QUAY WILL ACT

Will Force the Statehood Bill.

Committee Agrees on Spooner Bill.

One of the Escaped Convicts Shot at a Pursuer.

KING EDWARD BETTER.

Washington, June 17.—When the senate convened at 11 o'clock today Mr. Quay, of Pennsylvania, gave notice that on Thursday, on the conclusion of voting on the isthmian canal bill, he would move to discharge the committee on territories from further consideration of the bill providing for the admission as states of the territories of Oklahoma, New Mexico and Arizona.

A bill was passed to regulate commutation of sentences for good conduct for United States prisoners.

Majority in Favor.

Special to The Citizen.

Washington, D. C., June 17.—Mr. Quay gave notice that after the vote on the canal bill he would move to discharge the committee on territories from consideration of the omnibus statehood bill. The senate majority favor the passage of the bill.

THE SPOONER BILL.

Republican Members of the Senate Committee Accept It.

Washington, June 17.—The republican members of the senate committee on Cuban relations today finally agreed to accept the Spooner bill providing for reciprocity with Cuba and decided to ask that a conference of republican senators be called for tomorrow night to consider its terms.

Resolution Went Over.

Washington, June 17.—In the senate the resolution offered yesterday by Mr. Teller, of Colorado, calling upon the secretary of war for an itemized account of the amounts paid by General Wood out of Cuban funds for the advancement of reciprocity, went over at the request of Mr. Teller. It remains subject to his call. Consideration was then resumed of the isthmian canal project. Mr. Perkins, of California, addressed the senate in support of the Nicaragua canal route.

TORRE A COAT.

One of the Escaped Convicts Fired a Shot.

Vancouver, Wash., June 17.—Before daylight this morning Robert Buswick, one of the posse in pursuit of Tracey and Merrill, the escaped convicts, was shot at, presumably by one of the fugitives, about six miles from here. The bullet did no damage except to tear his coat under the left arm. Bloodhounds were brought here from Walla Walla this morning and will be put on the track of the fugitives.

Edward is Better.

London, June 17.—It is officially announced that King Edward is much better this morning. He passed a good night and progress toward a complete recovery is uninterrupted.

The king drove out from Windsor Castle in a closed carriage this afternoon. He appeared in good health.

House Agreed.

Washington, June 17.—The house agreed to day to the conference asked for by the senate on the anti-anarchy bill. The house then entered into consideration of the bill to amend the bankruptcy act.

PRINCE OF WALES STAKE.

Objection was Lodged Against the First Horse In.

London, June 17.—In the race for the Prince of Wales stake at Ascot today, Ard Patrick, the Derby winner, was a hot favorite at 2 to 1 on. The horses finished as follows: Cupbearer won; Ard Patrick, second; Perseus, third. Seven horses started. Objection was lodged against Cupbearer on the ground of bumping and boring. The stewards sustained the objection and Ard Patrick, who was three-fourths of a length behind, was awarded the race.

A FATAL QUARREL.

Prominent Men of Oklahoma City Killed Each Other.

Oklahoma City, June 17.—W. T. McMichael today shot and killed W. E. Johnson, a well known young business man, on the street here, as the result of a dispute over a contested land claim. While he was lying on the ground, Johnson shot McMichael in the abdomen. Johnson expired within a few minutes and McMichael cannot live. E. E. Brown, editor of the Times-Journal, and Johnson, were standing together on the sidewalk when McMichael approached and began firing without warning. In the exchange

which followed Brown fired five shots without effect. McMichael had previously threatened to kill both Johnson and Brown.

Johnson was a sergeant in Roosevelt's Rough Riders and served through the Cuban campaign with honor. He is 23 years old. Brown, who is one of the best known editors in the territory, is not hurt.

Until it was known McMichael was badly wounded, there was talk of lynching him. Brown and McMichael are in custody. Johnson was vice president of the Classen Real Estate company.

ILLINOIS DEMOCRATS.

They are Having a Struggle Over the Platform.

Springfield, Ill., June 17.—At a few minutes after 12 o'clock the democratic state convention met in Machinery hall. Lawrence B. Stringer, of Lincoln, was made temporary chairman and later the temporary organization was made permanent.

The committee on resolutions was announced and that body then left the hall to make its report.

Work on the platform proceeded slowly and it was soon evident nothing will be heard from the committee until late in the afternoon. Some change was made in the original draft. The most important is that the Kansas City platform may be mentioned but will not be specifically approved. Pending the report of the committee the convention took a recess until 2:30.

A. J. Loomis and A. J. Abbott, of Santa Fe, are in the city on business. James Geary, formerly well known throughout New Mexico and now of Oklahoma City, was here yesterday as the guest of J. W. Edwards.

EXCITEMENT IN CORN.

John W. Gates and Associates Have Manipulated a Corner.

PRICES WERE JUMPING.

Chicago, June 17.—Excitement ruled in the corn pit on the board of trade today. The fear of a corner in July option which caused a sharp upturn yesterday, was augmented at the opening of business by the reluctance of big holders in July to sell. In consequence the shorts, who feared a runaway market, bought everything in sight and bid excitedly for more in order to stop their losses. The prices fluctuated widely and wildly. The manipulated option opened very steady at 64 1/2 to 64 3/4 cents, but at once began making jumps of one cent or more, receding as much and then advancing still farther. The supposed corner that is at present the only factor in corn, is said by old traders to be an assured fact. The bull clique is said to be led by John W. Gates and his Wall street associates, and has been buying everything offered. All told at present there are less than 2,000,000 bushels of contract grade corn with which the shorts can cover, and the Gates crowd is credited with having bought these same shorts over 15,000,000 bushels. It is thought the culmination of the corner will be brought about within a week. July closed strong, 3 1/2 cents higher than yesterday's close and the highest point of the day was 67 1/2 cents.

