## LYNCHING UP

### Gallinger Proposed an Investigation.

### Presbyterian General Assembly Completed Its Work.

### Full Complement of Hands Resume Work at Augusta.

#### ALL DEAD OR FLED.

Washington, May 26.—In the senate today, Mr. Gallinger, of New Hampshire, offered a resolution instructing the judiciary committee to investigate lynchings in the United States with the view of ascertaining a remedy.

Mr. Gallinger said lynchings are not confined to the south. Horrible cases have occurred in the north and white men as well as black were victims. During the past ten years 2,658 lynchings have occurred in the United States. If the strong arm of the law could prevent such occurrences he deemed it right to do so. He read the Associated Press account of the lynching of a negro in Texas a few days ago and said history did not furnish a more fiendish instance of mob wrath. The whole wretched business, he said, was a disgrace to American manhood. He apprehended it would be the federal government is powerless and the states had exclusive jurisdiction. If so, the people desired to know it.

Mr. Culberson, of Texas, presented and had read an account of a lynching in Kansas, saying he wanted it shown the crime of lynching is not confined to the state of Texas or any section. He hoped New Hampshire's senator would not single out his state when he wanted to bring such matters before the senate. After remarks by Mr. Hoar upon the constitutional feature, the matter went over. The Philippine bill was taken up and Mr. Patterson, of Colorado, made a speech in opposition to it.

Mr. Patterson read extracts from a report of a ministers' meeting recently held in Boston, in the course of which addresses were made and the ministers had stated the American flag has been disgraced in the Philippines by the commissioning of tragedies and horrors in the islands, although no special attack was made upon the president and secretary of war. Mr. Patterson referred to the editorials from the Denver News which Mr. Foraker read in the course of his speech. These editorials strongly urged the retention of the Philippine islands and advocated the government's policy as to the islands.

Mr. Patterson said he was responsible for the utterances of the Denver News then and now. He said he knew hundreds of thousands of American people who held views similar to those expressed in the Denver News editorials and subsequently had changed those views. Just prior to the ratification of the Paris treaty he changed his opinion and since that time had advocated strenuously the independence of the Filipino people. Mr. Patterson declared after the capture of Manila, "A endorsed press, deliberately guided by the powers in Washington, had misrepresented the situation in the Philippine islands."

He read extracts from the editorial columns of the Denver News since the time referred to, declaring the most "sublimely grand and national deed" which the United States could perform would be to extend independence to the Filipinos. He urged Mr. Foraker had not "been frank and candid" in his quotations from the Denver News. Mr. Foraker insisted that Mr. Foraker had omitted editorials which presented the question in its true light. Mr. Foraker said he presented only such editorials from the democratic newspapers as dealt ably and interestingly with the question and, of course, had no intention of reflecting upon the senator from Colorado.

Mr. Patterson declared additional light has been thrown upon the subject and editorials have appeared in his paper which presented a different phase to the matter. These had not been read. In justice he read them himself, declaring they are the reflex of censored telegraphic dispatches from the Philippines.

#### FINISHED THE WORK.

### General Assembly of the Presbyterians Adjourned Sine Die.

New York, May 26.—The Presbyterian general assembly today chose Los Angeles as the place of next meeting. It acted adversely on the overture requesting that ministers coming from the south Presbyterian church be honorably retired with the same privileges if they had served always with the church under the general assembly. It then adjourned sine die.

#### FATAL FALL.

### Daniel De Arcey Thrown from Wagon and His Neck Broken.

#### WITNESSED BY WIFE.

A most distressing accident occurred last Saturday afternoon late, by which Daniel DeArcey lost his life. He and Mrs. DeArcey were on their way to their claim below Hagerman and when about two miles south of town, near the head of Zuber Hollow, some accident happened to the wagon and he got out to fix it. On getting into the wagon again, he got in on the left side, Mrs. DeArcey moving over to the right side. He has always been a very jovial man and he was telling his wife a joke, each looking at the other, which caused them to fall to notice that the team turned to the right a little to get around a ditch at a place not far from where they intended to camp for the night. Suddenly the front wheel of Mr. DeArcey's side sank into the ditch and he was thrown out on his head. The fall broke his neck and he died almost instantly.

Mrs. DeArcey is a woman of advanced age and has been ill and feeble for some time. The horror of the situation was appalling, but she hoped to be able to attract the attention of some person or persons who might be passing. Unfortunately no one came in sight and dusk found her keeping her lonely vigil over her dead. Several times range cattle crowded up close to her and acted as though they might attack her. In her desperation, she frantically threw away by pulling her dress skirt over her head and running at them. Realizing that it was useless to wait longer, she got into the wagon and started to drive in search of a house. She had gone only a short distance when something about the wagon broke and being unable to fix it, she unhitched and walked on, driving the horses over the rough ground. For four long, weary, terrible hours, she struggled through the dark and finally reached the camp of Stone Wilburn and brother, about seven miles west and north of the place where the accident occurred. One of the men came to town and notified John DeArcey, who summoned Dr. Bradley, his mother's physician, and taking a hack, went to the camp and from there to the place where the body lay and brought it to town.

