ALBUQUERQUE, NEW MEXICO, WEDNESDAY AFTERNOON, MAY 28, 1902

NUMBER 157

NOT THIS SESSION

The Statehood Bill Was Sidetracked.

A Prominent Presbyterian Minister Dead.

High Tribute Paid the Remains of Lord Paucefote.

WILL PROSECUTE O'BRIEN.

Washington, May 28.—The senate committee on territories today decided against fixing a time for the consideration of the omnibus statehood bill providing for the admission of Oklahoma, New Mexico and Arizona into the union.

REV. P. B. PALMER DEAD.

Best Known Presbyterian Minister in the South.

New Orleans, May 28.—Rev. P. B. Palmer died here this afternoon. He was over 80 years old and was probably the best known preacher in the Presbyterian church in the south. He was prominent in the confederacy during the civil war. Death was the result of injuries from being struck by a street car several weeks ago.

NATIONAL FUNERAL.

High Tribute Paid the Remains of Lord Paucefote.

Washington, May 28.—The remains of the late Lord Paucefote, British ambassador to Washington, were today accorded a national funeral as a token of the high esteem set by the American people on the personal worth of the deceased and an acknowledgment of the friendly feeling cherished towards Great Britain. Every department of the national government was represented and the numerous diplomatic body of which so many years the late Lord Paucefote was dean, was present. Resident society at the capital was fully represented and the presence of a thousand men in arms was the visible sign of military participation.

The services at St. John's church were similar to the memorial service in honor of the late Queen Victoria. President Roosevelt had the place of honor on the right of the central pew. With him sat Mr. Ralke, British charge, for this special occasion, the personal representative of King Edward. On the left sat Captain Bell, representing Canada by special designation. The remains were placed in the receiving vault at Rock Creek cemetery, where they will remain until such time as they should be conveyed on a United States warship to England.

Will Charge Perjury.

Washington, D. C., May 28.—Senator Lodge, chairman of the senate committee on Philippines, stated today that Witness O'Brien, whose testimony reflected severely upon Captain McDonald, and other army officers, will be prosecuted on the charge of perjury.

VOTED FINANCIAL AID.

Western Federation of Miners Helped the Suffering Families.

Denver, May 28.—The Western Federation of Miners voted \$3,000 to aid the families suffering from the explosion at Fernie, B. C. The convention overwhelmingly adopted resolutions directly in line with the president's idea of the organization of the body into a political factor. The committee to whom the president's address was referred will undoubtedly advise strongly according to his ideas. Secretary-Treasurer Haywood reported splendid growth of the organization. The delegates to the Western Labor Union discussed the initiative and referendum, and listened to Senator Becklin, of Colorado, on the Australian tax plan.

LAND LEASE DEAD.

The Proposition Will Not Come Up This Session.

Washington, May 28.—A proposition to lease public lands for grazing purposes was investigated at some length by the house committee today. It went over indefinitely and will not be considered again at this session. Mr. Bell, of Colorado, opposed the plan on the ground it would bring a halt to homestead entry of lands.

AFTER THE CZAR.

Woman Was Carrying an Infernal Machine in a Handkerchief.

London, May 28.—A dispatch to the Central News from Petersburg says: Secret service officers arrested a young woman at Tsarsko-Selo, the summer residence of the czar, while carrying an infernal machine concealed in a handkerchief.

Philippine Bill Up.

Washington, May 28.—In the senate today Mr. Hoar stated the president pro tem and acting president pro tem in their official capacities, were in attendance at the funeral of Lord Paucefote, as were other members of the senate, and therefore he moved, and the motion was agreed to, that the senate recess until 2 o'clock.

When it re-convened the conference report on the omnibus public buildings bill was agreed to.

Consideration was resumed of the Philippine government bill, and it was agreed to vote on the bill Tuesday next at 4 o'clock.

Presidential Nominations.

Washington, May 28.—The president today sent the following nominations to the senate:

Postmasters—Texas: Gomer S. Williams, Cisco; George C. Clifford, San Antonio; John Beatty, Waxahatchie.

FRIDAY'S GAME OF BALL.

Teams Which Will Battle for Victory at the Fair Grounds.

The make-up of the teams which will represent Albuquerque and Santa Fe will be as follows:

Albuquerque—McDonald, Haverly, Cosgrove, Vorhes, Hale, Barrett, Quier, Ortiz and Smith.

Santa Fe—G. Parsons, Rhodes, C. Parsons, W. Parsons, Shirk, Lyons, Alarid, Catron and Otero.

From the material presented by both teams it can be seen that one of the best games played in the territory can be looked for. Santa Fe will strain every muscle to regain their lost title and, of course, the Browns are determined they shall not. The Santa Fe team will pass through here this evening for Socorro.

Friday's game will be called at 3 o'clock sharp and will cost 50 cents to see, which includes grand stand.

WAS IT MURDER?

More Particulars About the James Young Case at Las Vegas.

THREE SUSPECTS ARRESTED.

The Citizen, yesterday, published an article briefly reciting some facts regarding the killing of James Young, an old stonemason of Las Vegas. The record goes into details and gives more particulars of the crime, as follows:

While Thomas Raywood and Edward French were returning home Saturday night on Railroad avenue, they found the brick mason, lying near a telegraph pole on the sidewalk south of the Rawlins house. They went to the Opera bar and summoned aid, and Pierce Murphy, the night policeman, and John Booth went with a carriage, picked Mr. Young up and took him home. They supposed him only drunk, and did not know at the time that he was badly injured. Mr. Murphy undressed him and put him in bed, and as he did so laughingly gave him a tap to try and awaken him. Young replied: "That's enough of that," and that was the only sign they had that he was conscious, though during the night he gave evidence that his head hurt him and there was considerable blood on the pillow.

Mr. Young was addicted to drink and his family did not think anything unusual was out of the way and went to church yesterday morning. When they returned about 9 o'clock he was dead. A post mortem examination showed a bad fracture back of the ear, a clot of blood over the eye, and an injury under the jaw, evidently caused by a kick.

Looks Like Murder.

The physician who made the post mortem said that the blow he received was enough to fell an ox, and medical aid could not have saved his life. It is his opinion that the injury could only have been made by another man, and not caused by falling on the hard cement walk, as was at first supposed. It looks decidedly like a cold-blooded murder for the purpose of robbery. Mr. Young had only 45 cents and one of his pockets was turned inside out when found, although he had drawn about \$25 from Mr. Higgins that afternoon for work done.

Suspects Arrested.

There have been three arrests made on suspicion. Elias Padilla, a half-breed Indian, who is a driver for H. G. Coors, and Francisco Sanchez and Meliton Lucero. The circumstantial evidence against the first two, at least, is quite strong, they and Young having been turned out of a saloon after midnight Saturday for quarreling, and it was known that these fellows were with the dead man up to a few minutes before the body was found.

Lucero had been with the crowd during the evening and he was taken in on general principles. Padilla is in the county jail. The arrests were made yesterday afternoon.

A coroner's jury, composed of M. J. Crowley, John Ensign, William Fresenius, R. K. M. Cullen, L. J. Myer and N. J. Dillon, has been empaneled and will hold an inquest tomorrow afternoon at 2 o'clock.

