THE BRITISH HAVE BAD LUCK

The Cruiser Sybille Landing Blue Jackets in Cape Colony Has Gone Ashore.

BOERS LOOTED ABERDEEN

Three Thousand Boers Have Concentrated at Carolina in the Transvaal—A Boer Attack Upon Oolville's Column Is Successfully Repulsed.

London, January 17.—The British admiralty received a dispatch from the commander-in-chief at Cape Town, reporting that the cruiser Sybille, which was landing blue jackets to intercept the Boers, was ashore at Stembokfontein, near Lambert's bay, and that active measures are being taken to assist her. A press dispatch from Cape Town says that the crew of the Sybille were saved.

ABERDEEN LOOTED.

London, January 17.—Gen. Kitchener, telegraphing from Pretoria under date of January 16, says that the concentration of 3,000 Boers at Carolina, Transvaal, is reported. He adds that Oolville's mobile column was engaged near Van Tondos Hoek. The Boers were driven off with a heavy loss. Three hundred Boers entered Aberdeen yesterday and looted stores and retired on the arrival of 100 British infantry.

THE LIVESTOCK CONVENTION.

An Address Read by U. G. Gavin, of New Mexico.

Salt Lake, Utah, January 17.—The National Live Stock convention opened this morning with a discussion on the oleomargarine bill, under the five-minute rule. President Springer denounced the Groat bill in the strongest terms, favored Wadsworth's substitute, and said that every live stock man would endorse it. A resolution in opposition to the Groat bill was adopted.

W. Wilson, of Illinois, offered the following resolution, which was adopted by a rising vote:

"Resolved, That the National Live Stock Association unanimously indorse the pure food law that shall compel all food products to be sold for exactly what they are."

Judge C. C. Goodwin, of Salt Lake, addressed the convention on "What the Press Has Done for the Live Stock Industry."

General Castleman, of Kentucky, addressed the convention on "The American Saddle Horse and Assessment and Classification of Live Stock."

Mr. Harris, of Iowa, then spoke, antagonizing the views of Mr. Wilson.

General Castleman offered a resolution for the uniform assessment of stock in all the states. The resolution carried.

C. E. Huidekoper, of Pennsylvania, read a paper asking that congress pass a law authorizing the exchange of government bonds with bona fide settlers, so as to solidify their holdings. A resolution was passed recommending the proposition.

Mr. Gavin, of New Mexico, then read a paper by George H. Maxwell, of Chicago, on the subject of "The Relation of Irrigation to the Live Stock Industry." It recommended the larger use of water in the western states, in the reclamation of lands. After reading a paper by Prof. F. B. Linfield, of Logan, Utah, on the "Work of Agricultural Colleges," the convention took a recess until 2 p. m.

A BIG FIRE AT ST. LOUIS.

The Stewart Hotel Burned to the Ground and Many Persons Injured.

St. Louis, Mo., January 17.—Two persons were seriously injured and thirty-five others slightly hurt as the result of a fire that burned the Stewart hotel, a two-story frame structure, to-day. The flames gained such headway before the guests were awakened that all escape, except by windows, was cut off. S. W. Carr and L. Blake, master bridge builders of the Wabash railway system, were burned about the face, hands and feet. None of the injured will die. Many received injuries by jumping from windows. Carr saved his wife by wrapping her with a wet blanket and leaping from the window. The loss is about \$10,000.

A FATAL RIOT.

Several Persons Are Killed in a Kentucky Town Last Night.

Corbin, Ky., January 17.—As the result of a riot here last night, two persons were killed, one mortally wounded and three or four others wounded. Miss Susan Cox, an innocent bystander, was killed by a stray bullet; Sutton Farris by an explosion. At noon yesterday James Shotwell was shot and mortally wounded by Rolla White, whom he ordered no longer to keep company with Shotwell's daughter. White went to the store of his brother and surrendered to the deputy sheriff. The store was barricaded. When night fell the store was wrecked with dynamite. A sheriff's posse arrived at midnight, and Rolla White is now in custody.

WOMEN ORGANIZE.

They Will Make an Exhibit at the St. Louis Exposition.

Kansas City, Mo., January 17.—The club women from the fifteen states representing the Louisiana purchase are here attending the conference called by Mrs. Edwin Harrison, president of the Missouri federation, to perfect an organization for furthering the women's exhibit at the coming St. Louis world's fair.