Funeral services were held at the family residence in Mountain View addition on Tuesday at 10 a. m. Rev. Gore officiating, assisted by Rev. Dunn, after which the remains were taken in charge by Samaritan lodge, No. 12, I. O. O. F., of which fraternity deceased was a member, and laid to rest in Southside cemetery.

Daniel DeArcey was born September 29, 1835, in Canada, but was raised in the state of New York. At the age of 21 he removed to La Porte, Ind., where he was employed in the shops of the Michigan Southern railway for fifteen years. He resided in Pocatello, Idaho, for six or seven years and went to Kansas in 1877. They came to Roswell two years ago. He was noted for his sunny good nature, his generosity, his sturdy integrity and his willingness to help others. He leaves surviving him his heart-broken wife, three sons, John, Daniel and Emmet, and three daughters, Mrs. C. W. Moore of Carlsbad, Mrs. A. K. Krull of Hagerman and Adella DeArcey, station agent on the Pecos Valley & Northeastern railway at Kenna, all of whom were present at the funeral except Mrs. Krull, who is sick.

The bereaved family have the sympathy of the entire community.—Roswell Register.

Miss Augustine sang "The Battle Hymn of the Republic," the old soldiers and guards joining in the chorus. The sermon was delivered by Rev. Merton Smith and he was assisted by Rev. W. J. Marsh and Rev. T. C. Beattie.

There were more old veterans out at the service than ever before in the history of Albuquerque. After the service G. K. Warren post adopted a resolution thanking Mr. Smith, Miss Augustine, Mr. Houghton, the choir of the Lead Avenue church and the Guards for their assistance.

The first reservoir will irrigate about 10,000 acres of land in the Rinconado valley north of Tularosa and beginning near the headwaters of the Rio Pecos on the south slope of the Sierra Blanca mountains.

Perpetual water rights will be sold to certain lands and the operations of the company will be on a big scale. Part of the land extends for ten miles along the Rio Pecos and will be made a market garden. Actual work on the dam will be commenced as soon as surveys are completed.

The training school for nurses will also be opened after Decoration Day. This will be open to all denominations and application should be made at once as the places open are limited.

There is a great need for cast off garments, clothing, underwear, linen, etc., that can be used in the charity department.

James Brown, the young man who, in a fit of jealousy, cut Cora Miller's throat and then his own, at a rooming house on North Third street a week ago yesterday morning, was moved today to the county jail. The stitches have been removed from the wounds in his neck and his chances for recovery are good.

#### THE EAKIN CASE.

### The Preliminary Hearing Opened Before Judge Mills Last Saturday.

#### NUMBER OF WITNESSES PRESENT.

The preliminary hearing of Eakin, Burdick and Fonville, the Tucumcari prisoners charged with murder, began at the court house Saturday morning before Judge Mills.

Attorneys Spless, Fort and O. E. Smith, of Clayton, are conducting the prosecution, and W. B. Childers, of Albuquerque, and E. R. Wright, of Santa Rosa, the defense.

There are a number of witnesses from Tucumcari, and if they are all heard it will take some time.

W. E. Gortner is taking the evidence for the prosecution and E. L. Medler for the defense.

D. J. Aber, the former city engineer, had drawn a plat of the building and locations and took the stand this morning to explain them.

The hearing will last until late this evening, and it is most probable that it will not be completed until Monday.

The witnesses, a number of whom have been examined at the time we go to press, are for the prosecution, and of course the testimony is damaging to the accused.

The defense claims to have a good strong case and feel confident of winning.

It is impossible at this time to forecast the outcome of the hearing. One of the witnesses told the Record reporter this morning that the feeling against Eakin in Tucumcari had changed, and that the sympathy was now pretty much with the accused.

T. B. Burdick, on motion of his attorney, was discharged this afternoon and is free, as it was found he did not do any of the shooting. Burdick is a physician by profession and is known by many of our local sports.—Las Vegas Record.

#### Strong Against Defense.

The case, in its court proceedings of the case, says:

During the morning four witnesses were called for the prosecution, Dr. Epperson being the first. He was the physician who attended the murdered men and was called to see them before and after death came. He stated what was said to him by Stewart, but this evidence was not admitted as testimony. D. J. Aber was the next witness. He had drawn a plat of the saloon building and surroundings. William Young was the next witness. He was in the employ of Eakin, and in the saloon when the shooting occurred.

With others he was drinking and shooting craps when Smith and Stewart entered the saloon with their women friends. He was standing so he could see what was going on. He was in a slightly intoxicated condition and did not hear all that was said, but heard Smith say something about the liquor being cheap stuff, but that they had money. Eakin answered something back and then reached for his pistol, which was under the bar, and fired at Smith, who, seemingly, crouched, turned his head to one side and then fell to the floor. Neither Smith nor Stewart had arms that he saw.

