SUPREME COURT DECISIONS

A Clause of the War Revenue Law Is Declared to Be Unconstitutional.

CERTAIN DIVORCES INVALID

The Validity in One State of Divorces Granted in Other States Depends Upon the Legal Residences of the Parties to the Divorce.

Washington, April 15.—In the U. S. supreme court an opinion was handed down today in the case of Fairbanks vs. the United States. The case involved the constitutionality of the war revenue law imposing a tax upon export bills of lading. The court decided against the government, holding that the provision of the law is unconstitutional. The opinion was handed down by Justice Brewer. Justices Harlan, Gray, White and McKenna dissented.

THE VALIDITY OF DIVORCES.

Washington, April 15.—The U. S. supreme court today decided a number of cases involving the validity in one state of divorces granted in other states. The court held practically that in cases in which the decree is granted in a state where the husband and the wife made their legal residence, it is valid in any part of the United States, but in other cases in which there is no legal residence in the state in which the decree is granted, they are invalid.

New York, April 15.—A special to the Herald from Washington says: Specific provision for the neutrality of the proposed Isthmian canal will be made in a new treaty, to be signed by Secretary Hay and Lord Pauncefote, the British ambassador. Pittsburg, Pa., April 15.—As the result of a dispute that for a week past has involved the employees of the W. D. Deweese wood plant of the American Sheet Steel Co. at McKeesport, and the company, about half of the men are on a strike today and the operation of the plant is badly crippled. The cause of the trouble was the discharge of seven men, who, the men claim, were dismissed because they were members of a organized lodge of the amalgamated association. The event is looked upon as momentous throughout the iron and steel trade of the country, from the fact that it is the first conflict between organized labor and the new U. S. steel corporation and because of the announced intention today of President J. T. Shaffer, head of the amalgamated association of the iron, steel and tin workers, to tie up every plant of the new combine if necessary, to win the fight.

DAMAGE BY A WIND STORM.

Colonel J. Francisco Chaves Encountered a Hurricane on His Trip to Valencia County.

Colonel J. Francisco Chaves, superintendent of public instruction of the territory, who went to Valencia county last week for the purpose of inspecting the schools there, writes the New Mexican as follows from Progress:

"We arrived here yesterday in good condition, but what a trip we have had. A hurricane was in our teeth from the time that we struck the Arroyo Honda one Springs camp here. It is winter and has been unroofed, the tin roof being rolled up like a scroll. H. C. Burnett's windmill, eight miles north of Antelope Springs, was blown down and considerably damaged. It was but recently erected and will have to be sent to Chicago for repairs as several castings were broken. The extent of other damage wrought by the storm I am not in position to describe. I will go to Pinos Wells on Sunday and will have a meeting with the school directors there for the betterment of educational interests. I will visit five other precincts next week for the same purpose. I will either straighten out the kinks or break them."

JOHN V. CONWAY.

County School Superintendent.

A School Difficulty.

There is a little trouble in precinct No. 4 of this county over the closing of the schools owing to a lack of funds. It is understood that Juan Miera was appointed a school director to succeed Emilio Garcia, who was forced off the school board to give those opposed to closing the schools a majority. Valentine Montoya, who is opposed to opening the schools for this term again, has lodged a protest with County Superintendent John V. Conway who will investigate the matter. The school house of this district is on the Agua Fria road near Dr. W. S. Harroun's orchard.

THE CHINESE INDEMNITY.

Berlin, April 15.—It is officially confirmed here that the United States made a proposition to the powers to fix the total Chinese indemnity at forty million pounds, coupled with the condition that the payment be made immediately. The German officials point out that the amount named would require a heavy scaling of the different claims, but the proposition is practical and open to discussion owing to the clause requiring cash payment.

The Dollar.

Just a little dollar on its mission sent, makes a lot of people glad each time a coin is spent. You pay it to the butcher for meat to give you strength; he takes it to the grocer, from whom it goes at length, some pretty bit of cloth or lace, his better half to buy, or helps to get her winter hat to make her rival sigh. The dry goods man sends on the coin to pay his market bill and, though the coin is often spent, it stays a dollar still, and every time 'tis spent at home, some act of good is done in booming local interests ere the setting of the sun.

