ALBUQUERQUE, NEW MEXICO, WEDNESDAY AFTERNOON, FEBRUARY 19 1902

NUMBER 75

THE PHILIPPINES.

Religious Status of the Islands Friendly.

Senator Hanna Chairman of Arbitration Committee.

People of Indian Territory Want a Form of Government.

TRAIN WRECK IN OHIO.

Washington, Feb. 19.—Among the questions relating to the Philippines, discussed by Governor Taft today in his testimony before the senate committee on the Philippines, was the attitude of religious sects toward one another. He says that generally the relationship is a friendly one and that the evangelical churches are seeking to secure a foothold in the islands.

In reply to the question he said that from twenty-five to fifty persons had been deported from the Philippines and had been sent to Guam by the military authorities, because they are considered irreconcilables, whose presence was injurious.

He said that as far as the Philippine advocates of independence expressed themselves all decided that the United States should continue protection of the islands; in other words they wanted independence with a United States protectorate.

Governor Taft also gave information concerning the newspaper press of the Philippines, admitting that they are prohibited from advertising to independence.

Burrows, of Michigan, addressed the senate upon the Philippine tariff bill. "We hold," said he, "the Philippine islands by a title that cannot be challenged by any court in christendom. We have become responsible for them to the nations of the world. The pending bill simply provides revenues sufficient to meet the needs of the government of the Philippines."

Burrows said that the Philippines deserved a good government, but did not deserve independence because an independent government was not practicable.

Mallory, of Florida, followed Burrows, addressing himself particularly to that portion of the bill relating to the navigation laws.

ARBITRATION COMMITTEE.

Senator Hanna Presides at a Meeting of the Civic Federation.

New York, Feb. 19.—The first meeting of the arbitrary committee of thirty-six appointed through the National Civic Federation to arbitrate labor troubles, was held here today, with Senator Hanna in the chair. It was an executive session. The object of the gathering was to receive a report on a working plan by which strikes, lock-outs and other forms of disputes between capitalists and workmen may be dealt with.

WANT A GOVERNMENT.

People of Indian Territory Want Territorial Form of Government.

Washington, Feb. 19.—When consideration of the Indian appropriation bill was resumed in the house, Little, of Arkansas, ranking minority member of the committee, addressed himself to the conditions in the Indian Territory. The anomalous situation exists there where 297,000 white men had no voice in the government, and he said that they demanded action by congress. He contended that a territorial form of government should be set up there.

He reviewed the recent great development of various branches of industry in the territory. With 150 towns and cities and wealth amounting to \$50,000,000, he said, there were 90,000 white children of school age, but no schools. Such a condition of affairs, he declared, was an outrage. He believed that territory was ready for statehood, but congress should grant at least some liberal form of territorial government.

Bromwell, of Ohio, got the floor, to comment upon the recent speech of Wheeler, of Kentucky. Bromwell read numerous poems, the burden of which was that Wheeler would regret his speech when the Germans of Kentucky went to the polls.

Corliss, of Michigan, delivered the second installment of his speech in favor of building a government cable to the Philippines. He argued against any consideration of the Commercial Cable company's offer to build a cable from San Francisco to Manila, denouncing the corporation as the ally of the Eastern Extension Cable company, the most extensive and powerful cable and telegraph monopoly in the world. The purpose of its union with the Commercial Pacific Cable company is to encircle the globe and extend its influence and the advantage of its present monopoly in the Pacific ocean and far east.

Hamilton, of Michigan, in a general speech, discussed the trusts. He argued that combinations were inevitable; existed everywhere in Europe, and only combinations here could meet them. Commerce had resolved itself into a race of giants. He was very sarcastic in reference to the democratic party. When he concluded he received an ovation.

Vandiver, of Missouri, who followed

Hamilton, remarked that it was strange that the author of the first speech on the floor in defense of the trusts should be so heartily congratulated by his colleagues.

TRAIN WRECKED.

One Man Killed and Five Injured By the Accident.

Columbus, Ohio, Feb. 19.—As a result of a broken rail Engineer William Smith was killed and five men injured on the Columbus, Sandusky & Hocking Valley railroad near Nelson avenue crossing at Shepherd, a suburb of Columbus.

The wrecked train was a double-header freight, and both engines and twenty-seven gondola cars were wrecked.

RESOLUTION ADOPTED.

Civil Service Commission Ordered to Make Report to Senate.

Washington, Feb. 19.—The resolution offered by Tillman in the senate was adopted, directing the civil service commission to transmit to the senate a statement showing the apportionment of employees in the various departments of the government from the several states and District of Columbia, together with the percentages of employees in the departments.

IMPORTANT SUBJECTS.

The Railroad Situation of New Mexico Interestingly Explained.

NOT BRIGHT FOR STATEHOOD.

The Citizen representative in his rounds among the lawyers this morning called at the office of Hon. H. B. Ferguson, and found that gentleman, although he had been at home from the several days, still busy wading through the accumulation of correspondence which had been received during his absence.

After exchanging a few words about the wonderfully fine winter weather of the Rio Grande valley, the reporter asked Mr. Ferguson to give his views on the railroad situation of New Mexico and he was interviewed as follows: "Without knowing anything specific the general railroad situation of New Mexico, in reference to the immediate future, is brighter than I have ever seen it before. Gould is certainly going to connect his Texas railroads with the Denver & Rio Grande system of roads in Colorado, which he now owns, by a railroad through New Mexico somewhere."

"Both the Choctaw and St. Louis & San Francisco roads are near the eastern border of New Mexico and both unmistakably are going to the Pacific coast and both must be built through this territory."

"The Santa Fe Central is certain to be built and the Atchison, Topeka & Santa Fe is certain, within the next two years, to build from Albuquerque to a connection with its Texas system, southwest from this city and reaching to the gulf."

"I have also been told by a well informed man that the Rock Island road is not going to be content with a single line, which it already now has, but is certainly going to build branch lines into various parts of New Mexico as feeders to its main line."

"On the whole, in my judgment, New Mexico is on the eve of a wonderful development of its resources resulting from the operations of the various roads above mentioned in this territory. That all of them will miss Albuquerque no sane man believes."

ON STATEHOOD.

"Now, give your opinion on statehood, and the military post," remarked the reporter.

"While my personal opinion," answered Mr. Ferguson, "from a contact with many personal acquaintances in both the senate and house of representatives in Washington, is that we will not get statehood at this time, I ought to state that Delegate Rodey differs from me and has strong hopes that he will get statehood. I heard many compliments given Mr. Rodey for the earnest and able fight he has made for statehood."

"I know personally, also, he did good work for the military post at Albuquerque; but I think the main reason why we will not get in as a state is political, because the eastern influences now controlling this government are afraid of the growing power of the west and statehood for New Mexico, Arizona and Oklahoma would vastly increase the power of the west in the United States senate and they fear that the result would be to break the hold of the east on the government of this great country. That's why I believe we will not get statehood this congress, nor perhaps for several years to come."

"As to the military post we can all feel absolutely secure. The matter is definitely settled in our favor, and what remains is only a matter of selecting the site, putting up the necessary buildings and ordering troops here, which will, of course, take some time."

Presidential Appointments.

Washington, Feb. 19.—The president sent the following nominations to the senate:

Navy—Captain Philip Cooper, rear admiral; Capt. George H. Wadleigh, rear admiral; Lieutenant Commander Charles W. Bartlett, commander.

Found Guilty.

London, Feb. 19.—Dick Burge, pugilist, was found guilty today of complicity in the bank of Liverpool frauds.

BIG HAUL.

Large Force of Filipinos Surrender.

Colorado Mining Broker Has Failed.

Report That Miss Stone Was Released Pronounced Premature.

NEW YORK MURDER TRIAL.

Manila, Feb. 19.—What is believed to have been the largest band of insurgents in Batangas province, surrendered yesterday to Lieut. Chan, N. Rhodes, of the Sixth cavalry, at Batang. Major Amoranto, two captains, six lieutenants and ninety-eight Filipino soldiers gave themselves up, and also surrendered 566 rifles and 2,000 rounds of ammunition. Rhodes had been hunting the insurgents for three weeks and continually destroying their supplies. They were virtually starved into surrender.

The skeletons of five soldiers of the Thirty-ninth infantry, killed in November, 1900, have been recovered. They will be shipped to the United States.

BROKER FAILS.

Colorado Springs Mining Company Cannot Meet Its Obligations.

Colorado Springs, Colo., Feb. 19.—John W. Proudfoot, a well known mining stock broker, of this city, posted a notice at the Colorado Springs mining stock exchange, stating that his firm was unable to meet its obligations. He was president and treasurer of the Alma Gold Mining company, and treasurer of the Bostwick Gold Mining company at Cripple Creek.

MISS STONE.

Report That She Is Released Said To Be Premature.

Washington, Feb. 19.—The state department's advice concerning Miss Stone indicates that the rumor publication to the effect that she has been set at liberty, is to say the least, premature. It is gathered, however, from reports of the United States diplomatic agents that the woman is likely to be released very soon, and delay is explained by the requirement of the brigades that they be given ample opportunity to insure their own safety.

MURDER TRIAL.

New York, Feb. 19.—Charles T. Jones, valet and clerk of the late William M. Rice, testified at length today for the prosecution in the trial of Albert T. Patrick, for the murder of Rice. Jones related in detail all the steps in the preparation of the will of 1900, under which Rice's property was left to Patrick.

TELEGRAPHIC MARKETS.

New York Money.

New York, Feb. 19.—Money on call steady at 2½ per cent. Prime mercantile paper, 4½ to 4¼. Silver, 55½.

St. Louis Wool.

St. Louis, Feb. 19.—Wool—Firm; territory and western medium, 16¢ to 18¢; fine, 12¢ to 17¢; coarse, 12¢ to 16¢.

New York Metal.

New York, Feb. 19.—Copper—Easy; 12½ to 12½¢. Lead—firm; at \$4.12½.

Kansas City Live Stock.

Kansas City, Mo., Feb. 19.—Cattle—Receipts, 4,000 head; market steady; 10¢ higher; native steers, \$6 to \$6.35; Texas and Indian steers, \$4.25 to \$5.65; Texas cows, \$2.75 to \$4.50; native cows and heifers, \$3.75 to \$5.25; stockers and feeders, \$3 to \$4; bulls, \$2.25 to \$4.75; calves, \$4.50 to \$6.50.

Sheep—Receipts, 2,500 head; market strong; muttons, \$4.50 to \$5.75; lambs, \$6.25 to \$6.50; range wethers, \$4.75 to \$5.50; ewes, \$4.75 to \$6.40.

Chicago Live Stock.

Chicago, Ill., Feb. 19.—Cattle—Receipts, 18,000 head; market active and strong; good to prime steers, \$6.50 to \$7.05; poor to medium, \$4 to \$6.40; stockers and feeders, \$2.25 to \$4.75; cows, \$1.25 to \$5.45; heifers, \$2.50 to \$5.50; canners, \$1.25 to \$2.25; bulls, \$2.50 to \$4.00; calves, \$2.50 to \$7.25; Texas fed steers, \$4.25 to \$5.75.