Andrew Smith Dying.

Word was received from Los Angeles last night, giving the sad news that Andrew Smith, superintendent of telegraphy of the coast lines of the Santa Fe, was dying. Mr. Smith was here about two weeks ago, and on his return to Los Angeles was taken suddenly ill. He is suffering with Bright's disease.

R. J. Turnbull, who has been absent from the city for a few weeks, has returned.

Mrs. R. E. Leatherman and her sister, Miss Smith, left this morning for Washington, D. C. They will be absent for several months.

LOST THE SCENT.

Bloodhounds Were Unable to Follow the Trail of Atchison.

SHOT FROM BEHIND.

So far as known there is no trace of W. W. Atchison, who killed James O'Meara and Will Thayer at San Pedro. The bloodhounds from Santa Fe for a time eagerly followed the trail, but they lost the scent. His chances of escape into Mexico are considered good.

Atchison had a fight with S. Golding and O'Meara interfered and took his revolver from him, thus probably saving Golding's life. O'Meara kept the gun and told Atchison that he would deliver it to him at the company's office. The place where the shooting took place shows that Atchison had placed himself behind a bush and from there shot both men after they had passed him, as both shots in the men shows that they were shot from behind. Atchison after committing the deed, went home and told his wife what he had done and left for parts unknown. He is an old resident of the county, last year having a store at Dolores, and lately had built some houses close to the San Pedro smelter for the purpose of starting a saloon and boarding house.

HORRIBLE CRIME

A Brother and Husband Killed.

Some War Ships Will go to Venezuela.

Exciting Run for Land Thrown Open to Settlement.

DEAN HOFFMAN DEAD.

Hyattsville, Wyo., June 17.—James Gorman and his sister-in-law, Mrs. Thomas C. Gorman, were arrested yesterday charged with the murder of the latter's husband. Thomas Gorman was a wealthy cattle owner who disappeared two weeks ago and his wife and brother gave out that he had gone west to seek another location for their herds. A few days later Mrs. Gorman and James began selling their personal property at the ranch. Later they left with a six-horse wagon, taking with them Mrs. Gorman's 3-year-old daughter. Neighbors became suspicious and made a search of the premises, finding the mutilated body of Thomas Gorman buried in the garden. Sheriff Hale started in pursuit of the couple and arrested them near Cody, Wyo. The little girl was not with them and it is thought her body is in the Big Horn river. Much excitement has been caused by the arrests and the citizens are demanding the child be produced unharmed at once. The man and woman are in jail at the Basin awaiting a hearing.

DISCUSSED VENEZUELA.

One or Two Warships Will be Sent at Once.

Washington, June 17.—The cabinet today discussed the situation in Venezuela so far as it is revealed in the press dispatches, and some canigrams received by the commercial companies operating in that country. It was decided one or two warships shall be sent at once to La Guaira. This action is taken not upon definite advice, but in pursuance of a general policy looking after American citizens in case of disturbances.

GREAT CROWDS PRESENT.

Part of the Fort Hall Reservation was Thrown Open.

Blackfoot, Idaho, June 17.—The boundary line of the ceded portion of Fort Hall reservation which was opened to settlers today, was lined for miles this morning with people awaiting the hour of noon. The town of Pocatello, with perhaps 4,000 population, will be practically deserted this afternoon, owing to a ruling of the secretary of the interior that prospecting for mineral will be permitted on and after noon today, within a five-mile limit of that city. A special train over the Oregon Short Line railway from McCammon, in the southern portion of the ceded lands, to Blackfoot, run for the benefit of those who have taken up lands and wish to enter them at the land office at Blackfoot, will not arrive here before 3 o'clock this afternoon. The nearest point to the ceded portion is seventeen miles from Blackfoot, and not more than a hundred or two are expected to arrive ahead of the special train, though many will try to do so with relays of horses. The race will be lively and exciting and possibly may be attended by bloodshed, as numbers of desperate and determined men are racing for the same land.

Dr. Hoffman Dead.

New York, June 17.—Very Rev. Eugene Augustus Hoffman, D. D., dean of the general theological seminary of the Protestant Episcopal church, died suddenly today at Plattsburgh, N. Y., in his 74th year.

DISTRICT COURT.

A Number of Small Cases Were Disposed of.

The court this morning tried the case of W. V. Futrelle vs. Mariano Brown, justice of peace of precinct No. 13; a suit by which plaintiff took certain chattels from defendant by replevin, and which defendant claimed to hold as constable by virtue of an execution; the court found in plaintiff's favor.

The case of Grunsfeld Brothers vs. Rinaldo Montoya y Apodaca was tried; a suit on open account for \$44; the defendant pleaded payment by a note, but the evidence developed that the note had been given in settlement of a former transaction and the court rendered judgment in plaintiffs' favor for \$39, interest and costs.

The case of Grunsfeld Brothers vs. Maximiano, suit on open account, was called for trial when the parties announced that they had agreed that judgment should be entered in plaintiffs' favor for \$180.

Case of E. L. Medler vs. Sanchez et al., judgment of confirmation of sale for \$1,000 of property advertised for sale to satisfy judgment was rendered.

Broke His Neck.

Fred Fornoff, deputy United States marshal, returned last night from San Francisco whither he took a number of

Chinese to be deported. Marshal McCord of Arizona also took a party and one of his men threw himself from a window while the train was going at full speed. The train was stopped and the man was found beside the track with his neck broken.

NEW CONSTITUTION.

New Instrument for Connecticut Submitted to the Electors.

