Street Disturbances and Riots in Paris and Venice.

HEAVY GOLD SHIPMENT.

Pottsville, Pa., July 28.—Daniel Landerman, foreman of the Kosinor colliery, Shenandoah, was shot today by strikers. His face and shoulders are torn with buckshot, but it is thought he will recover. Albert Landerman was also chased and shot and four other non-union men beaten.

Pacific Steamship Service.

New York, July 28.—The American steamer Tremont, recently completed by the Maryland Shipbuilding company, left New York today on her maiden deep sea voyage going through the Straits of Magellan in her journey to the Pacific coast. The Tremont is the pioneer ship of the Boston Steamship company and is to begin a new service between San Francisco and Honolulu and the Philippines. She is a first class vessel in every respect, 540 feet in length and with a cargo capacity of 12,500 tons.

Canadian Pacific's Year.

Ottawa, Ont., July 28.—The figures given out by the Canadian Pacific today show that the traffic of the road for the year ended June 30 was far in excess of any previous year. Both in the passenger and freight departments the road has done a phenomenal business. The outlook is equally encouraging. To meet the demands of the great traffic to follow the abundant harvest this year the freight rolling stock is being increased as rapidly as possible, and by the harvest season the road expects to have about 30,000 cars in commission.

INJURED IN RIOTS.

Paris and Venice Police Had Their Hands Full.

Paris, July 28.—Many persons were injured, ten seriously, and hundreds arrested, are the results of street disturbances yesterday, brought about by the closing of unauthorized religious schools. A large procession of students, shouting and singing, was dispersed by the police. Attempted red flag demonstrations at the Strasburg statue were broken up and quiet restored at midnight.

Election Caused Troubles.

Venice, July 28.—Rioting followed the success of clerical moderates in the communal elections. The mob smashed the windows in the moderate club. Members of the club retaliated by throwing chairs on the heads of the attacking crowd. Troops and police intervened. A similar outbreak occurred at Padua.

School Land Leases.

Oklahoma City, O. T., July 28.—In order to effect a territorial and permanent organization, the school land leases of Oklahoma gathered in conference here today. The ultimate object is to force the sale of the school lands by giving the preference right to purchase to the lessees and to protect them in the improvements placed by them on the lands.

NO WARSHIP THERE.

Expected That Cape Haytien will Be Attacked Soon.

Port Au Prince, Hayti, July 28.—The army under General Jean Jumeau, who supports the candidacy of M. Firmin for the presidency of Hayti, has been repulsed by the troops under General Saint Foix Colin.

Machias Arrived.

Cape Haytien, July 28.—The Machias arrived here at noon today.

Blushing American Girls.

Vienna, July 28.—Dr. Eulenburg, the noted Vienna scientist, who has made an especial study of blushing, declares that it is a disease of the nerves, and that the women of America suffer far less from the affliction than those of Europe. Dr. Eulenburg recently returned from a visit to America and hence speaks with some degree of authority. Some very interesting cases of blushing among American society girls came under his observation. Europeans, he says, are wont to call the American girl unduly advanced and calculating, but my observation shows that she has a great deal of sensitive skin stored, for if she had not, the blood would not rise so often to her cheeks on small provocation, or for no provocation at all.

He tells of a certain Newport heiress, extremely pretty, who was driven to forswear society because the unfortunate affliction of blushing extended to her beautiful neck and arms, and thus prevented her from appearing in full dress. She suffered not only out-

wardly, but lost all self-control when blushing. Her thoughts became mixed up, and she could not think connectedly. She underwent treatment for nervousness but this did not help her.

Another singular case was that of a leading actress who consulted the doctor during her trip to the United States. She had ruined her complexion, says he, by excessive use of white grease paint applied to cover her blushes, which marred her performance. She blushed whenever anything went wrong behind the scenes or on the stage, and had no control of her emotions. Dr. Eulenburg has discovered that those addicted to blushing suffer less in summer than in the cold months, and that summer is the best time in which to be treated for the annoying disease. There are critical times, even in the warm months, for the blusher. When a thunder storm is in the air, and in the damp of the early morning and late at night, persons addicted to the habit blush most often and most violently, says the professor. Strong men do not blush except under extraordinary circumstances. Blushing men are seldom cured, for they are often sufferers from heart disease.

To Oppose Garner.

Floresville, Texas, July 28.—Republicans of the new Fifteenth district met in congressional convention here today and nominated John Scott, of Corpus Christi, to oppose Garner, the congressional nominee of the democrats.

In the application for a mandamus by C. F. Blackington, sheriff of Socorro county, against the board of county commissioners of that county directing them to issue bonds to fund a judgment against the county obtained by Sheriff Blackington amounting to nearly \$9,000. Associate Justice McMillan, of the territorial supreme court, at Santa Fe last Saturday granted such mandamus directing said board to issue bonds as requested by the plaintiff unless a levy for the payment of said judgment was made forthwith. R. M. Dougherty, of Socorro, represented Sheriff Blackington.

In a similar proceeding on the relation of Max Frost, of Santa Fe, vs. the board of county commissioners of Socorro county for the settlement of a judgment amounting to \$450 against the said county, Judge McMillan granted a writ of mandamus directed to the said board of county commissioners of Socorro county of the same tenor.

DELEGATE RODEY

Reception at Alvarado Wednesday Night.

Details All Arranged at Meeting Saturday Night.

Delegation to Meet the Statehood Boomer at Raton.

PUBLIC INVITATION.