E. H. Fink was the next witness. He is a carpenter and had gone to the saloon that night to take advantage of the opening which had been advertised. He was with Young, shaking dice when Smith and Stewart entered with two women, and was standing there when the shots were fired. He heard the conversation about the cheap stuff, and heard Smith tell Eakin to keep his hands off his gun. Words followed and Eakin, who was opposite Smith, pulled his gun from under the counter and fired. Smith shivered and fell. All then became confusion. Burdick and Fonville got into the scrap and Stewart was shot. Seven or eight shots were fired. The witness saw no weapons upon the murdered men, and saw them make no motions to use them.

Self defense will be the plea of the defense.

Mrs. Harry F. Lee is at Gallup on a visit to her mother, Mrs. E. D. Harper.

The United States supreme court has dismissed the appeal of the claimants of the San Miguel del Bado grant in San Miguel county, from the decision of the court of private land claims, as to the area of the land awarded the claimants. The grant will now be surveyed.

#### Land Entry Cancelled.

The federal land officials of Santa Fe received a decision from the general land office reversing the decision of the local office in the contest case of Croensiano Gallegos vs. Henry W. Kelly for a desert land entry for the 1/2 of the SW 1/4, and the 1/2 of the NW 1/4 of section 27, the SE 1/4 of the SE 1/4 of section 28, the E 1/4 of the NE 1/4 of section 33 and the NW 1/4 of the NW 1/4 of section 34 of township 9 north, range 22 east, a total of 320 acres. The decision cancels the entry upon the ground that Gallegos had taken steps to survey part of it for a homestead, and had dug a well and made preparations to build a house preparatory to making a homestead entry several days before the contestee had filed his desert land entry and because the land filed upon was not properly desert land.

There are 160 artesian wells in the vicinity of Roswell, and that city is destined to be the center of the garden spot of New Mexico.

This city pays so much for a water franchise that it cannot afford to hire water wagons to sprinkle the streets or to water the trees.

"If men would root for themselves half as hard as they do for the home base ball team," says the Alfalfa Sage, "they would all be living on boulevards."

The Pueblo Chieftain is making a strong fight against gambling in that city. It says that gambling is the worst enemy of the laboring men of that city.

Virginia is modernizing her old state capital, but without change in the general architectural plan which was sent from France by Thomas Jefferson just prior to the first construction in 1785.

The annual report of Governor Otero for 1901, states that the assessment turns for that year show a total of 2,705,000 head of stock—cattle, horses, sheep and goats—having a taxation value of \$7,594,000.

President Roosevelt in a recent speech laid stress on the value of intellect and ability, but further said, "It is a good and necessary thing to be intelligent; it is a better thing to be straight and decent and fearless."

Study of the statistics of population shows that a majority of German and Scandinavian immigrants to the United States settle west of the Alleghany mountains, while other immigrants make their homes chiefly in the Atlantic coast states and those immediately adjacent.

More immigrants have come to this country so far this year than in any similar previous period and the indications are that the entire year will show more than any in the past twenty. Depression in the old countries coupled with prosperity in this is accountable for the influx.

The Japanese never sleep with their heads to the north. This is because the dead in Japan are always buried in that position. In the sleeping rooms of many of the private houses and of hotels a diagram of the points of the compass is posted upon the ceiling for the convenience of guests.

The esteemed Las Vegas Record has had much to say about the water at Albuquerque, and yet no Las Vegas citizen has been made sick by drinking that fluid in this city. A prominent resident of Albuquerque became unwell at Las Vegas. He had taken a drink of the water supplied that town, which percolates through layers of ofal in the sheep pens along the Gallinas, and it made him sick.

## THE CAPITAL.

With prospect of getting statehood for New Mexico, the question of locating the capital of the new state is being discussed. There appears to be no serious disposition anywhere in the territory to remove the capital from Santa Fe at this time. In the years to come the people of the future state can settle that question to their own satisfaction. If the statehood bill passes the senate this session, the constitutional convention will be held this coming summer, and there will be no effort to remove the capital from its present location. The city of Albuquerque will not be a candidate for the capital. We are building up a commercial city, and expect to get a big military post, a government building, and other needed things and will assist Santa Fe in retaining the capital. In

future years, if conditions change, the capital might be removed from Santa Fe to some other city, but this is not probable. The Ancient city has the good will of the people of the territory, and the historic associations that cluster about the old town make it hard to popularize capital removal. Having an excellent climate and charming surroundings, Santa Fe is the proper place for the capital of New Mexico.

