ALBUQUERQUE, NEW MEXICO, TUESDAY AFTERNOON, JULY 1, 1902

NUMBER 186

SESSION ENDED

Congress Finally Adjourned Today.

Great Scramble to Pass the Bills.

Mr. Bailey Was in the Senate a Short Time.

AGREED ABOUT WARSHIPS.

Washington, July 1.—An agreement has been reached that congress will adjourn at 5:30 p. m. today. President Roosevelt has notified Speaker Henderson and President Pro Tem Frye he will be at the capitol at 4:30 to sign belated bills.

The ways and means committee of the house met at 2 o'clock and ordered Chairman Payne to report an adjournment resolution for 5:30 p. m., although this was not done without a sharp political division. Mr. Richardson, of Tennessee, moved an amendment allowing one week to consider trust legislation. This was defeated by a party vote and by another party division the adjournment resolution ordered reported.

A GREAT SCRAMBLE.

Members of the House Try to Pass Bills.

Washington, July 1.—The house, which adjourned last night at 11 o'clock, met at 10 o'clock this morning with all indications pointing to a final adjournment at the end of today's session. There was a large attendance and a scramble among the members with small bills of interest to their constituency, who are exceedingly anxious to secure action upon them and a dozen are almost constantly on their feet clamoring for an opportunity to call them up.

The house agreed to the conference report on the naval appropriation bill without division. The result was a signal for much applause.

At 1:55 p. m. the house agreed to the conference report on the Philippine civil government bill.

ALL WAS PEACE.

Senators Bailey and Beveridge Did Not Come Together.

Washington, July 1.—When the senate convened today for what appeared to be the closing session of this term of the fifty-seventh congress, there were no indications of the exciting scenes of yesterday. Mr. Bailey, of Texas, entered the chamber from the democratic cloak room soon after the invocation was pronounced and took a seat on the democratic side. He was joined by Mr. Spooner and they chatted together a few minutes. Representative Burleson, of Texas, then joined Mr. Bailey and had an extended talk with him.

Mr. Beveridge did not appear in the senate in the early part of the session. After his chat with Mr. Burleson, Senator Bailey left the chamber.

Mr. Hale, of Maine, presented a final report of the conferees on the general deficiency bill and it was agreed to without debate. This disposes of the bill.

The conference report on the bill to provide a temporary civil government in the Philippine islands was then read.

The senate agreed to the conference report on the naval appropriation bill without discussion. The adoption of the conference reports on the naval and Philippine bills passes those measures and leaves them ready for the signature of the president. The senate at 1:55 p. m. went into executive session.

Agreed About Ships.

Washington, July 1.—The conferees on the naval appropriation bill have agreed to compromise on the disputed items as to building warships in government yards. It is specially provided that one battleship shall be constructed at a government yard. The agreement was reported to the house.

VERY EMPHATIC.

No Foundation for the Danish Bribery Charge.

Washington, July 1.—Chairman Dailzell, of the committee of the house, which investigated the charges in connection with the purchase of the Danish West India Islands today submitted the report of the committee. After detailing the charges of bribery and showing that Captain Christmas had repudiated the alleged report on which the charges were based, the committee sums up the result of their investigation as follows:

"That there is not the slightest semblance of evidence that any member of congress, either directly or indirectly, was offered any bribe or paid any valuable consideration of any kind or character to vote for the adoption or ratification of the treaty of sale of the Danish West India Islands to the United States. There is not the remotest ground from which to draw the inference or on which to base a conclusion that there was any corruption or wrong doing on the part of public officials of the United States in connection with the negotiations and purchase of the Danish West India Islands."

tion with the negotiations and purchase of the Danish West India Islands.

It is plain beyond peradventure the bribery alleged in the report could have existed nowhere save in the imagination of Christmas, since the whole burden of his story is that he had no money. It is in evidence he had to borrow in order to pay his passage home from this country.

Van Sant Renominated.

Special to The Citizen.
Minneapolis, Minn., July 1.—Governor Van Sant was renominated by acclamation in the republican convention.

UP TO WASHINGTON.

Instructions Asked About Where to Take the Chinaman.

Lu Wah the Chinaman still occupies his furniture car. The papers ordering his deportation arrived from Washington this morning and Marshal Forker wired for instructions as to take him. No reply had been received up to late this afternoon.

It was deemed best to let him remain in the car and to this the railroad company consented. All possible care and attention is being given him.

B. F. Fillmore, the handsome sycamore at the dry goods store of B. H. Field & Co., where his artistic ideas are prominently seen in the window decorations, has been indisposed, but is reported convalescing.

Isaac Cox, of the firm of Brockmeier & Cox, was called to Los Angeles the other evening in answer to a telegram that his mother was dangerously ill. Word received today from Los Angeles, gives the information that the sick is slowly improving, but not yet out of danger.

STORE WRECKED.

Adobe Wall Slid Off Foundation and Ruppe's Drug Store Damaged.

THE CRASH COMPLETE.

Shortly before 6 o'clock last evening the greater part of the east wall of the building on Railroad avenue occupied by the drug store of B. Ruppe, fell with a crash. For some time fears have been expressed that the excavation for the new building to be erected by Joe Barnett on the adjoining lot was imperiling the Ruppe building and Sunday night a slight cracking of the wall was noticed but it was not regarded as serious. About fifteen minutes before the big crash a portion of the foundation caved in and then pieces of the outside wall began to drop off. The entire wall shook as though from an earthquake and the glass began to crack.

There was a big crowd in the store at the time and Marshal McMillin hurried in and ordered everyone out of the building. The opportune warnings were in ample time to clear the room so that there was no loss of life or injury to anyone. Many failed to realize the danger and hesitated to leave before they were waited upon. A large crowd quickly gathered and pressed in close to the building, and it was with difficulty the police forced them back and out of danger.

The swaying of the wall increased until suddenly there was a tremendous crash and the wall fell outward. The roof timbers were torn loose and the front half fell with the connections on the west wall holding fast. A pall of dust rose as high as the surrounding buildings and enveloped the crowd. It was as though there had been a great explosion. When the dust settled it was seen that all of the goods on the shelves on the west side of the store and the counters were buried in the mass of bricks. The front wall leaned outward in a dangerous manner but did not fall. The building is a total loss although the back part is still standing and the west wall is in good shape.

The \$650 piano which Mr. Ruppe had in the store is buried in the pile and the last inventory of his stock showed it worth \$11,000. Mr. Ruppe estimates that half of his stock is lost. He lost no time, however, and at once rented Grant hall. All last night he and his assistants worked to move his stock of prescription drugs and supplies and this morning he was ready for business there. His soda water fountain and the drugs on the west side of the store were little damaged.

The building is owned by J. A. Weinmann, to whom Mr. Barnett gave an indemnity bond. Mr. Ruppe holds a bond from Mr. Weinmann. The contractor in charge of the excavating is Caesar Grande and the architect is J. L. La Driere. It is understood that negotiations have been renewed between Mr. Barnett and Mr. Weinmann for the purchase of the property and the new building will be extended over the lot which Mr. Ruppe's store occupied.

If the parties don't get together and fix up matters satisfactorily, it is quite likely several interesting law suits will develop as the outcome of the catastrophe.

The Economist dry goods store adjoins the drug store, but Manager David Weinmann reports no damage to his building or stock.

This morning Marshal McMillin served notice on J. A. Weinmann to serve down the front of the building as the city engineer gave as his opinion it is dangerous to passersby. The work was commenced at once.

RAINS WERE HEAVY

Great Damage Done to Crops.

Rock Island Will Distribute Stock.

Queen Attended a Review With the Prince of Wales.

MAY IMPORT MEN.

Kansas City, July 1.—A heavy soaking rain fell last night and this morning in western Missouri, followed by a rising temperature. No reports of serious damage to crops have been received.

Million Dollars Damage.
St. Louis, Mo., July 1.—There seems to be no let up to the rain which has been falling heavily at intervals ever since Saturday morning. The damage to crops in Illinois and Missouri, it is conservatively estimated, will amount to a million of dollars.

Nebraska Gets It.
Omaha, Neb., July 1.—There were general rains throughout Nebraska last night. In some places crops were damaged by the moisture.

