ALBUQUERQUE, NEW MEXICO, WEDNESDAY AFTERNOON, MARCH 12, 1902

NUMBER 93

ALTGELD IS DEAD.

Failed to Rally From Attack.

Committee Selects the Nicaragua Route.

Dramatic Tests of Towels Saturated With Chloroform.

WESTERN UNION CHANGES.

Joliet, Ill., March 12.—Former Governor John P. Altgeld died at the Hotel Monroe this morning at 7:09 o'clock. He had been unconscious since midnight. Governor Altgeld was the principal speaker at a pro-Boer mass meeting last night in the Joliet theater. Just at the close of his speech, a sudden dizziness seized him, and he was assisted from the stage. Several vomiting spells seized him, and these continued for nearly an hour. Physicians were hastily summoned and Governor Altgeld was carried to the hotel across the street. He retained consciousness and urged the newspaper men to keep the affair quiet for fear of alarming his wife. Shortly before midnight he became unconscious and remained in this condition until his death. The cause of death is given as cerebral hemorrhages, there being been apopleptic seizure of the brain.

Ever since the failure of the Globe Savings bank, in 1896, in which, he was involved, Mr. Altgeld has not been well, and for some months after the Spalding crash it was feared his death was only a question of a short time. When it was learned he was a victim of locomotor ataxia, his friends gave up; but he rallied, although he was never again his old, vigorous self. Lately, however, the disease marked him strongly, and quite recently his appearance has caused grave forebodings and anxiety. His mind was just as clear and active as of old, but the flesh was weak.

Governor Altgeld, in the speech which was fatal to him, declared that all friends of humanity owed a debt of gratitude to Governor Yates for issuing the proclamation soliciting assistance for Boer women and children in the concentration camps which the British are maintaining in South Africa. The speaker said the people of America raised a large sum to relieve the distressed Boer women and children, but were unable to send it to them because Lord Pauncefoot, British ambassador at Washington, objected. He further charged that Lord Pauncefoot had for years meddled in American affairs.

No post mortem will be held as the family is content with the statement by physicians that he died from cerebral hemorrhage. The remains will be embalmed and brought to Chicago this afternoon.

MRS. ALTGELD PROSTRATED.
Chicago, March 12.—Mrs. Altgeld, widow of the former governor, was prostrated by her husband's death, and grave apprehension is felt, as she has been in delicate health for two years.

NICARAGUA ROUTE.

It will be reported by the Senate Committee.

Washington, March 12.—The senate committee on Isthmian canal decided by a vote of 7 to 4 to report the Hepburn bill providing for the construction of an Isthmian canal via the Nicaragua route.

RATHER DRAMATIC.

A Towel, Saturated with Chloroform, Was Burned.

New York, March 12.—In the Patrick murder trial today the prosecution offered to demonstrate the truth of Valet Jones' testimony, that after chloroforming Rice, the aged Texas millionaire, he threw the towel, wet with chloroform, into a grate and set it on fire, when "it burned as though saturated with oil." Recorder Goff directed that the doctors representing the prosecution and defense make a test during the recess today and report the result to the court. After the test was made, F. B. House, senior counsel for Patrick, said that in the test made by Dr. Girdner for the defense, it burned nine minutes and smoldered twenty-eight minutes before it was reduced to ashes. In the test by Dr. Schultz for the prosecution it burned two minutes and smoldered half an hour.

TELEGRAPH CHANGE.

New President of the Western Union Telegraph Company.

Chicago, March 12.—Col. R. C. Clowry, vice president and general superintendent of the Western Union Telegraph company, was today elected president, succeeding Thomas T. Eckert, retired.

General Eckert was elected chairman of the board of directors.

Demurrer Sustained.
New York, March 12.—The demurrer interposed by the Amalgamated Copper company to the actions brought against it and the Boston & Montana Consolidated Copper & Silver Mining company, by James A. Forrester and John MacCinnis, has been sustained by Justice Beach, of the supreme court,

who held that no cause of action is presented against the Amalgamated company.

SAFE CRACKERS.

Good Hauls Were Made in Kentucky and Pennsylvania.
New Castle, Ky., March 12.—The Bank of New Castle was robbed of \$4,500 in cash, a lot of jewelry belonging to Isaac W. Kelly, its president, and \$500 worth of stamps, early today.

A GOOD HAUL.
Titusville, Pa., March 12.—Safe crackers blew open the vault of the Farmer's bank of Townville last night and stole \$8,000.

Fights in Manchuria.
St. Petersburg, March 12.—A number of engagements between the Russian troops and Tunguses have occurred in Manchuria in the past two months. Several bands of raiding Tunguses were dispersed and 233 raiders were killed or wounded. The Russian casualties were light.

Doorkeeper Glenn Dead.
Washington, March 12.—Doorkeeper Glenn, of the house of representatives, died this afternoon of acute inflammation of the lungs. He was a resident of New York.

MACCABEE ARRESTED.

Ex-Supreme Finance Keeper Confessed a Shortage of \$57,000.

Port Huron, Mich., March 12.—Chas. D. Thompson, ex-supreme finance keeper of the supreme court, Knights of Maccabees, who confessed a shortage of \$57,000, was arrested today on a complaint sworn out by Sheriff Maines.

Major W. M. Jones.
Waco, Texas, March 12.—Major Wiley M. Jones, one of the pioneers of Texas, dropped dead in a street car of paralysis. He was 78 years of age.

ATTEMPT TO ROB.

Celso Apodaca Tried to Hold Up Charles G. Stevens.

WAS BOUND OVER.

Celso Apodaca, an all around bad man, arrested for an attempt at highway robbery, was bound over to the grand jury this morning in Judge Crawford's court. Bond fixed at \$500.

Last Saturday night Charles G. Stevens, a carpenter living on South Fourth street went in to Mrs. Ed. Greenleaf's store on South Second street to pay some house rent. He had a \$20 bill for which Mrs. Greenleaf could not make change. Celso Apodaca, who was standing near, walked up to the counter, picked the bill up and said that he knew where to get change. Mr. Stevens not knowing the man took the bill from his hands and went into a meat market near by to get the bill busted. Apodaca followed him. Stevens returned to Mrs. Greenleaf's place and gave her the money due, being several dollars and put the balance in his pocket and started home, going west on Atlantic avenue. Anybody acquainted with that district, knows that Atlantic avenue is quite a dark street.

When Mr. Stevens got about half way down the block, between Second and Third streets, he noticed Apodaca gaining on him and his actions were rather suspicious. Stevens turned on the would-be robber and told him to stop or he would put a hole in him. Apodaca sprang up close and cried "hands up" at the same time putting his hand in his hip pocket. After a little parley during which time Stevens was backing toward Second street. Reaching the corner he ran into a near-by store, recovered from his fright and went home by a different route from the first one taken. Since then Apodaca has been in hiding and was not seen until last night when he was picked up in a down town saloon by one of City Marshal McMillin's men.

Apodaca has quite a long police record having been arrested several times for stealing overcoats, horses and bicycles.

Magdalena Rubi, arrested for stealing W. F. Switzer's bicycle a week ago Saturday night, pleaded guilty to the charge and was given 90 days in the county jail.

Lemanda Garcia gave a peace bond for \$250 for declaring vengeance against Todosio Sandoval.

Harry Dunbar, who has the record of killing several men in the lower country, and has been in police court several times lately, was given sixty days, for being drunk, disorderly, slapping one of the doves on the acre and several other small offenses.

Officers Elected.

The officers elected last night by the United Commercial Travelers were: J. Campbell, senior councillor; C. O. Cushman, junior councillor; J. H. O'Reilly, past councillor; F. Spitz, secretary and treasurer; Ernest Meyers, conductor; Alfred Singer, page; C. D. Goff, sentry; executive committee, B. Flesher, C. O. Cushman, E. B. Harsch.

District Court.

The court this morning overruled demurrer of defendants, J. G. Albright et al, in case of F. L. Pearce vs Dollie Monbars, et al, suit to enforce mechanics lien on property at corner of Third street and Copper avenue.

In the case of New Mexico Savings & Trust Co. vs C. Sanchez, et al, suit to foreclose a mortgage, demurrer of plaintiff to defendant's answer was overruled, and guardian ad litem ruled to answer to the complaint.

HAVE SHUT DOWN.

Strike Stops Work in Factories.

Senate Will Investigate Transport Service.

Did Hopkins Deceive House on Census Bureau?

RECIPROCITY ROW.

Boston, March 12.—The strike of 600 New York, New Haven & Hartford railroad freight handlers, which began last Saturday, has extended until there are 20,000 men idle in this city. Of these 3,000 to 5,000 were employed by manufacturing companies, which have been compelled to shut down because of the difficulty of handling freight. If the threats of strike leaders are borne out, this day will see the movement extended to the building trades unions and unions connected with foreign steamship traffic. The business men are staggered by the strike.

SENATOR HANNA INTERESTED.
Washington, March 12.—Senator Hanna is looking into the strike situation at Boston.

WANT TO KNOW.

Senate Asks Questions About the Government Transport Service.

Washington, March 12.—In the senate, Mr. Rawlins, of Utah, introduced a resolution, which was adopted, directing the secretary of war to send to the senate the reports of Inspectors Carpenter and Maus and any other information he may have in relation to the transport service between the United States and the Philippines, and especially regarding the free transportation of individuals.

Mr. Cullom, chairman of the committee on foreign relations, reported favorably on the bill authorizing the president to extend to the government of France an invitation to join the government and people of the United States in the dedication of the monument to Count De Rochambeau to be unveiled in this city on May 24 next.

Mr. Hoar, of Massachusetts, offered an amendment including in the invitation the family of Marquis De La Fayette. The amendment was agreed to and the bill passed.

The senate resumed consideration of the ship subsidy bill, Mr. McCumber, of North Dakota, speaking for the measure.

Mr. Depew followed Mr. McCumber in a speech earnestly supporting the ship subsidy bill. We were looking forward to becoming a world power, but we had, hindered because we lacked the means of communication.

AFTER HOPKINS NOW.

It is Charged That He Deceived the House.

Washington, March 12.—The house resumed consideration of the postoffice appropriation bill. Mr. Sims, of Tennessee, reviewed the facts in connection with the enactment of the permanent census bureau law. It had been the intention of both the house and senate, he said, to enact a provision to cover all employees of the census bureau into the classified service, and make them eligible for transfer, but the conferees had substituted the provision which defeated the object sought by the two houses. He charged that Mr. Hopkins, of Illinois, who presented the conference report, deceived the house. Mr. Hopkins' action, he declared, called for the strongest censure by the house, but as that gentleman was not present he would not propose any action along that line.

The Pacific cable discussion was renewed. Mr. Corliss, of Michigan, made an attack upon Mr. Richardson, of Alabama, in reply to the latter's speech of a few days ago. He asked why Mr. Richardson had not waited until the bill was properly before the house before rushing to the defense of a telegraph corporation. Mr. Corliss criticized F. B. Thurber, president of the United States Export association, whom he coupled with the officers of the American Asiatic association and styled them "devils due in the garb of heavenly twins," seeking to mislead the public and conceal the iniquity of the cable monopoly.

MAY GET TOGETHER.

