DEPARTMENT COMMANDER JOHN R. MCFIE

The department commander is Judge John R. McFie, of Santa Fe, who is now serving his third term as associate justice of the supreme court. No other New Mexico judge has ever been thus honored. Fortunately, the honor came to Judge McFie in just recognition of his ability and integrity which is recognized alike by republicans and democrats of this territory.

The story of Judge McFie's life is an interesting one; it is an inspiration to the young men of today struggling for success in life. John and Elizabeth (Borland) McFie, the parents of Judge McFie, came to America in 1845 and located in Washington county, Ill. The elder McFie taught school until a serious illness at the end of four years resulted in his death in 1862. Judge McFie was the seventh of eight children, three sons and five daughters.

He attended the public schools of Illinois, and was given private instruction by his father until the breaking out of the civil war when he was seized with the desire to enter the army. He enlisted in every company that was organized where he lived, but being a mere boy of 16 years, the father, who had become an invalid, refused to grant permission for the boy to go to the front. But the father died in 1862, and in the following year Judge McFie enlisted in company E, Thirtieth regiment of Illinois volunteer infantry, his mother giving her consent to his enlistment. The regiment being on furlough, however, the youthful recruit was not mustered in until February, 1864, at Camp Butler, Ill. He marched with Sherman to the sea, served to the close of the war and was mustered out in June, 1865, receiving an honorable discharge. After the war, the future judge became a clerk in a store and afterward became a partner in the business, but having a desire to study law, after a few years, he sold out and studied under the Hon. J. Blackburn Jones. In 1870, Judge McFie was admitted to the bar of Illinois. He took an active part in the political struggles of the day as a republican, and his ability in that direction was recognized by his election to the thirty-first Illinois legislative assembly in which he seconded the nomination of General John A. Logan to the United States senate. He was again elected to the thirty-third legislative assembly and voted for Shelby M. Culom as United States senator.

Ben Kemmerer, company B, Forty-fifth Pennsylvania volunteer infantry.

W. H. Burke, company K, Eleventh Illinois volunteer infantry.

B. G. Somers, company F, Fifteenth Vermont volunteer infantry.

W. T. Strain, company C, One Hundred and Forty-first Illinois volunteer infantry.

SANTOS DUMONT HERE.

Will Discuss Airships for the St. Louis Exposition.

New York, April 10.—Alberto Santos Dumont, builder and navigator of airships, arrived here today on the steamer Deutschland. He has come to discuss plans for the exhibition of aerial navigation with the managers of the St. Louis exposition and will be in this country three weeks.

That he might be prepared for a visit this summer he has shipped his latest built airship—number 7—to this country and will have it made ready for use. He will do no flying during his present visit to this country.

Judge and Mrs. McFie came to Las Cruces in 1884, where Judge McFie served as register of the United States land office until December 17, 1885. In January, 1886, he formed a law partnership with the late Judge Simon B. Newcomb. This partnership was dissolved in March, 1889, when Judge McFie was appointed associate justice of the supreme court of New Mexico by President Harrison. He served four years, during which time only two of his decisions were reversed by a higher tribunal. He returned to his law practice, but was again appointed associate justice by President McKinley in December, 1897, and was reappointed last month by President Roosevelt upon his record alone and before he had transmitted his application to Washington.

Judge McFie is serving his second consecutive term as commander of the department of New Mexico of the Grand Army of the Republic, and is a past grand of the Odd Fellows. He is a faithful member of the Presbyterian church, and his ability, probity and genial ways are recognized and cherished alike in church, society and in public life.

On his birthday anniversary, October 3, 1876, Judge McFie married Miss Mary Steel, a school teacher, daughter of Matthew Steel, one of the pioneer settlers of St. Louis, Mo. Their married life is an ideal one and they find their greatest happiness in their home and children, although Mrs. McFie as well as the judge take a prominent part in the social life of the territorial capital and are leaders in many a public movement.

Ralph McFie, the oldest son of Judge and Mrs. McFie, though still young in years, is a veteran of the Spanish-American war, having fought with the Rough Riders on San Juan hill and in the other battles before Santiago de Cuba. At present he holds the important position of clerk in one of the district courts of the Philippine islands, bidding fair to follow in the footsteps of his father. Miss McFie, the oldest daughter, is a student at the New Mexico College of Agriculture and Mechanical Arts. John, Jr., Mary and Teo, the younger children, are at home.