But if you take the shining coin and break the local chain, the chances are that from afar, 'twill not return again. If once it passes out of town, the butcher and the baker, the grocer and the dry goods man, the cook, the undertaker, the carpenter, the carriage wright, the blacksmith, every one, will lose the chance to touch that coin, ere the setting of the sun.

Just keep the little coin at home, just keep it moving, well, and every time it changes hands somebody's goods 'twill sell. That single little dollar has thus a wondrous power to make somebody better a dozen times an hour. It pays the bill and wards off ills, and never its power relaxes to soothe the doctor, buy the coal, and pay for the clothes and taxes.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

MONDAY, APRIL 15.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, or until stated is attained, Miguel A. Otero.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

The New Mexican makes a specialty of mining news. Any person interested in mining in New Mexico or who desires to keep posted in that line, must subscribe for and read this paper.

The ghastly, harrassing studies about the Penitentes in New Mexico, being published at present in a number of metropolitan journals, are irrefutable evidence that either some tourist-authors have been working by the guileless natives or that some newspapers are being worked by tourist-authors.

A strong effort should be made by the people of New Mexico to induce President McKinley when on his way to the Pacific coast, to spend a day in New Mexico. A special train could be easily arranged and could be run to Santa Fe and return to Deming in the daylight. This would give the president a chance to see the Rio Grande valley and the oldest capital in the United States.

The annual election for the faculty of the College of Agriculture and Mechanic Arts located at Mesilla Park, occurs on May 8. It is understood that Prof. Sanders is not a candidate for reelection. The position of president of the college is very important and to a great extent affects the well being and advancement of that institution. Hence the board of regents should be careful in the selection of a successor to Professor Sanders.

The coal miners' strike at Gallup has been settled. The Colorado Fuel and Iron Company now owns or controls a majority of the coal mines near that town and vicinity and did not give in to the demands of the miners, but imported men to fill their places. All the mines in that vicinity are now running with a fuller force than ever. The miners who have participated in that strike have nearly all left and have gone to a different section of the country. The coal output is on the increase and there is no good reason why the town of Gallup and McKinley county should not advance and prosper right along.

One blot upon the people of the United States is the frequency with which the divorce courts are sought by married people to relieve them of the bonds of matrimony. Since 1870 the percentage of divorces granted in the United States has more than doubled and today 8 per cent of all marriages in this country are dissolved by legal means. The total number of divorces in the United States last year was 23,472, while in all the rest of the world there were divorce courts, only 29,111 divorces were granted. Our neighbor, Canada, had only twelve divorces granted against its last year. France stands second to the United States with 6,245 divorces, while Germany is third with a hundred less.

George Q. Cannon, the Mormon apostle, who died last week, was the first leader who not only called attention to the great resources and possibilities of the Rocky mountain region, but who went himself to demonstrate the truth of those assertions. In a desert much more unpromising than the arid lands of New Mexico, he founded an empire which has prospered beyond the dreams of its most sanguine founders. In a country which was deemed fit for naught else but the sage brush and the coyotes he, together with his workers, founded a magnificent city and developed a splendid domain. The same miracle might be repeated and will be repeated in New Mexico, but it awaits the coming of a pioneer like Cannon who imbued with an indomitable energy and a great enthusiasm will not be discouraged by untoward circumstances and the lack of immediate individual returns from his undertakings.

Arbor Day in New Mexico occurs this week. The date selected by Governor Otero is a historic one, the anniversary of the battle of Lexington and of the first bloodshed in the civil war. Yet, but two or three county superintendents of public schools have called the attention of the teachers and pupils in their counties to the fitness and the necessity of observing Arbor Day especially in New Mexico. This seems to show a lack of public spirit where public spirit should be at home. If the pupils in the public schools are not taught patriotism, if their teachers and superintendents do not value the observance of Arbor Day when the governor of the territory earnestly entreats all public schools to observe it, then it is time that there is an awakening of the people to these facts so that in the future they may elect superintendents and school directors who will deem it a personal privilege to take the lead in matters of patriotism and in the due observance of days like Arbor Day.

