## ALL EFFORTS OF TWO ARMIES ARE IN BATTLES ON EAST AND WEST

Allies in Equal Numbers Meet  
Strategic Move of Germans  
on Somme River, Says  
Dispatch.

## NO MENTION ALLOWED OF STRUGGLE'S LOCATION

Infantry Plays Important Part  
in Engagement and Invad-  
ers Are Driven Back Con-  
siderable Distance.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
On the Battle Front, Sept. 26. (via  
Paris, Sept. 26, 10:34 p. m.)—All ef-  
forts of the opposing armies were  
concentrated on the western and  
eastern wings today. The allies had  
foreseen such a move on the part of  
the Germans toward the west, how-  
ever, and although very strong forces  
of the invaders had been thrown on  
the Somme river, they found them-  
selves opposed in equal numbers.

The infantry played an important  
part all along the line and rushed  
back the Germans for a considerable  
distance. All mention of the places of  
action or comment on the troop move-  
ments is forbidden under the severest  
penalties.

## GERMANS REPULSED ALONG ENTIRE FRONT

Paris, Sept. 26 (11:10 p. m.)—The  
following communication was issued  
tonight:

The enemy has attacked along the  
entire front, but has everywhere been  
repulsed.

On our left wing we are making  
progress.

On the heights of the Meuse the  
situation remains unchanged.

In the Woëvre region we continue  
to gain some ground.

## MAKING WINE BEGINS IN FRENCH VINEYARDS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Bordeaux, Sept. 26 (8 p. m.)—In  
many of the famous vineyards around  
Bordeaux, vintage has begun. Wom-  
en, children and old men are taking  
the places of the men fighting at the  
front. They are aided by refugees  
from Belgium and northern France.

The disposal of the wine is likely  
to be a problem, as about 20,000,000  
bottles went to Germany each year  
and, in addition, the spending power  
of the world will be diminished for  
some time to come, owing to the im-  
mense cost of the war.

## LICENSE TO OPERATE WIRELESS AT SAYVILLE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Washington, Sept. 26.—A license to  
operate the wireless station at Say-  
ville, L. I., as a "limited public ser-  
vice station," was issued today by  
the department of commerce.

Assistant Secretary Sweet of the de-  
partment wrote the Atlantic Com-  
munication company, which owns the  
station, saying that the license per-  
mitted operation in connection with  
the company's station at Nauken and  
Elise in Germany, and with the  
coast station at Cartagena, Colombia.

## No More Aid for Americans.

Vera Cruz, Sept. 26.—The American  
consul, W. W. Canada, today made  
public the state department's instruc-  
tions to issue no more transportation  
or assistance to American refugees  
since the conditions which once made  
this action advisable have now disap-  
peared.

## WEATHER FORECAST.

Washington, Sept. 26.—New  
Mexico: Generally fair Sunday and  
Monday; not much change in tem-  
perature.

## The Day in Congress

### THE SENATE.

Met at 11 a. m.

Resumed consideration of the Alas-  
ka coal land leasing bill restricting  
leases to American citizens.

Adjourned at 3:30 p. m. until noon  
Monday.

### THE HOUSE.

Met at noon.

Considered the substitute rivers and  
harbors bill to a committee.

Passed a rule to indefinitely  
postpone the redium conservation bill.  
Adjourned at 12:30 p. m. until noon  
Monday.

## SUNSHINE SOCIETY WILL BE ABOLISHED

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Albany, N. Y., Sept. 26.—An order  
permitting Attorney General James A.  
Parson to begin an action to vacate  
the charter and annul the corporate  
existence of the International Sun-  
shine society was granted today by Su-  
preme Court Justice Ridd.

The action of the attorney general  
resulted from allegations by repre-  
sentatives of the state board of chari-  
ties, that the management of the so-  
ciety was loose and careless and that  
some of its funds had been used with-  
out authority for conducting a hospi-  
tal and sanitarium.

## GOVERNMENT ARMOR PLANT IS PROBABLE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Troy, N. Y., Sept. 26.—Late today  
Secretary Daniels, with Congressman  
Peter Ten Eyck, and others, inspect-  
ed Breaker Island, between Troy and  
Albany, which has been given con-  
sideration as a site for the new gov-  
ernment armor-making plant. The  
secretary stated on his return that the  
site was excellent and added:

"It may not be long before you see  
the proposed plant established there."

## GERMAN REGIMENT WIPE OUT BY FRENCH

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
London, Sept. 27 (3:30 a. m.)—"The  
French have surrounded and annihilated  
the 19th regiment of German  
reserves," says the Times correspond-  
ent of the Exchange Telegraph com-  
pany, in a message sent by way of  
Rome. The dispatch adds:

"The German wounded include a  
colonel, a major, two captains and  
two lieutenants."

## JAP ADVANCE ON KIAO-CHOW NOW IS PROGRESSING

Chinese Complain That Invad-  
ers Are Committing Out-  
rages Upon Inhabitants, Is  
Charge at Peking.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Peking, Sept. 27 (1:15 a. m.)—  
Japanese troops operating against  
the German concession of Kiao-Chow  
are making progress in the direction  
of Fang-Tse, a town fifteen miles to  
the south of Meishan, on the Kiao-  
chow railroad, according to advices  
received here from the province of  
Shantung. At Fang-Tse, there are  
valuable coal mines under German  
control.

Reports to the Chinese government  
from various towns in the wake of  
the Japanese army, corroborate the  
dispatch from Lai-Chow of the wound-  
ing of Japanese of about twelve  
Chinese. According to the govern-  
ment advices a number of Chinese  
have been killed while attempting to  
prevent attacks on their women. The  
Chinese minister at Tokio has been  
instructed by his government to ap-  
peal to the Japanese foreign office  
in behalf of the inhabitants of Shan-  
tung.

The activities of the Emden and  
other German cruisers which accom-  
panied by colliers, departed from  
Tsing-Tau early in the war, seem to  
prove that the German official de-  
clarations stating that the cruisers re-  
mained within the harbor were in-  
tentional fabrications.

## JAPANESE OCCUPY IMPORTANT CHINESE TOWN

Weihsein, Sept. 26 (via Peking,  
Sept. 27, 1:15 a. m.)—Two hundred  
Japanese entered Weihsein Friday  
evening and occupied the railway  
station, capturing four Germans.

Weihsein is an important city in  
the Chinese province of Shantung,  
about fifty miles north of the Ger-  
man concession of Kiao-Chow, with  
which it is connected by railroad.

## JAPAN DENIES SOLDIERS HAVE MISTREATED CHINESE

Washington, Sept. 26.—The follow-  
ing statement from Tokio addressed to  
Lieutenant Colonel Itamay, military  
attache of the embassy here, was  
made public late today:

"The report attributed to Charles  
A. Leonard, an American missionary  
in Laichau, must have been made in  
misinformation. When Japanese  
troops were marching in the vicinity  
of Laichau the heaviest rain in the  
last thirty years was falling. The sol-  
diers were forced to seek shelter in  
the houses of natives as well as to  
requisition material for fuel to dry  
their uniforms. On account of the  
extraordinary inclemency of the  
weather it was practically impossible  
to provide foodstuffs and requisitions  
were made as a last resort. Whatever  
requisitions were made, it is needless  
to state, were amply compensated.

The authorities desire to deny most  
emphatically the accusation that Chi-  
nese women were molested by the  
Japanese in any way. It is a matter  
to be greatly regretted that such de-  
famatory news should ever have had  
circulation."

Mr. Leonard's charges were made  
in a letter to Peking several days ago,  
in which he said Japanese troops in  
had ill-treated Chinese inhabitants in  
the section of Shantung province,  
where he was stationed as a mission-  
ary.

## VILLA PLANS TO ATTACK FIRST CHIEF WITHOUT WASTING TIME

Ten Trains Filled With Troops  
Leave Chihuahua for Pur-  
pose of Taking Important  
City of Saltillo.

## MAYTORENA LEFT TO FIGHT OWN BATTLES

General Obregon Is Believed  
Now Safely Within Lines  
Dominated by Central Gov-  
ernment at Mexico City.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
El Paso, Tex., Sept. 26.—Troop  
movements in northern Mexico indi-  
cated today that General Villa would  
take the aggressive at once against  
the forces of the Carranza central  
government. Ten trains of Villa sol-  
diers left Chihuahua City today on  
their way, it was announced, to at-  
tack Saltillo, capital of Coahuila, the  
eastern border state where Carranza  
served as governor under the Madero  
administration.

Other troops are moving directly  
south from Torreon. As far as has  
been learned Villa will leave Governor  
Maytorena, of Sonora, to handle his  
own campaign against the Carranza  
forces in that state, and if successful  
in the prospective battle at Naco to  
move south along the west coast. In  
the meantime Villa's forces would be  
advancing on Mexico City from the  
east, by way of Saltillo, and along the  
route of the Mexican Central railroad  
below this point.

Apprehension over the fate of Gen-  
eral Alvaro Obregon, Carranza's west-  
ern divisional commander, was allayed  
partially today upon definite advices  
that he had been permitted by Villa to  
go to Mexico City. Obregon's arrest  
at Chihuahua by the northern leader  
had been the prime cause in the most  
recent Carranza-Villa split. While it  
was asserted that Obregon had left  
Chihuahua for the south on Thursday,  
Carranza officials here lacked definite  
advices that he had arrived safely in  
territory dominated by the central  
government. He should have arrived  
today at Mexico City.

## CARRANZA PREDICTS MORE WAR IN MEXICO

Washington, Sept. 26.—Further  
fighting in Mexico was predicted by  
General Carranza today to the diplo-  
matic corps in Mexico City, according  
to official advices to the state de-  
partment. The first chief explained  
to the diplomats who gathered at his  
request, that Zapata had refused to  
attend or send delegates to the na-  
tional convention called for October  
1, and that his forces were active in  
the south. He also described in detail  
events leading up to the rupture with  
General Villa but saying that the  
blame for further bloodshed would be  
Villa's, as his own troops would act  
only on the defensive.

Official information has come to  
the Washington government from  
General Funston and others with a  
definiteness that is regarded beyond  
question, that Zapata and Villa are  
working in harmony against Carranza  
and expect the support of ex-fed-  
erals who fled the capital because  
Carranza would give them no guaran-  
tees. One of Villa's chief demands  
had been that meritorious officers  
who supported Huerta should be taken  
into the new national army, only  
those directly implicated in the over-  
throw of Madero being barred. Al-  
ready it has been reported that Fran-  
cisco Carbajal, former provisional  
president, and General Felix Diaz are  
ready to support Villa.

General Hugh Scott, assistant chief  
of staff of the army, and formerly in  
command of the Mexican border, has  
received a pathetic letter in this con-  
nection from Gen. Francisco Castro,  
the aged general just released with  
Mexican federal troops who crossed  
the border after the battle of Ojinaga  
and were interned. General Castro  
wrote that after forty years' service  
in the Mexican army, during which he  
worked hard to gain every promotion  
and had not a blot on his record, he  
now found himself barred from the  
army of his country and without em-  
ployment because of Carranza's order.

The American government has taken  
no step as yet to mend the situa-  
tion. Rear Admiral Fletcher, com-  
mander of the Atlantic fleet, has re-  
commended that four battleships be  
retained temporarily in Mexican wa-  
ters while the remainder of the fleet  
go north for target practice.

American troops at Vera Cruz have  
been ordered to await further orders  
before loading baggage aboard the  
transports. The opinion is now gen-  
eral that they will not be withdrawn  
until the Villa-Carranza controversy  
is adjusted.

The following report from General  
Funston was received today:

"One of the two wires of the ca-  
ble company to Mexico City is work-  
ing. The present extent of the dam-  
age to the railway (Vera Cruz to Mex-  
ico City) is not yet fully known. Two  
freight trains have been turned back,  
one in each direction, and the track  
torn up over considerable stretches.

There is nothing definite as to the  
destruction of bridges, though such  
destruction is stated to have occurred.  
If the bridges are not destroyed and  
no resistance is offered, railway  
officials think they may be able to  
run trains in three or four days.

"It is known that the destruction  
was the work of revolutionist ex-  
federals under Higinio Aguilar and  
Benjamin Argumedo. The size of this  
force is variously estimated at from  
3,000 to 4,000 men. Candido Aguilar  
(Carranza's general commanding  
forces outside Vera Cruz) has sent  
1,500 men, practically all he had at  
Saltillo, on trains in that direction.  
Presumably they will be joined by  
others from Cordoba and Orizaba.  
Agents of Villa have been here re-  
cently conferring with ex-federal offi-  
cers and furnishing them with funds.

"If the break in the railway can be  
kept open it will have the important  
effect of isolating Gen. James Jesus  
Carranza and the 18,000 troops he  
took to the isthmus to 'garrison' the  
states of the southwestern part of the  
republic."

In response to Admiral Fletcher's  
recommendations the battleships  
Texas, Minnesota and Rhode Island  
have been ordered to Vera Cruz. They  
probably will relieve the Arkansas,  
Delaware and North Dakota. Later it  
is proposed to withdraw the Kansas  
and Virginia, leaving the Texas, Min-  
nesota, Rhode Island and Vermont in  
Mexican water.

An optimistic view of the situation  
was expressed in a statement issued by  
Gustavo Miralles, one of Carranza's  
private secretaries, who arrived here  
recently from Mexico. It says in part:

"I think the delegates who will at-  
tend the national convention to be  
held in Mexico City next Thursday  
will peacefully compose the difficul-  
ties now existing between Carranza  
and General Villa. At this convention  
all the divisions of the constitutional  
army, namely, the northwest,  
northeast, eastern, first and second di-  
visions of the center and all other  
constitutionalist commanders, will be  
present, representing over 100,000  
men."

