# DEWEY INCIDENT.

When Prince Henry Made Apology.

Storm Raging at Vicksburg, Mississippi.

Important Conference Held by the Cabinet and the President.

BIG SALES OF OIL PROPERTY.

Washington, D. C., Feb. 15.—The Associated Press today received from an intimate friend of Admiral Dewey the following information recently received in a letter from a member of the United States embassy in Berlin, in which the writer gave a resume of a conversation he had with Prince Henry of Prussia, at a dinner given the latter by Ambassador White prior to the prince's departure for America. In the conversation the prince said:

"Now, you Americans feel very sore about affairs in the east and I do not blame you. I myself made a mistake which I see is now being exploited by the English press to create prejudice. When at Hong Kong at a dinner on the Deutschland, (the prince's flagship in the east), Commodore Dewey was present and was senior officer. There were two Russians, some English and officers of other nationalities, which I cannot recall, when I announced the health of the czar of Russia, then others, and then last of all that of the president of the United States. Dewey was offended, as I learned the next day, and I realized that I had made a great mistake. I immediately went on board the Olympia and saw Dewey, who accepted my apology most graciously."

The prince said that he was well aware that mistakes had been made on their part, but his relations with Dewey had always been most agreeable and pleasant. He sent his highest regards to the admiral and expressed the sincere hope of seeing him during his visit to America.

**DID NOT APOLOGIZE.**  
Bremer Haven, Feb. 15.—Previous to sailing, Prince Henry, in conversation with a correspondent of the Associated Press, referred to the report that he had written a letter to Admiral Dewey, apologizing for the conduct of the German squadron at Manila bay during the war with Spain.

"It is all untrue," said the prince. "I never wrote to Admiral Dewey in my life."

**SEVERE STORM.**  
Lower Mississippi Valley Visited by Snow and Sleet.  
Atlanta, Ga., Feb. 15.—A severe storm raged in Vicksburg last evening, and today is central near Jacksonville, Fla. The disturbance was a mixture of rain, snow, sleet and thunderstorms, and was also felt at Montgomery and Charleston. Snow prevails generally and is the heaviest of the winter. Charlotte reports fifteen inches. Freezing weather extends as far south as Vicksburg. In Atlanta the street car service is seriously interfered with.

**IMPORTANT CONFERENCE.**  
President Roosevelt and Cabinet Held Meeting with Senators.  
Washington, Feb. 15.—A very important conference was held by the cabinet at the white house today. At the president's request he was joined there shortly after 10 o'clock by Senators Allison, Aldrich and Spooner, Speaker Henderson, Representatives Cannon and Grosvenor. The conference lasted until a few minutes after noon. Previous to the conference the president breakfasted at the white house with Attorney General Knox, Postmaster General Payne and Senator Hanna. When the conference broke up those who participated in it were extremely and unusually reticent. That the senators are the members of the steering committee of the senate and Speaker Henderson and his two lieutenants, who were present today, practically control the legislation of the house, gave rise to the belief that the consultation referred to the legislative program of congress and might have a bearing upon the shaping of the Cuban, Philippine and war revenue repeal legislation.

There also was intimation that the president talked with the party leaders of congress about the Schley case, and color was given to this surmise by a remark dropped by one of the senators. But nothing definite as to the purpose or result of the consultation could be obtained.

**OIL PROPERTIES.**  
Large Sums Invested in Western Oil Lands.  
San Francisco, Feb. 15.—The Post says: Resultant upon extensive operations carried on in the development work by exploration and prospecting organizations, formed eighteen months since by Joseph A. Chanlor and C. A. Canfield, of the Chanlor-Canfield company, and A. B. Butler, the largest deal in accumulation and transfer of western oil properties, ever undertaken, has just been consummated.

By this transaction 108,000 acres of

oil land in Wyoming, Utah and Colorado, 25,000 acres which are proven, are turned over by the exploration concern to the American Consolidated Oil company, a combination of syndicates composed of men prominent in the oil business in Chicago, Omaha and California, for the sum of \$5,875,000. San Francisco will be the base of supplies.

## TRIESTE TROUBLED.

City Disturbed by Riots and Labor Strikes.  
Trieste, Austria, Feb. 15.—Crowds thronged the streets this morning, but the military patrols keep the strikers and public generally moving. All the squares and public buildings are occupied by soldiers, and business is suspended. The number of those wounded when troops on Plaza Grande, fired a volley into the mob yesterday have since died.

## WEST IS DEAD.

Famous Minstrel Dies in Chicago from Cancer in the Throat.  
Chicago, Feb. 15.—William H. West, known as "Billy" West, minstrel, died today of cancer, aged 45. Early in the week a cancerous growth, which physicians ascribed to excessive smoking, was removed from his throat, but he never recovered from the effects. His friends estimate his estate at \$500,000.

## WILL FIGHT.

Fitzsimmons and Jeffries Sign Articles For a Contest.  
New York, Feb. 15.—Robert Fitzsimmons and James Jeffries signed articles today to meet in a twenty round glove contest on some date between May 10 and 20, for the championship of the world, before the club offering the highest purse.

## WILL VISIT ITALY.

A few days ago, G. Glomi received a cablegram from Lucca, Italy, stating that his 7-year-old daughter, Ida, in order to save her life, would have to have her right limb amputated. He cabled back if the doctors thought it necessary, let the operation be performed.

Since then, he has arranged to visit Italy himself, and hopes to be able to leave in a few weeks. Today he transferred his half of the Bachechi & Glomi business to be looked after by J. M. Pedroncelli, and the latter will fill Mr. Glomi's position, with the proviso that he can purchase if he so desires, during that gentleman's absence from the city. Mr. Pedroncelli for years was a small rancher above the old town, but today he buckled down to work in the city.

## NOT WORRYING.

Benjamin Franklin Daniels Says He Has Not Been Hiding Out.

## ADMITS CERTAIN FACTS.

Benjamin Franklin Daniels, who was recently appointed United States marshal of Arizona, passed through Albuquerque last Tuesday night, by correct calculation, but as he was undoubtedly asleep in a Pullman coach berth the "night hawk" on The Citizen did not disturb him and he was allowed to continue his journey westward without being interviewed here. However, on reaching Phoenix, he was met by a Denver Republican representative and the following article is the outcome of that conversation, which was telegraphed to the Republican under date of February 13:

"Ben F. Daniels, recently appointed United States marshal for Arizona, but whose commission, sent to Phoenix, was returned by the chief justice of this territory, acting under instructions from Washington, where his appointment is being reconsidered, arrived in Phoenix this morning. He laughed at the press reports charging him with hiding out since he was accused of a prison record in Wyoming, and said that he had made no effort to conceal his itinerary."

"After leaving Kansas City, nearly two weeks ago, where he made his headquarters at the office of the chief of police, Daniels says he went to Emporia and other Kansas towns to visit his sisters, since which time he has been traveling constantly over the Santa Fe route to Phoenix, with the exception of one day which was devoted to his friends in Trinidad, Colo. Daniels says that his full name is Benjamin Franklin Daniels, and admits that he has been in Wyoming, but concerning the charges that he was a Wyoming convict he refuses to talk, but says:

"I have written a letter to President Roosevelt telling him the whole situation and I will stay in Phoenix, letting matters take their own course until after this affair is settled. I have been in criminal work about all my life, and about every time I have held office numerous charges have been brought against me. I think these same charges were preferred against me in Cripple Creek, Colo., when I was night marshal there, but, you see, nothing seems to come of them."

"Daniels seems very sanguine of the outcome of the investigation now being made by the department of justice, but says he will register no complaint whether or not he receives his commission. He freely admits that while hard pressed for money he dealt a faro game in Nogales, Ariz., which he says he admitted frankly to Senator Hoar of the judiciary committee, but he resents imputations that he was a professional gambler or that he ever dealt a "brace" game."

# WOMAN SUFFRAGE.

Plan of Work for Ensuing Year.

Governor Taft's Report on the Philippines.

Hundreds Buried by Earthquake in the Russian Caucasus.

PRINCE HENRY WILL SAIL.

Washington, Feb. 15.—Interest in the national woman suffrage association meeting today was heightened by the fact that it marked the eighty-second birthday of Susan B. Anthony. She was the recipient of many congratulations and floral tributes.

Mrs. Boyer, of Philadelphia, presented a plan of work for the coming year. The part relating to taxation without representation caused considerable discussion, which developed the fact that in paying taxes a number of delegates insert in the tax certificates the words: "Paid under protest."

Recommendations by the committee were to appoint a special committee to double the membership; that clubs seek qualified women as local organizers and when such are found invite them to assist; that in the national capital there should be published a woman's journal; that systematic work be done to increase circulation of suffrage documents; that presidential suffrage be urged and that there shall be woman's suffrage stamp, similar to that used in France; that prizes be offered for best essays on woman suffrage and "that we continue our plea for the sixteenth amendment respecting suffrage."

The recommendations were adopted. The convention recognized Miss Anthony's birthday by raising \$5,000 to carry on an educational campaign. Resolutions were adopted protesting against government regulation of vice in our new possessions; pointing with satisfaction to our equal suffrage in several states and declaring that the beneficent experience of those states confirms every hope and refutes every objection; calling attention to the civil service commissioners and all heads of departments, and calling notice to the unjust discrimination against women.

**THE PHILIPPINES.**  
People Not Fit for Self-Government, Says Gov. Taft.  
Washington, Feb. 15.—The hearing of Governor Taft on the Philippine question by the senate committee on Philippines began today with a series of questions by Senator Patterson, in regard to the fitness of the Filipinos

for jury duty. Patterson asked whether the native population on which the voting franchise could be bestowed, could not be trusted to do jury duty. The governor replied in the negative, saying that they are so used to corruption in the administration of justice that they could not be trusted. "They need to be trained," he said, "to have examples; they are not ready for jury duty."

Referring to the code of procedure in the islands, Governor Taft said in reply to a question by Senator Culbertson, that it is the American code rather than the Spanish code. Under the Spanish regime, said Taft, the courts were not only sluggish but notoriously corrupt, and the first courts established by General Otis were no better. Under Spanish rule there was no substantial idea of justice.

REYNOLDS PUBLIC LIBRARY BUILDING.  
Owned by the City of Albuquerque and Located on East Railroad Avenue.

Earth Opened and Swallowed Up Hundreds of People.  
Tiflis, Russian Trans-Caucasia, Feb. 15.—Two bodies of the victims of the earthquake which destroyed the town of Shamacka, were recovered last evening. It appears certain that several hundred bodies are buried in fissures and debris caused by the shock.

