IN CHARLESTON.

President Roosevelt Enjoys His Vacation.

Railroad Train and Street Car Collide.

Senate is Still Discussing the Chinese Exclusion Act.

SNOW AT PITTSBURG.

Charleston, April 8.—The special train bearing the president and party arrived at 10:30 this morning. The members of the party left the train, however, five miles from the city and took special trolley cars direct for the hotel, where they boarded a revenue cutter for a tour of the harbor.

President Roosevelt seemed in high spirits when he returned from the trip about the bay. This evening a banquet given by the city in honor of the president, will be held at the Charleston hotel. While this is in progress, Mrs. Roosevelt will receive at the St. Johns. Five hundred invitations have been issued for this function and no men will be present. Tomorrow at 10 o'clock the parade will move to the exposition grounds where the formal ceremonies will be held and the president will present a sword to Major Mich Jenkins. Tomorrow afternoon the president's party will go to Summerville and spend Thursday there, inspecting the tea garden. A great crowd of people is in the city and much enthusiasm is shown over the presence of the president.

NARROW ESCAPE.

Street Car Ran into a Santa Fe Passenger Train.

Joliet, April 8.—Scores of lives were endangered early today in a collision between a street car and a Santa Fe passenger train. Henry Muff, motor man, was badly hurt and may die. The car had about 75 workmen aboard. The airbrakes failed to work and the car crashed into the passenger train which was slowly pulling into the depot at Cass street. The force of the collision knocked the passenger coach from the track and demolished the street car. Nine passengers were seriously hurt.

CHINESE EXCLUSION.

Twenty Prominent Business Men of San Francisco Protest.

Washington, April 8.—At the opening of the senate today President Pro Tem Frye laid before the senate a telegram signed by Claus Spreckles and about twenty other business men of San Francisco, protesting against the passage of the Chinese exclusion bill in its present form. It said the provisions of the measure would act as gross injustice.

Mr. Cullom said a new treaty could be entered into with China and legislation enacted to exclude the Chinese. If China declined to enter into a new treaty the United States would be justified in passing such legislation as it might choose. He conceded the right of congress to abrogate treaties by legislation, but urged such action should be taken only in exceptional cases. It was unnecessary, in the present situation, to pass such a law as proposed.

Mr. Patterson, of Colorado, made a strong appeal for the enactment of the present Chinese exclusion law and refuted the arguments that had been made by those who said the treaty was sufficient protection.

STILL THE BEAUTIFUL.

Seven Inches of Snow Fell at Pittsburg Today.

Pittsburg, April 8.—Snow has been falling steadily since 8 o'clock last night and at 10 o'clock this morning there were over seven inches on a level. It is the heaviest April snowfall in eleven years, and trolley, telegraph and telephone service has been much impeded.

CHINESE REVOLT.

They Object to Paying the Heavy Indemnity Taxes.

Tien Tsin, April 8.—Three thousand Chinese troops and a number of Krupp guns have been dispatched to Southern Mongolia, where the people are in revolt against the severe indemnity taxation. Several villages have been strongly fortified and the inhabitants are determined to fight. They say they are assured of assistance by 30,000 disaffected persons.

BRILLIANT DANCE.

Delightful Affair at the Home of Mr. and Mrs. Grunsfeld.

A brilliant and most enjoyable house warming in the nature of a dancing party was given last night by Mr. and Mrs. Alfred Grunsfeld and Mr. and Mrs. Ivan Grunsfeld at the elegant home of the former. The warm evening made it delightful to dance with windows and doors open. Four large rooms on the ground floor were used for dancing and carpets rugs and furniture were removed so the dancers could have full sway. A perfectly polished floor and the music of Prof. Di

Mauro and Miss Hanthorn combined to make dancing unusually attractive. Evergreen and cut flowers were the floral decorations and the affair was one of the most delightful affairs of the season.

Those present were Mr. and Mrs. Alfred Grunsfeld, Mr. and Mrs. Ivan Grunsfeld, Dr. and Mrs. J. H. Pearce, Mr. and Mrs. R. E. Putney, Mrs. Lockwood, Messrs. and Mesdames G. L. Brooks, Felix Lester, Harry Lee, F. H. Kent, E. L. Medler, Mrs. C. H. Young, Jas. Grunsfeld, F. H. Strong, Mrs. Mabel Himoe, Misses Mabel Fitch, Jettie and Alma Rosenwald, Mamie and Freda Barth, Mandell, Eupheme Neuson, Ste. a Lewinson, Jeannette Walton, Carrie Titus, Nell Flournoy, Sadie Jaffa, Messrs. Weiller, Julius Kalter, Sydney Rosenwald, Seymour Lewinson, Sol. Benjamin, A. L. Frost, E. J. Alger, Louis Brooks, T. N. Wilkerson, J. H. Paxton, E. G. Abrahams, A. Faber, Walter Jaffa, Harry Myers, Ben Jaffa.

Boston Wool.

Boston, April 8.—The strike in the woolen mills is practically paralyzing the wool market. Trade is very dull and prices in some instances show weakening tendency. Territory wools very quiet. Fine territory wools are quoted at 48@50 cents with fine medium 43@45 cents on scoured basis. Market for fleece wools is so dull it is scarcely possible to give quotations.

SANTA FE SHOOTING.

Mysterious Shooting of Sotero Martinez Last Saturday Evening.

ATTORNEY ORTIZ ACCUSED.

A mysterious shooting affair occurred on Saturday evening near the Guadalupe church in which Sotero Martinez was wounded, probably fatally, says the New Mexican. Martinez is said to have been intoxicated when shot and accused City Attorney Hilario L. Ortiz of having shot him, but later withdrew the accusation. The shooting was done, it seems with a 22-caliber revolver and the shot entered Martinez's chin, ranged downward through the throat and entered his lungs. After being shot, Martinez ran to the house of his brother-in-law, Simon Arias. A physician was sent for, but refused to come. In the meantime, H. L. Ortiz and several others arrived and cleaned and dressed temporarily Martinez's wound and then took him in a cab to the office of Dr. J. M. Diaz.

The following is the story of the shooting as told by H. L. Ortiz this morning: "I had been to the postoffice and was on my way home on the Agua Fria road on the south side. While I was down town, I saw Sotero Martinez bearded drunk enter a saloon. On my way home, at the Galisteo street bridge, Bernardo Rivera caught up to me and we walked together down De Vargas street. Near the Guadalupe church we heard a shot in back of us coming from between the house of Luciano Baca and Cecilliano Borrego. Immediately after the shot came a yell: 'Don't shoot, for God's sake, I am Sotero Martinez.' Some one was then heard running along the river bed at top speed. We hurried down to the river bed from Guadalupe church. 'Who's shot, I asked as I saw a dark figure running near the old Frank Chavez saw mill. But there was no answer and the figure was soon out of sight. We then returned to the street and saw three men ahead. We walked up to them and found they were Juanito Herrera, Esteban Lujan and another man. We asked them who had fired a shot, but they said that they did not know and that it apparently came from across the river. They had also seen a man running along the river bed. We then went to the house of Simon Arias, thinking that Martinez had probably gone there. We found him there bleeding severely. I asked him: 'Sotero, who shot you?' He answered: 'I thought you did, for I recognized your voice and you were coming toward me with another man.' 'Was there any trouble between you and I?' He replied: 'Never, in the world.' Ortiz then asked to search him, but those present refused to do so until Earl Lamberson arrived with a hack and searched Ortiz.

At the office of Dr. Diaz, Martinez said: "I only accused Ortiz because I heard his voice as I ran past him and he asked: 'Who's shot?' Later Martinez denied that Ortiz had shot him and refused to make a statement to District Attorney E. C. Abbott. He also refused to bring complaint against Ortiz because he was uncertain as to who shot him.

Dr. Diaz believes that Martinez's wound was made either with heavy buckshot or with a small caliber revolver. Ortiz is a total abstainer and was of course, perfectly sober on Saturday evening. He never carries a revolver. Martinez is known as a reliable, hard working, inoffensive man. He is about 45 years of age and married. Bernardo Rivera tells virtually the same story as Ortiz. No arrest has been made as yet.

