HARDEST BLOW.

Boers Play Havoc With the British.

General Methuen is Held a Prisoner.

Brocklyn Postmaster Did Not Violate Civil Service Law.

FAMILY WIPED OUT.

London, March 10.—General Methuen and four guns have been captured by General DeLarey. Methuen was wounded in the thigh. Three British officers and thirty-eight men were killed, five British officers and seventy-two men were wounded, and one British officer and 200 men are missing.

The fight occurred before dawn on March 7, between Wynburg and Lichenburg, Orange River colony. The British force numbered 1,200. The Boers captured all the British baggage. General Methuen is retained as a prisoner.

The text of Lord Kitchener's dispatch announcing the capture of General Methuen is as follows:

"Pretoria, March 8.—I greatly regret to have to send you bad news of Methuen. He was moving with 900 mounted men under Major Paris, and 300 infantry with four guns and pom-pom, from Wynburg to Lichtenburg, and was to meet Grenfell, with 1,300 mounted men, at Rorivarsfontein today. Yesterday morning early, he was attacked by DeLarey's force, between Two-Boch and Palmietknull. The Boers charged on three sides. Five hundred and fifty men have come in at Mariboggs and Kraaipan. They were pursued by the Boers four miles, from the scene of action. They report that Methuen and Paris with the guns, baggage, etc., were captured by the Boers. Methuen, when last seen, was a prisoner. I have no details of casualties and suggest delaying publication until I can send definite news. I think this sudden revival of activity on the part of DeLarey is to draw off the troops pressing DeWet."

In a second dispatch dated Sunday, Kitchener says:

"Paris has come in at Kraaipan with the remainder of our men. He reports that the column was moving in two parties. One, with the ox wagons, left Two-Boch at 3 a. m. The other, with the mule wagons, started an hour later. Just before dawn the Boers attacked. Before reinforcements could reach them the rear guard broke. In the meantime a large number of Boers galloped up on both flanks. These, at first, were checked by the flank parties, but a panic and stampede of the mules had begun and all mule wagons, with a terrible mixture of mounted men, rushed past the ox wagons. All efforts to check them were unavailing. Major Paris collected forty men and occupied a position a mile in front of the ox wagons which were then halted. After a gallant but useless defense, the enemy rushed into the ox wagons and Methuen was wounded in the thigh. Paris, being wounded, surrendered at 10 a. m. Methuen is still in the Boer camp."

Then follows the number of casualties, already called. The killed include Lieutenants G. R. Venning and T. P. W. Nesham, of the Royal artillery. As Lord Kitchener announced that Major Paris surrendered and also telegraphed that he reached Kraaipan with the remainder of the men, it may be inferred that the Boers subsequently released the major and his companions.

Washington, March 10.—The civil service commission has adopted a report exonerating Postmaster Roberts, of Brooklyn, from any willful violation of the civil service law, as charged by the National Civil Service Reform League. The report was made by Commissioner Foulke, who investigated the charges.

FAMILY WIPED OUT.

Matane, Que., March 10.—Fire which originated in the kitchen of the residence of Arthur Bouchard, yesterday, caused the death of Mrs. Bouchard and nine children. Mr. Bouchard jumped from an upper story window and was about to be followed by his wife, but she failed in the attempt and perished, together with six boys and three girls, the eldest being a boy of 14 years.

GRIND OF CONGRESS.

Senator Vest Strongly Opposed the Ship Subsidy Bill.

Washington, March 10.—Mr. Burton, of Ohio, chairman of the house river and harbor committee, reported the river and harbor bill. The senate amendments to the diplomatic and consular appropriation bill were non-concurring in, and the bill was sent to conference.

The house went into committee of the whole, and the bill to classify rural free delivery service and place carriers under the contract system was read for amendment under the five-

minute rule. Mr. Swanson, of Virginia, offered an amendment providing for salaries for carriers not exceeding \$600 per annum, with the added provision, "No other or further allowance of salary shall be made to said carriers." It was adopted without division.

In the senate the ship subsidy bill was taken up. Mr. Vest made a speech against the measure and said 73 per cent of the subsidy on the Atlantic side would go to the International Navigation company. The bill would take money out of the treasury without giving any value in return.

GOVERNMENT WINNING.

They were charged with organizing in Paris a conspiracy to overthrow the sultan.

GALLUP MINES.

Coal Outlook Just Now Not the Brightest.

Gallup, N. M., March 10.—Although the coal outlook at Gallup at present is not very bright, the merchants are not doing much complaining. The Catalpa mine has closed and the hundred or more miners with their families have been shipped to Colorado. The store closed and moved into Gallup and only one watchman in possession.

Rumors are rife that the Gibson mine will be ordered closed until fall, and that the Weaver mine will work on half time. If the Gibson don't close indefinitely the present force will be greatly reduced and certain contemplated improvements put in, such as a new hoist and other machinery. Mine Inspector Sheridan is here and he says the Gibson don't close indefinitely.

The Gibson will not close, but will work on short time. He reports a fire in the Gibson about 1,000 feet from the surface. But claims that no serious trouble will result therefrom. The Santa Fe Pacific have cut all orders for coal west of Seligman, from which point oil engines are used. The Clarkville mine is working full time. Big snow last night and it is still snowing.

UNCONSTITUTIONAL.

Illinois Anti-Trust Law Knocked Out by Supreme Court.

Washington, March 10.—The United States supreme court today decided the Illinois anti-trust statute unconstitutional because of a provision of the law exempting agricultural products and live stock from the operations of the law. The decision was rendered in the case of Thomas Connelly and others against the Union Sewer Pipe company of Ohio and was delivered by Justice Harlan.

LONG RESIGNED.

Congressman - Moody the New Secretary.

Big Strike of Freight Handlers in Boston.

Prince Henry Entertained by the City of Philadelphia.

BISHOP SPAULDING DEAD.

Washington, March 10.—Secretary Long today handed his resignation as secretary of the navy to the president, to take effect May 1.

There is every reason to believe that Congressman W. H. Moody, of Massachusetts, will be Secretary Long's successor, though the announcement was made, from a reliable source, that the president had considered another name in connection with the vacancy. The portfolio was tendered Mr. Moody and he accepted.

Secretary Long's letter follows: My Dear Mr. President:

You will accept this as my resignation from the secretaryship of the navy, to take effect the first day of May next, or sooner of course, if you shall at any time so wish. It has been a most delightful service. I leave the official circle of your cabinet in which my association with you and its members has been so happy, with a high appreciation of your administration and with the most cordial good wishes for its success and for your personally.

The president's reply: My Dear Mr. Secretary:

"It is with very sincere regret I accept your resignation. I shall always count it a privilege not only to have served with you during the last six months, but to have served under you at the outset of President McKinley's administration. I have seen you in both relations, and it has never been my good fortune to have been associated with any public man more single minded in his devotion to public interest. Our relations have been not merely official, but also those of personal friendship. May all the good fortune you so richly deserve attend you wherever you may go."

When Secretary Long entered the cabinet originally, he was an active member of the firm of Hemingway & Long, a well known legal firm in Boston. He has always maintained a silent connection with the concern and will again become an active partner.

A HUGE STRIKE.

Ten Thousand Freight Handlers of Boston Refuse to Work.