The Two Factions on Cuban Reciprocity May Compromise.

Washington, March 12.—There are indications that the republicans of the house will compromise on the Cuban reciprocity, the basis being a 20 per cent reduction to continue two years. Leaders of both sides have been conferring during the afternoon with the view of reaching an agreement on these lines. The opposition to the ways and means committee has gone into conference in the committee room of William Allen Smith to consider the compromise overtures.

MAY CONFESS.

Negro Women and White Men Responsible for Murders.

Beaumont, Texas, March 12.—It is the theory of the police that an organized band of negro women and

white men is responsible for the recent murders after robbery here. The sheriff has a woman in the "sweat box" whom he believes to be the leader and believes she will shortly confess.

A Texas Wind.
Houston, Texas, March 12.—A wind storm did some damage in the outer portion of the city last night, wrecking twenty houses, mostly small residences. There was no loss of life, and the property damage was \$15,000.

Rebels Defeated.
Hong Kong, March 12.—Marshal Su, who recently arrived on the scene of the Kwang Si rebellion and took command of the imperial forces, defeated the rebels at Lung Chow. Su expects to suppress the rising in a month.

Miss Roosevelt's Trip.
Havana, March 12.—Miss Alice Roosevelt, daughter of President Roosevelt, accompanied by a party of friends, including Senator Thomas C. Platt, of New York, arrived here today.

Bought in Pueblo.
Pueblo, March 12.—Paul Morton, of the Santa Fe company, has purchased one of the best business locations in this city from ex-Governor Alva Adams, and will make extensive improvements. Consideration, \$35,000.

River Steamer Sunk.
Vicksburg, Miss., March 12.—News reached here this afternoon that the steamer City of Providence was sunk at Davis Bend. It is reported the engineer, clerk and fifteen or sixteen negroes are drowned.

Two Officers Killed.
Cape Town, March 12.—During a skirmish near Pearson, Cape Colony, on March 10, Commandant Ovenden and Field Cornet Van Der Walt were killed.

OFFICIAL MATTERS.

Morgan O. Llewellyn Takes Charge as Surveyor General.

LAND CONTEST.

Governor Otero appointed S. E. Lewis, of Ramah, McKinley county, a notary public.

SURVEYOR GENERAL.

Morgan O. Llewellyn received a dispatch from the general land office ordering him to assume the duties of surveyor general of New Mexico, to which office he was appointed several weeks ago, and for which his commission is on the way from Washington. In accordance with the order Mr. Llewellyn relieved Quinby Vance as surveyor general of the territory and took charge of the office.

TERRITORIAL FUNDS.

Territorial Treasurer J. H. Vaughn received the following remittances: From Fred Muller, treasurer and collector of Santa Fe county, \$6.77 of 1899 taxes; \$6.05 of 1900 taxes; \$248.32 of 1891 taxes. From John Spears, treasurer and collector of McKinley county, \$1.69 of 1900 taxes, and \$361 of 1901 taxes. From Charles Holman, treasurer and collector of Mora county, \$3.48 of 1900 taxes, and \$53.19 of 1901 taxes.

A LAND CONTEST.

The general land office has set April 28, as the date of a hearing before United States Commissioner Harry P. Lee at Albuquerque, in the contest of John E. M. Roper vs. the Territory of New Mexico. Roper contests for a quarter section of land in the Manzano mountains in Valencia county, which has been filed upon by the territorial land board and which filing has been approved by the department of the interior. Roper claims to have settled upon the land before the territory filed upon it.

INCORPORATION.

The Southern Pacific Railroad company filed incorporation papers of the consolidation of the road in California, Arizona and New Mexico, in the office of Territorial Secretary J. W. Reynolds. The incorporators and directors are: E. H. Harriman, Charles H. Tweed, of New York; J. Kruttschnitt, William F. Herrin, William Sprunt, Homer S. King, of San Francisco; Alvin Hayward, of San Mateo, Cal.; J. L. Slanson, of Los Angeles; N. T. Smith, of San Carlos, Cal.; and J. L. Wilcutt, of Oakland, Cal. The capital stock is \$159,455,000, divided into 1,594,550 shares, of which \$128,377,960 is paid up. The road as consolidated has a mileage of 5,466.89 miles, of which 168 miles are in New Mexico. The incorporation fee paid was \$268.

ANOTHER NEW ROUTE.

Proposed Direct Line From Mexico to Kansas City.

Following is the route submitted to the Mexican government for the proposed system of railroad from the City of Mexico to Kansas City, which will shorten the distance several hundred miles: City of Mexico to Tampico, as per the Honey concession for the Pachuca road; Tampico to the northern frontier, striking the Rio Grande north of Matamoros, thence to San Antonio, Texas, where it will connect with a line direct to Kansas City. The Mexican government is deeply interested in the development of the frontier between Nuevo Laredo and Matamoros, which contains rich agricultural valley lands, and the concession granted is liberal enough to insure the construction of this line.

ANOTHER ROAD.

Choctaw Will Build In to Albuquerque.

Directors Authorized Extension From Amarillo.

Air Line to St. Louis and Atlantic Seaboard.

EAST AND WEST LINE.

A special dispatch from Philadelphia to the St. Louis Globe-Democrat says: "The officers of the Choctaw, Oklahoma & Gulf Railroad company have decided to build the line farther west, and the directors have authorized the extension from Amarillo, Texas, to Albuquerque, N. M. This will add about 600 miles to the road, and will give an outlet to a part of the country in which it can find a ready market for its coal and products raised along the line. It is estimated that the cost will be about \$13,000,000, which is to be provided for by the issue of \$5,500,000 5 per cent bonds under the consolidated mortgage of 1902, issuable at the rate of \$15,000 a mile, and by the issue of \$5,500,000 common stock. The stock is to be offered to the preferred and common stockholders at par, making an allotment of about 45 per cent.

"The Choctaw railroad is now engaged in constructing branches to connect with the Atchafalaya at Amarillo and with the Missouri, Kansas & Texas at a point south of McAlester."

The Choctaw, Oklahoma & Gulf road is one of the coming systems of the southwest and is already a big system. The eastern terminus is Memphis, Tenn., where direct connections are made and a traffic arrangement is in effect for through business to the Atlantic coast at Newport News, Va., direct north to St. Louis, Louisville and Cincinnati, and to New Orleans. The road passes through Arkansas, Indian Territory and Oklahoma and is now in operation as far west as Amarillo, Tex. It penetrates the wonderful timber and coal regions of Arkansas, and comes through the cotton and fruit belt of Oklahoma into Oklahoma City. At that point direct connection is made with the St. Louis, Iron Mountain & Southern, one of the Gould systems, and a road which opens up to Albuquerque northeastern Oklahoma, the north part of Indian Territory, southeastern Kansas and Missouri and gives an almost air line to St. Louis.

The Choctaw extends west from Oklahoma City through El Reno, the principal town in the north half of the last country opened up, through the rich cattle country in the Panhandle of Texas and is now in operation to Amarillo.

The preliminary survey west from Amarillo has been made through the new town of Tucumcari on the Rock Island. If this survey is adopted it will make Tucumcari an important railroad point, as the junction point of the Rock Island, the Dawson branch and the Choctaw. Whatever route is adopted, it will give Albuquerque direct connection with the Rock Island road and the chances are largely in favor of connection with Tucumcari.

It is not believed the road will stop here, but that it will be extended west, through Durango and connect with the Senator Clark's road from Salt Lake to Los Angeles. This will give to the Clark road its greatly desired eastern outlet and it is probable the Clark interests are behind it.

To Albuquerque it will not only mean a through east and west line, air line connections with St. Louis, the Atlantic seaboard and eastern points, but it will probably mean the location of shops. The Choctaw has shops at Oklahoma City and Albuquerque would be the next logical point. The coming of the Choctaw to New Mexico means more actual benefit to the territory than will be derived from the Rock Island or any other road, as it opens up an entirely new territory and will be the only east and west line for New Mexico. The granting of authority to build to this city means an Albuquerque of 25,000 people at once, and is the best of the many good things which have come to Albuquerque lately.

No one has been more active in efforts to get the Choctaw here than H. B. Ferguson, and he is delighted over the success of his efforts. "When this road gets in here, nothing can stop us and Albuquerque will be a city of 100,000 people in two years. It will be a second Denver. An east and west through trunk line is just what we want. President Gowen has never concealed from me the fact that they are going on to the coast. I don't know what the western terminus will be, but I imagine it will be San Diego."

President Estes Here.

A large number of railroad men gathered in the K. of P. hall last night to hear an address by George Estes, president of the United Brotherhood of Railway Employees, on the objects of his organization. Mr. Estes has been to New Orleans in the interest of the order and is on his way back to San Francisco, the headquarters of the order.

The order is a little over a year old but it has a membership of over 60,000 and is so well distributed over the

country that a more central headquarters is now necessary and general offices will be moved to Chicago.

Mr. Estes is personally opposed to strikes. He was accompanied as far as Needles by S. P. Coffey, vice president, who has charge of Arizona and New Mexico.

DELIGHTFUL RECEPTION.

The Rev. H. J. and Mrs. Powell Warmly Welcomed to Albuquerque.

The reception tendered the Rev. H. J. Powell and Mrs. Powell last evening by the members of the Baptist church was largely attended. The Rev. George H. Brower presided during the short program which included a recitation by Miss Morehead, a vocal solo by Mr. Napier and two bass solos by A. L. Newton. Mr. Brower extended the welcome for the church and congregation while brief addresses were made on behalf of other churches by the Rev. T. C. Beattie, Robert Renison, A. C. Bunker and W. J. Marsh. Mr. Powell responded most gracefully. Light refreshments were served.

P. J. Murphy, city marshal of Las Vegas, passed through the city this morning enroute home from Los Lunas. He had with him Ernest Fleck and Isaac Norman, the runaway boys who left Las Vegas about a week ago and were captured by the officers at Los Lunas. From the way they hung on to Mr. Murphy's coat tail, they were glad that they were going home. Neither looked to be more than 14 years old. Mr. Murphy reports that quite a little excitement was created in the quiet little town of Los Lunas this morning by fire in a vacant house owned by Hon. Solomon Luna. The house which is just east of the depot is supposed to have been set on fire by tramps, who are in the habit of making it their headquarters while in that city. The loss is considered to be about fifty dollars.

WILL SETTLE LAND.

Santa Fe Starts Big Movement to Bring Settlers West.

AN ORGANIZED BUREAU.

The Santa Fe railway has set on foot a big movement to populate the land lying along its route from Kansas City to Old Mexico.

For seven years was in charge of the Union Pacific land office in Kansas City, has been appointed general immigration agent for the Santa Fe, and has already entered upon the work of his new office. He proposes to revive some of the methods which were so successfully employed twenty years ago in getting settlers into western Kansas and Nebraska, and he confidently believes that thousands of people will be induced to move to the land he has charge of within the next few years.