A Calamity Howl.
Detroit, Mich., July 1.—Detroit is having a clear sunshiny day for the first time since June 21. Corn is late and potatoes and beans in Michigan have suffered severely from the heavy rains. Wheat is said to be running more to stalks than heads. Plenty of sunshine through July, however, will repair to a great extent the damage.

Small Boy Drowned.
Topeka, Kan., July 1.—From midnight till 6 o'clock this morning nearly 3 inches of rain fell in this section. Many residents along Shunganunga Creek were compelled to abandon their homes, the water from the creek pouring in over the first floors. Sam Harrington, a small boy, was drowned.

DISTRIBUTE STOCK.

Rock Island Directors Will Give Per Cent of Holdings.

New York, July 1.—At a meeting of directors of the Chicago, Rock Island & Pacific Railway company here today, it was voted to distribute to stockholders 1 1/2 per cent of their holdings in new stock at par.

QUEEN WENT OUT.

Attended the Review With the Prince of Wales.

London, July 1.—The reappearance of Queen Alexandra as a participant in a public ceremony practically marks the end of the period of anxiety caused by King Edward's condition. Her presence at review of colonial troops by Prince of Wales greatly increased public enthusiasm over what in itself was a picturesque and interesting event. Upwards of 2,500 colonials were brought in from the various encampments and marched through great crowds. The queen was greeted with cheers. The most picturesque feature of the day was the giving of three cheers for the king, started by the Duke of Connaught, who rode at the head of the troops. The sound of cheering must have reached almost to the royal sick room, a half mile away.

The following bulletin of the condition of King Edward was posted at 10 o'clock this morning:

"The king passed an excellent night in natural sleep. He gained in strength and has made a substantial improvement in all respects."

The following was posted at Buckingham Palace at 4 p. m.:

"The advancement in the king's condition is maintained. His appetite is improving and the dressing of his wound is less painful. His majesty is still easily fatigued on the least exertion."

At 5:15 p. m. the Associated Press learns that King Edward spent an excellent day and he continues to improve. Sir Frederick Treves this afternoon expressed satisfaction on the patient's condition.

May Import Men.

Omaha, Neb., July 1.—The only new feature of the Union Pacific strike today was a report the company is preparing to import machinists and boiler-makers from the east to take the places of strikers in this city and Cheyenne. It could not be confirmed at Union Pacific headquarters.

SUNDAY'S BENEFIT.

Arrangements Being Completed for a Fine Day's Program.

Everything is moving along smoothly for the grand benefit to be given Johnnie Haberle at the fair grounds on Sunday afternoon next and the boys out with tickets are meeting with much encouragement from merchants and citizens generally, which insures a large crowd. The day's sports will be as good as ever seen in this city, except during the fair, and will be as good as local talent can make it. The cause is a worthy one and no one has

refused to help in their way—some by buying tickets and others by furnishing amusements.

An effort will be made to have the Italian band discourse music during the afternoon in the cool of the grand stand. Their new uniforms will be here and this will be their first appearance. The Gentlemen's Driving association will also be asked to furnish some races. These, in connection with the ball game, and possibly other features, will help pass away an afternoon well worth putting in. The team which will oppose the Browns is the Old Town Reds, who are managed by Modesto Ortiz. The Browns will have the following players: Anderson, Dewey, Cosgrove, Vorhes, Hellweg, Barrett, Ortiz, Quiser, Smith, Lampman, Neher and Patterson.

MUCH FURNITURE.

Special Train of Thirty-Two Cars Consigned to One House.

A unique train was started out from here this afternoon which was known as the "Emporium Special." It consisted of thirty-two cars of furniture, all consigned to The Emporium, one of the big retail houses of San Francisco. These cars have been arriving here by twos and threes for several days and all were held here to make up the special train. The cars were covered with banners giving the name of the train, its destination, the contents of the cars and all about it.

D. C. Russell, the probate clerk of McKinley county, and his deputy, W. W. Risdon, are here today, the former coming in this morning from Gallup, and the latter returning from his visit to Pueblo and other Colorado towns. They expect to return to Gallup tonight.

ANOTHER POINT.

The English Language Coupled With That of Statehood.

A BEVERAGE INQUIRY.

Must a native citizen of this country be familiar with the English language in order to enjoy all the rights and privileges of his citizenship and birth? asks the Denver Republican.

This inquiry is suggested by a question which Senator Beveridge, of the senate committee on territories asked Delegate Rodey, from New Mexico, during a session of that committee called to consider the omnibus statehood bill. Mr. Rodey admitted that a large number of the American citizens residing in New Mexico were not familiar with English. He might have added that the excellent public school system of that territory will rapidly change this as far as the rising generation is concerned. But in any event, the fact that these people do not speak English should not deprive them of the full rights of citizenship. English is the language of this country because a vast majority of the inhabitants use it, but it has not been declared by any constitutional provision to be the official tongue.

These New Mexicans who do not speak English are not foreigners. They are natives of the United States, and a great majority of them were born since the territory was acquired from Mexico. To say that New Mexico shall be excluded from the union because a large percentage of its population does not speak English would be to condemn the thousands of English-speaking Americans as well as those whose language is Spanish, to an indefinite period not only of territorial existence.

Small Arizona and Oklahoma be kept out because in New Mexico a greater or a less number of people are not familiar with English? Shall the English-speaking Americans in those territories be forced to submit to a territorial form of government because certain senators imagine that a knowledge of English is essential to a proper discharge of civic duties? The idea should not be entertained for a moment. An American citizen who does not master English may nevertheless have a full understanding of his obligations as a citizen. The old French-speaking inhabitants of New Orleans, and thousands of naturalized citizens in different parts of the union are not deprived of their citizenship rights because they are not familiar with English.

Senator Beveridge should take into consideration that the most effective way to turn the balance in New Mexico to the English-speaking side is to let that territory become a state. If it were a state its population would be rapidly increased through the settlement of new people from the old states. It would then be only a few years until the English-speaking population would be greatly in the ascendancy.

Robert L. Towner, a thorough all round binder, has arrived in the city, and has taken a position in The Citizen bindery department. He is a practical binder, ruler, forwarder and finisher, and he can do any kind of work coming into his department. The citizen asks the people of this city and other sections of New Mexico to remember these facts, and when in want of any binding and ruling to send in their orders.

Metcalf & Strauss, commission merchants, are moving today from the Armijo building on West Railroad avenue to the A. J. Crawford warehouse on North First street.

THE FIRST DEATH

A Man Killed in the Strike.

Yateman is Short in His Accounts.

Prize Fight Scheduled for St. Louis Will be Prevented.

STRIKE ORDER OBEYED.

Wilkesbarre, Pa., July 1.—The first loss of life during the anthracite strike occurred today at the William A. colliery at Dureay. Antonio Giusuepe, an Italian, was shot dead by a coal and iron policeman from behind the stockade of the colliery. Reports differ as to the cause of the shooting. Friends of the dead man say he was walking on the road near the stockade when fired upon. Another report is the Italian tried to get over the fence and would not heed the warning of the policeman to go away and was fired upon. There is much indignation over the shooting and the sheriff of Lackawanna county was summoned to take steps to preserve order, as it was reported there would be an uprising among the foreigners and they would attack the stockade before night.

COUNTER PROPOSITION.

Action Taken on Proposed Cochiti District Road.

SHOPS TO BE HERE.