Hartford, Conn., June 17.—The fate of the new Connecticut constitution, which was submitted to the electors yesterday for ratification or rejection, is uncertain and will not be known positively until the full returns of the election have been received. The chief provision of the proposed constitution relates to representation in the legislature. Its adoption would leave about the same number of legislators as heretofore, but they would be redistributed so as to give the large cities more representatives at the expense of the towns and rural districts.

The contest is almost devoid of partisan politics, and in most towns of over 2,000 population whose representation in the legislature would not be changed by the adoption of the new instrument, little or no interest is manifested by either party. The contest has practically sifted down to a fight between the cities whose representation would be increased, but not proportionately, and the little towns where sentiment may be divided between a wish to retain present representation and a desire to endorse the work of their delegates in the convention.

The Browns are taking daily practice in preparation for the game of ball to be played against the Santa Fe Central in this city next Sunday.

ROUTINE BUSINESS.

Pitt Ross was Again Appointed City Engineer.

PETITIONS PRESENTED.

The city council transacted routine business last night with barely a quorum present. V. V. Clark resigned as city engineer and Pitt Ross was nominated and confirmed.

Two petitions were presented. One was from property owners on North Broadway, who do not approve of a dance hall on that street. They asked the council to put it out of business and the petition was referred to the police committee. Sidewalks were asked on the north side of Washington avenue from the Santa Fe tracks to St. Joseph's hospital.

During May there were 104 arrests, 319 meals served and fines were collected amounting to \$440. License collections by the city clerk amounted to \$915.

The city attorney was instructed to take such steps as are necessary to get possession of the property on North Fourth street held by Badaracco. A board of arbitrators fixed the value at \$60, but Badaracco refused to accept it.

Alderman McMillan rose to protest against the condition of the sidewalks across the Santa Fe tracks on Railroad avenue and this brought out the information the material has been ordered and the walk will be improved.

An ordinance was passed making it a misdemeanor for any dealer in the city to carry gasoline in stock in a greater amount than fifteen gallons.

THE HIRED MAN.

He Runs Away With the Heiress of La Junta Ranch.

A special dispatch to the Denver News, from La Junta, dated June 15, says:

Last evening Miss Amy Russell, the 15 year old daughter of Mrs. H. T. Russell, who resides about four miles north of this city, eloped with A. L. Kearby, who has been in the employ of Mrs. Russell for a number of years. The officers have telephoned and telegraphed in every direction and have been unable to get any clue of them. The Russell family is one of the oldest of this city and are quite well to do. Mrs. Russell is a widow, her husband having been a leading druggist of this city for a number of years. At his death, which occurred about three years ago, he left her a comfortable fortune. With her family she has resided on her ranch north of town. Kearby is a brother in law of Rev. W. H. Haupt, the Episcopal rector of the local parish, and is a quiet, industrious young man.

Mrs. Russell upon learning the relations between the young people discharged Kearby about one week ago and thought all was going well until last night, when she found that her daughter had gone. It is supposed that they have evaded all telegraph and telephone stations and are headed for New Mexico, where they will be married at once. Mrs. Russell is nearly frantic over the affair and her many friends are lending her such assistance as they can.

A late report has just been received from Nine-Mile, a Spanish settlement, twenty miles south of here, to the effect that a ranchman residing four miles south of Nine-Mile, saw a rig answering the description pass a place at 4 o'clock this morning for the south.

A. A. Keen, the popular territorial land commissioner, who was here with his family for a few days, returned to his headquarters at Santa Fe this morning.

FIRST SUICIDE

Ever Known Among the Acomas.

Nebraska Republicans Meet Tomorrow.

Mayor Ames of Minneapolis Was Indicted for Bribery.

FIRE AND ROBBERY.

Special to The Citizen.

Cubero, June 16.—The first case of suicide among the Acomas happened yesterday, Sunday, when a son-in-law of Martin Seculiah killed himself by shooting in the head. He had been quarreling with his mother. This shows what civilization will do.

EVENLY DIVIDED.

A Pretty Race for the Governorship of Nebraska.

Lincoln, Neb., June 17.—Interest in tomorrow's republican state convention centers almost wholly on the head of the ticket. There are seven prominent candidates for the governorship, but so evenly divided is the strength of at least five of them it is impossible to suggest the winner.

POLICE BRIBERY.

Dr. Ames, Mayor of Minneapolis Four Times, Indicted.

Minneapolis, Minn., June 17.—Sensations came thick and fast in the police bribery cases. When it came time to open the trial of Christopher Norbeck, a detective indicted for bribery, it developed he had forfeited his bail and his whereabouts are unknown. Another sensation developed when it became known that Albert Ames, mayor of Minneapolis, has been indicted for offering a bribe. The charge is, he endeavored to have his secretary Thomas R. Brown, appointed sheriff by the county commissioners, offering so to arrange matters that \$20,000 annual income would be divided equally between Brown and the commissioners. Dr. Ames has been mayor of Minneapolis four times.

Fire and Robbery.

Strasburg, Ohio, June 17.—Garven Bros.' department store at this place was destroyed by fire today. The loss is \$100,000. It is thought the fire covered robbery, as while the members of the firm were fighting the blaze, their home was looted.

By Acclamation.

Clinton, Mo., June 17.—The Sixth Missouri district democratic convention today renominated Congressman DeArmond by acclamation.

LOCAL PARAGRAPHS.

Mrs. E. M. Sanjule, wife of a well known railroad official of Gallup, is here today.

Ernest Meyers, of the Meyers-Abel company, who was north on business, returned last night.

J. Chibberg and family, of El Paso, were among the passengers from the south this morning.

Half a dozen sea lions, from California, passed through the city this morning for the east.

The school board failed to secure a quorum last night and adjourned to meet at the call of the president.