The Santa Fe, like most other railways of the country, received large grants of land from the government when it was being constructed. It owned all the soil for twenty miles on both sides of its tracks. When it got into financial difficulties a few years ago, it sold all this land to seven large syndicates which are now controlled by European capital. The passage of the land into other hands did not make the officials of the Santa Fe any less alive to the desirability of populating it than they were before. Every family located upon it will increase the road's earnings. The syndicates that own the land have now pooled their interests, and have made an arrangement with the Santa Fe whereby the railway company is to perform the principal part in promoting immigration to it, and Mr. Andrus will have charge of this part of its business.

"There are 4,500,000 acres of vacant land lying along its route which the Santa Fe formerly owned and 1,500,000 acres almost contiguous to it which is still government property," said Mr. Andrus yesterday. "Of the land belonging to the syndicates about 500,000 acres is in central Kansas, 1,000,000 acres in western Kansas, of which 500,000 acres is being made good corn land; 1,000,000 acres in the irrigated district of Colorado and New Mexico, and about 2,000,000 acres of grazing land, a large part of which is in the Pecos valley, New Mexico. Most of this land is as good as that of Oklahoma, to which so many thousands of people have been rushing during the last few years. The fact that it lies close to one of the greatest railway lines in the world increases its value, and it will be sold very cheaply.

"Our purpose is to begin at once attracting the attention of the people of the country to these immense tracts of lands. We intend to advertise their advantages in every way we can. Beginning in a short time low rate excursions will be run to them every week. On the first and third Tuesdays of each month excursions will be run from the states east of the Missouri river, and on the second and fourth Tuesdays from those west of the Missouri.

"We intend to do most of our missionary work in the east. I shall start in a few days for a trip to Chicago, Pittsburg, Philadelphia, New York, Boston and other eastern cities where permanent agents will be appointed to begin work at once."

Mr. Andrus has opened an office in room 6 of the Union depot building at Kansas City. Miss Clara F. Dill, who was in his office when he was with the Union Pacific Land company, will be his chief clerk and will have charge of the office when he is absent. Miss Dill has an extensive knowledge of western lands.

those of any other daily paper in the
territory.

The city election will occur April 1.

The people of Bland intend to erect
their own smelter.

Raton needs a commercial club to
push along local enterprises.

The Las Vegas Record has a new
reporter who gets all the local news.

Las Vegas is having a religious re-
vival. Is this because Rus. Kissler is
away?

This city has brighter future pros-
pects than any other city in the south-
west.

The Colorado legislature has been in
special session forty days and has
passed one bill.

Work on the big Territorial Fair to
be held in this city next fall, will begin
soon after the city election.

The pension office at Washington is
now using a machine that moistens
and seals 75,000 envelopes in a day.

Since the United States took charge
in Porto Rico 835 new school houses
have been opened, and the number is
rapidly increasing.

The movement in behalf of irrigation
can not be called a one-sided affair. It
affects sixteen states directly, and all
of the states indirectly.

The Choctaw railroad is coming to
Albuquerque. The officials of the com-
pany have so decided. This road is all
that is needed to make Albuquerque a city.

A census bulletin shows that there
are in the country 25,000 four mills,
supporting 37,000 wage earners, and
the total products of which in 1900
were valued at \$560,000,000.

In a recent speech Governor Adams,
of Colorado, said: "A government can
never be better than the people whose
representatives compose it. A people
can never be better than the newspa-
pers they read."

Commercial insolvencies in Febru-
ary, according to reports to R. G. Dun
& Co., were 1,104 in number, with an
aggregate indebtedness of \$11,302,029.
In the same month last year there
were 1,024 defaults, amounting to \$11,
287,211.

If any one had told England at the
outset of the Boer war that the cost
would reach \$1,000,000,000 and con-
tinue to pile up at the maximum rate,
the answer would have been "Impossible!"
But such is the situation, with
no immediate relief in sight.

DUTIES OF PROSECUTORS.
District Attorney Jerome, of New
York, makes the following startling
statement in connection with a certain
murder case in which he is to appear
as public prosecutor:

"As the district attorney, I have
power which the defendant's counsel
has not. He is in honor bound to pre-
serve every confidence of the defend-
ant, and if he can prove her innocence
of the crime charged against her it is
my duty to help him in proving her in-
nocence. I will place all my power at
his disposal, and will investigate the
case on such lines as he may wish. I
will seek for an establishment of the
innocence of this girl as earnestly as
I will seek to prove her guilty."

This is such an unusual position for
a public prosecutor to take that it is
worthy of note. The attorney for the
state in most cases considers it his
sole duty to convict the defendant, and
he uses all his powers and ingenuity

to that end. In cross examination, by
objections, by entangling witnesses, by
circumstantial evidence, by all the
means known to lawyers whereby they
may embarrass the opposition, he tries
to throw discredit on the prisoner at
the bar and to trick the jury into a ver-
dict for conviction. He presents one
side only without any reference to
what the defense may be able to es-
tablish. His reputation as an attorney
is based on his ability to prove the
original charges. A public attorney is
a success or a failure, according to the
number of convictions he has secured.
As though the ends of justice were not
served as well by the acquittal of an
innocent person as by the conviction of
a guilty one.

The visit east of H. B. Fergusson
helped to secure the proposed exten-
sion of the Choctaw & Gulf railroad to
this city. That was the sole object of
his recent trip to New York. He did
good work and deserves the best
wishes of the people of this city.
Everything is coming our way and let's
all pull together for Albuquerque and
the building up of New Mexico.

BENEFICIAL TRUST.
The profits of the match trust last
year were \$2,000,000. No one begrudges
this, as the Diamond Match company
has given perfect products and at a
ridiculously small cost, especially
when we consider that it has not been
very long since it was necessary to
borrow fire in the households of Amer-
ica. The match trust keeps its hold
on the market and must do so, by giv-
ing the best it can make and at the
lowest possible price. This is neces-
sary because the patents on which the
match-making industry is based are
about to expire in all countries where
the company has its factories.

BIG DIVIDENDS.
The disbursements of interest and
dividends during this month from New
York will reach \$57,000,000, a very
much larger sum than was paid out a
year ago. Of this vast aggregate the
railroads pay about \$12,000,000 in stock
dividends, but industrial corporations
will distribute profits to the extent of
nearly \$30,000,000. Such facts as these,
taken in connection with the state-
ment that the twelve principal nation-
al banks of Chicago show the largest
deposits in their history by their state-
ment of February 25, an increase of
\$28,000,000 since December 10, are con-
clusive evidence of the continued great
prosperity and financial strength of the
United States.

NEW CENSUS BUREAU.
President Roosevelt has approved
the act of congress creating a perma-
nent census bureau. The act goes into
effect on the 1st of July. Until then
the organization engaged in the work
pertaining to the twelfth census will
continue in force. The permanent
census bureau will be organized by the
present director of the census. The
act provides that the president has di-
rected the secretary of the interior to
instruct the director to appoint his
permanent force from the present em-
ployees of the census office and to make
all appointments to the permanent

More Harmful Than Alcohol

Overeating Worst Form
of Intemperance.

If your food is undigested, you are un-
derfed, no matter how much you eat.
And the underfed man is, to the extent
of the underfeeding, crippled for the
battle of life. On the other hand,
there is such a thing as overeating.
The harm done by indigestion caused
by overloaded stomachs exceeds that
from the increased heart beats caused
by the use of alcohol or whiskey.

Eat as much good food as you need
but don't overload the stomach. If
your stomach is weak it may refuse to
digest what you eat. Then you ought
to use a good digestant like Kodol Dys-
pepsia Cure, which digests what you
eat without the stomach's aid. This
rest and the wholesome tonics con-
tained in Kodol Dyspepsia Cure soon
restore health. You don't have to diet.
Don't eat too much. That's harmful.
But eat enough and of sufficient vari-
ety. It quickly relieves the sensation
of fullness and bloating from which
some people suffer after meals. It
prevents belching and absolutely cures
indigestion and other stomach trou-
bles. Equally good for children.

Lemuel James, Marysville, O., says: "I
suffered from dyspepsia for thirty years, but
a few bottles of Kodol Dyspepsia Cure com-
pletely cured me and I heartily recommend it to
all sufferers from this disease."

Kodol Dyspepsia Cure
Cures all Stomach Troubles.
Prepared only by E. C. DeWitt & Co., Chicago.
The \$1. bottle contains 2 1/2 times the 50c. size.

DeWitt's Little EARLY RISERS
The famous little pills for constipation.
J. H. O'Reilly & Co. and B. H. Briggs
& Co.

HOSTETTER'S STOMACH BITTERS

Is a specific remedy for all ailments
of the stomach, liver and bowels, and
one that is backed by hundreds of tes-
timonials received during the past
fifty years. We would therefore urge
every sufferer from indigestion, dys-
pepsia, flatulency, constipation, sick
headache or liver and kidney troubles
to give it a trial. It will surely cure
you. The genuine must have our pri-
vate stamp over the neck of the bottle.

force after July 1 subject to the regu-
lations of the civil service act. This
course will provide an experienced
working force at the start.

One of the largest advertising con-
tracts ever entered upon in this coun-
try was that of a Chicago department
store, which a short time ago engaged
to run a page "ad" every day for a
year at the price of \$120,000. Abu-
querque merchants are hardly yet edu-
cated up to that point, but their ideas
of the value of advertising are im-
mensely broader than they were a few
years ago.

TIERRA AMARILLA.

From the Republican.
The school board should not lose
sight of the fact that a good school
house is badly needed in Tierra Am-
rilla.

The residents of Tierra Amarilla
will probably hear the whistle of the
Santa Fe locomotive before next
Christmas.

Senator T. D. Burns, Mrs. Burns and
maid, returned from Trimble Springs,
near Durango, Tuesday. Senator Burns
says the reported discovery of gold at
Trimble Springs is no false rumor.

Several inches more snow fell in this
locality at intervals the past week,
but the bright sunshine is carrying it
off rapidly. The earth is now well
soaked with moisture. The snow is
said to be lying deep on the summit of
the range.

BUSINESS LOCALS.

Economize by trading at The Econo-
mist.

Deming has increased 50 per cent. in
population in four years.

Copper, tin and galvanized iron
work.—Whitney company.

Deming water and pure ozone make
strong and healthy people.

It will pay you to see Hall & Learn-
ard before purchasing a piano.

Lap robes from 35c up at Albert
Faber's, 305 Railroad avenue.

No tuberculosis preserveline or color-
ing in Matthews' Jersey milk.

Kleinwort's is the place to get your
nice fresh steak. All kinds of nice
meat.

Deming has an abundance of water
for irrigating vineyards, orchards, or
gardens.

Misses' and children's dresses just
received. Price, 75c to \$5.—Leon B.
Stern.

Buy lots and build in Deming. Your
rental returns will be 20 per cent. on
the investment.

Simon Stern, the Railroad avenue
clothing, for Knox hats. New spring
styles on sale now.

Orders taken for every known make
of stoves and ranges. Albuquerque
Hardware company.

Deming is a great health resort—
has no superior in climate for the cure
of pulmonary troubles.

Look into Kleinwort's market on
North Third street. He has the nicest
fresh meats in the city.

Notes from Correspondents

SILVER CITY.

Special Correspondence.