Sheep—Receipts, 20,000 head; market steady; good to choice wethers, \$4.75 to \$5.25; fair to choice mixed, \$2.85 to \$4.60; western sheep, \$4.50 to \$6; native lambs, \$3.75 to \$6.50; western lambs, \$5.25 to \$6.60.

Chicago Grain.

Chicago, Ill., Feb. 19.—Wheat—Feb. 75½¢; May, 78½¢ to 78¾¢. Corn—Feb. 59¢; May, 61¼¢. Oats—Feb. 42½¢; May, 43½¢. Pork—Feb. \$15.52½; May, \$15.55. Lard—Feb. \$9.20; May, \$9.40 to \$9.42½. Ribs—Feb. \$8.35; May, \$8.45.

CASHIER KETTLER RESIGNS.

The Local Cashier of Equitable Life Assurance Society Has Resigned.

H. F. Kettler, who for the past two years has been the efficient cashier and bookkeeper at the local office of the Equitable Life Assurance society, has sent in his resignation to General Manager W. N. Parkhurst, and expects to be relieved of duty here some time in March. For two years previous to

coming to Albuquerque, Mr. Kettler was the district agent for the assurance society at El Paso, and previous to going to El Paso Mr. Kettler carried on a general merchandise business at Taylor, Texas. Today, Mr. Kettler announced that he hoped to wind up his affairs here by the latter part of March, when he would return to El Paso and engage in some kind of mercantile business. Asked as to who would be his successor as cashier and bookkeeper at the Albuquerque office, Mr. Kettler stated that he thought a successor would be sent here from the home office in New York. Mr. Parkhurst, the general manager for New Mexico and Arizona, is at present sojourning in Tucson, Ariz.

Killed by Engine.

A Mexican lady, whose name could not be learned, was killed at Alamillo this morning by passenger train No. 22, from the south. Alamillo is a small station a few miles this side of Socorro. The train arrives there about 4:30 o'clock, and as the moon had gone down, it was quite dark when the train pulled in there this morning. It seems, from what can be learned, that the lady, who looked to be about 30 years of age, became frightened at something and ran in front of the engine, as it was slowing up for the station.

A FEW POINTERS.

Development of Water on the Mesa Will Stimulate Enterprises.

ACTIVE WORK NECESSARY.

The establishment of a military post—possibly upon the mesa—will stimulate the steam railroad project. It will insure the construction of the electric car line, and an electric line means access to our suburbs. No citizen has ever crossed the mesa without remarking its grandeur without feeling its healthfulness; without regret at its aridity.

The development of water at any part of the mesa will mean more to the welfare of the city than any project now before its people. There is no use to speak of its thousand farms, employing 5,000 people and supplying the city with their products. We all know the land is there and cannot question its extreme fertility when the water that underlies it is brought to the surface and utilized.

Many schemes have been advanced for the redemption of this land; many half attempts have been made to reach the water but all have failed. Is an opportunity now here? From the report in The Citizen Monday and the opinion of Paul B. Perkins we believe an effort should be made toward demonstrating the correctness of our common belief.

The development of a vast body of water near the foot hills has been a private enterprise and has been but little heralded. It has been but little talked of or little thought of, because of the many failures which have preceded it. The very quietness and self-certainty of its promoter led to belief in a trifling affair which has developed into a monstrous certainty.

Can the water strata underlying the mesa be tapped, and at what expense of time and money? The Citizen is against theorizing always at the expense of the people, but is with any practicable plan for their betterment. So The Citizen suggests a meeting with Mr. Perkins and a report from him of facts and figures, upon the question of water on the mesa.

NEXT SATURDAY.

A Write Up of Catholic Schools and St. Joseph Hospital.

Last Saturday afternoon, The Citizen published a splendid write up of the New Mexico university and Hadley's science hall, with illustrations, and, although the extra sales were quite large, there are a number of extra copies yet unsold. The Saturday before The Citizen published a most interesting article of the public schools of the city, with a cut of each and every building, and for the coming Saturday, February 22, The Citizen will give publicity to an article on the St. Vincent and the St. Mary Catholic schools, with illustrations, and an article on the handsome St. Joseph hospital, which is nearing completion on a prominent site on the Highlands in the First ward. A large, expensive cut has been sent for to illustrate the hospital, and the cut is expected here before Saturday. The Citizen asks no money for these publications, as they act as a good advertisement for Albuquerque, but hopes to dispose of enough extra copies to help defray the expenses incurred in the employment of photographers and the making of the cuts. Send in your orders for extra copies; also get your advertisements in early.

Hard to Believe.

The editor of the Prescott Journal-Miner went to church when he was a boy, if the following can be true: The Albuquerque Citizen contains a lengthy notice of the death, in Las Vegas, of Rev. J. M. Dick at the age of 85 years. Deceased was a native of Westmoreland county, Pa., and as a boy the editor of this paper listened to the ministrations of the gospel from the lips of this minister.

OUTLAW CAPTURED

Leader of Border Band in Jail.

American in a Mexican Jail for Murder.

Mobs and Troops Fight in Streets of Barcelona, Spain.

OKLAHOMA RAILROAD SOLD.

El Paso, Texas, Feb. 19.—Ramon Galindo, leader of the Island band of outlaws, who in 1893 killed Captain Jones, of the First Texas rangers, has been captured by Ed. Bryant, ex-ranger. Galindo has been hiding, but recently became involved in a shooting affray in Dona Ana county, N. M. His return from Old Mexico was reported to the officers here, who have since been on the lookout for him.

IN JAIL.

American in Mexican Jail Charged with Murder.

Eagle Pass, Texas, Feb. 19.—George Harper, in charge of commissary at Santiago, in northwestern Durango, on the extension of the Mexican International railroad, is in jail there charged with shooting a Mexican. The killing is understood to have been justifiable. Details are meager. He is the son of Rev. John T. Harper, a Methodist minister now living at San Antonio.

MURDEROUS MOBS.

Riots Frequent in Streets of City of Barcelona, Spain.

Barcelona, Feb. 19.—Two additional regiments of infantry arrived this morning. Troops are incessantly patrolling the streets, occasionally dispersing the mobs. Shots were exchanged on Gran Vista by rioters and the troops charged them at the point of the bayonet. The casualties list is lengthened by every conflict. Industrial and commercial life in Barcelona is paralyzed.

OKLAHOMA RAILROAD.

Sold to the Frisco and Extending This Way.

St. Louis, Feb. 19.—A special to the Globe-Democrat from Oklahoma City says:

"It is reported here on good authority that Oklahoma & Western line has been purchased by the St. Louis & San Francisco railway. This line is being constructed from Oklahoma City to Quanah, Texas, on the Colorado Southern, 180 miles west of this city, crossing the Rock Island at Chickasha, thence through Lawton and New City. The Oklahoma & Western, in addition to traversing the new reservation just opened, gives the Frisco direct connection with the Colorado Southern. It will be in operation by January 1 next."

HOTEL ARRIVALS.

HOTEL HIGHLAND.

Mrs. W. T. Sozin, Mrs. G. H. Cumming, Winslow, A. T.; W. J. Skeed and wife, Copperton, N. M.; L. W. Ragdale, Newton, Kan.; E. E. Silber, St. Louis; Pears, Stuart, Frank Field, Upton Hays, Las Vegas; J. F. Roberts, Salida, Colo.; Mrs. H. A. Thorne, Pinos Altos, N. M.; W. E. Allen, Clifton, A. T.; E. Backus, Kansas; F. B. Mason and wife, New York.

STURGES' EUROPEAN.

H. C. Moss, Winslow, A. T.; H. L. Edwards, Denver; George W. Stitzel, Los Angeles; S. L. Wilson and wife, Fred P. Bailey, Bland; F. H. McElroy, Indianapolis; J. M. Roeschlaub, Denver; L. F. Breckenridge, Hooper, Colorado; P. T. Harder, St. Louis; Mrs. George Oyster, Laura Zinth, Helen, N. M.; W. T. Solomon, New York; Chas. F. Weidemeyer, Gallup.

NEW METROPOLITAN.

R. L. Haglreaves, Yorkers, N. Y.; George Watkins, Needles, Cal.; J. C. Lockwood, Arkansas City, Kas.; Syd Brown and wife, Hannibal, Mo.

GRAND CENTRAL.

Mrs. Della Calvin, Denver; Nellie Bishop, Mrs. Rynerson, Des Moines, Iowa; J. J. Cotten, New York; Mrs. E. W. Elderkin, Chicago.

TWO DEATHS.

Aged Mother Dies, Followed in a Few Hours by That of Her Son.

Yesterday afternoon, at her home in Los Duranes, occurred the death of Mrs. Juana Lorenzo de Aragon. The deceased was 90 years old, and death was caused by heart failure.

Last night, at the same place, her son, Jose G. Aragon, died of pneumonia. The deceased was 55 years old, married and leaves a wife and seven children to mourn the loss of a father.

The funeral services for both will be held Thursday morning at the Church of San Felipe de Neri. Interment to be made at Santa Barbara cemetery. Undertaker Borders is in charge.

Entertained.

Yesterday afternoon, at the home of Mrs. H. G. Whitcomb, on South Armo street, occurred the farewell reception to Mrs. Maude Breen, president of

Baxter corps, of Chicago, who has been spending a couple of weeks in the city, visiting with different members of the Albuquerque corps of the Woman's Relief Corps, and left last night for Chicago. The affair was tendered by the local Woman's Relief Corps ladies, who assisted Mrs. Whitcomb with the entertaining. The afternoon was spent with music, conversation and delightful refreshments. The ladies present were: Mesdames Whitson, Stevens, J. W. Edwards, Alba Isherwood, John Butler, Bursell, of Boston; Johnson, Lou Shoemaker, A. M. Whitcomb, H. G. Whitcomb, J. M. Moore.

In the Skylight.

Mrs. Minnie Campbell met with a narrow escape from a serious, if not fatal, accident this afternoon. The lady is the daughter of Mrs. G. E. Hopkins, proprietress of the Columbus hotel, and in walking around the narrow passage of the skylight over the Albuquerque Hardware company store, she slipped and partially fell through one of the panes of glass. She hung thus suspended for a few minutes, when her cries for help were heard and she was released from her perilous position. It was an accident which Mrs. Campbell will not soon forget, for had the skylight given away with her weight, the lady being quite large, it would doubtless mean death or a cripple for life.

CAPITAN ROBBERS.

Posses on the Trail of Two Murderous Gangs.

ANOTHER KILLING REPORTED.

Information has just been received at El Paso of the killing of another man in the Capitán, N. M., vicinity by the now famous Jack Musgrove gang of all-around robbers and cutthroats, says a correspondent writing to the Denver News. The actual locality of this latest killing, as well as the name and occupation of the victim, cannot at this writing be ascertained, the impression, however, being that the man was put out of the way to prevent his bearing witness against the bandits themselves.

