VOL. 38

SANTA FE, N. M., FRIDAY, JUNE 28, 1901.

NO. 111

IN FINANCIAL DIFFICULTIES

The Stock Broking Firm of Marquand & Co. of New York Makes an Assignment.

OHIO BANK REORGANIZES

It Removes Fletcher Heath as Vice President and Director Owing to His Connection With the Seventh National Bank of New York.

New York, June 28.—The failure of Henry Marquand & Co., was announced at the stock exchange today.

The firm made its assignment without preference to Frank Smith.

TO SAVE ITS REPUTATION.

Hamilton, O., June 28.—The directors of the Miami National bank of Hamilton, determined to remove all suspicion against their bank which might arise from the fact that Fletcher Heath, the vice president of the Seventh National bank of New York, was also vice president of the Miami bank and acting president. A meeting was called and a reorganization effected, Fletcher Heath being not only removed from the vice presidency, but also from the board of directors.

No statement of the assets or the liabilities was made. The failure was without appreciable effect on the stock market. Assignee Smith began a systematic investigation of the firm's books and impaired finances. Frank B. Poor, partner of Marquand & Co., said that Smith was in charge and that he could say nothing. At 10:30 Manager Dohercy of the clearing house, said all the banks cleared as usual and no further difficulty is anticipated in banking circles.

Henry W. Taft of the attorneys for the assignee, made the first statement in behalf of the suspended house. He said: "I cannot at this time give any figures on the liabilities and assets of Marquand & Co., but I believe the creditors will fare very well unless there is a slaughtering of some of the firm's securities. I cannot say at this time anything as to the resumption of the firm. That will depend upon developments during the next few days."

The firm consisted of Henry Marquand, son of Henry C. Marquand, and Frank B. Poor, son of the former president of the National Park bank.

Frank S. Smith, assignee, is vice president and general counsel of the Pittsburgh, Shawmut and Northern. Henry Marquand is the first vice president of the company. The admitted embarrassment of the firm in connection with the Seventh National bank failure resulted in the wholesale calling in of stocks loaned to them for delivery and they were obliged to buy heavily in open market to cover. At the same time the actions of the clearing house committee and comptroller of the currency put an official disapproval on the securities in which the firm had large investments, and which figured as a part collateral in a loan of \$1,000,000 from the Seventh National bank, and which caused the suspension of the bank. The disbursement in the stock market caused by the embarrassment and which depressed prices, worked to the firm's advantage as far as it showed profits on their contracts, but the blow to their credit deprived them of resources to take advantage of these conditions.

One of the enterprises financed by H. Marquand & Co. is the Gas and Electric company of Bergen county. This stock, which is listed at the stock exchange, sold on Monday for 10 1/4, the first sale this morning of 300 shares under rule for the account of the failed firm was at 30 on cash sale.

MARKET REPORT.

MONEY AND METAL.

New York, June 28.—Money on call firm at 6 @ 10 per cent. Prime mercantile paper, 3 1/2 @ 4 1/2. Silver, 50 1/2.

The New Mexican prints all the news

AMERICAN BEEF IS ALL RIGHT

The British Soldiers Preferred it to the Fresh Article and There is No Good Ground for the Interdict Upon It.

BRITISH TOOK IMPROPER CARE OF IT

Washington, D. C., June 28.—In view of the temporary prohibition of American meat for military purposes in South Africa by the British government, Consul General Stowe of Cape Town has been making investigations with regard to the cause of the restriction, and submitted the results to the state department. The British enlisted men pronounced the American article satisfactory and their officers stated in many cases that the meat preferred tinned meat to the poorer fresh article. In fact the only complaint made of the American article arose from the improper care of it, after it reached the Transvaal.

OFFICIALS INDICTED.

Crooked Work in Furnishing Supplies to the New York Fire Department.

New York, June 28.—Two indictments were returned by the grand jury today against Fire Commissioner John J. Scannell, charging him with neglect of duty. Another indictment was returned jointly charging Commissioner Scannell and Wm. L. Marks with conspiracy. It is alleged that nearly all the supplies for the fire department have been purchased through Marks. There are three counts in the indictments against Scannell. One is a charge of evading the law, another is for defrauding the city and the third is neglect of duty. The indictment against Marks charges him with connivance with Commissioner Scannell to defraud the city by selling inferior goods at the highest prices. It is also charged that the commissioner gave Marks excessive commissions. Bail of \$2,500 for each was furnished.

THE DENVER SUNDAY WAR.

Evidence Before Judge Palmer in Contempt Proceedings.

Denver, Colo., June 28.—Judge Palmer heard evidence in the contempt proceedings today in the contempt proceedings against Rev. M. A. Radner and Rev. W. H. Talmage. The principal witnesses were newspaper reporters who interviewed the ministers concerning the injunctions issued by the court in the saloon case. Judge Palmer ordered the two defendants to appear before him next Monday morning when it is expected he will announce his decision on the contempt charges and also whether the temporary injunctions granted to prevent interference with the serving of liquor in restaurants on Sunday and to women in wine rooms shall be made permanent.

THE CORONATION OF KING EDWARD.

It Will Take Place on Some Day Next June.

London, June 28.—A royal proclamation announcing the coronation of King Edward to take place in June of next year, the exact date not yet determined upon, was read this morning at St. James Palace, the temple, and the Royal Exchange, with all the usual, mediaeval scenes which marked the occasion of proclaiming the accession of the king. Crowds thronged the points at which the announcement was read. King Edward, Queen Alexandra and others of the royal party, watched the ceremony at St. James with the greatest of interest.

