## DEEPLY AFFECTED

### General Smith Has Received His Orders.

#### QUESTIONS RIGHT TO INCORPORATE

#### Exaggerated Reports of Damage by Earthquake.

#### ANOTHER FAKE TRACY STORY SENT OUT

San Francisco, Aug. 1.—The transport Thomas, with General Jacob Smith aboard, has been sighted coming into the harbor.

Through his aide, Lieutenant M. H. Shields, General Smith said he would not be interviewed, as he did not care to subject himself to further criticism. Major Davol, of the transport service, delivered General Smith's order of retirement to him on board ship. General Smith, on landing, went to the Occidental hotel and denied himself to all visitors.

After receiving the official notification of President Roosevelt's action, General Smith retired to his cabin overcome with emotion. General Smith, who is wearing civilian attire, appears exceedingly nervous and worn. Intimate friends fear he is breaking down under the severe strain to which he has been subjected in the recent months. His sealed orders require him to report to the adjutant general at Washington and it is likely he will lose no time in starting east.

Repeated efforts made during the day to induce General Smith to discuss his campaign in the Philippines and the court martial which followed as a sequel to his work, failed entirely. He even declined to take up the subject with intimate friends. The transport Thomas brings portions of the Twenty-fifth and Twenty-sixth infantry regiments and Tenth cavalry.

#### ARE EXAGGERATED.

#### Reports of the California Earthquake Damage were Overdrawn.

Lompoc, Cal., Aug. 1.—The most severe earthquake shock here since Sunday night, occurred shortly after 7 o'clock last night. While the populace is in a state of extreme anxiety and considerable damage has been done in various localities, it is the impression of the Associated Press correspondent on the scene that the reports from Los Alamos have been overdrawn. A great deal of damage actually done must unquestionably be attributed to faulty masonry and the unfitness of structures to withstand even the slightest earthquake. Since the initial shock on Sunday last, vibrations have continued with unabated vigor at close intervals. There is no panic here yet. Heavy landslides are reported from the mountains north of here, with no damage done beyond the closing of two roads.

#### ANOTHER DENIAL.

#### President Yoakum Says His Road Will Not Pass to Rock Island.

President Benjamin F. Yoakum, of the St. Louis & San Francisco railroad, has again denied the reports of the "Frisco" being absorbed by the Rock Island or that a controlling interest is to be transferred to the Rock Island. President Yoakum has been very busy for three months denying the reports of the merging of his road with the Rock Island.

A dispatch from New York says: "The St. Louis & San Francisco railroad is not to be merged with Rock Island nor with any other railroad," said President Yoakum of the former at the Waldorf-Astoria hotel.

"The Frisco will have a board meeting here on Wednesday, but the sale of the road will not be a part of the proceedings."

"I have denied this before, and now repeat it. You can make it as emphatic as you choose. The 'Frisco' is not negotiating with any railroad or representatives of syndicates for its sale. It is doing very well independently. Its stockholders are perfectly satisfied with the property as it exists."

"This disposes of the reported extension of Rock Island, so far as the 'Frisco' is concerned. The Atchison is another which is said to be claiming the attention of the Moors. President Ripley, of the Atchison, is quoted as saying that there will be no sale of the control of that property to Rock Island or interests. He also declares that the Atchison people have not been looking for any merger with the Rock Island or any other road."

"No project concerning any western railroad has attracted so much attention as the proposed readjustment plan of the Chicago, Rock Island & Pacific railroad, which is to come up at the annual meeting of the board of directors of the system in New York."

"The Santa Fe reorganization a few years ago, which attracted so much attention, was a successful effort to rehabilitate a bankrupt railroad. But the Rock Island project involves a system in splendid physical and financial condition and is an attempt to control the immense traffic of the west and southwest. It is by long odds the biggest transaction of its kind among granger

railroads. "Granger" is a term applied to railroads west of Chicago and the Mississippi river.

"The Rock Island has doubled its mileage within a year and now operates 8,900 miles of track. If the projects under way succeed it will operate nearly 12,000 miles of track. At the board meeting in New York the capital stock is to be increased, and the absorption by purchase of one or two other lines is to be considered. In some quarters the report that the Rock Island is seeking to purchase the St. Louis & San Francisco railroad is discredited. In view of the statement of the head of the system that the natural outlet of the traffic of the Rock Island is by way of Galveston and the Gulf and the admission that the road will purchase the Mallory line of steamers running out of Galveston it is more reasonable to suppose that it is the purchase of the Kansas City Southern railroad that is really the desirable proposition. The Kansas City Southern runs 'straight as the crow flies' to the Gulf, while the 'Frisco' has no tracks of its own to this point."

"It may develop as one of the surprises of the meeting that the Rock Island has made a traffic arrangement with the Santa Fe railroad by which it will not be necessary for the Rock Island to build to the Pacific coast."

"By the purchase of the Kansas City Southern railroad, the Rock Island would gain control of the Suburban Belt railroad in Kansas City, thus affording it an ideal terminal system and one in close proximity to the Bates bridge with its many ramifications. The Rock Island is said to be backing this enterprise."

## OFFICIAL MATTERS.

### Pension Granted—Land Office Transactions.

#### NEW INCORPORATION.

Hon. Benjamin M. Read has been notified by the pension office that Dorotea Lopez, widow of Juan Rael, of Chihuahua, Santa Fe county, has been granted a pension of \$8 per month. The deceased husband served in the civil war in company K, First New Mexico volunteers.

#### Land Office Business.

Homestead Entries: Lucario Moya, Springer, 160 acres, Colfax county; Claudio Olona, 160 acres, Springer, Colfax county; Pedro Chaves, Galisteo, 159.63 acres, Santa Fe county; Toribio Chaves, Galisteo, 160 acres, Santa Fe county; Bernardo Chaves, Galisteo, 160 acres, Santa Fe county.

Coal Declaratory Statement: John Sharp, Gallup, 160 acres, McKinley county.

#### Incorporation.

The Gila Land and Live Stock company has filed incorporation papers, the incorporators being Thomas R. Pearson, George W. M. Carvil, Fulton J. Davidson, John W. Carter, of Grant county, and John Clay, of Graham, Ariz. The headquarters are at Silver City, Grant county, and the capital is \$200,000, divided into 200,000 shares. The directors are Thomas R. Pearson, Geo. W. M. Carvil, of Silver City; Fulton J. Davidson, Pinos Altos; John W. Carter, of Silver City, and John Clay, of Duncan, Ariz.

#### SHOULD BE INVESTIGATED.

#### Was Hattie Wingfield Injured in a Fall or Otherwise.

Hattie Wingfield, the ten year old daughter of Mrs. Robert West, living at the corner of Lead avenue and Fifth street, is severely injured and has the appearance of having been run by some inhuman brute. The flesh and skin is badly torn and the injuries extend into the interior of the body. The little girl says that she was hurt by falling from the top of a board fence, but the hurt is of such a nature that it could not have been made in any such manner. The doctor says that the case looks suspicious. The little girl suffered considerably during the night and has lost considerable blood. Hattie says that the accident occurred about 7 o'clock last night but as the injuries did not pain her much she did not complain and it was about 2 o'clock when she was discovered in the yard back of the house. Mrs. West was down town between 6 and 6:30 o'clock. When she returned Hattie was playing in the front yard with two little native girls about her own age. About 7:30 o'clock the three girls passed through the house into the back yard.

The native girls tell two stories. They say they saw her fall and helped her up and then later denied that they helped her up and said that they did not see her fall on the fence. Hattie is a very good looking colored girl and is well developed for one of her age.

The police were notified this afternoon and they will investigate.

#### DOUBLE MURDER.

#### Members of Prominent Families Shot By a Woman.

Salinas, Cal., Aug. 1.—Warren Johnson and Joseph Bridges, sons of prominent families, were attacked and fatally shot early this morning by an abandoned woman who then attempted suicide, but was prevented. The shooting is believed to have taken place after a debauch and violent quarrel.

## NEW HEADLIGHTS

### Santa Fe Orders Electricity Used.

#### LUCKY STRIKE NEAR OAK GROVE

#### President Mitchell Will Reply to a Recent Criticism.

#### MANY BODIES RECOVERED IN AUSTRALIA

Topeka, Kan., Aug. 1.—The Santa Fe has given an order for fifty of their monster locomotives running between Chicago and Albuquerque to be equipped at once with electric headlights.

#### TURQUOISE STRIKE.

#### Rich Find in the Burro Mountain Mining District.

#### Special to The Citizen.

Silver City, N. M., Aug. 1.—The report of a rich turquoise strike in the Burro mountain mining district near Oak Grove has reached this city. The lucky finders were Robert Thompson and J. R. Martyr, who are taking out some very fine gems.

#### AN OPEN LETTER.

#### President Mitchell Will Reply to a Recent Criticism.

Wilkesbarre, Pa., Aug. 1.—President Mitchell of the Miners' union, started to work early today upon a reply to the open letter addressed to him yesterday by the Citizens' Alliance, a Wilkesbarre organization of business and professional men and others. Mr. Mitchell recently criticized the Alliance because he asserted it wanted to prosecute all miners who violated the law, but overlooked many violations of law committed every day by the coal combination. The Alliance, in an open letter enumerated many outrages said to have been committed by the strikers and others and Mitchell was called upon to issue a proclamation to his followers warning them to keep on the side of law and order. In reply Mitchell takes the ground that he always has been a staunch defender of law and order and his followers know it.

#### Many Bodies Recovered.

Melbourne, Australia, Aug. 1.—Sixty-seven bodies have been recovered from Mount Kimba colliery at Wollongong, where the explosion occurred yesterday. The work of rescue is much hampered by the after damp.

## THAT SHORT-CUT.

### An Interesting Talk With One of the Chief Engineers.

#### ABO PASS FAVORED.

F. M. Jones, chief engineer of the Santa Fe surveying corps, doing work on the proposed Santa Fe cut off, stopped at the court house last night. He came on from Belen to Santa Fe, where he is returning from a two weeks' trip by stage from Las Vegas to Pinos Wells and from the Wells along the line of survey over Abo Pass to Belen. His mission was to investigate the timber and water resources of the country over which the new road will run. He reports having found a goodly supply of fine water at different places along the route and that an abundance of good timber can be found in the Manzano mountains.

At Eastview, Valencia county, one of the gentleman's horses was bitten by a rattlesnake and so badly injured that he was compelled to buy another. Mr. Jones spent one night at Eastview and enjoyed a pleasant visit with United States Land Commissioner J. W. Corbett. He says that the Santa Fe short cut will be built over Abo Pass.

#### GAME OF POKER.

#### Causes Trouble Between Players at Corona, N. M.

F. M. Gilbert, dangerously injured from the effects of being beaten on the head with a six shooter, was brought in on the Rock Island train yesterday morning and taken to Hotel Hien on a stretcher, says the El Paso Times.

