EDUCATORS MEET

A Distinguished Gathering at Minneapolis.

At Least Fifteen Thousand Present.

Papers Relating to Taxation Were Read This Morning.

FORMAL OPENING.

Minneapolis, July 7.—Bright skies and baby breezes greeted the teachers and educators who arrived here today to attend the session of the National Educational association. All incoming trains brought large delegations. The meetings of the day are those of the national council and of the Indian educational section. The council is the inner circle of the association and an election to it is esteemed a high honor. Memberships are limited and run for life. Nathan C. Shaffer, of Harrisburg, state superintendent of public instruction of Pennsylvania, read a paper on "Taxation as It Relates to School Maintenance." In part he said:

"Taxation for school purposes is now the accepted policy of every civilized country. The nature and purposes of taxation should be taught in connection with history and civil government. One of the highest tests of patriotism is found in a willingness to pay a just share of tax for the support of the government and the education of the people. The best method of state taxation for school purposes consists in setting apart a millage of tax which cannot be diverted to other purposes. Taxation of railroads and other property to raise a fund for distribution among the school districts serves to aid the schools of townships which have no railroads or other valuable corporate property. The directors or controllers who are responsible for the running of the schools, should have power up to a fixed limit to specify the amount of tax to be raised for school and building purposes. Arguments should be addressed to tax payers, designed to show that money spent in the right education of the people is the best investment of public funds ever made. Money raised for municipal and educational purposes should be expended honestly and wisely; otherwise a limit of taxation may be reached, beyond which it will be impossible to raise money for the maintenance and improvement of our systems of public instruction."

Albert G. Lane, district superintendent of schools, of Chicago, read a paper on "Taxation and Teachers' Salaries." He said:

"If effective instruction is to be imparted to all children, more generous provision must be made for ample compensation of teachers, for a permanency in their work and for centralized schools in rural districts."

At the session of the Indian education section President McCowan read the annual address before a large number of papers were read by Indian educators.

Estimates of the number of strangers within the city's gates this morning run all the way from 15,000 to 20,000, the latter figure being probably nearest the mark. Conspicuous by their badges and ribbons they have possession of the hotels, clubs, principal streets in the business section, parks, halls, school houses and churches. It is a notable gathering of those who have assumed the mission of instructing mankind from the first stages in the kindergarten to the final ones in the university. Men and women distinguished in their chosen field are to be encountered at every turn. Registered at one or other of the hotels, or the guests of leading families, are such eminent educators as Superintendent James A. Foshey, of Los Angeles, Cal.; President Nicholas Murray Butler, of Columbia university; President Jacob Gould Schurman, of Cornell university; Hon. William T. Harris, United States commissioner of education; Professor Thomas C. Trueblood, of the University of Michigan; President William R. Harper, of the University of Chicago; J. J. Doyle, of Little Rock; Superintendent John H. Hinemon, of Pine Bluff, Ark.; J. Remsen Bishop, of Cincinnati; President Charles W. Dabney, of the University of Tennessee; Professor Edwin G. Dexter, of the University of Illinois; Dr. William Bayard Craig, of Drake university; J. M. Wilkinson, of Emporia, Kan.; Charles F. Warner, of Springfield, Mass.; Miss Rodz Seelek, of Indianapolis; President Joseph Swain, of Indiana university; J. F. Millsbaugh, of Winona, Minn.; J. H. Phillips, of Birmingham, Ala.; Superintendent J. M. Greenwood, of Kansas City; Nathan C. Schaeffer, state superintendent of public instruction of Pennsylvania; Superintendent Charles B. Gilbert, of Rochester, N. Y.; and Mrs. Carrie Chapman Catt, of New York city.

Headquarters for the various states were located this morning at the hotels and will remain open during the week. At the West are located delegates from the following states: California, Virginia, Louisiana, Maryland, Florida, Montana, New Jersey, Utah, Colorado,

Kentucky, Pennsylvania, North Dakota, Missouri, Ohio, Michigan, Massachusetts, Kansas, Wisconsin, South Dakota, Nebraska, Iowa, New York, Indiana, Illinois and Minnesota.

The formal opening exercises of the convention will take place tomorrow afternoon in Exposition hall, which has been magnificently decorated for the event with flags, bunting, palms, flowers and shrubs and the inevitable pictures of the Little Red School House. There will be addresses of welcome by Governor Van Sant, Hon. J. W. Olsen, state superintendent of public instruction; Mayor Ames, Superintendent Jordan, of the Minneapolis public schools, and President Cyrus Northrop, of the University of Minnesota. The music for the opening exercises will be rendered by a massed choir which has been rehearsing for several weeks.

A conservative estimate puts the amount of money spent this summer on the Pacific coast by Albuquerque people at \$50,000. It wouldn't take many years at that price for the city to build an artificial lake of its own.

SANTA CATALINA.

The Favored Resort of Beautiful Southern California.

SOME LOCAL PARAGRAPHS.

Special Correspondence.

Santa Catalina, Cal., July 2.—"A land where winter hath fair summer wed." A bit of the world by itself, picturequely located in the Pacific ocean, fifty miles from Los Angeles and reached by fast and commodious steamers sailing daily from San Pedro harbor. It is certainly an ideal place to spend the hot months of a southern summer. It is not the small speck of volcanic lava as is generally supposed, but a little continent of 47,000 acres of plains and valleys, blessed with a most delightful sunny climate. Every convenience necessary to the comfort of modern living can be obtained on this little continent. Avalon, the metropolis, and the only settlement of any size, nestles in the mouth of a little valley on the east side of the island, and faces on the tiny bay of Avalon. The entrance of the bay is guarded on both the right and the left by immense granite rocks. The rock to the north is termed the sugar loaf, because of its resemblance to the snow white crystal in the glare of the morning sun. The rock to the south is called gull's fort. It is part of a mountain ridge that projects boldly into the sea. The face of this rock is very steep and unsuitable to the inquisitive tourist, and there the sea gulls build their nests. The hotel accommodations of the island cannot be excelled. The Grand View, although not the largest hotel in Avalon, has the largest water front and the best view of the bay. The table and service is excellent. Music and entertainment every evening. The rates of this hostelry are very reasonable.

The marine gardens which surround the Santa Catalina form a most wonderful natural aquarium. Through the window of the famous glass bottom boats visitors can view the marvelous wonders of the deep. Perfect forests of sea weed (or kelp as it is called by the curio vender), growing from beautiful lawns of moss, tinted with all the fascinating colors of the gold guarding rainbow. There among the branches of this wonderful forest is to be found the home of the gold perch and schools of emerald fishes. The black and spined echinus, star fishes, sea cucumbers, alabones and octopi are to be seen clinging to the rocks at the bottom, while in the intervening water, scores of jelly fish of amusing forms and shapes captivate the eye with one continued feast.

The amusements of Catalina are many and far reaching. Every pleasure and sport to be enjoyed on the mainland, can be found on the little continent. The bathing and boating is unexcelled. The fishing is as good as anywhere on the Pacific coast. Tennis courts and golf links are provided. Concerts and dancing in open pavilion every evening. The music is furnished by an excellent band. There is also sport for the man with the gun. Doves and quail abound on the island. Wild goats and foxes are to be found. Hunting flying fish in a steam launch is rather exciting sport. An expert sportsman with a shot gun is able to secure several of these soldier-like fish with their sword-shaped wings. The big Tunas rush in, driving the flying fish out of the water in flocks like quail, and at this time a hunter on a launch can pick them off. San Pedro wharf is reached by many routes, but the best and most convenient means is the Catalina flyer on the Salt Lake route. Quite a number of Albuquerque visitors are at present enjoying the sea breezes along the Pacific. Mr. and Mrs. G. W. Johnson and Miss Daisy Poyas are comfortably located in a cottage at Long Beach.

O. W. Strong and family and Mrs. Harry Strong are stopping at Mr. Strong's summer cottage at Long Beach and enjoying the refreshing air of that delightful resort. Mrs. W. W. Strong and Miss Flora Vann are visiting friends at Pasadena. Mr. and Mrs. Charles Mausard left San Francisco, and are now sailing toward Portland, Ore. Miss Edith Everett is in San Francisco. Mr. and Mrs. M. W. Flournoy and daughter, Miss Nellie, are stopping at the Metropole, on Catalina Island. Joe Barnett and wife are stopping at the Hollenbeck at Los Angeles.

STILL AT LARGE

Convict Tracy Eluded All Pursuers.

City of New York Gets One Battleship.

Every Freight House in Chicago Tied Up by Strike.

INDIANS ARE ANGRY.