Protecting the Public Health.
The new city authorities throughout New Mexico will be confronted by the necessity of enforcing the new health

law passed by the last legislative assembly and signed by Governor Otero. The people are wide awake to the fact that in every state of the Union as well as in every territory, smallpox exists today. New Mexico has been spared an outbreak of the epidemic. Several months longer than has Colorado or Texas, but the smallpox is in the territory now, and must be dealt with immediately, if the summer tourist business is not to be frightened away and other business interests injured by the knowledge that smallpox exists in New Mexico. At present it is only a few sporadic cases that appeared, but an epidemic such as Colorado, Kansas, Ohio, Illinois, Missouri, and other states have experienced during the past twelve months is not out of the question. The city and county authorities should make up their mind at once to stamp out the disease for this and all times. The new health law gives them ample authority to do so and as the preservation of the public health is the first duty of every well organized city, county or territorial government the new city authorities and especially those in the capital city of the territory should act at once and act vigorously.

A Filthy Habit.

Santa Fe has made a feeble effort the past few months to enforce the health board ordinance against expectoration on the sidewalks, but although the ordinance is transgressed a hundred times each day yet no conviction at law has taken place. In New York City the board of health is more strict in enforcing a similar health ordinance and sixty convictions took place last week for expectoration on the sidewalk and heavy fines were imposed. As a result the expectoration nuisance has been abated to a considerable extent.

The vile practice of spitting on the floors of public conveyances and on the public thoroughfares can be suppressed to a large extent. Offenders should be given due warning as they have been in this city by posters.

The arrest and fining of a few dozens of the incorrigible would have a salutary effect. The others would soon be persuaded into reforming their ways. The habitual offenders are a small percentage of the population, and there is no reason why they should be allowed to make themselves a nuisance and a menace to the whole community.

Scientists agree that certain diseases are carried by dried sputum, which is brought in the form of dust. The ordinance against expectoration in public places is a sound sanitary measure as well as one in behalf of decency and cleanliness. Requests and informal notices have been largely disregarded. It remains to be seen what can be accomplished by a little wholesome discipline in the shape of arrest and fines.

Industrial Depression in Germany.

It is a good thing to live in the United States especially under a Republican administration. Germany which is regarded as the most prosperous of European nations, cannot approach this country in prosperity. Its newspapers take a gloomy view of the situation and as relief seems out of the question under present industrial conditions, Germany may soon be in the throes of a socialistic revolution. Says the Berlin Tageblatt: "Industrial conditions in Germany are so that the efforts of the charitable are powerless to cope with the situation. Reduced production and the consequent dismissal of working people are so general as to no longer attract notice."

It is safe to say that a quarter of the working people are either idle or insufficiently employed. There is little prospect of an improvement in the situation. Prices are so depressed in Silesia that even the iron works there, which possess their own coal mines and furnaces, cannot cover operating expenses. The tin plate and tube manufacturers, plants for the manufacture of electric supplies and the textile industries, are in a similar plight.

Many factories have closed and in others the hours of labor have been reduced, while work folk crowd to the gates of the factories seeking employment. The wealthy classes feel the pressure of this condition proportionately with the working and professional classes.

Albert Priestman, a merchant who, although he has lived in Philadelphia the past fifteen years, has an American wife and a number of children attending the public schools of this country, is still a British subject. For this inexcusable error on his part he met with a suitable punishment the other day. According to the law an alien who goes from this country to Europe must be inspected and passed upon as rigidly as a new immigrant. When the German arrived last Thursday it had on board Priestman, who had been abroad to buy goods. Accordingly he was inspected to see whether he was liable to become a public charge and hence should not be allowed to enter the country. The official of the marine hospital service who examined him discovered that he had an artificial left arm, and though Mr. Priestman brought proof of his business standing and showed the officials a certified check for \$10,000, they insisted that he must be detained on Ellis Island for examination and investigation. In vain did Mr. Priestman protest that he had been across the ocean a dozen times before with the same artificial arm, or that he would furnish bonds for his appearance. Finally he was paroled over night in custody of the superintendent of the shipwreck line, and the next morning he was compelled to undergo an examination.