Boston, March 10.—Strike of freight handlers in this city which threatens to involve 10,000 men, was begun early today. The Team Drivers' union, embracing about 6,000 men, led off and other unions followed. The strike grows out of the Brine Transportation company's trouble with a teamster which began several weeks ago, but was precipitated by the refusal on Saturday by members of the Freight Handlers' unions to take care of merchandise carted by non-union teamsters employed by the Brine company.

In view of the threatening aspect of the strike, the state board of arbitration today placed itself in touch with all concerned. The members of the board were not without hope that the opposing parties could be brought together, although the strike had come in spite of the fact that grievances of the union have been before the board in various forms during the past three months. Two propositions from the striking freight handlers were presented to the New York, New Haven & Hartford railroad this forenoon, but were rejected.

CITY WORE UP.

Prince Henry is the Guest of Philadelphia Today.

Philadelphia, March 10.—Prince Henry arrived in Philadelphia at 10:20 and was escorted to the city hall. The freedom of the city and Mayor Ashbridge's address of welcome were presented to the royal visitor, after which he was driven to Independence hall, and thence to Cramps ship yard.

Prince Henry's responded to the mayor's address as follows:

"This is but another of the many acts of kindness that have been extended to me in this country. I assure you I deeply appreciate it. I thank you for the freedom of the city which you have given me."

Prince Henry and party left at 3:35 p. m. over the Pennsylvania road for New York.

Bishop Spaulding Dead.

Denver, March 10.—John Franklin Spaulding, bishop of the Episcopal diocese of Colorado, died Sunday, at Erie, Pa., aged 74 years. His successor will be Rev. Charles S. Olmsted, who was elected coadjutor last January.

Found Dead.

Thomas K. Barger, whose home is at Bemedit, Minn., died at his rooms on South Third street yesterday afternoon of consumption. The deceased was about 35 years old and from all appearances was at the end of his resources, as only two cents were found in his clothes. His death was not unexpected as he had been in a dangerous condition for several days. Letters found among his effects show that he was a married man with children, and also that he has a farm and some live stock. The remains were moved to O. W. Strong & Son's undertaking parlors, to wait the instructions of the wife of the deceased, who has been notified.

THE LAST RITES.

Funeral Services of Walter N. Parkhurst Conducted by Masons.

Yesterday afternoon at the residence, 313 West Lead avenue, were tendered the last earthly rights of honor and love, to the remains of the late Walter N. Parkhurst. The casket was covered with beautiful floral tributes, from the many friends of the afflicted family. Rev. T. C. Beattie, of the Presbyterian church, conducted the services and in his address, though short and simple, spoke words of praise of the exemplary life and noble qualities of the deceased and consolation to the bereaved widow and son. The funeral was one of the most largely attended ever held in the city. The members of the Masonic Blue Lodge attended in a body. At the tomb the Masons took charge and performed the beautiful impressive burial ceremony observed by that order.

The pall bearers, members of the Blue lodge, were: Dr. G. W. Harrison, Dr. L. H. Chamberlin, Messrs. Thomas Isherwood, W. N. McGugin, W. H. Barney, J. E. Tingley.

There will be the regular meeting of the Shrine, at Masonic hall, Monday evening, March 10, at 7:30 o'clock. Let all nobles be present. By order of the illustrious potentate, L. H. Chamberlin, recorder.

MUST BE ENFORCED.

Gov. Otero Instructs District Attorney That Law Must be Obeyed.

GOVERNOR'S LETTER.

Considerable public interest having been aroused and many inquiries having been made concerning the action of Governor Otero in answer to the petition of the business men of Santa Fe concerning the enforcement of the Sunday law throughout the territory, and it being understood that District Attorney E. C. Abbott had received certain instructions regarding this matter from the governor and upon representing to the district attorney that it was a matter of great public interest, Mr. Abbott consented to the publication in the New Mexican of the letter in question, which is as follows:

EXECUTIVE OFFICE.

Hon. E. C. Abbott, Santa Fe, N. M. Santa Fe, N. M., Feb. 24, 1902.

Dear Sir: There has been a petition presented to me signed by nearly all the business men in the city of Santa Fe, calling my attention to the fact that Section 168, Compiled Laws of 1897, commonly known as the Sunday law, is not and has not been for a number of years past enforced except in the first judicial district; that the enforcement of this law, especially in the city of Santa Fe, works a hardship upon the business interests of said city, especially when the same is not carried into effect in neighboring towns, and kasing me to take official notice of this state of affairs and see that the law is enforced in every county in the territory in the same manner that it is in Santa Fe. As you know, this section has been constructed by the supreme court to prohibit the selling of liquor on Sunday.

You as well as I have taken an obligation that we will uphold the laws of the territory, and so long as they are upon the statute books, they must be enforced in all parts of the territory alike. You are especially charged with the duty of looking to the enforcement of this law under Section 1374, Compiled Laws of 1897, and prosecuting violators of the same. I am aware that public sentiment in regard to the wisdom of this law varies in different communities in the territory, but that cannot affect your duty, and I shall expect you to perform the same and make report to me direct of the result of your efforts. I inclose copy of petition herein. Respectfully yours,

MIGUEL A. OTERO, Governor of New Mexico.

W. T. McCreight, business manager of The Citizen, is at Gallup looking after business for the paper. He will be away till Thursday.

The city republican central committee will hold a meeting on Wednesday evening at the law office of John H. Stingle. All the members of the committee are urged to be present.

W. W. Lillie, an old resident of the city and well known in railroad circles of the southwest, died at 2 o'clock Sunday morning at his home on Baca avenue, after a long and hard struggle with consumption. He was 35 years old and leaves a wife and little daughter. The funeral was held this afternoon at the residence. Interment was made at Fairview cemetery. Rev. T. C. Beattie of the Presbyterian church officiated.

IS NOT WANTED.

No Warrant for George Musgrave.

George Massagee is in Jail Here.

The Gang Had Fortified Caves at Tucumcari and Endee.

MARSHAL FORAKER'S STORY.

"How such stories ever got started as have been printed about the arrest of Massagee and about Musgrave, I can not see," said United States Marshal Foraker this morning. Mr. Foraker and Postoffice Inspector C. L. Doran came in yesterday, bringing Massagee to this city.

"This man Massagee was one of the gang that terrorized eastern New Mexico," continued Mr. Foraker "and so were Wit Nell, J. Cook and Joe Robertson who were arrested in Arizona but the leader of the gang was Henry Hawkins. George Musgrave was not the leader, was not a member, was not a bandit and we don't want him. He has not been in New Mexico in six years. I'll stake a thousand dollars on that. How the stories started, unless it was from El Paso, I don't know. Doran could not have told it for he was with me. Then too, the man was in jail a month before we knew who he was and there was no working up the case. The Fort Sumner robbery was on January 27 and Massagee was arrested for horse stealing on February 3 and has been in jail since."