The directors of the Commercial club last night completed a counter proposition on the subject of the construction of a railroad as submitted by George W. Stubbs. The proposition was to connect with the Denver & Rio Grande at Luckman's Landing with a branch to the Cochiti mining district, where it is proposed to put up a smelter. The club committee prepared the following:

Whereas, A combination of persons composed of Charles J. Bartleson, John S. Thompson and others, has been formed for the purpose of incorporating a company or companies to construct a railroad of standard gauge between Albuquerque and a point on the Denver & Rio Grande railroad at or near the head of White Rock canyon, with a branch or branches to the Cochiti mining district, and to construct and operate reduction works of not less than 500 tons daily capacity to treat the ores of said Cochiti district;

Now, therefore, in order to aid the enterprise and, the undersigned, hereby subscribe for and agree to purchase the first mortgage bonds of the railway company to be formed for the construction of said railroad and branches, to the amounts set opposite our names respectively, such bonds to be payable in gold, to bear 5 per cent interest, and to run for not less than thirty years, upon the following terms and conditions:

First, the total bond issue shall not exceed \$25,000 per mile of railroad.
Second, our subscription shall become due upon the completion and equipment of the railroad from Albuquerque to the connection with the Denver & Rio Grande railroad at or near the head of the White Rock canyon, and of a branch railroad to the Cochiti mining district, and shall be thereupon immediately payable in full in cash.
Third, the company shall be organized and actual railroad construction begun not later than the first of March, 1903, and the line between Albuquerque and the connection with the Denver & Rio Grande railroad shall be completed and in operation not later than March 1, 1904, and time is of the essence hereof.
Fourth, the company upon the payment of our respective subscriptions in full, shall issue and deliver to each of us the bonds subscribed for, and capital stock of the company, full paid and non-assessable, to the amount of 50 per cent of the face value of such bonds.
Fifth, the company shall establish and maintain at Albuquerque, its principal offices, machine and repair shops.
Sixth, this subscription and offer on our part shall be, upon the conditions herein set forth, equally available to any other railroad company incorporated by any other persons, for the purpose of constructing such railroad as aforesaid.

CHARGED WITH RAPE.

A Man Arrested This Morning by Constable Smith.

This morning, at 9:30 o'clock, Constable James Smith arrested a man, who claims to be a night blacksmith at the local shops, and charged him with a criminal assault upon a young native girl, named Lucia Garcia, aged about 13 years. The complaint is sworn to by Maria Garcia, an aunt, who says the man called at her house this morning, grabbed the girl, and after hugging, and tried to commit an assault. The screams of the girl frightened the man and he left the house in a hurry. The aunt reported these facts to the constable, and he found the "John Doe" in the garret of the railroad office building on South Second street. The man, who failed to give his right name to the constable, will have a hearing before Judge Borchert tomorrow morning at 10 o'clock.

John F. Daugherty.

John F. Daugherty of Corning, N. Y., died yesterday afternoon at St. Joseph's sanitarium. He was 26 years old and came here alone. The remains were taken charge of by Undertaker Borders and they will be buried here. It is expected the funeral will be from the church of Immaculate Conception tomorrow morning.

Cantaloupes Here.

Cantaloupes are coming into the market but not in great quantities as yet. Many are going through daily to the eastern markets. An unusually fine melon is grown in the Coachilla valley in California which is pronounced by many to be superior to the Colorado melons.

Reappointed Commissioner.

This morning Judge B. S. Baker reappointed H. R. Whiting United States commissioner for this judicial district, and the reappointment will meet with the hearty approval of the people of this city and district. Mr. Whiting was the commissioner for the past four years, and previously held the office for twenty-six years until congress, in 1890, enacted a law that legislated all the United States commissioners,

out of office. Mr. Whiting is thoroughly conversant with the duties of a commissioner, and The Citizen is pleased over the reappointment.

FIRE THIS AFTERNOON.

A Small Frame Building, Used for Storage Purposes, Burned.

This afternoon, at 3:20 o'clock, an alarm of fire was turned in and the fire department responded to the burning frame building in the rear of the Lindell house on South First street. When the firemen arrived the building was thoroughly enveloped in flames, but two streams of water soon had the fire extinguished. The Methodist college building, just across the alley, was at one time in danger from fire, but the firemen saved this building by several applications of water.

The burned building was used as storage quarters by the W. V. Futrelle Furniture company, and quite a lot of furniture, mattresses, stoves, etc., are damaged by fire and water. At present Mr. Futrelle is out of the city, and The Citizen is unable, this afternoon, to publish an estimate of the loss sustained or the amount of insurance carried.

This territory suffers heavy loss every year from forest fires. The loss from such fires is something enormous and unfortunately it is for this generation a permanent loss. No area swept by a forest fire can be restored with large trees within the life of a single generation. Tree growth is slow in the mountains, because of the semi-aridity of the climate and the low temperature which in the greater part of the year prevails.

THE MAN OVER FIFTY.

The name of Senator Pettus, of Alabama, may be added to the list of those who dissent from the dictum that the present age has nothing for a man to do after he passes the meridian of life. He said to an interviewer the other day: "I am 81, and healthy and happy as a boy. I notice that all of my neighbors who got rich and retired are dead. I never got rich and I nev-

er retired. I tell you, young man, the most fatal disease I know of is to quit work. It kills every time. Keep working, and you'll keep alive." This is cheerful, sane and wholesome.

One of the boasts of the present age of the world is that it is an age in which the science of sanitation has lengthened the average duration of human life. Surely the very time when there are and are to be more old men in the world than ever is no time for the acceptance of the discouraging declaration that men must retire from the world's activity at 45 or 50.

IT IS DUE HIM.

The El Paso News, an independent democratic paper, says:

"The agony concerning statehood for New Mexico is now over. With the status of the bill and the circumstances surrounding it, the territory is more likely to get there at the next congress than ever before.

"The republicans are in power in New Mexico. They have repeatedly promised the people through their platform to give the territory her rights as an independent and sovereign state, but they have never had a representative in congress who by persistent and sincere effort did more to bring about success on the republican side than B. S. Rodey, present delegate to congress.

"This paper did not admire Mr. Rodey at the outset of his incumbency, but he has been so sincere in his advocacy for statehood and has done so much, and so consistently, that prejudice is the only cause that could deny him his right to succeed himself and finish the job.

"The republicans certainly owe Mr. Rodey a renomination and sincere support. Rodey may be a bit theatrical once in a while, but as delegate to congress he has done what all others have failed to accomplish."

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Electric Oil. At any drug store.

Red Men at Sioux Falls.

Sioux Falls, S. D., June 30.—This city experienced an invasion of Red Men today in the persons of some 300 delegates to the annual meeting of the grand lodge of the order. The visitors were royally received by the members of the local council and nothing was left undone to contribute to the enjoyment of the occasion. After the formalities of receiving the visitors were concluded the delegates went into executive session to transact business pertaining to the affairs of the order in South Dakota. Officers' reports, though not officially given out, are understood to show a gratifying increase in membership during the last twelve months.

Two Bottles Cured Him.

"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Alvarado Pharmacy.

Foss-Chisum Wedding.

J. R. Foss and Miss Luis Chisum, the pretty and popular daughter of Mrs. J. D. Herbert, of Magdalena, were married at the home of the bride Sunday, June 22, in the presence of members of the family only, says the Chieftain. The groom holds a responsible position with the Becker-Blackwell company and is much liked by those who know him best. Mr. and Mrs. Foss enter upon their married life under favorable auspices and with the best wishes of a large circle of friends and acquaintances.

Vacation Days.

Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly relieving pain or removing danger of serious consequences. For cuts, scalds and wounds. "I used DeWitt's Witch Hazel Salve for sores, cuts and bruises," says L. B. Johnson, of Swift, Texas. "It is the best remedy on the market." Sure cure for piles and skin diseases. Beware of counterfeits. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Last Resting Place.

Annapolis, Md., July 1.—Simple ceremonies accompanied the transfer of the remains of Lord Pauncefoot, which arrived by special train from Washington today, to the cruiser Brooklyn, which is to bear them to England. A detachment of cadets and marines escorted the coffin aboard the ship and as the latter sailed down Chesapeake bay a salute of guns was fired from the batteries on shore.

Bronchitis for Twenty Years.

Mrs. Minerva Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure." Alvarado Pharmacy.

Oleomargarine Tax.
Chicago, Ill., July 1.—The Groat bill providing for an increase in the tax on colored oleomargarine from two to ten cents per pound went into effect today. While it is a serious blow to the big packers who have been making millions through their butterine product they have no idea of succumbing without a struggle. The Armour Packing company has devised a scheme to circumvent the provisions of the law and if the plans prove successful it will be followed by the other packers. While supplying the oleomargarine uncolored, the tax on which is but one-quarter of a cent per pound, the company purports to "furnish dealers the coloring matter—in convenient, law evading capsules. When a pound of the product is sold a capsule is to be given the purchaser. The new law permits families to buy the uncolored product and color it at home, but the privilege is not extended to hotels or restaurants.

