THE DAILY CITIZEN will be delivered
in the city at the low rate of 20 cents per
week, or for 75 cents per month, when
paid monthly. The rates are less than
those of any other daily paper in the
territory.

The republicans of this city will hold
ward primaries on March 22. The date
of the city convention is not set.

A murderer at Sandusky has been
thrice condemned to death and is still
alive. In Ohio none resign and very
few die.

In its foreign trade during January
the United States exports were, in
round figures, \$129,000,000, and its im-
ports \$79,000,000.

The Prince of Wales, now Edward
VII of England, visited America in
1860, and was entertained in New York
with much enthusiasm.

The Standard Oil company does not
yet own the earth but it is trying to
own all that portion of it in the neigh-
borhood of Beaumont, Texas.

Alone of all Latin-American coun-
tries, Mexico enjoys peace and pros-
perity, with trouble neither at home
nor abroad. It is due to Diaz.

President Roosevelt gives the credit
of the battle of Santiago to the cap-
tains of the warships. In this he is
mistaken. It was the gunners who did
the business.

An Indiana man has committed sui-
cide because someone scoffed at him
for joining the church. It is to be feared
that he didn't have the courage of
his convictions.

Colorado's legislature, after being in
extra session for five weeks, is able to
show that it has accomplished some-
thing. It has already adopted resolu-
tions of sympathy for the Boers.

Fire losses in the United States were
\$119,650,000 in 1898, \$126,773,200 in
1899, \$163,362,250 in 1900 and \$165,
000,000 in 1901. Last month the loss
was \$15,000,000, or at the rate of
\$180,000,000 a year.

The Spanish people of New Mexico
have used water for irrigation for
three centuries. The pueblo Indians
had irrigation ditches here when Cor-
onado came in 1540. Irrigation is no
new thing in the west.

The bill for the establishment of a
permanent census bureau passed the
senate, and the probability is that it
will become a law. This will make the
work of the next census much easier
than that of any which has preceded
it.

North Carolina is ahead of Massa-
chusetts in the number of cotton mills,
by 177 to 163, but size counts for some-
thing, for the annual production of the
Massachusetts mills is \$110,000,000 and
that of the North Carolina mills \$28,
000,000.

Census figures show that the in-
crease in manufactures in the past de-
cade have caused the factories to grow
by half. More specifically, there has
been a 44 per cent increase in the num-
ber of establishments, and a 51 per
cent increase in the amount of capital
invested.

TWO BIG CITIES.

Exclusive of the outer belt London
has 4,556,541 inhabitants who live with-
in an area of 117 square miles. The
metropolitan and city police districts
comprise an area of 693 square miles
and have a population of 6,580,000.

Greater New York covers four coun-
ties, having an area of 326 square
miles, for which the population is 3,
437,000. Adding Westchester county,
New York, add four counties of New
Jersey which contain such cities as
Newark, Jersey City and Elizabeth.

RACE FOR TRADE.

Foreign Commerce Shows American
Goods Still Gaining Favor.

NOW EXPORTING TIN.

The important document entitled,
"Review of the Foreign Commerce of
the United States in 1901," showing
the pace at which this country ran
during the last calendar year in the
great race for supremacy in trade in
the world's markets, has been made
public by Frederic Emery, chief of the
bureau of foreign commerce of the
state department.

It is stated that the commercial re-
ports of our diplomatic and consular
officers last year record continued
growth in the sales of many lines of
manufactures from the United States
in foreign countries. Although the
value of our exports of manufactured
goods has shrunk, the variety of our
sales in Europe is being extended, and
the territory upon which they are en-
croaching is being constantly enlarged.
It is shown to be a fact that we are
now supplying European nations with
goods which have for years been dis-
tinctive of the countries themselves,
and which we used to import from
them. We export silk to France, tin
plate to Wales, cottons to England,
and our California fruit is making such
headway in Spain as to provoke the
envy in a Spanish newspaper: "Shall
we live to see American oranges on
the Valencia market itself?" In Bel-
gium, more American goods are being
consumed than ever before.

The falling off in American exports
is attributed, not to the goods being in
less favor, but rather to business de-
pression in Europe, affecting the pur-
chasing power. The elimination of
Hawaii and Porto Rico from the list
of countries to which we export also
is a factor. The treasury figures show
that during the calendar year there
was a falling off of \$12,565,194, com-
pared with the previous year, manu-
factures falling off \$46,262,492, but be-
ing offset by a gain in agricultural ex-
ports of \$35,591,977.

As to restrictive legislation, pending
measures in Europe might be aban-
doned, says the report, if the United
States modified its tariff policy and
permitted more imports from Europe.
On the whole, Mr. Emery finds that we
have hardly more than entered upon a
novitiate in fitting ourselves for in-
ternational competition, and he notes
with encouragement the growth of a
popular interest in the value of foreign
trade and well directed efforts for ex-
pansion.

COMER IS GENERAL MANAGER.

Young Man Given Important Position on Texas Road.

The directors of the Dallas division
of the St. Louis & San Francisco met
at Fort Worth and elected L. B. Comer
to succeed W. B. King, who recently
resigned, as vice president and gen-
eral manager.

Mr. Comer is the youngest railroad
general manager in this country, and
began railroading at Nevada, Mo., in
1885, where he was connected with the
yard office of the "Katy." Later he
was joint rate clerk for the "Katy" and
Missouri Pacific, with headquar-
ters at Sedalia, and later still was con-
nected with the auditor's office of the
Missouri, Kansas & Texas in St. Louis.
His first official act was the appoint-
ment of W. Preston, general freight
agent, and W. A. Tuley, general pas-
senger agent, both now representing the
"Frisco," as commercial agent and
general agent of the passenger depart-
ment in Texas, respectively, with head-
quarters at Dallas.

MISS IDA McCUNE.

DANIELS LOSES.

Letter to Roosevelt Not Satisfactory

and Nomination Will Be Revoked.

A special to the Denver News from

Washington under date of February 17,

says:

The nomination of Ben Daniels, an

ex-Rough Rider, to be marshal of Ariz-
ona, confirmed by the senate before it
had heard of his record as an ex-con-
vict, a hold-up man and a brace gam-
bler, will be revoked by the president.

Daniels was a personal nominee of

President Roosevelt. The president

knew him as a brave soldier and de-
sired to reward him. There was ugly

rumors in Washington about Daniels

when his nomination was referred to
the judiciary. After his nomination
was confirmed the story came that
Daniels had served a term in prison
for larceny and a great row was raised
in the senate because he had been con-
firmed without facts being brought to
the knowledge of that body. President
Roosevelt called on Daniels for explana-
tion and the letter received in reply
was not satisfactory.

Announcement.

Doctor Conner has opened an office

in the Whiting building, rooms 21 and

23. By osteopathic treatment he is able
to cure many chronic diseases that
has baffled the skill of physicians of
the old schools of drugging for centu-
ries.

It is the privilege of everyone to

consult free of charge.

NEW MEXICO TOWNS

LAS VEGAS.

From the Optic.

V. A. Henry, the contractor, is laid up with sickness.

Bishop J. M. Kendrick is expected to arrive today to be the guest of Rev. and Mrs. George Selby.

W. W. Rawlins is convalescing after a severe and prolonged illness, but won't be himself again for some time.

A young man by the name of Gabaldon, from Rowe, underwent an operation at the Ladies' Home yesterday.

Jose D. Gutierrez has forfeited his right to government land patented by him by not living on the place as required.

Miss Carlota Clancey was operated on yesterday at the Loretto academy, and is resting as easily as can be expected.

P. R. Lopez has taken charge of the public school at Tecolote, which has an enrollment of fifty-six pupils. He has an assistant who is paid the princely salary of \$15 per month.

John A. Welsch, M. D., of Frankfort, Mo., has accepted a position as assistant bookkeeper with the Browne & Manzaneros company in this city.

Miss Minnie Duebner is suffering with intermittent appendicitis and Miss Stella Ashbrook has substituted her temporarily at S. R. Dearth's undertaking parlors.

Four cars of machinery arrived today for the electric railway and power company. The work of putting up poles and attaching the iron has been pushed, and now with the arrival of the machinery the power house and other work will begin.

From the Record.

Mrs. H. J. Ryan is confined to her bed on account of illness.

John Bruno, after a few days' illness, is able to be out again.

W. C. Reid, G. W. Harrison and H. M. McIntosh will leave on the stage for Santa Rosa.

Mrs. A. Lane left for Santa Fe, where she will join her husband for a few days.