Silver City, N. M., March 11.—In the murder case of John Childers, which was to be tried before Judge Parker at the present term of the district court, a change of venue was granted to Dona Ana county. Childers is charged with having shot and killed Thomas S. Hefflin in a saloon in this city last December. The attorneys for the defense stated that owing to the prominence of the case it would be impossible to get a fair trial in Silver City, and prayed for a change of venue to some other county. Judge Parker designated Dona Ana county, where the trial will come up at the next term of court.

A committee of the Silver City council is looking into the proposition of C. F. Grayson in regard to erecting a city hall.

The Normal school scholars had a picnic out at Rodger's ranch at Lone Mountain last Sunday.

It is gained upon good authority that the telephone line from this to the Burro mountain mining district will soon be started. The line is being constructed by outside capitalists, who are largely interested in mining property in the Burros.

Silver City is well filled up with court visitors this week from different parts of the county. The grand jury have nearly completed its labors and will in a few days make its final report to the court.

Mrs. O. S. Warren is erecting a four-room cottage on the vacant lots just north of the public school building. William Laizure has the contract.

It is reported that the condition of J. M. Fritter, who was injured in a runaway coming in from his mines at Santa Rita, a few weeks ago, is in a very serious condition. He is being taken care of at the Ladies' hospital.

John A. Moses, Jr., has been spending the past few days in the booming new town of Douglass, Ariz., on business.

A. B. Laird has accepted a position as local agent of the Washington Life Insurance company.

Mr. and Mrs. George Turner left on Sunday evening's train for California, where they will make their future home. Mr. Turner has for some time past managed the big Pinos Altos store for the Hearst people.

Lawyer Percy Wilson had a runaway while on his way to Fierro last Sunday by his team becoming frightened at some lumber and was thrown out of his buggy, but no serious injury was done except a rather deep cut over his eye.

Some of the cattlemen in this county have, during the past few weeks, signed contracts for the delivery of some good big bunches of cattle in the spring. The stock brought excellent prices, and it would not be surprising that later in the spring that prices would jump considerably higher.

The graduating class of the Territorial Normal school consists of considerable number this year. The names are as follows: Misses Mary Eckles, Kate Crawford, Pearl Parks, Edna Page, Carrie Whitehill, Etta Schutz, Clara Upchurch, Mary Gill, Elsie McGregor, Marie Tustin, and Messrs. Eugene Cosgrove and Dean Alexander. This is the largest graduating class in the history of the school.

A Printer Greatly Surprised.
"I never was so surprised in my life, as I was with the results of using Chamberlain's Pain Balm," says Henry T. Cook, pressman of the Asheville, N. C., Gazette. "I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit. One day while looking over the Gazette, I noticed that Pain Balm was positively guaranteed to cure rheumatism, so I bought a bottle of it and before using two-thirds of it my rheumatism had taken its flight and I have not had a rheumatic pain since." Sold by all druggists.

The Vice of Nagging.
Clouds of the happiness of the home, but a nagging woman often needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters, the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used it, and become healthy and happy. Try it. Only 50c. All druggists guarantee satisfaction.

WINSLOW.
Special Correspondence.

Winslow, March 10.—Snow covered the ground this morning and was dark and cloudy in the west. This is just what the stockmen have been looking for—everything has been too dry.

Miss Essie Z. Parr, who came in on No. 7 Saturday morning from Albuquerque, to visit her sick sister and parents, returned on No. 2 Sunday evening.

Mrs. Walters, who has been sick with pneumonia and been reported last week without hope of recovery, is now getting better—so Dr. Sampson reports to your correspondent.

Mr. Warren Britton announces himself a candidate for town clerk and treasurer. Mr. Britton is well known and is an up-to-date young man and would make the town a good official.

Mr. Pope, the big stockman is in town loading up provisions for his sheep camp south of town.

J. X. Woods just came in from a trip to the mountains and says rain or snow is what we need and we got some last night, and hope to get more.

Mrs. H. H. Herr is fast recovering from her long spell of sickness, also Mr. Collins who has had pneumonia, we are glad to report thus.

There are some calls for houses to rent, notwithstanding the company has been laying off a good many men at this point.

Here is another candidate for town clerk and treasurer, Mr. Edward Wolf, a young gentleman who clerks in Lesser & Sawyer's store, a man thoroughly capable of filling the place.

D. E. Hanks has announced himself for city marshal, and the following gentlemen for the council: Hon. G. A. Wolf, F. T. LaPrade, A. C. Cressell,

G. R. Buerback. It takes seven to make a council for a city like Winslow. Come up gentlemen, don't be afraid of the honor.

The opening at Mrs. H. A. Simms' millinery parlors was a success. The ladies of Winslow appreciate a fashionable place where they can dress their heads and be up-to-date, and they surely can do this at the new parlors of Mrs. Simms.

The arrivals at the hotel Navajo the last three days are August C. Minobler of Flagstaff, Ariz.; G. A. Welch, Great Falls, Mont.; J. J. Dunn, New York; Frank Thomas, San Francisco; E. E. Greenleaf, Albuquerque, N. M.; F. P. Secrist, sheriff Holbrook.

Mrs. F. P. Secrist, wife of the Navajo county sheriff, is at present visiting friends in Winslow. She is the guest of Mrs. J. X. Woods on Kinsley avenue. Mr. Secrist is doing the assessing of this town.

You will never wish to take another dose of pills if you once take Chamberlain's Stomach and Liver Tablets. They are easier to take and more pleasant in effect. They cleanse the stomach and regulate the liver and bowels. For sale by all druggists.

Words of Appreciation.
At a meeting of the board of trustees of the Presbyterian church held Tuesday afternoon at three o'clock at Dr. Hope's office, the following words of appreciation were entered upon the minutes: "We the trustees of the Presbyterian church would record our exceeding sorrow at the death of our friend Mr. Walter N. Parkhurst, and would bear testimony to his great faithfulness in the discharge of all the duties devolving upon him as a member of our board, and the president thereof."

His sagacity was of the greatest benefit to us in the deliberation of the board where his business training was of the very greatest value. He gave his time and strength to our meetings even when his strength was small.

We appreciate his self-sacrifice, and his own personal generosity, which was second to none in our church. We shall miss beyond all expression his counsel and help always given most readily and heartily.

His noble self sacrifice and great generosity will be an inspiration compelling us to go on with the work that he was compelled to lay down so suddenly to our just Savior and loss.

To his widow we would extend our greatest sympathy in the hour of her deepest sorrow.

W. G. HOPE,
A. B. McMillan,
J. C. ROSS,
E. B. CRISTY,
Trustees.

Could Not Breathe.
Coughs, colds, croup, grip, bronchitis, other throat and lung troubles are quickly cured by One Minute Cough Cure. One Minute Cough Cure is not a mere expectorant, which gives only temporary relief. It softens and liquefies the mucus, draws out the inflammation and removes the cause of the disease. Absolutely safe. Acts at once. "One Minute Cough Cure will do all that is claimed for it," says Justice of the Peace J. Q. Hood, Crosby, Miss. "My wife could not get her breath and was relieved by the first dose. It has been a benefit to all my family." J. H. O'Reilly & Co.; B. H. Briggs & Co.

Plumbing.
We have added a plumbing department and tin shop to our business. When you have anything in this line to be done see us about it before placing your order. Albuquerque Hardware company.

In Deming the demand for rental houses is five times in excess of the supply.

Appreciate Judge Mills.
The Clayton Enterprise of last Friday contained the following well-merited notice of Chief Justice Mills, of this city:

"It is pleasing to note the healthy financial condition of this the fourth judicial district of the territory during the administration of our esteemed and able jurist, the Hon. William J. Mills."

BAD BLOOD, BAD COMPLEXION.
The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 224 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which would not clear up. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the disfiguring disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions. It purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Mills. It is fortunate for our district that the honorable chief justice of the supreme court presides also as our district judge. Aside from his fitness as a jurist, his kind, courteous treatment as a high officer and a private citizen has endeared him to the people of the district, and especially around Clayton Judge Mills has hosts of friends. His charge to the grand jury last Tuesday was very effective, and was delivered in an able and fearless manner, looking only to the suppression of crime and for the betterment of the moral and financial interest of our county and the territory. Good laws and good judges have much to do with making of a good people."

Having a Run on Chamberlain's Cough Remedy.
Between the hours of eleven o'clock a. m. and closing time at night on January 25, 1901, A. F. Clark, druggist, Glade Springs, Va., sold twelve bottles of Chamberlain's Cough Remedy. He says, "I never handled a medicine that sold better or gave better satisfaction to my customers." This remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a good, reliable medicine for a cough or cold, or attack of the grip, use Chamberlain's Cough Remedy and you are certain to be more than pleased with the quick cure which it affords. For sale by all druggists.

Sent to Penitentiary.
E. W. Pierce, who will be remembered here as being implicated in a murder case in Mora county, and who had a pretty wife, has been sentenced to a term of seven years in the penitentiary of Montana, for defrauding an old woman out of considerable property.—Las Vegas Optic.

How to Prevent Pneumonia.
You have good reason to fear an attack of pneumonia, when you have a severe cold, accompanied by pains in the chest or in the back between the shoulders. Get a bottle of Chamberlain's Cough Remedy and use it as directed and it will prevent the threatened attack. Among the tens of thousands who have used this remedy for colds and la grippe, we have yet to learn of a single case that has resulted in pneumonia, which shows that this remedy is a certain preventative of that dangerous disease. For sale by all druggists.

NORMAL NOTES.
From Silver City Quarterly.
The McKinley memorial fund contributed by the Normal students amounted to \$4.45.

The various classes are preparing to have a formal reception for the patrons of the Normal April 12. It is to be made a very unique affair.

The class picture for 1901 has arrived from Paris and has been hung on the south side of the assembly hall. It is a carbon print of Rembrandt's aurora. Price, including frame, \$87.

The president of the Normal acknowledges the receipt of four first class premiums from the Territorial Fair association. The first prize for the best general educational exhibit, first prize for the best chalk modeling, first prize for the best manual training exhibit, and first prize for the best kindergarten work. These diplomas will be framed.

The senior class for 1902 has been organized. It consists of the following persons: Mary Eckles, Kate Crawford, Pearl Parks, Edna Page, Carrie Whitehill, Etta Schutz, Clara Upchurch, Mary Gill, Elsie McGregor, Marie Tustin, Eugene Cosgrove and Dean Alexander. The last two complete the academic course; the others the Normal course. This is the largest graduating class in the history of the school.

Lockjaw From Cobwebs.
Cobwebs put on a cut lately gave a woman lockjaw. Millions know that the best thing to put on a cut is Bucklen's Arnica Salve, the infallible healer of wounds, ulcers, sores, skin eruptions, burns, scalds and piles. It cures or no pay. Only 25c at all druggists.

El Paso Gives Up.
El Paso has lost all chance of getting one of the military camps of instruction. Secretary Root has finally chosen Fort Sam Houston, near San Antonio, and Sacramento, Cal., as the remaining two sites for camps, and there is no further recourse.

First, four sites for camps were chosen by the board of generals, appointed at the suggestion of General Miles. Then, Secretary Root decided that two more also should be selected, and these he has selected himself. A lieutenant colonel of engineers has been appointed to report on the various sites, and inspect them.—Herald.

