bottle on a positive guarantee. For sale at Fischer's drug store.

## DEEP MINING.

Illustrations from Famous Copper Mines Which Show That It Pays.

(Globe Belt.)

The United Verde mine at Jerome, with shafts and drifts on it 100 feet deep, was offered for sale four years ago without any buyer. At last W. A. Clark, of Montana, took the property, and after sinking to 300 feet he had 96 feet of solid ore, and at 500 feet it is reported the ore body to be 450 feet wide. Clark has refused \$200,000 for this mine.

The Congress mine, at 150 feet, was considered a fraud by no less a personage than Diamond Joe, and now, at \$900,000, it is held for \$3,000,000.

The Fortuna mine, at 150 feet, was bought by Charles Lane for \$140,000, now at a depth of 600 feet you could not buy it for \$3,000,000.

The King of Arizona was sold for but \$300,000 when, at a depth of 100 feet, while to-day, with a depth of 500 feet, it is held at \$1,000,000.

The famous Copper Queen mine at Bisbee, at a depth of 200 feet, was about to be sold for debt. Now at \$300,000 it has sufficient ore in sight to run fifty years, and money cannot buy it.

The Crowned King mine was \$23,000 in debt when down 185 feet. Now at a depth of 500 feet, all paid and regular dividends declared, it cannot be purchased for less than \$1,000,000.

The Pearce mine was sold for \$275,000 when a depth of 150 feet had been reached. It is now producing \$150,000 annually, and is not for sale.

You hear mining men speak of the ledge of the United Verde. There is no ledge there, and there never was one. On the surface there was a large number of small strata, which lead from the surface to the great deposit in the heart of the mountain. These strata were sent out merely to invite the prospector's pick. You hear the ledge of the Verde variously estimated at from 250 to 500 feet in width. There is, as a matter of fact, no end to the great deposit or zone up to the present development of the mine. The expression, "There is a mountain of it," which you often hear in the hills, can be applied to the Verde with impunity. It is without question the biggest mine in the world. If it were more favorably located it would to-day be a greater copper producer than the Calumet and Hecla.

The Belt might also have cited the Anaconda of Montana. It is the history of nine-tenths of the copper mines that the ore improves from a hundred feet and over.

Quality and not quantity makes DeWitt's Little Early Risers such valuable little liver pills. Ireland's Pharmacy.

## No Law Against It.

I know I shall never love another woman as I do you. I should hope not! Well, you needn't get mad about it. I'll bet I could if I wanted to.—Life.

## ACKER'S DYSPEPSIA TABLETS ARE SOLD ON A

Positive guarantee. Cures heart-burn, raising of the food, distress after eating or any form of dyspepsia. One little tablet gives immediate relief. 25 cts. and 50 cts. For sale at Fischer's drug store.

## From the Persian.

A man saw a woman and ran away. Why do you run away? asked the woman, through a megaphone. Because I love you! said the man. Go on! said the woman. Of course the crux of this story is that it is from the Persian.—Detroit Journal.

## GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent of the people in the United States are afflicted with these two diseases and their effects: Such as Sour Stomach, Sick Headache, Habitual Constiveness, Palpitation of the Heart, Heart-burn, Water-brash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac.

## The Dignity of Love

Do you love art for art's sake? they asked of the young lady who painted green sunsets on china. His name is Arthur, she replied in tones which indicated resentment at such familiarity with the young man's name. And she resumed her task of decorating a shaving mug with some Cupids and other fancies.—Baltimore American.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 13 cents. Test it, and you are sure to continue the treatment.

## Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

## Sarcasm.

Wife—What is this silver question that seems to be worrying the politicians. Husband—One party wants to coin silver pieces representing forty-nine and ninety-eight cents instead of half-dollars and dollars.

Wife—Why do they want to do that? So women want have to wait for their change when they go shopping.—Chicago News.

## THE CLEANSING AND HEALING CURE FOR CATARRH

Ely's Cream Balm. Easy and pleasant to use. Contains no injurious drugs. It is quickly absorbed. Give Relief at Once. It Opens and Cleanses the Blood. It Relieves All Inflammations. It Relieves the Membranes. Restores the Tissue of the Nose. Druggists or by mail; Trial Size, 10 cents by mail. ELY BROTHERS, 23 Warren Street, New York.

## WEALTH.

If they only could, many rich men would erase the W in wealth and write H in its place, and so change wealth into health. It's the saddest thing about riches that in acquiring them men often ruin their health and at their prime are doomed to live "perked up" in a glittering grief and wear a golden sorrow.

The trouble is generally with the stomach. In the rush for riches there's been no time for regularity, no consideration of right food. The stomach and other organs of digestion and nutrition become diseased and then begins the bitter and varied sufferings of the man with "stomach trouble."

Yet this condition can be cured. The stomach and other organs of digestion and nutrition can be restored to a normal condition of sound health. Thousands testify that Dr. Pierce's Golden Medical Discovery, strengthens the stomach, nourishes the nerves and purifies the blood, that it breaks the bonds of the dyspeptic, and makes him a healthy, happy man. No alcohol whisky or other intoxicant is contained in "Golden Medical Discovery."

