RESULTS IN GOOD.

Fire Will Help Atlantic City.

Some Heavy Fighting in South Africa.

Another South American Revolution Said to be Over.

MISS STONE COMING.

Atlantic City, N. J., April 4.—The beach front between Illinois and New York avenues today presents a scene of utter ruin and desolation. All through the night the beach, Board Walk and avenues near the scene were patrolled by the National Guards. During the day the soldiers were relieved from duty, the police force of the city being adequate to handle the crowds which visited the scene.

While great sympathy is generally expressed for the sufferers by the fire, the impression prevails that the disastrous visitation will result in good, as it has opened the way for improvements which it is conceded were a necessity. The municipal authorities first began work rebuilding and today, consequent to the action of the city council last night, a force of workmen was put to work repairing the Board Walk. The police and fire departments are still unable to discover the original cause of the fire. At police headquarters today it was stated after a careful investigation the authorities believed the fire started in the rear of the Tarleton hotel, but whether it originated from an explosion of a gasoline stove or an overheated kitchen range they were unable to say. There is also a theory that crossed electric wires started the fire. The loss is now estimated at something over \$750,000.

HEAVY FIGHTING.

Every Man of One Party was Killed or Wounded.

London, April 4.—There was severe fighting all day March 31 in the neighborhood of Hart's river, in the southwestern extremity of the Transvaal, between a part of General Kitchener's force and the forces of General De la Rey and Kemp, resulting in a repulse of the Boers after heavy losses on both sides. The Canadian Rifles especially distinguished themselves. One party commanded by Lieutenant Bruce Caruthers held its post until every man was killed or wounded.

RING DOWN CURTAIN.

Another Revolution in South America Said to Be Over.

Panama, April 4.—This city was the scene of wild enthusiasm on the part of the conservatives last night when Governor Salazar made public the contents of the following dispatch received from President Marroquin: "Bogota.—General Gonzalez Valencia has defeated and completely destroyed the army of Generals Focion Soto and Juan McAllister. General Uribe-Uribe, who invaded Colombian territory via Medina, in the department of Boyaca, was also defeated by General Pardo." Governor Salazar informed the correspondent of the Associated Press that both victories were of great importance because they meant practically the end of the revolution, thus leaving only the isthmus to be pacified.

Confirmed the News.

Washington, April 4.—Senor Concha, Colombian minister, has received a cablegram from President Marroquin, of Colombia, confirming the press dispatches from Panama of the victories of Generals Valencia and Pardo over the insurgents. It is believed at the legation here this will end the insurrection.

Miss Stone Coming.

London, April 4.—Miss Ellen M. Stone, the American missionary, sailed for New York on the Hamburg-American steamer Deutschland from Southampton, today.

A BIG MORTGAGE.

Michigan Central Will Issue Bonds Amounting to \$13,000,000.

New York, April 4.—At a special meeting of the directors of the Michigan Central railroad today it was decided to execute a mortgage with the Guaranty Trust company for \$13,000,000, under which 3½ per cent 50-year gold bonds will be issued. Of this \$13,000,000 will be disposed of immediately for payment of bonds of the Michigan Central falling due May 1. The remaining amount will be held for future betterments and enlargements.

TRAIN HELD UP.

Four Robbers Held It Over Half an Hour.

St. Joseph, Mo., April 4.—Burlington train No. 13 was held up by four masked men shortly after midnight. The hold-up occurred three miles north of the city limits. The railroad authorities assert they secured nothing, but there are conflicting reports this morn-

ing on that point. The robbers held the train thirty-five minutes and then allowed it to proceed. A dozen detectives have been dispatched to the scene, but so far there is no clue.

CLOSING THE STORES.

Miners Will be Compelled to Obtain Credit Elsewhere.

Dulois, Pa., April 4.—The stores of the Jefferson Supply company, located at Dulois, Falls Creek, Punxsutawney, Reynoldsville, and other towns in the mining district and owned by the mining company, will be closed this week and a large number of clerks thrown out of employment. The stores are patronized largely by miners, who will be obliged to obtain credit elsewhere.

GREAT EXCITEMENT.

Big Event in the Kansas City Shoot is Closing.

Kansas City, April 4.—With the likelihood that the Grand American Handicap live bird race will be finished before nightfall, interest in the shoot at Blue River park today is intense. Perfect weather conditions favored the shooters and they were at the traps early, the shooting beginning promptly at 9 o'clock.

Forty-one men had made straight scores at the end of the twentieth round which was completed shortly before 1 o'clock.

BACK FROM GALLUP.

Rev. W. D. Clayton Returns to the City After Visit to Dr. Clayton.

FEW INTERESTING ITEMS.

Rev. William D. Clayton has been spending several weeks at Gallup with Dr. and Mrs. Edmond Clayton. He tells The Citizen they are just as they used to be before leaving Albuquerque. Rev. Clayton returned a few days ago. He called at The Citizen office to give us a few items. He was preacher in charge of the Methodist church in Gallup for four years, leaving there nine and a half years ago. He says the town has improved wonderfully. He has not been in Gallup for four and a half years and says he would have hardly known the place. So many new buildings. Some fine ones have gone up since he was there. The school house is a larger building than any of our ward school houses in Albuquerque. It has seven rooms and seven teachers. Instead of only a Roman Catholic and Methodist church, the Episcopalians and Congregationalists have churches there. Many of the secret societies have organized there. The Odd Fellows and Knights of Pythias have fine buildings in which those societies, not having buildings of their own, are accommodated. At present some of the mines are about closed on account of strikes.