Seattle, Wash., July 7.—By the longest jump he has taken so far, Tracy, the Oregon murderer, has completely demoralized all the carefully laid plans to capture him. On Friday he left the vicinity of Bothell and on Saturday noon he reached Port Madison. Last night at 6 o'clock, he was reported as seen on the outside of Deception Pass between Edisto and Whidby Islands. His zigzag course and unexpected movements once more placed him beyond immediate danger. His objective point is now supposed to be Whatcom, where, it is stated, he expects to meet a friend. Cub Merrill, said to be a brother of Merrill, the convict who escaped with Tracy, lives there. Saturday night, while intoxicated, he said Tracy was on his way to that place and he arranged to meet him. Scouts have been sent to patrol the shore line of Chuckanut Bay below Fairhaven, where it is believed Tracy will attempt to land. Anacortes has two launches guarding the passes and deputy sheriffs are flocking from all sides to join the man hunt. Sheriff Hammond, of Jefferson county, and a number of guards left Port Townsend in the revenue cutter Grant in search of the murderer. Sheriff Cudaby, with a large number of heavily armed men, is on the tug Sea Lion in pursuit of the fugitive. Another posse from Jefferson county is aboard the revenue launch Scout. Tracy had a good fifteen hours' start of his pursuers and was in a sail boat, to man which he impressed a farm hand at the point of a Winchester. He will probably kill the man and sink the boat, thereby destroying all traces of his whereabouts until he chooses to show himself to the people again.

NEW YORK WINS.

One of the Battleships Will Be Built There.

Washington, D. C., July 7.—Secretary Moody today, after a consultation with the bureau chiefs, gave orders that one of the battleships authorized at the last session of congress be constructed at the New York navy yard. The secretary was under strong pressure in this matter. Besides New York, Norfolk and Boston were strong competitors for the work. The secretary decided New York could do the work cheaper and quicker.

SERIOUS BLOW.

All Freight Handlers in Chicago Are Called Out on Strike.

Chicago, Ill., July 7.—The strike of 9,000 freight handlers at Chicago was called today and every freight house of the twenty-four railroads concerned is practically tied up. Business men fear the strike will be the most serious that has affected their interests in years. The strike was called by a committee appointed at a meeting of 1,000 freight handlers held last night. The committee was instructed to call a strike within forty-eight hours unless the railroads should meet the demands of the men at once for an increase in wages, extra pay for overtime and holidays and recognition of their union. Action on these instructions was taken sooner than was expected.

It was all but impossible for any freight to enter Chicago or to leave it today. Many of the railroads had small forces of men previously hired on hand when the strike was called and by adding to it men from other departments, managed to handle the perishable commodities. In hiring non-union men, it is said the railroads run a serious risk of bringing about a strike of teamsters, who recently won their fight from the packers. The teamsters, it is said, will refuse absolutely to have anything to do with freight in any way handled by non-union help. The men called out include foremen, check, re-check, receiving and delivery clerks, sealers, callers, weighmasters, stevedores, coopers and elevator men. Chief of police O'Neill, when notified the strike had been called, sent orders to his subordinates to make every preparation to preserve order.

Indians Are Angry.

Guthrie, Okla., July 7.—The Cheyenne Indians near Calumet, Canadian county, are reported to be holding a council of war. They are angry over an order issued by the Indian agent, prohibiting the practicing of tortures, so called, incident to their sun dance. The whites are becoming frightened. This is the first time the dances of the Cheyennes have been stopped by government authorities.

July Corn Soared.

Chicago, Ill., July 7.—The grip of the Gates crowd on the local supply of corn

tract corn was again made evident today when July corn broke the record of recent years by going to 84 1/2 cents. The close was 84 cents, 7 cents higher than the previous close, (Thursday).

Town Destroyed.

Guthrie, Okla., July 7.—The town of White Horse, an old Indian trading post off the railroad in Woods county, was destroyed by fire yesterday. The loss is \$100,000. A Phillips, a farmer, was burned fatally.

Extremely Quiet.

Wilkesbarre, Pa., July 7.—The ninth week of the anthracite coal miners' strike opened extremely quiet. The conditions around the collieries remain unchanged.

Train Derailed.

Lisbon, July 7.—The Madrid express was derailed today, owing to some unknown cause near Guarda (Portugal). Nearly all the cars were wrecked. Six persons were killed and twenty-seven injured.

AGAINST BUCKET SHOPS.

Chicago Board of Trade Gains Nearly Every Point.

Kansas City, Mo., July 7.—Judge Hook, in the United States district court today, in handing down a decision in the suit brought by the Chicago board of trade against the Christie Grain & Stock company of Kansas City to prevent the use of the Chicago board's quotations, held against the bucket shop on almost every point. An appeal to the United States supreme court will be taken. In its suit filed a year ago, the Chicago board of trade claimed proprietary right in its quotations and under the new bucket shop law sought to compel grain speculators in different states to pay for the use of them. The Christie company fought the case on the ground the Chicago board of trade in itself is a bucket shop without standing and further, its quotations are public property. The suit was in the form of an application by the board of trade for a temporary injunction.

HABERELE BENEFIT.

Net Receipts Were Something Over a Hundred Dollars.

A fine program of sports was arranged for yesterday afternoon at the fair grounds for the Haberele benefit and there was a good crowd out to enjoy them. Haberele did not know until yesterday that a benefit was to be given for him. His recent hemorrhages caused a loss of his voice and he is now unable to speak above a whisper but it is hoped the affection of his vocal cords is only temporary. He celebrated his benefit day by sitting up for a short time for the first time.

A fair program of races was given and E. W. Dodson went an exhibition mile on his motor cycle in 2:22 1/4. The Italian band, resident in new uniforms worn for the first time, and the Old Albuquerque band, furnished the music.

The feature of the day was the ball game between the Browns and the Old Albuquerque Reds. The latter won by a score of 4 to 3. The game was an interesting one to see and had there been no errors, not a run would have been scored in the nine innings played. Ward Anderson pitched for the Browns and Ramon for the Old Albuquerque. The score by innings was: Old Albuquerque, 0 0 0 1 2 0 1 0—4 Browns, 0 0 0 0 0 2 1 0—3.

Batteries: Old Albuquerque—Rams and Brown. Browns—Anderson and Stevens.

The benefit netted a little over a \$100.

HIS NEW HOME.

John S. Beaven Now in His New Coal Office.

John S. Beaven, proprietor of the Clarkville coal yards, is now to be found comfortably located in his new coal office building at the corner of Cow avenue and South First street, having finished moving today.

The building is on the Spanish architectural style, the same as that followed in the Alvarado hotel and depot buildings. The walls are cement. On each side of the building are cement arches through which driveways run. On the front above the door standing out in bold faced raised letters, is the name of the proprietor—John S. Beaven. North of the door, on the side of the building is the word coal and on the south is the word wood, both in the same lettering as that used above the door.

Through the north driveway, on the same side of the office are the scales. These scales are of Monarch make and made especially for the Clarkville yards. No expense has been spared to equip the office with comfort and convenience. Electricity, sanitary plumbing and water, are a few of the necessary comforts. John Hart was the contractor.

Back from California.

Joe Barnett and wife, who have been sojourning at Los Angeles and Santa Catalina Island the past few weeks, returned to the city this morning. Mr. Barnett being summoned back in response to telegrams regarding the cave-in of the Weinmann adobe wall on the west side of his property, corner of Railroad avenue and Second street. As to the damages done and who is responsible, those interested held a meeting this afternoon and discussed certain matters. It is understood that all parties concerned are willing to arrive at some satisfactory adjustment of the unfortunate accident.

CHOKED THE MAYOR

City Officers Removed by Force.

Coronation Will be in Month of August.

Eastern Weather Ranges From Excessive Heat to Cloudbursts.

OBJECT TO TAXATION.

San Jose, Cal., July 7.—The most sensational scene in the history of the local city government was enacted today. The attempt of Mayor Martin and City Clerk Cottle to retain possession of their offices resulted in failure. Mayor-elect Worswick, Clerk-elect Bell and several councilmen-elect appeared in the council chamber and ordered Chief of Police Haley to remove Martin and Cottle. They resisted and had to be choked and carried out bodily.

CROWNED IN AUGUST.

Edward's Recovery so Rapid the Date Is Fixed.

London, July 7.—King Edward will be crowned between August 11 and 13. His recovery has been so rapid and satisfactory the above decision was arrived at today. No official announcement of the fact has yet been made. The pageant through the streets and ceremony at Westminster Abbey will be much curtailed from the original plan.

At 10 o'clock this morning the following bulletin on King Edward's condition was posted: "The king had a fine, natural sleep and progress continues uninterrupted. The wound is discharging freely and is less painful to dress."

EASTERN WEATHER.

Both Excessive Heat and Cloud Bursts Are Reported.

Pittsburg, Pa., July 7.—Six deaths and a score of prostrations is the record of the past twenty-four hours. At 10 o'clock this morning the thermometer registered 85 degrees with the mercury still rising and promising to pass the year's record. Last night was the hottest of the season. There was much suffering among the mill workers and many were forced to return to their homes.

Rain and Cloudburst.

Olean, N. Y., July 7.—A heavy rain and cloudburst did much damage throughout Allegheny county yesterday morning. Many washouts along the Rochester division of the Western New York and Pennsylvania railroads occurred and all trains are abandoned. On the Erie railroad washouts have occurred at several points between Salamanca and Hornellsville and at Selo the bridge was carried away. Much stock was killed by lightning, and Paul Fahr, 19 years old, was drowned.

Bottom Lands Covered.