This afternoon Martinez was reported as somewhat improved and that he was a fighting chance to recover. District Attorney E. C. Abbott will spare no means to get at the bottom of the mysterious shooting.

Merging Case Monday.

Washington, April 8.—The United States supreme court today decided to hear arguments next Monday, upon the application of the State of Washington to take jurisdiction in the case of the Northern Pacific and Great Northern merger.

BROKE HIS LEG.

Revolver Fell to the Floor.

Governor Dockery Stands by the Mule.

General MacArthur Says the Philippines are Unexcelled.

BANK ROBBERS CAUGHT.

Special to The Citizen.
Cerrillos, N. M., April 8.—Andrew Watts, of the Colorado and New Mexico Leasing and Mining company, which is operating at the Gypsy Queen mine, near Golden, spent Sunday in town, returning this morning. Upon entering his cabin at the mine he unbuckled his cartridge belt and by accident it fell to the floor. His revolver exploded, the ball striking his right leg above the ankle, breaking both bones. He immediately returned to Cerrillos and is now under the surgeon's care. Scarlet fever has broken out at Madrid and it is feared is spreading. The site of the postoffice has been temporarily changed on account of it.

DOCKERY IS THRIFTY.

Governor of Missouri Stands up for the Mule.
Jefferson City, April 8.—Governor Dockery's attention was called today to the alleged British war supply camp at Lathrop, Mo. The governor said he knew nothing about the operations of the British there, other than a market has been operated at Lathrop by private individuals for the past ten years. He says it is the largest horse and mule market in the world and supplies the United States government as well as the British government with horses and mules.

MACARTHUR TALKS.

Tells the Senate Committee About the Philippine Islands.

Washington, April 8.—General MacArthur today continued his testimony concerning conditions in the Philippine Archipelago before the senate committee on Philippines. His discussion at the beginning of the session was devoted to a review of conditions which led up to the present state of mind of the Filipino people. He also described conditions in the archipelago at the time of American occupation, saying at that time the Filipinos were in a vindictive and resentful mood toward Spain with a yearning for liberty. Taking these conditions into account and also giving due heed to the character of the people, he had felt when he assumed command in the islands, there was to be found the most fertile soil for planting the best type of republican institutions. General MacArthur then took up and discussed economic conditions in the archipelago, saying they are the finest group of islands in the world, occupying a strategic position absolutely unexcelled.

Robbers Caught.

Fowler, Col., April 8.—Hannahan and Scanlan charged with robbing the bank here were brought from Pueblo this morning. When arranged Hannahan pleaded guilty and Scanlan not guilty. He was bound over in a thousand dollars bail. There were taken to the La Junta county jail.

SCHOOL BOARD.

Preliminary Steps Taken for Enlarging the School Buildings.

The city board of education last evening at its regular meeting considered an elaborate report regarding the proposed enlargements of the school buildings. The committee was instructed to make a contract with an architect for plans and specifications for the additions. It is expected the buildings will be completed by fall.

President Hopkins was appointed a special committee to investigate the bond question and report at the next meeting.

The enrollment during March was 1,317 and the schools were reported to be in good condition. A number of applications for the position of superintendent and as teachers were referred to the teachers committee.

There is a balance on hand of \$1,090.43 and 250 feet of hose was ordered purchased for watering trees. The board will meet on Saturday night at 7 o'clock.

Committee Embarrassed.

The committee of arrangements for the camp fire on Thursday evening desire to announce they have no desire to slight any old soldiers, or soldiers' widows or children of soldiers, but such an interest has been awakened in the matter that the committee is somewhat at wits end. The camp fire has reached such dimensions that the committee hardly knows what to do. It wishes to do all possible to satisfy ev-

eryone and make all have a pleasant time but it is impossible to invite whole families, children and all, simply because there is no room for them. The committee regrets this as, if there was room, it would like to have them present.

NEW OFFICERS.

Election of Epworth League of the Lead Avenue Methodist Episcopal Church.

At the regular business meeting of the Epworth League of the Lead Avenue Methodist church on Monday evening, the following officers were elected for the ensuing six months:

President—Charles W. Jack.
First vice president—Dr. P. C. Cleverton.
Second vice president—Miss Anna Coltrane.
Third vice president—Miss Elizabeth Hughes.
Fourth vice president—J. B. Fish.
Treasurer—W. Carter Nedham.
Secretary—Miss Gertrude E. Leckley.
Chorister—Sidney Houghton.
Organist—Miss Laura Conley.

Lord Kimberly Dead.
London, April 8.—Lord Kimberly, the liberal statesman who has been ill for some time past, died this afternoon.

WINDING UP BUSINESS.

Old Council Cleans Up the Odds and Ends.

ADJOURNED FOR ONE WEEK.

The last full meeting of the present city council was held last night and business was closed up. The most important action taken was the adoption of the report of the special committee on the Albuquerque water supply, which will be found in full in another column.

The ordinance levying the yearly tax assessment on city property for city purposes contains a levy of one mill for the purpose of forming a fund to build a city hall on the lots owned by the city at the corner of Second street and Tijeras road. The levy will yield a revenue of about \$2,000 annually. The total for the year is not increased as reduction in interest demands permits this levy. The levy is:

	Mills.
For general city purposes.....	8.743
For maintenance, improvement and care of public parks within city limits.....	.500
For maintenance and conduct of free public library.....	.500
For interest on \$50,000 sewer bonds refunded 4's.....	.300
For interest on refunding bonds, 4's.....	.720
For interest on refunding bonds, 5's.....	1.600
For interest on viaduct bonds, 5's.....	.037
For construction of city hall.....	1.000
Total.....	14.000

Among the many bills was one from the Santa Fe Railroad company giving in detail the cost of the Coal avenue viaduct and showing the amount due from the city \$4,342.99. An unusual bill was one for \$11 from Bachechi & Gloml. When Enrique Callejo was stricken with epilepsy he was carried to a room over their store. In his violent struggles he destroyed a bed, pillow and case, blankets, sheets, etc., for which the firm think the city should pay.

The report of the city marshal for March showed:
Arrests made.....118
Meals served.....382
Fines collected.....\$510.00
Office expense.....50
Total paid treasurer.....\$509.50

The report of the city treasurer showed:
Receipts.....\$13,592.01
Disbursements.....2,474.30
Balance.....11,117.71

On the fund to pay for new fire apparatus \$350 has been collected. Liquor and other licenses were issued during the month amounting to \$509.50. The claim of J. Badaracco against the city was settled for \$63 and the pay roll of city officers amounting to \$2,098.70 and of the fire department for \$587.34 for the quarter ending March 1 were ordered paid.

The special committee on sewer system agreed that the present system is inadequate but under the laws can see no way to remedy it.

The members and city officers were given tickets to the annual campfire on Thursday evening.

The council adjourned until Monday evening, when the new officers will take hold.

No Information.

London, April 8.—After the cabinet meeting today, A. J. Balfour, government leader, informed the Liberal leader, Sir Henry Campbell-Bannerman in the house of commons that the government had no important information regarding the peace negotiations in South Africa.

Mrs. Lula Tingley and Miss Glennie Norris, daughters of Capt. W. H. Norris, were out driving this morning on South Third street and in crossing the bridge over the "city ditch" the horse broke through one of the planks, badly skinning its front legs. The animal pulled itself out by sheer force. It was a narrow escape—that is, had the horse's legs been broken the city would have had a damage suit on its hands.

POPE APPOINTED.

Philippine Judgeship Accepted by Him.

Full Vote Polled at Kansas City.

House in a Battle Royal Over Cuban Reciprocity.

EXPORTS TO CUBA.

Santa Fe, N. M., April 8.—William H. Pope of Atlanta, Ga., for the past eight years a resident of Santa Fe, as United States attorney, of the Pueblo Indians and assistant United States attorney in the court of private land claims, today accepted the judgeship in the court of first instance in the Philippine Islands, tendered him by Governor Taft. He will sail in June. He is a gold democrat, aged 31.

KANSAS CITY ELECTION.

Almost the Total Registered Vote Will be Polled.