"George Musgrave is not wanted. He and a man named Parker were in partnership some eight years ago in cattle stealing. They had a brand of their own and stole calves. It got hot for them and Parker suggested to Musgrave that as he was foot loose, he skip out. Parker agreed to buy his interest and pay the money to Musgrave's mother. Then when the storm broke, all blame was to be put on Musgrave. Musgrave agreed and the scheme was carried out except that Parker did not pay the money to Musgrave's mother, but put it in his pocket. Musgrave heard of it and sent word to Parker to pay his mother or he would kill him. Parker told him he would not and one day Musgrave went over to where he was with about twenty-five cattle men. He walked up to Parker and with his left hand he took Parker's right hand, at the same time shooting and killing Parker with his right hand. No attempt was made to hold or arrest Musgrave and everyone said Parker got just what he deserved. Musgrave skipped out and has not been back since. He has had nothing to do with this affair. Massagee's confession was complete. That gang started from near Tucumcari. On top of the big mesa that runs out by the mountain there, the gang had a cave which they called Camp No. 1 and which was so fortified that they could have held off a regiment. They had another cave near Endee which they called Camp No. 2. There have been no other arrests. I know I was not responsible for the many wild stories which have been sent out. I am sure Doran was not and they must have originated in El Paso."

When first arrested Massagee gave the name of George Riley and was arrested by Ramon Cluquito, an Apache Indian, for having in his possession a horse belonging to the Indians. Riley, whose true name he admits is Massagee was taken to Alamogordo, had a preliminary examination before Justice Phillips and was bound over to await the action of the grand jury. When arrested Massagee had in his possession a rifle, six-shooter, and more than two hundred cartridges.

C. W. Foor and W. M. Elliott, of Fort Sumner, positively identified Massagee as the man who killed Felipe Beaulin in the Pecos Mercantile company's store on the night the postoffice was held up. They also stated that the guns and ammunition found in his possession had been stolen from the store, recognizing the company's coat marks on the article.

When confronted with undisputed evidence of his guilt Massagee weakened, finally admitted his identity and told the story of the crime, implicating seven others.

Wednesday the prisoners were taken before Commissioner Shepherd, plead guilty and was bound over to the grand jury without bond.

George Riley Massagee is a young man about 19 years of age, and says his home is in Texas. He is a bright, intelligent fellow of prepossessing appearance and tells a straightforward story. He apparently does not realize the position he is in and has been in correspondence with relatives and showed Marshal Foraker a letter received the other day from his sweetheart in Oklahoma.

The confession of Massagee is complete history of the outlaws from the time they held up the postoffice at Revuelto on December 23 (in which several citizens were also relieved of valuables) up to a week following the robbery of the postoffice and Pecos Mercantile company's store at Fort Sumner on January 27. It borders on

the dime novel order and shows the gang to be one of the most desperate and bloodthirsty bands of cut-throats, robbers and murderers that ever operated in the west.

The confession gives a detailed account of the encounter with the Spikes boys on January 20. In this fight John Dick Spikes were killed and Fred Spikes seriously wounded. On the day following the gang fired about twenty shots at two members of a citizens posse who were trailing the gang up, but both men escaped by dodging behind rocks. These men were Frank Freelan and Alex Street, of Tucumcari. The story of the hold-up at Fort Sumner is a most thrilling one, the prisoner going into every detail of the robbery and murder.

DISTRICT COURT NEWS.

The question as to the commissioners of the acequia madre de Albuquerque has been decided by Judge Baker in favor of C. D. Murphy, Desidero Montoya and Thomas Warner. The suit was brought by L. Watta, C. E. Gieckler and R. McGinness, who claimed to have been elected. The court decided that the votes cast were Watts, 348; Gieckler, 344; McGinness, 299; Werner, 445; Montoya, 400; Murphy, 396.

In the case of Santos Mora against S. Torres, S. Garcia and E. Montoya, the three defendants were ordered to show cause tomorrow why they should not be held for contempt for failure to answer summons. Santos Mora was appointed receiver of the Chilli land grant on the ground that the defendant commissioners have failed to perform their duty toward the owners.

The territorial board of health was ordered to issue a certificate to practice medicine to Charles H. Connor. Edwin Sowers asked to be discharged from bankruptcy and the hearing will be on March 22.

The remainder of the Valencia county business will be transacted here this week.

GAVE TWELVE LOTS.

Business Men of Deming Assure a Handsome Depot.

HOT SPRINGS DEAL.

W. H. Greer, manager of the Victor's Land and Cattle company of Deming spent today in the city. Mr. Greer is one of the hustling and progressive young business men of Deming and was on his way to Santa Fe but was able to transact his business here and remained over for the day. Mr. Greer is enthusiastic over Deming and its prospects. The energetic business men there have assured a magnificent new station for Deming.

"The business men of Deming," said Mr. Greer, "bought outright twelve lots for which we paid \$100 each and presented them to the Bisbee railroad as a site for the station. The land is adjacent to the Southern Pacific and Santa Fe depot, which makes a transfer of less than a block. The company has promised to build us a two story stone depot which is to be equally as good as the Douglas depot and work on it will begin at once. It will probably be completed in three or four months. The village trustees have given a right of way up the principal street as to connect the grounds with the road."

"The sanitarium project is consummated now and the Chicago people interested will build it about four miles from Deming. We may have another sanitarium as an eminent specialist in brain and nervous troubles of Chicago is now negotiating for the purchase of Hudson hot springs. He will not have patients with lung trouble but those in his line. The deal is on now and if it goes through it will bring a fine class of people to Deming as his patients are Board of Trade men, professional men and others of like character. The ice and electric light plants are almost completed and within thirty days there will be telephone connection between El Paso, Las Cruces, Hudson hot springs and Deming."

"Cattle business? It's all right. The country around Deming is very dry, but the cattle are holding their own remarkably well. The present indications are that the spring prices will be about equal to last year's prices. A number of northern and eastern people are coming in to purchase ranches for breeding purposes. Mr. Faskalley of Scotland left this morning for a week's inspection of the Steve Birchfield ranca property with the view of purchase. The property includes between 4,000 and 5,000 head and six watering places."

CITY OF RATON.

In many respects Raton is the best
city of its size in New Mexico. The
city numbers about 5,000 in habitants,
and there is a population of at least
12,000 tributary to the trade of Raton.
No other place of the same size in the
territory has such unlimited resources.
The Citizen makes the prediction that
the next census will show a population
of 10,000 inhabitants within the cor-
porate limits of Raton.

The resources of the city are varied
and developed to only a limited extent.
Raton is almost encircled by moun-
tains which contain coal in unlimited
quantities. The mines developed em-
ploy several hundred men. Under
Johnson's Mesa there are 100,000 acres
of coal land, and the coal veins mea-
sure 23 feet in thickness. This coal
strata is yet untouched, being a few
miles from the railway line, but the
demand will soon cause these vast coal
measures to be developed. Almost
within the city limits there is abundant
building stone of excellent quality. The
railroad shops at Raton employ sev-
eral hundred men. The city is a divi-
sion point on the Santa Fe railroad, and
the headquarters of a large force of
railway employees. The city is the cen-
ter of a vast agricultural and stock
growing region. The mountains near
Johnson's Mesa are rich in minerals. The
Maxwell Grant company has headquar-
ters in Raton and commodious offices
for the transaction of business. The
railway company intends this year to
erect a new hotel and commodious pas-
senger and freight depots. The rail-
way company will also erect a fine
library building for the use of its em-
ployees. There are indications of oil in
the vicinity, and a company has been
formed to drill a well.

