## WILL ASK BAIL

Eakin Will Go to Las Vegas.

He Arrived in El Paso This Morning.

He Has One of the Bullets As a Souvenir.

## WHAT JONES SAYS.

Special to The Citizen.

El Paso, Texas, May 14.—Sheriff Romero and two deputies in charge of James D. Eakin, Dr. T. P. Burdick and Louis Fondville, arrived here this morning from Santa Rosa. Attorney W. B. Childers is with them. The latter says he feared a preliminary hearing in Guadalupe county during the present excitement over the killing of Smith and Stewart and requested Sheriff Romero to escort Eakin and party to Las Vegas, where he (Childers) will ask bail before Judge Mills. Eakin says he was clearly justified in committing murder. During the day (last Saturday) Street, a partner of Smith, bantered him to a fight in front of their saloon, but he averted trouble, although Street called many hard words. He told Burdick and Fondville that trouble would surely come at night, and in order to protect himself and employees he purchased a 45 revolver and telegraphed for his shotgun at Santa Rosa. With these weapons and a rifle he obtained from a young man named Shaw, who worked at the Whitney company, the Melini & Eakin saloon was defended from mob violence after the killing until Sunday, when Sheriff Romero and deputies arrived. Eakin says he was waiting on a customer when Smith came in. The latter slapped him in the face and held his gun on him. Eakin told him that he had the advantage now and with his left hand unseen reached for his revolver. Bringing it hurriedly up and cocked he fired and Smith fell to the floor dead, shot through the face. Stewart was shot later, but Eakin did not know how. Early Sunday morning the friends of the dead men formed around the Melini & Eakin place, and a bullet sent into the building struck Fondville in the breast but the wound is not serious. Eakin has this bullet and will keep it as a souvenir. Sheriff Romero has placed James Witt, a special detective for Goode & Co. contractors, and also a deputy sheriff of Guadalupe county, in charge of the Melini & Eakin place at Tucumcari.

## What Jones Says.

Special to The Citizen.

Santa Rosa, N. M., May 13.—Eakin advertised that he would open a saloon in Tucumcari and sell drinks for 10 cents. The other saloonkeepers forbade him doing so and said they would run him out of town and attacked him on the street. He opened his saloon, they came in and made an attack on him, slapping him in the face and drawing revolvers on him. He defended himself. Lee Smith was killed and Joe Stewart, who accompanied him, was also shot and died the following day.

Eakin and bartender and Manager Burdick were held in the saloon until the sheriff arrived twelve hours later and brought them to Santa Rosa. The shooting occurred about 11:30 p. m. The mob patrolled the building and fired into it about 3:30 in the morning, wounding the bartender, Lewis Fondville, seriously, the same bullet passing through Burdick's hat.

Eakin and Burdick are in charge of the sheriff at Puerta de Luna, and Fondville is in Santa Rosa in charge of a doctor. W. B. Childers arrived this morning. Everything is quiet.

## IN CONGRESS TODAY.

Both Branches Have Under Consideration Appropriation Bills.

Washington, May 14.—In the house today consideration of the naval appropriation bill was resumed, and it was agreed to close the debate at 3 p. m. tomorrow.

Mr. Dayton, of West Virginia, spoke in support of the bill and paid a high tribute to Secretary Long's administration of the navy department. Mr. Dayton declared the crucial test of naval strength was in the battle line, made up of battleships, and that it was a recognized fact our battle line is not equal to that of England, France or Germany.

## The Senate.

Washington, May 14.—In the senate today the conference report on the omnibus claims bill was called up. The house asked further conference but instructed the conferees not to agree to the Selfridge board findings.

Mr. Hoar thought the senate ought either to recede from the amendments or drop the bill. The senate ought not to yield and undoubtedly ought to insist upon a free conference. To do otherwise would be to abandon the dignity of the senate.

After discussion of the matter by Messrs. Bacon, Allison and Warren, the senate agreed to a further conference. Messrs. Warren, Teller and Mason being appointed conferees.

The fortifications appropriation bill

was then taken up. Mr. Proctor, of Vermont, offered an amendment providing no part of the appropriation be for constructing or procuring disappearing gun carriages in emplacements or magazines.

He discussed at some length the question of disappearing gun carriages, saying the patents secured by General Buffington and Captain Crozier had been disposed of to the Bethlehem Steel company and foreign countries. He said two-thirds of the opinions upon the use of the carriage opposed it and he deemed it unwise and an unsafe investment of money to construct any further disappearing carriages.

## LUMBER FIRM FAILED.

Had Accounts Outstanding All Over the World.

Atlanta, Ga., May 14.—A Journal special from Pensacola, Fla., says: "It is announced the firm of Baars, Dunwoody & Co. have made an assignment. The firm did a large foreign timber shipping trade and it is said had outstanding accounts all over the world. The liabilities are not yet known."

## Plant Burned Down.

St. Louis, May 14.—The plant of the Gibson Asphalt company at Madison, Ill., burned to the ground today, causing a loss of \$100,000.

Col. Ed. Jaquins, ex-representative of Kansas, who has been spending several weeks in New Mexico looking for a location to hold some cattle, left last evening for Colorado. Colonel Jaquins has large cattle interests near Liberal, Kansas.

## MAY QUARANTINE.

Sheep Sanitary Board Urges That Sheep be Dipped.

## OFFICIAL LETTER SENT.

On account of the carelessness of many sheep owners in respect to scab and their failure to dip their sheep, a quarantine against New Mexico is threatened. Many sheep with their scab have been shipped out and complaint has been made to the government. The sheep sanitary board has issued the following letter on the subject:

To the Sheep Owners of the Territory of New Mexico: The government is threatening to quarantine this territory and not allow any sheep to leave same on account of the prevalence of the disease of scabies among our sheep. Nothing could work a greater hardship on the sheep growers of this territory than the issuance of such an order. It would make it impossible to sell sheep to leave New Mexico at any price whatever. If all the sheep that are annually dipped in New Mexico were dipped properly the disease of scab would soon be eradicated. The chief cause for failure in this respect lies in the fact that the growers have not provided themselves with the necessary facilities for dipping their sheep and do not properly prepare and correctly use dips that will kill the scab.

Enclosed herewith find a copy of directions for the preparation and use of sheep dips approved by the government bureau of animal industry. We strongly urge upon the sheep growers of this territory, to carefully study these directions, provide themselves with their own dipping vats and dip their sheep as required therein. A careful compliance with the directions therein set out to kill the scab, and if all growers will carefully dip their flocks in accordance therewith, the disease will soon disappear from New Mexico, thus saving the territory from being placed under quarantine.

This board has been called to account and severely criticised by the government for failure to stamp out the disease of scabies from New Mexico and we now warn the sheep growers of this territory to dip their flocks and see that they are clean of scab; otherwise, when making general inspection, our inspectors will be instructed and this board will see that they impose heavy fines on the owner of any flock of sheep found with the scab.

Very respectfully,

SOLOMON LUNA,

President.

HARRY F. LEE, Chicago.