For the Complexion.
The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruptions. DeWitt's Little Early Risers keep the liver and bowels in healthy condition and remove the cause of such troubles. C. E. Hooper, Albany, Ga., says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years." Never gripe or distress. Safe thorough and gentle. The very best pills. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Growing Town.
The people of Tres Piedras, Rio Arriba county, have decided upon extensive improvements. With this view the town site is to be surveyed and platted at once, and then street grading will be pushed along rapidly.

Can't Keep It Secret.
The splendid work of Dr. King's New Life Pills is daily coming to light. No such grand remedy for liver and bowel troubles was ever known before. Thousands bless them for curing constipation, sick headache, biliousness, jaundice and indigestion. Try them. 25c at all druggists.

Chronic Diarrhoea.
Mr. C. B. Wingfield, of Fair Play, Mo., who suffered from chronic dysentery for thirty-five years, says Chamberlain's Colic, Cholera and Diarrhoea Remedy did him more good than any other medicine he had ever used. For sale by all druggists.

PRINCESS VIROQUA, M. D.

Endorses Lydia E. Pinkham's Vegetable Compound After Following Its Record For Years.

"DEAR MRS. PINKHAM:—Health is the greatest boon bestowed on humanity and therefore anything that can restore lost health is a blessing. I consider Lydia E. Pinkham's Vegetable Compound as a blessing to State and Nation. It cures her mother and daughters and makes them well and strong."

PRINCESS VIROQUA, Practicing Physician and Lecturer.

"For fifteen years I have noted the effect of your Vegetable Compound in curing special diseases of women."

"I know of nothing superior for ovarian trouble, barrenness, and it has prevented hundreds of dangerous operations where physicians claimed it was the only chance to get well. Ulceration and inflammation of the womb has been cured in two or three weeks through its use, and as I find it purely an herbal remedy, I unhesitatingly give it my highest endorsement."

—Fraternally yours, DR. P. VIROQUA, Lansing, Mich.—"50000 forfeit if above testimonial is not genuine."

If you are ill do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham at Lynn, Mass. for special advice; it is entirely free.

In Bankruptcy.
Bankrupt's petition for discharge, in bankruptcy.

In the matter of Edwin D. Sower, Bankrupt.

To the Honorable Benjamin S. Baker, Judge of the district court of the United States for the Second Judicial District of the Territory of New Mexico.

Edwin D. Sower, of the City of Albuquerque, in the county of Bernalillo and Territory of New Mexico, in said district, respectfully represents that on the third day of February, A. D. 1902, last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the court touching his bankruptcy.

Wherefore, he prays that he may be decreed by the Court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 8th day of March, A. D., 1902.

(Signed) EDWIN D. SOWER, Bankrupt.

ORDER OF NOTICE THEREON.
Territory of New Mexico, Second Judicial District, ss.

On this 8th day of March, A. D. 1902, on reading the foregoing petition, it is Ordered by the Court, that a hearing be had upon the same on the 22nd day of March, A. D. 1902, before said court at Albuquerque, New Mexico, in said district, at ten o'clock in the forenoon, and that notice thereof be published three times in the Albuquerque Daily Citizen, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

And, it is further ordered by the Court, that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness the Honorable Benjamin S. Baker, Judge of the said court and the seal thereof, at the City of Albuquerque, in said district on the 8th day of March, A. D. 1902.

W. E. DAME, Clerk.

Notice of Removal.
C. A. Lampman has moved from No. 315 South Second street to No. 307 South First street, where he will be found by all wishing WALL PAPER, paints, oils, estimates on work, etc.

BASE BALL.

Warring Nations in National League Prepare to Open Season.

With the opening of the National league base ball season only a little more than a month away there are on the surface no indications that the rival factions are making any effort toward getting together. Tomorrow, unless there is another postponement, the question of jurisdiction will be argued in the supreme court, and the base ball world may then learn something more definite of the situation. Just when the court will render a decision in the case it is impossible to

It's Just a Cough

that gets your lungs sore and weak and paves the way for pneumonia or consumption, or both. Acker's English Remedy will stop the cough in a day and heal your lungs. It will cure consumption, asthma, bronchitis and all throat and lung troubles. Positively guaranteed, and money refunded if not satisfied. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y.

It may be delayed for weeks, although that is hardly probable. That the club owners contemplate action of some nature is shown by the fact that they are all making preparations to begin the season, but not one move has been made to bridge over the chasm between the "four."

MEATS

Prime Kansas City steaks and roasts, fat young mutton, spring lamb, tender veal, Kansas City pork, fresh sausage, prime native beef, fresh tongue, pickled tongue, chipped dried beef, boiled ham, sweet pickled corned beef, spare ribs, dressed broiling chickens, dressed hens; a choice variety of fresh fish and sea foods; ten varieties fresh cheese at the San Jose Market tomorrow.

Two hours of refined amusement for 25 cents at Colombo hall tonight.

CLASSIFIED ADS.

Note—All classified advertisements or rather "liners," one cent a word for each insertion. Minimum charge for any classified advertisements, 15 cents. In order to insure proper classification all "liners" should be left at this office not later than 3 o'clock p. m.

BEALES GRANT.

Scheme to Steal Big Part of Chaves and Eddy Counties.

WASHINGTON MOVEMENTS.

The St. Louis Globe-Democrat publishes a full account of the movements at Washington in regard to the Beales grant, the bold scheme to steal a big part of Chaves and Eddy counties, and the article is interesting reading here where everybody knows the history of the attempted steal.

"The Interstate Land company, of Kansas City, an incorporation that includes in its membership a number of well known Kansas and Missouri politicians, is pushing for consideration before the house committee on private land claims a bill that involves the title to over 20,000,000 acres of land in New Mexico. The case has been before the United States supreme court, where the claimants were unceremoniously turned out of court and their claims declared without a shadow of foundation. The Interstate company, however, is bringing all kinds of pressure to bear to secure a favorable consideration of its measure. It is charged that the promoters are even threatening to oppose, through their friends in congress, the admission of New Mexico to statehood, unless the friends of statehood, who have been in Washington pressing their bill, withdraw opposition to the land grant measure.

"The bill in the Interstate company's interest was introduced in the house some days ago. It provides that the claimants of the Beales-Royuela grant, lying within the territory of New Mexico, may institute proceedings in the court of private land claims to establish their title to the lands. It provides that, in case the title is decided in favor of the company, it shall not affect the sales of lands that may have been made in the grant.

"When the New Mexico delegation that was in Washington in the interests of their statehood bill learned of the introduction of the Interstate measure, they promptly started a movement in opposition to its consideration. They were met with the threat of the men here who are working in the interest of the Interstate company that the New Mexico statehood bill would be opposed if obstacles were placed in the way of the Interstate bill. The matter was dropped temporarily, but interest has been revived by the announcement that the Interstate bill will be called up soon by the house committee on private land claims for consideration. Opponents of the bill have requested that they be given an opportunity to oppose it before the committee and an interesting controversy is expected over the measure.

"Jose Manuel Royuela and John C. Beales claim to have a title to a grant of 20,000,000 acres of land in New Mexico that was made by the Mexican government in 1832. Their claim is based on one of the colonization schemes of the government at that time. Opponents of the grant assert that the area, which is now claimed by the Interstate Land company, was simply designated as the limits of a tract in which the grantees might establish a colony, but that it was never intended that the entire tract should constitute the grant.

"The case was decided, however, in the supreme court of the United States in 1891. The Interstate Land company at that time sought to prevent the Maxwell Land Grant company from taking possession of the Maxwell land grant in New Mexico and Colorado. The case was argued and submitted to the supreme court. The decision was that the Beales-Royuela grant was utterly worthless. The court declared that the grant was a conditional one in the first place, and that none of the conditions had been complied with; that the grantees had not established the colonies provided for in the original contract, and that the original grant had simply been what was then known as an impresario promise, and had never had the sanction of the Mexican government. It was further held that the treaty of Guadalupe Hidalgo between the United States and Mexico specifically provided that these conditional grants should have no standing and were worthless.

"The Interstate company, it is charged, have nominal possession of a

What Is the Use

of suffering from indigestion if you eat what you want, or of starving yourself to avoid such distress? Acker's Dyspepsia Tablets taken after eating will digest your food perfectly and free you from all the disagreeable symptoms of indigestion and dyspepsia. Eat what you want at any time and take an Acker tablet afterward. Positively guaranteed. Your money will always be refunded if you are not satisfied. Write to us for a free sample. W. H. Hooker & Co., Buffalo, N. Y.

large portion of the lands in question, and are leasing it to cattlemen. Opponents of the bill assert that the only purpose of the measure is to give the Interstate company a shadow of title, or at least an excuse to have the case tied up in the federal courts for a term of years, so that they may in the meantime continue to profit from the leases which they have made."

A Tale of Two Cities

OR THE BLACK AND THE WHITE.

This is the fad in the east. To be in it you must have at least one costume in black and white and we have the goods in all grades, styles and makes.

Black and white wool dress goods, 38 inches wide, 50 cents, 60 cents, 75 cents yard.

Black and white silks, eighteen, twenty and twenty-four inches wide, at 50 cents, 75 cents and \$1 a yard.

Black and white yokings, in black on white and white on black, at \$2, \$2.50, \$3 and \$5 yard.

Black and white Applique in all widths from one-half inch width at 25 cents a yard, to two inch width, at \$1 per yard.

Black Nets, Flouncings Laces to be used over a white foundation in endless variety.

Black net robes with Taffeta Appliques at \$25, \$35 and \$50.

Black on white wash goods.

Percalates at 10 and 12 1/2 cents.

Dimities at 10 and 15 cents.

Lawns and Batistes 8c, 10c and 15c.

Honiton Lace effects at 25c and 35c.

Mercerized Foulards, special at 19c yard.

Mines and Minerals

A force of men is still at work on the American Flag mine, getting it in shape for examination.

The Independence and Bromide mines in the Headstone district, Rio Arriba county, are working two shifts.

The Yellow Jacket mine, in the Gold Road district, owned by John Withers, Ira George and Frank Irvin, is showing good gold.

The owners of the Goldpan at Bromide, are putting up cabins for workmen and will immediately begin work on a 100-foot shaft.

The Mexican King Gold and Copper company and the Admiral company are preparing to resume operations for the summer at Bromide.

G. Charles Davis and Ira Hawkins have located a mine near the Sandy, that assays as high as \$2,260 per ton. Davis says it looks to him like a world beater.

There has been more actual development of mining property in Yavapai county, Ariz., during the year 1901 than has heretofore been accomplished in any year since its inception.

The Westfall brothers have made a deal on their copper properties, situated east of Florence, and development work under their management will commence there inside of a few weeks.

An important strike of gold has been made on the San Francisco mine at Cedar, Ariz. The company found they had not power enough to hoist and operate their plant so they are putting in a new hoist.

A mill for the Gold Road mine in Arizona is the next good news that will be heard. The mine shaft is being sunk and the ore is said to be high grade milling. New boarding and bunk houses have just been completed and other buildings.

The conviction that the Bonito district in Lincoln county, is destined to become one of the greatest gold producing camps in the southwest, is gradually forcing itself upon mining men and, as a result, capital is pouring into that part of the country.