Shamacka advises confirm the appalling character of the earthquake. Three hundred corpses were taken out of the ruins. The piles of wreckage are so vast that the search is necessarily slow. Most of the victims were Mussulmans. The survivors are encamped outside the ruins of the city.

## EARTHQUAKE VICTIMS.

**He Sailed.**  
Bremen Haven, Feb. 15.—Prince Henry sailed for New York at 3:43 p. m.

## MOVING DAY.

The Santa Fe ticket office is being moved this afternoon to its new apartments at the new depot, the lights having been put in yesterday afternoon. The baggage department was duly installed in its new apartments this morning, and the eating house will go next. D. Benjamin, general manager for the Harvey people, is on his way now to Albuquerque to make arrangements for the transfer. The boys over at the freight house say that it is so crowded there now, since the telegraph offices have moved in, that one person has to go out every time some one wants to come in.

## CLOSED TODAY.

The local Santa Fe shops are closed today on account of the whitewashing of the inside of the new buildings. The painting is done by compressed air, making it impossible for the men to work with the atmosphere filled with lime. The work has been going on every evening from 5 to 6 o'clock since Sunday, but has been too slow, so the management decided to close down today and finish up.

The whitewashed ceiling and walls are a great improvement over the old smoky, dingy walls, giving the workmen so much more light.

**Police Court.**  
John Derrell and Albert Ross, charged with vagrancy, and Carlos Chaves, charged with being drunk and disorderly, appeared before Judge Crawford this morning, and received their just

deserts. Derrell, who proved that he had been working at the Trimble stable, was dismissed. Ross, who hails from nowhere, was given five days. Chaves was also given five days on the rock pile.

George Stein, the man who got drunk and raised a disturbance at the Salvation meeting Thursday night, had his trial yesterday afternoon, and was given fifteen days.

## COMMITTED SUICIDE.

W. H. Jessup Killed Himself in Decision of Coroner's Jury.

Denver, Feb. 15.—The coroner's jury today returned a verdict of suicide in the case of W. H. Jessup, recently employed on a sheep ranch near Las Vegas, who was found dead near this city with a bullet in his head, and a revolver near the body. A telegram was produced showing that Jessup had telegraphed to relatives in the east for more money, which they refused. This induced him to kill himself.

Rev. Fred Allen will hold services tomorrow, both morning and evening, at the Baptist church.

## JUDGE THEODORE MAXWELL.

He Died Suddenly at Gallup Last Night.

Special to The Citizen.  
Gallup, N. M., Feb. 15.—Judge Theodore Maxwell, probably one of the best known and most respected citizens of Gallup, died very suddenly last night of heart disease. He was a pioneer of this section of New Mexico, and was one of the discoverers of coal here, which, in more ways than one, helped to build up Gallup and make the town one of the largest coal producing sections of the southwest. The deceased was a power politically, and, although a democrat, whenever his name was on the ticket he was sure of election. He served Gallup in several political trusts, and was considered in every respect a loyal friend of the town, being one of the largest property owners here. His brother, Hon. W. A. Maxwell, is now an extensive timber owner of Marshall, Ore., and was, up to several years ago, a resident of Albuquerque, being interested in the drug business there and a director of the Bank of Commerce.

## BULLET IN BRAIN.

W. H. Jessup, of Fort Sumner, N. M. Commits Suicide.

## TAKES LIFE IN COLORADO.

Thursday night, the local correspondents of the Denver newspapers received telegrams to furnish some information about a man named W. H. Jessup, of Fort Sumner, N. M., as he had committed suicide near Magnolia station, Colo. Upon inquiry among certain citizens yesterday it was learned that a man named Jessup was, once upon a time, in the cattle business in this territory, but no facts regarding him or the Colorado suicide could be obtained.

The news of yesterday contains the following article on the suicide:

"A body, supposed to be that of William H. Jessup, of Fort Sumner, N. M., was found lying near the Kansas Pacific tracks near Magnolia station yesterday morning. There was a bullet hole in the right temple and a 38-caliber revolver near the body. Coroner Horan, who did clever detective work in establishing the identity of the dead man, says it is a plain case of suicide."

"The suicide was evidently contemplated since Monday. On that date Jessup, who had two good suits in his grip, purchased a new suit of clothes at the May, which he had delivered at the Brown hotel, where he had arrived the day previous, and registered at Fort Sumner. He took his meals at restaurants, and so far as is known made no acquaintances. He was not noticed around the hotel Wednesday and the room showed that he had not been there since the chambermaid had cleaned it."

"When a train crew on the Kansas Pacific got into Magnolia yesterday the conductor notified the operator that a man's body was lying on the prairie about forty feet from the right of way. Coroner Horan was notified and sent a deputy for the body. It was lying on the right side and the revolver was about a foot from the right hand. Nothing by which the body could be identified was found. On the hose were the initials, 'W. J.' A sack of tobacco, some cigarette papers and a knife were found in the pockets. The name of the May was found on the collar of the coat, and this led to the identification of the body. The shoes indicated that he had walked to the place where he was found. The body was brought to the morgue."

"The coroner telegraphed to Fort Sumner asking if Jessup was known there, but received no reply. He learned that on Monday Jessup sent a telegram to Mrs. S. F. Jessup, 106 Eighty-first street, New York.

"The cause of the suicide is not known. It is believed that, having no money, he became despondent. His clothes were all expensive except the suit he purchased since coming here, and he had an air of refinement about him. Jessup was about 30 years old, smoothly shaved, had a prominent nose of the Hebrew type, and wore a wide-brimmed white Stetson hat."

# BOER ENVOY.

Dr. Mueller Coming to United States.

Walking Teams in Six Day Match Exhausted.

Remarkable Case of Youthful Depravity in Indiana.

## TEDDY ROOSEVELT ALMOST RECOVERED.

Brussels, Feb. 15.—It is said that the desire to keep secret the departure of Dr. Mueller, former consul of the Orange Free State in Holland, for the United States was so keen that the Boer emissary was looked passage under an assumed name.

According to information from responsible Boer quarters, Kruger's letter to President Roosevelt, of which Mueller is the bearer, does not appeal for intervention, but expresses regret that he is unable at present to personally congratulate President Roosevelt on his accession to office and concludes with gratified allusion to the numerous invitations to visit the great republic.

Besides reorganizing the Boer propaganda in the United States, Dr. Mueller will direct his efforts principally to obtaining government prohibition of exportation of articles regarded by the Boers as contraband of war, thus indirectly eliciting an opinion on the war from the United States government.

## WEARY WALKERS.

Last Day of the Six-day Walking Contest.  
New York, Feb. 15.—Almost on the verge of collapse the sixteen teams now in the six-day walking match entered upon the last day of the contest. Score of the leaders at 8 o'clock:

Hegelman-Cavanaugh, 719.1; Shelton-Guerrero, 694.9; Fahey-Metkus, 687.2; Golden-Tracy, 667.8; Glick-Horwarth, 648.4; Noremac-Cartwright, 622.1; Feecey-Feeney, 615.5; Fraser-Sullivan, 607.9; Davis-Carroll, 595.4; Dean-Campbell, 586.5.

At 9:40 today Hegelman and Cavanaugh, leaders, quit the track and race. Both men said they would leave the garden at once. Hegelman was almost delirious with pain, caused by his feet swelling, and Cavanaugh, after being on the oval three hours, said he would let the race go if his partner did not come on. This the latter said he could not do.

At 11:40, after two hours absence, Cavanaugh returned to the track and said that he would continue to finish alone if he could. The team lost eight miles in two hours.

## YOUTHFUL DEPRAVITY.

Little Boy Burns His Baby Sister to Death.  
Hammond, Ind., Feb. 15.—William Nowak, the 3-year-old son of Mr. and Mrs. John Nowak, is said to have deliberately set fire to the clothing of his baby sister and watched her burn to death. At the inquest it developed that the mother reprimanded the boy for some trifling fault and locked both the children in the kitchen while she went to a grocery. When she returned the baby lay on the floor writhing in pain and burned almost beyond recognition.

**Teddy Almost Well.**  
Groton, Mass., Feb. 15.—The remarkable progress made by President Roosevelt's son in recovery from a severe attack of pneumonia continues. Today the announcement was made that last night was the most satisfactory since his sickness began. Mrs. Roosevelt is planning to take the boy to Washington early next week.

## LOST HIS CASE.

Claimant to English Earldom Refused a New Trial.  
London, Feb. 15.—The lord chief justice, Baron Alverstone, refused today to open the case of Poulett versus Poulett, in which Viscount Hinton, who at one time played the organ in the streets of London, sought to oust his step-brother, the youthful Earl Poulett, from the family estates. The lord chief justice has thus confirmed the previous judgment, whereby it was declared that Viscount Hinton, under a family settlement entered into in 1853, was debarred from claiming the property in dispute.

## THE RANSOM.

Miss Stone Has Not Been Released by the Brigands.  
Washington, Feb. 15.—The state department has received cable advices confirming the report that the ransom money for Miss Stone has been paid to the brigands. It is not known when the release will occur, but it is understood that they shall have a week or ten days to make a sure and safe retreat before the prisoner is delivered up.

**What Did They Do?**  
Washington, Feb. 15.—The industrial commission created several years ago to investigate industrial problems and report with recommendations to congress, expired by limitation law today.

paid monthly. The rates are less than  
those of any other daily paper in the  
territory.

There is said to be about 800 buffalo  
left in the United States.

Delegate Rodey has knocked the  
vitality out of the fraudulent Beale land  
grant.

The Grand Commandery of the  
Knights Templar of Texas meets at El  
Paso in April.

It is estimated that there are 10,000  
American citizens residing in the re-  
public of Mexico.

Gladstone: No man ever became  
great or good except through many  
and great mistakes.

The cotton industry of this country  
is represented by \$460,000,000, invested  
in 969 establishments.

Andrew Carnegie says: "Manual la-  
bor has been found to be the best founda-  
tion for the greatest work of the brain."

The Citizen endorses the remarks of  
Mr. Wheeler, of Kentucky, and hopes  
that he will comb the tuft hunters  
some more.

Ex-Delegate Joseph will not allow  
his hot springs to be turned into oil  
gushers. Several of the springs show  
oil indications.

The Kansas man who predicts that  
the dead will be resurrected in 1915  
does not necessarily have his eye on  
the corpse of the populist party.

Miss Susan B. Anthony complains  
that there are too many children born  
into the world. Susan is not to blame  
for it; if she were she might feel bet-  
ter.

A potent reason for the proposed  
abandonment of the Ohio canal is that  
the state appropriated \$239,999 for  
them last year and derived only \$85,  
000 receipts.