A building containing the finest machinery has been erected just west of town for the purpose of making brick of the refuse of the coal mines (to be used for fuel). Those drilling for coal oil near the town insist that they have found it, and the superintendent says that if the water was shut off they would get fifteen barrels of oil a day. Rev. Clayton met many of his old friends while there, although a great many have either died or moved away. He attended the Masonic lodge while there and declared that the Gallup lodge is composed of as fine material as any lodge he has visited in New Mexico, many of the best men in the town belong to it. The deputy grand lecturer of New Mexico was there last week and the lodge gave a banquet at the Harvey house on Friday evening, to which the members were invited to bring their ladies, their wives and daughters and sweethearts. They first went to the lodge room, where they had a fine talk from the deputy grand lecturer, White, from Alamogordo; then to the Harvey house, where they discussed a magnificent meal, after which the master of the lodge, W. H. Wolf, called on each gentleman present, to say something, and some nice little talks were made. Rev. Clayton was sitting beside the master and was one of the last to be called on. He said that in looking over these present he remembered so many who were gone that he was sad and closed his talk by saying that he almost felt like singing the old song:

"John Anderson, My Jo, John we've climbed the hills together, And many happy days, John, we've had with one another, And now we must totter down, John, But hand in hand, we'll go, And sleep together at the foot, John Anderson, My Jo."

The banquet was a grand success and pleased the ladies greatly. Murry Johnson, an old business man of Gallup, has gone to El Paso, Texas, to go into business. He passed through Albuquerque last Saturday night. Rev. Clayton says perhaps many of his son's (Dr. Edmund Clayton) friends will be pleased to learn that he was not only elected one of the town council on Tuesday last, but was also chosen by the men of the Caledonia mine last Saturday to be their doctor in the future to begin work on last Wednesday. This is one of the big mines at Gallup, of which Alex. Bowie is manager.

Miss Lula Bolton, sister of Mrs. L. L. Henry, is in the city from Gallup. The Boltons resided in this city a few years ago, and Miss Lula has many friends here who are pleased to have her with them.

EQUALLY AS BAD.

The New Dam Bill is Unsatisfactory.

Cabinet Considers the British Supply Camp.

Sargent Accepts Office of Commissioner General of Immigration.

RHODES REMEMBERED AMERICA.

Special to The Citizen. Washington, D. C., April 4.—The committee was about to adversely report the Stephen bill, so Mr. Burleson withdrew it and immediately introduced a new bill in the house providing that the secretary of state shall negotiate a treaty with Mexico that it will accept a dam as full compensation for all claims. The bill is just as bad as before.

GOVERNOR'S PROTEST.

Cabinet Considered the British Supply Camp in Louisiana. Washington, April 4.—The time of the cabinet today was taken up almost entirely with a communication which the president received from the governor of Louisiana protesting against a camp alleged to be maintained in that state by agents of the British government for the purpose of supplying mules and teams to the British army in South Africa. The president has directed an investigation of the facts and the law bearing upon the question.

SARGENT ACCEPTS.

He Will Become Commissioner General of Immigration.

Washington, April 4.—Frank P. Sargent, president of the Brotherhood of Locomotive Firemen, saw the president today and was tendered the position of commissioner general of immigration. Mr. Sargent accepted the offer but told the president it would be necessary for him to close up his business affairs before he could take charge of the office. The president informed him he could have all the time he wanted. In the meantime he is to familiarize himself with the duties of his new position.

REMEMBERED AMERICA.

Will of Cecil Rhodes Provides for American Scholarships.

London, April 4.—The will of Cecil Rhodes provides for the establishment of colonial scholarships and two American scholarships to each of the present states and territories in the United States. All of Rhodes' scholarships, American, Colonial and German, are at Oxford.

GONE INTO LIQUIDATION.

United States Saving & Loan Company Quits Business.

St. Paul, April 4.—The United States Saving & Loan company, with a business covering this and several adjoining states, has gone into liquidation. The assets are \$800,000, and liabilities about equal. With the expenses of liquidation it will pay about 80 cents on the dollar. The cause is said to be a failure to get new business.

Two Men Killed.

Pittsburg, April 4.—Two men were killed, one seriously injured and a number of cars were wrecked and cattle killed by a freight wreck at Crag Hill, Pa., on the Allegheny Valley division of the Pennsylvania railroad at an early hour today. The dead are: Harry Dheen, fireman, of Williamsport, and W. B. Mosher, brakeman, of Olean, N. Y. The accident was caused by a landslide.

Distribution of Seeds.

The bureau of immigration has received from Delegate B. S. Rodey a quantity of seeds. The seeds are for free distribution and the bureau is now

sending the same to applicants all over the territory. A goodly number has been distributed right in Santa Fe.

Back From the South.

B. Ruppe, district deputy of New Mexico Elks, returned this morning from Silver City, where he installed the newly elected officers of the lodge of that city. He reports having had a fine time, and says the Silver City lodge of Elks is one of the strongest and most substantial, financially and numerically, in the territory. While at Silver City he talked up the Territorial Firemen's association, and got the fire fighters of that town considering the advisability of adding to their fire apparatus a chemical fire engine. He stopped long enough at Deming to talk fire, and also got several parties there interested in the subject of purchasing a chemical fire engine for Deming.

Indian Pictures.

H. C. Close, who is taking pictures of characteristic scenes along the line of the Santa Fe road, is in the city. Mr. Close has a fine collection of pictures he has just taken at Ganado, where he has been the guest of Lorenzo Hubbell. The ranch is just within the Navajo reservation and the pictures show the Indians at work on blankets and their silver work. Mr. Close also has pictures from the neighborhood of Ft. Defiance and Moores.

SALAZAR MURDER.

Relatives of the Murderer, Juan Armijo, Here From Sabinal.

WHAT THEY HAVE TO SAY.

D. A. Ortega, the postmaster and Macedonio Armijo, also of the same town, are in the city today to get the true facts regarding the killing of Placido Salazar, for which crime their cousin, Juan Armijo, is accused of using the deadly dagger, and his brother, Solomon Armijo, who is also a cousin, is in the county jail, accused of being implicated in the crime—one of the party who held Salazar while he was being cut and stabbed to death.

Both gentlemen called at The Citizen office at noon today, and they stated that the Armijo brothers, especially Juan, were model young men while residing among their aome people and relatives at Sabinal.

"Juan" who is about 25 years of age," said Mr. Ortega, "left Sabinal about a year ago for Albuquerque, and since that time has been in the employ of the Santa Fe Railway company as a shop boy. He was a hard worker, not a spendthrift and often visited Sabinal. If he committed the horrible crime, as accused, he must have done so under great provocation, as he was never known to be the mover or even implicated in any kind of a crime while he resided at Sabinal."

"Have you seen Juan Armijo since the commission of the crime, late Sunday night or early Monday morning?" asked the reporter.

