BITTER BATTLE CONTINUES ALONG FRONT OF 120 MILES; NEITHER SIDE RESTS DAY OR NIGHT FROM WORK OF DEATH

ARTILLERY FIRE INCESSANT AND TROOPS ARE INJURED BY SHELLS BURSTING ABOVE THEIR HEADS

Important Movement by Allies Said to Be in Progress Which May Decide Result of Struggle Which Has Been Waged for Nearly Two Weeks; German Center Said to Have Been Weakened by Reinforcements Sent to Assist Wings Threatened by French and British; Engagement Is Imperiling Line of Communication of Invaders From Direction of Belgium; Soldiers Smoke Pipes and Cigarettes as Relaxation Between Charges.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

At the Battle Front, Sept. 25 (via Paris, 6:16 p. m.).—French and British troops, intermingled with Turocs and Moors, not only held their own, but caused the strongly reinforced German western wing to reel backwards near St. Quentin yesterday and today and imperilled the German line of communication towards the frontier of Belgium.

The German center has been weakened by the rush of troops from that position to meet the threatening movement of the allies, and two strong forces were engaged at close quarters today between St. Quentin and Tergier. The military authorities naturally refuse to permit the disclosure of the exact position of the fighting, but it is generally known that the battle now progressing is of prime importance.

Fighting Continues.
Meanwhile at other parts of the battle line, which is about 120 miles long, fighting continues today in dogged fashion. The allied troops followed the example set by the Germans and dug themselves deeply in. The artillery of both armies kept up an incessant fire, while French and German aviators reconnoitered from above.

The commanders of the allied forces have found the reason for the wonderful precision of the German fire in a way discovered in their lines who signalled directions. He was caught and immediately shot.

Troops Hardened to It.
All the troops appear to have become thoroughly hardened and accustomed to conditions. The commissariat and the ammunition supply departments are working perfectly. While the soldiers are occupying the advanced firing lines they are scarcely ever without one hot meal a day, which is brought to them in camp kettles.

The British artillery officers praise highly the gunnery of their opponents. They declare that the German shells almost always burst at accurate range, but often too high to do damage.

Soldiers Rest Occasionally.

The soldiers rest occasionally when in deep trenches, smoking pipes and cigarettes, for a ration of tobacco is served regularly. Meanwhile shells tear by overhead with a sound like the ripping of parchment.

British officers relate an incident which they say occurred during twilight yesterday. A large force of German infantry, when charged by a British battalion, held up their hands in token of surrender. The British approached to take them prisoners, when it was said, the Germans reopened fire. The British officers ordered their men to lie down, which they did. The three British machine guns were brought into action and killed every German in that portion of the field.

WEATHER FORECAST.

Washington, Sept. 25.—New Mexico: Fair Saturday and Sunday.

The Day in Congress

SENATE.

Met at 11 a. m.

Senator Spooner made a speech on the war revenue bill.

It was voted to take up the Clayton bill for final vote after the Alaska coal land leasing bill.

Ratified special peace treaties between the United States and Great Britain, France and Spain.

Recessed at 5:50 p. m. to 11 a. m. Saturday.

HOUSE.

Met at noon.

The war revenue bill was taken up for passage.

Rivers and harbors committee agreed to recommend senate substitute cutting appropriation to \$29,000,000.

Passed war revenue bill by vote of 224 to 135.

Adjourned at 5:50 p. m. to noon Saturday.

NO EVACUATION OF VERA CRUZ UNTIL TROUBLE FINALLY ENDS

Secretary of War Garrison Cables General Funston to Delay Loading Transports Now in Harbor.

VILLA MAY BE ONLY BLUFFING CARRANZA

There Is Hope That Mediation May Yet Be Successfully Invoked to Prevent Another Effusion of Blood.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, Sept. 25.—American forces will remain in Vera Cruz until the question of authority as between General Carranza and General Villa is settled. This was the consensus of opinion of administration officials today, although no definite announcement of the intentions of the Washington government was made.

Secretary Garrison telegraphed General Funston at Vera Cruz not to land any necessary baggage or supplies aboard the transports, informing him at the same time that the Americans would not be withdrawn "for at least ten days," until certain administrative questions concerning the transfer of funds at the customs house could be adjusted through diplomatic channels.

Later the following formal statement was issued by the war department:

Formal Statement Issued.

"Numerous inquiries were made here and of General Funston with respect to the date of the departure of the American troops from Vera Cruz. In view of the matters which must be first settled, no date can at present be fixed, but in no event can the departure take place within the next ten days, and General Funston was so advised."

Inasmuch as telegraph communication with Mexico City is irregular, state department officials did not know when they could reach a satisfactory understanding with the Carranza government. Negotiations have proceeded as to the point of requesting Carranza to designate officials to whom the customs house might be transferred. The possibility that General Villa might object to the American government's construction of the Carranza authority as "the central government" in Mexico City is being considered by officials and indications are that the big sum of money collected for customs by the American officers will not be delivered to any Mexican faction until there is a definitely established government in the southern republic.

Agreement Possible.
Administration officials think an agreement between Villa and Carranza may be effected through the mediation of the Mexican leaders though they have no reports to this effect and base their belief on what the two men already have been told of the unfavorable attitude of the United States toward further bloodshed in Mexico.

The anxiety of prominent constitutionalists in Mexico City to mediate the dispute is regarded as a hopeful sign here, as was General Carranza's declaration that he would not attack Villa but would order his forces merely to defend themselves.

Inasmuch as General Villa's chief objection to the present government in Mexico City is the fact that General Carranza is its executive, a basis for compromise is thought likely among officials and many Mexicans, because it is known that General Carranza intended shortly to retire in favor of a provisional president acceptable to all factions.

Villa May Be Bluffing.

Some observers are disposed to think that General Villa's threats of a revolt are designed more as a show of force either to prevent Carranza from placing in power as provisional president one of his supporters or to diminish Carranza's chances of being chosen president in the general election.

While consular reports showed the southern country to be trembling in fear of another revolution, nothing was received to indicate that a physical clash of any importance was imminent. President Wilson is absolutely neutral as between the two factions and is endeavoring to have consular agents refrain from involving the American government on the side of either Villa or Carranza. Whatever efforts the consular agents may make will be in the direction of aiding the two chiefs or their representatives to reach an understanding.

President Annoyed.

President Wilson, it was understood, was annoyed today by reports that the Washington government leans toward one of the two factions in the controversy.

At the Mexican embassy here, the belief was reiterated that bloodshed would be avoided and mediation successful.

Rafael Zubizarain Calzadilla, head of the constitutionalist agency, gave out the following telegram from Mexican Consul Garcia at Laredo, Texas:

"It is not true that the head of the garrison at Nuevo Laredo, Col. Re-

undo Garcia, has declared his allegiance to General Villa. He remains in his place of honor defending with loyalty and honor the principles of liberty and justice."

MEXICAN MOB ATTACKS AMERICAN CONSULATE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

El Paso, Tex., Sept. 25.—Stones were thrown through windows of the American consulate at Parral on September 15, declared American refugees arriving at the border today. They told of an anti-American uprising at Parral, a mining town in northern Mexico, in which orators at the town plaza demanded that the United States withdraw its troops from Vera Cruz. Later the mobs, arrivals here said, marched past the residence of the American vice consul and threw stones through the building.

Reports today to Rafael Musquiz, the Carranza consul here, said that a congress of generals met at Mexico City to attempt an adjustment of the most recent Carranza-Villa disagreement. The results of the meeting were not made known, nor was it explained whether Villa was represented at the meeting.

Asquith Appeals to Ireland.

Dublin (via London, Sept. 25, 11:20 p. m.).—Frederic Asquith appeared at the Mansion House here tonight for the purpose, as he expressed it, in the opening of his speech, "as head of the king's government to summon loyal and patriotic Ireland to take her place in defense of our common cause."

MAYTORENA HAS ATTACKED HILL'S SONORA FORCE

Battle Is on at Santa Barbara and Carranza Commander Is Calling for Reinforcements in Cananea.

HILL'S FORCES ARE ROUTED BY MAYTORENA

Douglas, Ariz., Sept. 25.—Carranza forces under Gen. Benjamin Hill were routed today by the troops of Governor Maytorena in the first engagement of the new revolution proclaimed by the state of Sonora in connection with General Villa's defiance of Carranza. Hill's loss is indefinite.

Fighting began early today near Santa Barbara and continued throughout the retreat toward Santa Cruz which Hill ordered when he found his troops outnumbered.

A concentration of the Carranza forces, including eleven marauders in northern Sonora, which answered Hill's general order for their aid is ordered for Naco, where it is expected the definite test of strength will come. Hill is playing for time until General Huerta arrives with reinforcements from Sinaloa.

Hill's wounded were first taken to Cananea, his headquarters, but tonight arrived at Naco along with Cananea refugees. Supplies and munitions are reported on the way and as the troops are withdrawn from the west they are burning the railroad bridges.

Maytorena's forces are said to be following closely. The first contingent of wounded numbered twenty-nine, among who were Col. Arnulfo Gomez, second in command, and Captain Abad.

Hill has four engines and about 115 cars with which to complete the collection of his straggling army and concentrate supplies and men at Naco.

The garrison at Agua Prieta has lined up for him. Maytorena reported tonight that his men had killed seventy-eight of Hill's troops, including two majors and nine other officers. One hundred prisoners were captured with a large quantity of ammunition and supplies.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Douglas, Ariz., Sept. 25.—Governor Jose Maria Maytorena of Sonora, attacked the forces of General Benjamin Hill, the Carranza commander, today at Santa Barbara. Hill sent special trains to Cananea for reinforcements. Nothing was known here as to the outcome of the fight, but seven of Hill's men, including Lieutenant Colonel Arnulfo Gomez and Captain Abad, were sent to Cananea this afternoon seriously wounded.

Hill, according to an official announcement, has ordered all the garrisons in northern Sonora to join his army and assist in repelling Maytorena.

The fighting is being watched by two troops of United States cavalry under Major Byram, who has instructions to arrest men of either faction who may attempt flight across the international boundary.

Col. P. Elias Calles, who was deposed as military commander in Sonora, after quarrelling with Maytorena, telegraphed to Mexican representatives here today that he was on his way from Mexico City to join General Hill. He is traveling via Laredo to avoid contact with any of General Villa's men.

VILLA'S DEMANDS INCOMPATIBLE WITH DIGNITY OF FIRST CHIEF

Carranza Gives Out Statement as to Why Hostilities Are About to Begin Again in Mexico.

CHANGES COULD NOT BE ALLOWED IN CALL

Military Head in Chihuahua Is Not Disposed to Be Fair, According to View of Acting President.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Mexico City, Sept. 25.—Gen. Venustiano Carranza tonight gave to the press a ten-page typewritten statement reviewing the difficulties between himself and Gen. Francisco Villa. General Carranza declared that General Villa demanded impossible changes in the call issued for a conference of constitutionalist chiefs on October 1.

Villa also demanded explanations, the statement said, giving of which would be incompatible with the dignity of the first chief of the revolution. For these reasons, said General Carranza, the situation is grave.

COMMISSION TO SETTLE MEXICAN DIFFICULTIES

San Antonio, Tex., Sept. 25.—Samuel Belden, personal representative here of General Carranza, received a dispatch from Mexico City tonight stating that the selection of a commission of constitutionalist generals to mediate differences between General Carranza and General Villa had been virtually completed and the personnel of the commission would be announced within twenty-four hours.

"While I am not officially informed on this point," Mr. Belden said, "I expect the conference will be held in Torreon within ten days."

Col. Jesus Valdes, recently appointed chief of staff and military aid to General Carranza, left here today for the Mexican capital in obedience to an urgent summons. Colonel Valdes expressed the opinion that differences between Carranza and Villa would be adjusted amicably.

**THREE BATTLESHIPS ARE
ORDERED TO VERA CRUZ**

Norfolk, Va., Sept. 25.—It was learned here tonight that in addition to the battleship Texas, the navy department has ordered the battleships Rhode Island and Minnesota, now at Hampton Roads, to Vera Cruz. The Texas is now steaming for Vera Cruz and is expected some time next month to go to Galveston to receive a silver service, the gift of the state of Texas. The Rhode Island went into drydock at the navy yard yesterday for temporary repairs, but will sail for Vera Cruz tomorrow or Sunday. The Minnesota was ordered to Philadelphia to have her bottom scraped and painted but will be ready to sail by Monday.

**VESSELS SENT TO RELIEVE
OTHER AMERICAN SHIPS**

Washington, Sept. 25.—At the navy department tonight it was stated that the battleships Rhode Island, Texas and Minnesota had been ordered to Vera Cruz to relieve vessels now on duty there two days ago before any word had reached Washington of the open rupture between General Carranza and Villa. It was stated positively that no new mobilization in Mexican waters was contemplated and that the only object in sending the vessels to Vera Cruz was to relieve other vessels of the fleet.