An Indiana man proposes to produce  
rain by sending up 1,000 balloons, each  
with a bomb ready to explode. Would  
it not be better to put the large amount  
of money required into irrigation?

The gang of desperadoes in eastern  
New Mexico will be quickly caught by  
the vigilant sheriffs of Eddy, Chavez  
and Lincoln counties. The day of the  
bad man has gone by in New Mexico.

The color line is said to be a thing  
unrecognized and unknown in the Dan-  
ish West Indies, whose sale to the Uni-  
ted States is being closed. Inter-mar-  
riages between the races are common  
among all classes.

That Detroit captain of industry  
whose speculating caused the failure  
of a savings bank is angry at the news-  
papers, which he sadly explains, "are  
always meddling with other people's  
affairs." What a pity!

Secretary Beveridge says that the  
Anglo-Japanese treaty means a war  
with Russia at no distant period. Count  
Cassini, Russian minister, says the  
"amiable concord" in the far east has  
been shattered by the treaty.

The Times says: "El Paso con-  
gratulates Albuquerque on her good  
fortune in securing a military post.  
The Duke city wanted a post and her  
citizens had the pluck to send the right  
kind of a committee to Washington to  
get it."

The Colorado Springs Telegraph says  
that the river and harbor bill will ap-  
propriate about \$60,000 this year. Of  
course western congressmen will be

expected to vote for it although it is of  
little or no value to them. But when it  
comes to voting for an irrigation mea-  
sure the eastern members will raise a  
great hue and cry about the measure  
and call it sectional.

Adlai Stevenson, who was once vice  
president of the United States, talks  
about democratic party presenting an  
unbroken front. The San Francisco  
Chronicle says that it is not the front  
of the party but its back that needs  
repairing.

General Wood, military governor of  
Cuba, has incurred the president's dis-  
pleasure and will be censured by the  
secretary of war. Governor Wood  
a few days ago wrote a circular letter  
to senators, urging tariff concessions  
to Cuba. This in the opinion of the se-  
cretary of war, is a breach of military  
discipline.

If the average citizen were more  
practical and less theoretical in his  
politics there would be fewer rogues in  
public office. The trouble is that so  
many men are disposed to discount on  
political morality and the necessity of  
reform who fail to get to the ward cau-  
ses, nominating conventions or the  
primary elections. Theory in regard  
to political purity is well enough in its  
way, but if no voting goes with it there  
will be no reform.

**PRESIDENT DIAZ TO RETIRE.**  
According to what are regarded as  
trustworthy advices from the City of  
Mexico, President Diaz intends to re-  
sign his office within six months, and  
that it has already been arranged for  
General Bernardo Reyes, minister of  
war, to succeed him.

Several months ago, when Mexico  
joined in the peace conference, Presi-  
dent Diaz intimated that all danger of  
future trouble for his country being  
ended, he intended to lay down the  
care of office at the earliest possible  
moment and retire to private life, in  
order that his declining years might be  
passed in rest and quiet. This plan he  
appears to be about to put into execu-  
tion.

**NAME IS ALL RIGHT.**  
The El Paso News says that there  
is no good reason why New Mexico  
should change her name if she be-  
came a state. If eastern people do not  
know that New Mexico is in the United  
States, they will learn when she has  
her senators at Washington. The re-  
publican central committee of Lincoln  
county has sent to Washington a  
strong protest against the proposed  
change of name to Montezuma, Roose-  
velt, McKinley or anything else, say-  
ing that they would rather live in the  
territory of New Mexico, whose name  
has become dear to them through its  
historical and other associations than  
a state known by any other name. The  
sentiment against changing the name is  
general throughout New Mexico  
among the Americans as well as the  
Mexicans.

**DESERVE STATEHOOD.**  
The Denver Field and Farm says  
that now it begins to look as if New  
Mexico of the three remaining terri-  
tories may squeeze into the Union and  
to this proposition the west is only  
too glad to give acquiescence. The  
general principle governing admissions  
to the Union has been that when a ter-  
ritory contains a population equal to  
that of a congressional district, giving  
it one representative in congress, it  
has been raised to statehood. There  
have been a few exceptions to this  
rule, as in the case of Nevada, which  
from the beginning has been little  
more than a mining camp, its popula-  
tion decreasing every decade since its  
admission. It never had the requisite  
population even in its best days but it  
has had for nearly forty years as much  
power in the United States senate as  
the state of New York.

New Mexico is no doubt entitled to  
come in both on the score of popula-  
tion and natural resources. Oklahoma  
is the garden of the southwest and  
should be admitted without a quibble.  
Concerning Arizona not quite so much  
is clear but that it possesses enormous  
natural wealth is certain and with the  
development of its resources the popu-  
lation is bound to grow. Irrigation  
will do much for it as it will do for  
Nevada if widely introduced there. Ir-  
rigation has already done much for  
New Mexico and is the key to unlock  
the treasures of the far west.

**Beating All Records.**  
Whenever the American people find  
a thing of merit, absolute genuine mer-  
it, they appreciate it, and never hesi-  
tate to make liberal use of it. It is  
merit that counts for the enormous  
sale of Cascarets—over ten million  
boxes last year. It is the best bowel  
and liver regulator in the world and  
sells at prices that suits everybody—  
10c, 25c and 50c a box, put up in tablet  
form, and every tablet stamped "C. C.  
C." There is no waste. Cascarets are  
easy to take and are sold by the mak-  
ers under an absolute guarantee  
to refund the money if Cascarets do  
not prove satisfactory. A 50c box is  
enough for a whole month's treatment  
for the worst case. We urge every  
sufferer to give Cascarets an imme-  
diate trial.

OFFICIAL MATTERS.

Emily P. B. Boyer, of Taos, Taos  
county, has been granted a pension of  
\$8 per month.

NOTARIES APPOINTED.

Governor Otero today appointed Ju-  
lio Cisneros, of La Jova, Socorro coun-  
ty, and Emil Bibb, of Cubero, Valencia  
county, notaries public.

AGENT DESIGNATED.

The United States Fidelity and Guar-  
anty company, of Baltimore, Mary-  
land, designated Paul Wunschmann,  
of Santa Fe, its New Mexico agent.

TERRITORIAL FUNDS.

Territorial Treasurer J. H. Vaughn  
received from H. O. Bureum, superin-  
tendent of the territorial penitentiary,  
\$50, to be credited to the convicts earn-  
ings.

INCORPORATION.

The Crystal Ice and Cold Storage  
company, of Las Vegas, filed incorpora-  
tion papers. Capital \$15,000, divided  
into 15,000 shares. The incorporators  
and directors of the company are  
Francisco A. Manzanarez, David A.  
Wintemitz, Rudolph Vollmer, John A.  
Schoen, Seymour E. Rogers.

For Stomach Troubles.

"I have taken a great many different  
medicines for stomach trouble and  
constipation," says Mrs. S. Geiger, of  
Dunkerton, Iowa, "but never had as  
good results from any as from Cham-  
berlain's Stomach & Liver Tablets."  
For sale by all druggists.

SANTA FE.

From the New Mexican.

Testimony was taken before the re-  
feree, R. C. Gortner, in the divorce case  
of Lucinda Ellison de Mares vs. Pablo  
Mares, of Pena Blanca. H. L. Ortiz,  
Esq., is attorney for the complainant,  
and solicitor General E. L. Bartlett for  
the defendant.

Considerable complaint is made on  
account of bicyclists riding on the nar-  
row foot path across the Guadalupe  
bridge over the Santa Fe river. Yester-  
day a woman was knocked down by a  
bicyclist and every once in a while  
accidents occur. Bicyclists should lead  
their bicycles across the bridge.

Thomas J. Roberts, George Alexan-  
der and High Brown, of Golden, south-  
ern Santa Fe county, arrived and are  
stopping today in the capital. Mr. Rob-  
erts is a veteran of the civil war as  
well as a Rough Rider.

Foley's Honey and Tar cures the  
cough caused by attack of la grippe. It  
heals the lungs. Sold by Alvarado  
Pharmacy.

ALBUQUERQUE & JEMEZ SPRINGS  
STAGE.

## Notes from Correspondents

## DEMING.

## Special Correspondence.

Deming, N. M., Feb. 13.—The first through train from Bisbee over the new railroad will arrive this evening. The officials will be on the train, with the exception of Manager Choate, who is now here awaiting them. The train will start back to Bisbee tomorrow morning, bearing a crowd of excursionists from Deming and other towns.

Frank Hoffman, here from Chicago, left yesterday with Mr. Grier on a tour of the Diamond A ranches and the Animas valley, to be gone for about a week or ten days.

The Bisbee railroad has opened a freight and ticket office in the building occupied by the Deming Real Estate and Improvement company, and are now ready to do business with all comers. They will also put in a telegraph station there, and will occupy these offices until they can complete their new depot.

The work of installing electric lights in the stores and dwellings of Deming is now going rapidly forward and it looks as if the electric light company meant to keep their promise to have the lights going within three months after the charter was granted them. It also looks as if they were going to be well patronized.

Messrs. I. B. Stone and P. R. Smith, Jr., have entered into a partnership real estate business here, and have the handling of all the property of the Deming Real Estate and Improvement company. They will work under the name of Stone & Smith. There has also been formed here a new abstract company, under title of the Grant and Luna County Abstract, Title Guaranty and Trust company. They will use the Stone Tract-Index and Tablet System of Land Titles, to be under the personal supervision of Mr. I. B. Stone, the patentee.

On Tuesday the election for village trustees was held and passed off quietly, although a large number of votes were cast, and Deming maintained its reputation as a law abiding, civilized town. The trustees elected were: Thos. Carr, A. J. Clark, L. H. Brown, A. Beals and Seamus Field. These gentlemen are all representative citizens and should conduct themselves and the affairs of the town in a way that cannot fail to give satisfaction.

The Deming Real Estate and Improvement company made a transfer of their property on the corner of Pine and Zinc streets this week, to George L. Shakespeare, consideration \$5,000. Real estate in Deming is booming and don't you forget it.

## Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by all druggists.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. Sold by Alvarado Pharmacy.

## SILVER CITY.

## Special Correspondence.

Silver City, N. M., Feb. 13.—The mine operators and residents of the Cooney district in the Mogollon mountains recently sent a petition to Washington asking that that section be taken out of the Gila forest reserve. In their petition they stated that as that section did not contain a great amount of timber, being mostly a mountainous country, and what small amount of timber there was in the district was necessary for fuel and mining timbers. By it being in the reserve a great hardship is imposed upon the operators of mines especially as they are unable to secure timbers to carry on the mining operations to any extent. The department at Washington sent an expert out to look into the matter who reported after an examination that it was his opinion that the said district should be kept in the reserve and the department the other day notified the petitioners to that effect. Considerable complaint is being made by the residents there and it is hoped that they may yet be able to induce the department to grant their wishes in the matter.