Kansas City, April 8.—The bright weather brought out an early vote here and the indications are almost the total registered vote will be polled. Considerable interest is being shown but there is no excitement. Mayor James L. Reed, democrat, is up for reelection and J. J. Green heads the republican ticket. The socialists and prohibitionists also have full tickets.

A BATTLE ROYAL.

House is Battling Over the Cuban Reciprocity Bill.

Washington, April 8.—The debate upon the Cuban reciprocity bill opened in the house today. There was much activity among the leaders on both sides in anticipation of the coming battle and when the house was called to order at noon the attendance of members was unusually large. The battle began as soon as the bill was called. Mr. Tawney of Minnesota, demanded to know upon what theory the bill was privileged. Mr. Payne replied the bill was one affecting revenue and the speaker sustained that view. Thereupon Mr. Robertson of Louisiana raised the point of order the bill did not come within the purview of the rule. It was contended it was supposed to authorize reciprocal trade relations with Cuba—that it was not a bill to raise or reduce revenue and not amendable as such.

Speaker Henderson held under a long line of precedents the bill was privileged. Mr. Newlands of Nevada attempted to secure a ruling by the chair upon the question whether amendments affecting a general reduction of the tariff would be in order but the speaker declined to rule upon a question not before the house. Mr. Robertson attempted to propose a proposition as to the length of the general debate but Mr. Payne cut him off with a demand for "regular order." The first test of strength came upon the motion to go into a committee of the whole. The motion was carried by 177 to 80.

Exports to Cuba.

Washington, April 8.—Mr. Payne said in the house today the United States exports to Cuba amount to \$200,000,000. While he did not want Cuba annexed he believed in time she would be a part of the United States.

The Poet Corrected.

The great and mighty poet on the Journal-Democrat, who recently startled the people by making an appointment with a "girl with a red rose" that never met him "at the gate" as the "sun went down" has again distinguished himself and of course has to be corrected. Hear him bark:

The best known bit of verse in the English language is probably this:

Thirty days hath November,
April, June and September;
February hath XXVIII, alone,
And all the rest have XXXI.

Yet not one man in a hundred thousand knows the author. He was Richard Grafton, one of the first of the English publishers, the man who bought out "The Great Bible" (Matthews). A New York firm of publishers has recently taken the name, "The Grafton Press."

The correction is as follows; look up the author:

Thirty days hath September,
April, June and November;
All the rest have thirty-one,
Except February alone,
Which makes it fine
Until Leap Year which gives it 29.

Father and Son Veterans.

G. K. Warren post, G. A. R., had a moving meeting last night. The coming encampment has caused a great boom in the membership. Seven were taken in last night and among them were a father 82 years old, and his son 57 years old. Their name is Hanson and they came here a few weeks ago from Massachusetts.

Berry-Swift.

There was a quiet wedding at the Methodist parsonage this morning

when Charles H. Berry, of Las Vegas, and Miss Gertrude Swift, of Los Angeles, Cal., were married by Rev. C. A. Bunker. Mr. Berry is agent of the Continental fruit express and he and his bride met here this morning.

MAJOR PRUDEN ILL.

Familiar White House Figure Can Not Long Survive.

Washington, April 8.—Major O. L. Pruden, assistant secretary to the president, today was removed to Garfield hospital for treatment of organic heart trouble. He is in a dangerous condition and it is believed he cannot survive very long.

A Pathetic Funeral.

This morning the funeral of Enrique Callejo, the Mexican who died of epilepsy Saturday morning and about whom there is so much mystery, was held at Immaculate Conception church. The members of the Mexican and Italian bands with which he played escorted the remains to the cemetery. The funeral procession was pathetic in its simplicity, only the united bands and the undertaker wagon being present. No reply was received to the telegrams sent to Mexico.

Dr. Seward Webb, with a party of friends, is expected here Wednesday night on a special train, after a tour of Mexico and the southwest country.

OFFICIAL MATTERS.

Notary Public Appointed--Territorial Funds--New Incorporations.

LAND OFFICE BUSINESS.

Governor Otero appointed Eusebio Chacon, of Las Vegas, a notary public.

Territorial Funds.

Territorial Treasurer J. H. Vaughn received from John E. Griffith, clerk of the Fifth judicial district, \$240.70 fees for the quarter ending March 30.

Land Office Business.

Homestead Entries—April 5: Teofilo Ulibarri, Puerto de Luna, 165.48 acres, Guadalupe county. April 7: Charles M. Cordova, Sanchez, 160 acres, San Miguel county.

Pensions Granted.

Ramon Dominguez Vigil and John F. Wielandy, of Santa Fe, have had their pensions increased to \$10 a month. Julianita Montoya Hays, of Las Vegas, has been granted a pension of \$8 a month.

Incorporations.

The Congregation Albert of Albuquerque filed incorporation papers. The incorporators are Berthold Spitz, Ivan Grunsfeld, Sidney N. Rosenwald, David Weinman, Alfred Grunsfeld, Berthold Fleischer, J. A. Weinman and Solomon Weiller.

The B. O. B. Mining company, operating in the Mogollon district, Socorro county, filed an amendment to its incorporation papers, increasing its capital to \$600,000, divided into 600,000 shares. The capital actually paid in is \$300,000 and the liabilities are \$32,000.

RAILROAD NOTES.

A. G. Wells, general manager of the coast lines, and I. L. Hibbard, the division superintendent, were west bound passengers last night.

After a stay of a day or two at La Vegas, where he visited the railway hospital, Doctor Saylin, of the local railway hospital, returned to the city last night.

The local railway hospital, on south Broadway, will be materially enlarged. The additions will be two stories in height, the foundations for which were commenced today.

H. R. Nickerson, general superintendent of the Mexican Central, in car No. 15, passed up the road this morning. He will stop over at Las Vegas hot springs for a few days.

C. M. Taylor, the popular railroad official, with headquarters at La Junta, was a north bound passenger yesterday. D. Patterson, division master mechanic, was also a passenger going north to Raton.

Paul Morton, second vice president of the Santa Fe, with other officials, passed through the city this morning in special car No. 218 bound for Chicago, after an official visit to the Grand Canyon of the Colorado and southern California.

Foreman Geigoldt and force of the painting department of the local shops are busy these days making everything look bright with new paint in and around the local shops. Today they are painting on a light blue color on the house surrounding the electric engines.

Last night O. A. Matson met at the local depot J. E. Baxter and entertained the gentleman between trains. Mr. Baxter was formerly traveling auditor for the Santa Fe Pacific. He is now traveling accountant for the general auditing department at Chicago, and left last night for San Francisco.

Rev. Thomas Harwood, the superintendent of Spanish missions of the Methodist Episcopal church in New Mexico and Arizona, was a passenger for Santa Fe this morning. He will be absent several days. Mr. Harwood is kept almost constantly on the road, having returned only a few days ago from an extended mission tour to points in southern New Mexico and Arizona.

There are very few "knockers" in
Albuquerque.

At least five miles of new sidewalk
should be built in this city this year.

No one west of the Mississippi river,
whose time is worth anything, reads a
New York daily paper.

The vacant lot speculator should at
least be compelled to build a good
sidewalk in front of his property.

Citizens of the town of New Britain,
Conn., have taken out 1,447 patents,
which is about three times the average
for that inventive state.

The products of home manufactur-
ers should always receive the prefer-
ence of purchasers, especially when
quality and price are right.

The people of this city are determin-
ed to make the territorial fair next
fall the largest and best exhibition
ever held in the southwest.

Majorities are brutal at best. The
republican party of this city can well
afford to be generous, having a major-
ity over both the minority parties.

Delegate Rodey is making a splendid
record at Washington, and he will be
renominated next fall by the republic-
ans and reelected by an increased
majority.

Sportsmen say that since the passage
of the law restricting the killing of
deer and forbidding the killing of an-
telope, both of these animals are rap-
idly multiplying in this territory.

The Pueblo Chieftain says that the
iron ore does not all come from Villa
Grove. Fierro camp, New Mexico,
sent up twenty-eight carloads of iron
ore for Pueblo in one day recently.

The San Juan Index says that the
people of New Mexico are proud of the
penitentiary. It probably means the
management of the institution. The
people would have reason to be much
prouder if the penitentiary was not
needed.