## OBREGON REACHES CITY OF MEXICO IN SAFETY

Mexico City, Sept. 26.—General Al-  
varo Obregon, the Carranza com-  
mander, who was reported to have been  
held prisoner by General Villa, follow-  
ing their disagreement as to the  
method of settling the disturbance in  
Sonora, arrived here today. He was  
met at the railway station by General  
Carranza and numerous other consti-  
tutionalist military chiefs and given  
an enthusiastic reception.

Later a conference of war was held  
to consider the situation in the north  
where General Villa has proclaimed  
his independence of Carranza, but no  
announcement was made as to the re-  
sult of the deliberations.

General Trevino, the acting min-  
ister of war, has resigned to take com-  
mand of the Second, Eighth and Ninth  
infantry regiments which have been  
ordered to Aguas Calientes to op-  
pose the southward advance of Villa. Gen-  
eral Pequeña has been appointed  
minister of war.

General Trevino, the former acting  
minister of war was seriously wound-  
ed today while witnessing the test of  
a dynamite gun. Two others were  
killed. General Trevino had just re-  
signed his portfolio and was ready to  
depart for the north to take com-  
mand of the constitutionalists at Aguas  
Calientes.

General Carranza and General Obre-  
gon have sent a message to General  
Villa and the other generals of the  
northern army asking for a further  
conference for the adjustment of their  
difficulties.

## HEALTH SITUATION IN HUNGARY DANGEROUS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Paris, Sept. 27 (9:30 a. m.)—Tele-  
grams from Budapest indicate that  
much alarm is felt there regarding the  
health situation since numerous cases  
of dysentery are officially admitted  
to exist among prisoners of war in-  
terned in various parts of Hungary.

Wounded Austrian officers from  
Galicia unanimously agree that the  
Russian artillery fire is excellent, es-  
pecially that of the Kiev corps.

## ZEPPELIN AIRSHIP IS WINGED AT WARSAW

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
London, Sept. 27 (4:30 a. m.)—"A  
Zeppelin airship made a raid on  
Warsaw at 5 o'clock Saturday morn-  
ing," says the Warsaw correspondent  
of the Reuter Telegram company.  
The dirigible was shot down near the  
fortress Modlin and its crew was cap-  
tured. The operators of the Zeppelin  
previously had dropped two bombs  
near the station of the Kalisz rail-  
road. Only one of the bombs exploded  
and this caused little damage."

## TURKS TO HANDLE ALL MAIL IN FUTURE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
London, Sept. 26 (4:25 p. m.)—"A  
Reuter dispatch from Athens says that  
in connection with the recent decree  
by the porte declaring Turk institu-  
tions free from foreign tutelage the  
administration of the Ottoman post-  
office at Smyrna, has notified the for-  
eign postoffices that they must re-  
move their sign board October 1, and  
hand over all mail to the Ottoman pos-  
tal authorities in order that the deliv-  
ery of letters and newspapers may be  
made by the latter."

## GREAT BATTLE SOON TO BEGIN ON FRONTIER

Germans Are Rushing Troops  
at Rate of One Army Corps  
Each Day to Meet Swarms  
of Russians.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
London, Sept. 27 (2:40 a. m.)—"Ger-  
many is reinforcing her army in  
east Prussia at the rate of one army  
corps per day," says a dispatch from  
Petrograd to Lloyd's News agency.  
These reinforcements are being car-  
ried by 250 trains on all four avail-  
able railways. Other troops are being  
hurried from Berlin and Schneide-  
mühl to Baltic ports and thence by  
sea to east Prussia.

"All this is in preparation for the  
great and decisive battle soon to be  
fought along the whole western line.  
At least 800,000 German troops are  
now gathered in an effort to bal-  
ance the Russian forces. The ar-  
mies are already in touch and the  
grand battle is bound to come soon.  
The Russians will have the advan-  
tage, however, as the fighting will be  
on ground chosen by the Russian  
leaders."

## RUMANIAN ARMY CORPS ON AUSTRIAN FRONTIER

Petrograd (via London, Sept. 27,  
3:35 a. m.)—A Bucharest dispatch to  
the Novorossia says it is rumored that  
the first Rumanian army corps has  
been ordered to the Austrian fron-  
tier.

## GERMAN MOVEMENT IN EAST PRUSSIA REPELLED

London, Sept. 27 (5:30 a. m.)—"The  
Petrograd correspondent of the Daily  
Telegraph has forwarded the follow-  
ing semi-official statement:

"The movement of German troops  
from east Prussia in the direction of  
Warsaw has come to nothing. In the  
government of Suwalki (Russian Pol-  
and) the Germans have suffered a  
serious repulse. The left flank of  
the Russian army has defeated the  
troops under the command of General  
Von Hindenburg near Suwalki.

"At the same time our troops won a  
complete victory at Mariampol and  
the attacking Germans were thrown  
back ten miles across the river  
Scheschna with a loss of many guns  
and prisoners. On the right flank at  
the Niemen river the battle ended in  
success for us at Srednikh, where a  
German attempt to cross the river  
was repulsed with great loss."

## PHILIPPINE BILL IS UP FOR DEBATE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Washington, Sept. 26.—ultimate in-  
dependence of the Philippines is pro-  
posed in the Jones bill, consideration  
of which began in the house today un-  
der a special rule allowing unlimited  
amendment and twelve hours' general  
debate. The fight over the rule lasted  
two hours before it was adopted, re-  
publicans declaring it unwise legisla-  
tion at this time because of the Euro-  
pean war. Debate probably will last  
all next week.

## SERVIANS ANSWERED AUSTRIANS WITH SHOT

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Nish, Servia, Sept. 26 (via Paris,  
Sept. 26, 8:05 p. m.)—According to  
reports reaching here from Belgrade,  
when a representative of the Aus-  
trian command bearing a white flag  
was admitted to the presence of the  
Serbian commander with the demand  
for the surrender of the capital, the  
Serbian officer replied:

"Return to your camp and in three  
hours you will receive my answer  
from the cannon's mouth."

Three hours later a Serbian battery  
opened fire upon the Austrian posi-  
tions across the Danube.

## TWO DISTINCT BATTLES ARE RAGING WITHOUT DECISIVE ADVANTAGE BEING SCORED BY EITHER OF CONTESTANTS

LONDON CENSOR ALLOWS NO NEWS  
OF BRITISH SITUATION TO BE  
MADE PUBLIC BY NEWSPAPERS

Both Germans and French Are Silent as to Progress of  
Struggle Between Rivers Oise and Somme, Where Turn-  
ing Movement Is Being Attempted; Allies Gain Ground by  
Frontal Attack; On Extreme Right of Defenders Kaiser's  
Legions Seem to Be Making Decided Gains; Russia Con-  
trols All Galicia Except Cracow, and Investment of Strong  
Fortress of Przemyśl Is Expected to Commence Soon;  
Enemies of Austrian Fleet Watching for Its Appearance.

The territory between the rivers Somme and Oise is the scene  
of the fiercest battle along the great front in northern France where  
the Germans and allies have been striving for two weeks to force  
each other back. This ground includes the French left wing which  
has thrown tremendous forces against German General Von Kluck's  
reinforced army in an endeavor to outflank him.

(The French official report describes this struggle as a very  
violent one and announces that the allied troops have made a slight  
advance.

Likewise, in the Woëvre region the French report some gain of  
ground, but describe the situation on the heights of the Meuse as  
unchanged. Prior to this, however, the Germans had been able to  
cross the river Meuse near St. Mihiel in the Woëvre district and  
to some extent, although the French have undertaken a vigorous  
offensive movement, they have been able to hold some of the ter-  
ritory which they won, doubtless at great loss of life on both sides.

The British official reports are exceedingly meager in keeping  
with the determination of the British authorities to enforce a more  
rigid censorship. The official press bureau merely announces much  
activity on the part of the Germans all along the line and the re-  
pulse of heavy counter-attacks with "a considerable loss inflicted on  
the enemy."

The Russian general staff reports a battle between the Rus-  
sians and Germans in the region of Druskenhiki in the government  
of Suwalki, Russian Poland, bordering on Prussia, but gives no  
details. The general staff also reports the retirement of the Aus-  
trian army westward on Cracow.

The Netherlands government has declared martial law in the  
eastern provinces, according to an Amsterdam dispatch, to prevent  
the exportation of contraband of war to Germany, and at the same  
time Great Britain has taken a clear position in the matter of con-  
traband, making it compulsory for neutral countries importing  
foodstuffs to give assurances that the food is not intended for  
German consumption.

Prince Oscar, the German emperor's fifth son, according to the  
announcement from Berlin, has been obliged to withdraw from his  
regiment on account of an affection of the heart brought on by  
over-exertion. He is now at Metz under the care of physicians.

Latest reports indicated that the Austrian seaport of Cattaro  
in Dalmatia is being bombarded by French and British warships  
and that the Austrian fortress of Pelagosa has been dismantled and  
seized.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
London, Sept. 26 (9:25 p. m.)—The  
widely separated wings of the oppos-  
ing armies in northern France still are  
striking hard blows at each other in  
an effort to break through the re-  
spective positions.

Both sides, according to the French  
official report, issued this afternoon,  
have made some progress, the Ger-  
mans on the allies' right perhaps the  
greatest.

For three days or more a violent  
battle has been raging in the hills and  
plains between the rivers Oise and  
Somme. The official accounts, both  
German and French, are silent as to  
how the fight is going, but in the  
frontal attack on the Germans' strong-  
ly fortified and well reinforced posi-  
tions farther south, the allies have  
made some slight progress, the Ger-  
mans apparently being satisfied to re-  
main on the defensive until the battle  
on the flank has been decided.

French Successes Claimed.  
From Solsons to Rheims and  
thence to Verdun there has been no  
change in the situation, but in the  
south of Woëvre the French continue  
to make progress and have defeated,  
with heavy losses, a German corps.

On the French extreme right the  
French have taken the offensive with  
the reservists and have repulsed the  
German forces holding the line along  
the frontier.

Of the activities of the British  
army, the war office is most sparing  
with information. A brief paragraph  
recounting the activity of the Germans  
all along the line and the repulse of  
some heavy counter-attacks with con-  
siderable loss to the enemy, is the ex-  
tent of the news given out. The cas-  
ualties among the officers, up to a  
week ago, are published, but thus far  
those among the men in the ranks  
have not been made public. With the  
continuous firing the general staff

probably has no time to prepare a  
list.

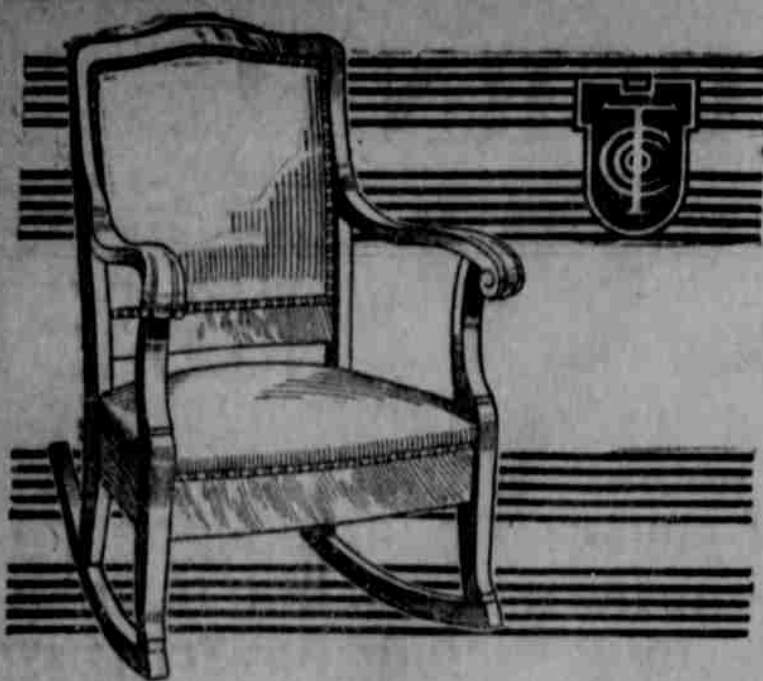

England Is Confident.  
However, there is no uneasiness in  
England. Notwithstanding this lack  
of information, the feeling prevails  
that the allies can hold their own if  
they don't drive the Germans back.

There has been a lull in the fighting  
in Galicia, while the Russians are per-  
fecting their plan for the investing of  
Przemysl which now is cut off from  
all communication with the outside  
world. The Russians have taken Rze-  
szow, an important railway center be-  
tween Tarnow and Przemyśl and have  
captured two fortified positions to the  
north and south of the latter fortress.  
This gives them possession of the  
whole of Galicia with the exception of  
the narrow western neck at the head  
of which stands Cracow.

Germans Are Fortifying.  
Along the western frontier of Pol-  
and, which the Germans have been  
threatening for some time, they are  
now reported to be fortifying them-  
selves. In fact, from Cracow to the  
extreme north of east Prussia, the  
Russian and German armies appar-  
ently are facing each other across the  
boundary, each waiting for a favor-  
able opportunity to attack. The Ger-  
mans are satisfied that they have rid  
themselves of the Russians in east  
Prussia and are sending a commission  
to that country to re-establish the in-  
habitants who fled when the Russian  
invasion drove everything before.

ford the allies better protection in their attacks against Carranza.