Utica, N. Y., July 7.—The Mohawk river has risen above its banks from Rome eastward and the water now covers thousands of acres of heavy grass ready to harvest and all bottom lands devoted to mixed farming. In some places in the Mohawk valley the farmers lost nearly all the crops of this year from high water.

Heavy Deluge.

Buffalo, N. Y., July 7.—A message from Belfast, below Porterville, says the flood there equaled the deluge the year of the Johnstown flood. Loss of life at Belfast has been reported but the message made no mention of any casualties.

Object to Taxation.

Davenport, Iowa, July 7.—At today's session of the national convention of the North American Turnbund a movement for the exemption of property of Turner societies from taxation was renewed. The contention is the Turner properties are devoted to physical and mental training, and should not be taxed more than schools, charities and Christian association properties.

BACK FROM THE PECOS.

J. W. Edwards, the undertaker, and W. V. Furelle, the furniture dealer, have returned to the city after remaining away ten days fishing and hunting on the upper Rio Pecos reserve. They report having had a splendid time, and Mr. Edwards says the Fourth of July dinner served at Winsor's was one of the finest meals he ever enjoyed. The guests had provided themselves with the usual Fourth of July firecrackers and the great American national holiday was appropriately observed.

County Commissioners.

The county commissioners were in session today but considered only routine matters. The session was a brief one and final adjournment was taken this afternoon.

At Gallup.

Judge B. S. Baker, judge of this judicial district; G. V. Crosby, deputy

district clerk; F. W. Clancy, district prosecuting attorney; H. P. Owen, the stenographer and several Albuquerque attorneys, are at Gallup, where the July term of the McKinley county court convened this morning. Owing to the sudden illness of Mrs. Dame, the district clerk, Capt. W. E. Dame, was unable to make the trip to Gallup.

Col. Borradaile states that the First Regiment band, N. G. M., under the directorship of James Devine will give a concert at Robinson park Sunday evening. The program will be published later.

Edoore Muensterman, the popular railroad avenue shoe merchant, and Otto Berger, of the French bakery, are at the Jemez hot springs taking the baths and enjoying themselves.

The second hand dealers all report a big business with country people last Saturday.

Edward Grunsfeld, and E. G. Abrahams, of the Equitable Life Assurance society, are at home from a business trip to the northern cities.

IN PROBATE COURT.

Will of Frederick Burrus Was Admitted to Probate.

WHAT IT CONTAINS.

Probate court was in session this morning and the will of the late Frederick Burrus was proven and admitted to probate. It is dated November 16, 1901, and after providing for his burial and the payment of his debts, gives five dollars each to Fred Burrus, Louis Burrus, George Burrus and S. Caroline Fink. To John A. Cuneo he gave \$100 and the same sum is bequeathed to Mary Fink but it is to be held by Mrs. Mathilde Cuneo until she is 21 years old and then paid to her.

Mr. Burrus provided last during the first year after his death \$100 is to be paid from the estate for charity. This is to be done by Mrs. Cuneo and she is given absolute freedom as to whom, when or the manner in which this sum is to be expended. The will also provides that out of the bequest to Mrs. Cuneo she shall spend five dollars a month for charity for five years. She is instructed as to where or how it shall be spent.

After the above bequests are paid the balance of the estate, both real and personal is left to Mrs. Cuneo in appreciation of her care of him. The will specifies as the real estate belonging to him a house and lot at 311 North Second street, a house and lot on Third street just south of the German Lutheran church and a house and lot on West Tijeras east of Moses Garcia's property.

The will named Mrs. Cuneo as executrix but a codicil dated December 4, 1901, said the estate had been informed she would be unable to serve so he would revoke the appointment and name Joe Barnett as executor. Melquiades Martinez was appointed administrator of the estate of Jesus Romero of Rancho de Albuquerque.

The will of Tomasa Drifillo was admitted to probate.

WILL PUSH IT

No Time Will Be Lost on the Santa Fe Cut Off.

A preliminary survey will be made through Hell canyon within a few days by a Santa Fe engineering corps to test the feasibility of that pass as an entrance into Albuquerque for the cut off from Portales to the Santa Fe Pacific. The question is to find the easiest route into the city. It is expected the surveying corps now at work in Oklahoma will be moved here, as the work is completed there, and will begin the final survey from Portales.

Last week sixty mile teams were secured in El Paso and will be sent to Portales at once. They were wanted on the grade of the Santa Fe Central and negotiations were entered into for them but they were secured by the Santa Fe.

STRONG INSTITUTION.

Attention Called to Bank of Commerce Statement.

The Citizen presents the report of the condition of the Bank of Commerce, and asks the readers of this paper to read over carefully the figures. It presents the fact that since the last report the business of the bank increased in deposits alone nearly \$200,000, showing a positive conclusion that this institution is substantially gaining favor with the banking public. Its officers are among the best financiers of the city, while the directory of the bank constitutes a list of names who are known as among the solid business men of central New Mexico. The Bank of Commerce is all right, and The Citizen cheerfully recommends it as one of the strongest banking institutions in the whole southwest.

Report Good Time.

The picnic party composed of young people who have done Bear canyon since Thursday night, returned home last night. They report having had a fine time, with exception of two or three of the party who came home sick. The party was composed of: Misses Ethel Gatlin, Nellie Bessler, Mary and Beattie Teifer, Moore, and Helen Finch, and Messrs. Lee Hutchinson, Glen and Bernalillo Bearpur and James Foley. The party was chaperoned by Mesdames Gatlin and Teifer.

Work will begin on the Albuquerque Eastern railroad in October.

The indications are good that there will be little opposition in the senate to the statehood bill.

Timber cutting on the Pecos forest reserve should be stopped. That great watershed of New Mexico should be protected.

The Albuquerque Eastern road is almost assured. The road will be forty-seven miles in length and it will probably be completed to this city by the first of next April.

Governor Otero returned to Santa Fe yesterday afternoon from Raton, and reports that the people of that city held a largely attended celebration on the Fourth of July.

Judge Benjamin S. Baker and Hon. F. A. Hubbell, of this city, made neat speeches at the Elks banquet at Silver City, and Judge Baker in the disguise of an Irish policeman, captured the whole population of that city.

The friends of Hon. W. S. Hopewell have started a boom for him for United States senator. If the state is admitted and Hopewell concludes to make the race, he will make a lively run. He is a democrat with republican ideas.

STATEHOOD STATUS.

An entirely wrong impression has gone out over the country with reference to the strength of the statehood bill in the United States senate. The fact is that there are from thirty to thirty-five republican senators in favor of the admission to statehood of one, two or all of the territories applying, and between eighteen and twenty in favor of the omnibus bill as it stands. The democrats in the senate are a unit for the omnibus statehood bill as it stands. A poll of the senate showed sixty-nine out of the eighty-eight senators in favor of statehood in some form. On the day that Senator Quay forced the opposition to fix a day in December for the bill, if he could have obtained a vote on the floor of the senate, the omnibus bill as it stands would have received a vote of forty-five to thirty-eight in its favor, or a majority of seven as the vote stood. The statehood bill has many friends who will vote for it on the floor of the senate when properly brought there, who would not vote to take it away from the committee in the unusual manner it was sought to be done, as it was considered an affront to the majority of the committee on territories.

SILVER CITY CELEBRATION.

The delegation of Elks from this city who attended the celebration and carnival at Silver City on the Fourth of July are warm in their praise of the generous treatment extended to them by the patriotic and enterprising people of that city. The celebration was a grand success in every particular and nothing occurred to mar the festivities. The Elks had worked hard upon the preparations and the result was one of the most pleasant and lively celebrations ever held in this territory. Col. John W. Fleming, the mayor, was in charge of the festivities and he was ably assisted by faithful committees. The queen of the Elks' carnival, Miss Ollie Whitehill, captured the Albuquerque delegation by many gracious courtesies extended to them.

The Elks lodge at Silver City numbers about 125 members, and they are the best people in that city. It is hoped that the lodge has cleared a neat sum by this carnival. No more enterprising society exists in the territory, and it deserves the united support of the community.

HAS NO VOTE.

Delegate Rodey, in his speech before the committee on territories of the United States senate, on Saturday, the 28th of June, last, made the truthful statement that one of the most cogent reasons why the people of the territories demand statehood, is because they cannot, in the nature of things, be adequately represented by a single, voteless delegate in congress. He declared that a great territory like New Mexico, Oklahoma or Arizona, particularly its own territory, has not only to seek necessary and beneficial legis-

lation to perhaps twice the extent of any ordinary congressional district, but has also to continuously defend itself against all sorts of pernicious attacks. He declared that more than one-half of his time during the present session was occupied in fighting for his territory's use of its waters, and in fighting fraudulent land grants, reserves, leasing laws, etc., and that it was utterly impossible for a delegate to serve on one or more committees of the house, attend to his usual duties which are large in a territory, and do all this additional defensive work.

The central committees of both political parties should invite propositions from the different towns of the territory in regard to the place for holding the fall conventions. Several towns are anxious to secure these conventions, and the committees could be relieved of considerable responsibility by asking for proposals. The town offering the best inducements in the way of halls, hotels and other conveniences should be selected. There is considerable expense to each committee in holding these conventions, and the towns securing the meetings should provide for these expenses.