"I was a sufferer from what the doctors called indigestion, but after trying several eminent physicians failed to get a cure," writes Mr. Frank Mericle, P. O. Box 47, Independence, Jackson Co., Mo. "Some of my symptoms were soreness in pit of stomach, fullness, tired feeling, constipation; some times soreness would extend to bowels. Some one recommended me to take Dr. Pierce's Golden Medical Discovery, which I did, and after taking only a few bottles of it I derived more benefit from them than from any other medicine I ever tried. I began to gain in flesh from the start. Have recommended it to others and will continue to do so."

Dr. Pierce's Pleasant Pellets do not become a necessity to the system they have relieved of accumulations and obstructions.

## Modern Mother's Diary.

I do not believe in telling a child ghost stories to frighten him when he is naughty. When Clifford is naughty I explain the germ theory to him and have him look through a microscope at bacteria. It frightens him terribly and at the same time inculcates scientific knowledge.

Today Clifford asked me if I believed in the efficacy of prayer. I promised to answer him tomorrow. I wonder if I dare say that prayer is antiseptic.—Detroit Journal.

## A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sales every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cts. Get Green's Prize Almanac.

## Short One Finger.

There was that upon his breath which shocked her. "Oh, John!" she cried, "our married life has been happy so far, but now I see a cloud arising no bigger than a man's hand, which—" "Not as big as a man's hand," John interrupted quickly. "I only had about four fingers."—Philadelphia Press.

Pepsin preparations often fail to relieve indigestion because they can digest only albuminous foods. There is one preparation that digests all classes of food, and that is Kodol Dyspepsia Cure. It cures the worst cases of indigestion and gives instant relief, for it digests what you eat. Ireland's Pharmacy.

## Plate and Quarts.

"Quarter!" implored the enemy. We laughed mockingly and sabered him. "Why didn't you take the 'plater' we offered you?" we wittily shouted. Of course it was difficult in spoken discourse to make clearly manifest the fear of the joke, and we had reason to fear that many died without appreciating the same.—Detroit Journal.

## Cut this out and take it to Ireland's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

## The Mania for Changing Things.

"I guess my wife has got the fever for changing things worse than any woman in town. I'll bet she's already changed half her Christmas presents." "Sort of mania, eh?" "That's just it. Why, only this morning I gave her a five-dollar bill and she said she guessed she'd go right down to the store and change it."—Cleveland Plain Dealer.

## Persons who suffer from indigestion cannot expect to live long, because they cannot eat the food required to nourish the body and the products of the undigested foods they do eat poison the blood. It is important to cure indigestion as soon as possible, and the best method of doing this is to use the preparation known as Kodol Dyspepsia Cure. It digests what you eat and restores all the digestive organs to perfect health. Ireland's Pharmacy.

## An Attraction.

"Is the boss in his office?" asked the first political seeker. "Yes," snapped the other who had just been turned down. "Do you think I could get an audience with him?" "If you're a dime museum manager I think you could. You might star him as 'The Double-Faced Man.'"—Philadelphia Press.

## BEAT OUT OF AN INCREASE OF HIS PENSION.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in 47 and '48, I contracted Mexican diarrhoea, and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequalled as a quick cure for diarrhoea, and is pleasant and safe to take. For sale by Ireland's.

## THE MOTHER'S FAVORITE.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take, and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children, for it contains no opium or other injurious drug, and may be given as confidently to a babe as to an adult. For sale by Ireland's.

Officers Were Elected at a Meeting Held Monday Evening.

The annual meeting of the New Mexico Pioneers was held on Monday at the office of Hon. L. B. Prince. The society is taking a good deal of interest in the preservation and appropriate marking of historic landmarks in the territory, and hopes in that line to accomplish the same important work that is being done in California. After the transaction of routine business, and the agreeable announcement that not a single member of the association had died during the year, the following officers were elected: Governor, J. Francisco Chavez, of Valencia county; captain general, Amado Chavez, of Santa Fe county; alcalde mayor, Robert Black, of Grant county; secretary, L. B. Prince, of Rio Arriba county; treasurer, J. D. Sena, of Santa Fe county; councilor, Samuel Eldred, of Rio Arriba county; vice president for Santa Fe county, H. L. Ortiz.

**MINOR CITY TOPICS.**

Another perfect Santa Fe day—mild, sunny and invigorating. The board of county commissioners will meet to-morrow.

To-night the Woodmen will install their officers. A banquet will follow the installation.

At the Bon-Ton: A. C. Bergman, Mill Sanderson, Theodor, Neb.; A. C. Winter and wife, Montgomery, Ala.; A. B. Smith and wife.

The snow is rapidly disappearing from the valleys, but there seems to be considerable remaining in the hills and on the mountains.

At the Exchange: J. C. Jackson, Duncan, Ariz.; C. H. Jones, Leo Jones, Ord, Neb.; A. Scheurich, Taos; Nicolas Vigil, Tres Piedras.

The train from the south was several hours late this afternoon, and the branch train left for Lamy an hour and a half late.