There have been additional skirmishes in South Africa. The British have taken Luderitz bay, known also as Agora Pequena, and one or two ports of German southwest Africa.

England is going steadily ahead with the formation of new armies. The more advanced recruits, including many of the men who fought in South Africa and in England's "little wars" were reviewed by the king this afternoon. Those less advanced are being trained in all parts of the country by drill sergeants, hundreds of whom have rejoined the colors for this purpose.

As Premier Asquith, who had been in Ireland addressing recruiting meetings, left Kingston this afternoon, the great crowd on the pier sang "God Save the King" and "Come Back to Erin." The singing of the national anthem at the close of last night's meeting in Dublin was the first time that hymn had been sung in many years at a gathering of nationalists in the Irish capital.

## GERMANS SLAUGHTERED BY RUSS OF GARRISON

London, Sept. 26 (12:28 p. m.)—A Paris dispatch to the Reuters Telegram company says:

"Wounded who have arrived at Montreuil give details of the siege of Fort Trovon, near Verdun. They say that while the Germans were bombarding, the commander of the fort did not reply. The enemy, believing that the fort had been evacuated,

approached in order to destroy a redoubt.

"The commander of the fort then set fire to two cart loads of straw inside the structure, and the Germans, convinced that their shells had started the fire and that they could easily take the place, advanced in close formation.

"The French suddenly unmasked their mitrailleuses, which opened a deadly fire. The number of German bodies abandoned on the slopes in the neighborhood of Fort Trovon is estimated at 7,000.

## ENGAGEMENT ON RIGHT WING NOT DETERMINED

London, Sept. 26 (9:40 p. m.)—A Copenhagen dispatch to the Central News says:

"The German general staff, in its report on the battle in France, states that the operations on the extreme right wing have led to fresh engagements which have not yet ended.

"On the center there has been no change.

"Fort Camp Delformains at St. Mihiel, south of Verdun has been taken by the Germans.

"The German troops have passed the Meuse."

## RUSSIAN AND GERMAN BATTLE IS REPORTED

Petrograd, Sept. 26.—An official communication issued from the headquarters of the general staff today says that in the region of Drakenhik, the Russian troops engaged the Germans on September 25.

The Austrian army now is retiring westward, utilizing the railroad leading to Graz. After defeating two regiments of the landwehr, the Russian troops occupied Turka.

## GERMAN HOSPITAL STAFF LEFT BEHIND AT PERONNE

Paris, Sept. 26 (5 p. m.)—The Germans, in retreating from Peronne, left behind them a hospital staff of 225 surgeons, 70 woman nurses, 150 male nurses, a Protestant pastor, a Dominican priest and several deacons. Each of the women nurses carried

ried a repeating pistol. When the chief surgeon was reminded that this was contrary to the Red Cross regulations, he explained that the women had been given arms "to make their prisoners respected."

## GERMAN NOBLES ARE PRISONERS OF WAR

London, Sept. 27 (4:30 a. m.)—Among the German prisoners held in a school house at — (name of place deleted by censor), is Eustach Count Von Plauen, son of Princess Reuss XXVI of Brandenburg, according to the Antwerp correspondent of the Times. Another prisoner held at the same place until a few days ago was Count Gunther Von Jagow.

## STORIES OF ATROCITIES COMMITTED BY GERMANS

Philadelphia, Sept. 26.—Numerous stories of German atrocities are pouring into this country with every boatload of refugees. Mrs. E. Frederic Grosse, president of the Philadelphia Chapter of the Daughters of the Confederacy, arrived in Philadelphia yesterday from the war zone and brought with her more stories of outrages attributed to the Germans. According to her, German soldiers shot and killed a helpless unarmed old man as he came out of a house in which he had been trying to protect an American woman and her sick child. Regarding this incident Mrs. Grosse said: "Though I was not an eyewitness to the act, I have the utmost confidence in the veracity of my informants. The old gentleman was a Scotchman and was in a small town in Belgium. The Germans heard that some English had taken refuge in the house and fired upon it. The American woman ran into the street and shouted to the soldiers, 'Surely you would not shoot a helpless woman and children.' At this moment the old man appeared in the doorway to protest. He was shot dead. The woman whom he had been aiding rushed to the soldiers saying, 'He has been my savior and is an old man. Do not shoot him.' But her words were hardly out of her mouth when the man fell to the ground."

"It is a matter of common report abroad," she continued, "that German soldiers shot and killed a poor little old Belgian who raised a toy gun towards them as they entered the village where he lived. This act could hardly be justified by saying that the citizens had taken up arms against the invaders."

"The reports of the hands of the wounded allies being cut off by the Germans are too numerous to relate. These atrocities are said to have been confirmed beyond a reasonable doubt."

## GERMAN ATTACK ON ANTWERP IS NOW EXPECTED

Heavy Guns Are Being Placed and Large Bodies of Troops Are in Position to Begin Investment of City.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

London, Sept. 26 (9:50 p. m.)—A dispatch to the Central News agency from Amsterdam, quotes an unfurnished telegram from the frontier as saying:

"It appears that the German attack on Antwerp is likely to begin at an early date. For some days past large bodies of troops have been conveyed from Aix-la-Chapelle to the district east and south of Antwerp.

"Heavy siege guns have arrived and have been placed rapidly in position against the southern forts while on the eastern side heavy Austrian howitzers have been brought up and earth works constructed."

## HEAVY ARTILLERY FOR ATTACK ON ANTWERP

The Hague, Sept. 27 (via London, 1:28 a. m.)—Part of the force gathering outside Antwerp for an attack on that city is Austrian, according to dispatches received here from Dutch correspondents. Some of the siege artillery also is Austrian. The artillerymen are marking time, waiting for the drying of the country. The artillery is said to be the same as that employed at Mauthagen.

More heavy artillery has been placed in position near Grimbergen and Meeuse from which places the inhabitants have been moved for safety.

The influx of German troops into the neighborhood of the Antwerp line continues, eighteen train loads of soldiers having arrived Saturday. The authorities have discontinued the issuance of passes permitting the holders to cross the border.

## SIR LIONEL CARDEN DENIES INTERVIEW

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
 London, Sept. 26 (6:08 p. m.)—Sir Lionel Carden, British minister to Mexico, who recently was appointed minister to Brazil, called at the foreign office today and made his report to Sir Edward Grey, secretary of state for foreign affairs. While no official announcement has been made concerning the interview credited to Sir Lionel Carden, criticizing the American administration in Mexican affairs, he is said to have denied such statements.

## Angry Depositors.

New York, Sept. 26.—Police reserves were called out late today to disperse several hundred angry depositors of the defunct bank of M. and L. Jarmulowsky, who stormed the home of Mayer Jarmulowsky, a member of the firm, and beat him badly before he escaped in an automobile. Mrs. Jarmulowsky also was pursued by the crowd but got away unharmed. The Jarmulowsky bank was one of several east side institutions closed by order of the state banking department two months ago.

## DEMOCRATS NAME CANDIDATES IN GRANT COUNTY

Proposition for Bi-partisan Ticket Is Rejected and Ryan and Holland Will Make Race for House.

(SPECIAL DISPATCH TO MORNING JOURNAL)

Silver City, N. M., Sept. 26.—R. R. Ryan, a lawyer of this city, and Thomas Holland, a cattleman of Gila, were named as candidates for the house of representatives by the democratic county convention of Grant county which met here today. The nominations were made following the rejection by the convention of a plan proposed by the Republicans to support a bi-partisan ticket composed of one democrat and one republican.

The platform adopted by the convention favors the passage of a practicable direct primary law, a modified form of the Australian ballot applicable to conditions in New Mexico and a reasonable county salary law.

## Salaries Are Designated.

In the matter of county salaries the convention, following the lead of the democrats of Bernalillo county, specifically designated the amounts favored as applicable to Grant county. These amounts are as follows: County commissioners, \$600; probate judge, \$600; county clerk, \$2,400; treasurer, \$2,400; assessor, \$2,400; sheriff, \$2,750; superintendent of schools, \$1,800; and county surveyor, \$10 per diem while at work on county business.

The platform also condemns the hiring of paid workers at the polls and calls for an amendment to the corrupt practices act covering this practice. It declares for the assessment of property at its full value and the reduction of the tax rate, and recommends the creation of a temporary tax commission to make an investigation and bring about the equalization of taxes. The payment by depositors of a reasonable rate of interest on state and county funds is also favored. The resolutions warmly commend the course of Congressman H. B. Ferguson and urge his re-election as well as the election of Adolph P. Hill as corporation commissioner.

The convention was addressed by Judge J. T. Watkins, of Minden, La., a member of congress, who praised Congressman Ferguson very highly and urged the necessity of returning him to congress.

Prince Oscar Quite Ill.  
 Berlin, Sept. 26 (via The Hague, 5:40 p. m.)—Prince Oscar, the emperor's fifth son, it was announced today, is suffering from a heart affection due to his exertions in the field, and has been obliged to leave his regiment. He is under the care of physicians at Metz.

## AMERICAN DIPLOMATS VISIT FRENCH CAMPS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, Sept. 26.—The French embassy received today the following message from Bordeaux:

The United States ambassador at Paris and the minister plenipotentiary to Bordeaux have visited the camps of Fleury in the department of Orne, and Balaye in the department of Gironde, where the German prisoners and wounded are gathered. Both representatives of the United States declare that the organization in the camp is perfect and that the prisoners are well satisfied in the treatment and care given them.

The message probably refers to Ambassador Herry and John W. Garrett, formerly United States minister to Argentina, who is acting as secretary at Bordeaux.

## WELL-DEFINED CASE OF LEPROSY REPORTED

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Martinez, Calif., Sept. 26.—A Mexican was picked up in the streets here today suffering from what the city health officer, Dr. T. M. Merrithew, diagnosed as a well-defined case of leprosy.

The sick man was taken to the county hospital, isolated, and a guard was put over him. The authorities were in a quandary tonight as to what disposition to make of him.

So far, no one has been found who is able to understand the patois spoken by the Mexican. The name Los Angeles was caught and from other fragmentary words picked out of his talk it is surmised that the man left Los Angeles several weeks ago and has been wandering about the country. His name has not yet been learned.

## SENATE TO WRESTLE WITH REVENUE BILL

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, Sept. 26.—War revenue legislation will be taken up by the senate finance committee next Monday in an effort to bring it before the senate after the Clayton antitrust bill conference report is disposed of. Administration leaders hope to have the report adopted next week.

The house revenue bill reached the senate today and was referred to the finance committee, which had anticipated its receipt by conferring with departmental officials. A disposition is growing among senators to substitute a tax on automobiles, rated on horsepower, for the tax of two cents a gallon on gasoline.

## GENERAL HILL AWAITS ATTACK BY MAYTORENA

Defeat of Friday Due to the Wounding of Lieut. Col. Gomez and Confusion Resulting Among His Men.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Naco, Sonora, Mexico, Sept. 26.—Gen. Benjamin Hill's force of about 1,500 men, with eight machine guns and plenty of ammunition, is here tonight, prepared to resist another attack by Governor Maytorena's men.

Reliable information concerning yesterday's fight at Santa Barbara, in which Hill was defeated, gives Hill's loss at about ninety men killed or wounded and left on the field. Thirty-five wounded were brought here. General Hill's men say Maytorena lost twenty-eight killed and eighty-two wounded.

Colonel Hatfield, brigade commander of the United States forces at Douglas, withheld permission to bring the wounded across the border to Douglas. The Mexican consul here appealed to Hatfield's superiors at San Antonio, Tex., who sustained the American officer.

Hill's troops lost yesterday's fight. It is said, when Lieut. Col. Gomez, commanding the advance guard, was wounded and his troops became panic stricken, although they had already driven Maytorena's Yaqui Indians back fourteen kilometers.

The Carranza faction at Agua Prieta state that Gen. Juan Calvario, whose attempts to compose the Sonora situation failed, is now hastening via Laredo and Mexico City to Manzanillo, on the west coast. There he will take command of his brigade, they say, so by boat to Guaymas and join General Huertado's forces from Sinaloa for a campaign against Maytorena.

## STATE WILL ASK DEATH PENALTY FOR MRS. KING

**Celebrated Murder Trial in Which Woman Is Defendant Brings on Hotly Contested Legal Battle.**

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Silver City, N. M., Sept. 26.—The death penalty is to be demanded by the state should Mrs. Isabel King, indicted jointly with August West, for the murder of George C. King, her husband, be convicted of murder in the first degree.

This fact was brought out here Friday, when the case against Mrs. King and West was called for trial in the district court, and the impaneling of the jury was begun.

The prosecuting attorney asked each juror, specifically, if he had any scruples against a verdict of first degree murder against a woman, with death by hanging as the penalty. There were a number of talesmen who were excused because they said they would not vote to send a woman to the gallows. However, men were found who declared they would abide by the evidence and vote accordingly—that the fact that one of the defendants was a woman would not influence them in any way.

**Hard Time Getting Jury.**  
All of Friday was occupied in examining prospective jurors and a special venire was issued to complete the panel.

The trial is expected to be under way Monday, when the examination of witnesses will commence. Self defense, it is said, will be the plea of West, and Mrs. King is expected to testify in his behalf at the trial. A love affair between West and Mrs. King is alleged to have been the motive for the killing of King, who was shot to death on his ranch on the Mimbres river last July.

