DISPUTED LAND.

Navajo's Consult With Indian Agent.

Arizona Central Right of Way.

No Case Made Against the Commercial Cable Company.

TWO WERE KILLED.

Special to The Citizen.

Thoreau, N. M., March 27.—Over 300 Navajo Indians are now in camp around Thoreau awaiting the arrival of Indian Agent Haslett from Fort Defiance. A large number of the Navajos have wandered from the reservation proper and have settled on the lands adjoining it within a radius of twenty-five miles. On these lands they have made water holes and in other ways fitted them to suit their manner of life.

Of late the Mexicans and white men have been encroaching on these lands with their flocks for purposes of grazing. Considerable friction has developed between the Navajos and their invaders and things have come to such a pass that a settlement of the question of the right to the lands is immediately necessary. Major Haslett will be called upon to decide whether or not the Navajos shall return to the reservation. Vicente, chief of the Navajos, claims that inasmuch as the lands are unpatented they have a right to them because of their long settlement upon them. On the other hand, the Mexicans claim that the Indians have a reservation which is abundantly able to support them and their flocks; that they have absolute rights there and should return and live on what a paternal government has already provided them with.

Regardless of the decision of Major Haslett there is likely to be a stubborn fight in the federal courts and the Mexicans will endeavor to ascertain just what rights the Navajos have beyond the limits of their reservation.

Chief Vicente is a fine specimen of Navajo, six feet and two inches in height, weighing nearly 200 pounds, and is 44 years old. He has the unique distinction of being the only Indian of his tribe who has but one squaw. He thoroughly understands his people, and is very zealous in preventing any encroachment on their rights. In speaking of the subject in dispute Vicente said: "Our people constructed two lakes on these lands over twenty-five years ago and since that time many water holes. We are settlers on the lands and feel entitled to these things. We don't want trouble with the white men, but simply want justice." When asked if he thought there would be any trouble about settling the controversy Vicente replied: "No, I know Mr. Haslett will do what is right and that is all my people want."

Chief Vicente has dispatched a special messenger to meet Indian Agent Haslett at Fort Defiance. The messenger has authority to arrange the preliminaries for an agreement between the agent and the Navajo council. Indications now point to an early settlement of the land troubles between the Navajos and the Mexicans, possibly within a week.

RIGHT OF WAY.

Arizona Central Can Go Through San Francisco Mountain.

Washington, March 28.—The house devoted the day to the consideration of private pension bills. Some routine preceded the regular order.

Among the bills also passed was one to grant a right of way through the San Francisco mountain reserve to the Central Railroad of Arizona.

NO CASE MADE OUT.

No Action Taken Against the Commercial Cable Company.

Washington, March 28.—Representative Corliss, of Michigan, was given a hearing before the house committee on judiciary today on his resolutions directing the attorney general to institute proceedings against the Commercial Cable company for alleged combination with other companies. Mr. Corliss declared there had been a deliberate violation of the laws against combinations and that the effect was to advance the cost of cable messages on the Atlantic 12½ cents a word. After hearing Mr. Corliss in full, the committee went into executive session and unanimously reported against the resolution on the ground Mr. Corliss had not presented a case calling for the action proposed.

TWO MEN KILLED.

Head-on Collision on an Electric Railroad.

Joliet, March 28.—Two men were killed and several people were injured in a head-on collision at Sag Bridge today on the Joliet & Chicago Electric railroad. The dead are: John C. Mau, motorman, and George Barrett, line-man. Six of the injured were taken to St. Joseph's hospital in this city and

others are said to be on the way. The collision occurred in a dense fog.

SYMPATHY STRIKE.

Massachusetts Weavers Try to Help Rhode Island Weavers.

Fitchburg, Mass., March 28.—The entire force of weavers in the Fitchburg Worsted Mills and Beell mills of the American Woolen company, struck today in sympathy with the Rhode Island employees to combine in the struggle against the two-loom system in that state. The two mills employ about 400 weavers.

Twentieth Century Club.

Members of the Twentieth Century club met last night in Grant's hall, in goodly numbers. Dancing began at 8:30 and lasted until the wee hours of the morning. About 11 o'clock a recess was declared and those present partook of a bountiful supply of delightful refreshments which had been provided and spread on long linen-covered tables which was placed in north end of the hall. This is probably the last dance the popular club will give this season. Although the club has only been organized since the first of the year, its many entertainments have been very enjoyable and the members will look forward to the opening of another season with anticipation. Mrs. Rose Berry furnished the music last night in her well-known becoming manner.

CLAYTON TRAGEDY.

John R. Guyer, Postmaster, Killed His Assailant, W. E. Searles.

HE ESCAPED UNINJURED.

The little town of Clayton, in Union county, this territory, is greatly excited over a shooting affray that occurred about Wednesday noon. W. E. Searles, a jeweler, was shot and almost instantly killed by Postmaster John R. Guyer in the postoffice, after a desperate battle.

Guyer, who is also editor of El Fenix, a weekly newspaper at Clayton, published a story objectionable to Searles and his wife and trouble had been expected between the two men for some time. About noon Wednesday Searles procured a revolver and went to the postoffice and called for some stamps. When the postmaster turned around to get the stamps Searles pulled his revolver and opened fire on him, firing two shots but missing his man. Guyer grabbed a Winchester that was handy and shot at Searles, missing him the first shot, but striking him in the leg with the second. By this time Searles had reached the door and had one shot still in his revolver. He fell out the door on the sidewalk just as Guyer fired the third shot, which took effect in his side, inflicting a mortal wound. Searles rolled off the walk into the street and raising himself on his elbows, fired the last shot in his revolver and fell over, expiring almost immediately.

The coroner's jury brought in a verdict that Searles came to his death from a gunshot wound inflicted by John R. Guyer. Guyer was arrested immediately after the shooting and continued his work under guard of a deputy sheriff. Later he was placed under \$10,000 bond for his appearance before the grand jury. Both men have families and have lived here for a number of years.

John R. Guyer, who committed the murder, served his district in the lower house of the territorial legislature about four years ago, and was quite well known in the northern section of New Mexico. It is understood, from a special dispatch to the Denver News, that Guyer recently distributed a pamphlet among several friends reflecting upon the characters of Mr. and Mrs. Searles, especially that of the latter, and this pamphlet had been circulating for some time before Searles received a copy of it.

BOUND OVER.

Charge of Forgery on a Santa Fe Check.

Jose Cleofor Gutierrez, a resident of Babelas, was bound over to the grand jury this afternoon, in Justice Croll's court on the charge of being an accomplice in the forging of a Santa Fe Pacific check. His bond was fixed at \$500.

On the morning of the 16th of January, Gutierrez, with another man, appeared at the local Santa Fe depot and asked for a check made payable to Perfeila Chavez. Chavez said that he could not write and Gutierrez identified him. The afternoon of the same day, the second and real Perfeila Chavez showed up to get his check.

The forgery was immediately discovered and the check was found at Harry Wieller's store on First street.

The facts were put in the hands of the officers and today, Ben Williams, special officer for the Santa Fe, and a deputy secured a clue that led to the arrest of Gutierrez.

The check was for \$25.05. The evidence against Gutierrez, as brought out at the trial, is very strong and it is very likely he will get a few years.

Vetoed a Bill.

Washington, March 28.—President Roosevelt today sent to the house a veto of the bill for the relief of Emanuel Klausner from the charge of desertion.

Navel oranges, extra sweet and juicy 20 cents a dozen and up. San Jose Market.

LEGAL DELAYS.

Goad Wyoming People to Lynch.

Father J. H. Brinker Fatally Shot.

Convict Claims Crime for Which a Man is Condemned.

CABINET MEETING.

Casper, Wyo., March 28.—Charles Francis Woodward, the condemned murderer of Sheriff William C. Ricker, was hanged early today by an infuriated mob of 200 men. Under the cover of darkness an organization was formed during the night. Crowds began to gather in the vicinity of the jail early in the evening. About 3 o'clock the mob descended on the jail and the leaders demanded the keys of the sheriff. He refused to give them up and the crowd then secured a number of sledges and hammers and beat the jail door down. Once inside the jail, the rope was quickly thrown around Woodward's neck and he was roughly dragged from the building. He was hanged on the gallows which had been erected for his legal execution today.

