STATE FAIR IS PROVING ONE OF BEST EVER HELD IN NEW MEXICO

Crowds Wake Up to What Is
Offered Them and Give Lib-
eral Patronage to Big Show
on Second Day.

FRANCIS TO PULL OFF REAL WAR STUNT TODAY

Bombs to Be Dropped From
Aeroplane Just Like They
Do It in Paris; Troops Will
Be Seen in Action Again.

Albuquerque people woke up yester-
day to the fact that the state fair
is one of the best, if not the best,
that has ever been held, and thronged
the grounds to see the attractions
that are being offered by the man-
agement. The grandstand was
crowded during the afternoon and
gave liberal patronage to the excellent
program that was rendered, while the
exhibition buildings were filled with
interested spectators throughout the day.

All indications are that the fair is
gradually working up to a fitting
climax as the best that the state has
to offer in showing off her natural
resources and that it will be accorded
recognition as such not only by the
people of Albuquerque but the entire
state. Every train is bringing in
visitors by scores and every hour
sees new enthusiasm awakened. While
the fair is slow in starting, there is
every reason to believe that it will
end as a conspicuous success.

Mime Warfare Today.
Lieutenant Francis today will give
the visitors to the fair an idea of
just how warfare is being carried on
between Germany and the allies. Sailing
over the fair grounds in his
biplane, he will drop bombs on the
United States troops entrenched be-
hind fortifications within the race
track enclosure. The troops, how-
ever, will not be the "roats" of an
unexpected attack—they wouldn't be
Uncle Sam's boys if they did. They
will be ready with a special gun pre-
pared for the purpose of taking a shot
at the aviator, and if any bombs hit
them it will not be before they have
had a say in the matter.

Those interested in the latest devel-
opments of European warfare can
not afford to miss this exhibition of
the way things are done in the war
zone. While there will be no blood-
shed, and indeed no wounded feel-
ings, there will be a most realistic
demonstration of the way modern
warfare is carried on.

There will also be some excellent
racing, and the exhibition of frontier
sports equalling the best that Chey-
enne has to offer on Frontier day;
the maneuvers of Troop K, and the
awarding of prizes in a number of
the exhibits of the most widespread
interest.

Down town, the carnival shows,
which probably excel any ever seen
at a state fair before, will hold the
attention of the big crowds all day
long. An old Albuquerque favorite,
J. Sam Houston, is in charge of the
Allmann Bros. carnival shows, and
all people know that whenever J.
Sam puts on a show they get fully
satisfied value on every dollar they
spend with him.

Crowds Are Enthusiastic.
The grandstand was well filled
when the doings in the racetrack be-
gan yesterday, and was crowded be-
fore they were finished. The man-
euvers of Troop K and the aeroplane
flight of Lieut. Roy Francis were the
chief attractions offered to the
spectators. In spite of difficulties
growing out of the boggy condition
of the field inside the track, the avia-
tor got away well, skimmed over the
fence, toured the country back of
the grandstand, flew over the city
and returned to the place from which
he started. The crowd was enthusiastic
over his stunt and gave him liberal
applause.

Troop K came in for an equal share
of public favor, dividing honors with
the aviator as the chief attraction of
the day. It was a critical crowd, and
every maneuver of the soldiers was
watched carefully and attentively.
The folks in the grandstand knew

good stuff when they saw it, and they
broke out in enthusiastic cheers as
the difficult maneuvers were execut-
ed. No prettier picture can be imag-
ined than that presented by the
troopers as they go at a brisk trot
around the track in column of fours
with the colors at the head of the
troop, every hoof-beat apparently
coming in exact precision.

The babies again attracted a big
crowd to the Santa Fe building, where
the examinations of the contestants
continued. The doctors and the
nurses were kept busy, as was the
case on Monday, and there were the
same scenes of bustling activity
among the mamas and papas and
those who looked on from one angle
or another. In the health tent there
was a lecture by Dr. McBride, of
Las Cruces, who spoke on the double
standard of living, which proved of
intense interest to the mothers and
others interested in child welfare that
were gathered. Today there will be
addresses by Dr. C. E. Lukens, on the
"Waste of Child Life," by Dr. Kalle,
on the physical development of the
child, and by Dr. Frank McConnell,
of Colorado Springs, on the hygienic
care for nervous children.

On Thursday it is planned to ex-
hibit the prize-winning children, the
"prize baby" and the "champion baby"
in front of the grandstand, in or-
der that all fair visitors may see the
best specimens of babyhood that New
Mexico has to offer.

Johnnie McManus' Boys.
One of the most admired exhibits
at the fair yesterday was that sent
down by Superintendent J. H. McManus,
of the state penitentiary. It was a
collection of the things grown by
his pupils of the penitentiary on state
lands.

The excellent showing made in this
exhibit is striking proof of what a
man can do when he has an interest
in something. Every turnip, every
pumpkin, every one of the many
splendid vegetables making up the ex-
hibit showed the care and attention of
some man who has violated the law—
some man who has violated the al-
l-powerful "Thou shalt not"—some
man about whom a different story
might have been told if he had got-
ten the right start.

The exhibit was a good one—there
were few better on the grounds—and
elicited much praise for Warden McManus and for the men under his
care who were responsible for it.

Educational Exhibit.
How the really splendid educational
exhibit came to be stuck off in a cor-
ner where folks have to look around
to find it is one of the mysteries. It
is something of which the parents, the
children and the teachers of this state
have to be proud.

Naturally, the Albuquerque schools
show up foremost in this exhibit. The
woodwork by the boys and the needle-
work, baking and preserving by the
girls are things that should be seen by
every parent in Bernalillo county in
order that they may appreciate the
things that are being done for their
children. The Rio Grande Industrial
school and the manual school also
come forward with exhibits of indus-
trial work that are up to the highest
standard and are given a conspicuous
place by Superintendent Milne, who is
in charge of the display. Cress from
the school of mines, specimens of in-
dustrial work from the Silver City
normal and contributions of domestic
science work from the Alamogordo
public schools complete a really
worth-while educational exhibit.

MAYOR AND SHERIFF REMOVED FROM OFFICE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Butte, Mont., Oct. 6.—Sheriff Tim-
othy Driscoll and Mayor Lewis J. Dun-
can were found guilty today of neglect
of their duties in connection with the
recent miners' riots, and removed
from office by Judge Roy E. Ayers
of the district court, after a trial last-
ing more than two weeks.

The court refused to grant a stay of
execution of ten days while an ap-
peal to the supreme court was perfect-
ed. Both offices are vacant pending
an appeal.

Mayor Duncan is removed from of-
fice because of his failure to provide
the city with proper protection last
June when Miners' Union hall was
dynamited by an opposing faction of
miners, and other lawless acts were
committed virtually without inter-
ference by the sheriff or police.

The charge against Sheriff Driscoll
was similar to that against the mayor.
Driscoll admitted, in testifying in his
own behalf, that his deputies failed to
make forcible resistance to the riot-
ers.

The city council will elect a suc-
cessor to Mayor Duncan, who is a social-
ist.

Until the new mayor is named, Char-
les A. Smith, socialist president of
the council, will be acting mayor.

PATRIOTIC FUND BY CITY OF BERLIN, ONT.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Berlin, Ont., Oct. 6.—More than
\$50,000 had been subscribed up to to-
night in the fiscal campaign to raise
\$75,000 for the Canadian patriotic
fund. This was the second of a three-
day campaign. The following cable-
gram was sent to Lord Kitchener:
"Berlin, Ont., a city of 18,000 popu-
lation, of which 12,000 are German
or of German descent, proposes to
raise on October 5, 6 and 7 \$15,000
(\$75,000) or more for the national
patriotic fund."

Lord Kitchener replied as follows:
"My best wishes for success to your
efforts."

Want Thaw Case Decided.

Washington, Oct. 6.—Asserting
that the seizure of Harry K. Thaw
in New Hampshire is a scandal to
the state of New York, attorneys for
the latter state will ask the supreme
court next Tuesday to advance for
immediate hearing the litigation over
Thaw's extradition to New York.

WASHINGTON IS DISTURBED BY JAP SEIZURE OF JALUIT ISLAND

Action Brings Mikado in Close
Proximity to American Pos-

Country.

CONTINUED OCCUPANCY IS NOT DESIRABLE

Foothold Formerly Held by
Germany Probably Will Be
Turned Over to Great Brit-
ain, Diplomats Believe.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Oct. 6.—Declining in
the absence of all the facts to express
any opinion as to whether the Japa-
nese landing on the island of Jaluit,
one of the Marshall group in the Pa-
cific ocean, is in violation of the an-
nouncement by the Japanese foreign
office at the beginning of the war that
Japanese participation would be con-
fined to the far east, Secretary Bryan
today was expecting the early arrival
of some official statement of the ul-
timate purpose of this act.

Bryan Interested.
Already the secretary has interested
himself in Japanese military opera-
tions against the German concession
in Shan Tung, probably animated by
the appeal from the Chinese govern-
ment against violation of Chinese in-
tegrity. The landing on the Marshall
islands, however, has not yet been
made the subject of representations to
the state department, possibly for the
reason that there is no one in a posi-
tion corresponding to that of China
in Samoa. It is pointed out by officials
the United States has a very lively in-
terest in any change of the sovereignty
of the group because of the proximity
of the German-owned islands to the
American island of Tutuila.

United States Interested.
On the whole, official opinion is
that while the United States is inter-
ested, as would be any maritime power,
since the group lies on the trade
route around Cape Horn and through
the straits of Magellan to the orient,
the issue really is of much greater
concern to Great Britain. Because of
the reluctance of the British Aus-
tralian colonies to have the Japanese ap-
proach their continent, the British
government is understood to have a
very explicit understanding with her-
ally, Japan, that the British alone are
free to exploit the important German
insular possessions in Micronesia and
in New Guinea.

Japan Not to Hold Island.
It is assumed that what has been
done on the island of Jaluit is in ac-
cordance with this understanding, and
a more or less official statement is ex-
pected that the Marshall islands, after
the expiration of the German naval
base there, will either be vacated by
the Japanese or turned over to the
British, their future to be decided in
the conferences which must terminate
the present war.

Officials at the British embassy
were positive today in their assurance
that Japan's act would in no way de-
velop into a violation of the memo-
randum limiting the scope of Japanese
military activity.

The pledge outlining the extent of
Japanese aggression was reiterated
and declared to be a proof that the
seizure of Jaluit was merely a tempo-
rary act.

Tokio's Statement.
Late today, after receiving an of-
ficial cablegram from Tokio, confirm-
ing the destruction of the German
base at Jaluit, the Japanese embassy
issued the following statement:

"In this connection it may be re-
called that the German men-of-war
have been making appearances in the
Pacific and the south seas and have
been disturbing the shipping routes
ever since the outbreak of the present
war, and that this fact at last compelled
the allied fleets of Japan and Great
Britain to decide upon expeditious
measures to keep the routes clear, as
was recently reported in the press.
In the light of this fact, it may be
safely concluded that the action taken
by a portion of the Japanese squadron
above referred to is nothing but a step
for the fulfillment of the expedition-
ary mission."