Gilbert is a ranchman and lives near Corona, N. M. He was beaten into insensibility at that place by Deputy Sheriff Jap Clarke, of Luna county, New Mexico.

The difficulty was the outgrowth of a game of poker. The two men quarreled while the game was in progress and Clarke invited Gilbert outside to fight. Gilbert is an old man and Clark is a stalwart six footer in the prime of life. Without warning he whipped out his six shooter and

pounded Gilbert over the head with it several times, inflicting injuries which are not only of a serious nature, but may prove fatal.

After Gilbert fell the bystanders made an effort to arrest Clarke, but he is said to have stood them off with his gun and declaring that there were not enough men in the camp to arrest him, mounted his cayuse and rode off leisurely toward the foothills.

Gilbert's skull was trepanned yesterday by Dr. Mellish. It is stated that his chances for recovery are very good.

#### WITH A HAMMER.

Mrs. Wheeler Struck George Harris on the Head.

George Harris, a colored barber on North Third street, was hit on the head with a hammer by Mrs. Wheeler this noon, but is not believed to be seriously hurt. Harris and another colored man named Al Johnson boarded at Mrs. Wheeler's on West Tijeras road until about a week ago, when Harris and the woman fell out and she ordered him from the house.

This noon while Johnson was at the house at dinner, Harris went in and knocked Mrs. Wheeler down twice. Johnson then took a hand and he and Harris got in a fight. Johnson forced him on to a bed and after choking him, let him get up. He started to make another attack on Mrs. Wheeler, but she had secured a hammer and struck him over the head with it, which ended the affray. Both Harris and Mrs. Wheeler were arrested.

## NEW COMBINE.

### Rock Island Will Make Startling Changes in Railway Map.

#### WALL STREET PUZZLED.

Wall street seems to be in a conjectural state over the Rock Island plans of recombination to be announced tomorrow or the next day. A special dispatch from New York, dated July 30, The determination by the Rock Island directors to a readjustment without an underwriting syndicate. The 2,000 miles of the Rock Island system which are as yet unbonded may be put up as additional security for the proposed new Rock Island route. According to authority that is not official, but close enough to be considered, the Rock Island company will issue an amount of 1 per cent collateral bonds equal to the present authorized stock of Chicago, Rock Island & Pacific Railroad company. Through the sale of these bonds the liquidation of loans which have been made upon the syndicate holding of old stock will eventually be pledged as security for the bond issue of the new company. In some circles it is held that the Rock Island is preparing to tackle the Harriman interests in every direction.

Articles of incorporation of the Rock Island company were filed in Jersey City recently. Capital stock is placed at \$150,000,000, and a fee of \$30,000 was deposited with the county clerk of Hudson county, New Jersey. The stock is divided into 54,000 shares of preferred and 960,000 shares of common.

The purpose of the corporation is declared to "acquire, purchase and hold subscriptions, stocks, bonds, securities, shares and other evidences of corporations generally and to merge corporations one into another." Dividends of 4 per cent on preferred stock are guaranteed up to 1903, and of 6 per cent from that time to 1916.

In the articles of incorporation of the agent of the stockholders is the Commercial Trust company. The incorporators are Robert F. Ross, J. A. Tenant, Walter McDermott, George S. Tracy, R. F. Tully, John W. Hardenburg, Oscar L. Gubelman, William J. Field and George T. Boggs. These are all directors of the Commercial Trust company. Each of the incorporators is credited with fifty shares of stock.

#### OLD TOWN REPUBLICANS.

#### They Met Last Night, Organized and Elected Officers.

A well attended and enthusiastic meeting of old town republicans was held at the court house last night. Jesus Romero presided with H. R. Whitling and Nestor Montoya as vice presidents, and S. Crockett as secretary. It was unanimously voted to dissolve the McKinley club and organize the McKinley Roosevelt club, and the following officers were unanimously chosen by the new organization:

President—Nestor Montoya.

Vice Presidents—Jesus Romero and Tomas Werner.

Secretary—Sefirino Crockett.

Sergeant at Arms—David Perez.

Executive Committee—C. D. Murphy, H. R. Whitling, M. C. Ortiz, M. Springer, G. Armijo, C. Gonzales and M. Duran.

Several excellent speeches were made, among them being those of Messrs. Montoya, Crockett, Ortiz and Corjazo.

The Albuquerque towns will leave on No. 8 tomorrow evening for Las Vegas and will play there the next day returning to Albuquerque on Sunday evening at 10:10.

## A LARGE FORCE.

### A New Sanitarium at Silver City.

#### STRIKE FOR INCREASE OF WAGES

#### Texas is Slowly Recovering from the Flood Situation.

#### ENJOYING CAMP LIFE IN PENNSYLVANIA

#### Special to The Citizen.

Silver City, N. M., Aug. 1.—The parties who recently purchased the Timmer house in this city which has eighty-five rooms in it, to be converted into a sanitarium for the treatment of pulmonary troubles, have a large force of workmen at work on the property, and when it is completed it will be the finest institution of its kind in the west. A well known doctor of this city will have the sanitarium in charge with an assistant. The dining room will furnish the best of food for the inmates of the house that can be procured.

#### ANOTHER STRIKE.

#### Boilermakers, Shipbuilders and Helpers Want Increase of Wages.

Chicago, Ill., Aug. 1.—Boilermakers, shipbuilders and helpers to the number of 1,500 employed in contract and job shops of this city, struck today because the Master Boilermakers' association refused to increase wages.

#### VASTLY IMPROVED.

#### No Rains in Texas and Flood Situation Improved.

Dallas, Texas, Aug. 1.—No heavy rains fell in Texas yesterday, and the situation is vastly improved. Traffic is now being handled by the Texas roads with perfect safety. Many people spent the night in the tree tops around Quilman on Tuesday, and were rescued with difficulty on the following morning with boats brought from Greenville and Paris. Considerable damage resulted from the flood. The water was still over the Texas Midland tracks at Quilman last night, but no lives lost there. Rivers are falling everywhere except in the extreme southern part of the state, where the flood is being augmented by small tributaries. General Manager Nixon, of the Gulf, Colorado & Santa Fe, estimates its loss at \$10,000.

#### Peace Reigns Everywhere.

Shenandoah, Pa., Aug. 1.—Peace reigns everywhere in the coal region. The soldiers have settled down for a period of enjoyable camp life.

## VALUABLE PURCHASE.

### Outside Capital Secure the Gas and Electric Light Companies.

#### HAVE FAITH IN ALBUQUERQUE.

J. J. Henry, accompanied by T. B. Whitted, the chief engineer of the General Electric company, reached this city yesterday evening and has made arrangements to purchase the gas and electric light companies of Albuquerque, and to invest a considerable sum of money in the building up and improvement of both of these properties.

Mr. Henry owns and operates the lighting and ice plants at Tucson, Arizona, and also other electric light and gas plants in Colorado, Wyoming, Nebraska and Oregon, and is thoroughly conversant in regard to the lighting and power requirements of cities similar to our town.

It is hoped that all reasonable encouragement will be offered to not only Mr. Henry but to all others who may desire to invest here.

The Citizen trusts that the people here will encourage and foster the investment of capital in our midst, as it means a benefit directly or indirectly to all. It is almost a certainty that a new electric street railway is among the improvements contemplated by these gentlemen and will be put in operation at an early date.

Maynard Gensul has arrived here from Arizona to take charge of these properties.

D. B. Macpherson will hereafter devote his time and attention to the water supply company and other interests belonging to the Grant estate.

#### GOVERNOR STONE'S ORDER.

#### Says the Law Must be Upheld in Pennsylvania.

Harrisburg, Pa., Aug. 1.—Governor Stone's general order placing troops on duty at Shenandoah was made public today. It says:

"Unlawful assemblages have congregated in some sections of the commonwealth and by acts of violence and disregard of law, have taken human life and placed life and property in jeopardy. The civil authorities are unable

to preserve public peace, protect life and property and secure to citizens of the commonwealth their rights and privileges under the constitution and laws. Lawlessness, disorder and conduct tending to disturb the public peace and safety of life and property, will be suppressed and to that end such portions of the national guard as may be necessary to enforce the laws will be placed on duty to assist the civil authorities in restoring and maintaining peace and order."

#### COMMITTED FOR TRIAL.

#### Col. Arthur Lynch Must Face the Charge of Treason.

London, Aug. 1.—Col. Arthur Lynch, the nationalist member of parliament accused of high treason during the Boer war, was taken to Bow street police court today. Lynch made a long statement in which he said he had gone to South Africa under a contract with the Paris Journal and had not expected to stay more than two months. He also arranged to serve the Century Magazine, Collier's Weekly and several other American publications. He denied he saw Dr. Leyds, Boer agent, before starting, and declared he had no mission from Leyds to the Transvaal. Lynch was committed for trial.

Hon. C. F. Easley, a prominent citizen of Santa Fe, is expected to arrive in the city this evening and will remain over until Tuesday, when he will take the special Knights of Pythias train to attend the biennial convention at San Francisco. Mr. Easley is one of the officers of the supreme grand lodge.

## BOOMING FAIR.

### Hon. Felix Martinez Writes a Few Lines of Interest.

#### M'CANNA AT OSWEGO, N. Y.

The following letter, showing that El Paso appreciates the work of the special Albuquerque fair committee in its efforts to secure a fair, was received yesterday by President O'Reilly:

El Paso, Texas, July 30, 1902.

J. H. O'Reilly, President New Mexico Fair, Albuquerque, New Mexico:

Dear Sir—Replying to your welcome favor of the 25th, I have to say that we appreciate your kind words of gratitude and congratulation and beg to assure you that it is my sincere wish to see Albuquerque and New Mexico succeed in every effort that is made to develop the welfare of the territory and the Queen city of the same. J. W. Magoffin, who was engaged with me in the raising of the funds requested by your committee, is at Clarendon. He will return in a few days when we expect to call a meeting of the subscribers and have an organization perfected and advise you and Mr. McCanna of El Paso's readiness to enter into final arrangements for a successful base ball tournament in your city and ours.

With best regards and wishing you a distinguished success in the coming fair, I am, yours sincerely,

F. MARTINEZ.

#### McCanna Hears the News.

P. F. McCanna, secretary of the New Mexico Territorial Fair association, hears the news while visiting his old home at Oswego, N. Y., and writes the following letter in answer to a telegraphic message:

Oswego, N. Y., July 28, 1902.

Mr. Thomas Hughes, Albuquerque, New Mexico:

Dear Sir—I was very glad to get your message of July 23 from El Paso, and I knew from the personal of the committee that you would get just what you wanted.