Mrs. King is a comely woman of about 30. She is taking a keen interest in the trial as is also West. Mrs. King's 5-year-old son, a handsome little fellow, is with her in the court room and also at the county jail. The devotion of the mother for the child is especially noticeable.

The trial is expected to consume several days.

She will spend several days here and among the cliff dwellings. Others who registered at the museum today were: H. L. Parker, Hillsboro; Charles Zabinski, Denver; H. P. Jones, Denver; Dr. R. S. Michel and wife, Chicago; Mrs. C. I. Shoop and Mrs. Frances Paddock, Racine, Wis.; A. C. Ireland, Long Beach, Calif.; Mrs. E. L. Abbott, Indianapolis; Dr. Adelardo B. Luis, East Las Vegas; Dr. N. ## GOVERNOR SAYS HERNANDEZ DID NOT ASK AUDIT

**Executive Denies That Candidate Requested Him to Send Official Up to Give Books the Once Over.**

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Sept. 26.—According to a story published in the Santa Fe New Mexican, the statement made by Candidate R. C. Hernandez that he requested that the traveling auditor be sent into Rio Arriba county to examine his books upon going out of office as treasurer of that county, is directly contradicted by Governor William C. McDonald.

The story in the New Mexican is as follows: Governor McDonald today denied flatly that he had sent a traveling auditor up to Rio Arriba county "on request of Mr. Hernandez when he was county treasurer of Rio Arriba. The governor declared that as far as he knows no such request was made to him or to the auditor by Mr. Hernandez to audit Mr. Hernandez' books or the books of any one in Rio Arriba. "What led at that time to an examination of the acts of the officials of Rio Arriba county," continued the governor, "was the request of a very prominent Rio Arriba county republican and I thought this sufficient for ordering the traveling auditor to make the examination."

The governor added that there is a report on file of a former traveling auditor in regard to the acts of County Treasurer R. C. Hernandez. The former traveling auditor to whom reference is made is a republican.

This declaration of the governor comes with special interest in view of the statement printed in the Albuquerque Journal yesterday as coming from Martin Lopez, which is as follows: "I, Martin Lopez, being first duly sworn upon oath, say: That at the time R. C. Hernandez retired from office as treasurer of Rio Arriba county, New Mexico, and turned the affairs of said office over to his successor, Venecio Jaramillo, I was a member of the board of county commissioners of said county; and he, the said Hernandez, at that time requested that the state traveling auditor be called upon to audit the books in the office to ascertain what, if anything, was due from the county to him whether there were any discrepancies existing in his office, and it was then and there agreed that such should be done and that final settlement should not be made between said Hernandez and his successor, Venecio Jaramillo, until such time as the state traveling auditor should audit said books and make his report; that said traveling auditor was called upon at the request of Mr. Hernandez to said board, and made an investigation of said books in the said office for the purpose of determining the accounts between said Hernandez and said county, and a final settlement was not made or considered made until after such investigation."

## RURAL SCHOOLS HAVE MADE RAPID STRIDES FORWARD

**State Department of Education Receives Gratifying Report From Superintendent of Santa Fe County.**

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Santa Fe, Sept. 26.—The department of education today received from County Superintendent John V. Conway a preliminary report which throws an interesting light on the remarkable progress in educational matters made in the rural districts of Santa Fe county the past twelve months. The report shows that there are fifty-nine rural school rooms in forty-one districts. Out of these fifty-nine only seven are old and these have been remodeled, while the other fifty-two are entirely new and modern in construction. Fifty-seven of the fifty-nine teachers needed have already signed their contracts and the date of opening their schools has been set. Seven of the teachers hold first grade, one holds a life certificate, seven second grade and forty-two third grade certificates but Superintendent Conway is seeking to reduce the third-graders as rapidly as higher grade teachers become available.

**Modern Equipment.**  
Every school room will be furnished with patented single desks, a teacher's desk, a map of the United States, plenty of blackboard space, a jacketed stove, manual training and domestic science equipment and an up-to-date lighting and heating system. In some instances the Smith heating system has been installed and in others, jacketed stoves will serve the purpose admirably.

Speaking of the third grade teachers, Superintendent Conway says: "While it is true that we are still contending with the third-graders, yet, the third-grader of today is 50 per cent better qualified than the third-grader of two years ago. Nevertheless, we will co-operate with the state department in its efforts to raise the standard of the teaching force in every county and will employ second and first-graders as they become available. We have a better set of school directors throughout the county than ever before. They are giving every possible aid and the fact that we have put in fifty-two new school rooms in six months, demonstrates the co-operation they give."

**Self-Sacrifice.**  
"In not one instance was it necessary to vote bonds, the people in many instances giving into their pockets to make cash contributions or giving labor and material. The children of the rural districts are given better facilities to obtain an education than it was dreamed possible to give them for another decade. The compulsory school law will be enforced to the letter and parents failing to send their children to school will be prosecuted. A campaign will be inaugurated for school libraries in every village and in every district and already assurances of donations for that purpose have been received. The libraries are to be a New Year's gift to the rural schools."

## TOWNSHIP PLATS ARE SUBMITTED FOR APPROVAL

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Sept. 26.—It will be welcome news to hundreds, if not thousands of homesteaders in southeastern New Mexico that Surveyor General Lucius Dills this morning mailed the plats of twenty-three townships of the plains country in the southeastern corner of New Mexico to Washington, D. C., for approval. More than 100,000 acres are covered by these new surveys.

Of late years there has been a large influx of homesteaders to this section and a number of townships have been laid out but settlers are not able to perfect title or to secure patents until the surveys have been made and are approved. Present settlers are not much more than squatters but have preferential rights in filing upon the lands after the surveys are approved and are officially filed in the Kewell land office.

**Sportsmen Are Held Up.**  
Santa Fe, Sept. 26.—James and Harry Harrison while hunting in the Mogollons, were held up by two highwaymen, who plundered them of all their belongings, including guns and ammunition. The Harrison boys secured more ammunition and rifles and started in pursuit of the hold-ups, rounding them up and securing all of their property. The robbers, however, escaped and the Harrison brothers returned home to the mining camp of Trona.

**Collections for Red Cross.**  
Santa Fe, Sept. 26.—Tomorrow collections will be taken in all of the Sunday schools for the Red Cross work in Europe. Yesterday, in the public schools at the suggestion of Mrs. R. J. Pallen, school director, the children of the public schools lifted a collection for the same purpose and \$16.44 was collected.

## BACA OUT AFTER FUNDS TO BUILD SCHOOL KITCHEN

**Assistant Superintendent of Public Instruction Interests Himself in Behalf of El Rito Normal.**

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Santa Fe, Sept. 26.—Assistant Superintendent of Public Instruction Filadelfo Baca has undertaken to raise through private subscription, the funds necessary for the building of a kitchen and dining hall for the Spanish-American Normal School at El Rito, an improvement that is an imperative necessity for the success of that institution located in so isolated a place. It is expected that the legislature will reimburse contributors. It will be remembered that the school burned to the ground some time ago and that the new building was dedicated only last week. Mr. Baca's circular letter reads as follows:

**An Urgent Appeal.**  
"I am writing this letter in the interest of the Spanish-American Normal and of education in general. It may look as rather strange that not being one of the regents of said institution, I should take it upon myself to address you this mischievous of my own volition and without their knowledge or consent. My reasons for so doing are obvious and if you agree with me that my motives are purely in the interest of bettering the educational conditions of our state particularly of your own county."

"The Spanish-American Normal opened its doors for the present scholastic year on the 14th instant, and everything considered, promises a very prosperous year, educationally. The new building is an ideal one for a normal school and Rio Arriba county ought to be proud that the board of regents have been able, with the limited funds at their disposal, to put up such a commodious and elegant building."

"We all know that the majority of the teachers and pupils who will enroll in said institution are poor, and most of them will have to do their own cooking. This is where the dilemma appears, and to a great extent this is the stumbling block in the way of the enrollment of teachers. As a general rule most of the teachers do not mind to prepare their own cooking, if they are provided with proper kitchens and dining rooms. Unfortunately the normal school has no proper apartments for cooking and the board of regents are powerless to provide for the same, as they have no funds available for such purpose unless the coming legislature makes ample appropriation. At present, the only kitchens which they can now use and which will afford them protection from the inclemency of winter are two little lumber sheds (probably built for carpenters' toolhouses), standing fifty yards from the main building. The question arises: 'Are we going to wait until after the legislature meets to provide for such great and urgent necessity, and permit the normal authorities to make a failure on account of inadequate quarters for the teachers to do their cooking?' This is a serious problem which demands our immediate action and I appeal to you personally as a friend and as a friend of education, who, I know, has civic pride for the welfare and success of your county."

**Now Is the Time.**  
"Let us raise a contribution to help build the kitchen and dining room and donate it to the regents so they can go ahead and commence building right away."

"I sincerely hope you will send to me or to the treasurer of the board of regents, any good substantial sum that you may see fit to give for this noble purpose, said donation to be subject to the following conditions:

"First. Checks may be sent to me and made payable to me or to the treasurer of the board of regents of El Rito Normal school, as you may deem it more advisable."

"Second. In case that the regents should reject the donations, the amounts are to be returned intact to the donors."

"Third. Should the regents determine to begin the building of the dining room and kitchen right away and carry it to completion without unnecessary delay, the contributions shall be an 'absolute donation' to the said normal school, unless the board of regents determine to pay the money back to the donors in case the legislature provides the means for doing so."

"Fourth. Should there be a surplus of the amount contributed, the same shall be divided pro rata among the contributors in due proportion to the amount contributed."

"I am sending fifty other personal appeals like this. Some persons have already promised \$50.00 cash. Upon receipt of your donation I will send receipt for same and deposit the sum to be used in accordance with the above conditions. A subscription list will be started next week in the papers and the amount of your donation will appear therein."

"Let me hear from you by return mail as success depends on your liberality and prompt action. It is a case of urgent need and we must act at once."

Genuine gas house coke contains more heat than any other fuel.

When you purchase a ton of fuel to heat your home you are paying so much for two thousand pounds of heat containing material and coke contains more heat for equal weight than any other fuel.

This is readily understood by large manufacturing enterprises that use it to smelt copper and iron ores. Both of the foundries in Albuquerque use it to melt iron.

Use it in your home this winter and enjoy the comforting warmth afforded by its use.

In order to eliminate rush orders later in the season the following prices good for the rest of September only:

## The Award of the Grand Prize to "THE MANUALO"

"The Player-Piano That Is All But Human"

By the Anglo-American Exposition, London, 1914, constitutes the grandest and most sweeping recognition ever accorded any Player-Piano. The grand prize distinction of THE GRAND PRIZE in this exposition is only conferred when the work reaches the highest standard of excellence, and comprises invention and improvements of superior value. There is no other instance in musical history when an instrument has moved forward and upward with such sure and swift steps as THE MANUALO. It was pronounced on the highest lines and perfected accordingly.

Its distinguishing feature is its ingenious construction, which enables the player to produce music, free from all mechanical effects, with all the subtle nuances formerly only obtainable by hand-playing. There are many Player-Pianos there is but ONE.

## THOS. J. NAYLON IS DEAD AFTER BRIEF ILLNESS

Former Secretary of Commercial Club and One of Most Popular Men in City Succumbs to Grim Reaper.

Thomas J. Naylon, former secretary of the Albuquerque Commercial club and one of the best known and most popular young men in Albuquerque, died last night shortly after midnight in a local sanitarium, after an illness which in its serious aspects had lasted for only two or three days. He was taken to the sanitarium on Thursday, and from the first it was realized that his chances for recovery were slight. Congestion of the lungs was the immediate cause of death.

The news that Tom Naylon is dead will bring genuine grief to a host of people in Albuquerque. Warm-hearted, generous, keenly interested in everything that concerned the growth and interest of his adopted home, no man had more friends or better than he.

### A Native of Kansas.

Mr. Naylon was a native of Kansas and had lived in New Mexico about seven years. Soon after coming to Albuquerque he became actively identified with the business interests of the city, and for several years served as secretary of the Commercial club. During his incumbency of that office the club and the city experienced their greatest growth, and it was to his untiring zeal and loyalty that much of the upbuilding of Albuquerque is due.

An ardent lover of sports, he exerted himself in promoting baseball in Albuquerque, and at different times was manager of amateur organizations in this city. The great fraternity of "fans" will long remember Tom Naylon as one of the best and truest of their clan that ever lived.

About a year and a half ago Mr. Naylon moved to Phoenix, Ariz., where he was married and lived for several months. The climate of Phoenix, however, did not agree with him, and late last summer he returned to Albuquerque, the town that he always loved best, and declared that he would remain here permanently.

Mrs. Naylon is expected to arrive from Phoenix today, as are also two sisters, Misses Kate and Agnes Naylon, of Leavenworth. Mr. Naylon is also survived by his parents and by four sisters and four brothers, who live in Kansas and Missouri, and by two nephews, Arthur N. Morgan and Ad J. Morgan, both of Albuquerque.

The funeral arrangements will not be announced until after the arrival in Albuquerque of Mr. Naylon's relatives.

## GERMANS RAID INTO BRITISH BECHUANALAND

(BY MORNING JOURNAL SPECIAL LEASED WIRE) London, Sept. 26 (8 p. m.).—"The occupation of Rietfontein (in British Bechuanaland, on the border of German Southwest Africa), was reported today," says a dispatch from the Cape Town correspondent of the Reuter Telegram company. The message continues:

"The Germans have cleared out virtually all border police stations. It is reported that 300 Germans, who crossed the Orange river recently, have occupied the Catholic mission station at Pella, Cape Colony, unopposed. They are evidently bent on cutting the line of communication of Steinkopf and Ruman's Drift."