A little life may be sacrificed to an hour's delay. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

New Divorce Law.
Providence, R. I., July 1.—Heretofore it has been almost as easy a matter to obtain divorce in Rhode Island as in the Dakotas, but the conditions in this regard are radically changed by the new divorce law which went into effect today. The most important clause in the new law is that requiring a bona fide residence in the state of at least two years before applying for a divorce. This is expected to put a stop to the practice of wealthy women of New York and elsewhere coming to Newport, establishing a so-called residence and in a few months obtaining an annulment of the marriage contract on the ground of non-support.

No False Claims.
The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. Alvarado Pharmacy.

Jubilee Pilgrimage.
New York, July 1.—There was a great waving of hats and handkerchiefs from the crowd assembled on the Hoboken docks this morning to witness the departure of the steamer North America, carrying the first section of the Roman Catholic jubilee pilgrimage to Rome. The party numbers more than one thousand clergy and laymen and is under the spiritual direction of

the Very Rev. E. H. Porcille, of Brooklyn. The second section is scheduled to sail the latter part of the week. The two sections will form a junction at some European point and sail to Rome together.

Poisoning the System.
It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dullness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. J. H. O'Reilly & Co. B. H. Briggs & Co.

Southern Educators.
Chattanooga, Tenn., July 1.—Teachers continued to pour into Chattanooga from all directions today in anticipation of the opening of the annual convention of the Southern Educational association. As rapidly as the visitors arrived they were met by members of the local committee and taken to headquarters, where they were registered and assigned to quarters. Many spent the afternoon in visiting places of interest in and about the city, while the officers and members of committees held informal meetings to arrange the final details of the convention program.

The formal opening tonight is in the nature of a welcoming demonstration. The addresses of welcome are by Governor McMillan, Mayor Chambliss and Superintendent A. Barrett, of the Chattanooga public schools. For the visitors Dr. J. W. Nicholson, of the University of Louisiana, delivers the response. The address of the evening is to be delivered by Dr. O. N. Stork, of Kentucky State college, on the subject, "The Larger View of Education." The real business of the convention will begin tomorrow morning and from then until Friday night the delegates will be kept busy by the general sessions and numerous side conferences.

Acts Immediately.
Colds are sometimes more troublesome in summer than in winter, it's so hard to keep from adding to them while cooling off after exercise. One Minute Cough Cure cures at once. Absolutely safe. Acts immediately. Sure cure for coughs, colds, croup, throat and lung troubles. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Southern Negroes.
Galveston, Texas, July 1.—With the object of creating a better feeling between the races and fostering any move for the uplifting of the negro, several hundred delegates from all parts of the south assembled here today for the second annual conference of the Southern Negro congress. Since the move was inaugurated at a meeting held last year at Jackson, Miss., it has enlisted the hearty co-operation of many of the most prominent negroes of the south and the large and representative attendance at the present meeting is evidence of the widespread interest which the congress has awakened. The chief matters scheduled for discussion at the four days' sessions are the education question, outrages and lynchings and the negro in politics.

The Best Liniment for Strains.
Mr. F. H. Wells, the merchant at Deer Park, Long Island, N. Y., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by all druggists.

Assistant Superintendent.
Springfield, Ill., July 1.—Captain J. H. Freeman, who for six years has occupied the position of assistant state superintendent of public instruction, retired from the office today to assume his new duties as superintendent of the institution for the blind at Jacksonville. Captain Freeman's successor in the office of state superintendent of public instruction is Jos. E. Bangs, of Pontiac.

Treat Your Kidneys for Rheumatism.
When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Foley's Kidney Cure is the most effective remedy for this purpose. R. T. Hopkins, of Polar, Wis., says: "After unsuccessfully doctoring three years for rheumatism with the best doctors, I tried Foley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine." Alvarado Pharmacy.

Manual Training Teachers.
Pittsburg, Pa., July 1.—Manual training teachers from Detroit, Cleveland, Dayton, Philadelphia, New York, Washington, and numerous other cities were present today when the Eastern Manual Training association opened its ninth annual meeting in Allegheny. During the day papers treating of various questions of interest to those engaged in manual training work were presented by Superintendent Hallman of Dayton, Ohio, Superintendent R. G. Boone of Cincinnati, Dr. John A. Brashear of Western University and Prof. Charles P. Binns of New York City.

In conjunction with the meeting there is an elaborate display of the work of manual training classes throughout the country.

Increased Salaries.
Washington, D. C., July 1.—In the readjustments of salaries of postmasters at presidential offices, effective today, 2,030 postmasters receive increased salaries aggregating \$252,200. The number of increases this year is 259 in excess of last year and is the largest in the history of the postal service.

SANTA FE COURT.

Preliminary Trial of Murderer At-
chison—Several Referee Cases.

A SCHOOL CASE.

The preliminary hearing of William
W. Atchison for the killing of James
O'Hara and William Thayer at San
Pedro on Sunday, three weeks ago,
was begun yesterday afternoon before
Judge McFie, at Santa Fe, who sat as
committing magistrate. District At-
torney E. C. Abbott represented the
territory, and Catron & Gortner the
defendant. Four witnesses are to be
heard. They are Dr. A. P. Graham,
Simon Golding, A. G. Wilkes and
George Andriano, of San Pedro.

Suit was brought Saturday by Rufino
Gardiner vs. Doroteo Salazar and
Maria Rufina Martinez de Baca, in-
volving a parcel of land near Chimayo.
N. S. Rose, of Cerrillos, referee, Sat-
urday filed his report in the ejectment
suit of Josefa O. de Davis vs. Longino
Martinez et al., for a parcel of land
near Galisteo.

This week application will be made
for the appointment of appraisers in
condemnation proceedings brought by
the Dawson railway against the own-
ers of the Pablo Montoya grant.

Judge McFie heard argument Sat-
urday in the case of Jose Ortiz y Baca
vs. School District No. 22 of Santa Fe
county. While the court was inclined
to sustain the contention of the plain-
tiff, owing to the confusion in the law
as what moneys are to be applied to
school expenses, Judge McFie desires
briefs on both sides of the case review-
ing the whole law. The question in-
volved is whether money derived from
tax collections for last year are to be
applied to the school expenses of this
year. There would be a lack of funds
to open the schools this fall if that is
the case and the collector's bookkeep-
ing would be in opposition to such rul-
ing. Additional confusion grows out
of the application of license moneys.

LOCAL PARAGRAPHS.

The members of the Mutual Protec-
tive society of old town have received
their uniforms, ordered through Simon
Stern. They will appear in the Fourth
of July parade in old town.

The entertainment committee of
Harmony lodge, No. 17, I. O. O. F., in-
vite all members of the order to be
present at their installation exercises
tonight. Come early and get a good
seat.

W. F. Nagle and F. O. Morningstar,
who are interested with T. A. Lister
in the development of some good min-
ing property in Luna county, were pas-
sengers for their home at Shamokin, Pa.,
last night.

Simon Bibb, the senior member of
the Bibb Mercantile company at La-
guna and other western towns, was
here yesterday, having in charge Solo-
mon and Irving Bibb, relatives from
San Francisco.

Mrs. J. F. Pearce and daughter, fam-
ily of the well known physician and
surgeon, will leave either this evening
or tomorrow night for southern Cali-
fornia, and they expect to be absent
several months.

Hon. E. A. Miera has decided to at-
tend the Fourth of July celebration in
Old Albuquerque on the Fourth and
will deliver an address in Spanish.
The people of old town are arranging
for a big celebration.

The Citizen mentioned yesterday
that Mrs. T. S. Hubbell and Miss
Anna Thomas would leave in the eve-
ning for southern California. They
were accompanied west by Miss Gladys
Childers, who will become the
guest of Mrs. A. G. Wells, of Los An-
geles.

On the Fourth of July, the Woman's
Christian Temperance union will hold
a picnic in the orchard of Pitt Ross
on the Barelas road. Members and
their families and friends are invited.
Arrangements for transportation and
further notice given. Mrs. Downs, sec-
retary.

J. B. Block, proprietor of the well
known and popular Block hotel at the
Jemez hot springs, is here today, pur-
chasing supplies. He says that the
springs have been fairly well patron-
ized so far this summer, but not near
as much as the people up there ex-
pected.