Work is being pushed on Hon. Charles A. Spiess' handsome residence on the Hot Springs boulevard.

The running of the daily stage between here and Santa Rosa was started Tuesday morning, and this will institute a daily mail service.

It is rumored that the brotherhood of Our Father Jesus of Nazareth is surely divided in San Miguel county, owing to the mixing of politics by certain parties.

Edward Ashley has accepted a position on the Springer ranch at Springer, to take charge of the horse department. He will leave for there soon, accompanied by his family.

In the probate court the following business was transacted: Final report in the estate of Hemenegito Lucero was made by Petrolino Lucero and Juan de Dios Aragon. C. S. Rogers filed a claim against the Martinez estate. Court then adjourned until March 3.

The Last Heard Of It.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, Ohio. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. J. H. O'Reilly & Co., B. H. Briggs & Co.

A Night Alarm.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Manning, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by Alvarado Pharmacy.

LORDSBURG.

From the Liberal.

Miss Agnes Speed, who has been in Pearce for some months, with her sister, Mrs. McKean, returned home.

The box social given by the ladies of the Catholic church last Friday night was a complete success, both socially and financially. Something over \$100 was added to the church building fund.

C. F. Dunnegan, who has a long time been in the mercantile business at Magdalena, New Mexico, and who recently sold his business there to Gross, Blackwell & Co., has purchased the stock held by M. A. Leahy in the Roberts & Leahy Mercantile company.

J. I. Driscoll, a postoffice inspector, was in the city the first of the week, coming from Morenci, where he had been investigating the robbery of the Morenci postoffice. He is of the opinion that the work was done by men with considerable experience as burglars. He was unable to obtain any satisfactory clue to the identity of the robbers.

Dr. Moir went down to El Paso last week on business. While there he broke out with what is generally called "Cuban itch here" but no sooner did an El Paso doctor see the condition he was in than he ordered him to the pest house, or the "detention hospital," as it is called there. The doctor reports, by telephone, that the hospital is a most pleasant place to spend a few days of retirement, that it is kept immaculately clean and the patients have the best of treatment. His only trouble is that his friends cannot call on him.

SANTA FE.

From the New Mexican.

Jake Gold was assaulted last evening on lower San Francisco street, stones being hurled at him. Arrests will follow, as the guilty party is known.

Mrs. Amado Chaves intends to leave for southern California. Mayor Chaves will follow her in April to spend a

season at southern California seaside resorts.

W. R. Barrall, of Dulce, connected with the government service on the Jicarilla Apache Indian service, arrived last evening over the Denver & Rio Grande railway.

W. H. Pope, attorney for the Pueblo Indians and assistant United States attorney of the United States court of private land claims, returned from a stay at Washington, Charleston, Atlanta and other southern points.

A petition to Governor Otero is being circulated asking him to use his influence to have the Sunday closing law applied to saloons in every part of the territory or to have permission granted to the saloons at Santa Fe to be open on Sunday.

Several residents of the Third ward have called at the New Mexican office and have stated that A. M. Bergere should be induced to become a candidate for member of the city board of education from that ward, as, if elected, he would be a very valuable member of the board.

Superintendent C. J. Crandall has asked the authorities at Washington for permission to buy anti-toxin to be used in diphtheria cases in various pueblos. Diphtheria seems to be prevalent to a fearful extent in various parts of New Mexico, and especially in northern Taos county, where in one settlement eighteen children have died of it this season. Santa Fe is exempt of the disease, but that can be said of but few sections of the territory.

Saved Him From Torture.

There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unceasing. DeWitt's Witch Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds it is unequalled. J. S. Gerall, St. Paul, Ark., says: "From 1865 I suffered with the protruding, bleeding piles and could find nothing to help me until I used DeWitt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits. J. H. O'Reilly & Co., B. H. Briggs & Co.

He Recommends Chamberlain's Cough Remedy.

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

CARLSBAD.

From the Argus.

Miss Emma Anderwerth, sister of Charles, who lost his life last week from ptomaine poisoning, has been very ill from the same cause, but is now reported out of danger.

D. L. Post, a Roswell farmer, and Miss Annie Pierce, of Hope district, met in Carlsbad, by agreement, and were united in marriage. The wedding took place at the home of John Ruark and Judge John L. Emerson tied the knot.

E. D. Lehan, the man who was badly stove up in the fracas with Albert Turner, at a neighboring sheep camp, has almost entirely recovered. Mr. Lehan is a mutton buyer and will leave in a short time for the country opened up by the Rock Island road, where he has a big contract to fill.

The new board of governors of the Union club held their first meeting, and the following have been named by President Cameron on the social committee: J. E. Sheltre, chairman; L. O. Pullen, John Harvey, H. F. Christian and E. S. Motter. Dr. C. H. Wright and John T. Bolton were named to act with Secretary Armstrong as house committee.

Trouble in the Florence School.

For several months past, a bad feeling has existed between some of the members of the Florence school board and Teacher F. B. St. John, and it culminated in open warfare, this week. From all that can be learned of the antecedents of the case, there has been considerable obstinacy and acrimony on both sides, and over what strikes an outsider as mere trivialities. A majority of the board decided among themselves to summarily remove Mr. St. John and requested him to dismiss his school and deliver up the key to the school house. This Mr. St. John refused to do, claiming a contract to each nine months, and refusing to go without a formal trial and proof of incompetency. On Monday two of the

trustees took matters into their own hands and nailed up the doors of the school house, with teacher and pupils inside.

Of course, the imprisoned ones broke their way out, and Mr. St. John came to Carlsbad and put the matter in the hands of Gatewood & Bateman for legal redress. He will sue for performance of contract, which he has in writing, signed by all of the trustees, engaging him to teach nine months at a salary of \$75 per month.—Carlsbad Argus.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup.

We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by all druggists.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. Sold by Alvarado Pharmacy.

ROSWELL.

From the Register.

Mrs. Bess McDonald returned Monday morning from Albuquerque and El Paso, where she has been since the death of her husband at Albuquerque in December.

Deputy Sheriff Brown arrested and jailed Walter L. McGonigill for drawing a \$20 check on the First National bank of Roswell in favor of T. M. Davenport, without having any funds there.

At a meeting of the Roswell bar association last week, Karl A. Snyder was selected to go to Washington to work for the passage of the bill providing for the creation of the Sixth judicial district, in case any one should be sent from Roswell for that purpose. Mr. Snyder's friends feel confident he will do good work.

Miss Lillie Barr, sister of Mrs. Harry Jaffa, who spent some months in Roswell last year, and is most kindly remembered by all, was married last week in Chicago to Max Becker, a buyer for Siegel Cooper & Co., of that city. They have gone to New York city for their honeymoon and will shortly return to Chicago to live.

J. M. French, of Wagoner, I. T., started home last Friday from this place with his daughter, Fannie, who had been here since October, with Mr. and Mrs. J. A. Foreman, seeking relief from lung trouble. When they got to Amarillo she was so much worse they had to stop and the poor girl died there Sunday at 2 a. m.

Favorite Nearly Everywhere.

Constipation means dullness, depression, headache, generally disordered health. DeWitt's Little Early Risers stimulate the liver, open the bowels and relieve this condition. Safe, speedy and thorough. They never gripe. Favorite pills.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. Sold by Alvarado Pharmacy.

SILVER CITY.

Special Correspondence.

Silver City, N. M., Feb. 18.—Roy McDonald, the Mutual Life insurance rustler of Albuquerque, has been spending the past few days in Silver City writing insurance.

The Elks lodge of this city are making great preparations for their fourth annual ball to be given at Newcomb hall on next Friday evening.

Mayor J. W. Fleming left the first of the week on a pleasure and business trip combined to El Paso.

An action was taken by the Silver City Reduction works a few days ago, which greatly help the operators of copper mines in this section, who are shipping ore to that works. Some time ago the smelter issued a notice that in the future they would only pay 75 per cent. of the market price of copper at the time of their shipment and the balance some time later. In their new ruling they will pay the full price at the time of delivery of the shippers. This will greatly encourage the copper-producing mines in this locality, as it

RICKETY CHILDREN.

Loose joints, bow legs, big head, and soft bones—mean rickets. It is a typical disease for the best workings of Scott's Emulsion.

For the weak bones Scott's Emulsion supplies those powerful tonics the hypophosphites. For the loss of flesh Scott's Emulsion provides the nourishing cod-liver oil.

Scott's Emulsion corrects the effects of imperfect nourishment and brings rapid improvement in every way to rickety children.

Send for Free Sample.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y.

will insure the miners prompt payments and returns for their ores.