## MILITARY TRAIN IS DESTROYED BY BELGIANS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Amsterdam, Sept. 27 (via London, 3 a. m.).—The Manchester correspondent of the News Van Den Dag, has sent the following dispatch:

"Belgian soldiers on Friday blew up the railway at Bilsen, Limburg, near Hasselt. Shortly afterwards a German military train was derailed and destroyed. In revenge the Germans burned the village. One hundred and fifty refugees arrived here today from Bilsen."

"At Brussels the garrison continues actively to perfect the defense works. A complete belt of barbed wire now encircles the city, within which is a double line of trenches. It is also stated that all the high roads leading into Brussels have been mined."

#### Martial Law in Holland.

Paris, Sept. 26 (10:20 p. m.).—A dispatch to the Havas agency from Amsterdam says that in order to prevent the exportation of contraband articles to Germany the Netherlands government has declared martial law in the eastern provinces.

## SEX EQUALITY BREAKS UP HOME IN WINDY CITY

Chicago, Sept. 26.—Until recently the problem of the "single" standard and other questions pertaining to the "equality" of sex never troubled the mind of Otis Wilson. He always had been too busy attending to the business of his garage in Winnetka.

Mr. Wilson believed, and still believes, a man has the right to do as he pleases as long as it does not interfere with the rights of others. He felt that when he provided for his family and attended to his business, and paid taxes to the state, and abided by the law, his duty as a citizen had been fulfilled.

It has been the custom of Mr. Wilson to go any place he pleased whenever he pleased. If he felt like taking a spin in one of his automobiles with a party of friends it was no one's business but his own.

Mr. Wilson has a wife. Strange as it may appear, Mrs. Wilson agreed perfectly with her husband on this subject, but Mr. Wilson did not know it. In fact, Mrs. Wilson did not make her belief known to him, but she believed it just the same.

So, in the course of events the garage owned by Mr. Wilson in Winnetka caught fire and burned to the ground. Mr. Wilson lost considerable money, but he resolutely set to work and built another garage. When it was completed, Mr. Wilson, following his policy of doing as he pleased, celebrated the event by taking a joy ride with a party of friends.

Mrs. Wilson did not express her opinion when she learned of it. She simply went to the garage and, taking her 8-year-old son, Jack, with her got into one of her husband's automobiles on a joy ride for herself.

Then she took the machine to a dealer on Michigan avenue and sold it for \$225. Did she take the money home and tell her husband about it? No. She bought herself and Jack some pretty clothes. Then she boarded a train at the Park street station and went away on an "indefinite vacation."

Did Mrs. Wilson tell her husband where she was going and when she was coming back? No, indeed. She knows Mr. Wilson believes in "personal" liberty and felt he could not object to his wife having the same privilege.

But Mr. Wilson did object, and has asked the police to make a search for his wife and son. Mr. Wilson told the police he believed Mrs. Wilson was "vacationing" in or near Glenview, Ill. The police failed to locate her there.

However, Mr. Wilson is doing some serious thinking.

Want a high grade employee? Or the better grade of servants? Make use of the want column of the Journal.

## SON OF MILLIONAIRE HURT IN AUTO RACE

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Colorado Springs, Colo., Sept. 26.—Merrill Shoup, son of O. H. Shoup, millionaire oil magnate of this city, and Denver, was perhaps fatally injured in an automobile race from Colorado Springs to Calhan, 34 miles east of here, at 2 o'clock this afternoon. Shoup's car turned turtle at a sharp turn in the road and he was caught under the engine. Clay Wolfe, an automobile dealer here who was racing Shoup, brought the injured man to this city.

### Spain to Cure War Wounded.

## COLONEL SPEAKS FOR CANDIDACY OF BEVERIDGE

Both Payne-Aldrich and Underwood Bills Are Defective, Declares Roosevelt at Indianapolis.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Indianapolis, Ind., Sept. 26.—Theodore Roosevelt concluded his one-day tour of Indiana here tonight with an address that was devoted largely to advocating the election of Albert J. Beveridge, the progressive candidate for United States senator for Indiana.

The colonel came here from Terra Haute, where he spoke in the afternoon.

Preceding the meeting there was a parade in which were a number of state delegations.

"It was Senator Beveridge," the colonel declared, "who was foremost in putting through a thorough-going meat inspection law and he also played a leading part in forcing the passage of the pure food laws. It was he who originated the idea of making the stopping of child labor in health destroying industries a national affair."

In speaking of the tariff, Colonel Roosevelt said:

"Both the old Payne-Aldrich bill and the present tariff bill are vicious, one having gone the extreme in one way, just as the other went to the extreme in the other way, and both have been formed in precisely the same manner. It is only by the methods advocated by Senator Beveridge and the progressive party that we ever will secure proper tariff legislation in this country."

Colonel Roosevelt expected to depart late tonight for Pittsburgh, Pa.

## NEW CASUALTY LIST OF BRITISH OFFICERS

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

London, Sept. 26 (7:55 p. m.)—A casualty list received from the British general headquarters in the field under date of September 22, gives the names of thirty-five officers killed, fifty-four others wounded and thirteen missing.

The casualties in officers among the various regiments included:

The Sherwood foresters, four officers killed and seven wounded; the Connaught Rangers, four killed; the South Lancashire, three killed and three wounded; the West Yorkshires, three killed, four wounded, including Col. F. W. Towsey, and eight missing; the Worcestershire regiment, three killed, five wounded and one missing; the Durham light infantry, five killed and six wounded; and the East Yorkshires, five wounded, including Col. R. E. Benson and three missing.

**Union Opposed to Policies.**

Boston, Sept. 26.—The annual convention of the state branch American Federation of Labor, before adjournment today, defeated a resolution providing for the formation of a state labor party, which would nominate candidates for all elective offices in the state, city and town election. A resolution opposing nation-wide prohibition was adopted.

## CATHEDRAL AT RHEIMS SMASHED BADLY BY SHOT

Unless Historic Building Is Repaired Soon, It Will Be Ruined by Rains and Frosts, Says Visitor.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

London, Sept. 27 (4:05 a. m.)—A Reuters dispatch from Paris says that the cathedral at Rheims, which has visited the following description of the structure as it now stands:

"To judge of the damage it was necessary to see the tower. There I saw bells completely melted. The roof, which was made of lead plates, had entirely disappeared; the magnificent campanile, made of wood and lead, erected at the crossing of the transepts and apse had vanished. The vaults still are standing and the nave was not touched by fire."

The writer thinks, however, that the autumn rains and frost will play havoc with the stones and that measures must be taken immediately to strengthen the walls. He concludes by quoting the words of the German emperor's son to the Rheims municipality a few days before the bombardment:

"The best proof of my desire not to touch the building is that I am anxious to put the wounded inside."

## MRS. HOWARD GOULD BEGINS LIBEL ACTION

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

San Francisco, Sept. 26.—Charles of Criminal libel made by Mrs. Katherine Clemmons Gould against Harry Lewis, a Chinatown guide, resulted today in the arrest of Lewis, who was later released on a \$500 bond. Lewis is technically charged with misdemeanor libel.

Lewis recently advertised moving pictures of Mrs. Wong Sun Yue, Mrs. Gould's sister, who married a San Francisco Chinese merchant some years ago. According to Mrs. Gould, the advertisement identified Mrs. Wong as the sister of "Mrs. Howard Gould, wife of Howard Gould, New York's richest man, who got a divorce from her." Mrs. Gould swears that this is criminally libelous.

Mrs. Gould was divorced from her husband in 1909. She now lives in San Francisco.

## PULITZER ESTATE SHOWS INCREASE OF TWO MILLION

Total Value of Late Publisher's Holdings Placed at \$18,637,545 in Report of New York Official.

New York, Sept. 26.—The report of the reappraisal of the estate of Joseph Pulitzer, ordered by Surrogate Coburn, was submitted yesterday to the Surrogate's court by Transfer Tax Appraiser Joseph I. Berry.

The report shows that the gross valuation of the estate has been increased from \$18,224,115 to \$20,255,955, and the net from \$16,542,484 to \$18,637,545, a net increase of \$1,794,061. The estimated amount of the total tax is \$325,000. Before the first appraisal \$410,000 was paid into the state treasury in order to take advantage of the 5 per cent rebate, so there will be a refund of approximately \$75,000.

In order to get at the actual value of the Associated Press franchise held by the Press Publishing company (the New York World) and the Pulitzer Publishing company (the St. Louis Post-Dispatch), and to estimate the good will of those two newspapers owned by Mr. Pulitzer, much testimony was taken.

After showing that there had been no change in the appraisal of the real estate fixed in the original report at \$3,278,000, Mr. Berry placed the value of 4,990 shares of the Press Publishing company stock at \$2,267,681, or \$454.73 a share, and the value of 9,164 shares of the Pulitzer Publishing company stock at \$2,677,262, or \$292.15 a share. In thus appraising the stock, Mr. Berry states, he has added to the appraised value of the corporation's tangible property a "good will" value consisting of the value of the Associated Press memberships, \$489,000, and all other elements of good will. In the original report the franchises were not valued as such.

The appraisal is arrived at in part by taking the average annual earnings for four years preceding Mr. Pulitzer's death as a basis for capitalization.

One hundred and twenty thousand dollars is allowed as an expenditure for bonuses to employees. The appraiser also considered the restrictions upon the sale of the stock of the Press Publishing company inserted by the decedent in his will.

In appraising the values of the Press Publishing company the average annual net earnings are set at \$241,320. These deductions are allowed: Sixty per cent of increase in the cost of white paper, \$219,000; allowance for decedent's services, \$100,000; 6 per cent on capital invested, \$121,250, and 6 per cent on value of Associated Press franchise, \$28,899. The total deductions are thus \$469,150, and the average net earnings as a basis for 10 per cent capitalization, \$81,150.

The good-will, originally appraised at \$1,000,000, is brought down to \$511,801. The appraised value of assets over liabilities is \$2,022,514, as in the original report. This includes two Associated Press bonds of \$1,000 par value, and makes the total value, \$2,267,681 gross and \$3,267,681 net.

The appraiser states that the average annual net earnings of the Pulitzer Publishing company for four years were \$408,450. The average net earnings, less deductions, are \$190,417.

Under the new appraisal the total personal property is valued at \$17,077,855. This, with the real estate, valued at \$3,278,000, makes the total \$20,355,855 gross.

## A Legal Reflection.

Appropos of a peculiarly flagrant legal scandal, Senator John Bankhead said in Jasper:

"This scandal gives point to a story I have just heard.

"A lawyer advertised for a boy. A boy duly presented himself, and the lawyer said to him:

"Well, my lad, what qualifications have you for a place in a lawyer's office?"

"I can—er—er—I can lie, sir," the boy answered."

**Voltaire Won His Case.**

Voltaire was one of those who proved to the world that the pen was mightier than the sword. Once, when he had paid for a box at the Paris opera, the Duc de Lauzun, a favorite of Louis XV, drove him out. Voltaire brought suit for the election, and the duke's lawyer, in his opening address, excoriated the plaintiff thus:

"What! Is it Monsieur Voltaire, a petty ink-slinger, who dares to plead against the Duc de Lauzun, whose great-grandfather was the first to scale the walls of La Rochelle, whose grandfather took twelve cannon from the Dutch at Utrecht, whose father captured two standards from the English at Fontenoy, whose—"

"Excuse me," interrupted Voltaire. "I am not pleading against the duke who was first on the walls of La Rochelle, nor against the duke who took twelve cannon, nor against him who captured two standards. I am pleading against the Duke de Lauzun who never captured anything in his life except my box at the opera."

He won his suit.

Boston, Sept. 26.—Boston took both games of today's double-header with Chicago, the first 6 to 2 and the second 12 to 2. Marvyn's home run with three on base during the fourth inning of the opening game gave the locals a big lead and the visitors failed to score until the sixth, when they got two runs on three strikes and a pass.

Chicago was unable to do much with Head in the second game until the ninth inning, when a pass, two singles and a double accounted for their only tallies. The locals hit Cheney hard in the early innings.

Philadelphia, Sept. 26.—Hard hitting enabled the home team to defeat Cincinnati twice today, the scores being 10 to 7 and 7 to 4. After Cincinnati got a good lead in the opening contest, Philadelphia hammered Ames' delivery hard in the eighth and ninth innings and finally drove him off the rubber. Schneider took Ames' place and Burns' double and Doolin's single sent in the run needed to win.

In the second contest, Cravath and Magee each knocked a home run with two bases occupied and these hits were enough to land the victory. During batting practice, Pitcher Elmer Jacobs of Philadelphia, probably had his right arm broken by a liner off Magee's bat.

## JOHN GASS IS RE-ELECTED STATE WORKER

Presbyterian Synod of New Mexico Names Rev. R. Steel State Evangelist to Hold Meetings.

The Rev. John R. Gass, D.D., for several years state worker for the Presbyterian church, was elected to office again at the synodical meeting yesterday.

The synod took steps for advanced work in the state by electing the Rev. R. Steel of the Presbyterian board of Christian education, state evangelist. He will spend all his time in holding evangelistic services in the state.

A letter from the routine of business was greatly appreciated by the visitors as an auto excursion about the city. Business men with their families took the visitors out to the Presbyterian sanatorium, the university, Menaul school and the Indian school. Menaul school treated the party to a watermelon feast.