Last Saturday night, pursuant to notice, quite an enthusiastic crowd of statehood boomers met up stairs over Zeiger's Cafe and arranged through details to properly receive Hon. B. S. Rodey, New Mexico's popular delegate to congress, on his arrival in this city Wednesday night.

After an informal talk of a few minutes, it was moved and seconded that Thomas Hughes officiate as chairman of the meeting. N. E. Stevens was chosen secretary.

It was moved and seconded that Hon. F. A. Hubbell, as chairman of both the territorial and county republican central committees, preside over the reception deliberations, which will be held on the west side of the Alvarado hotel on First street.

On motion, the chairman appointed R. W. Hopkins, F. A. Hubbell and M. Mandell a committee on arrangements and finance.

At this juncture in the proceedings, Mr. Hubbell read a telegram from Delegate Rodey, stating that he would undoubtedly reach Albuquerque on Wednesday night, whereupon on motion, which was seconded, the following gentlemen were named to meet the delegate at Raton and escort him to the city on Wednesday night's No. 1 passenger train:

George F. Albright, T. S. Hubbell, E. W. Dobson, F. A. Hubbell, Harry F. Lee, Alejandro Sandoval, W. T. McCleight, J. M. Sandoval, Nestor Montoya.

This committee is supposed to leave here tomorrow (Tuesday) night on the No. 8, reaching Raton several hours before the arrival of the No. 1 from the east.

The following letter was submitted, approved and copies have been mailed to citizens throughout the territory: Albuquerque, N. M., July 26.

Dear Sir:—The citizens of the territory desirous of doing honor to our delegate, Hon. B. S. Rodey, and show our appreciation of the great services rendered by him, have decided to give him a public reception at the city of Albuquerque on the night of Wednesday, July 30, Mr. Rodey arriving in this city on the evening train.

The undersigned having been appointed a committee on arrangements, cordially invite and request that you be one of the committee to meet Mr. Rodey at the city of Raton on the morning of Wednesday, July 30, and accompany him to Albuquerque and attend the reception which will take place at that time at the Alvarado hotel. Please invite as many of your friends as possible to attend said reception.

Yours very truly,
R. W. HOPKINS, Chairman,
M. MANDELL,
F. A. HUBBELL,
SOL. LUNA,
J. D. SENA,
A. SANDOVAL,
Committee of Arrangements.

At the Alvarado.

On Wednesday evening for the Rodey reception, the dining room of the Alvarado will be transformed into a Bohemian garden. On the conclusion of the speeches, which will be from the northwest corner of the veranda, the public reception will be given in the office. As this will probably be crowded Manager Klooz has decided to throw the main dining room open so as to provide a place where ladies and their escorts may go. All the details of the arrangement of the big room and a full orchestra will be on hand to play all evening.

THE BALL GAMES.

Browns Victorious Saturday and Lose Sunday With Wingate.

In two very poorly played ball games before very slim audiences, which was probably the cause of the poor playing, the Browns and Ft. Wingate split even. Saturday's game was won by the Albuquerque team in ridiculous ease, so much so that the fans would not turn out on Sunday afternoon, when the soldier boys won in a nip and tuck contest, replete with errors and bad playing generally. The boys seemed to be up in the air at all times when they should have played ball. Vorhes, not seeing how the boys could lose, placed himself on the bench in order to even up the playing strength of the teams somewhat, while Cosgrove was laid up with a split finger from Saturday's game and Roy McDonald was out of town. With these three players out of the game made a great deal of dif-

ference. Vorhes went in in the eighth inning, but too late to help out.

The receipts were about \$65 short of expenses.

These last two games, as well as other games played during the year, have demonstrated to the public that in order to win games of ball something must be done to strengthen the club as other towns have done. Otherwise there should be no base ball at all. The fans have been asked, through the press, to support the home team, but at no game this year have expenses been met. The boys are all hard workers and cannot very well afford to go down into their own pockets for the benefit of others.

A Long Trip.

Port Townsend, Wash., July 28.—Harry De Windt, arctic traveler, who recently completed a remarkable journey overland throughout northern Siberia and across Bering sea, arrived here this morning on the steamship Topeka from Skagway. De Windt started from Paris the 19th of last December.

Moody on a Trip.

Oyster Bay, N. Y., July 28.—Secretary Moody, who for forty-eight hours has been the guest of President Roosevelt, left today on the Dolphin on a trip along the New England coast as far as Portland, Me.

Dr. W. G. Tight, who went to Cerrillos Saturday morning, is expected home this evening.

BRILLIANT SERVICE.

Bishop Matz Preached at the Immaculate Conception Church.

FINE MUSICAL PROGRAM.

The service at the Church of the Immaculate Conception yesterday morning was unusually elaborate owing to the presence of Bishop Matz, of Denver. The large church was completely filled and the service was over two hours in length.

The musical service was particularly fine. Edward Grunfeld acted as organist and a special choir was composed of Messrs. Shmick and Boast, and Messrs. Hunt, Bell, Bullard and Burg. Farmers mass in B flat was sung entire and splendidly rendered. The organ voluntary by Mr. Grunfeld was very fine. The offertory selected was Lefebvre's "Veni Creator."

Bishop Matz preached an able and eloquent sermon on meekness and humility, taking for his text the gospel of the day. Before preaching the sermon proper, the bishop congratulated the parish on the success of its organization and the work they have accomplished. He spoke of the pleasure it always gives him to come here on account of the air of perfect Catholicism he finds here. He referred to the completion of St. Joseph's sanitarium, spoke of its work and called it one of the brightest jewels in the crown of Albuquerque.