This makes seven men slaughtered in practically cold blood by these Capitán corps makers within the last two months. It should be said here that these Capitán bandits are an entirely different organization from that of the "Mesa Hawks," whose evil fame has also flown wide. The Capitán robbers, numbering about one dozen riders, are led by Jack Musgrove, said to be a former Arizona cowboy, while the Hawks, comprising twenty-five or thirty men, are under the leadership of Hank Hawkins, a half-breed Cherokee from the Indian nation.

The two bands are widely separated in locality, the Musgrove gang operating in the region south and west of the Pecos river, while the Hawks cover the region northeast from the Pecos to the Canadian. Musgrove and his followers are "killers," while the Hawks have not as yet taken human life, though three of their own number have died the death of range thieves while resisting arrest.

The Hawks are now pursued by a large posse of citizens starting from Tucumcari and headed by a deputy sheriff of Guadalupe county, while a united band of pursuers led by peace officers of Union, Chaves and Lincoln counties is now in response to direct instructions from Governor Otero about to enter on a "campaign to the death" against the Musgrove gang.

The line of pursuit of the Hawks leads to the southwest, while the trail of the Musgrove bandits runs to the northeast, and thus it may happen that the two robber gangs may join each other somewhere in the Pecos river country for the final fight with the pursuing posses.

MARKET QUOTATIONS.

[Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of Logan & Bryan, Chicago.]

New York, Feb. 19.—The market was rather quiet at the opening and what speculation there was continued to emanate entirely from the professional. In the last hour the buying of the leading railways, especially Union Pacific, which foreshadows the rendering of a favorable decision in the Northern Securities case on next Monday.

The close was somewhat irregular, but inclined to be steady.

Amalgamated Copper	69½
Atchison	77¼
Atchison, preferred	97¾

Going to El Paso.

A. T. Harrison, of Socorro, N. M., is building a residence on Gladstone street and will probably bring his family here to live on account of the schools. Mr. Harrison is a native Tennessean, but has been living in New Mexico and engaged in the hardware and mining business for the past twenty-five years.—El Paso Herald.

There will be a meeting of the W. C. T. U. at the residence of Mrs. Grout, on Friday afternoon at 3 o'clock.

ARIZONA TOWNS

WILLIAMS.

From the News.

Mrs. E. G. DuBois returned to the city, after a visit of several days at Winslow.

Dr. A. G. Rounseville returned to the city from a trip to the southern portion of the territory.

Mr. and Mrs. J. Salzman and family returned to the city after an absence of some weeks at San Francisco and other points on the coast.

A. R. Kilgore began making preparations for the erection of his new carpenter shop, on the site of that recently destroyed by fire.

R. A. Joice, brother of Mrs. E. H. Simpson, arrived in Williams from Los Angeles, expecting to remain several days. This is his first visit here since the fatal fire and he is greatly impressed with the good, substantial buildings that have been erected.

George W. Mathews is sinking a well on his lots in the rear of the store. At a depth of ten feet the ground was showing good indications for water, and it is expected that five feet more will develop a sufficient flow. This will be used in case of fire and incidentally to irrigate their prospective garden.

W. D. Wilson is a recent arrival in the city from Hico, Texas. The gentleman said he thought he would like to visit a country where they raise something besides cotton and—here we supplied a word. He laughed and said they were not allowed to locate in the section from which he came.

Mr. and Mrs. J. Kaufman returned from Seligman after an absence of several weeks. Mr. Kaufman has completed the repairs on his reservoir located at that place and says the dam now has a capacity of six million gallons.

The best dance so far this season occurred at the opera house under the auspices of the Williams Military band. The hall was filled almost to overflowing with a merry crowd of dancers, who availed themselves of the opportunity to dance till the small hours. The music furnished by Messrs. Green, Waite, Miner, Simmons, Zaul and Hester was superb, and late in the evening the entire band favored those assembled with two or three numbers. The boys did themselves proud and deserve much credit.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by all druggists.

A Hurry-up Medicine.

Every housekeeper recognizes the need of effective remedies to be used in emergencies: when something must be done right away. Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Its mission of mercy began sixty years ago. It is used in all countries. There is but one Painkiller, Perry Davis'.

HOLBROOK.

From the Argus.

Mr. and Mrs. Fred Wetzler, Mrs. Boyer and Miss Maggie Jervis visited Mr. and Mrs. Frank Wallace at the Aztec headquarters.

Sheriff R. C. Kernode, of Montezuma county, Colo., arrived here, and departed with the prisoner, Bud McDonald, who is charged with horse stealing.

Frank L. Moore, who has been foreman of the Snips office at St. Johns, since the establishment of that paper, came down Sunday, having decided that life in the Apache county seat was getting too monotonous—since the local option went into effect. After a couple of days' visit at Holbrook he hit the pike for the west.

Sunday afternoon, February 9, occurred the marriage of L. D. Divilbess to Miss Lora Gardner, at Woodruff. The ceremony was performed by Bishop L. M. Savage, in presence of only relatives of the contracting parties. Dan Divilbess has lived the greater part of his life in Holbrook, and at present has charge of the pumping station for the Santa Fe. He is a steady, industrious young man, and is held in high esteem by everyone.

The Last Heard Of It.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, Ohio. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. J. H. O'Reilly & Co., B. H. Briggs & Co.

FLAGSTAFF.

From the Sun.

Mrs. F. W. Smith, of Williams, is visiting relatives here.

Mrs. C. A. Greenlaw and children will leave for Los Angeles, where they expect to spend several weeks.

William R. Ueber, deputy supreme chief ranger, independent Order of Foresters, and whose field is California and Arizona, is in the city in the interest of that order. Mr. Ueber has in-

stituted during the past year lodges in nearly every important town in the territory, and during his stay here will make an effort to increase the membership of Court Conocino, No. 896.

David Mitchell, manager of the Arizona Sandstone company, spent several days here, leaving for Los Angeles. The company is shipping stone to Los Angeles to be used in the new postoffice building, now being erected in that city. Mr. Mitchell has secured a contract to furnish the stone for the finishing of stone work at San Pedro harbor. It will take four years to complete work.

Saved Him From Torture.

There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unceasing. DeWitt's Witch Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds it is unequalled. J. S. Gerall, St. Paul, Ark., says: "From 1865 I suffered with the protruding, bleeding piles and could find nothing to help me until I used DeWitt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits. J. H. O'Reilly & Co., B. H. Briggs & Co.

He Recommends Chamberlain's Cough Remedy.

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

KINGMAN.

From the Miner.

Mr. and Mrs. J. F. Phelan and the children returned from a visit to relatives in Williams the first of the week. They will remain in town until Mr. Phelan has settled up business affairs, when they will visit friends and relatives in Los Angeles.

A large band of Wallapai Indians started for Hackberry, where they will receive rations. We understand that this is the last issue that will be made to these Indians, under a recent ruling of the Indian department.

Kingman property is on the boom. This week Messrs. Mulligan & Hubbs, of the Hotel Beale, were requested to set a price on that property by a syndicate of capitalists and offers were also made for other desirable property. The proprietors of the Beale have no desire to sell, but will let go if the purchaser reaches their figures. In the next sixty days it is rumored that work on a new business block will be commenced and that eastern people will be at the head of some of Kingman enterprises. An electric light plant will be installed some time this year and the town will take on metropolitan airs. The water supply of the town and its central location makes it a desirable residence place for mine superintendents and mine owners of the county, adding much to property values.

A Legacy of the Grip.

Is often a run-down system. Weakness, nervousness, lack of appetite, indigestion and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by all druggists.

Bucklen's Arnica Salve.

The best and most famous compound in the world to conquer aches and kill pains. Cures cuts, heals burns and bruises, subdues inflammation, masters piles. Millions of boxes sold yearly. Works wonders in boils, ulcers, felons, skin eruptions. It cures or no pay. 25c at all druggists.

WINSLOW.

From the Mail.

Have Parker went to work as blacksmith in the local shops the latter part of last week.

Dr. O. Brown, who recently came to Winslow as the railroad physician comes to Winslow very highly recommended.

Winslow's base ball enthusiasts are already at work for the coming season, which promises to bring many good games to Winslow.

A car load of machinery passed through Winslow the other day from Mr. Voltz, the Indian trader at Canyon Diablo. It appears that Mr. Voltz is working some great changes at the village.

Winslow has experienced something akin to a soft coal famine the last week. Some of the local dealers could not scrape up two bits worth of coal to save their souls from—the anger of the cook.

The population of Winslow is booming right at present. During the past ten days two young gentlemen started their varied career in Winslow, one the son of Mr. and Mrs. M. W. Prichard, the other the son of Mr. and Mrs. Richard Doyle.

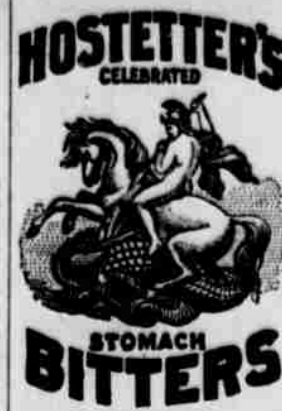

Fresh Bread.

Pastry of every description. Wedding cakes a specialty. At the New England bakery.

The Cerrillos Register says: W. S. Rishworth was in from the Live Oak last Monday, the first time in about two months. He said he had just received a very satisfactory report on some ore tested by the Cerrillos smelter people, and that arrangements were being made to sink from the 220-foot level of the mine and haul ore to the smelter.

Mother Gray's Sweet Powders

For children. Mother Gray, for years a nurse in the children's home, in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all drug stores. Sample sent free. Address Allen S. Olmstead, LeRoy, N. Y.

BOOMING TOWN.

Santa Rosa Has Natural Resources Back of Building Operations.

AGRICULTURE AND STOCK.

On the pinon clad slope of the Pecos river, with a charming vista of the more luxuriant emerald of lower lying meadows, is built the new Rock Island and New Mexican town of Santa Rosa. A correspondent writing to the Denver News.

The Santa Rosa townsite is owned by the Asamogordo, N. M., Townsite company, with C. H. Stearns as manager of the Santa Rosa ranch. Five hundred acres are embraced in the townsite, with lots selling from \$10 to \$20. The townsite is platted around a "plaza," one side of the plaza square being reserved for the erection of a modern and model hotel. The handsome Rock Island passenger depot, now in process of construction, immediately faces the plaza, while the commodious freight depot will be close at hand.

The Rock Island has just struck, at a depth of thirty feet, a well with an active pumping capacity of 200,000 gallons of water every twenty-four hours. As this one water source is within the town limits, it is the forerunner of any desired number of wells for the townsite itself, thus assuring Santa Rosa of a superabundant water supply for all city purposes.