Less than half an hour was occupied by the hanging. Considerable excitement prevailed, but little was said. Woodward attempted to talk to the leaders, but they refused to hear him. An immense crowd witnessed the lynching. Several hundred sheep and cattlemen came to town during the day yesterday and every corner was the scene of a discussion of the reprieve granted by the supreme court.

After the lynching the mob dispersed and the greater part of those from out of town left for their homes. Sheriff Tubbs this morning found the following note pinned to the scaffold: "The process of law is a little slow. This is the road you will all have to travel. Murderers and thugs beware."

FATALLY SHOT.

La Junta Priest Accidentally Shot in the Abdomen.

La Junta, Colo., March 28.—Rev. Father J. H. Brinker, of the local Catholic church, was fatally shot in the abdomen today. It is supposed the revolver fell from the table and was accidentally discharged.

CLAIMS THE CRIME.

Colorado Convict Says a Convicted Man is Innocent.

Salt Lake, Utah, March 28.—The state supreme court today affirmed the decision of the lower court in the Lynch King murder case. Lynch King, whose real name is Pagini, was convicted of the murder of Col. Prowse, a well known sporting character, in a Salt Lake gambling house, in September, 1900. About two months ago a convict in the Colorado penitentiary at Canon City named Strange, made a statement it was he and not King that did the shooting and a hard fight to save King's life has been made by the Italian consul. A second application for a new trial will now be made to the lower court and, unless granted, the condemned man will probably be shot in May.

Discussed Cuba Only.

Washington, March 28.—The session of the cabinet today was entirely taken up in discussing the details preparatory to the withdrawal of the United States from Cuba.

Going to California.

John James, assistant superintendent at the penitentiary, and Dr. David Knapp, the penitentiary physician, will leave this evening for Santa Monica, Cal. Mr. James is suffering from heart trouble and is going to the coast upon the advice of Dr. Knapp and Dr. Wroth, his attending physicians.—New Mexican.

Mr. James, accompanied by his faithful wife and son, John James, Jr., and Dr. David Knapp, came in from Santa Fe last night, and continued south to Deming, where they will take the Southern Pacific for southern California, their objective point being Santa Monica. Mr. James is suffering with heart trouble and his many friends hope his stay at the sea coast resort will prove beneficial. Dr. Wroth, who was called to Santa Fe as consulting physician, returned to the city last night.

Endorsed by Delegate Rodey.

It is quite evident that Delegate Rodey at Washington, although busy talking up statehood and watching the Elephant Butte litigation, is keeping posted on Albuquerque affairs. The following self-explanatory telegram was received this morning: Hon. Charles F. Myers, Albuquerque, N. M.: Washington, D. C., March 26.—Congratulations to Albuquerque. The whole ticket is so good that I predict the triumphant election of every member.

We Circulate in San Francisco.

Patrick O'Neil, of San Francisco, Cal., writes as follows to Dr. Crosson: "I see your advertisement in The

Albuquerque Daily Citizen that you have a furnished three-room cottage for rent. I will arrive in your city some time in the first week in April and would like to rent your house. Please let me know by return mail how much rent you will charge and if I can have possession when I arrive there."

Another evidence that The Citizen has the largest circulation of any other daily newspaper published in the southwest, and reaches more cities and towns throughout the entire country than any of its competitors published in New Mexico.

Blood Poisoning Death.

Mrs. Harris Levy, wife of one of the pioneers of Las Vegas, died of blood poisoning. She was born in Germany and came to New Mexico from Pittsburg. Four grown children and a husband survive her.

Mrs. Hannah Olsen, aged 72 years, died at the home of her son three miles north of Las Vegas. She leaves three sons.

Henry L. Edwards came in from El Paso yesterday and went up to Las Vegas last night. Mr. Edwards recently married in this city Miss Minnie Mae Browns, and he expects soon to make his headquarters and home in this city.

PREHISTORIC RUINS.

Homestead Entry on Pueblo Bonito and Other Ruins Cancelled.

MUST NOT DESPOIL.

The officials of the federal land office in Santa Fe yesterday received notice to cancel the homestead entry of Richard Wetherell, manager of the Hyde Exploring Expedition, who had made a homestead entry on the Pueblo Bonito, Chaco Kettle and Pueblo del Arroyo three of seventeen prehistoric ruins in Chaco canyon, southern San Juan county. The reason for the cancellation is that the entry was not made for the purpose intended that such entries are to be made, but for the exploitation and despoliation of these prehistoric ruins. The Hyde Exploring Expedition had erected on the amended homestead entry in question a number of buildings worth \$10,000 and was running a stage line to the hotel at the place. It had been carrying on systematic excavations on the land and according to a sworn statement of Manager Wetherell to Special United States Agent J. S. Holinger had taken from those excavations 50,000 pieces of turquoise, 10,000 pieces of pottery, 5,000 stone and wood implements, 14 skeletons and other relics which were sent to the American Museum of Natural History at New York.

Pit excavations were made at 185 places and 500 rooms have thus far been excavated. When it was found that the original homestead entry did not take in all the ruins as amended entry was filed by Wetherell.

The Hyde Exploring Expedition, since coming to the territory of New Mexico has branched out into other business besides that of exploitation of prehistoric ruins and is conducting prosperous farms at Farmington and other points in San Juan county and is carrying on active trading with the Indians, has made several fine New Mexico exhibitions at different expositions and has proven itself enterprising and a benefit to New Mexico.

It is to be regretted that in this one instance it engaged in a business that is objected to by the people of this territory who take a pride in its prehistoric ruins and believe that all relics excavated therefrom should remain in the territory.

The Hyde Exploring Expedition is the largest taxpayer in San Juan county. This year it will be assessed upon a property valuation of \$23,145, most of which is new property in that county.

British and Boers Unite in Prayers for Peace.

TEN PER CENT INCREASE.

Washington, D. C., March 28.—The state department will take no steps to bring to the attention of the Danish government the charges against the integrity of the American statesmen as preferred by Christmas and yesterday brought to the attention of the house of representatives. The department regards the charges as unworthy of attention because of insufficient evidence and obvious error in statements of alleged facts. It is perfectly aware also that the Danish government don't intend to pay one cent of the \$500,000, claimed by Christmas as a commission, so that of course none of that money was used to corrupt American statesmen and newspapers.

EVANS HAS RESIGNED.

Will be Given a Place in Diplomatic Service.

Washington, March 28.—Commissioner of Pensions Evans has placed his resignation in the hands of the president. It is not to take effect until some important position in the diplomatic service is found for him.

WITH ONE ACCORD.

Peace.. Prayers.. Throughout.. Great Britain Marks Good Friday.

London, March 28.—A "prayer for peace" was the only novel feature in the observance of Good Friday in Great Britain. The bishops of London, Rochester and St. Albans issued special appeals to their dioceses to unite in a prayer that both the British and Boers be granted the temper of peacemakers, and pointing out that similar prayers are being offered in the Dutch churches of Pretoria. A Sunday atmosphere pervades in London today. All business is suspended and churches and open air resorts in the neighborhood of London are crowded. No newspapers are published and every one who could leave town until April 1 has departed. The government offices are closed and the war office has announced that even Lord Kitchener's dispatches will not be issued today.

Ten Per Cent Increase.

Bethlehem, Pa., March 28.—An increase of 10 per cent has been made by the Thomas Iron company in the wages of the men employed at the company's furnaces at Hellertown. After April 1 laborers will receive \$1.20 per day, the highest rate paid in many years. The increase includes also the men employed in the mines which furnish ore for the furnaces.

LOCAL PARAGRAPHS.

J. D. Lucas, a well known citizen of Cerrillos, is here today on business.

This is Good Friday, and observed as an anniversary of the crucifixion of Christ.

H. N. Butterfield, of Chicago, and traveling agent for the D. L. & W. railroad, is in the city.

Only taxpayers can vote for the issuance of \$35,000 in bonds for school purposes. Remember this!

Mrs. L. A. Collings and daughter, in charge of the Congregationalist mission school at Cubero, are in the city.

Simon Neustadt, the Los Lunas general merchant and postmaster, is here this afternoon, having driven up to the metropolis in his buckboard at noon.

The Gentlemen's Driving association will meet tonight at Zeiger's Cafe to make final arrangements for their Sunday race meeting.