There will be a meeting of Booth
camp, Spanish-American war Veterans,
tomorrow evening at 7:30 o'clock over
Zeiger's Cafe. All members are re-
quested to be present as matters of
importance will come up. Others who
saw service in the United States army
are invited.

The following from New Mexico at-
tended the International Sunday
school convention at Denver. H. E.
Fox and W. J. Marsh, Albuquerque;
W. H. Kennedy, Cerrillos; R. H. Car-
ter, Raton; J. R. McFie, Santa Fe;
Warren V. Long, Miss M. M. McNary,
Miss Edith Rodkey, East Las Vegas.

P. F. McCanna, the secretary of the
New Mexico Territorial Fair associa-
tion, will leave tonight for the east
and before returning he will visit Cin-
cinnati. Although he will do some
good missionary work for the fair, he
will nevertheless visit his old home at
Oswego, New York, for a few weeks.

The park commissioners of the old
town plaza park will give a grand
dance at the Mutual Protection soci-
ety hall, old town, on the evening of
the Fourth of July, immediately fol-
lowing the evening festivities and
speaking in the plaza. Jesus Romero,
one of the commissioners, says the
price of admission will be fifty cents,
admitting gentlemen and ladies.

The handsome young man who failed
to meet the girl with the "red, red
rose" has been discovered. He is not
the young man who penned the soul
stirring words, but he is Alvin Pohle.
This morning, Pohle appeared on the
street with a crutch, he having sprained
his right leg. On the label of his
coat was a "red, red rose," and it is
declared by a prophet that the rose

worn by Alvin this morning is the
same "red, red rose" worn by the girl
at the gate mentioned in the poetry.
Mr. Pohle fears he will have a few
rheumatism and will leave in a few
days for the Jemez hot springs.

Cutting Down Expenses.

Quite a little stir was created in Ala-
mogordo railroad circles last Wednes-
day when the round house and shop
foremen-passed among them men and
gave notice to upwards of 200 of them
that a ten day lay off went on at 6
o'clock p. m., that day, but they might
return on the morning of July 1, and
resume their duties, say the News.
Coming just when it did this lay off
proved quite fatal to some of the em-
ployees and a number have already
been forced to "blow de town," while
the majority remain very reticent over
the matter and will enjoy themselves
on the beautiful and picturesque green
around Alamogordo.

The cause of the shut down is attrib-
uted to the fact that an unusual state-
ment is to be made July 1, and by lay-
ing off this number of men not only
saves an expense of over \$1,000 a day,
but gives the railroad officials more
time to prepare statement.

Base Ball.

At the fair grounds, on the afternoon
of the Fourth of July, there will be a
game between the old town club, man-
aged by Modesto C. Ortiz, and the
Santa Fe Pacific shop team, managed
by Mr. Booth. Admission, 25 cents.

NARROW ESCAPES.

Infernal Broncos Caused Charles A. Spiess Considerable Trouble.

A HAPPY MARRIAGE.

Special Correspondence.

Las Vegas, June 30.—Dr. Estel and wife, of St. Louis, are in the city with a view of locating here. The new law makes it necessary for physicians locating in New Mexico to be examined by the board first, unless they hold a certificate from certain accredited colleges, and as the board has just met, it would compel him to wait six months before being able to open up, and that may make it impossible for him to stay here, as he wished.

Hon. J. A. Clark has returned from his trip to his Sando ranch, having finished his cupping. He reports the country still very dry there and the wool crop a bit light, though prices somewhat better than last year.

The Santistevan sale at Fort Sumner was one of the largest affairs that has occurred in that part of the country in some time. There were about 5,000 head rounded up and they were knocked down to Frank A. Manzanarez Jr., of this city, for the sum of \$9,000. The crowd from here that attended have returned, and report a quite trying trip on account of the heat. The trip is a 120 mile one, and the route is not lined with refreshment stands, to say the least.

Philomont Glassford is somewhat under the weather. He suffers with intermittent chills and fever contracted back at West Point.

Some miscreant tried to tap the chewing gum slot machine at the depot, and only made trouble for the agent by ruining the lock. It is no use to try to beat these machines, in any way, for they are made to withstand just such efforts.

Hon. Charles A. Spiess feels glad he is living today, for he had several narrow escapes from calling at the other side, while returning Saturday night from Fort Sumner in company with Captain Austin, George Kelly and Mr. Robinson. It was not the company that was dangerous, Mr. Spiess says, but a couple of infernal broncos that made the trip out all right and back as well, until about twelve miles from home, when they went wrong. Mr. Spiess swears those broncos jumped straight up in the air as high as the Crockett building, and came down a squealing and threatening extermination for everybody in the neighborhood. Not only did the broncos give him a close call, but he was pitched out over the dashboard, breaking the tongue on the way down, and landed in a heap on the hard road, stopping the buggy as it tried to roll over him. They were hitched on back of the buggy in front, and the accident was caused by the buggy running quickly forward, then coming to a quick stop, pitching him right through the dashboard. This trouble all happened near Romeroville, late at night, and it was a close enough call for anyone.

W. B. Twitchell went down to Rowe yesterday afternoon to look after some mining properties. Mr. Twitchell still has confidence in the mining outlook hereabouts, and has letters in his pocket from eastern parties offering to put in money in development work and mills here if he can get the options desired, which he can.

There is a side feature billed for the Fourth here that our local sports are taking considerable interest in. It is to be a foot race between Pierce Murphy and James Williams, to take place on Douglas avenue. Murphy bet Williams \$50 that he could beat him in a 100-yard dash and give him twenty feet the start. The money is up, and some \$300 on the side. It promises to be an interesting affair and the bets are even.

A. A. Rugg, who has been one of the Santa Fe police, left last night for Raton, where he has a position as depotmaster.

Mrs. Archibald Bell and her four daughters, left this afternoon for a visit in Kansas.

A. M. Bergere, of Santa Fe, is in the city and will return this afternoon with his son, Manuel Otero, who has just graduated from the Normal here.

The local Elks are planning a big time for the meet at Salt Lake City, August 12. They will go with the rest of the southwest uniformed in a buckskin, fancily trimmed suit with a big hat. A sample suit is on display at the Opera bar, and it is a beauty.

Yesterday afternoon at 4 o'clock, at the home of her parents, Mr. and Mrs. Archibald Bell, occurred the marriage of their oldest daughter, Miss Blanche, to Harry Stowe, who is employed at Lehman's bakery. Only immediate friends of the family were present at the marriage, but a large number of friends of the happy couple came in the evening and made things merry. The fire company, of which Mr. Stowe is a member, turned out en masse and presented the couple with a beautiful silver punch bowl on which was engraved a hook and ladder. The chief also cut the cake which was decorated with a large marriage bell, significant of the bride's name, the fire company and the wedding bells. Rev. A. M. Lumpkin performed the ceremony, and the many friends left a large number of beautiful presents as evidence of their regard and best wishes. The mother of the groom presented the couple with a home at the corner of Main and Seventh streets, but for the present the couple will occupy the Bell home on Gallinas street during the absence of Mrs. Bell and family east. An old time chiravari was given the couple at night, and they started down life's pathway together as happy as the happiest.

The long heralded change in the trainmaster's office here has taken place and C. H. Bristol tonight quit the office here and goes to Raton in the same capacity as trainmaster, the trainmaster there having resigned and quit the service. T. B. Sweet, who has been trainmaster at Marceline, Mo., will take the office here, and he is well and popularly known in this city and will find himself among old friends.

There are numerous other changes to take place in the timekeepers and clerks in the office, but the changes are not yet definitely settled, but will be in a few days. The company auditors have been here some time auditing the books preparatory to the change which goes into effect tomorrow.

row. Las Vegas regrets to lose Mr. Bristol, for he has many friends in the city. Their best wishes go with him. Miss Madeline Ve Verka left this afternoon for Sterling, Colo., where she will spend her vacation with her home folks.

Prof. E. L. Hewett and wife, James McNary and sister, Miss Margaretta, Miss Reynolds and Mr. Chapman leave tomorrow with a big camping outfit for a couple of months' exploring expedition toward the Grand Canyon. The departure was postponed today on account of the sickness of Professor Lockrell.

Pedro Ortiz took twenty-five "hombrías" up to La Junta this afternoon to work on the railroad there.