Raton has public schools equal to
those in Albuquerque. The Citizen
has the promise of a special article
from Superintendent Chapman on the
schools of the city, which will be pub-
lished shortly with illustrations of the
school buildings. The city has two
banks, the First National of the city
being one of the strongest financial in-
stitutions in the territory.

There are three excellent weekly
newspapers in Raton. C. E. Stivers,
late of The Citizen force, is one of the
owners of the Range. He will here-
after act as the special correspondent
of The Citizen. Mrs. Jerry Leahy, the
accomplished wife of the district attor-
ney of that district, will also furnish
a weekly letter describing the social
affairs of Raton. Mrs. Leahy is a
daughter of Judge O'Bryan, of Chi-
cago, and she taught school at Las
Vegas several years. She is smarter
than Jerry, and Jerry is one of the
smartest lawyers in New Mexico.

While in Raton recently the senior
editor of The Citizen received many
courtesies from A. C. Voorhees, Judge
Morse, E. B. Franks, Postmaster T. W.
Collier and many others. We fell in
love with the city and its enterprising
people, and in addition to having a
pleasant visit, secured a large list of
new subscribers. The Citizen is now
delivered every morning before break-
fast by carriers in Raton.

In walks about the city new build-
ings may be noticed in every direction.
A complete sewer system is being put
in and will soon be completed. An elec-
tric light plant, telephone line and
in fact all the utilities of a much larger
city are in operation. Raton has a well
arranged postoffice and Captain Collier
is giving first class service as post-
master. He deserves the good will of
the people, having devoted many years
of his life to the best interests of
Raton.

Sandusky & Co., postoffice newsde-
alers, have a neatly fitted place of busi-
ness. They will have charge hereafter
of The Citizen circulation in Raton.

The people of Raton have a just kick
about the way they have been treated
in politics. Neither party has ever
shown any courtesies to the politicians
of the city. At present no one in Raton
holds any position in territorial affairs.

HOSTETTER'S STOMACH BITTERS

Is a specific remedy for all ailments
of the stomach, liver and bowels, and
one that is backed by hundreds of tes-
timonials received during the past
fifty years. We would therefore urge
every sufferer from indigestion, dys-
pepsia, flatulency, constipation, sick
headache or liver and kidney troubles
to give it a trial. It will surely cure
you. The genuine must have our pri-
vate stamp over the neck of the bottle.

over twenty feet thick. This wonder-
ful mesa, which appears to be a mount-
ain range with the top chopped off flat
by some gigantic force of nature, is
one of the principal sources of the ex-
cellent local trade of Raton. It is in
contemplation to erect a large flouring
mill at Raton to grind the wheat grown
upon this mesa. One of the present
needs of the community is a daily
rural mail delivery. Here is the proper
place for a model daily mail line. The
farms join closely, and the people
would appreciate a better mail service.
Next fall The Citizen hopes to se-
cure an exhibit of the products of this
mountain Acadia for the Territorial
Fair.

GENERAL FUNSTON.

In all probability Brigadier General
Funston will succeed to the command
of the department of the Colorado
upon the transfer to an eastern depart-
ment of Major General MacArthur. It
is reported from Washington that the
change will take place March 24, upon
the retirement of Major General Otis,
now commander of the department of
the lakes.

It is known that General Funston is
coming to Colorado and it is con-
jectured that he may be coming to suc-
ceed to the command of this depart-
ment, though so far as known at Den-
ver no action has been taken by the
war department toward ordering the
changes.

It is considered likely that General
MacArthur would prefer to have the
command of an eastern department
and that General Funston, after his
long residence in the tropics, would
welcome the opportunity to remain for
a period in the climate of Colorado. As
both have given valiant service the
war department would doubtless en-
deavor to consult their wishes in mak-
ing the changes consequent upon the
retirement of General Otis.

ALAMOGORDO.

From the News.

President C. B. Eddy has gone on a trip to California.

Alamogordo probably has more wood-choppers among the fair sex than any other town of equal size in the west. It is no unusual sight most any morning to see eight or ten women tackling the mesquite logs. Where, oh where, can hubby be?

The little daughter of F. C. Cannon was quite seriously cut, Monday, by an ax while playing on the woodpile. A long slash over the right eye was the result, but a few stitches and prompt treatment on the part of Dr. Waldschmidt relieved the pain. This is the unfortunate little girl who was badly pecked by a savage rooster a few weeks ago.

How to Prevent Pneumonia.

You have good reason to fear an attack of pneumonia, when you have a severe cold, accompanied by pains in the chest or in the back between the shoulders. Get a bottle of Chamberlain's Cough Remedy and use it as directed and it will prevent the threatened attack. Among the tens of thousands who have used this remedy for colds and la grippe, we have yet to learn of a single case that has resulted in pneumonia, which shows that this remedy is a certain preventative of that dangerous disease. For sale by all druggists.

A Bad Disease

There is a certain disease that has come down to us through many centuries and is older than history itself, yet very few outside of experience know anything of its nature or characteristics. At first a little ulcer or sore appears, then glands of the neck or groins swell; pimples break out on the breast, back or some other part of the body and fill with yellow pustular matter; the mouth and throat become sore and the tongue is at all times badly coated. Headaches are frequent, and muscles and joints throb and hurt, especially during damp, rainy weather. These are some of the symptoms of that most loathsome of all diseases, Contagious Blood Poison.

Contagious Blood Poison. This strange poison does not affect all alike; some are literally eaten up with it within a short time after being inoculated, while others show but slight evidence of any taint for a long time after exposure, but its tendency in every case is to complete destruction of the physical system, sooner or later.

S. S. S. is a safe and infallible cure for this bad disease—the only antidote for this specific poison. It cures Contagious Blood Poison in every form and stage thoroughly and permanently. S. S. S. contains no Mercury, Potash or other harmful minerals, but is strictly and entirely a vegetable remedy, and we offer \$1,000.00 reward for proof that it is not.

OUR MEDICAL which was established thirty years ago, is doing a noble work in relieving suffering. Give our physicians a short history of your case and get their advice. This will cost you nothing, and what you say will be held in strictest confidence. With their help and a copy of our book on Contagious Blood Poison you can manage your own case and cure yourself at home.

Boston, Mass., March 8.—The copper market continued to have a strong undertone and there was a noticeable increase in commission house buying. Prices were held up firm, stocks having good advances. Any reaction coppers should be bought. Spot copper, 12 3/4c.

GRANT CASES.

Decisions of Court of Private Land Claims.

IMPORTANT CASES.

W. H. Pope, assistant United States attorney of the court of private land claims, received a telegram from United States Attorney Matthew G. Reynolds, of the same court, stating that the United States supreme court has reversed the decision of the court of private land claims in the case of Margarito Baca et al for the San Jose del Encinal grant in Valencia county, which is situated within the boundaries of the Cebolleta and Laguna grants, previously confirmed. The court of private land claims had decided that the Encinal grant is a perfect grant. United States supreme court orders the case to be dismissed on the grounds that the court of private land claims has no jurisdiction, as the Encinal grant is entirely in conflict with grants previously confirmed and patented.