The Schubert Symphony Concert company which gave a performance in Morrill opera house last evening under the auspices of the Normal school here, was an excellent entertainment. The opera house was crowded to its fullest capacity. The school will give a lecture on liquid air at the opera house on next Monday evening, which promises to be well attended.

Charles P. McLaughlin, of the well known firm of Cross, McLaughlin & Co., of St. Louis, is in the city and is looking at some of the copper properties in the Burros with the idea of investing.

It is reported that James S. Fielder, who a short time ago moved to El Paso to practice law, will return to New Mexico in the near future.

John F. Kilburn and family will leave Silver City the latter part of this week for El Paso, where they expect to make their future home. Mr. Kilburn will engage in business in that city.

The nomination of Artie E. Galloway as postmaster at this point was confirmed by the senate last week.

J. C. Cureton has contracted for the G. O. S. Cattle company the delivery of 1,000 steers in May. The stock was purchased by American Live Stock & Loan company and brought a price of \$15, \$18 and \$21.

A Legacy of the Grip.

Is often a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this dreaded disease. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by all druggists.

When you lack energy, do not relish your food, feel dull and stupid, after eating, all you need is a dose of Chamberlain's Stomach & Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by all druggists.

Business Opening.

Here is a chance for some one to purchase a well established and very profitable business in a first class mining town in Arizona at a bargain. It is about an \$8,000 proposition, including fine up to date stock, three lots, large storeroom with cellar, stable, five-room dwelling house, finely furnished, etc.; monthly sales, \$2,750, mostly cash; terms easy; death of wife and child of proprietor reason for selling. At a glance it will be seen that this is a rare chance to make an exceptional good investment. For full particulars and terms, address or see H. S. Knight at once, Albuquerque, New Mexico.

NEW MEXICO EXHIBITS.

Names of Mines Represented by Ore
Sent to Charleston Exposition.

SEVERAL GOOD DISTRICTS.

Description of exhibits shipped from
Albuquerque, N. M., February 19, 1902,
by R. W. D. Bryan, secretary and treasurer
of the New Mexico commission to
the Charleston exposition, to J. W.
Bonham, commissioner in charge.There were in all thirty-eight packages,
boxes and sacks.Numbers 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11,
12, 13, 14, 37 and 38, contained ores
from the Black Range mining district in
Sierra county, and the following
mines, among others, were represented:
Dictator, Julia, U. S. Treasury,
Silver Glimmer, Mail Line, Iron King,
Dreadnought, Captain, Nana, Danford,
Readjuster, Silver Belt, Apache, Black
Knife, St. Cloud, Goodenough, Galena,
Keystone, Confidence, Emporia, Ivanhoe,
Great Republic and New Era.Number 9 contained ores from the
Cochiti mining district, in Bernalillo
county, and the following mines were
represented: Washington, Wonder,
Sister C., Ivanhoe, Black Girl, Little
Mollie, Harrison, L. & L. Sunny South,
No Name, De Wet, Uncle Joe, North
Land, Iron King, Tri-Union, Good
Hope, Florence, Laura S., Star, Orphan,
Independence, Pino, Grant, Cross
Keys, Queen of Spades, Mammoth,
Vicksburg, Iron Queen, Ponto, American
Union, Little Casino, Bull of the
Woods, Posey and Free Trade.Numbers 14, 15 and 16 contained
ores from the Golden and San Pedro
mining district in Santa Fe county,
and the following mines were represented:
The Lincoln-Lucky and the
San Pedro copper mine.Numbers 18, 19, 20, 21, 25, 26, 28, 19,
30, 32, 33, 34 contained ores from Grant
county, and represented a large number
of mines near Silver City, Hanover
and Santa Rita.Numbers 22, 24 and 31 contained
ores from Dona Ana county.Number 23 contained ores from Luna
county.Number 27 contained ores from
mines near Engle, Sierra county.Number 28 was a sack of wheat
contributed by John Becker, of Belen,
Valencia county.Number 35 was contributed by the
New Mexico bureau of immigration,
through Max Frost, secretary, and
contained ores from the Red River mining
district, of Taos county, and the following
mines were represented: Ester,
Memphis, Jay Hawk, ranged Pants
Dick, McKinley, Sampson, Ione, Lone
Star, Sure Thing, Iron Mask, Aladdin,
Mineral King, Copper Belle, Black Diamond,
Silvia, June Bug, Ajax, Rock of
Ages, Pine Tree, Copper Queen, Home-
stead, Old Copper, Crystal, Grace Darling,
Texas Boy, Dispute, Tomboy, Carlo,
Leader and Memphis.There are in the above collection
some specially fine specimens and they
will make a very creditable display.
The New Mexico commission will not,
however, be satisfied until every district
in New Mexico is represented. There
are now a number of miners who
are collecting ores and who will
ship them to Mr. Bryan within the
next thirty days. It is expected that
several shipments will be made to
Charleston from Albuquerque.Every newspaper in the territory is
urged to call the attention of their
readers to this opportunity to advertise
the mineral resources of our territory.
The Santa Fe road generously ships all
exhibits to Mr. Bryan free of all charge
and hence there is no reason why
every mine in the territory should not
be represented at Charleston and later
at the World's fair at St. Louis.

ATHLETIC SPORTS.

Two Interesting Bouts Enjoyed by the
Elite Last Night.A large and influential delegation of
citizens, who once in a while allow
their inclinations to remind them of
the good old boyhood days, visited the
Orchestra hall in old town last night
where they got aside the cares of business
and professional life for the time
being and hugely enjoyed some rare
sport prepared for their entertainment
by the recently organized Albuquerque
Athletic club.The introductory bout was between
two youngsters, named Tommy Deaken,
a late arrival from the wilds of
Arizona, and Arthur Ransom, who recently
took up his residence in this city. Gila
monsters and large sized tarantulas,
upon which Deaken trained before
coming to Albuquerque, had given him
wonderful staying qualities, combined
with hitting powers back of his right
arm. He landed at will upon Ransom,
and finally Albuquerque's representative,
(he showed that he had been using
aqueous water.) gave up the bout to his
more scientific opponent.The next attraction on the program
was, as the posters pronounced, Prof.
Jack Hogan, of Chicago, and Capt.
James Wilson, of Albuquerque. Both
of these advocates of the ring had
trained faithfully for the past few
weeks, and, on entering the arena,
showed themselves to be in the pink
of condition. Round one was a fine
exhibition of the manly art, (how a
person can defend himself with the boxing
gloves.) and the referee declared
honors about even. In the second
round, however, Wilson, who is a base
ball player, and had more wind,
commenced to demonstrate his superiority
over the Chicago lad, and finally had
him going, the referee declaring the
bout in favor of Wilson. In justice to
Hogan it must be said that he was pitted
against an opponent who had the
advantage of height and weight, but
he nevertheless gave a good account of
himself.It is learned today that the club,
composed of quite a number of young
men, are considering the idea of incorporating,
securing a hall some where
in the city, and carry on a regular gymnasium,
giving monthly exhibitions.

An Obstreperous Drunk.

One lonely drunk appeared in the
police court this morning. Joe Cronin,
hailing from the southern country, got
well organized in a down town saloon
last night and started out to do things
up brown, but did not get far before he
ran into a very substantial article in
the shape of a police officer, who forth-
with put him nos behind the bars.
Cronin was so infuriated at his short
bully life that he tried to break every-think breakable in the jail and suc-
ceeded in mashing a coal basket and
breaking one incandescent light. He
pleaded guilty to being drunk and dis-
orderly, and was given thirty days in
the county jail.

MARKET QUOTATIONS.

[Market quotations and review fur-
nished by W. P. Metcalf, No. 5 Crom-
well block, received over the private
wire of Logan & Bryan, Chicago.]New York, Feb. 20.—Lower prices
for stocks in London on the announce-
ment that President Roosevelt had
seen fit to take the Northern Securities
case out of the hands of the United
States supreme court and direct At-
torney General Knox to bring suit to
dissolve the merger, caused a liquidating
movement here, carrying prices still
lower. The close was at about the low
point.

GOING TO LAS VEGAS.

Chief Ruppe Will Attend E. Romero Hose Company's Anniversary.

Chief Ruppe will leave tonight for Las Vegas, where he will be the guest of the E. Romero hose company. The Las Vegas company will, on Saturday, celebrate the twentieth anniversary of its organization by a masquerade ball in Duncan's opera house. Prizes have been offered for costumes of various kinds and the company expects to make it the greatest celebration in its history. Ludwig Hfeld, Jr., a nephew of Bernard Hfeld, of this city, is chief of the Romero company and one of the committee in charge of the affair.