**RUSSIANS REPULSE
GERMAN MOVEMENT**

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Petrograd, Sept. 25.—The general staff has issued the following statement: "On September 23, the Russians checked the tentative move of the German vanguard to advance on the government of Suwalki (a government of Russian Poland bordering on Prussia). Within the circle between Schuchebchin and Vincent several engagements with the front of the enemy have resulted favorably for the Russians."

"In west Galicia there is no fighting."

"The Austrian army, driven from Khyrov, continues a general retreat."

More Peace Treaties Ratified.

Washington, Sept. 25.—Peace commission treaties with Great Britain, France and Spain were ratified today by the senate, making twenty-five in the series negotiated by the state department which have been approved by this government.

Laredo, Tex., Sept. 25.—Alfonso Madero, brother of the former president of Mexico, and twenty-one other members of the Madero family on their way from New York to their old home at San Pedro de las Colonias, Coahuila, left here today for Monterrey.

TWO GREAT HAMMER STROKES DELIVERED SIMULTANEOUSLY BY OPPOSING ARMIES NOW IN CONFLICT FOR MASTERY

ALLIES ARE ATTACKING RIGHT WING OF GERMANS AND KAISER'S TROOPS ARE ASSAILING ALLIES

Commencement of Assaults in Different Parts of Long Line Is Expected to Precipitate End of General Engagement Which Has No Parallel in History for Number of Soldiers Involved, Violence and Continuation of Action and Vast Casualty List Which Is Daily Resulting; Strict Censorship Makes It Impossible to Understand What Is Actually Occurring in Northern France, Except That Men Are Being Killed Every Hour.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

London, Sept. 25 (9:20 p. m.).—Almost simultaneously the two great hammer strokes in the battle in northern France have fallen and some decisive result must be announced before long. The allies have struck the German right wing and the Germans on their part have hurled themselves against the French line between Verdun and Toul.

The commencement of these two attacks in earnest was disclosed by the French official statement issued this afternoon, but little is told of how they are progressing. The action against the German right is described as very violent in which the French left encountered an army corps composed of troops which the Germans brought from the center of Lorraine and the Vosges.

Allies Have Advanced.

The clash occurred in the district between Tergier and St. Quentin, as the French have made a considerable advance to the northwest since the last mention was made of this part of their army.

The country is a rolling one, intersected by streams, canals and a perfect network of roads running in all directions.

The French report admits that the Germans have succeeded in gaining a footing on the Meuse heights and have pushed forward in the direction of St. Mihiel, bombarding the forts of Paroches and the Roman camp which face each other across the Meuse. The communication, however, adds that on the other hand, to the south of Verdun, the French remain masters of the heights of the Meuse and that their troops, debouching from Toul, have advanced in the region of Beaumont.

Some Progress in Center.

In the center on the east of Rheims the French have made some progress, but elsewhere nothing of importance has happened so far as is shown in the official reports and no other information is available, as the strictest censorship has now been established.

Some confirmation comes today of yesterday's report that the Germans have suffered a reverse on the east Prussian frontier. Several train loads of wounded, including German prisoners, have arrived at Pskov, according to a Petrograd dispatch, having been engaged in severe fighting on the borders of Suwalki, where they say the Germans suffered heavy losses.

In Galicia the Russians have annexed a few more towns and are perfecting their plan for an attack on Premysl and an advance against General Danek and eventually the fortress of Cracow.

War in Eastern Zone.

While the Serbians and Montenegrins are closing in on the Bosnian City of Sarajevo, the Austrians have retaliated by resuming the bombardment of Belgrade, which, during the early weeks of the war, was under constant fire from the Austrian guns across the river. They have also attempted to cross the Danube but, according to Serbian reports, have failed.

The French and British navies have annexed the island of Lissa in the Adriatic. The object of this capture, according to Italian reports, was to induce the Austrian fleet to come out and accept battle.

The Australian navy has been busy again and has added another German possession in the south Pacific to its list of captures. This time it is Kaiser Wilhelm's land, the German portion of New Guinea, one of the emperor's most valuable colonies in that part of the world. It is expected that Admiral Patey will take the rest of the German Pacific islands, leaving a small garrison at each.

Promoting From Ranks.

To fill up the gaps in the ranks of the officers, caused by the casualties in France, the war office is promoting a large number of non-commissioned officers to the command of units. The first list of these appeared tonight.

German airships and aeroplanes have again been flying along the Belgian and French coast and have dropped bombs at Ostend and Boulogne, without doing any great amount of damage. They have not yet ventured across the channel but are fully expected to do so when conditions are favorable.

While these craft drop bombs the object of their flights doubtless is to find out what the allies are doing on the coast. The Germans expect some move in that direction, as, according to reports from Belgian and Dutch sources, they are strengthening their positions throughout the occupied territory.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Paris, Sept. 25 (11:17 p. m.).—The official communication issued at 11 o'clock tonight regarding the progress of the battle in northern France says that this morning French troops in the region of Noyon, were compelled to give ground before superior forces, but have been reinforced and again assumed the offensive, the engagement being one of particular violence.

**GERMANS ARE ATTACKING
WITH GREAT FEROCITY**

The text of the statement follows: "On our left wing in the region to the northwest of Noyon our advanced troops having come in contact with superior forces of the enemy were compelled this morning to give a little ground. Being reinforced, however, by fresh troops these troops have vigorously resumed the offensive."

"The struggle in this section has taken on a character of extreme violence."

"2.—In the center there is nothing new to report."

"3.—On our right wing the enemy has begun to give way before the attacks of our troops coming from the direction of Nancy and Toul."

"In the southern region of the Wever the enemy is retiring toward Rupt de Mad (in Meurthe-et-Moselle). The action continues."

"On the heights of the Meuse the German forces have succeeded in penetrating nearly as far as St. Mihiel (on the right bank of the Meuse, twenty miles south-southeast of Verdun) but have not been able to cross the river."

**GERMANY MODIFIES
NUMBER OF PRISONERS**

London, Sept. 25 (10:35 p. m.).—The Central News Agency has received the following dispatch from Rome: "A message from Berlin says the general staff having agreed to the complete official lists of prisoners, has found it necessary to admit that the totals already announced were erroneous. The aggregate number of prisoners in German hands is now reduced from 250,000 to 50,000, of which 30,000 are Russians."

**GERMAN CENTER SAID
TO BE MUCH WEAKENED**

Paris, Sept. 25 (3:20 a. m.).—Lieutenant Colonel Roussel, writing in the Petit Parisien, says: "The enemy, perceiving danger to his right wing, as given in the communication Friday, has perceptibly reinforced it to the detriment of the center and left. This explains the violence of the battle which is being waged between the Somme and the height on the left bank of the Oise. But in doing this, the enemy necessarily stripped his front and we have profited immensely by advancing toward Berry and Moronvilliers."

"The situation of the Germans would become perilous if the line they hold breaks in the center, and the position of their forces on the right would be endangered. It is because of this disquieting prospect that they are reorganizing their efforts against the heights on the Meuse. We learn that they possess the promontory of Hattin-Chatel, not probably without difficulty, and that they are marching on St. Mihiel."

Lieutenant Colonel Roussel refers to the difficulties of the territory confronting the Germans whose left wing is menaced by the mobile sarrison of Toul and declares that even had the Germans succeeded in their efforts they would not become masters of the French fortified front. They would have to descend the heights of the Meuse and cross the river under fire and the forts of the center, which are still intact, would constitute a serious danger to the operations."

"I imagine then," adds the writer, "that this new offensive is a simple demonstration to draw our attention from this side and if it assumes serious proportions the army will know."

SURVIVORS OF DISASTER TELL OF DEADLY WORK OF SUBMARINE

Three Cruisers and More Than
1,400 Men Quickly De-
stroyed by Torpedoes Fired
From Under Water.

BRITISH SEAMEN ACT WITH GREAT HEROISM

English Government Issues
Order That Warships in Fu-
ture Shall Not Seek to Aid
Those Crippled.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
London, Sept. 25 (10:45 p. m.).—The facts concerning the sinking of the British cruisers Aboukir, Hogue and Cressy by a German submarine or submarines, in the North sea with a loss of nearly sixty officers and 1,400 men, are contained in an admiralty statement issued tonight.

The reports of Commander Nicholson, of the Cressy, and Norton, of the Hogue, state that the Aboukir was hit by one torpedo and sunk in thirty-five minutes. Three torpedoes were fired at the Cressy, one of the explosives missing narrowly. She lasted for thirty-five to forty-five minutes. The Hogue was struck twice, ten to twenty seconds elapsing between the torpedoes, and went under in five minutes. The Cressy fired on the submarine and some of the officers were confident that the shots sank her. Commander Nicholson says that the three torpedoes directed against his ship might have been fired by the same submarine and that there is no real proof that more than one was engaged.

Strict Discipline Maintained.
The reports show that the strictest discipline was maintained and that acts of heroism were performed, but the admiralty has established the rule that such acts must be governed by the same laws as prevail in naval actions and that disabled ships must be left to their own resources rather than that other ships should be jeopardized by rescue work.

The statement follows:
"The facts of this affair cannot be better conveyed to the public than by the attached reports of the senior officers who have survived and have landed in England."

"The sinking of the Aboukir was, of course, an ordinary hazard of patrolling duty. The Hogue and the Cressy, however, were sunk because they proceeded to the assistance of their consort and remained with engines stopped, endeavoring to save life, thus presenting an easy and certain target for further submarine attacks."

"The report on the sinking of the Cressy submitted by Bertram W. L. Nicholson, commander of the late H. M. S. Cressy, follows:

Official Report.
"Sir, I have the honor to submit the following report in connection with the sinking of H. M. S. Cressy in company with H. M. S. Aboukir and Hogue on the morning of the 22nd of September, while on patrol duty."

"The Aboukir was struck at about 6:25 a. m. on the starboard beam. The Hogue and Cressy closed and took up a position, the Hogue ahead of the Aboukir and the Cressy about 400 yards on her port beam. As soon as it was seen that the Aboukir was in danger of sinking all the boats were sent away from the Cressy and a picket boat was hoisted out without delay. When cutters full of the Aboukir's men were returning to the Cressy, the Hogue was struck apparently under the all 3.5 inch magazine, as a very heavy explosion took place immediately. Almost directly after the Hogue was hit we observed a puff

escape on our port bow about 200 yards off.

Fires on Submarine.
"Fire was immediately opened and the engines were put full speed ahead with the intention of ramming her down. Our gunner, Mr. Dougherty, positively asserts that he hit the port engine and that the submarine sank. An officer, who was standing alongside the gunner, thinks that the shot struck only floating timber of which there was much about, but it was evidently the impression of the men on deck, who cheered and clapped heartily, that the submarine had been hit. This submarine did not fire a torpedo at the Cressy."

"Captain Johnson then maneuvered the ship to render assistance to the crews of the Hogue and Aboukir. About five minutes later another torpedo was seen on our starboard quarter and fire was opened. The track of the torpedo she fired at a range of 500 to 600 yards was plainly visible and it struck us on the starboard side just before the after bridge."

Ship Turns Keel.
"The ship listed about ten degrees to the starboard and remained steady. The time was 7:15 a. m. All the water tight doors, dog lights and scuttles had been securely closed before the torpedo struck the ship. All the mess stools and table shores and all available timber below and on deck had been previously got up and thrown over side for the saving of life."

"A second torpedo fired by the same submarine, missed and passed about ten feet astern. About a quarter of an hour after the first torpedo had hit, a third torpedo, fired from a submarine just before the starboard beam, hit us under the number five boiler room. The time was 7:30 a. m. The ship then began to heel rapidly and finally turned keel-up, remaining so for about twenty minutes before she finally sank at 7:55 a. m."

Work of One Submarine.
"The second torpedo which struck the Cressy passed over the sinking hull of the Aboukir, narrowly missing it. It is possible that the same submarine fired all three torpedoes at the Cressy."

"The conduct of the crew was excellent throughout. I have already remarked on the bravery displayed by Captain Phillips, master of the trawler M. T. Corlander, and his crew who picked up 156 officers and men."

The report by Commander Reginald A. Norton, late of H. M. S. Hogue, follows:

"I have the honor to report as follows concerning the sinking of the Hogue, Aboukir and Cressy. Between 6:15 and 6:20 a. m. H. M. S. Aboukir was struck by a torpedo. The Hogue closed on the Aboukir and I received orders to hoist out the launch, turn out and prepare to take up the bodies on the upper deck. Two life boats were sent to the Aboukir, but before the launch could get away the Hogue was struck on the starboard side amidships by two torpedoes at intervals of ten to twenty seconds."

Ship Sinks Quickly.
"The ship at once began to heel to starboard. After ordering the men to provide themselves with wood or hammocks, etc. and to get into the boats on the dooms and take off their clothes, I went, by Captain Nicholson's directions, to ascertain the damage in the engine room. The engineer informed me that the water was over the engine room gratings."