KEEPING THE PRINTERS BUSY.

The Treasury Department is Sending Out the New Revenue Stamps.

Washington, June 28.—Extra forces of pressmen and other employees of the bureau of engraving and printing are working night and day to supply the new stamps necessary next Monday when the amended war revenue act goes into effect. Thousands of stamps are being sent out on every train to internal revenue collectors.

SAMUEL GOMPERS SERIOUSLY HURT.

He Suffers from Concussion of the Brain and a Fractured Skull.

Washington, June 28.—Samuel Gompers, president of the American Federation of Labor, is suffering from concussion of the brain and possibly a fracture of the skull. While his condition is critical, his physician says he probably will recover. He was injured last night as he alighted from a car.

Another Cloudburst in West Virginia.

Keyser, W. Va., June 28.—Later advice from the New Creek valley, inundated by a cloud burst night before last, indicate that no lives were lost and the damage is confined to live stock and crops.

A Double Hanging.

Birmingham, Ala., June 28.—Frank Miller, a notorious safe robber and murderer of Policeman J. W. Adams, and Alonzo Williams, colored, murderer of Bob Callahan, colored, were hanged today in the yard of the Jefferson county jail.

Death of Commander Frederick Robinson.

Birmingham, June 28.—Commander Frederick Robinson Smith of the United States Navy (retired) is dead. Age 61. He served with distinction in the civil war.

The Wool Market.

St. Louis, June 28.—Wool is steady and unchanged; territory and western medium, 13 @ 15; fine, 10 @ 13; coarse, 10 @ 13 1/2.

TUAN AND LAN IN EXILE

They Have Taken up Their Residence at the City of Ulumski in Turkestan.

M. D'GIERS GOES TO MUNICH

The Tao Tai Sheng Upon Request of Liu Kung Yi Asks the Allies to Evacuate Shanghai as They Have Peking.

Peking, June 28.—Word has been received here of the arrival of Duke Lan and Prince Tuan at Ulumski, Turkestan, in which place of banishment they have been sentenced to reside.

FROM CHINA TO BAVARIA.

St. Petersburg, June 28.—M. de Giers, Russian minister to Peking, has been appointed minister to Bavaria.

A CHINESE REQUEST.

Shanghai, June 28.—The Tao Tai Sheng, at the request of Liu Kung Yi, visited all the consuls today and urged that as the foreign forces were leaving Peking they ought also to evacuate Shanghai. The consuls are referring the matter to their respective governments.

A CURIOUS MISTAKE.

Washington, June 28.—A curious discrepancy concerning the amount of the Chinese indemnities has developed by which it appears that China agreed to pay about 35,000,000 taels or \$24,500,000 more than the United States demands of all the powers. This appears to have been due to an error in calculation at Peking, in the first place by those making up indemnities, and later by the Chinese in their hasty acceptance of the total. As made up this total was 450,000,000 taels, but the present calculation, after taking in all demands known, makes the total only 415,000,000 taels. The question now arises what will become of the excess of 35,000,000 taels.

AN AUTOMOBILE RACE.

An Interesting Contest That is Being Waged in France and Germany.

Aix la Chapelle, June 28.—Seventy-three motor cars completed the first stage of an automobile race between Paris and Berlin yesterday and started again at 5 o'clock this morning for Hanover, 276 miles distant.

A COLLISION.

Paris, June 28.—At Casse, two leaders, Fournier and Girardot in an automobile race, came into collision, their machines then dashing into the crowd. Among the spectators a child was seriously injured.

FOURNIER WAS FIRST.

Hanover, Preussia, June 28.—The Fournier was first to arrive at the end here of the day's stage motor race. DeKuff was second, and Girardot third.

SOME FRENCH KICKS.

Paris, June 28.—The automobile accidents in the Paris-Berlin race are causing an outcry. Deputy Gauthier brought the matter up in the chamber of deputies today. He said amid loud applause that it was a singular and a saddening idea to organize a race to Berlin, passing through Bazelles and Sedan. Premier Waldeck-Rousseau replied that the race would not have been authorized if it had only been started for pleasure or sport. Regulations were about to be issued to control the speed of automobiles and henceforth no race would be authorized.

The Wheat King Is Dead.

San Francisco, Calif., June 28.—William Dresbach, known for many years as the "wheat king," died in this city today after a brief illness. He was known to shipping and wheat men all over the world. Age about 75 years.

The Duke of Manchester Settles.

London, June 28.—The Duke of Manchester made today what he hopes will be his last appearance in bankruptcy court, as his creditors formally accepted the compromise of 12s 6d on the pound.

Friday's Cabinet Session.

Washington, June 28.—The major portion of the time of today's cabinet meeting was occupied by Secretary Wilson in going over the details of the work in his department.

The Dutch Cabinet Resigns.

The Hague, June 28.—The cabinet resigned, in consequence of the recent elections by which the government supporters lost thirteen seats.

A Bank Director Arrested.

Leipzig, June 28.—Dr. Gentsch, another director of the Leipziger bank, was arrested today at the instance of the public prosecutor.

The Pope Is Not Ill.

Rome, June 28.—The report published in Paris that the pope is seriously ill is entirely unfounded.

Mines at Organ.

