THE TREATY
NOT SIGNED.

The Chinese Court Seems to Be Determined Not to Give Up Manchuria.

RUSSIA MAKES CONCESSIONS

The Czar Desires to Make It Easy for China to Retreat From Its Position—The Difficulty at Tien Tsin—A Row in Parliament.

London, March 22.—Advices have been received from Peking to the effect that Yang Yu, the Chinese minister at St. Petersburg, recently stated that modifications to some articles of the Manchurian treaty have been conceded by Russia to avoid placing obstacles in the way of the sovereignty and independence of China, and were forwarded to the Chinese court at Slang Fu. An edict has been received at Peking in reply, stating that the treaty cannot receive the imperial sanction.

A CONFLICT OBLIVATED.
Tien Tsin, March 22.—The Russians are building a road along the river in front of their concession. On Thursday the Russian working parties stopped work on the river side of the road within 20 feet of the British position. They subsequently resumed construction at a point 400 yards further. The danger of an actual conflict is thus obliterated for the present.

THE TROOPS WITHDRAWN.
Peking, March 22.—The troops on both sides of the disputed land at Tien Tsin have been withdrawn, and all danger of a fracas has been ended.

ALARM EXPRESSED.
New York, March 22.—A dispatch to the Herald from Berlin says: The newspapers publish alarming news in regard to the situation in China. England is said to be backing up Japan, which is mobilizing her army, and a Russian fleet is assembling at the Yalu river. Mediation by Count von Bismarck in the Tien Tsin dispute has been refused by both the English and the Russians. Articles in the semi-official Post state that influences will be exerted to prevent the present conflict becoming more embittered.

NO OFFICIAL KNOWLEDGE.
London, March 22.—Replying to a question in the house of commons today, whether the government proposed to ask Germany to act with reference to Russia's action in Manchuria, Foreign Secretary Lord Cranborne replied that the Russian government repeatedly declared its intention to respect the integrity of China, and the British government was not aware that Russia infringed it.

LIBERALS RAISE A ROW.
London, March 22.—After questions had been answered in the house of commons today the Liberal leader, Sir Henry Campbell-Bannerman, moved an adjournment of the house in order to call attention to the failure of the government to give the house information yesterday of the settlement of the Tien Tsin dispute. The whole opposition seconded the motion. The government leader, Mr. Balfour, declared he had not heard an adjournment suggested on such frivolous pretext. Perhaps it was desirable that Lord Lansdowne should have sent the information to the house, but it was absurd to attack him (Balfour) for not doing so.

The house then divided on the question of adjournment, which was defeated by a vote of 250 to 168.

ANTI-FOREIGNERS TO BE PUNISHED.
Berlin, March 22.—A dispatch to the Cologne Gazette from Peking says that an imperial decree, in accordance with the peace conditions, has been placed, threatening all anti-foreign societies with punishment.

A CABINET SESSION.
Very Satisfactory Reports Received From the Philippines.

Washington, March 22.—At a cabinet meeting today Secretary Hay submitted recent dispatches from Commissioner Rockhill. The reports from the Philippine commission submitted by Secretary Root, indicating rapid progress in the establishment of civil government at various points in the island, and showing constantly increasing disposition on the part of the insurgent chiefs to surrender were considered very satisfactory.

General Miles Leaves Cuba.
Havana, March 22.—Gen. Miles and party sailed this morning for Miami, Fla., on the steamer Prince Edward.

The Nebraska Senatorial Contest.
Lincoln, Neb., March 22.—On the senatorial ballot today, Lorenzo Crounse voted for D. E. Thompson. The fusionists brought in two men off their sick beds, and caused a change of pairs with one sick Republican member so that three more votes were cast raising the number necessary to election to 65. The vote was: Allen, fusion 50; Hitchcock, fusion 49; W. H. Thompson, fusion 10; D. E. Thompson, 50; Crounse 6; Currie 8; Melkielejohn 2; Hinshaw 10; Rosewater 32; Scattering 2.

HOPES THAT THE DEADLOCK WILL BE BROKEN.
Washington, March 22.—The Nebraska senatorial situation was considered at a consultation between the president and Senator Hanna, chairman of the Republican national committee, today. The administration is anxious that the deadlock in the legislature be broken in order that the election of two Republican senators may be accomplished, and the Republican national committee has been exerting its influence to that end. "I have hopes," said the senator when he left the white house, "that sooner or later loyalty to the Republican party will bring the bolters to their senses."