Clyde Smith, the efficient office deputy at the court house, has been spending the past week in El Paso in hopes of improving his ailing health. City Marshal A. B. Laird at the last meeting of the city council resigned his position as marshal to take effect the last day of February. Mr. Laird has some extensive mining properties in the Burro mountains which he states will require his entire time in the future. Mr. Laird's successor has not as yet been appointed. Several applicants are after the position and among the prominent candidates mentioned is James Brent.

While the weather in this locality has been almost like summer for a week past an epidemic of pneumonia is going around. Several deaths have occurred from the disease in a very short time. Five deaths have occurred in this city in the past few days.

Miss Lida Taylor is confined to her bed with an attack of pneumonia and while there are some hopes for her recovery it is thought to be rather doubtful.

Silver City is getting ready for a building boom in the near future as numerous contracts are being let for the erection of houses this spring. Houses are in such a demand in this city and have been for several years that they bring a handsome return in rents and a number of investors are

going to put up cottages which will pay well.

William Rivers and wife will leave the last of this week for Los Angeles on a pleasure trip to relatives.

## The Last Heard Of It.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, Ohio. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. J. H. O'Reilly & Co., B. H. Briggs & Co.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. Sold by Alvarado Pharmacy.

## BELEN.

## Special Correspondence.

Belen, N. M., Feb. 14.—On last Friday evening the Senators defeated the Night Owls in both games and on Tuesday evening the Stars won both games from the Crescents. The Stars have now won three out of four games played with the Crescents and the Senators have won three out of four games with the Owls. Following is Friday evening, February 7, score:

	1st	2d
<b>Senators.</b>	game	game
C. A. Dalles	84	205

Miss F. Graves	182	169
Mrs. J. Becker	111	80
Miss Nowlin	91	75
Miss Haack	143	81
Mrs. Lantz	114	71
<b>Total</b>	1,245	1,061

On next Tuesday evening the final games will be played. The team having the highest average for the six games played will be awarded the first prize. The contest is proving very interesting and exciting.

## Clerk's Wise Suggestion.

"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mead, leading pharmacist of Attleboro, Mass. "I could eat hardly anything without suffering several hours. My clerk suggested I try Kodol Dyspepsia Cure, which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodol Dyspepsia Cure heartily." You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodol Stomach Cure digests your food. J. H. O'Reilly & Co., B. H. Briggs & Co.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar. Sold by Alvarado Pharmacy.

## ROYAL BAKING POWDER

Royal Baking Powder is the greatest of time and labor savers to the pastry cook. Besides, it economizes flour, butter and eggs, and, best of all, makes the food more digestible and healthful.

The "Royal Baker and Pastry Cook"—over 800 practical and valuable cooking receipts—free to every patron. Send full address.

There are cheap baking powders, made from alum, but their astringent and caustic qualities add a dangerous element to food.

## SAINT VALENTINE.

Particulars of the Occasions Inter-  
esting to Prof. Hodgkin and Elks.

## OTHER SOCIAL EVENTS.

Saint Valentine was well remem-  
bered at the University, most students re-  
ceiving their shares of posters. There  
were some very sore heads for the  
"shoe pinched," but on the whole there  
was a great deal of fun and merriment.Wednesday there was a gentleman  
photographer representing an eastern  
firm who was obtaining pictures of  
western educational development. At  
assembly time he took the body of stu-  
dents and made several pictures of the  
grounds and buildings. On Thursday  
the basketball girls' team and  
also the senior class. The pictures  
will be on sale by the president next  
week.Mr. Keleher has been chosen by the  
board of control of the athletic associa-  
tion as captain of the base ball team  
and Mr. Hughes as manager. Prof.  
Tight has consented to be the coach.Next Friday the Athenium Literary  
society will give a program open to the  
public at 1 o'clock. There is to be  
some fine literary and musical work,  
followed by a debate on "Should a  
Red Haired Girl Wear Blue?"Prof. Tight consulted the students  
on Thursday and Friday concerning  
some of the affairs of school manage-  
ment and student organizations, giving  
them representation and a voice in the  
University government. Prof. Tight is  
certainly pursuing a policy which  
brings him very much in favor with the  
students and makes them feel a self-  
respectability that is a strong factor  
in the building of a character in col-  
lege which will withstand the tides of  
life that assail after school is over.Last night Prof. Hodgkin and his wife  
entertained the normals and freshmen.  
It was a delightful occasion and one  
which will long be remembered by  
those present. At 6 the guests having  
assembled were ushered to the dining  
room where a sumptuous feast was  
spread and which all voted to be a  
feast fit for the gods.Each person was presented with a  
handsome souvenir of the dinner,  
which they wore the remainder of the  
evening. After dinner the guests were  
shown to the parlor and there were  
entertained with music for a short  
time. There each was presented with  
a card and told to draw a Valentine  
and write a verse of poetry explaining  
it. Some of the Valentines were very  
unique. Mr. Wroth taking the first  
prize for the best, Miss Brewer coming  
next. Some more pleasant games were  
played, one being the shooting at a  
heart shaped target with a bow and  
arrow. Miss Kate Cunningham won the  
prize for coming nearest the tiny heart  
at the center of the target. Then  
came the feature of the evening, being  
a St. Valentine's court. A court room  
was fitted up, and a jury, attorney,  
defense and plaintiff were brought  
forth. President Tight acted as judge  
and we certainly feel he has missed his  
calling. Prof. Hodgkin was plaintiff,  
entering a plea against the normal de-  
partment. After much pariance, call-  
up of witnesses, etc., the jury finally  
decided the case in favor of the de-  
fense. The evening closed after the  
court gave its decision and everyone  
will remember the occasion as one of  
the most pleasant of their lives.The normals presented Prof. Hodgkin  
with a very handsome Valentine, con-  
taining original sketches of his stu-  
dents, with some very appropriate  
poetry composed by one of their num-  
ber which he will always prize very  
highly.

## WITH THE ELKS.

The affair given by the Elks last  
night, at Colombo hall, was up to the  
usual standard of excellence for which  
the order is justly noted, in the matter  
of providing original and high class en-  
tertainment. As announced by their  
invitations a warm time was to be ex-  
pected by those who were fortunate  
enough to attend and judging from  
the satisfied expressions of the many  
who took part, the warm time was by  
no means altogether a matter of antici-  
pation. The invitations issued ad-  
monished the recipients to wear sweat-  
ers and a number who failed to do so  
are wishing they had. Among the num-  
ber who regret their failure in that re-  
spect are brothers Fillmore and "Ko-  
komo," both of whom were alleged to  
have transgressed certain rules of the  
order by committing matrimony. The  
delinquents were tried in the Elks  
court, over which Thomas Hughes pre-  
sided as judge, with T. N. Wikerson  
as prosecuting attorney, while E. L.  
Medler appeared for the defense. In  
the case against Fillmore the attor-  
neys had little to do, as this was the  
defendant's first offense and being any-  
thing but a hardened case he fessed  
up with an able plea by his attorney  
for the cause of justice to be tempered  
with mercy. The judge having a dis-  
tinct recollection of having done the  
same thing personally was easily  
amenable to the able attorney's plea,  
and discharged the prisoner on the  
promise to not do it again. In the case  
of "Kokomo," who proved a more hard-  
ened culprit, a disposition was evinced  
to make the prosecuting attorney  
"show him," the prisoner claiming the  
charge could not be proven, and taking  
the position that there was nothing in  
his appearance or actions to indicate  
that he had been guilty. The case was  
finally given to the jury, after a most  
brilliant contest between the opposing  
counsel and severe examination of the  
witnesses and the accused. In his  
charge to the jury the judge summed  
up the case in a most concise manner  
and requested the jury to be "easy as  
they could" with the verdict as he ad-  
mitted it possible that the charge may  
have been unduly severe, owing to pre-  
judice on his, the judge's, part, dating  
back to a time when he had heard the  
prisoner indicted an audience by his ren-  
dition of "Ben Bolt" in imitation of  
Trilby. Major Myers officiated as sher-  
iff, giving satisfaction generally in his  
"exalting" position. After remaining  
out some time the jury reported they  
were unable to agree. About then  
Professor Di Mauro's orchestra began  
playing, and court, witnesses and jury  
all rushing away to secure partners for  
the dance, leaving "Kokomo" up in the  
air, so that his case will have to comeup again at some future sitting of the  
court. After a few dances supper was  
served and followed by more dancing.  
Not the least entertaining feature of  
the program that has been arranged  
was the opportunity to play at "buck-  
ing the tiger," a full paraphernalia  
having been provided, giving all pres-  
ent an opportunity to learn something  
of the fascination of roulette, faro,  
come seven and other games of chance.  
Keno, or lotto, was the only layout on  
which there was a chance for the play-  
ers to get "to the good," there being  
two premiums, which were won by  
Miss Erna Schenker and Miss Willie  
Branagh, they having the highest  
scores of the evening. The prizes  
awarded consisted of a burnt wood  
picture to the first named and a pair  
of handsome vases to the last.To the committee of arrangements  
much praise should be accorded for the  
unqualified success of the entertain-  
ment. The committee consisted of  
Messrs. Sheridan, Wikerson and Mc-  
Gaffey.Altogether the affair was most en-  
joyable and those who attended now  
have something to live for, in the  
anticipation of future entertainments by  
the B. P. O. E.

## THE RELIEF CORPS.

The ladies of the Albuquerque Wo-  
man's Relief Corps entertained at  
Knights of Pythias hall yesterday af-  
ternoon in honor of Mrs. Breen, presi-  
dent of the E. A. Baxter corps, of Chi-  
cago. After a short business meeting  
a flag drill was enjoyed, the whole  
corps taking part. The afternoon being  
pleasant a good attendance was pres-  
ent, only a few members being absent.  
Delightful refreshments of ice cream  
and cake were served.

## GUARDS' AUXILIARY.

The Ladies Auxiliary to the Albu-  
querque Guards celebrated St. Valen-  
tine's night in a very pleasant manner.  
It being the regular session night of  
the society the ladies decided to make  
it a pleasure as well as a business  
meeting and invited the guardsmen to  
help them enjoy it. The pastimes of  
the evening were cards and dancing,  
and it was quite a late hour before  
the merry makers departed for their  
several homes, wishing that the joy  
"old saint" had two days a year instead  
of one.