The McFies have a pretty home in Las Cruces, but for the past five years have been honored residents of Santa Fe, which hopes to retain them for many years to come.

The flames forced the rioters to retire.

Another mob proceeded to the Northern Railroad station, where it collided with the police. Revolver shots were exchanged and the rioters seized a policeman, beat him until he was unconscious and left him bleeding on the ground. After many rioters had been wounded the mobs dispersed.

The civic guards of La Louviere, where buildings were dynamited last night, have been reinforced by mounted chasseurs. A dynamite outrage has been committed at Houdeng Almerias, in the province of Helnaut, Cartridges were exploded outside the Catholic club which was partially wrecked.

A great telephone combination is the latest big scheme in the east. It may seem at first sight that a monopoly of that kind could not very well be maintained, because it does not require much capital to supply an ordinary town with a telephone system. Ex-United States Senator E. G. Ross, of this city, is one of the oldest veterans of the civil war in this territory. He is in his 76th year. He enlisted as a private in the Eleventh Kansas regiment, and rose to the position of major by distinguished service. He participated in several important battles, the principal one being that of Prairie Grove, in southern Missouri.

STATEHOOD BILL DELAYED.
A Washington dispatch to the St. Louis Globe-Democrat says that Speaker Henderson has changed front again on the question of consideration of the bill admitting Oklahoma, Arizona and New Mexico to statehood. Last week he said that he would allow the bill to be called up as a privileged motion, instead of fixing a day for its consideration. The bill is now on the calendar as privileged, and today a movement was started by the delegates from the three territories to have it called up tomorrow ahead of the Cuban reciprocity bill. While the matter was under consideration the speaker sent for Mr. Knox, chairman of the house committee on territories, and announced that he had decided to fix a date for the consideration of the bill. He will announce the date in a few days, and assured Mr. Knox that the bill would be considered in ample time to have it sent to the senate without danger of having it killed there for lack of time for its discussion at the present session. Chairman Knox informed the speaker that a sufficient number of votes had been pledged to secure the passage of the bill by a good majority.

PHILIPPINE FORESTS.
The special report of the forestry bureau of the Philippine islands, in charge of Captain George P. Ahern, Ninth United States infantry, gives a very thorough account of the timber lands of the group, the character of the timber and the regulations in force governing wood cutting on public and unregistered lands. These regulations were inherited from the Spaniards and have been adopted with little change by the present Philippine authorities. The archipelago contains 50,000,000 acres of public forest land. In these forests are found from 400 to 500 varieties of native trees. Many of them are of practically no commercial value in the islands, because they fail to resist the ravages of the white ant after felling and are incapable of resisting the damaging effects of the climate. These objections do not apply to them, however, for export to the United States, where they would doubtless be of great value for manufacturing purposes. Comparatively small areas of the forest lands of the islands have passed into private possession. The religious orders claim an aggregate of about 400,000 acres, and the holdings of other private parties will not exceed 600,000 acres additional. The United States has inaugurated a system of scientific exploitation of the public forest lands, and it is seeking trained foresters for the purpose in Germany, India and Java.

Business Opening, \$5,000.
Here is a chance for some one to purchase a well established and very profitable business in a first class mining town in Arizona at a bargain. It is about a \$5,000 proposition, including fine up to date stock, three lots, large storeroom with cellar, stable, five-room dwelling house, finely furnished, etc.; monthly sales, \$2,750, mostly cash; terms easy; death of wife and child of proprietor reason for selling. At a glance it will be seen that this is a rare chance to make an exceptionally good investment, or full particulars and terms, address or see H. S. Knight at once, Albuquerque, New Mexico.

WHY HE DELAYS.

Reasons Given By Mr. McCaffrey for Not Having Come to Las Vegas. P. W. McCaffrey, vice president and manager of the Union Ore Extraction & Reduction company of Denver, writes to J. Joquel, of Las Vegas, explaining the reason of his non-arrival in Las Vegas, though expected there for some days. He says: "I have been unable to leave for Las Vegas owing to having appointments here which have been made since wiring you. We are shipping 300 tons of ore from Riverside, Colo. The party is desirous of erecting a plant which I have had to pass upon and it has occupied my time; as also a cutting of description of property and contemplated plant near Buena Vista. I expect, however, to leave here immediately at the conclusion of certain negotiations now pending for construction of plant in Colorado."