"No. If Armijo, on leaving Albuquerque went south, he did not show himself among his people at Sabinal, to my knowledge," answered Mr. Ortega.

This afternoon, both gentlemen visited the county jail by permission of Sheriff Hubbell and had an interview with Solomon Armijo, who is a lad of 14 years of age, and who came to this city from Sabinal about four months ago. An effort will be made to secure his release from jail on bond.

No tidings which would give a clue to the county officers as to the whereabouts of Juan Armijo, has been received by Sheriff Hubbell. He is using all possible effort to secure the capture of the alleged murderer, and hopes to head him off, if he has gone south, before reaching the Mexican line.

DENTIST BACON ILL.

Accompanied by His Wife and John J. Phelan, He Goes to Denver.

Dr. A. J. Bacon, who a few years ago had an office in the Grant building, passed up the road for Denver this morning in a bad fix and it is feared that he will not reach Denver alive. When Dr. Bacon and wife, followed shortly by John J. Phelan, left this city, they opened dental offices in Tucson, Arizona. Soon afterwards, the party removed to Denver and opened out in dentistry in fine style. The doctor did the work, aided by several assistants, and Mr. Phelan the managing. The health of Dr. Bacon commenced failing him and a few months ago he was sent to Silver City to recuperate. A few days ago, realizing that his life was slowly ebbing away, he sent for Mrs. Bacon and the manager of his Denver business. They arrived post haste, and last night, in a very weakened condition, and on a stretcher, the doctor was carried into the car at Silver City. This morning, accompanied by Mrs. Bacon and Mr. Phelan, the doctor passed through Albuquerque on his way back to Denver.

District Court.

Judge Baker today is hearing the appeal of S. B. Gillett against the estate of H. B. Warren. The claim amounts to about \$2,500 and is alleged to be due on a stated account for fees due in the partnership of Warren & Ferguson; and salary claimed due from Warren as clerk, where he was referee in the railroad foreclosure suit. The case is still on trial.

A LIKELY STORY.

Says He Murdered by Request.

Mr. Jones Tells How it Happened.

Clark Fears Philippine Island Chinese Will Come in.

MRS. M'KINLEY'S CONDITION.

Salt Lake, April 4.—Clyde Felt, the 15-year-old boy who yesterday stated he had concealed the body of Samuel Collins, the aged watchman of the Wasataka mines at Warm Springs, after the latter had committed suicide, today broke down and confessed that he cut the old man's throat in a little cave above Warm Springs, stripped the body of clothing and, after walling up the entrance with stone, had buried the blood-stained clothing. Young Felt said he cut Collins' throat only after long urging by the old man, who insisted that he wanted to die and was afraid to commit the deed himself.

From statements made by other boys in the neighborhood of the tragedy, however, the police believe young Felt's story has not been half told and behind the tragedy is a tale of moral degeneracy and conspiracy among a number of young boys in the old man's power which finally culminated in Collins' death. A number of arrests will probably be made before night.

JUST HOW IT WAS.

Senator Jones Kept Busy Explaining to His Colleagues.

Washington, April 4.—When Senator Jones, of Arkansas, appeared on the floor of the senate today after a protracted absence during which he passed through a warm and unsuccessful contest for re-election, he was surrounded by many old colleagues, all anxious to learn the details of the contest. He was given a most cordial greeting by senators on both sides of the chamber. The senate, on conclusion of routine business, proceeded with the consideration of the Indian appropriation bill.

At 2 o'clock the Indian bill not having been completed, as unfinished business, the Chinese exclusion bill was taken up. Mr. Mitchell, of Oregon, addressed the senate in support of the measure. His speech had been carefully prepared and was given careful attention by the senators.

WILL BE UNLOADED.

All Chinese in the Philippines Will Come Over.

Washington, April 4.—The house today accepted the invitation of the Army of the Cumberland to participate by committee in the services at Arlington cemetery on the occasion of the reinterment of Major General Rosecrans. Some routine business was transacted and the house then went into the Chinese exclusion bill.

Mr. Clark, of Missouri, the member of the committee who made a minority report in favor of the senate bill which is more drastic than the house measure, predicted that if the supreme court decides the citizens and subjects of Spain in the Philippines islands became American citizens by annexation, thus allowing the free entry of Chinamen into the United States from the Philippines, the islands would be unloaded.

VISITING MRS. M'KINLEY.

The Widow Visits the Cemetery Every Pleasant Day.

Canton, Ohio, April 4.—Mrs. Myron T. Herrick and Mrs. Duncan, of Cleveland, the latter a sister of the late president, arrived here today to visit with Mrs. McKinley. Mrs. McKinley's condition is about the same. She goes driving frequently and visits the cemetery every day the weather permits.

BIG IMPROVEMENT.

Joe Barnett Will Build on Corner of Second Street and Railroad Ave.

THREE STORY STRUCTURE.

A short time ago, while Joseph Barnett and wife were at Santa Rosalia hot springs, Mexico, a rumor was put in circulation and published in The Citizen to the effect that Mr. Barnett before leaving the city had given out the news that he intended to tear down the old buildings at the southwest corner of Second street and Railroad avenue, and erect on the lot a handsome business building with all the modern conveniences and up-to-date in every respect.

When Mr. Barnett returned he was seen by a Citizen representative, but with a knowing smile on his face, would not verify or deny the report.

This morning, the report was again put in circulation, and, on meeting Mr. Barnett and quizzing him again on the subject, he said:

"I think inside of forty days the old

buildings will be leveled with the ground, and I mean, not only the adobe building, but also the two-story brick structure occupying about fifty feet of the rear of the lot. I have architects now drawing plans and specifications for a building of three stories, of the latest architectural designs, and of brick and stone. I intend to have a basement underneath the building running the entire length of the lot, and plenty deep enough for business purposes. It will be one of the finest business buildings in the territory, or, for that matter, in the southwest."

To the question if he would occupy the building himself for his business, he shrugged his shoulders and remarked: "Well, that will have to be decided on in the future."

This corner, which will soon be ornamented by a handsome three-story brick and stone building, is one of the most valuable in the city, and Mr. Barnett, while getting good rent out of the present buildings, will sacrifice a great deal by his desire to keep in the front ranks of those who are enterprising and thrifty.