The deceased, who was well known around town, was a brick mason by trade, and was about 50 years of age. He was a member of the A. O. U. W. lodge and had \$2,000 insurance on his life. He leaves a wife and four children. The funeral will be held tomorrow morning at 10 o'clock at the east side Catholic church.

The deceased was known as a free spender of money and a whole-souled fellow.

He was robbed of \$40 about four weeks ago, but made no complaint, and it is possible one of the accused was mixed up in this trouble.

THE PLATFORM

Ohio Republicans Declare Principles

Endorse the Administration of Roosevelt.

McKinley Called the "Chief Architect of our Industrial Progress."

NOMINATIONS COMMENCED.

Cleveland, Ohio, May 28.—When the republican state convention re-assembled today the reports of committees were adopted. General Charles H. Grosvenor was then presented as permanent chairman and received quite an ovation.

At the conclusion of General Grosvenor's address the platform was reported, and on the conclusion of its reading it was adopted.

The platform, with profound reverence, pays a tribute to McKinley, deeply laments his tragic death, refers to him as the "chief architect of our later industrial growth," approves the "high aims and character" of President Roosevelt's administration; refers proudly to the country's present prosperity, and says:

"Democratic success would have thrown into destruction the protective system under which our splendid prosperity comes." It refers to labor as superior to capital, and deserving of more consideration; believes in fewer hours and larger rewards for labor; favors such laws as will harmonize the interests of labor and capital, and tend to lighten the burden of tolls; commends congress for re-enacting the Chinese exclusion laws; favors the continuation of the liberal pension policy of the republican party. While recognizing the necessity of co-operation in order to meet new conditions in the industrial world, all combinations to stifle competition, control prices, or limit production should be repressed with a strong hand, and in this connection it points out the republican party as the only one that has dealt courageously and honestly with the trust question. It cites a report from the passage of the Sherman anti-trust law to the present proceedings by the attorney general against unlawful combinations as proof of the assertion. It declared the Philippine islands should be developed for the benefit of their own people and the honest investor; congratulates the president and the army upon "the satisfactory progress made in the Philippines in suppressing insurrection and establishing order;" endorses the policy of the government in those islands; resents with indignation "the recent democratic efforts to drag the honor of our army in the dust and cast reproach upon its fair name."

It concludes by proudly reaffirming faith in all the cardinal principles of the republican party.

For secretary of state, L. C. Laylin was renominated.

For supreme judge, William B. Crew, of McConnellsville, was nominated on the fifth ballot.

Ankeny was nominated for state dairy and food commissioner.

DISCUSSING SILVER.

House Has Under Consideration the Coinage Bill.

Washington, May 28.—The house today transacted some routine business before regular order was demanded. A rule for the consideration of the bill to increase subsidiary silver coinage was adopted and under the terms two hours are allowed for general debate.

Mr. Hill, of Washington, expressed surprise at the criticism of the measure indulged in by Mr. Shafroth yesterday. It had nothing to do with the question of exchange, abolition or redemption of silver dollars. It covered only the subject of subsidiary coinage and was so innocent the minority had not seen fit to attack it in their report.

Mr. Hill declared that legal tender silver dollars cost the government \$350,000,000 in the last twenty years, which is convincing proof of the wisdom of their retirement. Mr. Bell, of Colorado, declared every great panic this country suffered was precipitated by "currency tinkers" like Hill and his friends. He said it would create an all-powerful banking trust which would control the issue of paper currency.

Ribble Resigns.

Capt. H. H. Ribble has resigned as justice of the peace of precinct 26, and will leave tonight for Arrow Head Springs, Cal. Capt. William Borchert is being mentioned for the office. The commissioners will make the appointment at the meeting to be held in a short time.

Mrs. E. P. Larnard Dead.

Mrs. G. H. Frost, residing on South Third street, received a telegram announcing the death in Denver this morning of Mrs. E. A. Larnard, daughter of Mr. and Mrs. W. P. Fox and sister of Miss Mabel Fox, of this city. When the lady was taken sick a short time ago, Miss Mabel hastened to the bedside of her sister, followed a few days later by the father and mother,

but their presence and tender care could not prevent death, which resulted this morning. The deceased leaves a husband and four little boys, who, with the bereaved parents and sister, will receive the condolence of a host of friends in this city.

An Arm Dislocated.

This morning Juan Salazar y Otero arrived from his sheep ranch and was taken to the home of his nephew, Patrolman Salazar. While loading sacks of wool three days ago, one sack fell and struck him on the left shoulder, knocking him to the ground. When he got here today it was found his left arm was dislocated at the shoulder. It was set and he is getting along well.

Harry Jenks, the Cochiti miner and mine operator, is in the city on a visit to his people.

THE WHITE ELEPHANT.

Front Doors of the Handsome Place Were Opened.

The front doors of the new saloon of George K. Neher were thrown open for the first time last night. It was not the formal opening but the goods had merely been moved in from the old White Elephant.

The place is an unusually handsome one and the bar is of solid mahogany. The place is brilliantly lighted and mirrors extend all around the room, showing the handsome faces of the two Lous wherever one may look. There are billiard and club rooms up stairs. The rooms formerly used by the White Elephant will be used as lunch and private club rooms. The formal opening will be postponed until the finishing touches have been put on.

EAKIN TRIAL.

More Witnesses Examined in the Case on Monday.

ADMITTED TO BAIL.

The preliminary hearing in the Eakin murder case was continued from Saturday evening in the district court. The territory put on seven witnesses.

The defense placed on the stand J. C. Reed, who testified that he heard Smith the murdered man, say he would shoot Eakin's head off. Reed said that when the shooting commenced he was so scared that his legs refused to carry him out and he pushed so hard against the wall that the print of his shoulders can be found there yet. B. M. White, who was in the saloon at the time, heard Smith say to Stewart and the girls with them, that "the little thing would soon begin." Emma Flynn, an acquaintance of Eakin's, was in Smith's saloon when he came in and invited her, with two other girls, to go over to Eakin's place, "shoot up the joint and run him out of town." Smith was armed with a big gun, which he carried in his belt in front. Other witnesses testified to practically the same thing.

Eakin was put on the stand this morning and told of the shooting substantially as it has been reported in the newspapers. He said that Smith was armed and slapped him in the face. He had a pistol under the counter and awaiting his opportunity pulled and shot Smith, who was standing opposite the bar close to him.

Fonville was then called. He corroborated the preceding witnesses. He said that trouble had been expected and they had armed themselves early in the evening. Eakin had sent to Santa Rosa for his shotgun, a rifle was in the saloon at the time, and he had purchased a pistol from a hardware store in Tucuman that afternoon. These were all loaded and placed under the counter, where they could be easily reached at a second's warning. Smith came to the bar with Stewart and the women, ordered drinks, made a remark, tried to slap Eakin, pulled his revolver and raised it until it appeared above the bar. He then put it back and when an opportunity offered Eakin pulled his gun from under the bar and fired. Confusion followed and he grabbed the shotgun. Others grabbed it also and it went off, shooting Stewart in the side.