Charles K. Newhall, county treasurer and assistant cashier of the First National bank, who attended the convention of Mystic Shrine at San Francisco, returned to the city last night. He reports having had a most

ROAD VALUATIONS.

Arizona Board of Equalization Completes its Work.

ASSESSMENTS LITTLE HIGHER.

The Arizona territorial board of equalization has concluded the assessment of the railroads of Arizona for the year 1902. The assessments are a very little higher than they were a year ago and in almost every instance the valuation of the track and franchise was increased above the returns. In all cases where this was done the board did not believe that such a difference really existed, but the raises were made to cover a want of a proper return on all other classes of railroad property than the track. It was more convenient to secure a proper valuation in this way than to wade through the different items of improvements and personal property.

Southern Pacific—Mileage, 392.5; rate returned, \$5,178, raised to \$5,700; valuation of right of way, \$2,237,250; total rate per mile on right of way and improvements, \$4,022; total valuation, \$2,756,135.

delightful time. The other members of the Albuquerque delegation, says Mr. Newhall, will remain on the coast for a few weeks longer.

Mrs. W. S. Lowe, who was on a visit to Mrs. Paddon at Watrous the past few months, has returned to the city.

M. T. Moriarity, who is interested in the sheep raising business in the Chilili neighborhood, is here, waiting arrival of his wool.

A suit brought by Dr. Burdick against Max Becker for \$25, collection fees, was decided in favor of the plaintiff in district court.

Henry Lockhart, the Cochiti mine operator who was here the past few days on a visit to his wife, returned to Bland this morning.

Edward F. Thomas, who recently arrived here from Washington, D. C., has concluded to remain permanently, and has accepted a position at the local railway hospital.

The regular monthly camp fire given by the G. A. R. and W. R. C. will be held at Mrs. John Butler's tonight. They are requested to meet at Mrs. Shoemaker's at 7:30.

The many friends in this city of Mr. and Mrs. M. J. McAtee will regret to learn that these good people are soon to leave Albuquerque, the lady being compelled to seek a lower altitude for the benefit of her health. Mr. McAtee has been a resident of this city for about four years, during which time he has enjoyed a splendid business in the contracting and building line, and has made a host of friends. They have stored their household goods and will occupy rooms at Mrs. Glover's, on West Silver avenue, until Mr. McAtee can arrange his business in shape to leave. They will probably settle in El Paso.

OFFICIAL MATTERS.

Territorial Funds—Land Office Business—Surveys of Grants.

RAILROAD PLAT FILED.

Territorial Treasurer J. H. Vaughn received from Romualdo Martinez, collector of Union county, \$4,194.80 of 1901 taxes.

Land Office Business.

Homestead Entries—Josequiel Armijo, East View, 80 acres, Valencia county; Sabino Sanchez, Shoemaker, 160 acres, San Miguel county.

United States Patent.

Surveyor General Morgan O. Llewellyn received from the interior department the patent for the Juan de Galdon grant covering the headwaters of the Tesuque in Santa Fe county. The area is 10,590 acres, and the owner is T. B. Catron.

Surveys of Land Grants.

The deputy clerk of the court of private land claims in Santa Fe received from the interior department the surveys of the Bartolome Sanchez grant of 4,470 acres in northern Santa Fe and southern Rio Arriba counties, claimed by Bartolome Sanchez et al., and of the San Ignacio de la Canoa grant of 17,203 acres of Pima county, Ariz., to be submitted to the court of private land claims for approval.

Incorporation Amendment.

The Tusas Peak Gold & Copper Mining company notified Territorial Secretary J. Wallace Reynolds that it had amended its charter so as to increase the number of its directors to six, the following being elected: Otto Rosenfeld, James W. Murray, Constantine Fleissner, Louis E. Morris, of Manifesto, Mich., and Frank Bolton and Felix Grant, of Tres Piedras, N. M.

Railroad Plat Filed.

A plat was filed in the office of Territorial Secretary J. Wallace Reynolds of the Lordsburg & Hatchita railway in Grant county, which has been constructed from Hatchita, a station on the El Paso & Southwestern railway, to Lordsburg on the Southern Pacific and the Arizona & New Mexico railway. Also a plat for the station of Roberts on this railway, about thirty miles south of Lordsburg.

WILL EXHIBIT.

McKinley County to Make Good Showing at Territorial Fair.

J. H. O'Reilly, of Albuquerque, president of the Territorial Fair association, spent the past week in town calling on the policy holders in the Washington Life Insurance company and endeavoring to make new ones. Mr. O'Reilly is very enthusiastic over the prospects for the coming fair and with the encouragement he is meeting with everywhere. With the attractions already secured, not to include those which are pending, it will be an exhibition of which New Mexico can be proud.

The Republican suggests that the county commissioners of McKinley county take some action at once to see that we are represented. Some of our local merchants could make an Indian exhibit second to none in the west, which would give the firms extensive publicity as well as an immediate profit from the sales made during the fair. We are informed that one dealer alone who had space in the exposition hall last year, sold during fair week \$2,500 worth of blankets, besides making friends and customers who advertise him regularly. The republicans of San Miguel county
have several fences in need of re-
pair.

The strike of the anthracite coal
miners of Pennsylvania has already
cost about \$30,000,000.

To make a city of Albuquerque a
modern system of irrigation must be
adopted in this portion of the Rio
Grande valley.

Senator Elkins has introduced a bill
providing for the annexation of Cuba
on the same plan as that by which
Texas was annexed.

Colorado has better trout fishing
than New Mexico because the people
of that state strictly enforce the game
laws and keep the streams restocked
with young fish.

It is highly important to the future
prosperity of New Mexico that the
Pecos forest reserve should be protect-
ed from timber vandals. Not a live
tree should be cut down on that re-
serve for many years.