The Santa Rosa sandstone quarries are already of wide name and fame, and half a dozen contracts have already been let for the erection of business blocks to be constructed from this local stone, to cost from \$5,000 to \$10,000 per block, the builders including such well-known business men as Charles Ifield of Las Vegas, the Gross-Richards company, G. B. Popp of Santa Fe and the Moise-Stern company, Michigan merchants.

The First National bank of Las Vegas will also erect a fine stone structure for branch banking purposes, while the big Coors-Moore Lumber company of the same city will put in a big Santa Rosa yard.

In the already local business buildings we find the Guadalupe County bank will erect a \$5,000 at least stone building, and C. H. Stearns, O'Shea & Pollock and George H. Smith will erect blocks of similar construction and cost, while the new Stepp hotel will cost at least \$3,000, and the arrangement for the Continental Oil company, tanks, yardage, etc., represents a handsome investment.

Reed & Hunter, the livery and transfer people, will also build extensively, as will the Meuni & Eakin wholesale liquor house and the Healey bottling works.

BUILDING TO BE PUSHED.

The Santa Rosa round house is to be primarily the largest on the system between El Paso and Topeka, and will be so constructed as to allow of early extension.

The earliest of the above business buildings will begin by March 1, and the latest by May 1, the middle of the present summer seeing all of these big blocks completed.

In addition to its profuse local use, the superb Santa Rosa sandstone, including solid red, white and gray colors and variegated hues, is to develop a shipping industry of wide radius and profitable returns.

The already noted Santa Rosa oil fields comprise an area as far as yet prospected 75x20 miles and general well development will be active this season. Santa Rosa is practically in the midst of the field, thirty-five miles being the outside distance from the town to any given portion of the oil bearing strata.

The well of the Consolidated Oil & Fuel company, five miles from Santa Rosa, is now down about 700 feet, while machinery for several other companies is now en route, with drilling to begin as soon as may be.

The fields include developing capital from El Paso, Las Vegas, Las Cruces, Bakersfield, Cal., and the Standard Oil company itself, as well as more or less local money.

President Roosevelt is one of the long list of Santa Rosa oil investors, prominent New Mexicans figuring in the same field, including Governor Otero, Judges Long and Mills, Jefferson Reynolds, Charles Allen, R. V. Rice and Dr. Harrison, while Operator Kerr, of Pennsylvania, has a \$55,000 option on Santa Rosa oil acres and will drill five wells this season, putting in also an asphalt paving plant.

OIL AND COAL.

Millions of acres of oil-exuding rock have been located, while the oil itself is of high illuminating character.

Large coal deposits of wide seam and domestic measures are found, while 35 per cent. surface copper ore has been assayed.

The sheep values of the region are immense, it being estimated that between 3,000,000 and 4,000,000 pounds of wool will be shipped from Santa Rosa this season. The wool clips are of high annual average, and increase in weight and fineness, as the original Mexican sheep of the region are being rapidly merged into high grade strains of both wool and mutton.

The tributary Santa Rosa agricultural area is large, with a very considerable portion of it still open to government entry. Crops flourish, with or without irrigation, more or less of the fertile farming acres being subject to a natural sub-soil irrigation, which is prolific in harvest production.

Peaches, pears, grapes, alfalfa, melons, corn, sweet potatoes, peanuts and variegated vegetables yield in profusion, an especial and valuable vegetable growth being found in chile, the Santa Rosa vicinity annually yielding

millions of pounds of this pungent and profitable product.

In coalition with the annually increasing alfalfa yield are fine qualities of native hay, natural meadows abounding.

The region is naturally susceptible of extended canal and storage reservoir irrigation, and will rapidly develop in this direction. Santa Rosa is ever busy with the hammer, saw and plane, the big Jackson-Galbraith lumber yards having all they can do to supply the present local building demand.

The new Rock Island-El Paso through passenger service will soon be on, and will, with its Forth Worth and Denver and Colorado and Southern connections, bring Santa Rosa and the upper Pecos valley into close and constantly appreciating civic and commercial relations with Denver.

In the Star, Santa Rosa has an exceptionally excellent weekly newspaper.

Santa Rosa sentiment is unanimous and enthusiastic for New Mexican statehood.

GEORGE R. CALDWELL.

Favorite Nearly Everywhere.

Constipation means dullness, depression, headache, generally disordered health. DeWitt's Little Early Risers stimulate the liver, open the bowels and relieve this condition. Safe, speedy and thorough. They never gripe. Favorite pills.

ROMANCE AND TRAGEDY.

How They Meet on an Every Day
Santa Fe Tourist Sleeper.

IT WAS A SAD TRAIN.

On train No. 2, which came in from
the west recently and continued on for
the east were three corpses and it is
said that the Santa Fe Railway company
makes quite a revenue carrying these
silent passengers as for each corpse
two first class tickets must be purchased.

One corpse was that of a young wife,
bound from San Bernardino, Cal., to
Lafayette, Ind. The bereaved husband
was on the tourist.

Opposite to his berth was that of a
Santa Fe man taking the remains of his
sister-in-law to eastern Pennsylvania.

The adjoining berth was occupied by
a Californian who was taking the remains
of his business partner of twenty
years to their mutual home in Iowa.

Sad home comings, these.
In another berth was the nurse of a
boy, born to a wealthy Irishman and
his English wife in California. The
couple is still on their wedding trip on
which they started a year ago, a trip
around the world. The parents called
the baby their California souvenir and
were puzzled as to what nationality he
was and whether he would be eligible
to the presidency.

On the same car was a 68-year old
consumptive and a 20-year old invalid,
both going to the old home to die.

The superstition that a train carrying
a corpse is unlucky was again verified,
for coming in, this particular train
lost its fireman through death. His
name was Stronach and he leaned out
of the tender of the locomotive to fix
an injector when his head struck a
bridge rafter and was split open so
that a hand could be inserted in a cleft
in the forehead. The engineer did not
miss the fireman until the steam com-
menced going down. The train was
sent back slowly, groping in the dark
for the fireman, who was found dead
on the bridge. On this same train two
young women were put off at a way
station near Trinidad, Colo. They had
orders for home seekers excursion tickets
at Raton, but had failed to secure
tickets. Thus the crews of the trains
that pass each day might tell many a
pretty romance, many a laughable in-
cident and many a sad tragedy if they
only had a mind to.

GOLDEN.

Special Correspondence.
Golden, Feb. 18.—Col. H. S. Farley,
manager of the Interstate Placer Mining
company, returned yesterday from
Albuquerque.

Father O. Naveroye, of the Church
of Our Lady of Guadalupe, in Santa Fe,
held services in San Pedro and Golden.
R. S. McCaffrey, general manager of
the Santa Fe Gold & Copper Mining
company, accompanied by Mr. Young,
the assayer, were in Golden yesterday.

W. S. Rishworth, operating the Live
Oak mine in the Dolores district, spent
last Sunday with his family at Golden.
Mr. Rishworth had some of the ore re-
cently found in the Live Oak that pays
\$40 per ton. The Cerrillos smelter is
buying all the ore.

The Old Reliable Mining company's
mill at Golden, which has been lately
overhauled by Trotter, Beirman & Wil-
son, started yesterday crushing ore
ready for the mill. The mill and new
concentrator lately put up in the mill
will start up day after tomorrow.

Jesus Maria Baca, one of the oldest
wood contractors of the Santa Fe Gold
& Copper company, has taken the con-
tract for all ties, telegraph poles and
piling that will be used by the Santa
Fe Central railroad, between Ortiz and
M. Monarty's ranch. The timber will
be delivered along the route.

Edgar Moore, the able manager of
the Industrial Placer Mining company,
is still very busy doing quite an ex-
tensive development work in the plac-
er grounds belonging to his com-
pany. Mr. Moore will have things in
shape by early spring for the company
to do some extensive work.

J. L. Lopez, of Las Vegas, has been
busy all the week putting up his patent
arrastra, that he received from
Denver, Colo. The old reliable Mexi-
can mill will be used in treating the
ores taken out of the San Miguel mine,
where some rich free milling ore has
been found. By next week the arrastra
will be grinding away.

Fred Petey, of Clear Creek county,
Colo., has taken a long lease in the
San Francisco mine, he has been get-
ting the mine in shape to commence
getting ore out, which Mr. Petey in-
tends selling to the Cerrillos smelters.
Yesterday Mr. Petey took down 2,500
pounds of ore to Cerrillos to test the
values in the ore.

Miss Amelia Gutterman, the accom-
plished school teacher, under whose
charge the Golden public school has
been for the last three months, reports
that several children have advanced
considerably. The majority of the
children have been kept away from
school on account of an epidemic of
the mumps now amongst the children.
The school will be closed next Satur-
day on account of the funds being ex-
hausted, and the people of Golden will
feel sorry to see Miss Gutterman
leave for Santa Fe, she having given
the very best of satisfaction as a
teacher.

LAS LUNAS.

Special Correspondence.
Las Lunas, Feb. 18.—A grand ball
was given by the ladies of Belen to
the members of the Hey-Dee club on
the evening of the 15th, in recognition
of the many treats the club has shown
to the ladies in the past. A very
pleasant time was had, and different
games were indulged in besides dan-
cing, in the rooms of the club. Refresh-
ments of different kinds were also
served.

Mrs. S. Neustadt returned today
from a two months' visit at El Paso.
The court house looks fine after its
thorough renovating inside and out.

Police Court.

One Ed Vale was given sixty days
in the county jail this morning, in
Judge Crawford's court, for beating a
board bill. Vale is an ex-switchman
on the Santa Fe, who was let out of
service about ten days ago, and has since
been living on the strength of having
been a workman once. He tried to

jump town Monday, leaving a bill for
\$21 and was caught in the act.

Albert Trackman also appeared in
police court this morning for wife
beating. Trackman, who lives down
below the Santa Fe shops, got drunk
Monday night, and abused his wife in a
shameful manner, blacking one of her
eyes. The neighbors threatened to
lynch him, but to save them the trouble
the judge gave him ninety days in the
county jail to think it over.

On behalf of the board of trade A. B.
Smith and M. W. Browne will go to
Denver this week and investigate the
ore reduction plant there. If Mr. Mc-
Caffrey's representations are found to
be all right, the \$10,000 necessary for
a smelter in Las Vegas will be raised
in an hour after the two gentlemen
return.—Las Vegas Record.

FISH

It isn't a long process from the fresh
water to the frying pan, the way we
handle fish. We don't carry fish for sev-
eral days. When you buy fish from us
they are fresh, appetizing and whole-
some. We expect tomorrow: Small
channel cat fish, sturgeon, salmon,
smelts, red fish, sea bass, flounders,
sea trout, lobsters Patent Case oysters,
Blue Points and Extra Selects. All
kinds of smoked dried and salt fish.
San Jose Market.

Bell Telephone No. 4

LOCAL PARAGRAPHS.

The city water this afternoon had the appearance of church oyster soup. Dr. Brigham, the dentist, is at jail, where he will remain a week or ten days.

The Epworth League of the highland Methodist church will give a social next Friday evening at the church.