Milo Hill will to-morrow re-enter the employ of H. B. Cartwright & Bro., having sublet his lime contract with the Albemarle mill in the Cochiti.

Lo Hersch yesterday delivered 50,000 pounds of flour to the penitentiary, the contract having been awarded to him at the time the penitentiary contracts were awarded.

Probate Clerk Manuel Delgado received word to-day that no justice of the peace election was held at Agua Fria, and that the Democrats had elected their candidates at Santa Cruz. The city council met last evening, only to adjourn until Friday evening, in order to give the city solicitor time to prepare a legal opinion as to using the city's funds for the payment of certain bills.

Location notices were recorded this forenoon by Probate Clerk Manuel Delgado of the Dead Easy and the Antonio lode claims in the New Placers district, claimed by John D. Hart, Samuel Payne and Thomas O'Neill.

The Georgia Minstrels left this forenoon for Las Vegas, where they will give a performance this evening. The company gave an excellent performance at the opera house last evening, and many declared it the best minstrel show they had ever seen in this city.

Manager I. Sparks to-day received the new switchboard for the telephone exchange. It is of the most improved pattern, and will improve the telephone service greatly. It will do away with the necessity of subscribers calling up those they wish to speak to, as that will be done automatically. The board has 200 drops, only 125 being needed for the present.

At the Palace: C. G. Watson, East Las Vegas; Charles S. Onderdonk, W. T. Hatmaker, Lamy; George J. Wolf, Philadelphia; William Heiner, East Mauch Chunk, Pa.; R. E. Twitchell, Las Vegas; Granville Pendleton, Aztec; Charles Safford, Aztec; B. S. Roddy, Albuquerque; J. Correy, Denver; Charles E. Ely, St. Louis; R. W. D. Bryan, Albuquerque; D. E. Houston, Lincoln.

**PERSONAL MENTION.**

A. C. Campbell, Esq., returned last evening to his home at Roswell.

Charles W. Dudrow is confined to his home with a serious attack of illness.

Hon. J. P. Victory is able to be about again after an attack of serious illness.

R. W. D. Bryan, an Albuquerque attorney, is in the city on supreme court business.

A. Scheurich arrived last evening from Taos, and departed this afternoon for Bland, his present home.

Hon. B. S. Roddy, of Albuquerque, New Mexico's delegate to congress elect, is in the capital to-day.

J. A. Israel, tax commissioner of the Colorado & Southern Railroad Company, left for his home at Denver yesterday.

J. Correy, tax agent of the Denver & Rio Grande Railroad Company, is in the city on business before the board of equalization.

Charles S. Onderdonk, manager of the goat ranch at Lamy, and his clerk, W. T. Hatmaker, are in the city to-day on a business visit.

E. H. Hughes, passenger agent of the Nickel Plate line, went north this morning via the Denver & Rio Grande, bound for Alamosa and Creede.

E. L. Streeter, advising engineer of the Santa Fe Water and Light Company, will arrive in the city on Sunday from his home at Newark, N. J.

T. J. Helm, general agent of the Denver & Rio Grande company, went to Albuquerque to attend a meeting of the directors of the Santa Fe, Albuquerque & Pacific railroad.

Governor Otero expects to arrive at Chicago this evening on his return home from Washington. He will make no stop off, and expects to arrive in Santa Fe on Friday evening.

Rev. George J. Wolf, of Philadelphia, and Rev. William Heiner, of East Mauch Chunk, two Pennsylvania priests, are guests at the Palace hotel.

The court held no session this afternoon, having adjourned until 10 o'clock to-morrow forenoon.

In the two cases of Everett T. Fleming et al., appellants, vs. Egbert Post, appellee, T. S. Hubbs, sheriff of Bernalillo county, was substituted as special master for W. Alexander Sutherland.

Charles M. Everts, who was clerk in the surveyor general's office, and who left here for Los Angeles with his wife a few weeks ago for the sake of his health, writes that he has almost recovered from his illness.

Hon. Martine Sanchez, member of the house from Valencia county, arrived yesterday, and will remain during the session. Mr. Sanchez has served several terms in the house, and has had considerable experience in legislative matters.

J. W. Catron and two schoolmates returned last evening from the school of mines at Golden, Colo., which has closed down because smallpox is reported to be epidemic in Colorado. There are said to be twenty-two cases of smallpox at Golden and 1,500 cases at Denver.

Hon. Granville Pendleton, representative in the house from San Juan, Rio Arriba and Taos counties, and Charles V. Safford, probate clerk of San Juan county, both of Aztec, arrived last evening on the narrow gauge, to be on hand when the legislature meets on Monday. Mr. Safford is a candidate for stenographer and clerk of the house; is a very competent stenographer and typewriter, and in every way qualified for the position he seeks.

Hon. I. B. Hanna, superintendent of forest reserves in New Mexico and Arizona, returned last evening from a trip to the Gila reserve. He was delayed five days by his horse straying from their corral and trotting back to Silver City. While on the Gila he visited the cliff dwellings in that section, which are still well preserved. A ranger is constantly stationed there to prevent vandalism. Mr. Hanna says that these prehistoric remains are really wonderful.