W. D. Powell is at Flagstaff from the Black Rock Gold & Copper Mining company's mines in the Cherry Creek district with a most enthusiastic report on the showing of these mines. He says that there is absolutely no doubt of an immense body of ore, and that there is tons of it in sight on the lower group of claims. Eastern capital has become interested in their development, and it is expected that a large camp will soon be under way.

The very latest refreshing soda fountain beverage is "a red rose bud jambooree." Another which follows close behind is the "lollypop."

## BALLS OF FIRE

Are Shooting From the Crater.

There is a Traveling Mass of Flames.

American Warships on Hand Relieving the Distress.

## VESUVIUS IS ACTIVE.

Washington, May 14.—The navy department today received a number of messages bearing on the Martinique disaster. Lieutenant McCormick, commanding the Potomac, sent the following from Fort De France, dated yesterday:

"The inhabitants of St. Pierre and sixteen vessels were totally destroyed. The surrounding villages are uninhabitable. The island is covered with destruction, and ashes are within five miles of Fort De France. Provisions are needed for 50,000 refugees within ten days. Inform the commandant at San Juan."

Commander McLean, of the Cincinnati, cabled from Fort De France under today's date the following: "Arrived at St. Pierre this morning. Came here for the message. Am assisting the government of Martinique. Have news of a disaster at St. Vincent; have sent the Potomac and will follow if necessary."

Admiral Parker, commandant at the Brooklyn navy yard, telegraphed, as follows: "Bulk of the freight removed from the Buffalo. She can sail at any time with two hours' notice."

Secretary Hay today received the following cablegram from Consul Ayme, in answer to the secretary's inquiry whether fresh water and supplies are needed:

"No, water is not needed. But food is imperative for 50,000 refugees. I have cabled this to the governor of Porto Rico, answering his question as to what is wanted. I shall stay here to distribute supplies. The Cincinnati is here."

Adjutant General Corbin received a telegram from San Juan, Porto Rico, saying the collier Sterling will sail today with supplies for Martinique.

## Magnificent Destruction.

Castries, Island of St. Lucia, Tuesday, May 13.—Soufriere volcano on the island of St. Vincent, is still in destructive eruption. The noise is like a cannonade and is heard a hundred miles away. Columns of smoke rise miles in the air. Immense balls of colored fire are issued from the crater, and lightning is playing fiercely over the upper sky, while the whole northern part of the island is one mass of traveling flame. It is impossible to reach the burning district by land or sea and there are no means of estimating the destruction wrought of life and property.

Kingston, the capital of St. Vincent, is still safe, though showers of ashes and pebbles are continually falling.

The volcano itself is invisible. The St. Lucia signal station here reports having seen a conflagration last night in the direction of Fort De France, Martinique.

## Vesuvius Is Active.

Paris, May 14.—A dispatch from Naples to the Journal says Mount Vesuvius shows signs of activity. Lava is flowing from the crater on the Pompeii side while hot cinders are thrown up from time to time.

## RICHER THAN KLONDIKE.

Strike Made in the Silver Peak Mine in Nevada That Rivals the Old Comstock Lode.

Nevada has another mining excitement, and one that promises to excel that of Nome. A telegram from Carson says that S. A. Knapp, who recently arrived there from Hawthorne, brings word that one of the richest strikes recorded in the history of the state was made a few days ago in the Silver Peak mine, and that it throws Klondike and Cape Nome in the shade. Knapp said that nuggets of pure gold of the size of hens' eggs were taken out, and that there were many of these pieces of gold of various sizes. The whole face of the drift, apart from the nuggets, the ore itself, was estimated to go \$400 to \$500 a ton. It is said that over \$100,000 was taken out in a few hours the first day of the strike.

Some two weeks ago the owners of the mine, the Blairs of New Jersey, put a force of men to work in the tunnel. This tunnel cuts a seventy-foot ledge of ore. The foreman noticed a very rich streak of a few inches in width and decided to follow it. He did so with such success that four days ago the rich stuff opened up to the full width of the drift. Some seven months ago John Mackay offered to bond these mines after hearing the report of mining engineers that he had sent to Silver Peak, but the Blairs informed him that they would not bond them for a day, but would sell them for \$700,000 cash. The mines have been idle for a number of years, and it is now thought the Blairs will take immediate steps to work them, as at first it was considered low grade ore. The Silver Peak

mine is in Esmeralda county, and is fifty-eight miles from a railroad and forty miles from Tonopah.

## Mining for Gold.

The mining situation at Nogales, Lincoln county, is improving rapidly. The owners of the Hellen Rea mine, the Robertson brothers, of Scranton, Pa., were recently offered \$125,000 for their property, but held it at \$500,000. They are putting in new machinery and expect to work several of their forty-two patented claims on a larger scale than ever before.

The American mine is now producing the most satisfactory results. A recent mill run of seventeen tons yielded values of more than \$50 to the ton. As the ore is easily accessible and the cost of operation is slight, the profits promise to be large. Fifty more stamps and a new cyanide plant are to be installed at once.

In the contiguous district of Parsons, Captain J. H. Lloyd, who was for a long time in the employ of Cecil Rhodes in South Africa, is preparing for the inauguration of one of the largest mining enterprises ever undertaken in the southwest. Mill machinery is now being manufactured in Chicago and Denver and the immense bodies of ore will be worked for all there is in them.

## Lockout in Washington.

Washington, D. C., May 14.—A lockout of about 2,400 men engaged in the building trades of this city, went into operation here today. The issue is over the employment of non-union plumbers in the building work. The social democratic party has decreed a general strike in support of the suffrage movement.

## NEW BOUNDARY.

Resurvey of the Line Between Colorado and New Mexico.

## IS IN DEFICIENCY BILL.

A special to the Denver News from Washington says:

Provision will no doubt be made in the general deficiency bill when it comes to the senate for the resurvey of the boundary line between Colorado and New Mexico. The interior department is at present engaged in making estimates of the cost of this survey. These will be forwarded to Senator Teller, with the recommendation that an appropriation be made and the department authorized to undertake the work. The estimate of cost will be in the neighborhood of \$40,000.

It is a well known fact that the line separating Colorado and New Mexico is rather an indefinite affair. The town of Edith, which lies to the south of Pagosa Springs, has alternately lain in New Mexico, in Colorado and on the line for many years. The Colorado legislature appointed a commission to find out just where the town of Edith really did lie, but for some reason or other this commission has never acted. Senator Teller considers it the place of the government to determine the state boundary lines once and for all, and he will therefore, after obtaining assurance that the interior department is willing to resurvey the New Mexico-Colorado boundary line, proceed to ask that the boundary funds be voted.

The line in question was superficially surveyed in 1868, and has since that time been more or less vague. It was originally intended that it should run on the thirty-seventh parallel, but the surveyors in running the line, from the southeastern corner of the state, started at right angles to the meridian there, and ran it for many miles without making any allowance for the curvature of the earth's surface. In this slipshod manner the line was carried across to the meridian bounding Colorado on the west, and has never been rectified. The location of several valuable mining claims is said to be in jeopardy on account of this state of affairs.