Eight carloads of sheep billed for Fort Collins, Colo., were shipped out of here this morning by Benjamin Preston.

H. B. Hayes has arrived from San Marcial, and will, after next Monday, take the night shift at the drug store of B. Ruppe.

Regular review of the Knights of the Maccabees will be held this evening at 8 p. m. at Knights of Pythias hall. B. Ruppe, commander.

W. J. Skeed, manager of a copper company operating at Copperton, Valencia county, with his wife, is in the city to remain a few days.

A. B. McGaffey & Co., representatives of the Hyde Exploring Expedition, have today shipped the car of exhibits for the Charleston exposition.

Mrs. J. W. Anderson, who for the past few months has been confined to her bed with a severe attack of orchitis, is reported as much improved.

United States Marshal Foraker, who took three Chinese to San Francisco to be deported to the flowery kingdom, has returned to the city from the coast.

Fred Neeley, agent for the Baldwin locomotive works of Philadelphia, is recovering from an illness which has confined him to his room at the Grand Central.

Julius Becker, the young man accidentally shot at Belen the other night, and who was brought to this city to have the bullet removed, is getting along finely.

There will be no ladies night at the Commercial club tonight, owing to the fact that the reception and dance in honor of Major General MacArthur is only a few days off.

It is now Depot Master Barton, vice Gray resigned. Barton is one of the heavyweights of the country, and it is the opinion of The Citizen that he will make a good depot master.

C. D. Klumpp and wife, who resided on South Edith street, accompanied by the latter's father and mother, Mr. and Mrs. Louis Pouch, left this morning for Lawton, Oklahoma, to settle on a choice homestead, which they secured

last summer. Mr. Klumpp expects to return in a couple of months and resume his position on the Santa Fe Pacific as engineer.

Regular communication of Temple lodge No. 6, A. F. and A. M., Thursday evening, February 20, at 7:30. Visiting brethren cordially invited. By order of W. M. Robert Abraham, secretary.

W. B. McLaughlin, the night merchant's police, discovered an ash box in the rear of the First National bank building on fire last night, and with a bucket of water promptly extinguished the blaze.

Grant Hix, of Winslow, Arizona, who has been in the city for a couple of days, will return home this evening a full fledged Royal Arch Mason, having been shown through the mysteries of that degree by the local lodge.

Tonight, on the limited, Nelson Strong and wife, parents of E. S. Strong, chief clerk at the Hotel Highland, will return to their home at Freeport, Ill. The visitors have enjoyed their visit to Albuquerque.

Merit Appreciated.

Thomas Hall, of the firm of Hall & Leonard, returned last night from Las Vegas, where he sold to Wm. N. Rosenthal a Chickering Bros. piano. Mr. and Mrs. Rosenthal invited a number of their friends, among whom were several well known musicians, to see their purchase. After a pleasant evening it was the unanimous opinion of all present, that for elegant workmanship, rich appearance and sweet tone, the Chickering Bros. make of piano fortes has few equals and no superiors. As a result of this sale Mr. Hall booked three additional orders for instruments of the same make.

BROILERS

Fresh dressed broiling chickens, fresh beef brains, fresh, smoked and pickled beef tongues, prime K. C. roasts and steaks, K. C. fat mutton, all kinds of fresh fish, oysters, lobsters, etc., at the San Jose Market tomorrow.

Big Preparations.

Our preparations for the spring season are on a much larger scale than ever. Our stock will be tremendous in all departments and it will pay you to look at our lines before placing any orders. Simon Stern, the Railroad avenue clothier.

Social.

Mrs. Walton's February social will be held at Grant's hall on Thursday evening, the 21st instant. Dancing will begin at 9 o'clock and from 10 to 11 the contest will take place for the prize waltz and two-step.

From J. W. Dougherty, general secretary Y. M. C. A., Dubuque, Iowa: We have just had at our May festival two evenings of profitable entertainment—demonstrations of the wonders of liquid air. These were voted by the people of Dubuque, Iowa, to be the most entertaining and educational lectures and demonstrations ever given in this city.

You Get Your Money's Worth when you buy Clarkville coal; easily ignited, does not clinker.

JOHN S. BEAVEN.

Those dancing coils used for Christmas window display now for sale at the Economist.

If you want good meat, lard, vegetables, etc., try the Union market, 207 West Gold avenue.

Deming has an abundance of water for irrigating vineyards, orchards, or gardens.

Tickets are now on sale at Matson's for the Athletic club smoker at Orchestra hall Wednesday evening next.

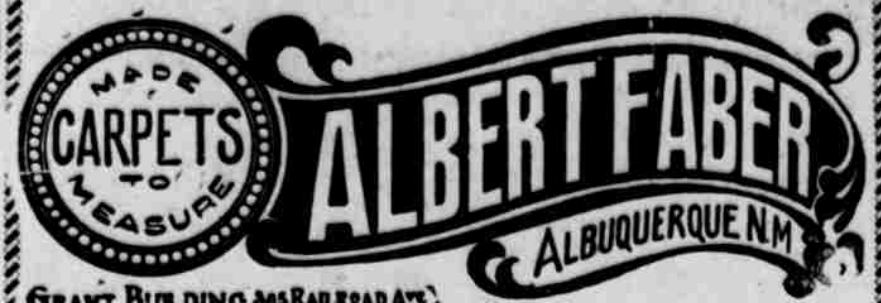

TWENTY-FIVE DOZEN MEN'S GLOVES, TAKE YOUR CHOICE FOR 45 CENTS. ROSENWALD BROS.

Short lengths of carpets, ranging from one to twenty yards, at half cost.—Albert Faber, 305 Railroad avenue.

Fresh broiling chickens. San Jose Market.

Subscribe for The Daily Citizen and get the news.

Outing flannel, a cents per yard.—Leon B. Stern.

GRANT BUILDING 305 RAILROAD AVENUE

Headquarters for Carpets, Linoleum, Matting, Curtains, Blankets and House Furnishing Goods.

SPRING'S ARRIVAL

Means "dressing up" the house—means a new carpet here and there, fresh, bright Matting and rugs in other rooms. Our sales-rooms are a setting for a beautiful bouquet of Carpet Patterns, a worthy welcome to the spring of 1902. Our carpets are all high grade and of superior quality and are selected to please the most artistic tastes.

New Laces and Embroideries

Every day new fresh shipments are arriving. They bring a message of the coming spring, and if present indications can be counted upon Dame Fashion will score more than ordinary success in the way of exquisite laces and delicate embroideries. You can see this for yourself by inspecting advance spring showing.

NEW LACES—Really the most attractive collection an approaching spring has ever brought us. There are pure white Irish Gimpures, Ecu Venice Galloons, Batiste All-Over and edges; together with entire new sets of Torchons, Valenciennes and Mechilins. The prices will please you.

NEW EMBROIDERIES—Our stocks are complete. You'll be especially interested in the new linen effects. They are quite the daintiest of the fresh arrivals. These embroideries are superior in every respect; the edges are buttonholed, the cloth is smooth and even, and the designs exclusive.

Our Spring Cotton Goods Exhibit

The newest, the best, the cleverest, the cream of the market is here. The fabrics, the weaves, color combinations and, most important of all the prices will delight you. Consisting of

NEW MEXICO TOWNS

SANTA FE.

From the New Mexican.
Clive Hastings has returned from an official trip to the Pecos forest reserve.

Mrs. A. M. Bergere returned from a visit to Mrs. Nell B. Field at Albuquerque.

Bishop J. M. Kendrick, of Phoenix, who spent the past week in Santa Fe, left for Las Vegas.

J. D. Sena, clerk of the territorial supreme court, returned from a visit to Albuquerque and points in Valencia county.

Amado Chaves, mayor of Santa Fe, returned from a trip to Valencia county and Albuquerque on land grant matters.

Miss Ida Bridwell, a former resident of Santa Fe, was married on Saturday, February 15, at Charleston, Mo., to Mr. Ross, of Pueblo, Colo.

Miss Hoffman, of Chicago, an authoress of repute, is a guest at the sanitarium. She is in Santa Fe delving in the archives of the historical society.

While Mrs. J. L. Zimmerman was out calling a few days ago she was attacked by a vicious dog on San Francisco street that tore her dress and almost threw her down. The shotgun should be used on some of the stray curs about town. A good revenue for city purposes could also be derived by taxing every dog.

A. A. Linderman, who has been a resident of Santa Fe for some months, has gone to his former home, Sleepy Eye, Minn., to close up his business with a view to becoming a permanent resident of New Mexico. His family consisting of his wife, two daughters and two sons, is in the city. Mr. Linderman took with him to far off and cold Minnesota a supply of bureau of immigration literature, which he will distribute in that section where it will do New Mexico some good.

Clerk's Wise Suggestion.

"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mead, leading pharmacist of Attleboro, Mass. "I could eat hardly anything without suffering several hours. My clerk suggested I try Kodol Dyspepsia Cure, which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodol Dyspepsia Cure heartily." You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodol Stomach Cure digests your food. J. H. O'Reilly & Co., B. H. Briggs & Co.

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. Wheeler, Northwood, N. Y. For sale by all druggists."

LAYTON.

From the Enterprise.
There has been quite a large sick list the past week.

Mrs. North has been wrestling with la grippe for the past couple of days.

Douglas Clara is now looking after the Bell interests in the partnership of Goode & Bell.

Contractor A. L. McDonald, with several assistants, has gone to Tucuman to put up a store building for Ira H. Callaway.

The committee of the W. O. W. Building company have secured two lots in the rear of Hotel Elkind and John C. Hill and intend to build a large hall and lodge room right away.

Dr. Slack informs the reporter that he is making a move toward sinking a well in the large basin one mile east of Clayton, with the expectation of finding oil. The doctor says he is negotiating with some Iowa people who he thinks will interest themselves in the project.

SOFT, GLOSSY HAIR.

It Can Only Be Had Where There is No Dandruff.

Any man or woman who wants soft, glossy hair must be free of dandruff, which causes falling hair. Since it has become known that dandruff is a germ disease, the old hair preparations that were mostly scalp irritants, have been abandoned and the public, barbers and doctors included, have taken to using Newbro's Herpicide, the only hair preparation that kills the dandruff germ. E. Dodd, Dickinson, N. D., says: "Herpicide not only cleanses the scalp from dandruff and prevents the hair falling out, but promotes a new growth. Herpicide keeps my hair very glossy."

LAS VEGAS.

From the Record.

F. B. Baca, publisher of the Santa Rosa Voice, is in the city.

B. M. Williams, who has been suffering for weeks with an attack of pneumonia, is able to be out again.

Richard Dunn came up from Tinquindin, Mexico, and left for his home at Gason.

A. N. Jordan, who has made his home in this city for some years, accompanied by his family will leave for Denver.

Gen. Whiteman has written Capt. W. C. Reid that troop A will hold its first encampment in July. The place has not yet been chosen.

Ramon Gabaldon, of Rowe, who had an operation performed on him at the home of Jose B. Dominguez, is getting along nicely and will soon recover from his long illness.