APPENDICITIS.

A leading Washington specialist is quoted as follows, in the Washington Star, in regard to appendicitis: "As to the advisability of an operation, that is a matter of opinion, but in the event of gangrenous inflammation, and other dangerous complications, it is imperative. Physicians are often blamed for the loss of a case which the operation will develop that the condition was such that the patient was beyond medical or surgical aid before the operation was even begun. These instances are largely the result of the patient's delay in the initial treatment. Under the old treatment, cases of appendicitis were largely diagnosed as inflammation of the bowels. The public should not forget that the first operation for appendicitis was performed as late as, I believe, 1887. It is absurd to suppose that medical science may master a new condition of disease in a moment, and it should be borne in mind that where patients once died from inflammation of the bowels they now live through appendicitis. There is much needless fear regarding this disease, too. I would much prefer taking my chances of recovery from an operation for appendicitis than from an attack of typhoid, though I am of that branch of the profession which does not look with favor upon the theory of an operation at once under all circumstances."

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Charles Hutton, Ber-ville, Mich.

Big Tennis Games.

Niagara-on-the-Lake, Ontario, July 7.—Interest of lovers of tennis is now centered in the annual championships of the Canadian Lawn Tennis association, which began here today to continue through the week. The contestants represent many parts of the Dominion. The events to be decided are the all comers' singles, handicap men's doubles and ladies' singles.

Cut this out and take it to all druggists and get a box of Chamberlain's Stomach and Liver Tablets. The best physic. They also correct disorders of the stomach. Price 25 cents.

St. Paul's Horse Show.

St. Paul, Minn., July 7.—Society regards the horse show and race meeting which opened today under the auspices of the St. Paul Driving Club, as the event of the summer. The golf links, the tennis courts and the yachts

have been deserted for the state fair grounds. In the quality and number of exhibits the show is the equal of many of the more important metropolitan exhibitions. The complete list of exhibitors is a long one and includes almost every prominent breeder in the west. The sum of \$15,000 will be distributed among the winners.

H. P. Kümpe, druggist, Leighton, Ala., writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 118 worms from the child. It's the best worm medicine in the world." White's Cream Vermifuge improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at Cosmopolitan Pharmacy, B. ELEGANT BANQUET.

Pleasant People Gather at Santa Fe and Dine.

At the Pennsylvania club in Santa Fe yesterday afternoon a royal banquet was spread by the officers of the Santa Fe Central Railway company to a few invited guests from this city. The generous host, R. L. McCance, announced that there was no political or business interests involved and that the gathering was purely social.

W. S. Hopewell acted as toastmaster, who, with the aid of District Clerk A. M. Bergere, as voluntary assistant, kept the company in a cheerful mood during the elaborate banquet of six courses.

Several of the guests were just from Silver City where the Elks, like the wild chamois, had leaped from jag to jag, and were not in physical condition to fully appreciate the generous menu of the liberal host, but with herger's bursts of eloquence they revived and fully enjoyed the happy occasion.

The following guests from this city were present:

Messrs. W. S. Strickler, Charles F. Myers, F. A. Hubbell, M. S. Otero, F. H. Moore, G. L. Brooks, Ernest Meyers, Thos Hughes and George F. Albright. The city of Santa Fe was represented by A. M. Bergere. The following officers of the company were present as hosts: Messrs. W. S. Hopewell, R. L. McCance, W. A. Bayer, E. L. Crichton, J. E. Saint, E. B. Field, Chief Surgeon J. H. Sloan.

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entire satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by all druggists.

Scrofula
THE OFFSPRING
OF HEREDITARY
BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores, and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

How We are Going to Make Dull Months Bright

The next two months are ordinarily dull ones for the dry goods man; he is between seasons. These months have never yet been dull with us. We have always induced people to buy in July and August and we are going to do the same thing this season. We are going to offer values that will clean up our stock. There is no profit in carrying goods over. To make a dull season lively merchandise has got to be put down to low figures—fact the lowest figures of the year. Look over your effects and see what you need. You won't have a better opportunity this year of stocking yourself up on Seasonable Dry Goods. Now for the goods and prices.

MANDELL & GRUNSFELD.

"BILLY THE KID"

REMINISCENCES OF GEN. LEW WALLACE.

Thousands of stories have been told of William Bonney, alias "Billy the Kid," the most notorious and picturesque outlaw ever produced by the "wild and woolly" west. All of these stories are more or less interesting, many romantically exaggerated and nearly all with the only foundation truth that such a character lived and committed many crimes in New Mexico.

Now, General Lew Wallace comes forward with another Billy story, and as should be expected, considering his literary skill and the fact that he was governor of New Mexico during the Kid's heyday and death, the narrative is far the best and most authentic yet published. The story is taken from the advance sheets of the autobiography of General Wallace, now being prepared for publication.

The Citizen reproduces the story for the reason that it is a good one and because it is of distinctly local interest, as there are many of the older residents of central and southern New Mexico who personally knew Billy, Lincoln county being the scene of his principal exploits, and his death. And moreover, Pat Garrett, his slayer, was for years a resident of Roswell and one of the best known and most popular men in the southwest. He is now customs collector at El Paso and it is largely due to this killing of the Kid and other "strenuous" acts as a peace officer that influenced President Roosevelt to give him the Texas office, even though at the time of his appointment he was a resident of New Mexico.

General Wallace's tale follows: The episode occurred in 1879. Billy was at the zenith of his wild career. Governor Wallace conceived the idea that he might gain certain important information by a face to face talk with the outlaw. With much difficulty the meeting was finally arranged. It was not without a strong element of danger to both participants; but they trusted each other and the trust was not betrayed.

On the night of the meeting two men sat silent and expectant, shortly before midnight, in the little hut chosen for the rendezvous, situated on the outskirts of ancient Santa Fe, New Mexico.

The gaze was fastened on the door and as the minutes slipped away, the tension grew more severe, the silence more oppressive. One man was the owner of the rude home that stood desolate on the lonely sand waste of the mesa. The other was General Lew Wallace, the governor of New Mexico.

The hands of the clock pointed to the hour of twelve. The hush deepened. Suddenly it was broken by a resolute knock on the door.

"Come in," called the governor. The door flew open, and standing with his form outlined by the moonlight behind him, was "Billy the Kid." In his left hand he carried a Winchester rifle and in his right was a revolver. Quick as a flash the weapon covered the two occupants of the room.

"I was to meet the governor here at midnight. It is midnight. Is the governor here?"

The light of the candles flickered on a boyish face, yet the man in the doorway was the most notorious desperado in all the west. He had killed scores of men; he was the quarry of every sheriff from the Rio Grande to the Staked Plains of Texas.

In face and figure Billy the Kid was a mere stripling. His narrow shoulders were rounded, his posture slightly stooping, his voice low and effeminate. But his eyes were bright and piercing, steady, alert, cold and gray, like steel.

General Wallace rose to his feet and held out his hand, inviting his visitor forward.

"Your note gave the promise of absolute protection," said the outlaw, warily.

"I have been true to my promise," said the governor.

The rifle was slowly lowered, the revolver returned to its holster. Billy advanced and the two seated themselves at opposite sides of the narrow table.

General Wallace was able to effect an important arrangement with the outlaw of which he gives the details. In fact a very friendly understanding was established between the two.

Explaining the purpose of the interview and its result with Billy, General Wallace says:

"Shortly before I had become governor of New Mexico, Chapman, a young attorney of Lincoln had been murdered. Half a dozen men were arrested, accused of the crime. Among them was Jesse James. While it was probable that one or more of the men charged with the murder were guilty, it was impossible to prove the allegation, for the witnesses, filled with terror, fled the country. When I reached the territory it was declared on every hand that Billy the Kid was a witness of the crime. Could he be made to testify?"

"That was a question on the tip of every tongue."

"I had been sent to the southwest to pacify the territory; here was an opportunity I could not afford to pass by. Therefore I arranged the meeting by a note deposited with one of the outlaw's friends, and at midnight was ready to receive the desperado should he appear. He was there on time—punctual to the second."

"When Billy the Kid stepped to the chair opposite mine, I lost no time in stating my proposition."

"Testily," I said, "before the grand jury and the trial court and convict the murderer of Chapman and I will let you go scot free, with a pardon in your pocket for all your own misdeeds."

"Billy heard me in silence; he thought several minutes without reply."

"Governor," said he, "if I were to do what you ask they would kill me."

"Then I unfolded my plan. Billy was to be seized while he was asleep. To all appearances his capture was to be genuine. To this he agreed, picking the men who were to effect his capture. He was afraid of hostile bullets and would run no risk. Another stipulation was to the effect that during

his confinement he was to be kept in irons. Billy the Kid was afraid also of the loss of his reputation as a desperate man."

The plan agreed upon in the cabin on the lonely mesa at midnight was carried out to the letter. Billy the Kid was seized the following morning and confined in the Lincoln county jail. It was here that General Wallace, in spite of the fears of the guards, permitted the outlaw to give an exhibition of his skill with a revolver and the rifle. Billy, standing or riding, used either the one weapon or the other, sent every bullet true to its mark.