## ARE IN SESSION

Miners Considering the Strike Proposition.

The Sheridan Death List is Growing.

Boers Are Gathering to Discuss the Peace Terms.

## STRIKE WAS SETTLED.

Hazleton, Pa., May 14.—The general convention of the United Mine Workers of America, in the anthracite coal territory of Pennsylvania, began here this morning and before it adjourns since die it will have reached a definite conclusion on the question whether the temporary strike for higher wages or shorter hours, inaugurated on Monday, be made permanent or the men shall return to work to await a more opportune time. There is every indication the delegates will decide to strike, though there is strong sentiment against such action. President Mitchell and the leaders are keeping their hands off and will insist that the delegates decide the issue for themselves. One word from him could sway the convention either way and it is very probable he will be asked to decide the better course. If necessary, he says, he will advise the men and he is averse to strikes. Mr. Mitchell was chosen chairman of the convention and in an address cautioned the delegates to act wisely whatever they should do. He admonished them to stand together. After the appointment of committees, the convention adjourned till 1:30 this afternoon. Most of the day will be devoted to organization, and it is thought the convention will last several days.

## DEATH LIST GROWING.

Twenty-six Dead From the Sheridan Disaster.

Pittsburg, Pa., May 14.—The casualty list resulting in Monday's disaster at Sheridan continues to grow. Two deaths are reported this morning. Albert Berry, aged 10, and Conrad Fisk, aged 43, swelling the list of dead to 26. It is believed it will be increased to forty before the last reports are received. The property loss is placed at \$175,000.

## BOERS ARE GATHERING.

Conference on Terms of Peace Will Begin Tomorrow.

London, May 14.—Lord Kitchener has notified the war office that representatives of all bodies of Boers throughout the Transvaal and Orange River colonies are gathering at Vereeniging for the conference which begins tomorrow and he has arranged so the delegates shall not be impeded in reaching the rendezvous. Consequently the assemblage is expected to be large. The terms regarding peace will later on be submitted to the British.

## Strike Was Settled.

Youngstown, Ohio, May 14.—The strike of the structural iron workers at the American Bridge company, was settled here today on a compromise basis of 47½ cents an hour and eight hours to the day. The men struck for 50 cents an hour.

## MOHAVE COUNTY DISTRICT.

One of the Best Mineral Districts in Arizona.

From Kingman Miner. The Tennessee mill is running right along and has plenty of water for all purposes. The waste water from the Schuyllkill mine has been secured and is utilized at the mill, giving it a much needed supply.

The Minnesota-Connor mine is showing up in excellent shape and every foot of work but adds to the values of the big ore body. The mill is turning out a large daily product of high grade concentrates.

Another mining company having for its object the working of mines in the Gold Basin mining district has been organized under the laws of the territory of Arizona. The company has a large capitalization and has under bond several promising mining claims. A deal for the transfer of several promising mines in the Stockton Hill country is about to be consummated. The arrival of the parties to the deal being expected every day. As soon as deal has been settled the mines will be operated by a large force of men. The mines are among the best properties of that region.

The other evening the New Comstock Mining company shipped to the Arizona Central bank a bar of bullion from a partial cleanup of a week's run of the Sheeptrail mill. The bullion was clean and contained about \$500. The batteries were not touched in making the cleanup only that on the plates having been superficially cleaned. It is thought that when a general cleanup is made it will show a big result. The company is putting on more men in the mine and at the mill. So far everything is running along smoothly and the stopes showing better than when first broken into.

Mrs. John Kay is having a drift run

in on the Setting Sun vein at Mineral Park and recently a fine body of copper ore was cut. This ore is almost solid black copper and carries big values in gold and silver as well. This is the second prospect opened up in that neighborhood by Mrs. Kay and each one was one of the old reopened mines of the camp. The reopening of these old veins show the values that the old timers overlooked in the way of copper. In the porphyry belt of the Mineral Park region there are immense deposits of copper that some day will make the camp one of the most prosperous in the southwest.

A \$600,000 deal is in process of incubation in the Boundary Cone country. The parties to the deal have made a satisfactory examination of the property and if the second examination confirms the report of the first engineer the deal will be closed. The probable purchasers are anxious to close the deal from their own observation and on the strength of the preliminary report. The mines are being opened up rapidly and every day for months past has added thousands of dollars to the value of the property. With two large companies operating in the district the future of Boundary Cone and Gold Roads is assured.

## Vote of Thanks.

A. A. Trimble and C. A. Hudson were tendered a vote of thanks by the Gentleman's Driving club at last night's meeting, the former who presented a whip and the latter who presented two beautiful oil paintings for the last matinee.

The association is giving free matinees and appreciate the interest the citizens are taking.

## A LONG TITLE.

Over Five Hundred People Interested in a Suit.

## THE CEBOLLETA LAND GRANT.

The suit with the longest title ever seen in New Mexico was filed yesterday in Albuquerque by Hon. L. B. Prince, attorney for the plaintiffs, says the New Mexican. The title contains the names of 515 parties who are interested; the suit being one to partition the Cebolleta land grant in Bernalillo, Valencia and McKinley counties. It is technically known as the suit of R. L. Baca et al. vs. Anaya et al., and is filed in the Second judicial district court for Bernalillo county. Frank W. Clancy, Esq., carried on a suit for some years to establish the titles of the heirs of the thirty original grantees to whom this grant was given in the year 1800, and the final decree, settling the fractional interest of each owner was made in September, 1900. These fractions vary from 1-17,280, belonging to some of the Mares family, to a fraction in 18 figures, amounting to about 3-10 belonging to A. G. Richardson, of New York. The grant was confirmed by the congress of the United States some forty years ago and patented.

The present suit is to partition the grant so that it may be of use and value to its owners. At present it is mostly unoccupied, and taxes amounting to \$10,000 have accrued and are increasing each year. It is not proposed to divide it into 500 pieces, which would be impracticable, but all those residing there and having interests shall unite in taking a large tract in the center of the grant which will include all their holdings and the surrounding country; that Richardson and his friends shall take another large division; that Clancy's clients shall take another, and Joshua S. Reynolds and friends, who have recently purchased about 20,000 acres, shall take a fourth tract.

This arrangement will be for the convenience of all parties. It will leave the actual occupants undisturbed, with a tract as large as a county at their disposal and it will give the owners exclusive ownership in bodies of land which they can then improve and make available in various ways. The undivided grant contains 195,000 acres, besides 4,567 acres heretofore set apart to the occupants. There are 120,000 acres in Valencia, 30,000 in Bernalillo, and 45,000 in McKinley counties.

Says the Pecos News: "W. D. Johnson, F. W. Johnson, R. D. Gage and Tom Hogland have formed a new company to be known as the Bovine Cattle company, and have purchased 120,000 acres of land up near Portales, at a cost of \$250,000. It is located in what is known as the Syndicate Pasture in Bailey and Farmer counties. They are now moving the fences and otherwise improving it preparatory to stocking it. Mr. Hogland will be general manager. It lies in the very choicest part of the big pasture, and is well watered and covered with a fine coat of grass. It rains with regularity, and the small feed stuffs can be grown in abundance. They are going to devote it to winter pasturage for their steers and cows in this section, and also to raising high grade cattle."