From present indications we will have the very best base ball talent in the country, and B. T. Babbitt Hyde assured me while in New York that the Hyde Exploring Expedition would do as much if not more for the fair this year than they did last. Mr. Hyde is a very fine man, and intensely interested in the present and future of New Mexico.

Will stop in Chicago and Kansas City on my return.

Regards to "Mac" and the rest of the people. Be sure and keep the fair to the front.

Thanking you for the help that you are giving us, I am yours, etc.,

P. F. McCANNA.

#### POSTPONED UNTIL TUESDAY.

#### Suit to Examine Books of the Fuel & Iron Company.

Denver, Colo., Aug. 1.—The case of David H. Dougan against the Colorado Fuel & Iron company's officers, in which a writ of mandamus is sought to compel the officers of the company to permit an examination by the plaintiff of the company's stock book, came up today in district court before Judge Mullins. Counsel for the plaintiff moved to transfer the case to Judge Malone, who issued the alternative writ. This motion was denied by Judge Mullins. On application of counsel for the defendants the hearing was postponed until Tuesday next.

V. V. Clark and wife came in from Woodbury, Cochiti district, last night. Mr. Clark is in charge of the Cochiti Reduction and Milling company operating a reduction plant at Woodbury.

### General Shifting Among Swiss Ministers.

#### ELKS ADDING CONVERTS DAILY

#### Record Breaking Rains Fall in the Southern States.

#### BALDWIN IS BACK FROM ARCTIC REGION

Berne, Switzerland, Aug. 1.—Dr. G. Carlin, late Swiss minister to Italy, has been appointed minister to Great Britain, replacing Dr. C. D. Bourcarte, who is ordered to Washington to relieve J. B. Pado, Swiss minister to the United States who goes to Italy. These changes are due to the resumption of diplomatic relations between Italy and Switzerland.

#### CONVERT A DAY.

#### Silver City Elks will Have a Large Delegation.

Silver City, N. M., Aug. 1.—The Silver City delegation of Elks who are going to Salt Lake to attend the grand reunion of Elks in that city are every day adding a new convert to the crowd. They will leave here on the evening of the 7th and join the Albuquerque crowd.

#### MORE RAIN FALLING.

#### Tennessee, Alabama, Mississippi and Arkansas Getting it Now.

Memphis, Tenn., Aug. 1.—Record breaking rains have fallen in west Tennessee, north Alabama, north and central Mississippi, and eastern Arkansas. The down pour has been almost continuous for twenty-four hours, but clearing weather is now predicted. The precipitation at Memphis was 4.49 inches; Arlington, 6.80 inches; and Helena, Ark., 4.87 inches. It is believed considerable damage was done in the interior by the floods to railroads and crops in the low lands.

## CITIZEN ENLARGED.

Today The Citizen is enlarged one  
column to the page, making it the lar-  
gest, best and cheapest daily newspaper  
published in the territory of New Mex-  
ico. It is now the equal in size and  
quality of matter of the daily papers  
published in cities of 50,000 inhabi-  
tants.

In every matter of public interest  
The Citizen has at all times taken a  
leading part, and in the future it will  
be found right at the front in working  
for this city and territory.

It is the ambition of The Citizen to  
publish all the news of this territory.  
Its telegraphic pages will be complete,  
and its editorial opinions will be con-  
servative and liberal. Every depart-  
ment of the paper will be carefully  
maintained.

At the head of the list—The Daily  
Citizen.

The chances are good that Albuquer-  
que will get an electric street railway  
during the next six months.

The Iowa state republican conven-  
tion adopted a resolution favoring  
Roosevelt for president in 1904.

President Roosevelt has written to  
Governor Brodie, of Arizona, that he  
cannot visit that territory this year.

Homes are being made in New Mex-  
ico. During the past year 25,000 acres  
were filed upon at the Las Cruces land  
office.

Pointer to democratic committee:  
The republicans intend to carry New  
Mexico next fall by at least 5,000 ma-  
jority.

The territorial democratic central  
committee will meet in this city to-  
morrow. It will be in many ways a  
funeral gathering.

Senator Platt predicts that the New  
York state delegation will be solidly  
for the nomination of Roosevelt for  
the presidency in 1904.

Arizona is growing. Fourteen na-  
tional banks have been established in  
the southern part of that territory dur-  
ing the past three years.

In the Judge McMillan case The  
Citizen has published all that has been  
said for and against the gentleman.  
This is the duty of a newspaper. The  
only comment The Citizen has made is

that it would be wisdom for the judge  
to resign. His usefulness on the bench  
in New Mexico is gone.

The coal strike in the anthracite re-  
gion of Pennsylvania has reached the  
critical period, and the state troops are  
to be called out to preserve order.

General Fitzhugh Lee, in an inter-  
view, says the crisis in Cuban affairs is  
now at hand and they must show their  
ability to maintain order or become a  
dependency of the United States.

Ex-Delegate Ferguson has a silly  
interview in the El Paso News. Mr.  
Ferguson is sore and sour, and thinks  
his self-imagined greatness is not ap-  
preciated by the people of New Mexico.

It is predicted that the democratic  
central committee will urge opposition  
to statehood. It is always safe to set  
that a democratic committee will do  
the wrong thing on the slightest provoca-  
tion.

Detailed statistics covering the first  
year's operations of the five free pub-  
lic employment bureaus in Connecticut  
show that 14,577 applications for em-  
ployment were filed and that positions  
were secured for 7,886 persons.

Rain or no rain the sheep men of the  
west are having a most prosperous  
season, mainly from the fact that they  
are receiving about 3 cents more per  
pound for their wool than they were  
paid last year, and they have a large  
amount for the market.

Residents of America are prone to  
consider Japan as only a little dinky  
spot on the map, hardly entitled to any  
special consideration. Still, consular  
reports show that American trade with  
that nation for 1900 footed up the tidy  
little sum of \$59,000,000.

Senator Henry M. Teller, of Colo-  
rado, has been working with the demo-  
crats for several years, and at last de-  
clares himself with that party. The re-  
publicans of Colorado should retire the  
old man. Many of the political woes  
of that state can be traced directly to  
Mr. Teller.

General Botha's speech, in which he  
advised his compatriots to let politics  
alone and turn their attention to mak-  
ing themselves nappy in South Africa,  
which is to be their home, will no  
doubt be a great disappointment to the  
stump orators in this country, who  
have prophesied that Great Britain  
would find in South Africa another re-  
land, and that the Boers would keep  
up an eternal warfare on their op-  
pressors.

## IRRIGATED LANDS.

Of the 78,374,400 acres of land sur-  
face in New Mexico, only 3,130,818, or  
6.5 per cent, were included in farms in  
1899, and only 326,373, or 0.42 per cent,  
were improved. Of the improved land,  
303,438 acres are located outside of the  
Indian reservations. The importance  
of irrigation is demonstrated by the  
fact that in 1899 the corresponding ir-  
rigated area was but 91,745 acres. By  
the building of new canals and the ex-  
tension of old ones, the irrigated area  
of the territory has been augmented to  
150,148 acres—a net increase of 12  
per cent.

## PROSPEROUS COUNTRY.

"That the United States is in first  
class financial condition may be judged  
from the fact that there is now on  
hand an available cash balance—  
money subject to appropriation—of  
\$206,000,000. All told the government  
has on hand the enormous sum of \$1-  
119,000,000, of which \$497,000,000 is in  
gold, probably the largest gold hoard  
held by any nation in the world. Uncle  
Sam has \$435,000,000 in trust funds for  
the redemption of outstanding notes  
and certificates, \$162,000,000 in his  
"general fund," and \$127,000,000 de-  
posited in national banks." So states a  
financial authority.

## WAR RECORDS.

The war department has arranged  
for the publication of the war records  
for the conflict between this country  
and Spain. The set of works, which  
will be compiled from the documents  
in possession of the war department,  
will embrace the military operations in  
the Philippines since the close of the  
war with Spain, and in China dur-  
ing the relief expedition to Peking. An  
officer has been selected for the work  
and orders have been sent to Manila  
requiring that all records in the pos-  
session of the authorities there be for-  
warded to Washington.

These records include the volumi-  
nous papers found in the possession of  
Aguinaldo and other officers of the in-  
surgent army. Most of these papers  
have been translated by American of-  
ficers in Manila, and some of the cop-  
ies of the translations have already  
been sent to Washington, among them  
being the daily account of the insur-  
gent leader and his immediate staff  
during the period of two years. The  
text of the volumes will be supple-  
mented by maps and charts.

## DIVIDED DEMOCRACY.

W. J. Bryan holds that there can be  
no harmony between "a democracy that  
means democracy, and a Cleve-  
landism that means plutocracy."  
It is certain that Grover Cleveland  
would reply that there can be no union  
between "a democracy that means de-  
mocracy and a Bryanism that means  
populism."

So there you are. The prospects  
for democratic harmony are no bet-  
ter than at any time since the cam-  
paign of 1900. The long haired popu-  
lists are shouting democracy and the

well groomed, silk hatted New York-  
ers are shouting hard about the glorious  
principles of democracy. But there is  
as much difference between the Kan-  
sas-Bryan brand of democracy and the  
New York-Cleveland brand as between  
the KKK and a Sunday morning  
newspaper. Neither time nor defeats  
have taught new lessons or settled old  
scores. Bryan and his followers wor-  
ship before the same old gods, and the  
eastern democrats hold to their own  
altars and idols. No convention can  
make a platform broad enough to  
hold both factions.

## LANDS LOCATED.

In an interview in the El Paso News,  
D. M. White, locating engineer and  
agent of the United States land com-  
mission at Santa Fe, speaks encourag-  
ingly of the benefits to accrue from the  
national irrigation bill and volunteers  
the information that 600,000 acres of  
irrigable lands had already been given  
to the nine territorial institutions of  
New Mexico by the United States gov-  
ernment for sale several years prior to  
the passage of the irrigation bill. Ac-  
cording to his statement, almost every  
acre in the territory that can be culti-  
vated from living water has been  
taken up.

## BIG SCHOOL HOUSE.

The largest school building in the  
world is to be built in what is known  
as the east side of New York City. It  
will afford plenty of elbow space for  
3,150 children, who are to be instructed  
by 215 teachers. The building will be  
the shape of a hollow square, with an  
immense court in the center, and al-  
most the whole of the first floor will  
be devoted to a playground. In the  
basement there are to be hot and cold  
water baths, and bathing at frequent  
intervals will be made compulsory.  
Boys are to occupy one side of the  
building and girls the other.