While in Las Vegas, Mr. Ruppe will try to interest visiting and local firemen in the New Mexico Association of Volunteer Firemen, of which he is the president.

The tournament will be held in June at Santa Fe and Mr. Ruppe wishes to double the membership by that time.

H. JAY STONE.

A Basket Brigade Agreeably Surprised Him Last Night.

H. Jay Stone was summoned by telephone last night to hurry home, in doing which he lost no time. On arriving at his residence the gentleman found about thirty-five young people, who had assembled in basket brigade for the purpose of giving himself and family a surprise. After greetings the brigade deposited the baskets, which were unpacked, revealing a delicious banquet of which all partook in due course.

The evening was passed in a pleasant manner, games and music being the order of entertainment.

The surprise was arranged by the young people of the Congregational church choir, of which Mr. Stone is a permanent member.

Jury Commissioners.

The jury commissioners to select the United States grand and petit juries for the second judicial district met at the court house this morning and made their selections. The commissioners are M. Mandell, of this city; C. N. Cotton, of Gallup, and E. Barajas, of San Rafael. The commissioners to select the territorial grand and petit juries are Hubb Leeds, of this city; A. Vigil, of Barajas, and Manuel Baca, of Pena Blanca. They were also in meeting at the court house this morning.

Large sweet pickles 10 cents dozen. San Jose Market.

HALF DOG, HALF GOAT.

Strange Combination Animal Appears in Las Vegas.

Half dog and half goat. You could swear to that. So could anyone who saw the thing on the west side streets this morning as it limped, goat fashion, behind a rural Mexican's outfit.

The creature was a wonder for combination. It had a goat's body, but a dog's head. The head had a dog's eyes and a dog's ears, but under the ears, from a lank goat throat, fell long strands of Angora goat silk of unmistakable quality. The feet were those of neither dog nor goat. They were like the feet of a sheep. About the hocks fell long shaggy bunches of fine soft silk and larger, shaggier strands of a finer texture adorned the body and the hind legs. The tail was a white fluffed stump, more like no tail at all than anything else. The dog-goat might as well have been born a rabbit so far as a caudal appendage is concerned. Except for the head not a person alive would have guessed that this goat was a dog. A number of dogs came up to make friends, but they invariably decided that the acquaintance would not be acceptable. The poor beast evidently did not understand one word of dog talk anyway. An accident to its left hip caused it to limp.—Las Vegas Optic.

A SAD ACCIDENT.

Boy Killed While Target Shooting in Otero County.

While Mrs. McCandier, recently married, and her nephew, M. Massey, were target shooting in the logging camp near Alamogordo, Otero county, the gun in the young woman's hand was accidentally discharged and the missile struck the boy, who was fixing the target, a tin can, in the head. He died a few minutes afterwards. The bride of but a few days is distracted with grief at the occurrence.

A Sad Case.

The subjoined sad poetry, of a young lady failing to keep her dates with the poet on the Journal-Democrat, was published in that paper Tuesday morning:

"Meet me," she said, "at the garden gate.

With a red, red rose, as the sun goes down."

And here am I, and here is the rose, And here is the gate, and the sun's gone down.

Up to 3:30 o'clock this afternoon the young lady had not appeared at the gate, and the boys at the Journal-Democrat office are looking for the poet's suicide as the "sun goes down" this evening.

Discharged from Asylum.

Romualdo Salazar, who was sent to the asylum from Lincoln county, has so far recovered as to be discharged from the institution. Jack Dalton who came down from Elizabethtown to the asylum, was also discharged. A number of other patients will be discharged in a few days, thus making room for the large number of patients, applications for whom have been in for some time. The institution is too small and too crowded, and the legislature should provide the means for building the necessary additions.—Las Vegas Optic.

Las Vegas Cavalry.

Lieut. A. P. Tarkington was last night assigned to the post of adjutant for the cavalry squadron on the staff of Major R. C. Rankin. Lieut. Robert Gross was assigned to the post of squadron quartermaster. Both young gentlemen rank as first lieutenants.

Other assignments were: Charles Cunningham to be chief trumpeter; James Duncan, Jr., to be ordnance sergeant and Arthur Judell to be color sergeant.

These young men will rank with the troop first sergeant.—Optic.

Our Tailor Made Suits Just Arrived, Come and See Them.

STOCK NOTES

The call has been issued for the second annual convention of the American Cattle Growers' Association, to be held in Denver, March 4, next.

John H. Miller's polled Durham cow, valued at \$3,000 died at Peru, Ind., February 6. The cow was awarded first prize at the Pan-American exposition.

The big Angus sale at Chicago February 5, was a great one. The imported bull Prince sold for \$9,100, bought by Pierce & Son of Creston, Ill. An average of \$1,083.33 was made on the 48 head offered.

At Lella, Texas, five or six 4-year-old steers, out of a small number being fed, died of a disease that was unknown, and an examination of the meat cake fed them disclosed numerous bits of steel in various shapes and sizes.

Col. D. D. Swearingen of Quanah, Texas, sold 2,000 of X 2-year-old steers to J. M. Sheldon of Fort Worth last week at \$23. This price shows there will not likely be any decline over last year's price. The cattle will be shipped to Montana in the spring.

The headquarters of the American Hereford Breeder's Association will not be removed from Kansas City, Chicago put in a good bid but Kansas City went a little better. These breeders decided to continue their shows and sales and are beginning to work up the show for the St. Louis exposition.

Walter Williams of Cuchillo, N. M., recently shipped fifty-five head of well-bred horses to his father in Cuba. Mr. Williams has found a market there for well-bred horses broken to ride at \$200 each. The expense of getting them there, however, is considerable and there is not much money in the business.

The Aberdeen Angus heifer, "Black Cap Judy," was sold at auction at the Union stock yards, Kansas City, February 5, to C. H. Gardner of Blandville, Ill., for \$6,300. She was bred by M. A. Judy of Williamsport, Ind. This makes the female record price of all breeds since 1873. The previous high record for an Angus was \$2,800.

February 25, 26 and 27 should be on every Hereford man's calendar in red figures, for these are the dates on which Gudgeon & Simpson, Scott & March, O. Morris, Steward & Hutchison, C. A. Stannard, Frank Rockefeller, Walter B. Waddell and Mrs. C. S. Cross announce that they will sell at Kansas City "the best 200 head of registered Herefords to be sold during the year."

Reports from northern New Mexico indicate poor enforcement of the law requiring the dipping of scabby sheep. An Illinois buyer bargained for 4,000 head recently in that part of the territory, and the inspector would not allow him to ship but 500, the rest being unfit to ship on account of scab. Another bunch of 2,700 head purchased at Watrous were refused shipment for the same reason.

Last Friday at New Castle, Wyoming, a colt was released from a prospect hole west of that town. The animal fell into the hole thirty days ago. Passing ranchmen made several attempts to release the animal, but failed until last Friday. Heavy snows had furnished an abundance of water for the colt, but it is a mystery how it survived so long without food. When dragged to the surface the animal kicked up his heels and dashed off across the prairie.

The Colorado supreme court has rendered a decision upholding the live stock inspection law passed by the legislature of that state. The decision was rendered in the case of Edward H. Reid, who rushed cattle into Colorado from Texas for the purpose of testing the law. The sentence of six months in the county jail against Reid also is affirmed. Reid was backed by the live stock organization of the country, which claimed that the federal inspection laws superseded those of a state.

The Pacific Northwest Wool Growers in their meeting at Helena, Mont., last week endorsed the Grosvenor pure wool bill, now pending in congress, also endorsed the bill providing for a classified census of livestock every five years; and asked congress to authorize federal inspectors to inspect sheep at any point and to provide severe penalties for a violation of the inspection laws. W. E. Skinner manager of the International Live Stock exposition at Chicago, was endorsed at this meeting for the position of manager of the live stock show at the St. Louis exposition, and F. M. Malone of Miles City, Mont., for superintendent of the same.

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—B. Wheeler, Northwood, N. Y. For sale by all druggists.

DEATH OF PRAIRIE DOGS.

How to Effectually Rid the Range of the Pests.