James Walsh purchased 3,000 sheep from Dent & Sayer, of Flagstaff, some time since, and the same were delivered on last Thursday. Mr. Walsh immediately started the band toward Seligman, where they will be sheared and then taken to his ranch at Pine Springs, A. T.

Mr. Harris, at one time employed in the local Santa Fe Pacific offices, but lately employed in the offices at San Bernardino, is visiting with friends in the city.

New Mexico is in sight of statehood and every effort should be made by the people to secure this great privilege.

Immigrants to the number of 178,604 arrived in the United States during the first four months of the present year.

"There has been nothing baser in American history," observes the Indianapolis Journal, "than the congressional attack in the rear upon our soldiers in the Philippines, 8,000 miles away." So say we all.

Streams of lava from Mount Pelee descend through three more villages in Martinique with population of 14,000 and threaten to devastate the whole northern end of the island. Five thousand refugees, burned and without water for days, crowd the hilltops. The fatalities on the island may aggregate 50,000.

The Denver Republican makes this pertinent remark: "One man is worth as much as another, and certainly the 122,000 people in Arizona in the opening years of the twentieth century can as safely be entrusted with the powers of self government as the 45,000 inhabitants of Ohio were in the opening years of the nineteenth century."

### EXPENSIVE DRUG.

One of the newest, most important and expensive drugs on earth is adrenalin. Those who are not physicians will be first interested in learning that adrenalin costs \$1 a grain—that is, \$7,000 a pound. Now the gold that is coined into beautiful yellow eagles is valued only at about \$215 a pound. The discoverer of adrenalin declares that by its use minor surgical operations can be performed without the loss by the patient of a drop of blood.

### WAR IS EXPENSIVE.

The cost of shot and shell that destroyed the Spanish ships at Manila and Santiago has for the first time been calculated by Rear Admiral Chas. O'Neill, naval ordnance chief, who shows that the cost of the battle with Cervera's fleet cost the government, in amount of ammunition expended, just \$84,834, while it required but \$50,000 worth of ammunition for Admiral Dewey's fleet to put the Spanish out of action at Manila. The total weight of ammunition expended in the fight at Santiago included 165 tons, and the total weight of metal thrown was 114 tons. There were 9,548 rounds fired. The Oregon fired 1,903 rounds at a total cost of \$24,960, and the Brooklyn 1,947 rounds at a cost of \$18,640. At Manila the total weight of ammunition expended, including powder, was 132 tons. There was 5,858 rounds fired. The Baltimore leads, with a total to her credit of 1,434 rounds, at a cost of \$10,934. The flagship Olympia was next, with 1,677 rounds, at a cost of \$10,695. Modern warfare is expensive.

### WRITE TO THEM.

The senate committee on territories is composed of the following senators: Albert J. Berendse, of Indiana, chairman; W. B. Dillingham, Vermont; Knute Nelson, Minnesota; Thomas R. Bard, California; Matt S. Quay, Pennsylvania; H. E. Burnham, New Hampshire; John Kean, New Jersey; William B. Bate, Tennessee; Henry Heitfield, of Idaho; Joseph W. Bailey, Texas; Thomas M. Patterson, Colorado. To this committee is trusted the fate of the bill which passed the house a few days ago to admit New Mexico, Arizona and Oklahoma as states.

It will be right and proper for our people to urge the committee to take speedy and favorable action upon this bill. No one can tell how much good a letter written to a member of the committee might do. Some of the members are from comparatively small states in the east, and they may well take into consideration the size of their own commonwealths in deciding what course to pursue in respect to the application of the proposed states for admission.

### POPULATION OF STATES.

Very few of the states had the population of New Mexico when admitted to statehood.

Ohio, when made a state in 1802, had 45,365 population. Kentucky was admitted in 1792 and had a population in 1800 of 73,670. Tennessee was admitted in 1796 and had in 1790 35,650 population.

When one of the original states,

South Carolina, was admitted, her population was about 24,000; Delaware, about 59,000; Georgia, about 82,548; Rhode Island about 68,000.

Vermont was admitted in 1791. Her population in 1790 was 85,425; area, 10,212 square miles.

The state of Illinois had in 1813 only 1,500 inhabitants. In 1818 she was admitted into the Union. In 1820 she had 55,600 population.

Indiana was a wilderness when it was admitted in 1816.

Wisconsin was almost an unbroken forest when made a state in 1848.

Michigan was admitted in 1837, and it had little more population than the city of Albuquerque and Bernalillo county.

Scratch, scratch, scratch: unable to attend to business during the day or sleep during the night. Itching piles, horrible plague. Doan's Ointment cures. Never fails. At any drug store, 50 cents.

### Court at Las Vegas.

The United States court at Las Vegas opened on Monday morning at 10 o'clock at the court house. Frank Carpenter was appointed court crier and H. E. Blake and Jose Felipe Montoya are bailiffs. M. Segura was appointed interpreter for the court and Benjamin Romero for the grand jury.

### Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive; the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at Cosmopolitan Pharmacy, B. Ruppe.

**JEMEZ HOT SPRINGS STAGE LINE.**  
Stage leaves Trimble's stable on Second street, every Tuesday, Thursday and Saturday at 6 a. m.; quick time. A relay of stock is kept at Zia. Arrives at the Springs in time for supper. Don't be deceived by people who tell you they will take you just as quick as the stage, for they won't. Nobody else has any change of stock on the route. Tickets for sale at Trimble's. J. B. BLOCK, Proprietor.

## More Harmful Than Alcohol

Overeating Worst Form of Intemperance.

If your food is indigested, you are underfed, no matter how much you eat. And the underfed man is, to the extent of the underfeeding, crippled for the battle of life. On the other hand, there is such a thing as overeating. The harm done by indigestion caused by overloaded stomachs exceeds that from the increased heart beats caused by the use of alcohol or whiskey.

Eat as much good food as you need but don't overload the stomach. If your stomach is weak it may refuse to digest what you eat. Then you ought to use a good digestant like Kodol Dyspepsia Cure, which digests what you eat without the stomach's aid. This rest and the wholesome tonics contained in Kodol Dyspepsia Cure soon restore health. You don't have to diet. Don't eat too much. That's harmful. But eat enough and of sufficient variety. Kodol Dyspepsia Cure will digest it. It quickly relieves the sensation of fullness and bloating from which some people suffer after meals. It prevents belching and absolutely cures indigestion and other stomach troubles. Equally good for children.

Lemuel James, Marysville, O., says: "I suffered from dyspepsia for thirty years but a few bottles of Kodol Dyspepsia Cure completely cured me and I heartily recommend it to all sufferers from this disease."

## HOSPITAL NOTES.

**Miss Daisy Weaver, a Trained Nurse, Dangerously Sick.**

Miss Daisy Weaver, a trained nurse, whose home is in Los Angeles, is at the Santa Fe hospital in a precarious condition. She is suffering from rheumatism which is complicated with heart trouble. Her recovery is almost impossible. Miss Weaver has been in the employ of the company at Winslow.