Ben O. Hatfield has sold his interest in the Ore Grande mine near Wickenburg to his partners, George E. Lamb and Frank W. Ellis, for \$100,000. Mr. Hatfield had a sixth interest in the property which places a cash market value on the mine of \$600,000.

F. W. Fuller of Colorado has negotiated for the purchase of a group of gold claims in San Francisco district from Carl Tanner, Charles J. George, John Binschneider and Sam Klipper. The price is \$50,000, \$500 down, \$20,000 in May and the balance later. These deals with cash down are the highest recommendation for the district.

James Penberthy, an old miner of the country, died at his brother's house in Kingman, Ariz., Tuesday, of pneumonia. He was born in Cornwall, England, in 1850. He was one of the lucky owners of the American Flag mine in its early days and had but recently made another rich discovery on Burro Creek. He was buried from the church, a large number of friends following him to the grave.

The Denver mine at Elizabethtown, Colfax county, presents a lively scene these days. The pumps are in operation, taking water out of the shaft preparatory to beginning active mining this week. It is the intention of the company to put a large force of men at work in the old shaft or tunnel (incline) and also to drive a new tunnel 700 feet lower down the hill, to intersect with present workings, thus providing a way to handle the ore without having to hoist it out of the shaft.

We sell the greatest of blood purifiers, Acker's Blood Elixer, under a positive guarantee. It will cure chronic and other blood poisons. If you have eruptions or sores on your body, or are pale, weak or run down, it is just what you need. We refund money if you are not satisfied. 50 cents and \$1.

MOHAVE COUNTY MINES.

From Kingman Miner.

John Barry is arranging for active prosecution of work on his Sunlight mine.

We understand that on the three hundred level in the Schuykill mine, at Chloride, a big ore body has been cut in a crosscut.

T. C. Loughrey was in from the Gold Road country several days this week. He says all the mines of that country are showing up well and much ore is being hoisted to the surface.

Clack brothers have nearly a carload shipment of ore on the dump of the Rico mine, in the C. O. D. canyon. The shaft is now down seventy feet and the vein in the bottom is looking well.

G. A. Wagner, who has been operating the Alexander mine in Union Basin, departed Sunday last for Oregon, where he has mining interests. Before he left here he closed the mine down temporarily.

The Lovin and Gross mines, near the old Moss, upon which T. B. Scott has a bond, are showing up well. One of the claims has a shaft fifty feet deep and another has reached a depth of thirty feet, all in ore.

The Yellow Aster mine, near the Homestead property, is showing up well under development. An average sample taken from the bottom of the shaft gave a return of nearly fifteen ounces gold and eight ounces silver to the ton.

Charles G. Davis and I. W. Hawkins have located the big copper vein in the Aquarius mountains, east of the Windmill, and brought to Kingman, samples of ore that were phenomenally rich. One of the samples gave a result of over 71 ounces gold to the ton.

M. Armstrong, representing the Vulcan smelter people, has been in Kingman the past two weeks examining the different mines and mining camps with a view to putting in a series of smelters of small capacity. The Vulcan smelters are to handle copper and iron sulphide ores.

S. C. Bagg, manager of the New Comstock mining company, came in from Los Angeles this morning. While in the city he secured a long term lease of the Sheepfall mill and intends at

once to put it in shape to operate on Catherine ore.

Luchard brothers, O. D. M. Gaddis and Harry Knight have opened up a three foot vein of ore in a claim located between Secret Pass and Union Pass, on the west side of the Blue Ridge range, that gives an average value of \$13.50 in gold. The ore is free milling and is accessible to the Colorado river.

It is reported in Kingman that the Philadelphia & Arizona people have leased the water of the Payroll mine and will at once set about conveying it to the mill at the Minnesota-Cannon mines. The work of sinking on the Minnesota is going steadily and the ore body in the bottom is looking exceedingly well.

In the Gold Basin country there are now about thirty miners employed in the mines. The new company having the Paterson group under bond is working the greater number of the men and is getting good results from the property. On the Eldorado mine the ore shows up well and gives good results by cyanic treatment.

Would Smash the Club.

If members of the "Hay Fever Association" would use Dr. King's New Discovery for consumption, the club would go to pieces, for it always cures this malady—and asthma, the kind that baffles the doctors—it wholly drives from the system. Thousands of once-hopeless sufferers from consumption, pneumonia, bronchitis owe their lives and health to it. It conquers grip, saves little ones from croup and whooping cough and is positively guaranteed for all throat and lung troubles. 50c, \$1.00. Trial bottles free at all druggists.

THE GOLDEN COCHITI.

A Comprehensive Review of Bland and Surrounding Country.

MINES AND MINING.

From Bland Herald.

The town of Bland, in the northeastern part of the country, about fifty miles by the road from Albuquerque, is a mining town, but the work at this point is confined to mining the precious metals. The town is the center of the famous Cochiti mining country, now well known as one of the most extensive and productive of New Mexico's many mining camps. It is situated in Pinar Canyon, about ten miles from the Rio Grande, and is surrounded on all sides by a rich mineral country. It was founded about seven years ago. The nearest railway point is at Thornton, on the main line of the Atchison, Topeka & Santa Fe, about twenty-three miles distant, but a stage line furnishes comfortable transportation for passengers and a daily mail. During the summer the same coaches continue up the canyon from Bland, and across the mountains to Sulphur Springs, a well known health resort, where the waters have been found to possess highly valuable medicinal qualities. The ores of the Cochiti camp are chiefly valuable for their gold. They are usually of low grade, but are of a character that can be worked in the camp. This, taken in connection with the fact that they are found in immense bodies, and are also very evenly mineralized, makes mining at Cochiti profitable and reliable.

Up to a few years ago comparatively little attention was given to the development of the mineral resources of this section, and prospectors as a rule passed by this section and gave their attention to what seemed to be more promising fields. This made it very difficult to secure capital for investment in any mining enterprise in the country, and since the leads are generally of a character requiring a liberal outlay of money in development work and machinery in order to make them profitable, the want of capital put the mining industry here at a great disadvantage. But a better knowledge of the real value of this section of the territory from a mining point of view has wrought a great change in the last few years and some of the most extensive mining enterprises of the territory will soon be in successful operation here.

Most prominent among the gold and silver districts of New Mexico is the Cochiti, "the Cripple Creek of New Mexico." It is in the northeastern part of Bernalillo county, twenty-three miles by daily stage from Thornton, on the Atchison, Topeka & Santa Fe. The stage route from Thornton to Bland is

WIFE'S INGENUITY

Saves Her Husband.

The author of the "Degeneration of Dorothy," Mr. Franklin Kinsella, 226 W. 25th street, New York City, was the victim of a little by-play—but he can best tell the story himself. "I must confess that I have been the victim of an innocent deception which turned out all for the best, however. I had been resting under the belief, for some years, that coffee served as a lubricant to my cerebral convolutions, in other words, 'made the wheels go round,' and I had an idea that I could not work without it as a stimulant. I soon paid the penalty in nervousness, loss of flesh, insomnia and restlessness, none of which troubles would yield to any or all medicines. I finally got in rather a bad way and my wife took a hand in the affair all unknown to me. She purchased a package of Postum Coffee and first gave me one-half Postum and one-half coffee. In a little time she had me down to clear Postum, and I was none the wiser. I noticed that I was getting better, my nerves were steadier, and I began to gain flesh and sleep nights. My work was performed far better than in my old condition.

Commenting upon my greatly improved health one morning I was told the truth. 'Tis to laugh,' so I submitted gracefully and joined the Postum ranks.

Experience teaches that boiling is one-half the game. When the directions are carried out the result will be as fine a cup of rich, fragrant coffee as ever delighted the senses without ruining the nerves."

the most scenic overland route in the territory. As to minerals—here the veins and deposits are marvelous for their continuity and width, ranging for miles from ten feet to 150 or more in width. They are remarkably even in values. While, as a whole, the Cochiti ores are of low grade, yet very rich sulphides and tellurides are found. Their character is such that even the poorer grades can be treated in the camp at a handsome profit.

The formation of the Cochiti gold mining district presents many of the typical characteristics of the Cripple Creek district. The entire district is distinctly volcanic, and the prevailing rock is porphyritic andesite. In few places it is undisturbed; generally it is brecciated or a conglomerate. Nowhere in the region are the underlying rocks visible, and authorities differ as to whether they belong to the Jurassic, Cretaceous, or Tertiary. There are evidences of at least two volcanic overflows. The older one is the andesite, and it is in this only that the gold bearing veins are found. The more recent one is in places covered by the andesite, is tuffa, and is very modern. Among the evidences of the late deposition of the tuffa is the fact that it is found covering old water channels, filled with water-worn boulders and ore float, clearly derived from the andesites and their accompanying rocks. In the upper part of the district nearest the range the tuffa has mostly been eroded, but in the lower parts it still caps some of the mountains, covering the veins which outcrop on the mountain sides below.

In the immediate vicinity of Bland are the Washington, Lone Star, Crown Point, Iron King, and many other properties with less development. The Washington has not produced for a number of years—cause, litigation—but that matter has been finally settled by the courts and it will soon resume operations. The ore in the Washington has been of a good grade, and its operation will mean much to the district.

The Lone Star, now belonging to the Navaho company, has received a large amount of development work during the year, tunnels and cross-cuts to the amount of 1,600 feet having been driven. On the third level below the tunnel a large flow of water was recently encountered, which will prove of great benefit to the company. Ore from the Lone Star has heretofore been treated in a small mill, but plans for large, improved reduction works are about completed. The amount of ore this mine is capable of furnishing at the present time would supply a large mill for years, as 250,000 tons is conservatively estimated to be now in sight.

The Iron King, which belongs to a Denver company, is to resume operations soon and the rich ore will be treated at their mill six miles below Bland. They now own the Good Hope, with a fine record and a good showing of high grade telluride ore.

At the head of Colla Canyon is the famous Albemarle, which has the greatest development of any mine in the district, but there is room and mineral with values sufficient for a large number of enterprises of the same magnitude.

About one mile below the Albemarle is the property of the Golden Cochiti Tunnel company. This company owns on the "mother vein" several of the best claims of the district, and its intention is to penetrate the true center of the mineral zone at a depth of about 1,500 feet. The company's tunnel has reached the 1,299-foot mark, and the work goes merrily on.

In Peralta Canyon are many promising prospects, a number of which have considerable development. The Peralta Gold Mining company have some properties that are up to the general standard of the district in values.

The Navaho company intends to put in an immense mill in Bland, which will make it the largest enterprise in the territory, but a good idea can be formed of the extent and richness of the Cochiti mineral field from the fact that there is room for at least a dozen more, of equal capacity, and ore enough to keep them running full handed for at least a quarter of a century, and probably much longer. A railroad from some point on the Atchison, Topeka & Santa Fe to Bland is much needed, and if such a line were built, so that ores could be shipped out at a moderate expense, reduction works sufficient to handle the output of the camp would probably be built along the Rio Grande, where the advantage of water power could be had. This would greatly facilitate the development of the camp, since the small operators, who are unable to put up mills of their own, would thus be given a market for their ores.

Parties seeking a place for investment should investigate our resources. Any one desiring further information regarding this district may address The Bland Herald, Bland, N. M.