Later, J. D. Eakin and L. Fonville were remanded to jail without bail on the conclusion of the testimony. The trial will occur at the forthcoming court in Guadalupe county.—Las Vegas Optic, May 26.

Admitted to Bail.

Late yesterday afternoon, after The Citizen had been issued, Charles Melini, of the firm of Melini & Eakin, received a telegram from Attorney W. B. Childers, stating that Eakin and Fonville had been admitted to bail and that they would return to this city tonight.

Lively Rock Party.

Early Sunday morning there was a general fight over a bottle of whisky in "Dogtown," in which rocks were thrown at a lively rate. Juan Baco and Rafael Rivera were better in their aim than Nativado Garcia, and the latter was hit on the head. With a hand-aid head he appeared before Judge Crawford this morning as complaining witness and each of the others was fined \$5.

Joseph Stratton, who was found by Special Officer Barton sleeping in a box car, was given five days.

J. Lorenzo Hubbell, the Arizona sheep raiser, is here on a visit to his family. He reports good rains in the section of Arizona where his sheep range.

TEN THOUSAND

Conference of International Arbitration.

The Soft Coal Miners Will Probably Strike in Sympathy.

PAUL J. SORG DEAD.

Special to The Citizen.
Washington, May 28.—At the last moment I succeeded in getting \$10,000 for site for public building at Albuquerque before the conference committee.

B. S. RODEY.

ARBITRATION CONFERENCE.

John W. Foster, Former Secretary of State, Elected President.

Lake Mohonk, N. Y., May 28.—The eighth annual conference of international arbitration opened here with an attendance of over 250 members.

Former secretary of state, John W. Foster, was elected president. A review of the year's progress in arbitration was given by Dr. Benjamin F. Trueblood, secretary of the American Peace society, and a discussion followed.

A HUGE STRIKE.

Soft Coal Miners May Help the Anthracite Miners.

St. Louis, May 28.—Frank P. Sargent, head of the Brotherhood of the Locomotive Firemen, and a member of the National Labor Arbitration committee, of which Senator Hanna is chairman, stated today in the Post-Dispatch:

"A general sympathetic strike of all soft coal miners will probably be ordered. He declared the miners in the Pennsylvania coal region refused absolutely to treat with the regularly constituted arbitration board, and a sympathetic strike of soft coal men is the only recourse."

"The anthracite miners," continued Mr. Sargent, "asked very little and were willing to make concessions, but the attitude of the operators was such I did not hesitate to suggest a strike to John Mitchell. I do not see any hope of a compromise."

Paul J. Sorg Dead.

Middletown, Ohio, May 28.—Paul J. Sorg, former congressman and millionaire tobacco manufacturer, died today, after an illness of several days. He was 62 years old.

MINING NOTES.

A boom is said to have struck the Black Mountain district, New Mexico, and many new claims are being opened up.

Eastern capitalists have offered to erect a smelter at Wickenburg, Ariz., within ninety days, provided that a suitable site is donated.

The daily shipments of iron and copper ore from Santa Rita, Pinar and tributary camps in New Mexico aggregate twenty-five to thirty cars.

A minor can legally locate a mining claim, but to transfer a valid title it is necessary for the court having jurisdiction where the claim is located to appoint a guardian to act for the minor.

The Byron group of mines, opposite Kelvin, Ariz., has over 3,000 feet of development work done instead of 1,500, as previously reported. James McCarthy and Mrs. Kinney, of Globe, are the owners, and it is reported they are about to sell to a New York syndicate for \$125,000.

Work on the oil well, twelve miles north of Deming, in Cook's canyon basin, Arizona, is progressing slowly. The contractors report having straightened the crook in the hole at a depth of 215 feet, which has delayed them several months, and that now they expect to make considerable headway.

This afternoon the children who will take part in the living flag on Memorial day had a rehearsal. There has been some misunderstanding as to the requirements and today the members of the Woman's Relief Corps visited the schools to explain.

A Chair Presented.

Superintendent M. E. Hickey was surprised by the presentation to him by the teachers of a handsome golden oak rocking chair, upholstered in leather. It was a manifestation of the esteem in which he is held and he retires bearing the respect of the entire corps.

Territory Enlarged.

Yesterday The Citizen announced that E. Cramer, the inspector of agencies for the Equitable Life Assurance society, would visit San Francisco a few days and then return to this city with his family. This afternoon, it is learned, he will not go to San Francisco but will send for his family and the reason for the change is the fact that he has become associated with Edward Grunsfeld, and that the new

firm has been given all of New Mexico, Arizona, several counties in Texas and El Paso. The new firm will be Grunsfeld & Cramer, general southwestern agents of the Equitable Life Assurance society, with headquarters in this city.

Sheep—Receipts, 9,000 head; sheep steady to stronger; good to choice wethers, \$5.50 to \$6.50; fair to choice mixed, \$4.75 to \$5.50; western sheep, \$5.25 to \$6.30; native lambs, \$5 to \$5.85; western lambs, \$5.25 to \$6.30.

New Business Enterprise.

John Oliphant, the affine stock clerk in the wholesale house of Grunsfeld Bros., has leased the room on North First street recently occupied by the Metropolitan restaurant and will put in a large stock of Navajo blankets, rugs, Indian curios, etc. He will take possession immediately and hopes to be ready for business about June 1. Mr. Oliphant expects to retain his present position with the wholesale house, and the new enterprise will be in charge of Mrs. Oliphant, who has had considerable experience in business of this kind.

OFFICIAL MATTERS.

Agent Appointed—Articles of Incorporation Amended.

LAND OFFICE BUSINESS.

The Fidelity & Casualty company, of New York, notified Territorial Secretary J. W. Reynolds that it has appointed Paul Wunschmann & Co. its new Mexico agents, with headquarters at Santa Fe.

Articles Amended.

The Frazer Mountain Copper company notified Territorial Secretary J. W. Reynolds of amendments to its incorporation papers changing its headquarters from Albuquerque to Twinning, Taos county, and establishing general offices at Asbury Park, N. J.

Land Office Business.

Homestead Entries—Samuel P. Molson, Santa Rosa, 148.71 acres, Guadalupe county; Hilario Valdez, Puerto de Luna, 157.20 acres, Puerto de Luna; Gertrudes Garcia, East View, 126.22 acres, Valencia county; George M. Kinell, Cerrillos, 160 acres, Santa Fe county.

Incorporation.

The Taos & Servilleta Wagon Road & Bridge company filed incorporation papers. The incorporators and directors are Loch Walmesley, Albert G. Miller and Alexander Gusdorf. Headquarters at Taos. Capital, \$2,000, divided into 100 shares. It is the intention of the company to build a wagon road and telephone line from Taos to the Rio Grande crossing known as The Horse Trail and thence to Servilleta, a station on the Denver & Rio Grande railroad. A bridge is to be built over the Rio Grande at the Horse Trail.

Profits in Mining.

The National Banker gives a very interesting letter from Mr. E. T. Rich, an eastern banker, on "The Profits in Mining."