OVATION FOR SENATOR QUAY

A Brilliant Assemblage in Senate Chamber Sees the Pennsylvania Senator Take the Oath of Office.

FLOWERS AND CONGRATULATIONS

SENATE.

Washington, January 17.—Matthew Stanley Quay, re-elected yesterday as senator from Pennsylvania, to-day presented himself at the bar of the senate and took the oath of office. The galleries were thronged by a gay and brilliant assemblage, and scores of Quay's friends, both personal and political, had come from all parts of Pennsylvania to witness the final scene of the great contest. Not in the history of the senate has a single senator been the recipient of such a profusion of flowers. Flowers came to the capital literally by wagon loads, and it was found impossible to display all of them in the senate chamber.

When Quay entered applause swept over the crowded galleries. Penrose presented Quay's credentials, and requested that the oath of office be administered. No objection was offered. Before taking the oath Quay shook hands cordially with Mr. Frye. The president pro tem, announced to the galleries that no applause would be permitted under the rules. Thus a demonstration occurred when Quay had taken the oath. After he signed the roll he was overwhelmed with congratulations. The bill to provide for sub-ports of entry and delivery in the Hawaiian Islands was reported by Mr. Hanna from the committee on commerce and passed.

HOUSE.

Washington, January 17.—The house, in committee of the whole, took up the consideration of the bill to revise and codify the postal laws of the United States.

A PRESIDENTIAL NOMINATION.

Washington, January 17.—The president to-day sent the following nominations to the senate: Col. H. B. Freeman, 24th infantry, to be brigadier general.

TANNER WITHDRAWS.

Senator Quillom Certain of Re-election—Senatorial Battles in Other States.

Springfield, Ill., January 17.—Former Governor John B. Tanner withdrew from the senatorial race at noon to-day. A moment later an announcement was made that Cannon, Hitt and Prince had also withdrawn, and that Quillom would have no opposition in the caucus to-night.

COMPLEX FIGHT IN NEBRASKA.

Lincoln, Neb., January 17.—The vote for senator to-day was as follows: W. V. Allen (fusion), 57; Gilbert M. Hitchcock (fusion), 57; D. E. Thompson, 32; Currie, 32; Cronin, 10; Hainer, 6; Hinchshaw, 17; McKeljohn, 24; Rosewater, 15; Kinkaid, 4; scattering, 12.

DEADLOCK IN DELAWARE.

Dover, Del., January 17.—The vote on joint ballot to-day for two United States senators showed little change in the deadlock that resulted over the strained relations of the Republicans.

GENERAL DELGADO SURRENDERS.

He Advises the Insurgents of the Island of Panay to Do Likewise.

Iloilo, Island of Panay, January 17.—General Delgado, formerly head of the insurgents of the island of Panay, voluntarily surrendered and sent word to the remainder of his command, numbering seventy, to come in and surrender. The commands of Gen. Pulido, Dionco and Quinlan Sala are holding strong positions in the mountains of Capiz province. Battery G, of the 6th light artillery, with four guns and considerable force of infantry, are trying to dislodge them and compel the Filipinos to fight an open engagement.

A COAL FAMINE.

The Miners' Strike in Colorado Affects Many Industries.

Denver, January 17.—As the result of the coal miners' strike, Colorado is on the verge of a coal famine. Mining is seriously affected, and the manufacturers are threatened with a stoppage of business. Both the miners and operators declare they will fight to a finish.

A LEGISLATIVE INVESTIGATION.

LEGISLATIVE POINTERS

Much pressure is being exerted by members of the house for desirable chairmanships. As there are a good many committees, it is reasonable to suppose that these desires will be gratified.

Hon. E. C. Abbott, of Taos county, has prepared several measures for introduction as soon as the assembly is organized. He will work hard to secure the location of the miners' hospital at Taos.

Col. J. Frank Chavez, the veteran legislator, does not mind the situation a bit, and is blithe and debonair, president of the council or otherwise. However, it seems pretty well established that he will be the unanimous choice of the caucus for president.