An important item of the day session was the reorganization of the committee in charge of the home mission work of the synod. The plan was to place greater efficiency and activity in the work in the state.

**Session Monday.**  
The synod failed to complete its business last night and took a recess until 8:30 tomorrow morning. The following ministers will preach in the various pulpits of the city this morning at the usual hours of services.

The program of services at the Presbyterian church today follows:  
8:45—Bible school.  
10:00—Morning worship. Sermon by Rev. George H. McCune, of Korea.

10:30 p. m.—Devotional. Music by a quartet. Views from the front.

11:30 p. m.—Popular meeting in the church of Sabbath school work. Sermons from the field by the workers.

"The Children of Korea," by the Rev. George H. McCune, of Korea.

**ADVISES HOLDING PRELIMINARIES FOR ORATORICAL CONTEST**

Santa Fe, Sept. 26.—Superintendent W. O. Hall has sent the following letter to school executives:

"I wish to call your attention to the annual inter-school oratorical and declamatory contest, which is to be held in Albuquerque, Wednesday evening, November 25, 1914. This meeting is given over to this contest by the N. M. E. A. I would suggest that, if you have not already held your preliminary contest, you do so at once so that you may send a representative to Albuquerque.

"The committee appointed to change the high school oratorical contest to a declamatory contest decided to allow the oratorical contest to remain as formerly for this year and to add a declamatory contest in accordance with motion as carried at the last annual meeting. Each high school may be represented by a boy or girl in one or both of these contests. The qualifications of students to enter the declamatory contest are the same as for entrance into the oratorical contest. The declamation should not be more than fifteen (15) minutes in length.

"The annual membership fee of two dollars for admittance into the high school section of the inter-school oratorical association admits the high school to both the oratorical and declamatory contests.

"The oratorical contest for the higher institutions of learning remains the same as last year.

"We want to make the best and largest contest ever held in New Mexico and to that end ask that each school hold their contest early and send a representative. It will aid and inspire your school as well as the student who participates.

"I shall be glad to furnish any information that I can concerning rules, regulations, etc. May I have a word from you saying that you will be with us at Albuquerque?"

**BONDS ARE ISSUED FOR NEW SCHOOL BUILDINGS**

Santa Fe, Sept. 26.—That Red River and Tres Piedras have voted to issue bonds for new school houses, was the word sent today by Superintendent Jose R. Montaner to the department of education. These are the first bonds for such purpose to have been ever issued in that county.

Mr. Montaner will also circulate a petition for a vote on a county high school proposition to be submitted in November. He is succeeding well in filling the better places with holders of first and second grade certificate teachers, filling only the poorly paid and smaller places with holders of the third grade, hoping that eventually even those will soon be displaced by holders of second and first grade certificates. In consequence, most of the third graders are studying assiduously to pass the second and first grade examinations.

**Suit Filed Against Terrazas.**  
Santa Fe, Sept. 26.—J. H. Nations, of Dona Ana county, has sued General Luis Terrazas for \$15,000 damages, for alleged failure to deliver \$75,000 worth of cattle from Mexico, the cattle being sold up by General Villa, entailing a loss to plaintiff, so he avers, of the amount sued for.

**Test Transferred to El Paso.**  
Santa Fe, Sept. 26.—Capt. W. H. Test, of the army medical corps, stationed at Fort Bayard the past four years, has been transferred to San Francisco to become medical superintendent of the transport service.

## REPUBLICAN MEETING MONDAY NIGHT

A republican meeting will be held at republican headquarters, 207 West Gold avenue, Monday night at 8 o'clock, for the discussion of plans for the campaign about to commence. Every republican is invited and urged to be present at this meeting and to fully participate in the discussion.

The coming election is of great national importance. It not only involves the supremacy of republican principles in the national congress, but will have an important influence on the national election in 1916, two years from now, when the supreme effort of all true republicans will be put forth for success of republican principles and restoration of prosperity and happiness among all the people.

With the republicans the campaign of 1916 commences with the campaign of 1914 and must be waged with unflinching loyalty, steadily and determinedly, until the polls close in 1916.

**MAJ. LLEWELLYN GIVES PRAISE TO PACIFIC MUTUAL**

Distinguished Citizen of Las Cruces Writes Letter of Appreciation to General Agent Schwentker.

The esteem in which the policies of the Pacific Mutual Life Insurance company are held by those who are in the best position to form an opinion on the subject, and the promptness with which all claims against the company are paid are attested in a letter received by General Agent F. B. Schwentker, of the company, from Maj. W. H. H. Llewellyn, of Las Cruces, representative of Dona Ana county in the first state legislature and one of the most prominent citizens of New Mexico.

Major Llewellyn writes as follows: "Judiciary Committee, First Legislature, State of New Mexico. W. H. H. Llewellyn, Chairman.

Fort Selden, N. Mex., June 18, 1914.

My Dear Sir: I have your communication of the 16th instant enclosing the company's certificate for the sum of \$475.00 in payment of disability resulting from an accident in being thrown from a wagon.

Pray accept my thanks for the prompt payment of this claim, same being audited and paid within three days after its receipt by you.

In this connection I know of no better policy than the accident policy I have carried in your company since 1907; it is the same kind of a policy carried by the late lamented Mr. Solomon Luna and the feature that appeals to me is the annual increase of 10 per cent which is added to the principal.

Wishing you the best of success, I remain, Sincerely yours, (Signed) W. H. H. LLEWELLYN.

**Deming Concern Bankrupt.**  
Santa Fe, Sept. 26.—Liabilities of \$15,552.91 and assets of \$9,590, are given by the Williamson's grocery of Deming, in a bankruptcy petition filed in the federal court today. Of the liabilities \$7,000 are secured claims and \$7,552.91 unsecured claims. Wages due are \$290. It is rather remarkable commentary on assessments and taxation methods that despite the large amounts involved in the business failure, the taxes due are only \$14.80. Of the assets \$3,500 are stock, \$1,204 securities, \$2,454.85 open accounts, \$200 real estate, \$1,204 securities, \$800 bonds and stocks. The case was referred to Referee Frank J. Wright and the hearing on the petition before him set for October 1.

**No Side Door Deliveries.**  
Santa Fe, Sept. 26.—Acting Postmaster John H. Vaughn today received orders that letter carriers shall not deliver mail at the rear or side doors but must in all instances deliver it at the front door, but the order is not to be effective until December 1. The order is especially embarrassing in Santa Fe, where many homes are built around piazzas and various families may occupy such a house, some of them in the rear, others at the side and possibly only one in front.

**HEADACHE STOPS, NEURALGIA GONE**

Dr. James' Headache Powders give instant relief—Cost dime a package.

Nerve-racking, splitting or dull, throbbing headaches yield in just a few moments to Dr. James' Headache Powders which cost only 10 cents a package at any drug store. It's the quickest, surest headache relief in the whole world. Don't suffer! Relieve the agony and distress now! You can. Millions of men and women have found that headache or neuralgia misery is needless. Get what you ask for.

**Test Transferred to El Paso.**  
Santa Fe, Sept. 26.—Capt. W. H. Test, of the army medical corps, stationed at Fort Bayard the past four years, has been transferred to San Francisco to become medical superintendent of the transport service.

## FAMOUS CASE ARGUED BEFORE SUPREME COURT

Santa Fe, Sept. 26.—In the state supreme court this forenoon, the case of William T. Emmett vs. Clark M. Carr was argued and submitted. Carr had gone on a bond for the contractor of the federal building at Albuquerque and the suit is one upon the bond by creditors.

The famous case of the State vs. J. P. Lucero, convicted of soliciting a bribe as legislator, was submitted today on briefs. The cases against the other three legislators also indicted are being held in abeyance pending the decision of the supreme court.

**BRING THE BRIDE OR YOU GET NO LICENSE**

Santa Fe, Sept. 26.—Robert Martin of Corralito today applied for a marriage license to the county clerk, but as he did not have the intended bride, Miss Louise Dockweiler, with him, the license was not issued at the time he applied.

Locally, much interest is felt in the forthcoming wedding. Miss Dockweiler, who has taught school the past two years, being very popular and widely known. She is a daughter of Mr. and Mrs. Alphonso Dockweiler, whose splendid ranch and orchard in the Trougne valley is famous the state over and known for its hospitality to hundreds of visitors who have passed through that lovely valley.

**Schools Show Big Increase.**  
Santa Fe, Sept. 26.—The department of education was informed today that the enrollment of the public schools at Lordsburg, has increased to such an extent that another primary teacher had to be engaged. Mrs. Nathan Cannon being chosen. The enrollment is 223. The department has also heard that the public schools at Alamogordo will be supplied with a gymnasium, a complete athletic equipment having been ordered.

**D'Arcy's Return to Capital.**  
Santa Fe, Sept. 26.—E. A. D'Arcy and family, who have been visiting in Roswell the past two weeks, returned to Santa Fe today, having made the trip both ways in a Ford automobile. They had been the guests at Roswell of Mr. D'Arcy's mother. Mr. D'Arcy is the local manager of the Postal Telegraph company.

**For a Weak Stomach.**  
There are people right in this vicinity who find it necessary to be very careful about what they eat as they have weak stomachs. Many of them would be very much benefited by the same treatment that cured Mrs. Ernest Pharo, of Beaver Dam, Ohio, who writes, "I had a weak stomach and for years certain food disagreed with me. I would feel uncomfortable for hours after eating. I lost weight and became debilitated. Then I began taking Chamberlain's Tablets and the promptness with which they benefited me surprised both myself and my family. They strengthened my digestion and in a short time I was sound and well. For sale by all dealers."

**Reading Returns With Bride.**  
Santa Fe, Sept. 26.—Edward Redding, of the hydrographic survey of the United States Geological Survey, surprised his Santa Fe friends by returning here from his vacation spent in the Ozarks, with a bride, formerly Miss Ora Matzen of Bon Terre, Mo. The couple has left for Santa Rita, Grant county, where Mr. Redding will resume his stream measurement work on October 1.

**Chicago Attorney in Santa Fe.**  
Santa Fe, Sept. 26.—Attorney Walter D. Hawk of Chicago, who has an important case pending in the federal court involving several million acres of land in Mexico, is a visitor in Santa Fe.

**To Organize Lutheran Congregation.**  
Santa Fe, Sept. 26.—Rev. C. Schmidt of Albuquerque, arrived today to organize a Lutheran congregation in Santa Fe. He will hold services tomorrow forenoon in Fireman's hall.

## NOTES OF INTEREST ABOUT SANTA FEANS

Santa Fe, Sept. 26.—Mrs. James A. Rolfs returned today from Rochester, Minn., where she had been at the bedside of Dr. Rolfs, who was operated upon at the Mayo Brothers hospital.

Dr. Edwin A. Staab of New York is in Santa Fe for a brief visit in connection with the settlement of his father's estate.

Albert Wheelon returned today from a surveying trip in the Carrizozo and Oscura country in Lincoln and Socorro counties.

Mrs. A. B. Renchun is visiting Mrs. J. W. Reynolds, formerly of Santa Fe, at Omaha, Neb.

**To Fight Boose Harder.**  
Santa Fe, Sept. 26.—The suppression of the liquor traffic among the Pueblo Indians will be much more vigorously prosecuted in the future under the new attorney of the Pueblo Indians, J. H. Crist, than heretofore. Dr. H. A. Larson of Denver, head of the liquor suppression forces of the Indian bureau, was in consultation today with Mr. Crist, Assistant United States Attorney E. C. Wade and other officials. It seems that lately, in defiance of law, considerable liquor has found its way to the Pueblos and an emphatic step is to be put to this violation of the federal statute.

**Governor Appoints Notaries.**  
Santa Fe, Sept. 26.—Governor McDonald today appointed the following notaries public: William H. Osborne, Carrizozo; Alvin J. Thull, Watrous; Stephen Ramond, Tinnie, Lincoln county; Juan M. Baca, Mogollon. Since the present notary public record was opened, 7,384 notary commissions have been issued. The first entries are for the year 1882 and among them are such familiar names as Neil B. Field, Felix Martinez, Bernard S. Rodney, M. W. Flournoy, Charles Springer, Otto Diekmann, John Borradale. The first commission was issued to Warren F. Shedd of San Augustine, Dona Ana county.

# Surprising Results from the Use of NEWBRO'S HERPICIDE

**Read Mrs. Sharp's Letter**

Laverne, Ala., Feb. 16, 1913.

I want to give my testimonial on the wonderful results of using Herpicide. December 10th, 1911, we adopted a little girl from the orphanage. Her head was almost entirely covered with what we term "scald head," one side being entirely bald. I used every remedy I ever read or heard of, including physician's prescriptions, but they availed nothing. At last in desperation and as an experiment, because it hadn't advertised for that, I began on Herpicide. The first few applications stopped the itching. After using two and a half bottles she was entirely cured.

I wish you could see her hair. If I had used any more Herpicide I don't know what we would have done with it, as she already has hair enough for two. The bald places are well covered and it is peculiar that all the new hair is curly while the old hair is straight. The child, whose name is Elcuria, is now eight years old and calls herself the "Herpicide Girl."

MRS. C. K. SHARP.

Each day reveals almost marvelous and frequently astonishing results achieved by the use of NEWBRO'S HERPICIDE. There are surprises in every bottle which may be expected by the one who uses HERPICIDE carefully and intelligently. While the results are not always of such an astonishing nature as those experienced by Mrs. Sharp they are invariably satisfying.