This is the time of year when the farmers are thinking of exterminating the prairie dog, and the West Texas Stockman publishes the following recipe for a poison and guarantees it to do the work:

Dissolve 3 ounces strychnine and 1/2 lb. potassium cyanide in 1 quart boiling water; then add 2 quarts molasses and 1 teaspoonful of oil of anise and stir. Then place 1 bushel of wheat in a tight receptacle, so there will be no loss from leakage, and pour the above solution over it. It should then be well stirred while an assistant slowly sprinkles into the mixture four pounds finely ground cornmeal. Molasses renders the liquid adhesive, so that it will cling to the grains of wheat. This preparation has been distributed in a very large town of dogs of 500 to 600. The result was very satisfactory, as it demonstrated that fully 90 per cent of all the dogs were killed at the first application. Within twenty-four hours there were large numbers of them lying dead on the ground. In doing this work the following instructions

should be rigidly adhered to: In preparing the poison great care must be taken that the exact proportions are used, that the cyanide of potassium and strychnine and completely dissolved, and no more water and syrup are used than the recipe calls for, as one bushel of wheat will not take up and carry more than that amount of liquid. It should be used the same day it is prepared in order to obtain the best results. The way to apply this is to take some of the poisoned wheat in a tin pail and sprinkle about a teaspoonful of it in and around each hole. Do not leave it in lumps or bunches, as cattle or other stock might possibly eat it. This best time to use this preparation is in the spring before grass starts.

Clerk's Wise Suggestion.

"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mead, leading pharmacist of Attleboro, Mass. "I could eat hardly anything without suffering several hours. My clerk suggested I try Kodol Dyspepsia Cure, which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodol Dyspepsia Cure heartily." You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodol Stomach Cure digests your food. J. H. O'Reilly & Co., B. H. Briggs & Co.

A Thousand Dollars Thrown Away. Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Sold by Alvarado Pharmacy.

Sheep Pasturage.

The secretary of the interior has issued orders governing the pasturage of sheep on various western forest reservations for the present year. On the Big Horn, Wyo., reserve 150,000 head may be grazed between June 1 and September 1; 125,000 of these to be south of the thirteenth parallel, and 25,000 north of this line.

On the Uintah reserve, Utah, 150,000 head may be grazed between July 1 and October 1; on the Gila river, Ariz., reserve, 200,000 head during the season ending August 21, 50,000 of these to belong to residents on the reserve.

The secretary does not restrict the number of horses or cattle, as he says they do not injure the reserves.

Other reserves than those mentioned in the Rocky mountain region will be withheld entirely from sheep grazing.

Saved Her Child's Life.

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All druggists guarantee satisfaction, 50c. \$1.00. Trial bottles free.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Sold by Alvarado Pharmacy.

FIRST DISTRICT COURT.

A Number of Legal Matters Came Up Before Judge McFie in Chambers. In the case of Horace C. Longwell et al vs. The Board of County Commissioners of Taos county, to recover on coupons of bonds issued by the county of Taos, Judge McFie overruled the motion of the defendant to require each item of the account separately stated.

In the case of Daisy B. Ashton vs. The Pontiac Gold and Copper Mining company in the district court for Rio Arriba county, involving the possession of several mining claims in the Bromide district, upon a motion to set aside judgment by default for irregularities in the proceedings could be made at any time within a year and the plaintiff was given time to secure proper affidavits in reply to the charge of irregularities alleged in the motion to set aside.

In the case of Reyes Gonzales vs. J. Patricio Chavez et al, in the district court for Rio Arriba county, an action to quiet title to the Plaza de Colorado grant, exceptions were filed by L. B. Prince and E. A. Fiske to the report of the master, A. B. Renahan, and these were argued and submitted Monday afternoon.

"NIBBLERS."

Not the Proper Way to Take Food. Clerks in grocery stores are apt to nibble at this and that article of food, and if they are not careful they acquire a "case of stomach." This was the case with L. Shoemaker, Attie, Ind.

"While I was clerking in a grocery store it was difficult to resist the temptation to eat a little of this and that; a bit of candy, some fruit or crackers, and one thing and another. After about a year I had serious stomach trouble and had run down to 91 pounds, was pale and sallow and poor as a snake. I could sleep but little at night and my distress was terrible. "Finally I was compelled to give up my position and take treatment for my health. I heard of Grape-Nuts Breakfast Food and began to use it regularly. I soon began to recover both health and strength, until at the end of about three months' steady use I was so fat and well that I was weighed and found I weighed 160 pounds, which was a gain of sixty-nine pounds in that time. This may sound a little fishy, but it is the plain truth and can be verified by any one who cares to inquire of my friends who know the facts."

PLEA FOR STATEHOOD.

Why New Mexico Earnestly Presses Her Claims.

RIGHT TO RIO GRANDE WATERS.

Editors Post, Washington, D. C.:

Your valuable paper, ever just and keenly alive to matters of public interest, has recently devoted considerable space to Oklahoma's and Arizona's claims for statehood; and, as a member of the New Mexican delegation now in Washington with the object of pressing that territory's claim to early admission, I venture to ask a similar courtesy at your hands for New Mexico.

We who know New Mexico well believe that the mineral wealth of the territory will ultimately prove to be equal to that of any other state of the Union, and our splendid pastoral resources are known of all men. But, great as our mineral and pastoral wealth, present and future, may be, our immense area of irrigable lands has a potential value far exceeding that of our other resources; and the future greatness and prosperity of New Mexico must depend much more upon the development of her agricultural interest than upon aught else.

We have several millions of acres of rich alluvial land of unsurpassed fertility, irrigable from the Rio Grande and its tributaries. Medical experts have long pronounced the climate of New Mexico to be unequalled on the American continent, taking it the year round, our fruits and cereals secured first prize at the Chicago world's fair and at the Paris exposition; our farms and orchards are from 1,200 to 1,500 miles nearer to the great eastern markets than are those of California, and our fruiting season is from four to six weeks earlier. In fact the natural conditions of New Mexico are much that if we are not deprived of our justly inherent right to impound the flood waters of the Rio Grande and its tributaries for the irrigation of our fertile valley lands, our farms must inevitably be in the relatively near future, add many millions of dollars annually to the agricultural wealth of the United States.

Unhappily, we are in grave danger of being despoiled of our rights to the waters of our catchment area; and, if we are wrongfully deprived of the use of the flood waters of our streams, the farming interests of our people is doomed and we must remain dependent upon the neighboring states for the bulk of our food supply. Hence, the importance of statehood; for once admitted into the sisterhood of states, New Mexico's right to the waters of her catchment area will be safe as is that of Colorado and the other arid states to the waters of their non-navigable streams.

For nearly ten years certain interested parties in Old Mexico and Texas owning lands just below our southern boundary have been scheming to have the federal government inhibit our use of the flood waters of the Rio Grande and its tributaries for irrigation above El Paso. Bill after bill has been introduced with that object; and some five years ago the parties mentioned, managed to induce the federal government to institute proceedings in the courts against the Rio Grande Dam and Irrigation company (a domestic undertaking, incorporated under the laws of New Mexico and subsidized by the owners of the lands to be served by the company) with a view to preventing the completion of the large system of storage reservoirs and irrigation canals then in course of construction, on the ground that the company's works, if completed, would interfere with the navigation of the Rio Grande in New Mexico and below El Paso. At least, this was the legal ground for the attack upon our territorial water rights; but, as a matter of fact, the real object was to reserve the entire flow of the Rio Grande in New Mexico for a "international dam," so called, to be built at El Paso, Texas.

The absurd contention that the construction of storage dams in New Mexico would interfere with navigation above El Paso was soon abandoned, but the action was continued on the ground that our use of the waters of the Rio Grande for irrigation in New Mexico would seriously affect the navigable capacity of that river some 1,200 miles or more below—measured by its sinuities—where the alleged navigation is carried on by one old stern-wheeler of about eighteen inches draft, which occasionally, during a few months of the year, but with great difficulty, succeeds in "navigating" the sandbars and shallows between Brownsville and Rio Grande City, 170 miles above the mouth of the river.

THE FLOW OF THE RIO GRANDE. At first our people treated the action as a huge joke, for it is a well-established fact that the storage and navigation of the flood waters of the Rio Grande in variously improves the normal regime of the stream below the district irrigated. This has been demonstrated in Colorado, where practically the entire flow of the headwaters of the Rio Grande is appropriated for irrigation in the San Luis valley, also in other parts of the arid west, in Europe, and in India. Prof. L. G. Carpenter, of the United States Agricultural College, at Fort Collins, Colo., has made a thorough study of this question, and has shown that, despite the fact that practically the whole of the water of the Rio Grande in Colorado is diverted for irrigation, the normal flow of the stream below, where it passes into New Mexico, has been improved rather than diminished.