"While endeavoring to return to the bridge, the water burst open the starboard entry port doors and the ship heeled rapidly. I told the men in the port battery to jump overboard, as the launch was close alongside and soon afterwards the ship lurched heavily to starboard."

"I clung to a ratchet for some time, but finally dropped onto the deck and a huge wave washed me away. I climbed up the ship's side and was again washed off. Eventually, after swimming about from various overturned pieces of wreckage, I was picked up by a cutter from the Hogue, commanded by Coxswain L. S. Marley, which pulled about for some hours picking up men and discharging them to our picket boat and steam pinnace, and to the Dutch steamers Flora and Titan, and rescued in this way, Commander Stokes, of the Aboukir; Engineer Commander Stokes, with less broken; Fleet Commander Eldred and about 124 others."

Aided by Holland Ships.
"Finally, about 11 a. m., when we could find no more in the water, we were picked up by the Laetie, which proceeded to the Titan and took off from her all our men except about twenty who were too ill to be moved."

"A Lowestoft trawler and two Dutch ships, Flora and Titan, were

extraordinarily kind, clothing and feeding our men. My boat's crew, consisting mainly of royal naval reserve men, pulled and behaved remarkably well. I particularly wish to mention Petty Officer Halton, who, by encouraging the men in the water near me, undoubtedly saved many lives."

"Lieutenant Commander Phillips-Woodley, after hoisting out the launch, asked me if we should try to hoist another boat and endeavored to do so. The last I saw of him was on the after bridge, doing well."

"Lieutenant Commander Tiller was picked up by a launch. He got up a cutter's crew and saved many lives, as did Midship Male Gansel in the Cressy's gig. Lieutenant Clibberstone turned out the whaler very quickly."

Dutch Trawler Gives No Aid.
"A Dutch sailing trawler sailed close by, but went off without rendering any assistance, although we signalled to her from the Hogue to close after we were struck."

"The Aboukir appeared to me to take about thirty-five minutes to sink, floating bottom up for about five minutes. The Hogue turned turtle very quickly—in about five minutes—and floated bottom up for several minutes. Dense black cloud was seen in the starboard battery, whether from coal or torpedo cordite, I could not say. The upper deck was not blown up, and only one small explosion occurred when we heeled over."

"The Cressy I watched heel over from the cutter. She heeled over to starboard very slowly, dense black smoke issuing from her when she attained an angle of about 90 degrees, and she took a long time from this angle till she floated bottom up with the starboard screw slightly out of the water. I consider it was thirty-five to forty-five minutes from the time she struck till she was bottom up."

All Believed Well.
"All the men on the Hogue behaved extraordinarily well, obeying orders, even when in the water swimming for their lives, and I witnessed many cases of great self-sacrifice and gallantry. Farmstone, able seaman of the Hogue, jumped overboard from the launch to make room for others and would not avail himself of assistance until all the men nearly were picked up. He was in the water about half an hour."

"There was no panic of any sort, the men taking off their clothes as ordered and falling in with hammock or wood. Captain Nicholson, in our other cutter, as usual, was perfectly cool and rescued large numbers of men. I last saw him alongside the Flora. Engineer Commander Stokes, I believe, was in the engine room to the last, and Engineer Lieutenant Commander Fendick got steam on the boat hoist and worked it in five minutes."

"I have the honor to submit that I may be appointed to another ship as soon as I can get a kit."

MONEY ENOUGH IN GERMANY TO CARRY ON WAR

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
London, Sept. 25 (9:40 p. m.).—An official statement received from Berlin by the Marconi Wireless Telegraph company says:

"The board of trustees of the Imperial bank of Germany draw special attention to the fact that the bank proved itself quite equal to the exceptional demands made upon it by the war and that Germany is armed both economically and financially to fight a war on all sides until results have been obtained which will secure the political and economic future of Germany."

"An inquiry has been held at Cologne, Prussia, into charges of high treason against the Abbe Wetterle, a member of the reichstag from Alsace-Lorraine, who has been condemned to death and whose property has been ordered seized."

"German, Austrian and Italian newspapers reflect the remarkable enthusiasm which has been created everywhere by the heroic acts of the German submarine T-3, which has since safely returned to the fleet."

REVENUE BILL PASSES HOUSE BY HEAVY VOTE

All Republicans and Progressives Except One and Eleven Democrats Line Up Against War Measure.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Sept. 25.—The administration war revenue bill imposing additional taxes on beer, domestic wines, gasoline, special taxes on theaters and certain dealers, and stamp taxes, all estimated to produce \$105,000,000 within a year, was passed by the house late today. The vote was 334 to 135.

The bill now goes to the senate, where the finance committee already has begun paving the way for its prompt passage.

All the republicans and all the progressives, except Representative Copley of Illinois, voted against the bill, and they were joined by the following eleven democrats: Representatives Callaway, Texas; Church, California; Hobson, Alabama; O'Hair, Illinois; Ragsdale, South Carolina; Simpson, Stephens and Witherspoon, Mississippi; Stevens, New Hampshire; Thomas, Oklahoma, and Wingar, Arkansas.

The bill was under discussion in the house two days. Its passage was preceded by the overwhelming vote of a motion of Representative Payne of New York, to recommit the bill to the ways and means committee, the only motion of any kind allowed the opposition under the rule.

During today's debate, Republican Leader Mann assailed the measure as due to the democratic tariff rather than to the war and as a novel proposition to tax the people's pocket-books while the government has \$75,000,000 on deposit in the national banks.

Representative Hobson of Alabama, democrat, declared the temperance forces were opposed to any tax on beer on the principle that the government should not be dependent in any way upon alcohol, while he said, had five million slaves in this country and cost more lives than war.

Representative Gallivan of Massachusetts, democrat, praised the American diplomacy of today, which he said was emerging with honor while the "taxed" diplomacy of Europe had wrought a blunder so colossal that no man living can reckon its consequences.

The bill would impose an additional tax of 50 cents a barrel on beer, 2 cents a gallon on gasoline, 20 cents a gallon on sweet wines and 12 cents on dry wines, stamp taxes on railway and steamboat tickets, brokers' contracts, insurance policies, mortgages, telephone and telegraph messages and special taxes upon theaters, brokers, bankers, tobacco dealers and others.

SICK CHILDREN LOVE CASCARETS FOR THE BOWELS

Give "Candy Cathartic" for a bad cold, sour stomach, constipation.

Get a 10-cent box now.
Most of the ills of childhood are caused by sour, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, listless, irritable, feverish, restless, tongue coated, don't eat or sleep well and need a gentle cleansing of the bowels—but don't try to force a nauseating dose of oil into the little one's already sick stomach—it is cruel, needless and old-fashioned.

Any child will gladly take Cascarets Candy Cathartic which act gently—never gripe or produce the slightest uneasiness—though cleanse the little one's system, sweeten the stomach and put the liver and bowels in a pure, healthy condition.

Full directions for children and grown-ups in each package.
Mothers can rest easy after giving this gentle, thorough laxative which costs only 10 cents a box at any drug store.

**NOTICE
TO HEATING CONTRACTORS**
Bids will be received at the City Engineer's office until 4 o'clock p. m. October 5, 1914, for the heating on the City Hall building.

40,000 GERMANS ENCAPSED
AT HISTORIC WATERLOO

London, Sept. 25 (2:10 p. m.).—The United correspondent of the Houter Telegram company sends the following dispatch:

"Forty thousand Germans have been encamped in the environs of Waterloo since Saturday, headquarters being established at Huybroeck. All passports to Mons are being refused by the German authorities at Brussels, the object apparently being to prevent travel from seeing the great amount of arms transport which has already returned there from France."

"The Germans have installed heavy machine guns at Grimbergen and Merve. To prevent the inhabitants of these places from reporting this fact the men have all been shut up in a church and the women have been sent to Brussels."

**BAVARIANS ARE NOT IN
HARMONY WITH PRUSSAINS**

London, Sept. 26 (3:41 a. m.).—A dispatch from Ghent to the Express says that the trouble between the Bavarians and Prussians in Brussels has continued and that all Bavarians in Belgium are being removed. The removal of the Bavarians, it is said, is due to insults alleged to have been offered by the Prussians to the Belgian queen, who is a Bavarian princess.

A dispatch from Amsterdam to Reuters' Telegram company says, however, that the reports of fighting between the Prussians and Bavarians is denied in Brussels.

ROOSEVELT IS ON RAMPAGE IN MIDDLE WEST

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
East St. Louis, Ill., Sept. 25.—Col. Theodore Roosevelt finished his Illinois campaign in behalf of the progressive ticket here tonight by addressing a large crowd.

After his speech here he hurried in an automobile to St. Louis, Mo., where he delivered another speech.

"I don't care a rap for the support of any man for me personally," he said, "unless he stands for the principles I represent. I am in this contest because I am for those principles. The only way any man can support me is by supporting the progressive ticket."

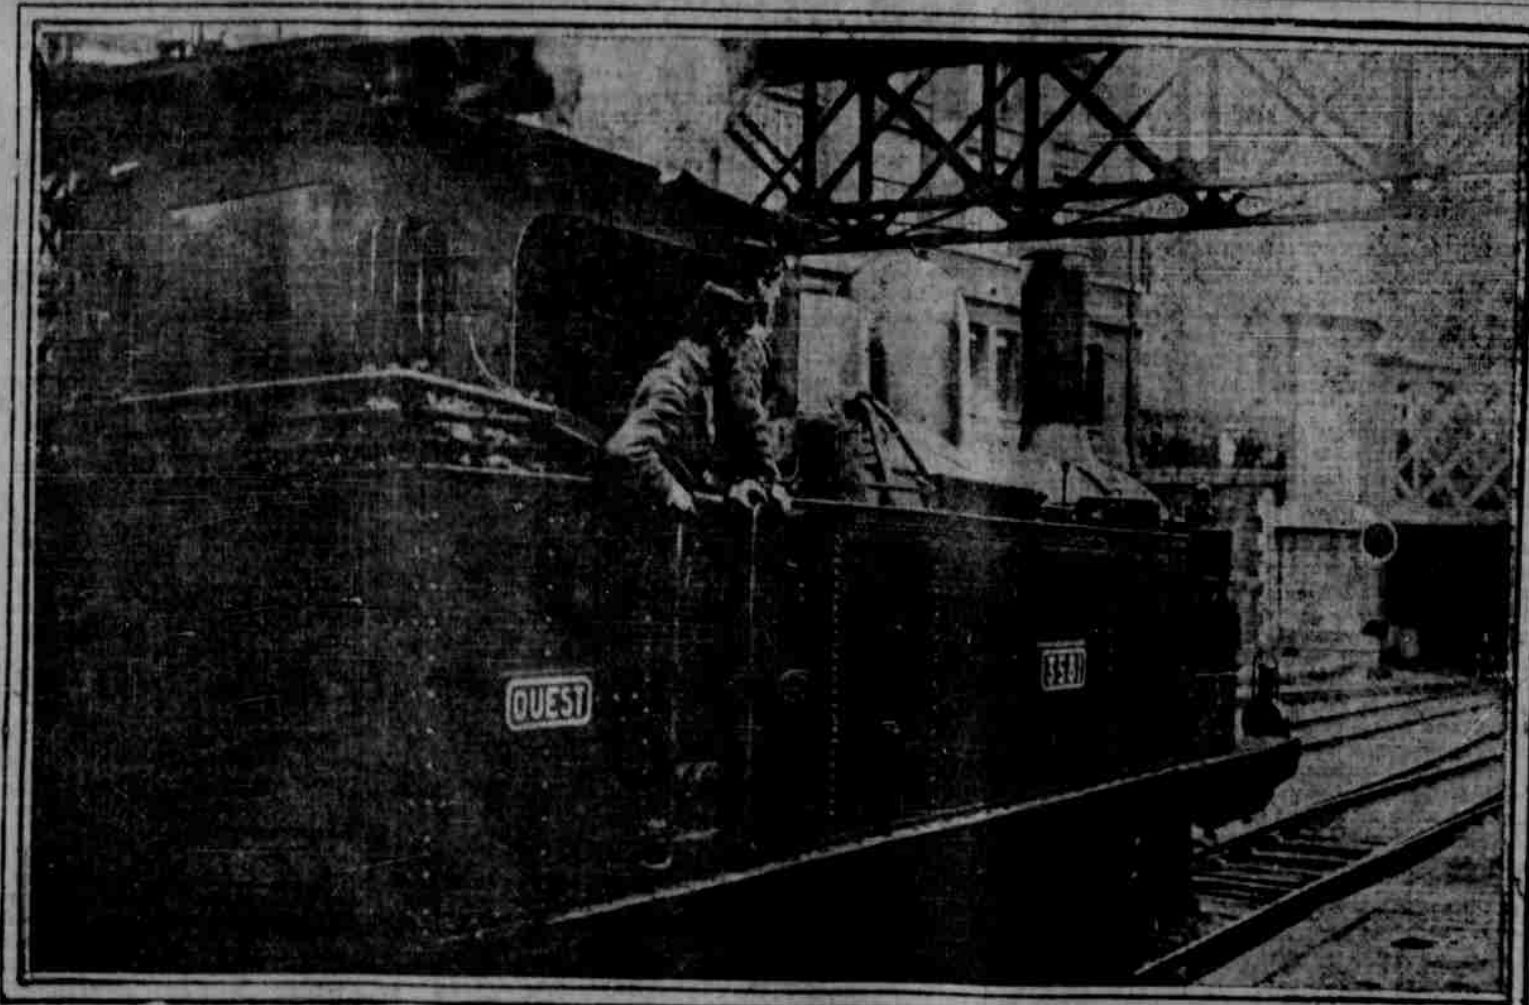

Colonel Roosevelt denounced the Illinois republican candidate at large, Mr. Chipmoffield, because he voted for Lorimer for senator. He added:

"It speaks volumes for the shortness of the memory of our people that a man who voted for Lorimer should venture to run on any ticket."