Andreas Romero, the West Gold avenue butcher, will build a two story brick residence on that avenue opposite the Congregation Albert temple. Dodd & Lemke have the contract.

H. W. Kellogg, the traveling agent for the Duplex Printing Press company, Battle Creek, Mich., is in the city, and made a call at The Citizen office this afternoon. Mr. Kellogg will remain here today and tomorrow, leaving tomorrow night for El Paso.

H. F. Kettler, who resigned his position as cashier at the Equitable Life Assurance society's office, will leave on an overland trip to El Paso, where he expects to open an insurance and real estate office. Mrs. Kettler will stop at Camp Whitcomb until Mr. Kettler has become settled in the Paso city.

Smoke was discovered issuing from the gable end of one of the Torlina cottages, on West Atlantic avenue, at about 11 o'clock this morning and a still alarm was turned in. When the department arrived and the loft was broken into it was found that the stove pipe had become disjoined and the smoke was coming from the pipe.

Lovers of basket ball will have the

pleasure of witnessing another good game some time in the near future, probably a week from tonight. A game is being arranged between the teams of the Albuquerque Guards and the New Mexico University. Both have strong teams and a good game is expected. It will be played at Colombo hall and a dance will follow.

Last night, the city democratic central committee agreed upon the name of George Fraser, foreman of the Santa Fe Pacific boiler shops, as that party's candidate for member of the school board for that ward. He has consented and today is in the race. Up in the Fourth ward, friends of W. W. McClellan, knowing that he can rustle, are pressing his claims before the central committee for candidate for school trustee, but there are others who think that A. W. Hopkins, the republican nominee, should have no opposition. It is thought the democrats tonight will decide on a candidate for school trustee for the First ward.

Appropriates \$49,316,395.

Washington, March 28.—The sundry civil appropriation bill, the most important of the government supply measures, was completed today by the house committee on appropriations. The bill appropriates \$49,316,395.

FINE AUDIENCE.

Address By Mr. Wilson Last Night a Success.

A BRIEF OUTLINE.

Rev. J. Stitt Wilson delivered the opening address of a series at Colombo hall last night. His theme was "The Sublime Task of the Twentieth Century."

In opening his address, he referred to the difficulty with which any great idea was ever received by the world. "Great ideas," he said, "pass through at least four stages. First, they are ridiculed, then misrepresented, then discussed, and finally accepted, as the only rational interpretation of the subject matter with which they are concerned. Thus it was with the idea of religious liberty, and political liberty, and the doctrine of evolution, and other great ideas that have made for the progress of the uplifting of humanity."

"So it is with the idea of socialism. The first exponents of socialism were the stages of ridicule and persecution of pulp and the press and the scholar, then socialism passed through a period of the grossest misrepresentation, partly through ignorance and partly through political antagonism. These two periods in the development of the socialist principle are now practically passed. We have entered upon the third period—the period of discussion—and now the pulp and the press and the teacher and even the politician are everywhere vying with each other, more or less, in the discussion of this theme, to prove that whether they accept it or reject it, they are at least not ignorant of it. It is safe to prophesy that the next great social issue of the world will be 'Capitalism vs. Socialism.'"

The speaker proceeded then to inquire into the evolutionary goal and the evolutionary process of human history and enlightenment. "The goal of human development," he said, "was to produce the conditions under which the largest number of the most perfect and complete human beings would realize the most perfect human happiness, and the process of this great achievement was the discovery on the part of man by virtue of his intellect that nature, in all her facts and forces, was pliable to his mastery."

"All the hell that is on earth is our own doing, and what we have done, we can undo. There is a sense in which man is omnipotent, while environment, if not remedied, determines character, yet the other inspiring truth follows, namely, that man can master his environment. Hence, whatever social conditions are a menace to human enlightenment and social freedom and justice can be remedied by the power that is in our hands."

"The Nineteenth Century," the speaker said, "was a century of vast preparations for some tremendous task—some gigantic human advance in the Twentieth Century." He outlined briefly six of these great preparatory efforts of the Nineteenth Century in the following order: The triumphs of machinery, the advance of evangelical religion, the progress of universal education, the development of the trust, the solidarity of labor in the trade union movement, and the might of the ballot—the government of the people by the people for the people.

"These great movements," said the speaker, "are but preparatory for the next great movement in human history, and we socialists declare that that next great movement is the movement for economic liberty, the overthrow of the trust system now in the hands of the few, and the establishment of the co-operative commonwealth, and this will be the basis for perfecting the culture, the education, the freedom, and other social and political aspirations of the people."

His subject tonight will be "The Competitive System Analyzed and Impaired."

Deming offers the same opportunities now that the most prosperous cities in the west offered several years ago.

FOREST RESERVES.

Although the interior department
may be perfectly competent in the dis-
charge of the multifarious duties con-
nected with its various bureaus, the
proposal to take the management of
forest reserves out of its hands is one
which seems commendable. A bill for
this purpose is now pending in con-
gress which provides that after the
work of their establishment shall have
been completed they shall be turned
over to the agricultural department.
Forestry bids fair to become one of
the most absorbing questions of the
future. One of the moves in the right
direction is the transfer of the forest
reserves to the agricultural depart-
ment.

SERVED TIME IN MISSOURI.

A special dispatch to the Denver News, from La Junta, under date of March 26, says:

An inquest was held today by Coroner Green, of Rocky Ford, on the remains of W. H. Wallace, lynched by a mob last night.

The verdict of the coroner's jury was that Wallace came to his death by gunshot wounds and strangulation at the hands of a party or parties unknown.

Coroner Green arrived in town this morning at 1:30, and after seeing the body cut down, it was taken to the morgue.

This morning was spent in trying to secure a jury. Men of the town either refused to serve or made a sufficient excuse and the work of selecting the jury was only completed this evening about 5 o'clock.

After the verdict was rendered Undertaken Cook prepared the body for inspection, and many people passed along and viewed the remains of the notorious colored man.

Mrs. G. W. White, of this city, whose house was broken into a couple of months ago and an attempted assault made upon her, viewed the remains this afternoon and positively identified the man as being the one who entered her house recently. He turned on the electric light and when she awoke thrust a revolver against her throat with such fierceness that it badly bruised her neck, saying: "If you scream I will kill you." Mrs. White, thinking she was going to be killed anyway, screamed with all her might, which aroused the neighbors and a man fled. Since Mrs. White's positive identification on other things are being charged against Wallace, and the people are more than ever convinced that the people have dispatched one of the most desperate men in the annals of crime.

The body was pierced with thirty-seven bullets, one of which severed the spinal cord, and one pierced the heart, while others penetrated the stomach and various portions of the body.

Sheriff Barr is the most thoroughly out of humor man in the county today, as he was captured by a posse headed by H. W. Potter, former sheriff of this county, and the man who Mr. Barr defeated at the recent election for the office of sheriff.

The members of the conference committee state that the most remarkable thing of the whole affair is the nerve displayed by Wallace. He asked for a pen and paper and wrote a letter to his wife and gave her an order for his wages, due him from the Santa Fe Railway company. Members of the committee state that his hand was as steady as could be, he not seeming to be in the slightest degree nervous. His repeated successful outrages are thought to be due to his supreme coolness and nerve. There was no mark of violence upon his head or face, and when prepared for shipment the body looked as natural as life. The body will be sent to his wife in Denver tomorrow.

Mr. King, who was sent here by the warden of the penitentiary with the bloodhounds, is of the opinion that Wallace is not the man who committed the crime, as the noun and not follow his trail. The people are all thoroughly convinced that the dog was not working properly, as he did not take the trail readily at any time, even when he was started from the very spot where the deed was committed.

Mrs. Miller, the victim of the assault, is not so well this evening, and it is doubtful whether she will be able to resume her journey to Denver very soon. The crowds which have been on the streets almost constantly since the news of the crime became known have dispersed and the city has resumed its usual order of business. It is rumored, however, that the authorities have the names of a number of the leaders of the lynching, and as the regular term of the district court convenes the first Monday in April, indictments will be filed against them. It would be a difficult task, however, to convict any one connected with the affair.

His Missouri Record.