A New Smelter.

R. F. Harris of Chloride, a miner of experience, seeing the great need of a smelter for Mohave county, has for some time been urging, through correspondence, the Vulcan Smelting and Refining company of San Francisco, to put in one of their furnaces either at Kingman, Chloride, or Mineral Station. The result of Mr. Harris' work has been the sending of Mr. Armstrong, an expert by the Vulcan company, to look over the field. After ten days of continuous investigation Mr. Armstrong pronounced the mineral outlook the best he has seen during many years of mining. The smelter is assured but just where to locate it is not so easy to decide until further investigation. Each one of the points named offer their particular inducements.

Union County Court.

Judge W. J. Mills, Second Judicial District, returned Saturday evening from Clayton, Union county, where they had been for five days.

The term was very successful, about thirty cases having been heard, all of which were civil cases.

Only ten indictments were rendered, and only five individuals were involved.

The case of Good, charged with the murder of a man named Bell, the grand jury failed to bring in an indictment, as they deemed the killing justifiable on the grounds that Bell was criminally intimate with Mrs. Good.

There was no criminal cases ready for trial.—Las Vegas Record.

Exposure

To cold and stormy weather opens the way to an attack of bronchitis. The man on the wagon, be he farmer, milkman or truckman, needs to pay special heed to the first symptoms of weakness or disease of the organs of respiration.

The use of Dr. Pierce's Golden Medical Discovery will cure bronchitis, deep-seated coughs, bleeding of the lungs, and other conditions which if neglected or unskillfully treated terminate fatally in consumption.

There is no alcohol in the "Discovery," and it is entirely free from opium, cocaine and other narcotics.

"For seven years I had been troubled with what the doctors called bronchitis," writes Mr. Arthur Maule (general merchant), of Niles-town, Middlesex Co., Ontario. "A year ago, after I had been taken sick with a severe attack, I began taking your 'Golden Medical Discovery.' I rapidly recovered from the attack and felt no more of it that fall. This season I began taking the 'Discovery' in August, and have so far been perfectly well. I can go out in all kinds of weather and not feel the bronchial trouble at all. Let me say to all who are suffering from such complaints to give Dr. Pierce's Golden Medical Discovery a fair trial, and I am convinced that good results will be obtained."

Dr. Pierce's Common Sense Medical Adviser, paper-bound, is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only; or 31 stamps for the book in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Railroad Topics

The Denver & Rio Grande railroad company intends to erect a library and reading room this summer at Chama, Rio Arriba county. It will also erect a brick office building.

E. A. Austin, at present trainmaster of the Oklahoma division, has been promoted to the place formerly held by Mr. Robbins and will move his headquarters to Topeka.

W. H. Shultz has taken charge of the run as engineer on the branch between Santa Fe and Lamy. He served in the 33d legislative assembly from San Miguel county and made a good record.

J. W. Robbins, trainmaster of the eastern division of the Santa Fe railway, has been appointed superintendent of the northern division of the Gulf, Colorado & Santa Fe, the Galveston line of the Santa Fe proper.

The gross earnings of thirty-four roads for the fourth week of February were \$7,187,752, against \$6,750,688 for the fourth week of February, 1901, an increase of \$437,064. Twenty-six roads show increases and eight decreases.

Owing to the completion of the Rock Island extension, the railroad and clerical force at Alamogordo has been greatly increased which means a corresponding growth in the pay roll paid out in that prosperous Otero county town every month.

Frank Hungate, a Santa Fe train captain out of Albuquerque, N. M., who has lots of friends in Topeka, is renewing acquaintances here for a few days, says the Topeka Journal. Next Wednesday he will go to Arkansas City for a visit with relatives.

George R. Henderson, superintendent of motive power for the Santa Fe, returned Thursday from Philadelphia, where he has been two weeks looking after matters relating to the construction of the 45 new prairie freight locomotives which the Baldwin works is building for this company. These engines are numbered from 1050 up and beginning in a week or two will be delivered to the purchaser at the rate of four every seven days, the intention being to complete the order by the end of April. Practically the only difference between them and the passenger locomotives of the same type is the size of driver, the freight engines having a 69 inch driving wheel instead of one ten inches larger which is the dimension of those already in service. The machinery, size of cylinder and general plan of the two are otherwise identical.

Practically Starving.
"After using a few bottles of Kodol Dyspepsia Cure my wife received perfect and permanent relief from a severe and chronic case of stomach trouble," says J. R. Eully, real estate, insurance and loan agent, of Macomb, Ill. "Before using Kodol Dyspepsia Cure she could not eat an ordinary meal without intense suffering. She is now entirely cured. Several physicians and many remedies had failed to give relief." You don't have to diet. Eat any good food you want, but don't overload the stomach. Kodol Dyspepsia Cure will always digest it for you. J. H. O'Reilly & Co.; B. H. Briggs & Co.

RAILROAD RUMORS.

Santa Fe Likely to Build Through Rio Arriba County This Year.

Two experienced railroad men stopped over night at Tierra Amarilla Saturday and resumed their journey to Santa Fe Sunday morning. While here they exhibited a letter from a prominent railroad contractor conveying the interesting information that the Santa Fe was letting grading contracts and that many workmen would be needed. While the letter did not make the positive statement, it intimated broadly that the road would be constructed in the direction of Durango, opening up the rich agricultural and grazing lands of Rio Arriba county to settlers, and the inexhaustible coal and gold mines and forests of valuable timber to investors.

Of course this is only a pointer, but it is a significant one. If the Santa Fe proposes to build several hundred miles of railroad this year, as is alleged, it is almost certain to be built in this direction, for it is virgin territory, so far as railroads are concerned, rich and prolific in natural resources, and not traversed by any railroad.—Tierra Amarilla Republican.

FAKE HAIR PREPARATIONS.

Do Hair No Good, But Often Cause It to Fall Out.

Many hair preparations are "fake" because they are merely scalp irritants. They often cause a dryness, making the hair brittle and, finally, lifeless. Dandruff is the cause of all trouble with hair. It is a germ disease. The germ makes cuticle scales as it digs to the root of the hair, where it destroys the hair's vitality, causing the hair to fall out. To cure dandruff the germ must be killed. "Destroy the cause, you remove the effect." Newbro's Hairdressing is the only hair preparation that kills the dandruff germ, thereby leaving the hair to grow luxuriantly.

A Big Saving.
Speaking of the recent addition to the equipment of the Santa Fe road and the results, a director of that company said:

"The latest experiments are bearing out our previous reports as to the saving from our new motive power. Our experts estimated that something over \$1,000,000 a year could be saved by the installation of new engines and cars and the use of oil as a fuel on the greater part of the system. The figures which our engineers furnished were taken conservatively, but we did not count on any such saving as they had predicted."

"We now find that there is every reason to believe that the savings will far exceed their estimates. Whereas our early figures placed the yearly saving at something over \$1,000,000, it is now almost certain that \$2,000,000 is a more reasonable estimate of the amount to be gained by the changes contemplated in this department."

"Further advances also as to the probable earnings of the road during the fiscal year of 1902 make it certain that at least 8 per cent on the common will

be earned in 1902. There are other considerations which make it impossible for me to hesitate in saying that the interest on the debenture bonds will be saved and enough will be laid aside to pay off the principal as it falls due and in addition to these funds, the dividend and surplus resources will be much larger than the majority of friends of the road anticipate."

This Climate Is Good

enough for anybody with weak lungs. The patient need not travel. He can get well here with the help of Allen's Lung Balsam, taken frequently when coughing and shortness of breath after exercise serve notice upon him that serious pulmonary trouble is not far away. Allen's Lung Balsam is free from any form of opium.

"CORA, THE COWGIRL."

Shoots Up Santa Rosa and Drives Peace Officers Into Hiding.

The following is from the Denver Republican, dated Santa Rosa, March 10, and can be taken either with or without salt:

"Cora Chiquita, known as 'Cora, the cowgirl,' just now is giving this town a wide birth. Last Friday Chiquita had a lot of fun here by riding up and down Main street, a revolver in each hand, yelling and shooting at everyone whose appearance did not strike her fancy."

"After she had galloped out of town the peace officers came out of hiding and they are all carrying warrants for her now, and remaining carefully within the city limits. She wounded two men while here. La Chiquita is as pretty as a picture, being about a quarter blood Cherokee. She is 23 years old, dresses in men's attire, always carries two revolvers, is a dead shot, can ride anything that wears hair and is alternately a loving and tender-hearted woman and a fierce and daring desperado."

For Over Sixty Years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

HINTS TO HEALTH SEEKERS

New Mexico Climate and How to Use It.

DR. BONNEY'S GOOD ADVICE.

From the San Marcial Bee.

Much has been written regarding the climate of New Mexico as a curative agent in certain diseases, but in all the articles I have seen it furnishes the means but in no case gives instructions for its use. Briefly, and from personal observation and experience, I wish to furnish information I consider essential and valuable.

The average invalid seems to think he can come from the east, bring his disease, bad habits and sins with him and recover health lost by exposure, dissipation, late hours and excesses in food and drink, simply by breathing air. Further, they have a vague idea the people of the southwest desire their presence so much they will support them in idleness and luxury while the climate is doing its work; or that employment can be secured for the asking. They learn their mistake when too late.

The diseases most sought to be relieved by a sojourn in the dry air of the semi-arid regions are "consumption," asthma, bronchitis and other forms of pulmonary affections acute or chronic. It is not, however, generally known that numerous other diseases are often cured by a residence here.

It is not the province of this article to tell how a person is benefited by the air, waters and climatic conditions of this portion of the country; I only wish to give my views as to how to live while here.

Too many persons come here and continue the mode of life they were accustomed to in the east: warm, lily ventilated rooms, inappropriate clothing, irregular hours and unsuitable food and drink and, in some cases, habits not mentionable here. All this must be changed. If the patient is extremely sick, not able to live out of town, secure rooms which are exposed to the sun for the greater part of the day. Dress warmly in flannel and sleep in wool sheets, and avoid the morning and evening chill. Sleep at least nine hours a day, and above all things live out of doors in the sunshine every hour possible. The diet must be nutritious and abundant and spirituous liquors strictly avoided.

I know there are some who will not agree with me in this last respect, but observation, experience and a medical education leads me to believe more men are killed by alcoholic liquors than are benefited—if any benefit can accrue at all from their use.

The invalid who is in physical condition to get away from the towns is the one who best has a chance to entirely recover health. Such a person can find a spring, stream or well in the mountains adjacent to wood, or even in the timber, and there live at slight expense. The things needed are as follows: A good tent of ten-ounce double filled duck, a cot covered with canvas, plenty of wool blankets, one

Many School Children Sickly.

Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's home, New York, break up colds in twenty-four hours, cure feverishness, headache, stomach troubles, teething disorders, move and regulate the bowels, and destroy worms. Mrs. Emily Marston, Meriden, Ct., says: "It is the best medicine in the world for children when feverish and complaining." Sold by all druggists or by mail 25c. Sample sent free. Address Allen S. Gimstead, Le Roy, N. Y.

or two heavy cotton quilts, a thin mattress filled with hair or wool, a small, sheet-iron stove either conical or square, an ax, a canvas sheet about 12x10 feet in size. This is best of rather heavy duck. A "dutch oven," fry pan, water bucket, two or more stew pans of granite ware, coffee pot, tea pot, two covered buckets of about three-quart capacity, brew pan, and wash dish, plates, spoons, cups, knives and forks.