## TALKED FOUR MILES.

One more wonderful invention has  
been made a demonstrated success—  
the transmission of the human voice a  
distance of nearly four miles, by the  
use of a telephone using the ray of  
light from a powerful searchlight, in-  
stead of wires. It is the invention of  
Ernest Ruhmer, and it is stated in  
Berlin that the speaking voice was  
perfectly audible continuously during  
the experiments. The apparatus is  
too cumbersome and costly for com-  
mercial use, at present, but will, of  
course, be some day brought down to  
better conditions, as has been the case  
in the history of nearly all important  
inventions; but the discovery opens a  
wonderful range of possibilities.

## LABOR SAVING MACHINE.

A Canadian has invented a machine  
for laying bricks which does the work  
of six or seven skilled bricklayers and  
costs \$500. In common house work a  
bricklayer, with a laborer to keep him  
supplied with materials, will lay on an  
average of about 1,500 bricks in a day  
of ten hours. In the neater outer faces  
of back buildings he will lay 1,200; in  
good, ordinary street fronts, 800 to  
1,000, and of the very finest lower story  
facades, from 150 to 300, depending on  
the number of angles, etc. In plain  
massive engineering he should average  
about 2,000 a day. The new machine is  
adapted only to plain work and should  
lay from 9,000 to 12,000 bricks a day.  
Two men and a lad are required to op-  
erate it.

## MINING CONGRESS.

At Butte, Mont., on Monday, Sep-  
tember 1, 1902, will be opened the fifth  
annual session of the international  
mining congress, which will last five  
days. The governors of all the states,  
the mayors of all the cities and each  
mining bureau, mining exchange,  
chamber of commerce, board of trade,  
miners' union and labor and trade as-  
sembly are invited to send delegates.  
At numbers allotted in each particular  
case, these sessions of the interna-  
tional mining congress have been at-  
tracting more and more of the coun-  
try's attention since the first one was  
held four years ago.

The mining activities of the United  
States constitute a very large and rap-  
idly growing interest. This congress  
is not devoted to the gold and silver  
mining interests alone, but to coal,  
iron, lead, zinc, copper, tin, steel, and  
all the minerals, metallic and non-metal-  
lic, of any importance. These in the  
aggregate have just passed the \$1,000-  
000,000 mark in annual production,  
and the output is rapidly increasing.

## A Physician Healed.

Dr. Geo. Ewing, a practicing physi-  
cian of Smith's Grove, Ky., for over  
thirty years, writes his personal expe-  
rience with Foley's Kidney Cure: "For  
years I had been greatly bothered with  
kidney and bladder trouble and en-  
larged prostate gland. I used every-  
thing known to the profession without  
relief, until I commenced to use  
Foley's Kidney Cure. After taking  
three bottles I was entirely relieved,  
and I practice and heartily recommend  
its use to all physicians for such trou-  
bles. I have prescribed it in hundreds  
of cases with perfect success."

## At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by all druggists.

## Quit Printing Stamps.

Washington, Aug. 1.—The opening of bids at the postoffice department today for the printing of postage stamps marks the beginning of the end of the government's costly experiment of printing its own stamps. For many years and up to eight years ago the stamps were printed by private contract, the work being done by a well known engraving company of New York. For some reason or other the government decided that the work could be better and more cheaply done in the big government printing office.

In Washington and finally the contract was taken away from the New York firm. The first stamps turned out by the government printing office were rank failures, as the business public well remembers. The color lacked a staying quality and the gum likewise was pronounced impure and of a low grade. After awhile, however, the government printers got their hand in and of late years there has been little complaint regarding the stamps. But it is now found that the work is costing too much and that the private firms can do it for less. The Bureau of Engraving and Printing has turned out 5,000,000 stamps in eight years, and during the last year alone it is estimated that the bureau lost \$90,000 on the job. The explanation given is that the private concerns can do the work cheaper because they do not have to pay their employees the same wages that are paid by the bureau, and give them all thirty days' leave on full pay annually.

## Went to Visit His Sister.

A. J. Cottingham went to Washington County, Ark., to see his sister and while there was taken with flux (dysentery) and was very bad off. He decided to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and was so much pleased with the prompt cure which it effected, that he wrote the manufacturers a letter in praise of their medicine. Mr. Cottingham resides at Lockland, Ark. This remedy is for sale by all druggists.

## Waite Assumes Office.

New York, Aug. 1.—Judge Byron S. Waite, of Michigan, today assumed the office of president of the board of general appraisers, to which he was appointed by President Roosevelt. Judge Waite succeeds Charles H. Ham, who resigned recently owing to ill health.

The best physic—Chamberlain's Stomach and Liver Tablets. Easy to take. Pleasant in effect. For sale by all druggists.

## May Open at Erie.

Philadelphia, Pa., Aug. 1.—The officers and executive committee of the Pennsylvania State League of Republican clubs are in session at the Hotel Walton this afternoon in response to the call of President Fleitz. The purpose of the meeting is to fix the time and place for holding the annual convention of the league, which will mark the formal opening of the republican state campaign. Though several places are bidding for the meeting, it is probable that for political reasons the committee will decide on Erie.

## A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne Co., Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c. at Cosmopolitan Pharmacy—B. Ruppe.

## Canadian Invasion.

Montreal, Que., Aug. 1.—The Highland Cadets battalion, of Montreal, has accepted an invitation to visit Portland, Me., for the "Old Home" week celebration. The corps will leave Montreal this evening, and will proceed to Lewiston, where it will remain until tomorrow afternoon, when it will continue its journey to Portland.

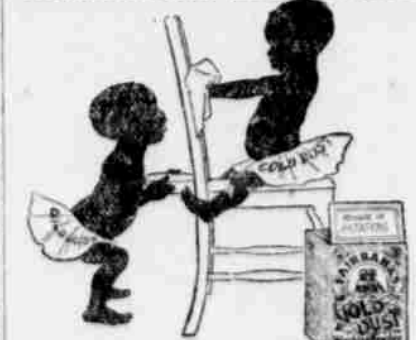

## Quick Relief for Asthma Sufferers.

Foley's Honey and Tar affords immediate relief to asthma sufferers in the worst stages and if taken in time will effect a cure. —Alvarado Pharmacy.

## Quick Lunch Price Goes Up.

New York, Aug. 1.—When the clerks, bookkeepers and other patrons of the quick lunch rooms in the downtown district of New York had satisfied the inner man with the usual midday repast today they were presented with pay checks which were 5 or 10 cents in excess of the usual amounts. This was a result of the combination recently formed by the restaurant proprietors to control prices, which became effective today. Staple dishes such as ham and beans have been raised from 10 to 15 cents, and the prices of sandwiches, cakes and the other articles of food usually found on the lunch counters have been increased in proportion. The proprietors justify their action on the plea that it was made necessary by the increased cost of meats and other supplies. Investigation, however, fails to sustain the truth of this statement. On Park

"Let the GOLD DUST twins do your work."

Hard-water that contains GOLD DUST is the best of cleansers. GOLD DUST softens the hardest water, cuts all grease and grime and effectually rids the house of dirt. It does more work and better work than any other cleaner. GOLD DUST is unequalled for washing clothes and dishes.

Row, opposite the postoffice, stands a modest little all-night "cheesery" which despite its apparent insignificance is one of the best known places of the kind in the metropolis. The founder of this place retired some years ago after having made a fortune of \$800,000 from the sale of beef and beans at 10 cents a plate, and the present proprietor, who refused to enter the emulative example of his predecessor, and that too without any increasing of prices.

Foley's Kidney Cure will cure all diseases arising from disordered kidneys or bladder.

New Commandant at Norfolk. Norfolk, Va., Aug. 1.—Captain R. M. Berry, recently in command of the Dixie, assumed command of the Norfolk navy yard today. He relieves Captain G. A. Bicknell, who has been assigned to duty as commandant of the naval station at Key West.

Henry L. Shattuck of Shellsburg, Iowa, was cured of a stomach trouble with which he had been afflicted for years, by four boxes of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedies and a number of physicians without relief. For sale by all druggists.

## Santos-Dumont's Flight.

New York, Aug. 1.—New Yorkers are looking forward to seeing sights tomorrow, when Santos-Dumont, the famous French aeronaut, will make his first flight in America. The ascension will be made at Brighton Beach and if the weather conditions are favorable it is possible that M. Santos-Dumont may make his attempt to encircle the statue of Liberty.

## Look Pleasant, Please.

Photographer C. C. Harlan, of Eaton, Ohio, can do so now, though for years he couldn't, because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivaled for diseases of the stomach, liver and kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by all druggists.

## Woodmen at Cripple Creek.

Cripple Creek, Colo., Aug. 1.—The annual convention of the Woodmen of the World, in session here, is one of the largest gatherings in the history of the order. Delegations are present from points as far east as the Mississippi and as far west as Seattle and Tacoma. Officers reports show gratifying progress during the year, both as regards finances and membership.

## Watch for a Chill.

However slight at this time of year and in this climate, it is the forerunner of malaria. A disposition to yawn, and an all tired out feeling even comes before the chill. Herbine, by its prompt stimulative action on the liver, drives the malarial germs out of the system, purifies the blood, tones up the system and restores health. 50c. at Cosmopolitan Pharmacy—B. Ruppe.

## Coast Wheat Outlook.

San Francisco, Cal., Aug. 1.—Pacific coast farmers are well pleased with the wheat outlook, which, all things considered, is regarded as better than at the beginning of the last crop year. There is a higher level of prices for wheat and a lower level for freights, the latter contributing to make the former possible. The California crop is now being cut, and in all the more favored sections it is showing a full average yield, and in some instances an excess of the average. Harvesting in Washington and Oregon will begin this month. While the crop in neither state will hardly come up to last year's phenomenal yield, the outlook now is much brighter than it was earlier in the season.

## All Were Saved.

"For years I suffered such untold misery from bronchitis," writes J. H. Johnston, of Broughton, Ga., "that often I was unable to work. Then, when everything else failed, I was wholly cured by Dr. King's New Discovery for consumption. My wife suffered intensely from asthma, till it cured her, and all our experience goes to show it is the best cough medicine in the world." A trial will convince you it's unrivaled for throat and lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at all druggists.

## Unique Service.

Notre Dame, Ind., Aug. 1.—The annual procession of the portuncula commenced this afternoon in the church of the Sacred Heart. This service, which is held August 2 each year, will continue all night and all day tomorrow, closing at sundown tomorrow evening. The Church of the Sacred Heart is one of the few churches in America not maintained by the Franciscan order, in which the procession is held. The church aisles were thronged at the opening of the services.

## A World Wide Reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy has a world wide reputation for its cures. It never fails and is pleasant and safe to take. For sale by all druggists.

## SANTA FE.

Land Court Next Week—Earnings of Convicts—Drouth in County.

Hon. Matthew G. Reynolds, of St. Louis, United States attorney of the court of private land claims, will arrive in Santa Fe on Sunday or Monday to be present at the session of the court which convenes next Tuesday in that city.