THE ISTHMIAN COMMISSION.

Some Points in Favor of the Panama Route May Be Presented.

Washington, March 22.—Rear Admiral Walker, chairman of the Isthmian canal commission, in an interview is quoted as saying that the commission, in making its final report, "may present points in favor of the Panama route. We hope to be able to complete the full report by June," he said. "I am sorry that provision was not made for printing it at once, as I fear holding it back for submission to congress until next December, with the inevitable delays incident to the issue of a work filled with plans, maps and charts, will prevent the reading of the report for possibly two years."

A SHIPMENT OF OIL.

The Standard Oil Trust Will Experiment With the Beaumont Product.

New York, March 22.—A shipment of 3,000 barrels of crude oil from Beaumont, Tex., arrived on the tank steamer Atlas, consigned to the Standard Oil Company. It is not the intention of the company to operate a regular tank service from Texas at present. The oil is said to be for experimental purposes.

MORE MORMON COLONIES.

Six Thousand Mormons Are to Settle in Mexico.

Chihuahua, Mex., March 22.—Dr. H. F. Gray, of Los Angeles, Cal., purchased 5,000,000 acres of agricultural lands in Mexico and obtained a concession from the Mexican government for the establishment of Mormon colonies. These lands are in the states of Durango, Tamaulipas, Coahuila and Vera Cruz. He says he will bring 6,000 Mormons from Utah and other parts of the United States to Mexico within a few months.

THEATRICAL MANAGERS SHOT.

A Crank Who Was Annoying an Actress Guilty of the Crime.

New York, March 22.—J. B. Leflingwell and Alexander F. Dinwall, theatrical managers, were shot in the rathskeller of the Pabst Hotel early this morning by a man who gave his name as Robert H. Moulton, of Springfield, Tenn. Moulton by his actions annoyed Miss Minnie Seligman, the actress, who was in company with Leflingwell. When Leflingwell remonstrated Moulton began shooting. The wounded men will recover.

Rice, editor, who was ordered out of the Philippines in consequence of articles published concerning Lieutenant Commander Brauer, has been received by the war department. Rice has made no application for review and reversal of the action of General MacArthur, although it has been asserted that he would do so. The report of MacArthur was submitted to Judge Advocate General Lieber, who rendered the opinion that MacArthur acted wholly within his authority in the deportation of Rice.

ANOTHER CUDAHY
KIDNAPPER.

H. E. Henderson, in Jail at Dallas, Texas, Declares He Is One of the Trio.

FORMERLY A WEALTHY MAN.

A Term of Thirteen Years in the Penitentiary Has Been Imposed Upon Henderson for Swindling—Omaha Police Are Skeptical.

Dallas, Tex., March 22.—According to a statement made by H. W. Summers, county attorney, a prisoner in the Dallas jail named H. E. Henderson declared himself to be the kidnapper of young Cudahy, of Omaha. He says that Cudahy will identify him. Henderson says he came here from El Paso, and to that place from Denver. He says he was born in Iowa, and once had a patent right which he sold for \$65,000. He stands convicted here of swindling, and has been sentenced to thirteen years in the penitentiary.

A COMMON TRICK.

Omaha, Neb., March 22.—When shown the Dallas story, Police Captain Natter said it looked as if Henderson was up against a long term in Texas, and took the common method with crooks under such circumstances. A picture of Pat Crowe was found in Henderson's trunk at the time of his arrest in Dallas, and Chief Donahue has since been in correspondence with the Dallas authorities, but without important results.

SHERIFF JOHNSON IS SURE.

Dallas, Tex., March 22.—Sheriff Johnson sent the following telegram to E. A. Cudahy, Omaha, today: "H. C. Henderson, now in jail here, confesses to the kidnapping of your son. He says your son next train. Answer quick."

"J. R. JOHNSON, Sheriff."

When told that the Omaha police discredited Henderson's complicity in the Cudahy kidnapping, Johnson said: "I know he is the right man. His confession to me is only part of the evidence I possess."

Henderson said that after Eddie Cudahy comes and talks to him he will be willing to make a statement for publication. Sheriff Johnson says among the statements made by Henderson was one that Crowe had no hand in the kidnapping; that the chief participant in the kidnapping of young Cudahy is a member of one of the most prominent families of Omaha, who escaped from prison, where he was serving a fifteen-year sentence for robbery several years ago.