**NEARLY HALF OF THOSE
IN AUDIENCE LEAVE**

St. Louis, Sept. 25.—Col. Theodore Roosevelt denounced the republican and democratic parties and principles throughout a thirty-minute speech here tonight. His voice was weak and within ten minutes almost half of the huge audience which had gathered in the national guard armory departed, realizing that the former president could not send his words across the full length of the hall.

Justice.
The ticket scaler sought admission to the heavenly gates.
"We're sold out," announced St. Peter, judges.

FRENCH SOLDIERS RUNNING ARMY TRAINS TO THE FRONT.

What's New in New Mexico

ACCOUNTING IS MADE OF MONEY SPENT ON FAIR

New Mexico Exposition Commission Files Statement of Expenditures in Behalf of State at San Diego.

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Sept. 25.—The New Mexico exposition commission today submitted to Governor William C. McDonald a complete and itemized final accounting which demonstrates that the commission has achieved the unusual triumph of giving the state two dollars for every dollar expended.

Every voucher is itemized and grouped so that one may at a glance determine the total expenditures of the enterprise. Unique also is the resourcefulness of the commission in bringing to its aid not only various counties but also private agencies. In fact, these latter alone have contributed as much either in cash or in art work as in special rates, to match the state appropriation cent for cent. The commission also has been remarkably successful in commanding the best of talent at rates that are less than one-half that is paid by commercial concerns for the same grade of work. Such agencies as the School of American Archaeology and the Museum of New Mexico have made easy many a task that otherwise would have cost large sums and demanded expensive equipment.

Building Is Completed.
The New Mexico building is completed and paid for, the bulk of the exhibits have been provided and is packed ready for shipment, the grounds surrounding the building have been leveled and everything is in such readiness that when the doors of the exposition swing open on New Year's day, New Mexico and exhibit will be there with bells on.

The unique, distinctive, artistic character of the building as well as of the exhibits is already being commented upon by the press throughout the United States but still the marvels of how so much could have been accomplished with so little and in so short a time, it is entirely due to such men as Chairman Twichell and Commissioners Reed, Clark, Shuler, etc., giving so much of their time, energy and prestige to make the New Mexico exhibit a world-beater and a means of publicity that will open the eyes of the world to the opportunities for capital, enterprise and energy in the Sunshine state.

CHANGES IN POSTOFFICES ANNOUNCED AT SANTA FE

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Sept. 25.—Acting Postmaster John H. Vaughn today announced the following postal changes in New Mexico:

Postoffice established at Carr, Guadalupe county, with R. R. Burgess appointed postmaster; to be served from Fort Sumner, six miles to the southeast.

Discontinuance of the postoffice at Chapelle, San Miguel county; mail to go to Tecolote and supplies to Santa Fe.

Discontinuance of postoffice at Vernon, Colfax county, which was to have occurred on September 20, postponed to November 20.

Edgar M. Manes commissioned postmaster at Causey, Roosevelt county, while Gertrude Bouquet has been appointed acting postmaster at Corraupia, Union county, succeeding Acting Postmaster A. J. Swann.

Cau U. S. Judge Marry?

Santa Fe, Sept. 25.—May a federal judge perform a marriage ceremony in New Mexico, was the question put up today to the attorney general's office. Assistant Attorney General Ira L. Crumshaw drafted a reply which holds that while under the statute any civil magistrate is authorized to perform the ceremony, yet, it was certainly not to extend that right to any foreign authority such as a federal judge or a United States commissioner.

Stauffer Have Baby Girl.

Santa Fe, Sept. 25.—Santa Feans were interested today in the announcement of the birth of a girl, Sarah Elizabeth, to Mr. and Mrs. Charles M. Stauffer, who recently left for Bethlehem, Pa., where Mr. Stauffer is president and manager of one of the largest wholesale grocery concerns in the east. He had been for years manager of the New Mexican Printing company.

To Open Game Reserve.

Santa Fe, Sept. 25.—Permission to establish a 60,000-acre game reserve on the Dry Cimarron in northern Union county, was granted today by Game Warden T. C. de Baca to George A. Fowler, Jr., of Folsom. Fowler has elaborate plans for the propagation of deer and game birds. The proposed park is in the most wildly beautiful portion of northeastern New Mexico, not far from Emory's peak.

Santa Fe Locals.

Bishop Frederick C. Howden, of the Episcopal church, has returned from his vacation spent in Washington, D. C. and other eastern cities.

Attorney Nell B. Field was up today from Albuquerque.

District Judge David J. Leahy, of Las Vegas, set in several cases today in which Judge E. C. Abbott was disqualified.

RIO ARRIBA DEMOCRATS DECLINE TO FUSE WITH MOOSE FOR LEGISLATURE

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Sept. 25.—The democrats of Rio Arriba county this morning held a legislative convention at Espanola. A proposition of the progressives to place Julian Martinez of Abiquiu, upon the ticket as one of the legislative candidates in return for progressive support of the entire ticket was voted down, and Martinez will now run in the progressive column at the November election.

SUPERINTENDENTS' PROGRAM CONTAINS IMPORTANT TOPICS

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Sept. 25.—The program of the county superintendents' section at Albuquerque during the New Mexico Educational association meeting in Thanksgiving week, is broad in its scope and touches vital educational questions. It was promulgated this forenoon by County School Superintendent John V. Conway, who is president of the section. Superintendents I. C. Merstetter of Clovis, and the following are designated to lead in the discussion to follow: Atanasio Montoya, Josie Lockard, J. V. Gallagos and Mrs. Wallace L. Gunn.

Ex-County Superintendent A. B. Stroup is to speak on "County Superintendents' Legal Duties," with A. W. Moore, Miss Grace Goebel, Jose Montaner and Miss Isabel Eekles to lead the discussion.

"Needed Improvement in the Laws in the Interest of Better Supervision" is to be the subject of an address by Dr. M. F. Desmarais of Las Vegas and H. H. Errett, Saturnino Baca, Manuel Madrid and R. S. Tipton are to carry on the discussion.

Conrad Widow Sees Clancy.

Santa Fe, Sept. 25.—Mrs. Ralph Connell, of Tularosa, the killing of whose husband several months ago created a sensation, was in conference today with Attorney General Frank W. Clancy to enlist the state's aid in the prosecution of the slayer or slayers.

NOTICE.

I will not be responsible for any bills of Albert Hartline or any of the family, that they may make in the future.

J. K. HARTLINE.

STATE LEVY IS REDUCED; TOTAL IS 11.60 MILLS

Cut of Three Mills Over Rate of Several Years Ago Believed to Be Due to Better Assessment.

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Sept. 25.—A reduction of 2.16 mills in the state tax levy was announced by State Auditor W. G. Sargent this forenoon as he certified the levy to the twenty-six boards of county commissioners. The total levy will be 11.60 mills, or 2 mills less than it was several years ago. That is one of the results of a better assessment.

The statute directs the state auditor to certify the levy to the different counties. The traveling auditor on Monday will mail these boards printed copies of the changes ordered in the assessment returns and is today sending back the assessment books so that every board can make its levy at its last October meeting.

How Levy Is Divided.

Auditor Sargent divides the levy as follows:
Three mills for state purposes, which includes salaries.
One mill for good roads.
Four and a half mills for state institutions, which is 1 mill reduction from last year. The levy this year produced a surplus which is available for next year's needs. However, it will take close collection of taxes to guarantee all the institutions their total appropriation.

Four-tenths of a mill for the charitable institutions, a reduction one-tenth of a mill.

Half a mill for the current school fund.

Two mills for interest on the bonded indebtedness, which is a reduction of 1 mill.

One-fifth of a mill for sinking funds and interest, divided into four equal portions for penitentiary building, general refunding capital rebuilding, first and second series, respectively.

Special Levies.
In addition the auditor is required to certify to the three-mill levies for the common schools, a levy of 3 mills on shewmen for the sheep military board, and the levies on cattle sanitary board for cattle indemnity, cut-disease eradication and cattle sanitary funds.

As finally determined by the board of equalization, the taxable assessment of the state is \$38,293,929 as against \$91,745,709 last year. The total gross valuation is \$267,611,818 this year.

Taking the taxable valuation at \$26,999,908 in round numbers, the levy should yield theoretically \$270,000 for state purposes; \$394,000 for good roads; \$465,900 for state purposes; \$26,000 for charitable institutions; \$47,000 for current school fund.

\$150,000 for interest and sinking funds; \$36,000 for special sinking funds and interest; \$25,000 for county school funds. However, the collections fall far short of this because the counties that have the lowest and poorest assessments also make the poorest showing as to the per cent of taxes collected.

BOER GENERAL SUES SANTA FE RAILWAY, ASKING FOR \$10,000

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Santa Fe, Sept. 25.—General H. J. Viljoen, the famous Boer general, filed suit against the Santa Fe Railway company for \$10,000 damages for alleged personal injuries. In his complaint he says that on August 8, 1914, he purchased a ticket to Mesquite, Dona Ana county, at which station trains are supposed to stop, but the train did not stop until it had run 100 feet beyond the usual stopping place and he was compelled to walk back to the depot, where a horse and buggy was waiting for him. In climbing down the embankment in the dark he fell and was thrown against a barbed wire fence placed too close to the track by the defendant company, he alleges. His legs and body were badly lacerated and the shock was so great that he has been confined to bed ever since and physicians and nurses have been in constant attendance, he says.

MINE OWNER HURRIES TO BEDSIDE OF WIFE

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Santa Fe, Sept. 25.—Col. C. D. Jackling, whose immense mining interests in New Mexico and who is vice president of the China Copper company, operating in Grant county, hurried back from a trip to Alaska to reach the bedside of his wife at Los Angeles, who arrived too late.

Mrs. Jackling was a brilliant, beautiful woman, whose philanthropies had endeared her to many. She was 38 years old and a native of Keosauqua, N. Y. She was almost as wealthy as her millionaire husband in her own right. However, she was teaching school at Victor, Colo., when she met Mr. Jackling, then a mining engineer.

Hahn to Live in Hollywood.

Santa Fe, Sept. 25.—W. H. Hahn, formerly of Albuquerque and Santa Fe, has definitely decided to make his future home in Hollywood, Calif., where he has just secured the exclusive agency for the Cadillac automobile. Mrs. Hahn and daughter, Adelaide and Mrs. Hahn's parents, Captain and Mrs. Smith, have already taken up their residence in beautiful Hollywood in a bungalow at 5713 Sunset boulevard, adjoining the famous Hollywood high school.

PUBLIC NOTICE.

I, the undersigned, having bought the interest of A. Lencioni in the Rico Cafe, located at No. 113 North Second street, I hereby notify the public that I will collect all accounts due the firm of Dinelli & Lencioni, and will pay all outstanding accounts against said firm of Dinelli & Lencioni, up to date of September 24, 1914.

PETER DINELLI.

CLOVIS FAIR FILMED BY OFFICIAL FILMER

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Sept. 25.—Chase Bell, moving picture operator for the New Mexico exposition commission, is today filming the work at Clovis and that part of the Pecos valley. He secured an unusually fine array of urban and rural pictures that will set many a tourist and many an investor on the journey to the lower Pecos valley to see for himself the wonder of that part of New Mexico. Orchard scenes, including picking and packing of apples, alfalfa cutting, canning factories, dairies, stock raising, artesian wells, lovely homes, fine roads, public buildings, churches, schools, all were grabbed by the camera so that the seven million visitors to San Diego may learn of the charms of the Pecos valley.

Colonel Twichell today received 125 additional colored lantern slides illustrative of the beauties and resources of the San Juan and Las Animas valleys that rival those of the Pecos valley in many respects. San Juan county never has had such complete presentation of its attractions and it is certain that the exposition will be followed by an invasion of San Juan and Chavez counties such as popular and resident New Mexico as the result of New Mexico's advertising at the St. Louis exposition, which brought 100,000 additional population to New Mexico and millions of dollars of new wealth.

The first colored transparencies for the windows of the New Mexico building were received today by the exposition commission. They are beautifully colored landscapes including such scenes as the Tiro pueblo and Tropic in the Rio de los Arboles. They are certain to arouse admiration as well as attract attention to the scenic grandeur of the state.