L. N. Parke returned to Shoemaker this afternoon. He is expecting his sisters from Detroit at the ranch during the next few days.

Miss Lillie Coleman arrived home this evening from Kansas City. Accompanying her was Miss Floersheim, of that place, who will make a visit with Mrs. Lucien Rosenwald.

Rev. James Craig went down to Albuquerque this afternoon.

Business being dull at his court, Judge Foster has turned his attention to springing jokes Saturday afternoon as the sun was sizzling down and frying things on the pavement the judge dropped into a certain blacksmith shop to sit down a minute and mop the perspiration off his venerable brow, and innocently remarked that "it was a terrible thing that happened down to the station just now." The jokee then inquired what it was. "Why a man just got off the train down to the station and froze to death. He leaves a wife and two children. The inquest will be tomorrow and I want you to all come up to the office." Promptly at the appointed time next day the fellow appeared to see the inquest, and remarked that he was sorry but that the other boys could not get off at that time. The judge then said the inquest had been postponed until tomorrow, Sunday. And at the same time grinned. The fellow then got a gleam of light and thought how he had been taken in. He later sent word that he would take 2 cents for himself, but the judge refused and said he would only give 1 cent.

Price for top and back, 65 cents, at the Economist.

Notice.

Owing to the necessity of economizing in the city's finances it is impossible to expend the amount of money required in hiring a wagon and employing labor for the purpose of watering trees. We therefore call upon citizens who have the welfare of the city at heart and who have trees in front of their homes to see that the same are properly watered until such time as the city can again take charge of the work.

NEW MEXICO TOWNS

ALAMOGORDO.

From the News.

Alamogordo Improvement company will receive propositions for leasing farming and garden lands for the year 1902.

Abbott & Carson will raise a fifty-two foot flag pole in the park, from which hereafter will float "Old Glory" when occasions require.

Both of the saw mills have been running this week. Large quantities of logs are coming down from the mountains and steady runs are expected.

The Liberty Van, being designed and built by Abbott & Carson, to lead our Fourth of July parade will certainly be a beautiful and attractive caravan within itself. It will reflect credit upon the skill and designing ability of this enterprising firm. The carrying capacity of the van will be about fifty persons and it is to be costumed in a most tasty manner in colors of our great and noble nation.

Monday evening last Mr. and Mrs. A. J. King celebrated their twenty-fifth anniversary at their place of residence in this city. Quite a number of visiting guests being among their many friends who were present upon the occasion and until a late hour merriment and enjoyment reigned supreme. A most pleasing feature was a luncheon tendered Mr. and Mrs. King by A. S. Greig in his private car. They were also given a little treat by the Alamogordo cornet band in the way of a serenade.

Hives are a terrible torment to the little folks, and to some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

DEMING.

From the Headlight.

It is authentically announced that Prof. W. W. Robertson will be in Deming now in a very few days to attend to some business which requires his special attention.

Mrs. John Deckert will leave for San Francisco, Cal., Mrs. Deckert will take with her the son of Volney Ehrmann, young Volney, and will remain for some time visiting friends and relatives in California.

While working at a wire fence on his ranch near Aden, Henry Brock slipped and fell back on a stake, breaking a rib and otherwise injuring himself quite severely. Dr. Rexford, of this city, went down and attended to Mr. Brock's injuries and at this time he is reported as doing all right.

The large adobe rooming house that is being erected by John Lester on the corner of Spruce street and Copper avenue, is fast assuming shape and will, ere long, add greatly to that part of town. When it is completed Mr. Lester will have one of the best and most desirable houses in the south-west.

A couple of long haired individuals have been preaching on the streets of this city for the past week. Some say they are Mormon elders. Whatever their religious tendencies may be they have not succeeded so far in creating any great amount of enthusiasm from a religious point of view. A few stand around nightly and listen a bit then wander away, so by the time their harangue is finished they are talking to the empty air and a few Mexicans, who probably do not understand a word of what is said. They are probably not doing any harm, and it is certain that they are not doing any good.

At its annual meeting held the other day the Adelphi club elected the following officers for the ensuing year: President, Lou H. Brown; vice president, Rodney G. Clark; secretary, Arthur Rathel; treasurer, Frank L. Nordhaus; executive committee, Seamon Field, Geo. A. Shepard and C. J. Kelly. The secretary reported that the financial condition of the club was of the best, there being over \$500 in the hands of the treasurer and all debts paid. It is now expected that within a short time after Mr. Brown, the president, returns home some important improvements will be added to the club that will make it more attractive than ever.

SIERRA COUNTY.

Hillsboro.

From the Advocate.

The timber fire on the range is about exhausted.

Mrs. Reingardt will move to Kennedy, on the Santa Fe Central railway, in about two weeks.

L. W. Galles is cleaning up the Porter mill preparatory to making a run on ore from the American mine.

Mrs. R. W. Fulghum and daughter, Mildred, passed through here to visit Mr. and Mrs. Jay Barnes.

Miss Nona Murphy, who has just graduated from the Denver Conservatory of Music, is expected home about the Fourth.

Charlie Anderson sold his Battle mining claim to E. J. Fender. Mr. Anderson left for Chicago, where it is said he owns valuable real estate.

Fred Myster, who has the mail contract from Lake Valley to Tierra Blanca, and from Lake Valley to Hillsboro and Kingston, has purchased J. W. Orchard's horses, wagons, etc. Fred's contract begins July 1.

On Wednesday last R. H. Hopper showed us a fine gold specimen from the Snake mine. Mr. Hopper is having the road to the mines repaired and is putting on men as fast as room can be made for them. Quite a quantity of mining timber has been ordered.

While there is no regular program arranged for the Fourth, Hillsboro will celebrate the occasion. A ball game between the town boys and the Wicks mine boys is assured and other sports will be arranged for. A ball in the evening will be one of the chief attractions.

Dr. Given returned from Hermosa, where he went to attend Mrs. Nichol,

who had the misfortune to break her leg. The limb was broken just above the ankle. The accident happened two weeks ago tonight, but the injury was of such a nature that it was thought to be only a sprain.

It is reported that the El Oro and Trippie mines have been sold. It is said that the Conner Bros. are interested in the deal—in fact the purchasers. However, we are informed by one of the Conner brothers that he has not purchased the El Oro. This was on Tuesday. What may have transpired since we do not know. However, it is persistently reported that the property, consisting of mines, mill, store, etc., will be turned over to the Conner Bros. this week.

Kingston.

New potatoes have made their appearance.

The pestiferous politicians are just now combing their eye brows.

Jas. Reay has moved his family up from Lake Valley for the summer.

Judge Julian Cnaaves was in town with a load of apples and vegetables from his Animas ranch.

The Kingston school board has received many applications from school teachers in various parts of the country for the fall and winter term.

Fred Myster has bought the Chapman barn and moved it to Lake Valley where he will rebuild and use it for a stage barn.

Mrs. Armer, of North Percha, has been called to Globe, Arizona, where her father, Mr. McAvoy, lies at the point of death. She left at once, hoping to reach there before his demise.

James Ross and Light Townsend are delivering their hay crop from the Italian ranch. Mr. Spark, the merchant, has bought many tons and will store it.

Tom Robinson left with a pack outfit loaded with supplies for his ranch on Iron creek. Mrs. Jane Parker accompanied him, to take some snap shots at his mine and camp.

The June squirrel crop is ripe and the crack shot kids are after their scalps with stones and guns.

It is reported here that a former Kingston girl, well known to everyone, is engaged to one of the million dollar gold bugs of Colorado Springs, and will be married in the fall and spend the winter in sunny Italy.

Shorty Honsinger, the expert well digger, has just completed a twenty-five foot bore in his yard with great success. The water is good and plentiful.

Miss Laurabel Spark and Miss Laura Slinkard drove to the county seat last Sunday. They were the guests of Mr. and Mrs. Herring.

A surprise party was given to Bert Slinkard on his twenty-first mile post. Mr. Slinkard has been here but a short time but has made many friends who wish him many returns of the day.

SILVER CITY.

A Good Rain—Lowe Breaks Arm—Other Items.