Boer Reasons Unknown.

London, March 22.—In the house of commons today, Colonial Secretary Chamberlain, informed Trevelyan, liberal, that he was unable to inform the house what were the Boer reasons for rejecting peace terms.

CERRILLOS JOTTINGS.

A Large Force of Men at Work at the Smelter—Activity Among Mining Men.
Special Cor. New Mexican.

Cerrillos, N. M., March 21.—A. B. Phillips, of Denver, is in town preparing to begin work on the Live Oak mine near Dolores, which he leased some time ago, and a force of men will be set to work as soon as the property can be put in shape.

The Cerrillos Smelter Company have a large force of men at work on the smelter now.

A gang of carpenters under the direction of A. Young, were employed last week erecting a boarding house and other buildings for the accommodation of the workmen at the Golden Eagle and Tom Payne mines. Active development work will begin on these properties as soon as the machinery, which has been ordered, arrives.

Tuesday was the patron saint's day of the Catholic church at Cerrillos, and it was celebrated by appropriate services at the church.

Several Cerrillos citizens were at Santa Fe Monday as witnesses before the grand jury.

A. C. de Baca has a new universal computing scale in his meat market, which indicates the exact weight and price of any article weighed. This is the first of these scales to be used in Cerrillos.

COL. J. G. MEADORS RESIGNS.

Major J. W. Wilson Has Been Appointed Superintendent of the Military Institute.

On account of continued ill-health, Col. J. G. Meadors, superintendent of the New Mexican Military Institute at Roswell, Chaves county, has felt compelled to tender his resignation to the board of regents, to take effect immediately. The board has accepted his resignation, and in recognition of his excellent services tendered him their thanks.

Major J. W. Wilson, second in command, who has for the past three years filled the position of commandant with eminent satisfaction to regents and patrons, has been appointed superintendent. He is in all respects a highly competent man for the position.

The regular routine of duties will be continued under the supervision of Major Wilson and the present efficient corps of instructors.

The legislature of New Mexico has passed an act appropriating \$25,000 for new buildings, and the ensuing session bids fair to be the most successful in the history of the school. The regents request the hearty co-operation of all patrons and friends, and assure them that all in their power will be done to extend the efficiency and usefulness of the institute.

LEGISLATIVE PROCEEDINGS.

Shortly after midnight this morning the council and the house of the thirty-fourth legislative assembly adjourned sine die. The closing scenes were marked by no ceremonies of a special nature, but reflected the good will, absence of partisan feeling and general good humor, which had characterized the session. The clock in the council had to be turned back half an hour in order to permit the council to conclude its business. Before closing, Col. J. Francisco Chavez, the president of the council, was presented with a fine silver tea set by his colleagues. Hon. Frank Springer, with a few heartfelt words, eloquent in their simplicity, made the presentation address. Colonel Chavez responded feelingly, and thus closed a happy incident of the council sessions.

The crowd in both houses was large, and many remained until the adjournment in the house, and until the council went into executive session to confirm the nominations sent in by Governor Otero. Considerable business was transacted in both houses, and at one time the house was passing bills at the rate of one every five minutes. The following are the bills passed by either one of the houses last evening and signed by Governor Otero in time to become laws:

BILLS THAT BECAME LAWS LAST EVENING.

Messrs. Cruickshank, Easley and Hughes were appointed a conference committee on council bill No. 72, the bill to increase the salary of probate judges. The committee reported, and the bill as amended was adopted.

House bill No. 183, authorizing the Pueblo Indians to sell land for school purposes, passed with amendments from the committee on education.

House bill No. 154, an act relating to the registration of voters, passed, 7 to 5. House bill No. 163 was reconsidered, and the bill was passed, 11 to 1. It relates to licenses.

House bill No. 154, regarding registration, was reconsidered, and was laid on the table indefinitely by a unanimous vote.

HOUSE—THURSDAY EVENING.
Council bill No. 123 was taken up for consideration. The bill relates to the collection of taxes. The bill passed unanimously.

Council bill No. 72, an act to increase the salary of probate judges, was passed as amended by the council. The vote was 15 to 5.

The speaker appointed Messrs. Griswold Sanchez, Winston and Bowie to take charge of all bills to be taken to the council or to the governor.

Council bill No. 118, to amend chapter 32 of the session laws of 1899, was passed, 14 to 3.