The Torpedo mine at Organ has closed down owing to water, throwing about thirty-five miners out of employment. Only a few men have been retained to make preparations for the new pump which is expected daily. As soon as it arrives and is put in place, the mine will resume work. The Modoc company operating in the Organ near Las Cruces has not fully determined as to what character of machinery will be placed on their properties; but it is believed the work of sorting ores for shipment will be begun at once.

Found an Eagle.

Mrs. Henry Faust, of Deming, found a young American eagle in front of her door the other morning, alive and well. How the bird came there is a mystery.

SOCORRO COUNTY'S GREAT WHEAT CROP

The Quantity is Larger and the Quality is Much Better Than in Any Previous Year.

A WARNING TO HORTICULTURISTS

Socorro, N. M., June 27, 1901.

Special Correspondence New Mexican.

The greatest crop of wheat in acreage, quantity and quality that Socorro has ever known is now practically ready for harvesting; a few more days of New Mexico's glorious sunshine to ripen the heads is all that is required. The oats and rye are looking equally as well. There has been a tendency on the part of the farmers of this section to improve the quality of their grain, they having sent away for their seed grain in order to secure the best varieties. John Greenwald, of the Crown roller mills of Socorro, has worked faithfully along this line and the results are an increase in quantity and a betterment in quality. The second cutting of alfalfa is now in progress and both cuttings have yielded immense crops; the Rio Grande, up to date, having furnished all the water required for irrigation. Early garden truck of all kinds has been very backward, owing to the late spring and the cold nights.

The regular field crops, however, are growing well and if the water holds out until our regular annual rains set in, the yield will be large. Right here let me say that Socorro county is more favored with water from the Rio Grande than any other county in the valley. This is caused by the flow of water from the Rio Puerco and the Rio Salado coming generally at a season between the drying up of the Rio Grande and the rains of July and August thus furnishing water for irrigation for the greater portion of the nine months or the whole season.

THE FRUIT CROP.

The fruit crop this year was injured by late frosts, freezes and snows. The yield will be as follows: Apples 30 per cent; pears 32 per cent; peaches 9 per cent; plums 87 per cent; apricots 5 per cent; cherries 7 per cent; grapes 90 per cent; strawberries 90 per cent. The fruit trees of this section need more spraying, pruning and working than they do water. The future to me looks gloomy to the horticulturists of this section owing to the great and rapid spread of the San Jose scale, codling moth and other enemies of the fruit trees and nothing but vigilance and liberal spraying will save the majority of orchards in this section. The Horticultural Society of the territory should by all means take this subject in hand and urge the fruit growers of the valley to recognize the great importance of spraying. Too many of our fruit raisers do not seem to realize the true conditions, but depend upon what nature has given them, soil, sunshine and water. I admit that they are three of the greatest elements of the horticulturist, but we must add to them, spraying, pruning and working of the soil. With these added to nature's gifts, the valley would soon be a paradise for the horticulturist. The grazing and meadow grasses of this county are good, especially our western and eastern ranges, but the fall in those sections having been heavier than usual at this season of this year.

A NEW CAMP.

It is Located in the Nogal District, Lincoln County.

The New Mexico Mining and Milling company in the Nogal mining district, is working twelve men on its Turkey Creek property, and ten men on its copper property. It will sink its shaft 300 feet, with a level every 50 feet and drift on the ore. At Turkey Creek it has built a fine wagon road five miles long, cleared a mill site and built a log cabin for an office. Also a stable and a blacksmith shop. It will soon construct a mill building, engine and boiler room, ore bin, tramway from mine to mill, and a pipe line to conduct water to the mine from two large springs above the mill site.

It has begun a tunnel on the Richard Carvel claim that will follow the lead or vein on the east 1200 feet and tap the Stonewall Jackson claim at the west end line and follow the vein on the mountain nearly 2700 feet, making stopping good for fifteen years.

It will have its mill and machinery in operation in 60 days, and then expects to employ about 35 men day and night.

Considerable free gold is showing up in the Little Iva and Sunday mines, and the Richard Carvel is showing 8 feet of good ore between the walls, every ounce of which pans free gold and no waste rock to handle.

The ore averages over \$17 free milling and there is enough in sight to run a 50 stamp mill 20 years.

GRANT COUNTY TO THE FRONT.

A Boston Syndicate Will Develop a Big Copper Area.

P. T. McGrath was in Denver the past few days where he was made happy by the receipt of a big block of money from a Boston syndicate which has purchased a large acreage of mining land of Mr. McGrath in Grant county, New Mexico. The total amount of money involved in the transaction is \$576,000, of which \$200,000 is to be expended in the development of the property. Mr. McGrath has spent fifteen months segregating the land and developing the lodes so as to demonstrate the presence of large bodies of high grade copper ore, ranging as high as 81 per cent copper. Two experts visited the spot and their reports were so encouraging that a final examination was made by W. B. Duval, the smelter man of Cadville, who has been acting in behalf of the Boston investors. The total amount is said to be one of the greatest ever opened in the southwest. The Greig Investment company of Denver, was instrumental in finding the purchasers.

A STEAMSHIP MONOPOLY

Ten American Millionaires Occupy All the Staterooms on the Steamer Deutschland.

FORMED A \$22,000 POOL

J. Pierpont Morgan is Interviewed About His Million Dollar Gift to Harvard and Says That He Has University Teaching at Heart.