This served the old codger just right. A man who lives under the protection of the United States government, who makes his living here, whose children are educated in the public schools, and who nevertheless fails to become an American citizen, is less benefit to his nation than the ignorant foreigner who lands at New York without means, but determined to become an American citizen. Mr. Priestman will do well to apply for naturalization papers at the first opportunity.

CANCER Cannot be Cut Out or Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure. Cancer. No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that cancer is a blood disease, and that a folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?

Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

Only Blood Diseases can be Transmitted from One Generation to Another

—further proof that Cancer is a disease of the blood.

To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health.

A little pimple, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Our medical department is in charge of physicians of long experience, who are especially skilled in treating Cancer and other blood diseases. Write for any advice or information wanted, we make no charge whatever for this service.

A TALK WITH CAPT. JACK CRAWFORD

Reminiscences of the Days of Indian Wars, of a Cold Experience in Alaska and Other Matters.

THE SUPERIORITY OF OUR CLIMATE

Captain Jack Crawford, during a call at the New Mexican office, became reminiscing and touched upon many matters of interest to the old timers in the territory. Said he: "Twenty-nine years ago, Chief Victoria and his Warm Springs Apaches were terrorizing the southern part of the territory. General Edward Hatch, then in command of the department of New Mexico, was at a loss to find a thoroughly reliable, experienced man to act as chief of scouts, when Captain McKibbin suggested that he wire General Wesley Merritt, then in the Ute country, Colorado, asking for

his chief of scouts, Captain Jack Crawford, who had served throughout the Sinking Bull campaign as General Crook's chief of scouts in 1876. The result was that I reported to General Hatch for duty and was soon on Victoria's trail where I remained until Victoria was finally driven into Mexico and killed by Theodore's troops in the Berachata mountains of Mexico. Twice during the campaign I was wounded by the Apaches and my trip into Mexico with a single Indian scout and Mexican interpreter, was one of the most daring undertakings of the campaign."

Captain Crawford later was with Chaffee and Lawton and was instrumental with his advice, judgment and courage in causing the capture of old Chief Geronimo and his band.

INVESTS IN NEW MEXICO MINES.
Captain Crawford was appointed post commander at Fort Craig by Robert Lincoln, then secretary of war, and became heavily interested in the development of the mineral resources of the southern Oscuras and the northern San Andreas mountains in Socorro county, where in the last eighteen years he expended over \$30,000, most of which he earned by his platform work. Every dollar that he earns continues to go into his big copper and lead prospects. He has a fine horse ranch and the best bunch of graded horses and mares in the territory. No few persons have done more to advertise the territory's resources and wonderful climate than has the post scout. Hundreds of health-seekers have come here through his eloquent word painting of the sunny southwest.

A POLITICAL CAMPAIGNER.
In the last three political campaigns, Captain Crawford was recognized as one of the wheel horse attractions and in the first McKinley campaign with C. B. Hart of Wheeling, W. Va., he made over a hundred speeches in the mountains of West Virginia and in places where no Republican speaker had dared to talk before since the war. He captured the old ex-Confederates by his humor and pathos, his songs and stories, and his magnificent poem on the death of General John B. Hood, and by organizing a benefit for the old Confederate soldiers and little orphan children and sending them a check from San Francisco for \$1,000. One of his great hits was his own version of "Marching Through Georgia," to which he added this verse and as West Va. was formerly a great sheep country, one can imagine how it caught the sheepmen:

Mary had a little lamb
She loved it every minute,
She washed in the springtime
And sheared the wool to spin it.
But Grover took the tariff off
Then Mary had to skin it.
Since we were marching through Georgia.