Last evening a reception was tendered Bishop Matz by the Knights of Columbus in their hall.

ENGINEERS ATTACKED.

A Party Under Command of Lieutenant Brown Attacked.

Manila, July 28.—A party of engineers commanded by Lieutenant Brown and camped at Matalang river, was attacked by Moros at midnight Friday. The attack was repulsed without loss to the Americans. Three Moros were killed. Friendly natives report the sultan of Naul personally led the attack.

A tornado at Camp Vickars Saturday caused much loss of property. Many villages were destroyed and a number of Moros killed.

DR. WILSON SAVED.

Death Sentence Commuted as Courtesy to United States.

Washington, July 28.—The life of Dr. Russell Wilson, of Ohio, captured with the revolutionist party in Nicaragua, has been saved through the representations of Minister Corea. The following cablegram was received at the state department today from Chester Donaldson, United States consul at Managua:

"As a courtesy to the United States and sympathy for the president, the president will commute Russell Wilson's death sentence."

ELEVATED COLLISION.

Two Trains Came Together on the Brooklyn Elevated.

New York, July 28.—A head-on collision occurred today between trains on the Brooklyn elevated railroad on Adams street, which resulted in derailing six cars, wrecking two and the injury of at least two persons fatally. The collision is thought to have been caused by a misplaced switch. The train from Bath Beach, when turning the curve at the junction, was met by the train from Bridge station. Godfrey Moore and Henry Moore, of New York, were plucked beneath the wreckage and probably fatally hurt. Thirteen others were bruised. Charles Shattuck, motorman, of the Bath Beach train, was arrested. John Sullivan, motorman of the other train, disappeared.

RAINS CEASED

Flood Situation in Texas Brighter.

Anti-Imperialists Break Into Print.

Critical American Troubles Begin to Look Like War.

DR. BAIDWIN DEAD.

Dallas, Texas, July 28.—During the last twenty-four hours the aspect of the flood situation has grown brighter. The heavy rains ceased throughout the greater portion of the state and water has begun to recede in the rivers and creeks. If fair weather continues some time Texas railroads will begin running trains on time today, while the regular traffic will be re-established on others within three or four days. Dallas was visited by another heavy downpour yesterday. Trinity river is considerably over its banks in many places, but little damage is reported.

Texas & Pacific railroad officials state the situation at Big Springs is much improved and unless there is more rain they expect to resume operations today or tomorrow. Mr. Hardy, who attempted to cross the swollen stream at Elms Springs, was drowned. This makes five drownings reported.

Polo Championships.

Saratoga, N. Y., July 28.—That the popularity of the game of polo is growing in America is evidenced by the great amount of interest manifested in the national championships which are being contested here this week. The program was inaugurated today with a line-up of the Lakewood and Rockaway players for the junior championship. Other teams to be seen on the field during the week are those of Bryn Mawr, Westchester and Dedham, all of them in the pink of condition and full of confidence in the result. In the junior events the center of interest is George J. Gould, his sons, Kingdon and Jay, and Benjamin Nicoll, who comprise Lakewood's second team. The Gould boys are riding like veterans and hitting goals with the skill of men who have spent the best part of their lives at the pastime.

WRITING LETTERS AGAIN.

Anti-Imperialists Decide to Break Into Print Again.

Lake George, N. Y., July 28.—The anti-imperialists, who have been in session, drafted an open letter to the president on alleged cruelties by the army in the Philippines. Secretary Root is severely criticised.

Injured in Runaway.

Grand Junction, Colo., July 28.—Mrs. E. G. Morris and Mrs. G. Perry, of this city, and Mrs. E. M. Leavitt, of Chicago, were thrown out of a carriage here in a runaway and seriously injured.

James J. Corbett Selected.

New York, July 28.—At a conference here today between Sam Harris, representing Terry McGovern, and "Young Corbett," representing himself, James J. Corbett was selected as referee of the fight between the two featherweights in New London August 22. Corbett refused to accept Tim Hurst.

FAILURE ANNOUNCED.

Cumming & Stockbridge, commission Merchants, Made an Assignment.

New York, July 28.—Cumming & Stockbridge, commission merchants, assigned today. The liabilities are given as in excess of \$500,000, and the assets will not be known until an examination of books is made. The firm was mentioned as having been involved in the failure of B. Duran, of Havana.

Dr. Baldwin Dead.

New York, July 28.—Rev. Dr. Stephen L. Baldwin, recording secretary of the missionary society of the Methodist Episcopal church, died today of typhoid fever at 67 years of age.

MUCH LIKE TRACY.

California Man Runs Amuck and Handles a Gun.

Fresno, Cal., July 28.—In Porterville yesterday James McKinney ran amuck, shot out the lights of a saloon, and tried to shoot cards out of the hands of a player. That he only wounded a man was due to poor marksmanship. He then went to a livery stable and demanded a rig. As his argument was backed by a six-shooter, the rig was soon forthcoming. A constable, deputy and several citizens tried to arrest McKinney, but he opened fire upon them and four were wounded. The criminal then proceeded on his way. Officers from surrounding counties were notified and a sharp outlook is being kept. McKinney served a term in state's prison. Two years ago he killed a man

in Bakersfield, but was exonerated. William Lynn, a gambler, whose abdomen and legs were filled with buckshot, succumbed to his wounds. George Barrows, a printer; Deputy Marshal Willis, Deputy Constable Tompkins, and W. D. West were also shot.

Destructive Cloudburst.