UNDER TWO FLAGS.

William H. Norris Served the United States and France.

SAW MAXAMILLIAN SHOT.

A most remarkable and picturesque military career, including hard service and many fights under the flags of the United States and France, winning two medals for bravery from the empire of Mexico and witnessing the execution of Maximilian, is that of William H. Norris, a Santa Fe engineer, who lives at 309 South Broadway. Mr. Norris' life story reads like a novel.

He entered service in the civil war as a private in the First New York volunteer infantry from New York city on April 22, 1861. His first fight was the battle of Big Bethel under General Butler and his second fight was when the Merrimack sunk the Cumberland and the Congress at Newport News. Mr. Norris distinguished himself at this famous fight. When the Cumberland was sunk, Lieutenant Murray and a part of the crew ran up the rigging, which was projecting above the water. Mr. Norris secured a bateau and, rowing out, rescued Lieutenant Murray and eight sailors. Others then followed

million was shot on the July 19 following.

The execution was witnessed by Mr. Norris. All prisoners were marched out and compelled to witness the scene. At the same time General Tomas Mejir, under whom Mr. Norris served, and General Maron, were shot. One of Mr. Norris' most valued possessions is an autograph letter from General Mejir.

Mr. Norris left Mexico in September, 1867, and walked from Cordova to Camargo, where he crossed the river and went to Brownsville, Texas. He secured a position in the customs house and was then made city marshal. He came to Albuquerque in 1880 and has since been on the Santa Fe Pacific and is a wonderfully robust man for one who has had such experiences. Mr. Norris was the first engineer on the Atlanta & Pacific that train robbers held up. On January 17, 1888, his train was ditched by robbers and Mr. Norris went back eleven miles to secure help.

Mr. Norris has two medals of which he is very proud. One is a bronze medal of the empire of Mexico awarded him for bravery at the siege of Matamoros in holding a fort against heavy odds. One side is the head of Maximilian and on the other "Al Merito Militar." The medal of greatest value and one which is elaborate in design and was rarely given, is the cross of Guadalupe. It is of gold and is inlaid with enamel. This was given for exceptional bravery in the capture of Sol de Rito.

Better Than Pills.

The question has been asked, "In what way are Chamberlain's Stomach and Liver Tablets superior to pills?" Our answer is: They are easier and more pleasant to take, more gentle and mild in effect and more reliable as they can always be depended upon. Then they cleanse and invigorate the stomach and leave the bowels in a natural condition, while pills are more harsh in effect and their use is often followed by constipation. For sale by all druggists.

BAD CHARACTER MURDERED.

Porfirio Trujillo Found Dead with His Head Crushed By an Axe.

Word was received in the city this morning that Porfirio Trujillo had been murdered at Lower Rociada, says the Las Vegas Optic. Inquiry brought out the following facts: Porfirio had been heavily drinking for some days and lying around Rociada. Two days ago he quarreled with his wife, who fled from her home, through fear of him, and took refuge with the family of her father, one Ortiz, at Lower Rociada. Trujillo hunted for her and yesterday afternoon learned of her whereabouts. Late in the day he was seen entering Ortiz's house, which was the last time he was seen alive, except by those who killed him.

This morning early, a laborer going to his work, saw Trujillo lying in the middle of the plaza of Lower Rociada, but supposed him to be drunk, and reported to a relative of Trujillo's, telling him that Porfirio was lying in the plaza, without a hat, and evidently very much under the influence of liquor. When the relative went to take Trujillo in charge, it was at once seen that he was dead and had been so for some hours. Death had come from the crushing of the head by some blunt instrument, such as the end of an axe. Sheriff Cleofes Romero was telephoned to come to Rociada, and left for that place about 10 o'clock this morning. At this writing he has not returned.

Thus has passed away one of the worst characters and one of the most all round criminals San Miguel county ever knew. He was suspected of participating in the murder of Henry Goke's freighters, he turned state's evidence against the other murderers of old man Stutzman. He was notorious for his thieving, and at the time of his death was under bond on the charge of horse stealing. He was about 30 years of age, and fully fifteen of those years were spent in crimes of diversified character.

There is little regret at his taking off; but still a cold-blooded murder such as his killing seems to have been, should be traced down and the perpetrators brought to justice.

At the El Porvenir coal mine, San Miguel county, things are developing nicely. They have struck a 12½-inch vein of soft coal and a vein of 18-inch

He is Called to Larger Field of Usefulness.