The United States Supreme court has also reversed the decision of the court of private land claims in the Juan Jose Lobato Grant in Rio Arriba county. The grant was confirmed several years ago, but the grant owners recently brought a suit for damages against the United States for lands taken up on the grant under the federal land laws, previous to confirmation. The court of private land claims awarded the plaintiff \$2,000 damages. The reversal of this decision is important as many similar suits have been or were about to be brought by other grant owners.

The Santa Teresa land grant case was argued and submitted to the Supreme Court this week. The grant is situated in Dona Ana county near El Paso and has been confirmed by the court of private land claims but the United States has taken an appeal from this decision.

R. B. Spencer, merchant of East View, N. M., is in the city. He recently had his shoulder dislocated and carried his left arm in a sling.

Architect Whittlesey is now accompanied by a crutch. He owns what he thought was a bronco, but he now thinks it is a cannon. He mounted it Saturday evening and was just seated in the saddle when there was something doing. The bronco is all right, but Mr. Whittlesey made a thorough test of the strength of the cement pavement. One foot was severely injured and Mr. Whittlesey is delighted that his injury was not more severe.

The Non-Sectarian Benevolent society will meet Wednesday afternoon at 2 o'clock in F. W. Clancy's office, in the N. T. Armijo's building.

Miss Isabel Spencer returned this morning from an extended visit with her sister at Burton, Kan.

B. G. Wilson, manager of the local Continental Oil company's office, returned Saturday night from an extended business trip to Santa Rosa.

Hon. Benjamin Road of Santa Fe paid The Citizen a pleasant call today. Special communication of Temple Lodge No. 6, A. F. A. M., Tuesday evening, March 11, 7:30. Work in M. M. degree. Visiting brethren cordially invited. By order of the M. M. Robert Abraham, secretary.

Barelas Browns Win. The Santa Fe Pacific Kids went down in defeat yesterday afternoon at the fair grounds, before the Barelas Browns by the exceedingly close score of 6 to 7. A fair crowd was present and the boys made a little money. The game was won in the last half of the ninth inning, when Barelas made six runs and one out to spare with a man on second. It was without a doubt another disastrous result of over confidence on the part of the boys in blue, for up to the last inning the Browns had made but one score.

In the ninth they opened the fire-works and caught Sheppard's curves with such regularity that the score was tied and passed before the side was out! This is the second game the Browns have played, winning both, and are highly elated over their success. They hope to receive a challenge in the near future from either the Albuquerque Browns or the Old Town Tigers.

CHANGE OF VENUE.

The Childers Murder Case Changed to Dona Ana County.

Change of venue in the case of the territory vs John W. Childers, murder, was granted by the court yesterday afternoon, upon application of the defendant. Judge H. B. Hamilton and W. F. Cunningham, of counsel for the defense, presented the application stating that the deceased was a man of great prominence in this county, having many friends, and that such prejudice exists as to prevent the accused from having a fair trial.

The application was supported by the affidavit of the defendant, and the affidavits of G. H. Sowers, Wesley Williams and Robert Milliken, the affidavits covering the ground of the prominence of the deceased, his wide influence during his lifetime and the existing prejudice against the defendant, and the impossibility of the accused having a fair trial.

District Attorney Llewellyn and the other attorneys for the territory did not strenuously resist the application for change of venue, and the same was thereupon granted by the court.

The question as to what county in the district case should be sent was then taken up and discussed briefly by the attorneys in the case.

The defense expressed a desire that the case be sent either to Luna or to Otero county. The prosecution stated that there was objection to these two counties, mainly because of the small court funds.

Judge Parker was of the opinion that case should not go to any one of the three small counties—Luna, Sierra and Otero, for the reason that only a small court fund would be available and that the small counties should not be burdened with the trial of this case. He therefore sent the case to Dona Ana county. District court for that county will convene on the 1st Monday of April and will likely be in session for four weeks. The case was set for the third Monday.

Counsel for the defendant asked that the prisoner be remanded to the custody of the sheriff until date of trial and the court granted this request. Sheriff Goodell will immediately carry out this order.—Silver City Enterprise.

WON THE CUP.

San Juan County Man Champion Rifle Shot.

One of the handsomest loving cups ever given for prize shooting, now graces The Hustler window, the property of Winslow Wetherill, who just returned from the Sportsman's show at Chicago, where he carried off the first prize for fancy rifle shooting, making a score of 497 out of a possible 500, thus missing the bull's eye, about the size of a 10 cent piece, only three times out of 500 shots. The cup is of solid silver, gold lined, and weighing about two and one-half pounds, the three handles consisting of polished stag horns. On the face is inscribed, "Presented by the Peters Cartridge Co., Cincinnati, O., to the winner of the continuous match at the Sportsman's show, Chicago, Ill., 1902.—Farmington Hustler.

Having a Run on Chamberlain's Cough Remedy.

Between the hours of eleven o'clock a. m. and closing time at night on January 25, 1901, A. F. Clark, druggist, Glade Springs, Va., sold twelve bottles of Chamberlain's Cough Remedy. He says, "I never handled a medicine that sold better or gave better satisfaction to my customers." This remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a good, reliable medicine for a cough or cold, or attack of the grip, use Chamberlain's Cough Remedy and you are certain to be more than pleased with the quick cure which it affords. For sale by all druggists.

He Visited Raton.

Hon. Thomas Hughes, one of the proprietors of the Albuquerque Daily Citizen, arrived in the city Tuesday night and will stay here the remainder of the week. Mr. Hughes has been visiting different portions of the territory, getting acquainted with the people and making friends for himself and paper. He is making a special feature of showing up in The Citizen the educational advancement and facilities of the towns visited, and believing such matter is the most telling argument that could be presented favorable to statehood. Extra copies of The Citizen containing school articles are sent to Delegate Rodey for judicious distribution. The Citizen is the best daily newspaper in the territory and as a result of Mr. Hughes' visit to Raton it will be read hereafter by a large number of our citizens. He has secured a regular correspondence here, and frequent correspondence by wire and mail from this place will be both an advertisement for the town and of interest to local readers.—Raton Range.

You will never wish to take another dose of pills if you once take Chamberlain's Stomach and Liver Tablets. They are easier to take and more pleasant in effect. They cleanse the stomach and regulate the liver and bowels. For sale by all druggists.

Fighting Smelter Trust.

The agitation stirred up against the smelter trust by the Headlight, endorsed by the Rocky Mountain News, the Leadville and other Colorado journals and now energetically advanced by the Albuquerque Daily Citizen is a cause so just, so great, so important that every honest patriotic journal in New Mexico, should join us. As to the miners, they have received lately such striking proofs of the designs of the trust, the domination or domination of the whole business

that we rely on their common sense to see that we fight for their best interests as heartily as for our own.—Deming Headlight.

Chronic Diarrhoea.

Mr. C. B. Wingfield, of Fair Play, Mo., who suffered from chronic dysentery for thirty-five years, says Chamberlain's Colic, Cholera and Diarrhoea Remedy did him more good than any other medicine he had ever used. For sale by all druggists.

Albuquerqueans at San Marcial.

N. E. Stevens, general agent for the Montezuma Savings, Loan and Building association of Albuquerque, was here last week soliciting business in that line. He occupied the chair of the Noble Grand at the meeting of the I. O. O. F. lodge Friday evening, and conferred degrees upon two candidates in a manner that demonstrated his fitness for the titles of Past Grand Master and Past Supreme Representative of the order.