Silver City, N. M., June 30.—This section of the country had a fine rain this afternoon and from all appearances it was pretty general in the surrounding section. This is the first rain of the season and everything was beginning to look dry. The stock on the ranges were in very bad shape and in a number of cases large numbers of old cows have died. The heavy rain of today will, however, start the rainy season and put everything in good shape.

John Klous, who has been in California looking for a business location for the past few weeks, returned home today.

Jo E. Sheridan and wife and two daughters were passengers on today's incoming train. Mrs. Sheridan and daughters have been spending the past four months in California.

The committees who have the different events for the celebration on the Fourth and Fifth of July in charge are very busy these days making the final arrangements and are doing everything possible to insure everybody a magnificent time who attends.

Tom Lowe, the popular bank employee and transfer man, broke his arm the other day and at the present time is in a very disagreeable frame of mind; but the arm is getting along all right.

Dr. Lane and wife and J. M. Kinner and wife returned Saturday from a six weeks' camping trip on the Upper Gila. They report that trout fishing is better than ever in that stream this year.

George Ball has sold his interest in the Club House saloon to Con Whitehill. The deal was consummated today.

Dr. Bullock has moved his office up to the sanitarium at the Sisters' hospital.

The grand ball on the night of July 5th, which closes the Elks celebration, from the present plans, will undoubtedly be a grand success.

PROPER FOOD

Better Than Ocean Breezes. It makes a lot of difference in hot weather, the kind of food one eats.

You can keep the body cool if you breakfast on Grape-Nuts, for in its predigested form, it presents the least resistance to the digestive organs and contains as much nutriment as heavy body feeding food such as meat, potatoes, etc.

Grape-Nuts is probably entitled to the claim to be the most perfectly adapted food for human needs now extant. The meat eater and vegetarian are alike, charmed with its crisp taste, the delicate flavor of the grape-sugar and the nourishment to body and brain while the housewife is attracted by its being thoroughly cooked at the factory and obtained from the grocer ready for instant use with the addition of cream, making it a cool, delicious dish, requiring no hot stove and cross cook on a hot morning.

When Grape-Nuts and Postum Food Coffee constitute the summer breakfast with the addition of a little fruit, it is not necessary to seek the ocean breezes for comfort, for external heat is unnoticed when internal coolness from proper food is felt. The recipe book in each package of Grape-Nuts gives dozens of delicious dishes.

KENNEDY ITEMS.

Special Correspondence.

Kennedy, June 29.—Bridge 70 was completed yesterday, it being the first bridge completed on the Santa Fe Central. The carpenters are working on No. 69 today.

Eighteen miles of wire is strung, and expect to have the line into Santa Fe some time next week.

Nearly fifty new men went to work this morning.

L. H. O'Rear, of Albuquerque, came up on No. 2 yesterday and is working with the pile driver.

George E. Ferry, material yard foreman, was called home on account of his wife being very sick.

Steam pile driver has moved to the other side of the Galisteo.

J. E. Saint is on an inspection trip down the line to Torrance.

Mert Wagner and his teams were put to work on grade last week.

"Daddie" Horn has been transferred from commissary here to take charge of the Willard store.

OF UNTOLD VALUE.

The Information Contained in This Gentleman's Statement is Priceless. The hale, hearty, the strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Albuquerque who has spent a mint of money and hours of excruciating torture caused by kidney complaint, will stand in his own light if he does not follow the valuable advice offered by:

"Mr. J. R. Miller, of 414 West Colfax avenue, in the Colfax Real Estate Insurance & Rental company, Denver, Colo., who says: 'My first acquaintance with Doan's Kidney Pills was made while reading the Pittsburgh Dispatch. I was living in Toledo, Ohio, at the time, and called the attention of my druggist to them. He procured them for me, and they were most effective in ridding me of slight kidney complaint which had annoyed me for some time. Since then, not only from experience but from observation I have always noticed Doan's Kidney Pills very highly recommended, and only recently I purchased a box at Scholtz's drug store, opposite the Tabor opera house. I have sent more than one friend and acquaintance to that drug store for a supply simply because I know Doan's Kidney Pills can be depended upon to act as represented.'"

Ask the Alvarado Pharmacy what their customers report about this preparation.

IT MAKES MUSCLE

Dr. Pierce's Golden Medical Discovery Gives Working Strength.

"I know you expected a letter from me some time ago, but I will state my reasons, plainly, why I did not write before this," says Mr. Joseph Grass, of Brewer, Perry Co., Mo. "It was because I did not wish to deceive any one. I wanted to be sure that your 'Golden Medical Discovery' had benefited me and it took time after I stopped taking the medicine before I felt sure I had realized permanent results from its use. After taking six bottles of 'Golden Medical Discovery' and one vial of your 'Pleasant Pellets' am able to do a day's work with any man. I cannot express in words the good your medicines have done me."

Railroad Topics

Engine 366, running light, was taken south to San Marcial yesterday by Engineer Hackett.

The Frisco system has adopted electricity for cooling and lighting purposes in cafe cars, sleepers, chair cars, etc.

After a lay off of several days, on account of a mangled finger, C. J. McGruder, a machinist apprentice, has returned to work.

Ed. L. Zink, a machinist apprentice in the local shops, quit his job the other day, and rumor has it that he will go to Mexico.

H. S. Wall, the Santa Fe Pacific division foreman at Barstow, accompanied by his wife, came in from the west last night and both proceeded east on a visit.

John O'Shea, passenger conductor on the El Paso-Rock Island, was in Kansas City last week, where he attended a meeting of the Order of Railway Conductors.

George Harrison, gang foreman is up and around, although limping. One of his legs was injured Sunday by being caught between a pair of driving wheels and a pile of iron.

J. M. Goodson, section foreman at Winslow, successfully underwent an operation for a tumor, at the local railroad hospital the other day, and is reported as on the highway to permanent recovery.

W. S. Tallafiero was here yesterday, leaving last night for his headquarters at Topeka. Mr. Tallafiero is connected with the land department of the railway company, and was at Phoenix and Prescott on business.

W. T. Fletcher and wife have returned to the city from a visit to Chicago and Toronto, Can. They were gone a month or six weeks. Mr. Fletcher is a machinist and resumed work at the shops this morning.

William Frame, who used to be a clerk in the office of Superintendent of Motive Power Henderson, at Topeka, but who was transferred to that of Mechanical Superintendent Taylor, at La Junta, Colo., several months ago, is now on a visit to Topeka friends.

The Santa Fe company will rebuild the stock yards, south of the city, destroyed by fire last Saturday afternoon. The debris will at once be removed and the work of reconstruction will be commenced as soon thereafter as possible. The new stock yards will be a great improvement over those destroyed by fire.

George E. Roe, one of the most popular railroad officials now located at El Paso, passed up the road for Algodones this morning, where he will select track ground for the Algodones Land & Improvement company. W. R. Utey, of New York, and A. J. Frank, of Denver, members of the company, accompanied Mr. Roe to Algodones. G. L. Brooks, of this city, was also in the party.

Base Ball on the Fourth.—What promises to be a hot game of base ball will take place at the fair grounds on the afternoon of July 4. Modesto C. Ortiz, manager of the old town team, challenged Manager Booth, of the shop club, for a game, and the challenge was promptly accepted. The two teams are pretty evenly matched, and the game will no doubt be a lively one.

Rumor an Error.—Printed reports which reached Topeka from Point Richmond, Cal., recently indicate that the strike of the Santa Fe boiler-makers was at an end; but this is an error, says the Journal. All the officials of the company, who while taking the most hopeful view of the situation, say that the statement of the western paper "is news" to them. As announced Wednesday, the shops at the Needles, Cal., Barstow and San Bernardino, Cal., and at Seligman, Ariz., are working, though short-handed so far as boiler men is concerned. It is no secret that there is a dearth of tradesmen of this class all over the country, but it is understood that the places of old workmen are being filled by those shipped in from the east. There is a nerve-racking inconsistency in the dispatches sent out from the scenes of the disaffection and it is difficult to determine just what is the true status.

Plenty of Motive Power.—With 95 new Prairie engines, the Santa Fe locomotive department will be placed in a position better than ever before to handle the traffic which is coming to it. This is what it will have as soon as the additional 20 which were announced the other day as having been ordered from the Baldwin works, are delivered. The Prairie freight type is identical with that of the passenger, except that the former has a 69-inch drive instead of a 79-inch wheel, as is the case with the latter. However, the freight class has proven itself equal to the requirements of passenger service and the officials are highly pleased in every way with the manner in which they have acquitted themselves. It is planned that the Baldwin people will go on with the construction at the rate of about four a week until the lot has been finished.