Tomorrow evening Rabbi Jacobs, of Temple Albert, will preach his farewell sermon in Albuquerque. He will take charge of a large congregation in Huntsville, Alabama.

The leaving of Rabbi Jacobs is a matter of regret to the people of this city. He came to Albuquerque on September 3, 1900, and has helped build up membership of fifty in his congregation. The Jewish temple on West Gold avenue has been embellished within under his faithful care. During these two years Rabbi Jacobs has tried to broaden the souls of men in the higher things in life and to bring them closer together despite differences of creed, preaching the doctrine of the universal brotherhood of man. The members of his congregation were brought nearer to a true understanding of their religion and their God.

Rabbi Jacobs was born in London, December 31, 1876. He came to Chicago a child and there received his earlier public school education. At the age of 15 he left Chicago for Cincinnati, Ohio, and entered the Hebrew Theological seminary there, to take up the study of the ministry. During the time he attended the Hebrew college, a period of eight years, he also attended the high school and then the University of Cincinnati, from which he graduated in June, 1900, with the B. A. degree, and also took there the Jones prize for oratory. After graduating from the Hebrew college with the degree of rabbi and from the Cincinnati university he was elected rabbi of Temple Albert of Albuquerque. And now, after a very pleasant stay of nearly two years, he leaves to take charge of a large congregation in Huntsville, Alabama. On Friday night will be his last service here and he would like very much to see all his friends in Albuquerque turn out so he can bid them farewell.

New Masonic Organization.

Tomorrow, in this city, there will be a grand chapter of the Eastern Star lodges in New Mexico organized. Mrs. M. C. Hart, of San Antonio, Texas, grand worthy matron of the United States, will be present to superintend the organization. This will give a new Mexico four grand Masonic lodges, namely, the grand lodge, the grand chapter of the Royal Arch, the grand commandery of Knights Templar, and the grand chapter of Eastern Star.

The Optic says quite a number of members of the Las Vegas lodge of the Eastern Star will attend the organization of the grand chapter here. Rev. Selby, Mrs. I. D. Webb, Mrs. M. R. Williams, Mrs. Snyder, Mrs. Peterson and Mr. and Mrs. Benedict are scheduled to attend from Las Vegas.

PUSHING AHEAD.

Prospects Bright for the Silver City Reduction Plant.

Special to The Citizen.
Silver City, N. M., April 10.—The company which is being organized of the prominent business men and mining men of Silver City and the adjacent territory to erect a reduction plant here, is being rapidly pushed ahead. The committee of eleven of the well-known business and mining men of this section, which were appointed as a committee at the mass meeting the other day, are working hard in getting the project in definite shape. They are at the present time busily gathering data in regard to the cost of the erection of a smelting, concentrating and leaching plant in this city; railroad transportation; mill sites; water supply; sale of products; ores and cost of transportation of the products of the mills; and also into some definite arrangement to organize on a good solid financial footing.

Mayor J. W. Fleming, who was selected as chairman of the committee, states that at the meeting the other day there were over 200 of the most influential men of the section of the territory in attendance, who were all very enthusiastic in the enterprise. From the present indication there is no doubt but that the amount of capital which would be required to erect the mills can be readily raised in Silver City and surrounding mining country. While the amount that would be required would be very large, the reputation of the vast mineral resources of Grant county and available mineral supply for mills located in Silver City will greatly increase the easiness of raising the capital.

Mining men who have visited this section from the east in recent years are well informed of the vast deposits of mineral wealth of all kinds of metals which lies around Silver City, which will greatly encourage the undertaking.

The committee who have the enterprise in charge have designated the compact as the Silver City Co-operative Smelting & Refining company until organization can be duly effected.

WATT FOUND GUILTY.

Charged With Stealing a Coat From Grant Hall.

This afternoon the five men charged with the murder of Placido Salazar were taken before Judge Baker as examining magistrate for preliminary examination.

Alexander Watt was on trial all morning charged with stealing a coat and scarf which belonged to Miss Sadie Jaffa, of Trinidad, from Grant hall during a dance. Watt and a companion named Green were drinking heavily about the time the goods were stolen but they claim they found the goods in an uncompleted house on Fourth street. They acknowledged pawning it at a saloon for \$2. This afternoon Watt was found guilty.