"Billy," said the general, "there's some trick to that shooting. How do you do it?"

"Well, General," replied the desperado, "there is a trick to it. When I was a boy I noticed that a man in pointing to anything he wished observed, used his index finger. With long use, unconsciously, the man had learned to point it with unerring aim. When I lift my revolver I say to myself, finger along the barrel and unconsciously it makes the aim certain. There is no failure. I pull the trigger and the bullet goes true to its mark."

"Billy, though at his own request kept in irons, did not remain long confined. One morning the guards led him to breakfast. Returning, the desperado drew in the feminine voice that was a part and parcel of his character: 'Boys, I'm tired. Tell the governor I'm tired.'"

The menaces slipped like magic from his wrists. The guards stood stupefied, and Billy the Kid, laughing mockingly, walked leisurely from the jail yard, through the gate and across the street. Easily, gracefully, he threw himself into the saddle on the back of a horse standing near at hand, and putting spurs to the animal dashed away.

Billy was gone. He had not escaped in the night; he had walked away in the broad light of day, with his guards, heavily armed, standing about him.

"Boys, I'm tired," he said, and looked them straight in the eye.

They were not in collusion with the desperado. General Wallace satisfied himself of that fact.

But how account for Billy the Kid's escape?

Hypnotism, some say—hypnotism or that strange something that lurked in the depths of the steel gray eyes.

The desperado's freedom, however, was not long lived. He was arrested soon afterward for a series of murders and was brought again to the Lincoln county jail. Patrick Garrett was sheriff. He was probably the one man in New Mexico who did not fear Billy the Kid. He was his match in every respect—as calm, as desperate, as certain.

Perhaps Billy knew this. At any rate he must have considered himself in desperate straits. He sent for General Wallace. The general refused to respond. Then the outlaw sent him a note. The note read:

"Come to the jail. I have some papers you would not want to see displayed."

"I knew what he meant," said General Wallace, reminiscently. "He referred to the note he received from me and in response to which he appeared at the hut on the mesa. He was threatening to publish it if I refused to see him. I thwarted his purpose by giving a copy of the letter and a narrative of the circumstances connected with it to the paper published in the town. It was duly printed and upon its appearance a copy was sent to Billy in his cell. He had nothing further to say."

In the end the desperado was convicted and sentenced to be hanged. When the sentence was read, he stood before the trial judge, and said:

"Judge, that doesn't frighten me a bit. Billy the Kid was not born to be hung."

He was a thorough fatalist. He believed he would not die until his "time came," and then death was inevitable.

From the court room Billy was led back to jail. Nine men were put on guard and he was never allowed a moment from the sight of one of them.

On the day before that set for his execution one man sat in front of Billy while he ate his dinner. During the meal the guard forgot himself and suddenly stooped. Billy's quick eye took in the situation at a glance.

With a leap he sprang upon the bending man and dashed his brains out with his handcufts. He seized the dead guard's revolver and, his steel gray eyes gleaming, walked forward deliberately and routed all the other guards who ran to the assistance of their comrade.

Once more Billy the Kid escaped in the full light of day through the doors of the jail. He forced a blacksmith to take off his handcuffs. He seized the dead guard's horse that stood near by and rode away. He called back as he spurred the animal into a gallop.

"Tell the judge I said Billy the Kid was not born to be hung."

Garrett received information that Billy the Kid had gone back to an old fort in the mountains to see his sweetheart. Garrett followed. He lay in wait in the doorway of the home of Billy's love and finally his vigil was rewarded when he saw the door open one night and a man step out into the white light of the moon.

His hat was off; he was in his stocking feet and he wore only a shirt and trousers. He passed out into the night. Garrett crept to the door and passed in.

He covered the girl's father with his gun.

"Not a word," he said, and slid behind the headboard of the bed.

The door opened again and Billy the Kid entered. He seemed to scent danger as a camel scents rain; instinct taught him that something was wrong. He cried to the cowering old man in Spanish:

"Who's here?" he asked. "Who's here?"

Garrett raised his revolver; two shots rang out on the quiet air and the room filled with smoke. A form tottered, then crashed to the floor.

In the nerveless hand was a smoking revolver; for the first and last time the notorious New Mexican outlaw had missed his aim. Garrett escaped unharmed.

But there were two bullet wounds in the body of Billy the Kid and both pierced the heart. Garrett's aim was unerring.

Today there is a little lowly heap of earth located at Fort Sumner, in the northern part of the Pecos valley. To the curious stranger some idle native may, now and again, point out this grave and explain with a certain pride, that Fort Sumner possesses the final resting place of the worst man that ever infested the southwestern border. An ancient Mexican, who sometimes shows this grave to visitors, once made the cautious remark regarding its occupant that, had he lived, he probably would have turned out to be a bad man.

"And how old was Billy when he died?" asked one curious stranger.

"Twenty-one, señor," replied the ancient.

"He died one might almost say before he fully began to live."

"You say he was bad?" remarked one stranger.

"He is said to have killed many men."

"How many? How many, amigo, had this man killed at the time he himself died?"

"He had killed," replied the ancient Mexican, "twenty-one men, one for each year of his life, may the saints defend us," said the Mexican. "He was a good man and very kind to poor people. Yet had he lived he might, according to the opinion of some, have turned into a bad man."

General Wallace also tells in his autobiography how and why Billy the Kid started on his career of crime.

"The man whose wild deeds of blood had drawn upon him the gaze of an entire nation, was born a New York waif. Before he was more than 10 years of age, he was brought to Indiana, and in Terre Haute and Indianapolis, where he was reared, he was known as William Bonney. It 1876, when he was about 17 years of age, he suddenly left his home, crossed the Mississippi and went into the country of the men of his kind—the frontier of the west."

Billy began his career with an oath to kill John Chisum, his first employer when the lad reached the plains. Mr. Chisum and the Kid had been unable to agree on terms of settlement for a season's work. The result was the lad's fearful vendetta, sworn not only against Chisum, but against all of Chisum's employes as well.

"For each herdman employed by you whom I kill," Billy sent him word, "I will deduct \$5 from our unsquared account. If I kill you, he added grimly, 'my bill will be recouped in full.'"

"Then his bloody career began. It was not long until William Bonney, the waif, reared in the midst of the peaceful surroundings of Indiana, became the most feared man in the southwest. At the same time he was the most revered, the most adored and the most respected man in the territory."

"It was the kind of good reward that sometimes comes to bad men."

THE HAIR BRUSH

Breeds Dandruff, Which Causes Failing Hair and Finally Baldness.

Prof. Unna, Hamburg, Germany, European authority on skin diseases, says that dandruff is as contagious as any other malevolent disease and that one common source of the spread of dandruff is the use of the same hair brush by different persons. The way to avoid catching dandruff or any other disease from another's brush is to insist on the use of Newbro's Hairbrush. It not only kills the dandruff germ, but it is also an antiseptic that will prevent the catching of any disease whatever through contagion of another's brush.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dullness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. J. H. O'Reilly & Co., B. H. Briggs & Co.

SWEET'S NEW JOB.

Rumor That He Will be Assistant Manager of the Santa Fe Verified.

MINING OPERATIONS.

Special Correspondence.

Las Vegas, N. M., July 5.—The mail route from Las Vegas to Geronimo has been changed from the west side to the east side postoffice, and will start Tuesday. The route will be via Gillon.

There is a rumor that bears evidence of being a fact and has today been verified, that Arthur Sweet, the new trainmaster who has been here only a few days, has been given the office of assistant to the general manager of the Santa Fe at Topeka, in place of D. E. Cain, who has been made superintendent of the western division, taking J. E. Hurley's place, who has been given the superintendency of the eastern division, vice C. F. Rossegue resigned. Mr. Sweet is only about 25 years of age, and was raised in this city. The honors are coming fast for him. He is very popular and is an efficient railroad man. It is to be hoped the rumor is true. Who will take the place vacated here is not suggested.

Bert Adams and bride returned Friday from their honeymoon trip to Colorado Springs, and will now settle down and be "old folks."

A. A. Jones returned last night from Albuquerque.

Joshua Reynolds and daughter, Mrs. Dean, departed this afternoon for the Duke City.

Governor Otero returned to the territorial capital this evening after a day in the city.

G. H. Brewer, of Albuquerque, is here.

J. A. Schoen and wife, of Chicago, parents of John Schoen, of this city, who is quite ill, come in last night.

The remains of Mrs. J. Blatterman were shipped to St. Louis this afternoon, accompanied by her mother.

Friday a telegram was received by A. F. Ullrich, chief of police on the west side, announcing the death of his nephew, Marcelino Martinez, on Thursday night. The deceased, who was 19 years of age, fell from a freight train near Glorieta and was cut to pieces. He was a section man, and was riding on the freight train to his home. The remains were taken off at Ribera and conveyed to the home at San Jose, where the funeral will be held tomorrow.