Cornellville, N. Y., July 28.—Reports from the surrounding country show the cloudburst Saturday night affected nearly eighty square miles of territory. A broad estimate of damage is \$250,000. The crop loss is enormous. Much stock was drowned and many buildings washed off foundations.

Warrants for Strikers.

Wilkesbarre, Pa., July 28.—Warrants were issued today for the arrest of a number of striking miners at Nanticoke, charged with assaulting several steam employees of the Susquehanna Coal company, on their way to work. The exodus of miners from this region to the bituminous district continues.

Colonel Maynard Dead.

Indianapolis, Ind., July 28.—Colonel James B. Maynard, former editor of the Indianapolis Sentinel, died today, aged 83. He gave up active newspaper work several years ago.

Dividend Declared.

Boston, July 28.—The directors of the Calumet & Hecla Mining company declared a dividend of \$5 a share, the first of the fiscal year beginning on May 1.

THE OMAHA TEAM.

Champions of the Western League Will Probably Be Here for Fair.

ARE TO REPRESENT SANTA FE.

There is a gentleman here today from Omaha who says that the Omaha base ball team, the champions of the Western league, will undoubtedly enter the territorial fair tournament, representing the city of Santa Fe. He doesn't care about his name being mentioned at present, but says he speaks with authority and that Santa Fe will be represented at the approaching fair by the champions of the Western league. With Las Vegas represented by another Western league team, and Albuquerque and El Paso coming to the town-line with a mixture of National and American league stars, it is dollars to doughnuts that either Santa Fe or Las Vegas will come very near winning first money. For several reasons—team work and that they are playing better ball—The Citizen favors the Western leaguers.

M. W. Flournoy and wife, and daughter, Miss Nell, have returned to the city after a most enjoyable outing on the Pacific coast in southern California. Mrs. Flournoy gained considerably in flesh, and pronounces her visit very beneficial.

ROTHSCHILD A SUICIDE.

Until Recently Head of Big Chicago Firm.

Chicago, Ill., July 28.—A. H. Rothschild, until recently head of the firm of A. M. Rothschild & Co., and son-in-law of Nelson Morris, the packer, committed suicide this afternoon.

BIG COTTON MILL.

Albuquerque is Under Consideration for Their Location.

Albuquerque is under consideration as a possible location for a cotton mill to be erected by the Union Mining & Manufacturing company. The company is composed of Boston, New York, Chicago and Cincinnati capitalists and it will be incorporated at \$1,000,000 in the state in which the location is made.

The cities under consideration are Albuquerque, El Paso, Denver and Cheyenne. The company wants a tract of land of not less than eight acres. It is expected to build the mills and 200 cottages for employees. From 600 to 1,000 hands will be employed, of whom 300 will be skilled Chinese overtimakers. It is proposed as soon as the unskilled workmen learn the business to replace the Chinese. The company asks nothing but a donation of the land required.

S. M. Swarth, as representative of the company, has visited El Paso, is now in Cheyenne and will be here in a few days.

WILL SERVE BREAKFAST.

Local Elks Make Arrangements for the Salt Lake Trip.

Fifteen suits of the Quen Sabe club arrived this morning and are ready for the Elks who will go to Salt Lake City. The reduced rate granted to Elks for the trip to Salt Lake City is good for those not members of the order, and all who desire to take the trip should notify J. J. Sheridan, secretary of the local lodge of Elks, so that sleeping car arrangements can be made.

The local Elks today completed arrangements for the reception and entertainment of the Elks who will pass through from El Paso and Arizona. The local here will entertain them at breakfast at the Alvarado and will have a hand on hand to play during the meal. While the stop here will not be long the local Elks will try to crowd it with happy memories.

In Russia the penalty for leading a strike is the same as that for rebellion.

Roswell hopes to have direct railway connection with Albuquerque inside of a year.

It is pleasant to hear the democrats talk about wanting honest elections—but it is best to watch 'em.

Las Vegas can come right to the front by getting into the league base ball games during the fair.

It is safe to assert that O. N. Macon will not be a candidate for delegate to congress on the democratic ticket.

The El Paso Times says: "Albuquerque people are good hustlers and they are going to make a success of their fair."

In addition to peace and British rule, Johannesburg is to have a big match factory, operated by the Diamond Match trust of this country.

The coal strike has already cost \$50,000,000. Strikes are not a good thing for any section and some way should be devised to do away with them.

The great difficulty in framing anti-trust laws is that a bill which excepts labor unions from its operation is class legislation, and a bill which does not except labor unions cannot be passed.

THE EVENING PAPER.

Census statistics as to newspapers and their readers contain no more striking showing than that of the marked growth in the evening paper as compared with that published in the morning. Whereas in 1890 there were two evening papers printed to every morning paper, in 1900 there were three evening papers to one morning. In other words, the evening paper comprised 66.23 per cent of the whole in 1890, and ten years later it comprised 75 per cent. This increase is quite natural, and is bound to enlarge, simply because the people want the news early and the privilege of reading it leisurely. The great majority of fresh items appear in the evening paper, because the world's work is carried on in day time, from the doing of the exchange to the debates of congress.

HOW CRIMINALS ARE MADE.

The attorney general of Indiana, replying to an inquiry from the town board of Bourbon, that state, as to the validity of their curfew ordinance, said: "The right of towns and cities to regulate the running about of children after certain hours has been upheld by the supreme courts of all the states. It is within the police power of cities and towns, and a reasonable ordinance is a most excellent rule of conduct. I would not presume to advise upon the proposition as to when children should be called in. It may be said as a general proposition that the children that run the streets are the children who make the criminals, and after a very extensive experience in criminal prosecutions, I am convinced that fully 80 per cent of all criminals can be traced to the unrestrained liberty of children up to manhood in running about the streets, theaters and saloons."