Waldo C. Twichell has turned out the first group of legends which will go with the moving pictures as well as on the inter-ception slides. He is a draftsman of unusual skill and the vivid legends telling about the wonders of New Mexico will fittingly complement the pictures making them three valuable to the throngs that will thrice daily and hourly in the New Mexico building. Each picture will in addition be surrounded with an artistic border, with the coat of arms in each corner and a torch at each side, with the running lines: "Panama-California International Exposition—New Mexico Exhibit." The legends will be quite explicit and graphic. All those who have seen the lettering and designs, including the draftsman in the state engineer's and the surveyor general's office, expressed astonishment at its beauty and exactness.

Visitors at Museum.

Santa Fe, Sept. 25.—Nathan Bijur, supreme court justice in New York state, accompanied by Mrs. Bijur, spent several hours today in the Museum of New Mexico, admiring especially the art work and the excellent installation of the scientific objects. He deemed it one of the most attractive museums he had visited in his travels. Mr. and Mrs. Bijur have just returned from a trip to the Orient, having sailed from Hong Kong, China, several weeks ago. This afternoon, Judge and Mrs. Bijur made a trip to the Indian village of Teague, nine miles from Santa Fe. Others who registered at the old Palace today were: Mr. and Mrs. John Hickman, 22 Joseph Nora Roach, Chicago; Louis Rohr, Topeka; Oliver Lauer, Loma, Colo.

M'ADOO SCORES BANKS THAT ARE HOARDING CASH

List of 250 Offending Institutions Made Public by Secretary of Treasury; Three Are in New Mexico.

(BY MORNING JOURNAL SPECIAL LATEX WIRE) Washington, Sept. 25.—Continuing his campaign against high interest rates and the hoarding of money by banks, Secretary McAdoo tonight made public a list of nearly 250 national banks in all sections of the country, outside reserve and central reserve cities which are carrying reserves in excess of legal requirements.

The list is based on reports to the comptroller of the currency in answer to his call of September 12. It shows that the reserves in these banks run from 25 per cent to 74 per cent, the legal minimum being 15 per cent. "16," said Mr. McAdoo in a statement given out with the list. "The large amount of idle funds that are kept from active employment, as indicated by these figures, was invested in commercial or agricultural paper, or loaned on proper security the present situation would be greatly relieved."

The secretary's statement referred to the list as showing "some" of the national banks carrying excessive reserves and it was understood tonight that further lists would follow in addition to the recent announcement.

In Secretary McAdoo's list, showing the percentage of reserves carried by each bank, are the following:

Texas—Farmers and Merchants National, Cimarrone, 41 per cent; State National, El Paso, 52 per cent; Ennis National, 44 per cent; Fort National, 42 per cent; First National, Frost, 50 per cent; National bank of Grand Prairie, 45 per cent; Hamilton National, 47 per cent; Jacksboro National, 41 per cent; First National, Kaufman, 47 per cent; First National, Kemp, 74 per cent; First National, Valley Mills, 47 per cent; Victoria National, 45 per cent; National bank of West, 47 per cent. Colorado—Colorado Springs National, 32 per cent; Exchange National, Colorado Springs, 37 per cent; First National, Trinidad, 41 per cent; New Mexico—Clovis National, 23 per cent; First National, Santa Fe, 49 per cent; American National, Tucuman, 71 per cent. Arizona—First National, Tombstone, 47 per cent.

SIR LIONEL GARDEN WAS AIDING HUERTA

Mexico City, Sept. 25.—Indro Fabila, former acting minister of foreign affairs to the constitutional cabinet, in a statement given to the press tonight, accuses Sir Lionel Garden, until recently British minister to Mexico, of being in collusion with the administration.

Mr. Fabila said that the British minister was dismissed from Mexico because evidence had been discovered to show that he had been secretly aiding former President Huerta. A decree will be issued tomorrow by the authorities forbidding the publication of property under the penalty of death.

NOTICE.

There will be THREE trustees elected at the First Christian church, corner Gold streets and Broadway, on Sunday morning, October 4, 1914. It is desired that every member of the church be present. By order of the church at its annual meeting held September 26, 1914.

J. J. NICK, Chairman.

J. T. HORTON, Clerk.

COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.

Adrian, Mich.—"I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work.
In those words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

VIEWS OF LILLE, FRENCH STRONGHOLD, REPORTED OCCUPIED BY GERMAN'S.

VIEW OF LILLE, FRANCE

THE MUNICIPAL THEATRE OF LILLE

A BUSY STREET OF LILLE

The French city of Lille, reported occupied by the Germans, is an important point in their progress toward Paris, which by the line of the Northern Railway, lies only 120 miles from Paris on the southwest. It is in the centre of a broad plain, which permits rapid advance toward Paris. The only obstacles in the way of fortifications in a direct line between Lille and Paris are the fortifications at Amiens and Peronne, although south of the direct line between Paris and Lille are the fortifications of La Fere and Soissons. The rich agricultural country about Lille would be of great aid to the invaders' foraging parties.

Pound for Pound

Genuine gas house coke contains more heat than any other fuel.

When you purchase a ton of fuel to heat your home you are paying so much for two thousand pounds of heat containing material and coke contains more heat for equal weight than any other fuel.

This is readily understood by large manufacturing enterprises that use it to smelt copper and iron ores. Both of the foundries in Albuquerque use it to melt iron.

Use it in your home this winter and enjoy the comforting warmth afforded by its use.

In order to eliminate rush orders later in the season the following prices good for the rest of September only:

One ton quantities—\$6.25 per ton.
Five ton quantities—\$6.00 per ton.
Ten ton quantities—\$5.75 per ton

Delivered in your bin

To be sure of obtaining the only genuine gas coke telephone 98 today and place your order for your winter's supply.

Games Today.

Chicago at Boston.
Pittsburgh at New York.
St. Louis at Brooklyn.
Cincinnati at Philadelphia.

(By Morning Journal Special Leased Wire)
Boston, Sept. 25.—Cincinnati was defeated twice by Boston today, 2 to 0 in the first game and 4 to 3 in the second. The double victory increased Boston's lead over New York by half a game.

Rudolph pitched the opening contest and held the visitors scoreless for the second time in two days. A double and a single gave Boston one run in that game and a throw into center field by Gonzales let in the other tally.

In the second game bunched hits and two Cincinnati errors enabled the home team to obtain a lead which the visitors could not overcome.

Score—First game: R H E
Cincinnati . . . 000 000 0—2 1
Boston . . . 010 000 0—4 2 1

Batteries: Yingling and Gonzales; Rudolph and Gowdy.

Summary: Two-base hits—Killefer, Schmidt, Whitted. Bases on balls—Yingling, 4. Struck out—Yingling, 4; Rudolph, 4. Umpires—Quigley and Eason.

Score—Second game: R H E
Cincinnati . . . 001 010 0—3 7 3
Boston . . . 020 100 0—4 7 1

Batteries: Douglas and Gonzales; Rudolph and Gowdy.

Summary: Two-base hits—Killefer, Smith, 42. Bases on balls—Goff, Douglas, 1; off James, 3. Struck out—By Douglas, 5; by James, 4. Umpires—Eason and Quigley.

Giants 3; Cards 1.

New York, Sept. 25.—New York broke its losing streak today by defeating St. Louis, 3 to 1, in the last game of the series. The victory was a gift by Calhoun Wingo of the visitors. With the score a tie in the eighth, New York filled the bases.

Griner struck out Merkle but James slipped the third strike. Wingo then threw wild to Griner, who covered the plate and Fletcher and Snodgrass scored. Umpire Klem put Snodgrass out of the game for kicking as he came to bat in the ninth.

Score: R H E
St. Louis . . . 000 001 0—1 8 1
New York . . . 001 000 0—3 7 2

Batteries: Griner and Wingo; Promme and Meyers.

Summary: Two-base hits—Burns, Huggins, Wilson, Dolan, Fletcher. Bases on balls—Off Promme, 4; off Griner, 4. Struck out—By Promme, 2; by Griner, 2. Umpires—Klem and Kinsale.

Dodgers 3; Pirates 2.

Brooklyn, Sept. 25.—Brooklyn's tenth straight victory over Pittsburgh here today was the eleventh straight defeat for the Pirates. The score was 3 to 2. Errors by Slatin and Gorber enabled Brooklyn to tie the score in the eighth, and win in the ninth when a fumble and a bad throw by the new Pittsburgh shortstop let in Schmidt who had doubled with the deciding run.

Score: R H E
Pittsburgh . . . 100 100 0—2 6 2
Brooklyn . . . 000 001 0—3 10 1

Batteries: Kelly and Coleman; Heubach, Schmitz and McCarty.

Summary: Two-base hits—Whitaker, Egan, Schmitz. Double play—Gorber and Konecny. Bases on balls—Off Heubach, 2; off H. Kelly, 2. Struck out—By Heubach, 5; by Schmitz, 2; by H. Kelly, 1. Hits—Off Heubach, 5 in 7; off Schmitz, 1 in 2. Umpires—O'Connor and Byron.

Phillies 3; Cubs 2.

Philadelphia, Sept. 25.—Cravath's home run into the center field bleachers in the tenth inning gave Philadelphia the victory over Chicago here today, 3 to 2. Baumgardner and Lavender kept the bits of their opponents scattered in the first eight innings, during which the home team led, 2 to 1.

Chicago tied the score in the ninth, when Drew singled, Fisher sacrificed, Breckinridge, who hated for Lavender, walked, and Leach doubled. Pierce took Lavender's place in the ninth.

Score: R H E
Chicago . . . 010 000 0—2 8 2
Philadelphia . . . 000 100 0—3 11 1

Batteries: Lavender, Pierce and Archer; Baumgardner and Burns.

Summary: Two-base hits—Zimmerman, Schulte, Leach, Reed. Home run—Cravath. Hits—Off Lavender, 10 in 8; off Pierce, 1 in 1. Double plays—Leach, Knisely, Fisher and Archer. Bases on balls—Off Lavender, 1; off Pierce, 1; off Baumgardner, 5. Struck out—By Baumgardner, 4. Umpires—Rigler and Hart.

Cubs to Publish Drafts.

Cincinnati, Sept. 25.—It was announced at headquarters of the National baseball commission here today that the names of players drafted by the National and American leagues would not be given out by the commission but that the individual clubs would make them public whenever they so desired. In former years the players were drafted at a meeting of the commission on or about September 13 and the list given out by the commission. This year the drafts were made by the secretary.

Also Cafe free lunch, on September 29, 1914, will be served. Real Italian spaghetti, and roast turkey, give me a call.

PETER DINELLI.

FOOTBALL COACHES ARE EXPECTED TO USE CLEVER METHODS TO GET ON THE SIDELINES AND THUS FOIL THE NEW RULE

A new football ruling this fall will keep the coaches off the sidelines. There is just one chance for them. Perhaps some of the brighter of their number will be able to think up clever ways of eluding the new rule.

CHAMPS WIN FROM HITLESS WONDERS

Shawkey Gets Good Support and White Sox Are Able to Get Only Four Hits From His Delivery; Naps Lack Nationals; Browns Beat Red Sox.

(By Morning Journal Special Leased Wire)
Chicago, Sept. 25.—Shawkey, backed with excellent support, held Chicago to four hits and Philadelphia made it two straight from the locals, 3 to 1. The world's champions won the game in the second inning, when they scored two runs on singles by Strunk, Melins and Schang, a base on balls to P. Baker and an error by Schalk when he threw wild to first in an attempt to complete a double play. Their other run came in the fifth, when a base on balls to Barry, an infield out, a single by Murphy and a double steal scored a run.

Chicago was saved from a shut-out when Demmitt's walk, Blackburn's sacrifice and J. Collins' single settled a run. Aside from the pitching of Shawkey, and Wolgast, the fielding of Wolgast, Demmitt and Barry was a feature.

Score: R H E
Philadelphia . . . 020 010 0—3 7 0
Chicago . . . 100 000 0—1 4 2

Batteries: Shawkey and Schang; Wolgast and Schalk.

Browns 10; Red Sox 1.
St. Louis, Sept. 25.—St. Louis came to life this afternoon, pounded Boston hard and often, and won from Boston, 10 to 1. Hobbins' single and a two-base hit by Gardner prevented a shut-out.

Score: R H E
Boston . . . 010 000 0—1 8 2
St. Louis . . . 100 024 0—10 8 0

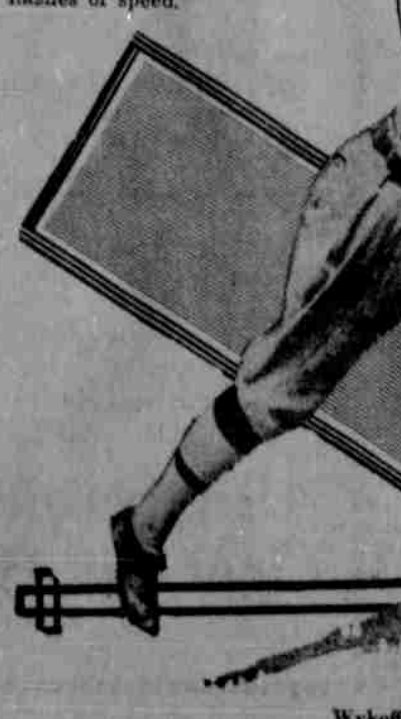

Batteries: Shore, Redlett and Demmitt.