But notwithstanding the well-known facts that were presented to the trial court, which decided that the Rio Grande is not navigable within the meaning of the law, and that "the soil of New Mexico is not burdened with a servitude in favor of the republic of Mexico," the government appealed. The action was dragged on from year to year by the government appealing again and again, and it has now become evident that the suit was maintained not in the interests of navigation some 1,200 miles below, but in the interests of the "international dam" project. In other words, New Mexico—the "Cinderella" of the United States—was to be deprived of practically her sole source of water supply for agricultural purposes, her most precious heritage, in order that the proposed "international dam" at El

The Engineer

Leaning from the cab window does more with his ears than his eyes. The "rumble and grumble and roar" of his engine are to him articulate speech, and a false note in that jumble of sounds

would catch his ear as quickly as a discord would strike the ear of the leader of an orchestra.

He thinks more of his engine than himself. That is why he neglects to notice symptoms which are full of warning. The foal tongue, the bitter taste, the rising, and undue fullness after eat g are but sympt s of dyspepsia or some form of disease involving the stomach and organs of digestion and nutrition. In time the heart, liver, lungs, or other organs are involved and the engineer has to lay off.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and organs of digestion and nutrition. It purifies the blood and builds up the body with sound healthy flesh.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh 160 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicine."

Dr. Pierce's Pleasant Pellets cure constipation.

Paso might lay claim to the entire flow of the Rio Grande and its affluents in New Mexico.

TERRITORY SIMPLY ASKS EQUAL RIGHTS.

Now, we in New Mexico do not care how many "international" dams are built below our southern boundary, provided always that we above El Paso are not restricted from impounding and using for irrigation and mining purposes the waters of our catchment area. We do not seek, nor do we desire, to restrain Colorado from appropriating the headwaters of the Rio Grande—waters of her catchment area—and we maintain that we in New Mexico are equally entitled to the waters of our catchment area.

The Rio Grande is not a navigable river in New Mexico, nor it is navigable for over 1,200 miles below our southern boundary, and a conclusive proof has been submitted in the courts that even under existing conditions, without storage dams, our torrential floods do not reach the head of navigation in substantial quantities; that is, in sufficient amount to improve materially the navigable capacity of the stream. Reports on file with the Geological Survey show that the rivers tributary to the Rio Grande below El Paso drain an immense area, 170,000 square miles, as compared with a watershed of 25,000 square miles above El Paso, and that the water supply below El Paso, allowing for the larger drainage area, is proportionately very much greater than the water supply above. New Mexico is essentially an arid country, and its waterways are all torrential except the lower Pecos, whereas below El Paso many of the principal Rio Grande confluent are permanent streams that have their sources in the lofty mountain ranges of Old Mexico and flow through a country where exceptionally heavy semitropical rains frequently occur during certain periods of the year.

Prof. Robert T. Hill, of the Geological Survey has been engaged for nearly fifteen years in making an official investigation of the basin of the Rio Grande, and he states in one of his reports that "the Conchos is the mother stream of the Rio Grande and brings the first permanent water into the main river."

EL ANKS IN PARTY PLATFORMS.

The people of New Mexico now fully recognize the great importance of the issue at stake in the action referred to. Both the republican and democratic parties introduced planks in their platforms deprecating the attempt to deprive the land owners of the Rio Grande Valley above El Paso of their right to impound the flood waters of the river for the irrigation of their lands. Various public bodies throughout the territory—boards of trade, chambers of commerce, commercial clubs, etc.—have passed resolutions, which have been forwarded to the department of justice, the secretary of state, and to other authorities, praying that the proceedings in question be dropped or brought to an early and final hearing. A petition was circulated throughout the territory and signed by our representative men—land owners, merchants, professional men, farmers, public officials, and others—praying the federal government not to destroy the farming interest of the territory, and year after year Governor Otero, in his annual message to the secretary of the interior, has declared in explicit terms:

"The greatest setback New Mexico has ever had was that resulting from the stoppage of work on what was familiarly known as Elephant Butte dam."

Last session of congress, Governor Otero, in his protest before the senate committee on foreign relations, speaking of the attempt that was then being made to pass a bill prohibiting irrigation enterprises in New Mexico, said:

"We, perforce, bow with submission to the will of congress, but we cannot find words sufficiently strong with which to protest against the attempt to prohibit the construction of reservoirs upon our principal stream and to deprive our people of the use of even the limited waters at our hand for the purposes of agriculture."

He urged that New Mexico's "helplessness in the national councils should be her most potent argument for protection."

We of New Mexico warmly support the admission of Oklahoma and Arizona as states, but we maintain that so long as our most valuable asset is threatened by such bills as those introduced year after year in behalf of the proposed El Paso dam our claim

Mines and Minerals

Several of the smelting plants in Arizona are preparing to use oil for fuel.

There is an increased demand for pig iron, which is predicted will result in advance of prices.

E. M. Puiwell, a mining engineer from Lower California, is in El Paso on his way to Mexico.

The Lordburg, N. M., smelter expects to again be running full blast by the first of next month.

The Rio Tinto Copper company has closed its mine and smelter at Turazas, Chihuahua, on account of the low price of copper.

The department of the interior has decided that the Cooney mining district, New Mexico, must remain in the Gila forest reserve.

S. B. Bierwith, after a two weeks' visit in El Paso, left for Anaconda, Mont., where he has secured employment in the smelter.

The difficulty between the coal miners and operators at Durango, Mexico, has not yet been settled and more trouble is apprehended.

A contract has been let for sinking a shaft and doing other development work on the Wandering Jew mine in Santa Cruz county, Ariz.

Phil Reasoner has struck a good vein of pay ore in his copper claim west of Monument Peak in the Jicarilla district, New Mexico.

The Independencia and Morelos mines in the Parral district, Chihuahua, have been bonded to a large eastern syndicate for \$50,000 in gold.

The electric plant at the Palmillo mines, Chihuahua, Mexico, has been completed and a large quantity of high grade silver-gold ore is being shipped.

S. B. McElroy started on a trip to the White Oaks country. He will visit several mining camps before returning to El Paso, and may invest in some claims.

Contrary to the recent dispatches to the Rocky Mountain News from Cerillos, the smelter has not yet been blown in and will not start until April 1.

S. T. Dupont, a mining expert from British Columbia, is in El Paso en route to Arizona. Mr. Dupont will visit several mining districts before returning north.

There is a big boom in the mining industry in the Georgetown district, Colorado, and the Altitude company and others are spending large sums in prospect work.

The Copper Cobre Mining company, owning valuable copper properties in the Bradshaw mountains, Arizona, intends to soon begin the erection of a big smelting plant.

A quartz miner by the name of Green, on his way to Arizona, attempted to cross a train of cars at Gallup, and had his foot mangled by the drawbar. He was taken to the hospital.

G. W. Williams & Son, of Clifton, have a contract from the Arizona Copper company for burning 150,000 tons of coal to be used in the construction of buildings to be erected by the company this year.

A letter received in El Paso from the bank at Hillsboro, N. M., states that a good strike had been made in the Mamie Richmond mine, owned by Mrs. E. F. Pearson, of El Paso, but who is now in Boston.

The Gold Hill Mining & Milling company has taken an option on a group of copper claims in Graham county, Ariz., and has begun driving three tunnels. The ore carries both copper and gold.

The Manganese mines near Bonelli Ferry, Ariz., are said to be the largest deposits of the metal in the United States. The property has been bonded to a Chicago company that is now developing the property.

At the Boston Mine Exchange last week 1,710 shares of Cochiti stock were sold at from 50 cents to 75 cents a share. Of Santa Fe Gold & Copper company stock, 925 shares were sold at from \$3.50 to \$3.75 per share.

The Silver City, N. M., reduction works are now running night and day. The Cadena mine in the Parral district, Mexico, has been leased by local parties, who have begun extensive operations. This is one of the biggest propositions in that section.

Gold prospectors are planning to invade the Navajo Indian lands south of the San Juan river in New Mexico. The country has hitherto been jealously guarded by the Indians, and some years ago several white miners were killed who trespassed on the reservation.

For Stomach Troubles.
"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger, of Dunkerton, Iowa, "but never had as good results from any as from Chamberlain's Stomach & Liver Tablets." For sale by all druggists.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. Sold by Alvarado Pharmacy.