CAPTURE OF JALUIT WAS NECESSARY, JAPS SAY

Tokio, Oct. 7 (11:55 a. m.)—The
newspapers, commenting on the cap-
ture of the island of Jaluit by Japa-
nese naval forces, declare that this ac-
tion was necessary for the Japanese
territorial, commercial and
maritime interests. They add that the
seizure was justified also because of
the danger to the Japanese squadron
above referred to is nothing but a step
for the fulfillment of the expedition-
ary mission."

Says Professor Lied.

London, Oct. 6 (8:30 p. m.)—The
official press bureau tonight issued
a statement declaring "absolutely un-
true" the allegations made by Profes-
sor Harnack and other prominent
Germans that Great Britain had stored
quantities of ammunition at the
French fortress of Mabeuge before the
outbreak of the war. The Ger-
mans claimed this was evidence Eng-
land intended to violate the neutral-
ity of Belgium.

WANTS TO REIMPOSE DUTIES ALREADY PAID

Washington Administration Is
Not Disposed to Permit Im-
porters at Vera Cruz to Be
Imposed Upon.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Oct. 6.—President
Wilson conferred for two hours
tonight on the Mexican situation
with Secretary Bryan and John
R. Silliman, who made a special
trip from Mexico at his own re-
quest to talk with the president.
No inkling of what was discussed
was given out at the White House
after the conference. Secretary
Bryan refused to make any com-
ment.

Silliman Confers at White House.
Mr. Silliman, who is United
States consul at Saltillo, Mexico,
has been acting as President Wil-
son's personal representative in
Mexico for some weeks. A few
days ago he telegraphed the state
department asking permission to
come to Washington for a con-
sultation. He was told it was
thought best he should return to
Mexico City. Silliman was not
satisfied and it is said his visit
was arranged directly with the
president.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Oct. 6.—Rear Admiral
Howard, commanding the American
naval force on the Pacific coast of
Mexico, reported to the navy depart-
ment today that there was a short-
age of food all along the west coast
and that the populace of Acapulco
faced starvation.

Foodstuffs were not available at
any price. Transportation, both by
land and rail, is virtually at a stand-
still along the Pacific coast and in-
asmuch as the revolutionary activi-
ties of the past three years have en-
gaged the great masses of the peo-
ple, only meagre crops have grown.
Admiral Howard says it is abso-
lutely necessary that corn and rice
be provided promptly for Acapulco.

Trouble About Acapulco.
Deserting from Acapulco is men-
tioned in the message but this is not
understood by officials here to
involve the present issues under dis-
cussion between excoors of Villa and
Carranza. They say there is turmoil
throughout the entire state of Quer-
etaro of which Acapulco is the prin-
cipal port, indicating the urgent need
of the early establishment of a strong
central government in Mexico.

It is understood that negotiations
for the transfer of authority at Vera
Cruz are making little headway due
to Carranza's refusal to comply with
the conditions laid down by the United
States. The question of safe con-
duct out of the country for Mexican
refugees, who feel that their lives
will be jeopardized under the incom-
petent regime, is one of the many
problems with which the officials here
are dealing. The next passenger
steamer will leave Vera Cruz next
Saturday and assurances have been
given that evacuation by the American
forces will not take place before
next Sunday. Beyond that no an-
nouncement has been made.

Carranza Obstinate.
The most important economic ques-
tion under discussion between Car-
ranza and the American authorities
is the transfer of customs receipts
amounting to more than \$1,000,000
collected during the American occu-
pation of Vera Cruz. Word has
come to Washington that Carranza
proposed to re-impose these customs
duties on goods upon which payment
had been made to the American au-
thorities at Vera Cruz. To this pro-
position the United States govern-
ment, which received payment from
Vera Cruz importers in good faith,
has let it be known that unless as-
surances came that no one would be
subjected to double taxation, the
money collected would be turned back
to those from whom it came.

John R. Silliman, one of President
Wilson's personal representatives in
Mexico, arrived in Washington today.
He conferred with Secretary Bryan
and other state department officials.
Mr. Bryan declined to divulge the
nature of Mr. Silliman's report. He
said, however, that in all probability
Mr. Silliman would return to Mex-
ico in the near future, after a confer-
ence with President Wilson.

DELEGATES TO CONFERENCE AT AGUAS CALIENTES

World's Series to Be Shown Play By Play On Scoreboard

The Morning Journal has ar-
ranged to receive over its Asso-
ciated Press leased wire the re-
ports of the world's baseball cham-
pionship series between the Phila-
delphia Athletics and Boston
Nationals.

The progress of each game will
be recorded, play by play, on a
big scoreboard which is to be put
up on the east side of the Journal
building. The complete story of
the game as it happens will be
given right off the bat.

Albuquerque fans and visitors
to the state fair are invited to be
present every afternoon of the se-
ries to see on the scoreboard the
mamas which are to decide the
1914 world's title.

To those who cannot be present
to witness the games on the score-
board an invitation is issued to
call telephone 12 or 66 for the
score by mailings.

The first game will be played
Friday at Philadelphia.

DECISION OF JUSTICE WHITE IS REJECTED

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Panama, Oct. 6.—The national as-
sembly this afternoon unanimously
adopted a resolution that despite the
decision of Edward W. White, chief
justice of the supreme court of the
United States, the boundary question
with Costa Rica was unsettled. This
action was stated in the resolution to
be in conformity with public opinion in
Panama. It is understood the assem-
bly, in the course of a secret session
held yesterday, was in favor of ul-
tracting Foreign Minister Lefevre to
open negotiations with Costa Rica in
an effort to obtain a more favorable
permanent boundary.

CARRIES CARGO OF COAL TO ESQUIMAULT

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Seattle, Wash., Oct. 6.—The Ameri-
can steamer Montosa, upon entering
harbor here with 3,870 tons of coal
from Norfolk, Va., today was ordered
to proceed immediately to Esqui-
mault, B. C., to discharge. It is un-
derstood the coal was purchased on
short notice by the British admiralty.

While off the Mexican coast the
Montosa spoke in the German cruiser
Leipzig, which, after inquiring if the
Montosa had sighted any warships
after leaving the canal, steamed
southward.

Paris, Oct. 6 (11:58 p. m.)—The French official announce-
ment issued tonight says that a violent battle continues on the left
wing north of the Oise.

LONDON, OCT. 7 (1:45 a. m.)—A dispatch to the Exchange
Telegraph from Antwerp gives the following communication issued
at 10 o'clock last (Tuesday) night:

"The military governor has informed the burgomaster that a
bombardment of Antwerp is imminent and people who wish to flee
from the town are requested to leave.

"The bombardment will have no influence on the town's re-
sistance, which will be pushed to the extreme limit."

The Exchange Telegraph company adds that the foregoing
message has been passed by the British censor for publication.

LONDON, OCT. 7 (1:34 a. m.)—A Reuter dispatch from
Paris gives the French official communication issued last night at
11 o'clock as follows:

"The characteristics of the situation remain the same. On our
left wing to the north of the Oise the action is more and more
violent.

"In the center comparative calm prevails.

"A little ground has been gained in the northern part of the
heights of the Meuse."

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
London, Oct. 6 (10:10 p. m.)—
The sixty-third day of the great Euro-
pean war saw a repetition of what the
people of all the countries concerned
have forced themselves to expect, per-
haps, for months to come—no decisive
conflict on land or sea.

From Berlin to London came noth-
ing in the way of claims to progress
or reverses. From Petrograd came
what has flowed without interruption
for weeks—persistent claims of progress
for Russian arms.

**Summary of War
News of Yesterday**
That the battle between the allies
and the Germans to the north of the
river Oise is growing more and more
violent, is the only statement that has
been permitted to winnow through the
sieve of official secrecy concerning
the conditions prevailing on that part
of the long battle line in France upon
which the eyes of the world are fo-
cused. The report of the French war
office makes no mention of whether
progress is being made by either side
in this zone where for days the armies
have been battling desperately for su-
premaccy.

The statement is made that the al-
lies have gained a little ground on the
northern heights of the Meuse. On
the center of the battle line compara-
tive calm prevails.
No mention was made in the state-
ment concerning the strong forces of
German cavalry previously reported to
be operating in the department of
Nord, nor was anything said of the
situation at Antwerp, against which
the Germans are operating. A news
agency dispatch said, however, that
the military governor of Antwerp had
reported to the burgomaster of Ant-
werp that a bombardment of the city
was imminent.

Both Germany and Russia continue
to report successes in east Prussia
and Galicia, thus leaving the situation
in these spheres of warfare in doubt.
The French, as an offset to previous
similar action on the part of the Al-
bionians, have placed mines in the Adri-
atic in a zone which comprises "All
Austrian waters and the channels
between the islands and the coast of
Dalmatia."

A Berlin dispatch says:
"The increased Turkish navy, it is
expected, soon will be sailing in the
Black sea." No explanation of the
statement was vouchsafed.
A news agency dispatch from Bor-
deaux announces that a number of
important changes have been made in
German army commands.

An epidemic of dysentery has
broken out among the Austrian troops
in Bohemia and Moravia.
Great Britain has prohibited the ex-
portation of raw wool.

Winston Spencer Churchill, first
lord of the British admiralty, is said
to be at Antwerp consulting with the
Belgian chief of staff.

The Washington government is still
without official advices concerning
the landing of Japanese bluejackets
on the island of Jaluit in the Mar-
shall archipelago in the Pacific
ocean.

In attempting to break the Carpathians at Zuck, the Russians have been beaten.

Heating the Carpathians and pouring on to the plains of Hungary, by the Muscovites has been so often referred to that it is becoming trite, and the fact remains that, generally speaking, aside from the defeat of Tennenkamp's army in the early stages of the war in Poland, his revenge by a crushing return, and a steady advance of the Russians through Galicia, there has been nothing from the east to stand out in the nature of a clearly defined conflict like the battle of the Aeneas.

No Reports From Cracow.

Today's Petrograd official statement deals entirely with the German stand on the east Prussian frontier, making no mention of the situation either in Galicia or Hungary. The much-heralded battle of Cracow, which it seems all the correspondents anticipated, has not yet been heard from as a source of war news—either a dispatch saying that though no battles in Hungary had yet been decided, the invaders were being repulsed.

Whether it can be accepted as true or not, a Bordeaux special dispatch reports a general shake up in the German army command, following but not necessarily the result of the reported removal of General von Moltke as chief of the general staff. The most important change is the shifting of General von Hindenburg from east Prussia to assume command at Cracow. He is succeeded in the field, where he scored so brilliantly over the Russians, by General Curt von Morgen.

Guesses About Kaiser.

The British press is still indulging in the pastime of guessing at the German emperor's whereabouts. The latest report is that he is at Cologne under the protection of the powerful fortresses.

President Poincaré's visit to the front is confirmed through a telegram he sent to King George saying that he had visited Field Marshal French at British headquarters.

To the many national denials this war has brought is added a statement issued in behalf of the British government tonight denying the German contention that Great Britain has stated ammunition at Mantebe prior to the outbreak of the war, thus indicating an intention to violate Belgian neutrality.