The annual ball given by the Brotherhood of Locomotive Firemen at the opera house, Friday night, was one of the most successful yet enjoyed by that popular order. The opera house was beautifully decorated with red, white and blue, strung from the immense center light, and on the stage was built an engine front with large headlights, with the firemen's bell on the side. At midnight, a bounteous feast was served to the gay throng, after which the dancers returned to the opera house and indulged in the fantastic until 3 o'clock the next morning. Prizes were given for the best waltzers, and Mr. and Mrs. Hilgers were the fortunate ones.

The ball game between the infantry and the cavalry troop on the Fourth resulted in an overwhelming victory for the cavalry boys. The score was 16 to 6, with only six and a half innings. The crowd was rather light, and a disagreeable wind made many of them leave soon. About \$19 was realized at the gate.

The new machinery for the coal mines at El Porvenir is about all in place and the drill will be started next week. The drill is built for a depth of 700 feet, but it is expected that coal will be reached in a sufficient thickness to mine, long before that depth is reached.

Harry Lamberton has resigned his position as fireman on the Santa Fe and has accepted a position with the Rock Island as traveling engineer. His headquarters will be at Alamogordo.

Will M. Seewald, son of Col. William H. Seewald, died Friday afternoon at 2 o'clock. Mr. Seewald had been a sufferer from creeping paralysis for twelve years, and had spent much of that time at health resorts and in hospitals, seeking relief from the trouble that caused his death. He returned here about six weeks ago from El Paso, where he received no benefit and gradually grew weaker. A large crowd attended the funeral which was held this afternoon at 2 o'clock from the residence on Fifth street.

The options given W. B. Twitchell on a number of mining properties in the Bernal, Fulton and Ribera districts have been extended, owing to a slip in the deal that was on foot with a St. Louis company of capitalists to take hold of some of the properties and erect a reduction mill. The slip can not be attributed to the local parties, but to the failure of P. W. McCaffrey, of the Union Ore Reduction company, to give plans of the proposed mill that was to have been erected, thereby frightening away the St. Louis money. Chicago parties are anxious to take hold of the proposition, however. They have been agreed that the field is open and they are expected to take hold of the matter at once. There are going to be developments made in the mining districts around here, if push and determination, as well as confidence, can succeed and we believe they can.

Fritz Eggert, one of the well known ranchmen and orchard owners living at Canyon Largo, was found this morning in the corral back of Bacharach Bros.' store, in an unconscious condition. Medical aid was summoned about 7:30, but Mr. Eggert died before the physician arrived. Heart failure is supposed to have been the trouble.

The Fourth did not pass without its accidents here. J. K. Williamson got an eye badly injured, probably fatally, by a cannon cracker. Gladys McVey got a bruise across the nose; a boy named Martinez had a hand badly lacerated by holding a cannon cracker; a son of Epifanio Gallegos received a burn on the face and powder in his eye, as did C. R. James. H. M. Allen also got a badly injured eye from a cannon cracker he did not think was lighted.

A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this remedy in the house, especially in summer time.—Lansing, Iowa, Journal. For sale by all druggists.

NEW MEXICO TOWNS

SAN MARCIAL.

From the Bee.
The second crop of alfalfa is being cut and saved in good shape.

William E. Young, a resident of Old Town, and quite an old timer in this vicinity, died at 3 o'clock Tuesday morning.

The new contractor is packing the Roodale mail on horseback. This is looking backward with a vengeance and the service cannot fail to be a discredit to the postoffice department.

S. A. Clark has gone back to his old home at Cherry Valley, Ohio, to spend some three months. Mr. Clark has many friends here and if the rumor is true that he will return with a young wife, they all offer congratulations in advance.

H. H. Morgan and Dr. Riggs were in from the Armstrong ranch this week. They brought in the skin of a large black bear and the skin of a monster mountain lion. The doctor was looking well and the stories told of his prowess as a mighty hunter were ignored by him with becoming modesty.

For forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

LAS CRUCES.

From the Progress.

Dr. B. E. Lane spent a couple of days this week at Modoc.

Marriages are getting to be quite a fad in Las Cruces lately.

Mrs. G. T. Preston will leave soon for her old home in England.

Virginia Carrion died last Tuesday, after having suffered a long illness.

H. D. Bowman and wife left for a summer vacation on the Pacific coast.

Miss Lottie Sweet has been visiting with Mrs. Roberts, the milliner, this week.

Miss L. Etnieridge has been visiting her sister, Mrs. Coleman, of Mesilla Park, the past week.

Ralph French is in from his cattle range for a few days. He reports that he has a good water supply and that his cattle are not suffering from the dry weather.

While Willie Lerma and a companion were inspecting a toy pistol Friday it went off. Willie got the full effect of it in the face and will be laid up for a time.

This week W. E. Baker acquired control of the Hafez telephone by buying.

This will give Mr. Baker complete control of the telephone situation in Las Cruces, and will give him the opportunity to give Las Cruces first class service. There is plenty of room here for one telephone company. We can not but condemn the course some have taken in ordering their 'phones taken out on learning the change. The Progress likes the change no better than a good many others, but we can not see that this is a sufficient reason for injuring the telephone service. It is only spite work and will not benefit those ordering 'phones out in any way, while it will injure Las Cruces. It is probable that Miss Archibald, who has given such excellent satisfaction as "control" for the Hafez line, will be retained in the same position for the consolidated company.

The Perfect Liver Medicine.

Mrs. M. A. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it." Malaria cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons. Herbine is a most efficient liver regulator. 50c at Cosmopolitan Pharmacy, B. Ruppe.

SAN JUAN COUNTY.

From the Times.

A new railing that adds very much to the beauty of the interior of the First National bank has been put in place. The railing was furnished by Graf & Johnson.

Work was resumed on the Blake oil well Tuesday, and will now be pushed with all possible speed until oil is found in good quantities or the operators are satisfied that it is not below them.

Dr. T. B. Lee, who for several months has been operating a process of gold extraction on the placer claims up the San Juan, has sold the right of Colorado parties for \$3,000. The process is his own invention.

The Odd Fellows elected officers at their meeting Tuesday night as follows: N. G. L. H. Miller; V. G. Harvey; Treasurer, W. H. Cham; Secretary, W. N. Kight; representative to the grand lodge, which meets at Socorro in October, Dr. O. C. McEwen.

One of the best returns from a small area of hay ground that has come to our notice is that of Brothers & Andrews, who now own the Lou Co. ranch. On their first cutting of alfalfa they cut 2 1/2 acres which they sold to parties before it was thoroughly cured at the rate of \$1.50 per ton. The crop when weighed in the condition it was when sold, made ten tons, thus bringing the owners \$45 for the products of 2 1/2 acres of alfalfa from the first cutting. If any one in or out of San Juan county can beat this record we want to hear from them.

From the Hustler.

Attorney Whitehead is doing about all the legal work of this town.

A new boy has arrived at the home of Mr. and Mrs. Harry S. Allen.

The electric lights give Farmington quite a metropolitan appearance.

Tons of watermelons and cantaloupes will be raised this year in and around Farmington.

James Pierce had the misfortune last week, in dislocating his wrist, by falling off a load of hay.

The home of Rev. and Mrs. J. A. Lewis was blessed Tuesday morning, June 24, by the arrival of a big bouncing baby boy.

The piped water system is becoming very popular these warm days. It enables the merchants to keep the streets and sidewalks well sprinkled,

which greatly reduces both the heat and dust.

Mrs. W. R. Epperson, who has been a helpless invalid for the past seven years, died Tuesday night and was buried yesterday afternoon in Greenlawn cemetery, the funeral being private. Mrs. Epperson was 58 years of age, leaving a devoted husband to mourn her loss.

Dr. T. Mitchell Prudden, of Columbia college, and Clayton Wetherill arrived in Farmington yesterday for the purpose of outfitting for a two months' trip among the aztec ruins along the lower San Juan. This is the seventh season Dr. Prudden has spent in the vicinity, gathering data for a concise map of the ancient ruins of the southwest. Mr. Wetherill always acting as his guide. F. E. Hyde, Jr., of New York city, will be here tomorrow evening and accompany them on the journey.

Death brings its sorrow, especially so, when in its wake, it leaves a vacant crib and removes the cheery voice of the last born. Such was the experience last Friday of Mr. and Mrs. J. M. Palmer, in the loss of their bright and attractive 2-year-old baby boy, Earl, after only a week's illness. Interment was held Saturday from the family residence, J. B. Ashcroft and J. H. Jean of the church of Latter Day Saints officiating at the grave. Universal sympathy is extended to the parents in their sad affliction.

Aztec.

From the Index.

Dr. A. Rosenthal, of Farmington, and E. N. Buck, of the New Mexico Directory company, were Aztec visitors this week.

The influx of immigrants promises to be more of an influx than ever during the fall months. They are surely coming.

The first crop of hay is about all in the stack, and the universal report is that the yield is the heaviest for years, if not in the history of the county.

Estes, the forger, now in the county jail, essayed an escape last week. He had started to flee through the tuff-tuff bars of the jail, when Deputy Sheriff Charley Baker tumbled to his racket.

Some of the Aztec boys have purchased a set of band instruments and are practicing regularly and expect to give Aztec a brass band ere many weeks. They have about twelve pieces in the band. They deserve success.