Senator Depew says President Roose-
velt will be nominated by the next re-
publican national convention and elect-
ed by the most overwhelming majority
ever secured by any head of the nation
if he adheres to his present policy.

It has been asserted that no demo-
cratic governor of New Mexico did
anything creditable to his record while
he was in office. This is a mistake.
While Gov. William T. Thornton held
the office he caught a trout in the
Pecos river that weighed two pounds
and thirteen ounces.

POINT GAINED.

The Pueblo Chieftain, one of the
best newspapers in Colorado, and al-
ways a friend of this territory, says:
"New Mexico will have to wait an-
other six months for admission. How-
ever, even the definite understanding
that the omnibus statehood bill will
then really be taken up is a valuable
and hopeful point gained. At the end
of that time even the fact that the
bill will have been held off longer than
expected will operate in its favor
among the congressmen having the
matter in charge. We may confidently
look for the passage of the bill
about next January."

RELIEF OF CUBA.

President Roosevelt's fight to secure
Cuban relief recalls the similar strug-
gle by President McKinley in behalf of
Porto Rico. It will be remembered
that Mr. McKinley, in his annual mes-
sage, had declared it to be the "plain
duty" of the United States to grant
Porto Rico free trade. Strong opposi-
tion at once developed within the
party, and finally a compromise mea-
sure was adopted granting a reduction
of 15 per cent of the Dingley schedule,
with eventual free trade.

The movement in behalf of Cuba,
while really an inheritance from the
Platt amendment of the last adminis-
tration, and its formal origin in like
manner in the president's message. In
dealing with Cuban relations, Mr.
Roosevelt wrote:

"I most earnestly ask your attention
to the wisdom, indeed to the vital need,
of providing for a substantial reduc-
tion in the tariff duties of Cuban im-
ports into the United States."

HISTORIC DAY.

De Vargas day, as celebrated by the
catholic churches of Santa Fe on Sun-
day last, is something more than a re-
ligious festival, says the Denver News.
It is a historic day of large importance
in the annals of New Mexico and the
southwest border. The conquest of
New Mexico had been completed by
Onate in 1598. In 1699 the Pueblos,
under the leadership of a San Juan
Indian known as Pope, rose in rebel-
lion and drove out their Spanish con-
querors. Churches were burned and
every religious emblem destroyed. The
Spaniards retreated southward and for
ten years their actual authority did
not extend north of El Paso. In 1692
Don Diego De Vargas was appointed
governor and captain general of the
province, and proceeded to recapture
it. He marched with a small but de-
termined force from El Paso up the
Rio Grande, capturing pueblo after
pueblo, and at last retaking Santa Fe.
The reconquest of the province re-
established the Catholic faith, and De

Vargas celebrated the restoration of
Spanish authority by a religious pro-
cession which has ever since been an-
nually observed. The three historic
names in New Mexico's history are
Coronado, Onate and De Vargas. The
reconquest was not accomplished and
maintained without much desperate
fighting, but De Vargas was equal to
the task, and from 1692 until Santa
Fe, in June, 1846, surrendered to Brig-
adier General Kearney, New Mexico re-
mained in the undisputed possession of
Spain and the republic of Mexico.

IRRIGATION POSSIBILITIES.

The growing consciousness of the
public that free public land that can
be satisfactorily cultivated without ir-
rigation is practically all gone, coupled
with the knowledge that our popula-
tion is increasing about 4,000 a day—
is bound to make the irrigation ques-
tion one of great interest to the nation.
It has not been allowed to become a
party question. At present there is
a little sectionalism involved, but that
will not last long. A nation that adds
14,000,000 to its population every ten
years cannot overlook any measure
that will tend to provide the newcom-
ers with homes and distribute popula-
tion equally.

It is estimated that successful ir-
rigation under the auspices of the na-
tional government would make culti-
vable and productive 60,000,000 acres of
land—a fifth more than the entire area
of Minnesota and about four times as
much as is actually under the plow in
Minnesota at present.

In a recent speech Congressman
Newlands, of Nevada, gave it as his
judgment that these 60,000,000 acres
would support directly an agricultural
population of 10,000,000 or 12,000,000,
and a non-agricultural population, de-
pendant on the farms, of about as
many more. This total of about 25-
30,000,000 might, he thought, be ultimate-
ly increased to 30,000,000 or 40,000,000.

No one would ever be bothered with
contipation if everyone knew how nat-
urally and quickly Burdock Blood Bit-
ters regulates the stomach and bowels.

Age Limit.

Washington, D. C., June 17.—The ar-
my loses a popular and efficient ser-
vant in Brigadier General Charles Bird
of the quartermaster's department,
who was placed on the retired list to-
day by operation of the age limit.

General Bird won much praise by
the manner in which he organized and
conducted the army transport system
during the Spanish war. He entered
the military service from Delaware on
May 20, 1861, as lieutenant of the First
Delaware infantry. He served with the
troops of his state until the close of
the civil war, and was mustered out as
lieutenant colonel. In 1866 he was ap-
pointed to the regular establishment,
joining the Fourteenth infantry as sec-
ond lieutenant. After sixteen years' service
with the infantry he was pro-
moted to the quartermaster's depart-
ment, with the rank of captain, and
has served with that department ever
since.

ROAD VALUATIONS.

(Concluded from page one.)

\$351,200; total valuation of right of
way and improvements, \$372,278; total
rate per mile, \$4,240.97.

Arizona & Southeastern Railway—
40.2 miles; returned \$132,370, raised to
\$195,550; total valuation, including im-
provements and telegraph line, \$244,
358; total rate per mile, \$6,078.55.

Morenci Southern (narrow gauge)—
18 miles; total valuation, \$64,500, in-
cluding improvements and telegraph
line; rate per mile, \$3,583.33.