Mr. Rich says the profits in mining are much larger than on banking, for the same amount of capital invested; that there is as much money invested in mining as in banking, but the former pays much better dividends. The prejudice against mining, like an hereditary taint, still clings to the ultra-conservative, the timid and the less ambitious. Such notions and ideas of mining, though well intentioned, are based upon the theory that some one has lost money either in mining or mining stock speculations. Millions are sunk yearly in corn, wheat and pork speculations and yet no one thinks of condemning those industries except perhaps the agriculturalist or the suffering poor. There is yearly as much money invested in mining as in banking, but banking does not prove as safe or as profitable as mining. In a time of prosperity the average banking dividends seldom exceed 8 per cent per year. That mining produces better and quicker profits than any industrial pursuit is evidenced by the scores of multi-millionaires. That there are risks in mining, as well as in other pursuits, is well known to all reasonable minds, but that the immense fortunes of the Mackays, the Floods, the Sharons, the Baldwins and hundreds of others are due to mining cannot be denied.

District Court.

The case of Wallace Hegselden vs. J. B. Slavin, for possession of building at Bland and rents and profits was tried, and judgment rendered in plaintiff's favor for possession and \$200 damages. The court next took up the case of the family troubles of the Garguras. Syriana, who have made application for divorce. The plaintiff, wife, alleges desertion and drunkenness, while the defendant says his troubles commented upon the coming of his mother in law.

This city will not get a federal building this year.

New Mexico needs a heavy dose of the "water cure."

The El Paso Times has enlarged and it is now one of the largest and best daily morning newspapers in Texas.

One of the probable outcomes of the agitation against the beef trust will be the repeal of the tariff on Mexican cattle.

The democratic members of the United States senate are trying to talk themselves to death on the Philippines question.

The Denver newspapers are making vigorous war on the wine rooms of that city, which are hotbeds of crime and vice.

The people of Albuquerque will spend enough money this summer gadding about over the globe to build a railroad several miles in length.

The mercury reached 106 in the shade at El Paso last Sunday, which is convincing proof that the Pass City is a hot town in more ways than one.

The El Paso Herald is urging that city to make a big exhibit at the St. Louis world's fair. El Paso should begin by bringing an exhibit to the New Mexico fair to be held in this city next October.

The commencement exercises of the Agricultural college at Mesilla Park will begin next Monday. There will be a large attendance of friends of that excellent school from all parts of the territory.

The United States mint will coin 250,000 one dollar gold pieces to be used as souvenirs of the St. Louis world's fair, and the fair people will try to dispose of them at a slight advance on their face value.

Eugene V. Debs is at Denver and in a speech urges the miners of the country to fly the "blood red flag in international socialism." Mr. Debs is not a safe and reliable labor leader, and his advice should not be heeded by the labor organizations.

A tabulation of the disasters of 1902, covering less than five months, shows a loss of 48,450 lives from volcanic eruptions and earthquakes, 1,340 from storms, 333 from floods, 228 from avalanches, 193 from tidal waves, 39 from snowslides and eighteen from water-spouts.

The El Paso News volunteers the following sensible advice: "Las Vegas is pursuing an unwise policy in trying to knock Albuquerque out of getting the military post. It would be better to help Albuquerque secure that of which she has a prospect, and then ask reciprocity to help secure something Las Vegas may seek."

New Mexico has elected a republican legislature for a quarter of a century, and at the last two elections elected republican delegates to congress by large majorities. Why any one can suppose that New Mexico would elect democratic senators, if admitted to statehood, must be attributed to ignorance of the political condition of this territory.

It is a good advertisement for vegetarianism that a pedestrian who doesn't eat meat came in first in the international walking match between Berlin and Dresden. The winner made the 125 miles in the record breaking time of twenty-seven hours, thirteen minutes and fourteen and a half seconds. This beats the famous run of the Greek from Marathon to Athens, 140 miles in forty-eight hours.

GETTING BETTER RATES.

There was never a clearer demonstration of the benefit received by any territory through the advent of a competing railway line than is being shown to New Mexico, says the El Paso News. The coming of the Rock Island railroad is helping much of New Mexico not on the line of that railway. The Santa Fe line has already lowered freight rates to both

Las Vegas and Albuquerque, on account of the Rock Island's rate to Santa Rosa. It is stated that the Albuquerque rate over the Santa Fe from the east was higher than the rate to El Paso, where competition had to be met. Also that freight could be sent to Santa Rosa and then by wagon to Las Vegas at less than the Santa Fe rate. Wool and cattle shippers of much of New Mexico will also be able to get better rates than before the advent of a second railway into the territory.

THE BEAUTIFUL MORNINGS.

The old saying, "Early to bed, early to rise, makes a man healthy, wealthy and wise." The Las Vegas Optic says that it might be added in New Mexico that early rising gives new enjoyment to life. In no place where the sun shines can such lovely mornings be found. The beauty of the scenery, with delicate shade of leaf and flower, before the glow of the sun has brightened the air, the quiet surroundings when nature is reposing before the activity of the day, gives exhilarating atmosphere when it is purest and best, all lend a charm to the early morning, enough to tempt all the sons and daughters of man to taste of its enjoyment.

If the denizens of the east could taste of the pleasures of New Mexico, bathe in its sunshine, drink in its tonic ozone and ramble over our grand mountains, they would come again and often. If the loungers on beds of ease and luxury, in our midst really knew of the charms of our mornings, all New Mexico would be awing at 5 o'clock and experience an enjoyment far superior to the lazy comfort of soft beds and downy pillows.

Try it for a month and the old habit of late sleeping will be abandoned.

THOUSANDS OF BILLS.

A computation made of the work done thus far at this session of congress, shows that about 12,200 private bills have been introduced and only about 1,200 have been reported. This leaves 11,000 unreported private bills, which are reported for the relief of all sorts of persons for all sorts of things. While the total number of bills, public and private, introduced in the house has been about 14,500, there have been made 1,940 reports. About 12,500 bills have not been deemed worthy by committees of a report. Bills have been introduced on these subjects: Mails and postage, 38; public buildings, 304; change pension laws 140; monuments and statues 59; trusts 20; tariff acts 38; churches 168; bankruptcy 10; bridges 48; currency 21; constitution 42; Chinese 9; District of Columbia 165; pure foods 8; Indians 102; interstate commerce 17; immigration 12; irrigation 18; mines and mining 9. Only a few score bills have been passed.

SHOULD BE EQUALIZED.

Efforts are being made to have the boards of county commissioners of this territory, which meet as boards of equalization in every county on the first Monday in June to equalize the returns, to approach the real value of all property. As an instance that the census of 1900 gives New Mexico credit for \$53,000,000 worth of farm property, although the assessment for 1901 of all classes of property in the territory amounted to only \$37,000,000. Rio Arriba county, which returned an assessment of only a little over \$800,000, including farms, live stock, town property, merchandise, railroads, mine improvements, etc., is credited by the last census with farm property to the amount of \$2,556,331.

Monarch over pain. Burns, cuts, sprains, stings. Instant relief. Dr. Thomas' Electric Oil. At any drug store.

The first Chicago, Rock Island & Pacific train into Blackwell, Okla., arrived soon after 5 o'clock Saturday night. It was the morning south bound passenger between Kansas City and Fort Worth. The train was compelled to change its course at Medford and take the Atchison, Topeka & Santa Fe to Oklahoma City, then across to the Chicago, Rock Island & Pacific over the Choctaw. This was made necessary by the big washout on the Cimarron river. The train was delayed at Blackwell several hours by a washout.