Proprietor Vaughn, of the Palace hotel, has placed two large rooms in the excellent hostelry at the disposal of the Republican members of the house and council for caucus purposes. As it is understood that a good many members of both bodies will stop at the Palace, this will be found very convenient.

It is said that Hon. Frank Springer, member of the council from San Miguel and Guadalupe counties, would like to serve on the committee on territorial institutions and on engrossed and enrolled bills. Mr. Springer's wishes certainly should be gratified. It is believed he will prove a valuable member of the council.

C. V. Safford, of San Juan county, who is a candidate for stenographer of the house, is a first-class stenographer and typewriter, and just such a man as the house will need in that position. It is believed that he will be pushed by the entire delegation from the northwestern counties and from Santa Fe county for that position.

Hon. Martine Sanchez, of Valencia county, who is one of the members of the house of representatives from that county, has served several terms in that capacity, and there is no doubt that his experience in legislative matters, and the fact that he is very bright and alert, will entitle him to some good chairmanships. He was a valuable member in the sessions wherein he served heretofore, and there is every reason to believe that he will prove so again.

The following are the standing committees of the house of representatives: Agriculture and manufactures, banks and banking, capitol, counties, education, enrolling and engrossing bills, finance, Indian affairs, insurance, irrigation, judiciary, labor, libraries, militia, mines and mining, municipal corporations, public institutions, printing, private corporations, privileges and elections, penitentiary, public property, railroads, roads, rules, live stock, territorial affairs. Plenty of committees, it seems, and chairmanships galore for the members.

It is understood that Hon. Emilian Gutierrez, of Bernalillo county, will be pushed by the delegation from that county for speaker of the house. Mr. Gutierrez was a member of the thirty-third legislative assembly, and therefore has had experience in legislative matters. He speaks both languages fluently, and if elected will make a good speaker. At the same time, the situation, as sized up by the knowing ones, is that Hon. B. M. Read, who has twice been a member of the house of representatives of the assembly, has a majority of the Republican members pledged to him, and will be elected. Next Monday will tell the tale.

As already announced by the New Mexican, Mr. J. E. Saint, of Albuquerque, is a candidate for chief clerk of the council. So is Mr. W. E. Martin, of Socorro. A canvass of the councilmen seems to indicate that a majority of the Republicans will vote for Mr. Martin. However, in a political fight one can never tell. Mr. Saint has been a member of the council, Mr. Martin was a member of the council for one term, and was also a member of the house, and furthermore, has been chief clerk of the council. As far as fitness for the position is concerned, both applicants are qualified, with the preponderance of experience on Mr. Martin's side.

TROUBLE WITH VENEZUELA

A Dispute That Requires Delicate Handling in Order to Avoid an Open Rupture and Perhaps War.

THE MISSION OF THE SCORPION

Washington, January 17.—The only advice over night from Venezuela was a short message from Minister Loomis indicating that the revolt which had broken out in the barracks of Caracas had been suppressed last Monday. By this time the Scorpion, probably is starting from La Guayra for Guanaco, about seventy-five miles up the San Juan river, in northern Venezuela, and the point of shipment for asphalt of the Bermudez company. Such information as reached here goes to show that, while our efforts to straighten out the complications with Venezuela are much embarrassed by the growth of the revolutionary movement or movements, for there are really two, yet issue is being made directly with the Venezuelan government as represented by the de facto president, Castro. It is gathered that it is his agents who are threatening to seize the arms of the New York and Bermudez company's employees, which movement the Scorpion is to prevent if she can reach the point of trouble in time. The aspect is regarded as unpromising for a speedy settlement, and the case will require to be handled with great delicacy in order to avoid any open rupture.

SHEEP GRAZING ON FOREST RESERVES.

Superintendent of Forest Reserves L. B. Hanna to-day received an order from the department of the interior prohibiting sheep grazing on the Black Mesa forest reserve in Arizona. The commissioner of the general land office, Hon. Binger Herman orders: "Enforce the standing rule prohibiting grazing, and see that no sheep are allowed on the reserve, and that if any are now in the reserve, that they are removed immediately. Last summer there were as high as 300,000 sheep on the reserve, and the enforcement of the above order will be a great hardship to sheepmen. It is believed that the same order will be enforced on all the remaining reserves as soon as the investigation in respect to them is concluded. Thus far grazing has been positively prohibited upon the Gila, the Pecos and the Black Mesa reserves, in Superintendent Hanna's jurisdiction, which covers New Mexico and Arizona.