There have been no operations for several days and all cases are medical. J. H. Fanner was out driving yesterday, the first time since his recent severe illness.

## World Wide Reputation.

White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion, and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at Cosmopolitan Pharmacy, B. Ruppe.

## Police Court.

Six weary little boys were brought up before Judge Crawford this morning. Not one of them had a cent of money. They registered at the city hotel de bustle as follows: John Struck said that he was a miner from Colorado, carried a big ugly knife, got

sixty days in the county jail. When the judge gave him his time, he said: "Judge, I don't want the knife, you can have it."

Henry Weaver, blacksmith helper from Pueblo, ten days.

John King, asleep in box car, ten days.

Joe and Tom Curry, a hard luck story, bound for Frisco, ten days each.

T. Grady, working man, asleep in box car, discharged.

John Doe, disturbing the peace, \$5 or five days.

## The Most Common Ailment.

More people suffer from rheumatism than from any other ailment. This is wholly unnecessary, too, for a cure may be effected at a very small cost. G. W. Wescott, of Meadowdale, N. Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's Pain Balm and am pleased to say that it has cured me." For sale by all druggists.

## Salt River Reservoir.

Arthur P. Davis, of the geological survey, who undertook a scientific investigation of the Tonto Basin and Salt River reservoir a year ago, presented his report to the water storage commission in Phoenix, which was full of interest. He estimates the cost of the proposed dam at less than \$2,000,000, which is much less than had been counted on. The reduced cost is owing to his discovery of material on the ground for the manufacture of cement equal to the best Portland cement. The cement had been figured as the chief item of expense. His estimates call for a dam 247 feet high, with a thickness at the base of 164 feet. The dam will arch up stream and have a spillway cut through solid rock at each side. There will also be a bridge with roadway built along the dam, for the Globe-Payson road, as the lake will back up many miles and consequently cut off all communication between Globe and Tonto Basin points. Mr. Davis estimates the deposit of silt, taking last year's deposit as a basis, would require 1,500 years to fill up the lake.

## Reveals a Great Secret.

It is often asked how such startling cures, that puzzle the best physicians, are effected by Dr. King's New Discovery for Consumption. Here's the secret. It cuts out the phlegm and germ-infected mucus, and lets the life-giving oxygen enrich and vitalize the blood. It heals the inflamed, cough-throat and lungs. Hard colds and stubborn coughs soon yield to Dr. King's New Discovery, the most infallible remedy for all throat and lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at all druggists.

## A Snake Story.

A Tucson girl has cast up a snake. Her name is Martinez and she lives in an adobe cabin on the road near St. Mary's hospital. The girl is 8 years old.

For some time she complained of general sickness, particularly of nausea. The doctors treated her and all the ancient cures in the neighborhood tried the old cures, but in vain.

On Monday afternoon she was in a bad way and made several ineffectual efforts to vomit, though the desire possessed her strongly. After much retching accompanied by a choking sensation, there was an eruption, and a snake, surrounded by much phlegm, was cast up.

The reptile was alive and a fraction more than a foot in length. The snake lived in the open air for two hours. The girl is now all right seemingly.—Citizen.

## Sciatic Rheumatism Cured After Fourteen Years of Suffering.

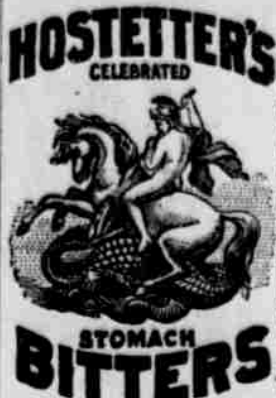

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by all druggists.

## A BIG DEAL PENDING.

O. P. Posey, of Cochiti Fame, Now  
at Kingman.

CAPITALISTS FROM FRANCE.

Oliver P. Posey, one of the big share-  
holders of the Gold Road mine, arrived  
in Kingman accompanied by three cap-  
italists from France, says the King-  
man Miner. The men continued on to  
Gold Road, where an examination will  
be made of the mines under the man-  
agement of Mr. Posey. If the mines  
come up to the representations a deal  
will be consummated that will neces-  
sitate the payment of about \$5,000,000.  
It is alleged. The Gold Road mine  
were discovered about two years ago  
and first passed to Los Angeles men  
for \$50,000 when but a ten foot hole  
had been sunk on veins. After the ex-  
penditure of a few thousand dollars  
the mines were sold to Posey and  
others for the sum of \$250,000. With  
the addition of another group of prop-  
erties the deal now in progress of in-  
cubation requires the payment of the  
largest sum of money ever paid for  
mining property in Arizona.

The probable sale of the Gold Road  
group of mines and the fact that the  
properties have already been passed  
upon by one of the best mining experts  
in the United States evidences the fact  
that the Gold Road country is recog-  
nized as one of the richest sections of  
the west. The Gold Road mine shows  
immense bodies of free milling gold  
ore that gives an average value of  
nearly \$20 to the ton. In the one mine  
alone it is estimated that there is more  
than \$1,000,000 in sight, while on the  
other properties the outcrop shows  
thousands of tons of good milling ore.  
The other additions to the groups are  
said to be even better than the Gold  
Road. The connecting mines of the  
group are being taken up under bond  
pending the settlement of the main  
points at issue between the sellers and  
the purchasers. These small prop-  
erties will pass for good sums of money  
each and will go into the group.

There is no doubt that Gold Road  
and surrounding camps will become  
the greatest producers of gold in the  
whole southwest within a year, even if  
the big deal is not pulled off. The  
mines are now in such an advanced  
state of development that the installa-  
tion of milling facilities will put them  
in line for the production of thousands  
of dollars monthly. Water can be  
readily had in the camp, while the  
river is but a few miles away. An elec-  
tric tram can easily be put in to con-  
vey the ore to the river in case it was  
found necessary to do so, or the in-  
stallation of an electrical transmission  
plant can be put in from a nearby point  
on the railroad. There are now many  
hundred locations in that district,  
many of which shows excellent values  
in the outcrop, and while some are  
small the high values they contain  
make them desirable as chloriding  
propositions. All along the west side  
of the mountain for twenty miles there  
is a veritable network of veins and all  
city values. When proper milling  
facilities are added to the camps prac-  
tically all these veins will be worked.

## THE TALK OF THE TOWN.

## Engagement of a Popular Actor.

Since the announcement has been  
made that Hennessy Leroy would  
play an engagement at the Colombo  
theatre on Monday, May 19, it has been  
the talk of the town, which would in-  
dicate that a splendid audience will  
greet this popular actor and his clever  
company. In "Other People's Money,"  
one of the greatest comedies of the  
age. None but a clever and intelligent  
company could present this comedy.  
The management has spared no ex-  
pense in securing the best, as will be  
seen by the names below, principally  
Miss May Sargent, late of Modjeska  
and Margaret Mather companies; Miss  
Gertrude Norman, the popular English  
actress; Ernest Schayer, of "The  
Christian" company; John Robinson,  
of Metropolitan reputation; Miss Leola  
Maye, Harold Linson, Fred C. Kaye,  
etc.