The governor of West Virginia, Atkinson, wrote a strong letter to the chairman of the National Central Republican Committee, commendatory of the poet scout's work.

A TRIP TO THE KLONDYKE.
President McKinley offered Captain Crawford a good position, but he refused because he had already contracted to go to the Klondyke at the head of a pioneer party representing "supposedly" big capital. With such

men as Secretary of War McKibbin, Senator Blackburn of Kentucky, and Wilson of Washington, on the board of directors, and Captain Crawford behind it, it was a square deal, but when Captain Crawford got to Alaska, he was deserted by the very men who had given up all hope of ever being well again, when they dragged him, knowing of his condition, recommended S. S. S. After taking a few doses the sore began to heal, much to the surprise of the physicians, and in a short time made a complete cure. I have gained in flesh, my appetite is splendid, sleep is refreshing—in fact, an enjoying perfect health."

placed a gold and diamond badge on his breast and over one thousand strong escorted him to the steamer to bid him good-bye.

A VALUABLE EXPERIENCE.
"But," said the captain, when talking about his Alaska experience, "While I would not take a fortune and go through it all again, I would not have missed it. It has given me material for at least a week's entertainment as well as five hundred of the finest pictures ever made in that frozen hell. I shall make a big hit when I get thawed out by the balmy New Mexico sunshine and I want to say right here, as I said nearly twenty years ago, I have been in many climates, I have twice dined at the president's home table, and made a free silver speech from his porch at Canton when I notified him of his nomination, I have been banqueted, toasted and feasted in nearly every state, but after all—

Give me those clear, old happy scenes
The luscious park, the toothsome beans,
The honest grasp of comrades' hands
Besides the storied Rio Grande,
And when with staided duty crowned
And in thy mine-shafts we have found
Those riches, which will make you great.

And famous too, dear Sunshine state,
Then I in humblest attitude
With all thy warmth of light imbued,
Will sing, as I have sung before,
And sound thy praises o'er and o'er
Till I can hear the bugle call
That sounds tattoo for one and all
And then before old tapps they too
I'll wish for one grand parachute—
So that beyond this mundane sphere
If I should find things out of gear
And heavenly climate not just so
I can go back to New Mexico."

WINE OF CARDUI

WOMEN WHO WORK.

St. Louis, Mo., Aug. 12.
Though only 19 years old, I suffered from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui and that made me feel better. I now used several bottles and am well. My mother used the Wine of Cardui for Life and was greatly relieved.

MISS MARGARET WALSH.

Wine of Cardui

Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tiresome tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent or foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of woman workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.

Druggists sell Large Bottles for \$1.00.

AUTOMOBILES AND WAR.

Automobiles ought to be used as army transport wagons. Trial experiments in France have proved convincing. It is odd to note the different uses to which nature and science are put. On the battle field they fight for the destruction of life, while throughout the country they are used to preserve it. For fifty years the Bitters has been making strong stomachs and curing dyspepsia, indigestion, constipation and biliousness. In the spring when the system is usually run down, this wonderful medicine will be helpful in restoring your health and strength. It will also prevent malarial fever and ague, and as an appetizer, it is unequalled. See that our private revenue stamp is on the neck of the bottle.

What Was Required.

Mr. Holesley—I want an office boy that don't chew, smoke or curse and is always neat, clean, brave, manly and courteous.

Applicant—Hully gee! What you want is a matinee idol!—Puck.

You cannot enjoy perfect health, rosy cheeks and sparkling eyes if your liver is sluggish and your bowels clogged. DeWitt's Little Early Bitters cleanse the whole system. They never gripe. Ireland's Pharmacy.

Well to-hake Em.

Tommy—Paw what is a artistic temperment?

Mr. Figg—I'm blamed if I know—only when I meet a fellow that's got it I don't lend him money.—Indianapolis Press.

Those famous little pills, DeWitt's Little Early Bitters, will remove all impurities from your system, cleanse your bowels, make them regular. Ireland's Pharmacy.

Economy.

But why did you run away? we asked. We had always heard of you as brave.