Jose Baca, who was sentenced to four years in the territorial penitentiary for the murder of John Maxwell on the Navajo Indian reservation, was taken to Santa Fe this morning by Deputy United States Marshal Frank Hall.

HE IS AGAINST US.

Speaker Henderson Failed in Attempt to Prevent Consideration of Statehood Bill.

RODEY TO THE FRONT.

A special dispatch to the Denver News, from Washington, under date of April 2, says:

There was a small but stormy session attended by the speaker of the house of representatives, the delegates from the territories and a few of the house territories committee yesterday, at which it was agreed that the bill granting statehood to New Mexico, Oklahoma and Arizona would be assigned a day for its consideration and possible passage. Speaker Henderson disclosed his attitude on the statehood measure and plainly stated that he proposed to exercise his prerogatives and keep the measure from the consideration of the house.

"Mr. Speaker, we demand that a day be set apart for the consideration of the bill," said Delegate Rodey, addressing Mr. Henderson. "We propose to pass this bill, and if a day is not assigned to us we will take a day anyway, as a question of privilege."

Mr. Henderson, well realizing that bills for the admission of territories come within the privileged class, agreed to set a day for its consideration, but before he did so he delivered remarks which plainly conveyed his ill will towards the measure. There is no secret concerning the cause of the speaker's antagonism. It is because he fears the three proposed states will be democratic. Immediately after the conference with the speaker, having obtained his assurance that within three days he would assign a special day for the bill on the calendar, Mr. Knox, chairman of the committee on territories, submitted the report on the bill. A copy of this report was in the hands of every member today. It is replete with convincing arguments and statistics.

"One of the highest attributes of American citizenship," states the report, "is that of equal opportunity under the law with all others; the chance to start fairly in the race for the rewards which enterprise, industry and thrift may bring. The material advancement of the inhabitants of the territories depends largely upon the rapid development of the resources of the territories. The one essential for such development is capital, but capital hesitates to enter the territories and invest in enterprises otherwise tempting. Legal certainties and fixed conditions are necessary to attract it. The power of congress is a constant menace to progress, and there is no way a territory may escape it. Untold riches, abundance of all that makes for human happiness and prosperous commonwealths await emancipation from the thrall of territorial existence."

Prayer and Self Denial.

The Salvation Army will observe its annual week of prayer and self denial April 6 to 13. The object is to raise money for the different branches of work at home and abroad. Everyone is invited to join in this effort, and by denying themselves some luxury or pleasure be able to donate something toward this fund.

Mrs. Monahan and child arrived last night from Nevada, Mo. The lady is a sister of Mrs. Wm. Farr, and will probably visit here for several months.

Gus Thelin, who is interested in sheep raising in the Manzano range of mountains, came in from Callili late yesterday afternoon, and will remain a few days.

Hon. Alex. Bowie, who was here yesterday, returned to Gallup last night. Before taking his departure for the west he made a pleasant call at The Citizen office.

The democrats of this city are in the humor to join the republican party.

The Virginia democrats have eliminated the negro as a voter in that state.

The oleomargarine bill has passed the senate. The bill places a tax on the product.

The Journal-Democrat is not well acquainted at Gallup. It doesn't know W. W. Kisdor.

Another political party was formed at Louisville, Ky., yesterday. It is opposed to "plutocracy."

Beef is to be increased two cents a pound next week, and yet we wonder at the increase of crime.

At the recent city election Albuquerque cast 1,265 votes; Las Vegas 745; Santa Fe, 904; Raton, 636.

Last year congress repealed war taxes yielding \$41,000,000 of revenue, and the bill now certain of passage will take off \$70,000,000 more.

Ireland sent out nine out of every 1,000 of its inhabitants as immigrants in 1901, 39,870 leaving the island during the year. Of these 80.5 per cent were between the ages of 15 and 35 years.

The net gain of the Methodist Episcopal church for the past year, 1901, as taken from the Christian Advocate of March 27, is 22,560 members in full connection. The entire number of communicants in the aforesaid church, December 31, 1901, was 2,352,234.

New Mexico is a great sheep country. There is but one other state or territory which excels it in sheep raising. That is Utah, where there are 8,000,000 or 9,000,000 sheep. New Mexico has about 6,000,000. The industry was never so prosperous as at present.

Three government agricultural stations have been established in Alaska, and from all come more favorable reports than were looked for. Though the temperature last winter reached 70 degrees below zero, rye planted in the fall was protected by several feet of snow and matured perfectly.

The Journal-Democrat reads the democratic party out of existence. This has been done many times since 1864. In 1868 every republican paper in the United States predicted that the democratic party was too dead to skin. This has happened so often since that it is expected after every democratic defeat. The democratic party lives by defeat. If it was to succeed it would die. For a generation it has been a party of negation. It opposes everything in sight and gathers followers from the large crop of pessimists born every year. The democratic party fills a need in American politics. It is the brake upon optimism and a check upon progress, and at times serves a useful purpose as a chronic kicker.

CHANGED THEIR OPINION.
When the people of the United States see that they have made a mistake in their estimate of a public man they are always ready to acknowledge it and to do him justice. There appears to some extent such feeling toward Mark Hanna. The change of sentiment which appears to be in progress is aptly illustrated by the Oshkosh Northwestern in the following paragraph taken from its editorial columns:
It is a singular fact that a few brief

years ago the particular ogle of the workman of this country was Mark Hanna, while now a great many of them would like to see him president. The American people have a particular admiration for a man who is bold and fearless, and especially for one who succeeds when he sets out to accomplish a thing, all of which applies to Senator Hanna.

THE PRESIDENT.

The executive power of the United States federal government is vested in a president, who holds office for four years. He must be a natural born citizen and be at least 35 years old. He is commander in chief of army and navy and has the majority of important executive appointments under his control. He regulates foreign relations. The election of the president is indirect through electors chosen by the people. The electors of a state equal in number its total representation in congress. The election is held on the Tuesday following the first Monday in November, every four years. The sum of \$34,064 is given to the president in addition to his salary of \$50,000, to pay the salaries of his subordinates and clerks.