Arizona & New Mexico—41 miles;
returned \$3,500 per mile and raised to
\$4,500; total valuation \$210,779; rate,
\$5,140.95.

Santa Fe Pacific—73 miles; re-
turn of right of way at \$373,845.69 ac-
cepted; rolling stock and personal
property valued at \$592,989.51; total,
\$966,835; rate per mile, \$2,500.

Maricopa, Phoenix & Salt River Val-
ley—34.38 miles; returned at \$4,400
per mile and raised to \$4,500; total val-
uation, including improvements, \$171,
551; total rate per mile, \$4,989.85.

El Paso & Southwestern—22.5 miles;
total valuation, including right of way
and improvements, \$126,950; total rate,
\$5,642.22.

Saginaw Southern—18 miles; re-
turned at \$11,150 and raised to \$15,000;
rate, \$833.33.

Central Arizona—11 miles; raised
from \$13,500 to \$15,000; rate, \$1,363.64.

The difference in the rate of these
two latter roads, for they are both of
the same character, lumber roads, is
accounted for by the fact that the
former in making its returns included
its sidetracks in its mileage; while in the
case of the latter road they are in-
cluded under the head of improve-

ments.
The board put a valuation of \$4,000
on all standard Pullman sleepers, and
\$1,250 on all tourist sleepers. The
total valuation of all sleepers used in
this territory is \$55,048.32. It is dis-
tributed among the various roads as
follows: Maricopa, Phoenix & Salt
River Valley, \$2,292.11; Santa Fe, Pres-
cott & Phoenix, \$8,000; Santa Fe Pa-
cific, \$27,404.49; Santa Fe & Grand
Canyon, \$452.40; Southern Pacific, \$16,
068.95; New Mexico & Arizona, \$830.37.

In this distribution it will be ob-
served that on some of the roads the val-
uation is considerably less than the value
of a single car. That means that the
use of a car is divided between that
road and another one and that the rest
of its value is included in the valuation
of the Pullman cars on the other road.
The total railroad and Pullman car val-
uations this year amount to \$4,998,434.
32. This is an increase over the valua-
tion last year of \$175,405.41. Last year,
though, the El Paso & Southwestern
was not included in the list.

PERSONAL PROPERTY.

It is Assessable in the County in
Which it is Located on March 1.

SOLICITOR GENERAL'S OPINION.

Several subscribers have within the last few days addressed the New Mexican desiring information as to the taxation of personal property and to know if such is taxable in the county wherein located or wherein the owner has his or her residence. The law is perfectly plain upon the subject and requires that all personal property located or existing within the territory shall be taxed in the county wherein located on the first day of March of each year with the exception of sheep, which latter are taxable in the county wherein the owner of the same resides. The term personal property includes every kind of property with the exception of real estate. It makes no difference where the owner of the property is. If he is in Paris or in London and his personal property is located in this territory it is liable and subject to taxation and the assessor, collector, district attorney or county commissioners, who knowingly allowed such property to escape taxation are guilty of dereliction of duty.

A few months ago, Solicitor General Bartlett gave an opinion upon this subject, which is published herewith for the information of all concerned:

Hon. T. Rouault, Assessor, Las Cruces—Dear Sir: Your favor of the 23d is just received in which you ask whether cattle should be assessed in the county where they are located on the 1st of March, or in the county where the owner resides, and in reply would say, in the present condition of the law the question is not so easily answered. Up to 1899, there was no doubt but what all personal property was assessable to the owner in the county where he lived, but section 25 of chapter 1, laws of 1899, provides that all property shall be listed in the county where it is situated. In the third line of that section, I believe the words "or other property" occur by mistake, and in my last report to the governor I recommended that the section be amended so as to conform with the old section of the compiled laws, and prepared the bill for that purpose, which, however, did not pass. I send you a copy of my report, on page 5 of which you will find the recommendation.

Section 32 of this act, expressly mentions sheep to be assessed in the county wherein the owners reside, but says nothing about cattle, horses or other animals. While section 34 of the act expressly repeals all acts or parts of acts in conflict with this act, from all of which I am of the opinion that cattle must be listed and assessed in the county where they may be on the 1st of March, although I do not think this was the intention of the legislature of 1899 which passed the act, but we must be governed by what they said, not what they intended, where the language is clear. Very truly yours,

EDWARD L. BARTLETT,
Solicitor General.

A well defined case of scarlet fever exists in the home of one of our citizens, and although notified by the health officer to use precaution and maintain a quarantine, the lord and master of the house, with his little son, boldly defies the order by appearing daily together in the streets, one in pursuit of business and the other of play.

M. W. Milligan had the novel experience Friday night of finding a burglar in his house. It seems the miscreant entered through a screen door and in passing through the dining room awakened Mr. Milligan, who lost no time in taking a shot at the intruder, but his aim was bad and instead of killing the man got a gentle swipe on the jaw for his trouble, after which the gentleman, with growling proclivities made his escape without obtaining anything of value.

W. M. Johnson is in receipt of a letter from Parker Wells, a warm per-

sonal friend, dated Las Vegas, N. On Monday morning the music of the mowing machine began to be heard throughout the valley and one of the best hay crops, for first cutting, is being cured and cared for. Their son, John, who attended school in Denver the past term, returned to Aztec with them and will remain this summer.—Index.

COOL FOOD.

For Hot Days.

Better health comes with less meat and fat during the warm weather. By proper and pleasant diet you can prepare the body for summer and feel from 10 to 20 degrees cooler than your neighbor.

Grape-Nuts and cream, a little fruit and possibly a couple of soft boiled eggs, is sufficient for the breakfast. An ordinary portion of Grape-Nuts contains sufficient nourishment to fully sustain the body until the noonday meal; being a pre-digested food, it does not overtax the stomach, and contains none of the heat supplied by the heavy carbonaceous foods.