New York, June 28.—According to a dispatch from London, to the Herald, when the steamship Deutschland leaves Southampton for New York today all state rooms on the promenade decks will be exclusively reserved for the ten millionaires traveling by her. These millionaires are J. Pierpont Morgan, Clinton Dawkins, Clement A. Grisom, Bernard A. Baker, Wm. L. Elkins, B. A. Widener, Harry Payne Whitney, Pierre Lorillard, Timothy L. Woodruff and John T. Waterbury. It is stated that they formed a syndicate and chartered the entire deck for \$22,000.

AN INTERVIEW WITH MORGAN. London, June 28.—J. Pierpont Morgan when met by a correspondent refused to go into details when asked regarding his gift of a million dollars to Harvard. He said: "I believed I could spend a million dollars usefully by giving it for this purpose, so I gave it. I have university teaching at heart."

OFFICIAL MATTERS.

APPOINTED ENGINEER.

Joseph H. Hoback of San Carlos, Arizona, has been appointed engineer at the government Indian school in this city at a salary of \$900 per annum.

INCORPORATIONS.

The following incorporations were recorded by Territorial Secretary J. W. Reynolds today: The Veta Madre Oil and Mining company. Capital \$500,000, divided into 500,000 shares. Headquarters at Las Cruces. Object, oil and smelting. The incorporators are W. H. Austin, G. P. Putnam and J. G. Freeman. The directors are C. H. Moore, John Lemon, J. A. Herrera, L. N. Heil and N. D. Lane.

The Gilt Edge Land and Oil company. Capital \$100,000 divided into 1,000,000 shares. Headquarters, Gallup. Object, oil and production of power. Incorporators, J. M. Jacobson, John O. Meyers, Jacob Tratsch, Directors J. M. Jacobson, John O. Meyers, Jacob Tratsch, T. P. Robinson, L. E. Demore of Gallup; W. H. Norris of Albuquerque; G. H. Adams of Phoenix, and E. L. Rankin of St. Louis.

GRAZING PERMITS APPROVED.

The secretary of the interior has approved permits to graze 54,000 sheep and 2340 goats on the Gila forest reserve during the present summer. Also permits to graze 125 cattle and 33 horses on the Pecos forest reserve.

A COAL ENTRY CONTEST CASE.

The United States land office at Las Cruces has been engaged this week in the hearing of the contest case of Robert Duffy, et al., against A. H. Hilton, et al. Pierre A. Allaire, of the big merchandizing firm of Allaire, Miera & Co., San Antonio, N. M., is one of the contestants, and the firm of A. H. Hilton & Co., also merchants at San Antonio, are among the contestants. The question involves the right of the contestants to amend an entry they made for coal in August, 1900, so as to include at this time coal lands to which the contestants claim to have had the right of possession since December, 1900. There are a large number of witnesses on each side. The contestants are represented by W. E. Baker, Esq., of Las Cruces, and the contestees by E. C. Wade, Esq., of Las Cruces, as attorneys.

A MERRY RAILROAD WAR.

The Southern Pacific Tries to Keep the Biebee from Crossing Its Tracks.

A fight is on near Deming between the Southern Pacific and the grading outfit of the proposed New Mexico Southwestern or Biebee railway. The latter company has declared its intention of crossing the Southern Pacific tracks at that point to connect with the Santa Fe, and the Southern Pacific has stationed armed guards and built a fence along its right of way to prevent the Biebee from carrying out its determination. Already the Biebee grade is complete to within a hundred feet of the S. P. track, but as often as the contractors and workmen of the new railway have endeavored to extend their line across the S. P. the four armed guards have interfered and ordered the employees of the new company to clear out or take the consequences.

The guards are on duty day and night and have been stationed there two weeks, or ever since the purpose of the Biebee became known. The Biebee people have eighteen teams and a large force of men engaged in grading and have made a number of ineffectual attempts to cross the S. P. but the four guards have on each occasion repulsed the invaders. The Biebee grade comes up from the southwest and approaches the S. P. at a point about one mile west of Deming. Its intention is to cross over and connect with the Santa Fe at the latter's round house and to use the Santa Fe tracks into El Paso until its own tracks have been laid.

A few days ago the Southern Pacific people, fearing that the guards might prove ineffectual in preventing the laying of the Biebee tracks across its own, ordered that a fence be constructed along its right of way and the fence, a mile and a half long, is now being built.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

FRIDAY, JUNE 28.

New Mexico Demands Statehood of the 37th Congress.

Of Right and in Justice New Mexico Should Be a State.

There is peace once more in the United States for Colonel William Jennings Bryan is at present sojourning at Quebec, Canada.

The delinquent tax payer who can settle the tax suits pending against him at a discount is a lucky individual all around. He had better take advantage of the situation.

The national debt has been reduced during the past fifteen months in the sum of \$48,000,000. Score another excellent point in favor of the Republican McKinley administration.

The county commissioners of Santa Fe county should lose no time in taking hold of the reduction and refunding of the county debt. Every day counts and counts against the county.

James E. Gaines, a prosperous businessman of Denver, committed suicide on Wednesday on account of the oppressive heat which prevails in Colorado. Suicides from that cause are unheard of in New Mexico.

A new bank is being started in San Juan county. Another refutation of the lie told by the little band of forgers who made charges against Governor Otero, stating that capital was being driven out of the territory by his administration.

Germany is losing by the war in the Transvaal and is gaining through the occupation of the Philippines by the United States. In 1900 Germany's exports to the Transvaal fell off \$2,500,000 while her exports to the Philippines increased \$58,800.

For the third time this year the Denver police have arrested the alleged Capitol Hill thug and it is dollars to doughnuts that it isn't the thug after all. Life in a great city must be precarious when despite ample police protection, one man is able within a year to assault fourteen women, killing four or five of them, and yet remain undetected and scot-free.