House bill No. 6, referring to the deaf and dumb asylum, was taken up, and the council amendments were non-concurred in, and Messrs. Gutierrez, Valdez and Walton were appointed a conference committee.

Council bill No. 82, an act relating to the licensing of dogs, was passed unanimously.

Legislative Pointers.

House bill No. 6, Mr. Read's bill concerning the deaf and dumb asylum at Santa Fe, was lost in the shuffle. This is a pity. It should have become law.

The appropriation bill upon the whole carries about \$60,000 less than the appropriation bill passed for the present fiscal year.

The secretary of the territory will now reap a harvest furnishing certified copies of laws. It is said that this sort of business is worth \$1,000 or more after each session.

The Democratic members of the house and council are very well satisfied with the treatment they received at the hands of the Republicans. There was no partisanship shown whatever, and the contest cases, one in the council and one in the house, were not even taken up. It is not often that the political party having the majority is as fair in such matters as were the Republican members of the thirty-fourth legislative assembly.

Col. Chavez and Hon. B. M. Read, as president of the council and speaker of the house respectively, have won the respect and approval of their associates during the session by their fairness, courtesy and tact. This is the universal opinion of the members of both houses.

Col. J. Francisco Chavez, the newly appointed superintendent of public instruction, has received the following telegram:

"I tender you my sincere congratulations in having received appointment to position that you are so well adapted to by your qualifications. Success to your administration."

"J. R. ARMijo."

A TRIBUTE TO COLONEL CHAVES.

The presentation last evening to Col. J. Francisco Chavez, president of the council, of a solid silver tea set, by the members of the esteem and veneration in which Colonel Chavez is held by his fellow legislators. His impartiality and parliamentary and forensic ability, as well as his honorable and distinguished career, make him one of the foremost leaders in the political and the legislative work of the territory. The presentation address of Mr. Springer was dignified and eloquent, while the response by Colonel Chavez told how deeply touched was the recipient of the gift.

CHIEF CLERK MARTIN REMEMBERED.

Just before the council met last night the council employees held a meeting and presented Chief Clerk Martin with an elegant cut-glass set, consisting of a decanter and wine glasses, and a large sterling silver ladle and fork. J. M. Griffin made the presentation address in English, followed by Nestor Montoya, who spoke in Spanish. Both speakers spoke in the highest terms of the chief clerk and the fairness with which he has treated all of his assistants, from the highest to the lowest. During this session, Mr. Martin responded very eloquently, thanking the employees for their kind consideration.

Those who shared in the bestowal of the present were Messrs. Lou Hughes, Blanche Rothger, Clara Olson, Messrs. Mariano Armijo y Otero, Nestor Montoya, Domingo A. Ortega, George W. Armijo, Page B. Otero, J. M. Griffin, Nasario Gallegos, Pablo Trujillo, Melisario Lucero, Basilio Lopez, Alvaro Martinez, Atelano Ulivarri, Felipe Baca, Fermin R. Lopez and Eduardo Jaramillo. The committee appointed to select the present were Miss Olson, Page Otero, Nestor Montoya, Mariano Armijo.

FRIDAY, MARCH 22.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, or until statehood is attained, Miguel A. Otero.

The thirty-fourth legislative assembly has adjourned. Its record in the main has been good.

Col. J. Francisco Chavez, as president of the council of the thirty-fourth legislative assembly, has made a most excellent record as a presiding officer. As a legislator he is above criticism. It is but just to say this.

Mining operations at Johannesburg, in the Transvaal, have been resumed, and soon there will be enough revenue from that one mining camp alone to pay for the civil government of Great Britain's new provinces.

Among the leaders of the house of representatives of the thirty-fourth assembly which adjourned yesterday was Hon. E. C. Abbott, a resident of Taos county. Fearless, energetic, quick and bright, he demonstrated that he is a natural leader.

It has been stated definitely at Washington that there will be one cabinet change in the near future, and that is the retirement of Attorney General Griggs to be succeeded by Philander Knox. As to stories and rumors of other cabinet changes they are for the present unfounded upon fact.

Hon. B. M. Read did remarkably well as speaker of the house of representatives of the thirty-fourth legislative assembly. His task was very hard and onerous, but he performed it with skill, fidelity and intelligence. He was loyal to his friends, true to his convictions, and may well be proud of the record he has made.

Hogs bring better prices on the stock markets than they have at any time since seven years ago. There is an ever-increasing demand for pork, and New Mexico might pay some attention to filling the perpetual want for more pork. There are some districts in New Mexico where hogs could be raised profitably, and there is a new industry for the territory should be built up.