HERPICIDE eradicates the contagion that causes dandruff and thus checks itching of the scalp and falling hair. The life, luster and luxuriance of the hair, so intensely admired by everyone, has come to be naturally associated with NEWBRO'S HERPICIDE, the exquisite and delightful hair-dressing.

## PHYSICIANS TO ACT AS JUDGES IN BABY CONTEST

All Preparations Made to Insure Complete Success of Big Feature of State Fair Next Week.

The selection of Dr. Joyner of Roswell and Dr. McClanahan of Las Vegas as two of the judges in the Baby Contest, is the latest development in what promises to be one of the biggest features in the coming state fair. The name of the third judge, who is to be a prominent Santa Fe physician, will be announced within the next two or three days.

The fact that the New Mexico Medical society will be in session here at the same time that the contest is being held, will undoubtedly be a strong factor in the success of the enterprise, and it is planned to take advantage of the presence in the city of the ablest physicians in the state to conduct a campaign of education for the benefit of the mothers of the city in order that they may be informed as to the things that go to make for stronger, healthier and better children.

The contest itself is to be an object lesson to the mothers. The strictest rules of sanitation are to be observed, and all babies will be carefully examined by nurses and physicians before being allowed to enter the contest, in order to prevent any possibility of communicating any contagious diseases to the other babies. Only physically sound babies will be accepted as contestants, and a staff of trained nurses will be on duty to look after their every need and see that nothing happens to them.

**Many Interesting Lectures.**  
Lectures by leading physicians from all parts of the state will be delivered for the benefit of those in attendance at the contest. Dr. Margaret Cartwright will lecture on disease germs and where they come from; Dr. H. B. Kauffmann will tell of the Montessori system from the doctors' standpoint; Dr. S. D. Swape of Deming will discuss the care, handling and diet of children; Dr. J. W. Laws of Lincoln, will lecture on "The Fear and Love of God"; Dr. T. C. Sexton of Las Cruces, on reverence for parent and teacher; Dr. Parviz of El Paso, on the secret of living, and Dr. Catherine Ray of Roswell, on child welfare.

On Wednesday during the contest Dr. C. M. Mayes of Roswell, will make an address on making the best of our children; Dr. Joyner of Roswell, will speak on the medical supervision of schools; Dr. W. T. Murphy of Albuquerque, will lecture on the prevention of tuberculosis in the child; Dr. Kalle of Albuquerque, will discuss the physical development of the child and Dr. C. E. Lukens of Albuquerque, will speak on the waste of child life.

The entries for the contest will close next Saturday, October 3, at noon. The trophies offered successful contestants are on exhibition at Matson's book store. A prize of \$25 has been offered by the Woman's club, under whose auspices the contest is being held, for the baby declared by the judges to be the best baby from all standpoints in the contest—in other words, the champion baby.

Mrs. George S. Klock has called a meeting of the enrollment committee of the Woman's club for Tuesday evening at 7:30 o'clock in the club house on Gold avenue.

### PUEBLO COUPLE WALKING ON A LONG HONEYMOON

Walking from Pueblo, Colo., to San Francisco on their honeymoon, Mr. and Mrs. Clyde Yevol, a youthful couple, arrived here yesterday. They called on Mayor Beahm at his office yesterday morning and told him their plans. They were married in Pueblo, August 1, and started on their walking tour soon afterward. They will remain here until after the fair.

### TWO PLASTERERS FOUND FOR CITY HALL WORK

The publicity given the city's want for plasterers to work on the city hall brought two unemployed plasterers to light. They were put to work. The city, however, needs more. The building committee expects to be able to employ more this week as several who have been employed will finish their work soon.

## GRAND JURY IS READY TO MAKE REPORT TO COURT

Judge Reynolds, Hearing the Spencer Case, Puts Off Receiving Indictments Until Tomorrow.

The grand jury made up its final report yesterday afternoon, but Judge H. P. Reynolds, of the district court, put off hearing it until tomorrow.

The judge at the time of the adjournment of the jury was presiding at the hearing of the Spencer case and deferred receiving the report on that account.

District Attorney M. U. Vigil excused the grand jurors, after the report had been prepared and signed, directing them to return tomorrow to be present at the presentation of the indictments and no-bills in court.

**Spencer Case Finished.**  
The grand jury achieved a remarkable record in the rapid disposition of cases. The jury was organized last Monday. No cases were considered that day. Its work really began Tuesday. From that time until yesterday afternoon the jury worked fast. Between twenty and thirty cases were investigated in the five days.

The Spencer case did not reach the jury yesterday, as court officials expected. The evidence was finished, however, and tomorrow morning Judge Reynolds will instruct the jury. Following this the attorneys will make their arguments.

**DEMURRER TO SUIT AGAINST SANTA FE SUSTAINED**  
Judge Reynolds yesterday sustained the demurrer to the suit brought against the Santa Fe railway by District Attorney M. U. Vigil in an effort to collect part of the 1912 taxes which the company refused to pay. The railway objected to the payment of taxes on a levy for feeding county prisoners, and when it paid the rest of its taxes subtracted the amount due on this levy. An appeal to the supreme court was granted.

Five hundred dollars for the use of one foot, three inches, of land on North Third street is asked by G. G. Badaracco in a suit against Gullis Catalani. The plaintiff alleges that the fifteen inches was conveyed to the defendant inadvertently. He also alleges that she built a building on her property adjacent to his and that it extends two feet and three inches on his land. He asks \$2,000 for this.

## ANCIENT MAPS ARE INCLUDED IN COLLECTION

**SPECIAL CORRESPONDENCE TO MORNING JOURNAL.**  
Santa Fe, Sept. 26.—In the Hand-ller collection just given the School of American Archaeology and New Mexico Museum by Mrs. H. S. Kaune, are a number of maps, some of them dating back 400 and more years, but especially interesting is an official map of New Mexico in 1846, which gives the old trails that centered at Santa Fe, and which includes the boundaries of the furthest claims of Mexico. The old Santa Fe trail is especially minutely defined as is also the trail from Santa Fe to Texas in Texas and the most ancient and most important trail of all, the trail from Santa Fe to Vera Cruz. The old Spanish trail from Santa Fe through Albuquerque, across the Grand Canyon to San Diego and "Yerba Buena," or San Francisco, is shown as well as the wagon road from Santa Fe to the Arkansas which joined the Santa Fe trail at the so-called Santa Fe crossing. The trail from Santa Fe to the Colorado river, the road down the Rio Grande by way of Albuquerque and Socorro to El Paso and Chihuahua, the road from Santa Fe to Taos, the route taken by the military expedition of 1841 from San Antonio to Santa Fe, Major Long's route through New Mexico—are all clearly outlined.

Albuquerque in Texas.  
Most significant of all is the fact that Albuquerque, Santa Fe, in fact all the region east of the Rio Grande

from its source to its mouth, are shown to be in Texas. However, the boundary of Texas in 1825 is also indicated, extending west only to the Nueces. The area of the district of Santa Fe is given at 244,000 square miles or twice the present area of New Mexico. "Nuevo Mexico" is given as a separate district comprising all the land west of the Rio Grande to the present western boundary of the state, but extending far south into Chihuahua and north to Montana and Oregon, comprising another 260,000 square miles. The population of the district of Santa Fe is given at 150,000, and of the city of Santa Fe at 10,100, or just twice the population it had in 1910. The location of the various Indian tribes in New Mexico and the geographical appellations are especially interesting.

# \$930,000 Per Week Paid for Hudson Cars

## \$235,600 in One Day By Individual Buyers

The day before this is written—September 15—the sales made to users on the HUDSON Six-40 were 152 cars. That is, yesterday buyers of new cars paid out for HUDSONS \$235,600.

The average for the past four weeks is \$930,000 per week—because that is the limit of output. We are building and selling 100 per day. That is five times as many—five times, mark you—as we sold at this season last year.

And we had no war then—no talk of war's depression. Our average sales have more than trebled since this war began.

## That Means That Hudsons Rule This Field Today

In July—when we brought out this new model—we trebled our output to cope with demand. Yet on August 1—despite our best efforts—we were 4,000 cars oversold.

We shipped by express nearly 1,000 cars to minimize delays. That's an unprecedented act. But thousands of men waited weeks for this car, when every rival had cars in plenty. Nothing else could satisfy a man who once saw this new-model HUDSON Six-40.

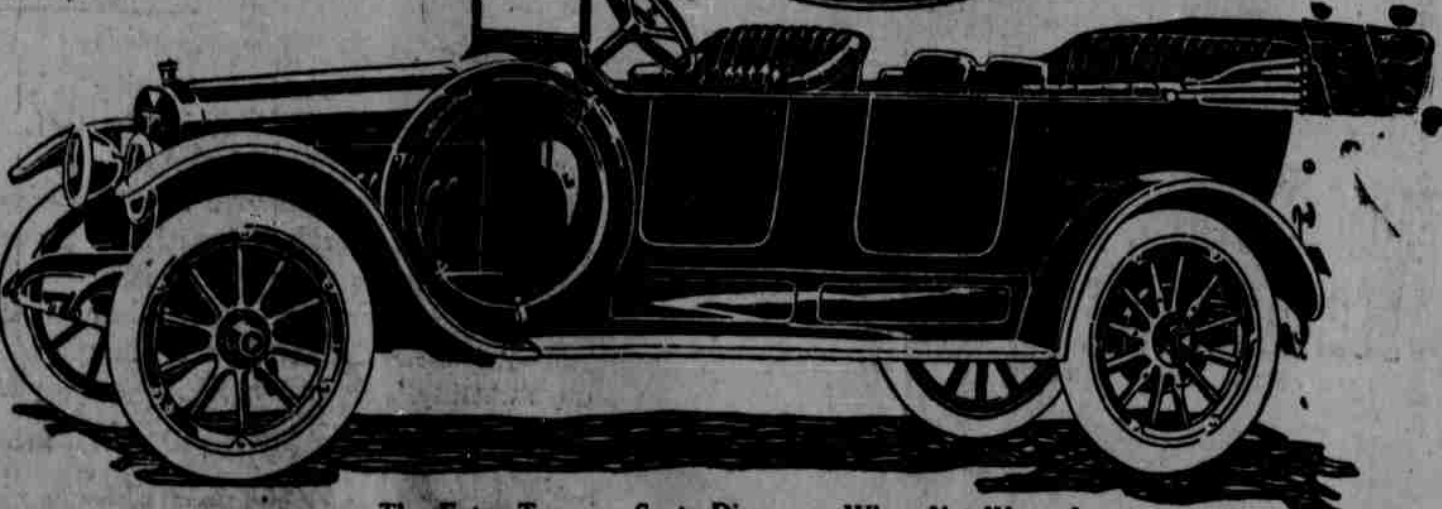

## Five-Fold Increase an Amazing Thing

Consider this fact: The HUDSON has long been a leading car. Every model has for years been designed by Howard E. Coffin.

In the HUDSON car Mr. Coffin has brought out all his new advances. And the demand for his models—long before the advent of this HUDSON Six-40—gave HUDSONS the lead in this field. The first HUDSON Six, inside of one year, became the largest selling Six in the world.

Think what a car this must be—this new HUDSON Six-40—to multiply that popularity by five in one year. And to do it at a time like this.

Think how far it must outrank all the cars that compete with it. Think what tremendous appeal it must make to car buyers.

MORNING JOURNAL WANT ADS BRING RESULTS

Think what a car it must be, when, in times of slow sales, men pay \$930,000 per week for it. And they would pay more if we had the cars to deliver. They yesterday bought at the rate of 50 per cent more cars because 152 cars arrived.

The HUDSON Six-40 now far outsells any car in the world with a price above \$1200

See the Car that Did It  
Howard E. Coffin's Best

Come now and see this model—the car whose record is unapproached in the annals of this line. You will see a quality car sold at a price which is winning men by the thousands from lower-grade cars.

You will see a class car—in many respects the finest car of the day—which is sold at one-third what class cars used to cost.

You will see how clever designing and costly materials have saved about 1,000 pounds in weight. And in this light car—the lightest of its size—you will see one of the sturdiest cars ever built. You will see a new-type motor which has cut down operative cost about 30 per cent.

You will see new beauties, new ideas in equipment. You will see new comforts, new conveniences—scores of attractions you have never seen before.

They are all in this masterpiece of Howard E. Coffin, who has long been the leading American designer. This is his finished ideal of a car—of the man who is conceded to be final authority.

Mr. Coffin has worked for four years on this model. And the whole HUDSON corps has worked with him—47 able engineers. Part by part, every detail of this car has been brought to its final refinement.

This is the coming type. This lightness, this beauty, this economy, this price are new-day standards which men are demanding. And this quality—Howard E. Coffin's level best—is the least that men who know will take.

## Come This Week—Sure Now's the Time to Choose

This is the time to pick out your new car. Next year's models are out now. You have seen what the field has to offer.

If you buy a class car, this new HUDSON Six-40 is the car you'll want. The exclusive features which have won such an avalanche of favor are bound to appeal to you.

Come now, because the best touring months are before you. Don't miss the bright, cool Indian Summer days. Get your new car and enjoy them.

We won't keep you waiting. We will see that you get the car when you want it if we have to ship by express.

# WHEAT PRICES AGAIN DECLINE ON DULL MARKET

It is Reported That British Government Is Arbitrarily Fixing Prices to Be Paid at Liverpool.