Good beef cattle are not quite worth
their weight in silver, but the rate at
which they are advancing is alike
alarming to the consumer and gratify-
ing to the farmer. It ought to encour-
age the growing of domestic animals of
all kinds all over the west.

A. C. Vorhees, the republican leader
at Raton, writes that it was the sewer
issue that won the republican victory
in that city. Abe does not say so, but
it is supposed that the idea is to put
the democratic party in the new sewer
which is being built in that prosperous
city.

This is the season for planting trees.
No better legacy can be left to future
generations than an abundance of
shade trees about our parks, streets
and private residences. The cost and
work of planting trees is small com-
pared with the benefits to be derived
from them later on.

Three hundred trusts have been or-
ganized in Germany during the past
few years. The policy of the govern-
ment of that country is to encourage
such combinations, the assumption be-
ing that they stimulate production and
that the consuming population benefits
in consequence.

In his gift to education Cecil Rhodes
left a greater monument than that to
be erected on the Matopos hills. Over
250 pupils, perpetually, will receive a

university education from his endow-
ment fund, forming an army of learn-
ing that will give a good account of it-
self in the English speaking world.

There are 6,219 associations of the
Young Men's Christian association, of
which 1,476 are in North America. The
total membership in North America is
268,477. They occupy 391 buildings of
their own, valued at \$21,445,415, and
have 682 libraries, containing 523,215
volumes. The founder of the Y. M. C. A.
is George Williams, of London,
England. The first organization was
in 1844, in London.

SUCCESSFUL FACTORY.

The briquet plant manufactured by
the Lannon company for the C. F. & I.
company, for use in New Mexico,
seems to be a great success. "Camp
and Plant" says of it: "The new bri-
quet plant for the manufacture of bri-
quets or bricks from the refuse coal
of the mines, mixed with coal tar pro-
ducts, is situated half a mile outside of
Gallup. The present capacity is 100
tons a day. For steam purposes these
bricks are said to be as good fuel as
the best anthracite coal and are more
easily handled. The briquets intended
for household use contain less tar than
those used for steam purposes, but are
equally as efficient, being cleaner and
more convenient than the best lump
coal."

CUBAN STATISTICS.

The value of merchandise imported
into Cuba during the ten months en-
ded October 31, 1901, was \$54,694,227,
as against \$55,149,199 for the corre-
sponding period of 1900; and the ex-
ports of merchandise during the ten
months ended October 31, 1901, amount-
ed to \$56,045,400, as against \$41,331,234
for the same period of 1900. These
figures show a comparatively slight
difference in the imports, but an in-
crease of 36 per cent in the exports.

The value of merchandise coming
from the United States for the ten
months ended October 31, 1901, was
\$23,004,651, a decrease of \$861,347, as
compared with the corresponding peri-
od of 1900, while the exports for the
period of 1901 amounted to \$43,651,344;
an increase of \$14,335,719 over 1900.
Agricultural exports for the periods
mentioned show an increase of \$13,-
985,882 over 1900, the exportation dur-
ing the ten months of 1901 amounting
to \$42,744,134.

Manufacturing increased from \$10,-
013,988 in 1900 to \$10,529,231 in 1901,
while products of the mines and for-
ests show an increase in favor of the
ten months of 1901.

VAST EMPIRES.

A Washington correspondent fur-
nishes the New York Tribune with
some facts concerning the population,
wealth and industries of Arizona, Okla-
homa and New Mexico which consti-
tute strong reasons for their admission
to statehood. Arizona has a population
of 175,000, covers an area as large
nearly as all New England and New
York combined, possesses taxable prop-
erty worth \$200,000,000 and has the
richest mines on earth. Oklahoma
has 500,000 inhabitants, raises and ex-
ports more live stock and farm prod-
ucts than any other equal area of the
United States and has as fine cities and
towns within her borders and as good
a system of public schools as can be
found in many of the states. New
Mexico has a population of 330,000
American citizens, taxable property
worth \$300,000,000, an equal area to all
of the New England states, New York
and New Jersey combined, is second in
the nation as a cattle grower, first in
the amount of money it has invested in
public buildings per capita, first in the
non-sectarian public school buildings
which it possesses per capita and an-
nually spent in the education of the
children. The San Francisco Chroni-
cle says that these facts ought to com-
mend themselves to the favorable con-
sideration of congress and induce it
to pass enabling acts for the admission
of all three territories to statehood.

OF UNTOLD VALUE.

The information contained in this
Gentleman's Statement is priceless.

The hale, hearty, strong can
afford to toss this paper to one side
impatiently when they read the fol-
lowing, but any sufferer in Albuque-
rue who has spent a mint of money
and hours of excruciating torture
caused by kidney complaint, will stand
in his own light if he does not follow
the valuable advice offered by—

Mr. J. R. Miller, of 414 West Colfax
avenue, in the Colfax Real Estate In-
surance and Rental Co., Denver, Colo.,
who says: "My first acquaintance
with Doan's Kidney Pills was made
while reading the Pittsburgh Dispatch.
I was living in Toledo, Ohio, at the
time, and called the attention of my
druggist to them. He procured them
for me, and they were most effective
in ridding me of slight kidney com-
plaint which had annoyed me for some
time. Since then, not only from ex-
perience but from observation I have
always noticed, Doan's Kidney Pills
very highly recommended, and only
recently I purchased a box at Scholtz's
drug store, opposite the Tabor opera
house. I have sent more than one
friend and acquaintance to that drug
store for a supply simply because I
know Doan's Kidney Pills can be de-
pendent upon to act as represented."

Death of Mrs. Harding.

The community was shocked last
Sunday morning to hear of the death
of one of the oldest residents of Gal-
lup, Mrs. Nellie Harding Jones. Her
death was caused by a hemorrhage
from lung and stomach troubles. She
was ill but a few days and many of
her friends were not aware that she
was in danger of death.

She left three children, her mother,
one sister and one brother, and many
friends to mourn her loss.

The funeral was conducted by Rev.
Robert Hodgson on Monday from the
Methodist church, which was filled to
overflowing by the many sympathizing
friends of the family. Ten of the most
prominent citizens of the town acted
as pall bearers.—Gallup Republican.

Mines and Minerals

About forty prominent ore producers in the San Juan district of Colorado have formed an organization for the purpose of opposing the smelter trust, and that can only be done by independent smelting works.

C. Hazeltine, H. A. True and W. H. Bullard, Boston gentlemen who are largely interested in the Mine Development association now operating in the Black Range, arrived in Socorro and left in company with C. T. Brown for a visit to their Black Range properties.

The Headlight says: The Deming Sampling works, having ceased buying ore, an arrangement will be made by which shippers of small lots of heavy lead ore can store their ore in sacks at the concentrating mill until a car load can be made up, and, if requiring it, can receive an advance on the value.

A. G. Muller, of Taos, has struck it rich one mile from Cieneguilla, in Taos county. The strike was made about eight miles east of Barranca station, on the Denver & Rio Grande railroad. The vein is 28 feet wide and of 28 assays, the lowest is \$36.17 and the highest \$20,000 to the ton. The average is \$250 gold per ton. The quartz shows gold on the surface on a cropping over 20 feet wide. The assays are by Burlington, of Denver. Already 100 men have rushed to the new camp which is forty-eight miles southwest of Questa.

H. J. Chatterton, of Cleveland, Ohio, has been in Lordsburg this week, and spent a good deal of his time in the hills south of town, says the Liberal. In speaking of what he saw he said: "I have during the past six months examined numerous mining camps in northern Mexico and have not seen a camp that in my opinion possesses as many natural advantages, as your Shakespeare camp. Abundance of ore in broad well defined quartz veins. Easy of access and only three miles from three railroads with concentrator and smelter at your very door in a climate where you can work out of doors every day in the year if you want to, are surely advantages that will sooner or later attract the attention and favorable consideration of mining investors."

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Electric Oil relieves the pain instantly. Never safe without it.

A Chattanooga Druggist's Statement.
Robert J. Miller, proprietor of the Read House Drug Store of Chattanooga, Tenn., writes: "There is more merit in Foley's Honey and Tar than in any other cough syrup. The calls for it multiply wonderfully and we sell more of it than all other cough syrups combined." Alvarado Pharmacy.