**JOE MULHATTON.**

The Champion Sensation Maker is Pronounced Safe.

It is stated that Joe Mulhatton, whose career as a colossal liar has had no equal since the days of Ananias, has been released from the insane asylum at Phoenix, Ariz. The invention of his fertile imagination in years gone by created excitement that extended around the world. One of the most sensational of these was a story of an immense meteor which fell in Brown county, Texas, which so alarmed the natives that they fled for other parts, leaving the county almost depopulated. Scientists, newspaper correspondents and curiosity seekers poured into the county by the train load. It did not take them long to discover that the story was a hoax, and that they had again been the victim of one of Mulhatton's prevarications.

On one occasion he had the entire negro population of the cotton producing region of the south on the verge of an uprising. While in the cotton belt he telegraphed the metropolitan dailies that a southern planter had imported a bunch of African monkeys and taught them to pick cotton. The experiment was reported a success and the planters all over the south were preparing to dispense with negro laborers for cotton picking and to substitute monkeys. The story found its way into the country papers of the south and "able" editors gravely declared that the negro's usefulness in gathering the "fleece" was ended. So great was the consternation among the sons of Ham, when it became rumored that their most remunerative occupation would be entered by monkeys, that it took months to restore quiet after the story was discovered to be nothing more than another creation of the vivid and effervescent imagination of Joe Mulhatton.

Mulhatton, it is said, made several thousand dollars in a mining deal, just before his incarceration in the asylum. The prosperity was too much for him, he became demented.

## NEW MEXICO TOWNS

### SANTA FE.

From the New Mexican.  
The infant son of Miguel Bernardi-nelli was buried this afternoon.  
The Pennsylvania club this morning received a car load of new furniture to fit up their club rooms.  
There are 243 convicts in the territorial penitentiary, 237 men and six women. They are all kept busy.  
Another very refreshing shower yesterday afternoon with a little hail, but not enough to cause any damage to the fruit trees.  
The Espanola valley has had an abundance of rain lately and the ranchmen are exultant over the outlook, which is very bright. The fruit trees have never looked finer than they do at present and a large crop is assured.  
Colonel W. H. W. James, of the United States army, came in this noon from Silver City, where he has been looking after his mining interests. He will go to Albuquerque tomorrow morning and from there to Las Vegas, Denver and Idaho.  
Sotero Martinez, who was shot on April 5th last on the south side, it is alleged, by Hilario Ortiz, died last night at 10 o'clock from the effects of the wound then received. A postmortem examination of the body will be held this afternoon at 3 o'clock, when the cause of his death will be officially determined by the physicians and thereafter by the coroner's jury.

### Cures When Doctors Fail.

Mrs. Frank Chasson, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, 50c bottle, at Cosmopolitan Pharmacy, B. Ruppe.

### SIERRA COUNTY.

#### Hillsboro.

Judge A. B. Elliott's favorite horse was bitten on the nose by a rattlesnake.  
The Sierra county bank has been improved by a fresh coat of plaster on its exterior surface.  
Mrs. Edna Hughes, who has been in San Francisco for the past two years, arrived here on a visit to her mother.  
The Chinaman sent down from Kingston to serve ten days in jail was discharged late last week. The celestial was so well pleased with jail that he protested being turned loose.  
The jury commission met and selected jurors for the coming term of district court. The commission consisted of F. A. Calhoun, J. M. Webster and Desiderio Tafuya.  
Ray Grayson, who went into the Mogollons after the Winston hold-ups, returned late last week. He did not find the men, who had several days the start for him. They went into Arizona.  
Bower & Orchard have a force of twelve or fourteen men working on the Dude mine on the Macho. They have their machinery all in place and have commenced sinking. They are working three shifts.  
"Doc" Stiver and "Sheaba" Hurst, who are the owners of several valuable mining claims in the Carpenter mining district, were in town. "Sheaba" is one of Mark Twain's famous characters in his "Roughing It," and is well known to all old timers in Nevada, Colorado and New Mexico.  
Probate court was in session Tuesday. Two estate cases were before the court, viz: Fred Price, deceased, and John W. Wilson, deceased. C. H. Laidlaw was appointed administrator of the estate of Henry C. Selverling, deceased, and L. W. Galles was appointed administrator of the estate of Mrs. Louisa J. Gentz, deceased.  
While workmen were excavating ground for the Hillsboro Gold Mining and Milling company's new mill, they cut an eighteen inch vein of very fine ore, the best of which it is estimated will go from \$200 to \$500 gold per ton. This vein runs parallel with the vein upon which the main shaft is located. Some fifty or seventy-five sacks of high grade ore has already been taken out.

#### Kingston.

Col. J. P. Parker, one of the lucky owners of the Lookout mine, and who has been in town the past few months surveying, has gone to Trujillo to look after his property. While absent, his cabin, which he left with persons of all kinds, has been pilfered.  
Carpenter mining district was well represented at Kingston Saturday. Mr. Stiver, Mr. Hurst, Mr. Daniels and Mr. Gray all being present. The roll call showed only one absent from the Kingston contingent. Franklin Pearce Spates, he being on the Big Chickee fishing when the boys took their departure.  
Messrs. Stiver and Hurst are now preparing to make a shipment of ore from their mines in Carpenter district. At present they will ship only nuggets. They propose to pack their ore to Santa Rita for treatment. The beautiful gold they have exhibited at various times justifies them in making a shipment as soon as possible, and Santa Rita being the nearest point, they will load a pack train with the precious for that historical point.  
Thos. Ashton, of Idaho Springs, Colorado, has been the guest of E. Bloodgood for a few days. Mr. Ashton is one of the old timers in Kingston and came down to look after his mining interests here. He has made arrangements to do some development work on his Yankee Girl claim, which he has owned for many years. He considers Kingston to have a bright future. His observation in traveling over the country from the Atlantic to the Pacific, is that the high grade silver camps of Lake Valley and Kingston are equal, when developed, to the high grade silver camps of Colorado, namely, Silver Plume and Aspen. He reports these two high grade silver districts, even at the present low price of silver, as being steady producers, and far outstripping any low grade gold camp he has visited during the past year.

As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by all druggists.

### FATHER HAGERTY COMING.

He Will Lecture at Colombo Hall To-Morrow Evening.

Father Thomas J. Hagerty, who will lecture tomorrow evening, will arrive this evening. Father Hagerty's subject will be "Economic Discontent and Its Remedy," and the lecture will be at Colombo hall under the auspices of the socialist club. A cornet solo will be given by George Leo Patterson.  
Father McGrady says, in the Cincinnati Commercial Tribune, that "Father Hagerty is the brightest young man that I ever met. He is a thorough master of eight languages and he is familiar with all the sciences and acquainted with the literature of all ages, and is conversant with every field of thought. Father Hagerty is the recognized leader of the labor movement in northern Texas, and with his marvelous gifts of learning and eloquence, he is consolidating the wage earners into serried phalanxes and ameliorating their condition."