POINCARÉ EXTENDS THANKS TO BRITISH MONARCH

London, Oct. 6 (4:45 p. m.).—An official communication issued tonight by the press bureau says:

RELATIONS WITH EUROPE BECOME NEARLY NORMAL

Important British Banking Houses Expect to Draw in Regular Way Against Balances in New York.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

New York, Oct. 6.—That financial relations between this country and London are gradually approaching normal was indicated today when some of the important British banking houses notified their local correspondents of their intention to draw against balances here in the regular way. Exchange on London was firm and without appreciable change. The gold pool extended its activities by purchase of bills, cables ruling at 4.96 1/4, with slight drafts at 4.95 1/4. Another interesting feature of the exchange market was the large business transacted in bills for Amsterdam, most of which was assumed to be for Berlin interests. These developments coincided with London advice to the effect that various loans amounting to the amount of the gold pool was loaned to the gold pool. It was learned that some inland reserve banks had arranged to pay their subscriptions into the gold pool at Chicago.

Representatives of several municipalities were in tentative negotiations with local bankers respecting forthcoming loans or refunding operations and it is expected that some short term note issues will soon be announced. The success of the recent New York City issue has paved the way for other operations of like character but individually they will be comparatively small.

Today's supply of cash for call and time loans was no larger and rates for these accommodations were unchanged. Western banks and other financial institutions bought sparingly of high class mercantile paper at 7 per cent.

Cash sales of copper metal were reported today at 11 1/2-20 per pound, the lowest in almost thirteen years. Even at this figure, supply was said to be much in excess of demand. More shading of prices for steel and iron products was announced in jobbing circles with further circumstantial rumors of reduced wage schedules.

Suspension of proposed increases in freight rates on grains in the middle west by the Interstate Commerce commission was marked by heaviness in the market due to estimates of an increase in the visible supply. Other foodstuffs options were sympathetically affected. The annual report of the Northern Pacific Railroad company, showing a decrease in operating revenues of over four million dollars, which was reduced to a net loss of \$930,000 by a substantial saving in cost of operations.

CONDITIONS CLEARING FOR COTTON INTERESTS

New York, Oct. 6.—A more optimistic feeling developed here today with reference to the possibility of reopening the contract cotton market in the near future. This demand seemed to be largely the result of persistent rumors that the syndicate plan for taking over all the remaining interest of old contractors practically had been completed and that official announcements would be made in the near future. This plan, it was reported, contemplates the organization of a corporation to take over all speculative long December cotton at 9 cents a pound. Each member and firm of the exchange will be asked to agree to pay a tax on all subsequent transac-

tions of \$2.50 per contract for the round turn until the total amount paid by the tax shall equal \$7.50 per bale on the amount of long cotton taken over by the corporation, plus interest on money borrowed from banks and expenses.

In addition, it is proposed to form a syndicate, which will agree to buy from the corporation all cotton taken over by the corporation at 7 1/2 cents, should the market reach that level and in that event each member of the syndicate will own outright his share of cotton at 7 1/2 cents and can dispose of it as he chooses.

It is proposed that the corporation sell as much cotton as possible above 7 1/2 cents and any firm trading in cotton to the corporation at 7 cents may withdraw at that figure. The obligation of the corporation to banks for money borrowed and interest will be paramount to all other obligations.

It was reported that the committee on rules and by-laws would make its report to the board of managers tomorrow.

FEDERAL RESERVE BOARD TO AID COTTON MEN

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Oct. 6.—The federal reserve board took steps today to give its approval to the plan proposed by bankers of the middle west to reform conditions in the cotton market through a \$100,000,000 bond fund. The plan was asked to come to Washington for a conference and it is possible that the plan will receive the approval of the board before the close of the present week.

The board, appointed Governor Hamilton, Paul M. Warburg and W. P. O. Harding members of a committee, has no knowledge of the details of the plan it is believed tonight that in principle it was agreeable and that unless there are unexpected obstacles it will be endorsed.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When cross, feverish and sick, give "California Syrup of Figs."

Children love this "gentle laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver, bile, slugs, stomach acids, then your little one becomes cross, half sick, feverish, don't sleep or eat naturally, breath is bad, system full of cold, has sore throat, stomach ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs," because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by the "California Syrup Company." Refuse any other kind with contempt.

CAUCUS DECIDES TO MAKE BEER BEAR HEAVY TAX

Whiskey Also Comes in for Burden While Gasoline and Automobiles Are to Be Exempted.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Oct. 6.—The caucus of senate democrats on the war revenue bill failed to complete its labors tonight and recessed just before midnight to meet again tomorrow morning. Decision had been reached, however, that impose the bulk of the \$100,000,000 emergency revenue measure upon beer and whiskey which will yield nearly \$50,000,000 annually under increased taxation.

The caucus also eliminated proposed taxes on gasoline and automobile sales and cut in two the proposed \$2 per thousand tax on bank capital and surplus. Consideration of various proposed stamp taxes and emergency levies on perfumery, cosmetics and patent medicines was not reached tonight.

Heavier Tax on Beer.

First action of the caucus was to vote an increase in the proposed excise tax on beer from 50 cents to 75 cents a barrel, to make the total tax \$1.25 a barrel, with a drawback of 5 per cent for purchase of revenue stamps in advance. The amendment, introduced by Senator Williams of Mississippi, was carried by a large majority after Senator Stone had made a vigorous speech against it. A special revenue tax on rectifiers of distilled spirits of 5 cents a gallon was also adopted. Together the proposed taxes on liquors would yield an annual revenue of more than \$50,000,000.

How It Is Placed.

Democrats of the finance committee had agreed to the house tax of \$1.50 a barrel on beer which would yield, at 50 cents over the normal tax, an added revenue of \$12,500,000 annually. The further addition of 25 cents a barrel by the senate democrats would yield another \$18,000,000. With the five per cent discount for prompt payment figured, the least to be derived from beer would be approximately \$40,000,000.

The proposed tax of five cents a gallon on rectified spirits, treasury experts estimate would yield \$5,000,000. Thus the total to be derived from liquors would be more than half the anticipated treasury deficit caused by the European war.

Votes Down \$2 a Barrel.

When the caucus convened the first amendment offered was by Senator Williams to increase the levy on beer to \$1.75 a barrel. Senator Hollis of New Hampshire moved as a substitute that the tax be made \$2 a barrel. This was voted down after protracted debate.

Before any votes were taken, however, there was general discussion of the proposed tax of one cent a gallon on gasoline, the 50-cent homebrewer tax on automobile rates and the house bill tax of \$2 a thousand on bank capital and surplus. Numerous amendments were offered which were discussed in detail at the night session.

AT ONCE! STOPS STOMACH MISERY AND INDIGESTION

"Pape's Diapiesin" makes sick, sour gassy stomachs feel fine.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Diapiesin, let this down. Pape's Diapiesin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so perfectly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapiesin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no more belching, no eruptions of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large 50-cent box of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

VILLA IMPORTS TEN THOUSAND MODERN RIFLES

While Peace Talk Is Progressing Both Fighting General and Carranza Are Preparing for War.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

El Paso, Tex., Oct. 6.—General Villa's agents in the United States entered through this port today 10,000 American-made rifles, thus taking advantage of the recently raised embargo along the border on munitions of war. The Villa faction for several weeks has been importing large quantities of rifle ammunition which has not abated since the decision to hold the peace conference with delegates of the Carranza central government now in progress at Zacatecas.

The Carranza faction also has taken advantage of the unimpeded entry of arms from the American side. Constitutional agents here have been purchasing all available supplies which are being rushed to the assistance of General Hill, who is defending Nacoz, Sonora, against the attack of the Maytorean insurgent forces, supposedly partisans of the Villa side.

No reports of fighting between Carranza and Villa troops, however, come from other parts of the republic. The forces of General Mondorrio Herrera, one of Villa's brigade commanders, who has revolted in favor of Carranza, remained in the Parral district without hindrance from the Villa leaders. Little news from Villa territory leaked through the rigid censorship.

M'ADOO URGES BANKS TO STOP HOARDING CASH

Secretary of Treasury Says There Is No Reason for Business Not to Be Conducted in Normal Manner.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Oct. 6.—There is evidence in some quarters that individuals and corporations are hoarding money. It is just as reprehensible for them to do so as it is for the banks," declared Secretary McAdoo of the treasury department in a statement issued tonight.

"There is no reason," he continued, "why people should not deposit money in the banks in the usual way and with absolute confidence, and there is no reason why business should not be conducted in a normal way."

The statement says the following rates have been charged by banks except in exceptional cases:

"In New York nearly all the loans to correspondents were made at the uniform rate of 6 per cent.

"In Chicago the prevailing rate charged to bank correspondents was 7 per cent, although on many loans a lower rate was charged.

"In St. Louis, while the maximum rate to bank correspondents was 7 per cent, the prevailing rates were 6 and 7 per cent. In a few cases loans were made at lower rates.

"In Boston 7 1/2-10 per cent was charged in a few cases, although the prevailing rate was 6 per cent.

"In Philadelphia the national banks as far as heard from report no loans to bank correspondents in excess of 6 per cent."

The statement announced that no more lists of banks carrying excessive reserves will be made public for the present, because there is evidence that a more liberal disposition is being manifested.

"I have a long list of banks," it goes on, "which are holding excessive reserves, and I shall not hesitate to publish it."

"In a number of places, which have been brought to my notice, the interest rate has been put up arbitrarily by the concerted action of the banks. There is no justification for high interest rates. There is no real reason for tight money in this country."

EARLY TEST ASKED OF MINIMUM WAGE LAW

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Oct. 6.—The constitutionality of minimum wage legislation on behalf of women adopted recently in several states will be determined quickly if the supreme court acts favorably next Tuesday on a request for early consideration of the case testing the validity of the Oregon minimum wage law. State officials, employers and employees in Oregon will join in asking the court for immediate decision, according to notice filed today.

California, Colorado, Massachusetts, Minnesota, Nebraska, Utah, Washington and Wisconsin have enacted minimum wage laws similar to the Oregon law, and test cases are pending in several states.

More Canadian Troops.

Ottawa, Ont., Oct. 6.—Canada will raise immediately and send to the front a second expeditionary force of 20,000 men with a first reinforcement of 10,000 men, making 22,000 in all. This decision was reached at today's cabinet council. The second contingent will bring the total of Canada's force at the front up to more than 50,000 men.

DEMOCRATS PLAN VIGOROUS FIGHT FOR ELECTION OF CONGRESSMEN

President Wilson and Cabinet Hold Meeting to Outline Campaign Itineraries for Principal Speakers.

LANE AND HOUSTON DEMANDED IN WEST

Bryan Begins Tour Tonight Covering Much of Central and Northwestern States; Special Interest in N. Y.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Washington, Oct. 6.—President Wilson and his cabinet gathered today for a political board of strategy and laid plans for the coming congressional campaign. It was one of the few times since the Wilson administration came into office that little but politics has been considered at a cabinet meeting.

The session lasted more than two hours with the entire cabinet present. Itinerary of cabinet members' campaign tours were taken up and subjects to be discussed in campaign speeches were gone over.