## LURID LIAR.

The town of Cananea, just across the border south of the Arizona line, has developed a single handed liar who has had no equal since Joe Mulhatten went up and down the land romancing his way to fame. The lurid tale of a new disease that left its victims with black circles around their hearts had a mighty fishy look upon its first appearance. It is evident that the strikers down that way have a man with an imagination in their camp, who could make a fortune writing Jules Verne stories; and that he could give the famous French author points, we are perfectly willing to concede.

In addition to being fowled by flocks of sheep, the water of Las Vegas is impregnated with bacilla from the throng of consumptives at El Porvenir and at the hot springs. These lungers expectorate in the Gallinas, the stream from whence the water supply of Las Vegas is obtained, and millions of tuberculous microbes disport themselves in the drinking water of the unfortunate people of Las Vegas. This is why so much whisky is necessarily consumed in that town. To kill the microbes it is necessary to use only a small modicum of water to a large glass of whisky.

## Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at Cosmopolitan Pharmacy, B. Ruppe.

## Makes a Costly Beverage.

Congressman Bowersock, of Kansas, urges people to adopt a milk diet, now that all kinds of meat have gone up in price. "I pasture three or four Jersey cows on my place," he says, "and one way and another I think their milk costs me about \$2 a gallon, but I also think it's worth the money. I went out to Senator Stewart's dairy farm near Washington a few days ago and it surely is the finest place of the kind I ever saw."

## On Their Trail.

The officers have not got track of the two Mexicans who killed Henry Myers at Gold Hill, but have a suspicion that they went to the Cananea country. A watch is being kept for them, and they may be found. There is a Henry Meyers living at Albuquerque. When the news of the murder was printed in the east some of the friends of the Albuquerque man thought their friend had been murdered, and it took considerable telegraphing to inform them there were two Henry Meyers in New Mexico.—Lordsburg Liberal.

team, which last year won the championship, and the Albuquerque Browns, who have thus far this season beat Santa Fe in one game played at Santa Fe. The same hard fought game is expected to be seen this year as was last. Santa Fe will pass through this city on Wednesday night for Socorro, where they are scheduled to play two games on Thursday against the School of Mines team. On Friday morning they will arrive here.

**Cures When Doctors Fail.**  
Mrs. Frank Chasson, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, and it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, 50c bottle, at Cosmopolitan Pharmacy, B. Ruppe.

**Indians Won.**  
The team from the Indian school defeated the Old Town Reds in base ball on Saturday by a score of 23 to 11.

**Whooping Cough.**  
A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops—Jesse Pinkney Hall, Springfield, Ala. This remedy is for sale by all druggists.

**Those Desiring Job Printing.**  
The Citizen job department desires to call your attention to its ability to please customers. We have added this week new material to our already well appointed job department. In the style of work it is "snap" for us to guarantee that you are pleased. We invite comparison with any reputable concern.

**Sciatic Rheumatism Cured After Fourteen Years of Suffering.**  
"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of, and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by all druggists.

**Childers Tells a Joke.**  
W. B. Childers tells a good story on Captain L. C. Fort. It seems that the captain got a very bad man off on a very light fine. Childers said to him, "Fort, that is no punishment for a man of his means. The fellow was rich and this isn't a drop in the bucket." "No punishment," echoed Fort, "well, you don't know what I charged him for my fees."—Las Vegas Optic.

**Wants Others to Know.**  
"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to endorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never give or distress. Sure, safe pills. J. H. O'Reilly & Co.; F. H. Briggs & Co.

**Highest in the World.**  
Few people are aware that near Santa Fe is probably the highest waterfall in the world. Forest Superintendent I. B. Hanna in speaking of it says that near the top of Mount Baldy on the Pecos river forest reserve, there is a

## Scrofula

### THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

**Very One Sided.**  
Yesterday afternoon in a rather tame game of ball at the fair grounds the Old Albuquerque Tigers defeated the Come Estamos team, 15 to 7.

spring of clear water which is the source of a rivulet that dashes over the edge of a cliff sheer 2,500 feet high. The water is in a spray before it reaches the bottom and rainbows continually play around it. The mountain is over 11,000 feet high and the summit can be reached on horseback. It should be distinguished from the Mt. Baldy visible from Santa Fe and which is 12,683 feet high.

**Holds Up a Congressman.**  
"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-around medicine ever sold over a druggist's counter." Overworked, run-down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by all druggists.

## SECOND DEFEAT.

Albuquerque Bowlers go Down in  
Defeat Before Belen.

GAMES WERE GOOD.

The jolly, hospitable Heyday club  
bowlers of Belen defeated Leon Her-  
zog's team for a second time and with  
a large score, at the Sunnyside alleys  
in Old Albuquerque yesterday after-  
noon.