#### A Handsome Sum.

Services will be held in St. John's Episcopal church on Sunday. Holy communion will be celebrated at 7 a. m. and morning prayer and sermon at 11.

Mr. Renison's trip east was a financial success and a handsome sum was added to the building fund. Mr. Renison will go east again in the fall as the financial year in the eastern churches is between October and April.

The cold storage plant at Las Vegas is nearing completion. It will be ready for business next month.

#### LIGHT "BOOZE."

##### Do You Drink It?

A minister's wife had quite a tussle with coffee and her experience is interesting. She says, "During the two years of my training as a nurse while on night duty I became addicted to coffee drinking, for between midnight and 4 in the morning, when the patients were asleep, there was little to do except make the rounds, and it was quite natural that I should want a good, hot cup of coffee about that time. It stimulated me and I could keep awake better.  
"After three or four years of coffee drinking I became a nervous wreck and thought that I simply could not live without my coffee. All this time I was subject to frequent bilious attacks, sometimes so severe as to keep me in bed for several days.  
"After being married Husband begged me to leave off coffee for he feared that it hurt me almost beyond repair, so I resolved to make an effort and release myself from the hurtful habit. I began taking Postum Food Coffee and for a few days felt the languid, tired feeling from the lack of the stimulant, but I liked the taste of the Postum and that answered for the breakfast beverage all right.  
"Finally I began to feel clearer headed and had steadier nerves. After a year's use of Postum I now feel like a new woman. Have not had any bilious attacks since I left off coffee."  
This lady requests that her name be kept from public print. Name given by Postum company, Battle Creek, Mich.

### ITALIAN MURDERED.

His Body Found in a Canyon Near Trinidad.

The Trinidad Chronicle-News says that the dead body of Sorio Pulambi, a Primo coal miner, was found about 3 o'clock this morning in a canyon between Segundo and Primo. He had been shot, there being a bullet hole through the head. The bullet, which was from about a thirty-eight calibre six shooter, entered the back of the head and near the right ear and came out the left ear.

The sheriff's office and coroner were notified and Undersheriff Kreeger and Coroner Sipe left for the scene of the crime before daylight. This afternoon the body of Pulambi was brought to the city by Undertaker E. J. Sipe. An hour or so later the undersheriff and Deputy Frank McPherson, of Primo, brought two Italians to the city and placed them in the county jail. The two men under arrest are believed to have murdered the man.

### Holds Up a Congressman.

"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-around medicine ever sold over a druggist's counter." Overworked, run-down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by all druggists.

### Board of Education.

In the proceedings of the territorial board of education held at the capitol on Saturday last and published in this paper on yesterday a serious omission was made. The name of Governor M. A. Otero, who is president of the board, and who was present and presided at the meeting, was omitted.

### Superstitious Navajoes.

Ashton Nebecker came in from Tuba City yesterday. He reports the killing of a Navajo Indian by another Navajo last week on the reservation. The Indian killed was said to have been a witch, and the tribe held him responsible for the continued drought in that section, and it is claimed that the sacrifice of the life of the sorcerer will bring rain, and they cite as an instance of how in the past a long drought was broken by sacrificing a missionary to appease the wrath of the rain god. It is probable that if the enchantment is not broken by the death of an Indian a missionary may be selected in the vain endeavor to secure the favor of the elusive rain god.—Flagstaff Sun.

### GOING WITH A RUSH.

A Big Force Employed in the New Shops at San Bernardino.

The site of the Santa Fe's new shops in San Bernardino, located in the vicinity of what was once Fourth street, is rapidly assuming the appearance of the busiest spot in this locality, says the Sun.

Lantry & Sons the contractors have begun work in earnest, and as many as eighty men are already at the site of operations, excavating, mixing concrete and laying the foundation work for the many new buildings to be erected. This labor, with few exceptions, is local, which means the dropping of a neat little sum into the town and its merchants. The men are paid all the way from \$1.75 to \$4.50 per day, from which it is estimated that the squad already employed lays claim to something like \$6,000 of the contractors money each month. And yet, as a foreman remarked yesterday, work has hardly begun. So far, 114 cubic yards of concrete has been laid, but this does not even finish the foundation of the big car shop which is the first building to be commenced.  
The surveyors are still busy driving stakes for the proposed departments, and laying lines for the many new tracks. Several temporary and possibly permanent transportation leads have been laid, one of them extending the full length of the yards, terminating at Mt. Vernon avenue.

S. H. Fine is now cashier at the Santa Fe Pacific depot, Flagstaff. Mr. Fine has served in that position before, and he has many friends who are pleased to see him again in his old capacity.  
A. L. Hall, A. B. Colts, H. L. Byrne, N. E. Sauer and Charles Ries, all of New York city, have incorporated the Williams & Cataract Canyon Railroad company, with a capital stock of \$3,

## Good Health

Is doubtless the highest human good. It is especially so to women, to whom it means the preservation of beauty, happiness in the home, and the enjoyment of social duties. There can be no good health for any woman who suffers from womanly diseases. Her complexion fails. Her flesh loses its firmness. Her eyes are dull. She has no home happiness, no social enjoyment.

Doctor Pierce's Favorite Prescription cures the diseases which destroy the health. It establishes regularity, dries disagreeable humors, heals inflammation and ulceration, and cures female weakness. It gives good health to women, which means tranquil nerves, a good appetite and sound sleep.

"I was a great sufferer two years ago with female trouble and I wrote to you for advice," says Mrs. Mattie Hays, of Tribulation, McDonald Co., Missouri. "You outlined a course of treatment for me. I followed your directions, and now feel like a different person. I never expected to hear from you when I wrote to you. In three days after I commenced taking your medicine I began to feel better. I took twenty dollars' worth of the 'Favorite Prescription' and Golden Medical Discovery. I bought it five dollars' worth at a time, and also four vials of Dr. Pierce's Pellets. I would not take one thousand dollars for the good the medicine has done me. I can't praise it enough. I wish all who suffer with such troubles would give Dr. Pierce's medicines a fair trial. I can work all day—doing anything, walk where I please, and feel good. Many thanks to you for your kind advice."

Dr. Pierce's Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

900,000. Ninety thousand dollars has been subscribed, \$87,000 of it being put to the credit of A. L. Hall. The purpose for which the corporation is formed, according to the articles of incorporation, is to construct and maintain a railroad "parallel with Cataract Creek, in the county of Coconino, Ariz., to the Colorado river," a distance of about ninety miles.

Like a Drowning Man.  
"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes George S. Marsh, well known attorney of Nocona, Texas. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. J. H. O'Reilly & Co.; B. H. Briggs & Co.

### RAILROAD NOTES.

George Zirhut has accepted an apprenticeship in the machine department of the local Santa Fe Pacific shops.  
Engine No. 663, which until about two weeks ago, has been on the siding for more than a month, is again ready for business, having received a new set of flues and a fresh coat of road. She will receive a trial today.  
S. D. Sanderson, millwright at the local Santa Fe Pacific shops, was busy yesterday installing a stationary hoist across the passage in the north side of the machine shops. The hoist is 28 feet long and will be used for carrying heavy irons to and from the boring machinery.