World Wide Reputation.

White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion, and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at Cosmopolitan Pharmacy, B. Ruppe.

Our Reason.

The reason we sell clothing at reduced prices is because we are long on clothing and short on money—what better reason can any one give?—Simon Stern, the Railroad Avenue Clothier.

Use Allen's Foot-Ease.

Angel Camp.
H. B. Hammond, who has spent the summer at the Albuquerque college, came in from Hell canyon today, reporting a pleasant week at Angel camp.

A. Weems, the contractor, and R. Miller, with their wives, spent Sunday at Angel camp in Hell canyon. Ernest Barnes, who has been for some time with the Ackers bakery, is living at Angel camp, in Hell canyon. Mr. and Mrs. Morris P. Watson, of Washington, D. C., have moved into one of Mr. Bernie's cottages at Angel camp, in Hell canyon.

Whooping Cough.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—Jesse Pinky Hall, Springfield, Ala. This remedy is for sale by all druggists.

Advertising Albuquerque.

The Albuquerque Citizen says: "Advertise Albuquerque. Let every mail that goes out carry a folder or a newspaper, or some reminder of this city." Better send out several papers and folders to be of much good. El Paso is doing her share as the Independent has noticed in the Wigwam club rooms. The Citizen and Democrat posted on opposite sides of the room. The faro dealers ask all strange faces if they are from Albuquerque. Don't know why the question is asked but it has nevertheless been in vogue for the past ten years and of late periodicals appear on the walls.—El Paso Independent.

A Forger Caught.

A young man giving the name of E. H. Estes, called at the Pierce Mercantile company's store last Thursday and presented a letter purporting to have been signed by J. T. Hobbs, requesting Mr. Pierce to cash a check for the bearer for \$100, drawn by M. Stutzinski, on a Pueblo bank, in favor of Estes. Mr. Pierce, knowing Mr.

Hobbs' responsibility, introduced the young man to Cashier Amsden, of the First National bank, who, noting Mr. Hobbs' endorsement on the check, cashed the paper without further questioning. Since then the Pueblo bank has wired the check is a forgery and Mr. Hobbs also claims his endorsement thereon is a forgery. Upon receipt of this news Mr. Pierce at once telephoned Mr. Hobbs at Aztec, who lost no time in reaching Durango and having the young man arrested. Estes introduced himself some time ago to Mr. Hobbs as the son of an old-time eastern friend, hence his connection with the affair. Sheriff Brown left yesterday with papers for the prisoner.—Farmington Hustler.

THE NEW BALL ROOM

Miss Nell Flournoy Dedicated It With a Pretty Party.

Last evening an unusually pretty party was given by Miss Nell Flournoy at the home of her parents, Mr. and Mrs. M. W. Flournoy, on South Edith street. Miss Flournoy was assisted by Miss Jeannette Walton and the party was given to dedicate the new ball room, which has just been completed in the third floor of the Flournoy residence.

Roses were used in the decoration of the house. The dancing cards were pretty affairs bearing Miss Flournoy's monogram and during the evening ices and punch were served.

The guests were: Misses Nelson, Walton, Fitch, Stevens, Fox, Willey, Betty Willey, Mandell, Thomas, Lewinson, Jettie Rosenwald, Alma Rosenwald, Alice Wetter, Hawks, Tascher, Messrs. Rob Kuhn, Hunt, Alger, Frost, Pickard, H. Meyers, Harry Weiller, Thomas, B. Jaffa, W. Jaffa, Hertzog, Faber, Wilkerson, B. Weiller, Spencer, D. Weiller, Reynolds, Seymour Lewinson, Newman and Paxton.

Holds Up a Congressman.

"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-around medicine ever sold over a druggist's counter." Overworked, run-down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by all druggists.

May Make Display.

T. E. Blauvelt, secretary of lodge No. 408, B. P. O. E., Las Vegas, has received a letter from B. Rupp, district deputy of the order, in which Mr. Rupp says:

"Permission is hereby given Las Vegas lodge to make a public display on Decoration Day, May 30. I do so with pleasure, and I am glad to hear that you intend to observe this day in such a becoming manner."

"I wish the other lodges throughout New Mexico would do the same, as it would show that we are not here alone for the purpose of enjoying this life, but that occasionally we remember those who were with us in the past and give their memory a kind thought and a moment's attention."

If you are troubled with impure blood, indicated by sores, pimples, headache, etc., we would recommend Ackers' Blood Elixer, which we sell under a positive guarantee. The Most Common Ailment.

More people suffer from rheumatism than from any other ailment. This is wholly unnecessary, too, for a cure may be effected at a very small cost. G. W. Weacott, of Meadowdale, N. Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's Pain Balm and am pleased to say that it has cured me." For sale by all druggists.

W. F. Talliaferro, connected with the land office of the Santa Fe Pacific, after a brief sojourn at Topeka, passed through the city on his way to Los Angeles last night.

For Those Who Live on Farms.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. It is a dandy for burns. Those who live on farms are especially liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency. 25c, 50c and \$1.00 at Cosmopolitan Pharmacy, B. Ruppe."

Concerning Trade Tricks.

The old saying that there are "tricks in all trades" has outlived its truthfulness, if there ever was any truth in it. This store does not countenance tricks of any sort to catch the unwary. The plain, simple policy of buying good merchandise and selling it at a just profit is what has gained for us the public confidence. What you read in our "ads" you can tie to. People with money to spend naturally go to the safe trading place.—Golden Rule Dry Goods Co.

Price Reductions.

The only reason for reducing prices on our men's and boys' clothing is that we are overstocked and therefore anxious to push business. We had no old stock to unload and are showing new and desirable goods only.—Simon Stern, the Railroad Avenue Clothier.

THE MUDDY STREAM.

W. W. Sentman Resigns as Represent-
ative of International Boundary

W. W. Sentman, the international
boundary commission representative
at San Marcial, has resigned his position
and will retire June 1. He informs
the San Marcial Bee that after July 1
it is likely that no more measurements
of the river will be taken at any point
along its course. The information
gathered by the commission has been
chiefly for the use of the department
of justice in connection with the Ele-
phant Butte dam controversy. An ex-
haustive fund of material has been
gathered. General Blanco, the Mexi-
can commissioner, would like to see
the water stations kept up for years,
but the United States commission is
in favor of their abolishment, owing
to the great expense of their mainte-
nance. For eighteen months measure-
ments have been taken here and at Es-
panola. This has been the most diffi-
cult station for good results, owing to
the irregular course of the river. The
geological survey will probably appoint
hydrographers to take up the work
abandoned by the boundary commis-
sion. Mr. Sentman, who likes New
Mexico and is greatly interested in the
work, may be appointed for this new
duty. The gauge readers at the vari-
ous stations will be continued. Mr.
Lohman acting as such at San Mar-
cial. This change lets out some twelve
employees of the boundary commission.
Mr. Follett, the United States consult-
ing engineer, does not expect any more
water in the river this spring. The
rise of last Friday was from the Rio
Puerco and was lost before reaching
Las Cruces.