The exchanges of the New Mexican team with descriptions of June weddings. The month of roses is becoming more popular every year, as the month of brides and bridegrooms. In this part of New Mexico however, it seems, that weddings are few and far between, a condition which should be studied by sociologists and if possible, a remedy suggested.

Hanging is too good for the man who set on fire five of the bridges on the Denver & Rio Grande railway between Pueblo and Florence. Whether his intention was to wreck a passenger train or merely to seek revenge on the company by causing it a material loss makes very little difference. No means should be spared to apprehend the culprit and his punishment should be swift and severe.

Hawaii's latest ambition is to be annexed to California and quite a sensible ambition it is. In New Mexico the Hawaiians have an example of a territory working and waiting for fifty years to be admitted to statehood. Had New Mexico been annexed to California it would have been enjoying the privileges of statehood for the past five decades. Annexation to California would give the people of Hawaii the rights of citizenship while New Mexico is still waiting for those rights promised it at the time of annexation to the United States.

That there are some sensible men in the Democratic party is shown from time to time by the announcement that such a leader has declared that the Democratic party will drop the free silver issue and with it Bryanism before 1904. But that these sensible men are in the minority is shown by the fact that every announcement of that kind is greeted by the Democratic press with howls of derision and cries of "traitor." The Republican party can well afford to rejoice at this disposition of the Democratic hosts who are still wedded to their false gods.

Here is a list of comparative temperatures on Wednesday which prove again that Santa Fe is the coolest spot in the Rocky Mountain region, in fact in the whole country during the summer: St. Louis 100° degrees; North Platte 100 degrees; Kansas City 98; El Paso 98; St. Paul 98; Dodge City 96; Pueblo 98; Denver 97; Colorado Springs 96; Albuquerque 94; Las Vegas 93; Grand Junction 92; Cheyenne 90; Santa Fe 85.

Dick Croker has been heard from again by contributing materially to Democratic victory in 1904. He has bought 50 bottles of pale golden sherry of the vintage of 1873 at a recent auction sale of Queen Victoria's wines and has presented them to Tammany. This is undoubtedly a hint to the Tammany followers to get more spirit into themselves and not to be too depressed on account of the terrible blizzards they struck at the polls in last November.

Reports from San Juan county are to the effect that the indications for the striking of oil in parts of that county are becoming better right along. It is believed that strong wells and spouts of lubricating oil will be struck there. Verily, as said before, San Juan county is fortunate.

The predictions made from time to time that petroleum will supercede coal as fuel or that the day is coming when coal will not be needed by railroads and manufacturing plants are pretty wild guessing. For the next century or so coal will remain king and districts which can have coal as cheap as the greater part of New Mexico will be the centers of population and wealth.

J. Pierpont Morgan has given Harvard college an endowment of \$1,000,000 for new buildings. There is no fault to find with the gift nor the giver, but philanthropists should discover means for giving that will more directly benefit the poor men whose toil has been the source of their wealth. Ministers, lawyers, scientists, authors and physicians are being turned out by the thousands by the universities and are crowding each other for a living while poverty and want are stalking around in the quarters of the poor as heretofore and the opportunities for the poor man to better his condition are very few and far between. This condition should suggest to the millionaires that when they endow colleges and schools that really do not stand in need of endowment they merely help to overcrowd the ranks of the professions and literati while there is a crying need for their wealth in the efforts to uplift the masses of the people.

It is known among military men that the French soldiers are not noted for their personal beauty, either in face or figure, and it is therefore somewhat surprising that the board whose duty it was to revise the conscription lists, sitting at Nimes, felt compelled recently to bar a young man from the army on the ground that he was too ugly. The accounts at hand do not disclose the exact nature of this ugliness, but the trouble must have been with the young man's features alone, as he is described as well built, strong, and healthy. It is said, however, that he "was positively hideous," that the council of revision "found his personal appearance so appalling that its members could not withhold a cry of stupefaction," and that after mature deliberation, they decided that "his face would cause so much emotion in the ranks as to injure discipline." One of the London papers, in commenting on the affair, calls attention to the fact that Nimes is near Tarascon, and intimates that the famous club which that town once possessed has been revived. There may be something in that idea, but such a rejection could have been no laughing matter for the young conscript. If he is wise he will betake himself to China and there enter upon a military career that could hardly fail to be eminently successful. The Chinese put a high value upon ugliness as a means of terrorizing the enemy, and so making possible the avoidance of real fighting. With this end in view, if travelers' tales can be trusted, they subject their features to alarming distortions when in sight of the foe, and when they feel that this will not accomplish the desired object they wear frightful masks, at the sight of which none but Occidental barbarians—who have a sense of humor—can stand firm. The rejected conscript would not have to "make up faces" or wear a mask, and he ought to be a general within a year after landing on the Celestial coast.