M. T. Moriarity, of Moriarity's ranch in southern Santa Fe county, is a visitor in the territorial capital. He says that the drouth in southern Santa Fe county is shriveling the leaves on the trees and many trees are dying in his orchard.

An operation was performed upon Mrs. Celestina Ortiz, of Santa Fe, last Saturday at a Kansas City hospital. She is recovering nicely, according to the latest report. Mrs. W. N. Townsend is at the same hospital also recovering nicely from her illness.

Prof. H. A. Owen and bride arrived at Santa Fe from Worthington, Ind.,

## Bronchitis

Ayer's Cherry Pectoral is the only medicine you need. We have been saying this for 60 years. If you want additional proof, ask your own family physician. We will abide by his decision if you will. That's fair, isn't it?

"Ayer's Cherry Pectoral never fails to cure me of a cold. I have recommended it to many friends suffering from throat and lung troubles, and they all say it does the work quickly and thoroughly."—Charles Prevost, Plattsburg, N. Y.

and are guests for a few days of Prof. and Mrs. J. A. Wood. Next week they will leave for their future home at Silver City.

During the fiscal year which ended on June 30, the convicts at the penitentiary earned \$16,095.36 in cash, which was paid into the territorial treasury. If account were taken of the improvements made at the penitentiary and other public works by the convicts the above amount would be more than doubled. Besides the convicts raised all the vegetables, etc., which are used at the penitentiary.

Mrs. Marta Torres de Jaramillo, formerly of Santa Fe, but now living at Albuquerque, has been doubly afflicted lately. Only a few days ago her husband, Ramon Jaramillo, 28 years of age, died, and last Saturday her only surviving child followed the father to the grave. The child's name was Epitacio and was 1 year old. Mrs. Jaramillo is the daughter of Cornelio Torres, an old and respected resident of Santa Fe and a veteran of the civil war.

## BREACH OF PROMISE.

Sensational Suit at Las Vegas—  
Accident to James S. Duncan Jr.

## INTERESTING LOCAL NOTES.

## Special Correspondence.

Las Vegas, N. M., July 31.—It was the old story of a woman's confiding trust and a man's worthless promise of marriage to accomplish an end. It is repeated every day in the year, and it just happened to be the time for Las Manuella to donate its chapter. The full story is now spread on the records in the district clerk's office in the shape of a breach of promise suit for \$5,000. It was placed there at the instance of Aurelia Padilla against the man, Sixto Garcia, who promised to marry her and is now the father of her child. The engagement happened in June, the time when Cupid works overtime on the tender hearts. Aurelia and Sixto had been lovers for some time and on the night of the 15th of June, Sixto asked Aurelia to become his wife, so the complaint reads. She assented. She assented to more than the child of, and the first misdeed under promise of marriage, was taken the night of their engagement and was continued throughout several months, and each time, so Miss Padilla claims, were renewed promises of marriage. On the 16th of last month a baby was born to the trusting Aurelia and she then demanded that Sixto remove the stain against her name by immediate marriage, and aid in her and her child's support through their lives, and if she can prove all as facts as set forth she should have it or Sixto Garcia should come forward like a man and take for wife the trusting woman he ruined.

Quite a painful accident happened to James S. Duncan, Jr., last night by the fire wagon running over his foot and breaking two bones. Mr. Duncan saw the fire wagon stop suddenly and thought some one was hurt and went over to the wagon. He went to step up on the wagon on the side step, when the wagon started and one of the men standing there accidentally turned, throwing Mr. Duncan's foot off and under the rear wheel. The wagon is a very heavy one, and when it went over the foot just below the instep of the right foot, it crushed the bones near the joint of the big toe and the next one to it. By the time Mr. Duncan got home, the foot was too swollen to set the bones, and it was not done until this morning, when the swelling went down. The accident was quite painful and will lay Mr. Duncan up for a few days.

George Hunter returned yesterday evening from his trip to Clayton on legal business. Agapito Ayleitia, Sr., and Marcelino Martinez, ex-member of the house, came down from Mora yesterday evening to meet Delegate Rodey, but were too late, as he went through earlier than was expected.

Mrs. Booth, of Kansas City, arrived yesterday evening on a visit with Conductor R. F. Hayes and family. Mrs. Booth is a sister to Mr. Hayes.

Miss Bessie Eile left yesterday evening for Mexico City, where she will remain.

A. J. McCullough, of St. Louis, who has been in the city for a few days, left last evening for points down the road.

Died, last night at 11 o'clock, at the Ladies' home, William Edison. Mr. Edison was sent here by the Elks lodge of Jameburg, Arkansas, and had been in the city about four months seeking relief from the dread consumption, to which he succumbed last night. He was only 18 years of age. The lodge at Jameburg has been telegraphed to and until a reply is received it is not known what disposition will be made of the remains.

John York, J. N. Furlong, W. G. Hayden and J. A. Dick returned yesterday evening from their fishing trip to Krosenig's lake. They report a good catch and the loss of a bottle of Pond's extract.

Charles Hild bought from Ines Gray a parcel of land at Onaperrito and has since transferred it to Sostenos Delgado for the consideration of \$1.

Eusebio Archibeque and others have transferred to the Pious Fraternal society of Jesus a parcel of land 200x300 feet at San Patricio for the consideration of \$10.

Secundino Romero returned yesterday evening from his ranch at El Cuervo, where he has been for several weeks looking after his wool clip. Mr. Romero says the wool is of good quality, but is a blighter than in general. Also they have had good rains and the country looks well.

Mrs. Glasford and son, Pelham, and Mrs. Daily returned yesterday from their visit to Rociada.

Will Stuart returned to the mines at San Pablo today. Mr. Stuart has been doing considerable development work on his mine, Helen, he having tunneled in thirty feet and reports good copper. He is now starting another tunnel on the Last Chance No. 2 claim. He thinks he has the ledge and believes there is pay ore in the big mountain there at San Pablo in great quantities. Mr. Stuart is a mining engineer and his opinion is worth considerable.

S. B. Davis will leave tomorrow for a trip to Mora on business.

J. M. Cunningham is transferring his cattle herds from the Gila ranch to the Red River country. There have been 1,500 so through already, and more to come. The grazing has played out at Gila, and a large lake there, which was just filled by recent rains, has gone dry, making the water scarce.

Oran D. Jackson, who has been in the hospital service here, left today for La Junta, Colo., where he has been transferred.

W. C. Burrows and family, H. L. Standfield and C. Henry Addison, of the dispatcher's force here left today for a new office in La Junta. G. S. Scott, O. L. Oden and H. E. Huntington and wife will leave tonight on No. 8 for La Junta. This will leave a manager, two wire chiefs and three operators in the local dispatcher's office here.

and a big celebration there last evening.

COMPOSER'S BROTHER.

M. Brunoff, a Brother to Piaton Brunoff, here.

M. Brunoff, of El Paso, was here yesterday. He is a Russian by nationality and is in the insurance business. He is a brother to Piaton Brunoff, the famous Russian composer and he is in hope his brother will visit him. If he does he will try to have him give a concert here.

Mr. Brunoff had with him one of his brother's compositions, which is descriptive of life in a Russian village. Edward Grunsfeld tried parts of it and pronounced it a very beautiful but very difficult composition.

Group instantly relieved. Dr. Thomas's Electric Oil. Perfectly safe. Never fails. At any drug store.

No such thing as "summer complaint" where Dr. Fowler's Extract of Wild Strawberry is kept handy. Nature's remedy for every looseness of the bowels.

## MISS HAZEL BOOTH.

She is Entertained by Miss Anita Mead and Friends.

Last evening a delightful home party was given by Miss Anita Mead, at her home, in honor of Miss Hazel Booth, who is here visiting her friend, Miss Adelle Goss. One of the principal features of the evening was the moulding of animals out of chewing gum, which occasioned much merriment. The first prize was won by Miss Adelle Goss, while the booby prize was triumphantly carried off by Miss Mayme Pratt. The guests were then served with dainty refreshments, after which they retired to the parlor to prove the magic of hypnotism, which they did. Many other pleasant games were enjoyed and the guests remained until a late hour, which proves Miss Mead a royal hostess. Those present were: Meadames Mead, Shallenberger and Chandler; Misses Hazel Booth, Anita Mead, Clara and Bertha Dinwiddie, Adelle and Ruth Goss, Mayme Pratt and Viola Skinner, and Messrs. Bert Skinner, Clyde Holman and Roy Shallenberger.

Good races at the fair grounds next Sunday afternoon.

Newton creamery butter, 25c. A barrel of ginger snaps, 25c. 25c package of Postum Cereal, 20c. After 6 p. m. all Indian blue, silver gray and solid color calicoes at 5 cents per yard.

THE MAZE.

WM. KIEKE, Proprietor.

Birthday Celebration.

The many friends of Henry Loebs yesterday united to help him celebrate his 39th birthday. About seventy of them gathered at his home last evening where the lawn had been brightly lighted with Chinese lanterns. Much fun was created by a dummy figure which was made up to resemble Mr. Loebs. There was dancing in the house until the early hour this morning.

MINING MAN HERE.

Wealthy New Yorker Spent the Day in This City.

John Weil, a millionaire of New York, came up from El Paso this morning and will leave tonight for Los Angeles. He has large mining interests near Chihuahua, Mexico, and frequently passes through here. He left New York two weeks ago and went to Chicago on the Twentieth Century flyer, the train that makes the run in twenty hours. He went to El Paso over the Rock Island. Mr. Weil is a warm friend of Senator S. B. Elkins.

Nice fresh fish tomorrow. San Jose Market.

## EVERY PERSON

Suffers from stomach complaints or constipated bowels at some time. Neglect the matter and they may become chronic. Take Hostetter's Stomach Bitters at the first symptom and avoid unnecessary suffering. It will tone up the stomach and bowels, restore the appetite, purify the blood and absolutely cure Sick Headache, Dizziness, Indigestion and Dyspepsia. A few doses will convince you of its value. For Sale by Druggists.

## SUPREME OFFICERS.

Prominent Knights of Pythias Will Be Here Tonight.

The officers of the supreme lodge of Knights of Pythias will arrive here tonight at 7:15 and will be entertained by local Pythians while here. The party consists of twenty-seven and is traveling in a private car. They were expected last night, but decided to go to Santa Fe, where they were given a reception last evening.

Statehood cigars, two for 25 cents. Poisoned the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dullness and melancholia and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never ripe or distress. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Sheridan crab apples, 3 cents pound. San Jose Market.

Iced watermelons at the San Jose Market.

Notice of Opening.