There are sixty-five delegations at Southampton, some numbering as high as sixty members, awaiting the arrival of Andrew Carnegie. Each delegation represents some charitable institution or a city that wants a library. A man need only let it be known that he is ready to spend his millions, and he will have no difficulty in finding places for them.

The coal strike at Gallup is blamed for the rotting of millions of dollars worth of oranges in California. The oranges could not be taken to the markets owing to lack of transportation facilities caused by the stringency in coal. Isn't it time, therefore, that a few more coal fields be developed in New Mexico, so that the territory could supply coal sufficient to move at least the orange crop in case of an emergency like the Gallup strike?

While in New Mexico, the census enumerators in many instances did not enumerate the total population. In Maryland it has been discovered that the census returns were deliberately padded. In one county alone 500 names were added intentionally to the existing population in order to have the county make a good showing, and to increase the emoluments of the census enumerators who were paid by the name.

Germany is having the same trouble over armor plate as the United States. It will be remembered that the Bethlehem Iron Company furnished armor much cheaper to Russia than it did to the United States. Now it is asserted in the German reichstag that Krupp, the great German steel manufacturer, has sold armor plate to the United States much cheaper than he has been selling it to Germany. It still holds true in trade that a merchant or a manufacturer will take as good a price as he can get for his commodities.

Hon. B. S. Rodey, New Mexico's delegate to congress, seems to have the correct idea about pushing New Mexico to the front. It is not merely in asserting that New Mexico is progressive, is prosperous, is immensely rich in natural resources, and is fit for statehood, but in showing and demonstrating to people these facts in a convincing manner, in advertising the territory so that the people who know a few little truths and no reliable facts about the territory will become less every day.

The Denver Republican openly charges three of the county commissioners of Arapahoe county, in which Denver is situated, with theft; with charging two salaries for daily services while visiting in the east. Such charges made against New Mexico county commissioners would, in the eyes of some people, be a proof that the territory is not fit for statehood, but this having happened in a state, it is merely an indication that the morality of a few individuals is oblique, and that the state is not to blame for their shortcomings.

The man who gives more thought to the number of hours he works and to wages he receives than he does to his work will never be a success in the world.

While great improvement has been effected in journalism the past decade, no method has been devised to prevent the exaggerated stories which often reach the press and are printed in good faith. It appears that the situation at Tien Tsin, especially in reference to the dispute between the Russians and the British has been greatly exaggerated. The Tien Tsin liar has earned himself a place by the side of the Mole St. Nicholas, the Taku, the El Paso and the Eagle fabricators of sensational news.

It seems assured that President McKinley will pass through New Mexico on his western trip. It will be at night time, however, and through a part of the territory that, while it is prosperous, does not represent the best in scenic beauty, in climate and in municipal advancement that New Mexico has to show. The president, however, has an invitation to visit other parts of the territory, and if he accepts the invitation, which, however, is not likely, New Mexico must prepare to give him a grand reception.

With the exception of a few mongrel papers, whose number can be counted on the fingers of one hand, the press, both Republican and Democratic, has been very fair in its comments upon the legislature and its doings. The Denver, St. Louis, Chicago, New York, San Francisco and Kansas City and El Paso papers have been free also from the sensational reports which in former years were sent to them from Santa Fe about the doings of the legislature and of the governor. The legislature and the executive of New Mexico command respect not only in the territory, but beyond it. This fact should make the publishers of a few biased newspapers quieted in the face for shame. They were the only representatives of journalism who attempted to hurt New Mexico and its reputation by their insinuating, untruthful misrepresentation of the legislative proceedings and the motives and actions of Governor Otero.

Those who find fault because the legislative assembly has been as liberal with the territorial institutions of learning as the income of the territory would permit must remember that other commonwealths spend from ten to fifty times as much on their state colleges and universities, and have a good many more of such institutions as New Mexico. The tax levy for the New Mexico college of agriculture, for instance, will not bring in more than \$6,000 a year for the institution. On the other hand, the annual income of the University of Michigan is \$255,000; of the University of Minnesota, \$370,000; of the University of Illinois, \$300,000; of the Ohio State University, \$200,000; of the University of Missouri, \$200,000; of the University of West Virginia, \$150,000; of the University of Virginia, \$140,000; of the University of Colorado, \$80,000. Nebraska levies a one mill tax for its university, giving it an income of \$270,000 a year. It will be seen, therefore, that the legislature has been economical, and yet as generous as circumstances would permit with the educational institutions, which should be the pride and hope of the people of New Mexico.