Don't Flatter Yourself.

If you are a brakeman don't claim
that you are as good a railroad man as
the general manager. In this country
it is said that one man is as good as
another, but it isn't true. Certain men
are above you by reason of good be-
havior, better health, better workman-
ship. No use to combat the truth.
Recognize your superiors. Learn
from them, don't toady to them, but
learn from them. Every successful
man is successful for a reason; he has
fewer bad habits than unsuccessful
men; more industry, more order. It is
an uncomfortable truth but important.
Don't sit in the shade and say you are
as good as the man who is working
away out in the sun at five dollars a
day while you are looking for a job at
a dollar and thirty cents. Pattern af-
ter good qualities, you can't injure him
by abusing him.

There is always a brisk demand for
good men. If you are a good man,
you will have no time to sit around
and abuse industrious people; you will
have a good job.

You flatter yourself too much and
not one of your acquaintances has ever
told you the exact truth.

Too much flattery going on.—Atch-
ison Globe.

RUINS OF FORT WEST.

Hunt for Liquid Treasure Under Walls
of Old Fort.

Just a few miles ride out of Silver
City, up in the beautiful Mogollon
country, picturesque because of its
wildness and proclivity to things an-
cient, stands the ruins of the historic
old Fort West, says a correspondent
writing to the Denver News. Just a
mass or stretch of decayed adobe walls
broken in places, but still retaining
the appearance of what they now only
represent—an old Spanish post. If
you would hear its history, listen to
some old miner or rancher.

He will tell you that in the early
sixties the Indians used to raid the
fort and fire upon our soldier boys.
By and by he will become excited,
and he will tell you bloody stories,
wherein scalps and tomahawks play
an important part, and then he will
grow mysterious and tell of men who
come from all the country round with
pick and shovel, "and they ain't pros-
pectors, either." Then they pick and
hunt under walls and among the ruins,
for, don't you know, once long ago,
when our soldier boys became hard
pressed by the Indians, they were forced
to abandon the fort, and before going
buried three barrels of prime old
Kentucky somewhere up there," but no-
body ever finds it, he will say, with a
grin, and you almost wish you had a
pick yourself, for who knows but what,
even yet, that precious fluid is doomed
to waste its sweetness among the un-
appreciative ruins.

Almanac Stories.

The following almanac stories are
taken from the local column of the Las
Vegas Optic:

Get your mouth ready for straw-
berry shortcake.

House cleaning is now at fever heat,
and the whitewasher is in demand.

Another school year will soon close
and throw upon the world some more
lovely graduates.

He is a brave man who isn't afraid
to wear old clothes until he is able to
pay for new ones.

The barefooted boy is one of the
signs of warm weather now to be seen
on our streets.

These are the mornings to get up
early and hear the larks larking, and
see the swallows swooping.

People who do not pay for a paper
they read have the hardest kind of
time trying to get to heaven.

A negro residing in this city ought
to have all sorts of luck with the bones
in a crap game since the number of his
residence is "seven-eleven."

Don't Start Wrong.

Don't start the summer with a lin-
gering cough or cold. We all know
what a "summer cold" is. It's the hard-
est kind to cure. Often it "hangs on"
through the entire season. Take it in
hand right now. A few doses of One
Minute Cough Cure will set you right.
Sure cure for coughs, colds, croup,
grip, bronchitis, all throat and lung
troubles. Absolutely safe. Acts at
once. Children like it. "One Minute
Cough Cure is the best cough medicine
I ever used," says J. H. Bowles, Grove-
ton, N. H. "I never found anything
else that acted so safely and quickly."
J. H. O'Reilly & Co.; B. H. Briggs & Co.

At the Big Tent.

Another interesting meeting was
held in the tent last night. The evan-
gelist spoke of God's love as illustrated
by the love of an earthly father. The
service as usual tonight. Tomorrow
night Mr. Smith will deliver a lecture
on "Things That Most Hinder Men To-
day From Believing the Bible." Friday
night the subject will be, "Things That
Most Help Men Today to Believe the
Bible." Let everybody attend this last
week of meetings at the gospel tent.

"I Stood in a Draught

with my coat off and caught this
wretched cold," says the sufferer. He
need not pay a heavy penalty if he fol-
low his act of folly with an act of wis-
dom. Soak the feet in hot water with
a few teaspoonfuls of Perry Davis'
Painkiller in it. Take a teaspoonful of
Painkiller in hot sweetened water at
bed time and be thankful for so simple
and speedy a way to break up a cold.
There is but one Painkiller, Perry Davis'.

Financial circles are expecting the

Rock Island road to make a strong
showing of power at the coming meet-
ing of the Chicago & Northwestern
road which will take place in Chicago
on June 6. The Moore brothers and
John W. Gates are acquiring stock and
proxies for this meeting in such quan-
tities that William K. Vanderbilt, who
has heretofore controlled the North-
western, is hurrying home from Eu-
rope, and will arrive in New York
some time this week.

Like a Drowning Man.

"Five years ago a disease the doc-
tors called dyspepsia took such hold of
me that I could scarcely go," writes
George S. Marsh, well known attorney
of Nocona, Texas. "I took quantities
of peepsin and other medicines but
nothing helped me. As a drowning
man grabs at a straw I grabbed at
Kodol. I felt an improvement at once
and after a few bottles am sound and
well." Kodol is the only preparation
which exactly reproduces the natural
digestive juices and consequently is
the only one which digests any good
food and cures any form of stomach
trouble. J. H. O'Reilly & Co.; B. H.
Briggs & Co.

Grading from Congress Junction on
the Colorado river extension of the
Prescott, Phoenix & Santa Fe railroad
is now in progress and the road will be
rushed through to a connection with
the Santa Fe at or near Franconia as
rapidly as possible. Surveyors are now
at work on the line along the Santa
Maria and Bill Williams Fork.

QUEEN VICTORIA'S HAIR.

Its Profusion, at Her Age, Has Al-
ways Been a Wonder.

Over 80 years old, Queen Victoria
yet had luxuriant hair, which for
years was a marvel. The court physi-
cian, following Prof. Unna's discov-
ery, treated her majesty's scalp with
a germ destroying preparation, which
he has always kept secret. It is now
known, however, that the remedy for
dandruff, the germ destroying element,
is embodied in Newbro's Herpicide,
the only hair preparation on the mar-
ket that does destroy the dandruff
germ. Without dandruff hair will
grow profusely and falling hair will be
stopped. "Destroy the cause, you re-
move the effect."

The senate has passed the house bill
authorizing the Santa Fe Pacific Rail-
road company to lease or sell its prop-
erty to the Atchison, Topeka & Santa
Fe company. The measure is for the
purpose of allowing the last named
company to formally secure title to
property that it has virtually owned
for a number of years.

For Over Sixty Years.