John Becker, the Belen bowling team  
and a large following of enthusiastic  
rooters arrived in the city yesterday  
morning at 7:10 o'clock on passenger  
No. 22. They were met at the depot  
by a large delegation of Albuquerque  
boys, who proceeded to entertain the  
visitors in the best possible manner.  
After securing comfortable quarters at  
the Alvarado, the visitors were es-  
corted to the Sunnyside bowling alleys  
where a practice game to acquaint  
themselves with the strange balls and  
alleys was played. In the practice  
game the visiting team showed poor  
work and light averages, but in the  
contest games, bowled in the after-  
noon, the Heyday boys showed that  
heart, good natured determination  
characteristic of the people of Belen  
and won each of the three games with  
ease. They not only made the largest  
total scores but the best individual  
averages. Le Brun, of Belen, beat  
Pickard, of Albuquerque, for the high-  
est score by two points, with 186  
against 184, but carried away the best  
individual average with no competi-  
tion by the exceedingly large score of  
180. Dalles and Zweiger, of Belen,  
both bowled good games and averaged  
141 and 139 respectively.

The Albuquerque bowlers made fair  
scores with the exception of Sum-  
mers, who is usually a top notcher,  
but fell down yesterday with the ex-  
ceptionally low score of 132.  
After the game the visitors were  
banqueted sumptuously at the Alvar-  
ado. When dinner had been finished  
the visitors were loaded into a trolley  
and driven over the city until train  
time.

The visitors as usual left a favorable  
impression with the people of Albu-  
querque, and made many friends who  
hope to be able to entertain them again  
in the near future.

# OIL COMPANY DIRECTORS.

They Meet in This City and Elected New Officers.

A majority of the recently elected board of directors of the Mariano Oil company met at the office of J. F. Luthy on East Railroad avenue, last Saturday night.

The following officers to serve during the year were elected: W. H. Wolff of Gallup, president; J. F. Luthy, vice president; W. T. McCright, treasurer, and W. Moore Clayton, secretary.

Reports from the president, secretary and treasurer were read, but no action taken on them, the new secretary being instructed to get all these reports embodied into one financial report and submit same to another meeting of the directors to be called by the president at an early date.

The company owes very little, if any, taking the letters and reports as read as a criterion from which to judge, and at the next meeting it is thought plans for active operations will be inaugurated.

The directors present regretted that Messrs. Wolff, Rickson and Foulks, of Gallup, could not attend. Prof. D. M. Richards, of Las Cruces, was the only outside director present.

## MEMORIAL DAY.

How It Will Be Observed in the City of Socorro.

Decorations Day will be observed in Socorro. The fact that Hon. A. A. Freeman has consented to deliver the memorial address will insure a large attendance upon the observances. The procession will form in front of the armory at the Grand Central hotel at 8 o'clock in the morning and march in the following order:

Grand Marshal,  
San Miguel Band,  
Co. H. N. M. N. G.,  
Old Soldiers,  
Choir and Flower Girls,  
Territorial Officials,  
County and City Officials,  
Hose Company,  
Citizens.

The line of march will be to the plaza and out Fischer avenue to the cemetery. All old soldiers, both of the blue and of the gray, are earnestly requested to participate in the exercises.—Chieftain.

## COONEY MINE SOLD.

The Famous Property in Socorro County Changing Hands.

The famous Cooney mine in the Cooney district, Socorro county, owned by the Silver Bar Mining company, has been sold to William J. Weatherby, manager for the Mogollon Gold & Copper company. The consideration is private. The Cooney mine is a high grade copper proposition and has been one of the greatest producers in the history of New Mexico. The mine has been shut down for several months on account of the slump in the copper market and it has been owned by Colorado Springs people. A five-stamp mill and concentrator goes with the property. Active work will begin within ninety days and the Cooney district will be one of activity.

### SAN MARCIAL

From the Bee.

W. H. Sentman visited El Paso and was in the social swim for a few days with his friend, C. H. Featherston. Shortly after the appearance of this paper Robert Nisbet will be on his way to Indiana to claim Miss Bessie Kelly as a bride.

Capt. M. Cooney shipped his spring crop of wool this week to John Becker at Belen. Three pounds more and the shipment would have called for 9,000 pounds. Some of the long wool was retained and will be used in the manufacture of mattresses.

Mrs. Bower and her son, Otto, real nice people from St. Louis, spent the week with Mrs. Wm. Hockett. Their relationship to Mrs. Hockett is that of aunt and cousin. Mrs. Hockett's girlhood days were spent in the home of Mrs. Bower, and their associations resulted in a friendship that is as strong today as it was in the earlier period of their intercourse. The visitors received every attention from Mrs. Hockett, and have gone away with a good impression of Mrs. Hockett's cheerful home and everything pertaining to San Marcial.

Monarch over pain. Burns, cuts, sprains, stings. Instant relief. Dr. Thomas' Electric Oil. At any drug store.

### SOCORRO

From the Chieftain.

The last vestige of snow on the Magdalena has vanished.

Dr. Duncan has bought the old Advertiser building opposite the Grand Central and will fit it up for an office.