PHILIPPINE CASUALTIES.

Major Parker's full report on the casualties in the Philippines contains some interesting figures. He gives the number of deaths from action in the field and from disease, and the number of wounded. The total of killed and wounded is 4,470; the total of deaths from disease is 47 officers and 2,535 enlisted men.

The total number of officers and men engaged in the Philippines was about 128,000, and the average number there at one time was about 40,000. Major Parker figures that the proportion of killed and wounded to the strength of the army was 9.7 per cent.

The comparatively small number of deaths from disease speaks volumes for the sanitation of the Americans and also for their physical condition. We can tell from these figures, without any detailed report, that the hospital service and the commissariat of

the American army must have been excellent.

RECLAIMING THE DESERT.

Another large area of public land has been withdrawn from public entry, this time in southern Arizona, from Needles down to the Mexican line and along the Colorado river. It is expected that the government will undertake some irrigation enterprises at this point in the near future. The country is strictly desert, but those small portions of it that have already been irrigated give bountiful crops in return.

MINERAL REGION.

The country penetrated by the Santa Fe Central railroad, now in course of construction, is one of the most remarkable mineral regions in the United States. Along the route, a distance of only 117 miles, is found gold, silver, copper, lead, coal, turquoise, petroleum, salt and other valuable minerals. The whole region is highly mineralized and millions of dollars have been taken from the mines, which are only partially developed.

It would be wisdom on the part of the officers of the Santa Fe Central to have a large exhibit of the wealth of the country along that road exhibited at the territorial fair. Messrs. Howell and Saint would be the proper men to have charge of such an exhibit.

The Best Liniment for Strains.

Mr. F. H. Wells, the merchant at Deer Park, Long Island, N. Y., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by all druggists.

Elk Preparations.

The Elks Saturday night initiated J. E. Saint and John McGillivray. It was decided that all members of the be urged to be at the depot on Friday morning, August 8, to extend courtesies to the El Paso Elks. It is thought that about twenty-five from here will join the Quien Sabe club.

Newcomer, H. S. Knight, H. P. Owen, M. Mandell, Thos. McMillin, G. V. Crosby, Nestor Montoya, Chas. Hubbell, G. F. Albright, J. A. Summers, Capt. W. E. Dame.

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entire satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by all druggists.

Treat Your Kidneys for Rheumatism.

When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Foley's Kidney Cure is the most effective remedy for this purpose. R. T. I cannot speak too highly of this great medicine." Alvarado Pharmacy.

Youngstown Holds Carnival.

Youngstown, Ohio, July 28.—Carnival week, for which the local acie of the Fraternal Order of Eagles, aided by the citizens generally, has been preparing for several months past, opened in a blaze of glory today. The public square and down town streets are elaborately decorated and the city is rapidly filling with visitors. The street shows are of a high class and together with the numerous other attractions and a large attendance of visitors the carnival bids fair to eclipse anything of the kind previously seen in this part of the state.

RATON OIL WELL.

A Depth of Over 1700 Feet Has Been Reached—Prospect for Oil Good.

Work on the oil well near Raton is rapidly going forward day and night and up to this writing a depth of over 1700 feet has been reached. The drill is still in shale, there is a considerable showing of oil in each bailing and the odor of oil is very strong. This odor has been present ever since a depth of about 500 feet was reached, but has been growing in strength as the drill went down until now the smell would not be much stronger from pure petroleum, while globules of oil float upon the water drawn from the well.

It is generally believed that the drill will penetrate the shale within the next twenty-four hours, and then a

Consumption

Nearly all early cases can be cured. Expert physicians tell us they rely largely on three things—fresh air, good food, and Ayer's Cherry Pectoral. If the case is advanced, recovery is more uncertain. Follow your doctor's orders. That's best.

Miami, Fla., July 28.—From an impenetrable wilderness to an important commercial center in five years is the record of Miami and the citizens of the place are this week holding a jubilee and carnival in celebration of the splendid record. The jubilee is also in recognition of the government appropriation, which is expected to make the harbor of Miami one of the best and most important in the south. For the four days' carnival a program full of interesting and attractive features has been arranged and its success is already assured by the presence of scores of visitors who have arrived from points in Florida, Alabama and Georgia to take part in the festivities.

Buffalo, N. The men are in good condition and an interesting contest is expected. It will be their second meeting in the ring. In their first encounter Handler won on a foul in four rounds.

CLEANLY WOMAN.

Erroneously Thinks By Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide kills the dandruff germ, leaves the hair free to grow as healthy as Nature intended. Destroy the cause, you remove the effect. Kill the dandruff germ with Herpicide.

RAILROAD RUMORS.

Rock Island Reported to be Burying Frisco Stock.

AND MAKING OTHER DEALS.

Men in railroad circles have been watching the doings of the Rock Island recently with a great deal of interest. Persistent rumors and reports of various acquisitions planned or consummated have continually vibrated to all parts of the globe. The most recent report is that the Rock Island is planning to take over the Frisco. This report gained some credence a few weeks ago and has again come to the public's notice.

The common stock of the St. Louis & San Francisco railroad advanced 3 1/2 points last Saturday, with heavy buying and rumors of prospective control by the interests dominant in Rock Island. Rock Island stock, which had been shooting skyward for some time, eased off fractionally, but received the same powerful support as heretofore. The rumor of an attempt on the part of the Rock Island crowd to buy Santa Fe was not credited in well informed quarters, but the Frisco rumor, which took its place, was generally believed to have a substantial basis.