Ramon and Luis Rodriguez were convicted of uttering false checks. Luis found a bunch of checks belonging to M. T. Anderson which he returned to him. Anderson lost three in addition and months later Luis made two unsuccessful attempts to pass a check purporting to have been signed by Anderson. The defendants claimed to have cashed the checks for an Arabian peddler.

Back From Oil Fields.
R. J. Turnbull, one of the directors of the Mannelito Oil company, operating near Gallup, came in from the west this morning, and he confirms the recent report to the effect that a fair flow of oil had been encountered. He says the drill has now gone through the oil sand to a depth of sixteen feet, and he predicts the next strata will produce a greater flow of oil. There is considerable excitement at Gallup on account of the oil strike, and Mr. Turnbull has been convinced, after the ground had been looked over by several well known oil experts, that a genuine gusher will be brought in before the drill goes 200 feet more through the shale.

Don't neglect coughs and colds even if it is spring. Such cases often result seriously at this season just because people are careless. A dose of One Minute Cough Cure will remove all danger. Absolutely safe. Acts at once. Sure cure for coughs, colds, croup, grip, bronchitis, and other throat and lung troubles. "I have used One Minute Cough Cure several years," says Postmaster C. O. Dreadful Attack of Whooping Cough. Mrs. Ellen Harrison, of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Alvarado Pharmacy.

The brick pavement which should have been laid around the Old Palace last October according to assurances of Land Commissioner A. A. Koon, custodian of the building, awaits the pleasure of the penitentiary authorities who will get at it as soon as they have the men and brick to spare.

Abbott, is in Santa Fe on business with Governor Otero. He is accompanied by his stenographer, Watt McHenry.

At the penitentiary a new electric circuit has been completed. Incandescent lights will be placed on the walls of the institution and will be burned all night, which will make any attempts of escape at night time even more difficult than at present. The penitentiary will present a beautiful sight after dark with its powerful searchlights and a ring of incandescent lights around it.

St. John's Methodist Episcopal church and parsonage on San Francisco street were sold to Rev. Thomas Harwood, of Albuquerque, superintendent of Spanish Methodist Episcopal missions in New Mexico, for \$700 and other valuable considerations. St. John's congregation will move out this fall, when its new church on Don Gaspar avenue is to be completed. The next conference of the Spanish New Mexico missions will appoint a resident pastor for Santa Fe.

The board of trustees of the Presbyterian church held a meeting at which the newly elected trustees, J. A. Wood and John H. Walker, took their seats, succeeding F. P. Crichton and C. L. Bishop. George W. Knaebel was elected president and treasurer, Alan McCord, secretary, and J. A. Wood vice president. A committee of the whole was appointed to draft suitable resolutions of thanks to the board of home missions, for the support given the congregation for many years.

Cyanide Plant Projected.

A large transfer of property was made over in the Bonito country whereby the Eagle Mining company of Parsons City comes into possession of every mining claim, water right and homestead on the Bonito from Parsons

nearly down to Angus. This action was made necessary as the plans of that company anticipate the erection of an enormous cyanide plant for treating low grade ores, and in order to operate this plant it would take a large amount of water from the Bonito which when turned back would be poisonous. Such a course would have met with opposition of people on the creek below, as depriving them of water would have rendered their lands worthless. To overcome this Manager Rice purchased all the property below the site. Immediately after the purchase the manager, accompanied by H. B. Hamilton, the attorney, left for Chicago to consult with the company in regard to future operations.

The Great Dismal Swamp Of Virginia is a breeding ground of malaria germs. So is low, wet or marshy ground everywhere. These germs cause weakness, chills and fever, aches in the bones and muscles, and may induce dangerous maladies. But Electric Bitters never fail to destroy them and malaria troubles. They will surely prevent typhoid. "We tried many remedies for malaria and stomach and liver troubles," writes John Charleston of Byessville, Ohio, "but never found anything quite so good as Electric Bitters." Try them. Only 50 cents at all druggists. Guaranteed satisfaction.

"It would not heal and gave me much trouble. I used all kinds of remedies to no purpose until I tried DeWitt's Witch Hazel Salve. A few boxes completely cured me." J. H. O'Reilly & Co., B. H. Briggs & Co.

FOUNDER OF THE G. A. R.

A Monument in Washington in Memory of Benjamin F. Stephenson.