Coast Shops Running.—Superintendent of Motive Power George R. Henderson said, in speaking of the Santa Fe boiler-makers' strike on the coast lines:

"We have boiler-makers at work at San Bernardino and Needles. We are getting along very well with the force at hand. The reports that the strike has been declared off are not true, but while the strike still continues, it does not seriously interfere with our work."

The reports received through the San Bernardino news, as of the date of Sunday, June 28, are that W. J. Ritchie, W. P. Canfield and P. J. Negebauer, the committee which had the final conference with General Manager Wells, failed to reach an agreement with that official, and that all the boiler-makers west of Winslow, Ariz., will be called out some time this week.

Firemen Discharged.—Several firemen were discharged from the service of the company at Arkansas City recently according to reports on account of their refusal to clean locomotives. It has been the custom for a long time—mostly since the pooling system went into effect that the men on the

left side of the engines should be obliged to clean up a certain number every month; under the old plan, the man who first was expected to be responsible for the condition of his locomotive above the running board. But it has turned out to be somewhat of a schoolboy rule and there has always been more or less of wrangling with the round house officials at different points. However, now in some of the round houses explicit bulletins to this effect have been posted again and it is understood the boys are ready to live up to its requirements.

Don't Fail to Try This.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure will surely be effected. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. It's a wonderful tonic for run-down systems. Electric Bitters positively cure kidney and liver troubles, stomach disorders, nervousness, sleeplessness, rheumatism, neuralgia, and expels malaria. Satisfaction guaranteed by all druggists. Only 50 cents.

In the July number of "Munsey's" magazine John J. Ingalls' poem on "Opportunity" is the principal part of the Santa Fe railroad advertisement.

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entire satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by all druggists.

The cinder pit near Flagstaff has started business for the season with two train crews. This will increase the force of train dispatchers from three to six.

When Other Medicines Have Failed Take Foley's Kidney Cure. It has cured when everything else has disappointed. Alvarado Pharmacy.

George W. Merrill, who is confined in jail in Juarez on a charge of forging checks, was formerly traveling freight and passenger agent of the El Paso-Rock Island, with headquarters in El Paso. He has been train dispatcher for the Mexican Central at Chihuahua for the past six months, he having gone to that position soon after resigning his position as traveling freight and passenger agent of the El Paso Rock Island.

A Good Reputation.

The way to gain a good reputation is to endeavor to be what you desire to appear. That is precisely the way in which Chamberlain's Cough Remedy has gained its reputation as a cure for coughs, colds, croup and whooping cough. Every bottle that has ever been put out by the manufacturers has been fully up to the high standard claimed for it. People have found that it can always be depended upon for the relief and cure of these ailments and that it is pleasant and safe to take. For sale by all druggists.

Twelve men were sent out of Phoenix over the Maricopa & Phoenix for Nevada, where they go to work on the new railroad now being constructed. The company promises three years' work at \$2.25 per day, which is quite an inducement to those out of work.

A. R. Baas, of Morgantown, Ind., had to get up ten or twelve times in the night, and had severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. Alvarado Pharmacy.

C. S. Miller has resigned his position as assistant yardmaster in the El Paso-Rock Island yards at El Paso, and though no appointment has been made, George Hall has been made engine foreman and as such is discharging the former duties of Mr. Miller.

A Cure for Summer Complaint.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every family. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this remedy in the house, especially in summer time. Lansing, Iowa, Journal. For sale by all druggists.

Interchangeable Mileage. Omaha, Neb., July 1.—The system of interchangeable mileage recently agreed upon by general passenger agents of prominent western railroads was put into effect today. The territory covered by the agreement extends from the Mississippi and Missouri rivers west to the Rocky mountains and from the Canadian line south to the Gulf of Mexico.

Saves a Woman's Life.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from coughs, colds, throat and lung trouble need this grand remedy, for it never disappoints. Cure is guaranteed by all druggists. Price 50 cents and \$1. Trial bottle free.

New Revenue Law.

Washington, July 1.—The amount of federal taxes paid by the people of the United States is lessened to the extent of about \$77,000,000 annually by virtue of the new revenue law which went into effect today. The new measure amounts to a virtual repeal of all the Spanish war revenue taxes except the tax on mixed flour. The duty on tea remains until January 1 next to enable those who have stocks on hand to dispose of them before the repeal takes effect.

With the going into effect of the new measure the war revenue tax is repealed on the following: Bankers, brokers, dealers in grain, securities, etc., pawnbrokers, custom house brokers, proprietors of circuses, theatres and other public exhibitions, proprietors of bowling alleys and billiard rooms, dealers in leaf tobacco, dealers in tobacco, manufacturers of tobacco, manufacturers of cigars, instruments, papers or documents, deliverers or transfers of stock, sales and agreements of sales or agreements to sell stocks, products or merchandise, wines, seats in parlor or palace cars and berths in sleeping cars, legacies and distributive shares of personal property, excise taxes on persons, firms, companies and corporations engaged in refining petroleum and sugar.

On the following articles the tax is reduced: Fermented liquors, to \$1 per barrel; snuff and tobacco, to 6 cents per pound; cigarettes weighing more than three pounds per 1,000 reduced to \$3 per thousand.

The tax on mixed flour and oleomargarine, not being war revenue tax, is not effected by the new law.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

University Convocation.

Albany, N. Y., June 30.—A number of distinguished educators are here to take part in the fortieth annual convocation of the University of the State of New York. Today was devoted to receiving the visitors and arranging the final details of the program. At the state capitol tonight President Nicholas Murray Butler, of Columbia university opens the proceedings with an address on "Fundamental Principles of Education in the United States." Other prominent participants are President Schurman, of Cornell university; President Campbell, of the College of Saint Francis Xavier, and Prof. George E. Vincent, of the University of Chicago.

Mother Always Keeps It Handy.

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of 76, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. J. H. O'Reilly & Co., B. H. Briggs & Co.

Illinois Prohibitionists.

Peoria, Ill., July 1.—The prohibition state convention was called to order here shortly after 1 o'clock this afternoon by Hale Johnson, chairman of the state central committee. The convention will place in nomination candidates for the state officers to be voted for at the fall election, and also candidates for congress and for the legislature in all the districts in the state.

"I am using a box of Chamberlain's Stomach and Liver Tablets and find them the best thing for my stomach I ever used," says T. W. Robinson, justice of the peace, Loomis, Mich. These tablets not only correct disorders of the bowels but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by all druggists.

Changes in Snuff Company.

New York, July 1.—E. D. Christian today became treasurer of the American Snuff company, succeeding George D. Woodside, who recently resigned. The new treasurer has been connected with the combination for some time.

Concerning Trade Tricks. The old saying that there are "tricks in all trades" has outlived its truthfulness, if there ever was any truth in it. This store does not countenance tricks of any sort to catch the unwary. The plain, simple policy of buying good merchandise and selling it at a just profit is what has gained for us the public confidence. What you read in our "ads" you can see. Turning Gray?

Why not have the early, dark, rich color restored? It's easily done with Ayer's Hair Vigor. Nearly everybody uses it. Ask your own friends. Probably they know how it always restores color, checks falling, and keeps the hair rich and glossy.

"I have used Ayer's Hair Vigor and have found it a great remedy. It checked the falling of my hair when all other remedies had failed."—Mrs. G. A. Morrison, Millinocket, Me.

The Thermometer is Seldom Higher Than 80° in Mexico City

This "Paris of Latin America" is situated over six thousand feet above the level of the sea, and the heat of the lower altitudes is never experienced. Although not generally known summer is the very best of seasons to visit the Land of Mañana.

The daily afternoon rain, which lasts about thirty minutes, so cools the atmosphere as to make the evenings and nights lovely.

Between the music, the flowers and the pretty customs of our Mexican neighbors; between the beautiful nights, and balmy mornings, and the cooling sea breezes of day, one becomes so entranced with the beauty of this country as to never forget his trip under "The White Umbrella."