Fully cooked at the factory by food experts, brings it to you ready to serve, and goes away with the heat of cooking and the time necessary to prepare ordinary food and its crisp daintiness is pleasing to the palate of young and old.

Many delicious recipes are found in each Grape-Nuts package, so that the form of eating this wholesome food can be changed to suit the user.

These suggestions, if followed for ten days, will convince the most skeptical that a cool body, an active brain and an energy hitherto unknown will prevail and the general lassitude peculiar to warm weather will disappear.

Notices of delinquent taxes, with penalty added, are now being sent out by the collector to all those who have not paid their taxes for 1901.

The county tax collector of San Miguel county has collected over 81 per cent of the taxes of East Las Vegas, and over 73 per cent of the taxes in outside precincts for 1901. As there are over six months during which taxes can be paid, it is calculated that not less than 85 per cent of taxes in the outside precincts will be collected and, in East Las Vegas a like proportion. All taxes cannot be collected, as for instance, those assessed against the Las Vegas grant and other similar properties which are strictly incollectible.

The 10 months' old infant girl, Luisa, daughter of Trancito Chavez, died yesterday and was buried today. The baby died while teething.

Jesus Esquivel, of Tecolote, died last night at the age of 70 years. He was a sufferer with throat trouble. He was buried today.

Six extra police will hold down the circus hangers on tomorrow. It is reported that there is a tough crowd following the show, and citizens will do well to keep their back doors and windows locked securely.

The wool is coming in at a good rate now from the smaller growers around the country. The price for good wool today varies from 9 1/2 to 9 3/4 cents, absurdly low compared with the prices for last year at this time. The prices then were about 14 cents a pound. The drop in price, by some, are laid to the result of some of Uncle Sam's reciprocity treaties, but this is hardly the facts in the case.

The maximum temperature yesterday was only 86 and the minimum 53. The humidity was 40, five points above the raining point, but nary a rain resulted.

Campers up in the mountains are rather careless about leaving their fires burn after leaving, and a good breeze soon fans them into a live blaze, often lighting the forest thereabouts and causing damage. The fires should always be extinguished before leaving.

H. K. Leonard has moved his family to near Mora, where he has extensive saw mill interests.

The Elks over the territory are making big preparations to go to Salt Lake City, as well as all over the southwest. The big pow-wow takes place there the middle of August, and the lake city will be turned inside out. The lodge will have special uniforms in the territory and try and carry off the prize drill. El Paso will have a uniformed delegation of about forty, Albuquerque about twenty-five, Silver City about ten and Las Vegas will try and head the list with about forty-five. The boys are planning on a big time among the Mormons.

Mrs. W. V. Long has been elected as the delegate from the Methodist Epworth League here to represent them at Raton at the convention to be held there from Thursday to Sunday.

Mrs. Maud Kelley arrived here today from near Montreal, Canada, and will go on up to Mora to visit her brother, Paul St. Vrain.

There is one less hobo in these diggings. One of the weary willies attempted to get off a fast moving freight at Galisteo last night and fell under the cars and was instantly killed. The station agent and section men dug a hole by the side of the track, got a box, and laid the remains of some mother's son to rest on the plains, never to be heard of or thought of again.

The Santa Fe checks came in today and made the boys—and the merchants—happy. The dollars certainly do make the world go round.

Mrs. R. P. Conner left today for her home in Pittsburg, where she will remain some time. Mr. Conner, finding relief here from asthma, will remain here in God's country.

Miss Helen Frakes is on the sick list today.

Miss Nellie Randall left this afternoon for Wisconsin to visit at her former home and shake hands of old time friends.

Gilbert Knodes has recovered from his siege of aphthoria and the quarantine was raised at his home today.

The duplicity of man has again been encountered. The fact was brought home to a certain "landlady" and a bawdy widow in this city some few days ago. The "he" in the case is one of the well known sports that made this city formerly his home, but is not telling the same "only true love" tale

NO MAN IS STRONGER THAN HIS STOMACH

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

"CURES" "WEAK" STOMACHS

elsewhere. The fellow was very intimate with the landlady, and was spinning the old story in her ears some time when the widow entered on the scene. The widow was so attractive that he must need speak every few minutes with her, so a telephone was installed and the "cooing" during business hours was done over the wire. Mrs. Landlady did not know of her lover's duplicity until one day some one carried the news to her ears that Mrs. Widow was wearing a beautiful gold locket around her neck with her faithless lover's initials engraved on it, and as he had just given her a fine watch with the same initials engraved on them as a token of his exclusive regard, she immediately became afflicted with the "green eye" and made straight for the widow's apartments, where a jolly row ensued. The exact status of the case at this writing is not known, but the widow received a telegram this morning, most probably demanding "them presents back." So the incident is closed. Such is the course of "love," always has been, and most probably always will be forever and anon.

Governor M. A. Otero returned to Las Vegas today from his Salado ranch where he was superintending the clipping of the wool crop. The governor is a bit snubbed from his stay on the ranch, but is, as well, mighty well pleased with the outlook there. He says he would not "swap" ranches with anyone in the territory, for notwithstanding the fact that there has been no rain there since last November, except a couple of light showers, they still have water in their fine spring there. He returned to Santa Fe this evening, accompanied by his wife, son and Miss Freeman, a daughter of General Freeman, of Washington, D. C., who will spend the summer with them at the capital.