District Clerk John E. Griffith is kept very busy in the discharge of his official duties in his usually efficient manner.

J. A. Beal, an efficient representative of the Albuquerque Citizen, was hustling for business in Socorro the first of the week.

Mr. and Mrs. F. G. Bartlett arrived at home from a visit of a month in San Francisco and other points in California.

W. H. Sanders came up from San Marcial accompanied by Mrs. Sanders, who is just recovering from a severe surgical operation and will doubtless soon be restored to perfect health.

The Whitney company of Albuquerque has the most complete line of heavy hardware in New Mexico. The company's extensive advertising is a guarantee that it is doing a good business.

G. A. Kaseman, president and manager of a telephone company of Albuquerque, was in town the first of the week on court business. While here Mr. Kaseman examined the situation with a view to establishing an automatic telephone system in this city.

John Smythe, a citizen of Socorro nearly twenty years ago, arrived in town from the Oseas, where he is now mining. He has plenty of lead and copper ore in sight and is now sinking for water. When this is secured it will be well with Mr. Smythe.

Captain Matthews has ordered muskets for firing salutes on Decoration day. He is doing all he can to make a success of the exercises. Mrs. L. B. O'Garra will have charge of the music and the flower girls. Citizens are requested to save their flowers for the occasion. Flower girls will call for them.

Invitations have been received in this city to the marriage of Miss Maybelle Kerr, of Butler, Mo., to Roy M. Wilcox on June 4. Miss Kerr spent the winter in Socorro as the guest of her uncle and aunt, Prof. and Mrs. F. A. Jones, and while here won a host of friends and admirers, who will wish her all imaginable happiness in the new life upon which she is about to enter.

J. W. Cox, who was in town from his Datil ranch, has recently been guilty of reprehensible conduct, much to the surprise of his friends. A few days ago while on his way to Albuquerque he was beset by a life insurance agent falling to rid himself of his tormentor otherwise he finally introduced the agent to his wife and then "drug it." John has not succeeded yet in quite making his peace but hopes that the day of salvation is near.

### DEMING.

From the Headlight.

Otto Smith is now the father of another daughter. The little stranger arrived last Tuesday.

Pedestrians on Pine street can now enjoy the walk in front of the residences of Lou H. Brown and J. P. Byron. Both of these gentlemen have had cement walks placed in front of their premises.

A forest fire was seen in the Florida range south of this town last Tuesday and judging by the huge volumes of smoke and flames that went up from that section it must have done considerable damage.

Tom, my Little died in this city, of smallpox, in the summer of 1899. He will be remembered by all old residents of this community, having lived here for many years previous to his death.

Professor Robertson is expected here to attend the commencement exercises of the public schools of this city Thursday, but is not an applicant for the principalship of our schools again. There are several applicants for the position made vacant by the going of Professor Stroup, but Professor Robertson is not one. Prof. Robertson is simply coming to witness the graduation of his old pupils and to attend to some unfinished business that he has at Silver City.

A letter received in this city, dated at Midland, Texas, stated that the writer had heard that one Tom Murphy had been killed near this place some two or three months ago. The writer had learned that Murphy was supposed to be going to Baca from this city at the time he met his death. No news of his killing is remembered by anyone here, but if any of our readers have any knowledge of such facts and will send them to this office we will gladly convey the same to the inquiring party. Possibly the intelligence, if true, might be of great value to some one.

Mrs. Clarence A. Lombard, who has been a resident of this city for several months past died at the rooms of Mrs. Pettet last Wednesday night. Mrs. Lombard, accompanied by her husband and mother, came here last fall seeking relief from this climate for that dread disease, consumption, but, like many others, it seems she delayed her coming too long, and although at times she seemed to be better, the end came only too soon. The remains, accompanied by the husband and mother, were taken to her old home at Lewiston, Maine, for interment, last Thursday evening.

### No Loss of Time.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning. H. E. Phelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by all druggists.

D. Burns lost over 4,000 sheep while other sheep owners lost even more.

### COLLEGE COMPLEXIONS.

#### Can Be Ruined By Coffee.

Nothing so surely mars a woman's complexion as coffee drinking. A young college girl of Hyattsville, Md., says: "I never drank coffee up to the time I went to college, and as long as you are not going to publish my name will admit that I was proud of my pink and white complexion, but for some reason I began drinking coffee at school and when vacation came I looked like a wreck. Was extremely nervous and my face hollow and sallow."

"All my friends said college life had been too much for me. After questioning me about my diet mother gave me a cup of strong, rich coffee at breakfast although formerly she had objected to the habit, but the secret came out in a few weeks when everybody began to comment on my improved looks and spirits. She said she had been steadily giving me Postum Food Coffee and I did not know it. 'My color came back, much to my delight and I was fully restored to health. I will return to college without the slightest fear of losing ground for I know exactly where the trouble lies.'"