The president expects congress to adjourn next week and immediately afterward the campaign will be actively begun. A letter to Majority Leader Underwood of the house expressing the president's gratification at the work accomplished, and endorsing democratic members for reelection will be the opening gun.

Democratic Campaign Thunder.

The fact that the United States is at peace while Europe is at war; the currency, tariff and conservation bills, and the handling by the president of the crisis following the outbreak of the European war, are to be the principal points to be dwelt on by the cabinet members.

The president is making efforts to harmonize all party differences before the November elections. In this connection it was reported in official circles that Henry Watterson, editor of the Louisville Courier-Journal, will follow the example of George Harvey and call at the White House to bring to a final end the incident which caused both men to withdraw their support of Mr. Wilson during the presidential campaign in 1912. There has been a friendly exchange of letters between the president and Mr. Watterson, it was officially stated.

Interested in New York.

In New York several members of the cabinet, including Secretary McAdoo, have already endorsed Governor Glynn for reelection, and the president will formally take the same action. Mr. Harvey has offered his services in the New York campaign and the president will consult him freely. There were many indications that the administration would make extraordinary efforts towards democratic success in New York.

In Pennsylvania the president is doing everything possible for the election of Representative Palmer as senator and may go to Pittsburgh to speak at a Young Men's Christian association anniversary meeting at Mr. Palmer's invitation although he will not make a political speech.

Democratic senators and representatives from the west are besieging the White House with requests that Secretary Lane and Secretary Houston tour their respective states. Neither has mapped out an itinerary, however.

Bryan's Itinerary.

Secretary Bryan plans to leave tomorrow night to speak in the Ohio campaign at places to be determined by the democratic congressional campaign committee. On Friday and Saturday he will speak in Indiana. On Monday, October 19, the secretary will start a campaign through western Missouri, Kansas, Colorado, Wyoming and South Dakota, and during the following week he will speak in North Dakota, Minnesota, Wisconsin, Iowa and Nebraska.

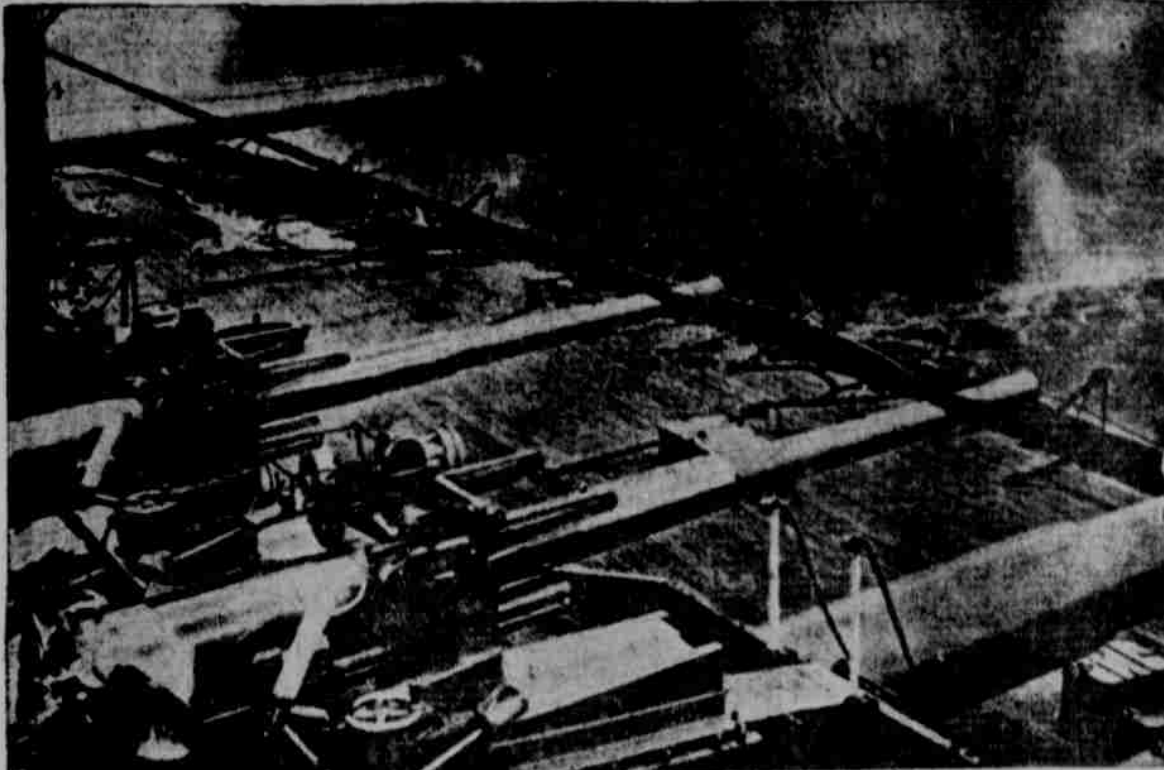

MURPHY INCONSPICUOUS IN COMMITTEE MEETING

Albany, N. Y., Oct. 6.—The first meeting of the new democratic state committee held here today was extremely harmonious. All of the officers, including Chairman William Church Osborn, were elected unanimously. The announcement of Governor Glynn that he would assume the state leadership and declaration that the national administration was behind the state ticket were greeted enthusiastically.

Charles F. Murphy, leader of Tammany hall, spoke only once, when he answered to his name when the roll of committeemen was called.

MAYOR DAHLMANN NOW ENDORSES PRESIDENT

Omaha, Neb., Oct. 6.—Mayor James C. Dahmann, for many years democratic committeeman for Nebraska, tonight voiced his approval of the action taken by Henry Watterson and Col. George Harvey in assuring President Wilson of their support despite pre-convention opposition to Mr. Wilson's candidacy. Mayor Dahmann joined Mr. Watterson and Colonel Harvey in opposing President Wilson's nomination at Baltimore. The mayor stated tonight that he was fully in accord with the president's policies and that he had so expressed himself while in Washington recently and in addresses to meetings of democratic adherents in this state.

BULL MOOSERS OF BAY STATE PROHIBITIONISTS

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Boston, Oct. 6.—The progressive party at the state convention today declared in favor of national prohibition. This stand was taken only after a sharp discussion during which some of the speakers hinted that prohibitionists of the liquor interests were on the convention floor.

Joseph Walker of Brookline, the primary nominee for governor, had endorsed the incorporation of the prohibition plank in the party platform. Charles Sumner Bird of Walpole, progressive candidate for governor in the last two years, opposed the idea in an address in which he questioned the moral right of the government to prohibit the use of alcoholic drinks in this country.

ROOSEVELT'S NEPHEW IS RE-ELECTED CHAIRMAN

Albany, N. Y., Oct. 6.—At the progressive state committee meeting here tonight Theodore Douglas Robinson of Herkimer, a nephew of Colonel Roosevelt, was re-elected state chairman. Among the vice chairmen elected was Miss Anna Thomas of New York.

M'FIE IS RE-ELECTED PRESIDENT OF SOCIETY

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Oct. 6.—At the annual meeting of the New Mexico Archaeological society held this evening, Judge John H. McFie was re-elected president and Paul A. F. Walter, secretary. The following were admitted to membership on vote of the society: James Wood, Mount Kisco, N. Y.; W. R. Christmas, Astor, Mrs. L. W. W. Wilson, Philadelphia; J. H. Gorky, Davenport, Iowa; Mrs. Edward A. White, Bryn Mawr, Pa.; Mrs. W. H. Bartlett, Los Angeles; Miss Esther Kenmore, O'Brien, Texas; Miss McNamara, Knox City, Texas; Mrs. D. K. Porter, Delta, Colo.; Charles F. Gage, Arizona; Miss Olive M. Percival, Los Angeles; John C. Lewis, Dallas, Texas; Daniel H. Wetherill, Fall River, Mass.; Bruce Draper, Boise, Idaho; Mr. E. G. Trowbridge, Winnetka, Ill.; Miss Frances Grace Smith, Smith college, Northampton, Mass.; Jonathan R. Dierich, Denver; H. W. Brown, Boise, Idaho; Dr. R. W. Corwin, Pueblo, Colo.; Miss Alice C. Fletcher, Washington, D. C.; Eleanor Johnson, New York; Mrs. Sophie Abernethy, New York; Mrs. W. H. Swan, Colorado Springs; Mrs. Philip Loomis, Colorado Springs; G. D. Penley, Estancia.

After the meeting, stereopticon views of Roosevelt and surroundings, collected for the San Diego exposition by the New Mexico commission were thrown upon the screen and delighted the audience with their vividness and beauty. The slides are all hand-colored and the most beautiful thus far exhibited. They gave a very graphic idea of the wonderful resources and attractions of the lower Pecos valley, especially the artistic wall section tributary to Roosevelt.

In the audience was Eleonora Martinez, a San Dieguito Pueblo Indian who had just returned from San Diego where he has been at work on the Santa Fe exhibit in charge of Jesse Schumann of the School of American Archaeology. He described the exposition city as one already of marvelous beauty, not the least noteworthy feature of which is the massive new Mexico building.

Big Delinquent Tax Sale.

Santa Fe, Oct. 6.—Forty thousand dollars worth of property was sold for delinquent taxes by Treasurer W. W. Cox at Las Cruces yesterday. Cox has already collected \$50,000 in delinquent taxes, the collections on Saturday amounting to more than \$10,000. Cox deposits his balances daily and draws for the county two and a half per cent interest. He was authorized by the court to close any business house that had not paid its taxes up to 10 a. m. yesterday and there was a frantic rush for his office to square up with state, county and town.

SIXTY FOREIGN SHIPS ADMITTED TO REGISTRY

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Washington, Oct. 6.—Sixty foreign built vessels with an aggregate of 273,781 gross tons have been admitted to American registry, according to an official announcement tonight by the department of commerce. Great Britain has suffered most as fifty-four of the vessels previously sailed under the British flag. Four German vessels and two Belgian complete the list.

An analysis of the list shows 57 of the vessels operating in Atlantic waters, the remainder being Pacific coast liners. Nineteen are passenger steamers and 37 are freighters. Four are not included as in either class. Three sailing schooners, able ships and two barges are included.

The steamship Oceana, with a displacement of 7,796 gross tons, is the largest of the vessels transferred to American registry, while the schooner Roseway of 291 tons displacement is the smallest. Both were formerly under British registry.

SLAVERY EXISTS IN PHILIPPINES; REFORMS NEEDED

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Washington, Oct. 6.—Charges that slavery now is practiced in the Philippine archipelago despite legislation by the Philippine assembly to check it, were made in the house today during debate on the Jones Philippine bill which occupied representatives virtually the entire day. An amendment by Representative Cooper finally was adopted declaring that "slavery shall not exist there except as a punishment for crime."

Other amendments, adopted prohibiting plural marriages and provide that civil and political rights in the islands shall not rest upon any religious test. They also prohibit the use of public funds or property for religious institutions or instruction and provide that private property shall be taken for public use only when just compensation is made. Primogeniture also is prohibited.