The Work of the Assembly.

The pledges of the Republican platform adopted in the territorial convention in Santa Fe October 3 last have been fulfilled by the thirty-fourth legislative assembly. The rights of McKinley county have been respected and its desires gratified. The coal oil law has been amended so as to cut down the inspector's fees one-half and to make it a better agent for the protection of the people. Several refunding bills giving municipalities and counties a chance to refund their debts at lower rates of interest and in better shape have been passed. A new school law containing many needed propositions has been enacted. The important interests of the territory have been fully recognized and needed legislation has been had. An appropriation bill, containing about \$60,000 less of appropriations than the one for the fifty-first and fifty-second fiscal years, has been passed.

In many other respects, beneficial legislation has been the rule. The Republican party, which controlled the thirty-fourth legislative assembly, need have no fear of the record that has been made. To be sure, there are a few newspaper jackals who represent the Pops, and a few disgruntled Republicans who are condemning the 34th assembly. This condemnation, however, and the fake stories and lies about the assembly will be found to cut no ice at the coming election. Facts speak for themselves, and the fact is that the recent assembly has done well.

Contingent Expenses of the Governor's Office.

Governor Otero's term expires the 7th of June, 1901. The legislative assembly composed of representatives fresh from the people has seen fit to grant the executive a contingent fund for expenses and for a competent secretary. The opponents of Governor Otero have set up a daily and weekly howl that this was done solely by the governor's forcing it through both bodies of the assembly. These are lies that fall of their own weight. The governor has only a short term to serve, and there is no telling whom the president will appoint. While the vast majority of the people of the territory hope and expect that he will be his own successor, there is, of course, no certainty in the matter. The appropriation for a contingent fund for the executive does not go into effect until 1902. Therefore, it cannot be justly and fairly charged that it is for Governor Otero's benefit that this appropriation was made. There may be another man in office. This is what the opponents of Governor Otero, both newspapers and politicians, are working for; therefore, it is plain that their charge against the governor that he has lobbied and worked for this appropriation for his own benefit will fall to the ground. Any reasonable and fair-minded man who looks the situation over will hold so. To be sure, nothing fair, nothing just, nothing decent, can be expected from the class of men who make these charges, but the people

SCROFULA The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike; they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores; the eyes are inflamed and weak; there is an almost continual discharge from the ears, the limbs swell, bones ache, and white swelling is frequently a result, causing the diseased bones to work out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

S. S. S. is the only medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. It cures scrofula, restores the blood, purifies the system, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the appetite, aids the digestion and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or your child has inherited any blood taint, don't wait for it to develop, but begin at once the use of S. S. S. It is a fine tonic and the best blood purifier and blood builder known, as it contains no poisonous minerals. S. S. S. is pre-eminently a remedy for children.

When my daughter was an infant she had a severe case of Scrofula, for which she was under the constant care of physicians for more than two years. She was worse at the end of that time, however, and we were almost despairing of her life. A few bottles of Swift's Specific cured her completely, as it seemed to go to the cause of the trouble. I do not believe there has an equal for stubborn cases of blood diseases which are beyond the power of other so-called blood remedies. Our medical department is in charge of experienced physicians who have made Scrofula and other blood diseases a life study. Write them about your case, or any one you are interested in. Your letter will receive prompt and careful attention. We make no charge whatever for this.

Hundred Year Clubs
Are becoming numerous. The idea is to promote longevity. It is interesting to note, that the means through which long life is to be obtained, is food and the stomach. Long life and good health are not possible unless the stomach does its work properly. There is a way to make it. If it does not, Hostetter's Stomach Bitters is an ideal strength restorer. If you would be cured of dyspepsia, indigestion, belching, constipation, nervousness, dizziness, try the Bitters. Everybody should try it at this time to help nature rid the blood of winter impurities. It's a specific for malaria. See that our Private Revenue Stamp covers the neck of the bottle.

They Came.

Shoppers who read Barges' ad.
But that's an unusually large crowd for so early in the morning.
I know, but the ad said: Come early and avoid the crowd.—Catholic Standard and Times.