They do say the Navajos are in a bad way. The drought has played havoc with their live stock and the low prices of blankets have played havoc with their finances. One of the trading stores is reported to hold 2,000 pawns which the reds are unable to redeem.

Frank B. Allen, Farmington's popular livery and hotel man, was an Aztec visitor, accompanied by his wife. It was Frank's first trip to the county seat in two long years, and he says he came near losing the road. He was duly impressed by the improvements noticeable in this end of the valley.

T. K. Holden, well known to Aztec and San Juan county, is running a rooming house at Eureka, above Silverton. M. M. Condon, who conducted the barber shop here last winter, has a shop in the building occupied by Mr. Holden. Dr. E. G. Colditt is also located at Eureka. He is assistant superintendent of the Sioux Mining company and is engaged in the practice of medicine, which brings him in a comfortable monthly income.

DEMING.

From the Headlight.

Jesse B. Pease, bookkeeper and clerk for N. A. Bolch, expects to start about the 10th of this month for a visit to his parents in Pennsylvania. Mrs. Pease is in Seattle at the present time.

Edwin Matthews, who has resided here with his uncle and aunt, Mr. and Mrs. E. Matthews, for the past seven years, left for a visit to his parents and relatives in Chillicothe, Mo.

Probably the largest valued deed that has ever been recorded in New Mexico was that of the Southwestern Railroad company to the El Paso & Southwestern Railway company, which was filed with the probate clerk of Luna county, B. Y. McKee, this week. The deed is of value \$5,500,000, and bore revenue stamps to the value of \$27,487.

Mollie Wilson, the insane woman, who has for the past year been in confinement in the jail of this county and for a long time before that was confined in the Grant county jail will be sent to the insane asylum at Las Vegas early next week. This will release the jail.

PRESSED HARD.

Coffee's Weight on Old Age.

When prominent men relate the injurious effects of coffee and the change in health that Postum can bring, they are glad to lend their testimony for the benefit of others.

C. C. Wright, superintendent of public schools in North Carolina, says: "My mother, since her early childhood, was an inveterate coffee drinker and had been troubled with her heart for a number of years and complained of that 'weak all over' feeling and sick stomach."

"Some time ago, I was making an official visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat peculiar flavor to the coffee, and asked him concerning it. He replied that it was Postum Food Coffee. I was so pleased with it, that after the meal was over, I bought a package to carry home with me, and had wife prepare some for the next meal; the whole family were so well pleased with it, that we discontinued coffee and used Postum entirely."

"I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time, she felt so much better than she did prior to its use, and had little trouble with her heart and no sick stomach; that her general condition much improved. This continued until she was as well and hearty as the rest of us."

"I know Postum has benefited myself and the other members of the family, but not in so marked a degree as in the case of my mother, as she was a victim of long standing."

move quite a burden from this county, as the expense of the woman's keeping was no small affair.

Miss Pansy Smith, who for the past nine months has been absent from her home in this city attending school in New York, returned, and it is hoped by the many friends of Miss Pansy that she will now remain in Deming, where she has a host of warm friends.

Miss Dot Galloway, accompanied by Mrs. McIntosh, of Salt Lake city, and with whom Miss Galloway has been visiting for the past three months, passed through Deming for her home in Silver City. Miss Galloway is practically cured of the rheumatism with which she was a great sufferer when she went to Salt Lake.

W. H. Greer returned from a hurried trip to California. Mr. Greer was accompanied on his return by D. M. Linnard, of Pasadena, Cal., who is now looking over the country with a view to investment. It is expected now that Mr. Linnard, in company with other capitalists who will come here, will soon open a bank in this city. We are reliably informed that the new bank will be opened in the new Clark & Co. building that is now being built at the corner of Gold avenue and Pine street.

Save a Woman's Life.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe, and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from coughs, colds, throat and lung trouble need this grand remedy, for it never disappoints. Cure is guaranteed by all druggists. Price 50 cents and \$1. Trial bottle free.

SOCORRO.

From the Chieftain.

R. W. Monroe arrived in the city and received a hearty welcome from his numerous Socorro friends.

Mrs. John Greenwald has returned from a visit with relatives and friends in St. Louis and Kansas City.

Dr. Wm. Driscoll, Pierre Hines and Marvel Smith came down from an extended stay in Water canyon.

May & Yunker have leased the Browne & Manzanares store building near the depot and will convert it into a storage warehouse.

Miss Flora Emig, of El Paso, is a guest at the home of her uncle and aunt, Mr. and Mrs. W. G. Hammel, on California street.

W. H. Byerts is still making some progress in drilling for water on his ranch west of town, though not so rapid progress as he could wish.

C. H. Elmenhorst, of the American Valley company, was in Magdalena awaiting the arrival of a large quantity of wool from the ranges for shipment.

Miss M. P. Clark, of Worcester, Mass., and Will W. Clarke, of Organ, N. M., were in town between trains on their way to visit their parents, Mr. and Mrs. C. C. Clark, of Kelly.

Miss Mary T. Stevens, of La Junta, Colo., is visiting at the home of her uncle and aunt, Mr. and Mrs. James Stevens, on her way home from a prolonged stay in Prescott, Ariz.

The glorious Fourth was a quiet day in Socorro. There was a generous display of flags and bunting and the small boy celebrated in the usual way. Otherwise an unusual quiet pervaded the city.

Samuel Locke was in Magdalena in his capacity of cattle inspector to look after the shipment of several carloads of cattle and horses from the western part of the county to eastern points. Mr. Locke is giving excellent satisfaction in the position he now occupies.

Dr. Charles R. Keyes, director elect of the faculty of the School of Mines, expects to arrive in Socorro about the first of August. He writes C. T. Brown, secretary of the board of trustees, that he has already received letters of inquiry concerning the work of the school from a number of young men in various parts of the country, and that he hopes to see a considerable increase in the number of technical students in attendance at the institution.

If a Man Lie to You,

And say some other salve, ointment, lotion, oil or alleged healer is as good as Bucklen's Arnica salve, tell him 30 years of marvelous cures of piles, burns, boils, corns, felons, ulcers, cuts, scalds, bruises and skin eruptions prove its the best and cheapest. 25c at all drug stores.

IN FAVOR OF SHEEPMEN.

Judge Holds There is no Law of Congress to Keep Off Reserves.

In the United States district court Judge De Haven granted the motion in arrest of judgment in the case of the United States vs. Peter Camon, following the decision of District Judge Welborn, of Los Angeles, in a similar case brought before him in 1900, says a recent dispatch from San Francisco.

Peter Camon was charged with violating the regulation of the interior department which prohibits the pasturing of sheep on the federal forest reserves, and provides a punishment for those violating this regulation. In passing on the matter the court said: "There is no law of congress making it an offense to pasture sheep upon forest reservations, and I fully concur in the opinion of Judge Welborn."

Three similar cases are now pending in the same court and Assistant United States Attorney Hanning said that under this ruling it would be necessary to enter a nolle prosequi in each case. This will throw open the reserves to the sheepmen unless the forest guardians take the advice of Hanning, and immediately on learning that sheep are herding on the reservations apply for an injunction. If a restraining order is not heeded the owners and herders may then be punished for contempt of court.

Police Court.

Judge Crawford has returned from a few days' outing in the mountains and police court opened this morning for the first time since the Fourth. The first case this morning was composed of three vagrants and one nuisance. The vagrants were given ten days each and C. Mora, who was arrested for committing a nuisance, got \$10 or ten days.

C. N. Stevens was a passenger north last night.

Few people can understand the feelings of the pugilist as he is being counted out. He hears the seconds ticked off. He struggles to rise, but struggles in vain. He has lost the fight.

There are some who are making a losing fight for life that can appreciate this, those whose lungs are diseased. With every tick of the watch, they know that they are being counted out.

The great question is how can a quick rally be made to continue the fight against disease? Many who have asked that question have found a satisfactory answer in the use of Dr. Pierce's Golden Medical Discovery. It cures bronchitis, obstinate, deep-seated coughs, hemorrhage, night-sweats, emaciation, and other conditions which if neglected or unskillfully treated may find a fatal termination in consumption.

"When I commenced taking Dr. Pierce's Golden Medical Discovery," writes Mr. John T. Reed, of Jefferson, Jefferson Co., Ark., "I was very low with a cough, and would at times spit up blood. I was not able to do any work at all, was weak and my head was dizzy. The first bottle I took did me so much good that I had faith in it and continued until I had taken twelve bottles. Now I do not look like nor feel like the same man as I was a year ago. People were astonished and said they did not think I could live. I can thankfully say that I am entirely cured of a disease from which had it not been for your wonderful 'Discovery' I would have died."

There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

The Prevailing Fad.

For the occult, the mythical and the astrological, has inspired a clever designer to utilize the idea by producing a series of twelve unique and beautiful designs for birthday pillows. Zodiacal sign, the ruling planet, the gem to be worn, the appropriate flower, the astral colors and a jingling rhyme referring thereto, all well arranged and tinted in colors, ready to be embroidered. Price for top and back, 65 cents, at the Economist.

Railroad Topics

J. T. McLaughlin, of the Santa Fe Central, was a passenger for Kennedy last night.

Fred Mudge, resident engineer for the Santa Fe, with headquarters at Las Vegas, is in the city.