L. W. Gazen, foreman for L. L. Summers, contractor for the electrical improvements of the local Santa Fe Pacific shops is busy today overseeing the installing of a motor on the round house turntable. The power is a ten-horse power motor and will save the work of several men in the turning of the engines. It will probably be in working order tomorrow morning.

Whooping Cough.  
A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—Jessie Pinkey Hall, Springville, Ala. This remedy is for sale by all druggists.

## THE SURGEON'S KNIFE

Mrs. Eckis Stevenson of Salt Lake City Tells How Operations For Ovarian Troubles May Be Avoided.

"DEAR MRS. PINKHAM:—I suffered with inflammation of the ovaries and womb for over six years, enduring aches and pains which none can dream of but those who have had the same experience. Hundreds of dollars went to the doctor and the druggist. I was simply a walking medicine chest and a physical wreck. My sister residing in Ohio wrote me that she had been cured of womb trouble by using Lydia E. Pinkham's Vegetable Compound, and advised me to try it. I then discontinued all other medicines and gave my Vegetable Compound a thorough trial. Within four weeks nearly all pain had left me; I rarely had headaches, and my nerves were in a much better condition, and I was cured in three months, and this avoided a terrible surgical operation."—Mrs. ECKIS STEVENSON, 250 So. State St., Salt Lake City, Utah.—\$5000 forfeit if above testimonial is not genuine.

Of Phillipsburg, Mont., Tells How She Was Cured of Dandruff.

Mrs. Mary Gregovich of Phillipsburg, Mont., under date of November 26, 1899, writes: "I had typhoid fever this summer, consequently was losing my hair terribly and my head in places was perfectly bald. Newbro's Herpicide had just come into use in Phillipsburg and the doctor strongly recommended it to me. After three or four applications my hair stopped falling out and is coming in again quite thick. I used to be troubled greatly with dandruff of which I am now quite cured." ### For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

The Needles Eye says: Work on the round house is progressing nicely and rapidly. When completed, instead of fourteen, the round house will consist of thirty stalls. A large two-story fire house is nearly completed in which will be stored the hose, hose carts and other fire apparatus of the company, while the upper story will be used as bed rooms for the watchmen and engineers of the fire department. Excavation for the new stone store room has been commenced and the work will be pushed to completion. A dynamo will be soon generating electricity to light the yards, the shops and the buildings. Altogether the company will spend in improvements \$75,000 to \$100,000 at Needles. All of which goes to show that the shops and division point will soon be removed to Kingman.

### Won't Follow Advice After Paying For It.

In a recent article a prominent physician says: "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by all druggists.

Engineer Tom Gallagher and wife, of Needles, have gone to the Brotherhood of Locomotive Engineers convention in Virginia. Tom will return when his labors are concluded at the convention, but Mrs. Gallagher will visit Wisconsin, where she will remain until the heated term is over.

### Wants Others to Know.

"I have used DeWitt's Little Early Risener for constipation and torpid liver and they are all right. I am glad to endorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills. J. H. For the month of April, forty-five roads earned \$38,888,367, an increase of \$3,630,237 over the \$35,258,130 reported for the month of April, 1901.

### Dangerous if Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Tarty, Yanketown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. J. H. O'Reilly & Co.; B. H. ### Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J. H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." J. H. O'Reilly & Co.; B. H. Briggs & Co.

Charles Allen, a mining man from El Paso, passed through White Oaks, en route to the Jicarilla mining district.

### CLOUDCROFT

The Roof Garden of the Southwest.

The season at Cloudcroft will open on June 1, the lodge, dining hall and lunch counter having been placed under the able management of the popular hotel proprietor and manager, Geo. Waterman.

The fame of Cloudcroft as the premier summer resort of the southwest has been heralded far and wide, and patrons may rest assured its reputation will not be allowed to suffer this year. Extensive improvements have been made in the way of accommodations and out door as well as indoor amusements and entertainment.

For a booklet regarding Cloudcroft, or further information regarding this summer resort, call on nearest coupon ticket agent, or address:

### Business Opening, \$5,000.

Here is a chance for some one to purchase a well established and very profitable business in a first class mining town in Arizona at a bargain. It is about a \$5,000 proposition, including fine up to date stock, three lots, large storeroom with cement, stable five-room dwelling house, finely furnished, etc.; monthly sales, \$2,750; mostly cash; terms easy; death of wife and child of proprietor reason for selling. At a glance it will be seen that this is a rare chance to make an exceptionally good investment. For full particulars and terms, address or see H. S. Knight at once, Albuquerque, New Mexico.

Deming ships over 100,000 head of cattle annually; is the center of the greatest breeding region in the southwest and cattle men all know this.

# SSS SKIN DISEASES

The skin is provided with millions of little pores and glands invisible to the natural eye, yet through these tiny outlets the larger part of the deadly matter that daily collects in the body is carried off. But nature never intended that poisons of an irritating or acid character should be eliminated through the skin, the Liver and Kidneys being their natural outlets, and it is when these important organs fail to perform their functions that these acid poisons are absorbed into the blood and find their way to the surface of the body through the pores and glands of the skin, producing intense itching and burning, inflammation and swelling, and eruptions of every conceivable size, shape and character.

Skin Diseases differ greatly in their general characteristics and degrees of intensity. Red and angry looking spots break out upon some part of the body with a mass of small pustules or blisters, from which is discharged a clear or straw colored fluid, which dries and flakes off in bran-like particles and scales, or forms into hard and painful sores and scabs. The skin often hardens and dries, cracks and bleeds from the effects of the fiery acids, which the blood is continually throwing off. Pimples, blackheads and blotches are evidences of a too acid blood, which has become inflamed and clogged the pores.

Skin Diseases being dependent upon the same causes require the same treatment, which must be constitutional and not external. Nothing applied locally to the inflamed surface can bring much relief. The disfiguring eruptions will continue to annoy and pain you in spite of soaps, washes or powders. There is no hope of getting rid of a skin disease except through the purification of the depreciated blood and neutralizing and filtering out of the circulation all poisonous substances and acids.

The purifying and tonic properties of S. S. S. soon manifest their influence in skin affections; the debilitated system is invigorated and toned up, and the gradual disappearance of the eruptions show that the polluted blood is being brought back to its natural purity and strength. Old chronic skin disorders, which have resisted all the ordinary methods of treatment, readily yield to the curative powers of S. S. S., and there is no reason why the long time sufferer should feel resigned to his fate under the mistaken idea that some skin diseases are incurable, for S. S. S. has cured and is still curing cases perhaps far more desperate than yours. S. S. S. is a purely vegetable remedy, containing no Potash, Arsenic or any of the poisonous drugs which constitute the basis of so many so-called skin cures.

Our Medical Department has been of the greatest assistance to thousands seeking relief from blood and skin troubles. Write us fully about your case, and our physicians will help you, for which no charge whatever is made. Our illustrated Book on Skin Diseases will be sent free to all who write for it.