It was not that, answered the soldier, but I got to thinking it would be a sin to waste my life. Just economy, that's all.—Indianapolis Press.

"I have been troubled with indigestion for ten years, have tried many things and spent much money to no purpose until I tried Kodol Dyspepsia Cure. I have taken two bottles and gotten more relief from them than all other medicines taken. I feel more like a boy than I have felt in twenty years." Anderson Briggs, of Sunny Lane, Tex. Thousands have testified, as did Mr. Briggs. Ireland's Pharmacy.

Not Anxious.

You have quite a number of the poets, said Goody, who was inspecting Woodby's library. Ah! there's Browning. Do you understand him?

No, I don't said Goody. Ah! said Goody, continuing his examination: have you Præd?

Certainly not. What's the use of praying? I ain't anxious to understand him.—Philadelphia Record.

SICK HEADACHE ABSOLUTELY AND PERMANENTLY CURED BY USING MOKI TEA. A pleasant herb drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25 cts. and 50 cts. For sale at Fischer's drug store.

Small Loss.

Oh, sir, please I have swallowed a pin! exclaimed a servant girl, running into her employer's study.

Never mind, Mary, he replied, deep in study, never mind; here's another, drawing one from his pincushion.—Chicago Journal.

DYSPEPSIA CAN BE CURED BY USING ACKER'S Dyspepsia Tablets. One little Tablet will give immediate relief or money refunded. Sold in handsome tin boxes at 25 cts.

His Estate.

The count only laughed. I still have left, he gaily exclaimed, enough of my paternal estates with which to do a neat song and dance!

Saying which, he drew a paper of Westmoreland and from his bosom and scattered it over the stage.

Oh, how! faltered the deceived girl, taking heart.—Detroit Journal.

EXPERIENCE IS THE BEST TEACHER. USE ACKER'S English Remedy in any case of coughs, colds or croup. Should it fail to give immediate relief, money refunded. 25 cts. and 50 cts.

Then 'Twould Be O. K.

They turned over the pages of the book until they came to a picture of a Dahomey girl with enormous bracelets on her ankles.

Don't they look barbarous and hideous? asked Mabel, with a grimace.

Yes, asserted Claude. She ought to wear them on her wrists or in the shape of big brass spikes down her skirt from Indianapolis Sun.

"I had piles so bad I could get no rest nor find a cure until I tried DeWitt's Witch Hazel Salve. After using it once I forgot I ever had anything like Piles."—E. C. Boice, Somers Point, N. Y. Look out for imitations. Be sure you ask for DeWitt's. Ireland's Pharmacy.

Over the Bridge.

She—After dinner, John, I want to have a good long, serious talk with you.

Wanted a Bible.

Housekeeper—Now, you clear out right square off, or I'll call the hired man.

Tramp—Please, mum, I only wanted to borrow a Bible, if you have one to spare.

"Bibles? I've got about 40."

"Well, mum, will ye please lend me one a few minutes? I want to read about Belshazzar's Feast. Mebbly it will stay my appetite till I get to some town where people has fewer Bibles an' more pipes."—N. Y. Weekly.

Voice of Experience.

Sweet Young Thing—I am to have my coming-out party next week, you know. Tell me some of the things I must do?

Miss Flippie (who came out several seasons ago)—It won't make any difference, child. Your friends will all say you carried yourself like an angel, and the envious ones will say that you didn't know what to do with your hands and feet.—Chicago Tribune.

Idle Speculation.

"Think of it!" said the man who takes an interest in science; "there may be millions and billions of people on those distant points of light up there that we call stars."

"Oh, what's the use?" answered the practical politician; "I'll never be possible for any of us to control their votes, anyway."—Chicago Times-Herald.

A Clear Explanation.

Mrs. Brown—The idea of coming here in this condition! You're not yourself at all.

Mr. Brown—That's right, my (hic) dear; that's right.

Mrs. Brown—What is right, sir?

Mr. Brown—Not myself at all. Stashed up too late at the club, and (hic) forgot myself.—Town Topics.