On August 2 the Arcade rooming house and saloon, at 311 South First street, will be opened to the public for business. The fixtures, furniture and carpets of the Arcade are all new, neat and clean. Rates for rooms will be reasonable. Everything modern and up to date.

## PRICES ARE CUT.

Merchants Closing Out Summer  
Goods For Fall Novelties.

NEW YORK FASHIONS.

New York, Aug. 1.—Just now the first prices of the season are being cut so that the stocks on hand may be sold to make room for advance fall fashions, and it is possible to obtain some very smart novelties for a nominal sum. Real linen lawn shirt waists which two months ago were considered cheap at \$5 can be had for less than half that sum now and they are certainly as smart looking as when first introduced into the fashionable world.

Many women, therefore, with an inclination to be economical are purchasing several of these designs and will wear them until late in the autumn with their chic tailor made gowns which are yet to come.

But not only are there bargains in shirt waists; the daintiest muslins and lawns can be procured at the same reduced prices and never before were these models prettier.

Next to the all-white frock comes the one with a white ground and the merest suggestion of a contrasting tint in a delicate figure. For instance a line of sheerest textile has the surface covered with most delicate sprays of forget-me-not blue in natural color; or the same ground may be sprinkled with polka dots in eau de nille, maize, corn flower blue or something equally pastel in effect.

All of these combination take prettily to black, velvet ribbon being run through on embroidery beading or heading of valenciennes lace.

Gowns that are made very plain are embellished with all sorts and conditions of exquisite fuchs and collars. The oddity in this line is a collar made of embroidered silk. The foundation is white outlined in robin's egg blue silk, so as to form small blocks about an inch square. At the corner of each block is a French knot. Circular pieces of blue satin, a deeper shade than the silk, are set on each side of the collar, which tapers down to the waist line in front. Around each of these circular pieces tiny laurel leaves are embroidered, and the centers have a spray of white rosebuds shading to shell pink, heavily embroidered. The edge of the collar has tiny scallops of white silk headed with a blue cord.

Forward gowns trimmed with bands of plain silk the color of the background of the foulards are very smart. These bands are put on in fanciful design and stitched with thread corresponding with the tone of the figures in the silk. The effect is unique and helps to gain the elegant simplicity noted in this season's models.

The newest and most striking novelty accompanying the foulard gown is the foulard hat. This has a low crown, very broad and somewhat on the tam-o-shanter order. The brim is wide and on its stiffened edge are sewn two bias trails of foulard stitched with white silk. The hat is very effective and requires but little trimming, a chiffon veil dotted with white or green being all that is used.

Red and white foulards seem to be taking the place of the blue and white effects. The red is soft in tone and there are so many tints that it is possible to suit almost any complexion. One of a series of designs ordered for the Newport season is trimmed with collar and cuffs of Irish lace and clever touches of narrow black velvet. Accompanying it is a hat of coarse brown straw, wreathed with red currants and dotted here and there with the softest little rosettes of red satin ribbon.

Large red hats in satin straw are growing popular. They are worn with long riding coats of pure white taffeta and make a charming picture. The hats are trimmed either with sweeping claret-colored ostrich plumes, or with the same shade tulle plumes, or twisted once around the neck and knotted at the side. The newest veillings are very patterned indeed. They have a cob-web pattern upon them and the meshes of the net are very large.

It is remarkable how sentiment changes with the fashion. Once a style becomes fixed all the old-time prejudice vanishes and its former detractors become its most ardent advocates in many instances. This is particularly true of veils. It is within the recollection of nearly every woman when colored veils were considered the acme of vulgarity. Now they are the very quintessence of fashion and worn by the best people. The favorite tints are blue in a light and dark tint, bronze and golden browns, castor, poppy red, maroon and the new yellow-green or green-yellow—the arbiters of fashion have not yet been able to decide yet—over which everyone is raving just now.

The shade is really very delicate and dainty. Indeed, it is more than that; it is artistic. Paradoxical as it may seem, in its aesthetic descriptions, it is the exact tint of a town's waistcoat and takes exquisitely with materials that are adaptable to lights and shades.

In a sash for a white gown it is charming. The latest vagary in sashes is made in two sections. One is a very wide crush which goes around the waist and is planned invisibly at one side. The other section is in the shape of another wide fold which is loosely carried around the waist, right under the arms, and fastened with a big double rosette with a fancy pin in the middle.

## CONSUMPTION

the most dreaded and deadly of all diseases, as well as pneumonia, and all lung troubles are relieved at once and cured by Ackers English Remedy "the king of all cough cures." Cures coughs and colds in a day 25 cents. Your money back if dissatisfied. Write for free sample. W. H. Hooker & Co., Buffalo N. Y. J. H. O'Reilly & Co., and B. H. Briggs & Co.

My fair lady has never before had quite so many novelties in the line of fans. This season she waves away the heat of summer with the daintiest trifles of chiffon decorated in every conceivable fashion. Very expensive models are hand-painted and really the imported works of European masters; others are intricately interwoven with mecallons of real lace, then there is the luxuriously extravagant affair of shirred satin encrusted with jewels.

Less expensive designs are composed simply of gauze with the monogram embroidered in raised effect in the center. This is an era of monograms, you know, and the initials must be woven into everything from hosiery to head-gear.

Possibly owing to the successful imitation, there are few novelties introduced which can not be duplicated with excellent results at less than half the original cost; in consequence there are exquisite faces of inexpensive gimpures that can only be branded as counterfeits by experts in the art of lace making.

## Don't Treat Symptoms

Go after the cause. Stimulants and cathartics will never cure indigestion. They may temporarily relieve the system but the next meal clogs it again. The food should be digested. The nourishment—health—strength it contains should be appropriated—absorbed by the system.

## Children Thrive on Kodol

**KODOL** purifies, cleanses, strengthens and sweetens the stomach. This new discovery digests all classes of food and assists the stomach and digestive organs in assimilating and transforming it into the kind of nourishment that is taken up by the blood and fed to the tissues throughout the various organs of the body. Kodol cures indigestion and dyspepsia, thus removing the cause of all stomach troubles. Kodol gives such strength to the body that it is invaluable in all wasting diseases.

"I wish to thank you for what Kodol has done for me," writes Clifton Olson, Collet, Ind. "It cured me of dyspepsia after everything else had failed. When I tried Kodol it helped me right away. I heartily recommend it."

## ARIZONA TOWNS

### WINSLOW.

From the Mail.

J. X. Woods returned from Holbrook, where he had been attending a meeting of the board of supervisors.

The mail of last week, not intentionally, but through neglect, failed to mention the returning home of Engineer Jack Lowe and wife, who have been sojourning in California.

J. J. Sols and three children, two sons and a daughter, from Colorado City, Texas, arrived in Winslow. Mr. Sols expects to remain here providing he is successful in securing employment.

J. D. Houck, who is well and favorably known over the entire territory, came in from Noble's ranch, where he had been to deliver all his sheep which he had disposed of to Mr. Noble last week. Mr. Houck left for Holbrook.

W. J. Burke, a prominent business man, took a trip up the line to Albuquerque, where he spent a day, and from there he continued on to the Jemez hot springs to see if he could derive any benefit for the rheumatism with which he is afflicted. Mr. Burke expects to be absent until August 15.

### FLAGSTAFF.

From the Sun.

R. H. Cameron returned from a trip to Los Angeles.

The Cocoon Commercial club has undergone a reorganization and the new organization will reopen the club. Frederick H. Maude, the Los Angeles photographer, is here for the purpose of obtaining views of the scenery in this vicinity.

Godfrey Sykes, with a number of assistants, is at the Grand Canyon making a preliminary survey of Bright Angel creek, for the proposed electric plant at that point, which is being promoted by Flagstaff parties.

Probate Judge Frank C. Reid and bride returned from California. They were given a reception at the residence of Rev. George Logie, which was attended by a large number of invited friends.

Mrs. W. A. Switzer, of Los Angeles, is visiting her son, Will A., and her daughter, Mrs. Stanley Sykes. Mrs. Switzer is one of the old time residents of Flagstaff and has made her home in Los Angeles for the past eight years.

W. R. Page, of Proctor, Vt., who is interested in the development of the Cameron copper mines in the Grand Canyon of Arizona, is spending the week in Flagstaff. The development work on the mine has uncovered some very rich ore bodies. No shipments of ore are now being made.

John H. Page, the manager of the Canyon Copper company, which last year bought the Cameron-Berry group of mines in the Grand Canyon, spent a couple of days here. Development work is now being done and it is the purpose of the company to thoroughly develop the property before shipping any more ore.

A daily paper will be started at the Grand Canyon in the near future. It will be devoted to the description of the canyon, a list of daily visitors and contributions from visitors to the great chasm. The project will be in charge of Prof. G. Wharton James. It will be an unique addition to the literature of the Grand Canyon of Arizona, and a large circulation is anticipated by the publisher.

### WILLIAMS.

From the News.

Mr. and Mrs. Bert Ward left for California, where they will make their future home.

Chas. Kirsh has been confined to his room over Runney & Harrell's all week by a severe attack of rheumatism.

Harry A. Cargile, of Briggs station, was taken down suddenly with rheumatism a short time since and was removed to the hospital at Prescott, where he has greatly improved.

John Selmon some time since had the misfortune to have his horse fall on one of his limbs. Little attention was paid at first to the hurt and gradually it became worse until he was obliged to quit work. After a three week's siege he is again on duty at Phenix.

Contractors Patton and Kennedy have just about completed J. C. Phenix's new brick residence north of town. The house is fitted up with all modern conveniences, bath, steam heat, electric lights, etc., and when the painters and decorators are through will present an elegant appearance.

Mrs. Herman Nagiller returned from Rhodes, where she had been visiting for a few days. Herman is now running an engine for the Dennis-DeMund Lumber company, and expects to have his wife and family join him permanently at that thriving camp about the 10th of August.

### HOLBROOK.

From the Argus.

T. H. Shullin expects to leave for Holbrook's August 1, where he has secured employment in Bennett's Indian trading store.

### BURRO MEAT.

Viewed as a Real Delicacy by Arizonians.

The Tucson Star says that during the past week Ernest Abadie visited the Saporito ranch, near the Santa Cruz county line, and while there Juan Elias served his guest with burro meat, owing to the scarcity of beef. The dish was relished and it occurred to Elias and Abadie that it would be a treat to Tucson friends to eat of burro. Mr. Abadie brought a chunk to the city and had it cooked and served to the Durazo boys, Joe Reyes and Ramon Elias, the host announcing choice veal with crummings. The Durazos, who are experts on meats, said the Saporito article suited them and that the treat would be theirs in that line next time.

### Cured Paralysis.

W. S. Bailly, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites, and skin eruptions. It does the work." 20c, 50c and \$1.00 bottles at Cosmopolitan Pharmacy—B. Ruppe.