## MISS HILL ENTERTAINED.

The Arion Mandolin club very pleas-  
antly entertained last night at the  
home of Miss Maude Hill on South  
Edith street. The early part of the  
evening was spent with music by the  
club, after which came various games,  
the most interesting of which being  
the penny game. Each person was  
furnished with a pretty card board  
design on which quizzes were written.  
The answers for the quizzes were to  
be found on a penny. Arthur Hines  
secured the prize, a pretty valentine,  
for the most correct answers. After  
the game came the most enjoyable  
part of the evening, in the shape of  
refreshments of cocoa, kisses and  
cake. Each member of the popular  
club carried away a pretty Valentine  
as a souvenir of the most enjoyable  
evening.Deming offers the same opportuni-  
ties now that the most prosperous  
cities in the west offered several years  
ago.Orders taken for every known make  
of stoves and ranges. Albuquerque  
Hardware company.

NOT AN OUNCE OF CAST IRON ABOUT THE

**Great Majestic Range**

Except in the Fire Box.

Steel and malleable iron used in the construction of these ranges. We also have a complete line of

**"Art Garland"**

DOUBLE HEATING BASEBURNERS

They have no peer or rival in the base burner world in the point of elegance and high finish.

**Albuquerque Hardware Company,**

120 Gold Avenue.

**Harold Finch Injured.**

Harold Finch, the husky son of Mrs. Mary L. Finch, residing on West Silver avenue, had a fall yesterday afternoon at 3:30 o'clock which he will not soon forget. He was talking to George Myers, son of M. F. Myers, when, boy-like, something was said and George started off on a run with Harold after him. In front of Brockmeier & Cox's store on Gold avenue, George swung around one of the telephone poles and when Harold made a grab for him, the latter fell on the cement sidewalk. He was picked up unconscious and conveyed to his home on West Silver avenue, where he remained in an unconscious state until 9 o'clock last night. He is all right today, except the fact he suffers with a headache. The fall resulted in blackening the right eye, and tearing a bad gash in the forehead.

**MISS IDA McCUNE.**

Teacher of voice and piano. Studio at Library building. Parties desiring to arrange for instructions please call from 2 p. m. to 4:30 p. m., Tuesdays and Thursdays.

Each one in the audience next Thursday night will have a chance to handle some liquid air. Do not hold your finger in it more than five seconds or it may break off.

Call at the new Union market and see the fine display of fresh Kansas City meats. Wm. Goetting & Co., 207 West Gold avenue.

**For Sale**  
47 PIANO boxes. Send orders to Hall & Leonard, music dealers, 204 South Second street.

A tin cup will freeze so hard in liquid air that it will become as fragile as clay and can be crushed in the hand or will break into fragments if dropped on the floor. You can see it next Thursday night.

New Goods Arriving Daily. The new Laces are now here. See them.

## UNIVERSITY OF NEW MEXICO,

Albuquerque, New Mexico.

The University of New Mexico was incorporated by an act of the territorial legislature of 1889 and the location fixed at Albuquerque. The regents secured the necessary amount of land required by the enabling law and began the erection of a suitable building as soon as their funds would permit. In May, 1892, the main building was completed and in June of the same year a normal department was opened and in September the academic department. Since that time the university has shown a continuous and rapid development and at present is in a very prosperous condition. The campus is situated in the most favorable place for a university within the vicinity of the city. There has been some criticism that it was located too far out for the convenience of the students, but it must be remembered that while it may be somewhat distant at present, the time will soon come when the city will build out to and beyond the university and the electric line will furnish a ready means of transportation. From the standpoint of the student and student life the location is

ideal. It is away from the noise and distractions of the city. Plenty of pure air and a most beautiful and inspiring view. The plant now includes an administration hall, which contains the president's office; the library of about 5,000 volumes, the assembly hall and numerous large and well lighted and furnished recitation rooms. The Hadley science hall furnishes accommodations for the department of science. The building is most admirably adapted to the needs of the department, but it is very greatly in need of a proper equipment and it is to be hoped that some friend of education will assist the board in fully supplying this need.

The gymnasium building is not large but it is well equipped with modern apparatus and serves the present needs. One of the pressing needs of the university by way of buildings is a suitable dormitory. Students from the territory outside of Albuquerque, who desire to avail themselves of the opportunity offered here are now compelled to suffer the inconveniences and expense of boarding in the city and parents are unwilling to send their boys and girls here and leave them exposed to the evils and the temptations of city life. There has been a great demand made this last year for a suitable dormitory and because of the lack of it many students have been sent outside of the territory to school, who should be here in the university. It is to be hoped that the next legislature will respond to this need of the university and provide for the speedy erection of a suitable dormitory.

The present board of regents consists of his excellency, Miguel A. Otero, governor of the territory, ex-officio; Hon. J. Francisco Chavez, superintendent of public instruction, ex-officio; Hon. Juan C. Armijo, Hon. Henry L. Waldo and Dr. James H. Wroth. Hon. Frank W. Clancy is president of the board and Dr. James H. Wroth is secretary and treasurer.

The steady progress of the university during the present organization of the board is an evidence of great interest taken in the university by its members. The faculty of instruction during the present school year includes Dr. William G. Tight, president and professor of geology. Dr. Tight is a native of Ohio. He received his early education in the public schools of Granville, Ohio, and graduated from Denison university with the degree of B. S. in 1886. He received the M. S. degree from the same institution in 1887, and was at once employed in the faculty of his Alma Mater, where he served until he accepted the call of the board to take the presidency of the University of New Mexico. His work for the doctorate degree was done partly at Harvard and completed at Chicago.

Miss Josephine S. Parsons, principal of the commercial department and instructor in mathematics, has been so long and so favorably known in the city that special comment upon her peculiar fitness for the work which she is engaged and her unusual success in the discharge of it, is unnecessary. She is the senior member of the faculty, having been connected with the university since 1893.

Prof. James Hay Paxton, professor of Greek and Latin, and in charge of French, is a graduate of the University of Virginia, B. A., 1892, and M. A., 1894. He was at once employed in his Alma Mater as instructor, from which position he came to the university in 1896.

Prof. Charles E. Hodgkin, B. Ed., principal of the normal department, professor of pedagogy and registrar, is a graduate of the Indiana State Normal. He is a teacher of recognized ability, having acted most efficiently as principal of Albuquerque academy and superintendent of our city schools before he was called to take charge of the pedagogical work of the university.

Prof. John Weinzirl, M. S., is the vice-director of the Hadley Climatological laboratory, and professor of chem-

istry. He received his degree from the State University of Wisconsin. Besides being an experienced and enthusiastic teacher, his research work done in connection with the climatological laboratory has attracted national attention.

Prof. Carl E. Magnusson, professor of physics and mathematics, is a native of Minnesota. He received his bachelors and masters degree from the State University of Minnesota, and his degree of doctor of philosophy from the State University of Wisconsin. He is an experienced teacher of recognized ability and the university is fortunate to have such a man at the head of the department of physics and mathematics.

Prof. Atanacio Montoya, instructor of Spanish, is a native of New Mexico and has used the Spanish, as well as the English language from his youth. By special preparation he has fitted himself for a teacher and his excellent services since 1896 in the department of Spanish are deserving of much praise.

Miss Ethel A. Hickey, A. B., professor of English, is a graduate of Kansas university and a teacher of experience. Although this is Miss Hickey's first year in connection with the university, her work has been very favorably commented upon and the work in the department of English has been raised to a high standard.

Miss Ella D. Coltraine, principal of the model school and critic teacher, is well known by her most excellent work done in connection with the city schools.

The work of the university is divided up into several departments. The academic department offers thorough instruction in three courses—classical, scientific and literary. Applicants for admission to the academy must have completed the eighth grade of the public schools. Students completing the full four years' course of the academy will receive a diploma of graduation, which will admit to the college department of this or any other university in the country.

The college department offers as yet but limited courses leading to the bachelors degree, but all the work offered is thorough and fully up to university standards.

The normal department provides thorough professional training for teachers.

The academic work is carried on under the direct instruction of the professors of the university, so that normal students have the advantage of scholastic work with specialists in the various departments, of ample apparatus and equipment, of the large li-

brary, of lectures, of literary societies, and of all the privileges incident to participation in university life.

The commercial department offers thorough instruction in bookkeeping, stenography and business branches.

The commercial course embraces the full academic course with the exception that the commercial branches are substituted for ancient languages, or other subjects, with the advice of the faculty. A diploma is granted to graduates of this department.

The graduate department is not at the present time prepared to offer extended courses leading to the doctorate degree, but special opportunities are presented for research work in certain lines of science. The university issues several publications. The Bulletin of the University of New Mexico contains contributions from the University Geological Survey and the Hadley Climatological Laboratory and offers opportunity for the publication of the results of research work. The Uni-

versity Geological Survey should receive recognition by the legislature and a special appropriation made for this very important work.

The University Catalogue contains a description of the work of the university, courses of study and student roster. The Mirage is the publication of the literary societies and is devoted to university news and literary matter.

Tuition in the university is free to all residents of New Mexico. An annual incidental fee of \$5 is required by law of all students and some special laboratory courses have small breakage fees. The University of New Mexico offers the best of advantages for a thorough college education under the most healthful climatic conditions and at small cost. Visitors are always welcome at the university.

**A Legacy of the Grip**  
Is often a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by all druggists.

**Keep Up a Brisk Attack**  
upon that bad cold, and do not wait for it to "wear itself out." Perry Davis' Painkiller is a powerful ally. Use it internally, with warm sweetened water. Rub it well into the inflamed throat and sore chest, and when the foe has taken flight you will understand why time and spasmodic competition make the difference in the popularity of the one painkiller—Perry Davis'.

**CHURCH SERVICES.**  
Lead Avenue Methodist Church, corner of Lead avenue and Third street, C. A. Bunker, pastor—Preaching at 11 a. m. and 7:30 p. m. Morning subject "Innocent Amusements;" evening subject, "Abraham Lincoln, His Religious Experiences." Special music in the evening. Envoy Malloy, of the Salvation Army, will tell a part of his experience at the close of the service. Sunday school at 9:45, Junior League at 3 p. m., Epworth League at 6:30. All cordially welcomed.

St. John's Episcopal church—7 a. m., holy communion; 10 a. m., Sunday school; 11 a. m., morning prayer and sermon; 7:30 p. m., evening prayer and sermon.

First Congregational church—There will be preaching services morning and evening at 11 and 7:30 o'clock. Sunday school at 9:45 a. m., Junior Endeavor at 2:30, and Y. P. S. C. E. at 6:30 p. m. All are cordially invited to these services. W. J. Marsh, pastor.