Sedalia, Mo., March 26.—W. H. Wallace, colored, who was lynched at La Junta, Colo., for criminally assaulting Mrs. Henrietta Miller, an aged white woman, was sent to the penitentiary for two years for a similar crime committed here nearly four years ago. Wallace was employed as porter at the Missouri, Kansas & Texas passenger depot and stood well in the community. Almost weekly for three or four months there were mysterious assaults upon white girls returning home from work at night. Bloodhounds were finally secured and Wallace was run down, after which time there was never another case of assault. The evidence against him was only circumstantial, but he consented to plead guilty if given a minimum sentence. He was discharged under the three-fourths rule after having served eighteen months, and was next heard of in Denver. It was predicted when he went to the penitentiary that he would eventually figure as the principal in a lynching.

Practically Starving.

"After using a few bottles of Kodol Dyspepsia Cure my wife received perfect and permanent relief from a severe and chronic case of stomach trouble," says J. R. Eolly, real estate, insurance and loan agent, of Macomb, Ill. "Before using Kodol Dyspepsia Cure she could not eat an ordinary meal without intense suffering. She is now entirely cured. Several physicians and many remedies had failed to give relief. You don't have to diet. Eat any good food you want, but don't overload the stomach. Kodol Dyspepsia Cure will always digest it for you. SANTA FE.

From the New Mexican. W. N. Townsend is having a new brand of cigars manufactured at Philadelphia, which he calls the Santa Fe Central.

Mr. and Mrs. Fred W. Thayer, who have been residing in Albuquerque the

past few months, have returned to Santa Fe. They were accompanied by Charles LeBow.

Wednesday night on San Francisco street Felipe Martinez, of Tesuque, was stabbed in a row, but it is not known who his assailant was. No arrests have been made. The pavement was well sprinkled with blood Thursday morning which came from the wound of the injured man.

The death of three children occurred of pneumonia. They are Josefa Caldero, the 10-months-old daughter of Alvaro Caldero and Francisca Sals de Caldero; Jose Antonio Martinez, the 4-months and 5-days-old son of Adelaido Martinez and Anastacia Rael de Martinez; and Donaciano Sedillos, aged 3 years and 7 months, the son of Leonardo S. Sedillos and Victoriana Archuleta de Sedillos.

A petition, signed by most of the leading citizens of Santa Fe, has been forwarded to Governor Otero, of New Mexico, asking for executive clemency in favor of Paul Wunschmann, who pleaded guilty to a charge of having sent a challenge to fight a duel with pistols, and who was in consequence fined by the court in the sum of \$200, that being the minimum fixed by law.

Ten thousand demons gnawing away at one's vitals couldn't be much more than the tortures of itching piles. Yet there's a cure. Doan's Ointment never fails.

LAS VEGAS.

From the Record.

B. C. Pittenger got his shoulder pinched by being squeezed against the side of the barn, by his horse accidentally turning against him.

The friends of Hilario Romero will be pleased to learn that the wound resulting from his operation is healing nicely, and that Mr. Romero is steadily convalescing.

The addition to the home of Judge W. J. Mills is nearing completion. A room has been added to the second story, materially enlarging the house and adding to its appearance.

Prof. James G. McNary, John McNary and sister, Miss Margarita McNary, left today on the delayed ferry for Pittsburg, Pa., in response to a dispatch announcing the serious illness of their mother.

William T. Reed, the barber, who left here about three months ago for Chicago, writes that the climate of the Windy City is too much for him and that he will soon head for New Mexico again. Some Las Vegas people will be glad to see William.

Mr. and Mrs. Harvey are down from "the highest ranch in the world" for a few days' visit with mortals here below. They report a light snow fall almost every day for the past three weeks, but it melted immediately. Where there was generally several feet of snow at this time of the year, there is none now.

From the Optic.

Las Vegas had a representative on the delayed flyer. Mrs. F. P. Herzog was en route home from the south. She telegraphed her husband that she was not hurt.

D. R. Hunt, the genial assistant postmaster on the west side, is no longer a bachelor. His wife arrived from Evanston, Ill., their former home, on last Saturday. Both Mr. and Mrs. Hunt are thoroughly in love with Las Vegas and expect to make this their permanent home.

The Baptist young people had a good time in spite of wind and high moonlight. Two wagon loads enjoyed the hay excursion to Romeroville. The high wind blowing carried afar their merry songs, and the silent hills on their return echoed with peal on peal of laughter. At Romeroville they were served with substantial refreshments.

This is the great week of the celebration of the order of Penitentes. A certain irascible politician of the west side and who is a member of this order is quoted to have laid his boast to a prominent citizen that he carries 1,500 Penitente votes in his vest pocket. The Penitentes have been so surfeited with this politician's actions of late that it is very much a question of doubt whether or not he could pull a dozen

ECZEMA'S ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood coming in contact with the skin, producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes and other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had Tetters on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort. Four doctors said the Tetters had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never had any more of my old trouble."—Mrs. L. B. Jackson, late McGee St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear.

A Printer Greatly Surprised.

"I never was so surprised in my life, as I was with the results of using Chamberlain's Pain Balm," says Henry T. Cook, pressman of the Asheville, N. C. Gazette. "I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit. One day while looking over the Gazette, I noticed that Pain Balm was positively guaranteed to cure rheumatism, so I bought a bottle of it and before using two-thirds of it my rheumatism had taken its flight and I have not had a rheumatic pain since." Coughs, colds, croup, grip, bronchitis, other throat and lung troubles are quickly cured by One Minute Cough Cure. One Minute Cough Cure is not a mere expectorant, which gives only temporary relief. It softens and liquefies the mucus, draws out the inflammation and removes the cause of the disease. Absolutely safe. Acts at once. "One Minute Cough Cure will do all that is claimed for it," says Justice of the Peace J. Q. Hood, Crosby, Miss. "My wife could not get her breath and was relieved by the first dose. It has been a benefit to all my family. J. H. O'Reilly & Co., B. H. Briggs & Co.

NEW MILEAGE SCHEME.

Exchange Script Books to Be Issued by the Roads West of the Missouri.

An entire new form of ticket is soon to be placed on sale by the Chicago roads operating west of the Missouri river. Instead of buying local tickets with coin, transportation will be purchased by books. It is called an "exchange script book," and will be the first interchangeable mileage book to be used in the territory west of El Paso and Denver. Later it is expected that it will be adopted by lines from the Missouri river to Denver and El Paso.

The book resembles the usual mileage book, but the figures, instead of representing mileage, represent money, 5 cents for every line. The purchaser pays \$50 and is given a book with lines representing that amount. Upon presentation of the book at any ticket office the price of the ticket is torn from the book and a record of it made in the back of the book. Upon using all the book the purchaser, by presenting the cover, secures a rebate amounting to the difference between the gross and the net rate of the entire mileage traveled.

Officials of the following roads have agreed to use the book: Santa Fe, Colorado Midland, Colorado & Southern, Denver & Rio Grande, Oregon Railway & Navigation company, Oregon Short Line, Rio Grande Western, Santa Fe Pacific, Santa Fe & Joaquin Valley, Southern California and Southern Pacific.

Having a Run on Chamberlain's Cough Remedy.

Between the hours of eleven o'clock a. m. and closing time at night on January 25, 1901, A. F. Clark, druggist, Glade Springs, Va., sold twelve bottles of Chamberlain's Cough Remedy. He says, "I never handled a medicine that sold better or gave better satisfaction to my customers." This remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a good, reliable medicine for a cough or cold, or attack of the grip, use Chamberlain's Cough Remedy and you are certain to be more than pleased with the quick cure which it affords. For sale by all druggists.

Was the Verdict in the Baca Murder Trial.

CASES TRIED TODAY.

Jose Baca, charged with the murder of John Maxwell on the Navajo reservation on November 13, 1899, was this morning declared guilty of manslaughter by the jury. The penalty is from three to ten years imprisonment. The usual motion for a new trial was made.

A night session of court was held last night and the case went to the jury shortly before 10 o'clock. Judge Baker surprised the jury and court officers by the manner in which he carried the case to a rapid conclusion. On the conclusion of his charge Judge Baker said:

"I have been requested by the jury to send them to a hotel for the night and permit them to begin deliberating in the morning. The court does not believe he has the authority or the power to permit this. Nor does it seem wise or expedient to grant such a request. The jury will therefore retire to its room and begin its deliberations at once. I do not care how soon you get through."