"Mother says the first time she had Postum made no one would drink it for it was pale and watery, but the next day she did not trust to the cook but examined the directions and made it herself. She found the cook had just let it come to boiling point and then served it, and it was tasteless, but the beverage made according to directions, by proper boiling, is delicious and has a remarkable 'taste for more.' One cup is seldom enough for father now."

"I have a young lady friend who suffered several years from neuralgia and headache, obtaining only temporary relief from medicines. Her sister finally persuaded her to leave off coffee and use Postum. She is now very pronounced in her views as to coffee. Says it was the one thing responsible for her condition, for she is now well and the headaches and neuralgia are things of the past. Please do not publish my name." Name can be given by Postum Co., Battle Creek, Mich.

They Were Married in Chicago.

On Sunday last the friends of Jared L. Johnson, of Chicago, who spent the wool buying season here last year managing the business of the Godair-Johnson Co., received through the mail the announcement of his marriage in Chicago last Thursday, May 8, to Miss Jennie Hilbard Chandler, daughter of Mr. and Mrs. Hannibal H. Chandler. Of course Mr. Godair knew that the bride and groom would arrive here that day—Sunday—but few, if any, others did, and their appearance at the supper table at the Shelby that evening was a surprise to all of Mr. Johnson's friends who were there, except the few who had caught a glimpse of them as they were coming from the train. Mr. Chandler, the father of the bride is the proprietor of the Farmers' Review, a well known journal of Chicago. Mr. and Mrs. Johnson expect to remain some time.—Roswell Register.

### SUCH A CHANGE.

Not only in feelings but in looks. The skin is clear, the eyes are bright, the cheeks are plump. No more pain and misery, no more sick headache, no more jaundice. What worked the change? Dr. Pierce's Golden Medical Discovery, which cured the disease of the stomach that prevented proper nutrition, and also cleansed the clogged and sluggish liver.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of lungs, heart, liver, and other organs which seem remote from the stomach because many of these diseases have their cause in a diseased condition of the stomach involving the allied organs of digestion and nutrition.

"I sent you a letter about a year ago," writes Mrs. J. Edis Hamilton, of Farmington, Marion Co., West Va. "I stated my case as plainly as I could, and received a letter from you in a few days, telling me to use Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription'—a bottle of each. I used three of each, and feel like a new woman. I don't suffer any pain or misery any more. Before using your medicine I suffered all the time—had jaundice, caused from food not digesting properly. I would have sick headache three and four times in a week. Could not do the work myself. I commenced using your medicines as recommended for liver complaint, and think I am cured now. I asked our doctor if he couldn't cure me, and he said he could give me medicine to help me but the trouble might return any time. I doctored three years without any relief. Haven't had sick headache since I took the first bottle of your medicine."

Dr. Pierce's Pellets cure constipation.

a ranch in the Weed country of Otero county, and will there endeavor to run a ranch without the help of anyone. Before leaving Alamogordo for her ranch, she purchased a full outfit of everything needed to live a solitary and independent life in the wilds of the mountains.

### Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes George S. Marsh, well known attorney of Nocona, Texas. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. J. H. O'Reilly & Co.; B. H. Briggs & Co.

west of Ribera, was tried recently in the United States court at El Paso and decided in favor of the railway company.

The supreme court of Nebraska ordered a dismissal of the suit against the Missouri Pacific Railroad company for \$400,000 for alleged violation of the maximum freight rate law. Forest Trees Cut and Bridge Completed in Four Days.

Last week the bridge of the El Paso & Rock Island across Pintada canyon in Guadalupe county burned down, having been set afire by sparks from a locomotive. The timber with which the bridge was built was standing in the Sacramento near Cloudford when the bridge burned, but the permanent bridge was built in four days after the fire. The trees were cut down, and sawed into logs, the logs taken to Alamogordo and the timbers shipped to Pintada canyon and the bridge built, not merely temporarily but permanently. The bridge is quite a long one.

### Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J. H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." J. H. O'Reilly & Co.; B. H. Briggs & Co.

### Won't Follow Advice After Paying For It.

In a recent article a prominent physician says: "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by all druggists.

A correspondent, writing to the Las Vegas Optic, from Santa Rosa, says: "Last Saturday, H. Livingston, a brakeman on the Chicago, Rock Island & Pacific railroad was knocked down in the yards at this place by a passing train. The train passed over his arm, cutting it off between the shoulder and elbow. When picked up it was found he also had a gash about five inches long in his head. The only physician claiming residence in Santa Rosa was away on his wedding tour without leaving anyone in his place during his absence. A special train was made up to carry the wounded man to Tucuman for medical assistance. Upon arrival there the physician refused to do anything for him and he was then taken to Dalhart, Texas, where his arm was taken off at the shoulder socket. At last reports he was still living."