CHARGES AGAINST JOHN A. QUALEY

It Is Claimed That He Misappropriated Funds Belonging to a Copper Company.

PRESIDENT OF THE CONCERN

The Money Was to Have Been Used to Pay for Development Work—A Similar Suit Brought Against the U. S. Carbonate Company.

Newark, N. J., January 17.—Charges have been made against John A. Qualey, of New York, in a suit instituted in chancery by William J. Duane and Edward W. Osgood, of New York, and David S. Greenough, of Boston, as directors of the Arizona Copper Smelting Company of New Jersey, a corporation capitalized at \$1,000,000. The second suit in which the contesting parties and interests at issue are practically identical, has been brought in the same court by John P. Kane, of New York, against the United States Carbonate Company. In the suit against the copper company, of which Qualey is president, the complainants seek an accounting for certain funds, which, they say, were diverted by the president from their proper uses. In the bill it is said Greenough paid Qualey \$15,000 for the purpose of paying the company's debts in Arizona, developing its property there. After depositing this sum at the Seventh National Bank in New York, it is said, Qualey drew out and used the whole or a large part of the money for other purposes.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

THURSDAY, JANUARY 17.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, or until staidhood is attained, Miguel A. Otero.

Admiral Dewey can fight a Spanish fleet successfully, but when it comes to fighting the grip he had to do as other great men have done before him—surrender and go to bed.

The important question is no longer "Will Bryan drop silver?" but "Will the Democratic party drop Bryan?" The boomlet started for David Bennett Hill is an effort in that direction.

Where is the man who does not wish to live until the day that scientists can verify that there are people on the planet Mars who are trying to communicate with us? Such a certainty would rob humanity of a big chunk of conceit and loneliness.

The Kansas mob who burned a negro at the stake at Leavenworth demonstrated that Kansas mobs are no better than Colorado mobs. In fact, mobs are the same the world over, and the aim of all good government is to suppress mob rule by the sternest means that civilization allows.

If the legislators have any fault to find with the kind of winter weather that Santa Fe is enjoying at present they simply do not know nor appreciate a good thing when they see it. There may be more perfect weather elsewhere, but it is not on this side of the Styx.

The discovery of a big oil gusher in Texas has caused a drop in oil stocks. It merely would take the discovery of several big new oil fields and a determination of the owners to hold on to a good thing to give the Standard Oil monopoly a reminder that there are others in this world.

The actions of Vice President Theodore Roosevelt are giving Colorado preachers. They have discovered that he hunted last Sunday, and is given to profanity when he thinks occasion demands it. What Roosevelt thinks of the preachers the dispatches from the hunting grounds of Colorado do not disclose.

Fully one-sixth of New York's inhabitants have the grip, or, in other words, 600,000 people in an area much less than that of Santa Fe county are suffering from heavy colds. There are seventy-five deaths a week from the grip alone. New Mexico is experiencing a little epidemic of the same disease, but, compared with New York City, it is enjoying splendid health.

A farmer in Illinois tore up the tracks of the Chicago & Southeastern railroad, which crossed his farm, the company having refused for seven years to pay him for the right of way across the property. Judge West, of the county court, refused to issue an injunction against the farmer, saying that individuals had some rights which even a railroad company is bound to respect.

Kruger will come to the United States if President McKinley promises to receive him as the president of the Transvaal. Not much, Oom Paul; you'll have to conquer Pretoria before there is any show of your being acknowledged president of a country now occupied by another nation, just as little as Jefferson Davis, if he were living, would be received at the British court as president of the Confederate states.

From a criminal standpoint, New Mexico is not opening the new century very auspiciously. Two murders in Grant county, one in Union county, another in Valencia county, one in Dona Ana county, and several counties still to be heard from, show that New Mexico, while it is not worse than any other commonwealth, manages to keep up to the average in the number of grave crimes committed.

It takes two nations to make a treaty and two to abrogate it. So Senator Morgan's resolution in the senate, to do away with the Clayton-Bulwer treaty by a mere vote of that legislative body will not amount to much unless Great Britain graciously complies with the request put in so rude and undiplomatic a form. But the British are hard up for friends, and the British lion may for a time forget his pride and bow to the whims of the lawmakers of the United States.