CAPITAL INTERESTED.

The Southern Properties Being Developed in Good Fashion.
A writer from Silver City sends the following interesting mining notes to the Denver News, under date of April 4:

The American Mining company, of Williamsport, Pa., recently organized with a capital of \$1,200,000, is operating at Lordsburg. Thomas A. Lister, president of the company, has great faith in the district, and says it is bound to come to the front.

A favorable report has been turned in by C. R. Keyser, of Des Moines, Iowa, formerly state geologist of Missouri, and who has been making a careful inspection of the mineral properties near Magdalena. As a result of his visit, important transactions have been made.

No little attention is being paid now to property about Bayard station, which is the center of the gold-producing area of the district. It will undoubtedly prove to be a thriving camp. At the Owl mine, at Gold gulch, a

very rich strike has just been made. The first shipment to the smelter netted the owners \$55 per ton in gold, and some silver. The formation is like that of Cripple Creek. The vein is five feet wide and running parallel to it is a vein of zinc and lead which has not yet been assayed. The gold found in the placers is mostly wire gold though there are some pockets of free ore. The shales and quartz can be worked at a good profit, if done on a large scale.

T. J. Curran of the Mogollon Gold & Copper Mining company, located at Mogollon, considers their properties among the richest in the section, and big dividends will soon be paid. W. J. Wetherby, a shrewd mining expert, has charge of the operations.

At Burro mountains, the management of the St. Louis mine is cleaning out and enlarging to a double compartment the old 700-foot shaft on that claim, and we are advised that when the work has been completed the company will have over 5,000 tons of shipping ore blocked out. There are rumors of a sale pending upon this property.

At Pinos Altos, Messrs. Woodbury and McCalla have one of the largest bodies of low grade ore in the country, shown by latest development work they have done upon the property. For 100 feet in a horizontal line they have uncovered a fifteen-foot body of conglomerate ore running high in zinc, which carries copper, gold, silver, lead, iron and manganese values.

In the Malone district, Messrs. Sinclair and Fulton, Michigan capitalists who have lately acquired all of the mines worth mentioning in this district and who have put on a force of men to develop the same, report that they are in a streak of high grade ore upon one of the claims which runs \$70 in gold and 138 ounces silver, the average of the ore shoot being about \$40 in both these metals. These gentlemen were in Silver City recently, investigating the best method of treatment for their output. Incidentally, they arranged with some of our freighters to haul a shipment of their ore which they state will run over \$100 per ton.

It is reported that the General Concentrates people who recently examined the Houston-Thomas property at Pinos Altos will be on the ground in a few days to complete the deal, after which it is their intention to commence active operations. They have been delayed on account of the transfer of the Onstot property at Cook's peak.

Could Fill the Paper With Them.

This paper might be filled with items like the following, and everyone be the absolute truth. I had rheumatism for years and tried almost everything, but got no permanent relief until I used Chamberlain's Pain Balm, three bottles of which have cured me. It is the best medicine I ever used.—Philip E. Rhoads, Pennville, Mo. Pain Balm is for sale by all druggists.

Chronic Bronchitis Cured.

"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Joseph Coffman, of Montmorenci, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and all with satisfaction." Alvarado Pharmacy.

Miners Strike.

A Phoenix dispatch says that at Senator W. A. Clark's United Verde mine 500 smelter men struck, when a reduction of force was attempted.

The entire plant was necessarily closed, and 2,000 men are now idle.

At the Congress mine 300 armed Mexicans have replaced the strikers.

The union men are threatening and a riot may occur at any moment.

Good for Rheumatism.

Last fall I was taken with a very severe attack of muscular rheumatism which caused me great pain and annoyance. After trying several prescriptions and rheumatic cures, I decided to use Chamberlain's Pain Balm, which I had seen advertised in the South Jerseyman. After two applications of this remedy I was much better, and after using one bottle, was completely cured.—Sallie Harris, Salem, N. J. For sale by all druggists.

A Nearly Fatal Runaway

Started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill., which defied doctors and all remedies for four years. Then Bucklen's Arnica Salve cured him. Just as good for boils, burns, bruises, cuts, corns, scalds, skin eruptions and piles. 25 cents at all drug stores.

Deaths at Santa Fe.

The New Mexican reports the following deaths in its Monday's issue: Pedro Sanchez, aged 76, died this morning at 6 o'clock at his residence on College street. He was a veteran of the civil war and fought in the battle of Valverde. He is survived by a son and a daughter.

Mrs. Jose Duran died yesterday of consumption. She is survived by her husband. The funeral took place this forenoon from the cathedral. Interment was made in Rosario cemetery. Charles Wagner was the funeral director.

Canuta Lucero, the 14-year-old daughter of Hilario Lucero and his wife, Aescupala Montoya de Lucero, died yesterday of paralysis. The funeral will take place tomorrow at 8 o'clock from the cathedral. Interment will be made in Rosario cemetery.

Gabriel Romero died on Saturday last at Lamy of old age. It is supposed that he was over 90 years old.

Wants To Help Others.

"I had stomach trouble all my life," says Edward Mehler, proprietor of the Union Bottling Works, Erie, Pa., "and tried all kinds of remedies, went to several doctors and spent considerable money trying to get a moment's peace. Finally I read of Kodol Dyspepsia Cure and have been taking it to my great satisfaction. I never found its equal for stomach trouble and gladly recommend it in hope that I may help other sufferers." Kodol Dyspepsia Cure cures all stomach troubles. You don't have to diet. Kodol Dyspepsia Cure digests what you eat. J. H. O'Reilly & Co., B. H. Briggs & Co.

MARKET QUOTATIONS.

[Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of Logan & Bryan, Chicago.]

There was some hesitation in the early trading this morning but the market soon showed signs of advancing under the leadership of the Louisville & Nashville. One of the theories to account for this advance was that a short interest had been created in market the new stock, actual delivery of which cannot be made immediately for physical reasons. One brokerage house was said to have bought 10,000 shares of this stock and 10,000 Missouri Pacific. The last named also had quite a sharp advance. In a general way it will be said that the business represented professional operations rather than that of commission houses and there was a good deal of manipulation apparent in some of the fancy issues. The most important was given to the advance by Westinghouse Electric and it was accompanied by suggestions that an amalgamation with the General Electric might be arranged, the increase authorized in General Electric stock being cited in this supposed theory. Southern Railway issues were quite active at one time and the buying of them appeared good. There was considerable demand for Twin City, which was explained by the increase in the dividend. Money was easier than yesterday. London bought a few stocks on balance. The close was steady at prices below the best.

THE WATER SUPPLY.

Special Committee of the Council
Report on Its Condition.

LET THE READERS PONDER.

Last night, at the regular meeting of the city council, the special committee appointed to investigate the water furnished Albuquerque people for drinking and cooking purposes by the Water Supply company made its report, and The Citizen, published in the interest of the people, gives space to the report in full. It is good reading; should be read over carefully, and prompt action should be taken to abate the nuisance before an epidemic of sickness prevails in the city. The report as read was adopted by the city council and is as follows:

To the City Council of the City of Albuquerque:

Gentlemen:—Your committee, to whom was referred the question of the source and condition of the city's water supply beg leave to report as follows:

We have examined the premises and file herewith and make a part of our report a plat of the tract on which the water works proper is located, showing the location of the different buildings, wells, etc., and the boundaries of the tract. This tract as originally used by the water company is bounded on the north by Tijeras road, on the east by the Acequia Madre de los Bariles and Broadway, on the south by Hahn's coal yards and on the west by the railroad grounds. This tract is about 200 feet wide on Broadway and 450 feet long on Tijeras road. Originally it was occupied by the water works alone, now the west portion is occupied by the Albuquerque Wool Scouring mill.

The main building of the water works is located on the east portion of the tract near Broadway. Lying between the main building of the water works and the wool scouring mill is a ditch from fifteen to twenty feet deep, about fifteen feet wide at the top and six feet at the bottom and 165 feet long, extending on the west to within twenty-five or thirty feet of the wool scouring mills, and on the east about the same distance from the main building of the water works.