THE WHITE MAN'S BURDEN.

The Pueblo Chieftain says that John B. Harper, of Durango, superintendent of irrigation for the Indians, is at present superintending the construction of large irrigation works for the Zuni Pueblos in McKinley county, N. M. Those Indians would never have had any irrigation works had not the white man made it for them. They lived in the country for no one knows how many decades, but did next to nothing to utilize its resources or improve their opportunities. They could have had the choicest lands and the best water rights, even after the white man came, but did nothing. It is one of the numerous instances of how the white man must not only carry his own burdens but those of numerous brunette neighbors.

SOCIALIST PARTY.

The Santa Fe New Mexican says that the time is coming when the two great parties of the United States will be the republican and the socialist parties. The latter is not a new party, its doctrines in one form or another being advocated these past two thousand years. In Germany, it is by far the most prosperous party today, and in Great Britain, France, Austria, Italy and other European countries it is very strong numerically. Only of late years, however, in the United States has it been making any progress, although both the democratic and the republican parties have more or less accepted a few of its least objectionable tenets. Carried to extreme socialism will destroy personal freedom and individuality and make every human being a part of the vast government machine.

SENATOR JONES DEFEATED.

According to the reports from the Arkansas primary elections, Senator Jones will not represent his state in the upper house of congress after the expiration of the present term. He and his opponent, ex-Governor Clarke, agreed to submit their candidacies to the people and to abide by the decision as shown in the result of the primaries. It seems that Jones has been overwhelmingly beaten, nearly all the counties of the state being carried by Clarke. Unless later reports vary radically from those already received, the senator will soon step out of public life in a manner uncomplimentary and humiliating.

WINSLOW BASE BALLISTS.

They Gave a Dance at Winslow Opera House Tuesday Night.

Winslow, April 2.—The 1902 Winslow Browns base ball team entertained with dancing at the Winslow opera house Tuesday night in a very pleasant manner. The delightful pastime was enjoyed by about thirty couples until the wee hours of the morning. Mrs. W. J. Burke, Prof. L. T. Matta and Prof. Martenson furnished the music. Manager Geo. A. Wolff, of the Browns last year, will be re-elected this year and the residents of this busy little city expect some good games. The proceeds of the dance will go toward buying the boys new suits.

Ernest Weise, formerly of Albuquerque, is to be found comfortably quartered in the Commercial house barber shop of this city.

A Nearly Fatal Runaway

Started a horrible ulcer on the leg of J. B. Orm, Franklin Grove, Ill., which defied doctors and all remedies for four years. Then Bucklen's Arnica Salve cured him. Just as good for boils, burns, bruises, cuts, corns, scalds, skin eruptions and piles. 25 cents at all drug stores.

Shot in His Left Leg.

For all kinds of sores, burns, bruises, or other wounds DeWitt's Witch Hazel Salve is a sure cure. Skin diseases yield to it at once. Never fails in cases of piles. Cooling and healing. None genuine but DeWitt's. Beware of counterfeits. I suffered for many years from a sore caused by a gun shot wound in my left leg," says A. S. Fuller, English, Ind. "It would not heal and gave me much trouble. I used all kinds of remedies to no purpose until I tried DeWitt's Witch Hazel Salve. A few boxes completely cured me." J. H. O'Reilly & Co., B. H. Briggs & Co.

CAMP CAMERON.

A Citizen Representative Takes a Ride Through Pine Forest.

Flagstaff, A. T., April 3.—On a bright sunny morning, with a crisp rarified mountain air, wafted with the delicious scent of pine needles, which is characteristic to Flagstaff and its surroundings. Seated on the fireman's box of an Arizona Central railway engine, which was pulling half a dozen empty log cars, bounded up hills and plunged down valleys and around sharp curves, some of which a tall pine would reach from the rear car to the engine, going at thirty miles an hour bound for the little logging camp of Cameron, was an experience enjoyed by The Citizen representative. Cameron is on Arizona Lumber company camp and is located on the company's road about fourteen miles south of Flagstaff in an exceptionally rich body of timber. The camp is named after N. A. Cameron, who is foreman for the company at that place. Mr. Cameron came to Arizona in the early 80s, and has through experience made himself one of the best lumber men in the country. The camp is now working thirty men.

The Arizona Lumber company's mills, located at Flagstaff, are now working 450 men and running night and day.

FLAGSTAFF.

Special Correspondence. Flagstaff, April 2.—The Citizen correspondent had a pleasant visit with Judge N. G. Layton, school superintendent for Coconino county. The judge reports the schools of the county in an exceptionally fine condition this year, especially those of the city of Flagstaff. The present corps of teachers is doing excellent work that will show up as well, if not better, than any year previous, regardless of the fact that there has been more or less

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system.

It cures permanently all manner of blood and skin troubles.

Mr. E. E. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Siegfried, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the Boils disappeared.

Attorneys E. S. Clark and E. M. Doe have returned from Prescott, where they acted as defendants for the Carson sheepmen in the case of the sheepmen against the United States interior department, wherein several of the sheepmen were arrested for pasturing their flocks on the San Francisco forest reserve during the time so prohibited, which is between December 1 and April 1. Only one man was tried as a test case. United States Attorney F. S. Nave, of Tucson, represented the government. Although District Judge R. E. Sloan sustained the action of the department, the counsel for the sheepmen are not discouraged and the case will be appealed to the supreme court. The question of the law is of vast importance to the people of the two territories and the end will be watched for with interest.

Wants To Help Others.

"I had stomach trouble all my life," says Edward Mehler, proprietor of the Union Bottling Works, Erie, Pa., "and tried all kinds of remedies, went to several doctors and spent considerable money trying to get a moment's peace. Finally I read of Kodol Dyspepsia Cure and have been taking it to my great satisfaction. I never found its equal for stomach trouble and gladly recommend it in hope that I may help other sufferers." Kodol Dyspepsia Cure cures all stomach troubles. You don't have to diet. Kodol Dyspepsia Cure digests what you eat. J. H. O'Reilly & Co., B. H. Briggs & Co.