The city of Santa Fe extends a hearty welcome to the legislators arriving for the legislative session. Santa Fe is proud of the distinction of being the seat of government of so great a territory as New Mexico, and especially proud of the men who compose the thirty-fourth legislative assembly. The New Mexico legislature will compare favorably in manliness, intelligence and honesty with the legislature of any sovereign state.

Thomas M. Patterson, senator-elect from Colorado, has performed the feat of again changing his political affiliation, for if his word amounts to anything, he has deserted the Populists, and now considers himself a full-fledged Democrat. He probably has an

eye on a cabinet position when the next Democratic president is elected, or perhaps on the presidency itself. He worked twenty years to become a senator, and may devote another twenty years to nursing his new ambition.

Embezzlers are many in a rich country like the United States, but most of them manage to land behind the prison bars, where they are lost sight of forever. Cornelius Alvord, who succeeded in stealing \$890,000 from a New York bank before he was detected, will have to serve thirteen years at Sing Sing, a warning to others in responsible positions that every thief has a day, and that even the high-toned thieves very seldom escape their just fate. Honesty may be an old-fashioned policy, but it is still the best.

The undiplomatic diplomacy of the American minister to Brazil has caused him considerable embarrassment. He presumed on the good nature of the diplomatic colleagues at Rio Janeiro, and used their names in issuing invitations to a banquet to be given the newly elected governor of Rio de Janeiro. Of course, the foreign diplomats, who regard American ascendancy with jealousy, anyway, stayed away, and the banquet was a fizzle. This incident hardly helped the prestige of the United States in South America, and seems to indicate that some diplomats lack not only in diplomacy, but also in manners.

Senators, as a rule, are more fortunate in retaining their seats in the senate than are congressmen in being re-elected to congress. It is true that a few senators who have become conspicuous figures in the senate will be retired after March 4, but that is owing with one or two exceptions to a change in the political complexion of the legislatures in their states. For that reason, Senator Wolcott, Senator Shoup, Senator Pettigrew and Senator Allen will retire, but enough of the old war horses have been or will be re-elected to make new faces in the next senate few and far between.

Mayor H. V. Johnson, of Denver, is to edit the Denver Times of next Sunday. Those who are not pleased with his administration say that it is not possible for him to be a worse journalist than he is a mayor. This judgment is probably too severe, for while Denver has lately suffered greatly from lawlessness and from epidemics of various kinds, it was nevertheless prosperous and a good city to visit. Every one will be anxious to see what the mayor of a great city deems to be an ideal newspaper, for the mayor will undoubtedly strive to show what a newspaper ought to be like in his opinion.

The work undertaken by the association of New Mexico pioneers is an important and just one. The historic spots in New Mexico, of which there are so many, should all be suitably marked. It is not mere sentimentality which induces the pioneers to undertake this work. To keep alive the memories of the past is important from an educational as well as from a patriotic standpoint. Even in dollars and cents it will pay the territory, for it will induce tourists to visit historical spots and bring many visitors to the territory who might otherwise have merely passed through it on their way to California, which has suitably inscribed its historic landmarks.

The good done by the Live Stock Association convention each year is that it brings a community of feeling to all live stock men, and sets common purposes for their own good before them, for which they should work as individuals as well as a united body. Without organization live stock men could raise only a weak protest against legislation harmful to their interests. The proposed lease law, the oleomargarine bill, the forest reserve grazing question, are all matters in which live stock men are interested, and which they can fight vigorously and with telling effect through their organization, but not single-handed. There are other advantages of holding such conventions where the experiences of successful men are exchanged, and papers of great practical value are read and discussed. The convention also gives cattlemen the chance to leave their ranges and get a wider view of life. It should be the ambition, therefore, of every cattle owner to take an active part in the live stock association conventions and to attend them whenever time and pocket-book permit it.

Causes of Catching Cold.
Colds can be prevented. The fact that there are at this time 10,000,000 people in the United States suffering from colds or with the grip simply shows that they have not yet learned how to take care of themselves. There are three main causes of colds: Indigestion from over-eating and rapid eating, too heavy clothing and over-heated houses.