The stomach controls the situation. Those who are hearty and strong are those who can eat and digest plenty of food. Kodol Dyspepsia Cure digests what you eat and allows you to eat all the good food you want. If you suffer from indigestion, heartburn, belching or any other stomach trouble, this preparation can't help but do you good. The most sensitive stomachs can take it. Ireland's Pharmacy.

May—You came near accepting Jack once, didn't you?
Belle—Oh, yes. I offered to toss a coin to see if I would marry him, but he didn't have a coin to toss.—Puck.

Mr. J. W. Patterson, night police at Nashua, Ia., says: "In January I had a very bad cold on my lungs, and used half dozen different cough medicines and prescriptions from two doctors, but grew worse all the time. Hubbitt—Not at all. So many of your fellows have been frozen out by them, you know.—Boston Transcript.

Robert R. Watts, of Salem, Mo., writes: "I have been troubled with kidney disease for the last five years, and have doctored with all the leading physicians and have tried all remedies suggested without any relief. Finally I tried Foley's Honey Cure, and less than two bottles completely cured me, and I am sound and well." Fischer Drug Co.

Bondage, But Whose?
"That ring," said the advanced woman, indicating the wedding ring, "is a sign of bondage."
"True," admitted the young matron. "Yet you wear it."
"Certainly. Why shouldn't I? It isn't necessarily my bondage."
"Then whose is it?"
"Well, it takes several years of married life to find that out. I'll tell you later."—Chicago Post.

That Kind.
"Answer the question, witness. What kind of fence was it?"
"It was a spite fence, your honor."
"A spite fence? What kind is that, madam?"
"The kind that spiteful folks build in back yards, your honor, just to keep other folks from looking into their kitchens."—Chicago Tribune.

Different Points of View.
Old Grimes did chide his lazy son, 'cause he in bed did lay.
Instead of getting up to work with the dawn of the day.
He told him how a laborer once at sunrise in the field
Had found a leather purse which did a thousand dollars yield.
"Oh, that's all right," the youth replied.
"An early bird has he."
But the man who lost the money was earlier, don't you see?

ANOTHER VIEW OF IT.

Woman (asking alms)—Please, sir, pity a poor woman, the mother of ten children.
Man—Pity you! Mother of ten children! Well, woman, in this age that is something to be proud of.—Harlem Life.

An Orator's Impression.
A sense of pride my soul enfolds,
I smile with kindling eye
To think my one small tynax holds
The whole vox populi!
—Washington Star.

Dyed for Love.
"Congratulations, old man!"
"What for?"
"Oh, don't be hypocritical. Joakley tells me your rich old uncle died last week."
"Joakley thinks he's funny. A pretty young widow moved in next door to my uncle, and he's dyed his hair and mustache."—Philadelphia Press.

Where It Ended.
"The man who wrote 'Home, Sweet Home,' was a bachelor, I believe," she said.
"Yes," he replied, "what a beautiful thing would have been lost to the world if he had married before he wrote it."
Then they came out from behind the palms.—Chicago Times-Herald.

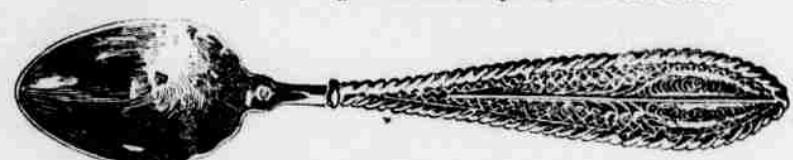

He Had None.
"What is your opinion of his reputation for truth and veracity?"
"I have none."
"No opinion?"
"None. An opinion presupposes the existence of such a reputation and he has none."—Chicago Post.

Her Orders Were Obeyed.
"And I want it to say: 'To my husband,' in an appropriate place," said the widow, in conclusion, to Slab, the gravestone man.
"Yessum," said Slab. And the inscription went on: "To My Husband, in an appropriate place."—Tit-Bits.

DIED OF GROUND GLASS.

The Ordeal Death of an Ossified Man at Albuquerque.

W. T. Sapp, an ossified man of Lebanon, Ky., died at Albuquerque this week. While still a child Sapp's muscular tissue entirely wasted away, and every joint in the body, except those of the left shoulder and of the hands, became solidified. For thirty-six years the helpless status of a man has been on exhibition. The body is that of a 7-year-old child, the weight 40 pounds. The remains will be sent to Lebanon for burial. Sapp's manager claims he died from the effects of ground glass which was in the milk he drank. Some of the milk was given to a dog, which became very sick.