The sides and ends of this ditch are protected from caving by heavy timbers and boards and is covered with boards. The covering, being to shrinkage, leaves spaces between the boards from one-half to two inches wide from which the sand dirt and filth can readily sift into the ditch. The ditch was originally dug, we are informed, so as to allow ready access to the company's pipe lines, the purpose which it really serves we will refer to later.

The company has a well located about three or four feet from the southeast corner of the wool scouring mills, which is about twenty feet in diameter and from twenty to twenty-five feet deep, walled with stone; this we designate as well No. 1.

It has another well about seventy-five feet from the wool scouring mill which is about twenty feet in diameter and from thirty to thirty-five feet deep, and which we designate as well No. 2.

In each of the wells there are numerous pipes driven in the bottom which are said to reach the seventy foot strata. They open and empty into the wells. In the ditch are a number of pipes driven, as we are informed, to the seventy foot strata and are connected directly with the pumping plant and so far as these last mentioned pipes are concerned there is apparently no opportunity for the surface water to get in, but the pumping plant is also connected with well No. 2 by a pipe which reaches near the bottom of the open part, so it will be seen that the water supply is drawn principally from the open well thirty feet deep rather than from the seventy foot strata and whatever goes into the open well goes into our water supply.

We are particular in drawing attention to this fact for the reason that it has been repeatedly asserted that we get no water in our water supply except from the seventy foot strata. That this is not so we have demonstrated by actual investigation and call the attention of the council to the following sources of water supply other than the seventy foot strata.

In the first place the wells in question have pipes driven horizontally into the earth about half way between the top and bottom of the wells which were put in for the purpose of catching the surface waters and serve that purpose as they were pouring into the open wells streams of water at the time of our examination.

Well No. 1 furnishes but little water but is connected by an open pipe with well No. 2 and when the water rises sufficiently in well No. 1 and is sufficiently low in well No. 2 water from well No. 1 empties directly into well No. 2. Well No. 1, as we have already shown, is situated within three or four feet of the wool scouring mills and is covered with plank which are in the same condition as the plank covering the ditch so that whatever filth may be blown about can readily drop into this well.

Besides the surface water which runs into the well from the horizontal pipes above referred to the surface water runs into the big ditch from all sides and is conducted by it to well No. 2, where it is emptied into that well by an opening made through the wall and protected by wire netting, and thus the council will see that this furnishes not only a means of gathering the surface water in that vicinity but that it comes continually in contact with the decaying timbers which support the walls of the ditch and the filth which sifts through the openings in the plank covering.

We made our examination of the wells and ditch at about 4 o'clock in the afternoon and at that time there was not more than a foot of water in the ditch and we could distinctly see the water running into the well from which the main water of the city is pumped. We were down in this well and know from our own observation the facts above stated. We are informed that during the night when the pumping plant is not operated to any great extent the water rises in the wells and in the ditch so as to make it about 8 or 10 feet deep in the ditch; by the constant use of the pumps during the day the water is drawn off so that the water in the main well is lower than the bottom of the ditch and the pipe from well No. 1.

The nature and business of the wool scouring mill is very well known. The wool, as we are informed, is first cleaned by blowing out so much of the dirt as can be detached from the wool. This is of a light and dry substance that can be readily blown about by the winds and finds ready access to the ditch in well No. 1 through the openings in the cover as above mentioned.

After as much dirt has been blown out as is possible the wool is washed and scoured and the filthy water is emptied in an open pool at the southwest corner of the wool scouring mills which is reported to be connected with the sewer.

This water plant is situated on a low tract of ground at the mouth of the Arroyo running down between East Copper avenue and Washington avenue, and at times of freshets the water company's tract is flooded with water. It is so situated as to furnish every facility for gathering all the surface water in the near vicinity into the big ditch which we have described.

Our conclusion is that a ditch so located as the one above described must necessarily draw the surface water from the whole tract above described, including that portion upon which the wool scouring mills are located and that the filthy water which seeps into our city water and we therefore conclude that the surface water not only enters into our water supply but that it is impregnated in the manner above mentioned and also from the dry ditch above referred to that finds its way into the ditch and well No. 1 as above explained.

In the second place the water is further contaminated by the large amount of timber used in walling the ditch and which for a portion of the twenty-four hours is completely saturated with water and for another portion the water is withdrawn by pumping and the wood goes through the process of decay.

Aside from the question of the healthfulness of the water the surroundings of the water plant are not calculated to make one relish the water. As the plant is now located and from the existing state of affairs conditions might be improved but we are doubtful if it would be possible to have pure water taken from the present location.

We wish to say further that the reservoir situated east of the University and from which we draw a portion of our water supply is not sufficiently protected nor is there any means of adequately cleaning the reservoir.

We are not disposed to make any recommendations at the present time except that the water company be requested to take such steps as may be necessary to furnish pure water to the city. The conditions of their franchise and their contract, in our opinion, requires them to do this or forfeit the same. The city should not be in the position of telling them how they should accomplish that object.

It is for them to determine and to succeed at their peril. Nothing is so important as the health of the people and for this pure water is necessary and the council will be delinquent in its duties to the public if it does not take steps to compel the water company to furnish pure water and in case it fails to do so to declare its contract and charter forfeited and give the people an opportunity to furnish a water supply that shall be healthful and adequate to the needs of the city. Respectfully submitted,

A. B. McMILLAN,
FRANK McKEE,
H. E. ROGERS,
Special Committee.

Hope for Consumptives

A POSITIVE CURE FOUND BY A CELEBRATED MICHIGAN PHYSICIAN.

He Send a Trial Package Free With Full Information How to Quickly Cure Consumption in Your Own Home.

For years physicians and scientists have sought a positive cure for consumption, the one stubborn disease which has defied the skill of all to check its course of death, even in a single case.

At last a cure has been found. Incredible as it may seem, after the centuries of failure, a positive and certain cure for the deadly consumption has at last been discovered. It remained for a great physician of Michigan to find the only known cure for consumption, after almost a life's work spent in experimenting and study.

Dr. Derk P. Yonkerman, the discoverer of this great remedy, sought to destroy this dreadful disease by destroying the germ that causes consumption. By destroying the germ in the blood, the cause is removed and a speedy, permanent cure is soon effected.

Consumption has claimed more lives than any other disease. Smallpox, yellow fever, cholera and other contagious diseases have caused more terror and more panic, but consumption is always with us. Tuberculosis, as this great remedy is known, acts greatly upon the diseased germs in the blood. It kills all impurities and nature soon rebuilds the body to its intended proportion. Tuberculosis turns the wheezy cough to a full toned, resonant voice. It transforms the emaciated and the robustness of perfect health.

If you are a sufferer from lung or throat trouble do not fail to take Tuberculosis. Consumptives who have returned from the west—came home to die because they thought nothing could be done with them—have taken Tuberculosis and are now well and strong.

Tuberculosis will cure the worst case of consumption. If you are a sufferer from lung or throat trouble do not fail to take Tuberculosis. Consumptives who have returned from the west—came home to die because they thought nothing could be done with them—have taken Tuberculosis and are now well and strong.

Assistant Superintendent of Free Delivery System Looking Over the Ground.

J. W. Erwin of San Francisco, assistant superintendent of the free delivery system, is in Santa Fe, says the New Mexican. He says that Santa Fe will get a free delivery system providing that streets are named, houses numbered, the streets lighted and pavements are put in a safe condition. He went over the city with Mayor-elect Sparks and upon the result of his observations will depend further action of the postoffice department. The plan is to establish a free delivery system of one mile in each direction from the capitol building.

Better Than Pills.

The question has been asked, "In what way are Chamberlain's Stomach and Liver Tablets superior to pills?" Our answer is: They are easier and more pleasant to take, more gentle and mild in effect and more reliable as they can always be depended upon. Then they cleanse and invigorate the stomach and leave the bowels in a natural condition, while pills are more harsh in effect and their use is often followed by constipation. Read in Missouri.