Census Frauds.
While the census of 1900 does not do New Mexico justice, in Maryland it gives credit for a greater population than really lives in the state. In Maryland, however, the discrepancy was caused by deliberate fraud while the discrepancies in New Mexico were caused by natural conditions which are difficult to change.
A committee of the national civil service reform league, headed by William Dudley Foulke and Richard Henry Dana, has been investigating census frauds in Maryland. In the congressional district represented by Sydney E. Mudd, Republican. Mr. Mudd secured the nomination of the supervisor for the 3d district, and presumably the census enumerators were his proteges. The congressman was very anxious that his district should make a good showing in the census—all the more anxious because the constitution of Maryland provides that a county must have a population of at least 15,000 in order to have three members in the house of delegates, and 40,000 to have five. When the census was taken it was found that St. Mary's county had 13,136 inhabitants, Charles county 18,316, and Anne Arundel county 40,015, the last named thus gaining an additional member in the house of delegates.
The narrow margin by which all three counties won their extra delegate naturally aroused suspicion, and an investigation followed. It was discovered that several census enumerators had deliberately padded the census lists. They had put on their schedules persons who had once lived in the district and had removed from it. They enumerated summer boarders and nurse girls at the hotels. They even gave the names of persons who were dead. When one of the enumerators was brought to account for using a dead man's name he said: "Well, he had not been dead very long, anyhow." In one instance this queer official enumerated not only a dead woman, but the Washington undertaker who had come down to bury her. On one supplementary schedule 55 dead persons were returned, with more names that were absolutely fictitious. Often the personal descriptions were so carelessly filled in that the fraud was evident. Thus one person is described as a school teacher six years old. A two-year-old infant is classified as a farm laborer, who was employed during the entire census year, and could read, write and speak English. A colored pickaninny of two years is described as a carpenter. In Anne Arundel county three or four thousand berry pickers who were at work in the county from two to six weeks were included in the enumeration. These frauds were so bunglingly done that it was very easy to win conviction for the law-breakers.

Skin Diseases

ECZEMA, TETTER, PSORIASIS, SALT RHEUM, ACNE and a great many other diseases of like character are classed as skin diseases, when they could just as properly be called blood diseases, for they undoubtedly originate in the blood, like Cancer, Catarrh, Scrofula, Rheumatism, Contagious Blood Poison, etc.; the only real difference being in the intensity and nature of the poison. The more serious diseases, Cancer, Catarrh, etc., are caused by some specific poison or virus, which is either inherited or in other ways gets into the blood and attacks certain vital organs or appears in the form of terrible sores and ulcers, while the milder and less dangerous skin diseases are caused by blood humors or an over acid condition of that fluid. These acid poisons, as they ooze out through the pores of the skin, cause great irritation, with intense itching and burning. The eruption may be of a pustular kind, with excessive discharge of thick, gummy fluid, or the skin may be hot, dry and feverish, swollen and fissured. Skin diseases, whether they appear as sores, blotches or pimples, become more deeply rooted and intractable the longer neglected, the skin in time having a thick, hard, rough and unsightly appearance. You can hide the blemishes for a time with cosmetics; and washes, lotions, soaps and powders may relieve temporarily the itching and burning, but eventually the pores of the skin become so clogged up with this treatment that the poisonous matter thrown off by the blood accumulates in the system, and settles on the lungs, heart or some other vital organ and endangers life.

To purify and build up the polluted blood is the right treatment for skin diseases, and for this purpose no other medicine is so deservedly popular as S. S. S. It is a perfect antidote for all blood humors, and when taken into the circulation, gently but thoroughly eliminates all impurities and puts the blood in a healthy, normal condition. This skin can't remain in an irritated, diseased condition when nourished with rich, new blood. S. S. S. is the only guaranteed purely vegetable remedy, and the safest and best skin beautifier. Write our physicians if you have any blood or skin disease, and they will cheerfully advise you without charge.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
A GOOD APPOINTMENT.
With Governor Otero Reappointed New Mexico is Safely in the Republican Column.
(Los Angeles Times.)
In the reappointment of J. A. Otero to the governorship of New Mexico for the next four years the president has again displayed an admirably keen knowledge of western men and measures. When Governor Otero assumed control of New Mexico four years ago this month, he courageously gave it out that he would tolerate no sort of political dictation. He wished to be untrammelled in his efforts to build up and improve the territory. Affairs financially, educationally and otherwise were in bad shape, and popular regard for law and order was at a minimum. Now all this is changed. New Mexico's financial standing is as good as that of any western state. It has an admirable public school system, fashioned after the school laws of Kansas and Illinois. An excellent set of laws, far in advance of those of many of the states, has been enacted and rigidly enforced under Governor Otero's regime, and life and property are safe today in that territory as in any state in the union.

It is a fact not generally known, but borne out by government statistics, that New Mexico now leads all other states and territories in the number of her sheep, having nearly 7,000,000 head. The territory has many natural resources, among which are its vast coal and iron deposits. Under the new order of things, capital from the outside is readily obtainable for development. Governor Otero has been bitterly opposed from the start by some influential members of his party at home, but under his administration the territory has been solidly Republican, returning largely increased majorities at the last two general elections, so that it may now be said that New Mexico can be counted as safely within the Republican column. Governor Otero cherishes the hope that the territory may be admitted as a state before the expiration of his second term. He is certainly working along the right lines to attain that object.