D. K. B. Sellers has been appointed chairman of the state board of the House of Hoo-Hoo, for the territory of New Mexico. The house of Hoo-Hoo is the name of an organization incorporated to construct and maintain a club house on the grounds of the Louisiana Purchase Exposition at St. Louis, the members consisting solely of railroad officials, newspaper editors and lumbermen. Cholera Morbus a Dangerous Disease.
In many instances attacks of cholera morbus terminate fatally before medicine can be procured or a physician summoned. The safe way is to keep at hand a reliable medicine for use in such cases. For this purpose there is nothing so sure as Chamberlain's Colic, Cholera and Diarrhoea Remedy. W. E. Bosworth, of Lafayette, Ala., says: "In June, 1900, I had a serious attack of cholera morbus and one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy gave me relief in fifteen minutes." For sale by all druggists.

Got Off Cheap.

O. H. Buck, who seriously shot a Navajo Indian at Chico, a few weeks ago has allayed the pain and healed the wound by presenting the Indian's relatives with 100 goats. Had the Indian shot a white man, the whole territory would have cried for justice, and probably sent poor Lo to the penitentiary for twenty years.—Farmington Hustler.

Ten Years in Bed.

R. A. Gray, J. P., Oakville, Ind., writes: "For ten years I was confined to my bed with disease of my kidneys. It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." Alvarado Pharmacy.

MEDICAL ASSOCIATION.

Annual Convention of National Eclectic Medical Association.

Milwaukee, Wis., June 17.—The National Eclectic Medical association began its annual convention here today and will continue in session through remainder of the week. Nearly 300 delegates, including a number of women, filled the assembly room of the Hotel Pfister, when the gathering was formally called to order by the president, W. A. Johnson, of Texas. The Wisconsin State association begins its convention here tomorrow and the joint gathering promises to be the most notable, as well as the largest of its kind ever held in this part of the country.

Virulent Cancer Cured.

Starting proof of a wonderful advance in medicine is given by druggist G. W. Roberts, of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at all druggists.

Indiana Pharmacists.

Anderson, Ind., June 17.—Prominent druggists from various parts of the state are here for the annual meeting of the Indiana Pharmaceutical association, which opened with a business meeting this afternoon. The business sessions, which are to continue three days, will be occupied with the discussion of legislative measures and other matters affecting the interests of the state.

Read It in His Newspaper.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that his paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by all druggists.

Electrical Experts.

Great Barrington, Mass., June 17.—Prominent men of science are gathering here for the annual meeting of the American Institute of Electrical Engineers, which is to hold a meeting here during the next three days. William Stanley, the electrical inventor, will act as host to the convention, and the visitors will be entertained also by George Westinghouse at his country home, Erskine Park, in Lenox. More than usual interest centers in the meeting as it is reported that Signor Marconi will conduct inland long distance wireless telegraph tests between this place and New York City.

Spring Fever.

Spring fever is another name for biliousness. It is more serious than most people think. A torpid liver and inactive bowels mean a poisoned system. If neglected, serious illness may follow such symptoms. DeWitt's Little Early Risers remove all danger by stimulating the liver, opening the bowels and cleansing the system of impurities. Safe pills. Never gripe. "I have taken DeWitt's Little Early Risers for torpid liver every spring for years," writes R. M. Everly, Mountville, W. Va. "They do me more good than anything I have ever tried." J. H. O'Reilly & Co., and B. H. Briggs & Co.

May, president of the Georgia Bankers' association; John F. Bruton, president of the North Carolina association, and former Governor Charles T. O'Ferrill of Virginia. These formalities concluded the convention listened to addresses on financial topics by Hon. Ebenezer J. Hill, of Connecticut, and Hon. Charles N. Fowler, of New Jersey. This afternoon there was a reception in honor of the visiting bankers and their ladies at the Yacht club. The business sessions of the convention will be continued and concluded tomorrow.

A Real Friend.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant, of Merry Oaks, N. C. "After I had tried many doctors and medicines to no avail one of my friends persuaded me to try Kodol. It gave immediate relief. I can eat almost anything I want now and my digestion is good. I cheerfully recommend Kodol." Don't try to cure stomach trouble by dieting. That only further weakens the system. You need wholesome, strengthening food. Kodol enables you to assimilate what you eat by digesting it without the stomach's aid. J. H. O'Reilly & Co., and B. H. Briggs & Co.

Peters, of the University of Virginia, and President Venable, of the University of North Carolina.

Leads Them All.

"One Minute Cough Cure" beats all other medicines I ever tried for coughs, colds, croup and throat and lung troubles," says Dr. D. Scott Currin, of Loganton, Pa. "One Minute Cough Cure is the only absolutely safe cough remedy which acts immediately. Mothers everywhere testify to the good it has done their little ones. Croup is so sudden in its attacks that the doctor often arrives too late. It yields at once to One Minute Cough Cure. Pleasant to take. Children like it. Sure cure for grip, bronchitis, coughs. J. H. O'Reilly & Co., and B. H. Briggs & Co.

Photographers Meet.

Louisville, Ky., June 17.—The Kentucky and Tennessee Photographers' association began its second annual session in Louisville today with a good attendance from the two states. The formal opening was held in the public hall this afternoon, when the visitors were welcomed by Mayor Grainger to whose address response was made by W. S. Lively, of McMinnville, Tenn. An interesting feature is the large and representative photographic display in conjunction with the convention.

Was Wasting Away.

The following letter from Robert R. Watts, of Salem, Mo., is instructive. "I have been troubled with kidney disease for the last five years. I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." Alvarado Pharmacy.

Concerning Trade Tricks.
The old saying that there are "tricks in all trades" has outlived its truthfulness, if there ever was a truth in it. This store does not countenance tricks of any sort to catch the unwary. The plain, simple policy of buying good merchandise and selling it at a just profit is what has gained for us the public confidence. What you read in our "ads" you can see. People with money to spend naturally go to the safe trading place.—Golden Rule Dry Goods Co.