Two Boys Rob Bank.

Oklahoma City, Okla., Oct. 6.—Two youths, said to be robbers who today held up officials of the Farmers and Merchants' National bank at Tuncalo, Okla., and escaped with \$2,457, were captured late tonight by a posse of their names. It is stated that more than \$2,000 was found hidden in their clothing.

IF BACK HURTS BEGIN ON SALTS

Flush your Kidneys occasionally if you eat meat regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally with a well-known authority. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headache, liver trouble, indigestion, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache to the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, tremulous of passage or attended by a sensation of stinging, get about four ounces of Jaid Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in urine so it no longer causes irritation; thus ending bladder disorders.

Jaid Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

No matter what you want it will save you time and money if you use the Journal's want columns.

HUGE AREA IS COVERED BY LAND OFFICE FILINGS

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Oct. 6.—Filings in the federal land office during the month just past covered almost 50,000 acres, or to be exact, 46,554,741 acres, the filing fees amounting to \$3,000.00.

The number of filings was 248 of which 101 were original homestead entries covering more than 27,000 acres in Bernalillo, Santa Fe, Rio Arriba, Taos, San Juan, San Miguel, Mora and Colfax counties. There were only four original desert land entries covering 350 acres. Of the thirty-four state selections covering 13,000 acres, two were for the Santa Fe Grant counties land grant and thirty-two indemnity school land selections. There were two isolated tracts of 200 acres, and committed homestead of 120 acres, twenty small holding claims, 100-501 acres, two applications to amend, 39 acres; one subdividing farm entry of 120 acres, and eighty final homestead entries covering more than 12,000 acres. In other words, homesteaders and dry farmers continue to come into New Mexico and are rapidly reducing the area of available public lands.

OGLESBY REARRESTED ON ORE THEFT CHARGE

(SPECIAL DISPATCH TO MORNING JOURNAL) Silver City, N. M., Oct. 6.—John L. Oglesby, part owner and until recently superintendent of operations for the P. & M. Mining company at Dinah, Ariz., awaiting the Lancaster mine, has been rearrested charged, with larceny of gold ore from the mine.

Oglesby's second arrest, followed the recovery of between \$5,000 and \$6,000 in high ore which was found buried at the foot of the corral at the Oglesby home at Dinah. The arrested man was held in a bond of \$2,500 for a preliminary hearing set for next Friday.

Oglesby's two sons and a Mexican had been previously arrested on a similar charge following investigations of alleged widespread high-grading at the Lancaster mine.

GREEKS REFUSE TO RECOGNIZE ACTION

(BY MORNING JOURNAL SPECIAL LEADER WIRE) London, Oct. 6.—The Greek government, in reply to the Turkish note announcing the abolition of the capitulations granting extra territorial rights to foreigners states that they can not be abolished by one side only. The Greek government adds, nevertheless, that it is prepared to enter into parleys with the Porte for a modification of the old treaties and the conclusion of new ones.

Visitors at Museum.

Santa Fe, Oct. 6.—Robert L. Snowden of Toronto, Canada, who visited the oldest city in the United States, San Augustine, Tex., today was a visitor in the national oldest city, and was interested in history and archeology, naturally visited the Palace of the Governors. Others who were interested at the Museum of New Mexico today were Gus T. Jones, San Angelo, Tex.; D. A. Ponding, Salt Lake City; W. B. Robb, Amarillo, J. W. Everett, Gallup; T. A. Bray, El Paso; Frank Brownholtz, Clovis; Edward Flannery, Tucuman; Clyde B. Johnston, Keosauqua, Ark.; Alfred Dunn, Bridgeport, Conn.

Forget Babies for Animals.

Atlanta, Ga., Oct. 6.—The humane societies for the care of children have decreased a number during the last year from 215 to 207, while 80,000 deaths devoted to the protection of animals have increased from 120 to 121, according to reports submitted today at the opening of the annual convention of the American Humane association.

Heavy Damages Awarded.

Santa Fe, Oct. 6.—J. A. Ankenbauer was awarded \$14,250 damages in a suit against the El Paso and Southern railroad for injuries received between Alamosa and El Paso while in the employ of the company.

Alleged White Slave Indicted.

Santa Fe, Oct. 6.—The federal court this morning returned an indictment for violation of the Mann white slave act. But as the accused man is not under arrest and is out of New Mexico at present, his name was not made public.

HEINZE TELLS WHY HE OBJECTS TO GOULD NOTES

Witness in Trial Declares Value of Bank Stock Was Misrepresented to Him; Admits Poor Management.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) New York, Oct. 6.—H. Augustus Heinze took the stand in his own defense in the supreme court today in the suit brought against him by Edwin Gould to recover the proceeds of promissory notes aggregating \$1,000,000 and interest alleged to have been given by Heinze to Gould in payment for stock of the Mercantile National bank of this city. Heinze claims he was induced to buy the stock through misrepresentation of its value.

Induced to Buy Stock.

Mr. Heinze testified that as an inducement to purchase eight thousand shares of stock in the bank he was offered the presidency at a salary of \$20,000 a year. He accepted, he said, but as he was president or director in twenty or twenty-five mining corporations in the west he found little time to attend to duties in the Mercantile bank and turned them over to the vice president, Miles O'Brien. Heinze declared his salary went to pay for the stock he purchased. At no time, he added, did he examine the bank's assets or liabilities.

Charles W. Morse at Trial.

Charles W. Morse, present at the trial today, said he has been subpoenaed as a witness. Morse figured in the story Heinze told on the stand. Heinze testified that in 1896 Edwin Gould and a man named Taylor offered him the presidency if he would buy stock and referred him to Morse or O'Brien. Heinze said he went to Morse and O'Brien and that the former, then chairman of the finance committee, told him the bank's stock was worth more than the quoted price because there was \$1,000,000 in buried assets—assets not appearing on the bank's statements. O'Brien confirmed this statement, Heinze said, and on Morse's recommendation Heinze purchased the stock.

Ousted From Presidency.

Under cross-examination Heinze said he and Morse controlled about 14,300 shares of the bank's stock. He said it was true that the deposits, which were \$20,000,000 when he took the presidency, had dwindled to about \$5,000,000 when he resigned in 1897. Asked why he resigned, he replied:

"I was told to get out by the New York clearing house committee, and I got out."

LONG AND SHORT HAUL ORDER IS NOW UNDER FIRE

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Chicago, Oct. 6.—The controversy over the long and short haul clause of the interstate commerce act was reopened today before Henry Thibault, special examiner for the commission. Transcontinental roads are asking for a modification of the clause which prevents them from making a special rate to the Pacific coast without any changes in their rates to intermediate points.

The railroads through Paul P. Hastings, assistant general freight agent of the Alton, Topeka and Santa Fe, sought to prove that it would be impossible to compete with water competition under the present clause, because of the opening of the Panama canal.

ARCHDUKE'S FAVORITE KILLED IN BATTLE

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Rome, Oct. 6. (Via Paris, 11:18 p. m.)—The body of Capt. Engelbert Fitz has been brought to Vienna, according to a dispatch from the Austrian capital. Captain Fitz, who was killed in an engagement against the Serbians, was the last aide appointed to Archduke Francis Ferdinand prior to his assassination at Sarajevo. He was in an automobile following the archduke at the time of the tragedy.

Baron Hohenhausen, a member of the archduke's staff, gave to Captain Fitz a snuffbox set with diamonds, saying that it was a gift which the archduke had intended making to him personally. The snuffbox was found on the Austrian captain's body, stained with blood.

SIMPLE WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, you get about four ounces of plain, common liquid aryon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and itching of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look all ten a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it.

SUPREME HEAD OF SHRINE TO BE HERE TODAY

Imperial Potentate Fred Smith and His Party Will Arrive This Morning; Big Entertainment Planned.

Fred R. Smith, imperial potentate of the A. A. O. N. M. S. of North America, and his party, made up of Shrine officials, will arrive here at 7:35 o'clock this morning on Santa Fe train No. 16. They are coming from the Grand Canyon of Arizona, where the Arizona Nobles held a ceremonial session.

The Nobles of Balut Abbad temple, at an informal meeting last night made arrangements for the entertainment of Mr. Smith and party. The fact that they are to arrive this morning instead of the afternoon, as was first announced, gives them more time to show the officials a good time and the Shriners quickly seized the opportunity.

Banquet at Alvarado.
The officials will take breakfast at the Alvarado hotel with Shriners of Balut Abbad temple. A parade is to be held at 2:30 o'clock this afternoon. Nobles and novices were requested to meet at the temple at 1:30 o'clock.

The business session will be opened at 6 o'clock and this will be followed immediately by the ceremonial and banquet at the Alvarado hotel. All Nobles who have the "blue-and-white" cards will be entitled to banquet tickets. These may be obtained from the arrangements committee at the temple.

10 TONS OF PAPER FOR NEW MEXICO BOOK RECEIVED BY KOEHLER

Over a carload of paper has been received by A. E. Koehler, Jr., commissioner of publicity for the official book of New Mexico for use at San Diego. This lot weighs over 50,000 pounds and will give a slight idea of the vast amount of printed publicity that will be used at San Diego by the commissioner of publicity. Nearly half a million pieces of literature will be handled by the visitors.

"Every visitor that enters the building whenever possible will be given a personal interview by one of my staff," said Mr. Koehler, "and handed a piece of literature. There will be over 100,000 individual county pamphlets containing the resources of each separate county and nearly 100,000 bound books containing the resources of the twenty-six counties and a concise history of the entire state. This will be the largest publicity effort ever made in New Mexico. Each book will contain over 200 pages printed on handsome plate paper and profusely illustrated."

The first section of the book is just off the press. It contains the story of Luna county and Deming.

BLAINEY RETURNS FROM SUCCESSFUL BUSINESS TRIP THROUGH KANSAS

James A. Blainey, secretary and general manager of the Interstate Casualty company, has returned from a business trip through Kansas and Texas which was successful in the highest degree and bids fair to mean much for the future of his company.

The Interstate company was able to comply with the very stringent regulations of the Kansas insurance laws and is now doing business in that state. Mr. Blainey reports that a gratifying business was written during his stay in the Sunflower state and that the Texas business of the company is going along with a boom.

The company is contemplating Arizona at an early date, as a large amount of its stock is held in that state.

PUBLIC INVITED TO ATTEND MEETING OF TUBERCULOSIS SECTION

The general public is invited to attend the meeting of the New Mexico Society for the Study and Prevention of Tuberculosis at the Commercial club this morning. This meeting is in conjunction with that of the State Medical society.

Several papers are to be read by physicians dealing with every phase of tuberculosis, and they will be instructive to the laity. The papers will be discussed by authorities. The meeting will begin at 9 o'clock.

The medical society held its annual banquet in the ball room at the Alvarado hotel last night. The society will elect officers this morning.

THREE TENTS AT TROOP CAMP ARE SET AFIRE

Three large Sibley tents in the Troop K camp in Hopewell field were set afire Monday night, probably by sparks from a locomotive. The fire was discovered in time to save two tents. One was completely destroyed. The guard and soldiers, roused from sleep fought the fire, throwing buckets of water on the blazing canvas.