The unveiling of a statue of Benjamin F. Stephenson, founder of the Grand Army of the Republic, will probably be one of the features of the campaign next October. The senate committee on the library yesterday reported a joint resolution granting permission for the erection in Washington of a monument of the late commander. The resolutions have already passed the house.

James H. Webb, of Brooklyn, N. Y., a prominent Grand Army man, was in the city several weeks ago in conference with the officers of the encampment in regard to the statue of General Stephenson, and it is proposed to begin work on the monument as soon as possible, so as to have it completed in time for the reunion. The statue and pedestal will cost not less than \$15,000 and will be presented to the people of the United States by the Grand Army of the Republic. The joint resolution provides that the statue may be erected on any of the public reservations other than the grounds of the capitol or the library of congress.—Washington Post.

FOOD DOES IT. Restores Health More Surely Than Any Medicine. It is a short road to trouble when the food does not supply the right material to rebuild the brain. You can't use the brain without breaking down small particles every day, and you cannot rebuild unless the food furnishes the right kind of material, and that is albumen and phosphate of potash. Not such as you get from the druggist but such as nature stores in certain kinds of food.

Grape-Nuts contains these particles and well defined results can be obtained from using the toothsome, delicious food.

A brain worker whose name can be given by the Postum Co., Battle Creek, Mich., writes: "Last year I got in a desperate condition through excessive mental work and lack of proper food. I was finally compelled to abandon all business and seek absolute quiet and rest in the country."

I had been under the care of a good physician for several months, but it seemed my food did not rebuild the brain tissue properly. I was on the verge of despair when I left for the country.

Down at the ferry I purchased an evening Journal and my attention was attracted to the headlines of a Grape-Nut advertisement which read "Food Nature's Way." I read it carefully and decided to give Grape-Nuts a trial, so the next morning I went in on the new food and in two weeks time gained ten pounds and felt like a new man all over.

I candidly believe if I had known the remarkable sustaining power of the food prior to my illness I would not have needed a physician nor would I have been sick at all."

Hope for Consumptives

A POSITIVE CURE FOUND BY A CELEBRATED MICHIGAN PHYSICIAN.

He Send a Trial Package Free With Full Information How to Quickly Cure Consumption in Your Own Home.

For years physicians and scientists have sought a positive cure for consumption, the one stubborn disease which has defied the skill of all to check its course of death, even in a single case.

DR. DERK P. YONKERMAN.

At last a cure has been found. Incredible as it may seem, after the centuries of failure, a positive and certain cure for the deadly consumption has at last been discovered. It remained for a great physician of Michigan to find the only known cure for consumption, after almost a life's work spent in experimenting and study.

Dr. Derk P. Yonkerman, the discoverer of this great remedy, sought to destroy the germ that causes consumption. By destroying the germ in the blood, the cause is removed and a speedy, permanent cure is soon effected.

Consumption has claimed more lives than any other disease. Smallpox, yellow fever, cholera and other contagious diseases have caused more terror and more pain, but consumption is always with us. Tuberculosis, as this great remedy is known, acts greatly upon the diseased germs in the blood. It kills all impurities and nature rebuilds the body to its intended proportion. Tuberculosis turns the wheezy cough to a full toned, resonant voice. It transforms the skeleton to the robustness of perfect health.

If you are a sufferer from lung or throat trouble do not fail to take Tuberculosis. Consumptives who have returned from the west—came home to die because they thought nothing could be done with them—have taken Tuberculosis and are now well and strong.

Tuberculosis will cure the worst case of consumption. If you are afflicted with throat or lung trouble do not fail to send at once to Dr. Derk P. Yonkerman, 282 Shakespear building, Kalamazoo, Mich., for a free trial package and proofs and testimonials. It costs nothing. The doctor does not ask anyone to take his word or anyone else's. He sends you a package free and a few days use will show you how easily and quickly you can be cured. Dr. Yonkerman will give you case his personal attention. Delay is dangerous. There is no time to lose when the death hand of consumption is tightening its clutch upon you. Write today.

ARMJO CAPTURED.

Found at Patterson's Ranch, 125 Miles From Socorro.

Juan Armijo, who is supposed to have been the man who used the knife when Placido Sandoval was murdered, was captured Monday at Patterson's ranch, 125 miles west of Socorro. Sheriff Blackington, of Socorro, and a posse which includes two Navajo Indian trappers, struck Armijo's trail a week ago near Los Lentos. Armijo had borrowed a horse on the strength of a story that his sister was seriously ill and he traveled at a rapid rate, borrowing other horses, riding them down and then discarding them. On Monday he was overtaken at Patterson's ranch and was brought back to the railroad and reached Socorro yesterday.