The Albuquerque, N. M., Daily Citizen of March 15 contains an extended account of the New Mexico School of Mines, of its foundation, progress and now flourishing condition. The citizens of Rolla, especially those connected with the Missouri School of Mines, feel a deep interest in the New Mexico school, for the reason that so many graduates of the Missouri institution have been connected with their school, and now that institution in its most flourishing condition is being ably conducted by Prof. Fayette A. Jones, a distinguished son of old Missouri, who was born near Kansas City, and graduated from the School of Mines and metallurgy of this state. Professor Jones is assisted by Prof. E. A. Drake, who used to be connected with the Missouri school, and was regarded as one of its ablest educators. On behalf of the School of Mines and Metallurgy of Missouri we extend congratulations to the New Mexico school upon its era of progress and advancement, and with best wishes to Professor Jones and Professor Drake.—Rolla, Mo., Herald-Democrat.

Anti-Expectoration Detective.
The health department of the city of Baltimore, Md., has found a new and rather unique service for a member of the local detective bureau. This official is required to ride all day in the street cars and when he finds a passenger violating the city ordinance against spitting in public places he promptly warns the offender to refrain or the fine exacted for such a breach of good manners will be promptly imposed. Now to make this work really up to date the detective should be armed with a microscope and staining reagents, so that he could examine the expectoration on the spot, so to speak. Then if his findings show the spit to contain germs dangerous to the health of the public, the fine might be regulated according to the virulence of the particular germ and the coffers of the municipality correspondingly enriched.

What
Motherhood
Means

Motherhood means either happiness or misery. There is scant happiness for the mother, who in pain and weakness brings into the world a weakling babe which she can neither nurse nor nourish.

Dr. Pierce's Favorite Prescription fits women for motherhood. It strengthens the maternal organism. It tranquilizes the nerves, encourages the appetite and brings refreshing sleep. It makes the birth hour practically painless and gives the mother the nourishment to give her child.

There is no alcohol in "Favorite Prescription," and it is absolutely free from opium, cocaine, and all other narcotics.

"Words cannot express how grateful I am for your kind advice and your 'Favorite Prescription,'" writes Mrs. D. B. Barricks, of Perrow, Campbell Co., Va. "I feel that it has cured me. I had been in poor health for four years. Suffered greatly with my right side, also with bearing-down pains, and my nerves were in a dreadful state. After using four bottles of your 'Favorite Prescription' I am now well. I am the mother of two children. With the first child I suffered twenty-eight hours, and with the second I used your medicine and was sick only three hours. I believe Dr. Pierce's Favorite Prescription to be the best medicine in the world for suffering females. I wish you great success, and hope that God will bless you in your noble work."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

NEW MEXICO TOWNS

SANTA FE.

From the New Mexican.

Bert Ward has entered the employ of Grant Rivenburg as driver of the ice wagon.

The capitol grounds are being prepared for the sowing of more lawn seed and the laying out of flower beds. Vivian Padilla and Miss Francisca Ortega were married at the cathedral by Vicar General Fourchegu. The couple was attended by Narciso Mondragon and wife, Valentina Salazar de Mondragon.

Sunday afternoon 116 boys and girls were confirmed in the cathedral by Archbishop Peter Bourgade. In the morning over 100 children attended their first communion. The girls were all dressed in white and veiled.

A number of Nambé Pueblo Indians are in Santa Fe on business with W. H. Pope, United States attorney for the Pueblo Indians. The Indians have a grievance against settlers near Nambé on account of water rights.

The Santa Fe Water & Light company received a 200-horse power boiler and new smoke stacks for its power plant on Don Gaspar avenue. A 200-horse power engine and a 150 kilowatt generator will follow.

Mrs. W. H. Whiteman is reported as somewhat improved, although still unable to leave her bed. Two of her daughters, Mrs. A. J. Mitchell, of Denver, and Mrs. J. R. Dudley, of near Denver, arrived on Saturday evening.

A. Ingersoll and son are down over 100 feet on their gold prospect two miles directly north of Santa Fe. They will soon commence drifting. A considerable amount of ore is on their dump. They claim to have assays running as high as \$43 a ton. The sinking is done in solid rock.

"Little colds." Thousands of lives sacrificed every year. Dr. Norway's Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption.

Moki Tea Positively Cures Sick Head-Headache.

Indigestion and constipation. A delightful herb drink. Removes all eruptions of the skin, producing a perfect complexion or money refunded. 25c and 50c. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Reilly & Co. and B. H. Briggs & Co.

CARLSBAD.

From the Argus.

The farmers about Carlsbad and the citizens of the town having gardens have been the recipients of a variety of seeds for planting, the seeds coming to them through the courtesy of Delegate Rodey.

The little son of N. N. Davis, of Hope, had the misfortune to fall in a sheep dipping vat, at Lake Arthur, the first of the week. It was anything but a pleasant bath, and the little fellow was quite sick for a time.

There is some talk among those interested in getting up a "sure nuff" cowboys' carnival this coming Fourth of July, the participants themselves managing the affair. It will comprise a program made up almost entirely of horsemen's sports and work.

The city democrats held their convention Saturday night, March 29, and nominated the following ticket: For mayor, Dan H. Lucas; for town trustees, W. G. Woerner, Dr. C. M. Wheeler; for school trustees, W. J. Barber and Allen C. Heard; for recorder, C. C. Emerson for marshal, Ed King; There was no opposition ticket, and, consequently, the above ticket went through. They are all good men.

Saved Many a Time.

Don't neglect coughs and colds even if it is spring. Such cases often result seriously at this season just because people are careless. A dose of One Minute Cough Cure will remove all danger. Absolutely safe. Acts at once. Sure cure for coughs, colds, croup, grip, bronchitis, and other throat and lung troubles. "I have used One Minute Cough Cure several years," says Postmaster C. O. Dawson, Barr, Ill. "It is the very best cough medicine on the market. It has saved me many a severe spell of sickness and I warmly recommend it." The children's favorite. J. H. O'Reilly & Co., B. H. Briggs & Co.

Dreadful Attack of Whooping Cough. Mrs. Ellen Harrison, of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Alvarado Pharmacy.

ALAMOGORDO.

From the News.

Two children of Jas. Hancock have had a long tussle with slow fever, but are on the road to recovery.

Several property owners have commenced planting hedges. There is no reason why cypress will not grow in this city and it makes by far the prettiest and most attractive inclosure that can be placed around cottage or garden.

Sheriff Lucero, of Dona Ana county, New Mexico, has received about half the amount due on the judgment obtained in the district court against the Otero county commissioners. The balance is to be paid when sufficient money has been collected from a tax levy, made for the purpose. The judgment was for about \$1,500 for services.

LADIES CAN WEAR SHOES

one size smaller after using Allen's Foot Ease, a powder to be shaken into the shoes. It makes tight or new shoes feel easy; gives instant relief to corns and bunions. It's the greatest comfort discovery of the age. Cures and prevents swollen feet, blisters, callous and sore spots. Allen's Foot Ease is a certain cure for sweating, hot, itching feet. At all drugists and shoe stores, 25c. Don't accept any substitute. Trial package free by mail. Address, Allen S. Olmstead, Le Roy, N. Y.

rendered by Mr. Lucero in preparing some records for the new county when it was cut off from Dona Ana county at the time when he was probate clerk at Las Cruces.

Wields a Sharp Ax.

Millions marvel at the multitude of maladies cut off by Dr. King's New Life Pills—the most distressing too. Stomach, liver and bowel troubles—dyspepsia, loss of appetite, jaundice, biliousness, fever, malaria, all fall before these wonder workers. 25 cents at all drug stores.

Shot in His Left Leg.

For all kinds of sores, burns, bruises, or other wounds DeWitt's Witch Hazel Salve is a sure cure. Skin diseases yield to it at once. Never fails in cases of piles. Cooling and healing. None genuine but DeWitt's. Beware of counterfeits. "I suffered for many years from a sore caused by a gun shot wound in my left leg," says A. S. Fuler, English, Ind. "It would not heal and gave me much trouble. I used all kinds of remedies to no purpose until I tried DeWitt's Witch Hazel Salve. A few boxes completely cured me." J. H. O'Reilly & Co., B. H. Briggs & Co.

RATON.

From the Range.

Funt Gavin, son of C. J. Gavin, will leave soon for Boston, where he will attend school.