4 WORLD'S RECORDS SMASHED AT RACE MEET AT LEXINGTON

(BY MORNING JOURNAL SPECIAL LEASED WIRE).
Lexington, Ky., Oct. 6.—A large crowd saw four world's records smashed today, the second of the grand circuit meeting. Peter Volo, in winning the \$14,000 Kentucky futurity for three-year-old trotters, set three new marks when he lowered the world's record for three-year-old trotters to 2:03 1-2, at the same time setting a new mark for the fastest third heat for a three-year-old trotter and the fastest three-heat race for a trotter of any sex at that age.

Tommy Horn, winning the 2:09 trot, postponed from yesterday, trotted the fastest seventh heat on record of 2:04 1-4 in winning the October prize in straight heats from Ross B., the only other starter, her time being the same in both heats.

Peter Volo was pushed in the first two heats by Lee Axworthy and in the third by Lady Wanetka, but led all the way in each. His fractional time in the third was 32, 1:02 1-2, 1:32 1-4, 2:03 1-2. Uhlan, the world's fastest trotter, was given an ovation when ridden around the course by his owner, C. K. G. Billings.

The 2:14 trot went seven heats and finally was won by Harry J. S., the son of Admiral Dewey taking the fourth, fifth and sixth heats. Andral the third and Silk Hat the first and second. Fred Mac won the first heat of the 2:14 pace and the Assessor took the next two, the race going over until tomorrow.

Sox and Cubs Play Today.
Chicago, Oct. 6.—Chicago baseball enthusiasts were on the qui vive tonight for the opening tomorrow of the city series between the Chicago National and American league teams. Advance sales of seats for the opener at American League park indicated that there would be no empty places in the stands tomorrow.

Langford Stops Bell.
Boston, Oct. 6.—Sam Langford, the negro heavyweight, tonight knocked out Colin Bell, of Australia, in the fourth round of a scheduled twelve-round bout. The men fought a fifteen-round draw in Australia a year ago.

Cross Defeats Mohr.
New York, Oct. 6.—Leach Cross, of New York, outfought Walter Mohr, of Brooklyn, in a ten-round contest in Brooklyn tonight. Cross weighed 138 pounds, two and a half pounds more than his opponent.

CONVICTED MEN ARE SENTENCED TO LONG TERMS

West and Parra Must Pay Heavy Penalties for Crimes of Which They Were Convicted in Grant County.

SPECIAL DISPATCH TO MORNING JOURNAL.
Silver City, N. M., Oct. 6.—Two men, both convicted of murder in the second degree, received identical sentences in the district court of Grant county today. They were Augustus West, found guilty of the murder of George C. King, a Minnery ranchman, in July last, and Francisco Parra, convicted of the murder of Nicolas Hoyt at Puerro last August. Both were sentenced by Judge Nebblett to serve not less than eighty nor more than one hundred years in the state penitentiary.

Noah Graham, a negro trooper of the Ninth U. S. cavalry, who on September 19 shot and killed a fellow trooper at Hachita and seriously wounded two others in a drunken quarrel, was given a sentence of from fifteen to thirty years in the penitentiary. Graham pleaded guilty to information charging murder in the second degree. Because of extenuating circumstances leniency was shown him.

FIRE ENGINES WILL MAKE SPECTACULAR RUN BEFORE CAMERA

The fire department's run, which is to be "filmed" for the San Diego exposition, is to take place between 2 and 3 o'clock this afternoon.

Owing to the crowded condition of the streets the engines will not race, but a fast run will be made. A E. Koehler, Jr., commissioner of publicity for the New Mexico board of managers, warns the public to "look and listen before crossing the streets" between the hours named above this afternoon.

The films to be produced this afternoon will show the visitors at the San Diego fair the modern fire apparatus with which Albuquerque is equipped and inspire confidence in the prospective homebuilder in the matter of fire protection.

Chase Bell, the board's motion picture operator, has gone over the ground carefully and will not miss a spectacular detail of the run. Col. R. E. Twitchell, president of the board, wants every feature in the film.

AS TO PRAYERS FOR PEACE.

Editor of The Journal: I notice that you preached a "sermon" at the university yesterday on the necessity for prayers for peace. Do you believe there is any power in the universe that interferes in the affairs of mankind? Do you believe that the sun and the moon stood still at the command of Joshua? Do you believe that the whole world was created in six days? Do you believe that the heavens and the earth were created in six days? Then exhortation of special providences in the affairs of the world, please let us know about these things.

A READER OF THE JOURNAL.

East Las Vegas, Sept. 4, 1914.

The editor of the Journal did not preach a "sermon," as the report had it, but gave a little talk on the "Hand of God in the War."

The Journal has no disposition to enter into a controversy on the subject of miracles. It is a secular, not a religious, newspaper. A debate, where the opponent indulges in negative reasoning, is not an inviting undertaking. It could not be a profitable one.

President Wilson, in his call upon the people of this nation to observe a day of prayer, had precedent of the highest order in the history of our own nation for so doing. During the civil war, President Lincoln twice called upon the people to observe days of prayer for peace. Also he has authority in the Bible for believing that such prayers are answered.

We may sneer at the Bible. To do so is something of a fashion just now. But all of us must admit, whether or not we believe the Bible inspired by supernatural wisdom, that it is wonderfully in harmony with the needs and the best aspirations of man. If the authors of the various books were not directed by a higher wisdom than that of man, they were the wisest men who ever have lived upon this earth.

As Jeremiah lay in prison he wrote:

"Call unto me, and I will answer thee, and show thee great and mighty things, which thou knowest not."

It often occurs that when people have been in their worst condition, the best of God have been discovered. John Bunyan's "Pilgrim's Progress" came from a prison cell. Nehemiah mourned over the destruction of Jerusalem. The thing preyed on his mind, and he decided that he would do something himself. He resolved to set a time to pray—he, himself—for the saving of Jerusalem. He made his prayer, and the opportunity for an answer came in an unexpected way. He was the cup-bearer to King Artaxerxes who noticed the sad expression of his face and inquired as to the cause.

"So I prayed to the God of Heaven," says Nehemiah. He answered the king "I long to build Jerusalem's walls. Give me all the help thou canst." The help was given and the walls were rebuilt.

Before issuing the Emancipation proclamation, President Lincoln called his cabinet together and submitted it. He told the members that he only wanted their opinion as to the wisdom of the document, not as to the advisability of issuing it. He said, according to the memoirs of his secretary of the navy, Gideon Welles, "I have made up my mind to issue the proclamation. I bowed to God that if He would give me victory, I would free the slaves. Grant has succeeded in the south."

We can well imagine President Wilson, in a similar crisis, making confession of similar simple faith in God. We cannot imagine such thing in that earnest way, at least, from a man like William Howard Taft or Theodore Roosevelt. This is a materialistic age, but there are still millions of people among us who believe that a Divine Providence keeps watch over the affairs of the world.

Professor Farnham, of Joliet, Ill., is making experiments to test the speed of snails. When the professor finishes that, he ought to take up the speed of the office boy.

THE BURDEN UPON LABOR.

War is a disease of nations that are obsessed with militarism, but nations that are devoted to peace help pay the bills.

Labor pays most in all countries, belligerent or neutral. It furnishes food for cannon in the field. It

pays with lives and wounds and exposure in the trenches, with the privation of wives and children robbed of food and education at home.

The payment does not end with the restoration of peace. Labor bears the heaviest burdens of the towering debt that follows. Wages may rise with the slaughter of workmen, but cost of living rises more with the higher taxes and interest rates.

No war ever has made it so clear as this one, how the burden is shifted upon innocent neutrals by the automatic operation of economic law. The savings of the people of Europe which have financed the development of new countries are swallowed up in war waste. Credit has been withdrawn from South America and hundreds of millions of dollars worth of American securities are flowing home.

Our reserves of prosperity will carry the securities and replace the credit which has been withdrawn from South America now. We shall gain trade for our manufacturers by Europe's wretched sacrifice of hers. We shall learn to make our own products of scientific industry instead of importing them. We shall get a share of the world's ocean trade, which our navigation laws have hitherto denied us. But those who see these gains most clearly are in no delusion about the price America pays for them in its share of the incredible waste of war.

Here is strong material reinforcement of the impulse that causes agitation for peace. War has diminished with the growth and spread of democracy. The time is coming when those who pay for war will have a determining voice in the making of it.

If Mr. Ely believes the Journal started talk of the race issue, he should have listened to a few speeches by the Hon. Modesto Ortiz, read the columns of the native newspaper published at Hermosillo and have some one tell him of a recent speech of the Hon. O. A. Larrizola in which he said, "methinks I now can hear the tramp of the conquistadores."

PREFERENTIAL PRIMARIES.

Preferential voting in primaries has been in operation longest in Wisconsin and Washington. In both states it has thrown the nominations into confusion. Washington is as tired of it to judge by the sentiments expressed in the press, as Oregon is of direct legislation. In Wisconsin it has not saved La Follette and the progressive republicans who brought it about.

There is little doubt that some sort of primary law will be passed by the next legislature. It should be confined to prescribing rules for the selection of delegates to county and state conventions. The recent primaries in Bernadillo county demonstrated clearly how necessary such change is for New Mexico. An open and above board effort was made to disfranchise a large part of the republican voters. The methods were so rotten that they exposed themselves by the very stench of them.

But when it comes to preference primaries for candidates, that is a different matter. The practical effect of them is to multiply candidates and increase division. It becomes practically impossible for any one, except a rich man, to bear the expense of two campaigns. Electors usually have no real second choice and often vote for weak candidates, where that sort of preference is expressed, if they think him weakest, to improve the chances of their real choice. Sometimes a figural candidate is set up by the united friends of one candidate in order that the opposition may be divided.

The preferential vote confuses the mind of the electors, excludes many honestly intended but imperfect ballots from the count, causes defection from party and adherence to men instead—just as we have in Mexico the Diazistas, the Carranzistas, the Villalistas and the likes.

Almost any man ought to be able to get something of a reputation by asking to have his taxes raised. One did it in Cleveland, Ohio.

NEW MEXICO HONORED AGAIN.

The people of New Mexico have a right to be proud of the new recognition accorded this state by the federal government in the appointment of Felix Martinez as director of the regional reserve bank of Dallas, Texas.

Mr. Martinez understands the banking business. He is a man of wide business experience and remarkably clear judgment on any matter to which he directs his attention.

But the best thing of it all is that in Mr. Martinez the board of directors has on it a man thoroughly informed as to the needs of the southwest and of the conditions under which credit should be extended.

The present administration has extended signal recognition to New Mexico. With Hon. A. A. Jones as first assistant secretary of the interior, Hon. L. L. Long, one of Uncle Sam's ministers to South America, and Felix Martinez, first chairman of a diplomatic mission to Latin America and now as a federal director of one of the twelve regional reserve banks of the country, is spreading it on pretty thick for a new state, with only about 200,000 population.

Estimates of the attendance on campaign meetings remind one of the estimate of the losses in battle as revised by the censor.