The christening of the babes of Mr. and Mrs. Jose A. Gallegos took place in the west side Catholic church; also the christening of the babes of Mr. and Mrs. A. Baca and Mr. and Mrs. Emilio Samora.

George Armijo and bride arrived in the city from the east, where they had been spending their honeymoon. They will remain in the city for a week as the guests of E. H. Salazar and family, after which they will return to Santa Fe.

Thomas Johnson, of Macon City, Mo.,

an old time friend of Grif Roberts, of this city, passed through here last Saturday from Rincon, N. M., en route to his home in Missouri, with a carload of goats. He expects to return to New Mexico about next April on another goat purchasing tour. Mr. Johnson is manufacturer of the Jobson wagon at Macon City.

From the Optic.

Born to Mr. and Mrs. E. C. de Baca a baby girl.

The daily mail to Santa Rosa was started Monday morning.

The Santa Rosa stage had six passengers Monday morning.

After an illness of several weeks Dr. B. M. Williams is again able to be on the streets.

The Crystal Ice and Cold Storage company filed its charter of incorporation in the probate clerk's office.

Mrs. Susie A. Harris was granted absolute divorce from James L. Harris. The parties reside in East Las Vegas.

Judge Wooster received a letter from T. J. Bigford, who is visiting relatives in Bualo, N. Y. Mr. Bigford says the snow there is anywhere from five to fifteen feet deep. He is coming back to Las Vegas in the spring.

Vern E. Joy, of the Daily Sentinel, Centralia, Ill., accompanied by his wife and child, arrived in the city on Saturday. They will remain in the west for some time for the benefit of Mrs. Joy's health. They are friends of Mr. and Mrs. P. W. Condit, of this city, who hail from the same town.

Millions Put To Work.

The wonderful activity of the new century is shown by an enormous demand for the world's best workers—Dr. King's New Life Pills. For constipation, sick headache, biliousness, or any trouble of stomach, liver or kidneys they're unrivaled. Only 25c at all druggists.

BASE BALL NOTES.

Jack Holland will play with Des Moines this season.

Matt Stanley, who caught for the Browns during one year, has signed with the Pacific Northwest league.

Fred Raymer is playing with an independent team in Los Angeles. Russ Waddell is pitching for the same outfit.

The trouble in the National league has not been settled yet, but the warring factions will likely get together soon and settle their disputes.

Local ball lovers will welcome Snapper Hale back to the diamond. It is also reported that Ross Merritt will again don the spangles and prance around the left garden.

Bucky Franks, who caught for Albuquerque during one fair, has signed with Colorado Springs for the coming season. He has been playing in California since leaving here.

Should Silver City and El Paso reorganize this year there should be many games played here with visiting teams this year. Albuquerque always turns out in great numbers to see the neighboring teams play the Browns.

Santa Fe will undoubtedly organize again as strongly as they were last year, as nearly all of the players of their last year's team are working in the ancient city. It is understood that Joe Harris, the pitcher, will play with Santa Fe again this year.

Letters are being received here every day by ball players who have either played here or have heard of this city as a ball town wanting to know if they could be used this season. The latest is a letter from Harry Patterson, who pitched here last season for the Browns. He says he has a fast infielder with him.

There has been nothing done so far toward reorganizing the Browns, but there possibly will be soon. There is the nucleus for a first class team here, and the outlook is that it will start off stronger than ever before. Several new faces will be seen on the diamond and some of the older ones are going to return to the game.

Las Vegas should be able to organize a fine ball team this season. Young Charlie Rhodes, who pitched for that team last season, should be steadier this year and win nearly all of his games. He has a good arm, and will develop into a wonder if he takes good care of himself. There are several other good players in Las Vegas.

Killed a Lion.

Messrs. Thomas Wagner and John Greely killed a mountain lion on near Mr. Wagner's ranch last week. The gentlemen had struck the animal's trail and followed it to where the lion and a large bull had had an encounter. Judging from the appearance of the ground in the locality the lion had the worst of the fight and was compelled to retire. Shortly after he killed a deer and had finished his feast when Mr. Wagner's dog located him. Upon the arrival of the gentleman his lionship was quickly dispatched with a bullet and the hide brought to town. It is a beauty and was immediately purchased by Dr. A. Tyroler, who sent it away a few days ago to be mounted.

A COFFEE SWORD.

The Old Things Would "Bob Up."

Coffee puts its sword into people first one place and then another. You may depend upon it, if you are a coffee drinker, and have ailments in some of the organs of the body, that coffee is doing its work. You may prove whether it is or not by leaving it off for ten days or two weeks, although it often takes from nine months to two years to recover from its effects.

Mr. J. W. Ashby, Mt. Airy, N. C., says: "I was a coffee drinker for twenty-five years. About three years ago I suffered greatly with pains in the region of my heart and the pit of my stomach. These pains appeared about the same time each day.

"I wondered if coffee might not be the cause so began the test of leaving off coffee. The pains ceased, but when I began using it again the same old pains would 'bob up.' I have now been using Postum for some time in place of coffee and am entirely cured of the old neuralgia of the stomach and heart. Respectfully."

MINERS FROM GALLUP.

Going to Colorado From the Catalpa Mine.

A special dispatch to the Denver News from Gallup, says:

The Catalpa mine, operated by the Colorado Fuel and Iron company, has closed for an indefinite length of time. All of the miners were discharged and have left the camp. Two coach loads of men left for Colorado today. A number of miners were discharged at Otero and Clarkville.

The reason given by the company's managers here for this curtailment of production is that there is no demand for the coal.

Delos A. Chappell, head of the Victor Coal company, ascribes the closing of the Catalpa mine to over production. He said: "At this season of the year the demand for domestic coal is distinguished from steam coal is very

OFFICIAL MATTERS.

Notary Public Appointed—Territorial Funds—New Incorporations.

TIMBER CUTTING RULES.

Governor Otero appointed J. E. Cul-lom, of Graham, Socorro county, a notary public.

TERRITORIAL FUNDS.

Territorial Treasurer J. H. Vaughn received from A. E. Burnam, treasurer of Colfax county, \$36.87 of 1900 taxes, and \$990.69 of 1901 taxes; from I. N. Jackson, treasurer of Otero county, \$241.49 of 1901 taxes; from H. O. Bursum, \$5.24 convicts' earnings.

INCORPORATIONS.

Eddy lodge, No. 21, I. O. O. F., filed incorporation papers at the office of the territorial secretary. The headquarters of the lodge are at Carlsbad, Eddy county, and the incorporators and trustees are James E. Laverly, George W. Larremore and F. M. Jump.

The Cabresto Lake Irrigation company filed incorporation papers. The incorporators and directors are Melquiades Rael, Benito Luis Ortiz, Eulofia Rael, Francisco borya Rael and Jose Maria Cisneros of Questa, Taos county. The company intends to take a canal out of Cabresto creek, six and a half miles above Questa and extending two and a half miles west of Questa, to use the waters of the creek and of Cabresto lake. The capital is \$15,000, divided into 75 shares. The headquarters of the company are at Questa.

FOREST RESERVE TIMBER CUTTING REGULATIONS.

Superintendent of Forest Reserves in New Mexico I. B. Hanna has received from the secretary of the interior, the following regulations to govern the cutting of timber on the Gila and the Pecos forest reserves in New Mexico:

First—The matter is a privilege, and not a right. It may be refused to any person.

Second—Who can get timber under free-use provisions of law: It is usually granted to settlers, farmers, prospectors, and others residing within or in the neighborhood of a forest reserve.

Third—Who can get it: It is refused to corporations, companies, sawmill parties, the owners of large establishments who require larger quantities and are expected to purchase; and to non-residents of the state in which the reserve is located.

Fourth—How much is given, and by whom: Permits for an amount not exceeding \$20 in stumpage value may be granted by the forest supervisor. Permits for a larger amount, and within the stumpage value of \$100, are granted only by the secretary of the interior.

Fifth—How often the same person can apply: Not often than once a year.

Sixth—How long a permit holds good: Six months from the date when it was issued; or less time, in the discretion of the forest supervisor.

Seventh—What can be obtained: All kinds of timber; generally dry firewood, dry poles and logs; also, if really needed, green timber.

Eighth—How obtained: (a) Application must be made to the forest supervisor.

(b) Blank form of application is furnished by the forest officers, and is filled out and signed by the applicant. (If necessary, the forest officer will lend assistance in filling out the blank application.)

(c) The timber must be located by a forest officer before any cutting is done.

Ninth—Terms of the privilege: (a) Only the timber applied for can be cut. For instance: no green timber may be taken if dry wood is applied for.

(b) Only so much can be cut as was applied for; and it must be measured, either standing or in the pile, before being hauled away.

(c) No unmarked live timber can be cut.

(d) There must be no cutting across the line of the area assigned. Cutting across the line is trespass.

(e) The rules about clearing up tops and brush must be obeyed. The cutting area must be left in good, clean condition.

(f) The rules generally governing forest reserves must be observed.

(g) The wood, timber, or material derived from it is to be used only at the place stated in the application. The use of it elsewhere, and especially the sale of it, makes the cutting a trespass, and the applicant becomes liable to suit and is always debarred thereafter from the privilege of free use.

(h) The cutting of the timber by a local mill is permissible; but the sawing must be paid for in cash, and can not be done on shares. Moreover, the sawing and hauling of the lumber must be done in a manner required by the forest officer, and in such way as to enable him to determine whether or not the timber and lumber are really used in the place and manner promised in the application.

(i) In placing a valuation on timber given under the "free-use" act, \$1 per M for timber, green or dry, and 25 cents per cord for fuel wood, will be the minimum price considered.

(k) Applications for "shakes," etc., involving a wasteful use of timber, will be refused wherever a more economical utilization and satisfactory cleaning up of the tops and logs is not guaranteed.

"Common Sense"

Is the motto of the modern woman. The thick soled shoe and the rainy day skirt are witnesses to the wise application of the motto in matters of dress.

But there is no common sense in neglecting womanly diseases or in experimenting with or without medicine. It is a matter of common knowledge that Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries enfeebling drains, heals inflammation and ulceration and cures female weakness.

It is not common sense to seek medical advice of those who are not physicians when Dr. Pierce, not only a doctor, but a specialist in the treatment and cure of diseases of

woman, offers a consultation by letter free. Write to Dr. Pierce, Buffalo, N. Y.

"I had falling of internal organs and had to go to bed every month; had irregular monthly periods which would sometimes last ten or twelve days," writes Mrs. L. Holmes, of Coaling Spring Street, Uniontown, Penna. "Had also indigestion so bad that I could not eat anything hardy. Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' cured me. I took three bottles of the 'Favorite Prescription' and one of the 'Golden Medical Discovery'."