An old and well tried remedy.
Mrs. Winslow's Soothing Syrup has
been used for over sixty years by
millions of mothers for their children
while teething with perfect success.
It soothes the child, softens the gums,
allays all pain, cures wind colic, and
is the best remedy for diarrhoea. Is
pleasant to the taste. Sold by drug-
gists in every part of the world.
Twenty-five cents a bottle. Its value
is incalculable. Be sure and ask for
Mrs. Winslow's Soothing Syrup, and
take no other kind.

ptoms. You can safely eat anything at

blets afterward. Sold by all druggists

Drying preparations simply devel-
op dry catarrh; they dry up the secretions,
which adhere to the membrane and de-
compose, causing a far more serious trouble than
the ordinary form of catarrh. Avoid all dry-
ing inhalants, fumes, smokes and snuffs
and use that which cleanses, soothes and
heals. Ely's Cream Balm is such a remedy
and will cure catarrh or cold in the head
easily and pleasantly. A trial size will be
mailed for 10 cents. All druggists sell the

MRS. E. SAILER.

President German Relief Association, Los Angeles, Cal.

a day at a time how I would feel the next day. Five bottles of Lydia E. Pinkham's Vegetable Compound changed all that, my days became days of health, and I have enjoyed every day since—now six years.

"We have used considerable of your Vegetable Compound in our charitable work, as we find that to restore a poor mother to health so she can support herself and those dependent upon her, if such there be, is truer charity than to give other aid. You have my hearty endorsement, for you have proven yourself a true friend to suffering women."—Mrs. E. Sailer, 759 1/2 Hill St., Los Angeles, Cal.—\$5000 forfeit if above testimonial is not genuine.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, for no other has had such great experience—her address is Lynn, Mass., and her advice free—if you are sick write her—you are foolish if you don't.

LAS VEGAS.

From the Record.

Miss Helen McNellan, teacher of the public schools at Gallup, is here attending the teachers' institute.

Eddie Roberts, while riding his bicycle, was thrown and sustained a fractured arm. He is delivery boy for Graaf & Harward.

J. S. Good & Co., have entered suit against Dan Griffin, in Colfax county district court, for the sum of \$3,000, amount alleged to be due for merchandise sold.

Complaint has been made against Amanda Scott, Blanche Pierce and Lulu Honey for stealing bicycles and threatening to cut or kill somebody. If they do not mend their ways, Judge Wooster will give them an interview.

W. W. Parce, a landscape gardener from Denver, is expected here to plat and lay out the Normal school ground. The large area around the fine edifice will be laid out in shrubbery, flowers and grass and will make a beautiful addition to that part of the city.

There was a large attendance at the baptizing near hot springs Sunday afternoon. Six converts were given the "water cure" and a larger crowd of the ungodly demonstrated that they needed it by their boisterous conduct. The baptism was conducted by the Baptist mission pastor.

The city team while working on Grand avenue became frightened at the ice wagon and jerked away from the driver, William Bloomfield, and ran down to Railroad avenue, where they hung the wagon on a telegraph pole. Bloomfield was jerked under the wagon and had a foot run over and an arm skinned, but was not badly hurt. The harness was broken and wagon strained, but no further damage was done.

E. L. Hammond was the victim of a robbery, about \$30 worth of gold and gold crowns having been stolen from his office. Evidently the theft was committed by someone who knew the office and understood the layout, for even the out of the way drawers were ransacked. The door to the office had evidently not caught when pulled to, and after Mr. Hammond left to go to dinner the thief helped himself. There is no clew to the miscreant.

From the Optic.

The Freshmen class of 1902 had an outing in the hot springs canyon Saturday.

Mrs. Andres Vigil died on Saturday night near Mineral Hill. She was living at the saw mill in that section.

Sam Landis has received a letter from Billie Stewart, written from Aberdeen, Scotland. Billie says he has been having a hot time ever since he arrived there, but he would much prefer to be in Las Vegas. He intends to return to the states in June, though his relatives in Scotland want him to stay there. He says, however, that the whole country is too slow.

In the track meet Saturday a number of the boys did some good work, but it is not yet decided as to just who will go to Las Cruces next Sunday to represent the Normal university in the field contest there on next Tuesday. Ten men will go and of these seven will be decided on, the other three to be announced the latter part of the week. The Normal will be represented in the inter-collegiate debate by W. Alexander Glassford and G. Washington Degner.

SANTA FE.

From the New Mexican.

George V. Jennings, special inspector of the United States pension office, is in Santa Fe taking testimony in several pension cases.

W. G. Walz, of El Paso, who arrived in Santa Fe on Sunday, left for Colorado points and Salt Lake. He is a brother of Mrs. T. H. Catron.

Judge A. L. Morrison, collector of internal revenue for New Mexico and Arizona, received word that M. W. Mills, of Springer, had been indicted by the United States grand jury at Las Vegas for selling oleomargarine in wrappers stamped "creamy butter."

A suit was filed in the district court of the First judicial district, for Santa Fe county, by George M. Block vs. The Board of County Commissioners of

Santa Fe county, to secure judgment for \$547.50 and interest on defaulted coupons on funding bonds of the county.

Sheriff Alexander Read, who arrived from Tierra Amarilla, lodged the following convicts in the territorial penitentiary: Manuel Martinez and Ricardo Lobato, seven years for murder; Francisco Herrera, two years for wife beating; Noe Gallegos, five years for assault to kill, and Jose Archuleta, one year for the larceny of cattle.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body. I am very grateful." Miss Julia Filbridge, West Cornwall, Conn.

Writes From Philippines.

A letter from Henry Hubbell, formerly clerk in the division foreman's office here and well known in the city, now located at Cebu, Philippine islands, gives glowing reports of business opportunities there and says American goods are in such demand that it is impossible to supply the demand. Goods, he says, cannot be brought to the islands in sufficient quantities. The soldiers and others are such great beer drinkers that the islands are out of the American product two months out of three. The shipments come about every three months and at the time the letter was written there had been no American beer for two months. Henry is planning to go into business himself soon and believes that a fortune is in store for him.—Las Vegas Optic.

Sciatic Rheumatism Cured After Fourteen Years of Suffering.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by all druggists.

Rain and Hail at Santa Fe.

Santa Fe last night experienced the heaviest rain storm it has had for over a year. The precipitation during the twenty-four hours ending at 6 o'clock this morning was 1.34 inches. The Santa Fe river was quite high and arroyos were filled with water. No material damage was done. The rain was mixed with hail and was accompanied by flashes of lightning and peals of thunder. Showers and thunder storms are predicted for tonight and tomorrow. The maximum sun temperature yesterday was 86 degrees, the maximum shade temperature 75 degrees, the minimum temperature was 51 degrees, temperature at 6 o'clock this morning 51 degrees. The rain was of immense benefit to the ranges and fields. No damage was done to orchards.—New Mexican.

Was Arrested on Serious Charge.

Juan Martinez was brought in yesterday from La Palma by one of Sheriff Romero's deputies, on a charge of stealing 700 sheep last winter from Encarnacion Gonzales. Two hundred of the sheep were found last week at Pecos, in the possession of Teller Medina, of Trementina, where the thief had placed them, Gonzales claims, on shares, one-half the wool and lambs. The sheep were returned to Martinez and as soon as he heard of the discovery he left for other parts, and was making for Lincoln when captured. He is in the county jail now.—Las Vegas Record.

HONEST DOCTOR

Speaks of Coffee Drinking.