With Scissors and Paste

KINGS AT THE JUDGMENT BAR.

(From a sermon by Washington Gladden, August 16.)
 I doubt not this war will bring to the world at large some great gains—gains not sought by any of these combatants—gains not desired by most of them—gains won in spite of them all.

It will bring, in the first place, such a demonstration, not only of the horrors of war, but of its futility, its stupidity as the arbiter of international relationships, that there will be a mighty revolution against war, and that we shall soon realize that we have seen the beginning of the end of it.

It will bring home to us, also, in the suffering which we shall undergo through the rupture of all these industrial relations, and the interruption of human progress, and the dislocation of so much of the order of the world on which we have learned to depend, the truth that for the world-industry and world-commerce and world-finance and world-peace, we must have a world peace.

It will bring the kings of this world and their ministers and their chancellors—those of them especially who are most responsible for this outbreak—to the bar of the world's judgment. It will convict them of the most stupendous blunder and the most ghastly crime of history. It will demand of them very pointedly what reason they have to offer why they should not have their power considerably restricted. It may not induce upon them crowning them, but it is pretty sure to give them notice that they have come into a new world-order, where nations are not plunderers of one another, or overlords of one another, but members one of another—in which

Each Christian nation shall take upon her the law of the Christian man. The crown of the getter shall fall to the donor. And last shall be first, while first shall be last. And to love best shall still be to reign unopposed.

MENELIK'S JUSTICE.

Every time King Menelik of Abyssinia was reported dead again, the news recalled the Solomonian manner in which the dusky potentate meted out justice. Once two of his subjects went to an orchard to gather fruit. One climbed the tree and shook the fruit down, while the other gathered it. Finally the branch on which the treacherous one was sitting broke, and he fell on his companion, killing him.

Under the Abyssinian law, the relative of the dead man demanded a life for a life, declining the proffered blood money. The case went into

court and finally reached King Menelik. When he had heard all the evidence in the case, he delivered his judgment thus:

"You are within your rights in demanding the life of the accused. But the law says distinctly that he must be killed in exactly the same manner as was his victim. Let one of the dead man's relatives climb a high tree and fall on the accused until he has killed him."

There being no volunteers, the accused was set free.

CONSTRUCTIVE DIPLOMACY.

(New York Evening Post.)

A certain diplomat, perceiving that the peace of the world (loud laughter) depends upon a nicely adjusted equivalence of martial bristling on the part of the powers severally, was much concerned over the propensity of superdreadnaughts to become obsolete almost before they can be got into the water. "A superdreadnaught which isn't up to the minute no more makes for peace," he confessed, "than a last year's cat makes for social prestige."

He thought a moment. "The amount of it seems to be," he reflected, "that obsolescence as it affects naval construction is too vital a thing to be left to develop in its own way." A little more and inspiration descended upon him. "What we need," he declared, "is a great many international conventions regulative of the growth of time, so to render its moribundancy less marked."

In short, he was from that moment among the rare company of the world's really constructive diplomats.—New York Evening Post.

NATIONAL POINT OF VIEW.

There is every ground for confidence that the general banking interests of the country have been handled with care, ability and real patriotism. Baltimore News.

The rivers and harbors bills have inaugurated many of the most advantageous internal improvements that we have today in the United States.—Detroit Free Press.

The United States, only moderately prepared for war, is in less danger of catastrophe than Germany has been since she undertook to achieve military supremacy.—Louisville Courier-Journal.

Senator La Follette of Wisconsin, for many years a progressive leader, has been defeated by a standard republican. La Follette has become too much of a boss, and the American people, sooner or later, turn horses down.—Omaha Star.

Self-preservation is the first law of nature. The republicans of Pennsylvania owe it to themselves and to the republicans of the nation to fear the mask off Duane Benson and to prevent his ever holding office again as a republican.—New York Tribune.

The house of representatives should end its paltering over the bill authorizing the issuance of \$50,000,000 in bonds of the Panama Railroad company for the purpose of establishing an American merchant marine. If anything is to be done for the restoration of our flag to its ancient position on the ocean it must be done now.—New York American.

The New Haven railroad was wrecked under a management dominated by banking interests.

George F. Baker and William Rockefeller have now followed J. P. Morgan in retiring from the board of directors, and in their retirement have won a practical admission that banking control of railroads has broken down in this particular case.—New York World.

Although the Herd rarely advocates anything which tends to increase federal expenses or to enlarge the army of placeholders, we would make an exception in favor of purchasing Monticello, of which Mr. Bryan came out yesterday in advocate. This is no ordinary estate.—Boston Herald.

Secretary McAdoo has conducted the government's side of the "emergency expedients" since the war began, with promptness and judgment.—New York Evening Post.

ALL WORKING TOGETHER.

(Henry Progress.)

Whatever promotes the material welfare of the largest number of people is an essential of good government and it is of good education and of good religion. Good citizenship is not a fierce struggle in our business to take all the other fellow has and then endow a school and a church for him to go to for consolation.

The Victors.

"I met in Milan," said a returned tourist, "Gen. Angelo Gatti, the famous Italian tactician. Gatti talked luminously on the war. This, remember, was about September 1."

"General Gatti said that the allies in France had been too audacious at first—hence their hard luck. He said they had now learned their lesson, and were doing better."

"In warfare," said General Gatti, "the rules are unchangeable. The tides are crushed. Victory crowns those alone who mingle rashness and timidity together—those, so to speak, who run risks at a slow walk."

The Impossible.

"You can't expect the French to do the impossible," said Mayor Preston at a luncheon in Baltimore. "The French are fighting bravely, but they can't do the impossible. They're not like Casey's dog."

Casey was bragging about a dog he once had.

"We had a fire at our house one night," said he, "and Towser, that brave dog of mine, rushed in and saved my four children, one at a time, and then, just before the roof fell in, he made a grand fifth rush, and brought out in his mouth the fire insurance policy."

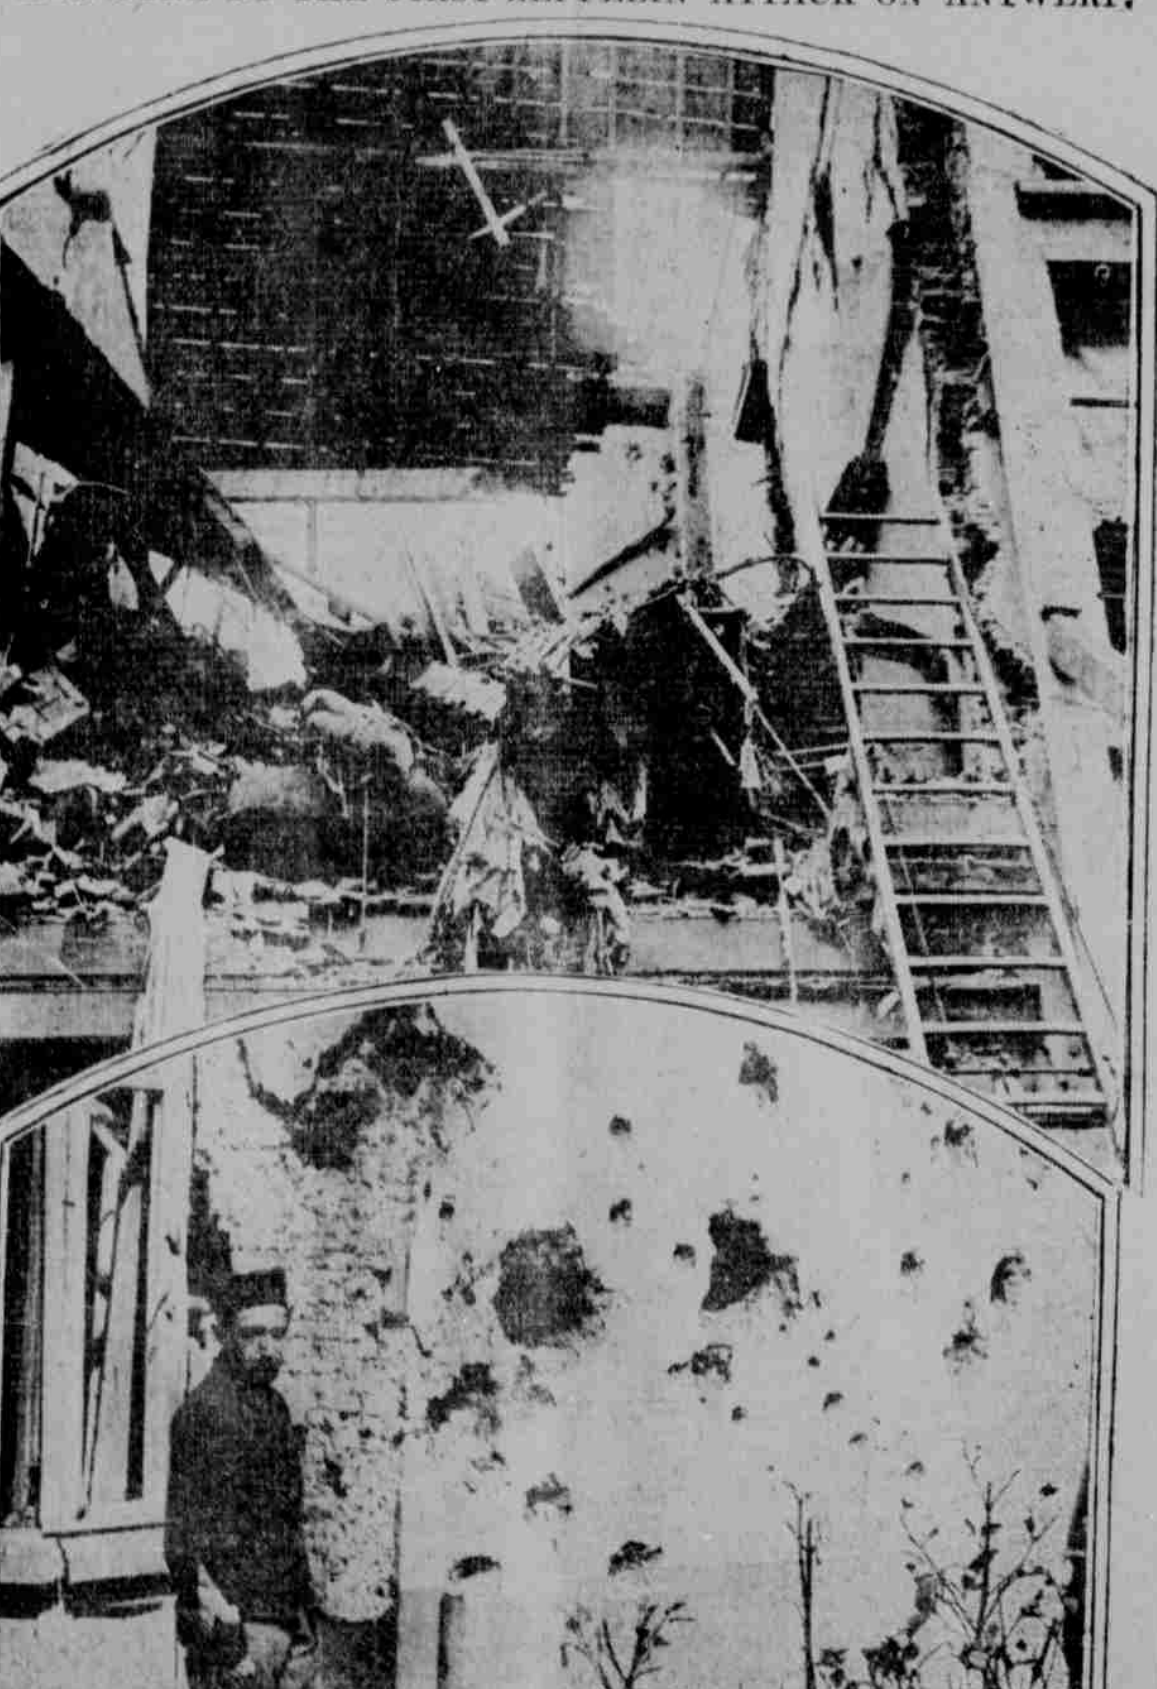

The Villain.