### Chinese Smuggling.

A prairie schooner loaded with 512 smuggled Chinamen, piloted into the country from Mexico by an American, has been captured near Douglas, Ariz., by custom guards. The driver of the wagon escaped, but the Chinamen are in custody on the charge of violating the exclusion act. Detective Riley, of the Blaine railway, who is in El Paso, says Chinamen have been smuggled into the United States regularly for some time by means of movers' wagons, which have failed to arouse the suspicion of the border guards.

### Consumption Threatened.

"I was troubled with a hacking cough for a year and I thought I had consumption," says C. Unger, 211 Maple St., Champaign, Ill. "I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me, and I have not been troubled since."

### Opal Mine.

About fifteen miles from Summit Station, on the Arizona & New Mexico railway, in the horseshoe range of mountains, is an opal mine, operated about twenty years ago. The miners were killed by the Indians in 1885, and the property has been neglected ever since, the miners evidently being convinced through the killing of their comrades that opals bring bad luck.

### Painters Want More Pay.

New York, Aug. 1.—A large proportion of the 5,000 members of the Amalgamated Painters and Decorators of this city and vicinity went on a strike today for an advance of 50 cents a day, which has been refused by the Association of Interior Decorators and Cabinet Makers and the Master House Painters and Decorators' association. The painters' demand: For plain painting not less than \$4 a day; for decorating not less than \$4.50 a day.

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says W. Spaulding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of 76, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. J. H. O'RIELLY & Co.; B. H. Briggs & Co.

### CLAIMS CHANGED HANDS.

Shaw-Gibson Mining Company Buy the Grey Fox and Eagle Claims. The Shaw-Gibson Mining company, operating near Lordsburg, has just closed a deal with F. E. Flynn, J. E. Cook and others for the Grey Fox and Eagle claims in the Virginia district. While the consideration named in the transfer is nominal, a price paid it is said was \$1,200. These claims have been thoroughly prospected and show permanent ore fissures. The company will develop, work to begin in thirty days.

Foley's Kidney Cure is a medicine free from poisons and will cure any case of kidney disease that is not beyond the reach of medicine.

### ANOTHER MAN BITTEN.

He Has in His Possession a Batch of Worthless Santa Fe Street Railway Stock.

For the second time this year H. S. Lutz, the efficient agent in this city of the Santa Fe railway company, has had inquiries from men who have bought Santa Fe street railway stock in good faith, because it was represented to them that the city of Santa Fe had guaranteed the interest on the fraudulent bond issue from the proceeds of which the street railway company was to have been built at Santa Fe two years ago but never was built. The last inquiry he received was in the shape of the following letter:

Chicago, July 19, 1902.—Gentlemen: I am in possession of 500 shares of your railroad stock and want to convert it into money, and as same was on face of it that it is worth \$1,000 per share, I herewith ask if you will take the same off my hands. Kindly let me hear from you by return mail and oblige.

Yours truly,  
J. W. REED.  
With the Cook county department of the Insurance company of the State of Illinois.  
As the letter was addressed to the Santa Fe Railroad company, Santa Fe, the letter was delivered to Mr. Lutz—New Mexican.

### UNION COUNTY.

Comes to the Front as One of the Best Wool Markets.

LARGE SHIPMENTS MADE.

A special dispatch to the Denver News, from Clayton, Union county, this territory, says:

The last shipments of the big wool clip of Union county for this year are now in process of marketing.

This county wool clip of 1902 aggregates 3,000,000 pounds, of which 1,000,000 pounds have been shipped from Clayton, in excess of 500,000 pounds from Polson and the balance from various other shipping points on the Colorado & Southern, Rock Island and Santa Fe roads.

The Union county fleece this year averaged seven and one-half pounds, has sold at 13 1/2 cents all around, and has been classed at only a shade less in quality than "fine medium," a better showing than other New Mexican wool of this season's marketing. Owing to the adding to herd grading, next season will place Union county wool fully within the "fair medium" class, with an increased fleece weight and heavier listed market price.

The county sheep grading comprises a careful crossing of the best Merino and Shropshire strains, thus securing a union of fleece and flesh.

This fall will see the shipment from Union county of 100,000 mutton feeders to Kansas fattening pens, and 100,000 lambs to northern Colorado for the putting on of western flesh and fat for eastern market blocks. These lambs will average here forty-seven pounds, will approximate their Union county owners \$1.50 per head and will weigh out at least eighty pounds per head in Colorado-Chicago shipment.

M. Herzstein, the wool king of northern New Mexico, with local headquarters at Clayton, has handled this year nearly one-half of the entire Union county clip.

A notable Clayton industrial improvement is the establishment by Robert W. Isaacs of a tin manufacturing and pipe cutting and fitting plant. In addition, sufficiently significant of the general progress and prosperity of the region, Mr. Isaacs has also erected his business into a northern New Mexico windmill headquarters. The stock range demand for windmills is now so general and strong as to attract drilling outfits from all over the country. Well water depths range from ten feet upwards, with seventy-five as a fair average.

Clayton business interests display recent increase of from 20 to 35 per cent, in illustration of what the doubling of the capital of the First National bank of Clayton, its erection into a territorial and county depository, and an approximation of \$50,000 in individual deposits.

Clayton's water works and electric light system, both under the private ownership and management of Robert Irvin, are exhaustive in public utility and satisfaction.

The Clayton Telephone company, F. H. Clark, manager, well fills the local field. Carl Ecklund is now furnishing in the neighborhood of 100 tons of ice for local Clayton consumption. The ice company here is capable of extended expansion and promises early maximum development.

Clayton cattle shipments include one and two year old steers for northern ranges and fall furnishing of feeders. The Clayton public schools, with 350 pupils and five departments, are now in grading process with a high school course in early prospective.

Eczema, scald head, hives, itchiness of the skin of any sort instantly relieved, permanently cured. Doan's Ointment. At any drug store.

### Conference at Northfield.

Northfield, Mass., Aug. 1.—The 20th annual general conference of Christian workers, which was established by Dwight L. Moody about the same time as the founding of the Northfield seminary, opened today with a large attendance. A program has been arranged covering more than two weeks. Some of the eminent divines and

## Cancerous Sores

are most frequently to be seen upon the face, neck or breast, though they are liable to appear upon other parts of the body. When they begin to spread and eat into the flesh, sharp, piercing pains are felt as the underlying tissue is destroyed and the tender nerves exposed. Cancerous sores develop from very trifling causes; a carbuncle or boil, swollen gland, a little watery blister on the tongue or lip, a wart, mole or bruise of some kind becomes an inflamed, festering sore, which in time degenerates into cancer.

"Ten years ago I had a sore on my left temple, which the doctors pronounced a cancerous ulcer. It would itch, burn and bleed, then scab over, but would never heal. After taking Dr. S. S. S. awhile the sore began to discharge, and when all the poisonous matter had passed out it got well. I took in all about thirty bottles, continuing it for some time after the sore had healed, to be sure all the poison was out of my system. Have seen no sign of the cancer in ten years."

JOSEPHUS REID, Gant, Audria Co., Mo.  
is strictly a vegetable remedy, and, while possessing purifying and healing properties that no other medicine does, contains nothing that could derange the system. While cleansing the blood it also builds up the general health. THE SWIFT SPECIFIC CO., ATLANTA, GA.

The first necessity of athletics is a sound stomach. Food is the source of all physical strength, but to extract and assimilate the strength from food requires that the stomach and other organs of digestion and nutrition should be in a condition of good health. What is true of the athlete is true of every man and woman; physical health and vigor depend upon the digestion and assimilation of food.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and by enabling the perfect digestion and assimilation of food, builds the body up with solid flesh and muscle.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater County, Montana. "Words fail to tell how thankful I am for the relief as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to 125 pounds and was not able to work at all. Now I weigh nearly 150 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

The Common Sense Medical Adviser, took large pages in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

speakers to be heard are Rev. G. Campbell Morgan, Rev. Stephen Band, of Liverpool, Rev. Dr. Walpole Warren, of New York; Rev. F. B. Meyer, of London; Rev. J. Whitcomb Brougher, of Chattanooga; Rev. Fireman Clevenger has relieved Fireman Wiley at Lamy.

Ben Williams, special agent for the Santa Fe, spent yesterday in the city and went north last night.

Jack Williams has gone to Santa Rosa to accept a position on the left side of the cab with the Rock Island people.

Ernest Espelin, formerly employed in the local shops, but now of Topeka, is expected to arrive in the city the last of the week.

The El Paso & Southwestern track is being laid toward Strauss, N. M., at the rate of a mile a day and ten days more will see the road finished to that point.

Conductor James Gorman, whose ankle was injured in an accident at Maxwell City some days ago, will soon be discharged from the railroad hospital at Las Vegas.

F. Lewis, inspector of buildings for the Santa Fe, who has been spending a couple of weeks looking over the new Santa Fe buildings of the city, left last night for Trinidad, Colo.

Dispatches from Washington announce the granting of a patent to A. R. Davis, formerly general foreman of the Santa Fe shops at Topeka, for a machine for tracing piston ring bushings.

The Burlington has been making some fast runs recently in Nebraska. One from Seneca to Alliance was 108 miles in 112 minutes, and another from Alliance to Ravenna, 258 miles in 279 minutes.

Special car 217, which went to Glorieta mountain last week bearing the family of General Superintendent Mudge to the scene of their annual outing, was dead-headed back to Topeka Tuesday afternoon.

Ground was broken last Tuesday on the Tombstone branch of the El Paso & Southwestern railroad. Three grading camps have been established, one at Fairbank, one a few miles out from Tombstone, and one midway between the two points.

Yesterday Manager W. S. Hopewell and Treasurer J. T. McLaughlin, of the Santa Fe Central Railway company, signed the \$2,500,000 bond issue by the company, of the proceeds of which \$2,000,000 are to go for construction and the other \$500,000 for track and other improvements after January 1, 1904.

Thomas S. Payne, a Chicago, Rock Island & Pacific passenger conductor, shot himself in the forehead at his home at Trenton, Mo. He was convalescing from an attack of typhoid fever and is supposed to have been mentally unbalanced. Physicians say he cannot recover. Mr. Payne is about 40 years old.

The Optic says: J. L. Mosher and wife have taken charge of the boarding car, formerly presided over by Mrs. Hammond. He is also foreman of the force of Western Union linemen who have been operating below Albuquerque. They are in Las Vegas for a few days, awaiting further orders and laying in needed supplies.

General Manager Wells, of the Santa Fe Pacific road, has declared against bull fighting. He has ordered the company's legal department to cancel the lease granted promoters for a proposed exhibition of the Spanish national sport on the Santa Fe's land at Point Richmond. The bull fight promoters are said to have obtained the necessary permission by misrepresentation.