Trainmaster Gibson, of Winslow, spent the fourth visiting with his family on West Gold avenue.

Road Foreman William Daze has returned to his home at Winslow, after spending a few days in this city.

S. Vann, who was down at San Marcial regulating railroad watches disordered by the fire, has returned to the city.

Conductor J. B. Skinner, a jolly, good fellow, who has been visiting in Kansas City for the past two weeks, has returned to Winslow.

J. E. Hurley, the newly appointed superintendent of the eastern grand division, arrived in Topeka last Thursday, and took charge of his office the next day.

The poles have been distributed and the holes dug for the telephone line between Needles and Gold Road mines. The line is completed to that point from Kingman.

J. E. Saint, secretary for the Santa Fe Central and Albuquerque Eastern, came down from Santa Fe last night. He returned to Kennedy this morning.

It is estimated that the exclusive use of fuel oil on the Southern Pacific will net a saving of \$1,500,000 a year over coal. The company has ordered 250 new oil tank cars with a capacity of 13,000 gallons each.

The announcement is made that the Santa Fe will at the end of the present month abolish the position of superintendent of bridges and building at Topeka, which is now held by E. McCann. The work will be done under the direct control of the general superintendent, J. E. Hurley.

General Manager Mudge, of the Santa Fe, officially announces that he has appointed A. E. Sweet, at present trainmaster at Las Vegas, to the position of assistant general manager, which is left vacant by the promotion of D. E. Cain to the superintendency of the western grand division.

An official of the Santa Fe states that the company's electric plant at Needles will be in operation in about a month. Arc lights will be placed, one in front of the reading room and one in front of the hospital, while several others will be placed in various points of yards and depot grounds.

The Deming Headlight says: The Mexican who was brought to the hospital in this city some time ago badly mangled from a too intimate acquaintance with a railroad train on the Bisbee, concluded last Tuesday night he would give up the struggle which he was, and died. He was buried at this place the next day.

A fire in the Needles round house a few nights ago nearly ruined passenger engine No. 480. While standing over a pit the oil caught fire. She was run out of the house, but before the flames were extinguished the cab was a total wreck, and the tank badly blistered and warped. It is said the fire was due wholly to the carelessness of the men who were working on the engine.

A Bisbee combination baggage and express car is standing in the Santa Fe yards at Deming that one might imagine had been spewed from the mouth of Mt. Pelee in the recent troubles with that crater. It was run into at Las Vegas and now a comparative wreck. Formerly this car was quite an elaborate affair and it is a pity that it got busted up before the Bisbee had an opportunity of using it at least once.

Santa Fe Museum and Freight Buildings.—Work on the new Santa Fe freight depot is progressing in a very satisfactory manner," says J. A. Harlan, superintendent of bridges and buildings on the Rio Grande division, and who is overseeing the building of the new freight house. The office department of the building will be ready for occupancy by the first of August, and the building of the platforms and freight sheds is only a small job. The laying of the tracks will take several days, so we do not expect to get any freight in to the warehouse before September.

The office part of the building resembles an old Spanish block house. The windows are set high in the wall and are square in form. Each of the four corners of the building is capped with a miniature castle.

The museum building has at last been finished, and presents a very striking appearance. The Harvey collections of Indian curios and antique pottery will be moved in immediately. The carpenters had one little accident in placing the large plate glasses, which form the east side of the building and the west side of the arcade. A three-cornered piece was broken out of one of the plates. These large oval-shaped glasses give the building a nice appearance and make ideal show windows.

Hunting a Railroad.—M. J. Murphy, a retired railroad contractor of Phoenix, Ariz., arrived at Roswell and has been quartered at the Shelly, says the register. He helped build the Southern Pacific years ago and after that was connected with the building of the Arizona canal in the Salt River valley. It has been rumored that he was here to get information in reference to the extension of the Pecos Valley & North-eastern from Roswell to El Paso, but when asked about it by a Register representative, he said there was nothing in it. He is said to have called on Mr. Hagerman at South Spring on Wednesday, which gave color to the report about the extension to El Paso.

Survey Completed.—A recent communication from Congress Junction states that the survey of the railroad line from that place westward to the Colorado river has been made, but that it will be some time before work in earnest is begun on the construction, says the Kingman Miner. The road is one of the most important ones in the country and would give Phoenix an almost direct outlet to the coast, besides opening up one of the richest mineral and agricultural countries in the territory. Along the Santa Maria and Bill

Williams Fork there are hundreds of mining claims that could be cheaply developed and placed on a paying basis if the road was put in, and these mines have to now lie idle on account of their isolation.

Lape Has a Job.—C. F. Lape, until the last eruption among outcrops in the mechanical department at San Bernardino, division master mechanic, has engaged his services to a tool company of Chicago and has started on the road to represent the firm. Mr. Lape is a railroad man of much experience and it is not believed that he will remain content out of that service long. He was with the Wabash in Illinois previous to taking the place which he held with the Southern California at San Bernardino.

Repulsive Features. Blackheads, pimples, greasy faces and muddy complexions, which are so common among women, especially girls at a certain age, destroying beauty, disfiguring and making repulsive, features which would otherwise appear attractive and refined, indicate that the liver is out of order. An occasional dose of Herbine will cleanse the bowels, regulate the liver and so establish a clear, healthy complexion. 50c at Cosmopolitan Pharmacy, B. Ruppe.

COL. J. N. SMITHEE.

Fearing to Be a Cripple He Commits Suicide in Little Rock, Ark.

Col. J. N. Smithee, for twelve years a resident of Denver and formerly an editorial writer on the Rocky Mountain News, committed suicide in Little Rock, Ark., some time Saturday morning by firing a bullet into his brain. The dead body of the colonel was found in a room of the Merchants' hotel in that city, a pistol clamped in his right hand and a bullet hole through his head explaining the manner of death. A further explanation was contained in the following note left on the table:

"For cripples, paupers and mendicants I have no use. Fearing I may get in one of these classes by reason of the injury with which I was recently visited, I end the doubt."

Fearing to Be a Cripple.

Mr. Smithee referred to an accident which happened to him in New York last November. He fell upon the sidewalk and received an injury to his ankle which kept him in a hospital almost continually from that time. He had been able to get out a number of times but always to be forced to bed again. It is supposed that a return of the trouble led to the despondency that caused him to take his life. The injury was especially severe to Mr. Smithee as he was a very large man. The coroner's jury of Little Rock returned a verdict in accordance with the above facts. The funeral over the colonel's body will be held in Little Rock, under charge of his brother in law, James Cook, a prominent resident of that place.

Colonel Smithee was well known throughout New Mexico, and for some time he was stationed at Santa Fe as a government land department inspector. Mrs. Smithee and family of six children—three sons and three daughters—survive him; all live in Denver, and are employed in that city.

"I am using a box of Chamberlain's Stomach and Liver Tablets and find them the best thing for my stomach I ever used," says T. W. Robinson, justice of the peace, Loomis, Mich. These tablets not only correct disorders of the bowels but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by all druggists.

SANTA FE COURT.

Water Decree Signed—Suit Against George Hill Howard.

Judge McFie Thursday signed an amended decree in the case of the acquia de Llano et al vs. the Acquia de las Joyas del Llano Frio et al, the decree apportioning the water of the Nambé river to which the Pueblo Indians of Nambé and the other settlers are entitled.

Judgment was granted in the district court for San Juan county against J. W. Knight for \$324.30 in favor of the Colorado State bank at Durango, Colo., being the principal and interest on a note with cost of suit, etc.

Suit was brought in the district court for Santa Fe county by Napoleon B. Laughlin vs. George Hill Howard to recover on a note for \$50 given on August 21, 1899, with 10 per cent interest and \$25 attorney's fees. Also to recover on a note for \$162 given jointly by George Hill Howard and Thomas Smith to the San Miguel National bank at Las Vegas on November 1, 1897, at 10 per cent.

More Harmful Than Alcohol Overeating Worst Form of Intemperance.

If your food is undigested, you are underfed, no matter how much you eat. And the underfed man is, to the extent of the underfeeding, crippled for the battle of life. On the other hand, there is such a thing as overeating. The harm done by indigestion caused by overloaded stomachs exceeds that from the increased heart beats caused by the use of alcohol or whiskey.

Eat as much good food as you need but don't overload the stomach. If your stomach is weak it may refuse to digest what you eat. Then you ought to use a good digestant like Kodol Dyspepsia Cure, which digests what you eat without the stomach's aid. This rest and the wholesome tonics contained in Kodol Dyspepsia Cure soon restore health. You don't have to diet. Don't eat too much. That's harmful. But eat enough and of sufficient variety. Kodol Dyspepsia Cure will digest it. It quickly relieves the sensation of fullness and bloating from which some people suffer after meals. It prevents belching and absolutely cures indigestion and other stomach troubles. Equally good for children.

Lemuel James, Maryville, O., says: "I suffered from dyspepsia for thirty years but a few bottles of Kodol Dyspepsia Cure completely cured me and I heartily recommend it to all sufferers from this disease."