T. Y. Maynard, the Albuquerque jeweler and watch inspector, was in town Tuesday and paid the Bee a visit. When we got through talking about San Marcial the conversation naturally turned upon Albuquerque. In turn Mr. Maynard talked interestingly of the new army post, the sawmill project, the railway hotel, the opera house undertaking, banking facilities, new railway lines, etc., and in consequence our impression that Albuquerque is destined to be a great city is strengthened to a considerable extent.—Bee.

SUNDAY CLOSING.

Governor Otero Addresses a Letter to District Attorneys.

Governor Otero has sent out the following letter to district attorneys of the territory:

Dear Sir: There has been a petition presented to me signed by nearly all the business men in the city of Santa Fe, calling my attention to the fact that section 1368, compiled laws of 1897, commonly known as the Sunday law, is not and has not been for a number of years past enforced except in the First judicial district; that the enforcement of this law, especially in the city of Santa Fe, works a hardship upon the business interests of said city, especially when the same is not carried into effect in neighboring towns, and asking me to take official notice of this state of affairs and see that the law is enforced in every county in the territory in the same manner that it is in Santa Fe. As you know, this section has been construed by the supreme court to prohibit the selling of liquor on Sunday.

You, as well as I, have taken an obligation that we will uphold the laws of the territory, and so long as they are upon the statute books, they must be enforced in all parts of the territory alike. You are especially charged with the duty of looking to the enforcement of this law under section 1374, compiled laws of 1897, and prosecuting violators of the same. I am aware that public sentiment in regard to the wisdom of this law varies in different communities in the territory, but that cannot affect your duty, and I shall expect you to perform the same and make report to me direct of the result of your efforts. I enclose copy of petition herein. Respectfully yours, MIGUEL A. OTERO, Governor of New Mexico.

The Vice of Nagging.

Clouds the happiness of the home, but a nagging woman often needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters, the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used it, and become healthy and happy. Try it. Only 50c. All druggists guarantee satisfaction.

The Law's Delay.

On last Monday a telegram was received at the Postal Telegraph office stating that the United States supreme court had sent the Elephant Butte dam case back to the New Mexico courts for further evidence as to the navigability of the river. This is, indeed, hard on the lower valley of the Rio Grande. It means at least two or three years more of waiting. How long, Oh Lord, how long, must we wait for this matter to be settled? We have not as yet seen a copy of the decision of the court and do not feel like saying very much until we do.—Las Cruces Progress.

Would Smash the Club.

If members of the Hay Fever Association would use Dr. King's New Discovery for consumption, the club would go to pieces, for it always cures this malady—and asthma, the kind that baffles the doctors—it wholly drives from the system. Thousands of once-hopeless sufferers from consumption, pneumonia, bronchitis owe their lives and health to it. It conquers grip, saves little ones from croup and whooping cough and is positively guaranteed for all throat and lung troubles. 50c, \$1.00. Trial bottles free at all druggists.

FIRST THROUGH TRIP.

Rock Island Passenger Train Arrived on Time.

The first through passenger train over the new Rock Island route steamed into Alamogordo on schedule time Tuesday morning, says the News. It was reported late in Kansas, but made up the time reaching Santa Rosa forty-five minutes late and gained fifty minutes between Santa Rosa and Alamogordo. The train, handsome in its appointments, consisted of engine No. 5, driven by Engineer Jack Lanihan, with Fireman Brooks seated on the left side of the cab, a flat car carrying a big tank of water to be used in case of any emergency, a combination mail and express car, a smoker, a chair car, a Pullman and a tourist car for California.

Conductor Charlie Pollock was in charge of the train. He remarked to a representative of the News that there were forty-seven passengers on board when he took the train at Santa Rosa, N. M., and he had picked up thirty-six

on the way in, forty-two of whom were en route to California, the remainder being destined to El Paso.

Among the passengers on board the train for El Paso were: W. J. Leahy, assistant general passenger and ticket agent of the Rock Island in Chicago; David D. Leahy, Wichita, Kan.; J. E. Hanway, Harley Reisman, Topeka, Kan.; J. H. Ishester, Chicago, and some of whom are newspaper people.

Judge Parker's Charge.

Judge Parker made an exceptionally able charge to the grand jury at the Grant county district court. He called particular attention to the law relative to Sunday closing and also the deadly weapon act. In speaking of the necessity of strict enforcement of the latter referred to the many crimes which result from the carrying of arms and said that the time had arrived when the people of this country demand that offenders of this kind be punished.

A Printer Greatly Surprised.

"I never was so surprised in my life, as I was with the results of using Chamberlain's Pain Balm," says Henry T. Cook, pressman of the Asheville, N. C. Gazette. "I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit. One day while looking over the Gazette, I noticed that Pain Balm was positively guaranteed to cure rheumatism, so I bought a bottle of it and before using two-thirds of it my rheumatism had taken its flight and I have not had a rheumatic pain since." THE SMELTER IDEA.

What a Good Smelter Means to a Community.

A TIMELY ARTICLE.

The business connected with a good smelting plant is not only its own, but also that which is the result of the operation. The former consists of the traffic, the transportation and unloading of material, ores, fluxes and fuel, and the roasting of sulphides, the smelting of the ore and the shipping of the products, the sampling of ores, assay and analysis of the same, as well as of products, bullion, matte and slag.

The employment of much labor is an absolute necessity whatever the improvements in economical working. But this is by no means the only benefit derived from the successful operations of a smelter. Miners shipping their ore to the works frequently follow their shipments and often go first. The hotels are patronized, so are our merchants. Mining companies having stores of their own, or associated with them, will buy goods where they sell their ore. A tie of commercial relations is being established. The building of the Omaha & Grant smelter at Denver, followed by the removal of the works of the Boston & Colorado from Black Hawk to Denver, was the beginning—the keynote of her prosperity. And after all, Denver's location was not so favorable as that of Pueblo, not even of Albuquerque. There was only Boulder lignite coal for steam and roasting kilns; the oil of Boulder had not been thought of. Nor do we consider the resources which lie in the almost unexplored regions of western New Mexico. Yet there are there all the same: coal, salt, alum and other minerals in bulk. A smelter at Albuquerque means a better market for agricultural products on account of increase of home consumption in the city as well as the mining camps benefited by our ore market. It will stimulate prospecting and development work, attract outside capital as well as brain and live men. There is probably no capital city in the United States, if we except Washington, that is looked upon with so much reverence as Santa Fe by the majority of our population and we think it almost sacrilege to talk of removal of the government seat to any other place. Albuquerque does not need it. This is strictly a business community, the most centrally located for New Mexico in every respect, with opportunities and resources far above the little possibility that might result from aspirations for the seat of government.

"Live and let live" should be our motto and the aim to become a great commercial and manufacturing city guide our actions. We shall find friends there everywhere in the territory soon to become a state. The smelter's business will keep foundries busy as well as shops. The banks will gain. The Denver national was the bank of the Omaha & Grant; the Colorado National of Denver that of the Globe; the First National of Pueblo that of the Pueblo Smelting company. Today the banks are the backbone of the trust, with the command of as much eastern capital as shall be needed. There is no better security than ore paid for. Then let us get a good smelter and parties that have proved by their past that they know how to operate them. It is not only the knowledge or science but the business capacity that is needed. All this, however, is useless if the Santa Fe does not see it the way we do. The company knows that we can get the fuel. It knows more about that than anybody else, as to the ore let one of our experts accompany a man of our selection through the mines upon which we rely and if his report verifies our claim let the company decide if we shall become a live state or a mummy.