Says a prominent physician: "A human being who is always shivering in another meal upon the still undigested preceding meal is always in condition to catch anything that may be going. As the cold is the easiest thing to catch, all these over-eaters have colds. We dress for the house as if we lived outdoors—especially the men. The average man, sitting in his office or at home, with the temperature higher than it would be on a summer day, has on a thick winter suit and a thick suit of underwear—enough covering adequately to protect him if he were walking about briskly in the open air on a bitter winter day. The women are more sensible in this respect, hence their greater freedom from colds.

"Our houses are heated with an almost poisonous dry heat to a point that makes the skin shrivel and crack. "Do you notice your furniture, how it dries out and falls to pieces? Yet American furniture is especially seasoned and put together with a particular kind of glue with a view to meeting the American conditions of fierce dry heat. "If the furniture can't stand this heat what must be its effect upon the body? "Living rooms that are chilly are not healthful. But they are less healthful than living rooms that are filled with hot, dry, stale air. "If you wish to avoid colds you must avoid the causes of colds."

Harry Robertson, of Chaves county, has given an example of what can be done in the line of cattle raising in New Mexico. He began business in 1888 with seven heifer calves at \$10 per head. He traded for several years all

Bled Quarts at a Time

"I am a knife maker and worked for a number of years in the New York Knife Co.'s factory at Walden, N. Y. First thing I knew I commenced to bleed from the mouth. Sometimes as much as a quart of blood would come up from my lungs at a time. Every time I coughed the blood spurted out. It was in the fall I got so bad, and the church people told me I had better make my peace with the Lord and prepare to die, for I would not live till spring. My home doctor couldn't do me any good, but advised me to get to New York City for examination. They finally took me to a medical college, and a whole lot of physicians made what they called a diagnosis. There were several students looking on. One professor had a little ivory hammer, and with this he pounded my chest and held his ear close to listen. After a while the professor looked at me solemnly and declared: 'One of your lungs is about gone and the other is affected. There may be a slim chance for life if you quit working in that knife factory.' I went back home, but didn't improve. One day I saw an advertisement of free samples of Acker's English Remedy for Consumption, being given away by our home druggists, Walker & Eaton. I got one of these bottles, and it relieved me. Then I bought more of the regular size, and my improvement was continuous, although slow. My doctors were astonished and so was I. After dark I hated to spit, because I was afraid it might be blood, and I wanted to know for sure. The other fear now, for at last I am a solid man again. Although one lung is gone, the other is as sound as a dollar, and answers as well as two lungs, so far as I can see. I want everyone to know the facts and that is why I tell them here." (Signed) A. H. SIMPSON.

Acker's English Remedy is sold by all druggists under a positive guarantee that your money will be refunded in case of failure. A bottle in the United States. Thousands of testimonials. W. S. FISCHEK & CO., Proprietors, New York. Write for the above guarantee.

Sir Hiram S. Maxim, G. G.
Say, doesn't Sir Hiram S. Maxim have a queer Yankee twang to it? It does. A couple of initials like G. G. after it would balance it a little better. What's G. G. for? Great Guns!—Cleveland Plain Dealer.

THE MOTHER'S FAVORITE.
Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take, and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children, for it contains no opium or other injurious drug, and may be given as confidently to a babe as to an adult. For sale by Ireland.

"I found your medicine a blessing to me and my family."
There are women who feel something like a grudge against the children, who, one after another rob their mother of her beauty and strength. Men do not usually realize how much the mother gives to each child to her own loss. Women accept it as part of the obligation of Nature and pay the debt grudgingly. Yet in Nature's plan every child is a new joy and fresh happiness. It isn't the children that steal the mother's strength. It is the unnatural drains and pains which weaken her.

Every woman who has used Dr. Pierce's Favorite Prescription has found in it the one thing woman has waited for. It stops the dry, head inflammation and ulceration, makes the baby's advent a pleasure and his life a blessing. No opiates or narcotics are contained in "Favorite Prescription." I read what Edwin H. Gardner, Box 70, Beechwood, Norfolk, Co. Mass., so thought I would try it, and I found that it was a blessing to me and my family. I began in June and took six bottles of your medicine and three vials of "Pell's." I took your medicine a year when I was a teenaged girl. I had the easiest time I ever had with any of my children. I have been very well since. I took three bottles of "Favorite Prescription," three of "Golden Medical Discovery," and three vials of "Pell's." I had no appetite and could not eat much without it distressing me. Before I took the medicine I only weighed 75 pounds, and now I weigh 175. Dr. Pierce's Pleasant Pellets clear the brain by cleansing the body of the corruption which clouds it.

