Word has been received here of the death of Bailer Dillyhunty, one of the Dillyhunty boys, whose par
tage ranch about fifty miles south
west of town. From what we can
learn, the young man was shopping
cattle and expired on the road somewhere, but no particulars are available at this time. E. V. Al
britton left a car for the Dillyhunty
camp to bring Mrs. Dillyhunty and
the children in and when he returns we may be able to give full particulars.

Wallace Smith, wife and young
son were up yesterday from their ranch home on the Delware. Judging from Mrs. Smith's parentage and Santa Claus will be a visitor at the ranch this year.

DUTCH WANT TO INTERN KAISER FOR LIFE -- HOLLAND

MAY HAVE TO SET

TLE WITH ALLIES FOR HER BREACH OF NEUTRALITY

By Associated Press.

London, Dec. 7.—If the allies insist on delivery of the former German emperor and crown prince to an international court, Holland will yield, but before doing so she will urge the allies to content themselves with the undertaking by Holland to intern them for life in one of the Dutch colonies, according to an Amsterdam dispatch to the London Express.

Holland, it is understood, has suggested that Herr Hohenzollern and his son be placed on an island, either in the East or West Indies, where they will be guarded by a Dutch fleet. It is also anticipated that Holland will be asked for compensation for the violation of her neutrality by al

PRISON TERM FOR TRADING WITH HUN

If the farmer cannot get enough for his live stock, he raises less, and the packer gets less raw material.

If the consumer has to pay too much for his meat, he eats less of it, and the packer finds his market decreased.

The packer wants the producer to get enough to make live-stock raising profitable, and he wants the price of meat so low that everyone will eat it.

But all he can do, and what he would have to do in any case to stay in business, is to keep down the cost of processing the farmer's stock into meat so that the consumer pays for the meat and by-products only a little more than the farmer gets for his animals.

For example, last year Swift & Company paid for its cattle about 90 per cent of what it got for meat and by-products (such as hides, tallow, oils, etc.)

Cattle from the farm were turned miraculously into meat and by-products of retailers (without going through the expense of dressing, shipping and marketing), the farmer would get only about 1½ cents per pound more for his cattle or consumers would pay only about 2½ cents per pound less for their beef!

Out of this cent or two per pound, Swift & Company pays for the operation of extensive plants, payment or results operations refrigerator cars, maintains branch houses, and in most cases, dispatches to retailers all over the United States. The profit amounts only to a fraction of a cent, and a part of this profit goes to build more plants, to give better service, and to increase the company's usefulness to the country.

His subject will be “The Mission of the Church at the Close of the World.” Talks will be made on this subject in the social, financial and spiritual points of view and interesting and helpful meeting is anticipated.

Majer Dean Smith and Capt. J. A. Macready, of Brookfield, San Antonia, Texas, in their automobiles arrived in the city last night. They left Brookfield at 9 o’clock in the morning and arrived here at 4:45.

Both gentlemen were very tired and no formal welcome was given them. The number of people at the aviation landing last night to meet the fliers and automobiles was put in good shape previous to their arrival. They left this morning, however, to expect to re-turn this evening and will start on the return trip to Brookfield tomorrow morning.

The following letter was recently received from Abner Kay Kendall in his mother, at Silver Bay Y. This was followed by one from the chaplain of the base hospital to which the young man was enroute when he expired. The heart-broken family has the sympathy of a host of friends here, where most of the young man’s life was spent. The letters follow.

All will get Jobs.

To be No Slump in the Demand for Labor.

Desolate Europe Will Look to United States to Help Rebuild.

New York.—John will be for the nation in the period of the world’s reconstruction. There’s to be no slump in the demand for labor.

It has been estimated that no fewer than 10,000,000 men have been killed in Europe. Three million states, which has not lost 10,000 men, must make good this huge labor void.

Desolate Europe will look to the United States for help to rebuild. We must finance this big job and supply the materials and tools.

According to M. Tardieu, French high commissioner, it will take two years to get the French coal mines in working order and ten years to put them in proper condition. To re-construct private homes alone will require the work of 10,000,000 men for 20 years.

Prof. Van den Vean of Leuven, now in the United States, says the war lost commodities and materials to Europe equal to the output of 45,000,000 men have been destroyed. Practically all important factories have been ruined by the war and most of the factories have been destroyed.

The machinery was shipped to Germany by many towns and villages have been wrecked. Farm houses have been robbed of all live stock. Miles of intercity railroads have been torn up and shipped to Germany.

The problem is first to keep alive the population released by the enemy, second, to reconstruct the industrial machine so the people can make a living.

England also will want food, manufactured goods, raw material and machin-ery in great quantities. So will Italy and the Scandinavian countries.

George E. Roberts of the National City bank maintains that the United States will pass out of the war period with more wealth than she possessed before the conflict began. There has been much scientific development of industry, and agriculture has been stimulated as never before.

There is no obstacle, he thinks, to a continuance of business activity except the difficulty of equipping business to a peace basis. This obstacle is great but surmountable.

Christmas Eve After Each Rain.

It pays to road the road on the road a little while after a rain. Compare right now state roads which have been dragged regularly and some of the country roads which have been allowed to cut into run.

Local interest will undoubtedly be aroused by the announcement that America’s Answer,” the second war picture to be made at the Flac to France” series, issued by the Division of Films, Committee on Public Information, will be presented at the Crawford Theater.

“Americal’s Answer” was made by the United States Signal Corps photographers under the direction of General Pershing, by whom it was reviewed and approved. General Pershing has said that the films are an accurate accounting of the first of his stewardships and that the complete series will form a pictorial history of America’s part in the great war.

“Americal’s Answer” shows the achievements of America which have excited the admiration of the French and British, dealing par-ticularly with the transportation of troops to France, the construction of over a million tons of shipping, the marvelous feats of the American engineers in forestry and construction work in France, the work of America’s transportation and port facilities in France and many details of America’s participation that will bring pride and hope to the American people.

Of particular interest are the scenes of American soldiers ex-pressing themselves, the great ocean-going transport ships, the land transportation of troops and their movements to the various camps, and, most interest-ing of all, their active participation in the fighting at the front. They are shown in the front line trenches facing the Hun, and it is seen in detail how Americans are adding to the glorious history of the Flag.

The film above referred to is be-ing sent out by the government and in no case are reviewers allowed to advance their prices.

The family of W. Hannah is among the latest to get down with the prevalent epidemic. Both are all doing as well as could be ex-pected at this time.