Channing Pollock cites a certain melodrama, produced a few years ago on Fourteenth street, as containing the basest and most inconsistent villain ever created.

In the first act he tied the beautiful heroine to a railroad track just as the limited was due. In the second he forced her into an old house, locked her in an upper room and set the place on fire.

In the third he strapped her under a bus saw and set the machinery in motion. In the fourth he tore the planking out of the Brooklyn bridge,

FIRST PHOTOGRAPHS RECEIVED IN AMERICA SHOWING THE DAMAGE DONE BY THE FIRST ZEPPELIN ATTACK ON ANTWERP.

These are the first photographs to be received in America showing the damage done by the first Zeppelin bombardment of Antwerp. In the upper picture is shown a wrecked house, showing the hole in the roof where the bomb fell; the lower picture, the wall of house about ten yards from where a bomb exploded. Fragments of the bomb passed through this thick wall.

May Help if You Have Tuberculosis

Proper diet, fresh air and moderate exercise will overcome Tuberculosis. Dr. E. M. Allen's "The Tubercular Diet" is the best. It shows that E. M. Allen's diet has brought about many recoveries. Read what it did in this case.

Madison Lake, Minn.
 "Gentlemen:—In December, 1909, I was taken with tuberculosis of the lungs, which confined me several weeks. I was told to my bed. My doctor advised me to go to bed. In November I started for Denver, Colo. After my arrival I met a certain friend, who, upon hearing of my condition, urged me to take E. M. Allen's diet. I kept on taking the medicine and improved fast. In March, 1910, I returned home. I am outside now, have a good appetite and sleep well. When I left Denver my weight was 135 pounds. I now weigh 145. My normal weight. I thank God and your diet for my health."

Had Insomnia So Bad I Couldn't Work"

MR. EZRA B. HAND

Duffy's Pure Malt Whiskey

furnishes to the pale and weak patient a food tonic that rapidly feeds the starved tissues, brightens the mind, and promotes sound and undisturbed sleep, because it stimulates the mucous surfaces and little glands of the stomach to healthy action, thereby enabling you to properly digest what food you eat.

"Get Duffy's and Keep Well."

It is sold by most druggists, grocers and dealers. \$1.00 a large bottle. Insist on the genuine. Valuable medical booklet and doctor's advice sent free.

The Duffy Malt Whiskey Co., Rochester, N. Y.

Mr. Ezra B. Hand suffered many years from insomnia and found no relief until he used Duffy's Pure Malt Whiskey. His letter is only one of many received from grateful users of this wonderful medicine. Read his own words:

"I have been using Duffy's Pure Malt Whiskey for several years and am still using it, and want to tell you what it has done for me. I had insomnia so bad that I could not work. I had some of the best doctors in Philadelphia, but none seemed to help me, so at last I made up my mind to try Duffy's Pure Malt Whiskey; and I want to say that it has made a complete cure in my case."—Mr. Ezra B. WHEAT PRICES DROP AGAIN ON CHICAGO BOARD

Heavy Total of Stock on Hand in United States and Canada and Lack of Export Demand Given as Causes.

CHICAGO, Oct. 6.—Notwithstanding that wheat at one time today showed substantial upturn, the bears had the advantage during most of the session. A heavy total for the stocks on hand in the United States and Canada counted against the bulls. Prices closed weak, 1 1/2c to 1 3/4c under last night. Other leading staples, too, all showed a net decline—corn 3/4c to 1 1/2c, oats 1 1/2c to 3/4c and provisions 1/2c to 3/4c.

Domestic and Canadian stocks of wheat were estimated at 100,000,000 bushels in excess of the sum of the corresponding time a year ago was after the announcement of this fact that the market took a decided downward slant, from which there was no important reaction. Disappointment in regard to fresh export business counted against the bulls. It was asserted that the demand from Great Britain and France had been well satisfied for the time being and that only Italy and Holland were active in trans-Atlantic bidding.

Speculation that export business was good and larger in volume than had been generally acknowledged formed the chief basis of a temporary advance in wheat soon after the opening. In its connection, mills northwest of here were said to have offers for immense quantities of flour. It was noted, however, that later on there were numerous orders here from the northwest to sell wheat.

Corn gave way under predictions that the government report tomorrow would show a crop advance of 50,000,000 bushels in the probable yield this season. Failure of expected rains tended also to weaken the market.

In oats sentiment was chiefly adverse to the bulls. Export call was believed to have been lighter than for several days.

Lower prices for hogs carried down provisions. A contributing influence was the slowness of the cash demand for hogs.

Closing prices: Wheat—December, 1.07 1/2; May, 1.14 1/2; Corn—December, 68 1/2; May, 74 1/2; Oats—December, 47 1/2; May, 50 1/2; Pork—January, 11.62; Lard—October, 19.50; January, 19.75; Hides—October, 10.45; January, 10.75.

Cattle—Receipts 21,000; market steady; prime fed steers, \$10.00@10.90; dressed beef steers, \$7.75@9.75; steers, \$6.00@9.25; southern steers, \$5.00@7.25; cows, \$4.75@7.25; heifers, \$5.25@9.25; stockers and feeders, \$5.00@8.40; bulins, \$5.00@6.50; calves, \$5.50@10.70.

Sheep—Receipts 18,000; market steady; lambs, \$6.20@7.35; yearlings, \$5.25@6.25; wethers, \$4.80@5.50; ewes, \$4.25@5.00.

School Closes in Tucuman.
Santa Fe, Oct. 6.—It costs \$25 a year to give a Tucuman boy or girl his education in the public schools. The total receipts of the district last year were \$18,845.66 and the expenditure, \$22,512.97, of which \$16,109 was paid out in salaries. The value of the schools is given at \$54,450; the bonded indebtedness at \$35,000. There are 146 pupils who are Spanish-Americans, two of whom are above the fifth but none above the seventh grade. There are 769 English-Americans of whom 97 are in the high school.

Governor Appoints Notaries.
Santa Fe, Oct. 6.—Governor McDonald upon his return from a trip which included Carrizozo and Las Cruces, honored requisition today from the governor of Arizona and appointed the following notaries public: F. L. Elliott, Tucuman; W. B. Hunter, Dawson; Reason W. Penn, Red River; H. Leroy Hall, Chama; Jesus S. Candelario, Santa Fe; and George Ferguson, Carrizozo.

School Census Shows Decline.

Santa Fe, Oct. 6.—Rather noteworthy is the fact that the school census of Chavez county reported to the department of education today shows another decline in population and similar to that shown by all the eastern counties except Union. The total for the county is only 5,739, or just one-half of Bernalillo county and more than a thousand less than Santa Fe county which in 1910 had more than 2,000 less population. But now, according to the school census has 2,000 more population. Last year Chavez county had a school census of 5,402. The loss is especially heavy in the city of Roswell which has declined from a school census of 2,562 to 2,388. Santa Fe again passing it with a school census of 5,341, although in 1910 Roswell had 20 per cent more population. These places Santa Fe again second among the cities of New Mexico, while Roswell drops to third place. Albuquerque with a school census of 5,097, now has exactly twice Roswell's population.

Anglo-Americans in Majority.

Santa Fe, Oct. 6.—For the first time in history, the English-Americans in Lincoln county exceed the Spanish-Americans. If the school census just returned to the department of education can be taken as a criterion, Lincoln county, too, shows a noteworthy increase from a total of 2,212 persons of school age last year to 2,419 this year, which would mean a population of 8,466 as against 7,822 in the census year of 1910. Chavez county's school census is 4,211, of whom only 149 are Spanish-American, indicating a population for the town of 1,473 as against 1,052 in 1910. In the county there are 1,253 males and 1,161 females of school age.

Woman Makes Interesting Address.

Santa Fe, Oct. 6.—Mrs. Guy S. Davis of the Presbyterian home mission board, who is in New Mexico from New York, inspecting the Presbyterian missions and mission schools this afternoon addressed a much interested audience at the Presbyterian church upon the work in this state. The meeting was under the auspices of the Missionary society. Mrs. Davis has just visited the schools and missions in Texas and Rio Arriba counties and left this evening for Albuquerque to inspect the Menaul school.

Positively Masters Croup.

Foley's Honey and Tar Compound cuts the thick choking mucus, and clears away the phlegm. Opens up the air passages and stops the hoarse cough. The gasping, straining fight for breath gives way to quiet breathing and peaceful sleep. Harold Bern, Mass., Mich., writes: "Foley's Honey and Tar Compound cured my children's croup and it always acts quickly." No wonder a man in Texas walked 15 miles to the store to get a bottle of Foley's Honey and Tar Compound. Every user is a friend. For sale by Butts's, Inc.

PASSENGERS STAY IN CARS WHEN FERRIS WHEEL ENGINE BLAZES

While the Ferris wheel at Second

street and Central avenue was run-

ning at 7:30 o'clock last night the

gasoline engine operating the machi-

nery caught fire. Several passengers

were in the cars. The wheel was

stopped and they had to remain there

until the fire was put out. They were

in no danger, and took the situation

without excitement.

Gasoline leaking from the engine

was ignited—how, Chief J. Klein

could not learn. The flames leaped

around the engine, but reached no

woodwork and consequently did no

damage. The machinery of the big

wheel is nearly all steel.

One of the men running the wheel

ran to the central fire station to give

the alarm, instead of "pulling" the

box signal at the corner where the

wheel stands.

CLOTHING CLEANER BURNED

BY GASOLINE EXPLOSION

W. L. Meadows, a clothing cleaner,

was severely burned about the head

and hands early yesterday afternoon

when gasoline exploded in his place of

business, 214 1-2 North Fourth

street. Meadows was rubbing a gar-

ment with gasoline and the friction

evidently ignited the gas.

Col. D. K. B. Sellers, who saw the

explosion from the other side of the

street, ran to Meadows' aid and to-

gether they threw the burning clothes

outside, preventing possibly a serious

fire loss. Several garments were

destroyed.

The fire was extinguished in a few

minutes and when the firemen ar-

rived from the central and Highlands

stations there was nothing for them

to do.