### What Thin Folks Need

is a greater power of digesting and assimilating food. For them Dr. King's New Life Pills work wonders. They tone and regulate the digestive organs, gently expel all poisons from the system, enrich the blood, improve appetite, make healthy flesh. Only 25c at all druggists.

Deming ships over 100,000 head of cattle annually; is the center of the greatest breeding region in the southwest and cattle men all know this.

### Curtains! Curtains!! Curtains!!!

We are showing up to date lace curtains in Brussels net, Irish point, Arabian net, Nottingham, Bobbinet and muslin. Albert Febar, 205 Railroad avenue.

We make the best door and window screens. They are far superior to any made in the east at the same price. Albuquerque Planing Mill company, A. T. Telephone No. 463.

Investments in Deming lots will double and treble in one year.

## Lost Hair

It's risky, this losing of the hair. You may not get it back again. When the hair first begins to fall out use Ayer's Hair Vigor. It will stop the falling and will make new hair come in. And it always restores color to gray hair.

"My hair came out badly and was fast turning gray. I tried Ayer's Hair Vigor. It stopped my hair from coming out and completely restored the color." Mrs. M. D. Gray, North Salem, Mass. At all druggists. J. C. Ayer & Co., Lowell, Mass.

### No More Dust.

Ever alert to every means of making travel on their lines agreeable and pleasant, the Santa Fe railroad early commenced experimenting with the use of crude petroleum for sprinkling their tracks. The process was a complete success. The dust was completely laid. Their locomotives have all been converted into oil burners, so there is no coal smoke or cinders. The track oiling is now completed from the west end as far east as Selman, Ariz., practically across the arid desert portion of the line. Now the traveler can keep his window open and have no dust, no smoke, no soot, no cinders to annoy him. This adds a vast deal to the comfort of travelers and the Santa Fe is the preferred route.

### KILL THE DANDRUFF GERM

Or Your Hair Will Fall Out Till You Become Bald.

Modern science has discovered that dandruff is caused by a germ that digs up the scalp in scales, as it burrows down to the roots of the hair, where it destroys the hair's vitality, causing falling hair and, ultimately, baldness. After Prof. Unna of Harburg, Germany, discovered the dandruff germ, all efforts to find a remedy failed until the great laboratory discovery was made which resulted in Newbro's Herpicide. It alone of all other hair preparations kills the dandruff germ. Without dandruff, hair grows luxuriantly. "Destroy the cause, you remove the effect."

George W. Smith, formerly general master mechanic of the Santa Fe coast lines, has secured a similar position with the Illinois Central railroad and left Topeka to go to Waterloo, Iowa, where he will have his headquarters. Mr. Smith is well known and will likely by railroad men, and he will undoubtedly make many friends at his new position. Mr. Smith is a brother-in-law of J. H. Oberly, of the firm of Grantier & Oberly, Topeka.

### Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Tarty, Yanketown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. J. H. O'Reilly & Co.; B. H. Briggs & Co.

General Manager Louis J. Wortham, of the Texas world's fair commission, telegraphed from St. Louis to officials of the road in Dallas, Texas, that the "Frisco" railroad company had agreed to contribute \$5,000 to the Texas world's fair fund, which fact would be formally announced by a representative of the company at the meeting of the executive officers of the Texas railroads in Dallas, May 27. The proposition considered at a former meeting was that the Texas lines contribute \$5 for each mile operated in the state. The "Frisco" contribution is largely in excess of the suggested assessment.

### Reveals a Great Secret.

It is often asked how such startling cures, that puzzle the best physicians, are effected by Dr. King's New Discovery for Consumption. Here's the secret. It cuts out the phlegm and germ-infected mucus, and lets the life-giving oxygen enrich and vitalize the blood. It heals the inflamed, cough-worn throat and lungs. Hard colds and stubborn coughs soon yield to Dr. King's New Discovery, the most infallible remedy for all throat and lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at all druggists.

James Creel, agent at Needles, was united in marriage to Miss Carrie McPherson in Los Angeles the other day. The Needles Eye, in commenting on the marriage, says: "Mr. Creel is one of the trusted employees of the Santa Fe Pacific who has worked his way up the ladder of promotion from call boy to the responsible position of agent, a position at this point that requires more than ordinary ability to handle. Jim is strictly business, and is of that class of young men whose ambition is to keep climbing until the topmost pinnacle of success has been reached. Mrs. Creel has spent much of her time during the last few years in Needles, where she has been foremost in social circles, where, by her lovable disposition and always jolly spirits, she has won the friendship of everybody. The newly wedded couple are expected to arrive in Needles, where they will be showered with congratulations with best wishes for a long life and all the happiness this world can bestow."

### The Most Common Ailment.

More people suffer from rheumatism than from any other ailment. This is wholly unnecessary, too, for a cure may be effected at a very small cost. G. W. Wescott, of Meadowdale, N. Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's Pain Balm and am pleased to say that it has cured me." For sale by all druggists.