Doctors not seldom give up a case, but a mother never does. While life lasts, while there is a spark of vitality which love's labor may fan into a flame, she toils untiringly for the child she brought into the world. And sometimes where the doctors fail the mother succeeds. She has no prejudices. Any means she will use which will save her child.

The mother's prescription given below is a case in point. Her daughter was given up by physicians as suffering from an incurable disease, called "wasting of the digestive organs." The mother prescribed Dr. Pierce's Golden Medical Discovery and "Favorite Prescription," and had the happiness of seeing her daughter restored to perfect health.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and bowels, or organs of digestion and nutrition. It is a nerve-nourishing, flesh-forming medicine—making new blood and new life. "Golden Medical Discovery" contains no alcohol and it is absolutely free from opium, cocaine and all other narcotics. It is a true temperance medicine.

"My sister (of Arlington, Washington Co., N. H.) was taken very sick and had several doctors," writes Mrs. C. L. Higgins, of Elk City, Douglas Co., Neb. "They could not do her any good, and told my mother they would not come any more, as no doctor could help her, that she could not get well. She had 'wasting of the digestive organs.' My mother said to my sister: 'Well, I almost know that Dr. Pierce's medicine will cure her.' So she bought six bottles—three of 'Golden Medical Discovery' three of 'Favorite Prescription,' and some of the 'Pelle's' and now my sister is a well woman. We thank you for your medicine."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

A BALD NEWSPAPER MAN.

Getting a New Crop of Hair and Has No More Dandruff.

Everybody in the northwest knows Colonel Daniel Searles, the veteran journalist and publicist of Butte. January 10, 1900, the colonel writes: "I used a couple of bottles of Newb's Herpicide with marvelous results. The dandruff disappeared, a new crop of hair has taken root and the bald spot is rapidly being covered." Herpicide is the only hair preparation that kills the dandruff germ that digs up the scalp in scales as it burrows its way to the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out. Kill the dandruff germ with Herpicide.

Dispatcher Rowe, of San Marcial, is confined to his home by illness.

The arrangements are all complete for the firemen's ball at San Marcial, on the 17th of March.

The Santa Fe railway gave Raton reduced rates on its sewer pipes, which saved the city \$3,000 in freight.

Supt. J. F. McNally, of San Marcial, has had a period of idleness forced upon him by a very vigorous attack of pneumonia.

The bulletin board announces the appointment of David Patterson as master mechanic of the New Mexico and Rio Grande division, with headquarters at Raton.

M. Anderson, who has been the faithful chef at the San Marcial Harvey house for several years, has resigned and will visit friends in Las Vegas for a while.

The main shaft carrying the power from the engine room to the new machine shop broke down Saturday and the machines were at a standstill. Repairs were made by this morning.

Hugh Williams and J. E. Stalker, of San Marcial, have returned from Topeka bearing credentials showing that they successfully passed the examination for promotion from firemen to engineers.

Buffet car 1307 passed through last night and will be used on the California limited in place of the one burned at Franconia. It is just from the Topeka shops and has been rushed through.

Several of the men recently discharged at the Santa Fe Pacific shops have been again employed. Last week nine new men were employed. This is taken as an indication that the cut in force was only temporary.

The Santa Fe will at once begin the improvement of grounds around the Alvarado hotel. Several hundred feet of blue grass sod have been ordered from the east, which will be used as a mat for grass seed which will be sown later.

Sixty bridge builders in charge of D. E. Hoover of the Midland Bridge company of Kansas City passed through last night on their way to Vera Cruz. Mr. Hoover says his company will bid for the bridge work on the Santa Fe Central and Albuquerque Eastern.

There is some talk along the line that railroads will displace colored porters with white men, the same as was in vogue three or four years ago. Complaints have reached headquarters that the colored porters are growing impudent and want to be "tipped" on every occasion.

The new library and reading room to be erected this summer by the Santa Fe Railway company at Raton is to be commodious, two stories high and is to contain besides the library and reading room, a room for billiards and pool, a bowling alley and bath rooms. It is to be the most complete railroad library on the entire line.

The new master mechanic bulletins the information that too many engines are being cut out at Trinidad on account of bad flues and other small defects, when they should have gone through to La Junta. The Trinidad foreman has been instructed to make a personal examination of each engine turned in there and report if the engineer did right in not going on through.

John A. Phalen, who has been yardmaster for the El Paso & Northeastern at Alamogordo, will now take a run on the new El Paso-Rock Island road as freight conductor, his former position to be filled by a Mr. Martin. Mr. J. Behan has been appointed general yardmaster for the El Paso-Rock Island road with headquarters at El Paso. This is the local position formerly held by Oliver Carr, who will now go on the road as a main line freight conductor.

A committee of citizens of Santa Rosa went to Tucuman to meet Freight Traffic Manager J. M. Johnson, Second Vice President J. H. Conlin and General Freight and Passenger Agent J. H. Meyer. They asked for special freight rates for Santa Rosa, as it is a convenient shipping point for the country for many miles around. They were promised that the company would do all in its power to give Santa Rosa the lowest freight rates possible and to push the town along whenever opportunity offered.

Those who came down on the first Rock Island train are loud in their praise of the service given and all seemed well pleased with the outlook for the country through which the new road runs. It is said that several people of influence stopped off at Santa Rosa and Carrizosa and will look around for location for business enterprises. It is a cinch that there will be more activity in eastern and southern New Mexico this year than in all the southwest put together. A prominent mining man of the southwest said the other day: "The scene of greatest activity in southwest mining circles will be in New Mexico this year, owing to the coming of the Rock Island and building of the El Paso & Southwestern."—El Paso Herald.

We congratulate A. H. Hilton, of San Antonio, on the result of his energy in securing from the Santa Fe Railroad company an agreement whereby he furnishes this division with seven car loads of his Carthage coal daily for sixty days, subject to a comparison for steaming purposes with the coal used previously to this arrangement. The firemen are greatly pleased with the steaming qualities of this coal, and the writer was informed on Tuesday that up to that date and since the test began not an engine failure had occurred on the Rio Grande division, whereas such failures were a common occurrence with the coal previously used.—San Marcial Blood.

Good Boy.

Jimmy Duncan has severed his connection as reporter for the Las Vegas Record, and has gone to Los Angeles on a short vacation. When he returns he will accept the position of deputy postmaster of East Las Vegas under Postmaster Blood.

Practically Starving.

"After using a few bottles of Kodol Dyspepsia Cure my wife received perfect and permanent relief from a severe and chronic case of stomach trouble," says J. R. Eully, real estate, insurance and loan agent, of Macomb, Ill. "Before using Kodol Dyspepsia Cure she could not eat an ordinary meal without intense suffering. She is now entirely cured. Several physicians and many remedies had failed to give relief." You don't have to diet. Eat any good food you want, but don't overload the stomach. Kodol Dyspepsia Cure will always digest it for you. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Sheep on Forest Reserve.