George Berringer contemplates adding another story to his opera house building, fitting up the lower story for store rooms with office rooms on the upper floor.

The Range has been moving this week from the quarters which it has occupied for the past eighteen years to the Love building, opposite Mendelsohn's new block on Cook avenue.

The Santa Fe Presbytery will hold its annual conference at the Presbyterian church, Raton, beginning April 8 at 8 p. m., when an address will be made by the Rev. W. Hayes Moore, of Santa Fe.

The Baptist people of Raton have called the Rev. J. O. Willett, of Jackson, Mo., to take charge of their church. Mr. Willett is a graduate of the Baptist Theological seminary at Louisville, Ky., and is induced to come to this territory in the hope that our matchless climate may benefit his wife's health. He is expected here about May 1.

The Great Dismal Swamp

Of Virginia is a breeding ground of malaria germs. So is low, wet or marshy ground everywhere. These germs cause weakness, chills and fever, aches in the bones and muscles, and may induce dangerous maladies. But Electric Bitters never fail to destroy them and malaria troubles. They will surely prevent typhoid. "We tried many remedies for malaria and stomach and liver troubles," writes John Charleston of Byesville, Ohio, "but never found anything quite so good as Electric Bitters." Try them. Only 50 cents at all drugists. Guaranteed satisfaction.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases. Alvarado Pharmacy.

HILLSBORO.

From the Advocate.

Mr. and Mrs. McLaughlin left for Corpus Christi. They will visit several important places en route.

Superintendent Kasser, of the Hillsboro Gold Mining and Milling company informs us that he has ordered a new stamp mill of twenty-five tons capacity per twenty-four hours. It is one of the latest improved mills and he expects it here in three weeks.

Through a requisition upon the quartermaster general at Washington, D. C., Tom Murphy this week received six grave stones for the following deceased veterans of the war: G. O. Perrault, John Carey, Jacob Laycock, W. H. Ailes, R. M. McCulston and Christopher Watson.

Pursuant to the ultimatum of the school board the public school closed last Friday. However, Major Robertson, the principal, who is much interested in the school and the welfare of his pupils, will, at his own expense, continue the school for at least two weeks for the benefit of the graduating class and all other pupils who wish to attend.

A Doctor's Bad Plight.

"Two years ago, as a result of a severe cold, I lost my voice," writes Dr. M. L. Scarbrough, of Hebron, Ohio, "then began an obstinate cough. Every remedy known to me as a practicing physician for 35 years failed, and I daily grew worse. Being urged to try Dr. King's New Discovery for Consumption, Coughs and Colds, I found quick relief, and for the last ten days have felt better than for two years." Positively guaranteed for throat and lung troubles by all druggists. 50c and \$1. Trial bottles free.

Pneumonia is Robbed of its Terrors By Foley's Honey and Tar. It stops racking cough and heals and strengthens the lungs. If taken in time it will prevent an attack of pneumonia. Refuse substitutes. Alvarado Pharmacy.

LAS VEGAS.

From the Record.

Julius Linde, one of Ilfeld's popular travelers, is back from Tucumcari. D. B. Black is able to attend to his professional duties again, after being under the weather a few days.

Mrs. W. B. Givens left yesterday evening for Bernalillo for a couple of months' visit with her parents, Mr. and Mrs. C. W. Givens.

Sheriff Cleaves Romero went to Watrous this morning, after four young men, for whom he has warrants of arrest for the killing of a number of pigs at Laguna Pedrosa.

At a meeting of the E. Romero Hose company last night it was decided to build an addition to their hose house, in which to install a couple of horses, and Eugene D. Mossmer, who was an ex-member of the company, was reinstated, bringing the company to its limit of twenty-five members.

Mary Alexander has filed papers for divorce against S. G. Alexander on account of his abandoning her and not paying her board. Mary and S. G., which may stand for Sodom and Go-

morrah, are colored people, but have as good a right to get into a divorce suit as anybody.

Mr. and Mrs. J. H. Ryan and granddaughter, Marguerite Cluxton, will leave for El Paso next week for a sojourn, in hopes of benefiting Mrs. Ryan's health.

The many friends of Herman Ilfeld were very much surprised to learn this morning that he had decided to become a benedict, and that he and Miss B. Liebstetter, an estimable and accomplished young lady from Kansas City, who had been visiting Miss Lucien Rosenwald the last two weeks, had become engaged. The engagement was publicly announced last night, and the young people are receiving the best wishes and congratulations of their friends today.

From the Optic.

B. F. Forsythe is putting in a hard wood floor in his suite of rooms over Phil Doll's store.

Born to Mr. and Mrs. Manuel B. Baca a bright little girl. The father does not yet know of his good fortune for he is in Puerto de Luna attending to business while the wife was in the city.

Owing to the unavoidable absence of several persons who are to take part in the approaching musicale, Prof. E. E. W. Layton says it has been postponed for a few days, but that notice of its exact date will soon be given.

L. M. Parks and Alexander Reynolds rode in from the T. O. K. pasture, near Cherry valley. They had complete cowboy outfits, such as twenty years ago were not uncommon in Las Vegas, but which of recent years have been growing less frequent in appearance.

Her Son's Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"A neighbor ran in with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when my son was suffering with severe cramps and was given up as beyond hope by my regular physician, who stands high in his profession. After administering three doses of it, my son regained consciousness and recovered entirely within twenty-four hours," says Mrs. Mary Haller, of Mt. Crawford, Va. This remedy is for sale by all druggists.

Yesterday Fong Kong, alias Ah Chong, who was arrested at Gallup recently, was ordered deported by United States Commissioner Whiting. Fong will be taken to Deming and with a batch now in jail there will be taken to San Francisco and thence sent to China.

A report in circulation today, brought in from the west this morning, is that the Gallup mine at Gibson is again causing considerable anxiety to the management. The other night the tippler at the mine was destroyed by fire, and the fire, down in the mine, has again broken out afresh.

The county commissioners are again in session today, and, besides attending to routing business, have audited and paid about \$4,500 of accounts on the basis of dollar for dollar. Hon. E. A. Miera, the chairman, so it is understood, will visit Santa Fe tonight, and on his return will hold another session of commissioners.

J. R. Maunder, wife and daughter passed through the city this morning for Denver. When Mr. Maunder sold out his up-olstering business here to Allen W. Moore and, with his wife and daughter left the city he went into the same business in El Paso. He says the Pass City is overdone in every line of business, and he sold out on the first opportunity.

Jo. J. Sheridan, the territorial coal mine inspector, and daughter arrived in the city on the early morning train from Silver City; and took the flyer a few hours later for the west. Miss Sheridan will continue on to southern California, joining her mother at San Monica, while Mr. Sheridan will drop off at Gallup, and inspect the coal mines of that district.

Tomorrow morning Lorenzo Garcia and Mrs. Justiana Sals, of Alameda, will have a hearing before United States Commissioner Whiting on the charge of adultery. It is understood that these parties were once married, but divorced. Garcia then removed, and now, so it is said, he patched up the trouble with his first love and again made her the "apple of his eye."

"There is no positive clue to the whereabouts of Juan Armijo, who is the alleged murderer of Placido Sandoval," said Deputy Sheriff Newcomer. "We are working every possible suggestion in the hope of catching the man, and have not given up the chase. There is no doubt he went south after Salazar had been stricken down by the numerous dagger cuts and stabs, but it is my opinion and others that he has not yet reached the Mexican border."

Bert Vorhes has in his possession, being received last Sunday, copies of weekly papers published at Rampart City, Alaska. One is the Alaska Forum, under date of February 1, and the other the Rampart Miner of February 18. They give the mining news of Rampart and vicinity, and Bert says that some of the ground he prospected a few years ago and pronounced "no good," is now yielding pay dirt. The papers are four column folios.

Rev. Beattie, pastor of the Presbyterian church, who officiated at the funeral of the late John James at Carthage yesterday afternoon, returned to the city this morning. Mrs. D. Scruggs, the bequeathed daughter, and other Albuquerque relatives, who were also present, returned to the city this morning. Rev. Beattie says the funeral was largely attended, and many attested their friendship and esteem for the dead by coming a long way to pay to him the last sad rites.