Sheriff Blackington and Deputies brought the prisoner to Albuquerque this morning.

Itching piles? Never mind if physicians have failed to cure you. Try Doan's Ointment. No failure there. 50 cents, at any drug store.

Her Son's Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"A neighbor ran in with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when my son was suffering with severe cramps and was given up as beyond hope by my regular physician, who stands high in his profession. After administering three doses of it, my son regained consciousness and recovered entirely within twenty-four hours," says Mrs. Mary Haller, of Mt. Crawford, Va. This remedy is for sale by all druggists.

The Webb special train, after a tour of Mexico, passed through the city last night.

Quinliven & Norton have been awarded the contract for furnishing ties for the Santa Fe Central which is building from Santa Fe to Torrance. While Jack Donahue is attending court as a witness in the old town, Joseph Harrison, a freight conductor, is temporarily handling Donahue's passenger run between this city and El Paso.

J. E. Saint, secretary of the Albuquerque Eastern and Santa Fe Central railways, passed through the city last night on his way to El Paso, and thence to Torrance, the junction of the Santa Fe Central with the El Paso-Rock Island road.

The usual spring shipments of stock over the Mexican Central road will probably start in on the 15th, at the rate of about a train load a day. The Santa Fe company is making elaborate preparations for the lively movement of these cattle.

At the annual election of the Houston & Texas Central C. H. Tweed of New York was elected president and C. C. Markham vice president and executive. The old directors headed by E. H. Harriman were re-elected with the exception of J. H. Locke, who was replaced by W. J. Chew.

The supreme court of Colorado has decided that the Postal Telegraph company may construct lines along the right of way of the Union Pacific railroad. The Union Pacific company and the Western Union Telegraph company had resisted the application of the Postal company for right of way.

The San Francisco Examiner says that before the end of the present week, deeds will be placed on record at Matine, Contra Costa county, conveying to the Southern Pacific company a right of way to the water front at Point Richmond, which is the present terminus of the Santa Fe road.

F. T. Dolan, brother of the day ticket agent at the local depot, G. B. Dolan, arrived here last night, accompanied by his wife and son. His mother and sister have been in this city for some time, and they will return to Chicago with Mr. Dolan. The gentleman is the popular superintendent of the Chicago division of the Santa Fe.

American methods are illustrated by the fact that while 100 tons is a load for an English freight train, an average load on one of our railroads last year was 540 tons. On two British railroads it costs from 48½ cents to \$1.35 to move a ton of freight one mile, while the cost on a leading New York road is 23½ cents a mile.

It is announced at Guthrie, Oklahoma, that the Rock Island will enter the field at once with an extension of its line from Enid to Guthrie, thus winning out over the Frisco, Choctaw and Fort Smith & Western in their proposed extensions from Guthrie to Enid, which is considered the most important gap yet unconnected in Oklahoma.

The St. Louis & San Francisco company has filed with the governor of Oklahoma an application for the appointment of appraisers by him to assess the damages done by the company in constructing its Blackwell, Enid & Southwestern line from Hatt, Okla., to the Red river, through several hundred acres of territorial school lands.

John Morgan, the Postal telegraph operator at Barstow, was killed recently by falling from the bridge that spans the Mojave river just west of Barstow. The telegraph wires and cross arms are attached to the uprights on the bridge, and while reaching over to grasp one of the wires Morgan lost his balance and plunged over the side of the bridge. His neck was broken by the force of the fall and death was instantaneous.

There will probably be a change of time on the Santa Fe railway on June 1. Train No. 1 from the east will stop for dinner at Albuquerque. Breakfast is to be taken at Las Vegas. Mail train No. 7 from the east will be at Albuquerque for supper and at Las Vegas for dinner. The California flyer is to run twice a week instead of daily. By next fall a train is to be put on between Chicago and Los Angeles that will be the most luxuriously equipped train in the world. The fare to be charged is to be double first class, and only fifty persons will be taken on each train. If these changes go into effect it will make considerable change in the arrival and departure of mails in this city. The Harvey eating station at Lamy may be discontinued. Meetings of the division superintendents of all the divisions of the Santa Fe proper will be held in Topeka from day to day, beginning May 12, for the purpose of stringing the new card. At the same time the division superintendents of the coast lines will be meeting at Los Angeles, Cal., for the purpose of making a new time card for the lines west of Albuquerque.