The jury retired and elected J. W. Edwards as foreman. In a few moments Mr. Edwards appeared and asked that an interpreter be appointed.

"There ought to be some one on that jury," replied Judge Baker, "who knows enough of both languages to enable you to get along. The court is strongly opposed to sending an interpreter into the jury rooms during its deliberations. You must make every endeavor to get along without one. You deliberate without one until 9 o'clock in the morning and if at that time one is absolutely necessary the court will consider it. For the present you must get along as best you can without one. Adjourn court until 9 o'clock tomorrow morning."

At 9 this morning the verdict was ready and the jury released. It was made up of ten Mexicans and two Americans.

On cross examination in the afternoon Baca said he was sentenced to four years in the penitentiary for burglary but was pardoned by Governor Prince. He was later sent to jail here.

Captain Reed, for the prosecution, laid great stress on the testimony of Esquibel and said neither Baca nor Densmore were to be believed. Mr. Ortiz, for the defense, argued that the shot Baca fired was not the one that killed Maxwell and that Baca acted in self defense.

United States Attorney W. B. Childers did not speak until 8 o'clock last evening. He discredited the testimony of Baca and Densmore and made a powerful argument. Judge Baker at once charged the jury. He said their oaths demanded they perform their duty fairly and impartially. They were accepted as fair and impartial jurors and it was their duty to repel all bias, passion, prejudice or sympathy from their mind and render a verdict in accordance with the evidence. The court defined purposely, deliberately, premeditated and malice, as used in denning murder and explained on what the presumption of malice is based. He said if Baca killed Maxwell purposely, deliberately, with premeditated malice, it was first degree. If without malice, it was manslaughter unless it was in self defense.

The rule of self defense, Judge Baker said, was that if a man, in the lawful pursuit of his business, has reasonable ground for believing his life is in danger or that he is in danger of great bodily harm, he can defend himself. There must be an apparent danger and such a one as to induce a reasonable person to believe he is in great danger. The jury must consider what a reasonable person would suppose, placed as the defendant was placed, knowing what he knew, considering all circumstances and the actions of all parties at the time and just prior. If he later assaulted his antagonist from revenge or other motive he is not exempt from punishment. The jury is to judge solely as to credibility of witnesses. If Baca got the rifle to shoot Maxwell and Maxwell shot at him, it would not justify Baca in shooting as an assaulted party can defend himself. The court defined a reasonable doubt and said the jury can recommend clemency but the court would fix the penalty. The jury then retired.

This morning the case of U. S. vs. John Sherman, charged with selling liquor to Indians at Gallup, was tried. Messrs. T. N. Wilkerson and H. P. Owen appeared for the defendant. The witnesses for the United States testified that they watched several Navajo Indians near the place where the defendant was working, saw them go in a shed and later saw the Navajo join his companions and draw from under his blanket a black bottle, containing a liquid, the bottle and liquid being produced as exhibit and handed to the jurors to pass judgment upon. From the wry faces of the jurors it was evident that a point had been gained for the defendant. On conclusion of the testimony for the government, on the motion of the defendant to dismiss the court held the evidence to be insufficient to be presented to the jury, and instructed the jury to return a verdict of not guilty.

In the case of the United States vs. Dan Miller, selling liquor to Navajo Indians, the defendant withdrew plea of not guilty and entered plea of guilty, whereupon the court sentenced defendant to ten months in the county jail, he having already served six months awaiting trial.

The case of the United States vs. Dad Benson, charged with selling liquor to Indians, was set for trial this afternoon.

MURDER TRIALS.

Lawyers and Others Interested in Two Important Cases

During the term of the district court which begins at Las Cruces Monday there are a number of important criminal cases to be tried in which legal firms in this city as well as some other citizens are interested.

Two of the most important of these are the Hullin and Rand murder cases. Rand is a young El Paso boy, who while attending the K. of P. picnic at Las Cruces last summer on the Sabbath, when Perry Green of this city was killed, ran his horse over an aged Mexican woman and hurt her so badly that she died.

He was indicted for murder because it was alleged that he was running his horse through the streets in violation of the law and if he had not been riding in a reckless manner the woman would not have been injured.

Eugene Hullin, who is also to be tried at this term, is accused of shooting a cattleman by the name of Billy Gardner at Leonard, thirty miles west of El Paso, about two weeks ago.

An account of the killing has already been published in the News. Hullin and Gardner had quarreled. They met drew their guns and began shooting. As a result Gardner was killed and Hullin surrendered himself to the sheriff of Las Cruces.—El Paso News.

The Insane.

A short time ago the Boston Herald published some interesting figures regarding the proportion of insanity among native Americans and foreign-born. According to that paper, the number of alien insane is far in excess of the proportion of foreign born to native population in the United States. In the country at large, the proportion of native born to foreign born was eighty-four to sixteen; while the proportion of native born insane to foreign born insane was sixty-five to thirty-five. In other words, the proportion of insanity among foreign born is twice that of native born.

Favor Railroads.

The Pueblo Chieftain says: "There is a great and encouraging outlook for railroad construction this year and next year in New Mexico. Those people down there have queer ideas. Instead of setting the dogs on railroads and driving them away with shotguns, as we do here in Colorado, they seem to think railroads are a good thing, and are willing to give the last shirt off their backs to get them to come that way."

WORK IS DONE.

Territorial Grand Jury Made Its Final Report Yesterday.

SHOWER OF BOUQUETS.

The territorial grand jury was discharged yesterday after submitting the following report:

We, the grand jury, selected at this March term of the district court for Bernalillo county, to inquire as to offenses against the laws of the territory of New Mexico, having concluded our labors, respectfully submit our final report:

We have been in session and actually engaged in the investigation of matters coming before us, on nine days, during which time we have considered 32 cases, in 13 of which we have presented indictments. We have also made presentments to the court of no bills of eight cases in which the defendants were either in custody or under bond to appear, and in which, in our judgment, the evidence was insufficient. No presentments have been made in the other cases because, while we were unable to find true bills against the defendants, yet as they were not in custody or under bond to appear, it appeared unnecessary and undesirable to encumber the records of the court with any reference to them. To make a public record of the fact that a man has been even accused of crime, might work a great injustice to him, although it should also appear that the grand jury refused to indict him.

We are informed that the amount of business brought before us is much less than has been usual in this county and we cannot refrain from calling attention to the fact, and, congratulating the county upon the marked diminution of crime. It is also noticeable that we have had but few crimes of violence to investigate, not including even a single case of homicide, and that the greater part of the offenses for which been committed by non-residents of our county and not by those who may be considered our own people.

We have made examination of the various county offices and find nothing to criticize in their conduct and management, but on the contrary, we believe that there has been marked improvement in the conduct of all the county offices, and that the present officials are to be highly commended. We call special attention to the office of county superintendent of schools and the condition of the schools throughout the county. We learn that a most excellent corps of teachers has been employed during the present school year, and that almost every school district in the county now has its own public school building, and that within a short time there will be no district without such a building. The records of the office are in excellent condition, and the superintendent has been active and energetic in the discharge of his duties.

We find the office of the sheriff one of the most pleasant and attractive in the county court house, and that the duties of the sheriff are promptly and efficiently discharged, and all records of his business carefully and accurately kept, for which special credit should be given to the excellent chief deputy, Mr. C. E. Newcomer, as well as to the sheriff himself.

We find that in the office of the probate clerk and county recorder, great improvements have been, and are still being made in the methods of keeping the files and records, and when these are fully completed, we believe the office will be a model one. Our information is that already it is the best arranged and best conducted office of its kind in New Mexico.

In the office of the assessor, we find an efficient and industrious corps of assistants who appear to be earnestly engaged in an effort to improve the condition of the assessment of property in our county—a matter of the utmost importance to the public welfare. In this connection, we desire to recommend to the county commissioners that better provision should be made for the preservation, in easily accessible shape, of the great mass of assessment returns now in the office of the probate clerk and the assessor. While these returns have been carefully kept, yet they are not, and cannot with the present facilities be, so arranged as to enable one easily to find any particular return made, in past years.