The authorities at Washington have granted the privilege of grazing sheep on the Gila forest reserve in Grant and Socorro counties. The local association of wool growers will be allowed to graze 200,000 head of sheep on the reserve during certain seasons of the year. The concession is a valuable one to the sheep raisers of the territory.

For the Complexion.

The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruptions. DeWitt's Little Early Risers keep the liver and bowels in healthy condition and remove the cause of such troubles. C. E. Hooper, Albany, Ga., says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years." Never gripe or distress. Safe thorough and gentle. The very best pills. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Court Closed.

The officials of the fourth judicial district held a short term of court in Union county, and returned to Las Vegas last Saturday afternoon. Judge Mills has too large a district. Colfax and Union counties should be made into a district, with headquarters at Raton. At present Judge Mills presides over nearly one-fourth of the territory.

If you are troubled with impure blood, indicated by sores, pimples, headache, etc., we would recommend Aker's Blood Elixir, which we sell under a positive guarantee. It will always cure scrofulous or syphilitic poisons and all blood diseases. 50 cents and \$1.

New Mail Route.

Acting Postmaster Edgar Campbell, of El Paso, received the following telegram from Superintendent Taft of the railway mail service at St. Louis:

"Mail that you can advance by new Rock Island route should go to that train instead of Santa Fe, as former reaches Kansas City nine hours in advance of the latter."

This means that the Rock Island will handle the through mail from the southwest that passes through El Paso in preference to the Santa Fe. It has been announced by the Rock Island that they will put on a fast day train from Chicago to Kansas City which will make the run in fourteen hours. It will arrive in Kansas City in time to catch the mail off the fast mail trains at that place and bring it on through to El Paso, taking only forty-seven hours to bring the mail from Chicago to El Paso. These orders are in pursuance to regulations to the effect that the train which makes the quickest time gets the mail hauling.

Mail for the following states will therefore go via the Rock Island beginning tonight:
New England, New York, Pennsylvania, New Jersey, Delaware, Maryland, Washington, D. C., West Virginia, Ohio, Kentucky, Michigan, Wisconsin, Indiana, Illinois, Missouri, Oklahoma, Nebraska, Kansas, Iowa, Minnesota, North Dakota, South Dakota.

Mrs. Emily Mann, Meriden, Ct., says: "It is the best medicine in the world for children when feverish and complaining." Sold by all druggists or by mail 25c. Sample sent free. Address Allen S. Olmstead, Le Roy, N. Y.

Could Not Breathe.

Coughs, colds, croup, grip, bronchitis, other throat and lung troubles are quickly cured by One Minute Cough Cure. One Minute Cough Cure is not a mere expectorant, which gives only temporary relief. It softens and liquefies the mucus, draws out the inflammation and removes the cause of the disease. Absolutely safe. Acts at once. "One Minute Cough Cure will do all that is claimed for it," says Justice of the Peace J. Q. Hood, Crosby, Miss. "My wife could not get her breath and was relieved by the first dose. It has been a benefit to all my family." J. H. O'Reilly & Co.; B. H. Briggs & Co.

New Coal Mines.

M. Romero of Las Vegas has opened a coal mine up the Gallinas canyon, near that city, and organized a company to work the property. The discovery will be of great benefit to Las Vegas.

Surgeon's Knife Not Needed.
Surgery is no longer necessary to cure piles. DeWitt's Witch Hazel Salve cures such cases at once, removing the necessity for dangerous, painful and expensive operations. For scalds, cuts, burns, wounds, bruises, sores and skin diseases it is unequalled. Beware of counterfeits. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Ejectment Suit.

An ejectment suit has been filed in Colfax county district court by John Jenkins against the Maxwell Land Grant company and Raton Coal & Coke company, to recover possession of a certain tract of land in Colfax county. The plaintiff asks for the land, \$1,000 damages and \$500 per month for rent and profit during the time the land was out of his possession. A. C. Voorhees is the attorney for Mr. Jenkins.

More Harmful Than Alcohol
Overeating Worst Form of Intemperance.

If your food is undigested, you are underfed, no matter how much you eat. And the underfed man is, to the extent of the underfeeding, crippled for the battle of life. On the other hand, there is such a thing as overeating. The harm done by indigestion caused by overloaded stomachs exceeds that from the increased heart beats caused by the use of alcohol or whiskey.

Eat as much good food as you need but don't overload the stomach. If your stomach is weak it may refuse to digest what you eat. Then you ought to use a good digestant like Kodol Dyspepsia Cure, which digests what you eat without the stomach's aid. This rest and the wholesome tonics contained in Kodol Dyspepsia Cure soon restore health. You don't have to diet. Don't eat too much. That's harmful. But eat enough and of sufficient variety. Kodol Dyspepsia Cure will digest it. It quickly relieves the sensation of fullness and bloating from which some people suffer after meals. It prevents belching and absolutely cures indigestion and other stomach troubles. Equally good for children.

Lemuel James, Marysville, O., says: "I suffered from dyspepsia for thirty years but a few bottles of Kodol Dyspepsia Cure completely cured me and I heartily recommend it to all sufferers from this disease."

Kodol Dyspepsia Cure
Cures All Stomach Troubles.
Prepared only by E. C. DeWitt & Co., Chicago. The 51c. bottle contains 2 1/2 times the 25c. size.

DeWitt's Little EARLY RISERS
The famous little pills for constipation. J. H. O'Reilly & Co. and B. H. Briggs & Co.

The Health of a Manly Man

Why will not all men insist upon having it, when it is so easy to get and to keep. Some men are eaten alive by tape-worms, others wander hopelessly for years dying slow deaths from bowel disease.

"After taking two Cascarets, there came on the scene a very unexpected visitor in the shape of a tape-worm eighteen feet long at least, which I am sure caused my bad health for three years."

—Geo. W. Bowles, Baird, Miss.

"After taking Cascarets I have had a natural relief without taking medicine of any sort during the past two weeks. This had not occurred for 12 years."

—Chas. E. Penny, 601 Yates Ave., Brooklyn.

"For three years I have been afflicted with diarrhea. Since using Cascarets I have found great relief and feel that I must send you my personal recommendation."

—O. H. Kram, 31 West Ave., Buffalo, N. Y.

"I have been using Cascarets for stomach trouble of six years standing. I am cured and recommend them to all who need a remedy."

—Rev. E. M. Chandler, Mill P. O., Mo.

"Cascarets cured me of the piles, with which I had long suffered."

—J. L. Wollason, Perry, Oklahoma.

"I used Cascarets for indigestion, with which I have been afflicted for twenty years. They gave me immediate relief."

—Thos. Gillard, Elgin, Ill.

"Cascarets are the only remedy I have ever used that cause a fine, easy movement of the bowels without impairing the functions of the stomach."

—Chas. S. Campbell, Sanbury, Pennsylvania.

Business as well as social life of today is one of strain and effort, and the struggle for existence in competition makes life a fight day in day out, in which care of body, nerves, blood is more or less neglected. Men wonder what's wrong with them. No man can stand such unnatural conditions unless he counteracts them by using Cascarets Candy Cathartic, causing regularity of body in spite of irregularity of habits. A man who "feels bad" should take Cascarets, find out what's wrong and be cured.