Summary: Three-base hit—Hart. Double play—Hart to McKee. Bases on balls—Off Hart, 1; off McKee, 1. Struck out—By Hart, 1; by McKee, 1. Umpires—Connelly and Hildebrand.

To Arrange for World Series.
Cincinnati, Sept. 25.—President Herrmann of the National baseball commission, said tonight that a meeting of the commission would be held in Philadelphia next Wednesday to arrange for the world series. He said that the opening game would be on either October 8 or 9, depending on conditions in the National league race. The city in which the first game is to take place will be settled as usual by the tossing of a coin.

Wykoff Hasn't Set League Afire, But He'll Share in World's Series Coin

Though he has not set the league afire this season and though he may not have a brilliant part in the world's series, Wykoff, the Athletic outpaw, will come in with the rest for a bit of the big money. Wykoff's record for the past summer is not an amazing one, but he is reliable and steady and capable of occasional flashes of speed.

O. R. E. TEAM WANTS
AUTOMOBILES FOR
TRIP TO SANTA FE

The O. R. E. team will play the New Mexico state penitentiary nine next Sunday, provided Manager E. W. Moore can induce three automobile owners to transport his players to Santa Fe. One automobilist already has offered his machine, but three more gasoline vehicles are required to carry the team.

Warren John B. McManis in challenging the O. R. E.'s, said he could provide for the team after it reached Santa Fe, but that his team had no funds to defray traveling expenses.

Swanbrough Is Killed.
Denver, Sept. 25.—E. W. Swanbrough, a veteran automobile racer and holder of several state records, was killed today at Overland park while racing in one of the opening contests arranged by the Denver Motor club. A fire of Swanbrough's car exploded, causing the machine to skid and topple over the embankment at the head of the home stretch. Swanbrough was pinned under the steering wheel. He died while being taken to the hospital.

DUEL OF AIRMEN IS
FATAL TO GERMAN
(By Morning Journal Special Leased Wire)
London, Sept. 25 (11:05 p. m.)—A duel in the air over Brussels between a Belgian biplane, which was making a reconnaissance, and a German machine which was in pursuit of the biplane, is described briefly by a correspondent of the Exchange Telegraph company.

The two machines ascended to a great altitude and after a swift flight the aviators exchanged shots at short range. Suddenly the German turned turtle and fell and the Belgian biplane returned towards Antwerp.

DEADLY FUME OF FRENCH SHELLS KILLS GERMANS

Turpentine Causes Instantaneous and Painless Death of
All Within Its Reach; Dead
Men Stand as if Petrified.

(Associated Press Correspondence.)
London, Sept. 25.—Remarkable tales of novel engines of war are appearing in all parts of Europe, but nothing has yet equalled the reports circulated concerning new gases used by the French which fire turpentine, a substance said to produce instantaneous and painless death for every living thing within its reach.

Although it is so deadly in its work, turpentine cannot be objected to on the ground that it violates human principles of war. In fact, it is so humane that it must not be confused with hobbite and other explosives which have deadly fumes.

English correspondents have reported that entire lines of German soldiers stood dead in their trenches as a result of the fumes from the mysterious turpentine discharged by the French in engagements along the Marne. The dead Germans are reported to have maintained a standing posture and retained their rifles in their hands, so sudden and unusual was the effect of the new weapon. Instantaneous paralysis is said to have been caused by the turpentine.

The French gas for the use of the turpentine is shrouded in as great mystery as turpentine itself. Experts are required, it is said, for the use of the new ammunition, and the handling of the strange gas so recently introduced into warfare.

Military experts are now speculating whether turpentine will lend itself to use in aeroplanes. Lydette, it is said, can be successfully employed by aeroplanes. In the present war, however, military experts do not expect to see any of France's enemies discover enough about turpentine to produce its gas or duplicate the guns.

London is constantly hearing stories of the terrible engines of war Germany will send over the British capital and bombs containing horrible gases are among the weapons it is predicted the Germans may drop upon darkened London streets. But such stories cause little uneasiness because of the experience of Paris with German bombs.

AUTO EMISSARY OF EVIL, SAY PRESBYTERIANS

Representatives of Synod Admit, However, That It May Be Righteously Used by Ministers.

The automobile was declared to be "an emissary of evil and an agent of righteousness" by the Presbyterian ministers yesterday at the second day's session of the Synod of New Mexico. Explaining how the automobile might be used as the agent of righteousness, the ministers said that every preacher in the state could have a car to travel to out-of-the-way places to hold Sunday services.

Ministers of the synod will preach in the Protestant churches tomorrow morning.

The assignment of the Presbyterian pastors follows:

First Baptist church, the Rev. H. A. Hodges, of Magdalena; First Congregational church, Rev. B. Z. McCullough, of Santa Fe; First Christian church, Rev. Thomas A. Mitchell, of Alamogordo; Lutheran church, Rev. Hugh T. Mitchemore, of Elephant Butte; First Presbyterian church, Dr. George S. McCune, of Korea; Central Avenue Methodist church, Rev. Arthur M. Baker, of Silver City.

In the evening the Rev. Charles Darling, of Roswell, will preach in the First Methodist Episcopal church.

The morning sessions of the second day of the synod were opened by devotional services led by the Rev. Charles D. Darling. Dr. Darling spoke stirringly from the text, "We have found Him."

The roll call brought responses from several visiting delegates who had arrived since the evening before. Reports showed an advance in gifts to the church and missions throughout the state.

A resolution was presented to authorize the state clerk of the synod to communicate to congressmen that the Synod of New Mexico favors the submission of national prohibition. The enthusiasm waxed warm, as able speeches were made in support of the

resolution and when the vote was called for the assembly arose as one man and emphasized their vote by giving the "chauntia salute." Then while standing all sang "America."

Among the subjects to receive special attention in the afternoon session was the work among the negroes of the south. Dr. Hodges, of Magdalena, was eloquent and witty in his plea for them. He didn't favor the separation of the colored man from the white in worship.

Mr. Patterson followed, speaking of his work and experiences among the colored people. He said he was entertained in Taft, Okla., a town of seven or eight hundred, where no other white man was allowed to stay all night. He said this gave him a taste of what the colored man must feel in the white man's town.

A report of the Presbyterian sanatorium in this city was made by the Rev. Hugh Cooper. The synod endorsed the plan to raise an endowment of \$100,000, New Mexico and Arizona being asked to raise \$10,000 in the two states.

After the meeting last evening, the visiting delegates were entertained by the local church in the church parlors.

Today's Program.

The program for today follows:

9 a. m.—Devotions, led by Rev. B. Z. McCullough.

10:30—Home missions.

12:00—Recess.

Afternoon.

1:30 to 4:00—A conference. "The Presbyterian United Movement: How It Helps." Led by Dr. Fullerton and Mr. Patterson.

4:00—Free automobile ride to visitors.

Evening.

7:30—Popular meeting. "Home Missions in New Mexico." Rev. John B. Gann, D. D., presiding. Brief addresses by Rev. H. J. Compston, Bannerman, N. M.; Rev. Victoriano Valdez, Taos, N. M.; Rev. Henry C. Nelson, Laguna, N. M.; Rev. John D. Henry, Deming, N. M.

For a Weak Stomach.

There are people right in this vicinity who find it necessary to be very careful about what they eat as they have weak stomachs. Many of them would be very much benefited by the same treatment that cured Mrs. Ernest Pharo, of Beaver Dam, Ohio, who writes, "I had a weak stomach and for years could not digest with me. I would feel uncomfortable for hours after eating. I lost weight and became debilitated. Then I began taking Chamberlain's Tablets and the promptness with which they benefited me surprised both myself and my family. They strengthened my digestion and in a short time I was sound and well. For sale by all dealers."

GERMAN HEAVY GUNS DEMOLISH MAUBEUGE FORTS

Fortifications, Supposed to Be Impregnable, Are Crushed Like Eggshells by Fire From New Type of Artillery.

(Associated Press Correspondence.)

Rotterdam, Sept. 24.—The correspondent of the Berliner Tageblatt, with the German headquarters in the field, describing the fortifications of Maubeuge, recently taken by the Germans, points to the fact that this was the first fortress of its kind to be taken.

The fortress consisted of a series of forts and outworks. These latter were composed of permanent trenches and redoubts, access to which was difficult owing to the general use of barbed wire entanglements. The artillery was placed in deep epaulements, but was mobile instead of stationary, as usually is the case. During the attack on the fortress an armored train on the line north of the city was in action.

Before Maubeuge surrendered seven units among the outworks were taken by the Germans. The lesson of this, asserts the correspondent, is that the German heavy artillery was able to overcome what the French thought to be impregnable positions.

In view of the German claims that dum-dum ammunition was found in the French fortress of Longwy, Colonel Darce, commander of the French troops there, who was permitted to retain his sword by the German crown prince, has now been deprived of that honor.

Bishop Killed.

Salt Lake City, Sept. 25.—Bishop P. Spalding, head of the Episcopal church in Utah, was instantly killed here tonight when an automobile in which he was riding struck a curb and overturned. Bishop Spalding's skull was badly fractured and his neck broken. The car was driven by a young daughter of Judge William H. King, who is one of the best known democratic politicians in the west.

GREAT OVATION TO ASQUITH BY IRISH PEOPLE

British Premier's Appeal for Volunteers Is Seconded Eloquent by John E. Redmond, Nationalist Leader.

(By Morning Journal Special Leased Wire.)

Dublin (via London, Sept. 25, 11:30 a. m.)—Premier Asquith appeared at the Mansion House here tonight for the purpose, as he explained it, of the king's government, to "show our loyal and patriotic Ireland to take her place in defense of our common cause."

The prime minister received a tremendous ovation when he appeared at the Mansion House with John E. Redmond, the Irish nationalist leader, and the Earl of Aberdeen, lord lieutenant of Ireland.

Great crowds gathered in the streets of Dublin and cheered the nationalist volunteers who, armed with rifles and bayonets, acted as a guard of honor.

The invasion of Belgium and France, said the prime minister, constituted the blackest page of the war's sombre history. England had worked to the last for peace.

In his appeal to Irishmen he said he was backed by Irishmen of all parts of the empire and the world.

"The old animosities are dead," he declared. "What Great Britain asks, what she desires Ireland to give, is a free will offering of a free people."

Mr. Redmond, who followed, said he had promised the archbishop of Malines that Ireland would bring her arms and strength to avenge Louvain.

"It is Ireland's duty to fight," declared the Irish nationalist leader. "Great Britain has kept faith with Ireland and Ireland will keep faith with Great Britain."

The Union Realty company has closed another one of those big deals—a three-story building and business consideration private—on First street between Central avenue and Copper avenue.

ALLIES UNABLE TO TAKE CARE OF THE WOUNDED

Hundreds of Men, Suffering From Shots Received in Battle, Left on Field Without Even First Aid.

(Associated Press Correspondence.)

London, Sept. 27.—Inability to take prompt care of the sick and wounded soldiers in the field is manifesting itself to an alarming degree in the rear of the French and English lines.

An American official, who was close behind the allies for several days, within 100 miles of Paris said he found 246 soldiers in one emergency camp who had been for two days without food and water and had no surgical attention, although some of them were badly injured and their wounds were foul from neglect.

Wounded Untreated.

In many other places he found scores of wounded men who had not been picked up by the ambulance corps. At Paris, hospital facilities are adequate and good care is taken of the injured there, but the "first aid to the injured" work is not thoroughly organized and adequate provisions have not been made for picking the injured up promptly and affording them speedy treatment and transportation to a base hospital.

Too Engaged in Battle.

The plain truth about the present situation is that Germans, French and English alike are so engrossed with the mighty task of making war that they have no time nor strength left to care for the sick and wounded, said the American official. Here is the opportunity for the United States to play the good Samaritan in a way which will be thoroughly appreciated by the entire world. Instead of sending a few surgeons and nurses to each of the belligerent countries, sufficient funds might be subscribed in the United States to enable the American Red Cross to send twenty surgeons and 100 nurses with complete field hospital equipment into every one of the countries where fighting is now going on. There is imperative need for help from neutrals. The belligerents cannot do

justice to their sick and wounded without the assistance of outsiders. Until one gets into the war zone and sees the wounded it is impossible to conceive of the magnitude of this conflict.

Trained Surgeons Needed.