Her Son's Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"A neighbor ran in with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when my son was suffering with severe cramps and was given up as beyond hope by my regular physician, who stands high in his profession. After administering three doses of it, my son regained consciousness and recovered entirely within twenty-four hours," says Mrs. Mary Halter, of Mt. Crawford, Va. This remedy is for sale by all druggists.

WINSLOW.

Special Correspondence. Winslow, April 2.—One of the most delightful card parties of the season was that of Mrs. Charles Daze and Mrs. Martin Dadey, at the Engineer's hall, corner Kinsley and Railroad avenues. After card playing was over, dainty refreshments were served, and all went away delighted with the nice time they had.

Mrs. Martin Dadey will leave in a day or two to join her husband near Prescott, Ariz.

The pleasing face of Mr. Beal of the Albuquerque Citizen is seen upon our streets looking after the welfare of his paper.

The pops called their city convention together last night for the purpose of nominating a full set of city officers. J. L. Morse was elected chairman and W. C. Thomas secretary. The chairman announced the cause of the convention and declared nominations were in order for councilmen and the following gentlemen were brought before convention and nominated: G. R. Bauerback, F. F. Flickenger, J. L. Morse, W. C. Thomas, G. A. Wolff, R. C. Cressell, F. T. La Prade, D. E. Hawk was nominated for town marshal and Ed Wolff for town clerk and C. A. French for road overseer. There will be a not time on election day over the clerkship and the town is sure of a good officer, as two of the best men in the town are pitted against each other for the place. D. E. Hawk will have himself to beat to get elected, likewise five of the councilmen.

The name of V. N. Buttner has been placed on the local town ticket for city clerk. This makes three candidates—Britton, Wolff and Buttner—all good men. S. H. Fine left this morning for the east.

H. A. Pease takes charge of the Winslow Mail this week. The citizens of Winslow can look for a good paper from Mr. Pease, he being a practicable man.

Mr. and Mrs. Thomas O'Leary has the sympathy of the people in the loss of their infant baby who was only one month old.

G. R. Bauerback says he will be the next mayor. F. F. Flickenger says no; that he (Flickenger) will be. The people will be satisfied with either of them.

SNOW AND COLD.

Coldest Weather of the Season—Storm General All Over Arizona.

Flagstaff was visited Sunday and Monday with a heavy snowfall. About sixteen inches of the beautiful fell in this vicinity and on the peaks to the depth of thirty inches. Tuesday night, or rather Wednesday morning, the thermometer registered eight degrees below zero, the coldest morning of the winter.

The snow will be of great benefit to our stockmen and ranchers, as it will insure water on the ranges until the summer rains. There has been an

unusually light snowfall in the mountains this winter and more is needed. The storm was general over the territory. Snow fell in Yavapai county to the depth of ten inches and the mountains around the Salt River valley were covered.

The sheepmen, who went south with their herds last fall, are rejoicing over the storm and the prospects of early grass. The heavy snow on the San Francisco peaks during the winter insures an abundant supply of water for this season. The snow on the peaks ranges from four to ten feet, besides the gulches are all filled.—Coconino Sun.

Better Than Pills.

The question has been asked, "In what way are Chamberlain's Stomach and Liver Tablets superior to pills?" Our answer is: They are easier and more pleasant to take, more gentle and mild in effect and more reliable as they can always be depended upon. Then they cleanse and invigorate the stomach and leave the bowels in a natural condition, while pills are more harsh in effect and their use is often followed by constipation. Get your supper at Grant's hall on Thursday and Friday evenings from the ladies of St. John's Guild. They will have the kind of chicken your mother used to make.

TRULY A SUCCESS.**St. John's Guild Will Entertain
Again This Evening.**

NOTICE TO MERCHANTS.

The Easter supper and sale given by the ladies of St. John's Guild in Grant hall, which opened last night, is an unqualified success. Everyone was put in a good humor by the supper which was served. It was not a supper to be enjoyed only from an artistic point of view, but it was a joy to a hungry man with its chicken potpie and other substantial good things. The hungry began to arrive at 6 and they continued to arrive until 8 o'clock to be fed. In fact some of those who arrived at 6 were still eating at 8.

But supper was not the only feature of the evening by any means. There were a number of pretty and attractive booths where fancy articles and other things were on sale. Mrs. Johnson and Mrs. Lester were in charge of the fancy booth which was attractively decorated with ribbons and other things, such as artistic women only know how to use. Nearly everything known to the needle worker is on sale. Many that are not are also on sale and if an article desired is not on hand it soon appears.

All men who desire aprons can get them from the booth which was presided over by Mrs. Francis and Mrs. Albright. There is a wonderful stock of aprons of all kinds, of all colors and all styles so that the taste of the most fastidious man can be satisfied. It was evident the ladies had discovered the treasures of the booth from the number that gathered there, so it is not necessary to call their attention to it. The candy booth was a magnet which drew many to it. Miss Saint and Miss Hawks were in charge last night and they were kept busy selling all kinds of toothsome morsels at so much per morsel.

An excellent program was thrown in by way of good measure. The Arion Mandolin club gave several very pleasing numbers and George Leo Patterson appeared for the first time as a cornet soloist. Miss Katherine Heimbeck sang a solo and Miss Julia Renison gave two very pretty songs.

Tonight will be the star night in entertainment and it ought to be in attendance. Miss Heimbeck, Miss Renison and Mr. Patterson will again appear. In addition Mr. Duncan Bell will sing a tenor solo and Miss Morehead will give a reading. There are mysterious rumors there will be something doing tonight that will cause much fun. Some things will be sold at auction but no one knows just what. One rumor says it will be slippers, including feet, but no one knows.

A matinee is on this afternoon. The ladies opened the doors at 2:30 and ice cream and other light refreshments are on sale.

The patronage last night was good but it ought to be better tonight. Last December the ladies had completed all arrangements for giving this bazaar, but in order not to interfere in any way with the fair for the benefit of St. Joseph's sanitarium and not to interfere in any way with the Christmas trade of the merchants, it was postponed and the work went for naught. The appreciation of this action by the merchants appears in this notice:

Patronize the Bazaar.

To the members of the Retail Merchants' Association: The members of this association are hereby notified that the ladies of the St. John's Guild are holding a bazaar at Grant hall, and in view of the fact that this bazaar was postponed from December at the request of the association, all members are hereby requested to patronize this bazaar liberally and help to make it a financial success. B. Spitz, president. A. Fleischer, secretary.