The desire of the Moores and their associates in Rock Island control to secure the Frisco has been known for some time. The Rock Island had, previous to that time, run surveys paralleling a considerable part of the Frisco lines and was threatening to build extensively in Frisco territory unless it was permitted to buy that road. These same tactics had been adopted by the Rock Island in the purchase of the Choctaw and succeeded them. They doubtless had considerable weight with Frisco stockholders and it is not improbable the Moore interests have succeeded in acquiring a heavy holding in Frisco during the past few months without going on the market for it.

It is possible that the next few days will see the completion of a close traffic arrangement between the Chicago, Rock Island & Pacific and the Mexican Central railroads, which will enable the Rock Island to run its trains direct to the City of Mexico. It is intimated that if the plan now under consideration is carried out the Moore Bros. will become financially interested in the Mexican Central, and that the Rock Island will have representation in the directorate of the Mexican Central line. The Moores may also lend a helping hand financially in carrying out Mexican Central schemes of extension and reconstruction.

Rock Island officials here deny that the plan of building the Chicago, Rock Island & Gulf railroad has been abandoned. The line will be pushed on to the Gulf.

The immediate reorganization of the Mexican Central, it is understood, has been interfered with through the refusal of the Mexican Central Securities company of London to accept the terms of the management. It is not expected this refusal will cause the reorganization to fail entirely, although there may have to be some changes made in the present plans.

The Mexican Central Securities, limited, was organized in London in 1899 for the purpose of acquiring the 4 per cent consols of the Mexican Central railway, and issuing in exchange for each \$1,000 4 per cent bond deposited \$102 in A debenture, bearing 4 per cent dividends, and \$102 in B debenture stock, bearing 4 per cent dividends when earned. The consols are of a total authorized issue of \$66,649,000 first mortgage, secured by a direct lien upon the entire property of the Mexican Central, consisting of 2,150 miles, subject only to about \$277,000 of prior bonds.

What amount of the consols are held by the Securities company is not known. The statement, however, that it controls a large majority is denied. The company has issued \$3,810,606 in each class of stock in exchange for bonds deposited. This would seem to indicate that the company holds less than \$20,000,000 of the consols.

"I am using a box of Chamberlain's Stomach and Liver Tablets and find them the best thing for my stomach I ever used," says T. W. Robinson, Justice of the Peace, Loomis, Mich. These tablets not only correct disorders of the bowels but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by all druggists.

OLD MINER KILLED.

James Thomas, Run Over and Killed by the Cars.

An old miner about 40 years old, named James Thomas, was killed by being run over by the cars near Pleute station the other morning, says the Kingman Miner. The man had been at work at Searchlight, and had come to Goff's, where he filled up with whiskey until in a drunken craze he imagined some unknown men were trying to kill him. The people about Goff's watched him during the evening, and thought he had at last gone to sleep somewhere. It seems he boarded No. 1, and in some manner fell under the wheels. Parts of his body were scattered along the track for nearly 200 feet, and were a most gruesome sight when picked up by the crew of No. 2. The remains were taken to Needles and buried.

A Good Reputation.

The way to gain a good reputation is to endeavor to be what you desire to appear. That is precisely the way in which Chamberlain's Cough Remedy has gained its reputation as a cure for coughs, colds, croup and whooping cough. Every bottle that has ever been put out by the manufacturers has been fully up to the high standard claimed for it. People have found that it can always be depended upon for the relief and cure of these ailments and that it is pleasant and safe to take. For sale by all druggists.

Good for Cerrillos.

A report has it that the smelter at Cerrillos is to resume in a few days and that the plans have been completed for the building of a 100-ton concentrator to treat the ores from the Mag-

dalena, Socorro county, and the Cerrillos districts. The plans have been accepted by the smelting company. The successor of J. L. Wells, lately superintendent of the smelter, will arrive at Cerrillos next week.

PEACH SPRINGS' MURDER.

Jose Maria Aguirre, While Asleep, Meets His Doom.

Last Sunday night a Mexican by the name of Jose Maria Aguirre, was killed while asleep and Antonio Gutierrez is charged with the crime. It appears that the Mexicans, who are employed by the railroad under contract, obtained a supply of whisky from Seligman Sunday evening and they proceeded to make merry. Several of them got very drunk and among these was Gutierrez. Conflicting stories are told regarding the manner in which Aguirre was killed but there is no doubt that while the unfortunate man slept he had his head beaten in with a club. A Mexican woman made the statement that before midnight Gutierrez knocked at her door and asked for admission and that when he received no answer he went on to the end of the house where Aguirre slept; that she went out shortly after and found Aguirre dead and Gutierrez asleep a short distance away. She accused him of the crime and he said: "I do not know; forgive me." This was not the story she told at the preliminary and since that time she tells conflicting stories. It may be that the murder was committed by other parties and that the woman is trying to shield them. She and her husband are being held to await investigation of the matter.

Kirk Bryan, aged 14 years, is one of the brightest boys in this city. He is spending his vacation in the east, and is a New Mexico university student. He is one of the coming democratic statesmen of New Mexico. He writes as follows to his father, R. W. D. Bryan:

thusiastically about Mr. Rodey, saying that the omnibus bill would never have passed the house if it had not been for Mr. Rodey. He said that of course he (Rodey) had to be turned down a little like all westerners, but that everybody could see that he was in earnest. He, himself, had been opposed to the bill on account of Arizona, but that Mr. Rodey had got hold of him and persuaded him to vote for him. He also told me how Mr. Rodey had gone up to and secured the vote of one of the big congressmen after he had offended him by being a little too persistent. All this and more leads me to think that Mr. Rodey is the right man for the place, in spite of his politics."