We have made an examination of the county jail and while it is as well kept and the prisoners as well taken care of as circumstances will permit, yet we cannot find language strong enough to characterize the inhumanity of confining so many persons in such inadequate quarters. In saying this, we must not be understood as finding any fault with the sheriff, who has charge of the jail. He has done the best possible with the facilities at his command. We found 29 persons confined in a space which would be insufficient for one-third of the number, and we are told that the number is often much larger. Cleanliness and the ordinary decencies of life are impossibilities. Youthful offenders and hardened criminals are necessarily huddled together. The spread of contagion, both moral and physical, is certain.

We recommend most earnestly to the county commissioners that measures be taken for the enlargement of the jail and such an arrangement of its interior as will permit the proper separation of those who are confined in the jail. He has done the best possible to confine different grades and classes of prisoners in separate quarters.

We invite the attention of the county authorities to the case of a youthful prisoner confined as a pauper lunatic. We are informed that his family can provide for his support at the territorial asylum, and they should be required to do so, thus relieving the county of expense and removing him from a place where no insane person ought to be kept, if it can be avoided.

The office of the collector and treasurer is so kept that any item of information with regard to the finances of the county, or the condition of the taxes of any person whose name appears upon the tax rolls can be instantly furnished. We learn that the board of county commissioners at their last session made a thorough examination of this office, and checked all

vouchers, books and accounts and found them to be correct. As a matter of information to the public, we attach to this report, as a part thereof, the statement of the receipts and disbursements for the year ending December 31, 1901, including the balances to the credit of the district schools in the various districts of the county. In conclusion, we desire to express the appreciation of our labors by your honor, and by the officials of the court, and now ask to be discharged for the term.

All of which is respectfully submitted.

May Ask More of Carnegie.

Las Vegas is considering the offer of \$10,000 made by Andrew Carnegie for a library building. The city council in an informal manner discussed the matter without taking definite action. Inasmuch as it is regarded by many citizens as expensive to support a \$10,000 building and library as a \$15,000 one, sentiment is growing among the citizens, especially business men, for a counter proposition asking for \$15,000.

The Vice of Naggling.

Clouds the happiness of the home, but a nagging woman often needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters, the most wonderful remedy for all women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used it, and become healthy and happy. Try it. Only 50c. All druggists guarantee satisfaction.

Chronic Diarrhoea.

Mr. C. B. Wingfield, of Fair Play, Mo., who suffered from chronic dysentery for thirty-five years, says Chamberlain's Colic, Cholera and Diarrhoea Remedy did him more good than any other medicine he had ever used. For sale by all druggists.

INDIAN SCHOOL NOTES.

Special Correspondence.

Mr. and Mrs. James H. Martin, from Indiana, go to San Felipe, N. M., to take the positions made vacant by Mr. and Mrs. Light's leaving.

Mrs. Ida Farnany, from the Mesquero Indian school, has been appointed to the position of cook at this school and she assumes the duties today.

James White, who has been filling the position of cook in the institution temporarily, has been relieved and now accepts the position of club cook for the employees.

Our industrial teacher with his boys, managing two teams are hauling the material from Lee's lumber yard in the city. The superintendent walks around with a broad smile on his face as he views the success of the undertaking.

W. T. Light and wife, who have been filling the positions of teacher and housekeeper at the San Felipe school for the past nine months, have been transferred to a boarding school in Wisconsin, where Mr. Light will be superintendent.

A. O. Wright, supervisor of Indian schools, has been inspecting the school for the past two weeks, and he expressed himself well pleased with the progress that has been made. He left for Santa Fe last evening, where he will inspect the Indian school of that city.

The school grounds are the scene of busy life these days as the new shops building is well under way and a large force of boys are at work sheeting and siding the same. A dozen hammers may be heard driving nails and half a dozen saws at work at the same time. The work is being rushed and the boys take great delight in seeing the building grow to a thing of beauty under their work.

COFFEE PHILOSOPHY.

Don't Blame the Doctor.

The most dangerous false friend is the one that under the guise of friendship, day by day insinuates himself into your good graces and then takes advantage of the association to do you harm; that is exactly the poison of coffee. It enters your system under the guise of a warm, close friend and slowly, day by day, works away at your destruction.

Why this should be no can tell, but it is a fact nevertheless. Hundreds of thousands are testifying of the terrible straits that coffee drinking has led them into.

In our clearer moments we know that health, bounding perfect health, brings with it the peace of nerve and clearness of mind that makes us kings instead of slaves, and brings a heaven on earth to us.

Through the very perversity of mankind, sowing the elements of a tangible demon, we persist in taking into mouth and stomach the false friend even after we know it is working to throw us out of the peaceful heaven of health, and set up within us that condition of disease that the nerves shows variously in dyspepsia, heart trouble, kidney trouble, etc., etc.

The patient physician who has, for years, been explaining to different people under his care the powerful effects of coffee on highly organized persons, finally becomes a bit careless and feels that he can only point out the facts and then let patients go their own way. Their very perversity will make of them slaves, and they follow the habit with the blind, dogged fatalism that cannot be understood.

Coffee "soaks" them certain and sure and when they are hit hard enough they finally come around to the point where they are forced to give it up, then Postum Food Coffee comes as a relief in the time of desperate trouble. It requires no effort to slip off coffee drinking for well made Postum, and the change of health is something miraculous in many cases.

EASTER SERVICE.

Program Arranged for Church of Immaculate Conception.

The Easter service at the Church of the Immaculate Conception for both morning and evening will be one of the most elaborate musical programs ever given at this home of fine music, and will not be excelled this side of Chicago. The grand opening for 10 o'clock mass will be "Wagner's Pilgrim Chorus" for organ and violin. The mass service will open with the "Vidi Aquam" by Beecher, the kyrie from Haydn's sixteenth mass, Gloria, from Millard's mass in B flat, Credo from Gloria first mass, the offertory for soprano solo, and chorus will be "Regina Colla," by Curto, the sanctus and benedictus from Gounod's "Messe Solenne," the Agnus Dei from Mozart's twelfth mass, the postlude will be the Priest's march by Wagner. On this occasion the organist, Miss Palladino, will have Ed Grunsfeld preside at the organ. The following will compose the choir on Easter Sunday: Soprano, Mrs. Shinick, Mrs. Boatright, Mrs. Moore; altos, Miss Anita Armijo, Mrs. Thomas Goggin; tenors, Eathen Allen Hunt and Duncan Bell; basses, Harry Bullard and C. E. Burg. Mass will commence at 10 o'clock sharp. The grand Easter musical vespers at 7:30 in the evening will be the finest ever given in this church. The full morning choir will take part, and the Sisters' choir will chant during the service. The service will open with Millard's beautiful vespers. Among the solo parts are "Juraire" for bass, "Judicabit" for soprano, "Gloria Patri" for soprano and alto duet, "Laudate Dominum" for tenor, "Ave Maria Stella" trio for soprano, tenor and bass. The "Magnificat" from Mozart's twelfth mass, "Regina Coeli" by Goltz, "Hosanna," tenor solo, by Granier; "O Salutaris," trio by Haydn, for soprano, tenor and bass; "Tantum Ergo," by Rossini, for quartet.

How to Prevent Pneumonia.

You have good reason to fear an attack of pneumonia when you have a severe cold, accompanied by pains in the chest or in the back between the shoulders. Get a bottle of Chamberlain's Cough Remedy and use it as directed and it will prevent the threatened attack. Among the tens of thousands who have used this remedy for colds and la grippe, we have yet to learn of a single case that has resulted in pneumonia, which shows that this remedy is a certain preventative of that dangerous disease. For sale by all druggists.

BAKING POWDER.

Three Car Loads of "Gold Label" Sold to L. B. Putney.

H. O. Reno, special representative for the R. Hardest Manufacturing Company, of Denver, Colo., left on the limited last night after a stay of three weeks in and around Albuquerque in the interest of his house. He was probably the happiest passenger aboard for he carried in his pockets orders from L. B. Putney for three car loads of the celebrated Gold Label baking powder, made by his concern. This powder is the biggest seller in this neck of woods and under these conditions it would be superfluous to say that its quality was not the best.

This order shows the importance of Albuquerque as a jobbing point and also the wonderfully large trade of L. B. Putney and the confidence in which he is held by his trade. There is no jobber west of Chicago that has ever bought at one time, and of one brand, such an order.