A list of provisions for camp is a hard thing to make out, but the essentials are: Beans, flour, bacon, onions, lard, coffee, tea, rice, sugar, dried fruit, salt, baking powder (the best, made of pure cream of tartar and soda), pepper, and I should strongly advise plenty of chilli. This is the diet of the prospector, often for months at a time, and as a rule he is the personification of robust health.

Additions can, of course, be made to the list, which will depend upon individual taste, as breakfast goods, oatmeal, cereal coffees, canned milk, vegetables and fruits. I consider canned meats and fish unfit for the human stomach. But the plainer the diet, combined with plenty of exercise in the open air, nine to twelve hours sleep and a sufficiency of warm clothing, the better the prospect for health improvement.

My observation is all water for drinking purposes should be boiled. I cannot even except water from springs and wells, as deleterious mineral, animal and vegetable substances get in, and clearness is no indication that water is healthful.

Employment of some kind I consider quite essential to the welfare of the invalid, and fortunately there is much that can be done to keep one busy. Prospecting, hunting, exploration, of ancient ruins of the country, which is interesting, instructive, and can be made profitable, or collecting the rare flora and fauna of the country.

The medical fraternity in New Mexico are away above the average in intelligence and skill, and I strongly advise invalids to consult them, as they are vastly better acquainted with conditions peculiar to the country than eastern doctors can be, and better able to advise as to diet and medicines.

And lastly, do not come looking for employment, as the labor market is fully supplied with healthy workmen. Do not come expecting to be supported. Do you are apt to go hungry if you do. Do not expect climate to undo the damage of years of ill living if you persist in error. Lead a sober, clean, restful life, and hope for rapid improvement. A. F. BONNEY.

Sam Finley Killed.

A telegram was received from Tonopah, Nevada, to the effect that Sam Finley had been shot and killed at that place. Sam Finley was well known throughout southern Arizona. He was a brother of Hon. J. B. Finley of the Southern Pacific company, who is now stationed at Los Angeles. Sam had a host of friends in Tucson, who will be sorry to hear of his sad ending. The deceased served as City Marshal of Tucson, and was a prominent candidate before the democratic convention of 1898 for sheriff of Pima county. He was his party's candidate for county assessor when John Bogan, the present incumbent was elected.—Tucson Star.

Police Officer Whipped.

Lorenzo Vigil, one of the night police, started an argument Saturday night that turned out different than he planned. Vigil had been drinking and called Milton Burns, a colored man here, a few syllables that Webster fails to quote, and Burns gave him a few Fitzsimmons uppercuts, knocking him out, and taking his star away from him. Vigil has not been seen since, and it is reported that he left town in such a hurry that he neglected to draw his pay. It is said that Vigil was the aggressor and entirely to blame.—Las Vegas Record.

Las Vegas Copper Smelter.

G. W. Hutchins and W. B. Twitchell went out to their claims at San Pablo Sunday and report that a tunnel has been dug twenty-five feet and the ore looking better the farther in they go. The St. Louis Mining and Extraction company, of which these gentlemen are members, have raised \$14,000 for a reduction mill and developments on their properties. Representatives of the company go to Denver the middle of the week to get the machinery for their reduction plant, and on their return next week, the ground will be broken for their mill and the plant rushed to completion. San Pablo will soon have a full-fledged mining camp, if all signs do not fail.—Las Vegas Record.

If you desire a good complexion use Moki Tea, a pure herb drink. It acts on the liver and makes the skin smooth and clear. Cures sick headache. 25c and 50c. Money refunded if it does not satisfy you. Write to W. H. Hooker & Co., Buffalo, N. Y., for free sample.

San Juan County Canal.

The new Hammond canal promises to be one of the best waterways in the county. It heads two and one-half miles above Largo and is now completed for a distance of two miles, with a ten foot bottom. When finished the canal will be eleven and one-half miles long and will supply water to 3,000 acres of heretofore arid land.—Farmington Hustler.

If You Were Scared

easily you might suppose that the pain in the lower part of your back meant kidney trouble. But being a person of sense you know it is only muscular stiffness, from cold, and that prompt treatment with Perry Davis' Painkiller will prevent it from growing into lumbago. Act accordingly and you will be glad you saw this. There is but one Painkiller, Perry Davis.

Cochiti Mining Stock.

At the Boston Mine exchange last week 21,470 shares of Cochiti Gold Mining company stock were sold at from 45 to 80 cents a share. Of Santa Fe Gold and Copper company stock 520 shares were sold at from \$3.50 to \$3.63 a share.

When you wake up with a bad taste in your mouth you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse your stomach, improve your appetite and make you feel like a new man. They are easy to take, being sugar coated, and pleasant in effect. For sale by all druggists.

Nasal CATARRH

In all its stages.

Ely's Cream Balm

cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

Deming has a magnificent school system.

Gentlemen: Order your spring suit from the Nettleton Tailoring agency. 2,130 spring samples to select from.

LOCAL PARAGRAPHS.

Don't miss the Wizard Oil show to- night at Colombo hall.

Deputy United States Attorney E. L. Medler was a business visitor at Santa Fe yesterday.

J. M. Aldrich, a prominent merchant of Manuclito, McKinley county, was in Albuquerque today.

The city republican central commit- tee will hold a meeting this evening at John H. Stingle's law office.

Ben Weiller, traveling salesman for a Denver wholesale grocery house, was a passenger to El Paso last night.

Charles Paxton, successful miner at Bland, is in the city. He says that the camp will come out all right this year.

Mr. J. W. Granger leaves tomorrow for Hell Canyon, where there is quite a camp established for those that need the mountain air.

S. W. Dietrich, forman of the City Electric Light works, left last night for his home at Terre Haute, Ind., for a short visit with his family.

Edwin Tears, Colorado passenger agent for the New York Central, is expected to arrive in his special car from El Paso tomorrow morning.

J. W. Edwards has presented to the public schools some fine pictures of General Grant. He has also donated to the library the National Tribune.

Jacob Korber & Co. sold several new wagons to ranchmen in Tijeras can- yon. The farmers in that portion of the country appear to have plenty of money.

Ernest Meyers, of the firm of Meyers & Abel company, wholesale liquor and cigar dealers, was a passenger to San- to Fe this morning. He expects to re- turn tonight.

W. W. Hanson went to Las Vegas this morning to attend the funeral of Miss Carrie Wean, whose death oc- curred at that place at 3 o'clock yes- terday afternoon.

W. P. Metcalf's Columbia bicycle was lifted from his front porch last night in the small hours. He would cheerfully part with ten dollars to see the thief in jail.

County Superintendent F. A. Hub- bell spent yesterday in Santa Fe in interest of Gila Forest Reserve Sheep- men's association, of which he is se- cretary and treasurer.

Mrs. R. Lane and sister Miss Flor- ence Mathison, who have been visiting their brother, R. W. Mathison for the past four months, left this morning for their home at Toronto, Can.

T. J. Connors of Colorado Springs passed through the city this morning enroute to his home from El Paso. Mr. Connors has large mining interests in both Old and New Mexico.

The firm of B. H. Briggs & Co. has just finished putting in position a \$1,500 soda fountain. The front of each tank is of pure Mexican onyx, and the whole is finished in pure white.

A valve broke in the vacuum pump of the steam heating plant in Hotel Alvarado last night and the waiting rooms in the depot building were un- comfortably cold this morning.

Prof. C. E. Hickey last evening del- ivered a most interesting lecture on "Character Building" before the mem- bers and friends of the bible class of the Methodist Episcopal church.

It behooves the republicans of this city to nominate good men for the city offices. If a good ticket is selected, the republicans can make a clean sweep at the approaching city election.

The horsemen of the city last night decided to postpone the first race meet- ing this spring from March 23 to March 30, as the horses will be in better con- dition. A number of new horses will appear at the meet.

A part of the new electric power plant was put in operation last even- ing. The power was turned into the motors in the machine shop today and the entire plant will be in opera- tion by the last of the week.

Mr. and Mrs. L. C. Eldred, who were just recently married and have been spending a short honeymoon at Dem- ing, with relatives, returned to the city last night. They expect to make Albuquerque their future home.

Judge Daniel McMillen of Socorro was a passenger to Santa Fe this morning. The judge, accompanied by his son Morton of Buffalo, N. Y., vis- ited the Pueblo Indian village at La- guna yesterday, returning to Albuquer- que last evening. The young man went to Socorro last night.

Ex-Governor Budd of California, ac- companied by Mrs. Dumontrieux and daughter, who have been on a tour through Old Mexico, stopped off in the city between trains this morning. They came up from the south on passenger No. 22 and left for the west on the California limited.

Miss Katharine Heimbeck and Miss Brathwaite will soon open a conser- vatory of music in the rooms in the Commercial club building which were recently occupied by George Brewer. Miss Heimbeck will give her time to physical culture and voice, and Miss Brathwaite to harmony and the piano.

The old veteran of the civil war, I. D. Williamson, who has secured a po- sition in the government printing of- fice at Washington, left yesterday for his future home. Mr. Williamson is an old man and he deserved better treatment than to be beat out of sev- eral dollars by Johnny McCutchen for faithful services rendered. However, Johnny is a reformer and lives by deadbeating printers and other people.

The reception room on the first floor of St. Joseph's sanitarium will be fur- nished by the Hon. Felipe Chaves of Belen, in memory of his wife. The sum placed at the disposal of the sisters is sufficient to handsomely furnish the room. Another of the private rooms has been taken, leaving but five un- provided for. Subscriptions covering the expense of fourteen pews in the chapel have also been received.

Many fine silver presents given away at Colombo hall tonight.

Bring the ladies and children to see the Wizard Oil show tonight at Colom- bo hall.

You May Match the Price
but you can't match the coal at the price. Handscreened Gallup mine lump \$5 per ton. Hahn, both phones.

No medicine talk, no long waits at the Wizard Oil show—its all fun.

OYSTERS
Patent case oysters, home select, 25c pint; Blue Points 35c pint, full meas- ure solid meat guaranteed; fresh clams 30c pint; crab meat 35c pint; shrimps 20c pint; fresh salmon, stur- geon, shad, cat fish, smelts, red fish, flounders, fresh smoked white fish and Finnan haddies; fresh tomatoes 15c pound; fresh mushrooms 50 c pound; fancy dressed chickens. GOOD NEWS

Our spring stock of men's and boys' clothing has nearly all arrived and we are pleased to be able to announce to the people of Albuquerque and vicinity that we are not only able to show them the largest and best selected line of goods in this part of the country, but also that we are prepared to DISCOUNT ALL PRICES ON THE SAME CLASS OF GOODS, NO MATTER BY WHOM QUOTED.

This is a broad assertion to make, but we are willing to back it up. Look at our window and compare goods and prices.

HERE ARE A FEW:

A Good mixed Worsted suit.....	\$ 8.00
A dark brown Cheviot suit.....	\$10.00