"The Red Cross hospital ship sent by the Americans will be of great use, but trained surgeons and nurses to go into the field are needed more than ships or base hospitals. And the surgeons and doctors are needed immediately and will be needed throughout the war. Modern science has proved how vital the immediate treatment of all wounds is. I saw men lying on battlefields in France whose wounds were actually rotting through neglect."

SERVIANS REPLY WITH SHELL TO AUSTRIANS

(By Morning Journal Special Leased Wire.)

London, Sept. 26 (12:25 a. m.)—An official statement received from Nish by the Reuter Telegram company says:

"A severe battle continued September 22 on the front between Zvornik and Lazinica, and on the front from Minja to Sabatz. Elsewhere the situation is unchanged."

"The Austro-Serbian commander sent emissaries to Belgrade demanding the surrender of the town. Our reply to this insolent demand was to order the artillery to fire on the Austrian forces."

MR. ELY ANALYZED.

The Journal publishes elsewhere on this page a communication from Republican State Chairman Ralph C. Ely in which he seeks to minimize the record of Hon. Harvey B. Fergusson as a delegate from New Mexico in territorial days and a member of congress since statehood.

While Mr. Ely is recognized throughout the state as an adroit lawyer and a skillful politician, his effort to show the voters of New Mexico that they should throw aside a tried, true efficient representative and send to congress in his stead, H. C. Hernandez, described by Hugh Williams as "a mighty square little fellow" who will grow after he has had experience, is a task greater than the skill of the republican state chairman.

Mr. Ely makes the mistake of comparing the record of Mr. Fergusson with that of Hon. W. H. Andrews. He fails to remember that one B. C. Hernandez, not W. H. Andrews, is the nominee against Mr. Fergusson. Mr. Andrews will not represent New Mexico in case Mr. Fergusson is defeated, however much Mr. Ely would like to have the people of New Mexico so believe.

But let us take the record of Mr. Andrews and compare it with Mr. Fergusson's. We all know Mr. Andrews was a hard worker, and that, backed by the Pennsylvania delegation, he was able to do much.

But Mr. Andrews was a delegate for six years, during which time his principal achievement was to get 1,250,000 acres of land for the state. Mr. Fergusson, on the other hand, was a delegate for only two years and he got for the state, according to the official statement of Governor W. C. McDonald, 5,385,173.32 acres, or about five times the amount secured for the state during Mr. Andrews' six years' service.

It would be quite as accurate to say that Judge Rodney was responsible for the land secured by Mr. Andrews as to say Mr. Catron, who happened to be Mr. Fergusson's predecessor, should be credited with the achievement of Mr. Fergusson.

Predecessors have a habit of crediting themselves with work done by their successors.

There was a long line of delegates prior to Mr. Fergusson. If it was such an easy matter to get the appropriation of nearly 5,000,000 acres of land through congress, why had it not been done before?

Mr. Ely's argument relative to the modification of the homestead law, secured through Mr. Fergusson's activity, is equally fallacious.

Now as to his present activities: Since he has been a full-fledged member of congress, a brief three years, he has passed through the house authorization of the following public buildings:

Las Cruces \$125,000
Las Vegas 125,000
Albuquerque 75,000
Santa Fe 225,000

He has introduced a bill for the much-needed enlargement of the federal building in this city at a cost of \$250,000.

Recently he got through the house, just as Senators Fall and Catron got through the senate, the following appropriations: \$101,800 for the Indian school at Albuquerque and \$72,850 for the Indian school at Santa Fe.

To be able to secure authorization, or actual appropriation, of practically \$300,000 for New Mexico in three years, is not the work of a man who has lost his vigor.

When Mr. Ely says the bill for the 640-acre homestead has not been acted upon by the public lands committee, he is wrong. The bill was ordered favorably reported, and then the European war came along and shut off all avenues of legislation, for the present, except for emergency purposes.

Also Mr. Ely may not know that it took Representative Kinkaid nearly all of three full sessions of congress to get his 640-acre bill favorably reported from a republican congress.

Among the pending bills of Mr. Fergusson are the following:

To reinstate certain Indian deputation cases on the docket of the court of claims.

To provide for the surveying of the unsurveyed lands in the state of New Mexico.

To define procedure in creating forest reserves in the state of New Mexico.

To encourage an dprimate the

The Storytellers

How to Spell "Ike."

A certain small boy's mother was away on a visit. The youngster attempted to write her a letter.

"Papa," he presently inquired, "how do you spell Ike?"

"The," answered papa, wisely, "is a proper name, so must be spelled with a capital letter. Otherwise there is but one way to spell it—I-k-e."

By and by sonnie brought father his letter.

"Dear Mother—I respect it's almost time for you to come home."

Through the Pumps.

Lord Morsey, head of the Empress of Ireland-Storeland investigation board, said to a New York reporter the other day:

"Much is still left to be desired, but ships are safer than they used to be."

With a smile the veteran jurist added:

"We no longer hear of skippers offering such excuses for slow passages as the one offered by the skipper of the collier, who said:

"Well, gentlemen, no wonder we're late. We pumped the whole Atlantic three times through that ship coming across."

Natural Deduction.

"The people of London are noted for their stupidity," wrote a schoolboy.

"Where did you get that idea?" asked the teacher.

"Please, miss," was the reply, "it says in the text book 'the people of London is a very dense!'"

A Different Sense.

Sir Leopold McClintock, the Arctic explorer, was once giving an account of his experiences amid the ice fields of the north.

"We certainly would have traveled much faster," he explained, "had not our dogs given out at a critical time."

"But," exclaimed a woman who had been listening very intently, "I thought

that the Eskimo dogs were perfectly tireless creatures."

Sir Leopold's face wore a whimsical, gloomy expression as he replied:

"I—speak in culinary sense, miss."

Not an Expert.

The masterful manner in which some people evade an issue was mentioned at a recent dinner, when this one was recalled by Rear Admiral Philip Andrews:

"In New Orleans one night," the admiral said, "there was a man on the stage who offered to answer, by mental arithmetic, any question that might be asked by the audience."

"Just as long as the questioner remained in the expected channel the sailing was easy, but finally one man got beyond the bearings."

"If you please, sir," said the man, rising from his seat, "how far off can you hear thunder?"

"I can't tell you, sir," was the prompt response of the wonder on the stage.

"You can't tell me?" responded the man. "Why, I thought—"

"Not about thunder," replied the stage party, doing a quick piece of dodging. "You see, I am a lightning calculator."

Anything Will Do.

Carefully Abelard Wilks scanned the fair countryside for a suitable spot. After much thought, he stuck his hand up, got out his paints and started.

Oblivious to his surroundings, he was suddenly startled to see a red-faced, perspiring motorist at his side.

"Don't put another stroke to it," urged the newcomer. "I'll give you \$5 for it as it stands."

Something in Abelard Wilks snapped.

"It is very kind of you," he stammered, "but it's not quite finished."

"Don't matter one jot," said he of the motor car, as he got his money out. "I only want the canvas to mend a burst tire with."

Chairman Ralph C. Ely Gives Some Views on Mr. Fergusson's Efficiency

Editor of the Journal:

In your issue of September 9th, in an editorial entitled "Fergusson and Hernandez," you comment upon the editorial appearing in the "Las Vegas Optic," which you say bears the earmarks of the republican state chairman. This editorial is not mine, but in so far as it suggests the falling efficiency of Mr. Harvey B. Fergusson, because of his increasing years, I am perfectly willing to assume responsibility for it, and take up the cudgel which you throw down.

Nearly twenty years ago Mr. Fergusson was a member of congress. He was younger then than he is now and was virile and active. You credit him, with having done much for New Mexico and state that during the time of his former service as a delegate, he secured millions of acres of the most valuable lands for the educational institutions of the territory.

That is true, but it is also true that except for the original thirteen colonies, and the state of Texas, every state in the union has, during the period of its territorial organization, received by grant from congress, at least one section in every township, and often two sections in every township for public school purposes, and additional grants have been given older states for their universities, penitentiaries and other public institutions and to provide for drainage or other works of development. The grants to which you refer were made to New Mexico in 1898, at which time we had a republican congress. They were largely the result of the activity of Mr. Fergusson's predecessor in office, Mr. Catron, and they came to New Mexico in the natural course of events, like the gentle dew from heaven. I would not withdraw from him one iota of the credit that is his due, but no great glory should follow the grant which came as a matter of course. The inefficiency of the man, even then, is shown in the fact that he made no provision whatever for lieu lands, for the state, when the sections granted had already been entered or were included within Indian reservations, railroad grants, or had been otherwise withdrawn from public entry and it remained to Mr. Andrews, years afterwards, in what has been known always as the lieu land grant to procure for New Mexico, a grant of 1,250,000 acres of land, which slipped through Mr. Fergusson's fingers, even in the days of his greatest activity.

You say that "since he has been in congress as a representative, he has secured the passage of acts making it far easier for the homestead entryman to secure title to his entry." I presume that you refer to the so-called new homestead act, which is less exacting as to the period of residence, covers a shorter term, but which requires that at least one-eighth of the land shall be placed in actual cultivation by the entryman, each year. This bill was not introduced by Mr. Fergusson, although it may be possible that it received his vote. If so, he can hardly claim any credit for it from the citizens of New Mexico, upon the ground that it makes it easier to procure title. In a large portion of this state, actual irrigation is essential to cultivation, and the so-called desert land entry act, which requires that at least one-eighth of the land shall be placed in cultivation before patent shall issue. This new homestead bill, to which you undoubtedly refer, requires that one-eighth of the land shall be placed in cultivation each year for three years, and where irrigation is necessary the burden imposed upon the homesteader is greater even than the desert land act imposes, and is immeasurably greater than was imposed under the old homestead law. If the law is good, no credit flows to Mr. Fergusson, and so far as New Mexico is concerned, the law does not possess the qualities which you ascribe to it of making it far easier for the homestead entryman to secure title to his entry. The fact must be that the old gentleman lost sight of the conditions which obtain in his backward, and permitted a democratic congress

Bringing Up Father

TEN HOURS LATER

WHEAT PRICES STILL HOLD AT HIGH FIGURES

Expected Enlargement of Visible Supply for Monday Is Handicap on Bull Movement in Grain Centers.

CHICAGO, Sept. 25.—Expected enlargement of the domestic visible supply total on Monday handicapped the bull today in wheat. No important news took place and the market held steady at the same as last night. The outcome in corn was unchanged to 1/4c lower, and oats a shade off to 1/4c up. Provisions finished from 1/4c down to 1/4c advance. Arrivals of wheat at primary points today were 2,529,000 bushels as against 1,000,000 bushels for the corresponding day a year ago. Another bearish circumstance in this connection was the fact that northwestern stocks showed an increase of about 4,500,000 for the week, compared with 2,040,000 bushels last year. The outlook adverse to the bulls was made more so by the absence of export business, no sales to foreigners being reported except 240,000 bushels at the Gulf. Difficulty in arranging New York exchange was said to be the only impediment to larger shipments of wheat from Winnipeg to Europe. The transatlantic call for cheap cargoes from Canada, however, was a discouragement rather than a stimulus to holders here. So also was gossip to the effect that Liverpool was counting on receipts there being liberal in the future from Argentina.

Corn held relatively steady as a result of export sales at Boston and of clearance at New York for Bordeaux. Wheat's weakness, though, acted as an offset. Oats, like corn, received support owing to requirements of the export trade. As much as 1,000,000 bushels was said to be loading for Sweden.

Provisions scored fair gains in January contracts for meats and on all deliveries of lard. Nearly options of pork and lard were bearishly affected by smallness of cash call from the south.

Closing prices: Wheat—Sept., \$1.70; Dec., \$1.10; May, \$1.17. Corn—Dec., 70 3/4; May, 73 1/4. Oats—Dec., 49 1/4; May, 52 1/4. Pork—Jan., \$19.77. Lard—Oct., \$9.60; Jan., \$10.00. Hogs—Oct., \$10.70; Jan., \$10.15.

BOSTON WOOL MARKET.

Boston, Sept. 25.—The Commercial Bulletin will be tomorrow. Optimism has been more pronounced in the wool market this week since the announcement of a limited sale in London prices have steadied, although values are still somewhat erratic. Rather more business has been put through and manufacturers have made inquiries on fair lines of wool.

Cable reports indicate a brisker business in Yorkshire with a better feeling in the trade at the new level of prices.

BETTER OUTLOOK FOR BUSINESS IN AMERICA

NEW YORK, Sept. 25.—In view of the efforts of bankers of the country to organize a \$100,000,000 gold pool designed primarily to facilitate exchange operations between this country and Europe today's sharp rise in cables and demand bills on London was regarded as highly significant. Cables rose to \$4.93 1/2 and demand sold up to \$4.97 1/2. The advance was attributed in some quarters to the belief that the modified British moratorium, which becomes effective early in October, might cover these forms of remittance. Announcement that arrangements have been perfected, under the auspices of the stock exchange for the private dealings in concessions in unlisted stocks, which includes the carb, was accompanied by intimations that this is preliminary to a similar step in regularly listed securities. It is known that many members of the exchange deem such action advisable, but realize that it cannot be well taken without the consent of the local banks, which hold large amounts of listed stocks as collateral for outstanding loans.