Mr. Reno says that the specialty man who is lucky enough to place his goods with Putney is ashamed to take the orders they are so easy. "Hard work, business ability, honesty, sincerity and fair dealing with your trade, capital and a good town," said Mr. Reno, "is a combination that makes successes and Mr. Putney seems to have adopted these characteristics as his motto."

FOR THE PENITENTIARY.

Judge Parker Sends Some From Grant County Court.

In the district court at Silver City the murderer, Portillo, surprised the court when he was sentenced by stating that he could have escaped from jail had he wished. He said that Jesus Sanchez, who was hung in Silver City last June, told him that he had secreted a file in the jail, but never attempted escape, preferring death by hanging to being detected and shot to death by the guards. He told Portillo to get the file and saw his way out, but he did not. The file was found as stated by Sanchez and Portillo.

Isidore Portillo who killed an unknown Mexican woodchopper at Pinos Altos about a year ago, pleaded guilty to murder in the second degree and was sentenced to ninety-nine years in the penitentiary.

The Secret

Of womanly health would be esteemed as priceless by thousands of suffering women. Each month sees them moaning in a darkened room. At the best they endure pain every day. At the worst the pain becomes torment.

The secret of womanly health is in keeping the womanly organism in a perfectly healthy state. This can be done by the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries debilitating drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

Women suffering from chronic forms of disease are invited to consult Dr. Pierce, by letter, free. All correspondence is held as sacredly confidential and womanly confidences are guarded by strict professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Accept no substitute for Dr. Pierce's Favorite Prescription. There is nothing else "just as good" for womanly ailments.

"I suffered for more than ten years with female weakness of very bad form," writes Mrs. D. Marwood, of Treherne, Macdonald Co., Manitoba. "I used Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' with good results. I am able to do all my own work now. I do not know how to thank you enough for the kind advice you have sent me by letter. Your remedies did for me more than all other doctor's medicines, and I have taken lots of them."

Dr. Pierce's Pleasant Pellets cure biliousness.

Of guilty to shooting Juan Fino at Shakespeare, got one year.

Several cattle thieves got sentences ranging from one to five years.

Lockjaw From Cobwebs.

Cobwebs put on a cut lately gave a woman lockjaw. Millions know that the best thing to put on a cut is Bucklen's Arnica Salve, the infallible healer of wounds, ulcers, sores, skin eruptions, burns, scalds and piles. It cures or no pay. Only 25c at all druggists.

Railroad Topics

A special rate to Mexico and return is advertised in The Citizen.

One of the big electric engines at the local railway shops was given a trial yesterday.

Heavier steel is being put down for the Santa Fe through the town of Fort Madison, Iowa.

G. W. Smith, the master mechanic stationed at San Bernardino, is in the city on business.

Superintendent Fox has returned to Las Vegas from his trip south, on a bridge inspection tour.

Elmer Espelin, formerly of this city, has returned to his work in the Topeka shops after a serious illness.

Alex Lyons, from Gainesville, Texas, is the name of a new employee at the local railway blacksmith shop.

Engine 282 was given a trial run to Isleta yesterday, with Engineer Mearns and Fireman Marshall in the cab.

Big consignments of new furniture arrived yesterday for the Alvarado hotel, and S. F. Klotz is busy checking up.

Engine 331, heretofore in charge of Engineer Reed and Fireman Peeler was brought to the shops yesterday for a general overhauling.

G. W. Closson, fuel and ice contractor, is coming west on a business trip which will consume a week's time. He will come as far as Albuquerque.

Monday morning the ground was broken for a new eating house at Rincon on the Santa Fe, to take the place of the one which was burned recently.

Engineer Ed Clark has moved his family from Winslow to Gallup and is occupying one of the railroad cottages on railroad avenue, of the latter town.

The Brooklyn Eagle estimates that more than \$400,000,000 is to be expended on the railroads of the United States during the coming summer alone.

The appropriations made by the Santa Fe railway company for this year include \$183,960 for road bed ballasting in New Mexico and Colorado and \$23,000 for a new hotel and depot at Raton.

Conductor E. W. Barry of the branch to Santa Fe, who has been ill the past two weeks with erysipelas is on the road to recovery. Conductor John F. Mulhearn, of Las Vegas, is taking his place at present.

More through passengers were on the north bound train No. 2 this morning than could be accommodated at the Harvey house on that sitting. A few such occasions will tend to hurry the completion of the new hotel.

A number of engineers and firemen on the first division of the Santa Fe Pacific have been laid off this week on account of the introduction of larger engines, nine of which will do the work of fourteen of the smaller ones.

Agent Myers, of the Santa Fe railway, received notice that the Santa Fe Railway company will open a station on April 10 at the crossing of the Dawson railway over the Santa Fe near Dover, Colfax county. The name of the station will be French.

The earnings of the Denver & Rio Grande for the second week in March show a slight gain. They are as follows: Second week in March, 1902, \$184,000; 1901, \$182,000; increase, \$2,000. July 1 to March 14, 1902, \$5,256,200; 1901, \$7,916,700; increase, \$339,500.

Engineer A. B. Clark and wife, of Deming, will leave for their home in San Marcial on or about the first of the month. Mr. Clark is the well known and popular engineer of the Santa Fe switch engine at Deming and he and his estimable wife have many friends in that town.

It is getting about time for the annual spring cattle rush to spring itself on the railroads, though so far there has been but little hint that it was coming. Business in the freight traffic department has been duller than usual during the last two months, but it is thought within a short time it will open up.

Grading has been begun on the line near Carrolton, Mo., which will connect the Santa Fe with the Wabash. The two roads have consummated a deal whereby they are to use the parallel tracks of one another, thus furnishing them a double track. The distance is about thirty miles, extending from Carrolton to Camden.

The route surveyed by the Arkansas Valley & Western Railroad company is being resurveyed by the Frisco, a fact that substantiates the fact that it has been absorbed by the latter company. The proposed line runs from Sepulpa, I. T., to Enid, Okla., a distance of 125 miles, and will become a part of the system recently purchased by the Frisco.

Six of the patent Cafferty tie-plates, the invention of T. S. Cafferty, roadmaster on the eastern division, have been turned out by the Topeka shops and will be distributed at points over the system, where they can be given a fair test. It is the plan to have their efficiency tried by placing them under rails where the traffic and rolling stock are heaviest.

On account of meeting of Knights Templar in El Paso tickets will be sold to Mexico and return very cheap. Return limit, thirty days. Tickets on sale April 15 to 20 inclusive. Clean Pullmans through El Paso to Mexico. The chance of your life time to see Mexico at this rate. Special rates to other points. Call at city office or address, W. S. Mead, El Paso.

NEW SALT LAKE LINE.

D. H. Moffat Projects a Short Cut from Denver.

Another Pennsylvania Central has been born. It penetrates a new and undeveloped Pennsylvania that is as yet without a single mile of railroad track. D. H. Moffat is its father. Its development into maturity will be the culminating achievement of his remarkably successful career.

Instead of directly crossing the Alleghenies for 300 miles to Pittsburgh, it will boldly climb the Rocky mountains in front of Denver for 525 miles in a bee line to Salt Lake, reducing the present distance by 190 miles and the present time by ten hours.

It will be the stem line, the trunk line, the scenic line, the passenger line, eventually the double track line for transcontinental travel. It will carry passengers through Denver and Salt Lake, the two rising cities of the great land of gold and sunshine that will sustain 10,000,000 of people, according to President Roosevelt. Every transcontinental traveler wishes to pass through and stop off at these two wonderful, promising and famous cities. But all existing routes go around them from 106 to 130 miles. If Denver could flourish in spite of this disadvantage, she will grow with renewed leaps and bounds when it is removed. If all the roads passing through Chicago had been for the past thirty years running over a hundred miles south of her, compelling a detour of over 200 miles in order to stop there, her development would have been hampered precisely as that of Denver has been from the lack of this great through line.—Denver Times.

A DOUBTING THOMAS.

Had His Falling Hair Stopped and Dandruff Cured Without Faith.

H. B. Fletcher, Butte, Mont., October 20, 1899, says: "Like many other people I have been troubled for many years with dandruff and within the last few months my hair came out so badly that I was compelled to have what I had left clipped very close. A friend recommended Newbro's Herpicide. I confess that I doubted his story; but I gave Herpicide a trial and now my hair is as thick as ever and entirely free from dandruff. 'Destroy the cause, you remove the effect.' At druggists, \$1. Herpicide is a delightful hair dressing for regular use."