Making Him Comfortable.

Hotel Clerk—Front! get a file and a saw at once.

Front—Yes, sir. What shall I do with 'em?

Hotel Clerk—A Boston gentleman has just retired, room No. 500. Sit outside and file the saw until he gets to sleep. I'm afraid he'll miss the noise of the trolleys.—N. Y. Weekly.

Mail to the Bride.

"That sounds like hail," said the blushing bride as the shower of rice struck the top of the carriage which was conveying them to the railroad station.

"Well, it is hail to the bride," said the gladsome groom, gleefully.—Yonkers Statesman.

Lost Speed.

Mr. Gotham—Did your ship break the record this trip?

Sea Captain—No, we met with too many interruptions.

A Fine Ethical Distinction.

"What are you here for, my man?" inquired the benevolent visitor at the jail.

"Why, you see, sir," answered the prisoner, "I took something that didn't belong to me by rights, an' didn't do it according to law."—Washington Star.

An Injustice.

He—Good gracious! You haven't run through with that, have you?

She (indignantly)—Certainly not. I have nearly \$50 left.—Brooklyn Life.

clear my skin, my face was in a horrible condition. Literally covered with red spots, pimples, blackheads, moth patches and freckles. And when I saw the weather changed, my skin was so rough and added to my misery. I suffered a thousand deaths, and when I sent for a trial of Mine. Ribault's beautifiers just as I had done before (time and again with other advertised remedies, I did not expect any results, imagine my surprise when the next day all redness and soreness were gone. At the end of a week my skin began to clear, the freckles and moth patches disappeared and the eczema and salt rheum were completely cured. I hope all ladies will at least try these marvelous beautifiers.

Do not delay but write immediately. The treatment is harmless, a natural beauty maker and will permanently remove all tan, freckles, moth patches, pimples, blackheads, flesh worms, sunburn, chaps, roughness and any and all skin imperfections no matter what they may be.

The Dead Comes to Life.

Mr. Thirlwell—The jokes the funny men perpetrate nowadays are nothing like those that delighted me when I was a boy.

Mr. Fortiwell—Wait till you get a little older. They're now using the ones that delighted my boyhood. And by the way, don't say perpetrate. Perpetrate is the word.—Philadelphia Press.

Charitable Matron—You say you can't work at shoveling snow for the city because you haven't any mittens? Well, here's a nice, warm pair that will just fit you.

Limping Lazarus—Thanky, ma'am. You ortn't to ask a poor man to wear out his only pair of 'mittens shovelin' wet an' nasty snow.—Chicago Tribune.

"Last winter I was confined to my bed with a very bad cold on the lungs. Nothing gave me relief. Finally my wife bought a bottle of One Minute Cough Cure that effected a speedy cure. I cannot speak too highly of that excellent remedy."—Mr. T. K. Houseman, Manatoway, Pa. Ireland's Pharmacy.

A Fair Question.

Jennie, said little Nellie to her big sister at breakfast, did you tell papa?

Tell papa? Why, you told Mr. Buster last night if he did it again you'll tell papa—and he did it again. I saw him.

And then papa looked at Jennie over his glasses.—Tit-Bits.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumigations, snuffes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. THE ELECTRIC RAILWAY.

Santa Fe May Get a Street Railway and a Railway to Bland After All.

M. W. McGrath, the promoter, who has been granted a street railway franchise by the city authorities, arrived in the city on Saturday and intends to remain several days. Mr. McGrath says that the street railway scheme and the proposed electric railway to Bland have not at all been abandoned. The other contemplated improvements are also certain to be carried out in the near future. Chicago capitalists have been interested in the projects and Mr. McGrath has, in confidence, submitted to the New Mexican papers and securities which on their face are evidence that the street railway for Santa Fe is a go. All outstanding indebtedness incurred by the promoters in the preliminary work for the street railway will be liquidated as soon as the first payment is made on the stock by the capitalists interested. The New Mexican sincerely hopes that the proposed projects will become a reality in the future for their realization would mean growth and prosperity to the city.