Gross Weight.
Young Mother (to butcher) I have brought my little baby, Mr. Bullwinkle. Will you kindly weigh him?
Butcher: Yes, ma'am; bones an' all, I s'pose.—Tit-Bits.

Education in Porto Rico.
The expense of maintaining schools in Porto Rico is very high, if we consider the amount spent for the small number of pupils enrolled; but as that country is gradually brought in closer touch with our own, their system will eventually be changed, until it reaches our present state of perfection. In this country the people are being educated to the fact that there is a sure cure for dyspepsia, indigestion, constipation, liver and kidney troubles, and that medicine is Hostetter's Stomach Bitters. It should be taken at the very first symptom, if you would avoid unnecessary suffering. It will give prompt relief and eventually cure, as hundreds of people, including many prominent physicians, have testified during the past fifty years.

Essegetical.
For a moment Esau wavered, but only for a moment. Of course I don't care for the red potage, he exclaimed, with feeling, but if I don't sell my birthright for something dead cheap, what a disappointment it will be to the popular orators of the future! Moreover Esau appears to have been temporarily imaginative, which would have the effect of making his character sag strongly toward the anecdotal side.—Detroit Journal.

If troubled with a weak digestion, belching, sour stomach, or if you feel dull after eating, try Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free at Ireland's drug store.

Division of Labor.
There's nobody can say we don't live well, remarked Mr. Pner. We nearly always have oatmeal and mackerel for breakfast. I know it, sighed the wife. I eat the oatmeal and you eat the mackerel.—Chicago Tribune.

His Style.

From the Persian.
A man saw a woman and ran away. Why do you run away? asked the woman, through a megaphone. Because I love you! said the man. Go on! said the woman. Of course the crux of this story is that it is from the Persian.—Detroit Journal.

GOOD ADVICE.
The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent of the people in the United States are afflicted with these two diseases and their effects: Such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Water-brash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac.

The Dignity of Love
Do you love art for art's sake? they asked of the young lady who painted green sunsets on china. His name is Arthur, she replied in tones which indicated resentment at such familiarity with the young man's name. And she resumed her task of decorating a shaving mug with some Cupids and other fancies.—Baltimore American.

Your Face
Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, Pimples and skin eruptions. If you are feeling weak and worn out and do not have a healthy appearance, you should try Acker's Blood Elixir. It cures all blood diseases where cheap Sarsaparilla and so-called purifiers fail; knowing this, sell every bottle on a positive guarantee. For sale at Fischer's drug store. El Paso and return, January 15, 1917, limit January 21—\$10.20.

WINE OF CARDUI
A LITTLE DOES MUCH.
No tongue can tell what I have endured in the past ten years with my monthly sickness. While suffering untold agony, a friend called and recommended Wine of Cardui. After the first dose I began to feel better and have had no pain since. MRS. GRACE LAMPHIER.

WINE OF CARDUI
Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance which the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles."

This season there is a large death rate among children from croup and lung troubles. Prompt action will save the little ones from these terrible diseases. We know of nothing so certain to give instant relief as One Minute Cough Cure. It can also be relied upon in grippe, and all throat and lung troubles of adults. Pleasant to take. Ireland's Pharmacy.

Side Lights on History.
Young men, said Samson to the reporters who gathered about him as he was led forth for his final act, don't lead too strenuous a life. It doesn't pay. I have tried it and I know.—Chicago Tribune.

When threatened by pneumonia or any other lung trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of having taken cold are noticed. It cures quickly and its early use prevents consumption. Ireland's Pharmacy.

Tactics.
Chicago Record: "Miss Blinks hasn't a particle of social instinct." "What do you mean?" "Why, when she is invited to lunch she talks more to the girl who is to pay the bill."

A PROMINENT CHICAGO WOMAN SPEAKS.
Prof. Roxa Tyler, of Chicago, Vice President Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse, and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy, and I found it was pleasant to take, and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again." For sale by Ireland.