Telegraph Mine Sold.
This week Dr. J. P. Wallace, manager of the Monmouth Development company, purchased of James A. Smith and W. D. McCright the Telegraph mine, on Burro Creek. The consideration for which the mine passed is not stated. The doctor has also bonded the Burro mine, an extension of the Telegraph, and will at once commence operations on the property. The office of the company in Kingman will be closed and Dr. Wallace will at once remove to the mine, where extensive work has been mapped out. The Burro and Telegraph mines are among the good properties of southern Mohave county and their sale to the Monmouth Development company marks a new era in the mining history of that section. A most thorough sampling of the mines show them to have an average value of more than \$10 in gold and silver. The vein is crossed by Burro creek, and as that stream flows through precipitous canyons and the fall of the stream is very great water power can easily be generated for all purposes. Mill sites have been located and a site for a dam and flume have been selected. It is the intention of

ALVINO CHAVARRIA.

The War Chief of the Santa Clara Indians at Denver.

AFTER WHITE MAIDEN.

An Indian, a real live, genuine Indian, is always an object of interest, but there is an unusual Indian in Denver today and he arrived last Monday, says the Post. He is Alvino Chavarria, supreme war chief of the Santa Clara Indians of New Mexico, who came on behalf of his tribe to return the recent visit of Mexican Vice Consul A. J. Ortiz, of Denver, and also to pay his respects to Miss Cora Arnold, of 1419 Welton street, to whom, according to a report circulated two years ago, he was engaged to be married.

This report Chief Chavarria and Miss Arnold both strenuously denied, but both admitted that a strong attachment had grown up between them, as the result of an acquaintance formed in 1896, when Chief Chavarria was here attending the Festival of Mountain and Plain.

STILL THE SAME.

The friendship between these two still exists. Chavarria had no sooner reached Denver on Monday last than he made his way to Miss Arnold's residence and, as was most natural, the two friends were delighted to see each other. Since then he has been the guest of his friend, Mr. Ortiz, but he continues to make friendly calls at the residence of Miss Arnold.

The meeting of Chief Chavarria and Miss Arnold, and the somewhat romantic attachment of the dusky aborigine and the New England girl have been commented on from time to time, but it is now considered improbable that their friendship will ripen into a warmer feeling.

Alvino Chavarria is a man of note among his people. For eight years he has presided over the destinies of his tribe. He is the highest official of the Santa Clara. Next in authority is the governor; besides, there are a "gubernador segundo," or lieutenant governor; a judge and an "aguacil" or sheriff, and these preserve such a condition of law and order as might well be envied by even so severely chaste and peaceful a municipality as this.

The Santa Clara chieftain is a man of unusual abilities and character. He is fairly well educated and reads and writes in Spanish with great facility. For years he and Miss Arnold have maintained a correspondence, which is said to have shown Chavarria to be a person of original mold, splendid principle and high ideals. In personal appearance he is most commanding. He stands 6 feet high in his moccasins, is broad-shouldered and thick-chested, and, as his strong face indicates, is a man of determination and inflexible will.

IS IT POSSIBLE?

"I do not like Denver," said he, with blunt frankness yesterday. "It is too big. I like Santa Fe better. In Santa Fe one can see where he is going and go there; here he goes 'round and 'round and goes nowhere."

Being asked about his personal habits, Chief Chavarria said: "Well, I don't know that I have any habits, except getting up in the morning, doing my business during the day and going to bed at night. I do not smoke—it is silly to smoke. I do not drink, because I tried a glass of wine once and it made me feel like a fool. I do not gamble, for that is giving away money where there is no need, or taking money without right."

He is a very sensible fellow. He is satisfied, for he is the chief ruler of his people and will remain so during the remainder of his life. He dresses to please himself, in buckskin and beads and blankets. He says he is happy and perfectly contented—but he seems to enjoy his daily calls at 1419 Welton street and he is certainly quite welcome there.

GALLUP.

From the Republican.
Undertaker Finger has been in the hospital for two weeks on account of a sprained back.

A large number of men were discharged this week at Otero and Clarkville on account of the small demand for coal.

H. Mulder has the contract for putting a fence around the county jail. The new cells are here and will be put in immediately.

J. Norton, representing the Albuquerque foundry, stopped over on Tuesday. He is making a business trip to the Arizona mining towns.

The sad news was received here last week of the death of Hugh McSparron, who was a resident of Gallup for several years. His death occurred at Globe, A. T., from pneumonia.

Among the marines lost in the recent expedition across the island of Samar was T. Sanjule, a cousin of Mrs. E. M. Sanjule, of Gallup. Ten men in a boat disappeared and no trace has been found of them since.

Sheriff Baca, Valencia county, was here on Wednesday with subpoenas for C. N. Cotton and H. Neumann, as witnesses in a civil suit at Los Lunas on March 1. The spring term of court will open on that date.

William McVicker is opening up a coal mine north of town for Stewart & Joanson. The location is on government land near the old Black Diamond mine. John Brown sank a prospect hole on the claim two years ago.

There has been very little business on the railroad for the past two days. Six crews have been laid off between Albuquerque and Winslow. One day switch crew has been taken off here. The coal order from the railroad company this week was only thirty cars. Very little freight is moving.

Forty unmarried men were discharged this week at Otero and the same number at Clarkville on account of the small demand for coal. The Catalpa mine shut down last night for an indefinite length of time, and the whole force of 150 men were discharged. The railroad business is lighter than it has been at this season of the year for many years.

Mrs. Albright, the Artist,

is again in her studio, 113 North Third street. Parties who wish fine work in artistic photography, should call and leave their orders for the new carbon photo, the latest in photographic art.

Married Lothario is Spotted Now.

To the Record:—I desire to say to you and your readers that the young married man living out of the city, who has been in the habit of coming into this city, picking up certain young girls less than 6 years old and riding with them around the city and bringing up in certain wine rooms, had better look a "leete out," or some day his wife and friends may read the sad report of a coroner's jury, which may read something like this:

"Died at the hands of a sorrowing and heart broken mother, in the wine room of —, in this city for the seduction of her daughter. The unanimous opinion of the jury is, served him right."

East Las Vegas, Feb. 18, 1902.

The above warning is taken from the Las Vegas Record, and should be read by two or three Railroad avenue bloods, who will, sooner or later, get themselves into serious trouble if they persist in parading themselves up and down the thoroughfares making "goo-goo" eyes at and attempting to attract the attention of certain married women and young girls. The movements of two or three men, whose business is either that of shuffling the cards or handling drinks, are quite noticeable, and The Citizen has been informed that these men are held responsible for the trouble brewing at certain homes and that the husbands thereof are laying in wait to get a good opportunity to crack the heads of these gay despoilers of happiness and homes.

Bucklen's Arnica Salve.

The best and most famous compound in the world to conquer aches and kill pains. Cures cuts, heals burns and bruises, subdues inflammation, masters piles. Millions of boxes sold yearly. Works wonders in boils, ulcers, feliens, skin eruptions. It cures or no pay. 25c at all druggists.

Big Preparations.

Our preparations for the spring season are on a much larger scale than ever. Our stock will be tremendous in all departments and it will pay you to look at our lines before placing any orders. Simon Stern, the Railroad avenue clothier.

Deming ships over 100,000 head of cattle annually; is the center of the greatest breeding region in the southwest and cattle men all know this.

Bring in your tinware and have it repaired. Albuquerque Hardware company.

Deming needs one hundred new houses to supply the demand, and needs them now. This demand continues to grow.

MONUMENTS.

All kinds of stone and marble work. Prices moderate. Shop and yard corner Fifth street and Railroad avenue. H. Q. MAURINO.

Let us figure on your plumbing. Albuquerque Hardware company.

READ OUR AD.—ROSENWALD BROS.

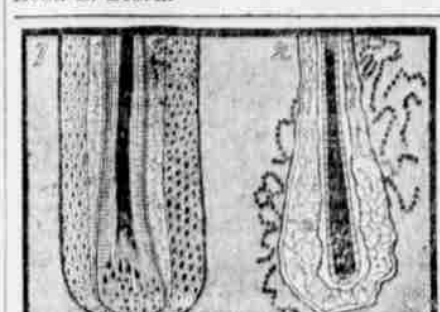

Notice.

The Rico Cafe serves the best meals in the city at 15 and 25 cents. Short orders, 5 cents up, 111 North First street.

Carpenters' and machinists' tools of all kinds. Albuquerque Hardware company.

In Deming another good hotel is needed to accommodate the enormous increase of population.

Outing flannel, 5 cents per yard.—Leon B. Stern.

Health and Disease

as illustrated in the Scalp. Fig. 1 shows a section of a healthy hair magnified. Fig. 2 shows the deadly effect of the DANDRUFF GERMS that are destroying the hair root. Destroy the cause you remove the effect.