Entitled to Baggage.

When it comes to railroad traveling a dead man or woman has the same baggage privileges as a live one. This was decided upon at a recent meeting of the general passenger agents of the important railroads of the country. Recently a funeral party consisting of five persons with the corpse, and the party had nine hundred pounds of baggage. The travelers demanded that one of the trunks be checked on the dead man's ticket. The agent objected but consented to refer the matter to the association for adjustment, and it ruled that a full fare ticket for a dead man carried the same baggage privileges as a ticket for a live one—150 pounds.

For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children's ailments, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Would Smash the Club.

If members of the "Hay Fever Association" would use Dr. King's New Discovery for consumption, the club would go to pieces, for it always cures this malady—and asthma, the kind that baffles the doctors—it wholly drives from the system. Thousands of once-hopeless sufferers from consumption, pneumonia, bronchitis owe their lives and health to it. It conquers grip, saves little ones from croup and whooping cough and is positively guaranteed for all throat and lung troubles. 50c, \$1.00. Trial bottles free at all druggists.

Santa Rosa Notes.

The tracks have been laid in the round house.

The coal chutes are completed and are loaded with coal.

The carpenters are painting the large steel bridge across the Pecos river.

Carpenters are at work cutting the heavy timbers for the roof of the round house.

Mr. Burgess, assistant freight agent at Santa Rosa, has been at Tucuman for a week.

F. S. Park, of Herington, Kan., is here in the interest of the stock yards at this place.

The new depot is almost completed. This will be the finest depot along the line west of Hutchinson.

T. A. Lowe, formerly freight and baggage master, at Liberal, Kan., is now located at this place and is working in the car department.

The commercial track is being laid next to the townsite, for the benefit of the wholesale men.

O. P. Buyers, commercial agent for the C. R. I. & P. R. of Hutchinson, is in Santa Rosa to make arrange-

ments for a special rate for shippers at Santa Rosa.

A few nights ago as Agent McQuade was going to the freight office to his work, some one hidden near the passenger depot fired two or three shots at him. He promptly drew his gun and sent a couple of chunks of lead in the direction from which the shots came. He then went to the place where he thought the parties were hidden but could find no trace of them. They undoubtedly took Mac for a ten-foot and thought him an easy victim.

For the Complexion.

The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruptions. DeWitt's Little Early Risers keep the liver and bowels in healthy condition and remove the cause of such troubles. C. E. Hooper, Albany, Ga., says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years." Never gripe or distress. Safe thorough and gentle. The very best pills. J. H. O'Reilly & Co.; B. H. Briggs & Co.

High Grade Bulls for Sale.

The undersigned has for sale on his farms near La Junta, Colorado, about forty 3 year old, 150 2 year old and 150 yearling high grade Hereford bulls; all of them better than 15-16. Also about ninety yearlings out of full blooded non-registered cows, sired by imported registered bulls. Parties wishing stock of this kind will get prices by corresponding either with J. S. Croasley, La Junta, Colo., or myself, 820 Equitable building, Denver. These bulls have been well wintered and are in fine condition for turning on the ranges, not having been overfed, but are in good flesh, strong and active. They will do much better service than any bulls of the same age brought from the eastern farms.

Business Opening, \$5,000. Here is a chance for some one to purchase a well established and very profitable business in a first class mining town in Arizona at a bargain. It is about a \$5,000 proposition, including fine up to date stock, three lots, large storeroom with cellar, stable, five-room dwelling house, finely furnished, etc.; monthly sales, \$2,750, mostly cash; terms easy; death of wife and child of proprietor reason for selling. At a glance it will be seen that this is a rare chance to make an exceptionally good investment, or full particulars and terms, address or see H. S. Knight at once, Albuquerque, New Mexico.

Notice to Housekeepers. We employ both processes of cleaning carpets. The steam power method of thoroughly removing all dirt and the scouring on the floor method which rejuvenates old carpets. If you contemplate having your carpets cleaned or scoured or do not know which method is the best for your particular carpets, secure my conscientious and expert advice which I will freely and frankly give. As my knowledge and long experience in all branches of the carpet business makes it of great value. All work positively guaranteed.

More Harmful Than Alcohol

Overeating Worst Form of Intemperance.

If your food is undigested, you are underfed, no matter how much you eat. And the underfed man is, to the extent of the underfeeding, crippled for the battle of life. On the other hand, there is such a thing as overeating. The harm done by indigestion caused by overloaded stomachs exceeds that from the increased heart beats caused by the use of alcohol or whiskey.

Eat as much good food as you need but don't overload the stomach. If your stomach is weak it may refuse to digest what you eat. Then you ought to use a good digestant like Kodol Dyspepsia Cure, which digests what you eat without the stomach's aid. This rest and the wholesome tonics contained in Kodol Dyspepsia Cure soon restore health. You don't have to diet. Don't eat too much. That's harmful. But eat enough and of sufficient variety. Kodol Dyspepsia Cure will digest it. It quickly relieves the sensation of fullness and bloating from which some people suffer after meals. It prevents belching and absolutely cures indigestion and other stomach troubles. Especially good for children.

Lomel J. J. Marville, C. says: "I suffered from dyspepsia for thirty years but a few bottles of Kodol Dyspepsia Cure completely cured me and I heartily recommend it to all sufferers from this disease."

LOCAL PARAGRAPHS.

There was not a single case in police court this morning. City politics are getting interesting.

Ernest Meyers, of the firm of Meyers Abel company, wholesale liquor dealers, returned this morning from a short business trip to southern Arizona.

Mrs. E. W. Spencer, who has been spending several months visiting at different places in Kansas and is now at Wichita, is expected home Sunday evening.

The other afternoon, Martin, the little son of Mr. and Mrs. J. H. McCutchen, while playing on the front porch of his home, fell off and in consequence had his collar bone broken.

Will and Frank Springer were at the depot this morning to meet their mother, Mrs. C. A. Barry, who arrived from Los Angeles. Mrs. Barry will make her future home in Albuquerque.

Last night the Eagles initiated Don Rankin, J. H. Mason, W. E. Grimmer and Frank A. Hubbell. After the close of the session the lodge enjoyed a farce trial of one of the members for alleged misdemeanors.

T. J. Helm, the well-known and efficient general agent of the Denver & Rio Grande at Santa Fe, is in the city today on business. Sir Thomas is all right as a railroad official, and he is well acquainted with the railroad map of the southwest.

O. Bombini, who has been seriously ill with pneumonia the past week, is still dangerously ill, and fears are entertained that he will not survive his present illness. This is the third attack of the pneumonia, and Dr. Pearce is doing all in his power to save his patient, being up with him the past few nights.

With the coming of spring a general cleaning up of the streets and alleys should commence. All should unite in this work, so as to keep out the deadly small pox, typhoid fever and other diseases. All garbage and dirt on the streets, and in alleys and yards, should be removed as soon as possible. Cleanliness is health. Street Commissioner Tierney is doing his work nicely, but property owners ought to render him assistance.

M. J. McAtee has the contract for the handsome residence to be erected by H. H. Tilton on West Tijeras avenue, and will begin construction at once. The building will be equipped with all the modern conveniences and has been leased by Judge Baker. Mr. McAtee has just completed an eight-room brick building on Santa Second street for P. Masetti, and is rushing work on the two-story residence of N. E. Stevens on West Coal avenue.

General Funston avoided the welcome which Albuquerque wanted to extend to him and quietly slipped through here on the California limited at 11 o'clock yesterday morning. No one knew anything about it except Conductor D. R. Snyder, who brought the train down from Las Vegas and he kept quiet about it. It looks as though Albuquerque will only be able to entertain General Funston by first securing the "consent of the entertained."

F. C. Matthews, one of the best railroaders that visits this section and representing one of the very best railway companies in the world—the Burlington—is here today and made a pleasant call at the Citizens office. Mr. Matthews is the traveling passenger and freight agent of the Burlington and he stated today that since the Burlington commenced bidding for passenger and freight business from this section, via Denver, the traffic has materially increased and his trips to the southwest will be oftener in the future. The Burlington's efficient representative at Denver is G. W. Vallery.