Bond dealers reported an increase for the new New York City notes, with a further advance in the three-year issues. The offering of these notes was said to have stimulated an inquiry for other municipal notes and bonds. Incidentally the state of Tennessee secured an extension in this market of some of its maturing obligations.

Recent weather conditions in the middle west contributed to a counter movement in that section. While farmers are reporting an unusually large winter wheat acreage, merchants complain of the backwardness of trade because of belated decline in the temperature.

Local banks are likely to receive further cash accessions this week, a gain of \$8,000,000 to \$10,000,000 being foreshadowed in the surface movement. Reduction of loans is also expected now that the city loan association have been completed. Bank clearings continue to reflect abnormal conditions, the largest decreases being shown at this center.

If You Have a Want Tell It Through the

BIG MEN TALK AT MEETING OF UNDERWRITERS

F. B. Schwentker, Just Back From Cincinnati, Gives a Glowing Account of National Gathering.

F. B. Schwentker, who has just returned from Cincinnati, where he attended the annual meeting of the National Association of Life Underwriters, spoke in enthusiastic terms yesterday of the success of that gathering.

"One thousand of the most impressive and busy life insurance underwriters from all parts of the United States were in attendance. The city of Cincinnati entertained the delegates royally. A grand reception and ball was given at the beautiful Hotel Shinton and a boat ride up the Ohio river on the Island Queen with dinner on board followed by a dance, was another delightful event.

"Some idea of the importance of this convention can be gained from the fact that addresses were given by Senator Lawrence V. Sherman, of Illinois; by ex-Governor Harmon, of Ohio; by S. S. Huebner, professor of insurance and commerce, of the University of Pennsylvania, and also an address prepared by ex-President Taft, who was unable to attend in person, was read."

Three Lines of Work.

Mr. Schwentker was enthusiastic over the convention, the efforts of which were centered on three particular lines of work—first, to eliminate the crooked and unworthy agent from the business; second, through a national advertising campaign to educate the public to the advantages and benefits of life insurance; third, to let the public know that every additional tax on life insurance means a direct tax on the policy holders on whom the burden eventually falls.

The first work it is hoped to accomplish by inducing all responsible and worthy insurance men to join the local Life Underwriters' association in their respective communities, and then advising the public to buy insurance only from those agents who can show a membership card in the Life Underwriters' association. All honest and progressive insurance men realize that their profession will not stand on the high level it should until the roustabout, twister and crooked insurance agents are eliminated.

Modern life insurance, said Mr. Schwentker, is very little understood by the average citizen. If the public fully realized even half of the benefits of the present-day life insurance policy, he thought, they would carry many times as much insurance as they now do. As it is, only a few men such as bankers and merchants realize the real worth of life insurance and as a result they carry more per capita than any other class. It is therefore believed that a national advertising campaign devoted to educating the public as to the benefits of life insurance will result in increased business by all companies.

Uniform Laws Desirable.

"As life insurance does not come under the hand of interstate commerce," said Mr. Schwentker, "it is regulated entirely by the legislatures of the forty-eight different states. A great deal of the regulation is good but as it is different in each state, a company operating in all of the forty-eight United States must comply with the laws of each separate state, which requires the writing of many special policy forms to fit the laws of the particular state in which they are sold. Uniform or federal laws governing life insurance would be a great blessing to all life insurance companies and would directly benefit all policy holders.

The states seem to vie with each other in taxing life insurance companies, not realizing that the burden has been imposed always must fall on the policy holder, either in the way of higher premiums or in reducing dividends. The United States is the only great nation which permits a tax on life insurance. Even in Europe which has staggered under the burden of taxation for many years, has never seen fit to penalize thrift by permitting tax on life insurance.

"Senator Sherman, in his address, dwelt on the unfairness of many of the laws passed by our state legislatures governing life insurance companies, and particularly on the injustice of the taxes now levied by most of the states. Ex-President Taft advised against borrowing on life insurance policies, stating that in most cases it means borrowing from one's widow and children. Policy holders, he stated, should never borrow on their life insurance in order to make investments or to meet other obligations except in rare instances. Nine times out of ten a policy loan means a policy lapse.

"Professor Huebner, under the direction of the National Association of Life Underwriters, is preparing a text book on life insurance which is to be used in high schools and universities in many of which a course in life insurance is to be taught."

The 1914 convention will be held in San Francisco.

Little Girl Cured of a Cold.

"Two years ago my little girl caught a hard cold which went to her lungs and she coughed almost constantly. I got her a bottle of Chamberlain's Cough Remedy. The beneficial effect of this remedy was promptly demonstrated and this one bottle cured her," writes Mrs. Lena Kennedy, Huntington, Ind. For sale by all dealers.

GRAND JURY TO MAKE ITS FINAL REPORT TODAY

Work to Be Completed Sooner Than Was Expected; About Twenty-five Cases Have Been Considered.

Completing its work in shorter time than officials set, the grand jury will make its final report this afternoon. The number of cases scheduled for investigation by the grand jury led officials to believe at first that its business could not be finished before next week. However, the jurors have worked rapidly and when they adjourned yesterday afternoon only a few cases remained to be disposed of.

Since Tuesday morning, when it began actual work, the grand jury has probed into about twenty-five cases. The witnesses summoned indicate that several witnesses have been called for today and they complete the list, District Attorney M. U. Vigil said yesterday afternoon.

SANDOVAL COUNTY SUES SANTA FE FOR \$17,000 TAXES

Assistant District Attorney H. B. Jamison yesterday brought suit in behalf of Sandoval county, naming the Santa Fe as defendant, seeking the collection of \$17,639.16, taxes alleged to be due.

The suit contains eight alleged causes of action. According to the complaint the amount of taxes due according to years follows: 1907, \$740.58; 1909, \$4,445.59; 1910, \$1,355.26; 1911, \$2,526.89; 1912, \$3,216.65; 1913, \$3,525.75; 1908, \$1,009.29. The county asks for penalties and interest besides the total of these amounts.

A. D. Ogie was appointed guardian of Lucinda Tafuya to convey her interest and that of other minors in two lots in the Jesus Apodaca addition.

The action of the county commissioners of Bernalillo county in opening a road through the Fernandez grant, was reversed by Judge Reynolds in the case of the Fernandez company against the county commissioners.

SPENCER CASE PROBABLY WILL GO TO JURY TODAY

When the district court adjourned yesterday afternoon the defense in the case of Spencer vs. Gross, Kelly & Co. had nearly completed its evidence. Court officials expect this case to reach the jury today. When the case was tried previously five days were taken. Provided it does reach the jury today, it will have taken the same time at this term.

Arizona Roads Are Put into Shape for Automobile Racers

Col. D. K. E. Sellers, president of the Ocean-to-ocean Highway association, yesterday issued the following road bulletin:

Haton, N. M., Sept. 23.—Roads from Trinidad to Las Vegas all O. K. E. C. Spears.

Santa Fe, Sept. 22.—The road between Las Vegas and Santa Fe is in fair shape only, there being some rough spots, but tolerably good. From Santa Fe to Albuquerque reports indicate it is in A-1 shape. James A. French, state engineer.

Albuquerque, Sept. 25.—Ocean-to-ocean highway from Albuquerque to Socorro in excellent condition. D. K. E. Sellers.

Whitewater, Ariz., Sept. 17.—The roads to Holbrook are dry but rough. There are just enough washed out places to prevent making good time. The roads south are very rough yet passable. Black canyon is passable. E. R. McCray, acting superintendent, Fort Apache agency.

Phoenix, Ariz., Sept. 23.—Improvement of Phoenix-Yuma lap of Ocean-to-ocean highway planned by supervisors of two counties who met at Arua Caliente Sunday. Each board agreed to spend money to fix roads before San Diego-to-Phoenix motorcycle race this fall. Rains that have cut southern roads lately were all too far south to damage highway around Globe and Roosevelt and that division of the route is rounding into splendid form. Lyle Abbott.

Flagstaff, Ariz., Sept. 19.—Roads in good condition with exception of about eight miles west of Winslow, which is newly built. Taken as a whole, roads from Winslow to Ash Fork splendid. New signs being placed from Los Angeles east by truck. Contract for cement bridge over Canon Diablo let. Work on same begins at once. J. W. Francis.

Grand Canyon, Sept. 16.—Roads in good shape between Grand Canyon and Flagstaff. Machines making good time every day. A few spots on the Ash Fork road washed a little but passable. Heavy winds for four days indicate approaching storm. W. W. Bass.

Kingman, Ariz., Sept. 21.—Road conditions throughout this part of the state are excellent. We have to announce that San Bernardino county, Calif., has contributed \$25,000 to the bridge fund and now the general government is making possible the building of the bridge across the Colorado river at Topeck, to cost \$75,000. To accommodate travel, the Santa Fe Railway company is planning the bridge, which will be completed within the next few weeks. The road race from Los Angeles to Phoenix, in November, will go over this route. A number of the drivers in the race are now going over the route to get familiar with it. They expect to make wonderful time between the two places.—Anson H. Smith.

OCEANOGRAPHIC HIGHWAY ASSOCIATION.

Y.M.C.A. SLOGAN OF E. ALBRIGHT IS PRIZE WINNER

Idea That Appeals Most Formidably to Committee Is "You Must Come Across," Meaning Contributors.

You Must Come Across. That is the slogan of the campaign to establish an association here, decided upon last night by the committee—the Rev. Hugh A. Cooper, H. B. Henning and M. L. Fox. Elwood Albright, son of George F. Albright, suggested the happy thought, winning the \$20 prize offered by H. E. Putney. Mr. Albright returned to Albuquerque recently from San Diego.

While the "come-across" idea did not strike Mr. Albright exclusively, the committee was influenced in the choice of his slogan because it was arranged in the form of a tasty design which the committee plans to reproduce on celluloid buttons to be worn on coat lapels and also on pennants.

To Have Buttons Made.

Mr. Albright's original design was a banner with an inverted "V" shaped vent at the bottom. On the left half are the letters "Y. M. C. A." in a vertical line. On the opposite the letters, completing the words, appear, thus:

You
Must
Come
Across.

When the contest was closed at 5 o'clock yesterday afternoon Mr. Putney had received nearly 100 slogans. They were all designed by numbers, and the committee in making the selection did not know that Mr. Albright was the winner until the number of his design was presented to the general Y. M. C. A. committee.

The committee considered several other suggested slogans long before making the final decision. The names of those who composed or designed the others are unknown, as their numbers were not turned into the general committee last night, the committee presenting only the winning number.

Hard to Decide.

One that caused the committee some indecision—for a time—was a neatly printed orange pennant. Across the top of this was: "I am for," and in a vertical line extending down from the word "am" was "You May Come Also." Another was a button design with the letters Y. M. C. A. arranged in the center in the form of a cross. In a semicircle across the top was "In this sign conquer."

Others considered by the committee were:

"For a better Albuquerque Y. M. C. A."

"The Y. M. C. A.—a place to develop men."

"Forward! Hurrah! Hurry"

"For the Y. M. C. A."

"That's coming to stay."

"In Your Al-bu-que-rue."

"Get the Y. M. C. A. habit."

"A well-equipped Y. M. C. A."

"Will promptly place us in Class A."

"Y. M. C. A. 'tion"

"Come across with your donation."

"Y. M. C. A."

"We've got it going."

"Keep up the steam."

"Get the"

"You Must Come Across"

"Spirit."

"You Must Come Across" (arranged in circle on button).

"Get into the triangle."

"Your Money Can Assist in Making Albuquerque a City of Clean, Healthy Young Men."

"You May Count Albuquerque."

"Yoking Morality, Character and Achievement—for a better and bigger Albuquerque."

"Albuquerque needs a Y. M. C. A. Nuff sed."

One contestant tried it three ways. Here are his offerings:

No. 1.

"\$50,000 for a Y. M. C. A."

"We can, we ought, we will."

No. 2.

"\$50,000 for a Y. M. C. A."

"Our biggest and best job."

"Watch Albuquerque do it!"

No. 3.

"Don't putter, putter, out."

"Putter over!"

For a Thermometer.

The thermometer idea was suggested. This contestant wanted a big thermometer placed in front of the Y. M. C. A. headquarters on which might be indicated day by day the total of the subscription list. He also suggested tags for state fair week, bearing a small thermometer and the words: "What temperature today?" He offered a similar button.

One entered a double prose acrostic. This combined both the "You-Must-Come-Across" and the "You-Must-Capitalize Albuquerque" ideas. He arranged the letters Y. M. C. A. in the center of his banner with one set of words arrayed on one side and the other, on the other side.

Here are several others, offered by the same man, which the committee regarded favorably:

"You Must Contribute Ample."

"You Must Capitalize Albuquerque."

"Your motto—Capitalize Albuquerque."

"Youth, Manhood, Childhood, Age—Good for All."