GOVERNOR OTERO REAPPOINTED.
President McKinley's Action in the Matter is Appreciated by the Republican Party.
(McKinley County Republican.)
The Republican county of McKinley rejoices with the territory at large in the appointment of Governor Miguel A. Otero to be his own successor, an honor never before accorded to a governor of New Mexico. The action of President McKinley in this matter is appreciated by the Republican party which has stood squarely by Governor Otero in all his actions since he received his appointment as governor on the 7th of June, 1897. It is not natural that in the great amount of business which has passed through the governor's office in the past four years that he should have made some personal enemies. In view of this it is remarkable how few in number they are, and the small amount of influence they brought to bear on the administration. The territory was never so prosperous as today. The finances are in a good condition; the four per cent bonds of the territory are now at a premium, where in former years six per cent bonds sold at a discount; there is a large surplus in the treasury and all obligations are paid in cash. The increasing demands of our admirable school system are complied with as soon as made, and the percentage of illiteracy is less today in New Mexico than in several of the states. New business enterprises are springing up everywhere, several railroads are under construction, new towns have been founded, and prosperity has come to stay and will remain with us so long as business enterprises are given the protection and fostering care of the honest administration of public affairs which they have received during the past four years. Governor Otero is a typical New Mexican and ably represents the people, and right now we present him as the proper man for governor of New Mexico from June 7, 1901, to June 7, 1905. It is a little early, but we want to get the start of the next dozen or so of kickers that will probably show up by that time.

A Competent Man.
(Taos Cresset.)
David M. White is out for appointment to the office of surveyor general of the territory; he is a competent man for the office.

Missouri Code Pleading
By Mr. Everett W. Pattison,
(Author of Pattison's Complete Digest.)
Nearly 600 Pages. Price, \$6. Delivered.
This Book is a Very Important One for all Lawyers.
It sets forth, as succinctly as is consistent with clearness, the present condition of the law governing pleading as interpreted by the courts of last resort in Missouri. The decisions are mostly those of the Missouri courts; though in some instances illustrations have been drawn from the decisions of other code states.
The Author Thoroughly Believes in the Advantages of the Code System of Pleading.
He further believes that precision and exactness are even of more importance in code pleading than in pleading at common law. For, while it is true that the common law requires the utmost strictness in adherence to forms, yet, if its forms are followed, the practitioner need have little fear of attack upon his pleading, even though that pleading should totally fail to inform his opponent as to the real points in issue. On the other hand, the very object of the Code is to compel parties to make clear the grounds upon which their right to recover, or their defense, is based. The lawyer who is well grounded in the rules of pleading will surely have the advantage in litigation. The constant study of this valuable work, familiarity with the rules set forth in it, and with the decisions enforcing and interpreting those rules, cannot fail to make one a good pleader.
SPECIAL OFFER.—To those who buy both books at once, we will offer Pattison's Pleading Form Book (Price, \$5.00), if ordered within the next 30 days for \$4.00 additional, thus offering the two works, giving all there is to be said about Pleading in Missouri.
In one order. Prepaid for \$10.00.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly

tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuritis, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:08 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. A meeting will be held on Monday evening at 8:30 o'clock of next week at the home of Grant Ribenburg on Palace avenue, for the purpose of perfecting plans for a boys' club. All who are interested in the boys of Santa Fe should attend the meeting.

PERSONAL MENTION

Mrs. John Dunn went to Taos this forenoon where her husband went a few days ago.

Mr. and Mrs. Homer J. Kendall of Las Vegas, left this forenoon for Creede, Colo.

William E. Kelly of Socorro, arrived in the city on the noon train for a business visit.

Mrs. J. E. Russell arrived from Taos last evening and went to Las Vegas this forenoon.

A. Menet of Las Vegas, traveling for the Browne & Manzanares company, is calling upon local merchants today.

Mrs. Marchand and two daughters, who have been the guests of Mrs. Phoebe Gold, left this forenoon for Durango, Colo.

George Day and family, Superintendent C. J. Crandall, Frank Ellis and others started on a trip to the cliff dwelling country this forenoon.

The Rev. Henry W. Moore of El Paso, is visiting his brother, the Rev. W. Hayes Moore and will preach in the Presbyterian church on Sunday.

Mrs. B. S. Rodey of Albuquerque, and niece, Miss Codrington, of Topeka, Kas., who have just returned from a trip to the Grand Canon, arrived yesterday from Albuquerque and after a few hours' stay returned to the Duke City.

Mrs. Harvey Bittner and son, Harvey, of Albuquerque, who have friends in this city, have gone to Allentown, Pa., on a visit of two months with friends. On the way they will stop at Topeka to spend several days with Mrs. Wardem, a former resident of New Mexico.

Captain S. S. Mathers, special agent of the general land office, returned last evening from Las Vegas. He reports that the reception to Governor and Mrs. Otero at Las Vegas yesterday afternoon was enthusiastic, a large multitude greeting and cheering them at the depot.

Colonel W. A. Glassford of the signal corps, U. S. army, spent the day in the city en route to San Francisco, Cal., where he will be on duty for some months before going to the Philippine islands. Colonel Glassford spent the day here very pleasantly calling on his many warm friends. He goes to Albuquerque tonight where he will remain for a day and then start west.

R. C. Gerner, Esq., is in Las Vegas on legal business.

JULY WEATHER.

It is Usually the Wettest Month of the Year in New Mexico.

The following data covering a period of 27 years have been compiled for the month of July from the weather bureau records at Santa Fe: Mean temperature 69 degrees; the warmest July was that of 1870 with an average of 73 degrees; the coldest July was that of 1875 with an average temperature of 65 degrees; the highest temperature was 96 degrees on July 30, 1878; the lowest temperature was 43 degrees on July 30, 1897. The average precipitation for the month is 2.88 inches, average number of days with .01 of an inch or more; 4; the greatest monthly precipitation was 6.91 inches in 1875; the least monthly precipitation was .84 inches in 1891; the greatest amount of precipitation recorded in any 24 consecutive hours was 2.50 inches on July 15 and 16, 1876. Average number of clear days 9; partly cloudy days 17; cloudy days 5. The prevailing wind has been from the southwest. The highest velocity of the wind was 45 miles per hour from the west.