For 21 one-cent stamps to pay expense of mailing only you can get free a paper covered copy of Dr. Pierce's Common Sense Medical Adviser. The book contains 1008 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

small, and for this reason there is a general slackening in the demand. The closing of the mine must be due to over production, although I cannot say so positively. One of our men who was down there recently told me that it was expected that all the mines in that locality would soon close on account of lack of orders."

Business Opening.

Here is a chance for some one to purchase a well established and very profitable business in a first class mining town in Arizona at a bargain. It is about an \$8,000 proposition, including fine up to date stock, three lots, large storeroom with cellar, stable, five-room dwelling house, finely furnished, etc.; monthly sales, \$2,750, mostly cash; terms easy; death of wife and child of proprietor reason for selling. At a glance it will be seen that this is a rare chance to make an exceptional good investment. For full particulars and terms, address or see H. S. Knight at once, Albuquerque, New Mexico.

Prof. H. S. Fisk, Northwestern University, Evanston, Ill. The two lectures and demonstrations upon liquid air were very interesting indeed, an intelligent account of the methods of producing liquid air, and its possibilities for the future, and fulfilled to the satisfaction of the large audiences all the promises made in the descriptive announcements.

Deming is the great mining center of the southwest.

FOR SALE.

Railroad Topics

C. E. Elliott, formerly roundhouse foreman at Las Vegas, is in that city again from Raton.

Conductor Richard Hays, of Las Vegas, after a prolonged illness, is able to be about the streets again.

A. H. Hall, night car clerk in the local yards, secured a leave of absence, and has gone to McPherson, Kas.

The name of the new railway physician and surgeon at Winslow is Dr. O. Brown, recently from Cambridge, Ohio.

Ben Williams, special officer of the Santa Fe, with headquarters at La Junta, came in from the north last night.

James L. Gibson and Charles R. Peasley have gone to Topeka for a few days. They are employees of the local boiler shops.

Engine No. 2197 has returned to Las Vegas from the Waldo branch and has been assigned to temporary duty on the hot springs branch.

Richard Harris has shifted himself, leaving last night for Alamogordo, where he will enter the railway shops of the El Paso & Northeastern.

Engineer Howard and Fireman Matthews will be off duty for some time. The former will visit relatives in Toledo, Ohio, and the latter in Topeka, Kas.

The railway boys of Las Vegas had considerable fun with a railway spotter, whom they discovered in that town Sunday night. He escaped with his life, for a wonder.

It is reported that H. E. Bird, at present railway storekeeper at La Junta, will be made division storekeeper from La Junta to El Paso, with headquarters at Las Vegas.

John McDonald, water service man, in the employ of the Santa Fe, at Rincon, is in the city today. Mr. McDonald has two daughters going to school at the Harwood Home.

Harry Johnson, a machinist at the local shops, and wife, left this morning for Kansas City, Mo., to make their future home. Mr. Johnson has resigned his position with the Santa Fe.

Engineer and Mrs. C. D. Klump and Mr. and Mrs. Louis Fouch, left this morning for the southern part of Oklahoma territory, where Mr. Klump has a fine claim, which he secured at the recent opening.

Engineer Denniston and Fireman Jack Montgomery, who have been handling engine No. 159 on the mountain, temporarily, will return to Las Vegas, being relieved by Engineer Collier and Fireman Snyder.

The Arizona & Utah engine has been fitted up and is now pulling trains between Kingman and Chloride. It made its first trip last Wednesday. The engine is one of the neatest pieces of machinery in the west.

The first train from Bisbee to Deming over the new line arrived with fourteen cars of copper and two cars of silver bullion. The first train to Bisbee hauled the same number of cars to melt more ore into bullion.

Dan Lederman, formerly a clerk in the offices of the Topeka mechanical department, who left a few months ago to take a position with the Mexican Central at the City of Mexico, is now in Alabama in the employ of a railroad.

It is reported that the reason for the lessening of traffic on the Santa Fe Pacific, is caused by the destruction of the orange crop in California by frost. The damage is very heavy, amounting in some localities to more than half the crop.

E. M. Sanjule, mechanical foreman for the Santa Fe at Gallup, is in receipt of information regarding the death of his cousin, T. Sanjule, who was lost off the island of Samar some time ago, while out in a small boat with several other men.

The "spotter" who watched the movements of Las Vegas trainmen and reported on them, is now in this city. It is understood that he already has the names of several trainmen who entered saloons and imbibed, in direct violation of recent orders.

The Las Vegas Record says: Engine No. 730 will go to the Glorieta mountain as fourth mountain helper, assigned to Engineer Collier and Fireman Snyder, and engine 758, which was assigned to the duties of fourth helper will be brought here and placed in the road service again.

The Santa Fe New Mexican says: Hon. W. G. Hopewell and Allan G. Kennedy returned last evening from one of the camps of the Santa Fe Central railway at Galisteo. Mr. Hopewell left for the south on the evening train to meet Mrs. Hopewell and children who will take up their residence in Santa Fe.

President Burt, of the Union Pacific, spent a few hours in Cheyenne, and in an interview stated that that company would build a club house in that city for employees. The building will cost between \$50,000 and \$100,000, and will be fitted with reading and club rooms and a gymnasium. Work on it will be commenced in the summer.

Santa Fe surveyors have been at work in the neighborhood of Kingman for the past two weeks straightening out the curves and lengthening out the side tracks in the yards. The company will make the entire line from Albuquerque west as straight as it is possible to get it, and in doing so many thousands of dollars will be spent.

Now that the Santa Fe employees are beginning to stir themselves for the baseball season, it is suggested that at all the divisions on the west end the fellows who are interested in the American game might muster up enough pride to organize teams which will compose a league. Wherever there is base ball enthusiasm sufficient to result in the formation of a club it should be roused soon in order that there may be the proper time for organization, training and the other requisites to a successful team.

The Wilmington shops of the Pullman Palace Car company have completed work on the handsome car "Idler," which will be used by Prince Henry of Prussia and his suite during their tour of this country. The "Idler" is a combination observation and stateroom sleeper, and is one of the most

palatial cars ever fitted out in the Wilmington shops. The interior decorations are of bronze and mahogany, and all the rooms are lighted with electricity. The upholstery is of blue plush and brown tapestry and the curtains are of brown silk. The electric fans will cool the air in the different compartments.

The Topeka State Journal says: John Paronto, who formerly was a boiler-maker in the shops here, but who has been on the western line of the Santa Fe for several months, having returned from Albuquerque, where he was in the service until recently. Paronto was at San Bernardino, Cal., previous to last fall, where he took sick and came here for several months' recuperation. Not long ago he was sent out from Albuquerque with a tank gang, working between Williams and Ash Fork, Ariz. Paronto, who, with the exception of that on the mountains, had not seen snow for more than two years, got in a small drift while out there, which resulted in his present sickness. He came to this place to visit his wife, who has been here all the time, and to rest up before resuming work.

The Ill Wind
that blows nobody good is bent on errands of mischief in the fall and winter. It produces that most dangerous of common complaints a bad cold. Your cold will not become bronchitis, nor consumption if you make timely use of Allen's Lung Balsam. Take it frequently until the cough and the stopped-up feeling in the chest are gone. Contains no opium and will not disturb digestion.

For Over Sixty Years.
An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Investments in Deming lots will double and treble in one year.

GOING TO THE COAST.
Rock Island Railroad Party Coming This Way.

President Leeds and other high officials of the Rock Island railroad, departed in a private car from Chicago yesterday for El Paso, intending to be gone several weeks.

Gossip regarding the trip is to the effect that the Rock Island is in the market for \$100,000,000 with which to build the El Paso-Pacific line. It comes from well informed men of the southwest, among them a territorial judge, that the Rock Island is back of the Phelps-Dodge syndicate in much of the railroad building the latter is doing.

It is asserted that these new lines will be turned over to the Rock Island which will build from Phoenix to San Diego, the ultimate object being to make of San Diego a business rival of San Francisco. Supplementing this statement comes information that the government has recently made extensive surveys of the San Diego harbor with a view to spending a large appropriation in dredging the shallow portions.

Shot a Burglar.
Shortly after 3 o'clock this morning, John H. Thompson was shot by C. H. Lawrence and painfully injured. He had just left the freight room of the Lawrence grocery on San Francisco street. The wounded man admits that he went into the room for the purpose of stealing something to eat. Mr. Lawrence first discovered that someone was in the room by finding a door that is always kept locked during the night standing ajar.—El Paso Herald.

SURGICAL OPERATIONS
How Mrs. Bruce, a Noted Opera Singer, Escaped an Operation. Proof That Many Operations for Ovarian Troubles are Unnecessary.

"DEAR MRS. PINKHAM:—Travelling for years on the road, with irregular meals and sleep and damp beds, broke down my health so completely two years ago that the physician advised a complete rest, and when I had gained

sufficient vitality, an operation for ovarian troubles. Not a very cheerful prospect, to be sure. I, however, was advised to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash; I did so, fortunately for me. Before a month had passed I felt that my general health had improved; in three months more I was cured, and I have been in perfect health since. I did not lose an engagement or miss a meal.

"Your Vegetable Compound is certainly wonderful, and well worthy the praise your admiring friends who have been cured are ready to give you. I always speak highly of it, and you will admit I have good reason to do so."—Mrs. G. Bruce, Lansing, Mich. \$5000 forfeit if above testimonial is not genuine.

The fullest counsel on this subject can be secured without cost by writing to Mrs. Pinkham, Lynn, Mass. Your letter will be entirely confidential.

CARE OF ALFALFA FIELDS.

Bulletin Issued by the New Mexico Agricultural College.

GOOD ARTICLE FOR FARMERS.

Alfalfa heads the list of forage crops in New Mexico. It forms one of the principal sources of revenue to the farmer of this section. Thousands of tons are shipped annually and it forms the bulk of the food for stock throughout this region. Other crops are slowly but surely giving place to it. The acreage in some sections is simply enormous.

So long as present prices rule, alfalfa will continue to be the dominant crop and the acreage may be expected to increase. The profit in growing alfalfa at present prices, reckoning cost of production and interest upon the investment, is such as to draw even the amateur into somewhat extensive operations.

These substantial profits, which have been realized for a number of years, has, it is believed, led to considerable carelessness and lack of diligence on the part of the farmer in the care of alfalfa fields. Alfalfa is grown with the greatest of ease and even in careless hands a field not too old returns fair profits. But the time may be expected to come when there will be somewhat sharper competition than is felt at the present time. The writer does not wish to give the impression that the farmer and ranchman will be driven out of the business, but believes that more study and care will be demanded if the present rate of profits is to be continued.

One can hardly pass through a field without noticing the bare spots and soddy patches. The alfalfa has been drowned out or otherwise mishandled, and the aggressive native grasses have taken its place. No one will contend for a moment that these grasses are equal to alfalfa. They sap the soil and encroach upon the alfalfa plants. The bare spots are objectionable, popular opinion to the contrary. Very coarse, woody alfalfa does not bring so good a price nor find so ready a sale as fine alfalfa. As competition increases, greater discrimination may be expected in this line, and the matter will be forced upon the alfalfa grower in a way that will command his attention.