Nothing could have been more timely for the Santa Fe water supply on the Chicago extension than the rains which have fallen with such regularity and generosity this spring and summer. The great reservoir which the company completed this year at Toluca, Ill., is now filled and it will be several months before any demands that the railroad will make can run it dry. It covers an area of twenty-five acres and holds nearly 35,000,000 gallons of water.

Scrap books of the Transmississippi scrip bureau went on sale throughout the Transmississippi territory July 30. For a week the central office in Omaha has been sending the books to all points between the Missouri river and the coast and St. Paul and Gulf. The books contain scrip which represents \$60, exchangeable for tickets. The covers are redeemable for an amount representing the difference between the cost of mileage books and the regular ticket rates.

M. F. Hand, who inspects electrical lighting apparatus of passenger cars, is home from a stay of about a month on the Pacific coast, says the Topeka State Journal. Mr. Hand first went to Los Angeles, Cal., to supply a vacancy and after the regular man, who had been away on a vacation, had resumed his work, Hand gave some days to recreation. Harry Townsend, another inspector of this place, is now out of town, having gone Tuesday afternoon to substitute while the man who usually does the work there takes a lay off.

Fred Gilreath, who quit a position in the general offices at Topeka some weeks ago in order to become time-keeper for the engineers and firemen at Las Vegas, N. M., writes to relatives at Topeka that he is pleased with the place which he now holds. Gilreath reports the country as being very dry, there having been no rainfall until just recently, within many months. According to the story of old residents it is the longest drought that has been experienced for thirty years. He says that one ranchman had a flock of sheep that were obliged to go without water for four days and that water in Las Vegas sells for 10 cents a gallon.

Heavy Loss.—The wreck on the Santa Fe near Seymour will prove an expensive one to the railroad company, says the Trinidad Advertiser. Work of clearing the wreck away is going on rapidly and everything of value is being saved, but will not amount to much as what was smashed in the wreck was burned up. The monster engine which jumped the track, but fortunately stayed on the roadbed, was taken to the Raton shops for repairs. The dam-

lia & Pacific, and some on the Chihuahua & Pacific.

"I had diabetes in its worst form," writes Marion Lee, of Dunsmuir, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man."

## STORING COAL FOR WINTER.

Santa Fe Will Accumulate 3,000 Tons at Wellington.

C. W. Closson, fuel contractor for the Santa Fe system, is at Wellington, Kan., and with him came the first shipment of the road's winter supply of coal. A little over 3,000 tons will be delivered in Wellington which will provide against any scarcity of fuel this coming winter on the Panhandle division. The trouble between the strikers and coal barons in Pennsylvania gives promise to send the price of coal skyward and the Santa Fe deemed it advisable to put in the stock of winter coal now. Steady shipments of coal will continue now until the winter supply is stored. It is being done all over the system and at every division point. Dodge City, Newton, Arkansas City, Topeka, etc., coal is being stored.

The Santa Fe ships Cerrillos coal from Colorado entirely. It is available at a more reasonable figure than eastern fuel and has proved of a better burning quality.

Mr. Closson says it will require several weeks' time to complete the work of storing coal here.

## FOR OVER SIXTY YEARS.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

## TWO ROADS CONSOLIDATE.

Indianapolis, Ind., July 31.—The Cincinnati, Hamilton & Indianapolis and the Indiana, Decatur & Western railroads were consolidated here today at a meeting of directors of the two properties which hereafter will be known as the Cincinnati, Indianapolis & Western.

## FAKE HAIR PREPARATIONS.

Do Hair No Good, But Often Cause It to Fall Out.

Many hair preparations are "fake" because they are merely scalp irritants. They often cause a dryness, making the hair brittle and, finally, lifeless. Dandruff is the cause of all trouble with hair. It is a germ disease. The germ makes cuticle scales as it digs to the root of the hair, where it destroys the hair's vitality, causing the hair to fall out. To cure dandruff the germ must be killed. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills the dandruff germ, thereby leaving the hair to grow luxuriantly.

## OFFICIAL CIRCULARS.

All the Santa Fe Coast Line Officials Reappointed.

California railway corporations that include 1,185 miles of tracks and necessary equipment went out of legal existence July 1, and the fact failed to create even passing interest. The transfer removes the Santa Fe Pacific, that extends from Albuquerque to Barstow, and the San Francisco & San Joaquin Valley railway, operating from Point Richmond south to Bakersfield. The first named road is 515 miles, and the last named embraces 310 miles of main track, and about sixty miles of branch lines. The Santa Fe now owns both roads in fact, as it has for years in name, having merged the roads affected, as is provided in the law enacted for the purpose by the legislature of California three years ago. The future name of the merged properties will be the Santa Fe system coast lines.

President E. P. Ripley, in an official circular received at Santa Fe local quarters, announces the change as follows:

"The company having acquired by purchase the properties of the Santa Fe Pacific Railroad company and the San Francisco & San Joaquin Valley Railway company, the same will be operated from and after this date as the Atchison, Topeka & Santa Fe Railway company."

In addition to the above, Third Vice President J. W. Kendrick has issued the following, dated Chicago, which is endorsed by President Ripley: "Effective July 1, 1902, A. G. Wells is appointed general manager of the coast lines of the Atchison, Topeka & Santa Fe Railway company, with headquarters at Los Angeles."

In order to complete the merger, General Manager Wells has reappointed his bureau chiefs in the following, dated July 1:

"Effective this date the following appointments are made: F. J. Shepard, general superintendent; R. B. Burns, chief engineer, and G. R. Joughins, mechanical superintendent."

Circulars announcing the above is the first official document issued by Manager Wells bearing authority of the coast lines of the atchison, Topeka & Santa Fe Railway company. Manager Wells' order is approved by Third Vice President J. W. Kendrick.

## MOVING PLATFORM.

One May be Installed on the Brooklyn Bridge.

## NEW YORK NOTES.

New York, Aug. 1.—One of the first things visitors to New York ask to see, as a general rule, is Brooklyn Bridge. If there are other sights of so much interest they are either Grant's Tomb, Central Park, St. Patrick's Cathedral or one of the many famous residential dwellings on Fifth Avenue; but in nine cases out of ten Brooklyn bridge will be asked for first. This famous structure will become of increased interest to visitors, if a moving platform is installed on the bridge as has been proposed, everybody will want to take at least one ride on a moving platform two and a half miles long, for that would be its length in crossing the bridge and its approaching twice. The proposed platform would be in three parts. The outer rim would move very slowly. The traveller would step on this first, and then to a middle section running twice as fast. From this it would be easy to step to the last section, running ten miles an hour. If the plan is carried out seats and shelter will be provided, also posts by which the timid and infirm might steady themselves in passing from one moving section to another. Arrangements are hoped to be made by which the trolley cars will withdraw from the bridge, but with such a close connection that the cost of transportation may be covered for the same five cents.

Speaking of Brooklyn that borough is the field of operations of a gang of desperate burglars who have thus far been successful in eluding capture. The citizens have good reason to complain, too. There are only 1,628 patrolmen in Brooklyn, which has a population of a million and a quarter, or one to every 770 inhabitants. Other boroughs of Greater New York that have not one quarter of Brooklyn's population have nearly half as many policemen, and this is causing bitter protestation on the part of Brooklynites.

The coming Republican State Convention of New York will find itself forced to take a stand almost unprecedented in its history owing to the adoption of certain resolutions in other States of the Union. New York republicans will be compelled to endorse president Roosevelt for renomination in 1904, for a failure to do so after the explicit and warm commendations of the President by seven or eight leading States would be regarded as distinctly hostile to Mr. Roosevelt. The Republican Convention of the President's own State to be held in September will, therefore endorse him.

Following the footsteps of the other political parties, the Prohibitionists will hold their State Convention in New York to nominate a Governor and other candidates under the emblem of the Fountain at Saratoga on September 5.

Much interest has been excited here among all classes of politicians in Ex-Chief Devery's campaign for Tammany leadership in the Ninth Assembly District. Devery is making a picturesque fight and his friends say that he will eventually work up to the place of Boss held by Richard Croker for seventeen years, but Senator "Tim" Sullivan, who is about as slick a politician as the city possesses, is throwing his entire influence against Devery, and intends to put him effectually "out of the game."

There is great activity among the members of the Professional Woman's League these days in view of the fact that extensive preparations are being made for the Woman's Exhibition which will be given in Madison Square Garden from October 6 to 18 under the auspices of the league. During the exhibition the Garden will be in the hands of a petticoat brigade for over three thousand attaches will be employed in the various departments of the great fair, and not one of the number will be of the opposite sex. The exhibition is intended to show the work of women through out the world and women of all nations will be shown in pursuit of characteristic employments.

The influence of woman is constantly being extended to the trades as well as arts and sciences. Mrs. Jennie Packard, who a year ago was appointed receiver of a business firm in this city whose parents had disagreed and wanted to separate, has, instead of closing up the business, continued it, paid bills and put it in such a prosperous condition that the partners have become reconciled, and she has just been discharged with the gratitude of all concerned.

By fall it is hoped that electricity will be installed on all of the elevated railroads of the city. Certainly the "electrification" of the Manhattan Elevated Railway system is progressing steadily. Except during the rush hours in the morning and evening steam has been abolished completely.

Acker's Blood Elixir positively cures chronic blood poisoning and all scrofulous affections. At all times a matchless system tonic purifier. Money refunded if you are not satisfied. 50c and \$1. J. H. O'Reilly & Co. and B. H. Briggs & Co.

from the Second avenue line. On the Third, Sixth and Ninth avenue lines the third rail is going on rapidly, cars are being built and autumn will find these lines equipped with the electric system.

The creation of real estate companies is something of a new development in New York and it opens to investors of moderate means an opportunity to invest in valuable city property by purchases of the stock of these companies. Details of another large flatiron building, similar to that which has caused little less than a sensation at Twenty-third street and Broadway, and which has been spoken of before in these letters, have been made public. The building will be on a plot at the juncture of Wall, Pearl and Beaver streets and will be twenty stories high.

A subscription has been started by the National Arts Club of New York in aid of the reconstruction of the old bell tower on the piazza of San Marco, Venice, which fell recently. A committee of five with Spencer Trask, the banker, as the treasurer, has been formed to solicit subscriptions in this country.

The roof gardens are now in their glory and the theaters are closed, except the few which are presenting light comic operas. This is no longer the time of serious dramas all the year around. Theatrical managers have awakened to the realization of the wants of the people and are content to supply the demand instead of trying to regulate the people's taste.

There is to be another conference of women in regard to the question of an improved street railway service and it is proposed that a committee of representative women of this city be appointed to investigate systems in other cities to ascertain whether overcrowding cars is merely local or general.