Deaths Recorded.

Probate Clerk Manuel Delgado today recorded the following deaths: Desiderio Romero to Juanita Garcia de Romero, for a parcel of land in precinct No. 4, Consideration \$60; also for a piece of land in the same precinct, consideration \$20. Eduardo Rodriguez y Quintana and Juana Moya de Rodriguez to Jesus Gonzales y Vialpando and Paula Rodriguez de Gonzales, a parcel of land. Consideration \$35. Maria Rita Vialpando to Jesus Gonzales y Vialpando, a parcel of land in precinct No. 17. City of Santa Fe to Pansy T. Hughes, a parcel of land in precinct No. 17. City to Nemecio Armitajo and Guadalupe Lucero de Armitajo, two parcels of land in precinct No. 17. City of Santa Fe to Julius Muralter for a lot on Galisteo street.

THE SPRINGER SCHOOL LAW.

Its Provisions Should be Enforced in Order to Secure Better Teachers.

To the Editor of the New Mexican.
Santa Fe, June 28, 1901.—According to the new school law passed by the last legislature, every person who desires to teach in the public schools of the city of Santa Fe, or anywhere in Santa Fe county or in New Mexico, will have to attend a county normal institute and pass the teachers' examination. Those who make an average grade as high as 90, will be entitled to a first grade certificate, good for three years. Those who make an average grade above 70 and below 90, will be entitled to a second grade certificate for two years.

As decided by the territorial board of education at its meeting June 3, the following are the branches to be examined in: Reading, writing, spelling, geography, arithmetic, English grammar, United States history, hygiene and methods of teaching. The examinations will be held the last Friday and Saturday in August in every county in the territory. The papers are to be graded by the county examining board and then they must be sent to the territorial board of education to see if they have been properly graded.

A section of the new laws says: "A legally qualified teacher to teach in any school district, independent district, or incorporated town or city, shall be one who has been certificated as prescribed in this act."

The same section also states that: "Any county superintendent, or member of a school board, or county treasurer who shall directly or indirectly cause the public school funds to be paid for teachers' services to any person other than a legally qualified teacher under the provisions of this act shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in a sum not less than \$100 nor more than \$500 for each and every offense, and may be removed from office by the governor."

The above provisions are certainly very timely. At this day and age no one should take upon himself the great responsibility of training the young who has not made special preparation for the work.

Most any one can "keep" school and draw the salary, but it takes one especially qualified to properly govern and judiciously instruct the young and tender mind. The nurseryman finds that much depends on how the young orchard is started and tended the first few years. How much more should the nurseryman of 40 or 50 young and tender minds be thoroughly adapted and especially prepared by study and training for his work? It is evident therefore that no one is fit for this responsible work unless he or she devotes much time and study to it. Poor teachers blight and dwarf the minds of their pupils so that they get a dislike for study, books and school, and sooner or later they drop out of school and spend their time in ways indescribable and become known as idle, troublesome, mischievous children. And whose fault is it? Certainly not that of the child, but of the parent and poor teacher. When boards of education decide to secure the best talent available for the money, there will be fewer children out of school.

U. S. Weather Bureau Notes.

Forecast for New Mexico: Fair to night; probably showers Saturday. Yesterday the thermometer registered as follows: Maximum temperature, 85 degrees, at 4:40 p. m.; minimum, 57 degrees, at 5:00 a. m. The mean temperature for the 24 hours was 71 degrees. Mean daily humidity, 43 per cent. Precipitation, .001 of an inch. Temperature at 6:00 a. m. today, 62.

Death of Jose D. Aragon.

Jose D. Aragon died at an advanced age at Anton Chico on the 24th. His brother, Jose Aragon, suddenly dropped dead in the court room at Puerto de Luna, one year ago today, and another brother, Julian Aragon, who was operated upon Tuesday, is a dangerously sick man at his home in Las Vegas.

GRANT COUNTY MINES.

Another Rich Gold Strike on Whitewater Creek—The Camp at Burros.

The properties owned by the Southwestern Copper company at Burros, are all lying idle, the leases having expired and the lessees having removed all machinery and materials connected with recent operations. It is understood, however, that the suspension of work is but temporary. The difference has been existing for some years past among the stockholders of the company have recently been satisfactorily adjusted and in a short time will be resumed. The Southwestern Copper company's properties are the most extensively developed in the camp and have yielded handsomely under several different managements.

One of the best showing claims at Burros at the present time is the Archie mine, owned by Messrs. Maroney, Sublett and Martyr. The shaft has been sunk to a depth of 75 feet, and a good sized vein of high grade copper ore has been encountered, which is being stored on the dump for shipment.

Judge C. Bennett and Charles Morill will sink a shaft on the Candystick claim at Burros, which they recently purchased from James Maroney.

Dickinson, Laird and Rivers are prosecuting development work on their Dickinson No. 1 mine at Burros, and have a good ore body in sight in the bottom of the shaft, which has only reached a depth of 35 feet.

A force of five men is being employed on the Sampson mine at Burros which is owned by H. G. Nichol. Nichol is drifting on the 115 foot level and is taking out some good ore. Many improvements have been added by the new management.

Allen and Hotchkiss are sinking on their Pipe Canon mine and have reached a depth of about 95 feet. When 100 feet is reached they will cross cut.