THE BAZAAR TONIGHT.Everyone Who Attends Will Be Most
Delightfully Entertained.

The ladies of St. John's Guild in appreciation of the large crowd that favored them last evening, have prepared an excellent program of entertainment for this evening. Mr. Duncan Bell will sing a solo. Mr. Bell has a tenor voice of unusual power and sweetness. The popular mandolin club will again give several of their fine selections. Miss Heimbeck and Miss Renison will sing solos and Mr. George Patterson, the celebrated Boston basso, will be heard in that magnificent solo, "The Four Grenadiers." Miss Morehead will recite. Do not miss this excellent entertainment, which will commence promptly at 8 o'clock, and for which the small sum of 15 cents admission will be made. The program will conclude with a sale of feet. Don't let anyone miss this sale. This is perhaps the only time in your life when you will be able to walk off with a new pair of fine and pretty feet. Come and buy a pair.

Light refreshments will be served during the evening and there will be good music for those who care to dance.

LAND COURT.

Court of Private Land Claims in Session at Santa Fe.

IMPORTANT CASES.

In the court of private land claims Wednesday the survey of the Petaca land grant situated near Tres Piedras, Rio Arriba county, was approved for 1,392 acres. Something like 186,000 acres had been claimed.

The survey of the Cuyamungue land grant between Tesuque and Pojoaque, Santa Fe county, was approved for 604 acres.

The survey of the Fernando de Taos land grant near Taos, Taos county, was approved for 1,817 acres.

A supplementary decree was entered in the Canon de Chama land grant case, defining more definitely the southern boundary of the grant which is situated in Rio Arriba county.

The Refugio Colony land grant cases were continued until the next term of court which will meet in May at Santa Fe.

The grant is situated on the Rio Grande river in Dona Ana county. Two new cases were filed. One is by Blaza Alvarez de Sanchez et al. of Juarez, Mexico, for the confirmation of the Sanchez land grant, situated on the west side of the Rio Grande in Dona Ana county, five miles northwest of El Paso. It is claimed for one square league. It was made on June 29, 1853, by Guadalupe Miranda, commissioner general of the Republic of Mexico, to Juan Jose Sanchez. The other case is brought by Romulo E. Barcala et al. of Juarez, Mexico, for the Barcala land grant, situated on the west side of the Rio Grande in Dona Ana county, four miles north of El Paso. The grant is claimed for one square league. It was made to Romulo Barcala on June 26, 1853, by Guadalupe Miranda, commissioner general of the Republic of Mexico. The proximity of these grants to El Paso make them valuable. They are both situated in that part of New Mexico acquired by the United States in 1853 by the Gadsden treaty.

Thursday forenoon in the matter of the petition of the owners of the Sebastian de Vargas grant, just south of Santa Fe, for a money judgment against the United States, in compensation for lands taken up on the grant before its confirmation, under the federal land laws, the petition was dismissed. The case had been submitted at the last term of court. The decision disallowing the claim, which amounted to about \$700, is based upon the decision of the United States supreme court given recently in a similar case.

In the Joaquin Mestas grant matter, the case was dismissed, the claimants failing to make appearance and failing to comply with a ruling of the court, commanding that the settlers on the grant be made co-defendants with the United States in the suit. The grant is situated on the Puerco river in Bernalillo county and was claimed by L. Leonidas Mestas for about 3,500 acres. The settlement of La Posta is located on the grant.

MARKET QUOTATIONS.

[Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of Logan & Bryan, Chicago.]

New York, April 4.—Stock market today gave evidence of a return to last year's activity and the trading was on a larger scale and more diversified than it has been for a long time. The revival of speculation was ascribed primarily to the operations of what has become to be known as the Chicago group of men who are said to have taken hold of St. Paul and North-west. Railroad stocks were the favorites and besides the two named Louisville & Nashville reflected good buying. In the industrial feature was the sharp rise of American Twine. American Cotton Oil was again active and Virginia Chemical quite strong. The rumors were revived that these two companies would be amalgamated. Whether this be true or not it is quite certain that they are working in complete harmony. London was active in the market but principally on the selling side, arbitrage houses having sold probably over 20,000 shares. The preliminary estimates indicate a loss by the banks, but as long as money remains easy, the bank statement is not a matter of considerable moment.

The contractors have commenced laying the ties and rails on the Dawson road west of Dover, the point of connection of the road with the Santa Fe. The switch was put in last week and the laying of track is now going on at a rapid rate. Everything looks favorable for a speedy finish of that part of the Dawson road to connect with the Santa Fe. Large quantities of coal are on the dumps at the Dawson mines waiting the finish of this part of the road for shipment.

Good for Rheumatism.

Last fall I was taken with a very severe attack of muscular rheumatism which caused me great pain and annoyance. After trying several prescriptions and rheumatic cures, I decided to use Chamberlain's Pain Balm, which I had seen advertised in the South Jerseyman. After two applications of this remedy I was much better, and after using one bottle, was completely cured.—Sallie Harris, Salem, N. J. For sale by all druggists.

After every sandstorm in this city a person can walk around the plains and pick up a handful of gem stones, all of them nice enough for pin or ring settings. Where they come from is a mystery that would be worth money to solve, for a deposit of them would be a bonanza.

James Ternerlin, the ranchman, died of typhoid fever at the Allard home at midnight of Thursday. He was only in the thirties when death claimed him. He leaves a wife and two boys and brothers and sisters and friends to mourn his loss. The family are well provided for. President Roosevelt gave his watch as a reward for faithfulness, was in the city Friday. Duran is said to have been once sentenced to be hanged in Grant county on the charge of killing a Chinaman, but was afterward discovered to be innocent of the crime and pardoned. Political chiefs hint at the strong probability of Duran holding a government position in this section at an early day. Duran is a particular friend of Major Llewellyn and Sheriff Baca.

A PHYSICIAN HURT.

Helped Himself.

When the doctor himself brings on heart disease by the use of coffee it is time for ordinary people to think carefully of the effect of that beverage.