NEW YORK, Sept. 26.—Sharp reduction in prices at Liverpool caused a decided setback today in the wheat market here, despite general belief that the British government would arbitrate the Liverpool quotations and thereby interfere with conditions likely to affect trade. The close in Chicago was steady, but 1 1/2 c under last night. Other net losses were:

Oct. 1 to 10, and Oct. 11 to 15, 1/2 c to 1 1/2 c.

Provisions finished the same as last night to 1 1/2 c advance.

According to cables which were allowed to pass the English censor, there was an increased pressure of wheat supplies in Liverpool and a smaller demand, with a prospect of larger world shipments, including some from Russia. At first this view was given heavy credit and the market here heavy from the start; later, however, questions were current that investigation had shown the British government to have been responsible for withholding Liverpool quotations entirely for three days this week, while immense supplies were being purchased for England or her allies.

Statements that the lowered prices for wheat reported from Liverpool today were not actually business dealings led to a moderate rally here in the last part of the session. The recovery was helped by talk of 500,000 bushels having been sold today for shipment to Europe from Gulf ports.

Corn suffered from the depression of wheat. Ideal weather for curing the crop was reported also to hamper the bulk side of the market. Weakness spread to oats notwithstanding active inquiry from the seaboard. Country offerings remained small.

Foreign buying of large gave some strength to provisions. An early advance in the hog market had some effect in starting an upturn.

Grain prices:

Wheat—Sept., \$1.05 1/4; Dec., \$1.05 1/4; May, \$1.15 1/4.

Corn—Dec., 70c; May, 72 1/2 c.

Oats—Dec., 49 1/2 c; May, 52 1/2 c.

Pork—Jan., \$19.77.

Lard—Oct., \$9.55; Jan., \$10.05.

Hogs—Oct., \$10.80; Jan., \$10.50.

# BETTER OUTLOOK FOR BUSINESS NOW APPARENT

Money Is Becoming Easier and Wall Street Gains Confidence From Demand for New York City Notes.

NEW YORK, Sept. 26.—The outcome of the New York City loan operations and the probable success of the \$100,000,000 gold pool to supply relief from the pressure for foreign exchange, afforded substantial encouragement to financial sentiment this week. The loan was accepted as a touchstone of the bond market. Its over-subscription with large applications from small investors throughout the country and its prompt rise to a premium which represented an interest rate but little over 5 per cent, relieved much of the apprehension about bonds and the maturities of municipalities, states and corporations which must soon be provided for.

The requirement, it is believed, has influenced the banks in conserving resources. A more liberal disposition now seems to be shown, the situation exerted by the treasury department also conducing to that end. Resumption of dealing in bonds, short term notes and unlisted stocks under the auspices of the stock exchange disclosed a volume of demand and an absence of the dreaded flood of foreign selling orders that proved most cheering to hopes of a return of normal financial conditions.

Immediate response in foreign exchange rates was less pronounced. Exact conclusions as to the amount of foreign participation in the New York loan were difficult and the amount of gold which may have to be exported to Canada remains indefinite. Confidence is strong, however, that the security offered by the hundred million dollar fund will reassure foreign creditors and reduce the actual demand for gold. Strength of exchange was attributed to deferred demands. Other interest and dividend disbursements and the result of the new British moratorium.

COTTON PROSPECTS ARE STILL NOT PLEASING

New York, Sept. 26.—While reports of earlier southern spot markets and expectations of a favorable government crop report next week, have created rather a pessimistic view in local cotton circles as to probable movements, there is more talk of an early resumption of business on the exchange. Today a report from the conference committee showed that 1,200 bales of the old straddle interest had been liquidated as a result of yesterday's operations in Liverpool and recent better progress in the reduction of the straddle has had a favorable effect on sentiment. Private cables report a very poor business in Manchester, but payments are becoming easier, so that the situation there is improving to some extent and liquidation on the basis of 9 cents for December is expected to become more active.

## REPUBLICANS TO PATCH UP TICKET TOMORROW NIGHT

Committee Calls Meeting, Inviting All Party Men to Be Held at Headquarters on West Gold.

The personnel of the republican legislative ticket probably will be settled at the general party meeting called by the county central committee for tomorrow night at the headquarters, 267 West Gold avenue, second door from First National bank. While the committee's official call, which appears in another column of this edition, makes no specific reference to this, the fact that the party is saddled with a superfluity of candidates is generally known.

Whether an amicable adjustment will be effected is a matter of conjecture among republicans, and of some interest to the democrats. If conciliation fails two tickets may be offered to the sovereign voters, both harboring more or less of the principles of the Grand Old Party. So what ever occurs tomorrow night, legislators may not have an opportunity to hear Modesto C. Ortiz's fiery oratory. There is a possibility that he may have a place on the ticket endorsed by the committee, but whether he lands there or not, his friends are understood to favor his maintaining his candidacy.

**Plan for Harmony.**  
The committee in the official call makes a strong plea for party unity, saying that this is the beginning of the campaign of 1916—but the factions may see different ways of maintaining this unity. Some may think that it is essential to harmony to let the Romero crowd share in the fruits of the victory at the primaries, while others may not view it that light.

The republicans probably will turn out in strength to witness a possible continuation of the fight between the Romero and anti-Romero forces, of the final settlement of the factional strife. Both sides have made different claims as to the extent of the pact made at Santa Fe, and tomorrow night politicians expect them to harmonize their contentions or split.

The meeting is not to be limited to members of the central committee; all republicans are invited.

**Deaths and Funerals.**  
Miss Martha Estoraz.  
Funeral services for Miss Martha Estoraz, who died Friday morning at her home, 115 West Iron avenue, are to be held at 10 o'clock this morning at Fred Crollatt's chapel. Burial will be in San Jose cemetery.

William Sylvester.  
William Sylvester, 44 years old, died yesterday at his home, 1102 South Arno street. He had been a resident of this city for more than a year, having come here from Quincy, Ill. He is survived by a widow and three sons, all of whom are here. Funeral services are to be held at 10 o'clock this morning at Hakemore's chapel, and the body is to be shipped this afternoon to Quincy, for burial.

John B. Heint.  
Funeral services for John B. Heint, who died last Wednesday, are to be held at 2 o'clock this afternoon at C. T. French's chapel. The Rev. C. A. Foreman, of the First Presbyterian church, will officiate. Burial will be in Fairview cemetery. The pallbearers are: Joe Schwartzman, Simon Halling, Jacob Stueckel, Fred Zwicker, W. Houser and John Menaul.

## SUNDAY SCHOOL CONVENTION TO BEGIN TUESDAY

New Methods to Be Discussed by Earnest Workers Who Are to Gather in Albuquerque From Over State.

John Sherman said, "The way to resume specie payment, is to resume." The way to teach, is to teach, "looking not at the obstacles but the goal," say the Sunday school workers of New Mexico who will be gathered together at the state Sunday school convention to be held in Albuquerque, September 29, 30 and October 1, in the Lead Avenue Methodist church.

The program indicates that this will be the largest convention in the history of organized Sunday school work in New Mexico.

The publishing houses are writing and making for space for book exhibits.

No detail to make the convention worth while has been overlooked by Judge W. H. Pope, president of the State Sunday School association, ably assisted by Dr. William Warren, vice president, Frank C. Keefer, secretary, and H. B. Lithgow, treasurer, of Albuquerque.

The industrial mission schools, Harwood, Rio Grande and Manual, of Albuquerque, and the Allison-James, of Santa Fe, will show industrial and Sunday school work.

Attention will be called to missions by means of dolls dressed by pupils to represent the countries in which the churches have mission stations.

The clever modeling of bible subjects in clay, and excellent water color work, indicate that New Mexico bids fair to develop a number of talented sculptors and artists.

The publishing houses have sent pictures, copies of famous paintings, which will make an attractive and instructive display.

**CHRISTIAN ENDEAVORS OF STATE WILL MEET FRIDAY**

The Christian Endeavor Society of New Mexico will meet here Friday, following the state Sunday school convention. The Endeavorers will be in session Friday and Saturday mornings. An automobile ride is scheduled for Saturday afternoon.

The program for the convention follows:

Address—Rev. P. J. Rice, of El Paso.  
Violin Solo—Grace Storrs.  
Reception.

**Saturday Morning.**  
9:00—Devotional service, Harry Watkins.  
9:15—Ten-minute talks on—(a) Efficiency, Earl Montgomery; (b) Leading a C. E. Prayer Meeting, Ernest Hall; vocal solo, Lorraine Severus; (c) Spiritual Side of Christian Endeavor, Rev. E. P. Schueler.

10:00—Question Box on C. E. Problems, conducted by Mrs. L. L. Shields.  
10:30—Business meeting and election of officers.  
11:30—Closing (conservation service).

Will give lessons on violin and piano. Leave orders at "The Palms" hotel, 215 W. Central. Prof. Di Mauro.

## SCHOOL CENSUS MAKES BIG GAIN IN 12 MONTHS

Over 1,000 More Children of School Age This Year Than There Were Last Year, Report Shows.

The school census of Bernalillo county, including Albuquerque, since the fall of 1913 made the remarkable gain of 1,511. The total number of boys and girls of school age, as shown by the 1914 census, is 10,372. These figures were given out yesterday by County Superintendent Atanacio Montoya.

The census shows that there are more school children in the county, outside the city, than there are in Albuquerque. The city has 5,997 and the outside districts 5,275 children of school age. Of course the actual enrollment is less in both city and county, as the compulsory attendance law does not apply to all children of school age, who are accounted for in the census.

**County Population About 40,000.**  
Of the 5,275 in the rural districts, 2,682 are boys and 2,593 are girls. In the city the girls outnumber the boys, there being 2,688 of the former and 2,509 of the latter.

The percentage of increase of school population over last year is 16 per cent, Mr. Montoya said. The census for 1913 was 8,861.

From the school census Mr. Montoya estimates that the population of the county is 36,252. He reaches these figures by multiplying the school population of 10,372 by 3.1-2. He says, however, that it is very likely that the census of the county is nearer 40,000 than 36,252.

That the school census should show a phenomenal increase was apparent some time ago when returns from the city and two of the largest districts in the county, from which Mr. Montoya received the first reports, registered big gains.

## NAVAJOS WILL BUILD HOGANS AT SAN DIEGO

Six Navajos will leave their reservation in northeastern Arizona, the latter part of this week for San Diego, Calif., where they are to build Indian hogans for the Santa Fe railway's exhibit at the Panama-California exposition. Herman Schweizer, manager of the Fred Harvey curio department, returned here yesterday after making arrangements with the Navajos for this work.

## GIGANTIC SALE OF JEWELRY AT DODD & DENHOF'S

The largest jewelry bargain clearance sale ever undertaken in Albuquerque, probably in the southwest, was inaugurated at the jewelry store of Dodd & Denhof, corner of Third street and Central avenue, yesterday morning. Several hours before the front doors of the store were thrown open, at least a hundred anxious bargain hunters were in waiting, and soon thereafter the store room was jammed to the sidewalk.

"Big Ben" clocks, bracelets, rings, watches and many other standard articles of jewelry went off like hot cakes, and the rush continued, without any appreciable stop, until 11 o'clock last night, when the doors were closed and the tired clerks, with the two proprietors, and the two sales managers, Messrs. George and Minsky, of Los Angeles, retired for the night, highly pleased with the receipts. From those who made purchases, the Journal learned that it is truly a great money-saving sale in jewelry.

## A DISCUSSION

Upon Why We Are Sick and What Steps to Take to Get Well: An Article Worth the Attention and Perusal of Every Person.

There are so many varied types of disease, with their associated symptoms, and so many methods of attempting to cure these conditions, that one cannot dwell upon each. In general, we will say, all diseases come under five heads, viz: (1) A disturbance of the nervous system, general or local (covering diseases of mental origin); (2) Sluggish blood circulation; (3) Faulty elimination; (4) Digestive and assimilative disorders; (5) Invasion of germs.

No. 1. It has been proved beyond any doubt, as a result of statistics accorded in Osteopathic hospitals and clinics throughout the United States, that diseases of the nervous system can be cured in the majority of cases by osteopathic correction of lesions affecting the same.

No. 2. The blood stream is dependent upon activity in order to keep itself purified. Stagnant blood is impure blood. The blood purifies itself through the aeration process in the lungs, filtration through the kidneys, emptying the refuse into the liver, and through the glands of the skin. An osteopath can control the blood supply to all parts by mechanically freeing and relaxing the tissues through which it flows, also by stimulation of the vaso-motor nerves controlling blood pressure.

No. 3. In order to keep one's system in a healthy condition a perfect elimination must be established through the lungs, kidneys, bowels and skin. This will prevent or relieve any disease of toxic origin. An osteopath can establish free elimination in a natural method without the weakening and depressing effects of drugs.

No. 4. Osteopathy teaches correct dietetics for various conditions. We usually eat too much, too hastily or while tired or worried. While tired one's stomach cannot functionate properly. Assimilation naturally is lessened and the result is a weakened system. Osteopathy aims to give the stomach better tone by establishing a better blood supply, normal nerve tone and normal activity of all the glands of digestion and assimilation.

No. 5. The blood is our safest germicidal agent to combat any invading germ. An osteopath combines all forces to successfully combat all germs, provided they have not gained too firm a foothold. In addition we have installed a complete inhalation outfit for the special treatment of all cases where germs have entered the air passages; also, an electric ozone generator and cabinet for medicated vapor baths.

We have combined the best methods known to science in addition to our special osteopathic treatments to successfully combat and cure any curable case.

We will be pleased to have you call and talk over your case. No charges for consultation.