About coffee drinking, Dr. Hewet says: "I have the best of reasons for naming coffee as among the most dangerous of slow poisons. My own personal experience outside of the general experience gained by my practice has taught the truth.

"At about 16 I became a member of a young people's society whose pledge barred the use of all intoxicants, tobacco, tea and coffee, until the age of 21. I kept my pledge and early temperate habits were formed. Up to about my 30th year I was an athlete; no one had better health or spirits.

"A short time after passing 30 I began the use of coffee at breakfast with an occasional cup at evening parties. The first symptoms of ill health I remember came soon and later, sore mouth and stomach trouble. Finally well marked dyspepsia supervened. My bowels sympathized, of course, also my nervous system became impaired. Dizziness attacked me, and tremulant hands rendered writing exceedingly difficult. My diet had to be restricted. Experienced medical advisors forbade all fruits.

"Several attacks of gastritis troubled me and bowel complaint became quite frequent. The shadow of melancholia menaced me and caused me to wonder why a man of my lineage, strength and endurance and temperate habits should be thus afflicted.

"Eminent specialists named it, 'miasm,' others as noted said, 'microbes.' I now say, 'coffee arabica.' Why? Because for the first thirty years I did not drink coffee and enjoyed good health, the second thirty years coffee drinking became a habit and illness more than kept pace with the indulgence.

"I am now past 60 years of age. About 18 months ago I saw a shrewdly written statement of Postum Cereal Coffee. I gave it careful reading and thought, and as an experiment substituted Postum for Java and Mocha. For the first three days of the change I felt, keenly, the loss of the stimulant, after that the nutrient quality of the drink more than compensated the deprivation, and an astonishing change came in recurring hunger three times daily; I could scarcely wait for meals, a sensation I had not had for more than thirty years.

"Now my health is excellent. I eat fruits of all kinds and food as my appetite demands. I am regaining my nervous tone and my strength is increasing daily. Except my change from coffee to Postum I have made no change in my mode of living.

"Do you wonder that I name coffee as among the most dangerous of slow poisons?

"I believe there are thousands suffering as I suffered with a better excuse for ignorance than I can offer." A. C. Hewet, M. D., 491 W. Adams street, Chicago, Ill.

MILLION GALLONS DAILY.

An Artesian Well Near Tucson is Turning Out Water at That Rate.

Another big flow of water is rushing out of the ground at the Allison tract, a little south of town.

This is the experiment that the Citizens told some days ago was being undertaken by Captain Fulton, of Texas, under the direction of Senator Ives and General Manning.

The small well has been flowing away steadily at the rate of 50,000 gallons daily since the first report, now nearly three weeks ago.

The present flow is much larger, the pipe being four feet in diameter. It is located about six or seven feet from the small well, and is down about twelve feet. It is estimated that it is pouring out about a million gallons daily, though no expert measurement of the water has as yet been made.

The flow from the well has cut a stream three feet wide to the river and is turning out a luscious stream of clear water. Captain Fulton, the well expert, is entirely satisfied with the experiment and Messrs. Manning and Ives are happy.

Captain Fulton says there is plenty of water under ground that can be reached at a depth of twelve or thirteen feet, and those who have been waiting on the experiment declare that the water problem in this vicinity has been satisfactorily solved.—Tucson Citizen.

Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at Cosmopolitan Pharmacy, B. Ruppe.

No Loss of Time.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by all druggists.

Growing Town.

Roswell built a \$35,000 school house last year and now finds the building entirely too small, so the abandoned ward school house must be used. The metropolis of the Pecos valley owes its prosperity to irrigation, which makes farming, horticulture and stock raising successful every year.—El Paso News.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to endorse them for I think when we find a good thing we ought to let others know it." writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. J. H. O'Reilly & Co., P. H. Briggs & Co.

Vulcanology.

Yesterday morning Prof. T. Tight addressed the students of the University on the interesting and current subject of volcanoes. His talk was most interesting as at the present time so many minds are turned to the disaster at Martinique. The doctor is well read on the subject on which he spoke and not only did he mention the general causes of these peculiar and awful geological phenomena and the ancient eruptions of prehistoric time, but also referred to our own little volcano and the lava flow west of Albuquerque and its origin.

Prof. Tight is not a man who will commit himself on any subject and although he is undoubtedly the best read geologist in the southwest he was loth to give any theory as coming from himself as an explanation of the recent phenomena. However, he said that the geological scientific expeditions that had been sent by the different countries to the Lesser Antilles had not reported as yet and that when they did the reports would be what actually took place and not theories about eruptions and that all suppositions advanced until these expeditions were heard from would undoubtedly be mere suppositions, unscientific and unauthentic.

He spoke of the great belts or systems of volcanic action, one surrounding the Indian ocean, one surrounding the Mediterranean sea, one the Caribbean sea and the two inland systems of North America and Asia. It seems the phenomena which transpires in the inland systems is quiet and the great coastal systems have always presented the more active and destructive effects. This is easily explained when the presence of the great land and water masses of the globe are considered. If we look upon the continents as great wedges pushing or pressing down toward the earth's center and the oceans as other wedges doing the same thing, only far heavier, we can see that there is a constant plane of friction between these great wedges which is technically called the "shearing plane." It is due to this great oceanic and continental movement that the great coastal systems of volcanic disturbance exist.

Prof. Tight said that the lava flow west of Albuquerque was of the quiet type and of very recent date, perhaps within the history of habitation of the Rio Grande valley, at least in recent Pleocene times of geological work, and that it was undoubtedly an issue from a crack in the earth's crust akin to great flows of Montana, Idaho, Washington, Oregon and Nevada, which are sometimes a mile in thickness and which were all caused by illiteration of the great inland sea of the Cretaceous period.

He said that the flow here was merely an outpouring of lava and unaccompanied by the various disturbances which have so characterized the Martinique eruption. No authentic theory can at present be advanced as to the cause of the present disaster, but there are foundation causes of all such phenomena and it was a clear explanation of these that Prof. Tight tried to give the students.

AFTER MANY YEARS

Of suffering from kidney disease, Miss Minnie Ryan, of St. Louis, Mo., found a complete cure result from the use of Dr. Pierce's Golden Medical Discovery.

It is such cures as this which establish the soundness of Dr. Pierce's theory: "Diseases which originate in the stomach must be cured through the stomach."

Every other organ depends on the stomach for its vitality and vigor. For by the stomach and its associated organs of digestion and nutrition the food which is eaten is converted into nutriment, which, in the form of blood, is the sustaining power of the body and each organ of it. When the stomach is diseased the food supply of the body is cut down, the organs are starved, and the weakness of starvation shows itself in lungs, heart, liver, kidneys or some other organ.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and so cures disease of other organs which have originated through deficient nutrition or impure blood.

"I had been suffering with kidney trouble twenty years," writes Miss Minnie Ryan, of 1837 Louisiana Avenue, St. Louis, Mo., "and I had doctored with a number of the best physicians. Two years ago I commenced taking your 'Golden Medical Discovery' and 'Favorite Prescription' and took also several vials of Doctor Pierce's Pellets. I took eight bottles (four of each), and I feel now perfectly cured."

Dr. Pierce's Pellets cure biliousness.