Highland Methodist Church, South Arno street, M. Hodgson, pastor—Sunday school at 10 a. m., Epworth League at 6:30 p. m., preaching at 11 a. m. and 7:30 p. m. All cordially welcomed. The pastor cordially invites young gentlemen and ladies to his class in the Sunday school.

Immaculate Conception—Early mass at 7:30, high mass and sermon at 10:30, vespers, sermon and benediction at 7:30 p. m.

**Bilious Colic.**  
H. Seever, a carpenter and builder of Kenton, Tenn., when suffering intensely from an attack of bilious colic, sent to a near by drug store for something to relieve him. The druggist sent him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, three doses of which effected a permanent cure. This is the only remedy that can be depended upon in the most severe cases of colic and cholera morbus. Most druggists know this and recommend it when such a medicine is called for. For sale by all druggists.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Sold by Alvarado Pharmacy.

**Suspended Temporarily.**  
The Sentinel, published at Springer, Coitax county, has suspended temporarily.

**Bucklen's Arnica Salve.**  
The best and most famous compound in the world to conquer aches and kill pains. Cures cuts, heals burns and bruises, subdues inflammation, masters piles. Millions of boxes sold yearly. Works wonders in boils, ulcers, felons, skin eruptions. It cures or no pay. 25c at all druggists.

**Plumbing.**  
We have added a plumbing department and tin shop to our business. When you have anything in this line to be done see us about it before placing your order. Albuquerque Hardware company.

**Keep your eye on Deming.**

## OUTLAWS ABANDON FORT.

Cattle Stealing—"Mesa Hawks"

Pursued by Officers.

POSSES AFTER BANDITS.

A correspondent writing to the Denver News from Tucumcari, N. M., under date of February 12, says:

A flock of carrion crows, gorged and heavy upon reluctant pinions from the "onion of a freshly killed beef steer, and slowly settled again a short distance away on the cactus tree and mesquite grown mesa.

The range rider drew rein, noticed that the brand had been cut out of the beef hide, and muttering, "the mesa hawks are still flying, rode on over the mesa to doubtless find additional evidence of the activity of the 'mesa hawks,' the organizer robbers of the Canadian and Pecos rivers stock ranges of the New Mexican county of Guadalupe.

The mesa robber riders comprise three different brands, with an aggregate membership of twenty-five or thirty, the banded confederacy being under the supreme leadership of Hawk Hawkins, a half breed Indian from the Indian Nation. Probably half of these range thieves are from the Indian Nation, Arizona and Texas, the remainder being former cowboys from the Guadalupe range.

**CHIEF OF MESA HAWKS.**  
Hawkins is a noted broncho buster, a crack shot with revolver and rifle, and an unrivaled lariat thrower. He has lately especially imported from the Indian nation two desperadoes to act as his New Mexican lieutenants. The personality of these new bandit leaders is not yet definitely ascertained, but from description received of them they are supposed to be Jack Jepson and Bill Bowen, both "bad men" of crack repute.

The "Mesa Hawks" take their title from two sources. First, from the fact that their strongholds are always located on a lofty mesa, from whence they silently swoop down on the open surrounding stock ranges; and, secondly, from Hawkins, the name of their captain.

The band has now been in existence for about twelve months, and has established a series of stations or strongholds, extending from Rodondo mesa, in the Canadian river region, to Louisiana mesa, on the Pecos river slope, a distance exceeding 100 miles across country.

Cattle and horses have been stolen wholesale and in many instances stock of both kinds killed on the range out of pure maliciousness.

**ADVENT OF A RAILROAD.**  
The robbers had things a little their own way until the advent of the new Rock Island-El Paso railroad, and the beginning of the building of the new town of Tucumcari. The Tucumcari citizens speedily realized that the "Mesa Hawks" must be routed out, and the first step in this righteous direction has been already well taken. About two months ago the six Spike brothers were accused of cattle stealing, and the Spikes' having a ranch fifteen miles from Tucumcari, at the foot of Rodondo mesa and being affiliated with the "Mesa Hawks."

Warrants were promptly sworn out for the Spikes and served at the Spikes ranch on three of the brothers. The later resisted arrest, and in the fight which followed two of the Spikes were killed and the third was dangerously wounded.

Taking this as the starter the Tucumcari citizens and adjacent ranchmen organized a large posse, headed by U. G. Logan, a peace officer, long a terror to the "bad man" of the south-west, and marched on the bandit stronghold of Rodondo mesa. They captured the stronghold, but the bandits had fled, going to the southwest, and leaving behind them their bedding, camp equipage and a large store of provisions accumulated for the winter use, the latter including the carcasses of six or seven beefs stolen from the surrounding country.

The Rodondo bandit station was strongly fortified with heavy timbers, while a portion of the mesa had been fenced in for the pasturing of both stolen stock and the riding horses of the band. Comfortable cabins had been erected and a fine spring of water close at hand securely walled in.

**READY FOR CAMPAIGN.**  
Everything denoted that the Rodondo was to be the northeastern winter headquarters of the gang, with the ultimate object doubtless of robbing the bank and merchants of Tucumcari and of holding up of Rock Island trains.

Several miles from Rodondo a series of caves was found fitted up by the bandits as a place of concealment or refuge, these being also abandoned.

Logan at once organized a pursuing posse of twenty-five men, accompanied by a four-mule grub wagon. The trail of the bandits was taken and two or three skirmishes speedily followed, the robbers always, however, retreating. The chase is still in progress and will not stop until the "Mesa Hawks" are slain or driven from the country.

The pursuing posse is armed with the United States Winchester carbine, as well as revolvers, and will give a good account of any and all "Mesa Hawks" dying within range. These carbines carry 30.40 balls, both "softnosed" and steel, and will kill at a distance of two miles.

It is expected that the bandits will make a determined and prepared for stand at Louisiana mesa, their great Pecos slope stronghold. The mesa is said to be strongly fortified, well provisioned and to have a veritable arsenal of arms and ammunition.

In the matter of arms the "Hawks" experience convinces.

Prove its value by investing 10 cents in trial size of Elg's Cream Balm. Druggists supply it and we mail it. Full size 50 cents. ELY BROS., 56 Warren St., New York. Clifton, Arizona, Jan. 20, 1899.

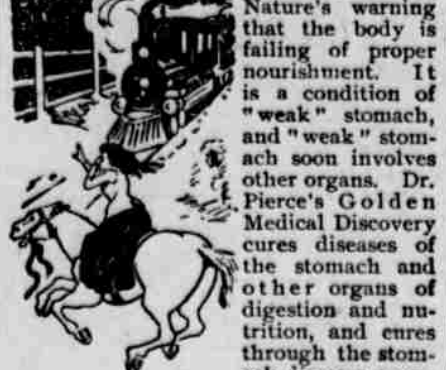

Messrs. Ely Bros.—Please send me a 50 cent bottle of Cream Balm. I find your remedy the quickest and most permanent cure for catarrh and cold in the head. DELL M. POTTER, Gen. Mgr. Ariz. Gold M. Co.

Messrs. Ely Bros.—I have been afflicted with catarrh for twenty years. It made me so weak I thought I had consumption. I got one bottle of Ely's Cream Balm and in three days the discharge stopped. It is the best medicine I have used for catarrh. Proberts, Cal. FRANK E. KIDLESTINE.

## In Danger. Liquid Air Experiments

Dozens of paradoxical feats

ENJOYMENT INSTRUCTION NOVELTY

Every one is in danger who neglects the warnings of declining health. The warnings are not as startling as the sudden shriek of a locomotive, but they are just as ominous. When the body begins to lose in flesh, when the cheek is hollow and the skin sallow it is Nature's warning that the body is failing of proper nourishment. It is a condition of "weak" stomach, and "weak" stomach soon involves other organs. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and cures through the stomach diseases seemingly remote, but which have their origin in the disease of the stomach and its allied organs.

There is no alcohol in the "Discovery" and it is absolutely free from opium, cocaine, and all other narcotics.

"Before I commenced to use your medicine I was in a bad condition (for eight years), and four doctors treated me," writes Mrs. Bettie Askew, of Garysburg, Northampton Co., N. C. "They, of course, gave me at the time some relief, but it did not last long. I was some days in my bed and some days I dragged about the house. I have used five bottles of the 'Golden Medical Discovery' and five of the 'Favorite Prescription' and four vials of the 'Pelllets.' Now I feel like a new woman, and I want the world to know it."

Dr. Pierce's Medical Adviser, 1008 large pages, paper binding, sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or 31 stamps for it in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

are reported to have a number of the long range and deadly United States Winchester infantry rifle.

**Mr. Wheeler Got Rid of His Rheumatism.**  
"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. Wheeler, Northwood, N. Y. For sale by all druggists.

## Railroad Topics

Trains now moving over the Santa Fe carrying citrus fruits exclusively contain as high as forty-five cars.

Roadmaster Oliphant is superintending the removing and laying of tracks in the local yards, especially near the depot and new hotel.

S. F. Everett, an official of the Baltimore & Ohio road, passed through the city in a special car accompanied by his wife and children. He is on his way to California.

Arthur Vaude Bryn, formerly chief clerk for the division foreman, R. G. Gibbons, at Las Vegas, left for Lamy, where he has accepted a position with the Grant engineering corps.

Vice President and Manager W. S. Hopewell and Chief Engineer A. G. Kennedy of the Santa Fe Central Railway company, started out from Santa Fe yesterday on a trip over the proposed railroad.

An Associated Press dispatch from El Paso says that the Pecos Valley & Northeastern railway will be extended from Roswell to El Paso to compete with the recent Rock Island extension to El Paso.

Friends received word that Gustave Barth, formerly an employee at the Santa company's depot at Santa Fe, and now an engineer on the Santa Fe, Prescott & Phoenix railway, is to be married by Easter.

William S. Goldworthy, who served several years as ticket agent for the Santa Fe system in this city, is now general passenger and ticket agent of the Santa Fe, Prescott & Phoenix Railway company at Prescott, Ariz.

The statisticians of the interstate commerce commission figure out that of every \$100 received by the railways, \$39 go to employees, \$27 for supplies, \$23 to interest and rentals, \$3 to taxes, and the residual \$8 to the stockholders.

The Cerrillos Register says: The activity on the Santa Fe Central is making things lively in our town nowadays. A shipment of horses for the grading work arrives every few days and the town is filling up with men waiting for the work to start the first of the month.

Thirty-five cars of celery and seventy cars of oranges passed up the road the other day. They had been shipped by the Southern California Fruit Growers' association to the eastern markets. The truck farmers and horticulturists of California by organizing find no difficulty in disposing of their products.