A PAINT SUIT.

Poor Quality of Paint Used—Plaintiff Won Case.

A case of quality took up the greater part of two days of Judge Crawford's time last week. The firm of DePriest & Sayers sued Carl Hoffman and wife for \$69.10, the balance due for the painting of the Hoffman house on North Second street. A long array of witnesses were heard on both sides and some of the tricks of the painter's trade, used in cheapening the cost of material used in painting, were aired. The house was painted under the direction of Mr. DePriest. The first coat of paint or the priming coat, was yellow. Mr. Hoffman changed his mind as to the color he wished to have his house painted and directed the painter to put a dark color over a light priming. In some places the first coat of paint, which was yellow, showed up through the last coat, which is of a dark color. Mr. Hoffman did not think it was a good job and had been told that a poor quality of paint had been used, and refused to pay the money due, hence the suit. A decision was reached in favor of the plaintiff.

Felix Lester was attorney for Carl Hoffman and City Attorney J. H. Stingle represented the firm of DePriest & Sayers.

Save the Children

All stomach and bowel troubles in child or adult are due to a single cause—Indigestion. Flux, colic, cholera morbus, diarrhoea, dysentery and all complaints of like nature, are the result of undigested foods fermenting in the stomach. The only way to prevent fever and to cure such troubles without injury to the membranes lining the stomach is to restore perfect digestion.

FROM LAS VEGAS.

Changes at Las Vegas Freight Office—Annual Encampment of Militia Companies.

Special Correspondence.

Las Vegas, N. M., July 27.—Quite a little change took effect in the Santa Fe freight offices Saturday evening. Aaron Bame has resigned as night ticket agent and left for Chicago. H. S. Haskell takes his place in the ticket office, Theodore Thompson takes Haskell's place in the freight office and W. R. Cameron takes Thompson's place as yard clerk.

About fifteen carloads of children from Las Vegas attended high mass at Agua Zanca Saturday. The little chapel at Agua Zanca is one of the most picturesque in the neighborhood, and the Catholic congregation is very devout. The celebration today was an interesting event and was followed by a picnic.

The power at the coal mines at El Porvenir has proven insufficient to handle the machinery, so the company has ordered a ten-horse power engine from Aurora, Illinois, as well as other machinery. The company is gradually collecting a valuable lot of machinery and the development is being pushed as fast as money can do it.

M. B. Goldenberg & Co. have entered the following suits in the Guadalupe county district court: Against M. T. Moore, an attachment suit to recover the sum of \$148.66, amount alleged due for merchandise sold; against Harry Edwards, a suit to recover judgment in the sum of \$106.15; against J. W. Garvey & Bro., a suit in attachment to recover judgment in the sum of \$2,232.69. Evidently Mr. Goldenberg is cleaning off the old books.

An effort is being made by some of the captains of the militia companies in the territory to make arrangements for an annual encampment of all the militia companies, as is done in all the states. At the encampments the companies are put through valuable drills and taught new maneuvers, besides having a good outing. The encampments are really invaluable to the discipline and training of the militia, and it is hoped there will be one in this territory. Captain De Costa proposes that his company shall have a week in camp, anyway, and has billed a big infantry dance at Rosenthal hall for August 5 to raise funds for the expense of the commissary. The tents can be furnished by the adjutant general and the company proposes to have a week's encampment and the taste of army life in September.

Considerable enthusiasm is being worked up over the first class ball team organized here. Charles Rhodes, the pitcher who has been playing with Santa Fe, has decided to remain with his home team and hold down the box here. The diamond and outfield have been scraped and put in readiness for the season's work. The uniforms will be here at the end of next week. The boys have been putting in good time practicing, and the team is rounding into good shape.

The chain gang jumped the town this morning, having worked a few days for

the city. Every hobo that stays in town a few hours has to pay a poll tax. It is a plan that works splendidly in ridding the town of the tramp pest.

Mrs. S. Stailey and her four children are here visiting Mrs. W. Cheatham at the Castaneda.

Thomas Delgado returned to Santa Fe this afternoon after a short stay in the Meadow city.

Women love a clear, healthy complexion. Pure blood makes it. Burdock Blood Bitters makes pure blood.

GOLDEN DISTRICT.

Interesting Mining Notes From Golden and Vicinity.

Golden, N. M., July 26.—W. S. Rishworth, manager for the Baird Mining company, reports having struck water at the 175 foot level.

James Lucas is having his five stamp mill repaired and will commence stamping ore from the Black Prince mine next week, where he has several tons of good ore out.

The McKinley Mining company received 5,000 feet of lumber last Thursday to timber the main shaft to the sixty foot level. Free gold ore has been taken out since the last mill run was made.

D. A. Lyon, after spending several weeks in Golden, giving a test run of the cement beds of the Industrial Placer Mining company's property, left yesterday at noon for San Francisco, Cal. Messrs. Griswold and Belcher still remain in Golden and several more tests will be made under their supervision.

OUR NATIONAL DISEASE

Caused by Coffee.

Physicians know that drugs will not correct the evils caused by coffee, and the only remedy is to drop drinking it.