No Dandruff, no Falling Hair, no Baldness, if you kill the germ with NEWBRO'S HERPICIDE.

For Sale by all Druggists.

Price \$1.00.

Happy Childhood Knows What's Best

Medicine that a child dislikes, will not do it much good. Sensible parents will give the little darlings medicine that tastes good and does good, and don't grip or gripe; the kind they like themselves.

"I rely upon Cascarets entirely in looking after our children."
—Mrs. Ellen Burwell, 1813 Division St., St. Louis.
"My little boy three years old was troubled with bleeding piles. We began to give him Cascarets, and before he had taken one box, he was sound and well."
—W. A. Goin, Okmulgee, I. T.

"My little daughter complained of not feeling well and began to vomit and became very sick. A half Cascarets tablet was given her and in less than half an hour she got up as well as ever. Cascarets are a household necessity."
—Thos. L. Most, P.M., Trenton, Pa.

"My little girl was greatly troubled with worms, but after giving her a box of Cascarets, she is entirely well."
—Mrs. John P. Riley, 6 Sander St., Gloucester, Mass.

"I have never used any remedy that has been as good as Cascarets. Have to keep them hidden from my little boy, as he eats them like candy."
—Mrs. Bobb G. Fay, Gosh, Ohio.

"I shall never be without Cascarets. My children are always delighted when I give them a portion of a tablet, and cry for more. They have a permanent place in my home."
—Mrs. John Flager, Michigan City, Ind.

"We use Cascarets in our family and they are the children's friend."
—Mrs. James Greenwood, Menasha, Wis.

"I always keep Cascarets in the house for the children as well as myself."
—Mrs. Chas. Root, 69 Lorain St., Cleveland, O.

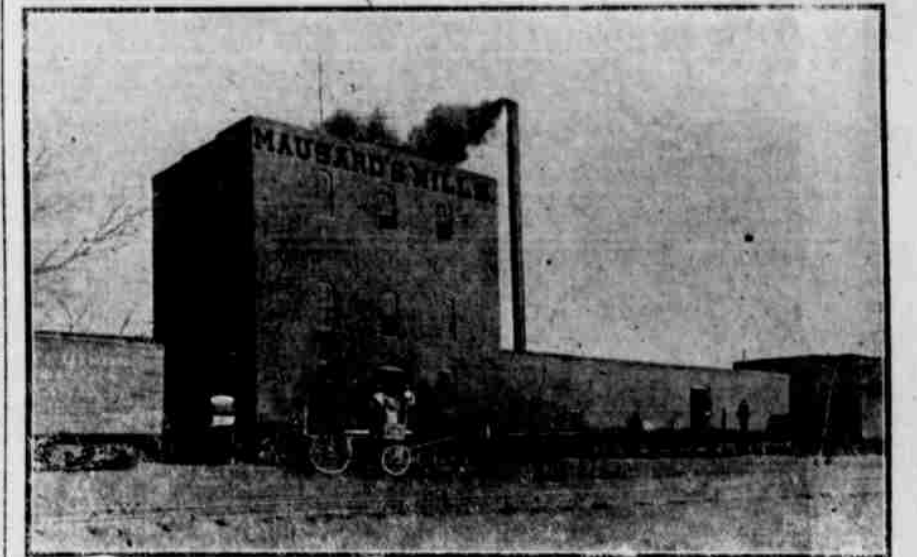

"For months I have used Cascarets, and my little ones require no other medicine."
—Mrs. G. H. Hammond, 68-34th St., Minneapolis.

Cascarets

Best for the Bowels. All druggists, 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. O. Guaranteed to cure or your money back. Sample and booklet free. Address: Sterling Remedy Company, Chicago or New York.

122 South Second street.

LOCAL PARAGRAPHS.

Mrs. William Collier, of Bluewater, is spending the day in the city.

Clifton Hill, the general merchant and postmaster of Isleta, is in the city today.

Mrs. Lizzie McBride left this morning for an extended visit with friends at Springfield, Mo.

Jake Levy left last night for El Paso, where he goes on business and expects to be absent a few days.

R. H. McCune has again entered the service of the Montezuma Building, Savings and Loan association.

Roy McDonald, representing the Mutual Life insurance company of New York, has returned from the south.

Santa Fe Engineer A. M. Howard left this morning for a short visit with friends and relatives at his old home in Toledo, Ohio.

P. P. Thomas, a banker, of Frankfort, Kan., is in the city, being shown the sights by Charley Campbell, a former Kansas boy.

Dr. Hope was the lucky purchaser of the old depot building, securing it for \$200. Now the task of removing it or tearing it down has commenced.

Mrs. Jesse Robins, with her daughter, Dorothy, arrived last night from Topeka, Kas., to visit her mother, Mrs. W. E. Talbot, on North Fourth street.

C. N. Cotton, a big general merchant and Indian trader of Gallup, is here today, being one of the jury commissioners for the Second Judicial district.

Mrs. J. H. Fenner, wife of Engineer Jack Fenner, left last evening on the No. 7 passenger train for a short visit to her friend, Mrs. Ernest Weise, at Winslow.

The El Paso News says that W. S. Grouch, the Albarque miner who was drugged and robbed of all the money he had in that city, was helped to Houston.

The Ladies Missionary society of the Congregational church are holding a meeting this afternoon at the residence of Mrs. Carl Hopping on South Edith street.

Prof. Patty, the liquid air lecturer, is in the city and ready to interest the people tonight. He says the experiments can be seen from any part of the Colombo hall without difficulty.

United States Marshal Foraker and Assistant United States Attorney E. L. Medler will go to Deming tonight to try eight Chinamen for deportation. They expect to be gone six or eight days.

There will be a social at the Highland Methodist church tomorrow evening given by the Epworth League. Music, both vocal and instrumental, to entertain those who attend. Everybody invited.

Joseph M. Columbin, the artist, who spent the past year and a half in Paris, is again in this city, where he will reside in the future. He had a pleasant time in Paris and made expenses painting pictures.

Major W. H. H. Llewellyn, the well known and popular district attorney of the Third Judicial district came up from his home at Las Cruces this morning and continued on to Santa Fe on some important legal business.

News reaches the city of the death of Mrs. W. D. Scott, which occurred in St. Louis recently. Mrs. Scott is the mother of W. D. Scott, the popular representative of the Hardgaden, Alcoholic Dry Goods company, who visits Albuquerque frequently.

Charles L. Owings died at his rooms on West Roma avenue yesterday evening at 5 o'clock of phthisis. The deceased came to Albuquerque about three weeks ago from Las Vegas, where he spent the winter. The body will be shipped out tonight for Baltimore, Md. A sister was present at the time of death and will accompany the body east.

Tonight at Grant's hall, beginning at 9 o'clock, will occur Mrs. Walton's February social dance, and it promises to be a very enjoyable affair. Besides the usual pleasing features of her social dances, Mrs. Walton this evening will give prizes to the best dancers of the waltz and two step. Miss Hawthorne and Prof. Di Mauro are engaged to furnish the music.

O. W. Strong has received instructions from Chicago to have the body of P. F. Guerri, whose death was announced in yesterday's Citizen, buried here. The deceased was a member of the National Union, in good standing, and had an insurance policy for \$1,000. The funeral will be held tomorrow morning at 9 o'clock in church of Immaculate Conception. Interment to be made at Santa Barbara cemetery. Rev. Mandalari will officiate.

The A. O. U. W. annual ball to occur at Colombo hall on Friday night promises to be a very enjoyable affair. The ladies in charge are making elaborate preparations for the entertainment of their guests. Another event which is to occur in the near future in Albuquerque society is the ball and reception to be tendered General MacArthur at the Commercial club parlors. It is not yet definitely known when the distinguished general will arrive in Albuquerque.

Going to Topeka.

Mr. and Mrs. Lot Morris, Mrs. C. G. Cruickshank and Howard Sweet, of San Marcial, were through passengers for Topeka, Kas., this morning, where they are going to attend the funeral of Mrs. Arthur Sweet, wife of the Santa Fe trainmaster at Marceline, Mo. Mrs. Sweet's death occurred at Marceline last Tuesday very suddenly of pneumonia, having been sick only ten hours. The deceased was well known in Albuquerque, having lived at San Marcial and visited here quite often. The body was shipped to Topeka, where the funeral will occur tomorrow afternoon.

Dancing.

A prize two step and waltz contest will be held from 10 to 11 o'clock tonight, as one of the features of Mrs. Walton's February social, which will be given at Grant's hall. Dancing will begin at 9 o'clock.