The switchmen in the Southern Pacific yards at Orange, Texas, put in a demand for a raise of wages recently and the answer the company gave them was to decrease their wages. The switchmen were getting \$2.25 and demanded a raise to \$2.40. The response to the request was an order reducing their wages to \$2. The switchmen refused to go to work and are now on a strike and not a wheel is moving in the S. P. yards at that place.

The Las Vegas Optic says: Charles W. Maier, third vice grand master of the Brotherhood of Locomotive Firemen; Myer Hurley, of the grievance committee of the Brotherhood of Locomotive Engineers; and Thomas Burke, of the grievance committee from the Firemen, arrived from the east and will visit the lodges of Firemen and Engineers at an important meeting which is called at the K. P. hall. The question under discussion seems to be that of wages for running compound engines.

**A Night Alarm.**  
Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Manning, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by Alvarado Pharmacy.

**Do Not Be Afraid**  
to look the facts squarely in the face. That cough, racking and persistent, accompanied by tightness in chest and spitting of sticky mucus, is a sign of consumption. Common sense dictates the use of Allen's Lung Balsam, an honest remedy, since it contains no opium; an efficient remedy, since it heals the irritated, inflamed throat and lungs, and so prevents a deep-seated cold from running into incurable forms of consumption.

**UNDER WHEELS.**  
Peter Syler Killed by Coal Cars Near Starkville Coke Ovens.

Thursday morning at 2 o'clock Peter Syler was accidentally killed at Starkville, near Trinidad. He was a laboring man, formerly employed at the steel works in Pueblo, but recently employed by the C. & M. railroad beyond Weston. He, in company with a friend, started for the coke ovens after dark, hoping to find a warm place to sleep during the night. Halan, a friend of Syler's, reached the coke ovens and passed the night there. Syler stumbled and fell in the darkness close to the tips and lay there beside the track. Thomas Green, a night car dropper at the mine, discovered the man lying at the side of the track, as he dropped a string of cars down the grade at 2 o'clock this morning. He and his best to stop the cars, but was unsuccessful and the truck gearing of the first car caught the man's clothing and threw him under the wheels. When the dropper reached the spot the man was dead. The coroner was summoned and went out to the scene of the accident at 2:30 and returned, bringing the body with him. It is said that Syler was an Englishman, coming from Pittsburgh, Pa., but no definite information regarding him can be secured. No inquest will be held.

**The First Through Train.**  
The first through train on the El Paso & Southwestern arrived at Deming Thursday at 2 p. m. from Bisbee, carrying the officials of the road. This road is constructed by the Phelps-Dodge company and is the first competing branch in southeastern Arizona and western New Mexico of the Southern Pacific. There is great rejoicing

at the completion of this road and a celebration was given here in honor of the event. The first train load of copper arrived. This road is running branches to all the great mining camps upon the line or near by.

**A Thousand Dollars Thrown Away.**  
Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Sold by Alvarado Pharmacy.

**Millions Put To Work.**  
The wonderful activity of the new century is shown by an enormous demand for the world's best workers—Dr. King's New Life Pills. For constipation, sick headache, biliousness, or any trouble of stomach, liver or kidneys they're unrivaled. Only 25c at all druggists.

**DON'T WANT SALOON.**  
Railroad Officials Trying to Rid Themselves of One at Danville.

The establishment of a saloon near the depot of the Eastern Illinois road in Danville, Ill., the principal division headquarters of this road, is causing all kinds of trouble for the managers of this system.

Some time ago a saloon was opened at one end of the station, on the private grounds. Officers of the road did everything in their power to induce the owners of the property to abate the nuisance, but without success.

The officials say that little worse could have happened to injure the interests of the company than the opening of the groggery. It has placed a temptation in the way of the trainmen and other employees of the line, the evil influences of which cannot be overestimated.

In addition to this feature, being in full view of passengers in trains, it gives the impression that it is on railroad property and backed by the company.

"It ought to be a statutory crime for any person to sell liquor to a railroad man," said an officer of the road. "The standard of sobriety of men in our service is as high as that of any road in the country, but still we do not like to have saloons placed right in front of their eyes. It is a temptation that may cause the downfall of the best of men."

**Favorite Nearly Everywhere.**  
Constipation means dullness, depression, headache, generally disordered health. DeWitt's Little Early Risers stimulate the liver, open the bowels and relieve this condition. Safe, speedy and thorough. They never gripe. Favorite pills.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. Sold by Alvarado Pharmacy.

**INSURE CONDUCTORS.**  
New Association Being Organized for Dining Car Employees.

Hazen J. Titus, a dining car conductor running between St. Louis and Chicago on the Chicago & Alton, is organizing an association to be known as the Benevolent Association of Dining Car Conductors of the United States. Representatives of almost all railroads of the country will meet at Chicago next week and elect officers. There are about 800 dining car conductors.

Mr. Titus said: "It is my desire to form a benevolent association insuring cheap insurance. The initiation fee probably will be \$5 and the dues for a year about as much more. In case of sickness \$8 a week will be paid the conductor while he is laid off, and in case of death his family will receive insurance."

"Aside from the benevolent feature the members of the association will be insured a home in almost every large city. When the organization is completed we will have club houses all over the country, where the members can stay when away from home."

"The association I have in mind will not in any way be antagonistic to the railroads, and I think that they will favor our plan."

"At the meeting next week I expect about 100 conductors. Later circulars will be sent to all railroads asking the dining car conductors to join the new organization."

**TEETH AND FOOD.**

**A Help in Time of Need.**

Sometimes bad teeth cause illness, particularly when they are not fit to masticate food. A man in Ada, Ohio, had all of his teeth drawn. He was sick with indigestion and lack of vitality and his teeth were in a bad condition. He expected, with a new complete set of teeth, to regain his health by thoroughly chewing his food, but he had an experience that is well worth knowing of.

"Instead of improving I continued to lose strength," he says, "until I was a mere moving skeleton. I tried a number of prepared foods but none of them helped me until I got Grape-Nuts. The flavor pleased my palate at once. I soaked the food in cream and got along with it nicely. In a few days I noticed that I was not so tired and jaded. Gradually I grew stronger, so I left off all other foods and took only Grape-Nuts."

"My old time vigor came back and in two months I gained 17 pounds. This was remarkable for I am of spare build. Now I sleep and feel wonderfully well."

"Inasmuch as I am doing so nicely without teeth I have concluded to wait until my gums have finished shrinking before having a set made. I don't believe I could have gone through with the drain on my system had it not been for Grape-Nuts. There is no doubt about the life giving and nerve building force of that food. I talk Grape-Nuts to all my friends." Name given by Postum Co., Battle Creek, Mich.

**MRS. MARTHA A. FORSYTH.**

Her Death at Cerrillos Last Monday Morning.

Mrs. Martha A. Forsyth, widow of the late J. Ross Forsyth and for two years a resident of Cerrillos, died of Bright's disease on Monday, February 10, at 11 o'clock, says the Cerrillos Register.

Mr. and Mrs. Forsyth, with their son, Harry, came to Cerrillos about two years ago from Albuquerque, where they had resided about six months. They came to Albuquerque from Toronto, Jefferson county, Ohio, on account of the failing health of Mr. Forsyth, from which place they came here, purchasing the drug store which Mr. Forsyth conducted until his death, August 28, 1901, the business then being carried on by Mrs. Forsyth until her fatal illness. Mrs. Forsyth had been ailing for two or three weeks before her death, but her condition was not considered serious, but on Sunday last she changed suddenly for the worse and the end came on Monday morning.

Her relatives at Toronto, Ohio, were immediately notified, and on the flyer, R. M. Sloan, nephew of the deceased, arrived and left the next night with the remains for the east. Harry Forsyth accompanied him.

Mr. Forsyth was a consistent member of the Methodist Episcopal church, holding his membership at her old home. At the time of her death she was 40 years of age. She leaves one son, Harry Ross Forsyth, 15 years of age.

**Saved Her Child's Life.**

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All druggists guarantee satisfaction, 50c, \$1.00. Trial bottles free.

**Saved Him From Torture.**

There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unending. DeWitt's Witch Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds it is unequalled. J. S. Gerral, St. Paul, Ark., says: "From 1865 I suffered with the protruding, bleeding piles and could find nothing to help me until I used DeWitt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits. J. H. O'Reilly & Co., B. H. Briggs & Co.

**THE ROCK ISLAND.**

It Will Extend From Dawson, N. M. to Trinidad, Colorado.

THROUGH CANYON FIELDS.

A Trinidad, Colo., writer, under date of February 11, says that since the appearance of a recent article regarding the Rock Island, developments have warranted the belief that the proposed point of Rock Island and Rio Grande connection would be Trinidad itself.

The Rock Island-Dawson coal road to be constructed this year will start from the Rock Island-Dawson coal fields in the northern portion of Colfax county, N. M., and, intersecting the Santa Fe, between Maxwell City and Springer, joins the main Rock Island-El Paso line at Tucumcari, N. M., 130 miles southwest.

The building, therefore, of the connecting link sixty miles between the Dawson coal fields and Trinidad would give the traffic United Rock Island and Rio Grande a Denver-Southwest short haul whose commercial importance alike to the roads themselves, Denver and the inter-New Mexican, Arizona and Pacific coast trade, can scarcely be overestimated.

The new Rock Island-El Paso route is to be extended from El Paso to Yuma, the head of the Gulf of California, and the mouth of the Colorado river, and to San Diego, on the Pacific southern California coast, the connection from El Paso to Bisbee, Ariz. (via Deming, N. M.), to be made by the traffic acquisition—or, mayhap, outright purchase—of the Phelps-Dodge copper roads.

This El Paso-Rock Island southwestern extension is to also include the Phelps-Dodge Mexican railroads with an ultimate reaching of a Mexican Pacific port, a Rock Island line of ocean steamers to ply between its Pacific ocean terminal and the Philippines.

Strong coal connections also open to this grant system will be found at Deming, N. M., with both the Santa Fe and the Southern Pacific, while a branch of the system will, it is said, be built from the Nogales vicinity to Phoenix, Ariz.

As additional adjuncts to this new southwestern railroad radius are the early Rock Island junctions at Tucumcari, N. M., with the Choctaw & Gulf and the Texas Central, thus bringing the great Southern cotton belt into new direct and daily touch with the gold and the grain, the coal and the copper, the sugar and the oil, the beef, mutton and wool, the lumber, building stone and brick and potter clays, and the famous health, hunting, fishing and scenic resorts of the great Rocky mountain region and its tributary prairies.