Dr. W. J. Allison, of Heber, Ark., says: "I have been a coffee drinker for 50 years and have often thought that I could not live without it, but after many years of suffering with our national malady, dyspepsia, I attributed it to the drinking of coffee, and after some thought, determined to use Postum Food Coffee for my morning drink. I saw that Postum was made carefully with directions, and found it just suited my taste. At first, I used it only for breakfast, but I found myself getting so much better, that I used it at all meals, and I am pleased to say that it has entirely cured me of indigestion. I gained 19 pounds in four months and my general health is greatly improved."

I must tell you of a young lady in Illinois. She had been in ill health for many years, the vital forces low, with little pain. I wrote her of the good that Postum did me and advised her to try it. At the end of the year, she wrote me that Postum had entirely cured her, and that she had gained 40 pounds in weight and felt like herself again."

DEMING.

From the Headlight.

J. T. Givens returned from a pleasure trip to the coast.

Dr. Swope and family have returned from a brief sojourn to Pacific coast pleasure resorts, accompanied by the doctor's mother.

The bell has a beautiful, clear tone, and while Chester was showing it to Father Morin, he rang it loud and long. Everybody in the vicinity of the bank corner rushed out to see where the fire was.

When completed this enterprising firm will have fifty feet of plate glass front on Gold avenue. The contract calls for the completion of the building at the earliest possible moment.

Attorney A. W. Pollard had a severe hemorrhage while riding near the Sunset Dairy last Sunday evening. Mr. Pollard secured the assistance of Mrs. Russell and family, and Mr. Pollard was taken to their residence, where he remained until Wednesday, when he was brought to town. At this writing Mr. Pollard is slowly regaining his strength, and will in a few days be able to come down town again.

Saves a Woman's Life.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from coughs, colds, throat and lung trouble need this grand remedy, for it never disappoints. Cure is guaranteed by all druggists. Price 50 cents and \$1. Trial bottle free.

Abram Abeyta holds about \$2,000 of the city's securities and he offers to give these in payment for lands belonging to the city at an appraised valuation. Messrs. Joseph E. Smith, H. R. Harris, and Camillo Baca have been appointed by the city council as a committee to appraise the lands.

R. J. Nisbet is to take the measurements of the river for the boundary commission, when there is any evidence of water at this point.

Rain has fallen in abundance to the north, south, east and west of us, but San Marcial is still in the free zone. However, the hovering clouds may bring relief at almost any hour.

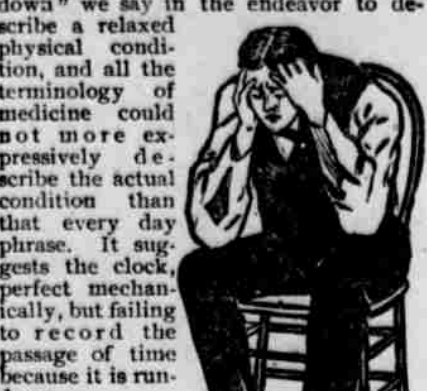

In a note to the local A. O. U. W. financier J. K. Hartline, of Gallup, speaks of an injury to his left hand on July 18. Two fingers were badly torn, and one of them he may lose, in addition to a period of enforced idleness.

Capt. Jack Crawford will leave San Marcial about the 5th of next month on a tour of the middle and eastern states to "pour the full tide of eloquence along, serene pure, and yet divine strength." His first date is at Rocky Ford, August 15, but he may appear on the platform at intermediate points, if satisfactory arrangements are perfected.

Wallace Crawford, the 5-year-old son of Harry and grandson of Capt. Jack, secured a piece of canvas on Thursday last and, spreading it in the yard, divested himself of all his clothing and throwing a pillow in the center began turning somersaults and hand springs. He had quite an audience of little folks and when his mother discovered her athletic son, and exclaimed, "Why, Wallace Crawford, I am ashamed of you," he turned around, after giving

RUN DOWN.

When a phrase is coined out of world wide human experience it is apt to be brief and expressive. We are "run-down" we say in the endeavor to describe a relaxed physical condition, and all the terminology of medicine could not more expressively describe the actual condition than that every day phrase. It suggests the clock, perfect mechanism, but failing to record the passage of time because it is run-down.

People who have that tired out, run-down feeling will find new life in the use of Doctor Pierce's Golden Medical Discovery. This great medicine is far more than a tonic. It cures diseases of the organs of digestion and nutrition, and enables the perfect digestion and assimilation of food of which alone all physical strength is made.

"The reason I delayed writing was because I wanted to wait one year after I had taken the medicine before giving my statement, and now I can send a good, conscientious testimonial," writes Mr. Chas. H. Sergeant, of Plain City, Madison Co., Ohio. "During the summer and fall of 1901 I became all 'run-down,' nerves were out of order and stomach out of order. I wrote to Dr. Pierce for advice. He said I had general debility, and advised Dr. Pierce's Golden Medical Discovery, and thanks to you for your advice, I used six bottles, and since I stopped taking it about one year ago, I have not taken any medicine of any kind, and have been able to work every day. My appetite is good, I can eat three square meals a day, and I do not feel that miserable burning in the stomach after eating. My blood and nerves are in good shape, and, well-in fact, I think I am in pretty good running order."

Dr. Pierce's Pleasant Pellets keep the bowels active and healthy.

One more turn, and replied: "Oh, that's all right, ma. Ma, that's the way the show men dress."

It will embrace well known firms of Boston, Philadelphia, Rochester, Camden, Allegheny City, Wheeling, New York, Cincinnati and Detroit.