It is not an extremely difficult matter to prevent the bare spots and the encroachment of wild grasses. Preventive measures will largely do away with this difficulty and prompt attention may be expected to eradicate the evils entirely.

Among the preventive means, the following may be mentioned:
First, through preparation of the land before seeding. The land should be perfectly level and properly bordered so that the water can be easily controlled.

Second, a perfect seed-bed should be formed so that the maximum germination may be reached.

Third, enough seed should be sown per acre to insure a perfect stand, even under somewhat adverse circumstances, should they appear; also the nurse crop, if one is used, should be chosen with discrimination.

Fourth, the time of seeding should be that which has proven to be best throughout a long period of time.

Fifth, the irrigation should be carried on with care as to season and frequency, on the particular soil to be handled and the way the water is applied to all portions of the field. Alfalfa is very susceptible to injury from standing water during hot weather, and, therefore, the greatest care should be exercised to prevent water from standing too long on low-lying portions of the field.

Sixth, never pasture short, especially in the winter. Alfalfa has wonderful recuperative powers, but continuous nipping off of the crowns will damage the plants and eventually decrease the yield not a little. Horses are particularly hard on alfalfa fields used as winter pastures because they are able to crop close and not infrequently paw loose dirt away from the plants and bite off the crowns one-fourth or even one-half inch below the surface of the ground. It is not hard to understand that the loss of the bud or growing point may be detrimental to the growth and usefulness of the plants, causing many to die and resulting in bare spots later to be overgrown by obnoxious grasses.

After the damage is done there remains no remedy but to plow up the field and re-seed, or to disc thoroughly and to re-seed the bare spots. If the field has not deteriorated too much, the latter is much to be preferred.

By diligence and careful handling, or prompt action closely following any encroachments upon the life of the plants, the quality and yield of alfalfa may be maintained and the profits relatively enhanced.

J. J. VERNON.
February 18, 1902.

Saved Her Child's Life.

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. V. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All druggists guarantee satisfaction, 50c. \$1.00. Trial bottles free.

Announcement.

Doctor Conner has opened an office in the Whiting building, rooms 21 and 23. By osteopathic treatment he is able to cure many chronic diseases that has baffled the skill of physicians of the old schools of drugging for centuries.

It is the privilege of everyone to consult free of charge.

C. H. CONNER, M. D., D. O.
Hours: 9 a. m. to 12 m.; 1 to 4 and 7 to 8 p. m. Mutual telephone 164.

Have you seen that blue enameled steel ware at the Albuquerque Hardware company's store. It is the most beautiful and ornamental ware ever seen in Albuquerque.

Don't miss the liquid air demonstration Thursday night.

RHEUMATISM

A Demon of Pain

Rheumatism seems to take a fiendish delight in torturing its victims. No mode of punishment ever invented by man, or practiced by devil-possession, has caused more bodily suffering, such deep, racking pains, as this pitiless disease. Rheumatism leaves in its trail distorted muscles, crooked and misshapen joints and limbs, and the intense pain and agony endured is reflected in the haggard and furrowed countenance of the sufferer. Rheumatism makes us grow old and decrepid before our time, and many an one in the full vigor of manhood has been suddenly

stricken by this ruthless disease, and made almost as helpless and dependent as an infant.

Chained to the invalid's chair or hobbling about on crutches, and continually tormented with pain, the patient in desperation resorts to the use of opiates, which deaden the pain but lead to ruinous habits. There is no disease so aggressive and stubborn as Rheumatism after it becomes well entrenched or fixed in the system, and no liniment or other external application can check it or do any permanent good. Rheumatism is not due to outside influences or causes, but is a constitutional disease, an internal inflammation produced by a too acid condition of the blood. Waste matter that should have been cast out of the body is retained, fermentation takes place, Uric, Lactic and other acids form and are absorbed into the blood, and as it circulates through the system every joint, membrane, tissue and nerve is saturated with these corrosive, irritating acids; when exposure to cold and damp or a spell of indigestion will bring on a fierce attack that almost takes the breath by its suddenness and severity. The parts affected become inflamed and swollen, and every movement is attended with pains that seem to cut like a knife into the tender flesh and nerves. After Rheumatism becomes chronic there is always a soreness and weakness of the back and dull throbbing pains in the muscles and joints and an ever increasing stiffness of the limbs. This Demon of Pain attacks the old and young, the strong and the weak—no one is exempt, but from middle life to old age is the time when its assaults become most frequent and severe. At this period the vital energies begin to wane, the blood grows weak and thin, and is easily chilled, the circulation becomes uncertain and slow and there is scarcely a moment's freedom from pain in some part of the body.

The treatment of Rheumatism must be internal; some remedy that can reach and neutralize the poisonous acids and cleanse the circulation. S. S. S., a purely vegetable medicine, acts promptly and surely in all Rheumatic cases, purifying and invigorating the impoverished blood, eradicating all impurities from the system, and sending a stream of rich new blood to wash out the irritating particles that are causing the inflammation and pains. In chronic cases, or those developing late in life, S. S. S. is especially effective; it warms and enriches the blood, restores nervous energy and stimulates the failing organs, improves the appetite and digestion, and builds up the general health, thus fortifying the system against the tortures of Rheumatism.

Alkalies, Potash and mineral remedies have an opposite effect, destroying the delicate lining of the stomach and often permanently impairing the constitution. S. S. S. is guaranteed entirely vegetable, and a specific in all Rheumatic troubles. Our Physicians will gladly advise, without charge, all who write them about their case, and we will mail free our special book on Rheumatism.

LOCAL PARAGRAPHS.

B. R. Westervelt, of Denver, is spending the day in the city.

A. R. Smithers, a postoffice inspector, was a west bound passenger last night.

Frank Strong and wife have moved into their new home on East Railroad avenue.

Mrs. P. J. Peterson left this morning for an extended visit with relatives in Chicago.

Marcelino Ortiz, after a stay of a few days here, returned to Santa Fe yesterday.

Neill B. Field, attorney, who was at Las Vegas on legal matters, returned to the city last night.

Thomas Hall, of the music firm of Hall & Leonard, has returned from a business trip up north.

George A. Kaseman, deputy United States marshal, left last night for El Paso on official business.

Mrs. George Oyster and Miss Laura Zinth, of Belen, are spending the day in the city, visiting and shopping.

H. Schaffer, who travels for a grocery house located at Syracuse, N. Y., is spending a few days in the city with friends.

H. McCreary, traveling superintendent of the news department for the Harvey system, is spending the day in the city.

E. B. Harsch, manager of the Harsch bottling works, who was at Belen on business, returned to the city on a freight train last night.

The El Paso Herald says that Roy C. Ramsey, of Albuquerque, N. M., has recently bought the Franklin house. Mr. Ramsey is an experienced hotel man.

The Degree of Honor will hold a regular meeting at the A. O. U. W. hall this evening at 7:30. Every member is requested to be present. Alba Isherwood, recorder.

The El Paso News says that Thomas Dorsey, formerly of the Bank of Socorro, also the Windsor hotel in the Gem city, is doing a satisfactory real estate business in El Paso.

Mrs. Della Colvin is in the city soliciting subscriptions to the Juvenile Record, a publication devoted to homeless children. She says it is intended to establish an auxiliary home at Raton.

Will Mentz reports having seen Assayer W. H. Stevens last week at Stein's Pass, Grant county, where Mr. Stevens is inspecting some valuable mining property for eastern capitalists.

F. C. Williams, night foreman at the new Cerrillos smelter, is spending a few days in the city. Mr. Williams says that they are buying ore and will be ready to start up by the first of April.

W. S. Hopewell, vice president of the Santa Fe Central railway, went to Santa Fe this morning. Mr. Hopewell was accompanied by his wife and children, who came up from Hillsboro this morning.

L. M. Shaw has resigned his position as collector with the Whitney company and has accepted another similar position with Brockmeier & Cox. A. W. Shaw has succeeded him at the Whitney company.

J. H. Bearup, president of the Albuquerque wool scouring mills, returned this morning from a visit to western New Mexico and Arizona where he went a week ago for a vacation and to recuperate a little.

Miss Maggie Fisher, of Los Angeles, was a through passenger for La Junta on No. 2 this morning. Miss Fisher is a sister of John Fisher, the postoffice clerk, recently transferred from Albuquerque to La Junta.

A siege of house cleaning is going on over at the court house. The judicial chambers are being thoroughly renovated and when Judge Baker returns from the east he will find his apartments in first class shape.

It is reported that there are quite a number of ducks on the La Joya lakes just now. Chas. Chadwick and P. A. Skinner sent up a box of them the other day and also telegraphed for more cartridges and wading boots.

Arnon Pefley has left at this office a twig of a plum and almond tree, and the buds are almost ready to blossom. If this warm weather continues look out for a killing frost that will rob the trees of their fruit during the coming summer.

The new athletic club will give a smoker and a few exhibitions of the manly sport, known as boxing settes, in old town tonight. Two professors of considerable reputation promises to make it quite interesting for those who will attend.

Yesterday afternoon the postoffice bicycle, heretofore considered one of the most reliable silent steeds in the city, bucked with Postmaster Hopkins in the saddle, and threw its rider in fine style, and sustained injuries that compelled him to go home and send for a physician. Quick acting medicines were applied and the postmaster is up and around today, although it is troublesome for him to navigate as fast as usual.

"The Economist" believes in expansion, and for proof of the assertion The Citizen refers to its big advertisement on the fifth page of this paper. They announce, no shoes, no clothing, no drugs, no groceries, no chinaware, but everything in the dry goods line. "The Economist" is making preparations for a big spring business, and a magnificent stock of spring and summer goods is arriving. Call and inspect the goods at "The Economist" and you will surely purchase.

P. F. Guerin died at his rooms on South Broadway, last night about 12 o'clock, of consumption. The deceased was 30 years old and came here about two months ago from Chicago, where he leaves two small children to mourn their father's death, the mother having been dead several years. It is not known whether the funeral will take place here, or the body, which is in charge of Undertaker O. W. Strong, will be shipped back to his former home, in Chicago. The deceased was a member of the National Union, and had letters showing that he was ex-city water inspector of the city of Chicago.

The A. O. U. W. hall will be held at Colombo hall on Friday evening and it promises to be one of the best of the season. Tickets 75 cents. A committee has the sale of tickets in charge.

Our Usual Position

When it comes to the Special Order part of our business, where great efforts are to be made to secure the best for the money in the way of quality and style.

We Lead the Procession

It is not our custom to brag or blow. The proof of the pudding is in chewing the thing—Same old song, but having been at it for 10 solid years, we know whereof we speak.

\$15.00 to \$30.00 Per Suit

And all of the best kind— even the cheapest guaranteed all wool and well made and we stand behind every garment we make—"Satisfaction or money back" is our motto.

You Can't Afford to Miss Us

Thousands of samples to choose from. No such word as "Fail" known to us.