The testimony of Dr. O. W. Mathewson, 1354 Pennsylvania avenue, Des Moines, Iowa, is as follows: His letter is rather long and this extract is necessarily condensed.

"I am a physician of 18 years' practice. I felt the need of a stimulant and for the first five or six years of my practice used strong coffee. Eight or ten years ago I began to notice symptoms of heart disease. This seemed to be a regular organic type and year by year became aggravated. Dizziness, faintness and later, inability to walk, at times.

"Physicians could find no marked symptoms of disease but thought there might be of a kind that escaped observation. Finally I became a confirmed invalid and gave up practice.

"Several years elapsed with the symptoms growing worse. I was considered as marked for an early grave. It finally became impressed upon me to give up coffee. This I found easier to do when Postum Food Coffee was used in its place. I did this more to satisfy my friends than with any hope of benefit from such a simple change, especially in such an incurable case as mine. I was debilitated and very weak and about 30 pounds short of my old weight.

"From the first week I noticed a marked change, and within three months I was almost fully restored to my old strength and health. These facts are known to hundreds of my friends and acquaintances."

The Great Dismal Swamp

Of Virginia is a breeding ground of malaria germs. So is low, wet or marshy ground everywhere. These germs cause weakness, chills and fever, aches in the bones and muscles, and may induce dangerous maladies. But Electric Bitters never fail to destroy them and malaria troubles. They will surely prevent typhoid. "We tried many remedies for malaria and stomach and liver troubles," writes John Charleston of Byesville, Ohio, "but never found anything quite so good as Electric Bitters." Try them. GLUTTONY

Is more common than we may think, if we define gluttony as eating beyond the body's need of sustenance and beyond the stomach's capacity for digestion and assimilation of food. That is a fair definition, and it fastens the name glutton on many a person who would resent the term as an insult. The fact of this gluttony is marked by its consequences. The overloaded stomach becomes diseased. The popular term for the condition is "weak" stomach. The "weak" stomach fails in furnishing adequate nutrition for the body, and soon the "weakness" spreads from the stomach to other organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect assimilation of food, by which alone the health and strength of the body is maintained.

"Your medicine helped me so much that I cannot praise it too highly," writes Mrs. C. L. Brooks, of Poland, Androscoggin Co., Me. "The first dose I took helped me. I cannot forget how I felt when I took it; I was suffering everything with indigestion, and my stomach was so bloated that it seemed as though it must burst. My husband said he was going for the doctor, but I said if he would get me a bottle of the 'Golden Medical Discovery' I would try that. I had not taken it long when I felt relieved, and have not had a touch of indigestion or stomach trouble since. I had been sick for four years, and less than four bottles cured me. Some people that knew me before I began to take the 'Golden Medical Discovery' tell me that they never saw such a change in any one, and they also say they don't see how I can do such large washings as I do now, when I had not done a washing for so long."

DANDRUFF WON'T WASH OFF.

The Germ That Causes It Has to be Destroyed to Cure Dandruff.

Many a woman spends an hour twice a week scouring her scalp, thinking scrubbing off the scurf will cure the dandruff. Two hours a week at the age of 40 years, she has spent 260 days of twelve hours each, or two-thirds of a year of her life, in that vain hope; vain, because you can't cure dandruff without killing the germ, and the only hair preparation on earth that will do that is Newbro's Herpicide, which is also a delightful hair dressing, and thorough antiseptic against all contagion from use of other's hair brushes.

JOHN ANDREWS.

The Shop Employes of San Bernardino Remembered Him.

The San Bernardino Sun, in an article on John Andrews, formerly an official of the Albuquerque shops, says: "Perhaps the most surprised man in town last evening was John Andrews, the former master car builder at the Santa Fe coach shop, all of which was occasioned by a delegation from the car department men, who came to his home on F street to present him with an emblem of their respect and esteem, and incidentally to wish him the best of luck in his new field, he having left on No. 2 last evening for Gallup, New Mexico.

"The token was in the shape of a Masonic emblem of gold, handsomely engraved with words inscribing Mr. Andrews' name and that of the givers, and underneath the date of his employment at the San Bernardino shop and the day of his resignation. Some forty of the boys surprised him shortly after 7 o'clock, and after being introduced by William Smith, August Ahrens, in a well worded speech, presented Mr. Andrews with the emblem by which the givers desired to be remembered. The late foreman was not so overcome but that he could thank the men who had once served under him, which he did in a few but heartfelt sentences. Mr. Andrews may locate in Gallup or in that vicinity, while there is a possibility that he may return to San Bernardino. During the five years of his formanship at the local coach shop, he was one of the best liked men at the shops, and there are a host of the boys who would be glad should he return to this city for permanent residence.

Glove Factory at Socorro.
Mayor Cooney, with other wealthy and influential citizens of Socorro have signed a contract with a Chicago firm, whose representative is there, whereby a glove factory will be located at that place.

The gentleman who is there from the east left for Magdalena Saturday last to consult with sheep men to ascertain how many pelts can be laid down at the factory regularly. On the part of the citizens, two acres of land have been donated and money raised to put the machinery on the ground, so the industry seems to be an assured fact.

Fifteen persons will be employed to begin with and this number will be added to as fast as the supply of material is insured. The factory seems to be an assured fact.

Kodol Digests what you Eat
Dyspepsia Cure

Indigestion effects so many organs besides the stomach that the nature of the disease is sometimes mistaken. Headaches, giddiness, and so-called heart trouble are usually caused by indigestion alone. In such cases it is the stomach trouble which must be cured. Kodol Dyspepsia Cure restores health by digesting your food while the stomach rests. Dieting doesn't mean rest but starvation. You should relieve the stomach without weakening the system by denying yourself proper food. With a sound stomach your other complaints will soon disappear. "After seven years' suffering from indigestion" writes Mrs. Annie Alcorn of Merideth, Pa. "I was cured by three bottles of Kodol Dyspepsia Cure."

Cures All Stomach Troubles.
Prepared by E. C. DeWitt & Co., Chicago. The 8 1/2 bottle contains 24 times the 50c. size. The favorite household remedy for coughs, colds, croup, bronchitis, grippe, throat and lung troubles is **ONE MINUTE Cough Cure**. It cures quickly.