The Rock Island extension of sixty miles from Dawson to Trinidad will pass through a rich region of coal, mineral and agricultural lands, the line of railroad meeting only minor engineering difficulties in railroad survey and construction.

The extension will bring that road to within thirty miles of its extensive coking coal fields at Aguilar and enable the construction of a Trinidad-Aguilar-Rock Island branch for the full development of these great furnace fuel fields.

The few miles of railroad, therefore, to be laid between Dawson, N. M., and Trinidad, Colo., for a traffic unification of the Rock Island and the Rio Grande will give Trinidad new and multiplied traffic scope and importance and create a new southwestern commercial empire, with Denver as the northwestern crown and clearing house.

**TO AVERT WRECK.**

New Device is Given a Successful Test on Milwaukee Road.

DEVICE ILLUMINATES TRACK.

A practical demonstration of the utility of a new departure, which, it is claimed by railway officials, will effectively prove the solution in a large degree of the railway collision problem, was made the other night on the Chicago, Milwaukee & St. Paul road near Chicago.

The device consists of an exceedingly powerful headlight, which not only perfectly illuminates the track with an intensely brilliant shaft of light for a distance of a mile, but also embraces the striking and novel feature of a beam of light of almost equal brilliancy penetrating over 700 feet above, which can be clearly seen ten miles distant. It is thereby possible for approaching trains to absolutely locate each other by this vertical shaft of light, though miles apart, and it is this feature which railway officials claim will eliminate the possibility of collision. This vertical beam will, in hilly country especially, where curves in the track are numerous, so positively fix the location of trains that nothing but carelessness on the part of the engineers will permit a collision.

The apparatus consists of a powerful electric arc headlight, a dynamo and steam motor, all of which occupy the space on the locomotive usually devoted to the headlight. The dynamo which generates the current for this veritable searchlight occupies a space of less than fifteen inches wide directly behind the headlight, and is operated by a motor driven by steam impact on a turbine wheel. The current is 6,000 candle power, which can be reduced to any degree of brilliancy at the will of the engineer.

**PRACTICAL DEMONSTRATION.**

One of the heaviest passenger engines on the Chicago, Milwaukee & St. Paul, experimentally equipped with this headlight, drew a special train a number of miles out of Chicago, and a practical demonstration of the working of the apparatus was given under the supervision of Charles W. Adams. At a distance of half a mile the telegraph poles and framework of semaphore were clearly defined, while the track itself was distinctly visible for one mile. Straight above the locomotive a shaft of light as thick as a man's body penetrated the darkness, and persons posted ten miles away reported that it was clearly distinguishable. This is an entirely new departure in headlight illumination and railway signals. It is further proposed to convey signals of distress or other communication when trouble occurs between telegraph points, by the use of colored glass to color the vertical ray of light.

Among those aboard the special train were H. R. Williams, general manager of the Chicago, Milwaukee & St. Paul; W. J. Underwood, assistant general manager; C. A. Woodward, general superintendent; F. A. Miller, general passenger agent, and J. F. Gibson, division superintendent, and it was their unanimous opinion that the headlight was thoroughly practical and would become one of the future requisites in railroading.

**He Recommends Chamberlain's Cough Remedy.**

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy."—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

## MOTHERS MUST GUIDE

Should Watch the Physical Development of Their Daughters. Earnest Words From Mrs. Pinkham to Mothers.

Every mother possesses information of vital value to her young daughter. That daughter is a precious legacy, and the responsibility for her future is largely in the hands of the mother. The mysterious change that develops the thoughtless girl into the thoughtful woman should find the mother on the watch day and night. As she cares for the physical well-being of her daughter, so will the woman be, and her children also.

When the young girl's thoughts become sluggish, when she experiences headaches, dizziness, faintness, and exhibits an abnormal disposition to sleep, pains in the back and lower limbs, eyes dim, desire for solitude, and a dislike for the society of other girls, when she is a mystery to herself and friends, then the mother should go to her aid promptly. At such a time the greatest aid to nature is Lydia E. Pinkham's Vegetable Compound. It prepares the young system for the coming change, and is the surest reliance in this hour of trial.

The following letters from Mrs. Southard are practical proof of Mrs. Pinkham's efficient advice to young women.

**Mothers Who Allow Their Daughters to Suffer are Cruel When Relief is Easily Obtained. Read This Mother's Experience.**

"DEAR MRS. PINKHAM:—I wish advice in regard to my daughter. She is thirteen years old and never menstruated. We have had the doctor to her and he said she did not have enough blood. She has been taking iron for three months but is no better. In the morning she vomits, some days she cannot keep anything on her stomach until twelve o'clock. If she tries to do anything she gets faint. Has headache all the time, is as white as marble with great dark rings under her eyes. Please write and tell me what to do as I am discouraged with the doctor."—MRS. CHAS. SOUTHARD, Phoenix Mills, N.Y. (Jan. 19, 1900.)

"DEAR MRS. PINKHAM:—Last January I wrote you about my daughter, and told you what our family doctor said about her. I saw another doctor and he said she had quick consumption. After receiving your letter, I began giving her your remedies, and after taking four bottles of Lydia E. Pinkham's Vegetable Compound and four of Blood Purifier, she is now well and strong as ever. Menses have appeared and are regular. I can never praise your remedies enough for they saved my daughter's life."—MRS. CHAS. SOUTHARD, Phoenix Mills, N.Y. (Dec. 16, 1900.)

Any young girl or any mother is cordially invited to write to Mrs. Pinkham at Lynn, Mass., for advice in regard to her sickness. No one has had greater experience or success in guiding mothers and their daughters to health. Thousands have trusted her and are glad. She charges nothing for advice. Write to-day.

**\$5000** REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

## LOCAL PARAGRAPHS.

Miss Elizabeth Hughes is today visiting at Belen with her friend, Miss E. Haack.

George Arnot, manager for Kelly, Gross & Co., went to Las Vegas this morning.

Mrs. B. F. Speer returned this morning from a pleasant visit with friends and relatives at El Paso.

J. B. Fish, who has been to Belen in the interests of the Mutual Automatic Telephone company, returned to the city today.

George A. Kaseman was a passenger last night for Gallup. He will serve papers on certain persons wanted in Santa Fe on court matters.

Miss Espin is now a stenographer at the local office of the Mutual Life Insurance company, resigning her position with Metcalf & Strauss.

Dr. Raymond A. Kuss, surgeon at the local railway hospital, who was at San Francisco on business, has returned to his duties at the hospital here.

Dr. W. D. Radcliffe, the well known physician and surgeon of Belen, was around yesterday afternoon meeting old city friends. He returned to Belen on a freight today.

Prof. and Mrs. Z. A. Hall, of San Antonio, Texas, writes to The Citizen asking if this is a good town for dancing teachers and wants information. Facts will be written to them in a few days.

George Hannum, the young man who became suddenly ill with pneumonia at Mrs. Sweetland's on North Third street about two weeks ago, is reported worse and his sister at Denver has been telegraphed.

The El Paso Herald says that Roy McDonald, the well known base ball player, came down from Albuquerque this morning and is talking with the fans here concerning the scheme to get El Paso in the state league.

L. A. Grant, one of the administrators of the estate of his brother, A. A. Grant, deceased, is in the city, arriving yesterday from Los Angeles, and he will remain here a few days, the guest of his nephew, D. A. MacPherson.

Mrs. Mariana Pache died last night about 8 o'clock at her home on South Fourth street of pneumonia. The deceased was 40 years old and leaves a husband to mourn her death. Burial will be made Sunday at Santa Barbara cemetery.

On Monday, February 17, at 10 o'clock, a high mass will be said at the San Felipe de Neri church in old town for the repose of the soul of Hon. Cristobal Armijo, being a year since his death. All relatives and friends are invited to attend.

J. E. Hurley, general superintendent of the grand western division of the Santa Fe, came up from El Paso this morning in special car 216, and left going north attached to passenger No. 2. Division Superintendent McNally accompanied Mr. Hurley up from El Paso.

The Albuquerque council, Knights of Columbus, recently organized here, will hold its first regular meeting at the Knights of Pythias hall tonight. L. A. Grant, who is a grand knight of the Los Angeles council and who is now in the city on a visit, will address the Albuquerque council meeting tonight.

Prof. C. E. Burg, who was at La Junta, Colo., the past few months, returned to the city this morning, and will remain here in the future. The professor was the manager of the La Junta opera house, and proved himself to be a manager in every sense of the word, resigning amid the regrets of the people of La Junta.

A. Robertson, chief clerk for J. J. Hutchinson, roadmaster at Gallup, arrived in the city last evening. Mr. Robertson had quite a hunting trip while coming in from Gallup, and succeeded in killing two engines which he placed in the back shops for inspection to show that his story was all straight. The mighty hunter is receiving the congratulations of his many friends on his good luck. He was on the road only thirty-five hours.

A. G. King, general manager of the Southwestern Mercantile company, with headquarters at Alamogordo, is in the city and was introduced at the Citizen office this morning by Col. Lum Hall. Mr. King was at Dawson, N. M., and the several new towns recently sprung into existence by the advent of the Rock Island-El Paso railroad, looking over the business of the company, which has out recently located branch stores in those places. Mr. King is spending the day in this city, and is well pleased with Albuquerque from all points, especially her commercial importance. He will continue south to Alamogordo tonight.

**RENOVENE.**

Carpet Cleaning.

On the floor. No taking up heavy carpets, no tearing and rotting by hot steam cleaning, no removing furniture from the room, no dust.

Renovene removes all dirt, grease spots, drives away the moths, restores the original colors and disinfects the room by killing all disease germs.

My men have already renovated a great many of the best homes in Albuquerque.

Satisfaction guaranteed or no pay. Address H. C. COMPTON, the Renovene man, general delivery, city; or telephone Bell No. 47, Automatic, 558.

**City Pound Sale.**

On Tuesday, February 18, at 10 o'clock a. m. at the city pound, I will sell a buckskin horse, about five years old, branded 3 on left hip and an indistinct brand on left foreleg.

THOS. McMILLIN, City Marshal.

**Piano Owners, Attention!**

Mr. Hall is arranging for an extensive tour of the southern towns. Any one having a piano to be tuned will favor us by sending in order as soon as possible, that we may give same the necessary attention without delay and prior to Mr. Hall's departure.

HALL & LEARNARD.

From J. W. Dougherty, general secretary Y. M. C. A., Dubuque, Iowa: we have just had at our May festival two evenings of profitable entertainment—demonstrations of the wonders of liquid air. These were voted by the people of Dubuque, Iowa, to be the most entertaining and educational lectures and demonstrations ever given in this city.