SEVERE MEASURES.

An Incident of the Civil War in New Mexico.

DESERTIONS WERE STOPPED.

In the winter of 1862 and 1863 there were quartered at La Mesilla, New Mexico, some 2,500 California troops, both infantry and cavalry. Quite a number of desertions had taken place and the commanding officer, Col. West, had got tired of it. A private soldier by the name of Clifford deserted and was caught and placed in arms. A sergeant in company K by the name of Miller was in charge of the guard. Some way the irons were got off from the prisoner and he got away. Then the commanding officer placed Sergeant Miller in irons in the guard house. Now, when a non-commissioned officer commits any misdemeanor he should be placed under arrest in his quarters, but the commander thought different and kept Miller in irons. Then Miller's company kicked right then and there. The first rash act was to refuse to drill unless the irons were taken off of Miller.

Capt. N. S. Davis was away at Santa Fe, and the commander of company K was Lieutenant Pattice. Every man had laid down his gun but one and that man walked with his musket on his shoulder up and down where the muskets were stacked. He was jeered by the whole company, and called a coward, but he said, "I came as a soldier, and I am ready to drill and obey orders."

Then a corporal by the name of Smith took the lead. He said he would not drill or do duty until the irons were knocked off from Sergeant Miller. It had got to be about 10 o'clock a. m., when the long roll was beat. Lieutenant Pattice was ordered to march his company without arms out upon the parade ground. Company A was placed right to the left of them, company E to the right, company D right in front, and all the cavalry were in line on horseback just back of each company of infantry. The colonel rode up sabre drawn, and asked: "Is there any soldier who refuses to drill or do duty?"

Corporal Smith said: "I will not drill until the irons are knocked off from Sergeant Miller."

"Then you march out there in front," and Smith took his place like a soldier. The colonel then ordered him to take off his hat. He obeyed. Then the colonel ordered Captain Smith, of company D, to swing his company around, that brought a clear space up the street and Smith standing alone with hat in hand. Then Colonel West rode up to Smith and asked: "Will you go on duty?" and Smith's reply was not until the irons were knocked off from Sergeant Miller.

Then the colonel turned to Captain Mitchell and said, "Shoot that man."

The captain said, "Load, ready, aim, fire!" Smith stood unhurt—the company had shot high.

The colonel then rode up again to Smith and said, "Will you go on duty?" and Smith's reply was "Not until the irons are knocked off from Sergeant Miller."

Then the colonel said, "Captain Mitchell said, 'Captain Mitchell shoot that man,' and the captain ordered, 'Load, ready, aim, fire!' but Smith stood unhurt, the balls had gone on each side of him."

The first volley had killed a man of company A, who was cooking for Colonel West, by accident, and had shot a government wagon full of holes, and had killed a team in the street and shot a woman's leg off.

By that time the colonel was rousing mad. He rode up behind the company and said: "Load, ready, aim, down with your guns—down I say, or I'll split you with my sabre. Now fire!" and Smith fell with a bullet in his chest.

He raised on his hand and knee, swung his hat and said, "Don't go to duty boys until the irons are knocked off from Sergeant Miller," then fell and died.

The colonel then rode up to Lieutenant Pattice and said: "Will you go to duty?"

The lieutenant said: "I never have refused to go to duty."

Then he rode up to each any every one, stuck his sabre against his breast and asked the same question, and everyone said "Yes." Then he ordered all out for drill, and until sundown we drilled all that long day. No one dared to kick. Then he formed us on the parade ground and made this speech:

"Soldiers, I want you to know that there has been over fifty desertions here in the face of the enemy, and I am in command. The first man who refuses to do his duty, his doom is sealed."

And you can bet your life that everyone of us were good soldiers after that.

Lieut. Dick Hudson, William McCormick and La Point, of Las Cruces, were there, and plenty more that can substantiate these facts.

Now I will add that Colonel West was promoted and if I remember right gave old Pop Price a whipping somewhere in the southwest, but lost his arm in the fight.

I tell this story as near as I can remember it.—C. W. Stocking, in Copper Era.

Chronic Bronchitis Cured.

"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Joseph Coffman, of Montmorenci, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and all with satisfaction." Alvarado Pharmacy.
